Dan,

Excellent interview. Thanks for taking the time to visit Oregon, WI. You were highly professional

Missing point: When I mentioned my Counter Claims for Abuse of Process, Fraud and Theft by Deception, and Fraud upon the Court, the Judge bifurcated the case so I could not do discovery as the claims against me were being pursued and deprived me of the opportunity for more research. One of multiple ways in which I was not allowed to pursue my defense.

My Petition and Appeal for Stay (both attached) lay out a lot of the most important legal issues.

I am also attaching the FEMA manual for the event and the photo of "Noah" celebrating his 8th.

Here's a link to the article on my blog where you can find photos of the two "Leonard Pozer"s:

I have more for you. some of which has come in since you departed from Oregon. Let me know what you need.

Thanks.

Jim

Dan,

I shall do that. Here are some additional FEMA records that have been sent to me:

Maps from 2800 Main St. Bridgeport, CT, FEMA CT Headquarters, to SHES

The Sandy Hook Elementary School Drill on the FEMA Exercise Schedule

FEMA post-drill classes to teach key participants how to maintain the story.
