DEPARTMENT OF COMMERCE,  
BUREAU OF THE CENSUS,

*Washington, D. C., September 25, 1942.*

SIR: I transmit herewith volume I of the Reports on Population, Sixteenth Decennial Census. Provision for the 1940 Population Census was made in the act providing for the Fifteenth Decennial Census, which was approved on June 18, 1929.

This volume presents the number of inhabitants for States, counties, and minor civil divisions (townships, etc.), with separate figures for cities and other incorporated places, for wards of cities of 5,000 or more, and for metropolitan districts and census tracts. In addition to a section for each State, the volume contains a United States summary, in which the population data for the several States are brought together. The volume also includes a section for each of the territories and possessions.

The collection and compilation of these statistics and the preparation of this volume were under the supervision of Dr. Leon E. Truesdell, Chief Statistician for Population, and Dr. Philip M. Hauser, Assistant Chief Statistician, with the assistance of Dr. Henry S. Shryock, Jr., Population Analyst. The geographic work, including the remeasurement of land area, the determination of metropolitan districts and census tracts, and the preparation of maps, was under the supervision of Clarence E. Batschelet, Geographer, and Dr. Malcolm J. Proudfoot, Assistant Geographer.

Respectfully,

J. C. CAPT,  
*Director of the Census.*

Hon. JESSE H. JONES,

## TABLES FOR INDIVIDUAL STATES, TERRITORIES, AND POSSESSIONS

The statistics for each State are presented in a series of eight standard tables. The subjects covered by the State tables are indicated by the list of titles immediately following, and the page on which each table is to be found for any given State is shown in the tabular statement below. There is some variation in the subjects covered by the tables for the District of Columbia, and the territories and possessions, by reason of differing local conditions. Table 7 appears only for States which include the main central city of at least one metropolitan district. Table 8 appears only for States containing at least one census tract city. Where there is more than one metropolitan district or census tract city in a State, the page references given below indicate the page on which the first such table or map appears in the section for the indicated State.

Table 1.—Population of the State, urban and rural, from the earliest census to 1940.

Table 2.—Population of cities of 10,000 or more from earliest census to 1940.

Table 3.—Area and population of counties, urban and rural: 1920 to 1940.

Table 4.—Population of counties by minor civil divisions: 1920 to 1940.
