Beverly Laveck: 6633 NE Windermere Road, Seattle, WA, 8115

Masters Age Records 2001 has the blessing of the USA Track & Field (USATF) Masters Track & Field Committee, George Mathews, Chairman. This book was published with the help of the National Masters News and Nolan Fowler (compiler of the weight throws)

These pages contain the known world and U.S. bests for standard track and field events, age 35 and above, as of October 31, 2000. If an American best is not a world best, It is listed below the world best.

Please be aware that these are single-age "bests" and not official WAVA or USATF records. Due to time constraints these marks do not receive the same scrutiny as the official five year age group records that are published by the National Masters News. Thus these "bests" may differ from the official five year records.

Changes: The back section containing American Masters indoor and outdoor championship records is not included this year. Added this year were best performances over the 2000 meter steeplechase with 30 inch barriers.

Information, from left to right: age, performance, athlete's name and residence (or country of origin), and date of meet.

Key to abbreviations: n = noteworthy racewalk mark, h = heat, m = metric event, i = indoor mark, dec = mark made in decathlon, pen = mark made in pentathlon, w = wind-assisted mark, y = track mark made at imperial distance (yards, feet or miles) , p = pending verification of date of birth, date of meet, wind velocity, etc.

EXPLANATION OF THE AGE GRADED DECATHLON SCORES

The table below (published by Rodney Charnock, former chairman of the multi-event scoring committee) is used to correct any performance to the 1993 WAVA implement and distance standards. The five year age factors and the 1985 IAAF Scoring Tables are then used to convert the corrected marks to an age graded score for each event. The five year age factors are given in **MASTERS AGE-GRADED TABLES.** Both tables can be ordered from ***NATIONAL MASTERS NEWS.***

SCORING EXAMPLE: In setting his age 50 World Best in 1988, Gary Miller threw the 1.6 kilogram discus instead of the 1.5 kilogram discus that WAVA specifies for his age group. His throw of 40.78 meters with the slightly heavier discus must first be corrected by using the factor 1.030 from the tables above (in the 'Actual Weight Used' column find the 1.6K that he threw and move across horizontally to 1.5K which is the weight that he should have thrown had it been available). This gives an equivalent performance of 40.78 times 1.030 or 42.00 meters. Always

remember to round down distances of throws and jumps to the next lower centimeter and round up track times to the next higher hundredth (in other words, never give a rounding advantage to the performance or score). Thus 42.00 meters is then corrected by multiplying this by the M50 age factor of 1.0787 to obtain an age factored performance of 45.30 meters. This is then looked up in the 1985 IAAF scoring tables and found to be worth 773 points (if the exact performance is not in the table be sure to give the lower score not the closest score).

REMINDER: New records must be set with current certified WAVA standard implements and distances. In addition, all USATF and WAVA requirements must be met such as both track and field certified and wind meter readings where required. They must be submitted on the proper forms to the USATF and WAVA Masters Records Chairman: Pete Mundle (address on page 3).

If you believe there are errors in the age graded decathlon list such as incorrect implement weights, hurdle heights or distances or event marks, contact Rex Harvey (address on page 3). If you are aware of a performance that exceeds or comes close to (within 200 points)of those listed, please send the official meet results and any substantiation available relative to the implements used and distances run to Rex.

NON-STANDARD IMPLEMENT AND DISTANCE CORRECTIONS

SHOTPUT:

		WAVA WEIGHT REQUIRED			
		4K	5K	6K	16#
