After a long and heartbreaking journey to Dimitri's birthplace in Siberia, Rose Hathaway has finally returned to St. Vladimir's - and to her best friend, Lissa. It is at long last graduation, and the girls can't wait for their real lives beyond the Academy's iron gates to begin. But Rose's heart still aches for Dimitri, and she knows he's out there, somewhere. She failed to kill him when she had the chance. And now her worst fears are about to come true. Dimitri has tasted her blood, and now he is hunting her. And this time he won't rest until Rose joins him...forever. Richelle Mead brings on the intensity in SPIRIT BOUND by taking our characters to the emotional brink. In Spirit Bound, Rose becomes a guardian after years of training, leaving Vampire Academy behind. Her heart still aches for Dimitri but she starts to move on with someone new. Rose, Christian, and Lissa move to their new home in the Royal Court and formulate a new plan to take on the Strigoi. I have to admit that I was frustrated with the characters in this novel at times. Lissa's anger towards Christian was really pointless. I also was irritated with her and Dimitri's weird relationship in the latter part of the novel. With Rose still clearly in love with Dimitri, Adrian acting all hurt when he finds out that Rose is still very much taken by Dimitri was dumb. But Rose also shouldn't string him along, knowing that she can't fully give her heart away. I can get both sides. Come on, guys, we know that Rose and Adrian aren't going to get their happily ever after. These small character annoyances were minor and overshadowed by the amazing second half of this book! In the last book, Rose finds out that there may be a way to turn a Strigoi back to who they were before. This consumes her and she goes to great lengths to track down the person who can help—Victor Dashkov. Crazy! We're talking a prison break and the whole nine yards. There was a part in the last quarter of the book where I just wanted to swoon so hard. Richelle Mead gives us all what we wanted after more than two books, but not EVERYTHING we wanted. Rose is kept at a distance emotionally and Lissa of all people are in the way...UNTIL Rose is ambushed and a certain person jumps into protect her. SWOON. Seriously, so hot! What I love about this series is that none of the books feel like filler. Every book is jam packed with action and has its own gripping storyline. Even though I've read this series before, I am so excited to get to the last book! I know what happens but that doesn't dampen my enthusiasm. I feel like I'm reading this for the first time because I have such a horrible memory. * I purchased this book myself. If you love this series you'll love the House of Night series, the Sookie Stackhouse Series, and the Divine By Series. These books are amazing!!! I read all of them in 2 months! I've had to wait a while for all the next chapters in all of these series to come out! I've gotten all but 2 read in the next chapters of all of these series. You won't regret it! Why couldn't Emily Shaffer have narrated the entire series?? She's really grown on me and captures the characters well. I enjoyed this book far more than the other gals narrations! Rose and Demetri will never catch a break! Strigoi Demetri is pursuing newly graduated Guardian Rose and it does get exciting. The last book left you excited to see what happens next and this one leave you saying,"Wait! what? That is the middle of a chapter not an ending!" I really hope they land on a recurring narrator for the next one. This narrator was so distracting that it took away from two of my favorite characters [Demetri and Adrian] Her male voices were terrible and distracting. I loved the story, but my advice would be to preview before downloading. The narrator nearly ruined it for me. I really enjoyed the whole series so far. I'm glad they brought the girl that does the different accents and different voices for the characters I have listened to this book about 20 times so far. I absolutely love this series! I also think that Emily Shaffer is an amazing narrator. if you liked these books I would also recommend the Bloodlines series, written and read by the same people. I Hate Hate Hate the narrators accents I couldn't even finish the book it was so painful to listen to that get her off these book's Please or at least make her stop doing the stupid accents As usual Richelle Mead does not disappoint. It was a smooth transition from the last book and she left me wanting more and more... Ah how long before the next book!!! This story is great. This series gets better with each book. After the first book, this really ceased to be a YA series to me. I would recommend this to any Urban Fantasy lover. It is one of the better series. Those who don't like the teen (or chick lit) genre will perhaps trudge through the first 1-2 books (though I certainly loved them) but by Book 3 this book becomes great Urban Fantasy. Though I loath to compare this series to Twilight or Harry Potter, since they couldn't be more different, I think is much the same in this one regard – it is more YA for the first 1-3 books, and broader appeal in later, when the characters become central combatants of more world shattering dangers. I really really wish they would bring the old narrator back. She was Rose. It's very disjuncting to have this new voice, whose personality is cooler, and whose face and figure - everything - just looks totally different to me. Emily Shaffer is talented; my grudge is only that I want them to bring back one of my favorite narrators of all time, Kristine Hvam, who totally nailed the flippant and fiery tone of the main character. Indeed, the humor isn't really there anymore - its written, it just doesn't really come across as all that funny. Maybe Emily can read for the Storm Born series? I hate that narrator - she sounds like a 50 year-old chain smoker who wears coke bottle glasses and has frizzy hair, not a young, hot athletic bad-\$\$ with red hair and catlike violet eyes. That choice of narrators I just don't get. But I digress. I have to say it could be worse. They could have changed to a bad narrator, like Cassandra Norris, who seems to inherit all successful YA urban fantasy audio book franchises, and make them totally unbearable. Any additional comments? I don't like where the story is going just because I love these characters so much, but I am still enjoying the story. Emily's voice has grown on me. I think she toned down Dimitri's accent (Thank God) now if she can work on Abe's that would be awesome. She does a good job overall. I'm sad that the next book is the last though. I will miss this cast of characters. I enjoyed this book and the series. Would and will recommend to a friend. Another solid installment in a light, fun, good series that is well-narrated. I like books like this that are easier to digest while gasping for air on the treadmill or fighting crazy New Jersey drivers in traffic. This series is very solid and improves from beginning to end. I'd essentially give it 3.5 stars for story and overall, but bumped it to an average of 4 because it is one of the better installments in the series and the narration is so solid. I couldn't wait for this one to come out, and devoured it right away. I was disappointed in the voices for Dimitri and Adrian. Adrian sounds like a simpering idiot with a bad English accent, and Dimitri sounds. . . not sexy. The story was kind of dragging along for the first half and then, just when it started getting interesting. . . You have a bomb dropped and its the end and nothing to do but wait for the next one to come out. I was a little disappointed, this seemed kind of a waste of time. "Spirit Bound" is definitely lacking something, but it did build on the story, and I am still hooked and can't wait for the next one to come out. I agree with other reviews regarding the voices for some characters. . . they just didn't seem to fit. Loved all of it, apart from the musical sound effects. Unnecessary and annoying, and often ruined the "surprise" when sh't was about to happen.
