# HILLARY CLINTON CONTROLS 50,000 FBI ENCRYPTION KEYS—PROVES MUELLER'S WITCH HUNT IS TREASONOUS

[Return to return to the beginning of this post.](#)

**With these encryption keys, nothing in our digital lives is off limits to the Clinton's and their conspirators**

**President Trump's new executive order can be sabotaged with these keys; alternatively, he can use the order to prosecute these criminals**

**Many foreign powers have conspired with the SES and their Queen's Privy Council overlords since before 1993**

LEGEND: Some corruptocrat photos in this blog contain a stylized Christian Celtic Wheel Cross in the background alongside the text "Corruption Central" meaning we have put the person's conduct under the microscope and discovered that he or she is at the center of global corruption. Judge Amy Berman Jackson asserts that it is unambiguously (to her anyway) a rifle cross hair. This shows her woeful ignorance of theology, history, symbology and engineering. It could be many things, but she clearly *wanted* to see a rifle sight (ask her about her role in Fast and Furious gun running). Others assert

**Fig. 1—Hillary Clinton has all of our encryption keys, including the FBI's.** "Encryption keys" is a general reference to several encryption functions hijacked by Hillary and her surrogate ENTRUST. They include hash functions (used to indicate whether the contents have been altered in transit), PKI public/private key infrastructure, SSL (secure socket layer), TLS (transport layer security), the [Dual\\_EC\\_DRBG](#) NSA algorithm (Dual Elliptical Curve Deterministic Random Bit Generator) and certificate authorities. The convoluted structure managed by the gutless agency chief information officer "[Federal Common Policy](#)" group says it has "[hundreds](#)" of certificate authorities, but this is a material lie. They have ceded "Root" authority (the basis of the X.509-based public key infrastructure) to key companies like ENTRUST INC, including the ability to sublicense their authority to third parties who in turn manage entire other networks (cross-certificates, subordinate certificates, Bridge certificate authorities) in a [Gordian knot of incestuous commercial relationships clearly designed to fool the public to hide their devilish criminality. equally ignorantly that it is a pagan or white supremacist symbol. This stylized Christian Chi-Rho Cross dates to 312 A.D. when Emperor Constantine adopted the symbol after his history-changing "By this sign, you shall conquer" vision on the Milvian Bridge. A similar Wheel Cross form was widely used in Ireland by the eighth century. The triple entendre indicates that the person's corrupt life, when studied

under a microscope, has been found wanting, but that there is hope in Christ if the person repents from his or her wicked ways. It triples as a reticle or graticule built into all sorts of eyepieces in microscopes, oscilloscopes, surveying instruments, astronomy optics, precision pointers, binoculars, etching equipment, and yes, gun sights, but also computer mouse pointers! Therefore, to claim that it could only mean a gun sight, as Judge Jackson did, is truly ignorant. As shown, it is a call to prayer and repentance based upon microscopic observation of the corruptrat's conduct. For Judge Jackson to use her ignorance of this symbol as the excuse to gag Roger Stone's FREE SPEECH right to defend himself is heinous abuse of authority. Chief Justice John Roberts should censor her immediately. Patriots must demand it.

Risk of public exposure, blackmail, pedophilia, "snuff parties" (ritual child sexual abuse and murder) and Satanism have ensured silence among pay-to-play beneficiaries. ## DECIPHERING HILLARY'S ENCRYPTION KEYS THAT HAVE KEPT HER ONE STEP AHEAD OF THE SHERIFF

**SPECIAL NOTICE:** *This post is a work in progress. You are encouraged to return to pick up additional evidence as it is added.* Indictable evidence continues to pour in for use by prosecutors, alternative media, Treasury, U.S. Marshalls and military tribunals. These criminals have relied on the fact that encryption, cryptography and cryptanalysis is a field of esoteric mathematics for which the average person has little interest. Hopefully, that will now change.

Cryptography—the use of codes and ciphers to protect secrets—began thousands of years ago. Until recent decades, it has been the story of what might be called classic cryptography — that is, of methods of encryption that use pen and paper, or perhaps simple mechanical aids. In the early 20th century, the invention of complex mechanical and electromechanical machines, such as the Enigma rotor machine, provided more sophisticated and efficient means of encryption; and the subsequent introduction of electronics and computing has allowed elaborate schemes of still greater complexity, most of which are entirely unsuited to pen and paper.

In a simple form, simply scrambling the letters in a word is a basic form of cryptography. HELLO might become OLHEL or LEHLO. In more sophisticated approaches, look up tables contain readable words in the first column and a replacement word in the second. The resulting message looks like gibberish until the look up table is used by the recipient. The public key infrastructure and certificate authorities discussed in this post are simply more scrambled forms of encryption.

The earliest example known was from an Egyptian scribe about 1900 BC. Assyrian merchants used a form of encryption called intaglio in 1500 BC. Hebrew scribes wrote a copy of the Book of Jeremiah in a substitution cipher in 605 BC. In 487 BC the Greeks used a "skytale" to encrypt important messages. Julius Caesar (100-44 BC) encrypted government communications. Abu ' Abd al-Rahman al-Khalil ibn Ahmad ibn Amr ibn Tammam al Farahidi al-Zadi al Yahmadi wrote a book on cryptography in 725-790 AD. Thomas Jefferson invented a wheel cipher. [Tellingly, a design in 1976 by IBM based on "the Lucifer cipher" is now used and called "triple-DES" \(the Triple Data Encryption Algorithm\).](#)

When the German [Enigma Machine](#) was cracked in World War II, the Allies could read ALL German communications from that point forward. In the same way, [Hillary's access to the PKI, Dual\\_EC\\_DRBG algorithm and Certificate Authorities gives her access to The Internet of Things' version of the Enigma Machine break](#), which was considered by western Supreme Allied Commander Dwight D. Eisenhower to have been "decisive" to the Allied victory. See [History of Encryption](#).

(SEP. 16, 2018)—Imagine that your identity is stolen suddenly.

Your healthcare, education, police, employment and bank records are all altered overnight to make you look like an embezzler. Imagine you are jolted awake the following morning by the police bashing in your door to arrest you. Imagine that the local TV is already carrying news of your arrest using a drunken party photo of you off your phone.

Imagine further that you are Hillary Clinton. You need for 55,000 Clinton Foundation emails on FBI director James Comey computer to disappear. Poof. They're wiped without a trace.

Imagine still further that you are Lord Mark Malloch-Brown from the Queen's Privy Council. You need to erase the U.S. Department of Treasury's new evidence of foreign meddling embedded in your Smartmatic voting machines. Your bunk buddy George Soros makes a call to Hillary. Poof. This evidence is digitally wiped, without a trace.

This cannot happen in America you say? Think again.

Since these people have full backdoor access to any computer or phone on the Internet, can they ever be caught? Yes, once we realize how they do it. That method has just been discovered.

Truth is, Hillary Clinton literally has access to every computer on the Internet through a company named ENTRUST. Her 19-year Rose Law Firm partner Jerry C. Jones directs the company (now ostensibly run by a Silicon Valley dude named Orlando Bravo and his private equity firm Thoma Bravo, LLC), and has done since Dec. 2003. Entrust issues the encryption keys for most major governments and companies in the world.

WILL HUMANKIND EVER LEARN? Facebook's Orwellian doublespeak about property and privacy (theft) merely repeats the eventual dehumanization of the individual under MAO's Red Star, Stalin's SOVIET Hammer & Cycle and Hitler's NAZI Swastika. Respect for the inalienable rights of each individual is a bedrock value of democracy. The members of the Facebook Cabal abuse this principle at every opportunity. They evidently believe that they deserve special privileges and are willing to lie, cheat and steal in order to treat themselves to these privileges.

## LEADER TECHNOLOGIES Inventor Protection Act

(Proposed)

America needs to practice what it preaches.

We have no business lecturing the world about free enterprise and the rule of law, when we permit the investors in Ohio-based innovator Leader Technologies to go uncompensated for the risks they took to help invent social networking . . .

—a technology upon which the President and U.S. government now rely;

—a technology *stolen* by the "Facebook Cabal" who recruited the federal courts and Patent Office into their club of corruption.

*Rescind. Investigate. Sanction. Certify.*

Contact your representatives. Ask them to pass it.

Real American inventors need your support.

America should not be in the business of cheating its entrepreneurial investors simply because the cheaters buy off judges with the money gained from their theft. Such permissiveness is obscene.

### GIBSON DUNN LLP exposed as one of the most corrupt law firms in America

Investigative Reporter Julia Davis investigates Facebook's *Leader v. Facebook* attorney Gibson Dunn LLP. She credits this firm with the reason why not a single Wall Street banker has gone to jail since 2008. [Click here](#) to read her article "Everybody hates whistleblowers." *Examiner.com*, Apr. 10, 2012. Here's an excerpt:

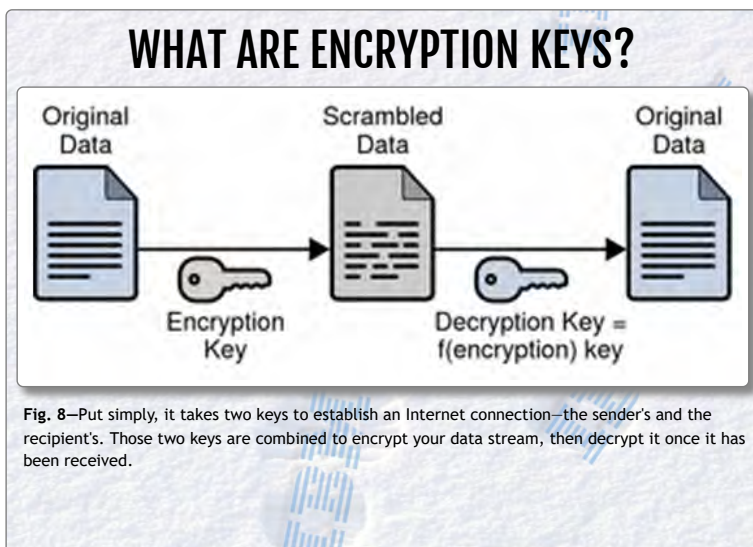

"Skillful manipulation of the firm's extensive media connections allows Gibson Dunn to promote their causes, while simultaneously smearing their opponents and silencing embarrassing news coverage."

This statement followed right after Davis cited Facebook's chief inside counsel in the *Leader v. Facebook* case, Theodore Ulyot, who appears to have helped lead the *Leader v. Facebook* judicial corruption. Interesting word choices associated with Gibson Dunn LLP: manipulation, smear. Attorneys swear a solemn oath to act morally, ethically, and in support of democratic principles. They promise to conduct themselves in a manner than instills confidence among the citizenry in the rule of law and the judicial system. These promises appear to be meaningless. ## WHAT IS AN ENCRYPTION KEY WHY IS THIS DISCOVERY SO DEVASTATING TO THE DEEP STATE SHADOW GOVERNMENT?

Put simply, encryption keys are used on both the sender's and receiver's computers to send data. It takes two keys to make a connection to send or receive data. The Clinton Administration created "trusted Certificate Authorities (CA)" to check with to make sure that the two keys are the real sender and receiver. If your keys are not approved by the CA, your connection will be blocked. In the hands of tyrannical globalists like Hillary Clinton, Barack Obama, George Soros, Eric Schmidt and Robert Mueller, this will be the new censorship on the Internet.

Bookmark: #what-are-encryption-keys | <https://tinyurl.com/ybkforoz>

### POPULAR POSTS

Encryption scrambles the contents of your messages then files and unscrambles them once they reach their intended destinations using digital keys managed by encryption engineers.

For example, the phrase "your cancer treatment program" would be encrypted with a digital key and travel through the Internet as "Qjj!aq6NB5Lf@;kndFq7CN{Q{." So, even if it was intercepted it could not be read. The theory is that this knowledge of your medical condition would remain confidential between you and your doctor. Not so for Hillary, she would see you have cancer and could use that information for blackmail, extortion or murder, whatever worked for her.

Graphic: Oracle.

These CA's make a big deal in their propaganda that you can "trust" them not to use or spoof your identity to get access to data that you and they are not authorized to have. That is a **boldface lie**. No wonder these people have the countenances of criminals. They are, and they know it.

Suppose you are the CA who issues keys to the FBI. Suppose you want to see the evidence being gathered against you in an investigation.

All you have to do is "borrow" the FBI key from Hillary or ENTRUST. Then you can connect to the target FBI computer using a bogus key created for you by ENTRUST, and voile! You then have two "trusted" keys so the FBI computers let you in. There are technical nuances to this description, but basically, you can do what you want with these keys. Don't let trolls try to baffle you with techno-jargon to throw your dogs off the scent. **Lucifer** (literally, IBM Triple-DES) is in these encryption details.

Hillary Clinton has this level of access to practically all data on the planet, including the FBI, NSA, Departments of State, Commerce, Energy, Treasury, GSA, Patent Office, Post Office, NIST, as well as numerous foreign government and commercial entities. See [ENTRUST 10-K Annual Reports \(1998-2009\)](#). [SEC Edgar](#).

Now that we finally know how the Clinton's stay one step ahead of the sheriff, we can now stop them.

## MORE HARD PROOF THAT HILLARY CLINTON IS A DIGITAL MONSTER

In this post, we will prove without a doubt how Hillary Clinton cleverly wormed her way into full access and control for 50,000 FBI encryption keys.

They are likely managing this empire from Obama's Google-constructed U.S. Digital Service bunker three blocks from the White House manned by Valerie Jarrett and Eric Holder.

We admit that these findings sound more like Grisham fiction. But the evidence is a pesky thing. The evidence is now pouring out.

# THE EVIDENCE PROVIDED IS “JUDICIALLY RECOGNIZABLE” AND INDICTABLE, WE BELIEVE

“Notoriously public” information, like the U.S. Securities & Exchange Commission filings that we cite, is evidence that requires no further verification to be used in litigation, hence the adjective “notoriously.” This means that the information is so publicly noteworthy that further proof of validity is unnecessary. For example, John F. Kennedy was assassinated in 1963. That is a notoriously public fact and no proof is needed.

Notoriously public facts, like SEC filings, are “judicially recognizable” and can be accepted as truthful since the submitter attests to the SEC that they are true. It is criminal fraud to lie intentionally in SEC filings.

## TIMELINE: BILL & HILLARY CLINTON BEGAN ORCHESTRATING UNFETTERED ACCESS TO THE FBI’S ENCRYPTION KEYS IN 1993

[On Jun. 07, 1993](#), the new Clinton Administration convened the “Third CPSR Cryptography and Privacy Conference (CPSR - Computer Professionals For Social Responsibility).”

The conference was held two days before an important [Jun. 09, 1993](#) House hearing on “encryption and telecommunications network security.” The conference gathered over 106 attendees representing government, politics, commerce, manufacturing, industry, media, technology, telecommunications, healthcare, banking, education, faith and accounting. That’s plenty of arm-twisting, even for Washington, D.C.

The meeting sponsor was globalist advocate Carnegie Endowment for International Peace.

The hosts included:

### OUR MISSION

American citizens must fight abuse of the constitutional right for authors and inventors to enjoy the fruits of their inventions, as a matter of matter of basic property rights and sound public policy. Otherwise, instead of innovation, creativity, genius, ideas, vision, courage, entrepreneurship, respect, property, rejuvenation, morals, ethics, values, renewal, truth, facts, rights, privacy, solutions and judicial faithfulness,

*... our society and economy will be dragged down (and eventually destroyed) by copying, infringement, thievery, counterfeiting, hacking, greed, misinformation, exploitation, abuse, waste, disrespect, falsity, corruption, bribery, coercion, intimidation, doublespeak, misconduct, lies, deception, attorney "dark arts," destruction, confusion, dishonesty, judicial chicanery and lawlessness.*

If we do not speak up, impeach derelict judges and imprison corrupt attorneys, we cannot possibly hope to start fixing the current ills in our society. Without justice and respect for private property, democracy has no sure foundation.

### CURRENT EDITORIAL FOCUS

We are an opinion blog that advocates for strong intellectual property rights. We welcome commenters and contributors. The *Leader v. Facebook* patent infringement case first came to our attention after learning that the trial judge, Leonard P. Stark, U.S. District Court of Delaware, ignored his jury’s admission that they had no evidence to support their on-sale bar verdict, but the judge supported it anyway.

The judicial misconduct has deteriorated from there, replete with two of the three judges on the Federal Circuit appeal panel, Judges Alan D. Lourie and Kimberly A. Moore, holding Facebook stock that they did not disclose to the litigants, and later tried to excuse through a quick motion slipped in at the last minute by the Clerk of Court, Jan Horbaly, and his close friends at The Federal

Trump was elected president.

Circuit Bar Association. (The DC Bar subsequently revealed that Mr. Horbaly is not licensed to practice law in Washington D.C.)

The judges ignored [shocking new evidence](#) that Mark Zuckerberg withheld 28 hard drives of 2003-2004 evidence from Leader Technologies that could prove actual theft (and therefore claims even more serious than infringement). In addition, Facebook's appeal attorney, Thomas G. Hungar of Gibson Dunn LLP, has close personal ties to just about every judicial player in this story. The misconduct appears to reach into the U.S. Patent Office through abuse of the reexamination process by Facebook. We will stay focused on *Leader v. Facebook* until justice is served, but we also welcome news and analysis of intellectual property abuse in other cases as well.

[On Apr. 17, 1995](#), Clinton signed Executive Order 12958 titled "Classified National Security."

This order consolidated control of classification procedures to *just seven people*: (1) Secretary of State, (2) Secretary of Defense, (3) Attorney General, (4) C.I.A. Director, (5) U.S. Archivist, (6) National Security Director and (7) the President.

A most dubious provision said that *any* U.S. security classification that contradicted another country's laws or treaty rendered it of no effect. In other words, if Obama wanted to release a classified document, all he had to do was call up Justin Trudeau in Canada and ask him to pass a law saying America's XYZ classified information was harmful to beavers on the northern slopes. That would nullify the U.S. classification and give Obama the excuse to release it. Clearly, it was a precursor to Obama's foreign trade entanglements in the Trans-Pacific Partnership (TPP) that President Trump killed, thankfully.

[On Apr. 19, 1995](#), the Alfred P. Murrah Federal Building in downtown Oklahoma City, was bombed by Timothy McVeigh and Terry Nichols—just *two days* after Bill Clinton formed a secret White House intelligence operation via Executive Order 12958 cited above.

This bombing created more excuses for mass surveillance against Americans. Notably, Clinton body guard [Alan G. Whicher](#) was killed in this weapons grade-energy blast that could not have been caused by a fertilizer bomb, as were led to believe by MSM. Retired FBI superstar [Theodore L. Gunderson](#), a short-list candidate to be FBI director, revealed that psychiatrist Dr. Jolly West, one of the founders of the C.I.A. MKUltra mind control program, paid a visit to McVeigh before the trial. Gunderson said he believed that McVeigh was a brainwashed MKUltra drone.

[On Jul. 12, 1995](#), IBM and Lotus merged. Lotus Notes became the Deep State's groupware platform of choice for establishing a global mass surveillance spy grid. PKI (Public Key Infrastructure) encryption standards were selected to build into IBM/Lotus/Microsoft/Novell/Red Hat software, hardware and firmware.

Judge Stark heard his jury foreman admit that the jury made the on-sale bar decision *without any evidence other than speculation*, and yet he supported that verdict anyway. Just months before trial, Judge Stark allowed Facebook to add the on-sale bar claim after the close of all fact discovery and blocked Leader from preparing its defenses to this new claim. Judge Stark allowed the claims despite Leader's prophetic argument that the action would confuse the jury and prejudice Leader. He also permitted the jury to ignore the *Pfaff v. (See that [Jury Instruction No. 4.7 here.](#)) He also contradicted his own instruction to Leader to answer Interrogatory No. 9 in the present tense (2009), then permitted the jury to interpret it as a 2002 admission as well. ## RIGHTS

Between 1995-1999, a series of national security laws, executive orders (EOs) and presidential policy directives (PPDs) were written for Clinton by James P. Chandler, III, his national security and intellectual property advisor.

Magically, the laws that Chandler drafted passed nearly unanimously. (Note: Whenever that occurs, all of Congress has been bought off or fooled *en masse* before the vote. Remember: Clinton had likely already had access to the FBI encryption keys by this time. Therefore, he had amassed plenty of blackmail and extortion information on every influential member of Congress.)

[On Feb. 28, 1996](#), FBI Director Louis Freeh self-consciously deferred to James P. Chandler, III in his testimony on economic espionage, revealing that Chandler controlled FBI security policy for Clinton. Freeh was clearly the puppet and Chandler the puppet master.

### JAMES P. CHANDLER, III HAS DRIVEN THE FBI ENCRYPTION KEY SCAM FOR THE CLINTONS

Mr. Chairman, I have prepared a somewhat lengthy statement. With your permission, I would submit that for the record.

Chairman SPECTER. Your full statement will be made a part of the record without objection. And to the extent you can summarize—you know the practices very well here—leave us the maximum time for dialog.

Director FREEH. OK, I'll try to do it in less than 5 minutes, if that's OK.

Chairman SPECTER. That would be terrific. Thank you. [The prepared statement of Director Freeh follows:]

PREPARED STATEMENT OF LOUIS FREEH  
ECONOMIC ESPIONAGE

Good morning Mr. Chairman and distinguished members of the committees. At the request of the committees, I am pleased to have this opportunity to appear before you to discuss economic espionage, and to provide examples of this serious assault on our nation's intellectual property and advanced technologies.

I am also pleased that the committees have had the opportunity to consult with Professor **James P. Chandler** from George Washington University. I had the pleasure of meeting with Professor Chandler last week. He makes a most compelling argument for legislation to address a problem that he estimates is costing American companies billions of dollars, with over a million jobs lost from stolen intellectual property. His reputation as a national expert on economic espionage is well deserved and I think the committee will find his written testimony most convincing.

[On Oct. 11, 1996](#), Congress passed three Clinton-Chandler laws that were used to further gut Congressional oversight over security and privacy. It enabled the FBI to increase mass surveillance, then lie about it.

The Economic Espionage Act, [18 U.S. Code § 1831](#);

The Federal Trade Secrets Act, [18 U.S.C. § 1836](#); and

The False Statements Accountability Act of 1996, [18 U.S.C. § 1001](#).

Hindsight shows that the names for these laws were a cruel, unlawful, immoral, devilish deceit and had the opposite of the intentions of the rogue C.I.A., Clinton's, Chandler, Mueller, Comey, etc. to fuel economic espionage, theft of trade secrets and lying to Congress, courts, the President and We the People.

[On Feb. 12, 1997](#), Chandler incorporated Eurotech, Ltd. to hire former Soviet scientists and engineers to build embedded encryption spy backdoors inside *all* computer hardware, firmware and software in Italy. The key Eurotech players were/are Microsoft, IBM, Intel, Cisco, Oracle and Wind River, among others. [Mar. 5, 1998—Jul. 11, 1999](#), Clinton and Gen. Wesley Clark prosecuted the Kosovo fraud based on a so-called "Racak genocide massacre" false flag. French journalists have proved that Racak was *completely staged*. However, it did succeed in cajoling Congress to approve U.N. intervention (led by Gen. Wesley K. Clark), and it succeeded in disabling Orthodox Christian resistance to the planned jihadi migration wave now occurring.

[On Aug. 06, 1998](#), Robert S. Mueller, III's law firm Hale & Dorr (now Wilmer Hale) helped file "The Internet of Things" patents for Hewlett-Packard's Richard C. The invention also contains an accounting and taxing capability to manage "certificate authorities" to control Public Key Infrastructure (PKI) encryption, tax the Internet and control "wet-ware" access.

attorney. This begs the question as to why a judge with no knowledge of patent law was assigned to the case. Would anyone ask a dentist to perform brain surgery? The Federal Circuit was specially formed to appoint patent-knowledgeable judges to patent cases. There is no evidence so far in the judicial disclosures that Judge Wallach holds stock in Facebook, although when he was asked on a motion to disclose potential Facebook holdings and other conflicts of interest, he refused along with the other judges. [See Motion to Disclose Conflicts of Interest](#). Judge Wallach continued in silence even after Clerk of Court Horbaly failed to provide him with Dr.

Lakshmi Arunachalam's motions (according to his Federal Circuit staffer Valeri White), and yet the Clerk signed an order regarding that motion on Judge Wallach's behalf. [See a full analysis of these events at Donna Kline Now!](#) Judge Wallach also failed to police his court's violation of Leader's Fifth and 14th Amendment constitutional right to due process when he participated in the fabrication of new arguments and evidence for Facebook in the secrecy of judge's chambers after he had just invalidated Facebook's sole remaining item of evidence (using disbelieved testimony as ostensible evidence of an opposite). Judge Wallach also failed to police his court when he failed to apply the Supreme Court's *Pfaff v. Wells Electronics, Inc.* test for on-sale bar evidence, which included even the Federal Circuit's own *Group One v. Hallmark Cards, Inc.* test—a test which Judge Lourie should have advised Judge Wallach to follow since Judge Lourie *helped write* that opinion. [Group One test omission analysis](#).

**Clerk of Court Jan Horbaly**, U.S. Court of Appeals for the Federal Circuit, clerk who signed all the opinions in *Leader Techs v. Facebook, Inc.*, 678 F.3d 1300 (Fed. Cir. 2012). Clerk Horbaly and his staff obfuscated when the court's ruling was challenged by an *amicus curiae* brief revealing clear mistakes of law and new evidence. [See analysis of the misconduct and misrepresentations within the Federal Circuit Clerk of Court in Leader v. Facebook](#). Mr. Horbaly failed to disclose his conflicts of interest and close associations with numerous Facebook attorneys and law firms, as well as his close association with one of Facebook's largest shareholders, Microsoft, who is a Director of The Federal

On Jul. 16, 2009, ENTRUST, INC. proposed to shareholders to sell to Orlando Bravo and his Thoma Bravo, LLC private equity firm in San Francisco, CA., which occurred on Aug. 07, 2009.

## CONCLUSIONS:

**Conclusion #1:** Robert S. Mueller, III had an affirmative duty to disclose his approval of the contract for ENTRUST to manage the FBI's 50,000 encryption keys in late 2003. The FBI itself has been scandalously compromised to Hillary Clinton and the Rose Law Firm ever since.

**Conclusion #2:** ENTRUST's planetary control of the encryption keys for "over 2000 customers in 60 different countries" means that any matter handled by their customers at the FBI, Department of State, NSA, Treasury, etc. is the fruit of a poisonous tree—tainted by Clinton corruption.

**Conclusion #3:** President Trump has enough evidence here to *seize and prosecute* the leaders of every government agency that has involved that agency, or induced other agencies to work with

Office, Kappos also ordered an unprecedented 3rd reexamination of Leader's patent without even identifying claims)

136. **Jeffrey Wadsworth** (CEO, Battelle Memorial Institute; President, Ohio State University Board of Trustees; former Deputy Director of Science & Technologies, Lawrence Livermore National Laboratory, University of California Board of Trustees)

ENTRUST, without disclosing their *total compromise* to Hillary Clinton and her crime syndicate.

Clearly, Hillary Clinton's director surrogate at ENTRUST, INC., Jerry C. Jones (2003-2009), steered the development of the company's control over encryption keys for the maximum benefit of his Clinton overlords.

At a bare minimum, Mueller and the FBI leadership has had an ethical duty ever since Jerry C. Jones became an ENTRUST director to disclose his direct conflict of interest and compromise of FBI operations by Hillary Clinton, his mentor.

## REMINDER RE. THE MILLER ACT NOTICE

Leader Technologies, Inc. sent their [FIRST AMENDED MILLER ACT NOTICE](#) to President Trump today. It is a contract demand for the U.S. Treasury to pay them for the federal government's 18-year theft of their social networking inventions. These inventions were stolen by Major General James E. Freeze (US Army, ret.) and Leader's patent attorney James P. Chandler, III, on behalf of Andrew W. Marshall and the Department of Defense Office of Net Assessment that steals and weaponizes inventions for *continuous* war making and enrichment of its fascist insider military-industrial corporations.

### FEDERAL BRITISH-AMERICAN PATENT WEAPONIZATION THIEVES

James P. Chandler, III

Andrew W. Marshall

Patriots are encouraged to help get this First Amended Miller Act Notice to President Trump and past the Praetorian Guard. See [American Intelligence Media](#) republication of the Leader Miller Act Notice.

Email comment by JB:

You can't make this stuff up! It turns out Judge Kavanaugh's Mother was the Judge who foreclosed on Christine Blasey Ford's Parents' home! Furthermore, pro-Chinese Sen Diane Feinstein and company apparently had this alleged accusation months ago - why release it at the last minute?

It's interesting to note that the accuser of Judge Kavanaugh, Christine Blasey Ford, is a progressive-leftist professor of Social Work at Palo Alto University & teaches in consortium with Stanford University. (By the way, she thought the Women's March "...didn't go far enough!")

Keep in mind, Stanford is a notorious hot-bed of Frankfurt School neo-Marxist social engineering that has given us the likes of: Sen. Diane Feinstein (D-CA), Rep. Adam Schiff (D-CA), Valerie Jarrett, Larry Page (Google), Reed Hastings (Netflix), Phil Knight (Nike), Rachel Maddow, Xavier Becerra (Attorney General of California), Cheryl D. Mills (Counselor and Chief of Staff to Hillary Clinton during her whole tenure as United States Secretary of State) and even Chelsea Clinton!

But perhaps the most interesting Alumni (given Stanford's reputation as a CIA recruitment center) is R. James Woolsey Jr. currently a Senior Vice President at security firm Booz Allen Hamilton (remember Edward Snowden?).

James Woolsey was CIA director when Aldrich Ames was arrested for treason and spying against the United States. It was Aldrich Ames that recruited the young communist John Brennan; who went on to become the Station Chief in Riyadh Saudi Arabia during 9/11 (even signing the Visa's of the alleged Saudi conspirators) before going on to become the bellicose CIA director under Obama - nicknamed "the Drone King."

It seems James Woolsey and the CIA were: '... criticized for not focusing on Ames sooner, given the obvious increase in Ames' standard of living; and there was a "huge uproar" in Congress when Woolsey decided that no one in the CIA would be dismissed or demoted at the agency. Woolsey declared: "Some have clamored for heads to roll in order that we could say that heads have rolled...Sorry, that's not my way." Woolsey abruptly resigned on Dec 28, 1994.' (Wikipedia)

Also an interesting, and perhaps relevant, Stanford Alum is Jared Cohen:

'CEO of Jigsaw (previously Google Ideas) and an Adjunct Senior Fellow at the Council on Foreign Relations. Previously, he served as a member of the Secretary of State's Policy Planning Staff and as an advisor to Condoleezza Rice and later Hillary Clinton. Initially brought in by Condoleezza Rice as a member of the Policy Planning Staff, he was one of a few staffers that stayed under Hillary Clinton later referenced in an article entitled "Tweeting While Tehran Burns." In this capacity, he focused on counter-terrorism, counter-radicalization, Middle East/South Asia, Internet freedom, and fostering opposition in repressive countries.' (Wikipedia) Hmm? "...fostering opposition in repressive countries." What this really means is regime change à la George Soros "Color Revolutions."

In light of this, the technology policy expert Alec Ross, Senior Advisor for Innovation to Secretary of State Hillary Clinton, sent an e-mail saying: "Jared [Cohen] and I met with Stanford President John Hennessy last week and we will work through Stanford to indirectly launch an innovation competition for the best apps and programs that provide tools for circumvention of politically motivated censorship." My, my, my?

## HOW TO FILE A FRAUD COMPLAINT AGAINST A UNIVERSITY

The following universities were announced as participants in Ohio State Provost Joseph A. Steinmetz's corrupt MOOC education initiative named "University Innovation Alliance" (UIA). We have identified the instructions and online forms you need to file a complaint with the participants. MOOC stands for "Massive Open Online Course."

You should complain about:

- (1) the intellectual property theft of social networking source code from Leader Technologies, Columbus, Ohio that is the software engine running the UIA;
- (2) the corruption at Ohio State University and OSU's collusion with Battelle Memorial

fighting Trump's "Zero Tolerance" policy at the U.S.-Mexico border.

The American Civil Liberties Union (ACLU)—an open borders advocacy organization—letter was written and sent to Department of Homeland Security (DHS) Secretary Kirstjen Nielsen and Attorney General Jeff Sessions in June.

Christine Blasey Ford, a psychology professor, signed the ACLU letter as "Christine Blasey Ph.D. Psychologist," signing off on statements that accused Trump of using southern border enforcement to "traumatize children" and claimed the Zero Tolerance policy was "violating fundamental human rights."

The policy to prosecute all illegal border crossers, enacted by the Trump administration, including illegal alien adults who cross the border with children, results in border-crossing parents having their children taken into federal custody. This is a loophole known as the Flores Settlement Agreement.

Detaining child border crossers was a policy during the Obama administration when Breitbart Texas exclusively reported on the conditions in which unaccompanied minors were being packed into crowded cells and holding facilities. As Breitbart News reported, the federal government has separated adult border crossers from the children they have brought with them into the U.S. as far back as 2001, court records reveal.

Christine Blasey-Ford, the 51-year-old woman who has come out of the woodwork at the last minute, accusing Brett Kavanaugh of sexually assaulting her as a teenager, has a brother who worked for a law firm that later retained Fusion GPS, the primary "fixer" for the Clintons and the DNC.

Ralph Blasey, brother of Christine Blasey-Ford, worked for 15 years as a Litigation Partner for Baker Hostetler, a law firm that ended up retaining Fusion GPS, the infamous D.C. company that produced the unverified Steele dossier on President Donald Trump and Russia, sparking the whole Russian collusion investigation.

Universities pride themselves on protection of intellectual property.

Therefore, these universities cannot participate in this abuse of inventor copyrights, patents and trade secrets by The Ohio State Trustees and Administration. If these universities participate knowingly with Ohio State in its theft of intellectual property, then they are aiding and abetting the theft of intellectual property on a "massive" scale... Stone Can't Think of 'Any Circumstance' in Which He'd Testify Against Trump - Variety Interview With Roger Stone

(VARIETY.com) WASHINGTON — Roger Stone, the political consultant who served as informal adviser to the Trump campaign, said it is “conceivable” that special counsel Robert Mueller will “bring some bogus charge against me,” but he can’t think of any circumstance in which he’d testify against President Donald Trump.

In an interview with Variety’s “PopPolitics” on SiriusXM’s political channel POTUS, Stone said, “it is possible the special counsel could bring an action against me that is designed to make me testify against Donald Trump, who I have known on an intimate basis for almost 40 years.”

He added, “I do not work in the Trump White House. There are some things he has done as president that I do not agree with, and other things that he has done as president that I do agree with. But that said, I can’t think of any circumstance under which I would be willing to testify against him.”

North Korean leader Kim Jong Un said on Tuesday his "historic" summit with U.S. President Donald Trump in Singapore stabilized regional security, and that he expected further progress at an inter-Korean summit aimed at reviving stalled nuclear diplomacy.

Kim thanked South Korea's President Moon Jae-in for bringing about the Singapore meeting in June as the two leaders began their third round of talks in Pyongyang.

"Thanks to that, the political situation in the region has stabilized and I expect more advanced results," Kim told Moon, referring to the Singapore gathering, at the start of their talks.

AP. (Sep. 19, 2018). "I'm disappointed!" Trump slams Jeff Sessions. The Horn News.

The feud between President Donald Trump and his Attorney General Jeff Sessions escalated on Wednesday after the president said, "I don't have an attorney general."

Trump, in an interview with The Hill, said that he's "so sad over Jeff Sessions," whom he has repeatedly denounced for recusing himself from the Russia investigation.

The president broadened his disappointment with Session far beyond his recusal, claiming that Sessions has not performed up to Trump's standards on several issues.

shftplan.com. (Sep. 20, 2018). TAXING AND TRACKING THE INDEPENDENT MEDIA: CENSORSHIP AND CONTROL. Infowars.

Taxing and Tracking the Independent Media: Censorship and Control

One of the most heinous things about taxes is that they support the very “organs” (to quote a Soviet-era term) of government that crush the people...even further.

The taxes are weapons used by the authorities...and all authority comes from the barrel of a gun (to paraphrase Mao). The taxes are used to corral in the masses and keep them upon a continuous treadmill that sustains the system...the very system that exploits and enslaves the citizens.

The most heinous of all is the “death tax” of 50% to the government after you die. If you made a million in money and property at the end of your existence...paying taxes on it all the way...the original income taxes on the money you made, and then the interest income tax on what you made from your investments. You have property taxes on your house. You are (depending on your state) levied taxes on ad valorem, or state income taxes, or community (city, town) taxes. You are taxed on gifts you give to your children. You are taxed when you begin a business.

Anthony Cuthbertson. (Sep. 22, 2018). GOOGLE ADMITS GIVING HUNDREDS OF FIRMS ACCESS TO YOUR GMAIL INBOX. Independent UK.

Hundreds of apps are able to scan and share data from the email inboxes of Gmail accounts, Google has revealed.

In a letter to US lawmakers, which was made public on Thursday, Google explained that third-party developers are able to both access and share data from Gmail accounts - though the company said it thoroughly vets any third parties that are granted access, and permission must be given by the user.

The inbox scanning takes place despite Google ending its own controversial email-scanning practice a year ago.

"Developers may share data with third parties so long as they are transparent with the users about how they are using the data," Susan Molinari, Google's head of US public policy, wrote in the letter, which was first seen by the Wall Street Journal.

More deception. Google insists that the users give permission to use their personal information, and that they are transparent. What they neglect to say is that no one can use Google without giving away all user rights in their personal information in exchange for using the services!

Sam Biddle. (Sep. 26, 2018). THE GOVERNMENT WANTS AIRLINES TO DELAY YOUR FLIGHT SO THEY CAN SCAN YOUR FACE. The Intercept.

OMNIPRESENT FACIAL RECOGNITION has become a golden goose for law enforcement agencies around the world. In the United States, few are as eager as the Department of Homeland Security. American airports are currently being used as laboratories for a new tool that would automatically scan your face – and confirm your identity with U.S. Customs and Border Protection – as you prepare to board a flight, despite the near-unanimous objections from privacy advocates and civil libertarians, who call such scans invasive and pointless.

According to a new report on the Biometric Entry-Exit Program by DHS itself, we can add another objection: Your flight could be late.

Although the new report, published by Homeland Security's Office of the Inspector General, is overwhelmingly supportive in its evaluation of airport-based biometric surveillance – the practice of a computer detecting your face and pairing it with everything else in the system – the agency notes some hurdles from a recent test code-named "Sprint 8." Among them, the report notes with palpable frustration, was that airlines insist on letting their passengers depart on time, rather than subjecting them to a Homeland Security surveillance prototype plagued by technical issues and slowdowns:

John Solomon. Oct. 08, 2018). Former FBI lawyer: Plot to record, remove Trump not a joke. The Hill.

Don't tell former FBI general counsel James Baker that those now-infamous discussions about secretly recording President Donald Trump and using the tapes to remove him from office were a joke.

He apparently doesn't believe it. And he held quite the vantage point — he was on the inside of the bureau's leadership in May 2017, when the discussions occurred.

Baker told Congress last week that his boss — then-Acting FBI Director Andrew McCabe — was dead serious about the idea of surreptitiously recording the 45th president and using the evidence to make the case that Trump should be removed from office, according to my sources.

Baker told lawmakers he wasn't in the meeting that McCabe had with Deputy Attorney General Rod Rosenstein in which the subject came up. But he did have firsthand conversations with McCabe and the FBI lawyer assigned to McCabe, Lisa Page, about the issue.
