

Grimm Speed LLC

Grimm Speed LLC is a company dedicated to the development of innovative performance technologies. We protect our innovations and products through Copyrights, Trademarks and Patents.

Your listing was removed because it met our company criteria for significant infringement upon our intellectual properties. We will not tolerate the use of our Copyrights, Trademarks and Patents in the promotion, indexing, searchability and ultimately, the sale of goods that are neither endorsed, nor licensed by Synapse Engineering Inc. Our decision to have your listing removed was not based on cursory examination, but one that we feel passes the test of contemporary law and supported by legal precedence.
