KRAK

We don't hang our hat on geographic coverage. You would expect KRAK's 50,000 watt, clear channel signal to cover a large area, and it certainly does . . . the rich Sacramento Valley (including Sacramento, Stockton & Modesto), and even the San Francisco Bay Area (including San Francisco & Oakland).

However, the thing that really affects your clients' sales charts is not the number of square miles covered, impressive as that may be. It's the actual listening audience you reach with your message . . . and that's where we shine!

By whatever standards you make your judgments, KRAK will prove a unique one station regional "audience network" buy.

Your HR/Stone Man has the facts and figures. Give him a toot.
