J. W. Porteous, F.R.S.E.
B. E. Ryman

**Ex officio Member of Committee;
Representative of Editorial Board
of the *Biochemical Journal*.*

Executive Secretary

A. I. P. Henton (7 Warwick Court, London WC1R 5DP)

The **Biochemical Society** exists to advance the science of biochemistry through meetings and publications. Several meetings a year are held, each at a different place; original papers are presented and special topics are discussed at symposia and colloquia.

Persons interested in biochemistry are eligible for election as Members. Details of further facilities accorded to Members, and forms of application for membership, are available from the Executive Secretary, The Biochemical Society, 7 Warwick Court, London WC1R 5DP [01-242 1076 (4 lines)].

Second-class postage paid at New York, NY, U.S.A.

NOTICE FOR CONTRIBUTORS

The *Biochemical Journal* places emphasis on the prompt publication of both **full-length papers** (on average about 6 months after receipt) and **rapid papers** (on average 10–12 weeks after receipt).

For detailed instructions on the preparation of papers contributors (who need not be members of the Biochemical Society) should refer to *Policy of the Journal and Instructions to Authors* [*Biochem. J.* (1978) 169, 1–27] (obtainable free on request, in booklet form, from the Executive Secretary, The Biochemical Society, 7 Warwick Court, London WC1R 5DP).

Papers submitted for publication should be addressed to the Editorial Manager, Biochemical Journal, 7 Warwick Court, London WC1R 5DP.

Contributors should note that the *Biochemical Journal* makes no manuscript handling charges, no page charges and no charges for plates. Reprints are available at modest cost at about the same time as publication, and, if an author is a member of the Biochemical Society, 50 reprints are provided free of charge.

NOTICE FOR SUBSCRIBERS

The **Biochemical Journal** is published and distributed by the Biochemical Society. It is published twice monthly, alternate issues being devoted to **Molecular Aspects** and to **Cellular Aspects** of biochemistry. It is planned that in 1978 eight volumes, each volume being made up of three issues, will be published according to the following schedule:

| Molecular Aspects | | | Cellular Aspects | | |
|-------------------|------|------|------------------|------|------|
| 1978 | Vol. | Part | 1978 | Vol. | Part |
| 1 Jan. | 169 | 1 | 15 Jan. | 170 | 1 |
| 1 Feb. | 169 | 2 | 15 Feb. | 170 | 2 |
| 1 Mar. | 169 | 3* | 15 Mar. | 170 | 3* |
| 1 Apr. | 171 | 1 | 15 Apr. | 172 | 1 |
| 1 May | 171 | 2 | 15 May | 172 | 2 |
| 1 June | 171 | 3* | 15 June | 172 | 3* |
| 1 July | 173 | 1 | 15 July | 174 | 1 |
| 1 Aug. | 173 | 2 | 15 Aug. | 174 | 2 |
| 1 Sept. | 173 | 3* | 15 Sept. | 174 | 3* |
| 1 Oct. | 175 | 1 | 15 Oct. | 176 | 1 |
| 1 Nov. | 175 | 2 | 15 Nov. | 176 | 2 |
| 1 Dec. | 175 | 3* | 15 Dec. | 176 | 3* |

*Completes volume, and includes Indexes.

Biochemical Society Transactions. This is a separate publication (see below). Volume 6 will be published in 1978, in six parts.

Subscription Rates to the Biochemical Journal. For non-members of the Biochemical Society the subscription rates for 1978 are shown below.

Subscribers to the *Biochemical Journal* can subscribe to *Biochemical Society Transactions* on a joint subscription, saving £15.00 (U.K. and Ireland) or \$25.00 (elsewhere). The methods of despatch of both publications are shown below.

Terms are cash with order or against proforma invoice. Orders and subscriptions should be sent to the Biochemical Society Book Depot, P.O. Box 32, Commerce Way, Colchester CO2 8HP, Essex, or through your normal agent.

Claims regarding issues lost or damaged in transit should be addressed to the Biochemical Society at the address given in the preceding paragraph. Claims cannot be entertained if they are received later than three months after the date of posting, plus such time as would be expected for transit by post.

Back Numbers. Enquiries for volumes 1-19 of the Journal should be addressed to William Dawson & Sons Ltd., Back Issues Department, Cannon House, Park Farm Road, Folkestone, Kent. Quotations for available issues of subsequent volumes and parts of the Journal, and also of Transactions, may be obtained on application to The Biochemical Society Book Depot, P.O. Box 32, Commerce Way, Colchester CO2 8HP, Essex.

Microforms. The following versions are available.

(a) Microfilm (36 mm): Volumes 1-101.

(b) Microfiche (98-image): Volumes 102-168.

Details and prices are available on request from the Biochemical Society's Colchester office.

Advertisements. Applications for advertising space should be sent to the Advertising Department, The Biochemical Society, 7 Warwick Court, London WC1R 5DP [01-242 1076 (4 lines)]. Copy is required eight weeks before publication date. Rate cards are available on request.

IMPORTANT NOTICE. All subscribers outside the U.K. and Ireland must remit in U.S. \$ or the sterling equivalent at the rate of exchange prevailing at the date of payment.

| | U.K. & Ireland only | U.S.A., Canada & Mexico | Japan only | Overseas |
|--------------------|------------------------|----------------------------|---------------|---------------|
| 1 year (8 volumes) | £170.00 | U.S. \$320.00 | U.S. \$330.00 | U.S. \$300.00 |
| Per volume | £22.00 | U.S. \$45.00 | U.S. \$46.00 | U.S. \$42.00 |
| Per part | £8.00 | U.S. \$16.00 | U.S. \$16.50 | U.S. \$15.00 |

Airfreight to U.S.A., Canada and Mexico. The subscription rates for North America include an element for this service. **Accelerated Surface Post to Japan only.** The subscription rates include a 10% surcharge for this service.

Index of Subjects

- Acanthamoeba castellani*, properties of mitochondria isolated from cyanide-sensitive and cyanide-stimulated cultures of (Edwards, S. W. & Lloyd, D.) 203-211
- Acetylenic groups, decrease in the concentrations of rat liver microsomal cytochrome *P*-450 and haem as a consequence of the metabolic activation of, of various steroidal and non-steroidal compounds administered to the animals (White, I. N. H.) 853-861
- N*-Acetyl-D-[1-¹⁴C]galactosamine, utilization of *N*-[³H]-acetyl-D-galactosamine and, for the biosynthesis of glycoproteins by isolated perfused rat liver (MacNICOLL, A. D., Wusteman, F. S., Powell, G. M. & Curtis, C. G.) 421-426
- Acidosis, metabolic, metabolism of glutamine in the kidney during induction of and recovery from, in the rat (Parry, D. M. & Brosnan, J. T.) 387-396
- Acyl-coenzyme A-cholesterol acyltransferase, submicro-somal localization of cholesterol, cholesteryl esters and, in rat liver (Balasubramaniam, S., Venkatesan, S., Mitropoulos, K. A. & Peters, T. J.) 863-872
- Adenia digitata*, purification and toxicity of modeccin from, and its inhibitory effect on the biosynthesis of protein by a lysate of rabbit reticulocytes and by Ehrlich ascites-tumour cells (Gasperi-Campani, A., Barbieri, L., Lorenzoni, E., Montanaro, L., Sperti, S., Bonetti, E. & Stirpe, F.) 491-496
- Adenine nucleotides, changes in the compartmentation and concentrations of, in rat liver during foetal development (Van Lelyveld, P. H. & Hommes, F. A.) 527-533
- Adenine nucleotides, concentrations of amino acids, organic acids, nicotinamide nucleotides and, during germination of *Bacillus megaterium* spores (Scott, I. R. & Ellar, D. J.) 627-634
- Adenine phosphoribosyltransferase, intracellular location of the activities of, and other purine phosphoribosyl-transferases in *Escherichia coli* (Page, M. G. P. & Burton, K.) 717-725
- Adenosine, activities and properties of 5'-nucleotidase, adenosine kinase and adenosine deaminase in tissues from various vertebrates and invertebrates in relation to control of the concentration and physiological role of (Arch, J. R. S. & Newsholme, E. A.) 965-977
- Adenosine 3':5'-cyclic monophosphate, 6-*N*,2'-*O*-di-butryl-, evidence that the mediation by, of changes in rat ts-NT₃-KR cells involves macromolecular alterations in vinblastine-precipitable proteins (Meza, A. T. & Rieber, M.) 1071-1074
- Adenosine 3':5'-cyclic monophosphate, effect of adrenalectomy on the acceleration by calcium ions, adrenaline and, of gluconeogenesis by rat kidney-cortex tubule preparations (Macdonald, D. W. R. & Saggerson, E. D.) 641-646
- Adenosine 3':5'-cyclic monophosphate, method for the assay of, by competitive binding to salt-dissociated rabbit skeletal-muscle adenosine 3':5'-cyclic monophosphate-dependent protein kinase (Døskeland, S. O. & Haga, H.-J.) 363-372
- Adenosine deaminase, activities and properties of 5'-nucleotidase, adenosine kinase and, in tissues from various vertebrates and invertebrates in relation to control of the concentration and physiological role of adenosine (Arch, J. R. S. & Newsholme, E. A.) 965-977
- Adenosine deaminase, correction by, of the alterations in lipolysis in isolated rat epididymal adipocytes in response to insulin, noradrenaline, corticotropin and glucagon after adrenalectomy (Fernandez, B. M. & Saggerson, E. D.) 111-118
- Adenosine kinase, activities and properties of 5'-nucleotidase, adenosine deaminase and, in tissues from various vertebrates and invertebrates in relation to control of the concentration and physiological role of adenosine (Arch, J. R. S. & Newsholme, E. A.) 965-977
- Adenosine monophosphate, phosphorylation of, in mitochondria of isolated rat hepatocytes (Krebs, H. A. & Wiggins, D.) 297-301
- Adenosine triphosphatase, calcium ion-activated, differentiation of the changes in the activities of alkaline phosphatase and, associated with increased absorption of calcium ions by chick intestine (Lane, S. M. & Lawson, D. E. M.) 1067-1070
- Adenosine triphosphatase, possible role of, in the transport of α -aminoisobutyrate into *Critidia fasciculata* (Midgley, M.) 191-202
- Adenylate cyclase, evidence that the stimulation by cholera toxin of the activity of, is not associated with the activity of nicotinamide-adenine dinucleotide glycohydrolase in rat liver (Tait, R. M. & van Heyningen, S.) 1059-1062
- Adenylate cyclase, glucagon-stimulated, plasma-membrane, liver, hamster, changes in the form of Arrhenius plots of the activities of, and other plasma-membrane enzymes occurring on hibernation (Houslay, M. D. & Palmer, R. W.) 909-919
- Adenylate cyclase, glucagon-stimulated, plasma-membrane, liver, rat, evidence that the activity of, is modulated by the fluidity of its lipid environment (Dipple, I. & Houslay, M. D.) 179-190
- Adenylate cyclase, use of affinity elution chromatography in a simple method for assay of the activity of, in intact human platelets (Sinha, A. K. & Colman, R. W.) 699-702
- Adipocytes, epididymal, rat, isolated, correction by adenosine deaminase of the alterations in lipolysis in, in response to insulin, noradrenaline, corticotropin and glucagon after adrenalectomy (Fernandez, B. M. & Saggerson, E. D.) 111-118
- Adipocytes, epididymal, rat, isolated, regulation by adrenaline of the activity of pyruvate dehydrogenase in, and in the fat-pads (Smith, S. J. & Saggerson, E. D.) 119-130
- Adipose tissue, brown, rat, changes in the activity of lipoprotein lipase in, and other tissues during perinatal and postnatal development (Cryer, A. & Jones, H. M.) 447-451

- Adipose tissue, epididymal, rat, regulation by adrenaline of the activity of pyruvate dehydrogenase in adipocytes isolated from, and in the fat-pads (Smith, S. J. & Saggerson, E. D.) 119-130
- Adipose tissue, white, epididymal, rat, correction by adenosine deaminase of the alterations in lipolysis in adipocytes isolated from, in response to insulin, noradrenaline, corticotropin and glucagon after adrenalectomy (Fernandez, B. M. & Saggerson, E. D.) 111-118
- Adrenal gland, rat, control of the metabolism of sterols in mitochondria from (Mason, J. I., Arthur, J. R. & Boyd, G. S.) 1045-1051
- Adrenalectomy, correction by adenosine deaminase of the alterations in lipolysis in isolated rat epididymal adipocytes in response to insulin, noradrenaline, corticotropin and glucagon after (Fernandez, B. M. & Saggerson, E. D.) 111-118
- Adrenalectomy, effect of, on the acceleration by calcium ions, adenosine 3':5'-cyclic monophosphate and adrenaline of gluconeogenesis by rat kidney-cortex tubule preparations (Macdonald, D. W. R. & Saggerson, E. D.) 641-646
- Adrenaline, effect of adrenalectomy on the acceleration by calcium ions, adenosine 3':5'-cyclic monophosphate and, of gluconeogenesis by rat kidney-cortex tubule preparations (Macdonald, D. W. R. & Saggerson, E. D.) 641-646
- Adrenaline, regulation by, of the activity of pyruvate dehydrogenase in rat epididymal fat-pads and isolated adipocytes (Smith, S. J. & Saggerson, E. D.) 119-130
- Adrenaline sulphate, measurement and kinetic study of the formation of, by preparations of liver and small intestine from various mammalian species (Wong, K. P.) 777-782
- Adrenocorticotropin, *see* Corticotropin
- Aflatoxins, use of high-performance liquid chromatography for study of the metabolism of, by rat liver microsomal preparations (Neal, G. E. & Colley, P. J.) 839-851
- Age, influence of, both of the animal and of the erythrocytes on the metabolism of glutathione in mouse erythrocytes (Abraham, E. C., Taylor, J. F. & Lang, C. A.) 819-825
- Alanine dehydrogenase, *Bacillus subtilis*, interference by branched-chain amino acids in the assay of alanine with (Lund, P. & Baverel, G.) 1079-1082
- Alanine, interference by branched-chain amino acids in the assay of, with *Bacillus subtilis* alanine dehydrogenase (Lund, P. & Baverel, G.) 1079-1082
- Alanine, sodium ion-dependent transport of, by rat liver plasma-membrane vesicles (van Amelsvoort, J. M. M., Sips, H. J. & van Dam, K.) 1083-1086
- L-[³H]Alanine, use of [³H]water and, to detect metabolism during germination of *Bacillus megaterium* spores (Scott, I. R. & Ellar, D. J.) 635-640
- Alcaligenes eutrophus*, effects of substituents on the 1,2-dioxygenation of catechol by catechol 1,2-dioxygenases from a *Pseudomonas* sp. and (Dorn, E. & Knackmuss, H.-J.) 85-94
- Alkaline phosphatase, *see* Phosphatase, alkaline
- Amino acids, amplitude of the depolarization by, of the plasma membrane of mouse ascites-tumour cells (Philo, R. D. & Eddy, A. A.) 801-810
- Amino acids, branched-chain, interference by, in the assay of alanine with *Bacillus subtilis* alanine dehydrogenase (Lund, P. & Baverel, G.) 1079-1082
- Amino acids, concentrations of adenine nucleotides, nicotinamide nucleotides, organic acids and, during germination of *Bacillus megaterium* spores (Scott, I. R. & Ellar, D. J.) 627-634
- Amino acids, effects of ammonia, leupeptin and, on the biosynthesis and degradation of protein in isolated rat hepatocytes (Seglen, P. O.) 469-474
- Amino acids, effects of *p*-chlorophenylalanine and α -methylphenylalanine on the uptake of, and the biosynthesis of protein by mouse neuroblastoma cells (Kelly, C. J. & Johnson, T. C.) 931-938
- Amino acids, equilibrium and steady-state models of the coupling between the electrochemical gradient of sodium ions and the concentration gradient of, across the plasma membrane of mouse ascites-tumour cells (Philo, R. D. & Eddy, A. A.) 811-817
- α -Aminoisobutyrate, transport of, into *Crithidia fasciculata* (Midgley, M.) 191-202
- o*-Aminophenol, product inhibition by *p*-nitrophenyl glucuronide of the glucuronidation of, by detergent-treated rat liver microsomal fraction (Howland, R. D.) 1007-1009
- Ammonia, control of the production of, in the kidney during induction of and recovery from metabolic acidosis in the rat (Parry, D. M. & Brosnan, J. T.) 387-396
- Ammonia, effects of amino acids, leupeptin and, on the biosynthesis and degradation of protein in isolated rat hepatocytes (Seglen, P. O.) 469-474
- Anabaena cylindrica*, role of superoxide dismutase and catalase in the protection of proton-donating systems involved in the fixation of nitrogen by (Henry, L. E. A., Gogotov, I. N. & Hall, D. O.) 373-377
- Anaemia, haemolytic, induction of, in the rabbit by the administration of nitrosobenzene (Hirota, K., Itano, H. A. & Vedvick, T. S.) 693-697
- Androgen-receptor protein, nuclear, mechanisms of replenishment of, in rat ventral prostate gland (Van Doorn, E. & Bruchovsky, N.) 9-16
- Androgens, effects of, on the biosynthesis of messenger ribonucleic acid and protein in rat seminal vesicles (Higgins, S. J. & Burchell, J. M.) 543-551
- Androgens, regulation by, of the activities of enzymes involved in the tricarboxylic acid cycle, oxidation of lipids and transfer of metabolites into and out of mitochondria in rat epididymis and epididymal spermatozoa (Brooks, D. E.) 741-752
- Androst-4-ene-3,17-dione, time course of the effects of hypophysectomy and administration of oestrogens on the metabolism of, in liver of male and female rats (Skett, P.) 753-760
- Ascites-tumour cells, mouse, amplitude of the depolarization by amino acids of the plasma membrane of (Philo, R. D. & Eddy, A. A.) 801-810
- Ascites-tumour cells, mouse, equilibrium and steady-state models of the coupling between the amino acid concentration gradient and the sodium ion electrochemical gradient across the plasma membrane of (Philo, R. D. & Eddy, A. A.) 811-817

- Asialo-transferrin, human, distinction between binding and endocytosis of, by rat liver (Regoeczi, E., Taylor, P., Hatton, M. W. C., Wong, K.-L. & Koj, A.) 171-178
- Bacillus megaterium*, concentrations of amino acids, organic acids, adenine nucleotides and nicotinamide nucleotides during germination of spores of (Scott, I. R. & Ellar, D. J.) 627-634
- Bacillus megaterium*, use of L-[³H]alanine and [³H]water to detect metabolism during germination of spores of (Scott, I. R. & Ellar, D. J.) 635-640
- Barley (*Hordeum vulgare*) leaves, biosynthesis of fatty acids in, and other higher-plant leaves (Wharfe, J. & Harwood, J. L.) 163-169
- Barley (*Hordeum vulgare*) leaves, composition of the lipids of, of a mutant lacking chlorophyll *b* (Bolton, P., Wharfe, J. & Harwood, J. L.) 67-72
- Barley (*Hordeum vulgare*) seedlings, etiolated, reconstitution of the biosynthesis of chlorophyllide by etioplast membranes isolated from leaves of (Griffiths, W. T.) 681-692
- Benzyl alcohol, effect of, on the activity of rat liver plasma-membrane glucagon-stimulated adenylate cyclase (Dipple, J. & Houslay, M. D.) 179-190
- Bile acids, biochemical basis for the conjugation of, with either glycine or taurine in the liver of various animal species (Vessey, D. A.) 621-626
- Bile pigments, use of ¹⁸O-labelling and metal substitution in a study of the degradation of haem to, in rat spleen microsomal fraction and in a model system (King, R. F. G. J. & Brown, S. B.) 103-109
- Blood platelets, human, factors affecting the activity of guanylate cyclase in lysates of (Adams, A. F. & Haslam, R. J.) 23-35
- Blood platelets, human, relationships between the structure of prostaglandins and their activity in the aggregation of (MacIntyre, D. E., Salzman, E. W. & Gordon, J. L.) 921-929
- Blood platelets, human, use of affinity elution chromatography in a simple method for assay of the activity of adenylate cyclase in (Sinha, A. K. & Colman, R. W.) 699-702
- Blowfly (*Lucilia cuprina*), inability of tributyltin-induced exchange of chloride ions and hydroxide ions to stimulate the transport of calcium ions by mitochondria isolated from flight muscle of (Bygrave, F. L. & Smith, R. L.) 1075-1077
- Blowfly (*Sarcophaga ruficornis*), evidence for the presence of the urea cycle in, and for its absence from the silkworm (*Philosamia ricini*) (Pant, R. & Gupta, S. K.) 341-344
- Brain cortex, mouse, concentrations of oxidized and reduced nicotinamide-adenine dinucleotide phosphate and activity of glucose 6-phosphate dehydrogenase in, during exposure of the animals to high pressures of oxygen (Dodd, D. E. & Faiman, M. D.) 769-775
- Brain cortex, rat, increase in the amount of disialoganglioside G_{D1a} in subcellular fractions of, during postnatal development (Yusuf, H. K. M. & Dickerson, J. W. T.) 655-657
- Brain, rat, evidence that the neuronal perikarya is the main subcellular site of glycosylation of neuronal gangliosides in (Maccioni, H. J. F., Defilpo, S. S., Landa, C. A. & Caputto, R.) 673-680
- Brush-border fraction, kidney-cortex, rabbit, preparation of, and evidence that enzymes involved in glycolysis are absent from this subcellular compartment (Busse, D., Wahle, H. U., Bartel, H. & Pohl, B.) 509-515
- Brush border, ileum, rat, co-transport of taurocholate and sodium ions by isolated membrane vesicles from (Lücke, H., Stange, G., Kinne, R. & Murer, H.) 951-958
- Brush border, small-intestinal, rat, identification of enzymes of, after electrophoresis on polyacrylamide gels containing sodium dodecyl sulphate (Hauri, H.-P. & Green, J. R.) 61-66
- Cadmium/zinc-thioneins, turnover of, in rat liver (Andersen, R. D., Winter, W. P., Maher, J. J. & Bernstein, I. A.) 327-338
- Calcium ions, cycling of, by isolated rat liver mitochondria (Ramachandran, C. & Bygrave, F. L.) 613-620
- Calcium ions, differentiation of the changes in the activities of alkaline phosphatase and calcium ion-activated adenosine triphosphatase associated with increased absorption of, by chick intestine (Lane, S. M. & Lawson, D. E. M.) 1067-1070
- Calcium ions, effect of adrenalectomy on the acceleration by adenosine 3':5'-cyclic monophosphate, adrenaline and, of gluconeogenesis by rat kidney-cortex tubule preparations (Macdonald, D. W. R. & Saggerson, E. D.) 641-646
- Calcium ions, effect of lipid peroxidation on the ability of chicken breast-muscle microsomal fraction to accumulate (Player, T. J. & Hultin, H. O.) 17-22
- Calcium ions, inability of tributyltin-induced exchange of chloride ions and hydroxide ions to stimulate the transport of, by isolated blowfly flight-muscle mitochondria (Bygrave, F. L. & Smith, R. L.) 1075-1077
- Calcium ions, role of, in the regulation by mitogens of the oxidation of pyruvate by rat thymocytes (Hume, D. A., Vijayakumar, E. K., Schweinberger, F., Russell, L. M. & Weidemann, M. J.) 711-716
- Calcium ions, subcellular location, maturation and response to increased plasma concentrations of glucagon of Ruthenium Red-insensitive transport of, in rat liver (Bygrave, F. L. & Tranter, C. J.) 1021-1030
- Calcium ions, submitochondrial location of Ruthenium Red-sensitive transport of, and evidence for its enrichment in a specific population of rat liver mitochondria (Bygrave, F. L., Heaney, T. P. & Ramachandran, C.) 1011-1019
- Carbohydrates, effects of the contents of fats and, in the diet on the activities of enzymes involved in the biosynthesis of glycerolipids in rat liver (Glenny, H. P., Bowley, M., Burditt, S. L., Cooling, J., Pritchard, P. H., Sturton, R. G. & Brindley, D. N.) 535-541
- Carbon tetrachloride, induction of gluconeogenesis in rat kidney cortex during acute poisoning of the liver by administration of (Faus, M. J., Lupiáñez, J. A., Vargas, A. & Sánchez-Medina, F.) 461-467
- Carnitine, comparison of the abilities of isolated heart mitochondria of various animal species to oxidize fatty acyl esters of, with special reference to C_{22:1} fatty acids (Osmundsen, H. & Bremer, J.) 379-386
- Catalase, decomposition of hydrogen peroxide catalysed by haems as a model for the mechanism of action of (Hatzikonstantinou, H. & Brown, S. B.) 893-900

- Catalase, role of superoxide dismutase and, in the protection of proton-donating systems involved in the fixation of nitrogen by *Anabaena cylindrica* (Henry, L. E. A., Gogotov, I. N. & Hall, D. O.) 373-377
- Catechol 1,2-dioxygenases, *Pseudomonas* sp. and *Alcaligenes eutrophus*, effects of substituents on the 1,2-dioxygenation of catechol by (Dorn, E. & Knackmuss, H.-J.) 85-94
- Catechol 1,2-dioxygenases, *Pseudomonas* sp., two, properties of (Dorn, E. & Knackmuss, H.-J.) 73-84
- Catechol, effects of substituents on the 1,2-dioxygenation of, by catechol 1,2-dioxygenases from a *Pseudomonas* sp. and *Alcaligenes eutrophus* (Dorn, E. & Knackmuss, H.-J.) 85-94
- Cells, ascites-tumour, Ehrlich, cultured, dependence on pH of the transport of sugars and of glycolysis in (Kaminskas, E.) 453-459
- Cells, ascites-tumour, Ehrlich, inhibitory effect of *Adenia digitata* modeccin on the biosynthesis of protein by (Gasperi-Campani, A., Barbieri, L., Lorenzoni, E., Montanaro, L., Sperti, S., Bonetti, E. & Stirpe, F.) 491-496
- Cells, ascites-tumour, mouse, amplitude of the depolarization by amino acids of the plasma membrane of (Philo, R. D. & Eddy, A. A.) 801-810
- Cells, ascites-tumour, mouse, equilibrium and steady-state models of the coupling between the amino acid concentration gradient and the sodium ion electrochemical gradient across the plasma membrane of (Philo, R. D. & Eddy, A. A.) 811-817
- Cells, kidney, baby-hamster (BHK-21/C13), diminished excretion of polyamines by, exposed to methylglyoxal bis(guanyldiazide) (Melvin, M. A. L. & Keir, H. M.) 349-352
- Cells, neuroblastoma, mouse, effects of *p*-chlorophenylalanine and α -methylphenylalanine on the uptake of amino acids and the biosynthesis of protein by (Kelly, C. J. & Johnson, T. C.) 931-938
- Cells, 3T3, mouse, effect of imposed deprivation of serum on the growth of, and its dissociation from changes in the transport of potassium ions as measured by the uptake of rubidium ions (Tupper, J. T. & Zografos, L.) 1063-1065
- Cells, ts-NT₃-KR, rat, evidence that the mediation by 6-*N*,2'-*O*-dibutyryladenine 3':5'-cyclic monophosphate of changes in, involves macromolecular alterations in vinblastine-precipitable proteins (Meza, A. T. & Rieber, M.) 1071-1074
- Cerebral cortex, mouse, concentrations of oxidized and reduced nicotinamide-adenine dinucleotide phosphate and activity of glucose 6-phosphate dehydrogenase in, during exposure of the animals to high pressures of oxygen (Dodds, D. E. & Faiman, M. D.) 769-775
- Cerebral cortex, rat, increase in the content of disialoganglioside G_{D1a} in subcellular fractions of, during postnatal development (Yusuf, H. K. M. & Dickerson, J. W. T.) 655-657
- Chick, differentiation of the changes in the activities of alkaline phosphatase and calcium ion-activated adenosine triphosphatase associated with increased absorption of calcium ions by intestine of (Lane, S. M. & Lawson, D. E. M.) 1067-1070
- Chick, effects of oestradiol-17 β and 1,25-dihydroxycholecalciferol on the metabolism of 25-hydroxycholecalciferol in primary cultures of kidney cells from (Spanos, E., Barrett, D. I., Chong, K. T. & MacIntyre, I.) 231-236
- Chick embryo, biosynthesis of plasma-membrane proteins during myogenesis of cultured skeletal-muscle cells from (Cates, G. A. & Holland, P. C.) 873-881
- Chick embryo, ontogeny of the response to oestradiol-17 β of the concentration of soluble nuclear oestrogen-receptor protein and of the biosynthesis of vitellogenin in liver of (Lazier, C. B.) 143-152
- Chicken, effect of lipid peroxidation on the calcium ion-accumulating ability of breast-muscle microsomal fraction from (Player, T. J. & Hultin, H. O.) 17-22
- Chloride ions, inability of tributyltin-induced exchange of hydroxide ions and, to stimulate the transport of calcium ions by isolated blowfly flight-muscle mitochondria (Bygrave, F. L. & Smith, R. L.) 1075-1077
- 3-Chlorobenzoate, properties of two catechol 1,2-dioxygenases from a *Pseudomonas* sp. grown on (Dorn, E. & Knackmuss, H.-J.) 73-84
- p*-Chlorophenylalanine, effects of α -methylphenylalanine and, on the uptake of amino acids and the biosynthesis of protein by mouse neuroblastoma cells (Kelly, C. J. & Johnson, T. C.) 931-938
- Chlorophyll *b*, composition of the lipids of leaves of a barley mutant lacking (Bolton, P., Wharfe, J. & Harwood, J. L.) 67-72
- Chlorophyll, circular dichroism of, *in situ* in granal and agranal maize-seedling chloroplasts and their fragments (Faludi-Daniel, Á., Bialek, G. E., Horváth, G., Sz.-Rozsa, Z. & Gregory, R. P. F.) 647-651
- Chlorophyllide, reconstitution of the biosynthesis of, by isolated barley-seedling etioplast membranes (Griffiths, W. T.) 681-692
- Chloroplasts, barley, composition of the lipids of, of a mutant lacking chlorophyll *b* (Bolton, P., Wharfe, J. & Harwood, J. L.) 67-72
- Chloroplasts, maize-seedling, granal and agranal, differential light-scattering by, and their fragments (Faludi-Daniel, Á., Bialik, G. E., Horváth, G., Sz.-Rozsa, Z. & Gregory, R. P. F.) 647-651
- Cholecalciferol, 25-hydroxy-, effects of oestradiol-17 β and 1,25-dihydroxycholecalciferol on the metabolism of, in primary cultures of chick kidney cells (Spanos, E., Barrett, D. I., Chong, K. T. & MacIntyre, I.) 231-236
- Cholera toxin, evidence that the stimulation by, of the activity of adenylate cyclase is not associated with the activity of nicotinamide-adenine dinucleotide glycohydrolase in rat liver (Tait, R. M. & van Heyningen, S.) 1059-1062
- Cholesterol, control of the metabolism of, and other sterols in rat adrenal-gland mitochondria (Mason, J. I., Arthur, J. R. & Boyd, G. S.) 1045-1051
- Cholesterol, formation of desmosterol and, during the dealkylation of clonasterol in the yellow mealworm (Pettler, P. J., Lockley, W. J. S., Rees, H. H. & Goodwin, T. W.) 397-404
- Cholesterol, reversal by administration of Triton WR-1339 of the induction by ethynyl-oestradiol of the esterification of, in rat liver (Davis, R. A., Showalter, R. & Kern, F., Jr.) 45-51

- Cholesterol, role of stimulation of the biosynthesis of fatty acids and, in the induction by oestradiol-17 β of the biosynthesis of vitellogenin by *Xenopus laevis* liver (Smith, D. F., Penning, T. M., Ansari, A. Q., Munday, K. A. & Akhtar, M.) 353-361
- Cholesterol, submicrosomal localization of acyl-coenzyme A-cholesterol acyltransferase, cholesteryl esters and, in rat liver (Balasubramaniam, S., Venkatesan, S., Mitropoulos, K. A. & Peters, T. J.) 863-872
- Cholesteryl esters, submicrosomal localization of acyl-coenzyme A-cholesterol acyltransferase, cholesterol and, in rat liver (Balasubramaniam, S., Venkatesan, S., Mitropoulos, K. A. & Peters, T. J.) 863-872
- Chromatin, changes in the structure of, during the cell cycle in regenerating rat liver after partial hepatectomy (Caplan, A., Ord, M. G. & Stocken, L. A.) 475-483
- Chylomicron-remnant particles, iodine-labelled, uptake and degradation of, by monolayers of rat hepatocytes (Florén, C.-H. & Nilsson, Å.) 827-838
- Citric acid cycle, *see* Tricarboxylic acid cycle
- Clearing-factor lipase, *see* Lipoprotein lipase
- Clonasterol [(24S)-24-ethylcholest-5-en-3 β -ol], mechanism of the dealkylation of, in the yellow mealworm (Pettler, P. J., Lockley, W. J. S., Rees, H. H. & Goodwin, T. W.) 397-404
- Concanavalin A, role of aerobic glycolysis in the transformation of rat thymocytes by (Hume, D. A., Radik, J. L., Ferber, E. & Weidemann, M. J.) 703-709
- Concanavalin A, role of calcium ions in the regulation by, of the oxidation of pyruvate by rat thymocytes (Hume, D. A., Vijayakumar, E. K., Schweinberger, F., Russell, L. M. & Weidemann, M. J.) 711-716
- Copper-thionein, effect of zinc deficiency on the biosynthesis and degradation of, in rat liver and kidney (Bremner, I., Hoekstra, W. G., Davies, N. T. & Young, B. W.) 883-892
- Coproferrihaem, decomposition of hydrogen peroxide catalysed by, and other haems as a model for the mechanism of action of catalase (Hatzikonstantinou, H. & Brown, S. B.) 893-900
- Coproferrihaem, oxidation of, and other haems by hydrogen peroxide (Brown, S. B., Hatzikonstantinou, H. & Herries, D. G.) 901-907
- Corticotropin, correction by adenosine deaminase of the alterations in lipolysis in isolated rat epididymal adipocytes in response to insulin, noradrenaline, glucagon and, after adrenalectomy (Fernandez, B. M. & Saggerson, E. D.) 111-118
- Crithidia fasciculata*, transport of α -aminoisobutyrate into (Midgley, M.) 191-202
- Cyanide, properties of mitochondria isolated from cultures of *Acanthamoeba castellanii* sensitive to and stimulated by (Edwards, S. W. & Lloyd, D.) 203-211
- Cyclic adenosine 3':5'-monophosphate, *see* Adenosine 3':5'-cyclic monophosphate
- Cytochrome *c*, properties of a *Rhodospseudomonas spheroides* membrane fraction enriched in (Barrett, J., Hunter, C. N. & Jones, O. T. G.) 267-275
- Cytochrome P-450, microsomal, liver, rat, decrease in the concentrations of, and haem as a consequence of the metabolic activation of acetylenic groups of various steroidal and non-steroidal compounds administered to the animals (White, I. N. H.) 853-861
- Cytosol, liver, rat, changes in the concentrations of adenine nucleotides in, and mitochondria during foetal development (Van Lelyveld, P. H. & Hommes, F. A.) 527-533
- Deoxyribonucleic acid, alkylation of, *in vivo* in various tissues of C57BL mice by *N*-methyl-*N*-nitrosourea, *N*-ethyl-*N*-nitrosourea and ethyl methanesulphonate in relation to the induction of thymoma (Frei, J. V., Swenson, D. H., Warren, W. & Lawley, P. D.) 1031-1044
- Deoxyribonucleic acid, sea-urchin, effect of chromosomal non-histone proteins on the template activity of, in the biosynthesis of ribonucleic acid *in vitro* (Di Mauro, E., Pedone, F. & Pomponi, M.) 95-102
- Desmosterol, formation of cholesterol and, during the dealkylation of clonasterol in the yellow mealworm (Pettler, P. J., Lockley, W. J. S., Rees, H. H. & Goodwin, T. W.) 397-404
- Deuteroferrihaem, decomposition of hydrogen peroxide catalysed by, and other haems as a model for the mechanism of action of catalase (Hatzikonstantinou, H. & Brown, S. B.) 893-900
- Deuteroferrihaem, oxidation of, and other haems by hydrogen peroxide (Brown, S. B., Hatzikonstantinou, H. & Herries, D. G.) 901-907
- Development, foetal, changes in the compartmentation and concentrations of adenine nucleotides in rat liver during (Van Lelyveld, P. H. & Hommes, F. A.) 527-533
- Development, perinatal and postnatal, changes in the activity of lipoprotein lipase in rat lung, heart muscle, skeletal muscle and brown adipose tissue during (Cryer, A. & Jones, H. M.) 447-451
- Development, perinatal, functional heterogeneity of the activity of uridine diphosphate glucuronosyltransferase in rat liver during, and induction by glucocorticoids (Wishart, G. J.) 485-489
- Development, postnatal, changes in the concentration of zinc ion-binding protein in rat liver during (Ohtake, H., Hasegawa, K. & Koga, M.) 999-1005
- Development, postnatal, changes in the metabolism of polyamines in rat liver during (Brosnan, M. E., Symonds, G. W., Hall, D. E. & Symonds, D. L.) 727-732
- Development, postnatal, increase in the content of disialoganglioside G_{D1a} in rat cerebral-cortex subcellular fractions during (Yusuf, H. K. M. & Dickerson, J. W. T.) 655-657
- 6-*N*,2'-*O*-Dibutyryladenine 3':5'-cyclic monophosphate, evidence that the mediation by, of changes in rat ts-NT₃-KR cells involves macromolecular alterations in vinblastine-precipitable proteins (Meza, A. T. & Rieber, M.) 1071-1074
- Diet, role of the components of lipids in, in the regulation of the composition of fatty acids and the rate of lipid peroxidation in rat liver endoplasmic reticulum (Hammer, C. T. & Wills, E. D.) 585-593
- Diets, effects of the contents of carbohydrates and fats in, on the activities of enzymes involved in the biosynthesis of glycerolipids in rat liver (Glenny, H. P., Bowley, M., Burditt, S. L., Cooling, J., Pritchard, P. H., Sturton, R. G. & Brindley, D. N.) 535-541

- 1,25-Dihydroxycholecalciferol, effects of oestradiol-17 β and, on the metabolism of 25-hydroxycholecalciferol in primary cultures of chick kidney cells (Spanos, E., Barrett, D. I., Chong, K. T. & MacIntyre I.) 231-236
- Disialoganglioside G_{D1a}, increase in the content of, in rat cerebral-cortex subcellular fractions during postnatal development (Yusuf, H. K. M. & Dickerson, J. W. T.) 655-657
- Dodecyltriethoxy sulphate, sodium, metabolism of sodium undecyltriethoxy sulphate and, in the rat (Taylor, A. J., Powell, G. M., Howes, D., Black, J. G. & Olavesen, A. H.) 405-412
- Ehrlich ascites-tumour cells, cultured, dependence on pH of the transport of sugars and of glycolysis in (Kaminskas, E.) 453-459
- Ehrlich ascites-tumour cells, inhibitory effect of *Adenia digitata* modeccin on the biosynthesis of protein by (Gasperi-Campani, A., Barbieri, L., Lorenzoni, E., Montanaro, L., Sperti, S., Bonetti, E. & Stirpe, F.) 491-496
- Electron transport, derivation of a rate equation for, of energy-conservation equations and of a luminescence-flux equation for photosynthesis in algae and higher plants (Li, Y.-S.) 569-577
- Electron transport, pathways of, in mitochondria isolated from cyanide-sensitive and cyanide-stimulated cultures of *Acanthamoeba castellanii* (Edwards, S. W. & Lloyd, D.) 203-211
- Endoplasmic reticulum, *see* Reticulum, endoplasmic
- Energy conservation, derivation of equations for, of an electron-transport rate equation and of a luminescence-flux equation for photosynthesis in algae and higher plants (Li, Y.-S.) 569-577
- Epididymis, rat, correction by adenosine deaminase of the alterations in lipolysis in adipocytes isolated from, in response to insulin, noradrenaline, corticotropin and glucagon after adrenalectomy (Fernandez, B. M. & Saggerson, E. D.) 111-118
- Epididymis, rat, regulation by adrenaline of the activity of pyruvate dehydrogenase in fat-pads and in adipocytes isolated from (Smith, S. J. & Saggerson, E. D.) 119-130
- Epididymis, rat, regulation by androgens of the activities of enzymes involved in the tricarboxylic acid cycle, oxidation of lipids and transfer of metabolites into and out of mitochondria in, and epididymal spermatozoa (Brooks, D. E.) 741-752
- Epinephrine, *see* Adrenaline
- Erythrocytes, mouse, influence of age both of the animal and of the erythrocytes on the metabolism of glutathione in (Abraham, E. C., Taylor, J. F. & Lang, C. A.) 819-825
- Erythrocytes, rabbit, oxidative degradation of haemoglobin in, after the administration of nitrosobenzene (Hirota, K., Itano, H. A. & Vedvick, T. S.) 693-697
- Escherichia coli*, intracellular location of the activities of purine phosphoribosyltransferases in (Page, M. G. P. & Burton, K.) 717-725
- Escherichia coli*, resistance to the antibiotic neamine in a mutant of, whose Nea^R phenotype results from the cumulative effects of two distinct mutations (Delcuve, G., Cabezón, T., Herzog, A., Cannon, M. & Bollen, A.) 1-7
- Estradiol, *see* Oestradiol
- Estrogens, *see* Oestrogens
- Ethanol, effects of maternal consumption of, on the biosynthesis of lipids in foetal and neonatal rat liver (Rawat, A. K.) 213-219
- Ethyl methanesulphonate, alkylation of deoxyribonucleic acid *in vivo* in various tissues of C57BL mice by *N*-methyl-*N*-nitrosourea, *N*-ethyl-*N*-nitrosourea and, in relation to the induction of thymoma (Frei, J. V., Swenson, D. H., Warren, W. & Lawley, P. D.) 1031-1044
- (24*S*)-24-Ethylcholest-5-en-3 β -ol (clonasterol), mechanism of the dealkylation of, in the yellow mealworm (Pettler, P. J., Lockley, W. J. S., Rees, H. H. & Goodwin, T. W.) 397-404
- N*-Ethyl-*N*-nitrosourea, alkylation of deoxyribonucleic acid *in vivo* in various tissues of C57BL mice by ethyl methanesulphonate, *N*-methyl-*N*-nitrosourea and, in relation to the induction of thymoma (Frei, J. V., Swenson, D. H., Warren, W. & Lawley, P. D.) 1031-1044
- Ethyloestradiol, reversal by administration of Triton WR-1339 of the induction by, of the esterification of cholesterol in rat liver (Davis, R. A., Showalter, R. & Kern, F., Jr.) 45-51
- Etioplasts, barley-seedling, reconstitution of the biosynthesis of chlorophyllide by isolated membranes of (Griffiths, W. T.) 681-692
- Euglena gracilis*, characterization of a protein-glucan formed as an intermediate in the biosynthesis of paramylon by (Tomos, A. D. & Northcote, D. H.) 283-290
- Fat-cells, epididymal, rat, isolated, correction by adenosine deaminase of the alterations in lipolysis in, in response to insulin, noradrenaline, corticotropin and glucagon after adrenalectomy (Fernandez, B. M. & Saggerson, E. D.) 111-118
- Fat-cells, epididymal, rat, isolated, regulation by adrenaline of the activity of pyruvate dehydrogenase in, and in the fat-pads (Smith, S. J. & Saggerson, E. D.) 119-130
- Fats, effects of the contents of carbohydrates and, in the diet on the activities of enzymes involved in the biosynthesis of glycerolipids in rat liver (Glenny, H. P., Bowley, M., Burditt, S. L., Cooling, J., Pritchard, P. H., Sturton, R. G. & Brindley, D. N.) 535-541
- Fatty acid synthetase, indirect method for estimation of the rate of degradation of, in rabbit mammary-gland explants (Paskin, N. & Mayer, R. J.) 153-161
- Fatty acids, biosynthesis of, in barley, wheat and pea leaves (Wharfe, J. Harwood, J. L.) 163-169
- Fatty acids, effects of glucagon and insulin on the degradation of glycogen and the biosynthesis of, in perfused liver from normal and genetically obese (*ob/ob*) mice (Ma, G. Y., Gove, C. D. & Hems, D. A.) 761-768
- Fatty acids, effects of maternal consumption of ethanol on the biosynthesis of, in foetal and neonatal rat liver (Rawat, A. K.) 213-219
- Fatty acids, long-chain, comparison of the abilities of isolated heart mitochondria of various animal species to oxidize, with special reference to C_{22:1} fatty acids (Osmundsen, H. & Bremer, J.) 379-386

- Fatty acids, regulation by adrenaline of the biosynthesis of, in rat epididymal fat-pads and isolated adipocytes (Smith, S. J. & Saggerson, E. D.) 119-130
- Fatty acids, role of stimulation of the biosynthesis of cholesterol and, in the induction by oestradiol-17 β of the biosynthesis of vitellogenin by *Xenopus laevis* liver (Smith, D. F., Penning, T. M., Ansari, A. Q., Munday, K. A. & Akhtar, M.) 353-361
- Fatty acids, role of the components of dietary lipids in the regulation of the composition of, and the rate of lipid peroxidation in rat liver endoplasmic reticulum (Hammer, C. T. & Wills, E. D.) 585-593
- Ferrochelatase, localization of, and newly synthesized haem in *Rhodospseudomonas spheroides* membrane fractions (Barrett, J. & Jones, O. T. G.) 277-281
- Ferrous ions, purification and properties of *Thiobacillus ferro-oxidans* rusticyanin and its involvement in the oxidation of (Cox, J. C. & Boxer, D. H.) 497-502
- Fibroblasts, mouse, kinetics of the biosynthesis and turnover of polyamines in (McCormick, F.) 427-434
- Flight muscle, *see* Muscle, flight
- Folate, metabolic fate of, in the rat (Barford, P. A., Staff, F. J. & Blair, J. A.) 579-583
- Fructose 1,6-bisphosphate, maximum activities and the effects of, on pyruvate kinase of muscles of various vertebrates and invertebrates in relation to the control of glycolysis (Zammit, V. A., Beis, I. & Newsholme, E. A.) 989-998
- α -Galactosidase, subcellular distribution of, and other glycosidases in human polymorphonuclear leucocytes (Rest, R. F., Cooney, M. H. & Spitznagel, J. K.) 53-59
- Gangliosides, increase in the content of, in rat cerebral-cortex subcellular fractions during postnatal development (Yusuf, H. K. M. & Dickerson, J. W. T.) 655-657
- Gangliosides, neuronal, evidence that the neuronal perikarya is the main subcellular site of glycosylation of, in rat brain (Maccioni, H. J. F., Defilpo, S. S., Landa, C. A. & Caputto, R.) 673-680
- Germination, concentrations of amino acids, organic acids, adenine nucleotides and nicotinamide nucleotides during, of *Bacillus megaterium* spores (Scott, I. R. & Ellar, D. J.) 627-634
- Germination, use of L-[³H]alanine and [³H]water to detect metabolism during, of *Bacillus megaterium* spores (Scott, I. R. & Ellar, D. J.) 635-640
- Glucagon, correction by adenosine deaminase of the alterations in lipolysis in isolated rat epididymal adipocytes in response to insulin, noradrenaline, corticotropin and, after adrenalectomy (Fernandez, B. M. & Saggerson, E. D.) 111-118
- Glucagon, effects of insulin and, on the biosynthesis of fatty acids and the degradation of glycogen in perfused liver from normal and genetically obese (*ob/ob*) mice (Ma, G. Y., Gove, C. D. & Hems, D. A.) 761-768
- Glucagon, evidence that the activity of rat liver plasma-membrane adenylate cyclase stimulated by, is modulated by the fluidity of its lipid environment (Dipple, I. & Houslay, M. D.) 179-190
- Glucagon, subcellular location, maturation and response to increased plasma concentrations of, of Ruthenium Red-insensitive transport of calcium ions in rat liver (Bygrave, F. L. & Tranter, C. J.) 1021-1030
- Glucosylase, brush-border-membrane, small-intestinal, rat, identification of, and other enzymes after electrophoresis on polyacrylamide gels containing sodium dodecyl sulphate (Hauri, H.-P. & Green, J. R.) 61-66
- Glucocorticoids, functional heterogeneity of the activity of uridine diphosphate glucuronosyltransferase in rat liver during perinatal development and induction by (Wishart, G. J.) 485-489
- Glucokinase, evidence that the sigmoidal kinetics followed by the phosphorylation of glucose in isolated rat hepatocytes can be explained by the activity of, without participation of other enzymes (Bontemps, F., Hue, L. & Hers, H.-G.) 603-611
- Gluconeogenesis, effect of adrenalectomy on the acceleration by calcium ions, adenosine 3':5'-cyclic monophosphate and adrenaline of, in rat kidney-cortex tubule preparations (Macdonald, D. W. R. & Saggerson, E. D.) 641-646
- Gluconeogenesis, induction of, in rat kidney cortex during acute poisoning of the liver by administration of carbon tetrachloride (Faus, M. J., Lupiáñez, J. A., Vargas, A. & Sánchez-Medina, F.) 461-467
- Gluconeogenesis, regulation of, and the supply of cytosol reducing equivalents for the formation of lactate in rat kidney-cortex tubule fragments incubated with pyruvate (Saggerson, E. D.) 131-142
- Glucoreceptor mechanism, protection of, for the secretion of insulin by isolated mouse islets of Langerhans during culture in chemically defined medium (Gylfe, E.) 959-964
- Glucose, effect of adrenalectomy on the acceleration by calcium ions, adenosine 3':5'-cyclic monophosphate and adrenaline of the formation of, in rat kidney-cortex tubule preparations (Macdonald, D. W. R. & Saggerson, E. D.) 641-646
- Glucose, effects of, and other sugars on the biosynthesis of proinsulin and insulin in isolated rat islets of Langerhans (Ashcroft, S. J. H., Bunce, J., Lowry, M., Hansen, S. E. & Hedekov, C. J.) 517-526
- Glucose, evidence that the sigmoidal kinetics followed by the phosphorylation of, in isolated rat hepatocytes can be explained by the activity of glucokinase without participation of other enzymes (Bontemps, F., Hue, L. & Hers, H.-G.) 603-611
- Glucose, induction of the formation of, in rat kidney cortex during acute poisoning of the liver by administration of carbon tetrachloride (Faus, M. J., Lupiáñez, J. A., Vargas, A. & Sánchez-Medina, F.) 461-467
- Glucose 6-phosphate dehydrogenase, concentrations of oxidized and reduced nicotinamide-adenine dinucleotide phosphate and activity of, in mouse cerebral cortex during exposure of the animals to high pressures of oxygen (Dodd, D. E. & Faiman, M. D.) 769-775
- Glucose, protection by, of the glucoreceptor mechanism for the secretion of insulin by isolated mouse islets of Langerhans during culture in chemically defined medium (Gylfe, E.) 959-964
- Glucose, regulation of the formation of, and the supply of cytosol reducing equivalents for the formation of lactate in rat kidney-cortex tubule fragments incubated with pyruvate (Saggerson, E. D.) 131-142

- Glucose, role of the uptake and metabolism of, in the transformation of rat thymocytes by concanavalin A (Hume, D. A., Radik, J. L., Ferber, E. & Weidemann, M. J.) 703-709
- α -Glucosidase, subcellular distribution of, and other glycosidases in human polymorphonuclear leucocytes (Rest, R. F., Cooney, M. H. & Spitznagel, J. K.) 53-59
- β -Glucosidase, subcellular distribution of, and other glycosidases in human polymorphonuclear leucocytes (Rest, R. F., Cooney, M. H. & Spitznagel, J. K.) 53-59
- Glucuronidation, product inhibition by *p*-nitrophenyl glucuronide of, of *o*-aminophenol by detergent-treated rat liver microsomal fraction (Howland, R. D.) 1007-1009
- Glutamic acid residues, evidence for the involvement of superoxide radical ions in the vitamin K-dependent carboxylation of, of prothrombin by rat liver microsomal fraction (Esnouf, M. P., Green, M. R., Hill, H. A. O., Irvine, G. B. & Walter, S. J.) 345-348
- Glutamine, metabolism of, in the kidney during induction of and recovery from metabolic acidosis in the rat (Parry, D. M. & Brosnan, J. T.) 387-396
- Glutathione, influence of age both of the animal and of the erythrocytes on the metabolism of, in mouse erythrocytes (Abraham, E. C., Taylor, J. F. & Lang, C. A.) 819-825
- Glycerolipids, effects of the contents of carbohydrates and fats in the diet on the activities of enzymes involved in the biosynthesis of, in rat liver (Glenny, H. P., Bowley, M., Burditt, S. L., Cooling, J., Pritchard, P. H., Sturton, R. G. & Brindley, D. N.) 535-541
- Glycerolipids, involvement of phosphatidate phosphatase and phospholipase A in the control of the biosynthesis of, in rat liver (Sturton, R. G., Pritchard, P. H., Han, L.-Y. & Brindley, D. N.) 667-670
- Glycine, amplitude of the depolarization by methionine and, of the plasma membrane of mouse ascites-tumour cells (Philo, R. D. & Eddy, A. A.) 801-810
- Glycine, biochemical basis for the conjugation of bile acids with either taurine or, in the liver of various animal species (Vessey, D. A.) 621-626
- Glycogen, effects of glucagon and insulin on the biosynthesis of fatty acids and the degradation of, in perfused liver from normal and genetically obese (*ob/ob*) mice (Ma, G. Y., Gove, C. D. & Hems, D. A.) 761-768
- Glycolysis, aerobic, role of, in the transformation of rat thymocytes by concanavalin A (Hume, D. A., Radik, J. L., Ferber, E. & Weidemann, M. J.) 703-709
- Glycolysis, dependence on pH of the transport of sugars and of, in cultured Ehrlich ascites-tumour cells (Kaminskas, E.) 453-459
- Glycolysis, maximum activities and the effects of fructose 1,6-bisphosphate on pyruvate kinase of muscles of various vertebrates and invertebrates in relation to the control of (Zammit, V. A., Beis, I. & Newsholme, E. A.) 989-998
- Glycolysis, preparation of a purified rabbit kidney-cortex brush-border fraction and evidence that enzymes involved in, are absent from this subcellular fraction (Busse, D., Wahle, H. U., Bartel, H. & Pohl, B.) 509-515
- Glycoproteins, utilization of *N*-acetyl-D-[1-¹⁴C]galactosamine and *N*-[³H]acetyl-D-galactosamine for the biosynthesis of, by isolated rat liver (MacNicoll, A. D., Wusteman, F. S., Powell, G. M. & Curtis, C. G.) 421-426
- Glycosidases, subcellular distribution of, in human polymorphonuclear leucocytes (Rest, R. F., Cooney, M. H. & Spitznagel, J. K.) 53-59
- Glycosyltransferases, evidence that the neuronal perikarya is the main subcellular site of, involved in the biosynthesis of neuronal gangliosides in rat brain (Maccioni, H. J. F., Defilpo, S. S., Landa, C. A. & Caputto, R.) 673-680
- Granulocytes, *see* Leucocytes, polymorphonuclear
- Growth, influence of passive stretch on the turnover of protein and, of denervated rat skeletal muscle (Goldspink, D. F.) 595-602
- Guanosine triphosphate, role of, in the phosphorylation of adenosine monophosphate in mitochondria of isolated rat hepatocytes (Krebs, H. A. & Wiggins, D.) 297-301
- Guanylate cyclase, factors affecting the activity of, in lysates of human platelets (Adams, A. F. & Haslam, R. J.) 23-35
- Haem, microsomal, liver, rat, decrease in the concentrations of, and cytochrome *P*-450 as a consequence of the metabolic activation of acetylenic groups of various steroidal and non-steroidal compounds administered to the animals (White, I. N. H.) 853-861
- Haem, newly synthesized, localization of ferrochelatase and, in *Rhodopseudomonas spheroides* membrane fractions (Barrett, J. & Jones, O. T. G.) 277-281
- Haem, use of ¹⁸O-labelling and metal substitution in a study of the degradation of, in rat spleen microsomal fraction and in a model system (King, R. F. G. J. & Brown, S. B.) 103-109
- Haematoferrahaem, decomposition of hydrogen peroxide catalysed by, and other haems as a model for the mechanism of action of catalase (Hatzikonstantinou, H. & Brown, S. B.) 893-900
- Haemoglobin, oxidative degradation of, in rabbit erythrocytes after the administration of nitrosobenzene (Hirota, K., Itano, H. A. & Vedvick, T. S.) 693-697
- Haems, decomposition of hydrogen peroxide catalysed by, as a model for the mechanism of action of catalase (Hatzikonstantinou, H. & Brown, S. B.) 893-900
- Haems, oxidation of, by hydrogen peroxide (Brown, S. B., Hatzikonstantinou, H. & Herries, D. G.) 901-907
- Heart, comparison of the abilities of mitochondria isolated from, of various animal species to oxidize long-chain fatty acids with special reference to C_{22:1} fatty acids (Osmundsen, H. & Bremer, J.) 379-386
- Heart-muscle cells, rat, isolated, activity of lipoprotein lipase in (Chohan, P. & Cryer, A.) 663-666
- Heart muscle, rat, changes in the activity of lipoprotein lipase in, and other tissues during perinatal and postnatal development (Cryer, A. & Jones, H. M.) 447-451
- Heart, ox, evidence for stoichiometric association during the interaction between mitochondrial reduced nicotinamide-adenine dinucleotide-ubiquinone oxidoreductase and ubiquinol-cytochrome *c* oxidoreductase from (Ragan, C. I. & Heron, C.) 783-790

- Heart, ox, magnitude and sites of generation of the protonmotive force and its comparison with the phosphorylation potential in submitochondrial particles from (Sorgato, M. C., Ferguson, S. J., Kell, D. B. & John, P.) 237-256
- Heart, ox, restoration of ubiquinone-pool behaviour during the interaction between mitochondrial reduced nicotinamide-adenine dinucleotide-ubiquinone oxidoreductase and ubiquinol-cytochrome *c* oxidoreductase from (Heron, C., Ragan, C. I. & Trumpower, B. L.) 791-800
- Hen, *see* Chicken
- Hepatectomy, partial, changes in the structure of chromatin during the cell cycle in regenerating rat liver after (Caplan, A., Ord, M. G. & Stocken, L. A.) 475-483
- Hepatectomy, partial, effect of, on the concentration of zinc ion-binding protein in rat liver (Ohtake, H., Hasegawa, K. & Koga, M.) 999-1005
- Hepatocytes, rat, isolated, effects of amino acids, ammonia and leupeptin on the biosynthesis and degradation of protein in (Seglen, P. O.) 469-474
- Hepatocytes, rat, isolated, evidence that the sigmoidal kinetics followed by the phosphorylation of glucose in, can be explained by the activity of glucokinase without participation of other enzymes (Bontemps, F., Hue, L. & Hers, H.-G.) 603-611
- Hepatocytes, rat, isolated, phosphorylation of adenosine monophosphate in mitochondria of (Krebs, H. A. & Wiggins, D.) 297-301
- Hepatocytes, rat, uptake and degradation of iodine-labelled chylomicron-remnant particles by monolayers of (Florén, C.-H. & Nilsson, Å.) 827-838
- Hibernation, changes in the form of Arrhenius plots of the activities of glucagon-stimulated adenylate cyclase and other plasma-membrane enzymes of hamster liver occurring on (Houslay, M. D. & Palmer, R. W.) 909-919
- Hordeum vulgare*, *see* Barley
- Hydrogen ions, possible role of symport with, in the transport of α -aminoisobutyrate into *Crithidia fasciculata* (Midgley, M.) 191-202
- Hydrogen ions, role of superoxide dismutase and catalase in the protection of systems donating, involved in the fixation of nitrogen by *Anabaena cylindrica* (Henry, L. E. A., Gogotov, I. N. & Hall, D. O.) 373-377
- Hydrogen peroxide, decomposition of, catalysed by haems as a model for the mechanism of action of catalase (Hatzikonstantinou, H. & Brown, S. B.) 893-900
- Hydrogen peroxide, oxidation of haems by (Brown, S. B., Hatzikonstantinou, H. & Herries, D. G.) 901-907
- Hydroxide ions, inability of tributyltin-induced exchange of chloride ions and, to stimulate the transport of calcium ions by isolated blowfly flight-muscle mitochondria (Bygrave, F. L. & Smith, R. L.) 1075-1077
- 25-Hydroxycholecalciferol, effects of oestradiol-17 β and 1,25-dihydroxycholecalciferol on the metabolism of, in primary cultures of chick kidney cells (Spanos, E., Barrett, D. I., Chong, K. T. & MacIntyre, I.) 231-236
- Hypophysectomy, time course of the effects of, and administration of oestrogens on the metabolism of androst-4-ene-3,17-dione in liver of male and female rats (Skett, P.) 753-760
- Hypoxanthine phosphoribosyltransferase, intracellular location of the activities of, and other purine phosphoribosyltransferases in *Escherichia coli* (Page, M. G. P. & Burton, K.) 717-725
- Ileum, rat, co-transport of taurocholate and sodium ions by brush-border membrane vesicles isolated from (Lücke, H., Stange, G., Kinne, R. & Murer, H.) 951-958
- Insulin, correction by adenosine deaminase of the alterations in lipolysis in isolated rat epididymal adipocytes in response to noradrenaline, corticotropin, glucagon and, after adrenalectomy (Fernandez, B. M. & Saggerson, E. D.) 111-118
- Insulin, effects of glucagon and, on the biosynthesis of fatty acids and the degradation of glycogen in perfused liver from normal and genetically obese (*ob/ob*) mice (Ma, G. Y., Gove, C. D. & Hems, D. A.) 761-768
- Insulin, effects of starvation and administration of, on the activity of the pyruvate dehydrogenase complex in lactating rat mammary gland (Baxter, M. A. & Coore, H. G.) 553-561
- Insulin, effects of sugars on the biosynthesis of proinsulin and, in isolated rat islets of Langerhans (Ashcroft, S. J. H., Bunce, J., Lowry, M., Hansen, S. E. & Hedekov, C. J.) 517-526
- Insulin, protection of the glucoreceptor mechanism for the secretion of, by isolated mouse islets of Langerhans during culture in chemically defined medium (Gylfe, E.) 959-964
- Insulin-receptor protein, plasma-membrane, placental, human, effects of digestive enzymes on the characteristics of preparations of (Clark, S., DeLuise, M., Larkins, R. G., Melick, R. A. & Harrison, L. C.) 37-43
- Intestine, chick, differentiation of the changes in the activities of alkaline phosphatase and calcium ion-activated adenosine triphosphatase associated with increased absorption of calcium ions by (Lane, S. M. & Lawson, D. E. M.) 1067-1070
- Intestine, small, measurement and kinetic study of the formation of adrenaline sulphate by preparations of liver and, from various mammalian species (Wong, K. P.) 777-782
- Intestine, small, rat, co-transport of taurocholate and sodium ions by brush-border membrane vesicles isolated from (Lücke, H., Stange, G., Kinne, R. & Murer, H.) 951-958
- Intestine, small, rat, identification of brush-border membrane enzymes of, after electrophoresis on polyacrylamide gels containing sodium dodecyl sulphate (Hauri, H.-P. & Green, J. R.) 61-66
- Ionophore A23187, role of calcium ions in the regulation by, of the oxidation of pyruvate by rat thymocytes (Hume, D. A., Vijayakumar, E. K., Schweinberger, F., Russell, L. M. & Weidemann, M. J.) 711-716
- Iron, ferrous, purification and properties of *Thiobacillus ferro-oxidans* rusticyanin and its involvement in the oxidation of (Cox, J. C. & Boxer, D. H.) 497-502
- Islets of Langerhans, pancreatic, mouse, isolated, protection of the glucoreceptor mechanism for the secretion of insulin by, during culture in chemically defined medium (Gylfe, E.) 959-964

- Islets of Langerhans, pancreatic, rat, isolated, effects of sugars on the biosynthesis of proinsulin and insulin in (Ashcroft, S. J. H., Bunce, J., Lowry, M., Hansen, S. E. & Hedekov, C. J.) 517-526
- Kidney cells (BHK-21/C13), baby-hamster, diminished excretion of polyamines by, exposed to methylglyoxal bis(guanylhydrazone) (Melvin, M. A. L. & Keir, H. M.) 349-352
- Kidney cells, chick, effects of oestradiol-17 β and 1,25-dihydroxycholecalciferol on the metabolism of 25-hydroxycholecalciferol in primary cultures of (Spanos, E., Barrett, D. I., Chong, K. T. & MacIntyre, I.) 231-236
- Kidney cortex, rabbit, preparation of a purified brush-border fraction from, and evidence that enzymes involved in glycolysis are absent from this subcellular compartment (Busse, D., Wahle, H. U., Bartel, H. & Pohl, B.) 509-515
- Kidney cortex, rat, effect of adrenalectomy on the acceleration by calcium ions, adenosine 3':5'-cyclic monophosphate and adrenaline of gluconeogenesis by preparations of tubules from (Macdonald, D. W. R. & Saggerson, E. D.) 641-646
- Kidney cortex, rat, induction of gluconeogenesis in, during acute poisoning of the liver by administration of carbon tetrachloride (Faus, M. J. Lupiáñez, J. A., Vargas, A. & Sánchez-Medina, F.) 461-467
- Kidney cortex, rat, regulation of gluconeogenesis and the supply of cytosol reducing equivalents for the formation of lactate in tubule fragments from, incubated with pyruvate (Saggerson, E. D.) 131-142
- Kidney, rat, effect of zinc deficiency on the biosynthesis and degradation of copper-thionein in, and liver (Bremner, I., Hoekstra, W. G., Davies, N. T. & Young, B. W.) 883-892
- Kidney, rat, metabolism of glutamine in, during induction of and recovery from metabolic acidosis (Parry, D. M. & Brosnan, J. T.) 387-396
- Lactase brush-border-membrane, small-intestinal, rat, identification of, and other enzymes after electrophoresis on polyacrylamide gels containing sodium dodecyl sulphate (Hauri, H.-P. & Green, J. R.) 61-66
- Lactate, regulation of gluconeogenesis and the supply of cytosol reducing equivalents for the formation of, in rat kidney-cortex tubule fragments incubated with pyruvate (Saggerson, E. D.) 131-142
- Lactation, diurnal variation and response to withdrawal of food on the biosynthesis of lactose in rat mammary gland during (Carrick, D. T. & Kuhn, N. J.) 319-325
- Lactation, effects of starvation and administration of insulin on the activity of the pyruvate dehydrogenase complex in rat mammary gland during (Baxter, M. A. & Coore, H. G.) 553-561
- Lactation, stereospecific biosynthesis of triacylglycerols in rat mammary gland during (Cooper, S. M. & Grigor, M. R.) 659-662
- Lactation, uptake of substrates for the biosynthesis of milk fat by rabbit mammary gland during (Jones, C. S. & Parker, D. S.) 291-296
- Lactose, diurnal variation and response to withdrawal of food on the biosynthesis of, in lactating rat mammary gland (Carrick, D. T. & Kuhn, N. J.) 319-325
- Leaves, barley, composition of the lipids of, of a mutant lacking chlorophyll *b* (Bolton, P., Wharfe, J. & Harwood, J. L.) 67-72
- Leaves, barley, etiolated, reconstitution of the biosynthesis of chlorophyllide by etioplast membranes isolated from (Griffiths, W. T.) 681-692
- Leaves, barley, wheat and pea, biosynthesis of fatty acids in (Wharfe, J. & Harwood, J. L.) 163-169
- Leucine, asynchrony in the incorporation of, into venom proteins in *Vipera palaestinae* venom gland (Oron, U., Kinamon, S. & Bdolah, A.) 733-739
- Leucine, effects of sugars on the incorporation of, into proinsulin and insulin in isolated rat islets of Langerhans (Ashcroft, S. J. H., Bunce, J., Lowry, M., Hansen, S. E. & Hedekov, C. J.) 517-526
- Leucine, interference by, in the assay of alanine with *Bacillus subtilis* alanine dehydrogenase (Lund, P. & Baverel, G.) 1079-1082
- Leucocytes, polymorphonuclear, human, subcellular distribution of glycosidases in (Rest, R. F., Cooney, M. H. & Spitznagel, J. K.) 53-59
- Leupeptin, effects of amino acids, ammonia and, on the biosynthesis and degradation of protein in isolated rat hepatocytes (Seglen, P. O.) 469-474
- Lipid peroxidation, effect of, on the calcium ion-accumulating ability of chicken breast-muscle microsomal fraction (Player, T. J. & Hultin, H. O.) 17-22
- Lipid peroxidation, role of the components of dietary lipids in the regulation of the composition of fatty acids and the rate of, in rat liver endoplasmic reticulum (Hammer, C. T. & Wills, E. D.) 585-593
- Lipids, composition of, of leaves of a barley mutant lacking chlorophyll *b* (Bolton, P., Wharfe, J. & Harwood, J. L.) 67-72
- Lipids, dietary, role of the components of, in the regulation of the composition of fatty acids and the rate of lipid peroxidation in rat liver endoplasmic reticulum (Hammer, C. T. & Wills, E. D.) 585-593
- Lipids, effects of maternal consumption of ethanol on the biosynthesis of, in foetal and neonatal rat liver (Rawat, A. K.) 213-219
- Lipids, milk, rabbit, uptake of substrates for the biosynthesis of, by lactating mammary gland (Jones, C. S. & Parker, D. S.) 291-296
- Lipids, regulation by androgens of the activities of enzymes involved in the tricarboxylic acid cycle, transfer of metabolites into and out of mitochondria and oxidation of, in rat epididymis and epididymal spermatozoa (Brooks, D. E.) 741-752
- Lipogenesis, effects of glucagon and insulin on the degradation of glycogen and, in perfused liver from normal and genetically obese (*ob/ob*) mice (Ma, G. Y., Gove, C. D. & Hems, D. A.) 761-768
- Lipogenesis, effects of maternal consumption of ethanol on, in foetal and neonatal rat liver (Rawat, A. K.) 213-219
- Lipolysis, correction by adenosine deaminase of the alterations in, in isolated rat epididymal adipocytes in response to insulin, noradrenaline, corticotropin and glucagon after adrenalectomy (Fernandez, B. M. & Saggerson, E. D.) 111-118
- Lipoprotein lipase, activity of, in isolated rat heart-muscle cells (Chohan, P. & Cryer, A.) 663-666

- Lipoprotein lipase, changes in the activity of, in rat lung, heart muscle, skeletal muscle and brown adipose tissue during perinatal and postnatal development (Cryer, A. & Jones, H. M.) 447-451
- Liver, activities and properties of 5'-nucleotidase, adenosine kinase and adenosine deaminase in, and other tissues from various vertebrates and invertebrates in relation to control of the concentration and physiological role of adenosine (Arch, J. R. S. & Newsholme, E. A.) 965-977
- Liver, biochemical basis for the conjugation of bile acids with either glycine or taurine in, of various animal species (Vessey, D. A.) 621-626
- Liver cells, rat, isolated, effects of amino acids, ammonia and leupeptin on the biosynthesis and degradation of protein in (Seglen, P. O.) 469-474
- Liver cells, rat, isolated, evidence that the sigmoidal kinetics followed by the phosphorylation of glucose in, can be explained by the activity of glucokinase without participation of other enzymes (Bontemps, F., Hue, L. & Hers, H.-G.) 603-611
- Liver cells, rat, isolated, phosphorylation of adenosine monophosphate in mitochondria of (Krebs, H. A. & Wiggins, D.) 297-301
- Liver cells, rat, uptake and degradation of iodine-labelled chylomicron-remnant particles by monolayers of (Florén, C.-H. & Nilsson, Å.) 827-838
- Liver, chick-embryo, ontogeny of the response to oestradiol-17 β of the concentration of soluble nuclear oestrogen-receptor protein and of the biosynthesis of vitellogenin in (Lazier, C. B.) 143-152
- Liver, hamster, changes in the form of Arrhenius plots of the activities of glucagon-stimulated adenylate cyclase and other enzymes of the plasma membrane of, occurring on hibernation (Houslay, M. D. & Palmer, R. W.) 909-919
- Liver, human, analytical fractionation of subcellular organelles of needle-biopsy specimens from (Peters, T. J. & Seymour, C. A.) 435-446
- Liver, measurement and kinetic study of the formation of adrenaline sulphate by preparations of small intestine and, from various mammalian species (Wong, K. P.) 777-782
- Liver, monkey, regulation by nicotinamide nucleotides of the activity of serine hydroxymethyltransferase in (Ramesh, K. S. & Appaji Rao, N.) 1055-1058
- Liver, mouse, alkylation of deoxyribonucleic acid *in vivo* in, and other tissues of, by *N*-methyl-*N*-nitrosourea, *N*-ethyl-*N*-nitrosourea and ethyl methanesulphonate in relation to the induction of thymoma (Frei, J. V., Swenson, D. H., Warren, W. & Lawley, P. D.) 1031-1044
- Liver, mouse, perfused, effects of glucagon and insulin on the biosynthesis of fatty acids and the degradation of glycogen in, from normal and genetically obese (*ob/ob*) animals (Ma, G. Y., Gove, C. D. & Hems, D. A.) 761-768
- Liver, rat, changes in the compartmentation and concentrations of adenine nucleotides in, during foetal development (Van Lelyveld, P. H. & Hommes, F. A.) 527-533
- Liver, rat, changes in the metabolism of polyamines in, during postnatal development (Brosnan, M. E., Symonds, G. W., Hall, D. E. & Symonds, D. L.) 727-732
- Liver, rat, concentrations of zinc ion-binding protein in, of neonatal, normal adult and partially hepatectomized animals (Ohtake, H., Hasegawa, K. & Koga, M.) 999-1005
- Liver, rat, cycling of calcium ions by mitochondria isolated from (Ramachandran, C. & Bygrave, F. L.) 613-620
- Liver, rat, decrease in the concentrations of microsomal cytochrome *P*-450 and haem in, as a consequence of the metabolic activation of acetylenic groups of various steroidal and non-steroidal compounds administered to the animals (White, I. N. H.) 853-861
- Liver, rat, demonstration of functional heterogeneity of the activities of uridine diphosphate glucuronosyltransferase in, after the administration of 3-methylcholanthrene and phenobarbital (Wishart, G. J.) 671-672
- Liver, rat, distinction between binding and endocytosis of human asialo-transferrin by (Regoecci, E., Taylor, P., Hatton, M. W. C., Wong, K.-L. & Koj, A.) 171-178
- Liver, rat, effect of zinc deficiency on the biosynthesis and degradation of copper-thionein in, and kidney (Bremner, I., Hoekstra, W. G., Davies, N. T. & Young, B. W.) 883-892
- Liver, rat, effects of contents of carbohydrates and fats in the diet on the activities of enzymes involved in the biosynthesis of glycerolipids in (Glenny, H. P., Bowley, M., Burditt, S. L., Cooling, J., Pritchard, P. H., Sturton, R. G. & Brindley, D. N.) 535-541
- Liver, rat, evidence for the involvement of superoxide radical ions in the vitamin K-dependent carboxylation of glutamic acid residues of prothrombin by microsomal fraction from (Esnouf, M. P., Green, M. R., Hill, H. A. O., Irvine, G. B. & Walter, S. J.) 345-348
- Liver, rat, evidence that the activity of glucagon-stimulated adenylate cyclase of the plasma membrane of, is modulated by the fluidity of its lipid environment (Dipple, I. & Houslay, M. D.) 179-190
- Liver, rat, evidence that the stimulation by cholera toxin of the activity of adenylate cyclase is not associated with the activity of nicotinamide-adenine dinucleotide glycohydrolase in (Tait, R. M. & van Heyningen, S.) 1059-1062
- Liver, rat, foetal and neonatal, effects of maternal consumption of ethanol on the biosynthesis of lipids in (Rawat, A. K.) 213-219
- Liver, rat, functional heterogeneity of the activity of uridine diphosphate glucuronosyltransferase of, during perinatal development and induction by glucocorticoids (Wishart, G. J.) 485-489
- Liver, rat, incorporation of ribonucleic acid *in vitro* into dense ribonucleoprotein-like materials by nuclei isolated from (Suzuka, I.) 503-508
- Liver, rat, induction of gluconeogenesis in kidney cortex during acute poisoning of, by administration of carbon tetrachloride (Faus, M. J., Lupiáñez, J. A., Vargas, A. & Sánchez-Medina, F.) 461-467
- Liver, rat, involvement of phosphatidate phosphatase and phospholipase A in the control of the biosynthesis of glycerolipids in (Sturton, R. G., Pritchard, P. H., Han, L.-Y. & Brindley, D. N.) 667-670

- Liver, rat, metabolic relationship of subpopulations of lysosomes from, separated by density-gradient centrifugation (Pertoft, H., Wärmegård, B. & Höök, M.) 309-317
- Liver, rat, perfused, isolated, utilization of *N*-acetyl-D-[1-¹⁴C]galactosamine and *N*-[³H]acetyl-D-galactosamine for the biosynthesis of glycoproteins by (MacNicoll, A. D., Wusteman, F. S., Powell, G. M. & Curtis, C. G.) 421-426
- Liver, rat, product inhibition by *p*-nitrophenyl glucuronide of the glucuronidation of *o*-aminophenol by detergent-treated microsomal fraction from (Howland, R. D.) 1007-1009
- Liver, rat, regenerating, changes in the structure of chromatin during the cell cycle in, after partial hepatectomy (Caplan, A., Ord, M. G. & Stocken, L. A.) 475-483
- Liver, rat, reversal by administration of Triton WR-1339 of the induction by ethynylloestradiol of the esterification of cholesterol in (Davis, R. A., Showalter, R. & Kern, F., Jr.) 45-51
- Liver, rat, role of the components of dietary lipids in the regulation of the composition of fatty acids and the rate of lipid peroxidation in endoplasmic reticulum of (Hammer, C. T. & Wills, E. D.) 585-593
- Liver, rat, sequential deiodination of thyroxine in homogenate of (Visser, T. J., Fekkes, D., Docter, R. & Hennemann, G.) 221-229
- Liver, rat, sodium ion-dependent transport of alanine by plasma-membrane vesicles from (van Amelsvoort, J. M. M., Sips, H. J. & van Dam, K.) 1083-1086
- Liver, rat, subcellular location, maturation and response to increased plasma concentrations of glucagon of Ruthenium Red-insensitive transport of calcium ions in (Bygrave, F. L. & Tranter, C. J.) 1021-1030
- Liver, rat, submicrosomal localization of acyl-coenzyme A-cholesterol acyltransferase, cholesterol and cholesterol esters in (Balasubramaniam, S., Venkatesan, S., Mitropoulos, K. A. & Peters, T. J.) 863-872
- Liver, rat, submitochondrial location of Ruthenium Red-sensitive transport of calcium ions and evidence for its enrichment in a specific population of mitochondria from (Bygrave, F. L., Heaney, T. P. & Ramachandran, C.) 1011-1019
- Liver, rat, time course of the effects of hypophysectomy and administration of oestrogens on the metabolism of androst-4-ene-3,17-dione in, of male and female animals (Skett, P.) 753-760
- Liver, rat, transverse organization of phospholipids across the bilayer of subfractions of plasma membrane from (Higgins, J. A. & Evans, W. H.) 563-567
- Liver, rat, turnover of metallothioneins in (Andersen, R. D., Winter, W. P., Maher, J. J. & Bernstein, I. A.) 327-338
- Liver, rat, use of high-performance liquid chromatography for study of the metabolism of aflatoxins by microsomal preparations from (Neal, G. E. & Colley, P. J.) 839-851
- Liver, rat, use of phosphatidylinositol-exchange protein to obtain evidence for the existence of different pools of phosphatidylinositol in microsomal membranes from (Brophy, P. J., Burbach, P., Nelemans, S. A., Westerman, J., Wirtz, K. W. A. & van Deenen, L. L. M.) 413-420
- Liver, *Xenopus laevis*, role of stimulation of the biosynthesis of cholesterol and fatty acids in the induction by oestradiol-17 β of the biosynthesis of vitellogenin by (Smith, D. F., Penning, T. M., Ansari, A. Q., Munday, K. A. & Akhtar, M.) 353-361
- Lucilia cuprina*, see Blowfly
- Luminescence flux, derivation of an equation for, of an electron-transport equation and of energy-conservation equations for photosynthesis in algae and higher plants (Li, Y.-S.) 569-577
- Lung, rat, changes in the activity of lipoprotein lipase in, and other tissues during perinatal and postnatal development (Cryer, A. & Jones, H. M.) 447-451
- Lymphocytes, rat, role of aerobic glycolysis in the transformation of, by concanavalin A (Hume, D. A., Radik, J. L., Ferber, E. & Weidemann, M. J.) 703-709
- Lymphocytes, rat, role of calcium ions in the regulation by mitogens of the oxidation of pyruvate by (Hume, D. A., Vijayakumar, E. K., Schweinberger, F., Russell, L. M. & Weidemann, M. J.) 711-716
- Lysosomes, liver, human, analytical fractionation of, and other subcellular organelles of needle-biopsy specimens (Peters, T. J. & Seymour, C. A.) 435-446
- Lysosomes, liver, rat, metabolic relationship of subpopulations of, separated by density-gradient centrifugation (Pertoft, H., Wärmegård, B. & Höök, M.) 309-317
- Macaca radiata*, see Monkey
- Maize (*Zea mays*) seedlings, differential light-scattering by granal and agranal chloroplasts and their fragments from (Faludi-Dániel, Á., Bialek, G. E., Horváth, G., Sz.-Rozsa, Z. & Gregory, R. P. F.) 647-651
- Maltase, brush-border-membrane, small-intestinal, rat, identification of, and other enzymes after electrophoresis on polyacrylamide gels containing sodium dodecyl sulphate (Hauri, H.-P. & Green, J. R.) 61-66
- Mammary gland, rabbit, indirect method for estimation of the rate of degradation of fatty acid synthetase in explants of (Paskin, N. & Mayer, R. J.) 153-161
- Mammary gland, rabbit, lactating, uptake of substrates for the biosynthesis of milk fat by (Jones, C. S. & Parker, D. S.) 291-296
- Mammary gland, rat, lactating, diurnal variation and response to withdrawal of food on the biosynthesis of lactose in (Carrick, D. T. & Kuhn, N. J.) 319-325
- Mammary gland, rat, lactating, effects of starvation and administration of insulin on the activity of the pyruvate dehydrogenase complex in (Baxter, M. A. & Coore, H. G.) 553-561
- Mammary gland, rat, lactating, stereospecific biosynthesis of triacylglycerols in (Cooper, S. M. & Grigor, M. R.) 659-662
- α -Mannosidase, subcellular distribution of, and other glycosidases in human polymorphonuclear leucocytes (Rest, R. F., Cooney, M. H. & Spitznagel, J. K.) 53-59
- Mast-cell granules, velocity sedimentation of, at low centrifugal force in an isokinetic gradient (Pretlow, T. G., II, Kreisberg, J. I., Fine, W. D., Ziemann, G. A., Brattain, M. G. & Pretlow, T. P.) 303-307
- Mealworm, yellow (*Tenebrio molitor*), mechanism of the dealkylation of clonasterol in (Pettler, P. J., Lockley, W. J. S., Rees, H. H. & Goodwin, T. W.) 397-404

- Membrane, brush-border, small-intestinal, rat, identification of enzymes of, after electrophoresis on polyacrylamide gels containing sodium dodecyl sulphate (Hauri, H.-P. & Green, J. R.) 61-66
- Membrane fraction, *Rhodopseudomonas spheroides*, cytochrome *c*-enriched, properties of (Barrett, J., Hunter, C. N. & Jones, O. T. G.) 267-275
- Membrane fractions, *Rhodopseudomonas spheroides*, localization of ferrochelatase and newly synthesized haem in (Barrett, J. & Jones, O. T. G.) 277-281
- Membrane, plasma, ascites-tumour-cell, mouse, amplitude of the depolarization by amino acids of (Philo, R. D. & Eddy, A. A.) 801-810
- Membrane, plasma, ascites-tumour-cell, mouse, equilibrium and steady-state models of the coupling between the amino acid concentration gradient and the sodium ion electrochemical gradient across (Philo, R. D. & Eddy, A. A.) 811-817
- Membrane, plasma, liver, hamster, changes in the form of Arrhenius plots of the activities of glucagon-stimulated adenylate cyclase and other enzymes of, occurring on hibernation (Houslay, M. D. & Palmer, R. W.) 909-919
- Membrane, plasma, liver, human, analytical fractionation of, and other subcellular organelles of needle-biopsy specimens (Peters, T. J. & Seymour, C. A.) 435-446
- Membrane, plasma, liver, rat, evidence that the activity of glucagon-stimulated adenylate cyclase of, is modulated by the fluidity of its lipid environment (Dipple, I. & Houslay, M. D.) 179-190
- Membrane, plasma, liver, rat, sodium ion-dependent transport of alanine by vesicles of (van Amelsvoort, J. M. M., Sips, H. J. & van Dam, K.) 1083-1086
- Membrane, plasma, liver, rat, transverse organization of phospholipids across the bilayer of subfractions of (Higgins, J. A. & Evans, W. H.) 563-567
- Membrane, plasma, placental, human, effects of digestive enzymes on the characteristics of preparations of insulin-receptor protein from (Clark, S., DeLuise, M., Larkins, R. G., Melick, R. A. & Harrison, L. C.) 37-43
- Membrane, plasma, skeletal-muscle, biosynthesis of proteins of, during myogenesis of cultured chick-embryo skeletal-muscle cells (Cates, G. A. & Holland, P. C.) 873-881
- Membrane vesicles, brush-border, ileum, rat, isolated, co-transport of taurocholate and sodium ions by (Lücke, H., Stange, G., Kinne, R. & Murer, H.) 951-958
- Membrane vesicles, phosphorylating, *Paracoccus denitrificans* N.C.I.B. 8944, magnitude and sites of generation of the protonmotive force and its comparison with the phosphorylation potential in (Kell, D. B., John, P. & Ferguson, S. J.) 257-266
- Membranes, etioplast, barley-seedling, isolated, reconstitution of the biosynthesis of chlorophyllide by (Griffiths, W. T.) 681-692
- Membranes, microsomal, liver, rat, use of phosphatidylinositol-exchange protein to obtain evidence for the existence of different pools of phosphatidylinositol in (Brophy, P. J., Burbach, P., Nelemans, S. A., Westerman, J., Wirtz, K. W. A. & van Deenen, L. L. M.) 413-420
- Mesoferrahaem, decomposition of hydrogen peroxide catalysed by, and other haems as a model for the mechanism of action of catalase (Hatzikonstantinou, H. & Brown, S. B.) 893-900
- Mesoferrahaem, oxidation of, and other haems by hydrogen peroxide (Brown, S. B., Hatzikonstantinou, H. & Herries, D. G.) 901-907
- Messenger ribonucleic acid, *see* Ribonucleic acid, messenger
- Metallothionein, copper-, effect of zinc deficiency on the biosynthesis and degradation of, in rat liver and kidney (Bremner, I., Hoekstra, W. G., Davies, N. T. & Young, B. W.) 883-892
- Metallothioneins, turnover of, in rat liver (Andersen, R. D., Winter, W. P., Maher, J. J. & Bernstein, I. A.) 327-338
- Methionine, amplitude of the depolarization by glycine and, of the plasma membrane of mouse ascites-tumour cells (Philo, R. D. & Eddy, A. A.) 801-810
- Methionine, equilibrium and steady-state models of the coupling between the electrochemical gradient of sodium ions and the concentration gradient of, across the plasma membrane of mouse ascites-tumour cells (Philo, R. D. & Eddy, A. A.) 811-817
- 3-Methylcholanthrene, demonstration of functional heterogeneity of the activities of uridine diphosphate glucuronosyltransferase in rat liver after the administration of phenobarbital and (Wishart, G. J.) 671-672
- 1,1'-[(Methylethanediyilidene)dinitrilo]diguanidine, *see* Methylglyoxal bis(guanylhydrazone)
- Methylglyoxal bis(guanylhydrazone) {1,1'-[(methylethanediyilidene)dinitrilo]diguanidine}, diminished excretion of polyamines by baby-hamster kidney BHK-21/C13 cells exposed to (Melvin, M. A. L. & Keir, H. M.) 349-352
- N*-Methyl-*N*-nitrosoarene, alkylation of deoxyribonucleic acid *in vivo* in various tissues of C57BL mice by ethyl methanesulphonate, *N*-ethyl-*N*-nitrosoarene and, in relation to the induction of thymoma (Frei, J. V., Swenson, D. H., Warren, W. & Lawley, P. D.) 1031-1044
- α -Methylphenylalanine, effects of *p*-chlorophenylalanine and, on the uptake of amino acids and the biosynthesis of protein by mouse neuroblastoma cells (Kelly, C. J. & Johnson, T. C.) 931-938
- Micrococcus denitrificans*, *see* *Paracoccus denitrificans*
- Microsomal fraction, breast-muscle, chicken, effect of lipid peroxidation on the calcium ion-accumulating ability of (Player, T. J. & Hultin, H. O.) 17-22
- Microsomal fraction, cerebral-cortex, rat, increase in the content of disialoganglioside G_{D1a} in, during postnatal development (Yusuf, H. K. M. & Dickerson, J. W. T.) 655-657
- Microsomal fraction, liver, rat, decrease in the concentrations of cytochrome *P*-450 and haem in, as a consequence of the metabolic activation of acetylenic groups of various steroidal and non-steroidal compounds administered to the animals (White, I. N. H.) 853-861
- Microsomal fraction, liver, rat, detergent-treated, product inhibition by *p*-nitrophenyl glucuronide of the glucuronidation of *o*-aminophenol by (Howland, R. D.) 1007-1009

- Microsomal fraction, liver, rat, evidence for the involvement of superoxide radical ions in the vitamin K-dependent carboxylation of glutamic acid residues of prothrombin by (Esnouf, M. P., Green, M. R., Hill, H. A. O., Irvine, G. B. & Walter, S. J.) 345-348
- Microsomal fraction, liver, rat, maturation and response to increased plasma concentrations of glucagon of Ruthenium Red-insensitive transport of calcium ions by (Bygrave, F. L. & Tranter, C. J.) 1021-1030
- Microsomal fraction, liver, rat, submicrosomal localization of acyl-coenzyme A-cholesterol acyltransferase, cholesterol and cholesteryl esters in (Balasubramaniam, S., Venkatesan, S., Mitropoulos, K. A. & Peters, T. J.) 863-872
- Microsomal fraction, liver, rat, use of phosphatidylinositol-exchange protein to obtain evidence for the existence of different pools of phosphatidylinositol in (Brophy, P. J., Burbach, P., Nelemans, S. A., Westerman, J., Wirtz, K. W. A. & van Deenen, L. L. M.) 413-420
- Microsomal fraction, spleen, rat, use of ^{18}O -labelling and metal substitution in a study of the degradation of haem in, and in a model system (King, R. F. G. J. & Brown, S. B.) 103-109
- Microsomal preparations, liver, rat, use of high-performance liquid chromatography for study of the metabolism of aflatoxins by (Neal, G. E. & Colley, P. J.) 839-851
- Milk, rabbit, uptake of substrates for the biosynthesis of lipid constituents of, by lactating mammary gland (Jones, C. S. & Parker, D. S.) 291-296
- Mitochondria, *Acanthamoeba castellanii*, properties of, isolated from cyanide-sensitive and cyanide-stimulated cultures (Edwards, S. W. & Lloyd, D.) 203-211
- Mitochondria, adrenal-gland, rat, control of the metabolism of sterols in (Mason, J. I., Arthur, J. R. & Boyd, G. S.) 1045-1051
- Mitochondria, flight-muscle, blowfly, isolated, inability of tributyltin-induced exchange of chloride ions and hydroxide ions to stimulate the transport of calcium ions by (Bygrave, F. L. & Smith, R. L.) 1075-1077
- Mitochondria, heart, isolated, comparison of the abilities of, of various animal species to oxidize long-chain fatty acids with special reference to $\text{C}_{22:1}$ fatty acids (Osmundsen, H. & Bremer, J.) 379-386
- Mitochondria, heart, ox, evidence for stoichiometric association during the interaction between reduced nicotinamide-adenine dinucleotide-ubiquinone oxidoreductase and ubiquinol-cytochrome *c* oxidoreductase from (Ragan, C. I. & Heron, C.) 783-790
- Mitochondria, heart, ox, magnitude and sites of generation of the protonmotive force and its comparison with the phosphorylation potential in submitochondrial particles from (Sorgato, M. C., Ferguson, S. J., Kell, D. B. & John, P.) 237-256
- Mitochondria, heart, ox, restoration of ubiquinone-pool behaviour during the interaction between reduced nicotinamide-adenine dinucleotide-ubiquinone oxidoreductase and ubiquinol-cytochrome *c* oxidoreductase from (Heron, C., Ragan, C. I. & Trumpower, B. L.) 791-800
- Mitochondria, hepatocyte, rat, phosphorylation of adenosine monophosphate in (Krebs, H. A. & Wiggins, D.) 297-301
- Mitochondria, liver, human, analytical fractionation of, and other subcellular organelles of needle-biopsy specimens (Peters, T. J. & Seymour, C. A.) 435-446
- Mitochondria, liver, rat, changes in the concentrations of adenine nucleotides in, and cytosol during foetal development (Van Lelyveld, P. H. & Hommes, F. A.) 527-533
- Mitochondria, liver, rat, isolated, cycling of calcium ions by (Ramachandran, C. & Bygrave, F. L.) 613-620
- Mitochondria, liver, rat, submitochondrial location of Ruthenium Red-sensitive transport of calcium ions and evidence for its enrichment in a specific population of (Bygrave, F. L., Heaney, T. P. & Ramachandran, C.) 1011-1019
- Mitochondria, regulation by androgens of the activities of enzymes involved in the tricarboxylic acid cycle, oxidation of lipids and transfer of metabolites into and out of, in rat epididymis and epididymal spermatozoa (Brooks, D. E.) 741-752
- Mitochondria, thyroid-gland, ox, subcellular localization of the activity of peroxidase in (De Wolf, M. J. S., Lagrou, A. R., Hilderson, H. J. J., Van Dessel, G. A. F. & Dierick, W. S. H.) 939-949
- Mitogens, role of calcium ions in the regulation by, of the oxidation of pyruvate by rat thymocytes (Hume, D. A., Vijayakumar, E. K., Schweinberger, F., Russell, L. M. & Weidemann, M. J.) 711-716
- Modeccin, *Adenia digitata*, purification and toxicity of, and its inhibitory effect on the biosynthesis of protein by a lysate of rabbit reticulocytes and by Ehrlich ascites-tumour cells (Gasperi-Campani, A., Barbieri, L., Lorenzoni, E., Montanaro, L., Sperti, S., Bonetti, E. & Stirpe, F.) 491-496
- Monkey (*Macaca radiata*), regulation by nicotinamide nucleotides of the activity of serine hydroxymethyltransferase in liver of (Ramesh, K. S. & Appaji Rao, N.) 1055-1058
- Muscle, activities and properties of 5'-nucleotidase, adenosine kinase and adenosine deaminase in, and other tissues from various vertebrates and invertebrates in relation to control of the concentration and physiological role of adenosine (Arch, J. R. S. & Newsholme, E. A.) 965-977
- Muscle, breast, chicken, effect of lipid peroxidation on the calcium ion-accumulating ability of microsomal fraction from (Player, T. J. & Hultin, H. O.) 17-22
- Muscle cells, heart, rat, isolated, activity of lipoprotein lipase in (Chohan, P. & Cryer, A.) 663-666
- Muscle cells, skeletal, chick-embryo, cultured, biosynthesis of plasma-membrane proteins during myogenesis of (Cates, G. A. & Holland, P. C.) 873-881
- Muscle, flight, blowfly, inability of tributyltin-induced exchange of chloride ions and hydroxide ions to stimulate the transport of calcium ions by mitochondria isolated from (Bygrave, F. L. & Smith, R. L.) 1075-1077
- Muscle, heart, rat, changes in the activity of lipoprotein lipase in, and other tissues during perinatal and postnatal development (Cryer, A. & Jones, H. M.) 447-451

- Muscle, maximum activities and the effects of fructose 1,6-bisphosphate on pyruvate kinase of, of various vertebrates and invertebrates in relation to the control of glycolysis (Zammit, V. A., Beis, I. & Newsholme, E. A.) 989-998
- Muscle, properties of pyruvate kinase and phosphoenolpyruvate carboxykinase in relation to the direction and regulation of the metabolism of phosphoenolpyruvate in, of various vertebrates and invertebrates (Zammit, V. A. & Newsholme, E. A.) 979-987
- Muscle, skeletal, rabbit, method for the assay of adenosine 3':5'-cyclic monophosphate by competitive binding to salt-dissociated adenosine 3':5'-cyclic monophosphate-dependent protein kinase from (Døskeland, S. O. & Haga, H.-J.) 363-372
- Muscle, skeletal, rat, changes in the activity of lipoprotein lipase in, and other tissues during perinatal and post-natal development (Cryer, A. & Jones, H. M.) 447-451
- Muscle, skeletal, rat, denervated, influence of passive stretch on the growth and the turnover of protein of (Goldspink, D. F.) 595-602
- Neamine, resistance to, in an *Escherichia coli* mutant whose Nea^R phenotype results from the cumulative effects of two distinct mutations (Delcuve, G., Cabezón, T., Herzog, A., Cannon, M. & Bollen, A.) 1-7
- Nervous tissue, activities and properties of 5'-nucleotidase, adenosine kinase and adenosine deaminase in, and other tissues from various vertebrates and invertebrates in relation to control of the concentration and physiological role of adenosine (Arch, J. R. S. & Newsholme, E. A.) 965-977
- Neuroblastoma cells, mouse, effects of *p*-chlorophenylalanine and α -methylphenylalanine on the uptake of amino acids and the biosynthesis of protein by (Kelly, C. J. & Johnson, T. C.) 931-938
- Neurons, brain, rat, evidence that the neuronal perikarya is the main subcellular site of glycosylation of gangliosides of (Maccioni, H. J. F., Defilpo, S. S., Landa, C. A. & Caputto, R.) 673-680
- Nicotinamide-adenine dinucleotide glycohydrolase, evidence that the stimulation by cholera toxin of the activity of adenylate cyclase is not associated with the activity of, in rat liver (Tait, R. M. & van Heyningen, S.) 1059-1062
- Nicotinamide-adenine dinucleotide phosphate, oxidized and reduced, activity of glucose 6-phosphate dehydrogenase and concentrations of, in mouse cerebral cortex during exposure of the animals to high pressures of oxygen (Dodd, D. E. & Faiman, M. D.) 769-775
- Nicotinamide-adenine dinucleotide (reduced)-ubiquinone oxidoreductase, mitochondrial, heart, ox, evidence for stoichiometric association during the interaction between, and ubiquinol-cytochrome *c* oxidoreductase (Ragan, C. I. & Heron, C.) 783-790
- Nicotinamide-adenine dinucleotide (reduced)-ubiquinone oxidoreductase, mitochondrial, heart, ox, restoration of ubiquinone-pool behaviour during the interaction between, and ubiquinol-cytochrome *c* oxidoreductase (Heron, C., Ragan, C. I. & Trumppower, B. L.) 791-800
- Nicotinamide nucleotides, concentrations of amino acids, organic acids, adenine nucleotides and, during germination of *Bacillus megaterium* spores (Scott, I. R. & Ellar, D. J.) 627-634
- Nicotinamide nucleotides, regulation by, of the activity of serine hydroxymethyltransferase in monkey liver (Ramesh, K. S. & Appaji Rao, N.) 1055-1058
- Nitrogen, role of superoxide dismutase and catalase in the protection of proton-donating systems involved in the fixation of, by *Anabaena cylindrica* (Henry, L. E. A., Gogotov, I. N. & Hall, D. O.) 373-377
- p*-Nitrophenyl glucuronide, product inhibition by, of the glucuronidation of *o*-aminophenol by detergent-treated rat liver microsomal fraction (Howland, R. D.) 1007-1009
- Nitrosobenzene, oxidative degradation of haemoglobin in rabbit erythrocytes after the administration of (Hirota, K., Itano, H. A. & Vedvick, T. S.) 693-697
- Non-histone proteins, *see* Proteins, non-histone
- Noradrenaline, correction by adenosine deaminase of the alterations in lipolysis in isolated rat epididymal adipocytes in response to insulin, corticotropin, glucagon and, after adrenalectomy (Fernandez, B. M. & Saggerson, E. D.) 111-118
- Nuclei, liver, rat, isolated, incorporation of ribonucleic acid *in vitro* into dense ribonucleoprotein-like materials by (Suzuka, I.) 503-508
- Nuclei, ventral-prostate-gland, rat, mechanisms of replenishment of androgen-receptor protein in (Van Doorn, E. & Bruchovsky, N.) 9-16
- 5'-Nucleotidase, activities and properties of adenosine kinase, adenosine deaminase and, in tissues from various vertebrates and invertebrates in relation to control of the concentration and physiological role of adenosine (Arch, J. R. S. & Newsholme, E. A.) 965-977
- Oestradiol-17 β , effects of 1,25-dihydroxycholecalciferol and, on the metabolism of 25-hydroxycholecalciferol in primary cultures of chick kidney cells (Spanos, E., Barrett, D. I., Chong, K. T. & MacIntyre, I.) 231-236
- Oestradiol, ethynyl-, reversal by administration of Triton WR-1339 of the induction by, of the esterification of cholesterol in rat liver (Davis, R. A., Showalter, R. & Kern, F., Jr.) 45-51
- Oestradiol-17 β , ontogeny of the response to, of the concentration of soluble nuclear oestrogen-receptor protein and of the biosynthesis of vitellogenin in chick-embryo liver (Lazier, C. B.) 143-152
- Oestradiol-17 β , role of stimulation of the biosynthesis of cholesterol and fatty acids in the induction by, of the biosynthesis of vitellogenin by *Xenopus laevis* liver (Smith, D. F., Penning, T. M., Ansari, A. Q., Munday, K. A. & Akhtar, M.) 353-361
- Oestradiol-17 β , time course of the effects of hypophysectomy and administration of, on the metabolism of androst-4-ene-3,17-dione in liver of male and female rats (Skett, P.) 753-760
- Oestrogen-receptor protein, nuclear, soluble, ontogeny of the response to oestradiol-17 β of the concentration of, and of the biosynthesis of vitellogenin in chick-embryo liver (Lazier, C. B.) 143-152
- Oestrogens, effects of 1,25-dihydroxycholecalciferol and, on the metabolism of 25-hydroxycholecalciferol in primary cultures of chick kidney cells (Spanos, E., Barrett, D. I., Chong, K. T. & MacIntyre, I.) 231-236

- Oestrogens, role of stimulation of the biosynthesis of cholesterol and fatty acids in the induction by, of the biosynthesis of vitellogenin by *Xenopus laevis* liver (Smith, D. F., Penning, T. M., Ansari, A. Q., Munday, K. A. & Akhtar, M.) 353-361
- Oestrogens, time course of the effects of hypophysectomy and administration of, on the metabolism of androst-4-ene-3,17-dione in liver of male and female rats (Skett, P.) 753-760
- Organelles, velocity sedimentation of, at low centrifugal force in an isokinetic gradient (Pretlow, T. G., II, Kreisberg, J. I., Fine, W. D., Zieman, G. A., Brattain, M. G. & Pretlow, T. P.) 303-307
- Organic acids, concentrations of adenine nucleotides, nicotinamide nucleotides, amino acids and, during germination of *Bacillus megaterium* spores (Scott, I. R. & Ellar, D. J.) 627-634
- Oxidative phosphorylation, *see* Phosphorylation, oxidative
- Oxo acids, concentrations of adenine nucleotides, nicotinamide nucleotides, amino acids and, during germination of *Bacillus megaterium* spores (Scott, I. R. & Ellar, D. J.) 627-634
- Oxygen, concentrations of oxidized and reduced nicotinamide-adenine dinucleotide phosphate and activity of glucose 6-phosphate dehydrogenase in mouse cerebral cortex during exposure of the animals to high pressures of (Dodd, D. E. & Faiman, M. D.) 769-775
- Pancreas, mouse, protection of the glucoreceptor mechanism for the secretion of insulin by islets of Langerhans isolated from, during culture in chemically defined medium (Gylfe, E.) 959-964
- Pancreas, rat, effects of sugars on the biosynthesis of proinsulin and insulin in islets of Langerhans isolated from (Ashcroft, S. J. H., Bunce, J., Lowry, M., Hansen, S. E. & Hedekov, C. J.) 517-526
- Paracentrotus lividus*, *see* Sea-urchin
- Paracoccus denitrificans* N.C.I.B. 8944, magnitude and sites of generation of the protonmotive force and its comparison with the phosphorylation potential in phosphorylating membrane vesicles from (Kell, D. B., John, P. & Ferguson, S. J.) 257-266
- Paramylon, characterization of a protein-glucan formed as an intermediate in the biosynthesis of, by *Euglena gracilis* (Tomos, A. D. & Northcote, D. H.) 283-290
- Pea (*Pisum sativum*) leaves, biosynthesis of fatty acids in, and other higher-plant leaves (Wharfe, J. & Harwood, J. L.) 163-169
- Peroxidase, subcellular localization of the activity of, in ox thyroid gland (De Wolf, M. J. S., Lagrou, A. R., Hilderson, H. J. J., Van Dessel, G. A. F. & Dierick, W. S. H.) 939-949
- Peroxide, hydrogen, decomposition of, catalysed by haems as a model for the mechanism of action of catalase (Hatzikonstantinou, H. & Brown, S. B.) 893-900
- Peroxide, hydrogen, oxidation of haems by (Brown, S. B., Hatzikonstantinou, H. & Herries, D. G.) 901-907
- Peroxisomes, liver, human, analytical fractionation of, and other subcellular organelles of needle-biopsy specimens (Peters, T. J. & Seymour, C. A.) 435-446
- pH, dependence on, of the transport of sugars and of glycolysis in cultured Ehrlich ascites-tumour cells (Kaminskas, E.) 453-459
- Phenobarbital, demonstration of functional heterogeneity of the activities of uridine diphosphate glucuronosyltransferase in rat liver after the administration of 3-methylcholanthrene and (Wishart, G. J.) 671-672
- Phenylalanine, effects of analogues of, on the uptake of amino acids and the biosynthesis of protein by mouse neuroblastoma cells (Kelly, C. J. & Johnson, T. C.) 931-938
- Philosamia ricini*, *see* Silkworm
- Phosphatase, alkaline, brush-border-membrane, small-intestinal, rat, identification of, and other enzymes after electrophoresis on polyacrylamide gels containing sodium dodecyl sulphate (Hauri, H.-P. & Green, J. R.) 61-66
- Phosphatase, alkaline, differentiation of the changes in the activities of calcium ion-activated adenosine triphosphatase and, associated with increased absorption of calcium ions by chick intestine (Lane, S. M. & Lawson, D. E. M.) 1067-1070
- Phosphatidate phosphatase, involvement of phospholipase A and, in the control of the biosynthesis of glycerolipids in rat liver (Sturton, R. G., Pritchard, P. H., Han, L.-Y. & Brindley, D. N.) 667-670
- Phosphatidyl-exchange protein, use of, to obtain evidence for the existence of different pools of phosphatidylinositol in rat liver microsomal membranes (Brophy, P. J., Burbach, P., Nelemans, S. A., Westerman, J., Wirtz, K. W. A. & van Deenen, L. L. M.) 413-420
- Phosphatidylinositol, use of phosphatidylinositol-exchange protein to obtain evidence for the existence of different pools of, in rat liver microsomal membranes (Brophy, P. J., Burbach, P., Nelemans, S. A., Westerman, J., Wirtz, K. W. A. & van Deenen, L. L. M.) 413-420
- Phosphoenolpyruvate carboxykinase, induction of the activity of, in rat kidney cortex during acute poisoning of the liver by administration of carbon tetrachloride (Faus, M. J., Lupiáñez, J. A., Vargas, A. & Sánchez-Medina, F.) 461-467
- Phosphoenolpyruvate carboxykinase, properties of pyruvate kinase and, in relation to the direction and regulation of the metabolism of phosphoenolpyruvate in muscle of various vertebrates and invertebrates (Zammit, V. A. & Newsholme, E. A.) 979-987
- Phosphoenolpyruvate, properties of pyruvate kinase and phosphoenolpyruvate carboxykinase in relation to the direction and regulation of the metabolism of, in muscle of various vertebrates and invertebrates (Zammit, V. A. & Newsholme, E. A.) 979-987
- Phospholipase A, involvement of phosphatidate phosphatase and, in the control of the biosynthesis of glycerolipids in rat liver (Sturton, R. G., Pritchard, P. H., Han, L.-Y. & Brindley, D. N.) 667-670
- Phospholipase C, effects of, and other digestive enzymes on the characteristics of preparations of human placental plasma-membrane insulin-receptor protein (Clark, S., DeLuise, M., Larkins, R. G., Melick, R. A. & Harrison, L. C.) 37-43
- Phospholipids, transverse organization of, across the bilayer of subfractions of rat liver plasma membrane (Higgins, J. A. & Evans, W. H.) 563-567

- Phosphorylation, oxidative, magnitude and sites of generation of the protonmotive force and its comparison with the phosphorylation potential in, by ox heart submitochondrial particles (Sorgato, M. C., Ferguson, S. J., Kell, D. B. & John, P.) 237-256
- Phosphorylation, oxidative, magnitude and sites of generation of the protonmotive force and its comparison with the phosphorylation potential in, by *Paracoccus denitrificans* N.C.I.B. 8944 phosphorylating membrane vesicles (Kell, D. B., John, P. & Ferguson, S. J.) 257-266
- Phosphorylation potential, magnitude and sites of generation of the protonmotive force and its comparison with, in ox heart submitochondrial particles (Sorgato, M. C., Ferguson, S. J., Kell, D. B. & John, P.) 237-256
- Phosphorylation potential, magnitude and sites of generation of the protonmotive force and its comparison with, in *Paracoccus denitrificans* N.C.I.B. 8944 phosphorylating membrane vesicles (Kell, D. B., John, P. & Ferguson, S. J.) 257-266
- Photosynthesis, derivation of an electron-transport rate equation, energy-conservation rate equations and a luminisescence-flux equation for, in algae and higher plants (Li, Y.-S.) 569-577
- Pisum sativum*, see Pea
- Placenta, human, effects of digestive enzymes on the characteristics of preparations of plasma-membrane insulin-receptor protein from (Clark, S., DeLuise, M., Larkins, R. G., Melick, R. A. & Harrison, L. C.) 37-43
- Plasma membrane, see Membrane, plasma
- Platelets, human, factors affecting the activity of guanylate cyclase in lysates of (Adams, A. F. & Haslam, R. J.) 23-35
- Platelets, human, relationships between the structure of prostaglandins and their activity in the aggregation of (MacIntyre, D. E., Salzman, E. W. & Gordon, J. L.) 921-929
- Platelets, human, use of affinity elution chromatography in a simple method for assay of the activity of adenylate cyclase in (Sinha, A. K. & Colman, R. W.) 699-702
- Polyamines, changes in the metabolism of, in rat liver during postnatal development (Brosnan, M. E., Symonds, G. W., Hall, D. E. & Symonds, D. L.) 727-732
- Polyamines, diminished excretion of, by baby-hamster kidney BHK-21/C13 cells exposed to methylglyoxal bis(guanyldiazone) (Melvin, M. A. L. & Keir, H. M.) 349-352
- Polyamines, kinetics of the biosynthesis and turnover of, in mouse fibroblasts (McCormick, F.) 427-434
- Polymorphonuclear leucocytes, see Leucocytes, polymorphonuclear
- Polysaccharide (paramylon), characterization of a protein-glucan formed as an intermediate in the biosynthesis of, by *Euglena gracilis* (Tomos, A. D. & Northcote, D. H.) 283-290
- Potassium ions, effect of imposed deprivation of serum on the growth of mouse 3T3 cells and its dissociation from changes in the transport of, as measured by the uptake of rubidium ions (Tupper, J. T. & Zografos, L.) 1063-1065
- Proinsulin, effects of sugars on the biosynthesis of, and insulin in isolated rat islets of Langerhans (Ashcroft, S. J. H., Bunce, J., Lowry, M., Hansen, S. E. & Hedekov, C. J.) 517-526
- Prostaglandins, relationships between the structure of, and their activity in the aggregation of human platelets (MacIntyre, D. E., Salzman, E. W. & Gordon, J. L.) 921-929
- Prostate gland, ventral, rat, mechanisms of replenishment of the nuclear androgen-receptor protein in (Van Doorn, E. & Bruchovsky, N.) 9-16
- Protein, androgen-receptor, nuclear, mechanisms of replenishment of, in rat ventral prostate gland (Van Doorn, E. & Bruchovsky, N.) 9-16
- Protein, effects of amino acids, ammonia and leupeptin on the biosynthesis and degradation of, in isolated rat hepatocytes (Seglen, P. O.) 469-474
- Protein, effects of *p*-chlorophenylalanine and α -methylphenylalanine on the uptake of amino acids and the biosynthesis of, by mouse neuroblastoma cells (Kelly, C. J. & Johnson, T. C.) 931-938
- Protein, effects of testosterone on the biosynthesis of messenger ribonucleic acid and, in rat seminal vesicles (Higgins, S. J. & Burchell, J. M.) 543-551
- Protein-glucan, characterization of, formed as an intermediate in the biosynthesis of paramylon by *Euglena gracilis* (Tomos, A. D. & Northcote, D. H.) 283-290
- Protein, influence of passive stretch on the growth and the turnover of, of denervated rat skeletal muscle (Goldspink, D. F.) 595-602
- Protein, inhibitory effect of *Adenia digitata* modeccin on the biosynthesis of, by a lysate of rabbit reticulocytes and by Ehrlich ascites-tumour cells (Gasperi-Campani, A., Barbieri, L., Lorenzoni, E., Montanaro, L., Sperti, S., Bonetti, E. & Stirpe, F.) 491-496
- Protein, insulin-receptor, plasma-membrane, placental, human, effects of digestive enzymes on the characteristics of preparations of (Clark, S., DeLuise, M., Larkins, R. G., Melick, R. A. & Harrison, L. C.) 37-43
- Protein kinase, adenosine 3':5'-cyclic monophosphate-dependent, skeletal-muscle, rabbit, salt-dissociated, method for the assay of adenosine 3':5'-cyclic monophosphate by competitive binding to (Døskeland, S. O. & Haga, H.-J.) 363-372
- Protein, oestrogen-receptor, nuclear, soluble, ontogeny of the response to oestradiol-17 β of the concentration of, and of the biosynthesis of vitellogenin in chick-embryo liver (Lazier, C. B.) 143-152
- Protein, phosphatidylinositol-exchange, use of, to obtain evidence for the existence of different pools of phosphatidylinositol in rat liver microsomal membranes (Brophy, P. J., Burbach, P., Nelemans, S. A., Westerman, J., Wirtz, K. W. A. & van Deenen, L. L. M.) 413-420
- Protein, zinc ion-binding, concentrations of, in liver of neonatal, normal adult and partially hepatectomized rats (Ohtake, H., Hasegawa, K. & Koga, M.) 999-1005
- Proteins, indirect method for estimation of the rate of degradation of, in tissues (Paskin, N. & Mayer, R. J.) 153-161
- Proteins, non-histone, chromosomal, effect of, on the template activity of sea-urchin deoxyribonucleic acid in the biosynthesis of ribonucleic acid *in vitro* (Di Mauro, E., Pedone, F. & Pomponi, M.) 95-102

- Proteins, plasma-membrane, biosynthesis of, during myogenesis of cultured chick-embryo skeletal-muscle cells (Cates, G. A. & Holland, P. C.) 873-881
- Proteins, venom, asynchrony in the biosynthesis of, in *Vipera palaestinae* venom gland (Oron, U., Kinamon, S. & Bdolah, A.) 733-739
- Proteins, vinblastine-precipitable, evidence that the mediation by 6-*N*,2'-*O*-dibutyryladenine 3':5'-cyclic monophosphate of changes in rat ts-NT₃-KR cells involves macromolecular alterations in (Meza, A. T. & Rieber, M.) 1071-1074
- Prothrombin, evidence for the involvement of superoxide radical ions in the vitamin K-dependent carboxylation of glutamic acid residues of, by rat liver microsomal fraction (Esnouf, M. P., Green, M. R., Hill, H. A. O., Irvine, G. B. & Walter, S. J.) 345-348
- Protoferrihaem, oxidation of, and other haems by hydrogen peroxide (Brown, S. B., Hatzikonstantinou, H. & Herries, D. G.) 901-907
- Protonmotive force, magnitude and sites of generation of, and its comparison with the phosphorylation potential in ox heart submitochondrial particles (Sorgato, M. C., Ferguson, S. J., Kell, D. B. & John, P.) 237-256
- Protonmotive force, magnitude and sites of generation of, and its comparison with the phosphorylation potential in *Paracoccus denitrificans* N.C.I.B. 8944 phosphorylating membrane particles (Kell, D. B., John, P. & Ferguson, S. J.) 257-266
- Protons, possible role of symport with, in the transport of α -aminoisobutyrate into *Crithidia fasciculata* (Midgley, M.) 191-202
- Protons, role of superoxide dismutase and catalase in the protection of systems donating, involved in the fixation of nitrogen by *Anabaena cylindrica* (Henry, L. E. A., Gogotov, I. N. & Hall, D. O.) 373-377
- Pseudomonas* sp., effects of substituents on the 1,2-dioxygenation of catechol by catechol 1,2-dioxygenases from *Alcaligenes eutrophus* and (Dorn, E. & Knackmuss, H.-J.) 85-94
- Pseudomonas* sp., properties of two catechol 1,2-dioxygenases from, grown on 3-chlorobenzoate (Dorn, E. & Knackmuss, H.-J.) 73-84
- Pteroylmonoglutamate, metabolic fate of, in the rat (Barford, P. A., Staff, F. J. & Blair, J. A.) 579-583
- Purine phosphoribosyltransferases, intracellular location of the activities of, in *Escherichia coli* (Page, M. G. P. & Burton, K.) 717-725
- Putrescine, kinetics of the biosynthesis and turnover of, and other polyamines in mouse fibroblasts (McCormick, F.) 427-434
- Pyrocatechase, *see* Catechol 1,2-dioxygenase
- Pyruvate dehydrogenase complex, effects of starvation and administration of insulin on the activity of, in lactating rat mammary gland (Baxter, M. A. & Coore, H. G.) 553-561
- Pyruvate dehydrogenase, regulation by adrenaline of the activity of, in rat epididymal fat-pads and isolated adipocytes (Smith, S. J. & Saggerson, E. D.) 119-130
- Pyruvate kinase, maximum activities and the effects of fructose 1,6-bisphosphate on, of muscles of various vertebrates and invertebrates in relation to the control of glycolysis (Zammit, V. A., Beis, I. & Newsholme, E. A.) 989-998
- Pyruvate kinase, properties of phosphoenolpyruvate carboxykinase and, in relation to the direction and regulation of the metabolism of phosphoenolpyruvate in muscle of various vertebrates and invertebrates (Zammit, V. A. & Newsholme, E. A.) 979-987
- Pyruvate, regulation of gluconeogenesis and the supply of cytosol reducing equivalents for the formation of lactate in rat kidney-cortex tubule fragments incubated with (Saggerson, E. D.) 131-142
- Pyruvate, role of calcium ions in the regulation by mitogens of the oxidation of, by rat thymocytes (Hume, D. A., Vijayakumar, E. K., Schweinberger, F., Russell, L. M. & Weidemann, M. J.) 711-716
- Red blood cells, *see* Erythrocytes
- Reducing equivalents, cytosol, regulation of gluconeogenesis and the supply of, for the formation of lactate in rat kidney-cortex tubule fragments incubated with pyruvate (Saggerson, E. D.) 131-142
- Respiration, rates of, in mitochondria isolated from cyanide-sensitive and cyanide-stimulated cultures of *Acanthamoeba castellanii* (Edwards, S. W. & Lloyd, D.) 203-211
- Reticulocytes, rabbit, inhibitory effect of *Adenia digitata* modeccin on the biosynthesis of protein by a lysate of (Gasperi-Campani, A., Barbieri, L., Lorenzoni, E., Montanaro, L., Sperti, S., Bonetti, E. & Stirpe, F.) 491-496
- Reticulum, endoplasmic, liver, human, analytical fractionation of, and other subcellular organelles of needle-biopsy specimens (Peters, T. J. & Seymour, C. A.) 435-446
- Reticulum, endoplasmic, liver, rat, role of the components of dietary lipids in the regulation of the composition of fatty acids and the rate of lipid peroxidation in (Hammer, C. T. & Wills, E. D.) 585-593
- Rhodopseudomonas spheroides*, localization of ferrocyclase and newly synthesized haem in membrane fractions from (Barrett, J. & Jones, O. T. G.) 277-281
- Rhodopseudomonas spheroides*, properties of a cytochrome *c*-enriched membrane fraction isolated from (Barrett, J., Hunter, C. N. & Jones, O. T. G.) 267-275
- Ribonucleic acid, effect of chromosomal non-histone proteins on the template activity of sea-urchin deoxyribonucleic acid in the biosynthesis of, *in vitro* (Di Mauro, E., Pedone, F. & Pomponi, M.) 95-102
- Ribonucleic acid, incorporation of, *in vitro* into dense ribonucleoprotein-like materials by isolated rat liver nuclei (Suzuka, I.) 503-508
- Ribonucleic acid, messenger, effects of testosterone on the biosynthesis of, and protein in rat seminal vesicles (Higgins, S. J. & Burchell, J. M.) 543-551
- Ribonucleoprotein, incorporation of ribonucleic acid *in vitro* into dense materials resembling, by isolated rat liver nuclei (Suzuka, I.) 503-508
- Rubidium ions, effect of imposed deprivation of serum on the growth of mouse 3T3 cells and its dissociation from changes in the transport of potassium ions as measured by the uptake of (Tupper, J. T. & Zografos, L.) 1063-1065
- Rusticyanin, *Thiobacillus ferro-oxidans*, purification and properties of, and its involvement in the oxidation of ferrous iron (Cox, J. C. & Boxer, D. H.) 497-502

- Sarcophaga ruficornis*, see Blowfly
- Sea-urchin (*Paracentrotus lividus*), effect of chromosomal non-histone proteins on the template activity of deoxyribonucleic acid from, in the biosynthesis of ribonucleic acid *in vitro* (Di Mauro, E., Pedone, F. & Pomponi, M.) 95-102
- Seedlings, barley, etiolated, reconstitution of the biosynthesis of chlorophyllide by etioplast membranes isolated from leaves of (Griffiths, W. T.) 681-692
- Seedlings, maize, differential light-scattering by granal and agranal chloroplasts and their fragments from (Faludi-Daniel, Á., Bialek, G. E., Horváth, G., Sz.-Rozsa, Z. & Gregory, R. P. F.) 647-651
- Seminal vesicles, rat, effects of testosterone on the biosynthesis of messenger ribonucleic acid and protein in (Higgins, S. J. & Burchell, J. M.) 543-551
- Serine hydroxymethyltransferase, regulation by nicotinamide nucleotides of the activity of, in monkey liver (Ramesh, K. S. & Appaji Rao, N.) 1055-1058
- Serum, effect of imposed deprivation of, on the growth of mouse 3T3 cells and its dissociation from changes in the transport of potassium ions as measured by the uptake of rubidium ions (Tupper, J. T. & Zografos, L.) 1063-1065
- Silkworm (*Philosamia ricini*), evidence for the presence of the urea cycle in the blowfly (*Sarcophaga ruficornis*) and for its absence from (Pant, R. & Gupta, S. K.) 341-344
- Skeletal muscle, see Muscle, skeletal
- Small intestine, see Intestine, small
- Sodium dodecyltriethoxy sulphate, metabolism of sodium undecyltriethoxy sulphate and, in the rat (Taylor, A. J., Powell, G. M., Howes, D., Black, J. G. & Olavesen, A. H.) 405-412
- Sodium ions, co-transport of taurocholate and, by isolated rat ileum brush-border membrane vesicles (Lücke, H., Stange, G., Kinne, R. & Murer, H.) 951-958
- Sodium ions, equilibrium and steady-state models of the coupling between the concentration gradient of amino acids and the electrochemical gradient of, across the plasma membrane of mouse ascites-tumour cells (Philo, R. D. & Eddy, A. A.) 811-817
- Sodium undecyltriethoxy sulphate, metabolism of sodium dodecyltriethoxy sulphate and, in the rat (Taylor, A. J., Powell, G. M., Howes, D., Black, J. G. & Olavesen, A. H.) 405-412
- Spermatozoa, epididymal, rat, regulation by androgens of the activities of enzymes involved in the tricarboxylic acid cycle, oxidation of lipids and transfer of metabolites into and out of mitochondria in, and epididymis (Brooks, D. E.) 741-752
- Spermidine, changes in the metabolism of, and other polyamines in rat liver during postnatal development (Brosnan, M. E., Symonds, G. W., Hall, D. E. & Symonds, D. L.) 727-732
- Spermidine, kinetics of the biosynthesis and turnover of, and other polyamines in mouse fibroblasts (McCormick, F.) 427-434
- Spermine, changes in the metabolism of, and other polyamines in rat liver during postnatal development (Brosnan, M. E., Symonds, G. W., Hall, D. E. & Symonds, D. L.) 727-732
- Spermine, kinetics of the biosynthesis and turnover of, and other polyamines in mouse fibroblasts (McCormick, F.) 427-434
- Spleen, rat, use of ¹⁸O-labelling and metal substitution in a study of the degradation of haem in microsomal fraction from, and in a model system (King, R. F. G. J. & Brown, S. B.) 103-109
- Spores, *Bacillus megaterium*, concentrations of amino acids, organic acids, adenine nucleotides and nicotinamide nucleotides during germination of (Scott, I. R. & Ellar, D. J.) 627-634
- Spores, *Bacillus megaterium*, use of L-[³H]alanine and [³H]water to detect metabolism during germination of (Scott, I. R. & Ellar, D. J.) 635-640
- Starvation, diurnal variation and effect of, on the biosynthesis of lactose in lactating rat mammary gland (Carrick, D. T. & Kuhn, N. J.) 319-325
- Starvation, effects of administration of insulin and, on the activity of the pyruvate dehydrogenase complex in lactating rat mammary gland (Baxter, M. A. & Coore, H. G.) 553-561
- Steroids, glucocorticoid, functional heterogeneity of the activity of uridine diphosphate glucuronosyltransferase in rat liver during perinatal development and induction by (Wishart, G. J.) 485-489
- Sterols, control of the metabolism of, in rat adrenal-gland mitochondria (Mason, J. I., Arthur, J. R. & Boyd, G. S.) 1045-1051
- Submitochondrial particles, heart, ox, magnitude and sites of generation of the protonmotive force and its comparison with the phosphorylation potential in (Sorgato, M. C., Ferguson, S. J., Kell, D. B. & John, P.) 237-256
- Sucrase, brush-border-membrane, small-intestinal, rat, identification of, and other enzymes after electrophoresis on polyacrylamide gels containing sodium dodecyl sulphate (Hauri, H.-P. & Green, J. R.) 61-66
- Sugars, dependence on pH of glycolysis and of the transport of, in cultured Ehrlich ascites-tumour cells (Kaminskas, E.) 453-459
- Sugars, effects of, on the biosynthesis of proinsulin and insulin in isolated rat islets of Langerhans (Ashcroft, S. J. H., Bunce, J., Lowry, M., Hansen, S. E. & Hedekov, C. J.) 517-526
- Supernatant fraction, see Cytosol
- Superoxide dismutase, role of catalase and, in the protection of proton-donating systems involved in the fixation of nitrogen by *Anabaena cylindrica* (Henry, L. E. A., Gogotov, I. N. & Hall, D. O.) 373-377
- Superoxide radical ions, evidence for the involvement of, in the vitamin K-dependent carboxylation of glutamic acid residues of prothrombin by rat liver microsomal fraction (Esnouf, M. P., Green, M. R., Hill, H. A. O., Irvine, G. B. & Walter, S. J.) 345-348
- Surfactants (sodium undecyltriethoxy sulphate and sodium dodecyltriethoxy sulphate), metabolism of, in the rat (Taylor, A. J., Powell, G. M., Howes, D., Black, J. G. & Olavesen, A. H.) 405-412
- Taurine, biochemical basis for the conjugation of bile acids with either glycine or, in the liver of various species (Vessey, D. A.) 621-626

- Taurocholate, co-transport of sodium ions and, by isolated rat ileum brush-border membrane vesicles (Lücke, H., Stange, G., Kinne, R. & Murer, H.) 951-958
- Tenebrio molitor*, see Mealworm, yellow
- Testis, rat, effects of testosterone on the biosynthesis of messenger ribonucleic acid and protein in seminal vesicles of (Higgins, S. J. & Burchell, J. M.) 543-551
- Testosterone, effects of, on the biosynthesis of messenger ribonucleic acid and protein in rat seminal vesicles (Higgins, S. J. & Burchell, J. M.) 543-551
- Testosterone-receptor protein, nuclear, mechanisms of replenishment of, in rat ventral prostate gland (Van Doorn, E. & Bruchovsky, N.) 9-16
- Testosterone, regulation by, of the activities of enzymes involved in the tricarboxylic acid cycle, oxidation of lipids and transfer of metabolites into and out of mitochondria in rat epididymis and epididymal spermatozoa (Brooks, D. E.) 741-752
- Thiobacillus ferro-oxidans*, purification and properties of rusticyanin from, and its involvement in the oxidation of ferrous iron (Cox, J. C. & Boxer, D. H.) 497-502
- Thionein, copper-, effect of zinc deficiency on the biosynthesis and degradation of, in rat liver and kidney (Bremner, I., Hoekstra, W. G., Davies, N. T. & Young, B. W.) 883-892
- Thioneins, metallo-, turnover of, in rat liver (Andersen, R. D., Winter, W. P., Maher, J. J. & Bernstein, I. A.) 327-338
- Thymocytes, rat, role of aerobic glycolysis in the transformation of, by concanavalin A (Hume, D. A., Radik, J. L., Ferber, E. & Weidemann, M. J.) 703-709
- Thymocytes, rat, role of calcium ions in the regulation by mitogens of the oxidation of pyruvate by (Hume, D. A., Vijayakumar, E. K., Schweinberger, F., Russell, L. M. & Weidemann, M. J.) 711-716
- Thymoma, alkylation of deoxyribonucleic acid *in vivo* in various tissues of C57BL mice by *N*-methyl-*N*-nitrosourea, *N*-ethyl-*N*-nitrosourea and ethyl methane-sulphonate in relation to the induction of (Frei, J. V., Swenson, D. H., Warren, W. & Lawley, P. D.) 1031-1044
- Thyroid gland, ox, subcellular localization of the activity of peroxidase in (De Wolf, M. J. S., Lagrou, A. R., Hilderson, H. J. J., Van Dessel, G. A. F. & Dierick, W. S. H.) 939-949
- Thyroxine, sequential deiodination of, in rat liver homogenate (Visser, T. J., Fekkes, D., Docter, R. & Hennemann, G.) 221-229
- α -Tocopherol, dietary, effect of, on the composition of fatty acids and the rate of lipid peroxidation in rat liver endoplasmic reticulum (Hammer, C. T. & Wills, E. D.) 585-593
- Transferrin, asialo-, human, distinction between binding and endocytosis of, by rat liver (Regoeczi, E., Taylor, P., Hatton, M. W. C., Wong, K.-L. & Koj, A.) 171-178
- Trehalase, brush-border-membrane, small-intestinal, rat, identification of, and other enzymes after electrophoresis on polyacrylamide gels containing sodium dodecyl sulphate (Hauri, H.-P. & Green, J. R.) 61-66
- Triacylglycerols, stereospecific biosynthesis of, in lactating rat mammary gland (Cooper, S. M. & Grigor, M. R.) 659-662
- Tricarboxylic acid cycle, regulation by androgens of the activities of enzymes involved in oxidation of lipids, transfer of metabolites into and out of mitochondria and, in rat epididymis and epididymal spermatozoa (Brooks, D. E.) 741-752
- Triglycerides, see Triacylglycerols
- 3,3',5-Tri-iodothyronine, formation of, and other products during the sequential deiodination of thyroxine in rat liver homogenate (Visser, T. J., Fekkes, D., Docter, R. & Hennemann, G.) 221-229
- Triticum aestivum*, see Wheat
- Triton WR-1339, reversal by administration of, of the induction by ethynyl- α -estradiol of the esterification of cholesterol in rat liver (Davis, R. A., Showalter, R. & Kern, F., Jr.) 45-51
- Trypsin, effects of, and other digestive enzymes on the characteristics of preparations of human placental plasma-membrane insulin-receptor protein (Clark, S., DeLuise, M., Larkins, R. G., Melick, R. A. & Harrison, L. C.) 37-43
- Tumour cells, ascites, mouse, amplitude of the depolarization by amino acids of the plasma membrane of (Philo, R. D. & Eddy, A. A.) 801-810
- Tumour cells, ascites, mouse, equilibrium and steady-state models of the coupling between the amino acid concentration gradient and the sodium ion electrochemical gradient across the plasma membrane of (Philo, R. D. & Eddy, A. A.) 811-817
- Tumour cells, Ehrlich, cultured, dependence on pH of the transport of sugars and of glycolysis in (Kaminskas, E.) 453-459
- Tumour cells, Ehrlich, inhibitory effect of *Adenia digitata* modeccin on the biosynthesis of protein by (Gasperi-Campani, A., Barbieri, L., Lorenzoni, E., Montanaro, L., Sperti, S., Bonetti, E. & Stirpe, F.) 491-496
- Ubiquinol-cytochrome *c* oxidoreductase, mitochondrial, heart, ox, evidence for stoichiometric association during the interaction between, and reduced nicotinamide-adenine dinucleotide-ubiquinone oxidoreductase (Ragan, C. I. & Heron, C.) 783-790
- Ubiquinol-cytochrome *c* oxidoreductase, mitochondrial, heart, ox, restoration of ubiquinone-pool behaviour during the interaction between, and reduced nicotinamide-adenine dinucleotide-ubiquinone oxidoreductase (Heron, C., Ragan, C. I. & Trumppower, B. L.) 791-800
- Undecyltriethoxy sulphate, sodium, metabolism of sodium dodecyltriethoxy sulphate and, in the rat (Taylor, A. J., Powell, G. M., Howes, D., Black, J. G. & Olavesen, A. H.) 405-412
- Urea cycle, evidence for the presence of, in the blowfly (*Sarcophaga ruficornis*) and for its absence from the silkworm (*Philosamia ricini*) (Pant, R. & Gupta, S. K.) 341-344
- Uridine diphosphate glucuronosyltransferase, demonstration of functional heterogeneity of the activities of, in rat liver after the administration of 3-methylcholanthrene and phenobarbital (Wishart, G. J.) 671-672
- Uridine diphosphate glucuronosyltransferase, functional heterogeneity of the activity of, in rat liver during perinatal development and induction by glucocorticoids (Wishart, G. J.) 485-489

- Urine, excretion of metabolites of pteroylmonoglutamate in, in the rat (Barford, P. A., Staff, F. J. & Blair, J. A.) 579-583
- Venom gland, *Vipera palaestinae*, asynchrony in the biosynthesis of venom proteins in (Oron, U., Kinamon, S. & Bdolah, A.) 733-739
- Vipera palaestinae*, asynchrony in the biosynthesis of venom proteins in the venom gland of (Oron, U., Kinamon, S. & Bdolah, A.) 733-739
- Vitamin D₃, see Cholecalciferol
- Vitamin E, see α -Tocopherol
- Vitamin K, evidence for the involvement of superoxide radical ions in the carboxylation of glutamic acid residues of prothrombin dependent on, by rat liver microsomal fraction (Esnouf, M. P., Green, M. R., Hill, H. A. O., Irvine, G. B. & Walter, S. J.) 345-348
- Vitellogenin, ontogeny of the response to oestradiol-17 β of the concentration of soluble nuclear oestrogen-receptor protein and of the biosynthesis of, in chick-embryo liver (Lazier, C. B.) 143-152
- Vitellogenin, role of stimulation of the biosynthesis of cholesterol and fatty acids in the induction by oestradiol-17 β of the biosynthesis of, by *Xenopus laevis* liver (Smith, D. F., Penning, T. M., Ansari, A. Q., Munday, K. A. & Akhtar, M.) 353-361
- [³H]Water, use of L-[³H]alanine and, to detect metabolism during germination of *Bacillus megaterium* spores (Scott, I. R. & Ellar, D. J.) 635-640
- Wheat (*Triticum aestivum*) leaves, biosynthesis of fatty acids in, and other higher-plant leaves (Wharfe, J. & Harwood, J. L.) 163-169
- Xanthine/guanine phosphoribosyltransferase, intracellular location of the activities of, and other purine phosphoribosyltransferases in *Escherichia coli* (Page, M. G. P. & Burton, K.) 717-725
- Xenopus laevis*, role of stimulation of the biosynthesis of cholesterol and fatty acids in the induction by oestradiol-17 β of the biosynthesis of vitellogenin by liver of (Smith, D. F., Penning, T. M., Ansari, A. Q., Munday, K. A. & Akhtar, M.) 353-361
- Yellow mealworm, see Mealworm, yellow
- Zea mays*, see Maize
- Zinc/cadmium-thioneins, turnover of, in rat liver (Andersen, R. D., Winter, W. P., Maher, J. J. & Bernstein, I. A.) 327-338
- Zinc, effect of deficiency of, on the biosynthesis and degradation of copper-thionein in rat liver and kidney (Bremner, I., Hoekstra, W. G., Davies, N. T. & Young, B. W.) 883-892
- Zinc ion-binding protein, concentrations of, in liver of neonatal, normal adult and partially hepatectomized rats (Ohtake, H., Hasegawa, K. & Koga, M.) 999-1005
