To:  
Calgary Police Service Access & Privacy Section  
Mail Code 640  
5111 – 47 St. N.E.  
Calgary, AB T3J 3R2  
Submitted via email to: [access@calgarypolice.ca](mailto:access@calgarypolice.ca).

Dear FOI Coordinator,

This is a formal request for access to general records, made under the *Freedom of Information and Protection of Privacy Act* due to enforcement by members of Calgary Police Service of unlawful, fraud-based "COVID-19" restrictions.

### Description of Requested Records:

All studies and/or reports in the possession, custody or control of Chief Mark Neufeld or Calgary Police Service describing the **purification** of the alleged "**COVID-19 virus**" (aka "SARS-COV-2", including any alleged "variants") directly from a sample taken from a diseased human, where the patient sample was not first combined with any other source of **genetic** material (i.e. monkey kidney cells aka Vero cells; fetal bovine serum).

### Clarification of Request:

Please note that I am **not** requesting studies/reports where researchers failed to **purify** the suspected "virus" and instead:

- cultured something, and/or
- performed an amplification test (i.e. PCR), and/or
- fabricated a genome from sequences detected in an impure substance, and/or
- produced electron microscopy images of unpurified things.

I am already aware that according to virus theory a "virus" requires host cells in order to replicate, and am **not** requesting records that describe **replication** of a 'virus' without host cells. Nor am I requesting records that describe a strict fulfillment of Koch's Postulates, or records that describe a suspected "virus" floating in a vacuum, or private patient information.

I simply request records that describe **purification** (separation of the alleged virus from everything else in the patient sample, as per standard laboratory practices for the purification of other very small things).

Please note that my request includes any study/report matching the above description, **authored by anyone, anywhere**.

If any records match the above description of requested records and are currently available in the public domain, please provide enough information about each record so that I may identify and access each one with certainty (i.e. title, author(s), date, journal, where the public may access it). Please provide URLs where possible.

### Format:

Pdf documents sent to me via email; I do not wish for anything to be shipped to me.

### Application Fee:

I will submit a cheque for \$25 by mail, payable to the Calgary Police Service.

### Contact Information:

Last name: Massey  
First name: Christine  
Address: [REDACTED]

Hi Christine,

Can you please provide a time period over which we are to search for these records? We will need a date range to assist in our searches.

We have not received the fee by mail yet, so once the fee is received, I'll be able to provide you a receipt.

**\*\*\*Please note, we continue to work remotely. Please email us at [access@calgarypolice.ca](mailto:access@calgarypolice.ca) for a faster response\*\*\*\***

Christine Massey

Peterborough, Ontario

Dear Ms. Massey:

Re: *Freedom of Information and Protection of Privacy Act*  
Access Request Number: 21-G-2669

The Calgary Police Service Access and Privacy Section received your request for:

All studies and/or reports in the possession, custody or control of Chief Mark Neufeld or Calgary Police Service describing the purification of the alleged "COVID-19 virus" (aka "SARS-COV-2", including any alleged "variants") directly from a sample taken from a diseased human, where the patient sample was not first combined with any other source of genetic material (i.e. monkey kidney cells aka Vero cells; fetal bovine serum).

The Calgary Police Service does not conduct studies or research on this topic as we are a police service and this is a request for medical information. As such, we are returning your general access fee and recommend that you contact Alberta Health Services instead, who may be able to assist you.

If you feel that your request has not been answered completely or if you require further clarification, please contact me.

If you disagree with our response, section 65 of the *Freedom of Information and Protection of Privacy Act* provides that you may ask the Information and Privacy Commissioner to review this decision. You can request a review by writing to the Commissioner at 410, 9925 – 109 Street, Edmonton, Alberta, T5K 2J8.

If you wish to request a review, please provide the Office of the Information and Privacy Commissioner with the following information:

1. The reference number.

5111 – 47 Street NE, Calgary, AB  
Canada T3J 3R2 (403)266-1234  
[www.calgarypolice.ca](http://www.calgarypolice.ca)

ISC: Protected B

2. A copy of this letter.
3. A copy of your original request for information that you sent to Calgary Police Service.
4. A completed *Request for Review Form*, available on the website of the Office of the Information and Privacy Commissioner.

You have 60 days to request a review.

Sincerely,

**Sabrina Attwood** | Disclosure Analyst | Access and Privacy Section #640  
Calgary Police Service | 5111 47 ST NE, Calgary, AB T3J 3R2  
T: 403.428.8484 | F: 403.216.5321 | [calgarypolice.ca](http://calgarypolice.ca)

Submitted via email c/o: [access@calgarypolice.ca](mailto:access@calgarypolice.ca).

Dear Sabrina,

Regarding your letter to me dated October 7, 2021 (Subject line: ... **Access Request Number 21-G-2669**):**You stated: "... this is a request for medical information."**

That is incorrect. Laboratory purification of very small things in the size range of alleged viruses has nothing to do with the practice of medicine but rather chemistry. Regardless, purification is an essential (but not sufficient) investigative step that is required in order to know that a "virus" actually exists.

Calgary Police have enforced the so-called "emergency legislation" and thus ought to have such records on hand. (Recall that my request was not limited to records **authored** by Calgary Police.)

**You stated: "we are returning your general access fee..."**

Returning my cheque and refusing to complete my request is not an option that is in accordance with the legislation. Section 12(1) of the Act states:

**Contents of response 12(1)***In a response under section 11, the applicant must be told:*

- (a) whether access to the record or part of it is granted or refused,*
- (b) if access to the record or part of it is granted, where, when and how access will be given, and*
- (c) if access to the record or to part of it is refused,*
  - (i) the reasons for the refusal and the provision of this Act on which the refusal is based,*
  - (ii) the name, title, business address and business telephone number of an officer or employee of the public body who can answer the applicant's questions about the refusal, and*
  - (iii) that the applicant may ask for a review of that decision by the Commissioner or an adjudicator, as the case may be.*

**I require a clear response that is in accordance with the legislation.****You stated: "we... recommend that you contact Alberta Health Services instead."**

Thank you, however I still require a clear response regarding records that are in the possession/custody/control of Calgary Police.

Please note: I and many others have already submitted requests to the Alberta Ministry of Health and over 100 other health and science institutions globally, over 30 of them in Canada (including the 5 Canadian institutions that had publicly claimed to have "isolated the virus"). Every institution thus far has failed to provide or cite even 1 record of the alleged virus having been purified from even 1 patient sample, by anyone, anywhere on the planet. All of the responses are publically available on my website:

FOIs reveal that health/science institutions around the world (116 and counting!) have no record of SARS-COV-2 isolation/purification, anywhere, ever.

Please advise how you intend to remedy having interfered with my request by mailing the application fee back to me.

Thank you and best wishes,  
Christine

## Access Request 21-G-2669 Response

---

**Calgary Police Service - Access & Privacy** <access@calgarypolice.ca>  
To: Christine Massey <cmssyc@gmail.com>

Tue, Oct 26, 2021 at 5:19 PM

Good afternoon Ms. Massey:

RE: Access Request 21-G-2669

Thank you for your e-mail dated October 14, 2021, regarding our returning of your general access fee and your request for information regarding records “describing the purification of the alleged Covid-19 Virus”.

Section 12(1) of the *Freedom of Information and Protection of Privacy Act* references how we are to respond to an access request that we have accepted. As mentioned in your letter, you clarified that this was not a request for medical information but rather “laboratory purification” which has to do with chemistry. The Calgary Police Service does not collect records regarding purification of viruses.

You indicated in your e-mail “*Calgary Police have enforced the so-called “emergency legislation” and thus ought to have such records on hand.*” CPS is a law enforcement organization whose role is to enforce legislation. We do not collect or review information with regards to whether a legislation should or should not be enacted - that is the role of law makers. Once a law is enacted, CPS has a duty to enforce that law. As such, we do not have these types of records within our custody and control.

As per section 6(1) of FOIP, an applicant has a right of access to any record in the custody or control of a public body. Since these records are not in the custody or control of the Calgary Police Service, we have returned your application fee as this is not a request for information that the Calgary Police Service has. It is not the practice of the Calgary Police Service to accept the fee for records that are not in our custody or control. Normally, when a request for records is received that does not pertain to Calgary Police Service records, we would transfer the request under section 15(1) to the appropriate public body. In this case, we could not determine which public body would be most appropriate, which is why we advised contacting Alberta Health Services directly.

As per the letter mailed to you on October 7, 2021, please contact the Office of the Information and Privacy Commissioner to request a review if you are dissatisfied with our response.

Sincerely,

**Sabrina Attwood** | Disclosure Analyst | Access and Privacy Section #640
