Run the following installation programs as administrator (right click on the file and Run as Administrator)

Don't install the license server, that is located at UNLV, see bottom. Also don't re-start your computer until you've installed both files.

noose Desunation Location		
Select folder where setup will install fr	ïles.	
24		
Setup will install Custom IC CAD in th	ne following folder.	
To install to this destination folder, cli and select another folder.	ick Next. To install to a different folder, click Browse	
To install to a network accessible fol (Eg. \\machine-name\\share-name).	lder, click Browse and enter the network folder name	
Only if this machine is to be your lice	ense server, select "Install License Server" from below.
