

Looking for something fun to do outside?! Let's go on a bear hunt!

All you need to do to put together your hunt is to map out your yard (in your head is fine) with some places that you can easily hide a teddy bear. It Doesn't have to be a stuffed teddy, can be a picture of a teddy or any stuffed animal will do. See Printable at the bottom.

Next you put down some basic steps to get from point A to point B to point C and so on. You hide a bear at each point. Change up the way the kids move from one point to another!

You can include fun steps to find each bear such as:

- Jump ahead 15 big steps
- Hop on one foot for 10 hops
- Use tiny fairy steps for 22 steps
- Gallop like a pony
- Creep like a bear
- Sway like an elephant
- Roll like ball

Use your imagination and have **FUN**
