

Bally Pinball Fun

We at BallyPinballFun create and design 100% unique items for your Addams Family Pinball Machine. A unique design shop for authentic, original and well designed items specifically created for pinball machines. We design and develop all our own ideas.

The combination of items which we use are developed by us to enhance pinball machines. Our exclusively designed items are the intellectual property of BallyPinballFun.

We are the only and exclusive authorized distributor of these items.

Bally Pinball Fun is very serious about enforcing its trademarks, copyrights and other intellectual property rights and policing against the unauthorized distribution of its accessories and other proprietary materials. Bally Pinball Fun representatives regularly monitor the Internet, including auction sites. As part of this effort, Bally Pinball Fun representatives will notify eBay of auctions which infringe upon its intellectual property rights or involve the sale of unauthorized products, and eBay will take actions in accordance with its user policies.

We can tell you from experience that having your ideas and efforts "kidnapped" and sold by someone who did nothing more than take your work and exploit it is not a good feeling. Please, have some respect for yourself by respecting our rights as well as the rights of others.
