

NCH Software

NCH Software is a leader in business audio technology. Since 1993 our software development team has released more than 80 easy-to-use software applications for Windows, Mac and mobile devices. Each software program is designed to fulfill a specific need, and many programs are considered leaders in their markets and have been awarded for excellence.

Our software categories include applications for audio, video, business, dictation and other software utilities. By offering such a wide breadth of software applications at affordable prices, NCH Software is where users turn for reliable software applications for any need. NCH Software continues to develop new programs while maintaining focus on developing easy-to-use, simple software solutions.

Software Piracy

We ask for your assistance in helping us protect our company and our customers from those who seek to illegally profit from the unauthorized resale of our products. After having reviewed the contents of the auction, NCH Software believes that the product(s) being offered are unauthorized or otherwise illegal. This belief is based off of one or more of the following reasons:

1. The seller is offering unauthorized NCH Software products for sale
2. The software offered for sale was obtained via unlawful means.
3. The seller is offering NCH Software products for sale via digitally delivered goods, electronic downloadable files, or any other web-based delivery option. Only the official NCH Software account is able to fulfill eBay orders in this manner.

* A seller who fails to comply is subject to arrest and felony charges that will be pursued to the full extent of the law. NCH Software has the right and the resources to pursue offenders regardless of the size of the violation or of their location. These policies are in place for the protection of our customers foremost. Pirated software may come with viruses, may already be registered to another individual, or may have been obtained via unlawful means.
