

Supplemental Figure 1. Tree topology for *Acacia* used in this study, with branch lengths. For details including labels of tips, see Treebase submission.

Supplemental Figure 2. Regression of PD on taxon richness.

Supplemental Figure 3. Regression of PE on taxon richness.

Supplemental Figure 4. Regression of PE on PD.

Supplemental Table 1. Voucher specimen information and Genbank accession number for each of this 6 loci for all species studied. In bold are newly generated sequences for this study. If no Genbank number is given, that species was missing data for that locus.

Taxa	Specimen #	ETS	ITS	rpl32-trnL	matK	psbA-trnH	trnL and trnL-F
