Eugene International High School at South Eugene * ³
ECCO (Early College & Career Options) * ⁵

* Alternative schools have programs built on a particular theme or approach to education. Enrollment is by request only. They have no neighborhood attendance boundaries; families from all neighborhoods may request to have their child attend the school.

¹ Some elementary schools have attendance area boundaries that are not contiguous with secondary school boundaries. Different parts of these elementary schools' neighborhoods feed into different middle schools and/or high schools.

² 4J's Mandarin Chinese language immersion school began in fall 2017 with students in kindergarten and first grade. It is planned to grow to a K–12 program by adding one grade each year. For 2023–24 the school will enroll students in grades K–6.

³ North Eugene High School and the Eugene International High School program are authorized International Baccalaureate (IB) World Schools. Students in the IHS program at Churchill, Sheldon and South Eugene and all students at North Eugene take IB classes and have the opportunity to earn IB certificates and pursue a full International Baccalaureate diploma.

⁴ Open to requests only from students with advanced language abilities.

⁵ Not open to placement by lottery. If you're interested in this program, talk to your high school counselor or contact the school.
