

Hybrid Racing is a company dedicated to developing aftermarket automotive performance products. We protect our brands and products through Copyrights, Trademarks, and Patents. Your product listing was removed because it met our company's criteria for significant infringement upon our intellectual properties. We will not tolerate use of our Copyrights, Trademarks, and Patents in the promotion, indexing, searchability, and, ultimately, the sale of goods that are neither endorsed nor licensed by DMM Motorsports LLC. Our decision to have your listing removed was not based on cursory examination but on one that passes the test of current law and legal precedence.
