## PEPPERMINT GROVE COCKTAIL PARTY

### EMPIRE SECRETARIAT NOT FAVOURED BY BRITAIN

LONDON, Jan. 22: The British Secretary for Commonwealth Relations (Mr. Noel Baker) said in Karachi yesterday that he did not think that Commonwealth countries needed or would be prepared to accept a central Commonwealth secretariat as proposed at the Colombo conference.

"I think we shall go on working as we do now. I think the Commonwealth is pretty efficient as it is," said Mr. Noel Baker.

In London, in a front-page article criticising the results of the Colombo Conference, the "New Statesman and Nation" asks: "Would it be a superficial bit of cynicism to say that not a single peasant's ricebowl has been filled nor one Asian cultivator provided with a diesel pump?"

The article added: "Are we to regard Colombo as a mere piece of political warfare—certainly futile and probably damaging to the Western cause—unless, precedent notwithstanding, economic improvement moves as fast as the growth of national consciousness? Having waited to talk of raising the standard of living of the primary producer until Communism is on the doorstep the imperialist powers cannot be surprised if their sincerity is not universally accepted."

### RENT COSTS IRK A.L.P.

Rents generally were too high, the State secretary of the Australian Labour Party (Mr. F. E. Chamberlain) said after a meeting of the party executive on Friday. Those at the meeting had felt, he said, that it was difficult to understand why the basic wage provided for an allowance of less than 21/ a week for house rents. Rents for Commonwealth-State houses were up to £2 a week. Many complaints about the high rate of rentals had been received, Mr. Chamberlain said. The State executive had been asked to request the State Government to call a halt in rentals.

### 'Have To Thank Nehru'

The Western Powers have to thank Pandit Nehru for saving them from the blunder of allowing the conference to spend its time in discussing a Pacific Pact, the article continued. The conference made two decisions. The first was that the High Commissioners in London of the countries represented at Colombo should meet to discuss the Japanese peace treaty. Such a discussion cannot be of great importance since the real issue is now being fought out in Washington. The second decision was that experts should meet in Canberra to discuss Mr. Spender's self-help plans for the Commonwealth. For the rest the plans still seem vague.

### HUNGER FOR LAND

CATANZARO (Italy), Jan. 22: Police reinforcements were hurried last night to Catanzaro to prevent a threatened new outbreak of land-grabbing by peasants.

During the day local police cleared squatters from 125 acres of land on big estates. Local authorities, says Reuters, fear a new wave of land-grabbing like that of two months ago, when peasants seized thousands of acres.

Air Race: The K.L.M. Royal Dutch Airlines have provisionally entered for the £A12,500 handicapped section of the England to New Zealand centennial air race in 1953.
