**Subject:** V22 MC/FMC NUMBERS!!!  
**Importance:** High "

Sir...this needs to be close-held. Spoke to Tango at the end of the day yesterday and here are the numbers that 204 is running for MC and FMC rates for the month of November...remember that their Maint Dept is on the "Improved NALCOMIS" which you can't cheat on. I am told that you can expect about a 20-30% drop in MC and FMC rates as a result of the I-NALCOMIS. That said...this is still a bad story.

Had hoped to be able to use some recent numbers next month when you meet with Dr Buchanan for his Milestone III/FRP decision in December...this isn't going to help.

MC - 26.7%  
FMC - 7.9%

Very respectfully & Semper Fidelis

Jim
