

CENTRAL "Y" BRANCH ACTIVE DURING YEAR

Committees Named at Meeting of Board of Managers.

Activities of the Central branch, Buffalo Y. M. C. A., have flourished during the past year.

Total attendance for the year at physical department was 58,104; average daily attendance, 309; health examinations and interviews, 1,530.

J. Fred Rogers, chairman of the physical education committee, reported that 68 men had been taught to swim during the year.

Important student work was accomplished in centering of the four H-Y clubs associated with the branch from Hutchinson, Technical and Bennett high schools.

UNITED DRIVE URGED Women Republican Leaders Address Lincoln Club Rally.

United work for President Hoover was urged upon the members of the Lincoln Republican club, celebrating their fifth anniversary Tuesday afternoon.

Mr. Joseph D. Morrell, first president of the club, presented a sketch of its activities, beginning with its organization May 8, 1927, with \$25 in the treasury, and contrasting its first out-of-pocket expenses with 400 guests with that year's which attracted upwards of 1000.

The executive board put on a skit, "Country Justice," and a brief business session which was presided over by Mrs. Ernest J. Norman, president, was followed by the serving of a birthday cake and ice cream.

BOY, MARRIED AT 14, DROPPED FROM SCHOOL NEW YORK, June 1 (AP)—Four 13-year-old girls were among 497 pupils dropped from their classes because of marriage in the last school year.

MEAD'S PRACTICE LINER BREAKS WOOD'S FINGER From the Washington Bureau of the Bureau Express News.

WASHINGTON, June 1 (AP)—Mead's Practice Liner has more dignified moments as Representative James M. Mead of Buffalo, is responsible for the thick white bandage around the finger of his right hand.

No. there wasn't a fight, Messrs. Mead, Wood and others of the younger congressional set simply were practicing Tuesday for the baseball game which is to be played here Saturday for charity by the Republican and Democratic teams of the House of Representatives.

The game was characterized by Mr. Mead Tuesday, as Congress first attempt this season to relieve the unemployed. He predicted Congress would follow the game by passing next week the gigantic \$3,300,000,000 Carter relief measure.

Tommy McCallister, Buffalo's all-time golfer, will give an exhibition in the program preceding the ball game.

Change Made in Plans for the New Rockefeller Center

This is a new view of Rockefeller Center from Fifth avenue showing for the first time a redesigning of the North block to accommodate the proposed Italian building on the south and a similar building on the north to be occupied by German interests.

Italian Structure Is Added To Rockefeller Center Group

Germany Also Likely to Be Represented in Buildings to Be Erected in Fifth Avenue Project.

From the New York Bureau of the Bureau Express News. NEW YORK, June 1 (AP)—The contemplated erection of a third foreign building in Rockefeller Center was announced Wednesday.

The proposed building is a nine-story structure to be devoted to the industry, commerce and art of Italy and to be located on the Fifth avenue front of the block between 50th and 51st streets.

The site of the Italian building is directly across 50th street from the British Empire building, construction work on which will start in the near future.

Italy Likes Idea. The announcement of the proposed Italian building follows the recent reception by Premier Benito Mussolini in Rome of representatives of Rockefeller Center.

The delegation presented the premier with a letter from John D. Rockefeller Jr. describing the conditions of the construction of the proposed building.

The chief of state expressed his approval and suggested the representatives of Rockefeller Center should take immediate steps to contact representatives of large Italian business organizations.

Beautiful Arcade Planned. The arcade, which will be a conspicuous feature of the Italian building and its companion nine-story structure, will be comparable in size and beauty to the famous arcades of Milan and Rome.

Four stories high, 60 feet wide and more than 100 feet long, it will be flanked with colorful foreign shops and exhibition rooms on the main floor and the several galleries.

The floor of the arcade will be richly decorated in mosaic patterns and the ceiling will be adorned with murals.

COUNCILMEN FAVOR 2 PLAYGROUND LEASES

Finance Committee Also Moves to Get School Site and Extend Bulkhead.

The need for more playground, school and park space expressed the Council Finance committee Tuesday afternoon during the greater part of a long session.

When adjournment came, the committee had voted to lease two play spots, rent free, to inaugurate condemnation proceedings for the acquisition of a site for an addition to School 24.

In addition, the committee voted to request the Board of Education to extend the closing hour on school playgrounds during the summer months to 9 P. M.

The two play spots scheduled for lease are at McKinley parkway and Downing streets and Fry and Lockwood streets. The former is the unconditioned loan of Stephen T. Lockwood, prominent South Buffalonian.

Use of the second site is in return for payment by the city of taxes on the land, approximately \$300 annually.

The motion favoring condemnation proceedings to acquire a site for a possible future addition to School 24, Fillmore avenue and Best street, is the submission of the plans for the part of the School 24 Parent-Teacher association and others interested.

Some of the students now are housed in an annex across the street from the main building. The annex was characterized Tuesday by former State Senator Leonard R. Lipowicz as so dangerous a firetrap that he has sent his children to a private school rather than expose them to its alleged peril.

The site has an assessed valuation of \$25,000 and a total asking price of \$67,000.

Decision to seek bids for the construction of the Centennial park building along its proposed full length of 1500 feet was made after rejection of a proposal by Councilman-at-Large Martin O. Bennett to accept a current bid of \$67,000 for construction of only 1100 feet of the wall as recommended by Public Works Commissioner William A. Rathmann.

Wall Will Permit Full. When the retaining wall is built—it is hoped to begin work this summer—it will be possible to proceed with the building of a school rather than Maryland street and the marine airport, and thus complete the development of Centennial park, one of the major elements in the Evening News waterfront project.

A prolonged consideration of the application of the Buffalo Sporting club for use of the Broadway auditorium to stage a wrestling show ended when Council President Henry F. Jerge pointed out that the application asked for use of the hall May 26.

Attorney Harry M. Zimmer, John Clifford and Sidney J. Rochford, spokesmen for the club, denounced the attitude of some of the city officials with whom they have been forced to deal as tantamount to a "trap-around" and proof of their desire to protect the Queensbury Athletic club's present monopoly.

Legal Opinion Sought. The result of their protest was a request by the committee to the Law department for an exact definition of the powers of the Council and Buildings Director Fred O. Francis in renting the Broadway auditorium.

The request of the Buffalo Historical society for loan of paintings of Buffalo's former mayors, now stored in the basement of the Albright Art gallery and desired by the society for exhibition in the Historical building, was granted.

A plea of residents of the School 25 district for playground facilities in proximity to the school, 236 Lewis street, was referred to Parks Commissioner Frank F. Cannon with instruction to make a survey.

The committee voted to grant the Dowd Chair Rental & Sales company, 30 Glenwood avenue, a concession for renting chairs in the public parks at ten cents a chair. The concessionaire will pay \$150 for the privilege.
