## **CANDIDATE TASKING**

I require (as President) TWO people assigned to candidate registration tasks in each state for each candidate. There are only days in it and we're dead in the water if there is a single mistake. One assinged person (the candidate) and one deputy. First candidate (with the exception of me, obviously) in each state, leads, and designates the deputy. Deputy to double check his/her candidates work and take over if the candidate falls ill. Other candidates to make sure they are in the loop by contacting the first candidate and giving the name of their own deputy (in case they also suddenly indisposed). Lead canditate and deputy in each state to make sure they have contact details and are aware of the progress of ALL other candidates AND deputies within their state. All candidates & deputies to have Kellie Tranter's contact details for emergency consultation on the law and Greg's for status updates.

For Vic, my role in the above to be performed by Leslie Cannold.

Each candidate/deputy to report status on candidate developments to state lead candidate, their deputy, Greg, Kellie and me.

I am receiving unhappy sounds from the NC micromanaging preferences. I agree with that. I am unhappy about it too.

The people with the most information, motivation and responsibility are the Candidates and their campaign teams.

I have a fully booked schedule and do not have time to attend snap NC preference meetings. I know that the NC is well motivated and wants to help, but it is not helping.

Preference negotiations are the single most important factor now in winning the campain and are extremely dynammic. Bar a raid on the embassy, we will not win without them. A great deal of time is being spent on it. At any moment there may need to be a re-adjustment based on a party removing a proposal to us or a new party stepping forward. This may then require adjustment of other preference agreements.

This plan works for me. The final ratification would take place on Friday I think. I'll double check that

This plan sounds undemocratic and disrespectful to the national council of which I thought Julian was an equal member not the a person who could override choices by issuing statements from afar while not attending any meetings (bar one that I am aware of)

The council is trying to ensure the values of the party are not trodden on in pursuit of deals that have NOT been shown in any real way to clearly benefit us and instead completely compromise our values and risk alienating our base

This is bullshit

Dear All

We have been unsuccessful in having Greens accept Shooters in NSW and FF in Victoria.

I would have preferred to have had Shooters and FF in the mix but the final deals are:

Victoria - Greens put WLP at number 2 and WLP has Greens first of majors and drops Shooters and FF/Christian groups below majors.

NSW – Greens preference WLP at 3, with Pirates at 2, and WLP puts Greens above FF, Shooters and Christian Right.

WA – Greens preference WLP at 2 and WLP puts Greens first of major parties and above Christian right and Shooters.

The Shooters and some parties on the right will probably put WLP below the majors as a result of these deals.

We need now to move to tweet and Facebook these lines:

By all means vote Greens in the Reps but vote WLP in the Senate.

WLP doesn't do deals with the Coalition and ALP - we respect the rights of asylum seekers.

etc
