## Reddit Bans "Pizzagate" - "We Don't Want Witchhunts On Our Site"

by [Tyler Durden](#)

As of earlier today, the subreddit, [r/Pizzagate](#), was officially banned by Reddit which posted the following notice to their site:

### This community has been banned

This subreddit was banned due to a violation of our [content policy](#). Specifically, the proliferation of personal and confidential information. We don't want [witchhunts on our site](#).

Banned 21 hours ago.

For those not familiar with the movement, the "Pizzagate" subreddit was started by a group of Trump-supporting internet sleuths who were attempting to use WikiLeaks' leaked Podesta emails to connect the Clintons and John Podesta to the convicted sex offender, Jeffrey Epstein. That said, when the Podesta emails failed to reveal a "smoking gun" linkage, the sleuths instead turned their focus to multiple "pizza" references in Podesta's emails which then led to the speculation that those "pizza" references must be code for something far more sinister.

According to the [Washington Post](#), the "Pizzagate" sleuths are convinced that the "secret headquarters of a child sex-trafficking ring run by Hillary Clinton and members of her inner circle" is located in the basement of a Washington D.C. pizza shop called the Comet Ping Pong Pizzeria. The owner of the pizzeria, James Alefantis, says he has received numerous death threats over the past couple of weeks and has been forced to go to the FBI for protection.

It has also led to some very real harassment of the people caught up in the theory, including the owner of the Comet Ping Pong pizzeria in the District, James Alefantis. Alefantis has received hundreds of death threats over the past couple of weeks, he told the New York Times this week, after Pizzagate enthusiasts decided that his restaurant was the secret headquarters of a child sex-trafficking ring run by Hillary Clinton and members of her inner circle.

None of the wildly accusatory claims are true. Alefantis told the Times that he asked Twitter, Reddit, Facebook, YouTube and the FBI to help him stop the spread

According to the [New York Times](#), Alefantis first heard of Pizzagate after he started receiving threatening messages on Instagram and Facebook. Aside from some friendships with prominent democratic insiders like David Brock and Tony Podesta, Alefantis told the Times he's not sure how this conspiracy theory got linked to his business.

None of it was true. While **Mr. Alefantis has some prominent Democratic friends in Washington and was a supporter of Mrs. Clinton, he has never met her, does not sell or abuse children**, and is not being investigated by law enforcement for any of these claims. He and his 40 employees had unwittingly become real people caught in the middle of a storm of fake news.

**"From this insane, fabricated conspiracy theory, we've come under constant assault,"** said Mr. Alefantis, 42, who was once in a relationship with David Brock, a provocative former right-wing journalist who became an outspoken advocate for Mrs. Clinton.

**Mr. Alefantis suspects those relationships may have helped to make him a target.** "I've done nothing for days but try to clean this up and protect my staff and friends from being terrorized," he said.

Mr. Alefantis mingles with other Washington chefs and his establishment helped him to be named No. 49 in GQ magazine's 50 most powerful people in Washington in 2012. **His customers include some high-powered locals, such as Tony Podesta, the brother of John Podesta, whom Mr. Alefantis knows casually. Mr. Alefantis and Mr. Brock, who is the founder of Media Matters for America**, a website that tracks press coverage critical of the Clintons and works to debunk misinformation in the conservative press, broke up five years ago.

While WaPo says the Pizzagate sleuths have failed to uncover any actual evidence of their accusations, the dismissal of their efforts by the media only seems to be strengthening their resolve.

"Pizzagate" has yet to produce any actual evidence for its extremely weighty and life-ruining accusations, but every debunking of its claims — including the one in the Times — has only convinced its believers that they must be right, and that the circle of pedophiles and sympathizers trying to cover up their findings must be even bigger and more powerful than they imagined.

And the odds of a pizza shop just happening to put a pedo symbol in their corporate logo and these allegations then just happening to arise is next to nothing.

6 of those sites are also in the west and appear to have recently pulled content connected with the search term from their servers.

Theres a lot of muscle pushing out there.

However there are many sources there which no longer appear on Google/Startpage.

To understand what is happening here we must accept the history of human sacrifice which stretches from Ancient Babylon to the Incas to Bohemium Grove today.

Jewish Kabbalistic Occult Ritual Child Murder throughout history - Ekhad - sounds pretty "politically incorrect" but documents the history of one such cult's long history of this practice but demonstrates that the motives for this behaviour differs from cult to cult.

But more, its probably the only example ive seen of a documented historic exposure of one specific "occult" group consistantly exposed for over a thousand years for human sacrifice.

My GF is a family lawyer. Many of those 'missing' children are with one biological parent, who has 'abducted' the child in violation of custody arrangements. So it's not like 1% of US kids are taken into sex slavery- the number is much lower.

It gets weirder.

Not far from the abduction site Lord Clement Freud ( grandson of Sigmund Freud) owned a villa.

After his death inquires revealed that he was a pedophile, and maybe more.

The Podesta brothers were his friends.

Birds of a feather.

All weirdos as the very least, and yet they managed to worm their way into governance.

There's never one cockroach, and there's never one sleaze.

Like cockroaches, they have hidden nests in the nicest places, and are always together.

During the investigation afterwards, Freud invited Mr. and Mrs. McCann over on the pretext of sympathy.

<http://www.thelastamericanvagabond.com/top-news/podesta-brothers-revealed/>

He probably only invited them over to find out what they or the police knew.

Clever freudian sleaze.

The Podesta brothers know far more than they are letting on.

As well as all their impressive DC friends.

At the end of the day, they are only criminals thugs with better analytical skills than your ordinary street thug.

THE PUNISHMENT FOR CHILD MOLESTERS SHOULD BE DEATH BY SAND FLEAS !

0

What the fuck is that you ask ?

Well let me tell you. The first time I went commercial fishing for halibut here in Alaska I learned about sand fleas. Little carnivorous crustaceans that swarm their victims and eat them alive. They can devour a 300 pound halibut, alive, in about 24 hours when they are on a 16/0 circle hook and can't swim away. Sand fleas are parasitic crustaceans that live in the North Pacific. They infect a wide variety of fish and whales by digging into the skin or under the scales, and eating their host. After consuming the slime coating and outer-most layer of epidermis, during which time the halibut will remain alive, the crustaceans will migrate into its host through the eyes or the anus. At this point there is little chance for survival.

I'm glad Tyler took his time posting up an article about this. And how he did it is well advised, IMHO, too- it's a story about Reddit's censorship ban of Pizzagate, leading to a brief explanation of the topic's background (for the last 3 people on the planet who may not have heard about it yet). It's NOT a direct comment on the veracity (or lack thereof) of the claims. And that's good because if you get this wrong you're radioactive after that.

As you well know, I am the world's worst conspiracy theorist. As such, having watched/read/listened to much of the "evidence" of these charges, it's weak at best. You probably couldn't get an investigation started into it, let alone anybody being brought up on any charges.

Would it surprise me that various elites (who fully expected to be in the WH just a few weeks ago) would have engaged in this sort of alleged behavior? No, I wouldn't put anything past them, even this level of weaponized depravity.

But that's not EVIDENCE. That's not PROOF.

I, for one, am glad Tyler has held this story at arms length and hope he continues to do so unless and until there is something more substantial to it.

Podesta's alleged staying at Clement Freud's.

The weight of circumstantial evidence on pizzagate appears to be large - and very easy to prove where Podesta's were at the time of Madeline's disappearance.

And the odds of a pizza shop just happening to put a pedo symbol in their corporate logo and these allegations then just happening to arise is next to nothing.

What would be considered evidence? The actual blackmail photos of the accused with kids, in compromising positions?

It pays to remember some of the accused are lawyers. They understand plausible deniability. They know e-mails can leak (which has happened). As a result, they have discussed the most sensitive material by way of the 'pizza code'.

Podesta brothers -> Marina Abramovich -> occult -> sex magick (see Crowley)

Hillary Clinton's involvement in trying to 'help' Haitian child refugees is seen in a new light.

A certain Bill Clinton DOJ appointment to oversee 'human trafficking' owns a pizza place right next to Comet Ping Pong, and across the street from a Clinton-related Haiti refugee organization. Which AFAIK all are located on top of an old subway station, meaning there 'may' be tunnels that connect all three.

Then you look at what kind of pictures Jimmy Comet (James Alefantis) has posted on his Instagram (before making it

private 2 weeks ago) and what kind of art the Podestas have, and its all there, right in front of your eyes.

Internet sleuths were even able to connect to 'Cheesybay', an Ebay account that sells 'broken' hard drives/ie illegal porn encrypted on hard drives. And helps to explain how ridiculous 'modern art' is able to be sold for ridiculous prices. Short answer: to facilitate money laundering, probably payment for other 'goods' entirely.

Short of actually looking at cp, you are not going to get more evidence than this.

15 "What would be considered evidence? The actual blackmail photos of the accused with kids, in compromising positions?"

It's going to take quite a bit, and even more if you are talking about the elite. We have seen them get away with this when they have been caught red handed repeatedly (boys town etc). There should be victims or indications of victims. Witness testimony of victims and criminal behavior. Employees, parents, neighbors... somebody.

There is no doubt that this entire group are a bunch of psychopaths and pedophiles. They all hang and work together. Bill is a pederast. Bill got a child trafficker off in Haiti. Bill likes to fly around with Epstein. Epstein has been convicted (of only one tiny offense and was guilty of much worse). You know it was bad when Epstein went down at all. The FBI was actually protecting him just like with Hillary. The FBI has flight logs on Bill and never even questioned him. There isn't a whole lot of evidence about Hillary other than her husband's ex-fling saying she was a dyke (that was from what Bill told her). Regardless of proof, it's pretty clear what they all are, that is in addition to mass murder and funding terrorists.

The Podestas are sick fucks. They fit in perfectly. Both of those freaks are obsessed with sadistic art and have been in league with Killary and Bill forever and they hang out with all the wrong people. Those two might be the worst out of all of them. There should be a history on those two. Somebody will come out and say something. If they were in a location where someone was murdered at the time and look just like the perps then the police should be on that. They probably have gotten a hundred calls already and if they weren't politically connected they probably would have already given a statement saying that they know the Podestas' whereabouts at the time and they weren't suspects.

Don't forget about Weiner, that freak is involved somewhere.

The problem is that they will hang the alt-media with this if any of it is wrong and in this case some of it is bound to be. One way or another this definitely scares them though, even if the pizza place was nothing. They have all operated with impunity and now everybody is watching. Pedophiles can barely go 10 minutes without thinking about screwing a kid and they can't control themselves, so any attention is a very bad thing. They will go on a counter attack and threaten to sue everybody for libel or something. Then nobody can talk about pedophiles again, that's exactly how they would like it too.

One issue of interpreting so-called "code" in a plaintext email is that there is no reason to use codewords if you worry about the contents of an email being exposed. You will encrypt it with public/private key encryption and further digitally sign it so no one else can fake it for blackmail purposes. And it will be stored in encrypted form on your computer and any other intermediate server. That's what real terrorists and I'm guessing pedophiles do to make sure any stored emails can never be read by anyone without the secret passphrase that only they know. Photos can be similarly encrypted (its all just 0s and 1s just like ASCII text) I do this with any financial/personal data on my computer so that if the computer is stolen no one, not even an agency like NSA can ever read it. But I'm more worried about common criminals.

Of course there is every chance that evil deeds are ongoing. Here is just one recent example from the BBC:

<http://www.bbc.com/news/uk-31907201>

*The police watchdog is investigating alleged corruption in the Metropolitan Police, including claims it covered up child sex offences because MPs and police officers were involved.*

*The Independent Police Complaints Commission is investigating 14 referrals spanning four decades.*

*It said the claims were of "high-level corruption of the most serious nature".*

*The Met said it had voluntarily referred the allegations, which arose from an investigation launched in 2012.*

*The investigation, known as Operation Fairbank, is looking into historical child sex abuse claims involving politicians and other public figures.*

if your somebody, if your too big to fall, they *cover it up*, then throw a parade when you die.

[Here's an interview](#) between Pierce Morgan and Johnny Rotten, of the Sex Pistols, discussing Jimmy Savile back in Sept last year.

In it Johnny says when he was a young star and knew Jimmy **"We all knew what that cigar muncher was up to..."**

After speaking out in 1978 about Jimmy Savile **fucking children** he says "I found myself banned from BBC Radio for quit some time, for my contentious behavior"

**He says they got away with it for over thirty years, "not only him but the whole bunch of them"!**

He then refers to the fact that he's still alive, unlike Jimmy Savile, **and that some of "that bunch" are still alive, and adds, IT'S JAIL TIME FOR THEM!**

It has been happening for thousands upon thousands of years and that is not because WE are cowards. It is because WE are corrupted by sin and have fallen from God's grace.

I know that you know at least there is a way out from that corrupted state. I understand that this is sick and twisted, bent beyond belief.

But you now know where to place your faith....and it is not in any of the World's systems.

I take joy that you are being enlightened and transformed, even as I write these words. I know that the facts are ugly, all sin is disgustingly ugly, and yet I will celebrate the Truth and allow God Almighty to transform the seeming defeats into a final victory.

I will speak, not so much to specifically validate the Pizzagate evidence, but to assure the thousands of 'good folk' who are exposed to this horror that, yes, it does indeed exist.

There have been MANY people over the years, Cathy O'Brien, for one, the adult victims in the UK these past few years being others, who fervently try to tell their stories only to be disbelieved, shunned, ignored ... or worse.

The Franklin Coverup, Sandusky at Penn State running the 'troubled boys' organization, Johnny Gosch, on and on.

This is long running, systemic stuff.

I spent several years at a place that housed Jesse Timmendequas.

Jesse who?

He's the guy that raped and killed Megan Kanka, the poor girl for whom the series of 'Megan's Laws' were passed throughout the country.

While I was at that institution, I learned of literally thousands of stories of physical and sexual atrocities either committed by, or upon, other inmates in their youth.

It happens regularly by parents or with parental acquiescence. Law enforcement personnel, judiciary, clergy ... no group is inherently above potential reproach.

I do not know how much of these accusations described in the above article and comment thread are true, but I can PERSONALLY vouch with 100% certainty that this type of activity does occur, and probably more frequently than we would wish to recognize.

Dear Jim,

0

Happy Thanksgiving. I have not commented as of late, but as

0 I enjoy your posts I would like to comment and say we might all need to expand our definitions.

While child abuse of all forms is one of the real contentions I have with the Creator, for it is the nature of the creation to indicate the breadth of the behavior it will tolerate, we all confine our condemnation to the actions for and against one small species: humans.

Every representation of life is a species, containing a soul and on a journey to personify the love the Creator represents. Consequently, how we value all life forms is an indication of where we are on our journey.

When we kill without thought, whether it be an insect, a tree, a squirrel in the road, we are an affront to the very foundation of the creation and therefore the Creator itself. Living in a physical world has consequences- we must consume others to survive. However, the method by which we do so, the thankfulness we demonstrate and the respect for the sacrifice reflects our love of the Creator.

The crimes of humanity are great, but the opportunity to learn to love this creation and by extension the Creator, are equally as great.

For some reason unknown to me, this creation is. There is a reason for all of it. All I can figure out to do is to love and respect all of it. Human arrogance is the driver behind the worst actions I can think of. Still, in the midst of this sea of evil remains the spark of the Creator, a light to all of us proclaiming love. We are the sparks, the stars in the sky, we are the proclaimers of the Creator's love. For we know the Creator dwells within us all.

May the Creator bless you and keep you all.

Re-dumping some old stuff here, because I can (thanks Zerohedge)

Some disgusting satanism:

I think it's clear that Obama spent \$65k of taxpayers' money on an orgy. These people are speaking in code. Hot dogs = underage boys, pizza = underage girls. The exact translation isn't obvious from one email, but there are a lot of other suspicious emails about pizza, hot dogs and other junk food. i.e. "Do you think I'll do better playing dominos on cheese than on pasta?"

<https://truthearth.org/2016/11/07/pedophile-code-words-found-in-podesta-e-mails-warning-very-disturbing/>

There is no way the elite would be so into junk food, no way they would pay so much for it (even with taxpayers' money), no way they would have it shipped from Chicago. If they were paying that much taxpayer money to ship in the freshest Beluga caviar this would be plausible on the face of it. Still outrageous, but plausible. Pizza is pleb food. It is made everywhere. Even Chicago pizza can surely be found in DC. Locally made pizza would be much better than pizza that spent hours on a plane. There is no way they will order thousands of boxes of actual pizza. They wouldn't say "assume we are using the same channels". They wouldn't care about being served by the same "waitresses", in quotes. Obvious code.

This is just the tip of the iceberg. I am hearing rumors about a worldwide network of 70,000 pedophiles running things. They rule through human compromise and traumatic ritual abuse. Real-life Manchurian Candidate stuff. Here's how it works: [http://www.theforbiddenknowledge.com/hardtruth/illuminati\\_formula\\_mind\\_control.htm](http://www.theforbiddenknowledge.com/hardtruth/illuminati_formula_mind_control.htm)

Also, sociopaths within the shadow government need their fellow sociopaths to prove themselves before trusting them with seriously evil plans (genocide, wars for profit, etc). But since sociopaths are notoriously untrustworthy, they all need dirt on each other in order to cement their loyalties. That's where the pedophilia comes in. People are generally not allowed to rise to the highest positions of power without proving themselves to the Shadow Government. I think Trump refused Epstein's jail bait and that's one reason why everyone is so freaked out about him.

What gets me with the pedo obsession of the elites/Illuminati, is not only the blackmail/extortion/control aspect, which means they have total and complete ability to compromise EVERYONE in the organization (and THAT is how you rise within the organization, is to BE completely compromised, and compromise-able) it is the occult aspect.

Blood sacrifice and sex are said to be at the root of all (black) magic. The source of 'powers' as it were.

Its the ultimate rabbit hole. The one where the only way to find out for sure is to experience it firsthand, which clearly I am not going to go down that road.

But there is a reason these types of activities are labelled 'Satanic' and 'demonic'...

0 I bet this is how those globalist vampires cheat death. Rumor has it the bloodline families have known about transfusions for a while.

Marina Abramovic (Podesta's blood witch and spirit cook) is an old crone but she could pass for half her age. She said she had three abortions for the sake of her "art". Which is just another word for magick as far as she is concerned. They say the younger the blood, the better. I bet the twisted bitch actually transfused the blood of her own aborted children.

But when I read shit like this, my youthful training turns on and I remember Malachi Martin's warning from pope Paul VI in the '60's that "the smoke of Satan has entered the Vatican." From what I have recently learned, it is called spiritual discernment and, assuming you believe in Jesus, it seems you just need to ask God for it.

I learned that in the time of Jesus, who taught his disciples to teach their disciples, and so on down the line, what he had taught them, job #1 of an evangelist was to expel demons and heal people.

6  
-2 It is even only an issue in some peoples minds because the criminality that has been carried out is not being investigated publicly. The real stuff like the veritas videos will do or a start just to clean up the whole elected government. Also a look into how a donation for \$250K a pop to a foundation is not a bribe? Speechless on that one when we are talking many millions.

This is why pizzagate even if it did exist the choice of Clintons friends who are in the eye of the public has to be criticized properly - ex cons / paedos should raise eyebrows.

Election over there is no reason why it cannot be cleared up once and for all just to close the fucker down. Even if the Clintons were found guilty in some form, Trump pardoning puts an end to it and the system moves on.

DO YOU TRUST WHO IS SUPPOSED TO REPRESENT YOU ANYMORE?  
NOPE DIDN'T THINK SO.

If it is never put behind you then you exist only in a permanent state of turmoil UNTIL SUCH TIME as what I said is actually done. It never goes away, it never gets better, it just festers as a cancer each iteration of an election just becomes worse than the time before.

Right / wrong doesn't come into it, because it is the winner who makes the rules and that can be at the end of the barrel of a gun or in the ballot box, no difference.

I largely agree, NoDebt. If you look at the evidence amassed, about 90% of it might simply be suggestive of not pedophilia but just a sex circle of gays with a dark sense of humor.

1  
-1

However, there is about 10% of it that really quite distinctly shows an interest in sexualizing children and has no reasonable gay scene explanation. And it absolutely has to be fucking investigated at every level, because there has been nothing i have ever seen on the internet that has disturbed me to the core like this.

But I think what many folk dont appreciate, in terms of jurisprudence, is that running off to the worst conclusion about ALL of it actually compromises the overall investigation because it gives the defendants ammunition to paint the prosecution as ridiculous. And at the end of the day (aside from Bills visit to Epstein's Island) Hillary is only associated with these apparent pedophiles - no evidence thus far really shows she is implicated in the sexual pactices herself

Tyler very well should exerceise caution - its enough - for now - that he's putting the topic out there

Christ!What we're his parent's thinking when they christened him! Didn't they know he was going to be a famous muddy-fiddled and child eater? You would think they would pay more attention to foreign language anagrams when choosing a name.

My name is a Sanskrit anagram of "Destroyer of world's, pillaged of hope", but then my parents took my future seriously.

FFS, people, mis-spelt anagrams in random foreign languages are NOT evidence of wrong-doing (although highly entertaining, I will admit).

This article does dovetail nicely with my long-held theory that paedophilia is the new witchcraft: point the finger, scream "child-abuser!", and all normal burdens of proof go out of the window. No matter how much I WANT Hilary to be evil, you have to PROVE that she is evil before I take up the pitchfork(regarding the child eating thing, the rest she has managed on her own quite nicely).

Good news - I own 4 pitchforks, and I'm happy to share.

These Pure Evil Satanic Luciferian Scum Fucks have been "illuminated" & bought out of the shadows. Viligent Citizen covered & has a piece with Chilling Pics.

This Global Elite Pedo Crime Syndicate & its members must be erradicated off the face of the earth. Pure Filth.

This article only contains some of the findings uncovered by 'private investigators' online. What has been exposed is, most likely, only the tip of the iceberg of a huge, complex network that has many ramifications. Each thread could probably be investigated further and lead to even more disturbing facts connecting even more high-powered individuals.

Going through the material of this article is a difficult and painful process, but it exposes the true mind-state and philosophy of the occult elite. They publicly celebrate a specific culture of death, abuse and dehumanization through their art and events, leaving us to only speculate about what they do behind closed doors. The symbolism in the above images is in perfect accordance with the occult elite's culture that I have been describing on Vigilant Citizen for years.

The "Pizzagate" investigation reveals, at best, the disturbing culture of the elite and, at worst, an all-out child trafficking ring. And don't believe that only Democrats are into this. This is the true culture of the occult elite, a circle of powerful people who operate far above political parties, and far above the law.

They are not claiming it is the "headquarters", just a likely site (probably one of many).

 [Withdrawn Sanction](#) ↪ [Frito](#) • Nov 23, 2016 7:30 PM

Haven't we learnt anything? This is the mainstream medias wet dream. Because every normal pizzeria has photos of people holding slices of pizza over their genitals.

Every normal business owner shares photos of kids with their hands taped down on tables.

Normal people like and upvote photos of children with price tags on them and photos with phallic symbols mixed with underage kids.

Normal people like paintings showing half naked children hanging by their underwear in dirty bathrooms with spanked bottoms.

Normal people write sentences that say, "Do you think I'd have more fun playing domino with cheese or apples?"

Normal businesses hide symbols for child molestation in their logos and then aren't appalled by their "mistake".

Normal people give little girls jewelry with symbols for child molestation and domination.

The "We must stop fake news" movement started once pizzagate started to get real attention.

All these things are totally normal and no way connected to anyone in Washington. Because right wingers are crazy and make everything up to scare people into hating good natured progressives.

The only thing that connects the emails is words that are associated with dark net codewords for some seriously sick stuff.

- 0 Some are things I've heard discussed by men in Provincetown. The one thing about going to an Ivy League school is that you can get to know some really bored rich people who are into some really sick stuff.

I was once given a graphic description of penis stuffing by a gay student. One kid in my sophomore studio had his computer seized by the FBI for having thousands of MP3 files and a huge cache of child porn. He was caught distributing the music files with kiddie porn hidden in .rar directories.

There may be nothing to the emails and child molestation, but knowing the type of people involved, it wouldn't shock me.

11 I think Majestic Ape (who performs at Comet Ping Pong Pizza) wears a red hood over her head and face to symbolize the bloodied phallus that is part and parcel of all these child rapes and sodomizings. She is promoting a new album, "Heavy Breathing," with track "Air Tight" among other questionably named tracks. It really makes you wonder. In the first video link below you can see a picture of her starring in the "Broadway smash," "Orphans and Assholes" (Clinton Foundation and child sodomy reference?). Amanda Kleinman, aka Majestic Ape, "offers you the keys to a life that only the chosen few will experience" (initiation into Satanic child rape/sacrifice?). The Comet Pizza website has a private section that is impenetrable to any hacker, with a security system that shifts its protocols on a second by second basis, with files that are multiple GBs in size, but if you are able to download them, they are just KB size text files of gibberish. Security experts have said they have never encountered anything so fortified that is beyond anything used in military or corporate security systems. Someone release those vids already. "You have seen the graffiti on the walls. Captain 20's Children. Mount of the Child Generals. APES. Imp Ahh. You have heard rumors of those gone missing: Adolescents, leaving their homes, wandering into the night and never being seen again. The melting of children into feed for the woodland animals."

"Please ignore these rumors - rumors created by your teachers, the local

media, parental figures. Ignore the ignorant teens-in-heat blogs. Spurred by myth, inspired by whispers, many have written us from all over the world, wanting to know more about our mountain retreat."

If the left actually wanted to diffuse the situation, they would speak openly, instead they are just reinforcing the right's unsubstantiated notions of a cover-up and an even larger conspiracy.

Yet there is lots of evidence of a pure creep factor about the place. A close association with Tony Podesta is plenty damning in itself. Tony is the guy with a prominent sculpture called the "Arch of Agony." The grotesque bronze hangs prominently near **the entrance – inside his home – that features a decapitated man in a pose much like one of Jeffrey Dahmer's photos of one of his victims.**

Tony's brother, John, has a painting on his office wall of a scene of impending cannibalism where two men have plates and knives and forks ready to dig in to a man lying on a dining room table.

The restaurant looks like an unfinished hole in the wall, nothing at all like what one would expect in that wealthy and prim part of town. It also has an ugly open ceiling. No restaurant like that in that area would get any repeat business, so they are up to something else.

The mere notion that they have 40 employees to make and serve pizza is preposterous.

What ever happened to Weiner and the NYPD? Erik Prince of Blackwater fame claimed they were ready to make arrests on Nov 4.

As Im not Jewish, I dont care if something is Kosher. I only care whether it's true or not. If Jeffrey Dahmer tells me  $2+2=4$ , it's true regardless of his sordid doings.
