My god, even if you scratch the surface with someone on pizzagate, its not like you would ever get around to this. All this does is fuck with the people like us that know all about pizzagate and make us realize it even more, while most people are walking around have not realized the paradyme shift we have experienced since we found out about pizzagate. Well people, we need to start thinking about life after pizzagate. If we don't see all offenders go down, including the elites on which we have irrefutable proof, we can no longer validate our government or our justice system. The law applies to everybody, and in my opinion, it applies in a much greater extent to those who uphold the law. Their right to uphold the law must extend from their own righteousness. What we are seeing now is a sick sick twist of humanity, and if they are victorious, humanity will surely lose. The good will cease to reproduce, and those who torture, rape, kill, and eat will be the ones to reproduce, all while culling a slave race, I might add. If we do not see justice for pizzagate, we shall no longer validate your justice system for it would be impossible to validate a system of justice which enables the predation and torture of children. If we do not see what is in Hillary Clinton's 33K emails and Anthony Weiner's 650K emails we shall no longer validate your system of justice because it justifies a system of humans which are "above the law". Hillary, you are not above the law. You will hang.

Yes this is a question of our survival as a species, and a question of breaking free from tyrannical rule by the most malformed and depraved of our kind. When I think of all the poor young men and women who are right now languishing in prison for things like drugs or stealing a car or even just for stealing something from a shop, or basically for all sorts of petty crimes, and then think of what these monstrous creatures get up to and get away with and it's SO unjust my blood boils so hard its a wonder it hasn't all evaporated. I feel like we should break out everyone who is in any prison or jail other than maximum security. How many prisoners were trying to expose this stuff and got lied about and incarcerated as a result? I read the other day about a case in Britain where a woman is still being held in prison without trial, without knowing what evidence there is against her or even what the charges are, just for speaking out about the elite pedophile problem.

What we have is worse than anything I could have imagined, it's worse than all the dystopian futures presented in books and film, because they get us to vote for them, to freely give them our money and our labour, they get us to fight wars for them and to defend them when a victim comes forward with their claims - the people trust them over others they have more in common with, over others who have no reason to lie. In most dystopian novels or films, TPTB steal peoples' souls, their heart, their money, emotions, and acquiescence to laws, but in our nightmare world they steal *reality itself* from us, they steal and manipulate our very will, so that we end up willing what in reality we would abhor.

It is quite possible that not much will come of all these pedo arrests etc, and the global pedo ring will carry on spinning its dark web - hopefully there are too many people who understand now what is happening, but getting people organised when there is so little trust about who is and isn't legitimately on the side of the children makes it really difficult. Maybe watching some of those dystopian movies will help PG investigators come up with some ideas!

I have thought the same way- what if nothing happens. Just arresting pedophiles is not going to make this go away. The whole system has to come down. We are literally trying to take out a "religion" that has been going on for 1000's of years. That's where this all comes from Luciferian/Baphomet shit. if this part of it doesn't come down, it will never stop. I don't know how this is actually going to happen. Until recently most of society has just kinda sat back with the govt and said you don't bother me and I won't bother you. Well at least I was like this. Of course that was until we found out that they eat babies. WTF!?! I never thought it would be this bad or this horrific. My dad was talking about this back in the 1980's and I thought he was crazy. I don't want to lose hope but sometimes it's hard to think this is really going to stop because it's so big. How do we stop this? I don't know. It's true- we've worked our asses off and paid our govt and those taxes have supported this. I would really like to know how much of our hard earned money has gone to support "hotdog and pizza parties" or this orphanage or that one so they can have access to children. How many lives have been lost in wars that Have been fought for nefarious reasons and for what? To have access to refugee children? Are we going to have another war to try and hide this shit? Is there any government in the world that is not involved? They have played the average citizen well- worldwide. I get so pissed off. I cry. I just don't want to loose hope but there is no way that I could ever go back to sticking my head in the sand and excusing the government or people from this.

Really well written. Just wanted to address your last paragraph. I believe that something is happening at an energetic level with all this knowledge that is coming to the surface. Many people are becoming aware (yes, and many still are not). This causes a shift within ourselves and has an impact on the environment around us. We are going through a paradigm shift, geopolitically, and our current leaders are attempting to control and direct that transformation, perhaps even alchemically. However, there are many more of us than there are of them. We have a unique opportunity at this point in history, I can feel it. The one major weakness that I have noticed is that as people 'awaken' they then look for new leaders in new movements, and this is how they are then trapped, rounded up and lead into another field of dreams, all carefully stagemanaged. Be wary of bright young things that appear on the horizon, constantly talking about this new 'movement', who start up new alternative media outlets that are destined for overnight success. The new 'fake' leaders have been planted and are slowly gathering their sheep. Important to discover one's own sovereignty, own it and take responsibility for the life that we create around us.

You think about those in prison. Think about the average girls and boys! How filth and poison in TV is hammered into our minds, as if it was normal! All the worshipped egoism comes at a price.

I always believed, that many people just are that way. But since I learn about PG I learned how everything seems globally infested. My impression is, that all the sick and upside down stuff promoted as being normal and cool in the media (i.e. pop culture), is not the result of normal people making it and accidentally becoming successful and famous, but is heavily pushed with the goal of intentional injection into people's minds - and the forces that do that, are part of the worldwide blackmailing pedo-statnic shadow government.

I think they use pizza as religious symbolism.
Its a perversion or a mocking of the Catholic blessing.
Catholics eat the sacramental wafer to represent the flesh of Christ and drink wine to represent his blood.
They have swaped the wafer for pizza and the wine with the actual blood of raped and murdered children.
Also they don't use a pizza its always a slice.
The slice is triangular so it can be used as illumanti/prymid symbolism.

What they do is terrify, torture, and rape little children... By terrorizing them, two things can be accomplished. The children release adrenaline into their pure blood which is then drunk upon the child's death giving the person a "high." They believe this is opens alternate dimensions, they are looking for the dimension in which they are a god. It's all lies though... they don't always kill the kid though... celebrities, singers, actors, politicians many of whom were tortured as children intentionally to have multiple personality disorder or DID (dissociative identity disorder.) TL;DR: Pizza not only is a triangle, it literally represents a circle "a pure child or mind" being split up into triangles... not to mention cheese can kinda represent skin and sauce blood.

Gunderson and others tried to tell us about this years ago. This is not a some new theory. Monarch programing has been known to the truth community. Those who got redpilled because of pizzagate are catching up to speed. I was redpilled from Sandy Hook and later learned the truth about 9/11. Some knew the day it happened that we did it. Bill Cooper knew it was coming months before. The Matrix has been smashed for many of us for years. Glad the newer ones are aboard. I was new about 4 years ago.

You can see it in some of the weird Instagram accounts and tumbler pages related to this.

Its like a sub culture,a secret religion,maybe an old religion with modern symbolism incorporated into it?

I can see similarities to Crowley's works.

The FBI triangle symbol I think was used for a long time,but in modern times they have replaced it with pizza symbolism.

I also noticed alien symbolism.

Aliens worshipping pizza and such.

They roleplay as aliens or they think they are aliens.

Maybe they think their rituals actually turn them into aliens/extra dimensional entities?

Its still a working theory ,I know it seems wild but that's where the evidence takes me.

Some context here from a dutch lurker. Marina Abramovich came to the Netherlands to perform in our most prestigees theatre(Carré) during a national festival. She did some live performance art resembling parts of her biography. In this piece she plays a bad witch(meant to portray marina mother) who poisoned Marina's youth. Her male counterpart is Willem Dafoe. Marina has a residence in Amsterdam and lived here for some time.

The Dutch royal family not only gave its royal imprint to Royal Dutch Petroleum, they are still rumoured to be, along with the Rothschilds, one of the largest shareholders in Royal Dutch Shell, from the days when Queen Wilhelmina's Anglo-Dutch Petroleum holdings and other investments made her the world's first female billionaire right through to today. Bernhard's guest list at the Bilderberg Group reflected his position in the oilgarchy; alongside him at the Swedish conference were David Rockefeller of the Standard Oil dynasty and his protege Henry Kissinger, Baron Edmond de Rothschild, E.G. Collado, the Vice President of Exxon, Sir Denis Greenhill, director of British Petroleum, and Gerrit A. Wagner, president of Bernhard's own Royal Dutch Shell.

The oilgarchs' interest in the burgeoning pharmaceutical industry converged in companies like I.G. Farben, a drug and chemical cartel formed in Germany in the early 20th century. **Royal Dutch's Prince Bernhard** served on an I.G. Farben subsidiary's board in the 1930s and the cartel's American operation, set up in cooperation with Standard Oil, included on its board Standard Oil president Walter Teagle as well as Paul Warburg of Kuhn, Loeb &

Co., itself headed by Jacob Schiff of the Rothschild broker family. At its height, I.G. Farben was the largest chemical company in the world and the fourth largest industrial concern in the world, right behind Standard Oil of New Jersey.

that was willem defoe playing lucifer, eshewing the tenants of abramovic's "art"

This isn't art, it's ugly satanism in public hidden behind, the pretense of art and a veneer of awkward uncomfortable performance to make it unpalatable to outsiders. These are the same strategies 4chan used since 2005 when the first round of "chemo" to scare off, normalfags, furfags and gayfags was administered.

It was basically just spamming gore, and CP to scare folks off, as dirty words weren't working to well on their own.

I'm now thinking either this cult is using the tactic of hiding in plain site or it's "Chemo" used as a smokescreen to weed out undesirables so the fuckers can chat in peace. Either way this is the epicenter of a secretive society of powerful people with things to hide and shaky morals.

Is there any possibility that the brooch or faces could be Photoshopped? Just putting it out there. It looks pretty damn lame for a Royal's brooch. Once I was convinced the Hannity interview in the Embassy was CGI, I am skeptical of everything that gets put out there.... Edit: damn spell checker. And my post was just being my skeptical self, so pls don't shoot the Msg or call me a shill. Thanks.

Everybody in the know in NI was aware Beatrix' husband Claus was a homosexual. As was the powerful court secretary Frits Salomonson.

Like a good jew the latter tortured little boys in the dungeon under his Keizersgracht , Amsterdam home. There's witness testimony from a survivor.

Prince Claus was often spotted there from the early 80s on. I've commented on the Dutch before heres a copypasta:

The Netherlands was probably the first country to use traditions of pedophilia as blackmail operations against power players. Its early acceptance of homosexuality must have played a role here, since exposure of it hasn't carried the scandal it did and often still does in many countries, since at least WWII.

Also, the Netherlands is indeed a nexus of elites (former world center of financial power, invaded the UK just before its meteoric rise, earliest Western settlers in the US), so the tradition of pedophilia runs strong there. Ex-SS-er Prince Bernhard, founder of Bilderberg, was a scoundrel, a pervert and a fraud - and EVERYBODY knew. Even his wife the queen.

Laurentine's Brinkhorst sister-in-law Mabel Wisse Smith is a Tavistock/CIA agent who infiltrated the highest echelons of Dutch Mafia before traveling to Bosnia to work for Soros, ending up back home marrying the current King's brother - who became comatose after a bizarre skiing accident and has been euthanized last year.

The Dutch judiciary and DoJ have been infiltrated by pedos long ago. Many instances of high level judges and DAs involved in child porn and worse. Myriad Dutroux connections. Also, the general secretary of the Justice Department for more than a decade was a known pedophile and (highly) suspected child molester.

The Netherlands is, again, a nexus of this and many other deep rooted evils in the Western world. And its fake royal family - it was the first Republic of name in the Western world and the US Declaration of Independence can be traced almost literally to the Dutch text two centuries before) - has been at the apex of it all.

If it weren't for the staggering works of art and genius there, it's probably better off nuked.

You people need to understand that the Satanic Elite Cult in the Western world is present in all western countries that are Catholic or Protestant (protestant are nothing but Catholic light version). The West is the Whore of Babylon. You need to get out of it, meaning you need to stop paying taxes, you need to stop shopping, you need to get out of urban areas and go live in rural areas, you need to start producing your food.

There is a reason why all Christian Orthodox countries are demonized by Western press. And that is because Orthodox Christian countries are not infiltrated to the highest levels by pedophiles. You better start thanking Putin that he and his team decided to help Donald J. Trump get elected. Putin and Trump is your last hope. If Donald fucks up, from there to the future WW3 awaits you westerners, and this time you will lose the war. God is not on your side now. You better start acting against your elite satanic demonic scum NOW. This is the only chance you'll get.

What about Abramovitz'a great uncle, Patriarch of the Eastern Church, who is known historically to like young boys and even rumored to have killed one. He's was acquainted with Rasputin. You can't tell me Putin is not involved with Drug Lords.. just saying

Trump is good at what he does because he is also a gangster "connected" person. Truly certain gangsters despise Pedos , so I think it's an insider war, just limited to the child killing [and eating : torture : whatever the hell else they do] revulsion of the normal gangsters - who are truly brutal and truly despise pedos or anyone who hurts children.

I have a difficult time believing the so-called "reptiles" are just limited to the Western Churches.

wow. can these people be any weirder? gathering from Alefantis's responses to Ryan Alexander on the phone, it's just "their culture". "pizza culture", where it is ok to bring children into the sexual culture at way too early an age. because they don't want to be parents. they want party buddies. they want sex buddies. death of the grown up. they have taken a belief in reincarnation and twisted it to say life doesn't matter. abortion doesn't matter, so killing at any age doesn't matter because that soul will be born again. but - that soul - will have SO MANY MANY WOUNDS to overcome. (if you believe in reincarnation of the soul). just saying. we have to fight their "CULTURE" as being so very, very wrong. they have twisted everything to be "OK".
