Updates 10.10.2020: Requested My Mail In Ballot, And Feeling Fine!

OCTOBER 10, 2020

Although FULCRUM remains impartial as an organization, today I explain why I'll be casting my vote for Donald J. Trump, Season 2 — just can't side with a **CORRUPT** Democratic Party that spent the last 4 years tirelessly and ruthlessly deplatforming, censoring, and threatening those who discussed this:

<https://www.fulcrumnews.com/blog/2019/2/11/pizzagate-is-real-and-john-podesta-needs-to-go-to-prison-for-it>

I won't vote for the literal Soros-funded clown party that spent the last 4 years trying to destroy my life for reporting on the real Podesta Emails. These people tried to destroy those who outed child trafficking at the highest levels of our society, instead of going after those outed. These people haven't made a convincing case for why they should be back in power, and I plan to vote Trump as a result. "Only logical," as Spock would say.

Absolutely despicable. Pizzagate is real, and the cover-up clowns on Reddit and YouTube are the reason I'll be voting Trump next month. Suspected pedovore Podesta and his backer George Soros think they can control the Internet with top-down censorship, lame high production, yet low information Netflix agitprop documentaries, gaslighting sockpuppetry, and money. They don't understand the Internet, nor emergent populism. The public doesn't like the suspected Pedovore, nor his chief backer for the last 14+ years, George Soros.

Have a nice weekend, and thank you for making us a top news podcast around the world. We appreciate it!

Next Week's Trump vs. Biden Presidential Debate Now May Not Happen

OCTOBER 09, 2020

The Donald Trump and Joe Biden campaigns have not yet agreed to next week's debate; the impasse has some already suggesting next week's televised debate will not happen.

Trump has strongly opposed the idea of a “virtual” debate where he and his opponent come together remotely over a video chat service such as Zoom or Skype to spar on the issues. Trump prefers another in-person debate, or perhaps none at all, causing some near the Biden camp to suggest next week’s debate be modified into a “town hall” event for Joe Biden to address voters, absent any kind of response or presence from Trump.

What a year 2020 has been — and it’s not even over.

Be sure to bookmark the [FULCRUM web site](#) on your phone and check for updates throughout the week; we can no longer rely on Facebook and other social platforms to necessarily notify you each time we publish new content... as the election nears, so too does censorship of truthful media outlets like us! Sad, but true.

Also be sure to subscribe free to our podcast [on Apple Podcasts](#) if you have an iPhone or iPad; subscribe free [on Google Podcasts](#) instead if you have an Android phone! The podcast is now a year old and continues to be one of our fastest growing areas as a media company — **with a large following in Australia, Canada, and other countries that are following the US Presidential election closely.**

Julian Assange Unearthed The Deepstate's Handkerchief, Literally - Updates 10.9.2020

OCTOBER 09, 2020

WikiLeaks man **Julian Assange** literally may have outed the deepstate's dirty handkerchief, when the Podesta emails were controversially released just weeks before the last US presidential election, back in 2016.

FULCRUM News podcast — don't forget to rate/review us on [Apple Podcasts](#)

Remember the email where someone is distraught 2016 Clinton campaign chairman John P. has left his “pizza-related” handkerchief behind at a private event? [Think about it.](#)

For outing the weird private world of these political elite deviants, Assange paid, now in a UK solitary confinement situation for the past 2 years, with reportedly degrading mental and physical health — all for the purported “crime” of pressing an informant, Chelsea Manning (then known as Bradley Manning), to send over more documents to WikiLeaks... a request journalists and citizen investigators of all stripes routinely make of their sources.

Without a demand for firsthand material, journalism would be at an even greater loss than it already is as a profession.

President Trump & His Inner Circle Test Positive For COVID-19 - Updates 10.3.2020

OCTOBER 03, 2020

President Donald Trump, his wife Melania, former senior adviser Kellyanne Conway, and 2020 campaign manager Bill Stepien have all tested positive for COVID-19. All the details we have on today's update episode, listen below or over on Apple Podcasts.

Pres. Trump, who initially said he would quarantine, instead was sent to Walter Reed military hospital in Bethesda, MD for more extensive treatment — hospitalized as a patient, in a hospital setting, means more options are available than under quarantine... and, of course, his doctors can keep a closer eye on his health while he is in the hospital.

Here's the article Zerohedge linked to on their homepage today, giving new life to our reporting. Thank you, Zerohedge! <http://fulcrum.news/blog/2019/2/11/pizzagate-is-real-and-john-podesta-needs-to-go-to-prison-for-it>

DEVELOPING: Trump's Twitter Account Goes Dark In Hours After COVID19 Positive Test

Result

OCTOBER 02, 2020

President Trump’s official personal Twitter account has been **dormant for almost 18 hours now since his announcement that he and First Lady Melania Trump had both tested positive for COVID-19**... Trump lately has been very active on his social media, so this absence is already causing some in the truth community to raise some red flags of concern — why can’t Trump tweet, wherever he is quarantined and recovering?

Trump hasn't tweeted at all since his shocking reveal that he and the First Lady, as well as aide Hope Hicks, had tested positive for the coronavirus.

Let us know what you think in the comments section below, or over on our [TikTok](#) or [Facebook](#). Are you concerned for Trump’s health now that he has tested positive for COVID-19?

Updates 10.2.2020: Donald Trump & Melania Test Positive For COVID-19 - Our Take

OCTOBER 02, 2020

Interesting and weird times, to be sure. President Trump and his wife First Lady Melania Trump have both tested positive for novel coronavirus COVID-19. Trump aide Hope Hicks has also tested positive. They have entered quarantine effective immediately, and are taking all medical steps necessary to counter the infection. It has been reported Vice President Pence was also tested, and it came back negative.

President Trump and Melania Trump have announced "positive" COVID-19 test results, and are entering quarantine as a result.

Google Is Still Censoring & Demonetizing Pizzagate Articles, Conservatives, And Pro-Trump Content

OCTOBER 01, 2020

What low energy, groupthink jokes at Google.

They've demonetized all the sites they politically disagree with — we have only earned about \$100 over the past 30 days from their ad network, we may pull their ads altogether and just keep the site ad-free in the final weeks before the election.

FULCRUM News was banned from YouTube two years ago, for no reason other than professional discussion of John Podesta's bizarre — and still unexplained — WikiLeaks emails. Our site is hard to find in Google search results for the topics we report on, yet on competing search engines (Bing, Yahoo!, Duckduckgo) we appear as the first or near first result. Google's intent is clear, and the WikiLeaks emails portray a company that was tied at the hip to the Podesta/Clinton/Soros element in D.C., even loaning their primary corporate jet — the "Google plane" — to Podesta and Hillary at one point, as per the email exchanges.

These people are clowns penalizing those who support the President by moving us further down in search results, demonetizing those who are actual journalists instead of leftist coverup trash at *The Daily Beast* and other similar outlets.

[We got Pizzagate right](#), and Google should stop penalizing us for it. Absolutely outrageous.

The United States Department of Justice, which is reportedly probing Google's search practices, should throw the book at these monopolistic, partisan clowns.

There was an Internet before the anti-American partisan hacks at Google, and there will be an Internet long after Google's star has faded.

Pizzagate Update- NXIUM Member Clare Bronfman Sentenced To Nearly 7 Years Behind Bars; Big TikTok Updates

SEPTEMBER 30, 2020

Such a news packed Wednesday from here at [FULCRUM News](#) that we decided to do a second episode today — evening news update, if you will! In an update for followers of the international sex trafficking scandal known as “[Pizzagate](#),” heiress Clare Bronfman was sentenced to nearly 7 years in prison for her involvement in Democratic politician linked bizarre sex cult NXIUM. (sometimes spelled NXIVM)

Bronfman, a member of the Canadian **Bronfman dynasty** (think a kind of poor man’s Rothschild clan, yet still very rich by any normal person’s standards), was nabbed by US authorities running cover-up intimidation schemes for NXIVM cult chief Keith Raniere, as well as helping to fund his sex cult, which ‘brainwashed’ and physically branded its young female victims with a mark.

Seagram’s soda heiress Clare Bronfman (at center) sentenced to 6 and 3/4 years in prison for her involvement in the NXIVM sex cult based out of New York.
