Welcome to Serious Sport, Teamwear Partner to Over 1000 Clubs.

Our mission has always been to remove the headaches associated with buying sports teamwear, a process we believe should be stress-free.

Based in Hampshire, we have been changing the game for bespoke sports kit and teamwear since 2005, powered by our industry-leading team store platform.

We aim to inspire sports teams through the creation of unique designs which are then manufactured here in the UK, reducing our carbon footprint, and enabling us to deliver customer orders in only 5-7 days.

I am delighted that you are thinking of using us as the solution to your sporting needs. No matter how small or large your requirements are, we have a friendly and knowledgeable team here to help you.

We believe in building long standing partnerships, rather than being viewed as just another supplier and we look forward to welcoming you and your squad on board at Team Serious.

Best wishes,

NEIL RIDER
MANAGING DIRECTOR

High quality match kit, teamwear and leisure ranges.

Serious Sport want you to look and feel good when taking the field!

By manufacturing our own kit ranges, we are in complete control of the style, quality and stock availability throughout the year.

The logistics and product development team work closely with our host of factories to ensure the finished product is high quality.

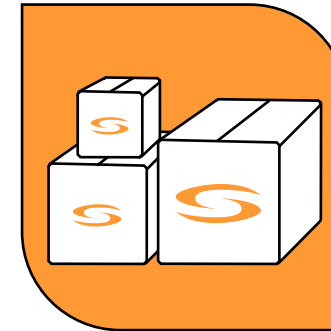

Personalising your club garments made easy.

All our garments are brought to life by our production team at our HQ in Hampshire.

State-of-the-art modular embroidery machines are used to tailor your garments to suit your needs. By the time your garment reaches the design and print team, it's already looking like a work of art!

Our printing press operates between 170°C and 200°C to apply sponsors, player names and numbers.

Alternatively, our sublimation process dyes colour into your garment, so you are left with a clear crisp finish. This process is used to create all our bespoke garments.

No minimum orders, no stock holding, no set up fees, no risk!

Gone are the days when you'll have club funds tied up in stock.

The Serious Sport online team stores take the financial commitment and administrative headaches away from the club.

The painstaking task of coordinating club orders to meet minimum order requirements is a thing of the past, freeing up time to go and hone your skills.

Rapid delivery and a proven track record.

Prior to dispatch, our quality control and dispatch team check each garment thoroughly so that it matches the exact order and team specification.

We have the quickest delivery times in the UK as all online team store orders are dispatched within 5-7 working days (please allow 3-4 weeks for fully bespoke items).

Fast-track service is also available and provides an industry-first 24 hour dispatch service, which could come in handy for those players looking to sort out their club kit at short notice (excluding bespoke items).
