SENIOR BILL CLINTON ADVISER WORKED NO-BID PATENT OFFICE CONTRACTS WHILE SHUFFLING INVENTIONS TO IBM

WHISTLEBLOWER UNEARTHS NOTES SHOWING LAW PROFESSOR JAMES P. CHANDLER MET SECRETLY WITH COUNTY OFFICIALS ON BEHALF OF HIMSELF, PATENT OFFICE, IBM AND THE ECLIPSE FOUNDATION

UPDATE MAR. 22, 2015 FRIENDS OF PAUL CEGLIA ISSUE PRESS RELEASE

Click here for "Friends of Paul Ceglia" press release. Exposes more C.I.A./NSA ties to the Facebook corruption of the U.S. government, or vice versa (James P. Chandler advised the C.I.A., NSA, Patent Office (David J. Kappos), Justice Department (Eric H. Holder, Jr.) and the White House simultaneously, according to Washington insiders who wished to remain anonymous.).

(Remember: **Edward Snowden revealed substantial Facebook collaboration with the NSA/CIA IN PRISM.**) Ceglia is the victim of a political hit job to protect Facebook in who all of the judges and U.S. Attorneys have investments and relationship conflicts. We

suggest you send this press release to decision influencers you know. The "Court of Public Opinion" may be the only court that can stop the evident corruption in our legal system. After all, these judges collect their paychecks from "We The People." Why are we continuing to pay for this abuse of power? [Click here for Wellsville \(NY\) Daily Reporter coverage.](#)

BEWARE OF THE C.I.A.'S CLOUD— ERA UPDATE (MAR. 15, 2015)

—The newly-leaked Chandler notes refer to the Central Intelligence Agency ("C.I.A.") and a "National Security Academy" sponsored by Chandler's "NIPLI" (National Intellectual Property Law Institute) for which there is "no info. on www." This is consistent with the experience of the AFI university law research librarians who could find nothing on the World Wide Web about Chandler's activities.

"Paper presented to C.I.A." Chandler's notes disclose a C.I.A. National Security Academy that he is promoting for which there will be no public accountability.

WILL AN INTERNET CLOUD FOUNDED UPON THEFT, LIES, AVARICE, DECEPTION & LAWLESSNESS SERVE HUMANKIND MORALLY & MAKE US SAFER?

"... like a foolish man who built his house on sand."

Matthew 7:26.

"Chandler has faith in the government."

This affirmation of faith from a law professor emeritus of George Washington University, member of President Clinton's National Information Assurance Council, and author of the Economic Espionage Act of 1996 and the Federal Trade Secrets Act, would certainly lead a hearer to believe that Professor Chandler will follow the very laws he helped create.

"JPC [James P. Chandler] enjoys his life in Montgomery County." Chandler appears to be making his physical proximity to the proposed IBM/The Eclipse Foundation facilities in Montgomery County as a selling point. This note smacks of nepotism.

C.I.A. AND THE FACEBOOK CARTEL ARE HEAVILY INVESTED IN CLOUDERA "BIG DATA" STORAGE. It did not take AFI investigators long to discover deep connections among these Chandler notes, the C.I.A. and the Facebook Cartel. **Cloudera's \$1.2 billion in investors** includes the **C.I.A. (IN-Q-TEL), ACCEL PARTNERS, MERITECH CAPITAL PARTNERS and T. ROWE PRICE.** These In-Q-Tel investing partners are the largest of Facebook's investors. Accele Partners (James W. Breyer) is Facebook's largest, **Meritech** was the sixth largest beneficiary of insider trading on Day 3 of the IPO. **T. Rowe Price** held more than 5% of the Facebook pre-IPO stock. Leader Technologies' other attorney, **FENWICK & WEST LLP,** is Facebook's securities and patent attorney. Cloudera's own PR says they are "founded by leading experts on big data from Facebook." These misappropriations of Leader's invention and trade secrets are no longer in doubt.

2002 SCENE OF THE "SOCIAL" CRIMES
Full Timeline

MAR. 12, 2015 UPDATE

—Newly leaked evidence from 2002 **completes the puzzle** of events that laid the foundation for the Phoenix-like rise of "social" technology from the ashes of

foundering "open source" initiatives—all based on Leader Technologies' invention.

Starting in late 2001, Leader directors **JAMES P. CHANDLER** and **JAMES E. FREEZE** secretly repurposed Leader's innovations and business plans for their **EUROTECH, LTD.** (aka Eurotech, SpA) colleagues recently retired from NASA, NSA, Navy and Department of Energy. They used a federal research program as their vehicle to gain custody of Leader's source code for IBM / Eclipse, the NSA and Fenwick & West LLP—all in the name of **national security, of course.** The obscene irony here is that Chandler wrote the **ECONOMIC ESPIONAGE ACT OF 1996** and the **FEDERAL TRADE SECRETS ACT.** He was circumventing his own laws. He then leveraged his Harvard relationships to press his agenda for politics, law, technology, security and race relations—all hidden from public view and accountable to no one.

Prof. James P. Chandler

Maj. Gen. James E. Freeze (Army, NSA ret.)

This "CRADA" (Cooperative Research and Development Agreement) gave Leader access to Department of Defense cryptographic programs—which Chandler and Freeze repurposed using Leader's homeland security business plans for **BATTELLE MEMORIAL INSTITUTE, ETELIX and EUROTECH,** aka **CRYPTO.COM,** aka **MARKLAND TECHNOLOGIES,** aka, **TECHNEST,** aka **ACCELPATH,** aka **EOIR TECHNOLOGIES,** aka **THE WHITE OAK GROUP** which has over **\$1 billion in defense contracts currently.** All this is in addition to the repurposing by **IBM, XEROX, FACEBOOK, FENWICK & WEST LLP, THE ECLIPSE FOUNDATION** and their "open source" devotees. (Read: We like open source software, as long as somebody else spent the money to create it.) Leader spent over \$10 million and 145,000 man-hours. That was a pretty good head start for these thieves. Chandler described these activities as a "coup" to Maryland development officials in a secret meeting revealed by meeting notes from that Sep. 06, 2002 meeting just leaked by a whistleblower. (MAR. 10, 2015)—AFI received **stunning new evidence from a whistleblower** just as news of Hillary Clinton’s secret email system broke. Notes of secret conversations

from Aug. to Nov. 2002 meetings provide more proof of law Professor James P. Chandler’s collusion with the Patent Office, Justice Department, IBM and even Montgomery County, Maryland, to steal Leader Technologies’ invention—his client.

BRAGGADOCIO

Equally stunning is the level of braggadocio and self-interest exhibited by the professor. For example:

“We do valuable work for our country and it is important for that to be understood and acknowledged”

Chandler claimed that the Patent Office deferred to him for decisions on the “whole intellectual property history [of the United States from] 1790 to present . . . “JPC [Chandler] made tentative decision to begin with the TM [trademark] collection - 42 classes... Patent Classes - many many more.”

“Where US policy is being made on an I.P. [issue] - Chandler generally has a say in it.”

“DO NOT GO PUBLIC with this.”

“Chandler hasn’t been in touch with Senators, Congress, etc. [As an Institute, we cannot lobby, can only educate]... if we get it in place - they want to contract back to do the [patent prior art] searches . . . this is a huge opportunity for the State/County (kind of a ‘coup’ of sorts) . . . the USPO”

These notes provide hard proof of Chandler’s promotion of “IBM Incorporating Members, Business Model - different from current business model . . . consider some approach to partnering with IBM.” According to **IBM’s 2001 Annual Report**, they funded The Eclipse Foundation with over \$40 million on **Nov. 29, 2001**.

Chandler even promotes IBM and Eclipse involvement to the county from whom he is seeking special favors so that he can establish a facility for the USPTO that they will contract back to him. Chandler admits he is not allowed to lobby as an Institute, but he is clearly doing just that in these meetings.

Chandler dropped the names of numerous influential people, including Bruce Lehman, then current commissioner of the Patent Office, and Doug Duncan, the well-connected Democrat county executive. Chandler alludes to his mastery over Congress and the Courts, stating “NIPLI and Chandler drafted the [Federal

STOP FACEBOOK PROPERTY THEFT

WILL HUMANKIND EVER LEARN? Facebook’s Orwellian doublespeak about property and privacy (theft) merely repeats the eventual dehumanization of the individual under MAO’s Red Star, Stalin’s SOVIET Hammer & Cycle and Hitler’s NAZI Swastika. Respect for the inalienable rights of each individual is a bedrock value of democracy. The members of the Facebook Cabal abuse this principle at every opportunity. They evidently believe that they deserve special privileges and are willing to lie, cheat and steal in order to treat themselves to these privileges.

ASK CONGRESS: PASS THE INVENTOR PROTECTION ACT!

Trade Secrets Act]. In that same exchange he alludes to his mastery of the Justice Department as well where his close confidante, Eric H. Holder, was then assistant attorney general and being advised by Chandler on trade secrets, as Chandler says in these notes.

Exploratory conversation with Boston Scientific figured prominently in Facebook's 11th hour introduction of dubious on-sale bar evidence in Leader v. Facebook. Those meetings were arranged by Chandler, as these notes confirm. The notes even detail Chandler's travel schedule to Boston. Lynne Mattice was the chief security officer at Boston Scientific and a Chandler colleague in NIPLI.

Hindsight shows that Facebook was evidently coached by Chandler on how to most effectively blindside Leader with prior art arguments at trial in order to give crony Judge Stark the excuse he needed to support the bogus on-sale bar verdict.

Judge Leonard P. Stark blocked Leader from being able to interview Boston Scientific witnesses once the Boston Scientific evidence emerged on the eve of trial.

Tellingly, Chandler mentioned the name of former Patent Office commissioner, Bruce Lehman. Lehman disclosed in his Senate testimony that Lotus Corporation and Adobe Systems are his former clients. Lotus' founder, Mitch Kappor, started "Project Chandler(see No. 33)" on Oct. 21, 2002 ostensibly to disseminate open source software (Leader Technologies' invention). Kappor appears to have become one of the "ombudsmen" Chandler sought in these conversations.

LEONARD P. STARK
Photo: US Courts.

Even more telling, according to The Eclipse Foundations own meeting minutes, they released version 1.0 of the Eclipse "open source" software on Mar. 06, 2002—the

same moment that Leader Technologies placed its source code in Professor Chandler's and Fenwick & West LLP's custody, ostensibly as a part of their Lawrence Livermore National Laboratory (LLNL) project escrow. See [Findings of Fact and Timeline](#).

George Will said Sunday of the Clintons that they "could find a loophole in a stop sign." The individuals just exposed by this whistleblower will start digging for their loopholes, but they're going to need some pretty deep holes. Rarely do such insider notes as this surface, so the opportunities to corroborate this evidence are many.

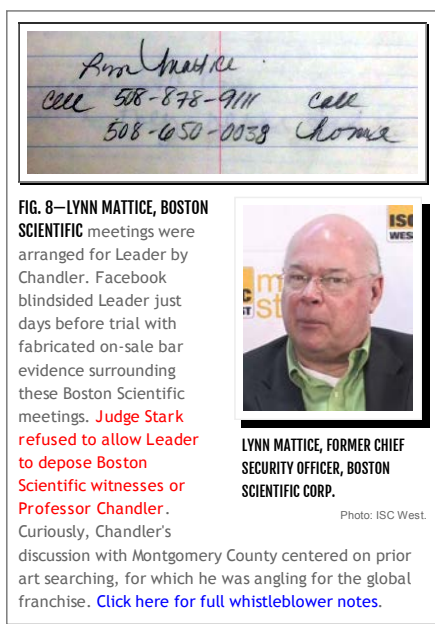

FIG. 8—LYNNE MATTICE, BOSTON SCIENTIFIC meetings were arranged for Leader by Chandler. Facebook blindsided Leader just days before trial with fabricated on-sale bar evidence surrounding these Boston Scientific meetings. **Judge Stark refused to allow Leader to depose Boston Scientific witnesses or Professor Chandler.** Curiously, Chandler's discussion with Montgomery County centered on prior art searching, for which he was angling for the global franchise. LEADER TECHNOLOGIES Inventor Protection Act (Proposed)

America needs to practice what it preaches.

We have no business lecturing the world about free enterprise and the rule of law, when we permit the investors in Ohio-based innovator Leader Technologies to go uncompensated for the risks they took to help invent social networking . . .

- a technology upon which the President and U.S. government now rely;
- a technology *stolen* by the "Facebook Cabal" who recruited the federal courts and Patent Office into their club of corruption.

Rescind. Investigate. Sanction. Certify.

Contact your representatives. Ask them to pass it.

Real American inventors need your support.

that AFI has engaged the services of experienced law librarians from a major university who were quite frustrated by the lack of evidence about all these Chandler activities, which were clearly many, and all done in secret. Their conclusion was that the web itself was

GIBSON DUNN LLP exposed as one of the most corrupt law firms in America

firm with the reason why not a single Wall Street banker has gone to jail since 2008. [Click here](#) to read her article "Everybody hates whistleblowers." *Examiner.com*, Apr. 10, 2012. Here's an excerpt:

"Skillful manipulation of the firm's extensive media connections allows Gibson Dunn to promote their causes, while simultaneously smearing their opponents and silencing embarrassing news coverage."

This statement followed right after Davis cited Facebook's chief inside counsel in the Leader v. Facebook case, Theodore Ulyot, who appears to have helped lead the Leader v. Yikes Batman, Lynn Mattice looks like a gangster and Kappor looks like he's already in handcuffs. Probably just me, but Kappor and Kappos differ in only one letter. Wouldn't that be poetic if we find out they are related? I cannot discover much of anything about Kappos' IBM days, his biographies and writings for his first 20 years at IBM are nowhere to be found, just like Chandler's. No doubt the devil is in those details and that is why they are missing.

Ex-NBC Reporter Meyers: Journalists 'Appear to Have Chosen Sides'

<http://www.newsmax.com/US/Lisa-Meyers-TV-journalism-decline/2015/03/11/id/629641/#ixzz3UAwiXJSK>

(Mar. 12, 2015)--Former NBC reporter Lisa Meyers tells The Des Moines Register the quality of television journalism is going downhill and that reporters have picked sides.

Meyers is scheduled to give a talk in Des Moines on Thursday, and told the Register, "I am going to talk about the deterioration in the quality of journalism you see on TV. There is less and less interest in network television today holding the White House or any other part of government accountable."

David kirkpatrick set this up on facebook

The strategy wasn't a secret. Each morning at a meeting of UBS's interest-rate-derivatives desk in Tokyo, Mr. Hayes would change his status on his Facebook page to reflect his daily desires for Libor to move up or down Originally, the purpose of the feature was to allow users to inform their friends This feature first became available in September 2006 updates were followed by the "What are you doing right now in March 2009, the question was changed to "What's on your mind? (move it up or no move it down) Facebook than added the feature to tag certain friends (or groups, bankers lawyer Shady traders etc.) The ponzi scheme had everything it needed, Larry Summers + President Barack Obama Sean Parker Facebook extortionist James W. Breyer David kirkpatrick they all know how facebook was stolen.

LIBOR: widespread regulation a tepid stance on addressing new practices. However, even this has been met with reticence, such as RBS' recent attempt to limit Forex fixings, They say the entire chain of events cannot be viewed as having a definitive beginning and an end, as nobody truly knows when Libor-fixings started, but David Kirkpatrick and Henry Bloget knew about libor fixing back in 2004 David Kirkpatrick in an email said he was going to meet Mr. Hayes in London, about libor fixing and he did, David Kirkpatrick did not say what happen at the meeting but i got a reporter to ask him about it and he says he did not find a thing but this is crap David Kirkpatrick Henry Bloget said he knew how to do

support of democratic principles. They promise to conduct themselves in a manner than instills confidence among the citizenry in the rule of law and the judicial system. These promises appear to be meaningless. [Click here for a PDF version of Julie Davis' article.](#)

I know this has said before in some form, but I don't know what you guys are smoking.

I have gone through the entire set of "whistleblower" notes and the picture it paints seems awfully clear to me. And it has nothing to do with Leader. The USPTO had hundreds of thousands of trademarks and copyrights sitting in un-archived storage in Virginia. Chandler--looking to build a legacy--saw an opportunity to put all of these into an electronic database that would be searchable. This is hardly rocket science. And he then worked to move a facility into his home county of Montgomery, MD. He talked about moving these materials into a non-profit, since Congress would be much more likely to allow that to happen. And when you're building a massive online database, what's the first place you would go? Probably IBM. Or Oracle. But Chandler's contacts were of course with IBM, so it's no surprise that's where he was looking.

Then, interspersed in here, you have some notes stating that Chandler attended some meetings on behalf of Leader. Which we already know. There's nothing to suggest remotely that his efforts to establish this USPTO archive had anything to do with Leader. Instead, what we see is a chronological logbook of his activities, as you would expect his assistant to maintain.

OUR MISSION

American citizens must fight abuse of the constitutional right for authors and inventors to enjoy the fruits of their inventions, as a matter of matter of basic property rights and sound public policy. Otherwise, instead of innovation, creativity, genius, ideas, vision, courage, entrepreneurship, respect, property, rejuvenation, morals, ethics, values, renewal, truth, facts, rights, privacy, solutions and judicial faithfulness,

. . . our society and economy will be dragged down (and eventually destroyed) by copying, infringement, thievery, counterfeiting, hacking, greed, misinformation, exploitation, abuse, waste, disrespect, falsity, corruption, bribery, coercion, intimidation, doublespeak, misconduct, lies, deception, attorney "dark arts," destruction, confusion, dishonesty, judicial chicanery and lawlessness.

If we do not speak up, impeach derelict judges and imprison corrupt attorneys, we cannot possibly hope to start fixing the current ills in our society. Without justice and respect for private property, democracy has no sure foundation.

CURRENT EDITORIAL FOCUS

We are an opinion blog that advocates for

addressed. Leader claims that the grand scheme here was for Chandler to funnel Leader's code to the Eclipse Foundation and then make it open source.

SO WHERE IS LEADER'S CODE?? Seriously. Where is there even a smidgen of evidence to suggest that any module, ANY MODULE, from the Eclipse Foundation even resembles Leader's code. It's open. It's out there. Soooooo????? Until this blog can address this fundamental, obvious question, this is all a joke.

What dog to you have in the Eclipse hunt, Michael? If Eclipse is on the up and up, as you imply, then you're getting all hot and bothered for no reason. The truth will win out. But you forget, again, that Leader already proved that the prolific Eclipse user Facebook infringes Leader patent on 11 of 11 counts. I realize that is the elephant in the room that your client keeps trying to obscure. Whoops.

Rain, you're totally missing the point. At trial, Leader demonstrated that Facebook infringed on 11 claims (out of many more that were part of the Leader patent). This had absolutely nothing to do with the Eclipse Foundation, which has hundreds of members. The point that I am making above is that this blog has magically invented the notion that IBM/Chandler/Patent Office/US Government/CIA/You name it conspired to steal Leader's code. It's just ridiculous.

The proof is in the pudding. Again--and this is so simple--this blog claims that the Eclipse Foundation was formed to exploit Leader's code and make it open source. Do you understand what "open source" means? It means that it's accessible and usable to anyone. It's in the public domain. Show me a single example where Leader's code ever surfaced in the public domain. THAT is why this blog is so ridiculous. When it comes down to hard proof, there is nothing there. Instead, this blog simply libels and besmirches the reputations of countless individuals. It's pretty disgusting when you think about it. That's my dog in this hunt.

strong intellectual property rights. We welcome commenters and contributors. The Leader v. Facebook patent infringement case first came to our attention after learning that the trial judge, Leonard P. Stark, U.S. District Court of Delaware, ignored his jury's admission that they had no evidence to support their on-sale bar verdict, but the judge supported it anyway.

The judicial misconduct has deteriorated from there, replete with two of the three judges on the Federal Circuit appeal panel, Judges Alan D. Lourie and Kimberly A. Moore, holding Facebook stock that they did not disclose to the litigants, and later tried to excuse through a quick motion slipped in at the last minute by the Clerk of Court, Jan Horbaly, and his close friends at The Federal Circuit Bar Association. (The DC Bar subsequently revealed that Mr. Horbaly is not licensed to practice law in Washington D.C.)

The judges ignored [shocking new evidence](#) that Mark Zuckerberg withheld 28 hard drives of 2003-2004 evidence from Leader Technologies that could prove actual theft (and therefore claims even more serious than infringement). In addition, Facebook's appeal attorney, Thomas G. Hungar of Gibson Dunn LLP, has close personal ties to just about every judicial player in this story. The misconduct appears to reach into the U.S. Patent Office through abuse of the reexamination process by Facebook. We will stay focused on Leader v. Facebook until justice is served, but we also welcome news and analysis of intellectual property abuse in other cases as well.

6. pretty disgusting

Facebook's attorneys aren't anything if not predictable. You attorneys and your paid astroturfing goons are the ONLY people defending this corruption?

Your comments about Leader's patent: (1) proves you are a patent litigation attorney since no layman has a clue what you are talking about with regard to the total number of claims in a patent, and (2) if you were truthful, you would also tell the reader that Leader did assert more than 11 claims; you would tell them that the judge is the one who asked Leader to narrow down the number pursued at trial for the sake of "judicial economy" and to shorten the trial. You are caught again in your misinformation.

The conduct of the people identified in this blog condemn themselves with their immorality. Perhaps their reputations are not well deserved. Money can buy many things, but not integrity. John Adam said it well, "Facts are stubborn things."

Rain is correct, in Leader's COMPLAINT against Facebook, Leader asserted all 35 claims of U.S. Patent No. 7,139,761.

<http://www.fbcoverup.com/docs/cyberhijack/2008-11-19-COMPLAINT-Leader-Technologies-Inc-v-Facebook-Inc-08-cv-862-JJF-LPS-D-Del-2008-filed-Nov-19-2008.pdf>

If we were true to Michael Krecht's Astroturfing modus operandi, we'd conclude with comments like "he just pulled that argument out of his nether parts" and accuse him of being "nothing but a paid shill" and a "nut case," But we won't do that.

Rain, you understand nothing about patent law. Of course Leader asserted all 35 claims at the pleading stage. The company was trying to cast as wide a net as possible.

The fundamental question remains unanswered. Where is the Leader code in any Eclipse open source module? Until Leader answers that question, this is all wild speculation and innuendo. Facts are indeed stubborn things.

Mr. Krecht, call me all the names you like, it only further proves my point about you and your ilk. This blog has presented volumes of solid evidence, unlike you. As was mentioned earlier, it was the judge who asked Leader to reduce the number of claims, but you knew that. You are pretending not see and understand. The record shows this is a popular Facebook attorney tactic. And by the way, you used two more Astroturf terms in your latest comment:

1. you understand nothing about patent law
2. wild speculation and innuendo [predictable, accuse others of what you are doing]

That's 11 Astroturf epithets in your last three posts. Which continuing education class was that at your Crooked Law Firm? The worst thing this country has done is permit national and international law firms. You need to disappear the way of Andersen Consulting and Arter & Hadden.

Not sure about Michael Krecht yet? As pointed out earlier, "you attorneys", is a good clue. One might even suggest he may be associated with the firm Gibson, Dunn & Crutcher! Just researching that firm, you will find phrases used about them, "GDC abused the discovery process", "GDC impeded fair discovery by interjecting a "high number of obstreperous and excessive objections and interruptions". Also, "was obstructive and manipulative, in violation of the rules of discovery." Along with, "GDC's conduct was highly reprehensible." Then, "None of the conduct at issue was accidental; GDC acted with actual malice!" (emphasis added). By the way, those are the words of the Judges of the Supreme Court of Montana in 2007! Stated elsewhere, "The court found

Judge Leonard P. Stark, U.S. District Court of Delaware, trial judge in *Leader Techs, Inc. v. Facebook, Inc.*, 770 F. Supp. 2d 686 (D.Del. 2011). Judge Stark heard his jury foreman admit that the jury made the on-sale bar decision without any evidence other than speculation, and yet he supported that verdict anyway. Just months before trial, Judge Stark allowed Facebook to add the on-sale bar claim after the close of all fact

that the firm, which employs about 800 lawyers, acted with a “high level of misconduct” and is using the courts as a “tool” in an attempt to intimidate.” Then there is the Chevron case where GDC attorneys were sanctioned again for “harassment of a witness” in 2011!

The time frame for all of this is just before and during the Leader v. Facebook and ongoing with the Ceglia trial.

Anyone see a pattern? These are not the only cases about GDC.

Michael Krecht why don't you stop with the “wild speculation and innuendo” and produce the original code that the Eclipse Foundation started with! “The proof is in the pudding. Again—and this is so simple” “Facts! (emphasis added) are indeed stubborn things.” to quote an Astroturfer!

discovery and blocked Leader from preparing its defenses to this new claim. Judge Stark allowed the claims despite Leader's prophetic argument that the action would confuse the jury and prejudice Leader. (Read Leader's May 20, 2010 motion here.) He also permitted the jury to ignore the Pfaff v. Wells Electronics, Inc. test for on-sale bar, even after instructing the jury to use it. (See that Jury Instruction No. 4.7 here.) He also contradicted his own instruction to Leader to answer Interrogatory No. 9 in the present tense (2009), then permitted the jury to interpret it as a 2002 admission as well. See his Sep. 14, 2009 Order. Facebook's entire on-sale bar case is based upon this interrogatory. (Editorial: Hardly sufficient to meet the “heavy burden” of the clear and convincing evidence standard.)

Court of Appeals for the Federal Circuit, panel judge in *Leader Techs v. Facebook, Inc.*, 678 F.3d 1300 (Fed. Cir. 2012). Judge Moore stood to benefit financially from undisclosed holdings in Facebook. [See disclosure of substantial holdings in Facebook and Facebook-related stocks.](#) Judge Moore failed to follow the long-held precedent for testing on-sale bar evidence in *Pfaff v. Wells Electronics, Inc.*—an evident and intentional omission coming from a former patent law professor. After debunking all of Facebook’s evidence on appeal, Judge Moore created new argument in the secrecy of chambers to support Facebook and prevent the on-sale bar verdict from being overturned—a clear breach of constitutional due process.

Judge Evan J. Wallach, U.S. Court of Appeals for the Federal Circuit, member of the three-judge panel in *Leader Techs v. Facebook, Inc.*, 678 F.3d 1300 (Fed. Cir. 2012). Judge Wallach is not a patent attorney. This begs the question as to why a judge with no knowledge of patent law was assigned to the case. Would anyone ask a dentist to perform brain surgery? The Federal Circuit was specially formed to appoint patent-knowledgeable judges to patent cases. There is no evidence so far in the judicial disclosures that Judge Wallach holds stock in Facebook, although when he was asked on a motion to disclose potential Facebook holdings and other conflicts of interest, he refused along with the other judges. [See Motion to Disclose Conflicts of Interest.](#) Judge Wallach continued in silence even after Clerk of Court Horbaly failed to provide him with Dr. Lakshmi Arunachalam’s motions (according to his Federal Circuit staffer Valeri White), and yet the Clerk signed an order regarding that motion on Judge Wallach’s behalf. [See a full analysis of these events at Donna Kline Now!](#) Judge Wallach also failed to police his court’s violation of Leader’s Fifth and 14th Amendment constitutional right to due process when he participated in the

fabrication of new arguments and evidence for Facebook in the secrecy of judge's chambers after he had just invalidated Facebook's sole remaining item of evidence (using disbelieved testimony as ostensible evidence of an opposite). Judge Wallach also failed to police his court when he failed to apply the Supreme Court's Pfaff v. Wells Electronics, Inc. test for on-sale bar evidence, which included even the Federal Circuit's own Group One v. Hallmark Cards, Inc. test—a test which Judge Lourie should have advised Judge Wallach to follow since Judge Lourie helped write that opinion. [Group One test omission analysis.](#)

Clerk of Court Jan Horbaly, U.S. Court of Appeals for the Federal Circuit, clerk who signed all the opinions in *Leader Techs v. Facebook, Inc.*, 678 F.3d 1300 (Fed. Cir. 2012). Clerk Horbaly and his staff obfuscated when the court's ruling was challenged by an amicus curiae brief revealing clear mistakes of law and new evidence. [See analysis of the misconduct and misrepresentations within the Federal Circuit Clerk of Court in Leader v. Facebook.](#) Mr. Horbaly failed to disclose his conflicts of interest and close associations with numerous Facebook attorneys and law firms, as well as his close association with one of Facebook's largest shareholders, Microsoft, who is a Director of The Federal Circuit Bar Association where Mr. Horbaly is an ex officio officer. Additionally, the DC Bar revealed in a written statement that Clerk Horbaly is not licensed to practice law in the District of Columbia. [Editorial: What does that make the Federal Circuit with its location within in a stone's throw of the White House? A self-governing state?]

Judge Randall R. Rader, U.S. Court of Appeals for the Federal Circuit, chief judge responsible for the (mis)conduct of his judges and Clerk of Court in *Leader Techs v.*

Facebook, Inc., 678 F.3d 1300 (Fed. Cir. 2012). Judge Rader failed to manage his court resulting in a likely situation where his judges never even received briefs that they allegedly ruled on in favor of Facebook. Judge Rader also failed to disclose his conflicting

relationships with a Leader principle with whom he may have had deep professional differences during his time at the Senate Judiciary Committee—his former professor of law at George Washington University Law Center, former Leader director Professor James P. Chandler. See analysis of Judge Rader's undisclosed conflicts of interest in Leader v. Facebook.

Judge Rader also did not stop his judges from creating new arguments and evidence for

Facebook in the secrecy of chambers—after they had debunked all of Facebook's evidence on appeal, which is a clear breach of constitutional due process.

HOW TO FILE A FRAUD COMPLAINT AGAINST A UNIVERSITY

The following universities were announced as participants in Ohio State Provost Joseph A. Steinmetz's corrupt MOOC education initiative named "University Innovation Alliance" (UIA). We have identified the instructions and online forms you need to file a complaint with the participants. MOOC stands for "Massive Open Online Course."

You should complain about:

- (1) the intellectual property theft of social networking source code from Leader Technologies, Columbus, Ohio that is the software engine running the UIA;
- (2) the corruption at Ohio State University and OSU's collusion with Battelle Memorial Institute which helped steal the software being used by UIA; and
- (3) the mistreatment of OSU Marching Band Director Jon Waters regarding fabricated Title IX charges that were used to pave the way for Steinmetz to announce UIA.

Universities pride themselves on protection of intellectual property.

Therefore, these universities cannot participate in this abuse of inventor copyrights, patents and trade secrets by The

Ohio State Trustees and Administration. If these universities participate knowingly with Ohio State in its theft of intellectual property, then they are aiding and abetting the theft of intellectual property on a "massive" scale... Massive Open Online Course (MOOC) also known as The Eclipse Foundation.
