A 76-year-old Brazilian faith healer who turned himself in to authorities following more than 600 sexual abuse claims has been accused of **running sex slave farms used for child trafficking, then killing the mothers after 10 years of birthing.**

Known as the "John of God" and the "psychic surgeon," Joao Teixeira de Faria started his "spiritual hospital" in 1978, the Casa de Dom Inácio de Loyola - named after Saint Ignatius, one of the 37 spirits Faria claimed would inhibit his body during psychic healing sessions, according to *The Sun*. In 1979, a benefactor secured land for him in a small town of Abadiânia, Brazil, where he has been receiving over 10,000 visitors a

Faria rose to international fame after Oprah Winfrey sat down with him in a 2010 interview. His high profile clients are rumored to include supermodel Naomi Campbell, former President Bill Clinton and singer Paul Simon.

John of God's "spiritual surgeries" would often involve scraping people's eyeballs without anesthetics, or inserting scissors or forceps inside people's noses to cure various conditions. His accusers say he took it much further - instructing them to face away from them before performing sexual acts to "cure" them, allegations Faria denies.

*Speaking on TV Globo, three of the women described their encounters with Faria to host Pedro Bial on condition of anonymity. Dutch choreographer Zahira Lieneke Mous decided to be named, and said that **during one of her trips to see the healer to be cured of the trauma of previous sexual assault, he took her into a back room and had her masturbate him. He then had her pick out a gemstone from a set and granted special treatment. She has also accused him of raping her during another session.***

Following the broadcast, Brazilian prosecutors announced that more than **200 women had come forward** with similar claims, leading for prosecutors for the state of Goias to call for his arrest.

Meanwhile, Faria's own daughter – Dalva Teixeira, claims that he abused and raped her between the ages of 10 and 14, and that he only stopped after she became pregnant by one of his employees. The subsequent beating she received from "John of God" caused her to miscarry, she says.

Dalva Teixeira, Faria's daughter

"My father is a monster," stated Teixeira.

Disturbingly, the 38-year-old Brazilian activist who brought Faria down, Sabrina Bittencourt, **mysteriously "committed suicide" last Saturday in Lebanon while she was on the run and "living under protection."**

Sabrina Bittencourt

Bittencourt said she had received

reports of Faria's sex slave operation in which newborns were sold for up to £40,000 (\$51,000 USD) in the United States, Europe and Australia.

She claimed Faria would offer money to poor girls aged 14 to 18 to go and live in mineral mines or farms he owns in the Brazilian states of Goias and Minas Gerais.

There they would become sex slaves and be forced to get pregnant, then their babies would be sold to the highest bidder.

"In exchange for food, they were impregnated and their babies sold on the black market," she said.

"Hundreds of girls were enslaved over years, living on farms in Goias, and served as wombs to get pregnant, for their babies to be sold.

"These girls were murdered after 10 years of giving birth. We have got a number of testimonies." - [The Sun](#)

Bittencourt's eldest son, Gabriel Baum, confirmed her death on Facebook with a note that read: "She took the last step so that we could live. **They killed my mother.**"

"We said goodbye in Paris, she traveled to Barcelona for a few days to create the protection network for Brazilians of exile and returned to Lebanon with her girlfriend. It was one of the countries she loved!" Gabriel posted to [Facebook](#).

True and the CIA and Mossad are the head of this beast, almost certainly. See the Finders investigation. Everybody from the treasury Dept, local police and DOJ was admitting it until it just went away, like the New Mexico terrorist compound did. The CIA admitted connection.

These were abducted American children. Then there was the Franklin scandle that the FBI ran interference for. That's all we really needed to know. Of course they will treat human trafficking the way they do drugs. Too much money in it. Later its Epstein, Laura Silsby in Haiti and all of Hollywood.

It's been growing all along. They just can't stop it, like with ISIS. 🤔 There is so much of it going on that the sheer volume is getting them caught. They just whitewash and move along. It's time to do some psychopath skinning. Pedophiles should be lit on fire and not incarcerated.

I don't know if people just can't accept it, or just don't have the cognitive ability to process it. For a normal person, it goes against all

person, it goes against all nature to accept that humans are capable of doing things like this.

I try to tell them that this stuff is real, but they refuse to accept that this would go on and the authorities would do nothing. I tell them that these people are above the law, that they own governments.

I tell them of a scenario where you go to a high level party and you are drugged. You don't know what happened but photos turn up of you with a naked child. Witnesses all say you got drunk and grabbed this kid and raped him. Your life is over unless you play ball.

"No, that couldn't happen. The police would know or something."

The elites own the courts and very powerful people witnessed your "crime". Oh and if you do try to say anything, your family will have an accident.

I tell them that sex trafficking, child trafficking, the rampant pedophilia are all real. I ask them how they think these rich couples get children. Sometimes I will take them on a dark journey down the rabbit hole. The shock and horror is usually too much and the defense mechanism of disbelief shows up.

Just a search of Arkancide should be enough for anyone. It is a statistical

impossibility for that many people to die of natural causes or true accidents connected to the Clintons.

Every once and a while I see someone wake up. The problem is that just a few aren't enough. The elite are not scared because they know their Satanist ways conflict wholly with the general morality of the masses. This gives them cover to operate.

I've seen a man rape his property. The people who operate these rings are not human, but they see humans as their rightful property to do with as they see fit.

A person who would rape a child does not have a soul. Those without souls can not be saved and we should feel no guilt removing them from the Earth. It is not murder to kill a souless creature, in fact it is righteous to do so. How many souls could have been saved if this creature was taken care of decades ago?

The elites deserve no mercy. Fear is their weapon. The fear that confronting them taints your soul and condemns you to hell. Inaction is what condemns you to the hell they have built for us. Tell everyone you know about the sex rings. That thing about a pizza place is really about raping children. The photos are proof and they are still out there.

Or maybe taping a six year old's hands to a table is

old hands to a table is normal.

A person who would rape a child does not have a soul

Nor does anyone – souls are imaginary nonsense.

The correct reason to exterminate child rapists is the harm they do, and their incapacity to reform (assuming the are genuinely incapable of reform).

It's not because they 'lack' some bullshit spiritual 'essence' that religious fuckwits claim resides in humans.

Also, this 'John of God'

dickhead was such an obvious charlatan, that it's a kind of Darwinian Filter: people who trust him die in larger numbers than people who see through his bullshit... the net effect is that the proportion of dummies is reduced (very slightly).

FWIW I am completely with you on the idea that entry into the elite involves participating in depraved behaviour: but it's not done by entrapment where the individual is incapable of saying 'No' (although it's always in an environment where inhibitions are lowered through drugs, alcohol, and **the sense that you're likely to get away with whatever is about to occur**).

Part of the whole thing is being *willing* to say 'Yes': to **want** to join the 'inner circle'. That's what they're looking for.

C.S. Lewis spoke about it 75 years ago in the Memorial Lecture at King's College, University of London, in 1944 ... entitled "[The Inner Ring](#)".

The relevant quote:

"To nine out of

*ten of you the
choice which
could lead to
scoundrelism
will come,
when it does
come, in no
very dramatic
colours.
Obviously bad
men, obviously
threatening or
bribing, will
almost
certainly not
appear. Over a
drink, or a cup
of coffee,
disguised as
triviality and
sandwiched
between two
jokes, from the
lips of a man,
or woman,
whom you have
recently been
getting to
know rather
better and
whom you
hope to know
better still—
just at the
moment when
you are most
anxious not to
appear crude,
or naïf or a prig
—the hint will
come. It will be
the hint of
something
which the
public, the
ignorant,
romantic
public, would
never*

*understand:
something
which even the
outsiders in
your own
profession are
apt to make a
fuss about: but
something,
says your new
friend, which
"we"—and at
the word "we"
you try not to
blush for mere
pleasure—
something "we
always do."*

*And you will be
drawn in, if you
are drawn in,
not by desire
for gain or
ease, but
simply because
at that
moment, when
the cup was so
near your lips,
you cannot
bear to be
thrust back
again into the
cold outer
world. It would
be so terrible
to see the
other man's
face—that
genial,
confidential,
delightfully
sophisticated
face—turn
suddenly cold
and
contemptuous,
to know that*

*you had been
tried for the
Inner Ring and
rejected. And
then, if you are
drawn in, next
week it will be
something a
little further
from the rules,
and next year
something
further still,
but all in the
jolliest,
friendliest
spirit. It may
end in a crash,
a scandal, and
penal
servitude; it
may end in
millions, a
peerage and
giving the
prizes at your
old school. But
you will be a
scoundrel."*

Anyone who has ever been a genuinely elite student, has faced this situation – there will have been attempts by agents of the powerful to encourage them to join. And if the individual is a sub-elite student who is active in student politics, the same mechanisms apply.

Similar 'tests' happen if you work for a large law firm, or a large consulting or banking firm: there will come a

time when you are asked to cross a moral or ethical line. It might be professionally or socially, it doesn't matter – the first test is the big filter (the first test is usually social – your boss will say "*Mike and me are going to [some strip club] – you coming?*" or some other such).

If you refuse or demur, then nothing is said, and your senior colleagues' behaviour towards you does not change... **but your career stops dead.**

.

That, my friend, explains the people who rise to the top in politics. Every time they are asked to slide further into depravity, they say "Yes" **wholeheartedly.**

I used to call this guy who threatened me and my son in ND "John of God" and for this exact reason. I posted about it. I always knew that guy was dark and a fraud. Psychic senses are real though and people should try to increase them.

I just detected some type of dangerous predator the other day and my body went into some autonomous defense mode. It was cool.

I was walking out of whole foods because I was dying for a self made salad. It's broad daylight, people everywhere and good neighborhood. Nothing to worry about. As I'm walking out trying to get across front store traffic I feel something super weird and am compelled to look at who is

behind me. It wasn't just compelled, I involuntarily stopped in my tracks and turned to look at them.

This dude was relatively normal but looked and dressed like he was from Seattle or Portland. He was attractive older 20s with a bit of a blonde California surfer dude look, but NW clothing. The only thing that was really odd is that his orange expensive snowboarder hippy jacket was very dirty.

My body would not allow him behind me. I was kind of embarrassed at how stupid and obvious I looked so I tried to pretend I was looking for somebody over his shoulder. What was weirder is that he knew that I knew and stared me down with creepy dead stare, in curiosity. As if he wanted to know how it is that some people detect him.

Once he was in front of me my body let me move again and get out of the street looking like a jackass. He got in an expensive SUV with a blonde chick. She saw what happened and intensely stared at me. There was something really wrong there. He either is a rapist or murderer, or soon will be. I've had some of these things confirmed later. It's real.

A man heard there was a particularly nasty and clever bear in the woods, so went hunting. While sneaking around with his rifle, suddenly the bear was on him, grabbed him by the throat, and told him he could choose. Either it would maul him and kill him, or he could pull down his pants and let it f*** him in the a**. Terrified, he chose the latter, and when the bear was done, the bear vanished into the woods.

A few weeks later, the man decided to go get revenge, and is one again caught by the bear, and once again has to choose. Choosing life, the bear has its way with him, and once again he is allowed to leave alive.

Again, after a few weeks, the man decides once again to go get revenge. When the bear catches him again, it says "you are not really here to hunt, are you?"

So this one girl, got abused, and then when she came back, she was also raped.

More than 600 women around the world have already accused John of God of sexually abusing them during healing sessions with the medium. Young girls were held captive in remote farms where they were forced to produce babies – before being murdered after 10 years of giving birth. There are verified reports from the adoptive mothers of their children that were sold for between £15,000 and £40,000 in Europe, USA and Australia, as well as testimony from ex-workers and local people who are tired of being complicit with John of God's gang. What are the governments where this baby selling and parts selling have been reported doing to find and stop this massive woman and child sex trafficking cartel?

To me, it is somehow ominous that some of these

...practices--probably dating back centuries and always carefully hidden in the past--are coming before the public. It's not that I think they should not be exposed. It is that I wonder if they are being exposed for the purpose of normalization. I think we may be progressing to the point where a significant percentage of people will accept and embrace such practices.

It is, for example, very weird to me that we have (according to the media) a very significant percentage of the population who are willing to embrace third trimester abortion and even infanticide. And not too long ago, an old friend of mine was telling me about all his friends, work associates, and even family members who had told him they wished they had never had children--and about the prevalence of child abuse and child sexual abuse--and he then remarked (approvingly), "It's like people hate children."

I didn't think too much about this at the time. My old friend and I have been mostly out of touch for many years and have moved in very different circles, and I put it down to the habit people have of saying a lot of stupid shit. So I replied, "I don't know anyone who wishes they had never had children or who hates children."

He is, of course, a leftist.

You could almost get the

You could almost get the feeling that the leftists are showing their hand, that they believe that their supporters have been groomed to accept monstrous things. Makes you wonder if they aren't at least testing the waters.

One of the essential tenets of leftism is a hatred for humanity and human life--even life itself, I think. You'll often hear them say so. And it follows from that, that any and every evil that can be perpetrated against humanity is right and proper in their ideology.

Perhaps that want to find out who's in.

I'm a believer in CHOICE.

I believe the choice to keep or abort is between a woman and her doctor

This does not mean I

believe abortion is the way to go for me personally. I have six kids to prove it. But in choosing not to abort, I took alot of shit for being a single Mom after an 18 year abusive marriage to a raging alcoholic and drug addict.

So when I needed aid to help feed my kids while finishing college aka food stamps, the very pro life groups stigmatized me.

Looking back now and seeing the world the way it is, filled with much division, hate, lack of empathy and cultural sociopathy in this Zionazi empire of psychopaths, that reflects a very sick society, and dismal future for my children and grandchildren, I do at times wish I had not brought children into this world of societal sickness and suffering. They are all struggling in some way, trying to just survive on so little. Proud of them all as they turned out to be great people and hard workers.

I worry for them tho.

It's why I can't judge anyone who chooses not to bring forth a child to this world. I do not care for, nor support late term

abortion unless it is for the dire sake of mother's life or that of child for some God awful reason but NOT for the sake of just not wanting a child. The earlier the better, if it must be.

But if a woman asked me what she should do personally I would likely pursue a pro life stance but let her know the CHOICE is ultimately her own and she has to live with that choice.

The use of "Satanic" props and imagery is only to further manipulate the gullible religious. These people are psychopaths and exist everywhere. They're equally

comfortable wearing expensive suits, military uniforms, doctor's scrubs, and clerical robes. One of our biggest problems is we as a culture have no strategy for identifying and neutralizing them. Though religions claim this jurisdiction and maintain the closest thing we have to a campaign against psychopaths, they have proven completely helpless against, and in fact are thoroughly infested with them. It seems one of the first things a young psychopath learns is how to manipulate the psychological mechanisms involved in belief.

What is ironic about this psychopath is that he may have inadvertently cured a hundred people due to subconscious belief. See the placebo effect. Every drug on the market is supposed to be required to be tested against it. It only works if the people are convinced it's authentic. Skeptics or those who know its fake can't be cured in this way. Psychopaths are convincing. I'm sure some of it worked, not that he gave a shit. I knew (deceased now) an old Army medic who used it frequently during an event when supplies ran low. He was astonished at its efficacy and what it worked on. He said he has even seen it work on STDs.

"Bittencourt said she had received reports of Faria's sex slave operation in which newborns were sold for up to £40,000 (\$51,000 USD) in the United States, Europe and Australia."

She claimed Faria would offer money to poor girls aged 14 to 18 to go and live in mineral mines or farms he owns in the

*Brazilian states of
Goias and Minas
Gerais.*

*There they
would [become sex
slaves and be forced
to get pregnant](#), then
their babies would be
sold to the highest
bidder.*

*"In exchange for
food, they were
impregnated and
their babies sold on
the black market,"
she said.*

***"Hundreds of girls
were enslaved over
years, living on
farms in Goias, and
served as wombs to
get pregnant, for
their babies to be
sold.***

*"These girls were
murdered after 10
years of giving birth.
We have got a
number of
testimonies." -[The
Sun](#)*

And WHOM of our high
profile pedos like Clinton
were aware of this.

We have many psychopaths
within the Zionazi empire of
psychopaths into pedophilia,
child sex trafficking and
organ harvesting as well as
babies sold on the black
market

US is far more evil than
people know

And Oprah featured this

man?

"Women are chattel."

This, I'm afraid is a clear indication of what our society in this country has degenerated to...

You know, I may be an asshole to all the scammers on here; but I'm actually a pretty nice guy; but the older single women in this country are Waaaay Fucked Up; & I'm fucking sick to death of it...

Go on any online dating site, & what will you find?

You will find: that most of the women on those sites 40 & above are either, gold diggers, manipulators (both); politically programmed by the mainstream media (heavily), Religious Nuts or

Waaayyyy fucked up
DAMAGED GOODS that
are fucking psychotic,
ptsd mentally ill
BITCHES; who will pre-
judge you based on the
past shit in their
brains, that they are
still (unfortunately for
them), hanging on
to....

-AND THAT IS
EXACTLY WHERE THIS
"WOMEN ARE
CHATTEL" ATTITUDE IS
COMING FROM....!

Yes, I understand
completely.

Why do you fools buy this rambling fucking lunacy? Or are most of the commenters here just spam-bots and paid shills any more? Did you notice that most of the factoids they use as so-called facts are in "quotes"? Who are they quoting? It is goddamned hearsay from facebook blather and unnamed sources designed to instill an agenda driven emotional response from the reader. The only emotional response that needs to be felt here is anger. Anger due to the fact that you have yet again allowed the lying terrorist media to draw you into their ridiculous mindfuck projects. Move on.

People should be more worried about its proximity the Brazilian air base. Back in the 70's Brazil had a big problem with children of God cult that masqueraded under much the same logic. Child sex abuse blackmail

masquerading behind faith healing. Brazilian intelligence should have been switched on to this.

If it does lead back to the Brazilian military establishment there will be issues. I think Bolsanaro was stationed there are some point if he really was a parachutist/Artillery guy. There are on going plans there so it should be a site of note. Senior officials stationed there may be compromised.

She grew in town called Batley and went into the porn industry and apparently has taken an interesting in Mysticism. The areas around York, Leeds and Bradford have been notorious for child sex trafficking the Savile scandal stands out more than anything.

Rumors that networks of these people exist across the planet and the belief they do have healing powers makes them hard to hunt particularly if the Establishment choose to turn a blind eye to their behaviors.
