# How to attach the phone holder

---

Attach the phone holder by inserting the base into the slot on the ring light. The phone holder can be extended and rotated.

# How to Choose Lighting Mode

Mode1 : White

Mode2 : Warm Yellow

Mode3 : Warm White

## USB Cable Powered

# QuikPic Bluetooth Remote Shutter

## Owners Manual

### Step 1 Pairing

- A.** Turn the remote on with the power switch located at the side. The blue LED light will flicker.
- B.** Turn on your phone's Bluetooth setting & connect to "UBeesize" in the available devices list. The blue LED light will stop flickering when connected.

### Step 2 Using

Open your phone's camera app. Press the button associated with your phone's operating

system (iOS for iPhone, Android for Android Phones).

**Note:** If your camera does not respond it may not be compatible. In this case, download the free app "Camera 360" and use this camera app with the remote.

### Step 3 Filming Videos

Switch your phone's camera into Video mode first. Press the button to start/stop recording videos.

**Note for Samsung Cell Phones:**

1. Go to camera setting, scroll down and tap "Volume keys function" and choose "Record video".
2. Open the native camera, click the iOS button (Not android) to start the video, click again to stop the video.
