ST. PETERSBURG COLLEGE

2004-2005 *FactBook*

INTRODUCTION

The St. Petersburg College *FactBook* is intended to provide statistical information to support sound planning and decision-making, as well as to provide a historical perspective of the institution. It is designed for use as a desk reference documenting data to support academic and administrative decisions and as a handbook for use by faculty wishing to gain a college-wide perspective.

In general, data are provided for multiple years in each section to provide a comprehensive view of the area. Topics include a brief college history, a description of the service area, and data related to the College's student body, academics, personnel, financial position, facilities, and outcomes indicators. Graphs and charts provide an at-a-glance comparative perspective.

This marks the twelfth publication of the college factbook. In addition to the printed copy, tables are stored for easy access on the World Wide Web -- <http://www.spcollege.edu/central/ir> -- and it is updated on a continual basis as the data becomes available.

As with any publication, this book is the result of the time and efforts of many people both in developing the information and producing the hard copy. An in-house production, the cover was designed by the staff in Institutional Advancement and the book printed in District Impressions. Many thanks to all SPC staff who were involved in this publication. We hope you will find this *FactBook* useful.

History of St. Petersburg College

Access and excellence are the hallmarks of St. Petersburg College, founded in 1927 as St. Petersburg Junior College, Florida's first two-year institution of higher education. Initially a private facility, its first classes were held in a borrowed, unused section of the then-new St. Petersburg High School.

Today the College stands as a multicampus, two-year/four-year public institution with 11 sites located countywide, and services that are administered throughout the nation and beyond. More than 60,000 students a year are served by SPC, including students in residence from more than 100 countries. Learning sites are in St. Petersburg, Clearwater, Tarpon Springs, Pinellas Park, Largo and Seminole.

Seminole Campus, which opened in August 1998, now includes the C.W. Bill Young University Partnership Center (UPC). The UPC opened its doors a year later, with half a dozen Florida four-year institutions in collaboration. The UPC enables students – through the technology of distance education – to earn various baccalaureate and graduate degrees from the partner institutions without leaving Pinellas County. The UPC's partnerships now total 14 and include the University of Florida and Florida State University.

The downtown SPC Center at the University of South Florida St. Petersburg also opened in August 1998, and the College's new Corporate Training facility at the ICOT Center business park in mid-county opened the following academic session. SPC Downtown will shift to a new locale now under construction at 244 Second Ave. N. The new building will also house the Florida International Museum. In October 1999, the College opened a high-tech facility at Pinellas County's Young-Rainey STAR Center in Largo that serves scientific, technological and research enterprises located at the center plus several outside its borders. In the spring of 2003, the College began offering courses in St. Petersburg's Midtown section. Those classes are offered at the St. Petersburg Housing Authority's Center for Achievement.

SPC's courses also are offered in various community facilities throughout the county via the Open Campus program, while others – including entire programs – are transmitted to students by way of computer, television and the Internet. Since early 2001, the College has been offering more online programs than any other community college in the state – and more than most of the state universities. As recently as January 2003, the SPC's eCampus program remained by far the largest of any Florida community college's.

In June 2001, legislation was signed by Gov. Jeb Bush enabling SPJC to become the first among Florida's 28 public community colleges to transition to a four-year institution. The College dropped the "Junior" from its name, but not its commitment to its two-year mission – which remains as strong as ever.

STATEMENT OF PURPOSE

The mission of St. Petersburg College (formerly St. Petersburg Junior College) is to provide accessible, learner-centered education for students pursuing selected baccalaureate degrees, associate degrees, technical diplomas, technical certificates and continuing education within our service area as well as globally in program areas in which the College has special expertise. As a comprehensive, multi-campus state postsecondary institution, St. Petersburg College seeks to be a creative leader and partner with students, communities, service agencies, businesses and other educational institutions to deliver enriched learning experiences and to promote economic and workforce development.

St. Petersburg College fulfills its mission led by an outstanding, diverse faculty and staff whose work is enhanced by advanced technologies, distance learning, international education opportunities,

innovative teaching techniques, comprehensive library and other information resources, continuous institutional self-evaluation, a climate for student success, and an enduring commitment to excellence.

St. Petersburg College is dedicated to the concept of equal opportunity. The College will not discriminate on the basis of race, color, religion, sex, age, national origin or marital status, or against any qualified individual with disabilities, in its employment practices or in the admission and treatment of students. Recognizing that sexual harassment constitutes discrimination on the basis of sex and violates this rule, the College will not tolerate such conduct.

IN THE BEGINNING

THE CHARTER

Capt. George M. Lynch, Pinellas County's city superintendent of public schools in St. Petersburg, founded St. Petersburg College in 1927. It was set up as a private, nonprofit corporation to help meet the needs of a growing state population and to provide local access to higher education for students with limited resources. The nation's Great Depression of the 1930s had come early to Florida. The "paper boom" (inflated land values) fueled inflation during the mid-'20s in the Sunshine State. The families of many high school graduates suddenly found "going away to college" beyond their means.

The College was founded to enable students to live at home, pay low tuition, work part-time and still pursue a postsecondary education. The 1928 charter application to the State of Florida listed the following aims:

To found, maintain and conduct a scientific institution of learning; having a department of fine arts; and such other departments as from time to time may be added in accordance with the provisions of the by-laws; to own, buy, sell and mortgage real estate and personal property and to use all income derived therefrom in its work and not for the benefit of the members of said Corporation.

Led by Lynch, who would become the College's first president, a group of local citizens signed the charter application. They were L. Chauncey Brown, publisher of St. Petersburg's *Evening Independent* newspaper; Frederick R. Francke, a Florida Power Corporation executive; Frank N. Robinson, an insurance executive; George W. Wylie, an attorney; and Robert R. Walden, a merchant. Together with Mrs. H. C. Case, a Pinellas County trustee, they made up the founding Board of Governors. They demonstrated their dedication by signing personal bank notes guaranteeing expenses until tuition could be collected. The city's Advertising and Library Board also backed SPJC, to the tune of \$15,000.

Board members managed the corporate affairs until the first election, when Brown was named board president, Francke vice president, Robinson treasurer and Wylie secretary. Lynch, who eventually rose to county superintendent, remained president of the College until his death in 1935. At that time, Robert B. Reed, whom Lynch had selected as dean of the College, was appointed by the board as the second president. G.V. Fuguitt succeeded Lynch as county superintendent. The informal relationship between the College and the Pinellas County Schools continued.

COLLEGE PROGRAMS

In the beginning, advice was sought from educators at the University of Florida regarding the type of college to be created. They recommended a two-year college, noting that it would be much less expensive

to operate than a four-year institution. Lynch and the board agreed, but clung to the idea that SPJC would become a four-year college as soon as it was financially feasible. In the 1927 catalog, the goal of the College read as follows:

. . . to afford opportunity to the young men and young women of St. Petersburg and Pinellas County who have completed the 12th grade course of study, to continue a two-year program of study of college grade, leading to the degrees of Bachelor of Arts and Bachelor of Science. Non-resident students will be admitted upon certificate showing that they are living with their parents, legal guardians or relatives.

Students who attended the College planned to graduate in arts and sciences. At the time, there were no separate academic departments, but the curriculum comprised history, English, mathematics, science and education. Students would either transfer to a four-year college or university to complete their baccalaureate degrees or receive a teacher's certificate permitting them to seek employment in elementary and secondary school classrooms. As noted by State Superintendent of Public Instruction W. S. Cawthon in 1928:

This office will recognize graduates of the St. Petersburg Junior College . . . and will issue limited Graduate State Certificates to the said graduates, said certificates authorizing the holders thereof to teach in the public schools up to and including the tenth grade.

The College became fully accredited in 1931. Preparation for transfer to four-year colleges was strengthened in September 1933 by the addition of a third year to the curriculum, a year recognized under certain provisions by the University of Florida. In 1934, the third year of college was similarly recognized by the Florida State College for Women (now Florida State University). The additional year of the curriculum was dropped at the end of the 1938-39 academic year because it had become evident that expenses progress geometrically not arithmetically. The Board of Governors determined to maintain a strong, high-standard, two-year college and abandoned further efforts to seek four-year status.

FACULTY AND STUDENTS

The opening-day enrollment in Fall 1927 was reported by both the local newspapers as 102. The first class was held Sept. 12. W.W. Little, principal of St. Petersburg High School and acting college dean, was in charge of 14 faculty members. By 1928-29, Robert B. Reed had been appointed dean, and taught history while performing his administrative duties. That fall (1928), 186 students enrolled; the following June, 50 students proceeded down the aisle as the charter graduating class. The College granted diplomas, a practice that continued until June 1946 when the first Associate in Arts degrees (44 in all) were awarded. Opening fall enrollment grew from 173 in 1930 to 389 in 1939.

At the beginning of the fall semester in 1941, enrollment stood at 317. In early December, the United States was drawn fully into World War II. SPC's enrollment dropped sharply, reaching a low of 98 students — almost all of them women — in the Fall of 1943. The College avoided closure by becoming an integral part of the war effort. A Civil Aeronautics Administration/War Training Service (CAA/WTS) installation was established. Each six weeks, 60 naval V5 cadets rotated through the College for part of their early training. Housed in an old hotel near Albert Whitted Airport on the city's bayfront, they received their first experience as pilots while attending "ground school," which included navigation, plane recognition, physical training and naval procedures relevant to their objective. Those hundreds of young men enabled the College to remain open.

Upon the death of President Reed in 1944, Roland A. Wakefield, head of the College's Department of Physical Sciences since 1933, was appointed president. Wakefield's interest in aviation had taken him during the war from SPC's labs and classrooms to Atlanta where he served as the Civil Aeronautics Administration/War Training Service regional coordinator. He was a key figure in bringing naval cadet training to SPC. He had been back at the College only a few months when he was called on to assume the presidency.

War's end brought the College's largest-ever enrollment as returning veterans took advantage of the GI Bill. Fall enrollments in 1946 and 1947 were 452 and 460, respectively. As Wakefield retired at the end of the 1949-50 academic year, 88 students graduated. He was succeeded by Dean of Men Michael M. Bennett, Class of '37, a faculty member since 1940 and the first president to have been an SPC student.

FACILITIES

When classes began in Fall 1927, City School Supt. Lynch had persuaded the Pinellas County School Board to provide the College free space in one unused (and unwired) wing in the then-2-year-old St. Petersburg High School. At the end of that fall term, students and faculty moved from their borrowed space to a former public school at Fifth Street N and Second Avenue downtown, overlooking Mirror Lake. This mid-year move to downtown — into a two-story, white-columned brick building — gave the College much more room. SPC remained at this facility for 14 years, until January 1942, but the quarters grew cramped in short order. It became clear much more space would be needed. In 1931, the City of St. Petersburg pledged an annual grant of \$15,000 to the College, and six years later it donated a 24-acre tract in the city's Eagle Crest section, overlooking Eagle Lake. President Reed initiated a building campaign in 1938 that over time raised about \$100,000 in pledges made by St. Petersburg residents and businesses.

The first permanent new building — housing classrooms, offices, the library and an auditorium named for Captain Lynch — was erected at what is now the corner of Fifth Avenue N and 66th Street. Built with WPA labor, it cost \$91,000; equipment worth about \$100,000 was transferred from the old building, mostly during the December 1941 holiday break. The new building and its contents were valued at a quarter of a million dollars. The first classes were held there in January 1942. A small, temporary cafeteria building also was built. These two buildings (plus a limited library first occupied in 1955) constituted the College's total facilities until 1957.

The original building, still in use today, is known as the James E. Hendry Administration Building on the St. Petersburg/Gibbs Campus. Renovated and air conditioned in 1963, it houses administrative offices, conference rooms and faculty offices. More additions and renovations to the building were made in 1991 and 1992. In 1993-94, multimillion-dollar renovations of the other buildings on campus got under way and are continuing. The Lynch Auditorium underwent major renovation and redesign in 2000, to become St. Petersburg College's acoustically splendid, 300-seat Music Center. Greatly enhancing it are the two new Steinway concert grand pianos purchased that summer. The college's Theatre program, meanwhile, was transferred to the Clearwater Campus and renovations were made to the campus' Fine Arts Auditorium, giving the program an impressive new home. Sadly, however, revenue shortfalls dictated discontinuance of the Theatre program (and other cutbacks as well) in 2002.

FROM PRIVATE TO PUBLIC

The wave of returning veterans subsided toward the end of the 1940s. The College began losing superior faculty to better-paying positions at other colleges and universities. Demographics pointed to

fewer college-age people for at least the next decade. This was the result of low birth rates during the 1930s. Tuition increases necessary to maintain the operation of the College proved counterproductive by further depressing student enrollment. Prosperity was not evident in the College's service area; hence, outside financial support for a private two-year college was extremely difficult to generate.

The Florida Legislature, in 1939, had adopted a law authorizing counties with a population of 50,000 or more to establish a public junior college, with permission of the State Board of Education. Then, in 1947, the Florida Legislature passed the Minimum Foundation Program (MFP), which provided financial support for operation and capital outlay (construction) for Florida public schools. On May 11, 1948, the Pinellas County Board of Public Instruction adopted a resolution accepting the College. SPC converted from private to public status, the second junior college (after Palm Beach Junior College) in the state to make the change. At that time, the Board of Governors of the College dissolved the corporation and released all existing facilities to the school board. L. Chauncey Brown remained president of the Board of Governors, which had consisted of 12 members. The Board became the College Advisory Committee, in accordance with Florida Statutes Chapter 230.0103 and State Board Regulations Chapter 130-8.04, with Brown as chairman. Others on the five-member Advisory Board: Frederick R. Francke, Allen C. Grazier, Robert R. Walden and George W. Wylie, all former members of the Board of Governors.

With the change in status from private to public, the College became part of the school system with the president reporting to the Pinellas County Superintendent of Public Instruction. Shortly after SPC became public, G. V. Fuguitt retired from that post. Floyd T. Christian was elected to succeed him. During the College's tenure under the County School Board, tuition was lowered.

Although the Florida Legislature authorized creation of the Division of Community Colleges in the State Department of Education in 1957, it was not until July 1, 1968 that it authorized the separation of the colleges from their county school systems. At that time, the College Advisory Committee of five members became the College's District Board of Trustees.

At the state level, the Florida system of 28 community colleges underwent various reorganizations to ensure its efficient and effective operation. In 1983, the Legislature replaced the State Community College Coordinating Board with the State Board of Community Colleges. This preserved local control, represented by local boards of trustees, while at the same time established system-wide policies and coordination.

In 2001, as part of a sweeping reorganization of Florida's educational administration, the Legislature replaced both the State Board of Community Colleges and the State University System's Board of Regents with the Florida Board of Education. The Board of Education is now the overall governing board for public education in Florida and is charged with maintaining a seamless K-20 system for all Floridians. (However, in November 2002, Florida's voters did reinstate the regents -- renamed the Board of Governors -- to "operate, regulate and control" the State University System.) Meanwhile, the Division of Community Colleges of the Department of Education remains as the statewide body to provide leadership and support to Florida's independent public community colleges.

AND IT GREW

EXPANSION OF THE COLLEGE MISSION

Pinellas County experienced unprecedented growth during the 1950s and the College was swept along with it. In Fall 1950, the first year of President Michael Bennett's administration, 451 students enrolled; at the start of 1977-78, the last academic year of his presidency, 13,288 students signed on.

During his 28-year tenure, enrollment increased almost 3,000 percent. Additionally, during those 28 years, 25,449 degrees were awarded. This compares to 1,450 students who had graduated from 1928-29 through 1949-50 – an increase of more than 1,750 percent.

As part of the Self-Study of 1957-59, the faculty formulated a college philosophy and a set of institution-wide objectives reported in the *1958-59 College Bulletin*. Acknowledging its relationship to the county schools, the College noted that its philosophy was contingent upon the Statement of Philosophy of Education for the Schools of Pinellas County, Florida. Moreover, it recognized an expanded responsibility to the individual. The College's mission was stated in the following manner:

St. Petersburg Junior College shares a responsibility with the community, county, state and nation in contributing to the development of the individual student so that he (she) has the opportunity to become a useful citizen, to make worthwhile contributions to society and to live a rich and satisfying life.

The purpose of the College is threefold: (1) to provide community educational facilities for those who may wish to transfer and continue their college education; (2) to provide community educational facilities for those who wish to terminate college work at the junior college level; and (3) to provide the entire community with an educational program based upon its needs and demands.

The catalog listed seven enabling objectives to achieve the College's purpose and one objective describing a method to measure their attainment. These objectives affirmed the commitment to a college transfer program comparable to the lower-division program available in four-year colleges and universities, a terminal college curriculum that would lead to employment, and non-credit lifelong learning courses that would facilitate changing vocational and social needs.

The College rigorously developed its programs to meet its new educational vision for the next 20 years. It was not until the *1978-79 College Bulletin* that a major change appeared. While the objectives previously stated were reaffirmed, attention was given to students who might profit from special opportunities, including instruction to overcome deficiencies that might impede college-level work. The following six objectives were identified in the bulletin for the College:

- (1) To provide educational opportunities for those students who will transfer to other colleges to continue their education.
- (2) To provide a variety of occupationally oriented programs for students who complete their career preparation at St. Petersburg Junior College.
- (3) To provide opportunities for students who desire to increase their general education.
- (4) To provide opportunities for cultural enrichment, personal and social development for members of the community.
- (5) To provide special opportunities for students with superior qualifications as well as for students with inadequate skills and backgrounds who need additional training to participate in the general programs of the college.
- (6) To provide, through counseling, guidance, which will enable students to plan more effectively for the realistic attainment of their academic and personal goals.

These objectives became the foundation upon which a more comprehensive mission would emerge in the next stage of the College's development.

COLLEGE PROGRAMS

As enrollment grew, the College undertook the development of an expanded curriculum. The School of Nursing was founded in 1954 and Anastasia M. "Nancy" Hartley, R.N., was named director. It offered the first associate degree in Nursing in Florida. In addition to the two-year program in Nursing, occupationally oriented programs in business were developed.

Although Article II of the Application for Charter in 1928 called for ". . . a department of fine arts; and such other departments as from time to time may be added . . ." it was 1956 before SPC became departmentalized. Table 1 shows the first organization of the College.

TABLE 1
COLLEGE'S FIRST DEPARTMENTS, 1956

³ Dean of the Division

The 1960s saw continual change in the College's organization. In 1960-61, the Department of Communications was renamed the Department of English and continued to be headed by M. Carolyn Parker. All speech, dramatics and modern language courses were placed in the new Department of Speech and Modern Languages chaired by Roberta M. Buchanan. In January 1965, this department was placed in the Department of Humanities and Peter Mendoza Jr. was named assistant chairman for Speech and Modern Languages.

Also in 1960-61, the Department of Business became the Department of Business Administration. The following year, the Department of Radio, Television and Film became the Department of Radio and Television, chaired by Robert C. Bohan.

The '60s saw the creation of several new departments as well. In 1960-61, the Department of Physical Education was created, chaired by Eleanore M. Gehlen. Joan Catherman was employed in 1962 as director of the new Dental Hygiene Division, to plan for the implementation of classes during the 1963-64 year. The Department of Police Administration was created in 1962 with James D. Stinchcomb as chairman. In 1963, Harold V. Hoff was employed as chairman of the new Hotel-Motel-Restaurant Department. Enrollment began in 1964.

Two courses in data processing were offered in 1964-65, and in 1966 the Data Processing Department was established with Wayne Laurents as chairman. Beginning with the 1965-66 academic year, the College instituted a remedial Program of Directed Studies for students with ability whose educational background evidenced academic weaknesses. Courses were developed that focused on the use of programmed and non-programmed instructional materials to strengthen students' basic skills as well as study skills.

The College became a three-campus institution in Summer 1965. The Clearwater Campus opened on Drew Street, and in south St. Petersburg the College - at the county's behest -- assumed jurisdiction over Gibbs Junior College (which would become SPC's short-lived Skyway Campus). Clearwater Campus departments activated with its opening are shown on Table 3.

Gibbs Junior College was an all-black institution that had been started in 1957 as part of a 12-member, state-funded network. It was located on the campus of Gibbs High School in south St. Petersburg and, during its brief existence, served thousands of students from around the Tampa Bay area. Among its distinguished graduates: Walter Smith, who became president of Florida A&M University, and Calvin D. Harris, a provost and vice president at SPC who would be named by Gov. Lawton Chiles in 1997 as the first black member of the Pinellas County Commission. Gibbs Junior College, later SPC's Skyway Campus, was disbanded in 1967 and effectively merged into the College as the crumbling walls of segregation fell. Most of Gibbs' faculty and staff were absorbed into SPC's other two campuses.

In 1967, several organizational changes occurred on the Clearwater and St. Petersburg campuses. In January, the Humanities Department was established on the Clearwater Campus with Donald L. Bisdorf as chairman, and the Communications Division became the English Department. On the St. Petersburg Campus, two assistant deanships were created under the Dean of Instruction -- one for Technical-Related Programs and one for Health-Related Programs. The Hotel-Motel-Restaurant, Radio-Television, Police Administration and Electronic & Mechanical Technology departments were placed under Technical-Related Programs. The Dental Hygiene and Nursing departments, as well as two new programs, Inhalation Therapy and Hospital Care Administration, were placed under Health-Related Programs.

On the Clearwater Campus, Leroy M. DeVane was named Assistant Dean of Instruction for Governmental Services. The Data Processing Department and the new Aerospace Technology Program were placed under Dr. DeVane. A new program in Pre-School Education was begun on both the Clearwater and St. Petersburg campuses. Its purpose was to prepare competent instructional personnel for community, private and church-related pre-school institutions and to provide in-service opportunities for pre-school classroom teachers.

Much program expansion occurred during the Bennett administration. The programs on the St. Petersburg and Clearwater campuses at the time of Michael Bennett's retirement (January 1978) are shown in Table 5.

In addition to those shown, the Program for the Deaf and Hard of Hearing had been created at the Clearwater Campus, coordinated by Calvin Harris.

FACILITIES

As enrollment increased, so did the need for construction of additional facilities. A direct appropriation by the Legislature in 1954 resulted in the start of new construction. The St. Petersburg Campus acquired a small new library that was occupied in 1955. Five separate parcels of one to five acres were purchased for \$360,742, extending the campus from the original 24 acres to 37.58 acres. The largest of these parcels was the off-campus site that contained the Physical Education building, running track and swimming pool. (The pool was razed in 1999.) Today, the campus has 17 buildings.

In 1953, as a result of requests from people living in the Clearwater area, nine evening classes were offered at Clearwater High School. Eighty-eight persons registered for the first session, and course offerings were increased each semester as the needs and interests of the northern Pinellas students were identified. During the 1959 Fall semester, 113 students were registered in 14 evening classes at Clearwater High School. After considering the current enrollment and projected growth of Pinellas County, the College Advisory Committee recommended a Clearwater campus be established. In July 1959, a request was made to the State Department of Education for permission to plan a campus in north county. After a study of enrollment projections for the next 10 years and a survey by the Department of Education, the plan for a campus in Clearwater was approved, located 14 miles north of the campus in St. Petersburg.

In 1962, a tract of land was selected and acquired through purchases and gifts. In 1964, construction began. The 38.3 acres north of Drew Street were purchased from the county for the token sum of \$1; the 34.5 acres south of Drew Street were purchased for \$226,008, with the City of Clearwater paying \$127,000 of this amount. During the second session of 1964-65, 532 students taking 35 evening classes were moved onto the new campus and day classes were held there for the first time. In 1968, a parcel of one-half acre was purchased for \$1,275 for parking; in 1969 the Faith United Church of Christ next door donated a similar parcel, also to be used for parking. The Clearwater Campus today encompasses 73.87 acres and contains 17 buildings. Its long-time provost — Dr. Vilma Zalupski, who retired in 1996 — was the first woman provost to be named in Florida.

In February 1965, Gibbs Junior College was placed under the supervision of SPC. By summer it had become the Gibbs Campus of St. Petersburg College. In 1966, the campus name was changed to the Skyway Campus. For economic reasons, however, this campus – located at St. Petersburg's Gibbs High School – was phased out of operation in June 1967. In February 1993, SPC's St. Petersburg Campus was rededicated as the St. Petersburg/Gibbs Campus, to honor the contributions Gibbs Junior College, its personnel and its alumni have made to St. Petersburg College and the Pinellas County community.

Although operating three campuses, St. Petersburg College remained a single institution with a central administrative organization. It was felt this one-college concept could best be maintained by having central administrative offices. In July 1966, the Pinellas County Board of Public Instruction purchased a 9.47-acre site in Pinellas Park for this purpose. Construction of two office buildings was started in 1967. These offices were housed in a mid-county location without specific physical identification with any campus. They were occupied in August 1968.

Early in 1970, the mayor of Tarpon Springs approached President Bennett about the possibility of opening a college site there. A study was made and, meanwhile, a special relationship was formed between Tarpon Springs banker-philanthropist A. L. Ellis and city officials. The result: establishment of the Tarpon Springs Center, rent-free to the College, on the second floor of the Ellis Springs State Bank in the fall of 1970, to operate for a provisional three-year period. Later, the city's Rotary Club provided additional space in the Rotary Youth Center. On Oct. 19, 1972, the College purchased a tract consisting of 54.17 acres on Klosterman Road for \$328,000. Seven buildings with more than 21,000 square feet rose on the site and the new Tarpon Springs Center opened in Fall 1975. Today it contains more than a dozen permanent structures augmented by portable facilities. A major addition to the campus -- one of significance to the entire area -- was completed early in 2002. The Leepa-Rattner Museum complex houses the Leepa-Rattner Museum of Art, the Arts Education Center and the campus' new, larger Michael M. Bennett Library. The campus area also has grown through the acquisition of 18.6 adjacent acres. Only this past summer, its provost, Nick Billiris, retired after being on the job since the second year of operation. His successor is Bob Ramsay, an academic dean at the College in the 1980s. He took early retirement in January 2003 as chancellor of the Alamo County Community College System in San Antonio, Texas, in order to return to Florida.

In August 1970 and February 1971, the College purchased tracts of 81.4 and 21.72 acres, respectively, within the Seminole community. Construction of a new campus began in 1997, under the watchful eye of its newly named provost, Jim Olliver. The initial building – a model of educational technology – opened to students in August 1998. The 24,000-square-foot Technology Learning Center contains computer and interactive-TV classrooms, a multimedia conference room and a 120-computer video station known as the Information Commons. Work on Phase II of the Seminole Campus has resulted in completion of the three-story C.W. Bill Young University Partnership Center (UPC), which is the College's largest building and is named for the longtime congressman from Indian Rocks Beach. In charge of the UPC is Lars Hafner, an SPC associate vice president who also became the College's athletic director in July 2003.

The Bay Pines property of 55.21 acres, only 15 of which are above the mean high water mark, was acquired in December 1973 by a quitclaim deed from the federal government. The two buildings on the property serve as college storage and as a classroom for the county's Life Skills Program. This program provides life skills training for retarded adults past the age of 21. It is under the direction and co-sponsorship of SPC's Open Campus and the Pinellas County School Board. For the past six years, the program also has been offered at the St. Petersburg/Gibbs Campus.

AND LOOKED TOWARD THE FUTURE

President Bennett's Jan. 31, 1978 retirement was followed in May by the appointment of Carl M. Kuttler Jr., J.D., a 12-year administrator who at the time was serving SPJC as Dean of Administrative Affairs. Dr. Kuttler, Class of '60, was the second graduate of the College to be named to the presidency.

COLLEGE MISSION

In 1987, the District Board of Trustees adopted a new mission statement that affirmed St. Petersburg College as a comprehensive, open-door institution with a policy of providing quality educational experiences to a diverse student body and community. The original goal of the College (to prepare students to transfer to four-year institutions) continued, as did the goals previously established regarding the preparation of students for entry into a job or career, the upgrading of students' occupational skills and the strengthening of their basic academic skills. Additionally, the mission statement addressed the need for flexibility and innovation in the way services were provided, the integration of educational goals into lifelong learning, and the encouragement of minority students to utilize the College's available resources and opportunities.

During the 1993-94 school year, a committee was formed to review the College's mission. A new statement of that mission stated that the goals of the College were to:

- Prepare students for transfer to upper division baccalaureate programs at four-year colleges and universities through the Associate in Arts degree program.
- Prepare students for careers requiring postsecondary education through Associate in Science and selected Certificate programs.
- Prepare students for responsible and ethical citizenship, directed interaction in the diverse community, participation in the global society, effective involvement in life activities, and informed decision-making through general education courses.
- Provide underprepared students with opportunities to achieve entry-level skills in reading, writing and mathematics through the college preparatory programs.
- Provide opportunities to improve employability, enhance career skills, and attain personal enrichment, through courses, seminars, workshops and other continuing education programs offered throughout the community.
- Help students choose appropriate courses, programs, services and activities as well as maximize their opportunity to succeed in college through a comprehensive student development program.
- Contribute to the economic development of the county through technical courses, workshops, programs and services designed to enhance the competitiveness of individuals, businesses and industries in the local, state, national and global economies.
- Contribute to the international education of students through a variety of courses, foreign study tours, faculty and student exchanges, linkages with international institutions and other special programs.
- Serve target populations beyond the borders of Pinellas County through authorized programs and activities that emanate from the institution's history of service and specialized expertise.

(With the College's changeover in 2001 to four-year status, a revised Mission Statement became necessary, but because of the College's continuing commitment to the preservation of its two-year programs, much of the wording remained intact.)

COLLEGE PROGRAMS

Under the Kuttler administration's leadership, Open Campus – a flexible system for providing educational services – was established to meet the growing needs of the community for lifelong learning. This program provides credit and non-credit courses, workshops and seminars on the College's campuses and at business sites throughout the county to meet existing community needs. It includes the Corporate Training Center as well as the College for Kids Program, the Dual Credit Program for high school students, and other continuing education classes for job training and fun.

Today, the programs leading to the Associate in Arts degree are the traditional transfer programs with concentrations in, among others, art, arts and sciences, architectural/building construction, business administration, computer science (business option), corrections, early childhood development, education, engineering, corrections/criminal justice, English/humanities, fashion merchandising, fire administration, forestry, gerontology, human services, social work or occupational therapy, industrial arts education, international business, law enforcement, mass communications, mathematics, medical technology, music or music education, natural science, nursing, occupational therapy, pharmacy, physical therapy, speech/audio pathology, pre-dental, pre-medical and pre-veterinarian. These programs meet all the requirements of the general education component for the baccalaureate degree.

The College has dozens of Associate in Science programs that prepare students for entry-level jobs. All are listed in the current catalog. Altogether, today's students can choose from more than 260 academic areas of study in the A.A. and A.S. areas.

Additionally, the College offers a growing set of certificate programs that in 1997 expanded more than sixfold. Currently, 62 programs are grouped under these five headings: Marketing, Business Tech and Computer Science, Industrial, Health Care, and Public Service.

And, since August 2002, the College has offered bachelor's degrees in Education, Nursing and Technology Management. The baccalaureate programs were developed during the year following June 6, 2001, when the College officially became a four-year institution and dropped the "Junior" from its name. The programs became accredited by the Southern Association of Colleges and Schools in December 2002, and St. Petersburg College's first four-year graduates – nine of them, all in Technology and Management – received their degrees in July 2003. The establishment of additional four-year programs is under study.

In 1989, SPC launched Project Flamingo, a collegewide, comprehensive approach to integrate computer technology in a totally networked, standardized environment. The plan was created to enhance the curriculum and teaching-and-learning process, strengthen the administrative systems and improve campus communications. This multi-year computer project was developed with the considerable help and cooperation of Apple Computer, Unisys and the Digital Equipment Corporation (DEC), who among them contributed more than \$3-million in equipment to the College. Through the project all of the College sites became interconnected, enabling the majority of faculty and staff to use the new tools of technology to enhance quality and improve productivity. Its major purpose: to promote excellence in teaching and learning by incorporating computers, CD-ROM and laser disk technology into the curriculum as instructional tools, through a collegewide fiber network.

In the wake of Project Flamingo, the College has launched a number of other administrative and academic computing initiatives: Project Horizon; SPIRIT (St. Petersburg Junior College Interactive Registration & Information by Technology); Project Connect, an initiative to upgrade the College's network connections and provide high-speed computers to all college faculty; a new PeopleSoft-driven administrative finance system; and a new Human Resources and Student Registration system using PeopleSoft software to serve the College well into the next millennium. Many of the concepts that began with Project Flamingo have come to fruition in concert with the development of the Seminole Campus,

which has as part of its vision all curricula and services being either delivered or enhanced significantly via technology.

FACILITIES

During the first year of the Kuttler administration (1978), SPJC asked the voters of Pinellas County to approve, by referendum, a temporary, additional 1/2 mill in property taxes for college improvements. Despite predictions of failure from some quarters, the referendum passed and the College was able to accomplish some much-needed renovations with the new funds.

In an effort to respond to the growing demand for health care providers and to make more effective use of resources, the College petitioned the Florida Legislature for funding to purchase and remodel three buildings at the former Webb's City retail complex in Pinellas Park. A special \$6.5-million appropriation from the Legislature was obtained and the College acquired 170,000 square feet of floor space for its Health Education Center. In addition, a capital campaign, begun in 1981 and completed in 1986, raised \$3.5-million, including a significant gift from Mr. and Mrs. W.W. Caruth Jr. (for whom the Health Center later was named).

In the summer of 1981, 10 of the existing 11 health care programs were moved into the new center and classes began that August. The 11th program, Veterinary Technology, occupied its building in August 1983. The College since has acquired additional property for parking space, plus two additional properties fronting on 66th Street N. All of the buildings on the 11.63-acre tract have undergone renovation. The library area has been expanded into the newly renovated space and includes the M.M. Bennett Library/St. Petersburg Times Media Center. A \$400,000 overhaul of the center's parking lot was completed early in 1994. In 1999, major renovations were done to the Vet Tech area and construction was finished on the new \$1.4-million teaching auditorium. The latter also is made available to the public for meetings and other gatherings.

The expansion of the College's Corporate Training program led to the establishment of the Corporate Training Center in the Carillon office complex north of St. Petersburg in Winter 1988. That facility now has evolved into the new Corporate Training Center located at the ICOT Center business park located just north of Ulmerton Road and immediately accessible to clients in St. Petersburg, Clearwater, Largo and Pinellas Park – with a straight shot to Tampa. The new facility opened in mid-year of 1998-99. The 7,000 square feet of space house class and conference rooms with full computer, teleconference and dining facilities.

In July 1988, the Allstate Insurance Company turned over to the College the keys to its former regional office facility in south St. Petersburg. The 131,344-square-foot building on 20.85 acres was valued at more than \$11-million. At the time, it was the largest property gift ever made to a Florida institution of higher learning, and the largest ever to a U.S. community college. Extensive renovation concluded in 1991. The Allstate Center houses the Central Computer as well as the Open Campus program and the College's Southeastern Public Safety Institute (law enforcement programs). The Institute's state-of-the-art firing range was completed in 1995. Next door to Allstate, the former American Heart Association building was purchased in 1998 to house offices for the Florida National Guard, which is engaged in a number of programs at the center. Also housed at Allstate is the National Terrorism Preparedness Institute, which gained new relevance following the attacks of Sept. 11, 2001.

EXPANDED HORIZONS

In January 1987, St. Petersburg College played host to the first "Roundtable on Institutional Effectiveness." A dozen national experts on higher education and community college administration, led by former U.S. Secretary of Education Terrel Bell and Director John Roueche of the Community College Leadership Program at the University of Texas/Austin, met to develop future directions for SPC.

Within a year, the College held the second of these conferences. The "Roundtable on Educational Partnerships" brought together leaders from national organizations representing American post-secondary education. Together they analyzed the ways SPC had successfully addressed many of the education and training issues facing the local community.

The second roundtable led to a request from William H. Meardy, executive director of the Association of Community College Trustees (ACCT), for material relating to the College's presentations at the conference. Administrators, faculty and board members responded, providing 46 pages of information about SPC, its programs and accomplishments. Published in the *ACCT Journal*, this marked the first time an issue of that publication was devoted exclusively to a single institution. Director Meardy wrote: "Those of us who were expecting a 'typical' community college found out our expectations were wrong. St. Petersburg Junior College is anything but 'typical.' Words such as 'outstanding,' 'amazing,' 'innovative,' 'creative,' 'first class,' 'exemplary,' 'trend setting' and 'community centered' describe SPJC, but 'typical' it is not. What we found was a college replete with such an abundance of human services and educational programs that we were awed."

Ten years later, in November 1998, a third roundtable was convened. Meeting at the Bilmar Beach Resort on Treasure Island, the conferees turned their attention to "Focus on Learning: Planning the Community College for the 21st Century." Implicit in the theme was the idea – the reality, actually – that faculty must come to regard themselves as learning guides and abandon their old image of teaching authorities. Among the presenters were Denver Community College President Byron McClenney, Vice President Kay M. McClenney of the Education Commission of the States, North Seattle Community College's Rita Smilkstein, prominent Florida architect David Michael Harper and Visions Inc. President James Riskowski, head of one of the nation's leading educational technology consultancies.

In 1982, Tom Gregory (a future Chairman of SPC's Board of Trustees, who earlier had chaired the Florida Ethics Commission) and President Kuttler were attending a national conference of college trustees. They heard one of the speakers – Dr. Paul Ylvisaker, former Dean of Harvard's Graduate School of Education – outline the rationale for an Applied Ethics program. They introduced the idea to the Board of Trustees, who approved the creation of the College's Applied Ethics program. In January, 1985, the first classes convened. Since that time, more than 75,000 SPC students have taken an ethics course. Dr. Ylvisaker, visiting in 1987, was able to see firsthand, and affirm for faculty and staff, the program he had inspired. The basic course, *Studies in Applied Ethics*, was set at three hours and was required for all students seeking A.A. degrees. It possibly was one of the first such courses in the country to be required for graduation. It since has become required of A.S. degree candidates as well.

Finding no satisfactory applied ethics text, the College authorized the writing of one. In July 1993, *Ethics Applied* -- written by 17 specially commissioned authors from around the country, including three of our own faculty -- was published by McGraw Hill. A revised edition, 2.0, featuring three authors of national prominence, was published by Simon & Schuster in 1999. This was followed by another text to meet the growing business ethics market -- *Business Ethics Applied*. The original text, *Ethics Applied*, is now in its fourth edition, and the major revisions are the work of four College faculty. *Business Ethics Applied, Edition 2.0* was released in the fall of 2004 and is now in use. Published by Pearson Education, SPC's ethics texts are marketed nationally by Pearson Education and Prentice Hall, and are used by a number of colleges and universities throughout the country. The Applied Ethics program has expanded to include 10 courses, taught by seven full-time faculty members and a number of adjunct instructors.

The College's Central American Scholarship Program (CASP), established in August 1987, welcomed 16 students from modest backgrounds as its first class. The two-year program, which stayed in place at the College for a dozen years, gave students the academic and vocational education needed to help improve their families' standard of living on their return. While here, each student lived with an American family, which greatly helped them adapt to "life in the States." Initiated by Georgetown University, CASP was funded by the U.S. Agency for International Development.

St. Petersburg College and the American Association of Community and Junior Colleges worked together to offer the first national conference on "The Role of the Community College in Shaping the Nation." Held at the Jimmy and Rosalyn Carter Center in Atlanta, it brought 200 educational administrators and public officials together at the research/conference complex to discuss national and international issues as they relate to the education of the nation's college students. In a message to the gathering, former President Carter noted that better preparation of students holds the key to the United States regaining its competitive edge in world markets and adapting to the evolving global economy.

In 1989, former U.S. Secretary of Education Terrel Bell accepted the College's invitation to chair its FACET Commission (Focus on Access, Community and Excellence in Teaching). He agreed to work with the University of Texas' Dr. John Roueche in guiding the College's faculty, staff and students. The purpose of this project was to insure continued educational excellence into the next century. Over several months, commission members met to discuss teaching effectiveness, evaluation of teaching performance, recognition of teaching excellence, and professional development. Their published report provided invaluable direction for the College.

In October 1989, the College and the American Association of Community and Junior Colleges co-convened their second leadership seminar, at the Gerald R. Ford Museum in Grand Rapids, Mich. "Workforce 2000" looked at the future economy in terms of the people and forces that will make it function. Included in the topics discussed were the role of technology, the importance of a quality workforce in a global economy, and the blending of enterprise and education.

In the international arena, as the breakup of the Soviet Union brought about profound changes in the structure of institutions within Russia, SPC leaders envisioned a joint educational venture between the College and the Russians. In June 1990, President Kuttler and the president of Leningrad State University exchanged visits. (The project grew out of conversations the previous spring between Dr. Kuttler and a Leningrad State law professor, Valery Musin, who was visiting Dr. Kuttler's alma mater, Stetson College of Law in St. Petersburg. Musin resided for a time at Dr. and Mrs. Kuttler's home.)

Dr. Kuttler spent two weeks in Russia in Fall 1990, and served as honorary rector of Leningrad (now St. Petersburg) State University. Among the many notables he met was St. Petersburg (*nee* Leningrad) Mayor Anatoly Sobchak, a leading political figure in the post-Gorbachev era. The Russians reciprocated that fall with a delegation led by Leningrad State University President Stanislav P. Merkuriev, who was named SPC's honorary president, and Mayor Sobchak. The Russian entourage met with many educational, civic and business leaders during their U.S. visit.

In June and July of 1991, Dr. Kuttler visited Baoji Teachers College in Baoji, Shaanxi, China. Dr. Yang Yijun, the college's president, returned that visit to St. Petersburg College in March 1992, and was named honorary president. SPC Communications Instructor Jeff Hooks and his family spent a year in residence at Baoji, and other Chinese have visited here since.

At the invitation of the State Department's U.S. Information Agency, Dr. Kuttler returned to Russia in May-June 1993 to assist the Russians in setting up a national community college system to help speed

economic reform and development. His efforts resulted in his being named "Father of the Community College System in Russia," by that country's national education leaders. While there, he also arranged for future visits and exchanges on the part of educators and other representatives between Russia and the College. A campus in the "other" St. Petersburg is a long-term SPC objective. President Kuttler was chairman of the Advisory Committee for the "300-100" festival to commemorate the 300th birthday of St. Petersburg, Russia and the 100th anniversary of the 1903 re-incorporation of St. Petersburg, Fla. Among their goals were the acquisition of Russian artifacts and recruitment of Russian art restorers for the Florida International Museum, plus creation of a "Russian Cultural Center" there. In addition, the mayor and the College president have invited Russian President Vladimir Putin to visit. (Putin is friends with Dr. Kuttler and, in fact, mentioned him and the College as he spoke at St. Petersburg University during a May 25, 2002 news conference with President George W. Bush that was aired on CNN.)

HONORS, GIFTS, OUTREACH RISE TO NEW PLATEAUS

President Kuttler's national honor in Russia (as "Founder of the Community College System") was the first of several unprecedentedly high honors for the College and its leaders. SPC and the president were presented in February 1997 with the Werner O. Kubsch Award for Achievement in International Education, one of community college education's most coveted commendations. In 1998, Dr. Kuttler was auspiciously honored twice by the Association of Community College Trustees – first on the Southern regional level, and then nationally, as ACCT's "Chief Executive Officer of the Year." This was, in effect, recognition of him as the No. 1 community college president in the United States.

District Board of Trustees Chairman Joseph Lang also brought credit to the College when, in 1993, he received the "Outstanding College Trustee" award from the Florida Association of Community Colleges. The next year, he was given the Association of Community College Trustees' "Trustee Leadership Award" for the southern United States. Three years later, Lang moved up a level. When former DBT Chairman Philip Benjamin retired in 1997 from the Florida Board of Community Colleges, which he had served as charter chairman 14 years before, Lang was appointed by the governor to succeed him. In November 1999, Lang assumed the board chairmanship for a one-year term. He remained on the state board until its dissolution in 2001. He now serves the College as attorney for the Board of Trustees.

In mid-1996, Tarpon Springs retirees Allen and Isabelle Leepa decided SPC was the institution to which they would make a remarkable donation: the Leepa-Rattner Art Collection, plus a gift of \$2.5-million, to go toward establishment of the Leepa-Rattner Museum of Art at the Tarpon Springs Campus. The collection, numbering thousands of pieces, is mostly of abstract expressionist art by Allen Leepa and his late stepfather, figurative expressionist Abraham Rattner, with other artwork by Esther Gentle Rattner, Allen Leepa's mother. But it also contains works by Picasso, Rouault, Chagall, Hans Hofmann and other greats who were friends with Rattner in Paris in the 1920s and '30s. The value of the collection has been put at \$20-million. The gift earned recognition from, among others, the Florida Cabinet, the Legislature, *Fortune* and *Newsweek* magazines, and Microsoft's *Slate 60* online magazine. Groundbreaking for the 58,000-square-foot museum complex – which includes the M.M. Bennett Library and the Fine Arts Education Center – was held Nov. 9, 1999.

The gift generated a decided increase in philanthropic interest in SPC. One notable contribution, made in 1998, was a \$1.9-million collection of rare documents, historic diaries, first editions, television scripts and other items gathered over half a century by Wendell Ware, SPC Class of '39. The material is undergoing computer entry into the College's library system to make it universally available to students. Ware, now retired in California, was a postwar pioneer in the field of microfilm and microfiche.

August and September 1997 marked additional milestones in the life of the College. At summer commencement, the first three graduates of the Veterinary Technology Online program received their

degrees after completing their studies on the Internet from their homes in Leon, Sarasota and Palm Beach counties. (Other students in the program are scattered across Florida, the U.S. and beyond.) That September, SPC rounded out seven decades of service to the community in typical fashion – by further committing to the future. A belated 70th birthday party with a 1920s theme was held in early November on the quad of the St. Petersburg/Gibbs Campus. Hundreds of Pinellas residents attended, including a member of the charter graduating class of 1929, Helen Ormsby Day of St. Petersburg.

Nov. 10, 1998, two notable events occurred. That afternoon at the District Office, the organizational meeting of the Pinellas County Millennium Celebration Project convened. The College was asked to serve as the project's coordinating agency at the request of the Pinellas County Commission. (Commission Chairman Barbara Sheen Todd and Dr. Kuttler were co-chairmen of the celebration project, which extended to the end of 2000 and included the staging of more than 300 events for Pinellas residents.) Earlier in the day, a news conference was held at the Florida International Museum in downtown St. Petersburg to announce that at SPC's and Dr. Kuttler's behest, Robert L. White of Baltimore had agreed to bring his private collection of John F. Kennedy artifacts – said to be the world's largest – to the museum. It went on permanent display in November 1999. The museum also agreed to exhibit part of the College's Leepa-Rattner Art Collection in the future. In tandem with all these developments, the College plans to develop a degree program in Museum Studies that will coordinate with numerous area museums. Much of the success of this venture, however, rides on public and private support.

In late 1998, the College was notified by the American Association of Community Colleges that William Haddad, Class of '51, had been named to receive one of AACC's "Outstanding Community College Alumni" awards for 1999. Haddad, CEO of MIR Pharmaceuticals in New York, was a co-founder and assistant director of John F. Kennedy's Peace Corps, and was assistant director of the Office of Economic Opportunity for President Lyndon Johnson. Earlier in his career, he was an award-winning New York journalist. Before coming to the College, he served as an ensign in the Merchant Marine during World War II and, at age 16, was the war's youngest commissioned officer.

In the final five months of 1998, an unprecedented series of events occurred. The College opened three new learning sites: the new, high-tech Seminole Campus, on wooded property SPC began acquiring more than 30 years before; a "co-campus" on the downtown site of the University of South Florida St. Petersburg; and SPC's Corporate Training facility in new quarters in the ICOT Center business park on Ulmerton Road. Less than a year later, another new facility was opened in Pinellas County's STAR (Science, Technology and Research) Center in Largo.

August 1999 brought establishment of SPC's College University Center, since renamed the University Partnership Center (UPC). It was formed in collaboration with half a dozen four-year colleges and universities statewide. Through the UPC, students were able for the first time to enroll at the College and, via on-campus and distance learning, continue through with their studies to the earning of a bachelor's degree without having to leave Pinellas County. The UPC's first graduates received their degrees in May 2001. Since its founding, its enrollment has grown from a few hundred students to more than 2,200, and the partners have expanded from six to 15: Barry University, Eckerd College, Embry-Riddle Aeronautical University, Florida A&M University, Florida Gulf Coast University, Florida International University, Florida State University, Florida Technological University, Saint Leo University, St. Petersburg College, the University of Central Florida, the University of Florida, the University of South Florida, The George Washington University in Washington, D.C., and Case Western Reserve University in Ohio. Postgraduate programs (including a Ph.D. in Pharmacy) have been added to the curriculum. Heading the UPC is Lars Hafner, Class of '81, a former basketball standout for SPC. He is an associate vice president of Educational and Student Services and the College's athletic director. As a retiring Florida House member in 2000, Hafner was a charter recipient of the Florida Association of Community Colleges' Lifetime Legislative Achievement Award.

A new UPC building on the Seminole Campus was occupied in early 2002. The impressive three-story structure (SPC's largest) also houses the College's television facilities. In a well-attended Feb. 1 ceremony that was beamed live around the world on the Internet, the building was named for U.S. Rep. C.W. Bill Young, R-Indian Shores, who was present. Young, then chairman of the House Appropriations Committee, was instrumental in securing a \$5-million federal grant in 1999 that launched Project Eagle and made the new building possible. Among those saluting him were then-Florida Secretary of Education Jim Horne, who was present, and President George W. Bush, who appeared on tape on the two large screens above the stage of the UPC's state-of-the-art "digitorium." Later that month, Gov. Jeb Bush approvingly toured the building while on a visit to the campus to address a statewide "Roundtable on Reading." September 2002 brought a debate among the state's attorney general candidates to the digitorium stage. It was planned as Florida's first political debate to be both broadcast and digitally "Webcast" live throughout the state.

In 2003, separate disclosures came from the University of Florida that the UPC building would be joined by additional structures. UF's College of Pharmacy announced in February it would build an 8,000-square-foot building to house its Doctor of Pharmacy program that is administered at the UPC. Then in May, the UF College of Dentistry announced it would become a partner at the UPC and would build a 14,000-square-foot building to house its operations there. They will include a D.D.S. program, a dental clinic (accommodating 15,000-20,000 patient visits a year), Continuing Education, and cooperation with SPC's Dental Hygiene program and a planned program in Dental Technology. The UF Pharmacy building opened April 15, 2005.

In the fall of 1999, a remarkable string of honors for College alumni began, linked to the Florida Association of Community Colleges (FACC) and its LeRoy Collins Distinguished Community College Alumni Award for FACC Region IV. SPC alumnus Donald Altieri, president of South Piedmont Community College in North Carolina, was named the winner in 1999. Now retired, he is a member of the Class of '55 and a former Associate Vice President of Educational and Student Services at the College. The following year the award went to St. Petersburg attorney Ed Turville, Class of '34, a former (non-playing) U.S. Davis Cup captain, a past president of the U.S. Tennis Association, and the founder and charter president of the Florida Tennis Association. Turville, who died in August 2003 at the age of 88, served as SPC's college attorney for 32 years (1950-1982). In 2002, SPC won the award for the third time in four years. It went to St. Petersburg attorney Joseph H. Lang, Class of '59. President emeritus of SPC's Board of Trustees (on which he sat for nearly 18 years, more than 10 of them as chairman), Lang also is a past chairman of the Florida Board of Community Colleges. He currently is SPC's board attorney. As was noted earlier, he received Outstanding Trustee honors on the state level in 1993 and on the regional level (southern United States) in 1994.

Lang received his Collins Award at the FACC's annual convention in November in Kissimmee. Honored at that same 2002 convention was President Kuttler, who received the President's Award for Professional Excellence from the association. Another recipient at that same meeting was W. Richard "Dick" Johnston, veteran member and twice chairman of the SPC Board of Trustees. He was the 2002 winner of the FACC's Florida Trustee Award. (He went on to win the regional award, for the southern United States, in April.) Besides his 14 years of BOT service, Johnston has been a member of Florida's Postsecondary Education Commission, Community College Coordinating Board and Postsecondary Education Planning Commission - plus he served on high-level selection committees that chose a new Florida Community College System executive director and two University of South Florida presidents.

Then, in 2004, the College again produced the winner of the Collins Award. Wendell Ware, Class of 1939, became SPC's fourth Region IV titleholder in six years. The 85-year-old World War II veteran pioneered in developing practical uses for microfilm, microfiche and ultrafiche in business, industry and education. Ware since has become a generous benefactor to SPC, and in 1999 donated his collection of

rare documents to the College. It has been appraised at more than \$1.5-million. The M. Carolyn Parker Collection is named for Ware's high school English teacher, who later taught at the College.

Previous Collins Award winners from the College were astronaut Sam Durrance (Class of '67) in 1995 and renowned oceanographer/author Sylvia Earle (Class of '53) in 1997. Other prominent SPC alumni include astronaut-in-training Nicole Passonno Stott, '82; New York ad executive Cliff ("Where's the beef?") Freeman, '61; World War II French Underground heroine Virginia Roush D'Albert Lake, '29; Seminole Community College President Ann McGee, '68; former Congressman William C. Cramer, '43; former Florida Commissioner of Education Doug Jamerson, '77; classical pianist/composer Stephen Montague, '63; and former Florida Secretary of State Sandra Mortham, '71. Award-winning Hollywood actresses Carroll Baker (*Baby Doll*) and Barbara Bosson (*Hill Street Blues*) also attended SPJC briefly, as did Major League All-Star Howard Johnson.

PROGRESSING WITH THE NEW CENTURY

It was announced in January 2000 that SPC was one of eight two-year colleges nationwide to receive a \$255,000 E-Commerce grant from Microsoft Corp. SPC became partners with Microsoft in creating a groundbreaking Associate in Science degree in E-Commerce, plus eight certificate programs, to meet the needs of the corporate and industrial community in the Tampa Bay area. The impact of the College on the state level was exemplified by the announcement that an SPC-produced CD-ROM, *AfterMath: Lessons in School Safety*, has made its way into Florida's middle schools, with a video in development as followup. SPC's Florida Regional Community Policing Institute is producer of both. On the national level, SPC won a top award from CADCA, the Community Anti-Drug Coalitions of America, for the assistance the College has lent in furthering CADCA's mission in support of anti-drug efforts.

September 2000 saw completion of a historic construction project on the St. Petersburg/Gibbs Campus: renovation of the Lynch Auditorium, now housed inside a new College Music Center. After 73 years, SPC gained an acoustically correct hall for its music programs plus an impressively renewed venue for campus and community meetings. Adding luster: the two new Steinway concert grand pianos onstage, paid for with a seven-year set-aside of music laboratory fees and donations from friends of the College. The pianos were followed by the installation onstage, in 2002, of an impressive new German-made Heissler pipe organ. It was made possible through the generosity of longtime Organ Instructor Robert Setzer and other friends of the College. These acquisitions and the renovation signaled a new day for the College's music programs. (The luster gained further gloss in the summer of 2002 when four more Steinways were purchased for use in the Music program's choral, recital and rehearsal rooms.)

When the U.S. Department of Education released its annual community college rankings in Summer 2004, SPC as usual found itself near the top. Even though the College ranks about 30th nationally in size, it placed 10th among the nation's top producers of associate's degrees for all disciplines. It was No. 9 for degrees awarded in health-related professions, No. 12 for degrees awarded in nursing, and No. 6 for degrees awarded in arts and sciences.

The June 6, 2001 signing (by Gov. Jeb Bush) of legislation that turned this institution into a four-year college was arguably SPC's most historic development since its founding in 1927. The lawmakers most responsible were Sen. Don Sullivan, R-Seminole, the legislation's author, and Rep. Gus Bilirakis, R-Tarpon Springs, who guided it in the House. The total legislative package signed by the governor in June signified a sea change for public education statewide as the Florida Board of Community Colleges and the State University System's Board of Regents were abolished. The elected office of Commissioner of Education was eliminated and all public education - kindergarten through graduate school, or K-20, as it is called - was placed under the new Florida Board of Education, which is headed by an appointive secretary. Named to that post by Gov. Bush was former State Sen. Jim Horne, R-Orange Park. (A footnote: In November 2002, Florida's voters approved reinstatement of the regents concept and creation of a

newly named governing body, the Board of Governors, for the public universities. Florida's community colleges continue to be governed primarily by local boards of trustees, with funding by the Legislature.)

SPC and its Board of Trustees ("District" was dropped from the name) remain part of the Division of Community Colleges, because the College is charged with maintaining – and all along has had every intention of continuing -- its mission as a two-year institution. But in accordance with its now-expanded mission, the summer of 2001 found SPC gearing up for the awarding of four-year degrees as well, in Education, Nursing, and Technology and Management. Tom Furlong, who was deputy executive director of the state Division of Community Colleges, was hired as SPC's senior vice president in charge of Baccalaureate Programs and University Partnerships. Accreditation of the baccalaureate programs was acquired with notable speed from the Southern Association of Colleges and Schools in December 2001. By the end of the 2004-2005 school year, SPC's baccalaureate programs had expanded to an even dozen: five in Education, plus Nursing, Technology & Management, Orthotics & Prosthetics, Dental Hygiene, Public Safety Administration, Veterinary Technology and International Business.

Fall of 2001 brought enrollment hikes not seen in a decade – more than 6 percent overall above one year before – and administrators cited several reasons besides the slowed national economy. Among them: the dropping of "Junior" from the College's name; the move to four-year programs; and the expansion of the SPC curriculum aimed at nontraditional students, most notably online courses and certificate courses. Enrollment at the University Partnership Center, meanwhile, climbed 131 percent over the year before, from 650 students to 1,502.

The College was involved in the aftermath of the Sept. 11 terrorist attacks on New York City and Washington, D.C. Four representatives from SPC's National Terrorism Preparedness Institute at the Allstate Center were sent to the World Trade Center site to learn more about the relief and rescue efforts there. They worked with four NTPI adjunct instructors to produce a 90-minute training video that was sent to an estimated 2-million rescue workers across the country.

More than 70 years of tradition took a slight turn in October 2001 as the Board of Trustees, following up on the dropping of "Junior" from the College's name, chose a new SPC mascot, logo and seal. The team name of "Trojans" was dropped in favor of "Titans," while the logo was overhauled to reflect that change in double-gender fashion (silhouettes of a male and female Titan). The College seal was altered only slightly, the major change being the absence of "Junior" across the top of the circular emblem. That same month, the College's Web address also changed – from www.spjc.edu to www.spcollege.edu.

The much-anticipated complex at the Tarpon Springs Campus, housing the Leepa-Rattner Museum of Art, Fine Arts Education Center and Michael M. Bennett Library, opened in January 2001. A guest speaker for the Jan. 22 dedication had to be secured at the last-minute when Florida's first lady, Columba Bush, was unable to attend. Her substitute was most appropriate: Robert Sidney Martin, acting director of the National Endowment for the Arts, and director of the national Institute of Museum and Library Services. Others on hand included Allen and Isabelle Leepa, whose more-than-\$20-million gift to the college enabled the complex to become reality, and Tarpon Springs architect Edward C. Hoffman Jr. Later in the year, his unique maritime design of the building won him and his firm the H. Dean Rowe Award for Architectural Excellence from the American Institute of Architects' Tampa Bay chapter.

Students of the College did their institution unusually proud in Spring 2002. The men's basketball team, under Head Coach Earnest Crumbley Sr., won the state championship, the first in a major sport for the College. The Titans advanced to the national tournament in Hutchinson, Kan., where they posted a 1-2 record and ended up ranked No. 9 in the nation. The forensics team, coached by Jim Mignery, had a banner season as three of its members qualified for the national tournament. The conference-champion baseball team, coached by Dave Pano, saw nine of its players selected in the 2002 Major League Baseball draft (along with seven of the eight high school or transfer players Pano had recruited to play). The Math

League team, coached by Karen Emerson, was No. 1 in the state and third in the Southeast. In the eight competition categories at the Florida Community College Music Symposium, SPC students won two of them and received honorable mention in two others. The Eta Nu chapter of Phi Theta Kappa on the St. Petersburg/Gibbs Campus was named first runner-up as PTK International's Most Distinguished Chapter worldwide. Apollo Award nominee Nadine Kapoun of the Tarpon Springs Campus made second team Academic All-American. And, in another first for the College, a former student, Pavan Cheruvu of Duke University, was named a Rhodes Scholar – one of the 32 Americans chosen that year.

When President George W. Bush came to Pinellas County for a speech March 7, 2002, attention was drawn to two individuals from SPC. The sign language interpreter chosen to sign for Bush's speech was Vicki Fales, lead interpreter for the Office of Services for Students with Disabilities. In his speech, Bush praised the quick action taken by Pinellas Park police officer Roxanne Hunt in August 2001, when she was a member of AmeriCorps Pinellas (which is administered by the College). Working with the Largo police at the time, she was attending a bicycle rodeo and saved a young boy who was choking on a hot dog.

National Library Week 2002, the third week in April, had special significance for the College. On that Monday, April 15, SPC announced plans to partner with the City of St. Petersburg in building a joint-use library (\$8.7-million, 50,000 square feet) on a site overlooking Eagle Lake on the St. Petersburg/Gibbs Campus. Four long-standing buildings had to be razed: the Student Center and Food Services, the campus bookstore, the Ethics Building and the campus maintenance building. The new West St. Petersburg Community Library, which held its grand opening in May 2005, replaced the existing campus library and a library jointly administered by the city and the Pinellas County School Board in the nearby Azalea neighborhood. On Tuesday, April 16, ground was broken at Seminole Campus for the joint-use library (\$10-million, more than 52,000 square feet) being built by the College and the City of Seminole to serve SPC students and community residents. The grand opening of the Seminole facility took place Aug. 10, with more than 3,000 persons attending. The following February, the name of State Sen. Dennis L. Jones of Treasure Island was added to the library's name, to honor the legislative support he lent to its development. A special guest was State Senate President Jim King of Jacksonville. Both the new libraries are highly computerized and provide special accommodations and features for all age groups.

A major expansion of the Tarpon Springs Campus took place in May 2002 when the Legislature approved funds for the purchase of 16.6 adjoining acres. The site, containing a closed Flextronics plant, extended the campus eastward and gave it 800 feet of frontage along U.S. 19. In addition, the factory floor provided an additional 100,000 square feet of usable space that could, as a bonus, accommodate a second floor. The purchase also included another 28,000 square feet of former Flextronics office space, plus 642 parking spaces. In all, the 70-acre campus grew by nearly 24 percent when it added the next-door tract. Several College operations then moved to the site: The central offices of the Baccalaureate Programs, Central Records, Payroll, Institutional Research, the College warehouse and Human Resources (in part). In August 2003, additional offices and classrooms of the SPC College of Education occupied a newly built-out portion of the building.

At the 2002 Fall Faculty, at Palm Harbor's Westin Innisbrook Resort, SPC's instructional personnel gathered for the first time as a four-year team. They were also observing another historic occasion: the start of the College's 75th Anniversary Year (which officially commenced Sept. 14, the date St. Petersburg Junior College opened in 1927). Then the 2002-03 school year started with a bang as figures reflected a 10.5 percent increase in lower-division enrollment – the largest such increase since at least the 1980s. The jump was attributed to a number of factors: the change to four-year status, stepped-up marketing, the availability of more online courses and the new baccalaureate programs, a plethora of positive news stories about the College during the past year, and the slowed economy. Meanwhile, the baccalaureate programs' initial enrollment – a total of more than 350 students -- also exceeded expectations by nearly 20 percent. In addition, enrollment at the University Partnership Center climbed by more than a third, prompting forecasts of 2,000 students there before the academic year was over.

In late September 2002, the Board of Trustees approved plans for a major move in concert with the Pinellas Board of County Commissioners. The plan called for the College and several county offices (including Pinellas' Economic Development division) to share a large (nearly 180,000 square feet) joint-use facility located in Largo's ICOT Center, on 58th Street north of Ulmerton Road. This \$32-million "EpiCenter" includes a facility for the bay area's business/industrial community that will provide advanced resources for professional development, strategic planning and job training (including mastery of software), plus specialized seminars and conferences. The EpiCenter partially opened in September 2004. It consists of two buildings – one for administration and one for support services.

As the College launched its year-long 75th Anniversary celebration in September 2002, State Sen. Don Sullivan came on board as a member of the administration. With his 10-year legislative career ending due to term limits, he expressed a desire to President Kuttler to continue working for the cause of education rather than resume his medical practice (he was an orthopedic surgeon). Sullivan, the legislative "father" of the bill that transformed the College into a four-year institution, was appointed vice president of Economic Development and Innovative Projects. His plans called for him to retire in Summer 2005.

The College's December 2002 graduates made history when they became the first graduating class to march at Tropicana Field. After reviewing and comparing costs, facilities and convenience between Tropicana Field and Bayfront Center, where most graduation ceremonies were held for many years, the Board of Trustees decided to hold all commencements at the domed stadium for the foreseeable future.

In 2002, Ken Burke became the first member of the College's Board of Trustees elected to the board of ACCT – the Association of Community College Trustees. In February 2003, Burke was elected secretary-treasurer of the national group at its annual meeting in Washington, D.C. Just seven months later, by which time he had been elected College board chairman, Burke was elevated to vice chairman of ACCT. He is scheduled to assume the chairmanship in September 2005. The association oversees the training of community college trustees and champions their colleges nationwide. Burke, Class of '79, is a past president (twice) of the Alumni Association. As a student at the St. Petersburg/Gibbs Campus, he helped resurrect the Circle K chapter there and became its president; as an upperclassman at USF, he became only the second Floridian named international president of that service organization.

Burke's ACCT rise calls renewed attention to the College's reputation for being a "training ground" for high-level achievement. More than 20 future college or university presidents have come from SPC via its student body, faculty and/or administration. Besides Carl M. Kuttler Jr. (Class of '60) and Michael M. Bennett (Class of '37), they include John Palms (student in 1953-54), who became president of Georgia State University and then the University of South Carolina, and E. Ann McGee, Class of '68, president of Seminole Community College. One even went full circle: Robert W. Ramsay was Dean of Academic Services on the Clearwater Campus, left in 1984 to become president of North Florida Junior College, later became chancellor of the San Antonio (Texas) Community College System, retired, and now serves SPC once more as provost of the Tarpon Springs Campus.

The first group of SPC employees to spend the maximum five years in DROP -- the state's Deferred Retirement Option Program – retired June 30, 2003, and took with them 499 years of seniority. Many of the 16 employees had 30 or more years' service with the College, and the majority said they hoped to stay affiliated with SPC in some capacity.

In SPC's long history, during which scores of its students have won academic recognition from various groups and associations on the state and national levels, the College had never had a student named to the *USA Today* Academic All-America First Team – until the spring of 2003. The honor went to Amanda Green, a sophomore pre-engineering major on the St. Petersburg/Gibbs Campus with a 3.9 GPA. Green was one of 20 community college students from around the country who were named to the

first team. A 10-year Navy veteran – five years on active duty, five in the active reserve – Green disclosed she still nurtured hopes of winning an appointment to the U.S. Naval Academy.

Co-sponsor of the Academic All-America awards with *USA Today* is Phi Theta Kappa, which has five chapters at SPC – at the St. Petersburg/Gibbs, Clearwater, Tarpon Springs and Seminole campuses and at the Caruth Health Education Center. Eta Nu chapter (SP/G) and Tau Zeta (Clearwater) are among the most honored chapters in PTK, the scholastic honorary for two-year colleges, with 1,200 chapters worldwide. More luster was added to the College's links with PTK in the spring of 2004 when Eta Nu was named the organization's Most Distinguished Chapter for a fifth time – more than any other chapter. Tau Zeta also was cited, as one of the society's top 100 chapters.

In a ceremony at the Tarpon Springs Campus in April 2003, SPC's College of Education and the building in which it is housed were named for the Bilirakis family. Gov. Jeb Bush led a crowd of more than 700 persons in honoring the Bilirakis for the longstanding support and loyalty they have given the College. U.S. Rep. Mike Bilirakis, R-Palm Harbor, vitally promoted SPC's efforts to acquire four-year status. His wife, Evelyn, is a member of the SPC Board of Trustees and the board of directors of the Leepa-Rattner Museum of Art. Their son, State Rep. Gus Bilirakis, R-Palm Harbor, was a House co-sponsor of the bill to allow the College to offer baccalaureate degrees. Another son Emmanuel Bilirakis, M.D., is an SPC honors graduate.

That same month, President Kuttler signed a new four-year contract that will make him the College's longest-serving president. At the end of the new pact, Kuttler will have served 29 years – one year longer than Michael M. Bennett, who presided from 1950 to 1978. Earlier in the month, Kuttler visited Russia's St. Petersburg University at the invitation of Russian President Vladimir Putin to take part in a symposium on international law that included German Chancellor Gerhard Schroeder and French President Jacques Chirac. Kuttler was one of two-dozen special guests – legal experts and academics -- invited to offer their views on the topic at hand and world affairs in general. Kuttler and Putin are friends from the 1980s and '90s, when the College president was making repeated visits to Russia and Putin was a high-ranking security officer.

The fall of 2003 brought initial creation of two important additions at the College: a charter school (eventually named St. Petersburg Collegiate High School) and an honors college. Both began operations a year later, in August 2004 – SPCHS at the St. Petersburg/Gibbs Campus, under the tutelage of former St. Petersburg High School Principal Linda Benware, and the Honors College out of the office of its dean, Tarpon Springs Campus Provost Bob Ramsay. The charter school, with a capped enrollment of 150, serves selected 10th, 11th and 12th grade students from all over the county who are motivated to earn their high school diplomas and an Associate in Arts degree simultaneously (and free) and thus get a two-year “leg up” on their post-high-school studies. The Honors College operates throughout SPC and offers expanded curricular options, involvement in more stringent academics, and opportunities for scholarships and other academic desirables. It held its first graduation for 15 seniors in May 2005.

In January 2004, the College began offering, online, the only baccalaureate degree in Florida in Dental Hygiene, “rounding out” its two-year program, which is 30 years old. The move on SPC's part helped answer needs expressed by the state dental hygiene association, which urged the program's formation.

Also in January, SPC's eCampus was named America's Outstanding Distance Education Program by the American Association of Community Colleges' Instructional Technology Council and Humanities Professor Kevin Morgan was one of two instructors named Outstanding Online Faculty. At the time, according to eCampus Program Director Lynda Womer, the program was the fastest-growing at the College. (By Summer 2005, it was SPC's largest campus, with an enrollment 34 percent larger than that at St. Petersburg/Gibbs.) In April 2004, in the second annual Digital Community Colleges Survey, SPC was ranked No. 5 in the nation by the American Association of Community Colleges and the Center for

Digital Education. A year later, it rose to No. 1. The rankings applied not only to eCampus; they embraced all of the College's technology support offices. Nearly 1,000 colleges were invited to take part in the rankings surveys.

On Feb. 9, 2004, Helen Ormsby Day, believed to be the last surviving member of the College's charter Class of '29, died in her sleep. She was 95.

A new capital campaign – "75 Years and Growing" – began in March 2004 with a target of at least \$7.5-million in private contributions earmarked for scholarships, faculty development, capital projects and academic programs. The campaign name marked completion of the College's first three-quarters of a century, a milestone reached in September 2002. In charge of the drive: the SPC Foundation's new capital campaign director, Jane Parker, with Foundation Vice President Kenneth P. Cherven (a past president of the American Institute of Banking) as campaign chairman. The campaign got a major boost at the outset with a \$75,000 donation from former Foundation President Alfred T. "Al" May, Class of '58 and a 2001 winner of the Outstanding Alumnus Award. The first year of fundraising was so successful, the campaign extended its goal to \$12.5-million in the spring of 2005. It is projected to run until 2009.

The May 2004 graduation weekend took on a historic flair as Saturday morning's commencement ceremony was preceded by Friday night's inaugural induction of the College's new Hall of Distinction. The latter, a creation of the SPC Foundation and the Alumni Association, was established to honor, in a special way, persons who have contributed to the College in notable and various ways over the years as they have brought distinction to themselves and to SPC. The charter class of 28 inductees was led by famed oceanographer/author/record-setting deep-sea diver Sylvia Earle, Class of 1953, and Vivian Schafer. Mrs. Schafer and her late physician-husband established the Dr. and Mrs. Walter L. Schafer Distinguished Teaching Chair in Nursing at the College in 1999. The other 26 inductees included earlier winners of SPC's Outstanding Alumnus Award, other significant donors and a former trustee. The next morning, at graduation, Dr. Earle became the 24th recipient of the Outstanding Alumnus Award. That occasion also featured the first bachelor's degree recipients from the colleges of Education and Nursing. (It also will be remembered for another first – the "love tunnel" the faculty formed at ceremony's end, for the exiting graduates to proceed through to receive greetings and best wishes.)

In June, President Carl M. Kuttler Jr. was named by Russian President Vladimir Putin and Ambassador Yuri Ushakov as an Honorary Consul of the Russian Federation. The appointment enables Kuttler, working through a Federation office in Pinellas County, to officially participate in the seeking of mutual solutions to differences between the United States and Russia.

Friday, Aug. 13, 2004 saw the start of a series of historic weather alerts for the College as Hurricane Charley prompted a weekend shutdown. This was followed closely by threats from Hurricanes Frances and Ivan as both ventured too close for comfort. In late September, College officials warily eyed three other named storms that fed the ongoing anxiety over the state's most destructive hurricane season in recent memory. While SPC sustained minimal damage, various hits throughout the Florida Community College System produced initial damage estimates topping \$25-million.

In September 2004, several departments moved from their offices in the front and back buildings of the District Office to the new EpiCenter Services Building on 58th Street N in the ICOT Center, Largo. By the end of March 2005, President Kuttler and the rest of the DO's occupants were out and moved to the refurbished EpiCenter two doors south of the Services Building. It marked an end to almost 37 years of residency in the District Office, which was sold to the Pinellas County Schools for use as a school for students with special needs.

Probably the College's most famously creative alumnus is Robert G. "Bob" Carroll, who was one of the originators of the *I Love Lucy* television show in 1951 and one of its two primary writers during its

seven-season run. He attended the college briefly in 1940 before his family moved to California. He returned to SPC in May 2005 to receive the Outstanding Alumnus Award at graduation. Carroll also was inducted into the college's Hall of Distinction, along with Don Sullivan and his wife, Bretta, a generous donor to SPC; and William R. and Hazel Hough, who months earlier bestowed a gift of \$2-million to SPC to be used to help bring the St. Petersburg Downtown Center to completion later in the year.

The 2004-05 baseball team brought Session II to a close with an exclamation point. For the first time in SPC's history, the Titans won the state community college baseball tournament championship when they defeated Chipola College 3-0 behind the throwing of Todd Redmond, who won the tournament's Most Valuable Pitcher award. All eyes were on Coach Dave Pano's team at the end of May as they flew to Grand Junction, Colo. to join nine other teams from around the country and play for the national title.

*Beginning the 2004-2005 Reporting Year, the Legislature mandated that credit courses (Advanced & Professional, Postsecondary Vocation, and College Preparatory) will be calculated using the following formula (SSH=number of students x course credit hours: FTE=SSH/30). Historical data was converted to reflect the change.

**As of Fall 1999, the Legislature mandated that College Preparatory Courses would be calculated for funding using the same formula as college credit courses

*Beginning the 2004-2005 Reporting Year, the Legislature mandated that credit courses (Advanced & Professional, Postsecondary Vocation, and College Preparatory) will be calculated using the following formula (SSH=number of students x course credit hours: FTE=SSH/30). Historical data was converted to reflect the change.

**As of Fall 1999, the Legislature mandated that College Preparatory Courses would be calculated for funding using the same formula as college credit courses

1986-1987	29947	62.2%	18200	37.8%	48147						

*There are several types of course categories within the credit and non-credit system; prior to 1990-91, the headcount number for non-credit students represented an unduplicated count within each of the various non-credit course categories. Beginning 1990-91, the unduplicated headcount number represents an unduplicated count between all non-credit course categories. However there is still potential duplication between credit and non-credit, i.e., a student who takes both credit and non-credit courses is counted twice.

**Beginning Fall 2002 the total includes upper division students.

*Utilization ratios are calculated for rooms coded as 110 (general purpose classrooms), 120 (computer classroom), and laboratories coded 210 (non-vocational and in the Facilities Data Base. Room Utilization is defined as weekly hours of room use; the standards are 40 hrs/week for classrooms and 30 hrs/week for laboratories. Space utilization is defined as weekly hours per student station; the standards are room occupancy rate equal to .60 and laboratory occupancy rate equal to .80.

	Mathematics	5020	1629	32.5	3391	67.5

*Based on State established scores.

**Beginning July 1, 1996, the College switched from the MAPS placement test to the Florida College Entry Level Placement Test or its computerized version, CPT. At the same time cut scores for placement into college level coursework were increased from 78 to 83 in English, 72 to 83 Reading, and from 51 to 72 for Mathematics.

***In an effort to more accurately represent data associated with the Readiness for College Report generated by the State Board of Community Colleges, SPC increased its efforts in reporting other tests. Consequently, beginning 1998-99 all test scores used for placement are reflected in the totals. In the past only the MAPS or CPT scores were reported.

APPENDIX D

Services for Students with Disabilities

St. Petersburg College provides comprehensive academic support for any student who presents qualifying documentation of disability. Beginning with the formation of the Program for the Deaf and Hard of Hearing in 1966 and the Office of Services for Students with Disabilities in 1991, SPC has been a leader in serving students with special needs. A faculty-level Learning Specialist is available at each campus to supply information, approve documentation, arrange accommodations, and provide student and faculty support, with the assistance of a staff of over 20 professionals and 100 student volunteers collegewide.

The type of qualifying documentation needed varies with the diagnosis. A description of the correct paperwork to submit for consideration is available from any Learning Specialist. Services are assigned on an individualized basis, and may include testing accommodations, priority registration, interpreters, audio amplification equipment, C-Print captioning, notetakers, scribes, readers or taped testing, low-vision enhancement equipment, adaptive computers, permission to use spellcheckers or tape recorders, adaptive desks or chairs, limited professional tutoring, or other services as approved. All services are provided without cost to the student.
