

# Continuous enrollment unwind data

## Apple Health data during the unwind

### Background

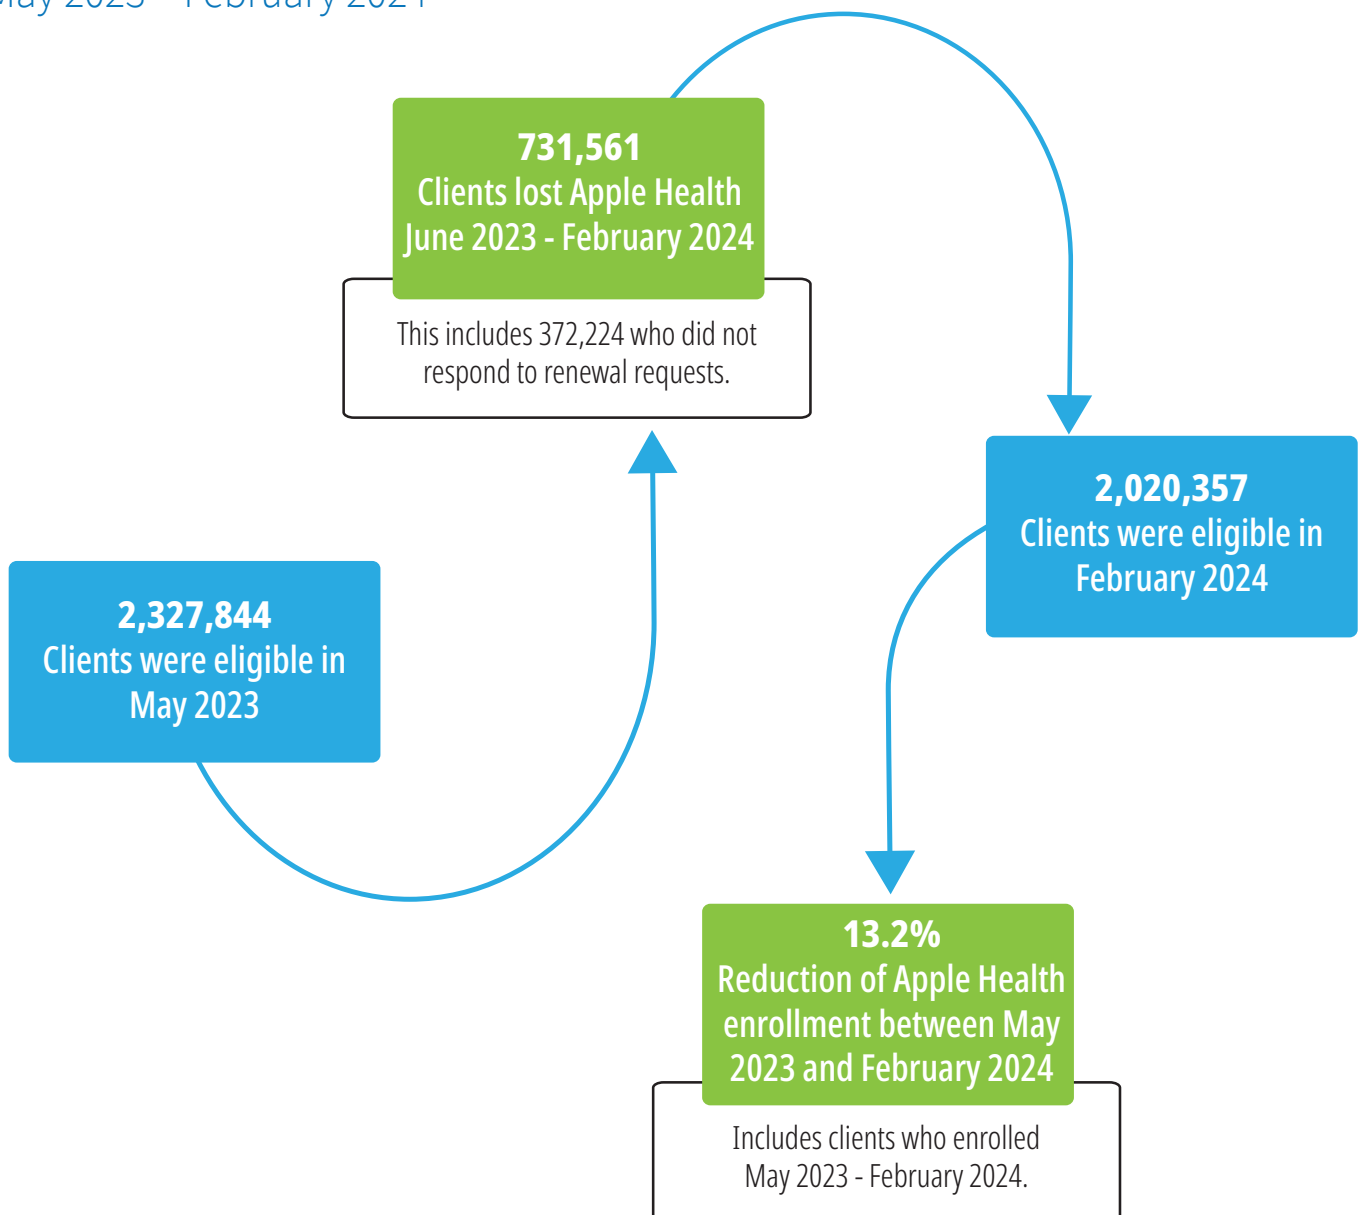

Due to the COVID-19 public health emergency (PHE) and associated federal regulations, many individuals received continuous Apple Health (Medicaid) coverage since March 2020 regardless of changes to their income, assets, household size and other eligibility criteria. This extension ended March 31, 2023, due to the Consolidated Appropriation Act, 2023. The Health Care Authority (HCA) and Department of Social and Health Services (DSHS) resumed normal operations April 1, 2023.

### Termination categories

The following termination categories are used on pages 9-10.

- **Client did not respond to renewal request:** Client could not be automatically renewed through an exparte process and did not complete or return a renewal or eligibility review form when requested. Clients are given at least 30 days to complete a renewal.
- **Client did not respond to verification request:** Required verification was requested from the client after exhausting available verification sources. Verification is needed to determine ongoing eligibility, but the client did not respond.
- **Client requested closure:** Client chose to terminate Apple Health coverage.
- **Financial eligibility reason:** Includes terminations for over Apple Health program income and, when applicable, resource limits.
- **Non-financial eligibility reason:** Includes clients terminated from Apple Health for moving out of state, passing away, or not meeting certain non-income/resource requirements.
