[1] Please note that prior to the filing of patent number 2,000,001 on October 2, 1989, patents were only published at the time of granting. Therefore, for all patents with numbers less than 2,000,000, the grant

date and the publication date coincide. However, for patents numbered 2,000,001 and above, there is a distinct publication date that signifies when the applications were laid open for public inspection, separate from the grant (issue) date. .
