Monarch Programming is a method of mind control used by numerous organizations for covert purpose program developed by the CIA, and tested on the military and civilians. It is, however, during the 20th century that mind control became a science in the modern sense of the

One of the first methodical studies on trauma-based mind control were conducted by Josef Mengele,

Method

The victim/survivor is called a "slave" by the programmer/handler, who in turn is perceived as "master"
higher tolerance for pain and tend to dissociate more easily than males. Monarch handlers seek the co

The following is a partial list of these forms of torture:

1. Abuse and torture

2. Confinement in boxes, cages, coffins, etc, or burial (often with an opening or air-tube for oxygen)

3. Restraint with ropes, chains, cuffs, etc.

4. Near-drowning

5. Extremes of heat and cold, including submersion in ice water and burning chemicals

6. Skinning (only top layers of the skin are removed in victims intended to survive)

7. Spinning

8. Blinding light

9. Electric shock

10. Forced ingestion of offensive body fluids and matter, such as blood, urine, feces, flesh, etc.

11. Hung in painful positions or upside down

12. Hunger and thirst

13. Sleep deprivation

14 Compression with weights and devices

15. Sensory deprivation

16. Drugs to create illusion, confusion, and amnesia, often given by injection or intravenously

17. Ingestion or intravenous toxic chemicals to create pain or illness, including chemotherapy agents

18. Limbs pulled or dislocated

19. Application of snakes, spiders, maggots, rats, and other animals to induce fear and disgust
