The NWS Burlington, VT is scheduling warm season Skywarn courses for 2024. We will host multiple sessions both online and in-person. You are welcome to join whichever is most suitable to your schedule. These training sessions are for those interested in becoming certified Skywarn® Spotters or a refresher. Registration is free and open to all.

We will be using GoToWebinar for our virtual sessions. Register for online courses through the following link: https://attendee.gotowebinar.com/rt/2827383593142157655

Virtual Sessions:
- ~~Session #1 will be held on Monday, March 25th, 7 PM - 8:30 PM EDT~~
- ~~Session #2 will be held on Sunday, March 31st, 3 PM - 4:30 PM EDT~~
- Session #3 will be held on Saturday, April 20th, 10 AM - 11:30 AM EDT

In-person sessions: Registration Link

- ~~March 14th, 6-8 PM: At the Paul Smith's College VIC in New York~~
- April 11th, 6-8 PM: Ogdensburg Library in Ogdensburg, New York
- May 2nd, 6-8 PM: SUNY Potsdam (Kellas Room 106)

Note additional sessions may be scheduled later in the month depending on availability. Class schedules may be altered due to weather. Physical locations may change venue, and we'll post updated meeting places as we get information.

We will discuss the following topics:
- What is Skywarn? What does it mean for us?
- Overview of thunderstorm science and forecasting
- Storm types and convective warnings
- Safety and reporting severe weather

You may contact our SKYWARN™ program leader, Robert Haynes, at robert.d.haynes@noaa.gov with any questions and if you would like to schedule a class in your local community.
