Facilities of Radio

Directory of Radio Stations in the United States and Canada

Key to the listings

Listed in this directory are all AM (amplitude modulation) and FM (frequency modulation) radio stations in the U.S., its territories and Canada. Information received as late as Dec. 1, 1975, has been included in the listings. The following is a sample listing with explanation of information keyed to the boldface numbers.

WOF—(1) Oct 8, 1946; (2) 1000 khz; 1 kw-D, 250 w-N, DA-D. (L-KOSL) (CP: 5 kw-U). (3) Box 100 (99999). (909) 555-1000. TWX 909-999-9999. (4) General Broadcasting Corp. (group owner; acq 7-20-69). (5) Net: ABC/E, Mountain State Network. Audio news: APR. Rep: Jones, Penn State. Format: MOR, C&W. Spec progs: Sp 3 hrs wkly. ■ (6) John Jones, stn mgr; David Smith, chief engr. ■ (7) Rates: \$14; 13.50; 14; 12.50.

WOF-FM—(1) October 1969; (8) 101.1 mhz; 3 kw. Ant 300 ft. Stereo. (9) Dups AM 50%. Format: C&W. ■ (10) WOF-TV affil. ■ (7) Rates: \$8.50; 7; 8.50; 7.

(1) Date station first went on air (regardless of subsequent ownership changes).

(2) Frequency in kilohertz; power and hours of operation. WOF operates with one kilowatt in daytime hours, 250 watts at night, and uses a directional antenna in daytime. Nighttime operation is limited to hours when dominant station KQSL is operating in daylight. WOF holds a construction permit for five kilowatts power day and night.

Operational abbreviations:

CH—critical hours
CP—construction permit
CR—Canadian restricted
D—day
DA-D—directional antenna
daytime only
DA-N—directional antenna
nighttime only

DA-1—directional antenna
day and night
DA-2—directional antenna
with changing patterns, day
and night
DA-3—same as DA-2, with
an additional pattern change
kw—kilowatt

N—night

SH—specified hours of operation

ST—shares time with ...

U—unlimited time
w—watt

(3) Address and zip code, telephone, Teletype Writer Exchange number.

(4) Licensee name and date of acquisition (if not original owner). If the licensee is a group owner—a company with several broadcast properties—it is so identified, as is a group owner of which the licensee is a subsidiary. Details on group owners are listed in section A.

(5) Network, audio news service, rep and programing. The WOF national affiliate is ABC Entertainment Network, regional is Mountain State. The station subscribes to an audio news feed from Associated Press Radio. Sales representatives are also listed—national rep first, then regional. The WOF program format is part middle-of-the-road, part country and western, with three hours weekly of special programing in Spanish.

(6) Personnel.

(7) Advertising rates. The prices the station charges for a 12-times-a-week, one-minute spot are shown for each of four day-parts:

6 a.m.-10 a.m.; 10 a.m.-3 p.m.; 3 p.m.-7 p.m.; 7 p.m.-midnight in that order. If a day-part is inapplicable, a dash (—) replaces the rate.

Co-owned FM. WOF-FM has the same ownership as WOF(AM), and the FM listing contains only information different from the AM. Co-owned AM and FM stations are always listed together, even when they have dissimilar call letters.

(8) Frequency in megahertz, effective radiated power, and antenna height above average terrain. WOF-FM broadcasts in stereo.

(9) Programing. WOF-FM duplicates WOF programs 50% of the time and has a C&W format.

(10) Co-owned TV. WOF-TV has the same licensee as WOF-AM-FM.

Listings for independent FM stations follow the format of AM station entries.

An asterisk (*) indicates noncommercial stations.

Table of FM Assignments

The following table of assignments contains the channels (other than non-commercial educational channels) assigned to the listed communities in the United States, its territories and possessions as of September 1975. Channels designated with "A" are for class A FM stations. All other listed channels are for class B stations in Zones I and I-A and for class C stations in Zone II. (see "FCC Rules," Section A.)

Key to FM Channels

Customary FCC terminology identifies FM frequencies by channel numbers from 201 to 300. Channels and frequency equivalents in megahertz are shown below. Asterisks indicate channels reserved for noncommercial use. The letter "A" designates channels set aside for Class A (local service) FM stations, limited to 3kw power and antenna 300 feet above average terrain for signal of comparable strength).

Radio Billings 1935-1974

Figures for the years 1935 through 1967 are net time sales by stations and networks after all frequency and promotional discounts but before deduction of commissions to agencies and representatives. Figures from 1969 on were computed under a new formula and represent total amounts paid by advertisers for the

use of broadcast facilities. They include commissions paid to advertising agencies and representatives and payments for broadcast time and programs, materials, facilities and services supplied by broadcast stations and networks in connection with the sale of time. Figures are based on FCC data.

Year	National network	% change	Regional network	% change	National non-network	% change	Local	% change	Total	% change

* Prior to 1971, data reflects factory sales by U.S. manufacturers plus those products imported directly by distributors or dealers for resale. All import statistics are based on average value as published by the U. S. Department of Commerce, which is F.O.B. and therefore excludes U.S. import duties, freight charged from the foreign country to the U.S. and insurance.

1971 and years following data reflects products or purchased by U.S. manufacturers plus those products imported directly by distributors or dealers for resale. Import statistics are adjusted to U.S. factory values, including U.S. import duties, freight charged from the foreign country to the U.S. and insurance.

¹Other imports reflect those products imported directly by distributors or dealers for resale.

Broadcast Audiences, Editorializing

Radio and Television Audiences

Radio and television were in more U.S. homes than ever before as 1976 approached.

Television. A total of 69.6 million homes, or 97% of all U.S. homes (excluding Alaska and Hawaii), were TV-equipped as of September 1975, according to the A. C. Nielsen Co.

Color TV. Homes equipped with color TV sets totaled 51.2 million, or 74% of all TV homes, as of September 1975, according to estimates by the A. C. Nielsen Co.

Radio. The Radio Advertising Bureau estimated that 71.4 million U.S. homes, 98.6%, were radio-equipped as of Jan. 1, 1976.

Radio Sets. The number of working-order radio sets in the U.S. totaled 413.1 million in January 1976, according to estimates by the Radio Advertising Bureau. RAB estimated that 299 million of these were home and personal radio sets and 114.1 million were out-of-home receivers.

Viewing and Listening. The extent to which radio and televi-

sion sets were used is indicated in the tables that follow. The television figures were furnished by the Nielsen company and its Nielsen Television Index (NTI). The radio data came from RAB and other sources as noted.

Trend of radio and television ownership

Broadcast Editorializing

A nationwide survey for the *Broadcasting Yearbook* indicates that over 65% of AM, 54% of FM stations and 58% of TV stations are now editorializing at least occasionally. The editorializing survey data was obtained from the *Yearbook* questionnaire sent to all radio and TV stations. The results are shown in the table.

	U.S.			Canada	
	AM	FM	TV	Radio	TV
Total stations responding	2612	1792	463	83	15
Number editorializing	1813	983	270	54	11

* Comparable figures for all services not available this date.
¹ Includes 23 stations with Special Temporary Authorizations which either had not started operation as of this date, had started but had gone dark, or had received authorizations but turned them back with or without operating.
² Includes two licensees which had suspended operation and 37 stations with STAs in same category as footnote 1.
³ Includes 4 licensees which had suspended operation and 34 stations with STAs as in footnote 1 above.
⁴ Includes 7 licensees which had suspended operation and 40 stations with STAs as in footnote 1 above.
⁵ Includes 6 licensees which had suspended operation and 38 stations with STAs as in footnote 1 above.
⁶ Includes 10 licensees which had suspended operation and 38 stations with STAs as in footnote 1 above.

College or University Campus-Limited Radio

College or university campus-limited stations are operated principally by students enrolled in the schools. Their transmission is by carrier current, and reception is usually limited to on-campus listening. (College stations with 10 w or more power are listed in the Directory of AM and FM stations.)

The following directory is based on the membership list of the Intercollegiate Broadcasting System (IBS affiliates are so identified) and other information brought to the attention of the editors. Carrier current stations are not required to register with the FCC, and the directory therefore may not be comprehensive.

Alabama

- WVSU** IBS Stamford Univ., Birmingham 35209.
- WHIL** IBS Spring Hill College, Mobile 36608.

the standard of color excellence: color-correct[®] now identifies byron tapes as well as byron prints

Color-Correct[®] is the trademark registered by Byron Motion Pictures, Inc. in 1945. For nearly three decades, the phrase Color-Correct[®] has been synonymous with quality 16mm film.

Today the identifying trademark, Color-Correct[®] applies not only to Byron motion picture prints, but also includes Byron filmstrips and slides and has been legally extended to include Byron video tapes and transfers. The trademark is registered on the Principal Register of the U.S. Patent Office providing maximum copyright protection for the next twenty years.

That's quite a responsibility—living up to the Color-Correct[®] hallmark of excellence. It's a responsibility we gladly accept. Next time, insist on Color-Correct[®] tape or film.

Tape

Fully equipped post production center
Volume 3/4" cassette duplication
H.S. 200 computerized editing system
2 inch high speed duplication
Permanently installed long lines for
transmitting and receiving
Digisonics tape coding system
To come: CBS Laser Beam Color Film
Transfer Recorder

Film

Complete post production services
7247/5247 Eastman color negative
developing
High production panel printers—16mm
and Super 8
Eastman and Hazeltine color
analyzers
Liquid gate optical printer—
reductions, blow-ups, 1 to 1 printing
35mm slides and filmstrips—including
negative photography
And of course, Tape to Film transfers

We're the people who make overseas television via satellite possible for you. But that's just a fraction of what we're doing. We make your overseas satellite phone calls possible, too. And we're the pioneer of international digital satellite communications as well as other new services. . . . Our subsidiary, COMSAT General Corporation soon will launch COMSTAR satellites for AT&T domestic services and MARISAT satellites for

greatly improved maritime communications. We're planning still more new programs, including a U.S. domestic satellite system in partnership with IBM and Aetna Life and Casualty. . . . All this to further improve communications in your home, your office and around the world. For more information on how satellite services can help you, write or give us a call (202/554-6100). We put you in touch—via satellite.
