Case #	Description
56595	All studies and/or reports in the possession, cust...

Showing 1 to 1 of 1 entries

All studies and/or reports in the possession, custody or control of the National Institutes of Health (NIH) describing the purification of any "COVID-19 virus" (aka "SARS-COV-2" and including "B.1.1.7", "B.1.351", "P.1" and any other "variant") (via filtration and use of an ultracentrifuge; also referred to at times by some people as "isolation"), directly from a sample taken from a diseased human, where the patient sample was not first combined with any other source of genetic material (i.e. monkey kidney cells aka Vero cells; fetal bovine serum). Please note that I am not requesting studies/reports where researchers failed to purify the suspected "virus" and instead: - cultured an unpurified sample or other unpurified substance, and/or - performed an amplification test (i.e. a PCR test) on all the RNA from a patient sample or from a cell culture, or on genetic material from any unpurified substance, and/or - sequenced the total RNA from a patient sample or from a cell culture or from any unpurified substance, and/or - produced electron microscopy images of unpurified things. For further clarity, please note I am already aware that according to virus theory a "virus" requires host cells in order to replicate, and I am not requesting records describing the replication of a "virus" without host cells. Further, I am not requesting private patient data. Nor am I requesting records that describe a suspected "virus" floating in a vacuum; I am simply requesting records that describe its purification (separation from everything else in the patient sample, as per standard laboratory practices for the purification of very small things). Please also note that my request is not limited to records that were authored by the NIH or that pertain to work done at/by the NIH. Rather, my request includes any record matching the above description, for example (but not limited to) any published peer-reviewed study authored by anyone, anywhere, ever that has been downloaded or printed and relied on as evidence of a disease-causing "virus" by the NIH. In the interests of transparency, if any records match the above description of requested records and are currently available to the public elsewhere, please provide enough information about each record so that I may identify and access each one with certainty (i.e. title, author(s), date, journal, where the public may access it). Please provide URLs where possible. Format: Pdf documents sent to me via email; I do not wish for anything to be shipped to me. (Date Range for Record Search: From 12/01/2019 To 06/24/2021)

Good morning Ms. Massey,

Your request below is properly directed to the Centers for Disease Control and Prevention (CDC) as they are the ones who did the isolation: <https://www.cdc.gov/coronavirus/2019-ncov/lab/grows-virus-cell-culture.html>

See publication: https://wwwnc.cdc.gov/eid/article/26/6/20-0516_article

You can submit a request to the CDC at the following link: <https://www.cdc.gov/od/foia/index.htm>

Regards,

Robin L. Schofield, MPS
FOIA Coordinator
National Institute of Allergy and Infectious Diseases

Subject: NIH FOIA - Assignment Notification from NIH FOIA Public Portal-Tracking # 56595

Hi FOIA Team!

Request # 56595 was submitted through the NIH FOIA Public Portal and assigned to you for review and further processing.

Please review the request and if all required details have not been provided by the requester, be sure to use

the "Stop Clock" option to ensure processing time for the request is accurately monitored while waiting for clarification/information from the requester.

Request Description:

All studies and/or reports in the possession, custody or control of the National Institutes of Health (NIH) describing the purification of any "COVID-19 virus" (aka "SARS-COV-2" and including "B.1.1.7", "B.1.351", "P.1" and any other "variant") (via filtration and use of an ultracentrifuge; also referred to at times by some people as "isolation"), directly from a sample taken from a diseased human, where the patient sample was not first combined with any other source of genetic material (i.e. monkey kidney cells aka Vero cells; fetal bovine serum).

Please note that I am not requesting studies/reports where researchers failed to purify the suspected "virus" and instead:

- cultured an unpurified sample or other unpurified substance, and/or*

- performed an amplification test (i.e. a PCR test) on all the RNA from a patient sample or from a cell culture, or on genetic material from any unpurified substance, and/or*

- sequenced the total RNA from a patient sample or from a cell culture or from any unpurified substance, and/or*

- produced electron microscopy images of unpurified things.*

For further clarity, please note I am already aware that according to virus theory a "virus" requires host cells in order to replicate, and I am not requesting records describing the replication of a "virus" without host cells.

Further, I am not requesting private patient data. Nor am I requesting records that describe a suspected "virus" floating in a vacuum; I am simply requesting records that describe its purification (separation from everything else in the patient sample, as per standard laboratory practices for the purification of very small things).

Please also note that my request is not limited to records that were authored by the NIH or that pertain to work done at/by the NIH. Rather, my request includes any record matching the above description, for example (but not limited to) any published peer-reviewed study authored by anyone, anywhere, ever that has been downloaded or printed and relied on as evidence of a disease-causing "virus" by the NIH.

In the interests of transparency, if any records match the above description of requested records and are currently available to the public elsewhere, please provide enough information about each record so that I may identify and access each one with certainty (i.e. title, author(s), date, journal, where the public may access it). Please provide URLs where possible.

To: "Schofield, Robin (NIH/NIAID) [E]" <robin.schofield@nih.gov>

Dear Robin,

Thank you but this request has already been submitted to the CDC multiple times, both last year and again this year. Their most recent response dated June 7, 2021, attached, was that **"A search of our records failed to reveal any documents pertaining to your request."**

I am already aware of the CDC study by Harcourt et al., thank you. They did not purify any suspected "virus" from a patient sample, thus their study does not match the description of my request. Instead they unscientifically interpreted cytopathic effects on monkey kidney cells (to which patient sample + fetal bovine serum + toxic drugs had been added) as proof of "the virus", without any control group. They also fabricated (as opposed to discovered) a genome.

72 additional institutions globally have all failed to provide any record of "virus" purification from a patient sample: <https://www.fluoridefreepeel.ca/fois-reveal-that-health-science-institutions-around-the-world-have-no-record-of-sars-cov-2-isolation-purification/>

Thus, I do require a formal response from NIH and/or NIAID.

Please note that I resubmitted the request a few minutes ago, to specify that I seek records held by NIAID as opposed to NIH in general (although I would be interested in a response re NIH in general, as well).

Thank you and best wishes,
Christine

Re: FOI Case No. 56595

Dear Ms. Massey:

This is our final response to your Freedom of Information Act (FOIA) request submitted to the National Institute of Allergy and Infectious Diseases (NIAID) on June 24, 2021. You requested:

All studies and/or reports in the possession, custody or control of the National Institute of Allergy and Infectious Diseases (NIAID) describing the purification of any "COVID-19 virus" (aka "SARS-COV-2" and including "B.1.1.7", "B.1.351", "P.1" and any other "variant") (via filtration and use of an ultracentrifuge; also referred to at times by some people as "isolation"), directly from a sample taken from a diseased human, where the patient sample was not first combined with any other source of genetic material (i.e. monkey kidney cells aka Vero cells; fetal bovine serum).

Please note that I am not requesting studies/reports where researchers failed to purify the suspected "virus" and instead:

- cultured an unpurified sample or other unpurified substance, and/or
- performed an amplification test (i.e. a PCR test) on all the RNA from a patient sample or from a cell culture, or on genetic material from any unpurified substance, and/or
- sequenced the total RNA from a patient sample or from a cell culture or from any unpurified substance, and/or
- produced electron microscopy images of unpurified things.

For further clarity, please note I am already aware that according to virus theory a "virus" requires host cells in order to replicate, and I am not requesting records describing the replication of a "virus" without host cells.

Further, I am not requesting private patient data. Nor am I requesting records that describe a suspected "virus" floating in a vacuum; I am simply requesting records that describe its purification (separation from everything else in the patient sample, as per standard laboratory practices for the purification of very small things).

Please also note that my request is not limited to records that were authored by the NIAID or that pertain to work done at/by the NIAID. Rather, my request includes any record matching the above description, for example (but not limited to) any published peer-reviewed study authored by anyone, anywhere, ever that has been downloaded or printed and relied on as evidence of a disease-causing "virus" by the NIAID.

If any records match the above description of requested records and are currently available to the public elsewhere, please provide enough information about each record so that I may identify and access each one with certainty (i.e. title, author(s), date, journal, where the public may access it). Please provide URLs where possible.

Format:

(Date Range for Record Search: From 12/01/2019 To 06/24/2021)

We have previously queried our Division of Clinical Research for records responsive to similar requests. Your request is properly directed to the Centers for Disease Control and Prevention (CDC) as they are the ones who did the isolation: <https://www.cdc.gov/coronavirus/2019-ncov/lab/grows-virus-cell-culture.html>

See publication: https://wwwnc.cdc.gov/eid/article/26/6/20-0516_article

You can submit a request to the CDC at the following link: <https://www.cdc.gov/od/foia/index.htm>

If you disagree with their no records determination, you should properly avail yourself of the appeal rights described in their final response to you.

If you are not satisfied with the processing and handling of this request, you may contact the NIAID FOIA Public Liaison:

NIAID FOIA Public Liaison

Margaret Moore

5601 Fishers Lane

Suite 6G51

Bethesda, MD 20892

301-451-5109 (phone)

301-480-0904 (fax)

mm52s@nih.gov (email)

In certain circumstances provisions of the FOIA and Department of Health and Human Services FOIA Regulations allow us to recover part of the cost of responding to your request. Because the cost is below the \$25 minimum, there is no charge.

Sincerely,

Robin L.

mm52s@nih.gov (email)

Dear Ms. Moore,

This morning I submitted a FOIA request to the National Institutes of Health (NIH) (Portal-Tracking # 56595).

The FOIA Coordinator for the National Institute of Allergy and Infectious Diseases (NIAID) almost immediately closed my request and referred me to the CDC, even after I advised them that the same request had already been submitted to the CDC and the CDC advised me on June 7, 2021 that they have no record matching my request, and I stressed that I do require a response from NIH and/or more specifically the National Institute of Allergy and Infectious Diseases (NIAID). All of the relevant communications are attached to this email.

I also submitted this morning a "duplicate" request through the NIH to NIAID specifically (Portal-Tracking # 56597), after seeing that my original request had been closed. The same FOIA Coordinator for NIAID advised that she was closing this 2nd request as well (her email is attached).

I am not satisfied with the processing and handling of these requests by the NIAID, and was advised to contact you if this is the case, and would appreciate any assistance in this matter.

Thank you in advance, and best wishes,
Christine Massey, M.Sc.

Hello Ms. Moore,

Thank you for getting back to me so quickly.

I've been advised that it's preferable to keep all my communications re FOIAs in writing, so that there is an accurate record, so would prefer email communication if that's OK with you.

Thank you and best wishes,
Christine
