Cells with a blue box indicate that the feature is available when running the latest version of Dell Optimizer, except where noted.

Intelligent Audio

- 1.0 Features: Environment optimization
- · 2.0 Features: Adds auto mute (when not speaking), perceptual distortion reduction, and proximity voice
- . 3.0 Features: Adds background noise elimination (for user and others on the call), adaptive tuning optimization, and voice leveling
- · 4.0 Features: Adds echo cancellation (for user and others on the call) and voice quality monitoring alerts
- 5.0 Features: Adds Dynamic Volume

Presence Detection

· Cells labeled "External Sensor Only," means the feature requires a compatible external device to function, it is not a part of the as-sold PC

Collaboration Touchpad

• Dell Optimizer 4.1.3 and newer is compatible with the latest version of Microsoft Teams for Home and School
