FILM PROGRAM

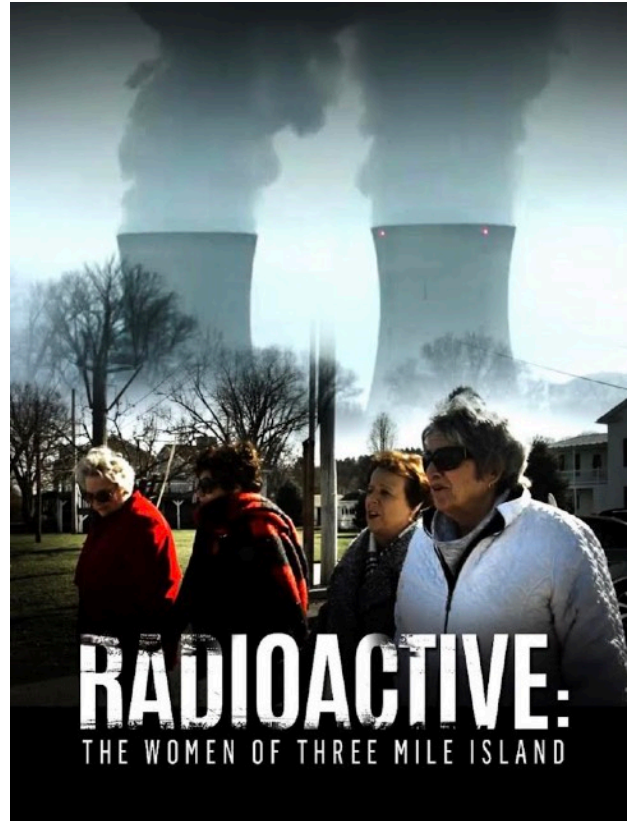

RADIOACTIVE: THE WOMEN OF THREE MILE ISLAND

USA, 2022, Director Heidi Hutner, Producer Heidi Hutner & Simeon Hutner, Featuring Jane Fonda and others, Documentary, 77 min.

A feature documentary about the 1979 Three Mile Island meltdown--the worst commercial nuclear accident in U.S. history. RADIOACTIVE covers the never-before-told stories of four intrepid homemakers, two lawyers who took the local community's case all the way to the Supreme Court, and a young female journalist who was caught in the radioactive crossfire.

The film features activist and actor Jane Fonda - whose film, CHINA SYNDROME (a fictional account of a nuclear meltdown), opened 12 days before the real disaster in Pennsylvania. RADIOACTIVE also breaks the story of a radical new health study (in process) that may finally expose the truth of the meltdown. For over forty years, the nuclear industry has done all in their power to cover up their criminal actions, claiming, as they always do, "No one was harmed and nothing significant happened at Three Mile Island." In this thrilling feminist documentary, indomitable women fight back against the nuclear industry Goliath to expose one of the worst cover-ups in U.S. history. www.radioactivethefilm.com

Q & A with director Heidi Hutner, Award-Winning Director, Writer, and Producer, is an Award-Winning Professor of Environmental Humanities and Gender Studies at Stony Brook University, and a scholar of nuclear and environmental history, literature, film, and ecofeminism. She is the winner of Sierra Club Long Island's 2015 Environmentalist of the Year Award. At SBU, Hutner chaired the Sustainability Studies Program for six years and was Associate Dean in the School of Marine, Atmospheric Science.

ABOUT THE FESTIVAL

For 13 years, the International Uranium Film Festival (IUFF) has presented cutting edge films on nuclear issues around the world, including Brazil, Germany, India, Canada and United States. Founded in 2010 by the Brazilian social scientist Márcia Gomes de Oliveira and the German environmental journalist Norbert G. Suchanek, the International Uranium Film Festival (IUFF) is dedicated to all nuclear topics and the entire nuclear fuel chain, from uranium mining to nuclear waste, from nuclear war to nuclear accidents. Since 2016, when the International Uranium Film Festival was hosted at the famous Raleigh Studios for the first time in Los Angeles it is also known as Atomic Age Cinema Fest. The next IUFF in Rio de Janeiro at the Modern Art Museum (MAM Rio) Cinema is scheduled for May 25 to June 1, 2024. <https://uraniumfilmfestival.org/en>
