Discussion—3 hour(s). Prerequisite(s): LAW 219. Limited to six students; selected by professor. Interested students complete an application form; available in the Law Registrar's Office. Credit is contingent on attending all classes and participating in all exercises. Participation is crucial to the success of the course, as students will be working in teams of three. Do not take this course unless you are willing and able to participate fully and can accept criticism. Public interest lawyers often spend much time in the courtroom. Prosecution, defender, and legal aid offices usually don't have resources to train lawyers in trial work. Seeks to help remedy this deficiency by helping develop witness interrogation skills. (S/U grading only.) Effective: 2010 Fall Semester.

LAW 219B—E-Discovery & Digital Evidence (2)

Lecture. Examines the interplay between the significant e-discovery rules and case law, and the process of electronic discovery, beginning with the duty to preserve electronically stored information (ESI), to the search, identification, collection, review and production of ESI in litigation. Effective: 2018 Fall Semester.

LAW 220—Federal Income Taxation (4)

Discussion—3 hour(s). Surveys the federal income tax system, with consideration of the nature of income, when and to whom income is taxable, exclusions from the tax base, deductions and credits, and tax consequences of property ownership and disposition. Effective: 2012 Spring Semester.

LAW 220A—State & Local Taxation (3)

Discussion—3 hour(s). Introduction to fundamentals of state and local taxation. Beginning with historical and constitutional aspects, analyze recent developments in state and local taxation and their impact on client representation. Effective: 2017 Fall Semester.

LAW 220B—Tax & Distributive Justice (3)

Discussion—3 hour(s). Advanced tax course designed as an introduction to issues of tax policy, with particular emphasis on tax distribution (i.e., who or what should pay taxes in society) and tax incidence (i.e., who or what ends up paying taxes in society). Effective: 2015 Spring Semester.

LAW 220BT—Law of Banking & Financial Institutions (2)

Discussion—2 hour(s). Guide to dual regulatory system, and an understanding of banks and other financial institutions, such as thrifts, credit unions, industrial banks, finance companies, and money transmitters, as well as large versus community banks. Effective: 2011 Spring Semester.

LAW 220S—Special Session Federal Income Taxation (2)

Discussion—2 hour(s). Introduction to the basic principles of federal income taxation using the American federal tax model. Topics include identification of income subject to taxation, gains and losses from property transactions, the timing of income and deductions and the identity of people subject to tax on particular items of income. Effective: 2005 Summer Special Session.

LAW 220T—State & Local Taxation (3)

Discussion—3 hour(s). Introduction to fundamentals of state and local taxation. Beginning with historical and constitutional aspects, analyze recent developments in state and local taxation and their impact on client representation. Effective: 2013 Fall Semester.

LAW 221—Trusts, Wills & Estates (2) *Review all entries*

Discussion. Study of the law of decedent's trusts, wills, and estates. Effective: 2020 Fall Semester.

LAW 221—Trusts, Wills & Estates (3) *Review all entries*

Discussion. Study of the law of decedent's trusts, wills, and estates. Effective: 2020 Spring Semester.

LAW 221A—Practical Skills in Will & Trust Drafting & Administration (2)

Seminar—2 hour(s). Provides the skills to practice law in the area of estate planning and probate/trust administration. Follow an estate planning client and draft actual estate plan documents. A series of related topics will be explored. Effective: 2018 Spring Semester.

LAW 222—Critical Race Theory Seminar (3)

Discussion—3 hour(s). Examines race relations and racial discrimination in America through the perspectives of proponents of the Critical Race Theory (CRT) movement, a collection of legal scholars who challenge both conservative and liberal political orthodoxies. Effective: 2013 Spring Semester.

LAW 222A—Latinos & Latinas & the Law (2)

Seminar—2 hour(s). Seminar analyzes some of the legal issues of particular relevance to the Latino community in the United States, including racial identity, immigration, language regulation, national and transnational identity issues, affirmative action, and civil rights. Effective: 2006 Fall Semester.

LAW 222B—Asian Pacific Americans & Law (3)

Seminar. Examines how American Law has shaped Asian Pacific American demographics, experiences, and status in American society. Effective: 2017 Fall Semester.

LAW 222CT—Anti-Corruption Law in India (2)

Seminar—2 hour(s). Addresses the impact of large corruption scandals on long term social trust, in light of Indian coal block and 2G spectrum allocation scandals. Effective: 2017 Spring Semester.

LAW 223—Estate Planning Seminar (2)

Seminar—2 hour(s). Limited enrollment. Selected topics in the estates and trusts area. Content varies with instructor. Effective: 2017 Spring Semester.

LAW 224—Animal Law Seminar (2)

Seminar—2 hour(s). An introduction to legal principles affecting animals and their use. GE credit: WE. Effective: 2013 Fall Semester.

LAW 225—Marital Property (2)

Discussion—2 hour(s). Covers the California community property system, including the rights of marital and domestic partners during the ongoing relationship, and upon the end of the relationship by death or divorce. Effective: 2004 Fall Semester.

LAW 226—Disability Rights Law (3)

Discussion—3 hour(s). Examines disability law and theory. Devoted to the Americans with Disabilities Act (particularly Titles I, II, and III) as it applies to employment, education, public accommodations, and government services and programs. Effective: 2017 Fall Semester.

LAW 226ET—Mental Disability Law (3)

Lecture/Discussion—3 hour(s). Examine the civil and constitutional bases of mental disability law, as well as its history, and explore the role of mental disability in the policing and criminal trial process. Effective: 2017 Spring Semester.

LAW 227A—Crimiminal Procedure (3)

Discussion—3 hour(s). Federal constitutional limits on government authority to gather evidence and investigate crime. Topics include Fourth Amendment limits on search, seizure, and arrest; the Fifth Amendment privilege against self-incrimination; and the Sixth Amendment right to counsel. Effective: 2004 Fall Semester.

LAW 227B—Advanced Criminal Procedure (3)

Discussion—3 hour(s). Examines a range of issues, including bail, charging decisions, preliminary hearings, discovery, statute of limitations, venue, joinder and severance, pleas, plea bargaining, assistance of counsel, trial, double jeopardy, sentencing, appeal and collateral remedies. Effective: 2007 Fall Semester.

LAW 227C—Topics in California Criminal Practice (2)

Seminar. Advanced criminal law and procedure class aimed at students planning to practice criminal law in California, either as an extern or summer clerk, or after graduation. Effective: 2017 Fall Semester.

LAW 228—Startups & Venture Capital (3)

Lecture/Discussion. Prerequisite(s): LAW 215; must be completed, prerequisite will not be waived. Limited enrollment. Introduction to the various legal and business considerations involved in forming and operating an emerging growth business. Effective: 2020 Spring Semester.

LAW 228A—Mergers & Acquisitions (2)

Discussion. Prerequisite(s): LAW 215. Practical approach to mergers and acquisitions, with an in-depth look at the planning, negotiation, documentation and completion of mergers and acquisitions. Effective: 2019 Spring Semester.

LAW 228B—Accounting for Lawyers (2)

Discussion—2 hour(s). Exposure to basic principles of accounting, from the perspective of the practicing attorney. Effective: 2010 Fall Semester.

LAW 228C—Law & Statistics (3)

Discussion—3 hour(s). Introduction to fundamentals of statistical analysis and how statistical analysis is used in the law and public policy. Goal is to assist in becoming excellent consumers of statistical information and evidence. Effective: 2014 Spring Semester.

LAW 229—Scientific Evidence (3)

Discussion—3 hour(s). Prerequisite(s): LAW 219. Limited enrollment. In addition to examining the evidence law governing the admission of scientific testimony, considers trial advocacy in presenting and attacking such testimony. Effective: 2007 Fall Semester.

LAW 230—International Environmental Law (3)

Discussion—3 hour(s). Prerequisite(s): Prior course work in environmental law and/or international law is helpful. Elective Course for Environmental Law Certificate Program. May satisfy Advanced Writing Requirement with professor's permission. Provides an overview of the structure and basic principles of international environmental law and policy. Effective: 2012 Fall Semester.

LAW 230A—Wine & the Law (2)

Seminar—2 hour(s). Surveys the legal landscape of this multi-billion dollar industry, focusing on contemporary debates and developments in judicial, legislative, and administrative arenas. Effective: 2018 Spring Semester.

LAW 230C—California Environmental Cases & Places (2)

Fieldwork. Focuses on a four-day trip to world-class teaching locations throughout California. Approaches the locations from two distinctly different perspectives: law and environmental science. Learn hands-on water, environmental, and public lands law. Effective: 2020 Fall Semester.

LAW 230T—Free Trade & the Environment (2)

Seminar—2 hour(s). Examines the relationship between legal rules relating to trade and rules for the protection of the environment. Effective: 2011 Fall Semester.

LAW 231—Sex Based Discrimination (3)

Discussion—3 hour(s). Issues raised by legal and social distinctions between men and women. Explores potential remedies for discrimination drawn from constitutional law, statutory enactments, and common law developments. Subject matter areas include sex-based discrimination in constitutional law, family law, reproductive rights, educational Effective: 2003 Fall Semester.

LAW 231A—Sexual Orientation, Gender Identity, & the Law (2)

Discussion—2 hour(s). Examines the legal and social regulation of sexual orientation and gender identity. Effective: 2018 Fall Semester.

LAW 232—Real Estate Finance (2)

Discussion—2 hour(s). Examination of the problems involved in the acquisition, financing, and development of real estate, and of lender remedies and debtor protections in the event of debtor default. Stresses the practical application of California legal doctrines. Effective: 2005 Spring Semester.

LAW 232AT—Real Estate Transactions (2)

Discussion—2 hour(s). Review of legal issues in the purchase, sale, financing of residential real estate in US, with non-exclusive focus on California. Roles of parties involved, mechanisms of financing and security, survey of remedies, and role of mortgage lending beginning in 2008. Effective: 2015 Spring Semester.

LAW 232T—Property Law & Race (2)

Seminar—2 hour(s). Seminar explores the extent to which property law (common law, federal, state, and local statutes, and administration regulations) historically impacted and currently shapes conceptions of race, racial groups, and racial relations. Effective: 2014 Fall Semester.

LAW 233—Asylum & Refugee Law (2)

Seminar—2 hour(s). Surveys U.S. and international law concerning refugees and asylum-seekers. Questions the meaning of persecution, the definition of "particular social groups" in U.S. law, protections for gender-related violence, statutory bars to asylum, and U.S. refugee policy. Effective: 2017 Spring Semester.

LAW 233B—A Comparative Study of Forced Migration (2)

Seminar. Compares the Central American and Venezuelan forced migration phenomena in the Americas through the lens of history, politics, law, and morality. Considers the push and pull factors of forced migration from each nation and attempt to contextualize these factors within a broader understanding of history and modern politics. Effective: 2020 Spring Semester.

LAW 234—Drug Law & Policy (2)

Seminar. Engage with the wide variety of policy and legal issues presented in the area of drug law and policy with a particular focus on one of the fastest-evolving fields in drug policy: marijuana law and policy. Effective: 2018 Fall Semester.

LAW 235—Administrative Law (3)

Discussion—3 hour(s). Examines how the U.S. Constitution and the federal Administrative Procedure Act constrain and regulate decision making by government agencies and officials. Effective: 2007 Fall Semester.

LAW 235B—Counseling & Legal Strategy in the Digital Age (2)

Lecture. Explores the complex challenges that entrepreneurs, businesses, and other organizations face when trying to address legal issues relating to technology. Approach is both practical and multidisciplinary. Encourages exploring the roles of a wide range of stakeholders (including lawyers, policy advocates and policymakers, businesspersons, and technologists) in developing legal and business strategies. Effective: 2017 Fall Semester.

LAW 236—Securities Regulations (3)

Discussion—3 hour(s). Prerequisite(s): LAW 215. Regulation of the distribution of securities under the Securities Act of 1933 and SEC Rules adopted there under, registration and reporting provisions of the 1934 Securities Exchange Act. Effective: 2014 Spring Semester.

LAW 236A—Securities Regulation I (2)

Discussion—2 hour(s). Prerequisite(s): LAW 215; or Consent of Instructor. Legal rules and concepts applicable to business associations, both public and closely held. Corporate form of organization, partnerships and other associational forms. Effective: 2016 Fall Semester.

LAW 236B—Securities Regulation II (2)

Discussion—2 hour(s). Prerequisite(s): LAW 215; or Consent of Instructor. LAW 236A recommended. Securities Exchange Act of 1934 and the regulation of securities markets. Topics covered include regulation of securities markets and securities professionals, responsibilities of securities lawyers, continuous reporting, transnational securities fraud, and enforcement of the securities acts. Effective: 2002 Fall Semester.

LAW 236C—Securities Enforcement (3)

Lecture. Examines the civil and criminal enforcement of the securities laws by both the Securities and Exchange Commission and Justice Department. Surveys the administrative rules and investigative procedures that govern the SEC and the substantive related crimes. Effective: 2018 Fall Semester.

LAW 237—Legal History (2)

Discussion—2 hour(s). Traces the development of the common law from its origins in medieval England through the 20th century. Effective: 2014 Fall Semester.

LAW 237B—Special Topics in Legal Theory: Ancient Athenian Law (2)

Seminar—2 hour(s). Athenian legal system was different from our own and was far less formal. How did it work? Why did it work? Why have political and legal theorists misunderstood Athens for so long and what can we learn from that failure? Effective: 2016 Spring Semester.

LAW 239—Mediation (2)

Discussion/Laboratory—2 hour(s). Restricted to 24 students. Interactive focus on attorney representation of clients in mediation. Effective: 2018 Fall Semester.

LAW 240—Reforming Campaign Finance Law & the Initiative Process (2)

Discussion—2 hour(s). Limited to 25 students. Recent elections exposed many campaign finance and initiative issues. Focuses on reforms as well as current law. Effective: 2017 Spring Semester.

LAW 240A—Law of the Political Process (3)

Discussion—3 hour(s). Covers many of the foundational issues in the "law of democracy," as that body of statutory and constitutional law has developed in the United States. Effective: 2005 Fall Semester.

LAW 241—Voting Rights Seminar (2)

Seminar—2 hour(s). Seminar investigates the right to vote as a matter of constitutional and statutory law, with emphasis on the voting rights of racial and ethnic minorities. Effective: 2017 Spring Semester.

LAW 241A—Election Law Seminar I: The Right to Vote (2)

Seminar. Investigate the right to vote as a matter of constitutional and statutory law. Covers the Warren Court cases that established the right to vote as a fundamental right under the Equal Protection clause; the emergence and transformation of the right of racial minorities to an "undiluted" vote under the Equal Protection clause and the federal Voting Rights Act; and the limits of the non-dilution principle, as reflected in partisan gerrymandering cases. Effective: 2020 Spring Semester.

LAW 241B—Election Law: Campaign Finance, Political Speech, & Rights of Political Association (2)

Seminar. Investigate constitutional and statutory frameworks that channel and regulate the efforts of individuals, corporate & nonprofits, and political groups to convey their ideas to the electorate, to mobilize voter turnout, and to get their preferred candidates on the ballot and elected to office. Examine the legal status of contributions and expenditures of money and other goods. Consider political groups' "internal" affairs, the selection of nominees, and the ballot. Effective: 2020 Fall Semester.

LAW 242—Conflict of Laws (2)

Discussion—3 hour(s). Study of how law operates across state and national borders. Topics include choice of applicable law in transactions involving multiple jurisdictions, recognition of judgments, and the exercise of jurisdiction. Effective: 2014 Spring Semester.

LAW 242S—Special Session Conflict of Laws (2)

Discussion—2 hour(s). Study of transactions with multi-state and international contracts. Topics include jurisdiction, recognition of foreign judgments, and choice of applicable law. Addresses problems that international lawyers encounter in a wide variety of deals with the emphasis on international commercial deals. Effective: 2005 Summer Special Session.

LAW 243—Commercial & Bankruptcy Law (4)

Discussion—4 hour(s). Remedies available to creditors to force payment, along with devices that creditors may use to give themselves priority against limited assets. Bankruptcy both as a means for providing funds for creditors and as a device for maximizing asset value. Effective: 2002 Fall Semester.

LAW 243A—Secured Transactions (2)

Discussion—2 hour(s). Covers secured transactions (where a lender takes an interest in the debtor's property as "collateral," or security, for repayment of a loan) in personal property, such as auto loans and bank loans against business inventory. Effective: 2017 Fall Semester.

LAW 243B—Bankruptcy (3)

Seminar. Introduction to essentials of U.S. law governing bankruptcy of consumers and businesses. Addresses bankruptcy under Chapter 7, Chapter 11, and Chapter 13. Effective: 2017 Fall Semester.

LAW 243C—Advanced Bankruptcy Practice: Corporate Reorganization (2)

Lecture. Corporate chapter 11 bankruptcy under the Federal Bankruptcy Code and alternatives to corporate bankruptcy. Selection of venue. Formation of strategic objectives. Analysis of different professionals' roles. Effective: 2018 Fall Semester.

LAW 245—Corporate & White Collar Crime (2)

Discussion—2 hour(s). Covers the law of conspiracy, corporate criminal liability, mail & wire fraud, the Hobbs Act, RICO, money laundering, obstruction of justice, and other white collar crimes and their associated defenses. Effective: 2017 Fall Semester.

LAW 245A—Corporate Responsibility: Case Studies in (Un)Ethical Leadership (2)

Lecture. Prerequisite(s): LAW 215 (can be concurrent). Explores corporate responsibility and leadership through case studies of contemporary scandals. Reviews business forms and the consequences of an institution failing to comply with legal & ethical duties to employees, shareholders, and the public. Effective: 2019 Fall Semester.

LAW 245B—Death Penalty Seminar (2)

Seminar—2 hour(s). Limited enrollment. Offers overview of the constitutional law governing the death penalty in the United States. Effective: 2005 Spring Semester.

LAW 246—Federal Jurisdiction (3)

Discussion—3 hour(s). Prerequisite(s): LAW 205. Study of subject-matter jurisdiction of federal courts. Effective: 2006 Fall Semester.

LAW 246A—California Civil Procedure: A Practical Approach (2)

Lecture. Prerequisite(s): LAW 203. Provides a practical, hands-on approach to California Civil Procedure through case studies, drafting of common litigation documents, and studying the application of the Code of Civil Procedure to practical case scenarios. Issues of general civil litigation emphasizing bar exam topics are included. Effective: 2019 Fall Semester.

LAW 247—Taxation of Partnerships & LLCs (3)

Lecture/Discussion—3 hour(s). Prerequisite(s): LAW 220. Study of the federal income tax treatment of partnerships and partners; including entities classified as partnerships. Effective: 2017 Spring Semester.

LAW 247A—International Aspects of U. S. Taxation (3)

Discussion—3 hour(s). Prerequisite(s): LAW 220 (can be concurrent); Completion or current enrollment in a course covering the domestic taxation of corporations is suggested but not required; Corporate Tax can be concurrent. Examine the U.S. income tax laws and policies related to the taxation of foreign income of U.S. persons and U.S. income of foreign persons. Effective: 2008 Fall Semester.

LAW 247B—Corporate Tax (3)

Discussion/Laboratory. Examination of the federal income tax relationship between corporations and their owners. Covers the transfer of funds into a corporation on formation and the re-transfer of money and property from the corporation to its shareholders. Effective: 2018 Fall Semester.

LAW 248—Public International Law (3)

Discussion—3 hour(s). Introductory course covers basic international law concepts and the law-making process. Effective: 2007 Fall Semester.

LAW 248A—Jurisdiction in Cyberspace Seminar (2)

Seminar—2 hour(s). Limited enrollment. Review concepts in international law, conflicts of law, cyberlaw, and federal jurisdiction to address the growing multi-jurisdictional conflicts created by the Internet. Examine European efforts at crafting intra-Europe jurisdictional rules, as well as other international jurisdiction treaty projects such as Effective: 2005 Fall Semester.

LAW 248B—International Human Rights (2)

Discussion—2 hour(s). Introduces international human rights legal system through an examination of its historical origins and precursors and a review of its international legal backdrop, including the character and sources of international law, the UN Charter and the UN system. Effective: 2013 Spring Semester.

LAW 248C—Business & Human Rights (2)

Seminar—2 hour(s). Explores the human rights responsibilities of businesses from legal, ethical, historical, and comparative perspectives. Equips students with the tools to be sensitive to human rights considerations as legal practitioners or in other fields of endeavor. Effective: 2018 Spring Semester.

LAW 248CA—United Nations Human Rights Practicum I (2-3)

Variable. Prerequisite(s): Consent of Instructor. Opportunity to work in support of the mandate of the United Nations Special Rapporteur in the field of cultural rights. Effective: 2017 Fall Semester.

LAW 248CB—United Nations Human Rights Practicum II (2-3)

Variable. Prerequisite(s): Consent of Instructor. Build on the knowledge of the workings of the United Nations human rights system they gained in Practicum I, and gain further advanced experience working with UN documents, with individual cases in the field and with thematic reports. Effective: 2017 Fall Semester.

LAW 248D—Globalization & the Law (3)

Discussion—3 hour(s). Globalization of people, finance, goods, services, and information puts pressure on the nation-state form. In a world of diasporas and multinational corporations, what does citizenship mean? Effective: 2010 Fall Semester.

LAW 248ET—Transitional Justice & Memory Politics in the Asia-Pacific (2)

Seminar—2 hour(s). Transitional justice (legal responses to wrongdoings of repressive predecessor regimes) can help resolve “memory politics” that plague the relations and societies of many Asia-Pacific states. Examine relevant roles of governments, novel institutions, the judiciary, and civil society. Effective: 2016 Spring Semester.

LAW 248G—Legal Spanish for U.S. Lawyers (2)

Seminar—2 hour(s). Prerequisite(s): Must satisfy one of the following: undergraduate degree in Spanish; a minor in Spanish with experience living in a Spanish-speaking country; grew up in a Spanish-speaking household and achieved proficiency; able to pass an informal assessment by the instructor. Designed for law students who are native Spanish-speakers or who have achieved proficiency in Spanish through study or experiences in a Spanish-speaking country. (S/U grading only.) Effective: 2010 Fall Semester.

LAW 248T—Advanced International Law (2)

Discussion—2 hour(s). Review books of international law; Hugo Grotius and Judge Rosalyn Higgins. Themes include peaceful resolutions of dispute, law of war and peace, and international legal process. Effective: 2015 Spring Semester.

LAW 248TA—Human Rights in Post Soviet Central Asia: Legal Tools For Repression & Redress (2)

Discussion—2 hour(s). Limited enrollment. Provides a historical context for the current political and human rights situation in Central Asia. Effective: 2010 Fall Semester.

LAW 248TC—International Economics Law (3)

Discussion—3 hour(s). Examine the architecture of the international economic system, with a focus on both trade and investment. Effective: 2010 Fall Semester.

LAW 248TT—Theories of International Law (2)

Discussion—2 hour(s). International law, once critiqued as powerless and ineffective, is now challenged as a threat to American democracy. Introduction to competing theories of international law, including natural law, positivism, realism, liberalism, constructivism, fairness, legal process, and world public order. Effective: 2010 Spring Semester.

LAW 249—Comparative Law (3)

Discussion—3 hour(s). Uses of comparative method, principal differences between common law and civil law and the styles of legal reasoning that prevail in these two great legal cultures. Topics include the evolution of the civil law, the phenomenon of codification, the structure of European civil codes and the interpretation of their provisions, the respective roles of counsel, judges and law teachers, civil law procedure, and the analysis of selected areas of substantive law. Knowledge of a foreign language is not required. Effective: 2002 Fall Semester.

LAW 249A—First Gen Experience in Scholarly & Popular Literature (2)

Seminar. Provides an opportunity for students who are first in their family to go to college, or first in their family to go to law school, to reflect on their own educational journeys and to see how their trajectory of formal education is similar to and/or different from the journeys of famous First Gen lawyers, e.g., Barack Obama and Sonia Sotomayor. Principles of memoir writing used to guide student writing. Effective: 2020 Fall Semester.

LAW 249S—Special Session Comparative Law (1)

Discussion—1 hour(s). Provides a comparative perspective of American law. After an initial look at the uses of the comparative method, discussions is centered around the main differences between common law and civil law and the different styles of legal thinking. Topics to be covered are the evolution of the civil law & the idea of codification, the structure of European civil codes & the interpretation of their provisions, the personnel of the law & procedure in civil law countries, and the analysis of selected problems of substantive law. Knowledge of a foreign language not required. Effective: 2005 Summer Special Session.

LAW 250—Jurisprudence Seminar (3)

Seminar—3 hour(s). Limited enrollment. Deals principally with the question of how judges should decide "hard cases," where the content of the law is in doubt and competent arguments have or could be offered for mutually inconsistent decisions in favor of either party. Effective: 2015 Spring Semester.

LAW 250A—Aoki Legal Scholarship Seminar (3)

Seminar. For students participating in the Aoki Center for Race and Nation Studies' Immigration Law Journal. Research, and write a note on a topic related to immigration. Expectation is production of papers of publishable quality. Effective: 2017 Fall Semester.

LAW 250B—Writing Requirement Workshop (2)

Seminar—2 hour(s). Second- and third-year students produce a piece of academic writing that satisfies the King Hall writing requirement and is of publishable quality. Receive feedback both from the instructor and from one another in a workshop setting. (S/U grading only.) Effective: 2018 Spring Semester.

LAW 250T—Asian American Jurisprudence (3)

Discussion—3 hour(s). Legal, social, and political discourse on race relations has traditionally been framed in Black-White terms. Disrupts the traditional view by taking Asian Americans seriously. Effective: 2007 Fall Semester.

LAW 251—Labor Law (2)

Discussion—2 hour(s). Survey of the legislative, administrative, and judicial regulation of labor relations under federal law. Historical development of labor law, the scope of national legislation, unions, strikes, picketing, and collective bargaining agreements. Effective: 2017 Spring Semester.

LAW 251T—Labor Law I (2)

Discussion—2 hour(s). Restricted to students who previously took Labor Law in Fall 2008 may not enroll in Labor Law I. Survey of the legislative, administrative, and judicial regulation of labor relations under federal law. Effective: 2009 Fall Semester.

LAW 251TB—Labor Law II (2)

Discussion—2 hour(s). Prerequisite(s): LAW 251T preferred; not required. Survey of the legislative, administrative, and judicial regulation of labor relations under federal law. Effective: 2010 Spring Semester.

LAW 252—International Litigation & Arbitration (3)

Discussion—3 hour(s). Current developments in international law, conflict of laws, civil procedure, arbitration, and comparative law in the context of transactions and disputes that cut across national boundaries. Effective: 2004 Fall Semester.

LAW 252A—Introduction to Criminal Litigation; Pre-Trial (2)

Seminar. Utilizes experiential learning techniques to teach advocacy skills during the life of a criminal case and simulates critical stages of the proceedings by conducting mock hearings throughout the semester. Effective: 2020 Fall Semester.

LAW 253—Policy Advocacy (2)

Lecture. In-depth examination of the legislative process both within the California Legislature and from the advocates' perspective. Train in key policy advocacy skills by legislative leaders and social justice advocates. Effective: 2018 Spring Semester.

LAW 253A—Community Lawyering (3)

Lecture. Study the need for community lawyering including the structural inequalities and privileges embedded in the legal system and society. Skills necessary for community lawyering as well as sites and models for practice will be examined. Effective: 2017 Fall Semester.

LAW 254—Housing Law (2)

Discussion—2 hour(s). Survey course covers legal and policy issues related to developing, protecting and preserving affordable, safe and accessible housing and sustaining viable, diverse communities. Effective: 2009 Fall Semester.

LAW 254A—White Working Class & the Law (2)

Seminar—2 hour(s). Considers the social, cultural, economic, and legal situation of low-income and/or low-education whites in contemporary U.S. society. Effective: 2018 Fall Semester.

LAW 254B—Access to Justice (2)

Seminar. Study of a variety of barriers that impede the access of unrepresented litigants to the courts—including poverty, racial bias, limited English proficiency and the digital divide—and critically examine existing solutions. Opportunity to develop and propose student's own solution to an access barrier. Effective: 2018 Fall Semester.

LAW 254T—Practicum in Rural Community Advocacy (3)

Seminar—3 hour(s). Limited enrollment. Provides an opportunity to learn about Participatory Action Research (PAR) methods and community-based lawyering in the context of rural community development and advocacy. Using these skills and knowledge to serve rural California communities. Effective: 2013 Spring Semester.

LAW 255—Pension & Employee Benefits Law (3)

Discussion—3 hour(s). Federal regulation and taxation of private pensions and employee benefits. Covers the Employee Retirement Income Security Act (ERISA) and Internal Revenue Code issues. Effective: 2019 Spring Semester.

LAW 256—Land Use (2)

Discussion—2 hour(s). Local agencies, developers, environmental interest groups, and others who regularly deal with the administrative and legislative applications of land use planning and development laws. Topics include zoning, general plans, local government land use regulation, and related areas of litigation. Expanding role of the California Environmental Quality Act. Effective: 2004 Spring Semester.

LAW 257—Legislative Process (2)

Discussion—2 hour(s). Fundamental elements of the legislative process, including legislative procedure; the legislature as an institution; lobbying; statutory interpretation, legislative-executive relations; and the legislature's constitutional powers and limitations. Effective: 2002 Spring Semester.

LAW 257A—Legislative Intent Seminar (2)

Seminar—2 hour(s). Theories and principles of statutory and constitutional interpretation. Original intent vs. living constitution; permissible kinds of evidence for determining legislative intent; canons of construction; extent to which initiatives should be interpreted similarly to legislative enactments. Effective: 2003 Fall Semester.

LAW 257B—Statutory Interpretation (3)

Discussion—3 hour(s). Elective course for Environmental Law Certificate Program. Provides an introduction to the theory and practice of statutory interpretation. Effective: 2012 Fall Semester.

LAW 257C—Applied Statutory Interpretation: California's Housing-Framework Legislation (3)

Seminar. Theory and practice of statutory interpretation, taught using California statutes that address local barriers to housing supply. Writing intensive. Effective: 2020 Spring Semester.

LAW 258—Professional Responsibility (2)

Discussion. Closed to students who have taken LAW 258A. The ABA's Model Rules of Professional Conduct and the Code of Judicial Conduct, which are tested on the MPRE, and the California Rules of Professional Conduct, which are tested on the California Bar Examination. Effective: 2019 Fall Semester.

LAW 258A—Legal Ethics & Corporate Practice (3)

Lecture/Discussion—3 hour(s). Closed to students who have taken LAW 258A. Focus on corporate practice to explore the ethical responsibilities of lawyers. Effective: 2017 Spring Semester.

LAW 258B—Mindfulness & the Law (2)

Discussion. Reviews the American Bar Association's Model Rules of Professional Conduct and the Code of Judicial Conduct, as tested on the Multistate Professional Responsibility Examination, and covers California Rules of Professional Conduct, which are tested on the California Bar Examination. Effective: 2019 Spring Semester.

LAW 258CT—The Business of Lawyering (2)

Discussion—2 hour(s). Desired outcome is a thorough understanding of the business side of law practice and to promote an understanding of the relationship and balance between legal skills, business requirements of a practice, client needs and a work-life balance. Effective: 2015 Fall Semester.

LAW 258D—Starting & Managing a Small Law Practice (2)

Discussion. Using real practice examples, in this discussion/simulation-based course learn how to open and successfully run a small law practice. Included topics: structure and organization, office set-up, billing, fees, time management, client handling, overseeing office staff, trust accounting, and ethical rules. (S/U grading only.) Effective: 2020 Fall Semester.

LAW 258DT—Setting Up & Maintaining Solo Law Practice (1)

Lecture/Discussion—1 hour(s). Introduction/overview of how to start a successful solo practice. Effective: 2016 Spring Semester.

LAW 258E—Utility of Law School & Careers in the Law (1)

Lecture. Despite improvements in the economy, some observers continue to question whether law school is a viable option for college graduates. Considers the controversy and expose students to the variety of careers in the legal profession. (S/U grading only.) Effective: 2017 Fall Semester.

LAW 258F—Practice Ready Seminar (2)

Seminar. Includes a discussion and review of the role of the junior attorney within a law firm/legal department, professional goal-setting, strategies for effective communication and work within teams, delegation and resource management, organization and time management, an introduction to common junior-level assignments and how to complete them efficiently and effectively, building a professional network, and an introduction to business development, among other topics. (S/U grading only.) Effective: 2017 Fall Semester.

LAW 258G—Business Fundamentals for Lawyers (1)

Lecture. Surveys accounting and financial statements, basic financial concepts (e.g., time value of money), business valuation, capital markets, and major transaction types. Should help with other business law courses and be useful for communicating with business clients. Effective: 2020 Spring Semester.

LAW 259—Feminist Legal Theory (2)

Discussion—2 hour(s). Provides an overview of feminist legal theory and considers how its various strands inform legislative and judicial law making. Satisfies Advanced Writing Requirement. Effective: 2019 Spring Semester.

LAW 259A—Women, Islam & the Law (2)

Seminar—2 hour(s). Limited enrollment seminar. Study legal and religious reform movements for women's rights within Muslim communities in the context of current scholarly and political debates about fundamentalism, democracy, equality, secularism, universalism, and multiculturalism. Effective: 2007 Fall Semester.

LAW 259B—Women's Human Rights (2)

Seminar—2 hour(s). Overview of international legal and institutional system for the protection of women's human rights from an academic perspective and the view of the practitioner. Includes the (CEDAW), violence against women, sexual and reproductive rights, economic rights, and more. Effective: 2016 Spring Semester.

LAW 259P—Women & the Law Practicum (1)

Discussion/Laboratory. Prerequisite(s): LAW 259 (can be concurrent). Complements the content of the feminist legal theory course by providing the opportunity to consider how feminist theory may be used to inform law-making. Effective: 2007 Fall Semester.

LAW 260—Employment Discrimination (3)

Discussion—3 hour(s). Examine federal laws prohibiting employment discrimination, including Title VII of the Civil Rights Act of 1964, the Equal Pay Act, the Age Discrimination in Employment Act, the Americans with Disabilities Act, the Rehabilitation Act of 1973, and § 1981. Effective: 2008 Fall Semester.

LAW 260A—Employment Law (3)

Discussion—3 hour(s). Provides an overview of employment law, labor law and employment discrimination law and aims to serve as a foundation for understanding the law and policy (statutory and common law) that surround the employer-employee relationship. Effective: 2016 Spring Semester.

LAW 261—Judicial Process (2)

Discussion—2 hour(s). Examines a variety of issues concerning the judicial process. Focus is on judge's role in the legal process, the administration of justice, ethical issues, decision making, bias, and critical examination of the strengths and weaknesses in our current judicial system. Effective: 2008 Fall Semester.

LAW 262—Antitrust (3)

Discussion—3 hour(s). Focus on the federal antitrust laws, concentrating on basic substantive areas of the Sherman and Clayton Acts. Effective: 2009 Fall Semester.

LAW 262AT—US Antitrust Law & Indian Competition Law: A Comparative Perspective (2)

Lecture/Discussion—2 hour(s). Fundamental principles of Indian Competition Law and US Antitrust Law in a comparative perspective. Helps American students, interested in future corporate law careers, to develop effective strategies for better managing cross border deals in India. Effective: 2016 Spring Semester.

LAW 262B—Regulated Industries (2)

Seminar. Examines regulation of business in sectors, traditionally described as “common carrier” and “utility” industries, where because of market failures normal competitive mechanism will not protect consumers from exercises of market power. Effective: 2017 Fall Semester.

LAW 262C—Antitrust & Intellectual Property (1)

Lecture. Explores the challenges antitrust law faces in protecting the innovation incentives of dynamic technology-led market competition, motivating and incentivizing companies to innovate and allowing them to retain the profits of such market growth. Effective: 2019 Spring Semester.

LAW 262S—Special Session Antitrust (1)

Discussion. A study of the federal antitrust laws including price fixing, limits on distribution, tying arrangements, monopolization and mergers. Effective: 2005 Summer Special Session.

LAW 263—Criminal Trials: Theory & Practice (4)

Seminar. Trial advocacy course centered on client relationship building, preparation for trial, and courtroom practice. Effective: 2018 Fall Semester.

LAW 263A—Trial Practice (3)

Discussion—2 hour(s); Laboratory—1 hour(s). Prerequisite(s): LAW 219 (can be concurrent). Limited enrollment. Introduction to the preparation and trial of cases, featuring lectures, videotapes, demonstrations, assigned readings and forensic drills. Laboratory held on Tuesday, Wednesday, and Thursday evening. (S/U grading only.) Effective: 2016 Fall Semester.

LAW 263B—Advanced Trial Practice (2)

Discussion—2 hour(s). Prerequisite(s): LAW 219; LAW 263A. Class limited to 40 students. Train on the organization and presentation of a complex trial, including pretrial preparation, jury selection, strategy considerations, evidentiary issues, and effective handling of plaintiff and defense cases through verdict. (S/U grading only.) Effective: 2016 Fall Semester.

LAW 264—Water Law (3)

Discussion—3 hour(s). Property rights in surface waters, including riparian rights, prior appropriation, and public rights use of water bodies; environmental constraints on exercise of water rights; groundwater rights and management; federal allocation and control of water resources; legal aspects of interstate allocation. Effective: 2016 Spring Semester.

LAW 264A—Ocean & Coastal Law (3)

Discussion—3 hour(s). Introduction to the goals and challenges of coastal and ocean policy; the complicated web of public and private interests in coastal lands and ocean waters; regulation of coastal development; domestic and international fisheries management; and preservation of ocean resources. Effective: 2015 Spring Semester.

LAW 265—Natural Resources Law Seminar (2)

Seminar—2 hour(s). Prerequisite(s): LAW 285 or LAW 256 recommended, but not required. Restricted to 15 students. In-depth coverage of two foundational principles of natural resources law: public trust doctrine and private property rights protected under the Takings Clause of the U.S. and many state constitutions. Effective: 2011 Spring Semester.

LAW 266—Commercial Law (3)

Discussion. Prerequisite(s): LAW 202. Survey of commercial transactions law under the Uniform Commercial Code (UCC). Covers a number of topics under Articles 2, 3, & 9 of the UCC. Topics include attachment and perfection of security interests in personal property and general principles of negotiability. Primary goals are to provide a foundational knowledge and understanding of several articles of the UCC and improve problem-solving skills in this area. Effective: 2019 Fall Semester.

LAW 266A—Cyberlaw (3)

Lecture/Discussion—3 hour(s). Emerging legal issues crucial to the conduct of business in cyberspace. Discussion of the evolution and current administration of the Internet and the World Wide Web. Effective: 2017 Spring Semester.

LAW 267—Civil Rights Law (2)

Discussion—2 hour(s). Civil remedies for civil rights violations under the primary United States civil rights statute. Specifically, covers actions for constitutional and statutory violations under 42 USC §1983, affirmative defenses, and abstention doctrines. Effective: 2017 Fall Semester.

LAW 267B—Civil Rights Seminar (2)

Seminar—2 hour(s). Limited enrollment. Social, political, legal and historical factors which led to the creation of the United States Commission on Civil Rights (USCCR) in 1957. The United States Commission on Civil Rights is a bipartisan, independent agency established by the Civil Rights Act. It is directed to investigate complaints alleging deprivations of the right to vote, and voter fraud; to study and collect information relating to discrimination and the denial of equal protection of the laws under the Constitution on the basis of race, color, religion, sex, age, disability, or national origin; and submit reports, findings and recommendations to the President and to Congress. The role that the USCCR has played and continues to play in American politics, legislative enactments and the national dialogue on equality, fairness and justice in the context of civil and human rights. Satisfies Advanced Legal Writing Requirement. Effective: 2002 Spring Semester.

LAW 267C—DFEH Civil Rights Practicum (4-7)

Variable. Yearlong practicum (4-7 units/semester) has (1) weekly two-hour in-class lectures and case review, and (2) student participation in DFEH investigations (fall) and mediations (spring). Gain experience analyzing and applying the Fair Employment and Housing Act (FEHA). (S/U grading only.) Effective: 2020 Fall Semester.

LAW 268A—Blockchain & the Law: Introduction for Lawyers (2)

Seminar. Student-led review of blockchain/distributed ledger technology (dlt) and its impact on law and transactions, from the basic functioning of a blockchain to the implication of smart contracts in areas such as cryptocurrencies, decentralized autonomous organizations, and self-sovereign identity. Effective: 2020 Fall Semester.

LAW 268T—Suing the Government: Civil Rights, Torts, Takings, & More (2)

Discussion—2 hour(s). Explores the basic requirements of suing government, including sovereign immunity, particular schemes for litigating against government (Federal Tort Claims Act, APA, False Claims Act, etc.), direct constitutional claims and the procedural pitfalls and remedies available against government. Effective: 2016 Spring Semester.

LAW 269—Basic Finance for Lawyers (2)

Discussion. Prerequisite(s): Students with a non-law basic finance course will not be admitted, except with consent of instructor. Basic techniques of analysis that are part of the core curriculum in a good business school. Gives background necessary for understanding and advising your clients and for understanding other business-related law school courses. Effective: 2019 Fall Semester.

LAW 269AT—The Financial Crisis: Law & Policy & Inequality (2)

Seminar—2 hour(s). Examines the regulation of financial intermediaries. Stated goal of regulation is to ensure systemic stability and to pursue consumer protection. Question asked whether there is an imbalance between systematic stability and consumer protection before the crisis of 2008. Effective: 2013 Spring Semester.

LAW 269B—Consumer Protection & Financial Regulation (3)

Lecture. Examines efforts to ensure a “fair” financial marketplace, focusing on the 2010 Dodd-Frank Act and its creation of the Consumer Financial Protection Bureau and regimes enacted to protect consumers. Effective: 2018 Fall Semester.

LAW 269C—Corporate Finance (3)

Discussion—3 hour(s). Prerequisite(s): LAW 215 or concurrent enrollment recommended. Focus on how corporations raise money, stocks and bonds, etc.; how deals are structured and why corporations use one strategy instead of another. Effective: 2010 Fall Semester.

LAW 269D—Seminar on Financial Regulation (2)

Seminar—2 hour(s). Introduction to the legal and regulatory issues presented by contemporary capital markets. Effective: 2011 Fall Semester.

LAW 269E—Public Finance (3)

Seminar. Introduction to the basic concepts of public finance, the underlying law governing public finance: in particular state law, federal tax law and federal securities law. Effective: 2017 Fall Semester.

LAW 270—International Business Transactions (3) *Review all entries*

Lecture/Discussion. Select legal problems arising from international business transactions. Effective: 2018 Fall Semester.

LAW 270—International Business Transactions (2) *Review all entries*

Lecture/Discussion. Select legal problems arising from international business transactions. Effective: 2020 Fall Semester.

LAW 270A—Life-Cycle Transactions & Drafting (2)

Discussion. Prerequisite(s): Business Associations and/or Trusts, Wills & Estates are recommended for enhanced comprehension. Focuses on analysis of contract drafting design for various types of transactions and actual transactional documents typically encountered. Effective: 2019 Spring Semester.

LAW 270B—Technology Transactions (2)

Lecture. Practical overview of technology transactions, including licensing. In addition to substantive lectures, instruction via hypotheticals and scenarios to illustrate key issues in these transactions, drafting exercises, negotiation exercises, and group presentation exercises. Effective: 2019 Spring Semester.

LAW 270C—Contract Drafting & Development (3)

Seminar. Complete complex contracts. Learn various approaches to completing contracts (from term sheet to final document) and complete exercises and assignments to hone contract skills. Build a “contract skills toolbox” with the tools needed for completing and drafting contracts. Effective: 2020 Fall Semester.

LAW 270S—Special Session International Business Transactions (2)

Discussion—2 hour(s). A consideration of select legal problems arising from international business transactions. Topics include the international sales contract, letters of credit, transfers of technology, regulation of bribery, repatriation of profits, and national efforts to control imports. Effective: 2005 Summer Special Session.

LAW 271—Nonprofit Organizations & Drafting (4)

Extensive Writing/Discussion—4 hour(s). Prerequisite(s): LAW 215; or Consent of Instructor. Restricted to 13 students. Learn special legal rules and concepts applicable to non-profit organizations; particularly IRC 501(c)(3) nonprofits. Combination skills class and lecture class. Effective: 2010 Fall Semester.

LAW 271A—NonProfit Organizations: State & Local Governance Issues (2)

Discussion—2 hour(s). Prerequisite(s): LAW 215 (can be concurrent); or Consent of Instructor. Focuses on the state and local laws applicable to nonprofit organizations; i.e., public interest, cultural, religious, educational and other not-for-profit entities. Effective: 2009 Fall Semester.

LAW 271B—Nonprofit Organizations: Tax Exemptions & Taxation Focus (2)

Discussion—2 hour(s). Prerequisite(s): LAW 215; or Consent of Instructor. LAW 220 recommended. Focuses on the conceptual basis and substantive law criteria for the federal and state income tax exemption of nonprofit organizations. Effective: 2009 Spring Semester.

LAW 271T—Nonprofit Organizations-Key Legal Topics (2)

Discussion—2 hour(s). Legal issues raised in operating and governing a nonprofit organization, primarily a public charity. Effective: 2014 Spring Semester.

LAW 272—Family Law (3)

Discussion. An introduction to the legal regulation of the family. Effective: 2019 Fall Semester.

LAW 273A—Education Policy & the Law (3)

Discussion—3 hour(s). Topics include civil rights, inequality and the "right" to an education, bilingual education, school finance litigation, educational access, No Child Left Behind Act, Common Core Standards and charter schools. For students interested in educational policy and social regulatory policy. Effective: 2016 Fall Semester.

LAW 273B—Special Education Law & Policy (2)

Lecture. Introduction to the law of special education including the Individuals with Disabilities in Education Act (IDEA), Section 504 of the Rehabilitation Act, and federal regulations governing special education law. Effective: 2019 Fall Semester.

LAW 274—Intellectual Property (3)

Discussion—3 hour(s). Provides a broad survey of intellectual property law. Effective: 2007 Fall Semester.

LAW 274A—International Intellectual Property & Development (2)

Discussion. Examines international trade law, national customs law, intermediary liability rules, claims for rights in traditional knowledge and genetic resources, protections for geographical indications, technology transfer, and intellectual property piracy. Effective: 2018 Fall Semester.

LAW 274AS—Special Session Intellectual Property (2)

Discussion—2 hour(s). Provides a broad survey of the field of intellectual property. Areas covered will include trademarks, patents, trade secrets, idea protection, unfair competition, and copyright. Effective: 2005 Summer Special Session.

LAW 274B—Trade Secrets (2)

Discussion. Examines effects of a burgeoning intellectual property regime on cultural conflict and formation. Effective: 2019 Fall Semester.

LAW 274CT—Knowledge Commons, Collaborative Authorship, Open Access (2)

Seminar—2 hour(s). Focuses on the increasingly global diffusion and success of collaborative forms of cultural and technoscientific production rooted in copyright-based licenses. Effective: 2013 Spring Semester.

LAW 274D—Intellectual Property in Historical Context Seminar (2)

Seminar—2 hour(s). How the legal system has adapted to earlier periods of rapid change by creating, delimiting, and expanding intellectual property rights (IPRs). Required paper satisfies advanced writing requirement. Effective: 2015 Spring Semester.

LAW 274ET—Intellectual Property, Human Rights & Social Justice (2)

Seminar—2 hour(s). Examine the implications of copyright and patents for a broad set of social justice values, with particular emphasis on the interaction between intellectual property law and human rights law on the global stage. Effective: 2016 Fall Semester.

LAW 274FT—Censorship in the Global Age (2)

Seminar—2 hour(s). Examines from a globalized perspective a broad range of censorship issues, drawing from established cases and practices. This seminar attempts to identify a globally consistent set of theories that have gained traction in relevant regional or international debates. Effective: 2016 Fall Semester.

LAW 274GT—Race, National Identity & Intellectual Properties (2)

Seminar—2 hour(s). Drawing upon methods taken from critical race theory, critical/cultural studies, and rhetoric this course addresses the relationships between intellectual properties and processes racial/national identity formation in the US, particularly as exemplified in legal, popular cultural, and political texts. Effective: 2016 Fall Semester.

LAW 274H—Theory & History of Intellectual Property (2)

Seminar. Seminar traces development of intellectual property law in the U.S. and Europe because it is not possible to understand the logic and shape of current Intellectual Property concepts outside of their messy history. Effective: 2017 Fall Semester.

LAW 274J—Current Controversies in Intellectual Property Law (2)

Seminar. Examine controversial topics in intellectual property law and policy across a wide range of issues, from technology to the arts, to social justice, in their national and international dimensions. Effective: 2020 Fall Semester.

LAW 275—Complex Litigation in a Civil Rights Context (2)

Discussion—2 hour(s). Study of the issues that frequently arise in large complex litigation involving multiple parties and multiple claims. Effective: 2017 Fall Semester.

LAW 275TA—Intellectual Property Agreement Drafting for Biotech & Pharma (2)

Seminar—2 hour(s). Prerequisite(s): Upper division Business Law course or Intellectual Property course; priority given to students that have completed LAW 274. Covers the negotiation and drafting of intellectual property agreements common in the biotechnology and pharmaceutical arena. Effective: 2011 Fall Semester.

LAW 276—Juvenile Justice Process (2)

Lecture/Discussion—2 hour(s). Legal and philosophical bases of a separate juvenile justice process for crimes committed by minors. The role of counsel at each phase of the process is examined. Effective: 2017 Spring Semester.

LAW 277—Federal Indian Law (3)

Discussion—3 hour(s). Focuses on legal relations between Native American tribes and the federal and state governments. Effective: 2016 Fall Semester.

LAW 277A—Tribal Justice (2)

Lecture. Examines the administration of justice within tribal governments and courts and the efforts of advocates to achieve justice for tribes through litigation, policy advocacy, public education, organizing, and inter-governmental collaboration. Effective: 2017 Fall Semester.

LAW 277T—Indian Gaming Law Seminar (2)

Seminar—20 hour(s). Examines unique historical, political and legal context in which Indian tribes operate casinos, including impacts on tribal sovereignty, relations between tribes, states and local governments and changing relationships among the tribes themselves members, with particular reference to experience of California. Effective: 2007 Fall Semester.

LAW 278—Pretrial Skills (2)

Discussion—2 hour(s). Limited enrollment. Uses role-playing exercises, videotaped simulations, and related projects to introduce students to lawyering skills basic to the practice of law, including client interviewing, witness interviewing and discovery, including depositions. Effective: 2005 Fall Semester.

LAW 279—Legal Analysis (2)

Seminar—2 hour(s). Prerequisite(s): Consent of Instructor. Limited enrollment; for 2Ls only. Focuses on skills critical to law school success, and ultimately, bar exam success. (S/U grading only.) Effective: 2018 Spring Semester.

LAW 280—Advanced Legal Writing: Analytical & Persuasive Writing (2)

Seminar—2 hour(s). Prerequisite(s): Consent of Instructor. Develop essay writing skills and performance test drafting typically employed on the bar examination. (S/U grading only.) Effective: 2015 Spring Semester.

LAW 280B—Problem Solving & Analysis (2)

Lecture. Prerequisite(s): Consent of Instructor. Restricted to third-year Law students only. Skills focused on the development of legal analytical and organizational methods essential to successful completion of the Performance Test component of the California Bar Exam (and other states), and, by extension, to success in the practice of law. (S/U grading only.) Effective: 2017 Fall Semester.

LAW 281—State & Local Government Law (2)

Topics include: federalism, relations between states & localities, governmental liability, zoning, educational equity, and public finance. Readings drawn not only from case law and statutes, but from history, theory and public policy. Effective: 2019 Fall Semester.

LAW 282—Energy Law Seminar (2)

Seminar—2 hour(s). The history, law, and public policy of energy regulation in the United States with an emphasis on economic and environmental regulation. Competitive restructuring of the natural gas and electric utility industries emphasized. The basic regulatory schemes for other energy sources such as hydroelectric power, coal, oil, and nuclear power explored. Recommended to anyone who has an interest in the energy sector, various models of economic regulation, or regulated industries. Effective: 2000 Fall Semester.

LAW 282A—Renewable Energy Seminar (2)

Seminar. Provides a broad overview of renewable energy law and policy with a particular focus on the California policy context. Topics include renewable electricity, California's renewable portfolio standard, and project development. Effective: 2017 Fall Semester.

LAW 283—Remedies (2)

Lecture/Discussion. Survey of modern American civil remedies law in both private and public law contexts. Topics include equitable remedies, equitable defenses, contempt power, injunctive relief, restitution, and money damages in torts and contracts. Effective: 2019 Fall Semester.

LAW 284—Law & Economics (3)

Discussion. Introduction to the economic analysis of law. Prior study of economics is not required. Effective: 2019 Spring Semester.

LAW 285—Environmental Law (4)

Discussion—4 hour(s). Introduction to environmental law, focusing primarily on federal law. Effective: 2014 Fall Semester.

LAW 285A—California Environmental Issues (2)

Discussion—2 hour(s). The "Nation-state" of California has for many years been a national and global leader in environmental law and policy. Survey of key California environmental law and policy issues. Effective: 2014 Fall Semester.

LAW 285B—Environmental Practice (3)

Discussion—2 hour(s). Prerequisite(s): LAW 285 recommended. Examines underlying theory and practice in securing compliance with our major environmental laws. Effective: 2020 Spring Semester.

LAW 285BT—Food Justice (2)

Seminar—2 hour(s). Focus on the law and policy of the emerging "food justice movement," which combines the goals and principles of the environmental justice movement with some of the policy initiatives involved in "ethical consumption" and "sustainable agriculture" movements. Effective: 2012 Fall Semester.

LAW 285C—Food Systems Law & the Environment (2)

Discussion. Explores the various legal structures surrounding the governance of our food system; we will cover environmental regulation (or lack thereof), food safety laws, trade laws, and labor laws. Effective: 2020 Spring Semester.

LAW 285D—Farmworkers & the Law (2)

Discussion. Provides an overview of California and federal laws impacting farmworkers and how such laws have been applied to regulate working conditions in agriculture. Effective: 2019 Fall Semester.

LAW 285E—Climate Change Law & Policy (3)

Discussion—3 hour(s). Addresses the legal and public policy dimensions of climate change, perhaps the most important environmental issue of our time. Effective: 2011 Fall Semester.

LAW 285F—Environmental Justice (2)

Discussion—2 hour(s). Introduction to the field of environmental justice. Effective: 2014 Spring Semester.

LAW 285G—Environmental Law Seminar: Emerging Technologies & the Environment (2)

Seminar. Examines legal regimes that might apply to various emerging technologies and consider governance mechanisms and reforms that might enable more foresighted and participatory development and management of technology. Effective: 2016 Spring Semester.

LAW 285H—Comparative Environmental Law (2)

Discussion—2 hour(s). Focus on Pacific Rim, examining factors, similarities/differences in countries environmental regulation and success of environmental law. Including information and market-based regulatory approaches; compliance and enforcement gaps; citizen and community mobilization; the role of legal institutions; variations in regulatory style. Effective: 2015 Spring Semester.

LAW 285TA—Environmental Law Seminar: Emerging Technologies & the Environment (2)

Seminar—2 hour(s). Examines legal regimes that might apply to various emerging technologies and consider governance mechanisms and reforms that might enable more foresighted and participatory development and management of technology. Effective: 2013 Fall Semester.

LAW 286—Health Care Law (3)

Discussion—3 hour(s). Addresses legal issues raised in general areas: access to health care and health care financing. Course materials and discussion focus on both public and private aspects of these issue areas. Effective: 2013 Fall Semester.

LAW 286A—Topical Issues in Health Law (2)

Seminar—2 hour(s). Limited enrollment. Focuses on four-six issues at the interface of law, medicine, bioethics, and health policy that are currently the subject of major litigation, legislation, and/or contentious debate in the domains of bioethics and public policy. Effective: 2006 Fall Semester.

LAW 286B—Public Health Law (2)

Discussion—2 hour(s). Restricted to 15 students. Public health law, seen broadly, is the government's power and responsibility to ensure the conditions for the population's health. Effective: 2010 Fall Semester.

LAW 286C—Bioethics (3)

Discussion. Limited enrollment. Examines the ethical and legal issues that arise from biomedical research and use of medical technologies. Effective: 2019 Fall Semester.

LAW 286D—Legal Psychology Seminar (2)

Seminar—2 hour(s). Examines how psychological theory and research can be used to shape laws and policies to make them better reflect what we know empirically about how individuals process information, make decisions and behave. Effective: 2005 Fall Semester.

LAW 286E—Reproductive Rights, Law, & Policy (2)

Seminar—2 hour(s). Limited enrollment. Addresses a variety of laws and practices that affect reproductive health and procreative decision making. Effective: 2020 Spring Semester.

LAW 287—Public Land Law (2)

Discussion—2 hour(s). Legal aspects of federal land management, including the history of public land law, the scope of federal and state authority over the federal lands, and the allocation of public land resources among competing uses. Effective: 2017 Fall Semester.

LAW 287A—Poverty Law (2)

Seminar—2 hour(s). Limited enrollment. Explore the theory and practice of law pertaining to the enactment and enforcement of laws regulating or aiding the poor and other disadvantaged persons. Effective: 2015 Fall Semester.

LAW 287T—Law & Society Seminar (2)

Seminar—2 hour(s). Limited enrollment. Study of law and society challenges traditional legal scholarship by exploring multiple ways in which law both shapes and is shaped by societies and social interactions. Seminar introduction to important literature and debates in the field. Effective: 2006 Fall Semester.

LAW 288—Advanced Constitutional Law Seminar (2)

Seminar—2 hour(s). Prerequisite(s): LAW 218 (can be concurrent) or LAW 218A (can be concurrent). Limited enrollment. Seminar explores in-depth selected topics or problems in constitutional law and theory. The current focus will include diverse topics including abortion rights, the development of Second Amendment jurisprudence, and other subject areas. Effective: 2011 Fall Semester.

LAW 288A—Presidential Powers Seminar (2)

Seminar. Explores the Constitutional powers of the President in Article II and how they intersect with Congressional power. Emphasis on executive and legislative power, executive orders, appointment and removal powers, executive privilege and immunity, pardons, impeachment, Congressional investigations, independent and special counsels, and the 25th Amendment. Effective: 2018 Fall Semester.

LAW 288B—Supreme Court Simulation Seminar (3)

Seminar—3 hour(s). Take on the role of Justices of, and advocates before, the Supreme Court of the United States. Effective: 2017 Fall Semester.

LAW 288C—National Security Law (3)

Lecture. Prerequisite(s): LAW 205. Examines the allocation of national security powers among the three branches of government, and the laws & policies that govern military operations, the collection & use of intelligence, homeland security, and other current national security issues. Effective: 2019 Fall Semester.

LAW 289A—Biotechnology Law & Policy (2)

Seminar—2 hour(s). Limited enrollment. Coverage includes the regulation of biotechnology research, including restrictions on cloning and fetal stem cell research; regulation of the products of biotechnology to protect human health or the environment, including restrictions on use or distribution of genetically modified organisms; the availability and scope of intellectual property protection for biotechnology products, including genes and engineered organisms; and the international law governing access to the natural resources that provide the starting materials for biotechnology and trade in bioengineered organisms or their products. Effective: 2002 Fall Semester.

LAW 290—International Trade Law (2) *Review all entries*

Seminar—2 hour(s). China has become factory to the world, India its back office, and the US its information intermediary. Trade law affects goods, safety of foods, and conditions under which clothes are produced. Reviews trade regulation from the World Trade Organization to regional organizations such as NAFTA. Considers the implications for developing economies and analyze strengths and weaknesses of the current international trade order. Effective: 2020 Spring Semester.

LAW 290—International Trade Law (3) *Review all entries*

Seminar—2 hour(s). China has become factory to the world, India its back office, and the US its information intermediary. Trade law affects goods, safety of foods, and conditions under which clothes are produced. Reviews trade regulation from the World Trade Organization to regional organizations such as NAFTA. Considers the implications for developing economies and analyze strengths and weaknesses of the current international trade order. Effective: 2020 Fall Semester.

LAW 290AT—Privacy, Surveillance, & “Sousveillance” (3)

Discussion—3 hour(s). Issues of privacy and surveillance are important to businesses, governments and citizens. Surveillance raises issues of autonomy and the abuse of power. “Sousveillance,” (citizen holds the camera), is a mechanism for rooting out corruption and exposing individuals to societal scrutiny. Effective: 2015 Fall Semester.

LAW 290BT—Surveillance & States (3)

Seminar—3 hour(s). Examines the tensions between democracy and the rise of government power entailed by the growth of state surveillance, United States surveillance law and practice, and surveillance law and practice across the world. Considers international legal constraints on government surveillance. Effective: 2016 Summer Semester.

LAW 290C—Information Privacy Law (2)

Seminar—2 hour(s). Prerequisite(s): Criminal Procedure strongly recommended. Examine several topics that arise in field of information privacy law, with a special emphasis on law enforcement access to this information. Effective: 2018 Spring Semester.

LAW 291A—International Finance (4)

Discussion—4 hour(s). Money makes the world go round. We will try to follow that money, learning how a framework of national and international laws and institutions regulates (or perhaps fails to regulate) its flow. Effective: 2009 Fall Semester.

LAW 291B—International Investment Dispute Seminar (2)

Seminar—2 hour(s). This seminar will examine the law of investor-State dispute resolution. Effective: 2005 Fall Semester.

LAW 291T—International Arbitration & Investment Law (2)

Lecture. Covers international arbitration involving States, individuals, and corporations; including: the parties; the agreement to arbitrate; the arbitrators; the arbitral proceeding; and, the arbitral award. Effective: 2017 Fall Semester.

LAW 292—Immigration Law & Procedure (3)

Discussion—3 hour(s). Surveys the history of U.S. immigration law and policy. Effective: 2006 Spring Semester.

LAW 292A—Advanced Topics in Immigration & Citizenship Law Seminar (2)

Lecture. Prerequisite(s): LAW 292; May be waived by the professor. Conducts a closer examination of various topics and subject matters that relate to immigration and citizenship law. Effective: 2017 Fall Semester.

LAW 292B—Immigration Crimes (2)

Lecture. Every year, tens of thousands of people are charged with immigration-related crimes in the federal court system; almost all of the people prosecuted in these cases come from Spanish-speaking countries to the south of the United States. Examine the history of such immigration-related prosecutions, explores how they are currently conducted, and looks in particular at the streamlined proceedings that happen in districts along the southern border. Effective: 2020 Fall Semester.

LAW 293—Public Interest Law (2)

Seminar—2 hour(s). This class will examine the issues and problems associated with providing civil legal services to persons and interests in American society that typically have been unable to afford or otherwise obtain representation from the private bar. Effective: 2006 Fall Semester.

LAW 293AT—Contemporary Issues in Economic Justice (2)

Discussion—2 hour(s). Provides an introduction to the social justice critique of free markets. Effective: 2013 Spring Semester.

LAW 293B—Representing Spanish-Speaking Clients: Language, Culture, & Emotional Intelligence (1)

Lecture. Prerequisite(s): Spanish proficiency or Consent of Instructor. Goal is to prepare future attorneys to effectively represent Spanish-speaking clients through various key tools, including litigation tools, language, culture, and emotional intelligence. (S/U grading only.) Effective: 2019 Fall Semester.

LAW 293T—Public Interest Lawyering, Civil Rights & Employment Law (2)

Seminar—2 hour(s). Prerequisite(s): LAW 260; LAW 260AT. Advanced course covers employment law issues through the lens of public interest lawyers and their constituencies. Effective: 2014 Spring Semester.

LAW 294A—Law & Popular Culture (2)

Seminar—2 hour(s). Examines works of popular culture, films, and legal texts. Each session focuses on a particular film and its cultural implications, particular problem or problems of law, law practice, legal ethics, traditional ethics, or public policy. Effective: 2006 Spring Semester.

LAW 294B—Video Game Law (2)

Lecture. Focuses primarily on intellectual property law through the lens of video game-related litigation, and addresses the ways in which video games and the video game industry shape law and society. Addresses the video game business, the structure and form of video-game-related legal transactions, and other current legal issues surrounding video games. Effective: 2019 Spring Semester.

LAW 295A—Trademark & Unfair Competition Law (3)

Discussion—2 hour(s). Prerequisite(s): LAW 274 recommended, not required. Intensive look at selected issues in Trademark Law, including the concepts of trademarks and unfair competition, acquisition and loss of trademark rights, infringement, trademarks as speech, and international aspects of trademark protection. Effective: 2020 Spring Semester.

LAW 295B—University Brands (3)

Lecture. Universities gain from developing brands, to draw donors and students and lend prestige to a range of activities—merchandise, publishing, technology transfer, continuing education, hospitals, distance learning, etc. Whether private, public, elitist, or inclusive, the university can no longer avoid to brand itself. Discusses the role of trademarks in the university and changes affecting it. Effective: 2018 Fall Semester.

LAW 295T—Brands (3)

Seminar—3 hour(s). Takes a close, interdisciplinary look at branding. Preparation to understand modern branding strategies and the challenges such strategies may pose to traditional trademark law and policy. Topics include merchandising rights, unfair competition, and counterfeits. Effective: 2019 Spring Semester.

LAW 296—Copyright (3)

Discussion—3 hour(s). Thorough examination of the law of copyright, including its application to literature, music, films, television, art, computer programs, and the Internet. Effective: 2015 Fall Semester.

LAW 296B—Entertainment Law (2)

Discussion. Provides a working knowledge of legal issues in the entertainment industry with general and more specialized knowledge in established media, including film, literature, music and television, as well as emerging online media and video games. Effective: 2019 Fall Semester.

LAW 296C—Fictional Characters & Real People (2)

Discussion—2 hour(s). Celebrities and fictional characters both have a powerful hold on the human imagination and are important parts of our modern myths. Examines legal protection available for each. Effective: 2011 Spring Semester.

LAW 296D—Art Law (2)

Discussion—2 hour(s). Selected issues in Art Law, including meaning of art, how to represent artists, copyright, publicity, first amendment rights, censorship, street art, government regulation, art markets, international protection of art and cultural property; and more. Effective: 2017 Spring Semester.

LAW 297—Alternative Dispute Resolution (3)

Discussion—3 hour(s). Limited enrollment. Introduction to a wide variety of alternative dispute resolution procedures, with an emphasis on negotiation, mediation and arbitration. Effective: 2007 Fall Semester.

LAW 297A—Federal Arbitration Act Seminar (2)

Seminar—2 hour(s). Trace the development of commercial arbitration law, with a special emphasis on hot-button contemporary issues like consumer and employment arbitration, the separability doctrine, preemption of state law, and the arbitrability of statutory claims. Effective: 2016 Spring Semester.

LAW 297BT—International Commercial Arbitration (3)

Discussion—3 hour(s). International commercial arbitration, Convention on International Sale of Goods, general understanding of international arbitration provided by World Bank's International Centre for Settlement of Investor-State Disputes under Convention on Settlement of Investment Disputes between States and Nationals of Other States. Effective: 2015 Spring Semester.

LAW 298—Sociology of the Legal Profession Seminar (2)

Seminar—2 hour(s). Limited enrollment. Comprehensive look at the organization, operation, and ideology of the legal profession. Effective: 2006 Fall Semester.

LAW 400A—Study Abroad: University College Dublin, Ireland (12)

Independent Study. Students must apply and be accepted into the International Study Abroad Program. Semester away study abroad at the University College Dublin, Ireland. Enhance knowledge of international legal regimes and obtain a global legal educational experience. Taught abroad. (S/U grading only.) Effective: 2008 Spring Semester.

LAW 400B—Study Abroad: University of Copenhagen, Denmark (12)

Independent Study. Students must apply and be accepted into the International Study Abroad Program. Semester study abroad at the University of Copenhagen, Denmark. Enhance knowledge of international legal regimes and obtain a global legal educational experience. Taught abroad. (S/U grading only.) Effective: 2008 Spring Semester.

LAW 400C—Study Abroad: China University of Political Science & Law (12)

Independent Study. Student must apply and be acceptance in the International Study Abroad Program. Semester-away study abroad at the China University of Political Science and Law. Enhance knowledge of international legal regimes and obtain a global legal educational experience. Taught abroad. (S/U grading only.) Effective: 2009 Spring Semester.

LAW 400D—Study Abroad: University of Lausanne, Switzerland (12)

Independent Study. Student must apply and be accepted in the International Study Abroad Program. Semester-away study abroad at the University of Lausanne, Switzerland. Enhance knowledge of international legal regimes and obtain a global legal educational experience. Taught abroad. (S/U grading only.) Effective: 2013 Fall Quarter.

LAW 400E—Study Abroad: Comillas Pontifical University Madrid, Spain (12)

Independent Study. Semester-away study abroad at the Comillas Pontifical University in Madrid, Spain. Enhance knowledge of international legal regimes and obtain a global legal educational experience. Taught abroad. (S/U grading only.) Effective: 2017 Fall Semester.

LAW 400F—Study Abroad: Université Paris Nanterre, Paris (12)

Seminar. Student must apply and be accepted in the International Study Abroad Program. Semester-away study abroad at the Université Paris Nanterre, Paris. Enhance knowledge of international legal regimes and obtain a global legal educational experience. Taught abroad. (S/U grading only.) Effective: 2018 Fall Semester.

LAW 400S—Critical Topics in Environmental Law in a Comparative Perspective (2)

Seminar—2 hour(s). Enrollment by application only. Intensive, two-week program provides an opportunity for U.S. and international law students to study environmental law by examining and comparing European Union and U.S. environmental law policies and regulatory regimes. Effective: 2014 Summer Semester.

LAW 408—Community Education Seminar (3)

Seminar—3 hour(s); Clinical Activity. Limited enrollment. Trains students to educate the community about basic legal rights and responsibilities. Students attend an initial four-hour orientation, followed by weekly seminars that will prepare students to teach in a local high school at least two times per week. (S/U grading only.) Effective: 1997 Winter Quarter.

LAW 409—Environmental Law Moot Court (1)

Variable. During the first eight weeks of fall semester, students research and submit briefs as appellants, respondents, or third parties on a problem of environmental law that is prepared by the National Environmental Law Moot Court Board. (S/U grading only.) Effective: 1997 Winter Quarter.

LAW 410A—Appellate Advocacy I (2)

Discussion/Laboratory. Limited enrollment. Basic appellate practice and procedure. Beginning instruction in oral advocacy skills and an opportunity to practice these skills in front of a moot court. (S/U grading only.) Effective: 2008 Fall Semester.

LAW 410B—Appellate Advocacy II (Moot Court) (2)

Practice—2 hour(s). Limited enrollment. Continuation of LAW 410A. Focuses on the development of effective appellate brief writing skills and the refinement of oral advocacy skills. (S/U grading only.) Effective: 2008 Fall Semester.

LAW 411A—Journal of International Law & Policy (1-2)

Variable—1-2 hour(s). The UC Davis Journal of International Law & Policy publishes semi-annually and strives to contribute pertinent and interesting scholarly works to the field of international law. May be repeated up to 5 time(s) allowing participation in the journal for more than one term. (S/U grading only.) Effective: 2017 Spring Semester.

LAW 411B—Social Justice Law Review (1-2)

Independent Study—1-2 hour(s). The Social Justice Law Review is a publication of the UC Davis School of Law that addresses the unique concerns of social justice in the American legal system. May be repeated up to 5 time(s) allowing participation in the journal for more than one term. (S/U grading only.) Effective: 2019 Fall Semester.

LAW 411C—UC Davis Business Law Journal (1-2)

Independent Study—1 hour(s). The UC Davis Business Law Journal is run by dedicated law students who are committed to providing current and valuable legal and business analysis. May be repeated up to 5 time(s) allowing participation in the journal for more than one term. (S/U grading only.) Effective: 2017 Spring Semester.

LAW 411D—Immigration & Nationality Law Review (1-2)

Independent Study. Prerequisite(s): Consent of Instructor. The Immigration & Nationality Law Review (INLR) is in part a reprint journal and serves as an anthology of seminal articles in immigration, nationality, and citizenship law. INLR has republished a number of articles authored by King Hall faculty. INLR also creates space for student Notes. The INLR also hosts a symposium or other immigration-related project each year and publishes materials from that enterprise in the year's volume. May be repeated up to 5 time(s) allowing participation in the journal for more than one term. (S/U grading only.) Effective: 2017 Fall Semester.

LAW 412—Carr Intraschool Trial Advocacy Competition (1)

Variable. Limited enrollment. Named after the late Justice Frances Carr, this competition is open to second and third-year students. A preliminary round is followed by quarter-finals, semi-finals, and a final round. Students participate in mock trials presided over by judges and critiqued by experienced litigators. (S/U grading only.) Effective: 1997 Winter Quarter.

LAW 413—Interschool Competition (1-3)

Variable. Prerequisite(s): Consent of appropriate faculty advisor. Limited to students actually representing the School in the interschool competitions. Participation in interschool moot court and lawyering skills competitions. Competition must be authorized by the appropriate faculty advisor. Faculty advisor may condition the award of academic credit for any particular competition on the performance of such additional work as may be reasonable to justify the credit. May satisfy advanced legal writing requirement (S/U grading only.) Effective: 1997 Winter Quarter.

LAW 414—Moot Court Board (1)

Variable. Prerequisite(s): LAW 410A; LAW 410B. Limited enrollment. Members of Moot Court Board may receive 1 unit for each semester of service on the board; maximum of 2 units. Credit awarded only after certification by Moot Court Board and approval of the faculty advisors to Moot Court Board. (S/U grading only.) Effective: 1997 Winter Quarter.

LAW 414A—Negotiations Board (1)

Discussion—1 hour(s). Prerequisite(s): Consent of Instructor. Members of the King Hall Negotiations Board assist in the administration of the King Hall Negotiation Team by performing a variety of tasks under the supervision of the course instructor. Only 1 unit of credit for each semester of service on the board; up to a maximum of 2 units per academic year (4 units maximum); credit awarded only after approval by the instructor. (P/NP grading only.) Effective: 2012 Fall Semester.

LAW 415—Trial Practice Honors Board (1)

Variable. Members of the Trial Practice Honors Board administer the Frances Carr competition. Members are nominated by their individual Trial Practice I adjuncts. Receive 1 unit for serving on the Board; awarded upon approval of the faculty advisor. (S/U grading only.) Effective: 1997 Winter Quarter.

LAW 416—Law Review Writer (1-2)

Variable—1-2 hour(s). Writing of a law review article under the editorial supervision of editors of the UC Davis Law Review. Office hours (including but not limited to Bluebooking and cite-checking) are required. 1 or 2 units. May be repeated for credit. In the spring semester, credit is obtained only upon achieving status as a member of the UC Davis Law Review, which requires that the student has made substantial progress towards completing an editorship article; credit is awarded only after certification by the editor in chief and approval of the faculty advisors; 1 unit of credit is earned the first semester; 2 units are earned the second semester upon nomination and acceptance of nomination to the Editorial Board; 1 unit is earned second semester if only a membership draft and office hours are completed. (S/U grading only.) Effective: 2017 Spring Semester.

LAW 417A—Law Review Editor (1-2)

Variable—1-2 hour(s). Prerequisite(s): Consent of Instructor. Editors must have completed an editorship article and must perform editorial duties (a substantial time commitment). Credit is awarded only after completion of both semesters. (S/U grading only.) Effective: 2015 Fall Semester.

LAW 417B—Law Review Editor (1-2)

Variable—1-2 hour(s). Prerequisite(s): Consent of Instructor. Editors must have completed an editorship article and must perform editorial duties (a substantial time commitment). Credit is awarded only after completion of both semesters. (S/U grading only.) Effective: 2016 Spring Semester.

LAW 418—Environmental Law & Policy Journal (1-2)

Independent Study. Environs is a biannual environmental law and policy journal that provides an open forum for the discussion of current environmental issues, particularly those pertaining to the state of California. May be repeated up to 5 time(s) allowing the student to participate in the journal for more than one term. (S/U grading only.) Effective: 2017 Spring Semester.

LAW 419—Advanced Writing Project (1-4)

Variable. Completion of a writing requirement project under the active and regular supervision of a faculty member in satisfaction of the legal writing requirement. Writing project must be an individually authored work of rigorous intellectual effort of at least 20 typewritten double-spaced pages, excluding footnotes. Project may take any of several forms, for example, a paper, a brief, a memorandum of law, a proposed statute, a statutory scheme or set of administrative regulations (with explanatory comments), or a will or agreement (with explanatory comments). Advanced writing project may also be undertaken in connection with another course or seminar to satisfy the legal writing requirements. Number of units shall be approved by the faculty supervisor and will depend upon the scope of the writing effort. (S/U grading only.) Effective: 2005 Fall Semester.

LAW 419A—Advanced Writing Project (1-4)

Variable. Completion of a writing requirement project under the active and regular supervision of a faculty member in satisfaction of the legal writing requirement. Writing project must be an individually authored work of rigorous intellectual effort of at least 20 typewritten double-spaced pages, excluding footnotes. Project may take any of several forms, for example, a paper, a brief, a memorandum of law, a proposed statute, a statutory scheme or set of administrative regulations (with explanatory comments), or a will or agreement (with explanatory comments). Advanced writing project may also be undertaken in connection with another course or seminar to satisfy the legal writing requirements. Number of units shall be approved by the faculty supervisor and will depend upon the scope of the writing effort. (S/U grading only.) Effective: 2005 Fall Semester.

LAW 419S—Special Session Advanced Writing Project (1-4)

Variable. Completion of a writing requirement project under the active and regular supervision of a faculty member in satisfaction of the legal writing requirement. Writing project must be an individually authored work of rigorous intellectual effort of at least 20 typewritten double-spaced pages, excluding footnotes. Project may take any of several forms, for example, a paper, a brief, a memorandum of law, a proposed statute, a statutory scheme or set of administrative regulations (with explanatory comments), or a will or agreement (with explanatory comments). Advanced writing project may also be undertaken in connection with another course or seminar to satisfy the legal writing requirements. Number of units shall be approved by the faculty supervisor and will depend upon the scope of the writing effort. (S/U grading only.) Effective: 2005 Summer Special Session.

LAW 420—Civil Rights Clinic (2-6)

Clinical Activity—2 hour(s). Prerequisite(s): LAW 219 (can be concurrent); and Consent of Instructor. Priority given to students enrolled in or have taken LAW 267. Limited enrollment. Clinic provides practical experience in providing legal services to indigent clients who have filed civil rights actions in state and federal trial and appellate courts. Students work on clinic cases under the supervision of the clinic director. May be repeated for credit. Effective: 2015 Spring Semester.

LAW 425—Judicial Clinical (2-12)

Clinical Activity. Prerequisite(s): LAW 261; Required for full-time clinical students and recommended for part-time clinical students. Students may arrange judicial clerkship clinical programs with an approved list of state and federal judges through the Clinical office and under the sponsorship of the faculty member in charge. All students must complete weekly time records and bi-weekly journals. (S/U grading only.) Effective: 1997 Winter Quarter.

LAW 430—Federal & State Taxation Externship (2-6)

Clinical Activity—2-12 hour(s). Prerequisite(s): LAW 220; and Consent of Instructor. Opportunity to work with the Internal Revenue Service or other governmental tax agency. Journals and attendance at group meetings required. (S/U grading only.) Effective: 2013 Fall Semester.

LAW 435—Family Protection Clinic (4)

Clinical Activity—2 hour(s). Prerequisite(s): LAW 219 (can be concurrent); Full-Year Clinic: prior or concurrent enrollment in LAW 219 to qualify for state court certification; prior or concurrent enrollment in LAW 272 and LAW 263A recommended, not required; One-Semester Clinic: prior or concurrent enrollment in LAW 272 and LAW 263A recommended, not required. Full-Year Clinic: each student required to enroll for two semesters, receiving 4 units each semester for total of 8 units; class limited to seven students; One-Semester Clinic: each student required to meet weekly for a 2-hour seminar; class limited to four students. Represent low-income persons in family law and related matters arising out of situations involving family violence. Effective: 2015 Spring Semester.

LAW 435A—Family Protection Clinic (4)

Clinical Activity—2 hour(s). Prerequisite(s): LAW 219 (can be concurrent); Consent of Instructor. Full-Year Clinic: LAW 219 is required to qualify for state court certification; prior or concurrent enrollment in LAW 272 and LAW 263A recommended not required. One-Semester Clinic: prior or concurrent enrollment in LAW 272 and LAW 263A recommended not required. Full-Year Clinic: each student required to enroll for two semesters receiving 4 units each semester for total of 8 units; class limited to seven students. Represent low-income persons in family law and related matters arising out of situations involving family violence. Effective: 2014 Fall Semester.

LAW 435B—Family Protection Clinic (4)

Clinical Activity—2 hour(s). Prerequisite(s): LAW 219 (can be concurrent); and Consent of Instructor. Full-Year Clinic: LAW 219 is required to qualify for state court certification; prior or concurrent enrollment in LAW 272 and LAW 263A recommended not required. Full-Year Clinic: each student required to enroll for two semesters receiving 4 units each semester for total of 8 units; class limited to seven students. Represent low-income persons in family law and related matters arising out of situations involving family violence. Effective: 2015 Spring Semester.

LAW 440A—Immigration Law Clinic (4)

Clinical Activity—4 hour(s). Prerequisite(s): LAW 292 (can be concurrent). Each student is required to enroll for two semesters, receiving 4 units each semester for total of 8 units. Provides legal representation to indigent non-citizens in removal proceedings before U.S. Immigration Courts, the Board of Immigration Appeals, and federal courts, including the Ninth Circuit Court of Appeals. Effective: 2015 Spring Semester.

LAW 440B—Immigration Law Clinic (4)

Clinical Activity—4 hour(s). Prerequisite(s): LAW 292 (can be concurrent); Consent of Instructor. Each student is required to enroll for two semesters, receiving 4 units each semester for total of 8 units. Provides legal representation to indigent non-citizens in removal proceedings before U.S. Immigration Courts, the Board of Immigration Appeals, and federal courts, including the Ninth Circuit Court of Appeals. Effective: 2015 Spring Semester.

LAW 445—Legislative Process Externship (2-5)

Clinical Activity. Prerequisite(s): LAW 240 (can be concurrent); or Consent of Instructor. Practical experience in the operation of the office of a legislator or a legislative committee. The major thrust of the program is to enable students to become familiar with the give and take realities of making laws, as contracted with (S/U grading only.) Effective: 2001 Spring Semester.

LAW 445A—Aoki Water Justice Clinic (5)

Clinical Activity. Prerequisite(s): Consent of Instructor. Aoki Water Justice Clinic trains students to use community lawyering and transactional legal tools to ensure that low-income, California communities receive safe, clean, and affordable drinking water. Effective: 2017 Fall Semester.

LAW 445B—Advanced Aoki Water Justice Clinic (3-5)

Variable. The Advanced Aoki Water Justice Clinic allows students to leverage their legal research and practical lawyering skills to advance policies that ensure that low-income, California communities receive safe, clean, and affordable drinking water. Effective: 2017 Fall Semester.

LAW 446—UC Davis Capital Law Scholars Externship Program (2-12)

Fieldwork. Program is designed to provide students with hands-on lawyering experience in a legislative office, with a legislative committee, or with a government/nonprofit office engaged in legislative and policy work. Grading is on a S/U basis. (S/U grading only.) Effective: 2016 Fall Semester.

LAW 446A—UC Davis Capital Law Scholars Seminar (1)

Seminar—1 hour(s). May be required for students enrolled in Capital Law Scholars Externship. Covers issues related to lawyering in California's state capital, and help students maximize educational and professional experience in their externship placements. Effective: 2016 Fall Semester.

LAW 450—Environmental Law Externship (2-6)

Clinical Activity. Prerequisite(s): LAW 285; or Consent of Instructor. Practical experience in environmental law. Students will work in an approved government, non-profit or private law office engaged in some form of environmental law work for a minimum of eight hours per week. Students must prepare a journal describing and reflecting upon their clinical experience, and meet periodically with the instructor. (S/U grading only.) Effective: 2004 Spring Semester.

LAW 455—Employment Relations Externship (2-6)

Clinical Activity. Prerequisite(s): LAW 251 or LAW 260 (can be concurrent). Practical experience in employment relations, including employment discrimination and public sector labor law. Work under the direct supervision of a government lawyer. Opportunity to participate in a range of with emphasis on observation and participation in actual investigation, interviewing, drafting pleading, and attendance at hearings. May be repeated for credit. (S/U grading only.) Effective: 2003 Fall Semester.

LAW 460—Public Interest Law Externship (2-6)

Clinical Activity—2-6 hour(s). Prerequisite(s): Prior or concurrent enrollment in LAW 293 recommended. Opportunity to work with a public interest practitioner in a nonprofit organization. Journals and attendance at two group meetings required. Students must complete an evaluative final paper of approximately eight pages. Hours completed in public interest setting may be applied toward the practicum requirement for the Public interest Law Program. (S/U grading only.) Effective: 2002 Fall Semester.

LAW 465—Intellectual Property Externship (2-6)

Clinical Activity—2-6 hour(s). Prerequisite(s): LAW 293 and Comparative Public Services recommended. Opportunity to work for government, academic, and nonprofit entities. (S/U grading only.) Effective: 2010 Spring Semester.

LAW 470—Administration of Criminal Justice Externship (2-12)

Clinical Activity—2-12 hour(s). Prerequisite(s): LAW 219 (can be concurrent); LAW 227 (can be concurrent); completion of or concurrent enrollment in LAW 219 and LAW 227; LAW 263A recommended. Limited enrollment. Gain practical experience working full or part time in a District Attorney's or Public Defender's office in one of several surrounding counties or in a federal Public Defender or U.S. Attorney's office. Participate in the many activities associated with the office for which they extern: observation, interviewing, research, counseling, motion practice, and trials under State Bar rules. May be repeated up to 12 unit(s). (S/U grading only.) Effective: 2005 Fall Semester.

LAW 475—Washington UC-DC Law Program (10)

Clinical Activity—10 hour(s). Open to 2L and 3L students. Uniquely collaborative externship program in Washington, D.C., combining weekly seminars with full-time field placement offering students an unparalleled opportunity to learn how federal statutes, regulations, and policies are made, changed, and understood in the nation's capital. Taught in Washington, D.C. (S/U grading only.) Effective: 2010 Spring Semester.

LAW 475A—Law Making & Law Changing in the Nation's Capital (3)

Seminar—3 hour(s). Companion seminar to the Washington UC-DC Externship. Designed to enhance the externship experience in three principal ways. Taught in Washington, D.C. Effective: 2010 Spring Semester.

LAW 480—Clinical Program in Prison Law (2-6)

Provides practical experience in providing legal services to real clients who have various problems related to their incarceration in state prison. The services require analysis and application of Constitutional Law, state statutory law, agency regulations, and the rules of professional responsibility. Effective: 2015 Spring Semester.

LAW 485—California Supreme Court Clinic (6)

Clinical Activity—6 hour(s). Limited to 6 students. California Supreme Court Clinic provides students with an immersive experience in litigating cases before the state's highest court. Effective: 2013 Fall Semester.

LAW 490T—Aoki Federal Public Defender Clinic (4)

Clinical Activity—4 hour(s). Students submit applications for the course. Outgrowth of the work of the Aoki Center on Race and Nation. As part of its work, the Aoki Center provides educational opportunities to students interested in critical race perspectives in practice. Effective: 2014 Fall Semester.

LAW 495—Instruction in Legal Research & Writing Skills (1-2)

Discussion—2 hour(s). Prerequisite(s): Consent of Instructor. Participants assist in instructing the Legal Research and Writing programs for first-year students under the direction of the Legal Research and Writing instructors. (S/U grading only.) Effective: 2017 Spring Semester.

LAW 495LS—Lawyering Skills Teaching Assistant (2)

Discussion. Prerequisite(s): Consent of Instructor. Assist the faculty in Lawyering Skills course for first-year students. Approval of the Lawyering Skills instructor is required for enrollment. Grading is on a satisfactory/unsatisfactory basis. May be repeated up to 4 time(s). (S/U grading only.) Effective: 2019 Spring Semester.

LAW 498—Group Study (1-4)

Variable—1-4 hour(s). Prerequisite(s): Consent of Instructor. Limited to no fewer than 4 or more than 10 students. Groups of students with common interest in studying a stated legal problem may plan and conduct their own research and seminar program under the direction of faculty. (S/U grading only.) Effective: 2012 Fall Semester.

LAW 498A—Group Study (1-4)

Variable. Prerequisite(s): Consent of Instructor. Groups of students with common interest in studying a stated legal problem may plan and conduct their own research and seminar program under the direction of faculty. Effective: 2012 Fall Semester.

LAW 499—Independent Research Project (1-4)

Variable. Students may receive credit for individual projects, subject to the following regulations: (1) the project may extend over no more than two semesters; (2) each project will be under the supervision of a faculty member; (3) an outline of the project must be approved by the supervising faculty member; (4) normally, no faculty member will be permitted to supervise more than 5 students working on individual programs during any semester; and (5) each student must submit an individual paper or approved alternative to the supervising faculty member. (S/U grading only.) Effective: 2005 Fall Semester.

LAW 499A—Independent Research Project (1-4)

Variable. Students may receive credit for individual projects, subject to the following regulations: (1) the project may extend over no more than two semesters; (2) each project will be under the supervision of a faculty member; (3) an outline of the project must be approved by the supervising faculty member; (4) normally, no faculty member will be permitted to supervise more than 5 students working on individual programs during any semester; and (5) each student must submit an individual paper or approved alternative to the supervising faculty member. Grading is on a Satisfactory/Unsatisfactory basis unless a request for letter grading has been made in advance. May be repeated for credit. (S/U grading only.) Effective: 2010 Fall Semester.

LAW 499B—Law Students Study Away (10)

Independent Study. Students studying away from UC Davis, School of Law. Taught abroad or off campus. (S/U grading only.) Effective: 2007 Fall Semester.

LAW 499C—Joint Degree Student-GSM (10)

Internship. Joint degree course for graduate School of Management students. (S/U grading only.) Effective: 2009 Spring Semester.

LAW 499S—Special Independent Research Project (1-4)

Students may receive credit for individual projects, subject to the following regulations: (1) the project may extend over no more than two semesters; (2) each project will be under the supervision of a faculty member; (3) an outline of the Effective: 2005 Summer Special Session.

LAW 499SA—Special Session Independent Research Project (1-4)

Students may receive credit for individual projects, subject to the following regulations: (1) the project may extend over no more than two semesters; (2) each project will be under the supervision of a faculty member; (3) an outline of the Effective: 2005 Summer Special Session.

LAW 499SB—Special Session Independent Research Project (1-4)

Variable. Students may receive credit for individual projects, subject to the following regulations: (1) the project may extend over no more than two semesters; (2) each project will be under the supervision of a faculty member; (3) an outline of the project must be approved by the supervising faculty member; (4) normally, no faculty member will be permitted to supervise more than 5 students working on individual programs during any semester; and (5) each student must submit an individual paper or approved alternative to the supervising faculty member. Effective: 2005 Summer Special Session.

LDA—Landscape Architecture

Courses in LDA:

LDA 001—Introduction to Environmental Design (4)

Lecture—3 hour(s); Discussion—1 hour(s); Term Paper. Introduction to the role of design professionals in contributing to the built environment at a range of scales. Introduction to basic methods used by design professionals to evaluate, design, plan, and manage landscapes and the built environment. GE credit: AH, SE, SS, VL, WC, WE. Effective: 2012 Fall Quarter.

LDA 002—Place, Culture & Community (4)

Lecture—4 hour(s). Introduction to recognizing and reading cultural landscapes, and the application of cultural landscape meaning to the creation of contemporary built environments. Topics include patterns and influences relating to agriculture, military, transportation, housing, wilderness, recreation and tourism. GE credit: ACGH, SS, VL, WC, WE. Effective: 2012 Fall Quarter.

LDA 003—Sustainable Development: Theory & Practice (4)

Lecture—3 hour(s); Discussion—1 hour(s). Origins, theoretical perspectives, and practical applications of the concept of sustainable development across scales (site, building, neighborhood, city, region, and nation) through lectures, sketch exercises, student projects, walking tours. GE credit: ACGH, SS, VL, WE. Effective: 2018 Winter Quarter.

LDA 010—World Regional Geography (3)

Lecture—3 hour(s). Major geographic regions of the world; physical and human geography of each region; interactions between the people and the environment; culture and landscape; major resources; physical environments; population distribution and major cities. GE credit: AH, SS, WC. Effective: 2016 Spring Quarter.

LDA 021—Landscape Representation I (4)

Lecture—3 hour(s); Laboratory—3 hour(s). Prerequisite(s): LDA 001 (can be concurrent); or Consent of Instructor. Pass One restricted to Pre-Landscape Architecture and Sustainable Environmental Design majors. Introduction to landscape architectural representation techniques. Fundamentals of orthographic drafting, freehand drawing, photography, and basic digital representation. GE credit: AH, OL, VL. Effective: 2017 Fall Quarter.

LDA 023—Landscape Representation II (3)

Studio—6 hour(s); Project (Term Project). Prerequisite(s): LDA 021; or Consent of Instructor. Restricted to Pre-Landscape Architecture and Landscape Architecture majors only. Instruction of methods to explore and communicate landscape design intentions through digital media Effective: 2017 Fall Quarter.

LDA 030—History of Environmental Design (4)

Lecture—3 hour(s); Discussion—1 hour(s). History of Environmental Design across disciplines, including landscape architecture, planning, community and urban design. GE credit: AH, VL, WE. Effective: 2016 Winter Quarter.

LDA 050—Site Ecology (4)

Lecture—3 hour(s); Laboratory—3 hour(s). Prerequisite(s): BIS 002B. Pass One restricted to Pre-Landscape Architecture and Sustainable Environmental Design majors. Introduction to ecological concepts, including nutrient dynamics, population regulation, community structure, ecosystem function. Principles will be applied to human activities such as biological conservation, ecological restoration, landscape planning, and management. Weekly lab devoted to field exercises in local ecosystems. GE credit: SE, VL, WE. Effective: 2016 Fall Quarter.

LDA 060—Landform & Grading Studio (6)

Studio—8 hour(s); Extensive Problem Solving; Project (Term Project). Prerequisite(s): LDA 070. Pass One restricted to Pre-Landscape Architecture majors. Introduction of landform and topography as landscape medium and utilization of grading and drainage to design meaningful and functional spaces. Intro to site analysis and site planning, with specific attention to topography. GE credit: AH, OL, SE, VL. Effective: 2017 Fall Quarter.

LDA 070—Introduction to Spacemaking (4)

Lecture—3 hour(s); Laboratory—3 hour(s). Prerequisite(s): LDA 021; or Consent of Instructor. Pass One restricted to Pre-Landscape Architecture and Sustainable Environmental Design majors. Introduction to basic principles of design towards the creation of space. Design methodologies and skills to define, manipulate, and represent the built environment. Workshops in 3D physical modeling for spacemaking. GE credit: AH, OL, VL. Effective: 2017 Fall Quarter.

LDA 098—Directed Group Study in Landscape Architecture (1-5)

Variable—1-5 hour(s). Prerequisite(s): Consent of Instructor. Directed group study. (P/NP grading only.) Effective: 2012 Fall Quarter.

LDA 099—Special Study for Undergraduates in Landscape Architecture (1-5)

Variable—1-5 hour(s). Prerequisite(s): Consent of Instructor. (P/NP grading only.) Effective: 2012 Fall Quarter.

LDA 101—Advanced Theory in Environmental Design (3)

Lecture/Discussion—3 hour(s). Prerequisite(s): LDA 070 (can be concurrent); or Consent of Instructor. Open to Landscape Architecture and Sustainable Environmental Design majors only. Provides exploration of contemporary theories and philosophies impacting design of landscapes and the built environment. Includes exploring competing definitions of "landscape," "nature," and "culture." GE credit: AH. Effective: 2017 Spring Quarter.

LDA 102—Methods in Design & Landscape Research (3)

Lecture—3 hour(s). Prerequisite(s): LDA 171; or Consent of Instructor. Open to Landscape Architecture majors only. Research, design, and planning methods employed in landscape architecture. Exercises allow students to design independent landscape research. Lectures provide a historical overview of research methodology. GE credit: AH, OL, VL, WE. Effective: 2018 Winter Quarter.

LDA 120—Landscape Representation III (3)

Studio—6 hour(s); Project (Term Project). Prerequisite(s): LDA 023; or Consent of Instructor. Restricted to Landscape Architecture majors. Provides hands-on workshop environment to explore advanced representation and modeling skills. Digital drawing explored as an analytical research method and generative design technique for creating presentation graphics. Effective: 2017 Fall Quarter.

LDA 140—Green Building, Design, & Materials (4)

Lecture—2 hour(s); Laboratory—4 hour(s). Prerequisite(s): LDA 050; LDA 070. Pass One restricted to Sustainable Environmental Design majors. Sustainable design and construction techniques at site and building scales. Emphasizes real-world case studies, analysis of opportunities for actual sites, and application of LEED and Sustainable Sites green rating systems. GE credit: AH, SE, VL. Effective: 2016 Fall Quarter.

LDA 141—Community Participation & Design (4)

Lecture—1 hour(s); Laboratory—3 hour(s); Fieldwork—3 hour(s); Project (Term Project)—3 hour(s). Prerequisite(s): LDA 021; LDA 030; LDA 050; LDA 070. Restricted to Landscape Architecture and Sustainable Environmental Design majors. Introduction to community participation and design. Incorporates social and cultural factors, public and community processes, theories and practices related to human-environment behavior; community involvement in design, social analysis, community engagement, accessibility, diversity and politics of place. GE credit: ACGH, AH, DD, SS, VL. Effective: 2015 Winter Quarter.

LDA 142—Applying Sustainable Strategies (6)

Lecture—3 hour(s); Discussion—3 hour(s). Prerequisite(s): LDA 140; LDA 141. Restricted to Sustainable Environmental Design Majors. Capstone class examines case studies and techniques of sustainable development. Student teams will develop detailed proposals for real-world sites. GE credit: AH, OL, SE, SS, VL, WE. Effective: 2016 Spring Quarter.

LDA 150—Introduction to Geographic Information Systems (4)

Lecture—3 hour(s); Laboratory—3 hour(s). Pass One restricted to Landscape Architecture and Sustainable Environmental Design majors. Basic concepts, principles, and methods of GIS are presented. Data structures, database design, GIS data creation, GPS, and spatial analysis. May be taught abroad. Not open to credit for students who have completed ABT 180, PLS 180, ABT 181N. (Same course as ABT 150.) GE credit: SE, VL. Effective: 2018 Winter Quarter.

LDA 160—Design & Build Studio (6)

Studio—8 hour(s); Extensive Problem Solving; Fieldwork. Prerequisite(s): LDA 001; LDA 002; LDA 003; LDA 021; LDA 030; LDA 050; LDA 070. Restricted to Landscape Architecture majors. Introduction to the spatial design and construction of small-scale projects. Hands-on approach to learning and understanding materials (including wood, concrete, and stone) and methods in landscape construction, and the application of technical skills (including detailing, cost estimation, and specifications). GE credit: AH, OL, VL. Effective: 2013 Fall Quarter.

LDA 161—Professional Practice & Construction Documents (6)

Studio—8 hour(s); Project (Term Project); Fieldwork. Prerequisite(s): LDA 171. Open to Landscape Architecture majors only. Legal and professional aspects of landscape architecture, including the development of construction documents (drawings and specifications), proposal writing, fee calculations, project management, cost estimation, and insurance. Effective: 2017 Fall Quarter.

LDA 170—Site Planning & Design Studio (6)

Studio—8 hour(s); Fieldwork. Prerequisite(s): LDA 160. Open to Landscape Architecture majors only. Application of place-making and problem-solving skills to local landscape sites. Analysis of social and environmental conditions in the field. Lectures link design projects to contemporary theories and practices. GE credit: AH, OL, VL. Effective: 2017 Fall Quarter.

LDA 171—Urban Design & Planning Studio (6)

Studio—8 hour(s). Prerequisite(s): LDA 170. Restricted to Landscape Architecture majors. Studio designing large-scale landscapes at regional, sub-regional, and neighborhood scales. Focuses on understanding complex social, economic, and environmental factors, developing sustainability priorities and strategies, and applying them through design and policy. GE credit: ACGH, AH, OL, VL. Effective: 2016 Fall Quarter.

LDA 180—Advanced Design & Planning Studio (6)

Studio—8 hour(s); Fieldwork; Extensive Problem Solving. Prerequisite(s): LDA 060; LDA 160; LDA 170; LDA 171; LDA 172. Restricted to Landscape Architecture majors or consent of instructor. Application of advanced theories and methods of design and planning to real-world projects. May be repeated up to 18 unit(s). GE credit: AH, OL, VL. Effective: 2013 Fall Quarter.

LDA 182—Advanced Landscape Architecture Studio I (6)

Studio—8 hour(s). Prerequisite(s): LDA 171. Restricted to Landscape Architecture majors or consent of instructor. Landscape architecture studio featuring advanced studies and applications of creative work, design, technology and/or theory. One day-long field trip required. Effective: 2016 Fall Quarter.

LDA 183—Advanced Landscape Architecture Studio II (6)

Studio—8 hour(s). Prerequisite(s): LDA 182. Restricted to Landscape Architecture majors or consent of instructor. Landscape architecture studio featuring advanced studies and applications of creative work, design, technology and/or theory. One day-long field trip required. Effective: 2016 Fall Quarter.

LDA 184—Capstone Landscape Architecture Studio (6)

Studio—8 hour(s). Prerequisite(s): LDA 183. Restricted to Landscape Architecture majors or consent of instructor. Capstone studio that synthesizes learning objectives within the senior-level Landscape Architecture studio sequence. Students required to apply creative problem solving, design theory, technology, and representation skills towards a design approach that addresses complex, real-world environmental design problems. Effective: 2016 Fall Quarter.

LDA 190—Proseminar in Landscape Architecture (1)

Seminar—1 hour(s). Lectures and discussion of critical issues in landscape architecture. May be repeated up to 3 time(s). (P/NP grading only.) Effective: 2012 Fall Quarter.

LDA 191—Landscape Architecture Planning & Design Studio (2-12)

Seminar—1 hour(s); Workshop—3 hour(s). Prerequisite(s): LDA 001; LDA 070; LDA 170; or Consent of Instructor. Priority to Landscape Architecture majors. Faculty initiated workshops featuring advanced studies and applications of original work in landscape architecture. May be taught abroad. May be repeated up to 20 unit(s). Effective: 2012 Fall Quarter.

LDA 192—Internship in Landscape Architecture (1-12)

Internship. Prerequisite(s): Consent of Instructor. Senior standing in Landscape Architecture. Professional field experience in landscape architecture. May be repeated up to 12 unit(s). (P/NP grading only.) Effective: 2012 Fall Quarter.

LDA 193A—Senior Project in Landscape Architecture (3)

Studio—6 hour(s). Prerequisite(s): Senior standing in Landscape Architecture. Limited enrollment. Projects will focus on a critical area of landscape architectural design, planning, analysis, communication, or research. Required of all Landscape Architecture majors. (P/NP grading only.) Effective: 2012 Fall Quarter.

LDA 193B—Senior Project in Landscape Architecture (4)

Studio—8 hour(s). Prerequisite(s): LDA 193A; And senior standing in Landscape Architecture. Limited enrollment. Projects will focus on a critical area of landscape architectural design, planning, analysis, communication, or research. Required of all Landscape Architecture majors. (P/NP grading only.) Effective: 2012 Fall Quarter.

LDA 197T—Tutoring in Landscape Architecture (1-5)

Tutorial—3-15 hour(s). Prerequisite(s): Consent of Instructor. Tutoring in Landscape Architecture courses. (P/NP grading only.) Effective: 2012 Fall Quarter.

LDA 198—Directed Group Study in Landscape Architecture (1-5)

Variable. Prerequisite(s): Consent of Instructor. Directed group study. May be taught abroad. (P/NP grading only.) Effective: 2012 Fall Quarter.

LDA 199—Special Study for Advanced Undergraduates in Landscape Architecture (1-5)

Variable. Prerequisite(s): Consent of Instructor. (P/NP grading only.) Effective: 2012 Fall Quarter.

LDA 200—Citizenship, Democracy, & Public Space (4)

Seminar—4 hour(s). Prerequisite(s): Graduate standing or consent of instructor. Introduction to seminal works in political theory, philosophy, and the social sciences that focus on citizenship and the public sphere; development of critical perspective regarding restructuring of public space in a pluralistic and global culture; discussion of contemporary case studies. (Same course as GEO 230.) Effective: 2012 Fall Quarter.

LDA 201—Theory & Philosophy of the Designed Environment (4)

Seminar—4 hour(s). Prerequisite(s): LDA 140; Or the equivalent; graduate standing or consent of instructor. Examines the major theories of environmental design. Epistemology of design serves as framework to examine modern landscape architecture, architecture, urban design and planning. Normative theories of design are reviewed along with the social and environmental sciences. Effective: 2012 Fall Quarter.

LDA 202—Methods in Design & Landscape Research (4)

Seminar—4 hour(s). Explores many of the research and advanced design and planning methods employed in landscape architecture. Exercises provide the student with a vehicle for designing independent landscape research and creative activities. Lectures provide an historical overview of research methodology. Effective: 2016 Spring Quarter.

LDA 204—Case Studies in Landscape Design & Research (4)

Seminar—4 hour(s). Prerequisite(s): Graduate standing in Landscape Architecture, Ecology, Geography or Community Development or consent of instructor. Real-world designed environment situations where creative activity and/or basic research is the primary product. May be repeated up to 12 unit(s). Effective: 2012 Fall Quarter.

LDA 205—Urban Planning & Design (4)

Lecture—2 hour(s); Discussion—2 hour(s). Limited to graduate students. Regulation, design, and development of the built landscape, planning and land development processes, zoning and subdivision regulation, site planning, urban design goals and methods, public participation strategies, creatively designing landscapes to meet community and ecological goals. (Same course as GEO 233.) Effective: 2016 Winter Quarter.

LDA 210—Advanced Landscape Architecture Studio (4)

Laboratory—8 hour(s). Prerequisite(s): LDA 113 or the equivalent; graduate standing or consent of instructor. Exposes students to real-world, designed-environment situations where creative activity and/or basic research is the primary product. Advanced landscape problems will be utilized at the site, urban or rural scale. Effective: 2012 Fall Quarter.

LDA 215—Ecologies of Infrastructure (4)

Seminar—4 hour(s). Open to graduate standing or consent of instructor. Focus on design practices and theory associated with ecological conceptions of infrastructure, including networked infrastructure, region, bioregion, regionalization, ecological engineering, reconciliation ecology, novel ecosystems, and theory/articulation of landscape change. (Same course as GEO 215.) Effective: 2016 Winter Quarter.

LDA 216—Food & the City (4)

Seminar—4 hour(s). Open to graduate standing or consent of instructor. Exploration of theory and practice related to the design and planning of alternative and resilient food systems, including urban agriculture, agrihoods, and agri-/rural tourism. Includes investigation of urban-rural connections and case-studies of regional urban agriculture projects. Effective: 2019 Winter Quarter.

LDA 270—Environment & Behavior (4)

Seminar—3 hour(s); Tutorial—1 hour(s). Prerequisite(s): Graduate standing or consent of instructor; PSC 144 recommended. Factors that influence human's interaction with their surroundings and the mechanisms used for recognizing and addressing general and specific human needs in community design and development decisions. Effective: 2012 Fall Quarter.

LDA 280—Landscape Conservation (3)

Seminar—3 hour(s). Prerequisite(s): Contact department for prerequisite courses; graduate standing or consent of instructor. Focus is on land planning, design, and management techniques to further the goal of resource preservation. Examines current critical theory in the establishment and management of conservation areas. Effective: 2012 Fall Quarter.

LDA 290—Graduate Seminar in Landscape Architecture (2)

Seminar—2 hour(s). Prerequisite(s): Consent of Instructor. Graduate standing. Seminar on selected topics in landscape architecture research, analysis, planning, design, communication, or education. May be repeated for credit. (S/U grading only.) Effective: 2012 Fall Quarter.

LDA 297—Practicum in Landscape Architecture (1-10)

Independent Study—1-10 hour(s). Prerequisite(s): Consent of Instructor. Graduate standing. Opportunity for students to work directly in the field with academics at other institutions or with professionals in an office setting. Gives experience beyond the confines of campus and allows direct interaction with the community. (S/U grading only.) Effective: 2012 Fall Quarter.

LDA 298—Group Study (1-5)

Variable. Prerequisite(s): Consent of Instructor. Graduate standing. (S/U grading only.) Effective: 2012 Fall Quarter.

LDA 299—Directed Individual Research for Graduate Students (1-12)

Independent Study. May be repeated for credit. (S/U grading only.) Effective: 2012 Fall Quarter.

LDA 396—Teaching Assistant Training Practicum (1-4)

Variable. May be repeated for credit. (P/NP grading only.) Effective: 2012 Fall Quarter.

LIN—Linguistics

Courses in LIN:

LIN 001—Introduction to Linguistics (4)

Lecture—3 hour(s); Discussion—1 hour(s). Introduction to the study of language; its nature, diversity, and structure. GE credit: AH, SS. Effective: 1997 Winter Quarter.

LIN 001Y—Introduction to Linguistics (4)

Web Virtual Lecture—3 hour(s); Discussion—1 hour(s). Introduction to the study of language; its nature, diversity, and structure. Students may not take both LIN 001 and LIN 001Y for credit. GE credit: AH, SS. Effective: 2014 Spring Quarter.

LIN 003—Language & the Body (4)

Lecture—2 hour(s); Discussion—2 hour(s). Open to all students regardless of major. Enrollment will be restricted to 80-100 students. Perspectives on the role of language in issues about bodies. Language-related disabilities. Social implications of language use in discussing body-related conditions. GE credit: OL, SS. Effective: 2018 Winter Quarter.

LIN 005—Global English & Communication (4)

Lecture—2 hour(s); Discussion—2 hour(s). English as a global language and its uses in intercultural communication. Cultural, historical, and political dimensions of varieties of English spoken around the world. Experiential grounding in strategies for increasing interpretive and verbal communicative competence for a globalized world. (Same course as CMN 005.) GE credit: AH, OL, SS, WC. Effective: 2012 Spring Quarter.

LIN 006—Language & Society (4)

Lecture—3 hour(s); Discussion—1 hour(s). Language as a social phenomenon. Topics include linguistic diversity, language policy, language and identity, language and social structure, speech communities and social networks, the effect of social factors on language variation, linguistic consequences of language contact. GE credit: ACGH, DD, SS, WE. Effective: 2008 Fall Quarter.

LIN 015—Academic Oral Communication (3)

Lecture—1 hour(s); Discussion—2 hour(s). Structure of oral communication, critical thinking, and persuasion in classroom discourse in American English and in cross-cultural perspective. GE credit: AH, OL, SS. Effective: 2014 Fall Quarter.

LIN 096—Directed Group Study in English as a Second Language (1-5)

Variable—1.5 hour(s). Prerequisite(s): Consent of Instructor. Directed group study of topic in English as a Second Language (ESL). May be repeated for credit with consent of the ESL coordinator. (P/NP grading only.) Effective: 1997 Winter Quarter.

LIN 098—Directed Group Study (1-5)

Variable. Prerequisite(s): Consent of Instructor. Intended for lower division students. (P/NP grading only.) Effective: 1997 Winter Quarter.

LIN 099—Special Study for Undergraduates (1-5)

Variable. Prerequisite(s): Consent of Instructor. Intended for lower division students. (P/NP grading only.) Effective: 1997 Winter Quarter.

LIN 103A—Linguistic Analysis I: Phonetics, Phonology, Morphology (4)

Lecture—3 hour(s); Discussion—1 hour(s). Prerequisite(s): LIN 001 recommended. Introduction to fundamental methods and concepts used in linguistic analysis, focusing on phonetic, phonological, and morphological phenomena. Emphasizes development of analytical skills and appreciation of structural regularities and differences among languages. Not open for credit to students who have completed LIN 139. GE credit: AH. Effective: 2017 Winter Quarter.

LIN 103B—Linguistic Analysis II: Morphology, Syntax, Semantics (4)

Lecture—3 hour(s); Discussion—1 hour(s). Prerequisite(s): LIN 001 recommended. Introduction to fundamental methods and concepts used in linguistic analysis, focusing on morphological, syntactic, and semantic phenomena. Emphasizes development of analytical skills and appreciation of structural regularities and differences among languages. Not open for credit to students who have completed LIN 140. GE credit: AH. Effective: 2017 Winter Quarter.

LIN 105—Topics in Language & Linguistics (4)

Lecture—3 hour(s); Term Paper. Prerequisite(s): Consent of Instructor. LIN 001 recommended. Detailed examination of a major contemporary linguistic theory, a major contemporary issue or related set of issues in linguistics, or the structure of a particular language or language family. May be repeated for credit when topic differs. Effective: 2017 Winter Quarter.

LIN 106—English Grammar (4)

Lecture—3 hour(s); Discussion—1 hour(s). Prerequisite(s): LIN 001 or LIN 001Y or ENG 003 or UWP 001; or Consent of Instructor. Survey of present-day English grammar as informed by contemporary linguistic theories. The major syntactic structures of English; their variation across dialects, styles, and registers; their development; and their usefulness in describing the conventions of English. (Same course as ENL 106, UWP 106.) GE credit: AH. Effective: 2018 Winter Quarter.

LIN 111—Introduction to Phonological Theory (4)

Lecture—3 hour(s); Discussion—1 hour(s). Prerequisite(s): LIN 103A recommended. Contemporary phonological theory with emphasis on syllable structure, metrical structure, phonology-morphology interaction, and typological variation in these areas, from the perspective of optimality-theoretic approaches. GE credit: AH. Effective: 2017 Winter Quarter.

LIN 112—Phonetics (4)

Lecture—3 hour(s); Term Paper—1 hour(s). Prerequisite(s): LIN 001 recommended. Detailed examination of articulatory and acoustic phonetics. GE credit: SE. Effective: 2017 Winter Quarter.

LIN 121—Morphology (4)

Lecture—3 hour(s); Discussion—1 hour(s). Prerequisite(s): LIN 103A, 103B recommended. Introduction to the analysis of word structure and the relation of word structure to the lexicon and other grammatical components. GE credit: AH. Effective: 2017 Winter Quarter.

LIN 127—Text Processing & Corpus Linguistics (4)

Lecture—3 hour(s); Extensive Problem Solving. Prerequisite(s): LIN 001, LIN 005, LIN 006, or ANT 004 recommended. Investigation of the lexical organization of human languages through corpus linguistics. Application of principles of linguistic analysis, automatic text processing, and statistical research to solving problems of textual evaluation and classification, as well as information retrieval and extraction. GE credit: AH, QL, SS. Effective: 2017 Winter Quarter.

LIN 131—Introduction to Syntactic Theory (4)

Lecture—3 hour(s); Discussion—1 hour(s). Prerequisite(s): LIN 103B recommended. Introduction to syntactic theory, primarily through the examination of a major theory of syntax, emphasizing theoretical reasoning, argumentation, and problems of theory building in syntax. GE credit: AH. Effective: 2017 Winter Quarter.

LIN 141—Semantics (4)

Lecture—3 hour(s); Term Paper. Prerequisite(s): LIN 103B recommended. Linguistic study of meanings of words and phrases. Meanings expressed by lexical items and derivational and inflectional morphology. Contribution of argument structure, quantification, and coordination to meaning. GE credit: AH. Effective: 2017 Winter Quarter.

LIN 150—Languages of the World (4)

Lecture—3 hour(s); Discussion—1 hour(s). Prerequisite(s): LIN 001 or ANT 004 recommended. Survey of the world's languages, their geographical distribution and classification, both genetic and typological. Illustrative descriptions of several major languages from different geographical areas; pidgins and creoles, lingua francas and other languages of widespread use. Not open for credit to students who have completed LIN 050. GE credit: AH, SS, WC. Effective: 2017 Winter Quarter.

LIN 151—Historical Linguistics (4)

Lecture—3 hour(s); Discussion—1 hour(s). Prerequisite(s): LIN 103A recommended. Description and methods of the historical study of language, including the comparative method and internal reconstruction; sound change, morphological change, syntactic change, semantic change. GE credit: AH. Effective: 2017 Winter Quarter.

LIN 152—Language Universals & Typology (4)

Lecture—3 hour(s); Term Paper. Prerequisite(s): LIN 103B recommended. Investigation into common features of all human languages and the classification of languages in terms of their structural features. Theories of universal grammar. Detailed discussion of non-Indo-European languages and comparison with English. GE credit: AH. Effective: 2017 Winter Quarter.

LIN 160—American Voices (4)

Lecture—3 hour(s); Discussion—1 hour(s). Prerequisite(s): LIN 001 or LIN 001Y or ANT 004; Or upper division standing recommended. Explores the forms of American English: traditional notions of regional dialects and increasingly important social dialects, reflecting age, class, gender, race, ethnicity, and sexual orientation. Influence of language attitudes on perception of dialect speakers; dialect in media, education, and literature. GE credit: SS, WE. Effective: 2018 Winter Quarter.

LIN 163—Language, Gender, & Society (4)

Lecture—3 hour(s); Discussion—1 hour(s). Prerequisite(s): LIN 001 or ANT 004 recommended. Investigation of real and putative (stereotyped) gender-linked differences in language structure and usage, with a consideration of some social and psychological consequences of such differences. Focus is on English, but other languages are also discussed. GE credit: ACGH, DD, SS, WE. Effective: 2017 Winter Quarter.

LIN 165—Introduction to Applied Linguistics (4)

Lecture—3 hour(s); Discussion—1 hour(s). Applications of linguistic principles and the analysis of language-related issues in the world. Exploration of a range of language-related problems including issues related to language learning and teaching to issues concerning language and gender, race, class and the media. GE credit: SS, WE. Effective: 2002 Winter Quarter.

LIN 166—The Spanish Language in the United States (4)

Lecture—3 hour(s); Term Paper. Prerequisite(s): LIN 001 or LIN 001Y or SPA 111N; SPA 023; Or equivalent to SPA 023 recommended. Linguistic features of the varieties of the Spanish language spoken throughout the United States; phonology, morphology, syntax, vocabulary. Focus on the relationship between United States Spanish and other world varieties of Spanish, within a historical framework. GE credit: SS. Effective: 2018 Spring Quarter.

LIN 171—Introduction to Psycholinguistics (4)

Lecture—3 hour(s); Discussion—1 hour(s). Prerequisite(s): (LIN 001 or LIN 001Y); LIN 103A, LIN 103B recommended. Introduction to psychological issues relating to the implementation of language and linguistic structure during speech production and comprehension and to the implications of research in psychology and related fields for linguistic theory. GE credit: SS. Effective: 2018 Spring Quarter.

LIN 173—Language Development (4)

Lecture—3 hour(s); Discussion—1 hour(s). Prerequisite(s): (LIN 001 or LIN 001Y); or Consent of Instructor. LIN 103A, 103B recommended. Theory and research on children's acquisition of their native language, including the sound system, grammatical systems, and basic semantic categories. (Same course as EDU 173.) GE credit: SS. Effective: 2018 Spring Quarter.

LIN 175—Biological Basis of Language (4)

Lecture—3 hour(s); Discussion—1 hour(s). Prerequisite(s): Consent of Instructor. LIN 001 recommended. Overview of issues in the field of neurolinguistics and techniques used to explore representation of language in the human brain. GE credit: SE. Effective: 2017 Winter Quarter.

LIN 177—Computational Linguistics (4)

Lecture—3 hour(s); Discussion—1 hour(s). Prerequisite(s): Consent of Instructor. LIN 001 recommended. Understanding the nature of language through computer modeling of linguistic abilities. Relationships between human cognition and computer representations of cognitive processing. Not open for credit to students who have taken LIN 007. GE credit: SE. Effective: 2017 Winter Quarter.

LIN 180—Second Language Learning & Teaching (4)

Lecture/Discussion—4 hour(s). Prerequisite(s): LIN 001 or LIN 001Y; Or equivalent recommended. Psycholinguistic and sociolinguistic theories of second language learning. Connections between theoretical perspectives and pedagogical practices in formal and informal second language settings, with focus on tutoring. Impact of sociocontextual factors (e.g., gender, ethnicity). Fieldwork requirement. GE credit: SS, WE. Effective: 2018 Winter Quarter.

LIN 182—Multilingualism (4)

Lecture/Discussion—4 hour(s). Limited enrollment. Issues in multilingualism from a global perspective: e.g., multilingual communities; multilingualism and identity (gender, ethnicity, nationality); language ideologies and educational and sociopolitical policies surrounding multilingualism; acquisition of multilingualism; discursive practices of multilinguals. GE credit: SS, WC, WE. Effective: 2006 Spring Quarter.

LIN 192—Internship in Linguistics (1-12)

Internship—3-36 hour(s). Prerequisite(s): LIN 001 or LIN 001Y; Or equivalent course; consent of instructor. Internship applying linguistic-related skills to a fieldwork project in areas such as media, law, or industry, in approved organizations or institutions. Maximum of 4 units applicable toward major. (P/NP grading only.) Effective: 2018 Winter Quarter.

LIN 194H—Special Study for Honors Students (1-5)

Independent Study—1-5 hour(s). Prerequisite(s): Consent of Instructor. Open only to linguistics majors of senior standing who qualify for Honors Program. Guided research, under the direction of a faculty member approved by the Program Director, leading to a senior honors thesis. May be repeated up to 6 unit(s). (P/NP grading only.) Effective: 1997 Winter Quarter.

LIN 197T—Tutoring in Linguistics (1-4)

Discussion—1-4 hour(s). Prerequisite(s): Consent of Instructor. Upper division standing and consent of department chairperson. Leading of small voluntary discussion groups affiliated with one of the department's regular courses. May be repeated for credit. (P/NP grading only.) Effective: 1997 Winter Quarter.

LIN 198—Directed Group Study (1-5)

Variable. Prerequisite(s): Consent of Instructor. (P/NP grading only.) Effective: 1997 Winter Quarter.

LIN 199—Special Study for Advanced Undergraduates (1-5)

Variable. (P/NP grading only.) Effective: 1997 Winter Quarter.

LIN 200A—Foundations of Linguistics I (4)

Lecture/Discussion—3 hour(s); Term Paper. Prerequisite(s): Graduate standing. Survey of fundamental issues raised by pre-generative linguistics in the 20th century, with emphasis on issues crucial to applications of linguistics. Not open for credit to students who have completed LIN 203A. Effective: 2005 Spring Quarter.

LIN 200B—Foundations of Linguistics II (4)

Lecture/Discussion—3 hour(s); Term Paper. Prerequisite(s): Graduate standing. Survey of fundamental issues raised by orthodox generative linguistics, with emphasis on issues crucial to applications of linguistics. Not open for credit to students who have completed LIN 203B. Effective: 2005 Spring Quarter.

LIN 200C—Foundations of Linguistics III (4)

Lecture/Discussion—3 hour(s); Term Paper. Prerequisite(s): Graduate standing. Survey of fundamental issues raised by contemporary linguistic theories lying outside the generative grammar orthodoxy, with emphasis on issues crucial to applications of linguistics. Effective: 2005 Spring Quarter.

LIN 201—Proseminar (1)

Seminar—1 hour(s). Introduction to research activity of faculty in the Graduate Group in Linguistics and guest speakers. May be repeated up to 4 unit(s). (S/U grading only.) Effective: 2011 Fall Quarter.

LIN 205A—Topics in Linguistic Theory & Methods (4)

Seminar—3 hour(s); Term Paper. Prerequisite(s): Consent of Instructor. Advanced study of current problems in linguistic theory and methodology. May be repeated for credit when topic differs. Effective: 1997 Winter Quarter.

LIN 205B—Topics in Linguistic Theory & Methods (4)

Seminar—3 hour(s); Term Paper. Prerequisite(s): Consent of Instructor. Advanced study of current problems in linguistic theory and methodology. May be repeated for credit when topic differs. Effective: 1997 Winter Quarter.

LIN 205C—Topics in Linguistic Theory & Methods (4)

Seminar—3 hour(s); Term Paper. Prerequisite(s): Consent of Instructor. Advanced study of current problems in linguistic theory and methodology. May be repeated for credit when topic differs. Effective: 1997 Winter Quarter.

LIN 205D—Topics in Linguistic Theory & Methods (4)

Seminar—3 hour(s); Term Paper. Prerequisite(s): Consent of Instructor. Advanced study of current problems in linguistic theory and methodology. May be repeated for credit when topic differs. Effective: 1997 Winter Quarter.

LIN 211—Advanced Phonological Theory & Analysis (4)

Lecture—3 hour(s); Term Paper. Prerequisite(s): LIN 111. Critical examination of current phonological theories. Effective: 1997 Winter Quarter.

LIN 212—Advanced Phonetics (4)

Lecture—3 hour(s); Term Paper. Prerequisite(s): LIN 112. Advanced investigation of the physiological basis of speech articulation and acoustic phonetics. Effective: 1997 Winter Quarter.

LIN 231—Advanced Syntactic Theory & Analysis (4)

Lecture—3 hour(s); Term Paper. Prerequisite(s): LIN 131. Critical survey of contemporary theories of syntax. Effective: 1997 Winter Quarter.

LIN 241—Advanced Syntactic Theory & Analysis (4)

Lecture—3 hour(s); Term Paper. Prerequisite(s): LIN 141; or Consent of Instructor. Advanced critical exploration of contemporary theories of linguistic semantics. Effective: 1997 Winter Quarter.

LIN 250—Principles of Typological Linguistics (4)

Seminar—3 hour(s); Term Paper. Cross-linguistic comparison and typology, including word order, morphological typology, complex clauses, semantic categories and their grammaticalization, and applications of typology to language acquisition. Effective: 2011 Fall Quarter.

LIN 251—Principles of Historical Linguistics (4)

Lecture—3 hour(s); Term Paper. Prerequisite(s): LIN 151. Advanced analysis of the theory and methods of historical linguistics. Effective: 1997 Winter Quarter.

LIN 252—Romance Linguistics (4)

Lecture—3 hour(s); Term Paper. Prerequisite(s): LIN 151. Examination of the development of the Romance languages from Proto-Romance to the modern era. Application and critical examination of methods of historical and comparative linguistics in particular areas of structural change in Romance. Effective: 1997 Winter Quarter.

LIN 253—Speech Perception (4)

Discussion—3 hour(s); Extensive Writing. Investigation into how listeners map a continuous and variable acoustic signal to a linguistic interpretation. Phonetic context, variation, linguistic knowledge, and sociolinguistics as factors in perceiving speech. Effective: 2017 Winter Quarter.

LIN 260—Variation in Speech Communities (4)

Lecture/Discussion—3 hour(s); Term Paper. Prerequisite(s): LIN 281; or Consent of Instructor. Linguistic variability in time, space, and society. Theoretical issues related to social and linguistic constraints in variation; issues and methods in the quantitative analysis of variation. Speech community, quantitative analytic methods, and the scope of sociolinguistic competence. Effective: 2005 Spring Quarter.

LIN 263—Discourse Analysis: Text in Context (4)

Lecture/Discussion—3 hour(s); Term Paper. Prerequisite(s): Graduate standing. Introduction to and application of leading theoretical approaches to the analysis of discourse. Approaches to the analysis of (spoken and written) text in context, tools for analyzing different types of texts (narration, conversation, etc.). Theme/rheme, given/new, anaphora, discourse markers, and other lexical/grammatical features. Effective: 2005 Spring Quarter.

LIN 264—Current Issues in Language & Gender (4)

Seminar—3 hour(s); Term Paper; Project (Term Project). Prerequisite(s): Graduate standing; prior coursework in Linguistics, Gender Studies, or Cultural Studies is desirable; no expectation of bilingual proficiency. Exploration of the construction and performance of gender through language in cross-cultural perspective and in a variety of contexts: informal conversations, narratives, workplaces, schools, households, the mass media. Special topics may include: language acquisition; multilingualism; ecofeminism; queer theory. May be repeated up to 1 time(s) when topic differs. Effective: 2005 Fall Quarter.

LIN 265—Language, Performance, & Power (4)

Seminar—3 hour(s); Term Paper. Restricted to graduate standing or consent of instructor. Exploration of the intersection between linguistic and social theories in the language-state relation and the performance of identity. Ideological sources of language differentiation; nation-building and linguistic difference. Political economic, sociolinguistic, and ethnographic approaches to understanding linguistic inequality. (Same course as ANT 265.) Effective: 2003 Fall Quarter.

LIN 275—Neurobiology of Language (4)

Lecture/Discussion—3 hour(s); Term Paper. Survey of historical and modern conceptions of the neurobiology of language. Aphasia, functional neuroimaging, functional neuroanatomy of human language. Effective: 2011 Fall Quarter.

LIN 280—Theories of Second Language Acquisition (4)

Lecture/Discussion—3 hour(s); Term Paper. Prerequisite(s): Graduate standing or consent of instructor. Covers theoretical perspectives that direct or have directed research in second language acquisition; explores the relationship between linguistics and language teaching and deals with the individual variables that influence second language learning. Effective: 1998 Fall Quarter.

LIN 281—Research Methods in TESOL/SLD (4)

Lecture—3 hour(s); Term Paper—1 hour(s). Prerequisite(s): LIN 280. Students will study a variety of research methods in second language research; evaluate research designs and methods of analyses, formulate research questions and hypotheses and design a study of their own, think about various kinds of data they can collect. Effective: 2000 Winter Quarter.

LIN 282—Individual & Social Aspects of Bilingualism (4)

Lecture—3 hour(s); Term Paper. Broad overview of bi-and multilingualism, with focus on theoretical and descriptive research; topics covered range from language processing in bilinguals to code-switching to language as political issue in multilingual states. Effective: 1997 Winter Quarter.

LIN 283—Politics of Bi & Multilingual Literacies (4)

Lecture/Discussion—3 hour(s); Term Paper. Anthropological, psycho-social, political, and educational perspectives on bi- and multi-lingualism. Power, colonialism, "native/non-native" speakers, and varieties and the unequal distribution of social goods. Analysis of how competing factors keep peoples disenfranchised. Effective: 2005 Spring Quarter.

LIN 289—Pedagogical Applications of Second Language Acquisition Theory (4)

Seminar—3 hour(s); Term Paper. Prerequisite(s): LIN 280. Pedagogical implications of various theories of second language acquisition, facilitation of language acquisition in classroom settings, and techniques for conducting classroom-based research in language learning. Effective: 1999 Winter Quarter.

LIN 297T—English as a Second Language Teaching/Tutoring (1-4)

Tutorial—1-4 hour(s). Prerequisite(s): LIN 300 or LIN 301 or LIN 302 (can be concurrent); and Consent of Instructor. Teaching classes for ESL graduate students. Aiding the ESL undergraduate composition classes; tutoring foreign graduate student Teaching Assistants in pronunciation. Does not fulfill requirement toward the M.A. degree. May be repeated for credit. (S/U grading only.) Effective: 1997 Winter Quarter.

LIN 298—Directed Group Study (1-5)

Variable. Prerequisite(s): Consent of Instructor. Graduate standing. (S/U grading only.) Effective: 1997 Winter Quarter.

LIN 299—Research (1-12)

Variable. (S/U grading only.) Effective: 1997 Winter Quarter.

LIN 300—Language Pedagogy (4)

Lecture/Discussion—4 hour(s). Prerequisite(s): Graduate standing in Linguistics or consent of instructor; concurrent enrollment in LIN 297T recommended. Methods of teaching second languages to nonnative speakers, stressing particularly recent linguistic methodology and techniques, as related to teaching and tutoring in the UC Davis ESL program. Effective: 2013 Fall Quarter.

LIN 301—Teaching Academic Literacy (4)

Seminar—3 hour(s); Tutorial—14 hour(s); Project (Term Project); Practice. Prerequisite(s): LIN 300; or Consent of Instructor. Graduate standing. Methods of teaching advanced academic literacy in a second language, with a focus on ESL composition. Lesson development, teaching and tutoring in the UC Davis ESL program. Effective: 2007 Fall Quarter.

LIN 302—Recent Research & Special Projects in TESOL (4)

Lecture—4 hour(s). Prerequisite(s): LIN 300; LIN 301. Review of recent research in second language acquisition and the teaching of English to speakers of other languages. Continued teaching and tutoring in the UC Davis ESL clinic. Each student designs and reports on a classroom research project. Effective: 1997 Winter Quarter.

LIN 305—Second Language Literacy & Technology (4)

Lecture/Discussion—1.5 hour(s); Web Electronic Discussion—1.5 hour(s). Prerequisite(s): LIN 002 or equivalent coursework/experience in second language pedagogy; consent of instructor; graduate students only. Limited enrollment. Exploration of literacy theory and critical pedagogy in relation to new instructional and communication technologies. Practicum experience in teaching second language literacy; reflection on connections between theory and practice. Fieldwork requirement. Effective: 2007 Fall Quarter.

LIN 310—Language Pedagogy for Teacher Educators (4)

Seminar—3 hour(s); Tutorial; Project (Term Project); Fieldwork. Prerequisite(s): Admission to Ph.D. program in Linguistics or Foreign Languages, or permission of instructor; significant language teaching experience. Current issues in second language pedagogy, with a focus on communicative methodology, participatory curriculum design, academic literacy, and the social contexts of teaching. Emphasis on reflective teaching and action research. Mentoring of new language teachers. May be repeated up to 12 unit(s). Effective: 2007 Fall Quarter.

LIN 396—Teaching Assistant Training Practicum (1-4)

Variable. Prerequisite(s): Graduate standing. May be repeated for credit. (P/NP grading only.) Effective: 1997 Winter Quarter.

LTS—Letters & Science

Courses in LTS:

LTS 001—First Year Engagement: Student Success in Letters & Science (1)

Discussion/Laboratory—1 hour(s). Open only to students who have completed fewer than 45 quarter units. Introduction to university life. Topics include transition to academic and campus life; academic expectations and the skills to meet them; campus resources; social and professional development; assistance in choice of major, and academic planning. (P/NP grading only.) Effective: 2019 Winter Quarter.

LTS 002—Aggie Explorers: Major Exploration (1)

Lecture/Discussion—1 hour(s). Overview of majors offered in College of Letters & Science. Exploration of majors through self-assessments and other tools. Guest lecturers include faculty and academic advisors from across Letters and Science. Receive personalized academic planning to help guide student's undergraduate path. Designed for students who have not yet declared a major or are exploring their options. (P/NP grading only.) Effective: 2020 Spring Quarter.

LTS 098—Directed Group Study (1-4)

Variable—1-4 hour(s). Prerequisite(s): Consent of Instructor. Directed group study. May be repeated for credit. (P/NP grading only.) Effective: 2017 Winter Quarter.

LTS 101—First Year Transfer Engagement: Student Success in Letters & Science (1)

Lecture/Discussion—1 hour(s). Open to new transfer students. Integration of transfer students into university life. Comprehensive foundation for a successful career at UC Davis. Transition from community college to the university, quarter vs. semester systems, academic expectations of faculty and developing skills to meet them, overview of campus resources, evaluating and applying information, social and professional development, and academic planning. (P/NP grading only.) Effective: 2020 Spring Quarter.

LTS 198—Directed Group Study (1-4)

Variable—1-4 hour(s). Prerequisite(s): Consent of Instructor. Directed group study. May be repeated for credit. (P/NP grading only.) Effective: 2017 Winter Quarter.

MAE—Engineering Mechanical & Aeronautical

Courses in MAE:**MAE 207—Engineering Experimentation & Uncertainty Analysis (4)**

Lecture—3 hour(s); Discussion—1 hour(s). Prerequisite(s): EME 107A; EME 107B. Design and analysis of engineering experiments with emphasis on measurement standards, data analysis, regressions and general and detailed uncertainty analysis, including statistical treatment of experimental data intervals, propagation of bias and precision errors, correlated bias approximations, and using jitter programs. Effective: 2006 Winter Quarter.

MAE 210A—Advanced Fluid Mechanics & Heat Transfer (4)

Lecture—3 hour(s); Discussion—1 hour(s). Prerequisite(s): ENG 103; ENG 105; EME 165. Development of differential equations governing continuity, momentum and energy transfer. Solutions in laminar flow for exact cases, low and high Reynolds numbers and lubrication theory. Dynamics of inviscid flow. Effective: 1999 Fall Quarter.

MAE 210B—Advanced Fluid Mechanics & Heat Transfer (4)

Lecture—3 hour(s); Discussion—1 hour(s). Prerequisite(s): MAE 210A. Study of stability and transition to turbulence. Introduction to the physics of turbulence. Modeling of turbulence for numerical determination of momentum and heat transfer. Effective: 1997 Winter Quarter.

MAE 211—Fluid Flow & Heat Transfer (4)

Lecture—3 hour(s); Discussion—1 hour(s). Prerequisite(s): ENG 103; ENG 105; EME 165; Or equivalent. Design aspects of selected topics such as: heat conduction, fins; heat transport in ducts, boundary layers and separated flows; heat exchangers. Effective: 2000 Winter Quarter.

MAE 212—Biomedical Heat & Mass Transport Processes (4)

Lecture—3 hour(s); Discussion—1 hour(s). Prerequisite(s): EME 165; EBS 125; ECH 153; Or the equivalent. Application of principles of heat and mass transfer to biomedical systems related to heat exchange between the biomedical system and its environment, mass transfer across cell membranes and the design and analysis of artificial human organs. (Same course as BIM 212.) Effective: 2000 Winter Quarter.

MAE 213—Advanced Turbulence Modeling (4) *Review all entries*

Lecture—4 hour(s). Prerequisite(s): MAE 210B. Methods of analyzing turbulence; kinematics and dynamics of homogeneous turbulence; Reynolds stress and heat-flux equations; second order closures and their simplification; numerical methods; application to boundary layer-type flows; two-dimensional and three-dimensional hydraulic and environmental flows. Effective: 1997 Winter Quarter.

MAE 213—Advanced Turbulence Modeling (4) *Review all entries Discontinued*

Lecture—4 hour(s). Prerequisite(s): MAE 210B. Methods of analyzing turbulence; kinematics and dynamics of homogeneous turbulence; Reynolds stress and heat-flux equations; second order closures and their simplification; numerical methods; application to boundary layer-type flows; two-dimensional and three-dimensional hydraulic and environmental flows. Effective: 2020 Fall Quarter.

MAE 216—Advanced Thermodynamics (4)

Lecture—3 hour(s); Discussion—1 hour(s). Prerequisite(s): ENG 105. Study of topics important to energy conversion systems, propulsion and other systems using high temperature gases. Classical thermodynamics and quantum statistical mechanics of nonreacting and chemically reacting gases, gas mixtures, and other substances. Effective: 1999 Fall Quarter.

MAE 217—Combustion (4)

Lecture—3 hour(s); Lecture/Discussion—1 hour(s). Prerequisite(s): ENG 103; ENG 105; EME 106. Restricted to graduate students. Review of chemical thermodynamics and chemical kinetics. Discussion of reacting flows, their governing equations and transport phenomena; detonations; laminar flame structure and turbulent combustion. Effective: 2014 Spring Quarter.

MAE 218—Advanced Energy Systems (4)

Lecture—3 hour(s); Discussion—1 hour(s). Prerequisite(s): ENG 103; ENG 105; Or the equivalent. Review of options available for advanced power generation. Detailed study of basic power balances, component efficiencies, and overall powerplant performance for one advanced concept such as a fusion, magnetohydrodynamic, or solar electric powerplant. Effective: 1999 Fall Quarter.

MAE 219—Introduction to Scientific Computing in Solid & Fluid Dynamics (4)

Lecture—3 hour(s); Laboratory—3 hour(s). Prerequisite(s): ENG 103; ENG 104. Scientific calculations with finite element and finite difference methods for multi-dimensional problems in solid and fluid dynamics are performed with examples in C, C++, FORTRAN, and MATLAB script files. Derivation of the basic equations of motion in finite volume form with applications to elasticity, waves. Effective: 2000 Spring Quarter.

MAE 220—Mechanical Vibrations (4)

Lecture—4 hour(s). Prerequisite(s): ENG 122. Multiple degrees of freedom; damping measures; Rayleigh's method; vibration absorbers; eigenvalues and modeshapes; modal coordinates; forced vibrations; random processes and vibrations; autocorrelation; spectral density; first passage and fatigue failure; nonlinear systems; phase plane. Effective: 2000 Winter Quarter.

MAE 222—Advanced Dynamics (4)

Lecture—4 hour(s). Prerequisite(s): ENG 102. Dynamics of particles, rigid bodies and distributed systems with engineering applications; generalized coordinates; Hamilton's principle; Lagrange's equations; Hamilton-Jacobi theory; modal dynamics orthogonality; wave dynamics; dispersion. Effective: 1999 Fall Quarter.

MAE 223—Multibody Dynamics (4)

Lecture—4 hour(s). Prerequisite(s): ENG 102. Coupled rigid-body kinematics/dynamics; reference frames; vector differentiation; configuration and motion constraints; holonomicity; generalized speeds; partial velocities; mass; inertia tensor/theorems; angular momentum; generalized forces; comparing Newton/Euler, Lagrange's, Kane's methods; computer-aided equation derivation; orientation; Euler; Rodrigues parameters. (Same course as BIM 223.) Effective: 2000 Winter Quarter.

MAE 225—Spatial Kinematics & Robotics (4)

Lecture—3 hour(s); Laboratory—3 hour(s). Prerequisite(s): MAE 222; C Language. Spatial kinematics, screw theory, spatial mechanisms analysis and synthesis, robot kinematics and dynamics, robot workspace, path planning, robot programming, real-time architecture and software implementation. (Same course as BIM 225.) Effective: 2000 Winter Quarter.

MAE 226—Acoustics & Noise Control (4)

Lecture—4 hour(s). Prerequisite(s): ENG 122. Description of sound using normal modes and waves; interaction between vibrating solids and sound fields; sound absorption in enclosed spaces; sound transmission through barriers; applications in design, acoustic enclosures and sound walls, room acoustics, design of quiet machinery. Effective: 2001 Spring Quarter.

MAE 228—Introduction to BioMEMS (4)

Lecture—3 hour(s); Discussion—1 hour(s). Prerequisite(s): B.S. engineering discipline or consent of instructor. Ideal for beginning graduate or advanced undergraduate students interested in microelectromechanical systems (MEMS) topics related to biological applications. Covers topics from various disciplines related to BioMEMS: mechanical, electrical, biomedical, chemical engineering, and materials science. Effective: 2014 Winter Quarter.

MAE 229—Design & Analysis of Micro-Electromechanical Systems (4)

Lecture—4 hour(s). Prerequisite(s): (ENG 045 or ENG 045Y); ENG 100; ENG 104; and Consent of Instructor. ENG 122 recommended. Mechanical design of micro-electronmechanical systems (MEMS). Device modeling: lumped parameter models; energy methods; nonlinearities; electrical and mechanical noise sources. Actuation and measurement methods: capacitive, piezoresistive, thermal, piezoelectric, and optical techniques. Review of basic electronics: bridge circuits, amplitude modulation; lock-in detection. Effective: 2018 Spring Quarter.

MAE 232—Skeletal Tissue Mechanics (3)

Lecture—3 hour(s); Laboratory—1 hour(s). Prerequisite(s): ENG 104B. Overview of the mechanical properties of the various tissues in the musculoskeletal system, the relationship of these properties to anatomic and histologic structure, and the changes in these properties caused by aging and disease. Tissues covered include bone, cartilage and synovial fluid, ligament and tendon. (Same course as BIM 232.) Effective: 1997 Winter Quarter.

MAE 234—Design & Dynamics of Road Vehicles (4)

Lecture—4 hour(s). Prerequisite(s): EME 134. Analysis and numerical simulation of road vehicles with on design applications. Effective: 2000 Spring Quarter.

MAE 237—Analysis & Design of Composite Structures (4)

Lecture—3 hour(s); Discussion—1 hour(s). Prerequisite(s): ENG 104; Or equivalent. Modeling and analysis methodology for composite structures including response and failure. Laminated plate bending theory. Introduction to failure processes. Includes discussion of aerospace structural analysis. Effective: 2014 Winter Quarter.

MAE 238—Advanced Aerodynamic Design & Optimization (4)

Lecture—3 hour(s); Discussion—1 hour(s). Prerequisite(s): Consent of Instructor. Application of aerodynamic theory to obtain optimum aerodynamic shapes. Both analytic solutions and solutions obtained with numerical optimization techniques will be examined. Includes introduction to the calculus of variations and numerical optimization techniques. Effective: 1997 Winter Quarter.

MAE 239—Advanced Finite Elements & Optimization (4)

Lecture—4 hour(s). Prerequisite(s): ENG 180 or EAD 115 or MAT 128C. Introduction to advanced finite elements and design optimization methods, with application to modeling of complex mechanical, aerospace and biomedical systems. Application of states of the art in finite elements in optimum design of components under realistic loading conditions and constraints. (Same course as BIM 239.) Effective: 2007 Fall Quarter.

MAE 240—Computational Methods in Nonlinear Mechanics (4)

Lecture—4 hour(s). Prerequisite(s): EAD 115 or MAT 128B or ENG 180. Deformation of solids and the motion of fluids treated with state-of-the-art computational methods. Numerical treatment of nonlinear dynamics; classification of coupled problems; applications of finite element methods to mechanical, aeronautical, and biological systems. (Same course as BIM 240.) Effective: 1999 Winter Quarter.

MAE 242—Stability of Thin-Walled Structures (4)

Lecture—4 hour(s). Prerequisite(s): ENG 104; Or equivalent. Static stability of thin-walled aerospace structures treated from both theoretical and practical design perspectives. Both monolithic and composite construction considered. Buckling of stiffened panels, shells and thin-walled beams, experimental methods and failure/cripping processes. Effective: 2002 Fall Quarter.

MAE 245—Micro- & Nano-Technology in Life Sciences (4)

Lecture/Discussion—4 hour(s). Prerequisite(s): Graduate standing or consent of instructor. Survey of biodevice design from engineering and biological perspectives; micro-/nano-fabrication techniques; surface science and mass transport; essential biological processes and models; proposal development skills on merging aforementioned themes. (Same course as ECH 245, EMS 245, EEC 245.) Effective: 2019 Winter Quarter.

MAE 248—Advanced Turbomachinery (4)

Lecture—3 hour(s); Discussion—1 hour(s). Prerequisite(s): ENG 103; ENG 105. Preliminary aerodynamic design of axial and radial flow compressors and turbines. Design of diffusers. Selection of turbomachine and configurations and approximations to optimum dimensions and flow angles. Introduction to through flow analysis. Rotating stall and surge, and aeromechanical considerations. Effective: 1999 Fall Quarter.

MAE 250A—Advanced Methods in Mechanical Design (4)

Lecture—4 hour(s). Prerequisite(s): EME 150A; EME 150B; Or the equivalents or consent of instructor. Applications of advanced techniques of solid mechanics to mechanical design problems. Coverage of advanced topics in stress analysis and static failure theories with emphasis in design of machine elements. Design projects emphasizing advanced analysis tools for life cycle evaluation. Effective: 1999 Fall Quarter.

MAE 250B—Advanced Methods in Mechanical Design (4)

Lecture—4 hour(s). Prerequisite(s): MAE 250A. Applications of advanced techniques of solid mechanics to mechanical design problems. Advanced topics in variational methods of mechanics with emphasis in design of machine elements. Design projects emphasizing advanced analysis tools. Effective: 1999 Fall Quarter.

MAE 250C—Mechanical Performance of Materials (4)

Lecture—4 hour(s). Prerequisite(s): Undergraduate course in stress analysis and mechanical behavior of materials. Occurrence, mechanisms, and prediction of fatigue and fracture phenomenon. Use of stress and strain to predict crack initiation. Use of fracture mechanics to predict failure and crack propagation. Effects of stress concentration, manufacturing, load sequence, irregular loading, and multi-axial loading. Effective: 2000 Spring Quarter.

MAE 251—Mechatronics System Design (4) *Review all entries*

Lecture—3 hour(s); Discussion—1 hour(s). Prerequisite(s): (EME 154, EME 172) or (EEC 157A, EEC 157B). Motion mechanism design, electric actuator, power electronics motion control, sensor technologies, personal computer-based control systems design, motion control general operating system and real time operating systems, motion control software design, discrete event control software design. Effective: 2002 Fall Quarter.

MAE 251—Mechatronics System Design (4) *Review all entries Discontinued*

Lecture—3 hour(s); Discussion—1 hour(s). Prerequisite(s): (EME 154, EME 172) or (EEC 157A, EEC 157B). Motion mechanism design, electric actuator, power electronics motion control, sensor technologies, personal computer-based control systems design, motion control general operating system and real time operating systems, motion control software design, discrete event control software design. Effective: 2020 Fall Quarter.

MAE 252—Information Processing for Autonomous Robotics (4)

Lecture—3 hour(s); Discussion—1 hour(s). Prerequisite(s): EME 154; EME 171; ENG 006; EME 005; or equivalent programming experience to ENG 006 & EME 005; MAE 154, MAE 171, or consent of instructor. Computational principles for sensing, reasoning, and navigation for autonomous robots. Effective: 2005 Winter Quarter.

MAE 253—Network Theory & Applications (4)

Lecture/Discussion—4 hour(s). Prerequisite(s): MAT 022A; MAT 022B; (STA 013 or STA 013Y or STA 120); Experience with computer software, or consent of instructor. Develops the mathematical theory underlying growth, structure and function of networks with applications to physical, social, biological and engineered systems. Topics include network growth, resilience, epidemiology, phase transitions, software and algorithms, routing and search control, cascading failures. (Same course as ECS 253.) Effective: 2018 Fall Quarter.

MAE 254—Engineering Software Design (4)

Lecture—3 hour(s); Laboratory—3 hour(s). Prerequisite(s): EME 005; ENG 180. Principle and design of engineering software. Advanced topics in engineering software design, applications of object-oriented programming, very high-level languages, real-time multi-thread computing and sensor fusion, Web-based network computing, graphics, and GUI in engineering. Effective: 2004 Spring Quarter.

MAE 255—Computer Aided Design & Manufacturing (4)

Lecture—3 hour(s); Laboratory—3 hour(s). Prerequisite(s): Proficiency in a high level programming language such as Fortran, Pascal or C. Representation and processing of geometrical information in design and manufacturing. Numeric and symbolic computations. Coordinate systems and transformations. Bezier and B-spline curves and surfaces. Interpolation and approximation methods. Intersections, offsets, and blends. Path planning for machining, inspection, and robotics applications. Effective: 2005 Spring Quarter.

MAE 256—Sustainable Manufacturing & Design (4)

Lecture/Discussion—4 hour(s). Open to graduate students; undergraduate students allowed only with consent of instructor. Definitions, methods, and dimensions of sustainability in manufacturing and product design. Emphasis on resource efficiency and life cycle engineering in the context of the production environment. Effective: 2018 Spring Quarter.

MAE 258—Hybrid Electric Vehicle System Theory & Design (4)

Lecture—3 hour(s); Laboratory—3 hour(s). Prerequisite(s): EME 150B; Graduate standing in Mechanical and Aeronautical Engineering. Advanced vehicle design for fuel economy, performance, and low emissions, considering regulations, societal demands and manufacturability. Analysis and verification of computer design and control of vehicle systems in real vehicle tests. Advanced engine concepts. Effective: 2000 Spring Quarter.

MAE 262—Advanced Aerodynamics (4)

Lecture—3 hour(s); Discussion—1 hour(s). Prerequisite(s): EAE 126. Study of invicid and viscous flows about aerodynamic shapes at subsonic, transonic and supersonic conditions. Application of aerodynamic theory to design for reduced drag and increased lift. Effective: 2000 Winter Quarter.

MAE 263—Introduction to Computational Aerodynamics & Fluid Dynamics (4)

Lecture—3 hour(s); Discussion—1 hour(s). Prerequisite(s): ENG 103; or Consent of Instructor. Introduction to numerical methods for solution of fluid flow problems. Discretization techniques and solution algorithms. Finite difference solutions to classical model equations pertinent to wave phenomena, diffusion phenomena, or equilibrium. Application to the incompressible Navier-Stokes equation. Effective: 1999 Fall Quarter.

MAE 267—Parallel Computations in Fluid/Thermal Sciences (4) *Review all entries*

Lecture—2 hour(s); Discussion—2 hour(s). Prerequisite(s): EME 106; EME 165; ENG 180; or Consent of Instructor. Or equivalent to ENG 180. Graduate or junior/senior undergraduate as a technical elective. Programming languages and constructs for engineering analysis on parallel computers including MPI (distributed), OpenMP (shared), and Fortran95. Effective: 2007 Fall Quarter.

**MAE 267—Parallel Computations in Fluid/Thermal Sciences (4) *Review all entries*
*Discontinued***

Lecture—2 hour(s); Discussion—2 hour(s). Prerequisite(s): EME 106; EME 165; ENG 180; or Consent of Instructor. Or equivalent to ENG 180. Graduate or junior/senior undergraduate as a technical elective. Programming languages and constructs for engineering analysis on parallel computers including MPI (distributed), OpenMP (shared), and Fortran95. Effective: 2020 Fall Quarter.

MAE 268—Wind Power Engineering (4) *Review all entries Discontinued*

Lecture—3 hour(s); Discussion—1 hour(s). Prerequisite(s): ENG 102; ENG 103; or Consent of Instructor. Or equivalent courses. Fundamentals for understanding the conversion of wind power to mechanical power and electricity. Related engineering, economic and societal issues. Effective: 2020 Fall Quarter.

MAE 268—Wind Power Engineering (4) *Review all entries*

Lecture—3 hour(s); Discussion—1 hour(s). Prerequisite(s): ENG 102; ENG 103; or Consent of Instructor. Or equivalent courses. Fundamentals for understanding the conversion of wind power to mechanical power and electricity. Related engineering, economic and societal issues. Effective: 2006 Fall Quarter.

MAE 269—Fuel Cell Systems (4)

Lecture—2 hour(s); Discussion—2 hour(s). Prerequisite(s): EME 106; EME 107; EME 165; or Consent of Instructor. Or equivalent courses. Graduate or junior/senior undergraduate as a technical elective. Basics of electrochemistry and fuel cell engines in mobile and stationary applications. Aspects of fuel cell energy converters and their subsystems including practice with existing fuel cell and hydrogen systems on campus. Effective: 2006 Fall Quarter.

MAE 271—Advanced Modeling & Simulation of Mechatronic Systems (4)

Lecture—3 hour(s); Laboratory—3 hour(s). Prerequisite(s): EME 172; or equivalent. Multiport models of mechanical, electrical, hydraulic, and thermal devices; bond graphs, block diagrams and state space equations; modeling of multiple energy domain systems; three-dimensional mechanics; digital simulation laboratory. Effective: 2005 Winter Quarter.

MAE 272—Theory & Design of Control Systems (4)

Lecture—4 hour(s). Prerequisite(s): EME 172; or the equivalent. Mathematical representations of linear dynamical systems. Feedback principles; benefits and cost of feedback. Analysis and design of control systems based on classical and modern approaches, with emphasis on applications to mechanical and aeronautical systems. Effective: 2000 Winter Quarter.

MAE 273A—Single Input Single Output (SISO) Optimal Robust Control (4)

Lecture—4 hour(s). Prerequisite(s): EME 172; MAE 272; or Consent of Instructor. EEC 250 recommended. Open to Graduate Students. Analysis and design of SISO (Single Input Single Output) feedback control systems utilizing Youla Parameterization technique. Optimal control concepts (controllability, observability, Linear Quadratic Regulator) and an introduction to Kalman filtering and robust optimal control theory for designing H₂/LQG and H_{inf} controllers. Effective: 2018 Fall Quarter.

MAE 273B—Multiple Input Multiple Output (MIMO) Optimal Robust Control (4)

Lecture—4 hour(s). Prerequisite(s): MAE 272; MAE 273A; or Consent of Instructor. Open to Graduate Students. Analysis and design of MIMO (Multiple Input Multiple Output) feedback control systems utilizing Youla Parameterization technique. Uncertainty modeling and MIMO feedback control system design using loop shaping with H_{inf}/H₂ system norm optimization techniques. Effective: 2018 Fall Quarter.

MAE 274—Analysis & Design of Digital Control Systems (4) *Review all entries Discontinued*

Lecture—3 hour(s); Discussion—1 hour(s). Prerequisite(s): EME 172. Discrete systems analysis; digital filtering; sample data systems; state space and transform design techniques; quantization effects; multi-input, multi-output systems. Effective: 2020 Fall Quarter.

MAE 274—Analysis & Design of Digital Control Systems (4) *Review all entries*

Lecture—3 hour(s); Discussion—1 hour(s). Prerequisite(s): EME 172. Discrete systems analysis; digital filtering; sample data systems; state space and transform design techniques; quantization effects; multi-input, multi-output systems. Effective: 2000 Spring Quarter.

MAE 275—Guidance & Control of Unmanned Aerial Systems (4)

Lecture—4 hour(s). Prerequisite(s): ENG 102; EME 172; or Consent of Instructor. Familiarity with simulation tools, such as Matlab/Simulink, expected. Open to Graduate Students. Introduction to Unmanned Aerial Systems (UAS). Challenges in guiding and controlling limited-payload small and miniature aircraft systems. Coordinate frames, kinematics and dynamics, linear design models, autopilot design, sensor models, state estimation, design model for guidance, straight-line and orbit following, and path planning. Effective: 2019 Winter Quarter.

MAE 276—Data Acquisition & Analysis (4)

Lecture—3 hour(s); Discussion—1 hour(s). Application of computers for data acquisition and control. Topics include computer architecture, characteristics of transducers, hardware for laboratory applications of computers, fundamentals of interfaces between computers and experimental equipment, programming techniques for data acquisition and control, basic data analysis. Effective: 1999 Fall Quarter.

MAE 290C—Graduate Research Conference (1)

Discussion—1 hour(s). Prerequisite(s): Consent of Instructor. Individual and/or group conference on problems, progress, and techniques in mechanical and aeronautical engineering research. May be repeated for credit. (S/U grading only.) Effective: 1999 Fall Quarter.

MAE 297—SEMINAR (1)

Discussion—1 hour(s). Prerequisite(s): Consent of Instructor. Current topics in engineering including developments in mechanical and aeronautical engineering with presentations by students, faculty, and visitors. May be repeated for credit. (S/U grading only.) Effective: 2000 Fall Quarter.

MAE 298—Group Study (1-5)

Variable. Effective: 1997 Winter Quarter.

MAE 299—Research (1-12)

Variable. Prerequisite(s): Consent of Instructor. (S/U grading only.) Effective: 1997 Winter Quarter.

MAE 390—Teaching of Aeronautical Science & Engineering (1)

Discussion—1 hour(s). Prerequisite(s): Meet qualifications for teaching assistant and/or associate-in in Aeronautical Science and Engineering. Methods of leading discussion groups or laboratory sections, writing and grading quizzes, use of laboratory equipment, and grading laboratory reports. May be repeated for credit. (S/U grading only.) Effective: 1997 Winter Quarter.

MAE 396—Teaching Assistant Training Practicum (1-4)

Variable. Prerequisite(s): Graduate standing. May be repeated for credit. (P/NP grading only.) Effective: 1997 Winter Quarter.

MAT—Mathematics

Courses in MAT:

Note: MAT 016A, 016B, and 016C are intended for students who will take no more MAT courses. MAT 017A, 017B, and 017C have the same level of rigor as 016A, 016B, and 016C, yet are much more broad mathematically (containing algebra, differential equations and probability, besides traditional calculus), and are intended for biology.

MAT 000B—Elementary Algebra (no credit) (0)

Lecture—3 hour(s). Not open to concurrent student enrollment. Basic concepts of algebra, including polynomials, factoring, equations, graphs, and inequalities. Offered only if sufficient number of students enroll. (P/NP grading only.) Effective: 1997 Winter Quarter.

MAT 000C—Trigonometry (no credit) (0)

Lecture—2 hour(s). Not open to concurrent student enrollment. Basic concepts of trigonometry, including trigonometric functions, identities, inverse functions, and applications. Offered only if sufficient number of students enroll. (P/NP grading only.) Effective: 1997 Winter Quarter.

MAT 000D—Intermediate Algebra (no credit) (0)

Lecture—3 hour(s). Not open to concurrent student enrollment. Basic concepts of algebra, prepares student for college work in mathematics, such as MAT 016A or MAT 021A. Functions, equations, graphs, logarithms, and systems of equations. Offered only if sufficient number of students enroll. (P/NP grading only.) Effective: 1997 Winter Quarter.

MAT 012—Precalculus (3)

Lecture—3 hour(s). Prerequisite(s): Two years of high school algebra, plane geometry, plane trigonometry; and obtaining required score on the Precalculus Diagnostic Examination. Topics selected for their use in calculus, including functions and their graphs, slope, zeroes of polynomials, exponential, logarithmic and trigonometric functions, sketching surfaces and solids. Not open for credit to students who have completed any of MAT 016A, MAT 016B, MAT 016C, MAT 017A, MAT 017B, MAT 017C, MAT 021A, MAT 021B, or MAT 021C with a C- or better. GE credit: QL, SE, SL. Effective: 2012 Winter Quarter.

MAT 016A—Short Calculus (3)

Lecture—3 hour(s). Prerequisite(s): Two years of high school algebra, plane geometry, plane trigonometry, and satisfying the Mathematics Placement Requirement. Limits; differentiation of algebraic functions; analytic geometry; applications, in particular to maxima and minima problems. Not open for credit to students who have completed MAT 017B, MAT 017C, MAT 021A, MAT 021B, or MAT 021C; only 2 units of credit to students who have completed MAT 017A. GE credit: QL, SE, SL. Effective: 2012 Winter Quarter.

MAT 016B—Short Calculus (3)

Lecture—3 hour(s). Prerequisite(s): MAT 016A C- or better or MAT 017A C- or better or MAT 021A C- or better or MAT 021AH C- or better. Integration; calculus for trigonometric, exponential, and logarithmic functions; applications. Not open for credit to students who have completed MAT 017C, MAT 021B, or MAT 021C; only 2 units of credit to students who have completed MAT 017B. GE credit: QL, SE, SL. Effective: 2017 Winter Quarter.

MAT 016C—Short Calculus (3)

Lecture—3 hour(s). Prerequisite(s): MAT 016B C- or better or MAT 017B C- or better or MAT 021B C- or better or MAT 021BH C- or better. Differential equations; partial derivatives; double integrals; applications; series. Not open for credit to students who have completed MAT 021C; only 2 units of credit to students who have completed MAT 017C. GE credit: QL, SE, SL. Effective: 2017 Winter Quarter.

MAT 017A—Calculus for Biology & Medicine (4)

Lecture—3 hour(s); Discussion—1 hour(s). Prerequisite(s): Two years of high school algebra, plane geometry, plane trigonometry, and analytical geometry, and satisfying the Mathematics Placement Requirement. Introduction to differential calculus via applications in biology and medicine. Limits, derivatives of polynomials, trigonometric, and exponential functions, graphing, applications of the derivative to biology and medicine. Not open for credit to students who have completed MAT 016B, MAT 016C, MAT 021A, MAT 021B, or MAT 021C; only 2 units of credit to students who have completed MAT 016A. GE credit: QL, SE, SL. Effective: 2014 Fall Quarter.

MAT 017B—Calculus for Biology & Medicine (4)

Lecture—3 hour(s); Discussion—1 hour(s). Prerequisite(s): MAT 016A C- or better or MAT 017A C- or better or MAT 021A C- or better or MAT 021AH C- or better. Introduction to integral calculus and elementary differential equations via applications to biology and medicine. Fundamental theorem of calculus, techniques of integration including integral tables and numerical methods, improper integrals, elementary first order differential equations, applications in biology and medicine. Not open for credit to students who have completed MAT 016C, MAT 021B, or MAT 021C; only 2 units of credit for students who have completed MAT 016B. GE credit: QL, SE, SL. Effective: 2017 Winter Quarter.

MAT 017C—Calculus for Biology & Medicine (4)

Lecture—3 hour(s); Discussion—1 hour(s). Prerequisite(s): MAT 017B C- or better. Matrix algebra, functions of several variables, partial derivatives, systems of differential equations, and applications to biology and medicine. Not open for credit to students who have completed MAT 021C; only 2 units of credit to students who have completed MAT 016C. GE credit: SE, SL. Effective: 2016 Fall Quarter.

MAT 021A—Calculus (4)

Lecture—3 hour(s); Discussion—1 hour(s). Prerequisite(s): Two years of high school algebra, plane geometry, plane trigonometry, and analytical geometry, and satisfying the Mathematics Placement Requirement. Functions, limits, continuity. Slope and derivative. Differentiation of algebraic and transcendental functions. Applications to motion, natural growth, graphing, extrema of a function. Differentials. L'Hopital's rule. Not open for credit to students who have completed MAT 016B, MAT 016C, MAT 017B, or MAT 017C; only 2 units of credit to students who have completed MAT 016A or MAT 017A. GE credit: QL, SE, SL. Effective: 2012 Winter Quarter.

MAT 021AH—Honors Calculus (4)

Lecture/Discussion—4 hour(s). Prerequisite(s): A Precalculus Diagnostic Examination score significantly higher than the minimum for MAT 021A is required. More intensive treatment of material covered in MAT 021A. GE credit: QL, SE. Effective: 1997 Winter Quarter.

MAT 021AL—Emerging Scholars Program Calculus Workshop (2)

Workshop—6 hour(s). Prerequisite(s): MAT 021A (can be concurrent); MAT 021A required concurrently. Functions, limits, continuity. Slope and derivative. Same course content as MAT 021A. Enrollment for students in the Emerging Scholars Program by instructor's invitation only. (P/NP grading only.) GE credit: SE. Effective: 2006 Fall Quarter.

MAT 021B—Calculus (4)

Lecture—3 hour(s); Discussion—1 hour(s). Prerequisite(s): (MAT 021A C- or better or MAT 021AH C- or better) or MAT 017A B or better. Continuation of MAT 021A. Definition of definite integral, fundamental theorem of calculus, techniques of integration. Application to area, volume, arc length, average of a function, improper integral, surface of revolution. Only 2 units of credit to students who have completed MAT 016B, MAT 016C, MAT 017B, or MAT 017C. GE credit: QL, SE. Effective: 2017 Winter Quarter.

MAT 021BH—Honors Calculus (4)

Lecture/Discussion—4 hour(s). Prerequisite(s): MAT 021A B or better or MAT 021AH B or better. More intensive treatment of material covered in MAT 021B. Students completing MAT 021BH can continue with MAT 021CH or the regular MAT 021C. GE credit: SE. Effective: 1997 Winter Quarter.

MAT 021BL—Emerging Scholars Program Calculus Workshop (2)

Workshop—6 hour(s). Prerequisite(s): MAT 021B (can be concurrent); Concurrent enrollment in MAT 021B. Continuation of MAT 021A. Same course content as MAT 021B. Enrollment for students in the Emerging Scholars Program by instructor's invitation only. (P/NP grading only.) GE credit: SE. Effective: 2016 Fall Quarter.

MAT 021C—Calculus (4)

Lecture—3 hour(s); Discussion—1 hour(s). Prerequisite(s): MAT 016C C- or better or MAT 017C C- or better or MAT 021B C- or better or MAT 021BH C- or better or MAT 017B B or better. Continuation of MAT 021B. Sequences, series, tests for convergence, Taylor expansions. Vector algebra, vector calculus, scalar and vector fields. Partial derivatives, total differentials. Applications to maximum and minimum problems in two or more variables. Applications to physical systems. GE credit: QL, SE. Effective: 2017 Winter Quarter.

MAT 021CH—Honors Calculus (4)

Lecture/Discussion—4 hour(s). Prerequisite(s): MAT 021B B or better or MAT 021BH B or better. More intensive treatment of material covered in MAT 021C. GE credit: SE. Effective: 1997 Winter Quarter.

MAT 021CL—Emerging Scholars Program Calculus Workshop (2)

Workshop—6 hour(s). Prerequisite(s): MAT 021C (can be concurrent); Concurrent enrollment in MAT 021C. Continuation of MAT 021B. Same course content as MAT 021C. Enrollment for students in the Emerging Scholars Program by instructor's invitation only. (P/NP grading only.) GE credit: SE. Effective: 2016 Fall Quarter.

MAT 021D—Vector Analysis (4)

Lecture—3 hour(s); Discussion—1 hour(s). Prerequisite(s): (MAT 021C C- or better or MAT 021CH C- or better) or MAT 017C B or better. Continuation of MAT 021C. Definite integrals over plane and solid regions in various coordinate systems. Line and surface integrals. Green's theorem, Stoke's theorem, divergence theorem. GE credit: QL, SE. Effective: 2017 Winter Quarter.

MAT 021M—Accelerated Calculus (5)

Lecture/Discussion—4 hour(s); Discussion/Laboratory—1 hour(s). Prerequisite(s): Grade of B or higher in both semesters of high school calculus or a score of 4 or higher on the Advanced Placement Calculus AB exam, and obtaining the required score on the Precalculus Diagnostic Examination and its trigonometric component. Accelerated treatment of material from MAT 021A and MAT 021B, with detailed presentation of theory, definitions, and proofs, and treatment of computational aspects of calculus at a condensed but sophisticated level. Not open for credit to students who have completed MAT 021A or MAT 021B. GE credit: SE. Effective: 1997 Winter Quarter.

MAT 022A—Linear Algebra (3)

Lecture—3 hour(s). Prerequisite(s): (MAT 016C C- or better or MAT 017C C- or better or MAT 021C C- or better or MAT 021CH C- or better); (ENG 006 or EME 005 or ECH 060 or MAT 022AL (can be concurrent)). Matrices and linear transformations, determinants, eigenvalues, eigenvectors, diagonalization, factorization. Not open for credit to students who have completed MAT 067. GE credit: QL, SE. Effective: 2018 Summer Session 1.

MAT 022AL—Linear Algebra Computer Laboratory (1)

Laboratory—3 hour(s). Prerequisite(s): MAT 016C or MAT 017C or MAT 021C or MAT 021CH. Introduction to MATLAB and its use in linear algebra. (P/NP grading only.) GE credit: QL, SE. Effective: 2017 Winter Quarter.

MAT 022B—Differential Equations (3)

Lecture—3 hour(s). Prerequisite(s): (MAT 022A C- or better or MAT 067 C- or better). Solutions of elementary differential equations. GE credit: QL, SE. Effective: 2016 Fall Quarter.

MAT 025—Advanced Calculus (4) *Review all entries Discontinued*

Lecture/Discussion—4 hour(s). Prerequisite(s): MAT 021C C- or better or MAT 021CH C- or better. Introduction to the rigorous treatment of abstract mathematical analysis. Proofs in mathematics, induction, sets, cardinality; real number system, theory of convergence of sequences. Not open for credit to students who have completed former MAT 127A. GE credit: SE. Effective: 2020 Fall Quarter.

MAT 025—Advanced Calculus (4) *Review all entries*

Lecture/Discussion—4 hour(s). Prerequisite(s): MAT 021C C- or better or MAT 021CH C- or better. Introduction to the rigorous treatment of abstract mathematical analysis. Proofs in mathematics, induction, sets, cardinality; real number system, theory of convergence of sequences. Not open for credit to students who have completed former MAT 127A. GE credit: SE. Effective: 2017 Spring Quarter.

MAT 027A—Linear Algebra with Applications to Biology (4)

Lecture—3 hour(s); Laboratory—2 hour(s). Prerequisite(s): MAT 017C C- or better or MAT 021C C- or better or MAT 021CH C- or better. Introduction to linear algebra with biological, medical, and bioengineering applications. Matrix algebra, vector spaces, orthogonality, determinants, eigenvalues, eigenvectors, principal component analysis, singular value decomposition, and linear transformations. Computer labs cover mathematical and computational techniques for modeling biological systems. Only 1 unit of credit for students who have completed MAT 022A. (Same course as BIS 027A.) GE credit: SE. Effective: 2019 Winter Quarter.

MAT 027B—Differential Equations with Applications to Biology (4) *Review all entries*

Lecture—3 hour(s); Laboratory—2 hour(s). Prerequisite(s): MAT 027A C- or better or (MAT 022A C- or better, (MAT 022AL C- or better or ENG 006 C- or better or EME 005 C- or better)). Solutions of differential equations with biological, medical, and bioengineering applications. First and second order linear equations, phase plane analysis, nonlinear dynamics, Laplace transforms, and the diffusion equation. Computer labs cover mathematical and numerical techniques for modeling biological systems. Only 1 unit of credit for students who have completed MAT 022B. (Same course as BIS 027B.) GE credit: SE. Effective: 2019 Spring Quarter.

MAT 027B—Differential Equations with Applications to Biology (4) *Review all entries*

Lecture—3 hour(s); Laboratory—2 hour(s). Prerequisite(s): (MAT 027A C- or better or BIS 027A C- or better) or (MAT 022A C- or better, (MAT 022AL C- or better or ENG 006 C- or better or ECS 032A C- or better or ECS 036A C- or better or ECH 060 C- or better or EME 005 C- or better)). Solutions of differential equations with biological, medical, and bioengineering applications. First and second order linear equations, phase plane analysis, nonlinear dynamics, Laplace transforms, and the diffusion equation. Computer labs cover mathematical and numerical techniques for modeling biological systems. Only 1 unit of credit for students who have completed MAT 022B. (Same course as BIS 027B.) GE credit: SE. Effective: 2020 Summer Session 1.

MAT 036—Fundamentals of Mathematics (3)

Lecture—3 hour(s). Prerequisite(s): Satisfaction of the Mathematics Placement Requirement. Introduction to fundamental mathematical ideas selected from the principal areas of modern mathematics. Properties of the primes, the fundamental theorems of arithmetic, properties of the rationals and irrationals, binary and other number systems. Not open for credit to students who have taken MAT 108. Effective: 2001 Winter Quarter.

MAT 067—Modern Linear Algebra (4)

Lecture/Discussion—4 hour(s). Prerequisite(s): MAT 021C C- or better or MAT 021CH C- or better. Rigorous treatment of linear algebra; topics include vector spaces, bases and dimensions, orthogonal projections, eigenvalues and eigenvectors, similarity transformations, singular value decomposition and positive definiteness. Only 1 unit of credit to students who have completed MAT 022A. GE credit: SE. Effective: 2017 Winter Quarter.

MAT 071A—Explorations in Elementary Mathematics (3)

Lecture—2 hour(s); Laboratory—3 hour(s). Prerequisite(s): Two years of high school mathematics. Weekly explorations of mathematical ideas related to the elementary school curriculum will be carried out by cooperative learning groups. Lectures will provide background and synthesize the results of group exploration. Effective: 1997 Winter Quarter.

MAT 071B—Explorations in Elementary Mathematics (3)

Lecture—2 hour(s); Laboratory—3 hour(s). Prerequisite(s): Two years of high school mathematics. Weekly explorations of mathematical ideas related to the elementary school curriculum will be carried out by cooperative learning groups. Lectures will provide background and synthesize the results of group exploration. Effective: 1997 Winter Quarter.

MAT 089—Elementary Problem Solving (1)

Lecture—1 hour(s). Prerequisite(s): High school mathematics through precalculus. Solve and present solutions to challenging and interesting problems in elementary mathematics. May be repeated up to 1 time(s). (P/NP grading only.) Effective: 2001 Winter Quarter.

MAT 098—Directed Group Study (1-5)

Variable. Prerequisite(s): Consent of Instructor. (P/NP grading only.) Effective: 1997 Winter Quarter.

MAT 099—Special Study for Undergraduates (1-5)

Variable. Prerequisite(s): Consent of Instructor. (P/NP grading only.) Effective: 1997 Winter Quarter.

MAT 107—Probability & Stochastic Processes with Applications to Biology (4)***Review all entries***

Lecture—3 hour(s); Laboratory—2 hour(s). Prerequisite(s): (MAT 027A C- or better or BIS 027A C- or better) or (MAT 022A C- or better, (MAT 022AL C- or better or ENG 006 C- or better or ECS 032A C- or better or ECS 036A C- or better or ECH 060 C- or better or EME 005 C- or better)). Introduction to probability theory and stochastic processes with biological, medical, and bioengineering applications. Combinatorics, discrete and continuous random variables, Bayes' formula, conditional probability, Markov chains, Poisson processes, and Brownian motion. Computer labs cover mathematical and computational modeling techniques. Only 2 units of credit for students who have completed MAT 135A or STA 131A. (Same course as BIS 107.) GE credit: SE. Effective: 2020 Summer Session 1.

MAT 107—Probability & Stochastic Processes with Applications to Biology (4)***Review all entries***

Lecture—3 hour(s); Laboratory—2 hour(s). Prerequisite(s): (MAT 027A C- or better or BIS 027A C- or better) or (MAT 022A C- or better, (MAT 022AL C- or better or ENG 006 C- or better or EME 005 C- or better)). Introduction to probability theory and stochastic processes with biological, medical, and bioengineering applications. Combinatorics, discrete and continuous random variables, Bayes' formula, conditional probability, Markov chains, Poisson processes, and Brownian motion. Computer labs cover mathematical and computational modeling techniques. Only 2 units of credit for students who have completed MAT 135A or STA 131A. (Same course as BIS 107.) GE credit: SE. Effective: 2019 Spring Quarter.

MAT 108—Introduction to Abstract Mathematics (4)

Lecture/Discussion—4 hour(s). Prerequisite(s): MAT 021B. Rigorous treatment of mathematical concepts with emphasis on developing the ability to understand abstract mathematical ideas, to read and write mathematical concepts, and to prove theorems. Designed to serve as preparation for the more rigorous upper division courses. GE credit: SE. Effective: 2008 Spring Quarter.

MAT 111—History of Mathematics (4)

Lecture—3 hour(s); Term Paper/Discussion—1 hour(s). Prerequisite(s): MAT 025 or MAT 127A or MAT 067 or MAT 108 or MAT 114 or MAT 115A or MAT 141 or MAT 145; 8 units of upper division Mathematics. History of mathematics from ancient times through the development of calculus. Mathematics from Arab, Hindu, Chinese and other cultures. Selected topics from the history of modern mathematics. GE credit: SE. Effective: 2018 Fall Quarter.

MAT 114—Convex Geometry (4)

Lecture/Discussion—4 hour(s). Prerequisite(s): MAT 021C; (MAT 022A or MAT 067). Topics selected from the theory of convex bodies, convex functions, geometric inequalities, combinatorial geometry, and integral geometry. Designed to serve as preparation for the more rigorous upper division courses. GE credit: SE. Effective: 2007 Winter Quarter.

MAT 115A—Number Theory (4)

Lecture/Discussion—4 hour(s). Prerequisite(s): MAT 021B. Divisibility and related topics, diophantine equations, selected topics from the theory of prime numbers. Designed to serve as preparation for the more rigorous upper division courses. GE credit: QL, SE. Effective: 2006 Fall Quarter.

MAT 115B—Number Theory (4)

Lecture—3 hour(s); Extensive Problem Solving. Prerequisite(s): MAT 115A; (MAT 022A or MAT 067). Euler function, Moebius function, congruences, primitive roots, quadratic reciprocity law. GE credit: QL, SE, SL. Effective: 2016 Fall Quarter.

MAT 116—Differential Geometry (4)

Lecture—3 hour(s); Extensive Problem Solving. Prerequisite(s): MAT 021D; MAT 022B; (MAT 022A or MAT 067). Vector analysis, curves, and surfaces in three dimensions. GE credit: SE. Effective: 2017 Winter Quarter.

MAT 118A—Partial Differential Equations: Elementary Methods (4)

Lecture—3 hour(s); Extensive Problem Solving. Prerequisite(s): MAT 021D; MAT 022B; (MAT 022A or MAT 067). Derivation of partial differential equations; separation of variables; equilibrium solutions and Laplace's equation; Fourier series; method of characteristics for the one dimensional wave equation. Solution of nonhomogeneous equations. GE credit: QL, SE. Effective: 2006 Fall Quarter.

MAT 118B—Partial Differential Equations: Eigenfunction Expansions (4)

Lecture—3 hour(s). Prerequisite(s): MAT 118A. Sturm-Liouville Theory; selfadjoint operators; mixed boundary conditions; partial differential equations in two and three dimensions; Eigenvalue problems in circular domains; nonhomogeneous problems and the method of eigenfunction expansions; Poisson's Equations. GE credit: QL, SE. Effective: 2000 Fall Quarter.

MAT 118C—Partial Differential Equations: Green's Functions & Transforms (4)

Lecture—3 hour(s); Extensive Problem Solving. Prerequisite(s): MAT 118B. Green's functions for one-dimensional problems and Poisson's equation; Fourier transforms; Green's Functions for time dependent problems; Laplace transform and solution of partial differential equations. GE credit: QL, SE. Effective: 2000 Fall Quarter.

MAT 119A—Ordinary Differential Equations (4)

Lecture—3 hour(s); Extensive Problem Solving. Prerequisite(s): MAT 021D; MAT 022B; (MAT 022A or MAT 067). Scalar and planar autonomous systems; nonlinear systems and linearization; existence and uniqueness of solutions; matrix solution of linear systems; phase plane analysis; stability analysis; bifurcation theory; Liapunov's method; limit cycles; Poincare Bendixon theory. GE credit: QL, SE. Effective: 2007 Winter Quarter.

MAT 119B—Ordinary Differential Equations (4)

Lecture—3 hour(s); Extensive Problem Solving. Prerequisite(s): MAT 119A. Lorentz equations; Poincare maps; center manifolds and normal forms; scalar and planar maps; phase space analysis for iterated maps; period-doubling bifurcation; Lyapunov exponent; chaos and symbolic dynamics; strange attractors; fractals. GE credit: QL, SE. Effective: 2007 Spring Quarter.

MAT 124—Mathematical Biology (4)

Lecture—3 hour(s); Project (Term Project). Prerequisite(s): MAT 022B; (MAT 022A or MAT 067). Methods of mathematical modeling of biological systems including difference equations, ordinary differential equations, stochastic and dynamic programming models. Computer simulation methods applied to biological systems. Applications to population growth, cell biology, physiology, evolutionary ecology and protein clustering. MATLAB programming required. GE credit: QL, SE. Effective: 2007 Spring Quarter.

MAT 125A—Real Analysis (4) *Review all entries*

Lecture/Discussion—4 hour(s). Prerequisite(s): MAT 025. Functions, limits of functions, continuity and uniform continuity, sequences of functions, series of real numbers, series of functions, power series. Not open for credit to students who have completed former MAT 127B. GE credit: SE. Effective: 2006 Fall Quarter.

MAT 125A—Real Analysis (4) *Review all entries Discontinued*

Lecture/Discussion—4 hour(s). Prerequisite(s): MAT 025. Functions, limits of functions, continuity and uniform continuity, sequences of functions, series of real numbers, series of functions, power series. Not open for credit to students who have completed former MAT 127B. GE credit: SE. Effective: 2020 Fall Quarter.

MAT 125B—Real Analysis (4) *Review all entries Discontinued*

Lecture—3 hour(s); Discussion—1 hour(s). Prerequisite(s): MAT 125A; (MAT 067 or (MAT 022A, MAT 108)). Theory of the derivative, Taylor series, integration, partial derivatives, Implicit Function Theorem. Not open for credit to students who have completed former MAT 127C. GE credit: SE. Effective: 2020 Fall Quarter.

MAT 125B—Real Analysis (4) *Review all entries*

Lecture—3 hour(s); Discussion—1 hour(s). Prerequisite(s): MAT 125A; (MAT 067 or (MAT 022A, MAT 108)). Theory of the derivative, Taylor series, integration, partial derivatives, Implicit Function Theorem. Not open for credit to students who have completed former MAT 127C. GE credit: SE. Effective: 2017 Winter Quarter.

MAT 127A—Real Analysis (4)

Lecture—3 hour(s); Discussion—1 hour(s). Prerequisite(s): (MAT 021C or MAT 021CH); (MAT 067 or (MAT 022A, MAT 108)). Real numbers, sequences, series, and continuous functions. Effective: 2017 Fall Quarter.

MAT 127B—Real Analysis (4)

Lecture—3 hour(s); Discussion—1 hour(s). Prerequisite(s): MAT 127A. Derivatives, integrals, sequences of functions, and power series. Effective: 2017 Fall Quarter.

MAT 127C—Real Analysis (4)

Lecture—3 hour(s); Discussion—1 hour(s). Prerequisite(s): MAT 127B. Metric spaces and multi-variable calculus. Effective: 2017 Fall Quarter.

MAT 128A—Numerical Analysis (4)

Lecture—3 hour(s); Project (Term Project). Prerequisite(s): MAT 021C; (ECS 032A or ENG 006 or EME 005 or ECS 030). Error analysis, approximation, interpolation, numerical differentiation and integration. Programming in language such as Pascal, Fortran, or BASIC required. GE credit: QL, SE. Effective: 2019 Winter Quarter.

MAT 128B—Numerical Analysis in Solution of Equations (4)

Lecture—3 hour(s); Project (Term Project). Prerequisite(s): (MAT 022A or MAT 067); (ECS 032A or ENG 006 or EME 005 or ECS 030). Solution of nonlinear equations and nonlinear systems. Minimization of functions of several variables. Simultaneous linear equations. Eigenvalue problems. Linear programming. Programming in language such as Pascal, Fortran, or BASIC required. GE credit: QL, SE. Effective: 2019 Winter Quarter.

MAT 128C—Numerical Analysis in Differential Equations (4)

Lecture—3 hour(s); Project (Term Project). Prerequisite(s): (MAT 022A or MAT 067); MAT 022B; (ECS 032A or ENG 006 or EME 005 or ECS 030). Difference equations, operators, numerical solutions of ordinary and partial differential equations. Programming in language such as Pascal, Fortran, or BASIC required. GE credit: QL, SE. Effective: 2019 Winter Quarter.

MAT 129—Fourier Analysis (4) *Review all entries*

Lecture—3 hour(s); Extensive Problem Solving. Prerequisite(s): MAT 021D; MAT 022B; (MAT 022A or MAT 067); MAT 025. Fourier series and integrals, orthogonal sets of functions. Topics selected from trigonometric approximation, orthogonal polynomials, applications to signal and image processing, numerical analysis, and differential equations. GE credit: QL, SE. Effective: 2016 Fall Quarter.

MAT 129—Fourier Analysis (4) *Review all entries*

Lecture—3 hour(s); Extensive Problem Solving. Prerequisite(s): MAT 021D; MAT 022B; (MAT 022A or MAT 067); MAT 127A. Fourier series and integrals, orthogonal sets of functions. Topics selected from trigonometric approximation, orthogonal polynomials, applications to signal and image processing, numerical analysis, and differential equations. GE credit: QL, SE. Effective: 2020 Fall Quarter.

MAT 133—Mathematical Finance (4)

Lecture—3 hour(s); Extensive Problem Solving. Prerequisite(s): (MAT 067 or (MAT 022A, MAT 108)), MAT 135A. Analysis and evaluation of deterministic and random cash flow streams, yield and pricing of basic financial instruments, interest rate theory, mean-variance portfolio theory, capital asset pricing models, utility functions and general principles. MATLAB programming required. GE credit: QL, SE, SL. Effective: 2017 Winter Quarter.

MAT 135A—Probability (4) *Review all entries*

Lecture/Discussion—4 hour(s). Prerequisite(s): MAT 021C; (MAT 108 or MAT 025). Probability space; discrete probability, combinatorial analysis; independence, conditional probability; random variables, discrete and continuous distributions, probability mass function, joint and marginal density functions; expectation, moments, variance, Chebyshev inequality; sums of random variables, random walk, large number law, central limit theorem. Not open for credit to students who have completed former MAT 131. GE credit: SE. Effective: 2018 Spring Quarter.

MAT 135A—Probability (4) *Review all entries*

Lecture/Discussion—4 hour(s). Prerequisite(s): MAT 021C; (MAT 108 or MAT 067). Probability space; discrete probability, combinatorial analysis; independence, conditional probability; random variables, discrete and continuous distributions, probability mass function, joint and marginal density functions; expectation, moments, variance, Chebyshev inequality; sums of random variables, random walk, large number law, central limit theorem. Not open for credit to students who have completed former MAT 131. GE credit: SE. Effective: 2020 Fall Quarter.

MAT 135B—Stochastic Processes (4)

Discussion/Laboratory—4 hour(s). Prerequisite(s): MAT 135A; (MAT 022A or MAT 067). Generating functions, branching processes, characteristic function; Markov chains; convergence of random variables, law of iterated logarithm; random processes, Brownian motion, stationary processes, renewal processes, queueing theory, martingales. Not open for credit to students who have completed former MAT 132A. GE credit: QL, SE. Effective: 2009 Spring Quarter.

MAT 141—Euclidean Geometry (4)

Lecture—3 hour(s); Discussion—1 hour(s). Prerequisite(s): MAT 021B; (MAT 022A or MAT 067). Axiomatic and analytic examination of Euclidean geometry from an advanced point of view. In particular, a discussion of its relation to other geometries. Designed to serve as preparation for the more rigorous upper division courses. GE credit: SE. Effective: 2018 Winter Quarter.

MAT 145—Combinatorics (4)

Lecture/Discussion—4 hour(s). Prerequisite(s): MAT 021C. Combinatorial methods using basic graph theory, counting methods, generating functions, and recurrence relations. Designed to serve as preparation for the more rigorous upper division courses. GE credit: QL, SE. Effective: 2016 Fall Quarter.

MAT 146—Algebraic Combinatorics (4)

Lecture/Discussion—4 hour(s). Prerequisite(s): ((MAT 022A, MAT 108) or MAT 067); MAT 145. Enumeration, Polya theory, generating functions, current topics in algebraic combinatorics. Not open for credit to students who have completed former MAT 149A. GE credit: SE. Effective: 2018 Fall Quarter.

MAT 147—Topology (4) *Review all entries*

Lecture—3 hour(s); Extensive Problem Solving. Prerequisite(s): MAT 025. Basic notions of point-set and combinatorial topology. GE credit: SE. Effective: 2016 Fall Quarter.

MAT 147—Topology (4) *Review all entries*

Lecture—3 hour(s); Extensive Problem Solving. Prerequisite(s): MAT 127A. Basic notions of point-set and combinatorial topology. GE credit: SE. Effective: 2020 Fall Quarter.

MAT 148—Discrete Mathematics (4)

Lecture/Discussion—4 hour(s). Prerequisite(s): MAT 067 or (MAT 022A, MAT 108). Coding theory, error correcting codes, finite fields and the algebraic concepts needed in their development. Not open for credit to students who have completed former MAT 149B. GE credit: QL, SE. Effective: 2016 Fall Quarter.

MAT 150A—Modern Algebra (4)

Lecture/Discussion—4 hour(s). Prerequisite(s): MAT 067 or (MAT 022A, MAT 108). Basic concepts of groups, symmetries of the plane. Emphasis on the techniques used in the proof of the ideas (Lemmas, Theorems, etc.) developing these concepts. Precise thinking, proof writing, and the ability to deal with abstraction. GE credit: SE. Effective: 2016 Fall Quarter.

MAT 150B—Modern Algebra (4)

Lecture/Discussion—4 hour(s). Prerequisite(s): MAT 150A. Bilinear forms, rings, factorization, modules. GE credit: SE. Effective: 2007 Winter Quarter.

MAT 150C—Modern Algebra (4)

Lecture/Discussion—4 hour(s). Prerequisite(s): MAT 150B. Group representations, fields, Galois theory. GE credit: SE. Effective: 2007 Spring Quarter.

MAT 160—Mathematics for Data Analytics & Decision Making (4)

Lecture—3 hour(s); Project (Term Project). Prerequisite(s): MAT 167. Relational model; relational algebra, relational calculus, normal forms, functional and multivalued dependencies, separability. Cost benefit analysis of physical database design and reorganization. Performance via analytical modeling, simulation, and queueing theory. Block accesses; buffering; operating system contention; CPU intensive operations. GE credit: SE. Effective: 2018 Spring Quarter.

MAT 165—Mathematics & Computers (4)

Lecture—3 hour(s); Project (Term Project). Prerequisite(s): MAT 022A or MAT 067; (MAT 025 or MAT 108 or MAT 114 or MAT 115A or MAT 145). Introduction to computational mathematics, symbolic computation, and computer generated/verified proofs in algebra, analysis and geometry. Investigation of rigorous new mathematics developed in conjunction with modern computational questions and the role that computers play in mathematical conjecture and experimentation. GE credit: QL, SE. Effective: 2016 Fall Quarter.

MAT 167—Applied Linear Algebra (4)

Lecture—3 hour(s); Extensive Problem Solving. Prerequisite(s): MAT 022A or MAT 067. Applications of linear algebra; LU and QR matrix factorizations, eigenvalue and singular value matrix decompositions. GE credit: QL, SE. Effective: 2016 Fall Quarter.

MAT 168—Optimization (4)

Lecture—3 hour(s); Extensive Problem Solving. Prerequisite(s): MAT 021C; ((MAT 022A, MAT 108) or MAT 067)). Linear programming, simplex method. Basic properties of unconstrained nonlinear problems, descent methods, conjugate direction method. Constrained minimization. Programming language required. GE credit: QL, SE. Effective: 2016 Fall Quarter.

MAT 180—Special Topics (3) *Review all entries*

Lecture—3 hour(s). Prerequisite(s): MAT 025; (MAT 067 or (MAT 022A, MAT 108)). Special topics from various fields of modern, pure, and applied mathematics. Some recent topics include Knot Theory, General Relativity, and Fuzzy Sets. May be repeated for credit when topic differs. GE credit: SE. Effective: 2017 Winter Quarter.

MAT 180—Special Topics (3) *Review all entries*

Lecture—3 hour(s). Prerequisite(s): (MAT 067 or (MAT 022A, MAT 108)), MAT 127A. Special topics from various fields of modern, pure, and applied mathematics. Some recent topics include Knot Theory, General Relativity, and Fuzzy Sets. May be repeated for credit when topic differs. GE credit: SE. Effective: 2020 Fall Quarter.

MAT 185A—Complex Analysis (4) *Review all entries*

Lecture—3 hour(s); Extensive Problem Solving. Prerequisite(s): (MAT 067 or (MAT 022A, MAT 108)), MAT 125A. Complex number system, analyticity and the Cauchy-Riemann equations, elementary functions, complex integration, power and Laurent series expansions, residue theory. GE credit: SE. Effective: 2016 Fall Quarter.

MAT 185A—Complex Analysis (4) *Review all entries*

Lecture—3 hour(s); Extensive Problem Solving. Prerequisite(s): (MAT 067 or (MAT 022A, MAT 108)), MAT 127B. Complex number system, analyticity and the Cauchy-Riemann equations, elementary functions, complex integration, power and Laurent series expansions, residue theory. GE credit: SE. Effective: 2020 Fall Quarter.

MAT 185B—Complex Analysis (4)

Lecture—3 hour(s); Extensive Problem Solving. Prerequisite(s): MAT 185A. Analytical functions, elementary functions and their mapping properties, applications of Cauchy's integral theorem, conformal mapping and applications to heat flow and fluid mechanics. GE credit: SE. Effective: 2007 Spring Quarter.

MAT 189—Advanced Problem Solving (3) *Review all entries*

Lecture—3 hour(s). Prerequisite(s): ((MAT 022A, MAT 108) or MAT 067); MAT 127A. Solution and presentation of advanced problem solving techniques. Solve and present interesting and challenging problems of all areas of mathematics. GE credit: OL, QL, SE, WE. Effective: 2020 Fall Quarter.

MAT 189—Advanced Problem Solving (3) *Review all entries*

Lecture—3 hour(s). Prerequisite(s): MAT 025; ((MAT 022A, MAT 108) or MAT 067). Solution and presentation of advanced problem solving techniques. Solve and present interesting and challenging problems of all areas of mathematics. GE credit: OL, QL, SE, WE. Effective: 2017 Winter Quarter.

MAT 192—Internship in Applied Mathematics (1-3)

Internship. Prerequisite(s): Consent of Instructor. Supervised work experience in applied mathematics. Final report. May be repeated up to 10 unit(s). (P/NP grading only.) Effective: 2016 Fall Quarter.

MAT 194—Undergraduate Thesis (3)

Independent Study. Prerequisite(s): Consent of Instructor. Independent research under supervision of a faculty member. Student will submit written report in thesis form. May be repeated for credit with consent of Vice Chairperson. (P/NP grading only.) GE credit: SE. Effective: 2016 Fall Quarter.

MAT 197TC—Tutoring Mathematics in the Community (1-5)

Seminar—1-2 hour(s); Laboratory—2-6 hour(s). Prerequisite(s): Consent of Instructor. Special projects in mathematical education developing techniques for mathematics instruction and tutoring on an individual or small group basis. May be repeated up to 1 time(s). (P/NP grading only.) Effective: 2016 Fall Quarter.

MAT 198—Directed Group Study (1-5)

Variable. Prerequisite(s): Consent of Instructor. (P/NP grading only.) Effective: 2016 Fall Quarter.

MAT 199—Special Study for Advanced Undergraduates (1-5)

Variable. (P/NP grading only.) GE credit: SE. Effective: 1997 Winter Quarter.

MAT 200—Problem-Solving in Analysis (3)

Lecture—1 hour(s); Extensive Problem Solving. Prerequisite(s): MAT 201A (can be concurrent); MAT 201B (can be concurrent). Problem-solving in graduate analysis: continuous functions, metric spaces, Banach & Hilbert spaces, bounded linear operators, the spectral theorem, distributions, Fourier series & transforms, L_p spaces, Sobolev spaces. (S/U grading only.) Effective: 2019 Fall Quarter.

MAT 201A—Analysis (4)

Lecture—3 hour(s); Term Paper/Discussion—1 hour(s). Prerequisite(s): Graduate standing in Mathematics or Applied Mathematics, or consent of instructor. Metric and normed spaces. Continuous functions. Topological, Hilbert, and Banach spaces. Fourier series. Spectrum of bounded and compact linear operators. Linear differential operators and Green's functions. Distributions. Fourier transform. Measure theory. L_p and Sobolev spaces. Differential calculus and variational methods. Effective: 2004 Fall Quarter.

MAT 201B—Analysis (4)

Lecture—3 hour(s); Term Paper/Discussion—1 hour(s). Prerequisite(s): Graduate standing in Mathematics or Applied Mathematics, or consent of instructor. Metric and normed spaces. Continuous functions. Topological, Hilbert, and Banach spaces. Fourier series. Spectrum of bounded and compact linear operators. Linear differential operators and Green's functions. Distributions. Fourier transform. Measure theory. L_p and Sobolev spaces. Differential calculus and variational methods. Effective: 2005 Winter Quarter.

MAT 201C—Analysis (4)

Lecture—3 hour(s); Term Paper/Discussion—1 hour(s). Prerequisite(s): Graduate standing in Mathematics or Applied Mathematics, or consent of instructor. Metric and normed spaces. Continuous functions. Topological, Hilbert, and Banach spaces. Fourier series. Spectrum of bounded and compact linear operators. Linear differential operators and Green's functions. Distributions. Fourier transform. Measure theory. L_p and Sobolev spaces. Differential calculus and variational methods. Effective: 2005 Spring Quarter.

MAT 202—Functional Analysis (4)

Lecture—3 hour(s); Term Paper. Prerequisite(s): MAT 201A; MAT 201B. Hahn-Banach, Open mapping, Closed graph, Banach-Steinhaus, and Krein-Milman. Subspaces and quotient spaces. Projections. Weak and weak-star topologies. Compact and adjoint operators in Banach spaces. Fredholm theory. Functions of operators. Spectral theory of self-adjoint operators. Effective: 2009 Winter Quarter.

MAT 205—Complex Analysis (4)

Lecture—3 hour(s); Term Paper/Discussion—1 hour(s). Prerequisite(s): MAT 185A; Or equivalent to MAT 185A, or consent of instructor. Analytic continuation, Riemann surfaces, conformal mappings, Riemann mapping theorem, entire functions, special functions, elliptic functions. Effective: 2009 Spring Quarter.

MAT 205A—Complex Analysis (4)

Lecture—3 hour(s); Term Paper/Discussion—1 hour(s). Prerequisite(s): MAT 185A; Or equivalent to MAT 185A, or consent of instructor. Cauchy's theorem, Cauchy's integral formulas, meromorphic functions, complex logarithm, entire functions, Weierstrass infinite product formula, the gamma and zeta functions, and prime number theorem. No credit given to students who have completed MAT 205. Effective: 2011 Fall Quarter.

MAT 205B—Complex Analysis (4)

Lecture—3 hour(s); Term Paper/Discussion—1 hour(s). Prerequisite(s): MAT 205A; or Consent of Instructor. Conformal mappings, the Schwarz lemma, analytic automorphisms, the Riemann mapping theorem, elliptic functions, Eisenstein series, the Jacobi theta functions, asymptotics, Bessel functions, the Airy function, topics on special functions and Riemann surfaces. May be repeated up to 2 time(s) when topic differs. Effective: 2011 Spring Quarter.

MAT 206—Measure Theory (4)

Lecture—3 hour(s); Extensive Problem Solving. Prerequisite(s): MAT 125B. Introduction to measure theory. The study of lengths, surface areas, and volumes in general spaces, as related to integration theory. Effective: 2007 Spring Quarter.

MAT 207A—Methods of Applied Mathematics (4)

Lecture—3 hour(s); Term Paper/Discussion—1 hour(s). Prerequisite(s): Graduate standing or consent of instructor. Ordinary differential equations and dynamical systems. Variational principles. Eigenfunctions, integral equations and Green's functions. Complex analysis and contour integration. Laplace's equation. Diffusion equations. Wave phenomena. Dimensional analysis and scaling. Asymptotic expansions and perturbation theory. Stochastic processes and Brownian motion. Effective: 2010 Fall Quarter.

MAT 207B—Methods of Applied Mathematics (4)

Lecture—3 hour(s); Term Paper/Discussion—1 hour(s). Prerequisite(s): Graduate standing or consent of instructor. Ordinary differential equations and dynamical systems. Variational principles. Eigenfunctions, integral equations and Green's functions. Complex analysis and contour integration. Laplace's equation. Diffusion equations. Wave phenomena. Dimensional analysis and scaling. Asymptotic expansions and perturbation theory. Stochastic processes and Brownian motion. Effective: 2011 Winter Quarter.

MAT 207C—Methods of Applied Mathematics (4)

Lecture—3 hour(s); Term Paper/Discussion—1 hour(s). Prerequisite(s): Graduate standing or consent of instructor. Ordinary differential equations and dynamical systems. Variational principles. Eigenfunctions, integral equations and Green's functions. Complex analysis and contour integration. Laplace's equation. Diffusion equations. Wave phenomena. Dimensional analysis and scaling. Asymptotic expansions and perturbation theory. Stochastic processes and Brownian motion. Effective: 2011 Spring Quarter.

MAT 215A—Topology (4)

Lecture—3 hour(s); Term Paper/Discussion—1 hour(s). Prerequisite(s): Graduate standing or consent of instructor. Fundamental group and covering space theory. Homology and cohomology. Manifolds and duality. CW complexes. Fixed point theorems. Effective: 2002 Fall Quarter.

MAT 215B—Topology (4)

Lecture—3 hour(s); Term Paper/Discussion—1 hour(s). Prerequisite(s): Graduate standing or consent of instructor. Fundamental group and covering space theory. Homology and cohomology. Manifolds and duality. CW complexes. Fixed point theorems. Effective: 2002 Fall Quarter.

MAT 215C—Topology (4)

Lecture—3 hour(s); Term Paper/Discussion—1 hour(s). Prerequisite(s): Graduate standing or consent of instructor. Fundamental group and covering space theory. Homology and cohomology. Manifolds and duality. CW complexes. Fixed point theorems. Effective: 2002 Fall Quarter.

MAT 216—Geometric Topology (4)

Lecture—3 hour(s); Extensive Problem Solving—1 hour(s). Prerequisite(s): MAT 215A. Topology of two- and three-dimensional manifolds. Surfaces and their diffeomorphisms. Dehn twists. Heegaard surfaces. Theory of 3-dimensional manifolds. Knots and knot theory. Hyperbolic manifolds and geometric structures. May be repeated up to 1 time(s). Effective: 2010 Spring Quarter.

MAT 218A—Partial Differential Equations (4)

Lecture—3 hour(s); Term Paper/Discussion—1 hour(s). Prerequisite(s): MAT 201A; MAT 201B; MAT 201C; or Consent of Instructor. Year-long sequence on PDEs which covers linear transport, Laplace, heat, and wave equations, maximum principles, method of characteristics, Sobolev and Hölder space theory, weak derivatives, semilinear, quasilinear, and fully nonlinear elliptic/parabolic equations, nonlinear hyperbolic equations, and compensated compactness. Effective: 2009 Fall Quarter.

MAT 218B—Partial Differential Equations (4)

Lecture—3 hour(s); Term Paper/Discussion—1 hour(s). Prerequisite(s): MAT 218A; or Consent of Instructor. Year-long sequence on PDEs which covers linear transport, Laplace, heat, and wave equations, maximum principles, method of characteristics, Sobolev and Hölder space theory, weak derivatives, semilinear, quasilinear, and fully nonlinear elliptic/parabolic equations, nonlinear hyperbolic equations, and compensated compactness. Effective: 2010 Winter Quarter.

MAT 218C—Partial Differential Equations (4)

Lecture—3 hour(s); Term Paper/Discussion—1 hour(s). Prerequisite(s): MAT 218B; or Consent of Instructor. Year-long sequence on PDEs which covers linear transport, Laplace, heat, and wave equations, maximum principles, method of characteristics, Sobolev and Hölder space theory, weak derivatives, semilinear, quasilinear, and fully nonlinear elliptic/parabolic equations, nonlinear hyperbolic equations, and compensated compactness. Effective: 2010 Spring Quarter.

MAT 221A—Mathematical Fluid Dynamics (4)

Lecture—3 hour(s); Term Paper/Discussion—1 hour(s). Prerequisite(s): MAT 118B; or Consent of Instructor. Kinematics and dynamics of fluids. The Euler and Navier-Stokes equations. Vorticity dynamics. Irrotational flow. Low Reynolds number flows and the Stokes equations. High Reynolds number flows and boundary layers. Compressible fluids. Shock waves. Effective: 2002 Fall Quarter.

MAT 221B—Mathematical Fluid Dynamics (4)

Lecture—3 hour(s); Term Paper/Discussion—1 hour(s). Prerequisite(s): MAT 118B; or Consent of Instructor. Kinematics and dynamics of fluids. The Euler and Navier-Stokes equations. Vorticity dynamics. Irrotational flow. Low Reynolds number flows and the Stokes equations. High Reynolds number flows and boundary layers. Compressible fluids. Shock waves. Effective: 2003 Winter Quarter.

MAT 226A—Numerical Methods: Fundamentals (4)

Lecture—3 hour(s); Term Paper/Discussion—1 hour(s). Prerequisite(s): MAT 128A; MAT 128B; Or equivalent, or consent of instructor; familiarity with some programming language. Fundamental principles and methods in numerical analysis, including the concepts of stability of algorithms and conditioning of numerical problems, numerical methods for interpolation and integration, eigenvalue problems, singular value decomposition and its applications. Effective: 2009 Fall Quarter.

MAT 226B—Numerical Methods: Large-Scale Matrix Computations (4)

Lecture—3 hour(s); Term Paper/Discussion—1 hour(s). Prerequisite(s): MAT 167; Or equivalent, or consent of instructor; familiarity with some programming language. Numerical methods for large-scale matrix computations, including direct and iterative methods for the solution of linear systems, the computation of eigenvalues and singular values, the solution of least-squares problems, matrix compression, methods for the solution of linear programs. Effective: 2010 Winter Quarter.

MAT 226C—Numerical Methods: Ordinary Differential Equations (4)

Lecture—3 hour(s); Term Paper/Discussion—1 hour(s). Prerequisite(s): MAT 022B; Or equivalent, or consent of instructor; familiarity with some programming language. Numerical methods for the solution of ordinary differential equations, including methods for initial-value problems and two-point boundary-value problems, theory of and methods for differential algebraic equations, dimension reduction of large-scale dynamical systems. Effective: 2010 Spring Quarter.

MAT 227—Mathematical Biology (4)

Lecture—3 hour(s); Term Paper/Discussion—1 hour(s). Prerequisite(s): Graduate standing or consent of instructor. Nonlinear ordinary and partial differential equations and stochastic processes of cell and molecular biology. Scaling, qualitative, and numerical analysis of mathematical models. Applications to nerve impulse, chemotaxis, muscle contraction, and morphogenesis. Effective: 2002 Fall Quarter.

MAT 228A—Numerical Solution of Differential Equations (4)

Lecture—3 hour(s); Term Paper/Discussion—1 hour(s); Discussion. Prerequisite(s): MAT 128C. Numerical solutions of initial-value, eigenvalue and boundary-value problems for ordinary differential equations. Numerical solution of parabolic and hyperbolic partial differential equations. Effective: 1998 Fall Quarter.

MAT 228B—Numerical Solution of Differential Equations (4)

Lecture—3 hour(s); Term Paper/Discussion—1 hour(s); Discussion. Prerequisite(s): MAT 128C. Numerical solutions of initial-value, eigenvalue and boundary-value problems for ordinary differential equations. Numerical solution of parabolic and hyperbolic partial differential equations. Effective: 1998 Fall Quarter.

MAT 228C—Numerical Solution of Differential Equations (4)

Lecture—3 hour(s); Term Paper/Discussion—1 hour(s); Discussion. Prerequisite(s): MAT 128C. Numerical solutions of initial-value, eigenvalue and boundary-value problems for ordinary differential equations. Numerical solution of parabolic and hyperbolic partial differential equations. Effective: 1998 Fall Quarter.

MAT 235A—Probability Theory (4)

Lecture—3 hour(s); Term Paper/Discussion—1 hour(s). Prerequisite(s): MAT 125B; (MAT 135A or STA 131A); or Consent of Instructor. Measure-theoretic foundations, abstract integration, independence, laws of large numbers, characteristic functions, central limit theorems. Weak convergence in metric spaces, Brownian motion, invariance principle. Conditional expectation. Topics selected from: martingales, Markov chains, ergodic theory. (Same course as STA 235A.) Effective: 2007 Fall Quarter.

MAT 235B—Probability Theory (4)

Lecture—3 hour(s); Term Paper/Discussion—1 hour(s). Prerequisite(s): MAT 235A or STA 235A; or Consent of Instructor. Measure-theoretic foundations, abstract integration, independence, laws of large numbers, characteristic functions, central limit theorems. Weak convergence in metric spaces, Brownian motion, invariance principle. Conditional expectation. Topics selected from: martingales, Markov chains, ergodic theory. (Same course as STA 235B.) Effective: 2008 Spring Quarter.

MAT 235C—Probability Theory (4)

Lecture—3 hour(s); Term Paper/Discussion—1 hour(s). Prerequisite(s): MAT 235B or STA 235B; or Consent of Instructor. Measure-theoretic foundations, abstract integration, independence, laws of large numbers, characteristic functions, central limit theorems. Weak convergence in metric spaces, Brownian motion, invariance principle. Conditional expectation. Topics selected from: martingales, Markov chains, ergodic theory. (Same course as STA 235C.) Effective: 2008 Spring Quarter.

MAT 236A—Stochastic Dynamics & Applications (4)

Lecture—3 hour(s); Term Paper/Discussion—1 hour(s). Prerequisite(s): MAT 201C or (MAT 235B or STA 235B); MAT 235A, MAT 235B, MAT 235C/STA 235A, STA 235B, STA 235C recommended. Stochastic processes, Brownian motion, Stochastic integration, martingales, stochastic differential equations. Diffusions, connections with partial differential equations, mathematical finance. Effective: 2002 Fall Quarter.

MAT 236B—Stochastic Dynamics & Applications (4)

Lecture—3 hour(s); Term Paper/Discussion—1 hour(s). Prerequisite(s): MAT 201C or (MAT 235B or STA 235B); MAT 235A, MAT 235B, MAT 235C/STA 235A, STA 235B, STA 235C recommended. Stochastic processes, Brownian motion, Stochastic integration, martingales, stochastic differential equations. Diffusions, connections with partial differential equations, mathematical finance. Effective: 2002 Fall Quarter.

MAT 239—Differential Topology (4)

Lecture—3 hour(s); Extensive Problem Solving. Prerequisite(s): MAT 201A; or Consent of Instructor. Vector calculus, point-set topology; MAT 250A & MAT 250B highly recommended. Topics include: differentiable manifolds, vector fields, transversality, Sard's theorem, examples of differentiable manifolds; orientation, intersection theory, index of vector fields; differential forms, integration, Stokes' theorem, deRham cohomology; Morse functions, Morse lemma, index of critical points. Effective: 2007 Spring Quarter.

MAT 240A—Differential Geometry (4)

Lecture—3 hour(s); Term Paper/Discussion—1 hour(s). Prerequisite(s): MAT 201A; MAT 239; MAT 250A & MAT 250B highly recommended; intended primarily for second-year graduate students. Riemannian metrics, connections, geodesics, Gauss lemma, convex neighborhoods, curvature tensor, Ricci and scalar curvature, connections and curvature on vector bundles. Effective: 2008 Fall Quarter.

MAT 240B—Differential Geometry (4)

Lecture—3 hour(s); Term Paper/Discussion—1 hour(s). Prerequisite(s): MAT 240A; Intended primarily for second-year graduate students. Jacobi fields, conjugate points, completeness, Hopf-Rinow theorem, Cartan-Hadamard theorem, energy, variation theorems and their applications, Rauch comparison theorem and its applications. Effective: 2009 Winter Quarter.

MAT 245—Enumerative Combinatorics (4)

Lecture—3 hour(s); Extensive Problem Solving. Prerequisite(s): MAT 145; MAT 150; or the equivalent, or consent of instructor. Introduction to modern combinatorics and its applications. Emphasis on enumerative aspects of combinatorial theory. Effective: 2004 Fall Quarter.

MAT 246—Algebraic Combinatorics (4)

Lecture—3 hour(s); Extensive Problem Solving. Prerequisite(s): MAT 245; or Consent of Instructor. Algebraic and geometric aspects of combinatorics. The use of structures such as groups, polytopes, rings, and simplicial complexes to solve combinatorial problems. Effective: 2005 Winter Quarter.

MAT 248A—Algebraic Geometry (4)

Lecture—3 hour(s); Extensive Problem Solving. Prerequisite(s): MAT 250A; MAT 250B; MAT 250C. Affine varieties and radical ideals. Projective varieties. Abstract varieties. Morphisms and rational maps. Smoothness. Algebraic curves and the Riemann-Roch theorem. Special topics. Effective: 2009 Fall Quarter.

MAT 248B—Algebraic Geometry (4)

Lecture—3 hour(s); Extensive Problem Solving. Prerequisite(s): MAT 248A. Complex varieties and the analytic topology. Sheaves and schemes. Fiber products. Separatedness and properness. Applications of scheme theory. Effective: 2010 Winter Quarter.

MAT 249—Problem-Solving in Algebra (3)

Lecture—1 hour(s); Extensive Problem Solving. Prerequisite(s): MAT 250A (can be concurrent); MAT 250B (can be concurrent). Problem-solving in graduate algebra: groups, rings, modules, matrices, tensor products, representations, Galois theory, ring extensions, commutative algebra and homological algebra. (S/U grading only.) Effective: 2019 Fall Quarter.

MAT 250A—Algebra (4)

Lecture—3 hour(s); Term Paper/Discussion—1 hour(s). Prerequisite(s): Graduate standing in mathematics or consent of instructor. Group and rings. Sylow theorems, abelian groups, Jordan-Holder theorem. Rings, unique factorization. Algebras, and modules. Fields and vector spaces over fields. Field extensions. Commutative rings. Representation theory and its applications. Effective: 2002 Fall Quarter.

MAT 250B—Algebra (4)

Lecture—3 hour(s); Term Paper/Discussion—1 hour(s). Prerequisite(s): Graduate standing in mathematics or consent of instructor. Group and rings. Sylow theorems, abelian groups, Jordan-Holder theorem. Rings, unique factorization. Algebras, and modules. Fields and vector spaces over fields. Field extensions. Commutative rings. Representation theory and its applications. Effective: 2002 Fall Quarter.

MAT 250C—Algebra (4)

Lecture—3 hour(s); Term Paper/Discussion—1 hour(s). Prerequisite(s): Graduate standing in mathematics or consent of instructor. Group and rings. Sylow theorems, abelian groups, Jordan-Holder theorem. Rings, unique factorization. Algebras, and modules. Fields and vector spaces over fields. Field extensions. Commutative rings. Representation theory and its applications. Effective: 2002 Fall Quarter.

MAT 258A—Numerical Optimization (4)

Lecture—3 hour(s); Term Paper/Discussion—1 hour(s). Prerequisite(s): MAT 025; MAT 167. Numerical methods for infinite dimensional optimization problems. Newton and Quasi-Newton methods, linear and sequential quadratic programming, barrier methods; large-scale optimization; theory of approximations; infinite and semi-infinite programming; applications to optimal control, stochastic optimization and distributed systems. Effective: 2007 Fall Quarter.

MAT 258B—Discrete & Mixed-Integer Optimization (4)

Lecture—3 hour(s); Term Paper/Discussion—1 hour(s). Prerequisite(s): MAT 025; MAT 167; or Consent of Instructor. Combinatorial, integer, and mixed-integer linear optimization problems. Ideal and strong formulations, cutting planes, branch and cut, decomposition methods. Effective: 2014 Fall Quarter.

MAT 261A—Lie Groups & Their Representations (4)

Lecture—3 hour(s); Term Paper/Discussion—1 hour(s). Prerequisite(s): MAT 215A; MAT 240A; MAT 250A; MAT 250B; Or the equivalent, or consent of instructor. Lie groups and Lie algebras. Classification of semi-simple Lie groups. Classical and compact Lie groups. Representations of Lie groups and Lie algebras. Root systems, weights, Weil character formula. Kac-Moody and Virasoro algebras. Applications. Effective: 2002 Fall Quarter.

MAT 261B—Lie Groups & Their Representations (4)

Lecture—3 hour(s); Term Paper/Discussion—1 hour(s). Prerequisite(s): MAT 215A; MAT 240A; MAT 250A; MAT 250B; Or the equivalent, or consent of instructor. Lie groups and Lie algebras. Classification of semi-simple Lie groups. Classical and compact Lie groups. Representations of Lie groups and Lie algebras. Root systems, weights, Weil character formula. Kac-Moody and Virasoro algebras. Applications. Effective: 2002 Fall Quarter.

MAT 265—Mathematical Quantum Mechanics (4)

Lecture—3 hour(s); Term Paper/Discussion—1 hour(s). Prerequisite(s): MAT 201; or Consent of Instructor. Mathematical foundations of quantum mechanics: the Hilbert space and Operator Algebra formulations; the Schrödinger and Heisenberg equations, symmetry in quantum mechanics, basics of spectral theory and perturbation theory. Applications to atoms and molecules. The Dirac equation. Effective: 2003 Fall Quarter.

MAT 266—Mathematical Statistical Mechanics & Quantum Field Theory (4)

Lecture—3 hour(s); Term Paper/Discussion—1 hour(s). Prerequisite(s): MAT 265; or Consent of Instructor. Mathematical principles of statistical mechanics and quantum field theory. Topics include classical and quantum lattice systems, variational principles, spontaneous symmetry breaking and phase transitions, second quantization and Fock space, and fundamentals of quantum field theory. May be repeated up to 1 time(s). Effective: 2010 Spring Quarter.

MAT 271—Applied & Computational Harmonic Analysis (4)

Lecture—3 hour(s); Extensive Problem Solving. Prerequisite(s): (MAT 125B or MAT 201C); (MAT 128B or MAT 167); MAT 129; Or the equivalent, or consent of instructor. Introduction to mathematical basic building blocks (wavelets, local Fourier basis, and their relatives) useful for diverse fields (signal and image processing, numerical analysis, and statistics). Emphasis on the connection between the continuum and the discrete worlds. Effective: 2007 Fall Quarter.

MAT 280—Topics in Pure & Applied Mathematics (3)

Lecture—3 hour(s). Prerequisite(s): Graduate standing. Special topics in various fields of pure and applied mathematics. Topics selected based on the mutual interests of students and faculty. May be repeated for credit when topic differs. Effective: 1997 Winter Quarter.

MAT 290—Seminar (1-6)

Seminar—1-6 hour(s). Advanced study in various fields of mathematics, including analysis, applied mathematics, discrete mathematics, geometry, mathematical biology, mathematical physics, optimization, partial differential equations, probability, and topology. May be repeated for credit. (S/U grading only.) Effective: 2003 Spring Quarter.

MAT 298—Group Study (1-5)

Variable. Effective: 1997 Winter Quarter.

MAT 299—Individual Study (1-12)

Variable. (S/U grading only.) Effective: 1997 Winter Quarter.

MAT 299D—Dissertation Research (1-12)

Variable. (S/U grading only.) Effective: 1997 Winter Quarter.

MAT 301A—Mathematics Teaching Practicum (3)

Fieldwork—5 hour(s); Discussion—1 hour(s). Prerequisite(s): MAT 302A (can be concurrent); MAT 303A (can be concurrent); MAT 302A & MAT 303A required concurrently or consent of instructor. Specialist training in mathematics teaching. Teaching, training, and cross observing classes taught using large group Socratic techniques, small group guided inquiry experiences, and/or other approaches to teaching at various grade levels. Required for advanced degrees in mathematics education. May be repeated up to 1 time(s). Effective: 2001 Fall Quarter.

MAT 301B—Mathematics Teaching Practicum (3)

Fieldwork—5 hour(s); Discussion—1 hour(s). Prerequisite(s): MAT 302B (can be concurrent); MAT 303B (can be concurrent); MAT 302B & MAT 303B required concurrently or consent of instructor. Specialist training in mathematics teaching. Teaching, training, and cross observing classes taught using large group Socratic techniques, small group guided inquiry experiences, and/or other approaches to teaching at various grade levels. Required for advanced degrees in mathematics education. May be repeated up to 1 time(s). Effective: 2002 Winter Quarter.

MAT 301C—Mathematics Teaching Practicum (3)

Fieldwork—5 hour(s); Discussion—1 hour(s). Prerequisite(s): MAT 302C (can be concurrent); MAT 303B (can be concurrent); MAT 302C & MAT 303C required concurrently or consent of instructor. Specialist training in mathematics teaching. Teaching, training, and cross observing classes taught using large group Socratic techniques, small group guided inquiry experiences, and/or other approaches to teaching at various grade levels. Required for advanced degrees in mathematics education. May be repeated up to 1 time(s). Effective: 2002 Spring Quarter.

MAT 302A—Curriculum Development in Mathematics (1)

Lecture/Discussion—1 hour(s). Prerequisite(s): MAT 303A (can be concurrent); MAT 303A required concurrently or consent of instructor. Mathematics curriculum development for all grade levels. Required for advanced degrees in mathematics education. May be repeated up to 1 time(s). Effective: 2001 Fall Quarter.

MAT 302B—Curriculum Development in Mathematics (1)

Lecture/Discussion—1 hour(s). Prerequisite(s): MAT 303B (can be concurrent); MAT 303B required concurrently or consent of instructor. Mathematics curriculum development for all grade levels. Required for advanced degrees in mathematics education. May be repeated up to 1 time(s). Effective: 2002 Winter Quarter.

MAT 302C—Curriculum Development in Mathematics (1)

Lecture/Discussion—1 hour(s). Prerequisite(s): MAT 303C (can be concurrent); MAT 303C required concurrently or consent of instructor. Mathematics curriculum development for all grade levels. Required for advanced degrees in mathematics education. May be repeated for credit. Effective: 2002 Spring Quarter.

MAT 303A—Mathematics Pedagogy (1)

Lecture/Discussion—1 hour(s). Prerequisite(s): MAT 302A (can be concurrent) or MAT 210AL (can be concurrent); MAT 302A or MAT 210AL required concurrently or consent of instructor. An investigation of the interplay of mathematical pedagogy and mathematical content, including a historical survey of past and present methods in view of some of the influences that shaped their development. May be repeated up to 1 time(s). Effective: 2001 Fall Quarter.

MAT 303B—Mathematics Pedagogy (1)

Lecture/Discussion—1 hour(s). Prerequisite(s): MAT 302B (can be concurrent) or MAT 210BL (can be concurrent); MAT 302A or MAT 210AL required concurrently or consent of instructor. An investigation of the interplay of mathematical pedagogy and mathematical content, including a historical survey of past and present methods in view of some of the influences that shaped their development. May be repeated up to 1 time(s). Effective: 2002 Winter Quarter.

MAT 303C—Mathematics Pedagogy (1)

Lecture/Discussion—1 hour(s). Prerequisite(s): MAT 302C (can be concurrent) or MAT 210CL (can be concurrent); MAT 302C or MAT 210CL required concurrently or consent of instructor. An investigation of the interplay of mathematical pedagogy and mathematical content, including a historical survey of past and present methods in view of some of the influences that shaped their development. May be repeated up to 1 time(s). Effective: 2002 Spring Quarter.

MAT 390—Teaching Assistantship Training (3)

Lecture—3 hour(s). Prerequisite(s): Graduate standing in the Department of Mathematics. Experience in methods of assisting and teaching of mathematics at the university level. Includes discussion of lecturing techniques, running discussion sessions, holding office hours, preparing and grading of examinations, student-teacher interaction, and related topics. Required of departmental teaching assistants. (S/U grading only.) Effective: 2008 Fall Quarter.

MAT 399—Individual Study (2-4)

Independent Study—2-3 hour(s); Discussion—1 hour(s). Individual study of some aspect of mathematics education or a focused work on a curriculum design project under supervision of a faculty member in mathematics. May be repeated up to 1 time(s). (S/U grading only.) Effective: 2002 Spring Quarter.

MCB—Molecular & Cellular Biology

Courses in MCB:

MCB 010—Introduction to Human Heredity (4)

Lecture—3 hour(s); Discussion—1 hour(s). Topics in human heredity and human gene structure and function, including the genetic basis of human development, causes of birth defects, mental retardation, genetic diseases, sexual determination, development, and behavior. GE credit: QL, SE, SL. Effective: 2004 Spring Quarter.

MCB 023—Biography of Cancer: Past, Present & Future (3)

Lecture/Discussion—3 hour(s). Historical account of the progression of cancer treatment, prevention, and human understanding of the biological basis of cancer. Past, present and future social implications of cancer treatment and prevention. GE credit: ACGH, SE, SL, SS, WE. Effective: 2018 Spring Quarter.

MCB 099—Special Study (1-5)

Independent Study—3-15 hour(s). Prerequisite(s): Consent of Instructor. (P/NP grading only.) GE credit: SE. Effective: 1997 Winter Quarter.

MCB 110Y—iBioseminars in Cell & Molecular Biology (3)

Web Virtual Lecture—1.5 hour(s); Web Electronic Discussion—1.5 hour(s); Lecture/Discussion—2 hour(s). Prerequisite(s): BIS 101; BIS 102; (BIS 103 or BIS 105); BIS 104. Hybrid course in Cellular & Molecular Biology for senior level (1) Biochemistry/Molecular Biology; (2) Genetics; or (3) Cell Biology majors. Face-to-face instruction combined with online lectures available at iBioseminars website delivered by leading researchers in Cellular & Molecular Biology. Students who have previously taken MCB 110V cannot receive credit for MCB 110Y. GE credit: SE, SL. Effective: 2014 Fall Quarter.

MCB 112—Communicating Research in the Biological Sciences (3)

Extensive Writing/Discussion—3 hour(s). Prerequisite(s): Consent of Instructor. Open to students with senior status and currently involved in laboratory research. Writing and communicating research concepts in the biological sciences for scientific audiences. Refining brief, informal, oral descriptions of research, writing documents required for graduate school applications, preparing conference posters, and drafting proposals for scientific fellowships. GE credit: SE. Effective: 2020 Spring Quarter.

MCB 120—Molecular Biology & Biochemistry Laboratory Associated Lecture (3)

Lecture—2 hour(s); Discussion/Laboratory—1 hour(s). Prerequisite(s): BIS 102; or Consent of Instructor. Pass One restricted to upper division Biochemistry & Molecular Biology majors; concurrent enrollment in MCB 120L required; on-time attendance for first lecture is mandatory. Introduction to laboratory methods and procedures employed in studying molecular biology and biochemical processes. Lecture component for MCB 120L. GE credit: SE, SL. Effective: 2018 Winter Quarter.

MCB 120L—Molecular Biology & Biochemistry Laboratory (3)

Laboratory—10 hour(s). Prerequisite(s): BIS 102; or Consent of Instructor. Must be taken concurrently with MCB 120. Pass One restricted to upper division Biochemistry & Molecular Biology majors; concurrent enrollment in MCB 120 required; on-time attendance for first lab is mandatory. Introduction to laboratory methods and procedures employed in studying molecular biology and biochemical processes. Designed for students who need experience in use of molecular biology and biochemical techniques as research and analytical tools. GE credit: QL, SE, VL, WE. Effective: 2018 Winter Quarter.

MCB 121—Advanced Molecular Biology (3)

Lecture—3 hour(s). Prerequisite(s): BIS 101; (BIS 102 (can be concurrent) or BIS 105 (can be concurrent) or ABI 102 (can be concurrent)); BIS 102 or BIS 105 or ABI 102 can be concurrent although prior completion is recommended. Structure, expression, and regulation of eukaryotic genes. Chromosome structure and replication; gene structure, transcription, and RNA processing; protein synthesis and translation control; development, immune system, and oncogenes. Not open for credit to students who have completed MCB 161. GE credit: QL, SE, SL. Effective: 2014 Fall Quarter.

MCB 123—Behavior & Analysis of Enzyme & Receptor Systems (3)

Lecture—3 hour(s). Prerequisite(s): BIS 103. Introduction to the principles of enzyme kinetics and receptor-ligand interactions with emphasis on metabolic regulation and data analysis. Topics include simultaneous equilibria, chemical and steady-state kinetics, allosteric enzymes, multireactant systems, enzyme assays, membrane transport and computer-assisted simulations and analyses. GE credit: QL, SE. Effective: 1997 Winter Quarter.

MCB 124—Macromolecular Structure & Function (4) *Review all entries*

Lecture—4 hour(s). Prerequisite(s): BIS 103; CHE 118C. An in-depth investigation into protein and nucleic acid structure and thermodynamics and how these properties influence their biological functions. Key examples of important functional classes of these molecules will be examined. Not open for credit to students who have completed MCB 122 or CHE 108. GE credit: SE. Effective: 2012 Fall Quarter.

MCB 124—Macromolecular Structure & Function (4) *Review all entries*

Lecture—4 hour(s). Prerequisite(s): BIS 102 C- or better; CHE 118C C- or better. An in-depth investigation into protein and nucleic acid structure and thermodynamics and how these properties influence their biological functions. Key examples of important functional classes of these molecules will be examined. Not open for credit to students who have completed CHE 108. GE credit: SE. Effective: 2020 Fall Quarter.

MCB 126—Plant Biochemistry (3)

Lecture—3 hour(s). Prerequisite(s): BIS 103 or BIS 105. The biochemistry of important plant processes and metabolic pathways. Discussion of methods used to understand plant processes, including use of transgenic plants. (Same course as PLB 126.) GE credit: SE, SL. Effective: 2008 Spring Quarter.

MCB 138—Undergraduate Seminar in Biochemistry (1)

Seminar—1 hour(s). Prerequisite(s): BIS 103. Discussion of the historical developments of modern biochemistry or current major research problems. May be repeated up to 2 time(s) when topic differs. (P/NP grading only.) GE credit: OL, SE. Effective: 1997 Winter Quarter.

MCB 139—Undergraduate Seminar in Biochemistry (2)

Seminar—2 hour(s). Prerequisite(s): BIS 103. Discussion of the historical developments of modern biochemistry or current major research problems. May be repeated up to 2 time(s) when topic differs. (P/NP grading only.) GE credit: OL, SE. Effective: 2015 Spring Quarter.

MCB 140—Cell Biology Laboratory Associated Lecture (3)

Lecture—2 hour(s); Discussion/Laboratory—1 hour(s). Prerequisite(s): BIS 104; or Consent of Instructor. Pass One restricted to upper division Cell Biology majors; concurrent enrollment in MCB 140L required; on-time attendance for first lecture is mandatory. Lectures illustrating the principles of cell biology with emphasis on light microscopy. Accompanies MCB 140L. GE credit: OL, SE, SL, WE. Effective: 2020 Winter Quarter.

MCB 140L—Cell Biology Laboratory (5)

Lecture—2 hour(s); Laboratory—6 hour(s); Discussion—1 hour(s). Prerequisite(s): BIS 104 (can be concurrent). Exercises illustrating the principles of cell biology with emphasis on light microscopy. GE credit: OL, QL, SE, SL, VL. Effective: 2009 Winter Quarter.

MCB 142—Advanced Cell Biology: Contractile & Motile Systems (4)

Lecture—3 hour(s); Term Paper. Prerequisite(s): BIS 102; BIS 104 (can be concurrent); MAT 016B. Advanced cell biology with emphasis on molecular, biophysical and cellular properties of contractile and motile systems. GE credit: SE. Effective: 1998 Spring Quarter.

MCB 143—Cell & Molecular Biophysics (3)

Lecture—3 hour(s). Prerequisite(s): BIS 101; BIS 102; BIS 103; BIS 104. Physical chemical principles by which molecules form living, moving, reproducing cells. Physical nature of cytoplasm; molecular structure/bonding in macromolecules, macromolecular assemblies and protein machines. Physical techniques and modeling of cytoskeletal polymer-motor dynamics and function during intracellular transport, mitosis and motility. GE credit: QL, SE. Effective: 2008 Fall Quarter.

MCB 144—Mechanisms of Cell Division (3)

Lecture—3 hour(s). Prerequisite(s): BIS 101; BIS 102; BIS 104. The molecules and mechanisms that allow eukaryotic cells to coordinate cell growth, DNA replication, segregation of chromosomes and cell division. GE credit: SE, WE. Effective: 2002 Winter Quarter.

MCB 145—Assembly & Function of Cell Signaling Machinery (3)

Lecture—3 hour(s). Prerequisite(s): BIS 101; BIS 102; BIS 104. Molecular basis of cell signaling, including positioning of cellular machinery, components of various signaling pathways, and downstream effects of signaling on cell adhesion, cell differentiation, and programmed cell death. GE credit: SE. Effective: 2002 Spring Quarter.

MCB 148—Undergraduate Seminar in Cell Biology (2)

Seminar—2 hour(s). Prerequisite(s): Upper division standing in the biological sciences or a related discipline. Student reports on current topics in cell biology with emphasis on integration of concepts, synthesis, and state-of-the-art research approaches. Reviews of literature and reports of undergraduate research may be included. May be repeated for credit. (P/NP grading only.) GE credit: OL, SE. Effective: 1997 Winter Quarter.

MCB 150—Developmental Biology (4)

Lecture—4 hour(s). Prerequisite(s): BIS 101. Analysis of the mechanistic basis for animal development with a focus on experimental evidence and the relevant fundamental experimental strategies. Fertilization and early development, morphogenesis and patterning, cell differentiation, regulation of cell proliferation and tissue growth. GE credit: SE, SL. Effective: 2012 Fall Quarter.

MCB 158—Undergraduate Seminar in Developmental Biology (2)

Seminar—2 hour(s). Prerequisite(s): Upper division standing in the biological sciences or a related discipline. Student reports on current topics in cell biology with emphasis on integration of concepts, synthesis, and state-of-the-art research approaches. Reviews of literature and reports of undergraduate research may be included. May be repeated for credit. (P/NP grading only.) GE credit: OL, SE. Effective: 1997 Winter Quarter.

MCB 160—Genetics Laboratory Associated Lecture (3)

Lecture—2 hour(s); Discussion/Laboratory—1 hour(s). Prerequisite(s): BIS 101; or Consent of Instructor. Pass One restricted to upper division Genetics and Genomics majors; concurrent enrollment in MCB 160L required; on-time attendance for first lecture is mandatory. Lecture instruction in the theoretical basis of laboratory techniques in transmission and molecular genetics, discussion of lab results and experiment interpretation. GE credit: QL, SE, WE. Effective: 2019 Spring Quarter.

MCB 160L—Principles of Genetics Laboratory (5)

Laboratory—6 hour(s); Lecture—2 hour(s); Discussion/Laboratory—1 hour(s). Prerequisite(s): BIS 101. Laboratory work in basic and molecular genetics including gene mapping, isolation and characterization of mutants in eukaryotic model systems, reverse genetics, gel electrophoresis, recombinant DNA techniques, and PCR. GE credit: QL, SE, VL, WE. Effective: 2012 Fall Quarter.

MCB 162—Human Genetics & Genomics (3)

Lecture—3 hour(s). Prerequisite(s): BIS 101. Human genome and genetic variation in human populations, molecular and genomic approaches in the practice of human genetics, epigenetic gene regulation, personal genetics and genomic medicine. GE credit: QL, SE, SL. Effective: 2016 Fall Quarter.

MCB 163—Developmental Genetics (3)

Lecture—3 hour(s). Prerequisite(s): MCB 121 (can be concurrent). Current aspects of developmental genetics. Historical background and current genetic approaches to the study of development of higher animals. GE credit: SE. Effective: 2017 Fall Quarter.

MCB 164—Advanced Eukaryotic Genetics (3) *Review all entries*

Lecture—3 hour(s). Prerequisite(s): MCB 121. Five basic operations of genetic analysis: mutation, segregation, recombination, complementation, and regulation. Emphasis on the theory and practice of isolating and analyzing mutations, as well as understanding mechanisms underlying both Mendelian and epigenetic inheritance. GE credit: SE, SL. Effective: 2011 Fall Quarter.

MCB 164—Advanced Eukaryotic Genetics (3) *Review all entries*

Lecture—3 hour(s). Prerequisite(s): MCB 121. Principles and logic of modern genetic analysis to understand mechanisms governing Mendelian and epigenetic inheritance, with a focus on model organisms. Molecular basis of human genetic diseases and cancers explored through reading primary literature. GE credit: SE. Effective: 2020 Fall Quarter.

MCB 178—Undergraduate Seminar in Molecular Genetics (1)

Seminar—1 hour(s). Prerequisite(s): BIS 101; MCB 121 (can be concurrent); Upper division standing, and completion or concurrent enrollment in MCB 121. Discussion of current topics in molecular genetics to show advanced applications of basic principles and to highlight professional career opportunities. May be repeated up to 1 time(s) when topic differs. (P/NP grading only.) GE credit: OL, SE. Effective: 2011 Fall Quarter.

MCB 182—Principles of Genomics (3)

Lecture—3 hour(s). Prerequisite(s): BIS 101. Fundamentals of genomics, including structural genomics, functional genomics, proteomics, and bioinformatics, focusing on the impact of these disciplines on research in the biological sciences. Social impacts of genomic research. GE credit: SE. Effective: 2017 Winter Quarter.

MCB 190C—Undergraduate Research Conference (1)

Discussion—1 hour(s). Prerequisite(s): MCB 193 (can be concurrent) or MCB 199 (can be concurrent); and Consent of Instructor. Upper division standing; MCB 193 or MCB 199 required concurrently. Presentation and discussion of current research by faculty and students. May be repeated for credit. (P/NP grading only.) GE credit: SE. Effective: 1997 Winter Quarter.

MCB 191—Introduction to Research (1)

Seminar—1 hour(s). Prerequisite(s): BIS 102 (can be concurrent); or Consent of Instructor. Various topics in molecular and cellular biology including biochemistry, genetics, and cell biology will be discussed, along with ways undergraduates can participate in research projects of faculty members. May be repeated for credit. (P/NP grading only.) GE credit: SE. Effective: 1997 Winter Quarter.

MCB 192—Internship (1-12)

Internship—3-36 hour(s). Prerequisite(s): Consent of Instructor. Completion of 84 units. Technical and/or practical experience on and off campus, supervised by a member of the Section of Molecular and Cellular Biology faculty. (P/NP grading only.) GE credit: SE. Effective: 1997 Winter Quarter.

MCB 193—Advanced Research (3)

Laboratory—6 hour(s); Discussion—1 hour(s). Prerequisite(s): Consent of Instructor. Upper division standing; completion of an upper division Molecular & Cellular Biology (MCB) laboratory course. Research project carried out under the supervision of a faculty sponsor. Discussion and analysis of results and proposed experiments on a weekly basis with faculty sponsor. May include presentation of a seminar to a research group. May be repeated for credit. (P/NP grading only.) GE credit: SE. Effective: 1997 Winter Quarter.

MCB 194—Thesis Research (3)

Independent Study—9 hour(s). Prerequisite(s): Consent of Instructor. 6 units of MCB 193 and/or MCB 199 with faculty director; senior standing. Continuation of an intensive, individual laboratory research project in biochemistry, genetics, or cell biology culminating with the presentation of the work in a written thesis and in a seminar. (P/NP grading only.) GE credit: OL, SE, WE. Effective: 2015 Fall Quarter.

MCB 194H—Research Honors (3)

Independent Study—9 hour(s). Prerequisite(s): Consent of Instructor. 6 units of MCB 193 and/or MCB 199 with faculty director; senior standing; GPA of at least 3.250. Honors project. Continuation of an intensive, individual laboratory research project in biochemistry, genetics, or cell biology culminating with the presentation of the work in a written thesis and in a seminar. (P/NP grading only.) GE credit: OL, SE, WE. Effective: 1997 Winter Quarter.

MCB 197T—Tutoring in Molecular & Cellular Biology (1-5)

Tutorial—2-6 hour(s). Prerequisite(s): Consent of Instructor. Upper division standing, completion of course to be tutored. Assisting the instructor in one of the section's regular courses by tutoring individual or small groups of students in a laboratory, in voluntary discussion groups, or other voluntary course activities. May be repeated for credit. (P/NP grading only.) GE credit: SE. Effective: 2004 Fall Quarter.

MCB 198—Directed Group Study (1-5)

Variable—1-5 hour(s). Prerequisite(s): Consent of Instructor. Directed group study. May be taught abroad. (P/NP grading only.) GE credit: SE. Effective: 1997 Winter Quarter.

MCB 199—Special Study for Advanced Undergraduates (1-5)

Independent Study—3-15 hour(s). Prerequisite(s): Consent of Instructor. (P/NP grading only.) GE credit: SE. Effective: 1997 Winter Quarter.

MCB 248—Seminar in Cell Biology (2)

Seminar—2 hour(s). Prerequisite(s): Consent of Instructor. Discussion of recent literature on the physical and chemical aspects of organization and function of living systems, topics of current interest in ultrastructure and function of cells. Organizational and functional properties of the molecular and cellular levels of biological systems. May be repeated for credit. Effective: 1997 Winter Quarter.

MCB 258—Seminar in Development (2)

Seminar—2 hour(s). Prerequisite(s): Consent of Instructor. Reports and discussion on embryology, morphogenesis, and developmental mechanisms. May be repeated for credit. Effective: 1997 Winter Quarter.

MCB 259—Literature in Developmental Biology (1)

Seminar—1 hour(s). Prerequisite(s): Consent of Instructor. Critical presentation and analysis of recent journal articles in developmental biology. May be repeated for credit. (S/U grading only.) Effective: 1997 Winter Quarter.

MCB 282—Biotechnology Internship (7-12)

Internship—21-36 hour(s). Prerequisite(s): Consent of Instructor. Graduate standing. Open only to students participating in the Designated Emphasis in Biotechnology program. Research at a biotechnology company or interdisciplinary cross-college lab for a minimum of 3 months as part of the Designated Emphasis in Biotechnology Program. (S/U grading only.) Effective: 2004 Winter Quarter.

MCB 290C—Research Conference (1)

Discussion—1 hour(s). Prerequisite(s): Consent of Instructor. Graduate standing. Presentations and critical discussions of faculty and graduate student research in molecular and cellular biology including biochemistry, genetics, and cell biology. May be repeated for credit. (S/U grading only.) Effective: 1997 Winter Quarter.

MCB 291—Current Progress in Molecular & Cellular Biology (1)

Seminar—1 hour(s). Prerequisite(s): Graduate standing or consent of instructor. Seminars presented by guest lecturers on subject of their own research activities. May be repeated for credit. (S/U grading only.) Effective: 1997 Winter Quarter.

MCB 295—Literature in Molecular & Cellular Biology (1)

Seminar—1 hour(s). Prerequisite(s): Consent of Instructor. Graduate standing. Critical reading and evaluation of current literature in molecular and cellular biology disciplines. Papers presented and discussed in detail. May be repeated for credit. (S/U grading only.) Effective: 1997 Winter Quarter.

MCB 298—Group Study (1-5)

Variable—1-5 hour(s). Prerequisite(s): Consent of Instructor. (S/U grading only.) Effective: 1997 Winter Quarter.

MCB 299—Research (1-12)

Independent Study—3-36 hour(s). (S/U grading only.) Effective: 1997 Winter Quarter.

MCB 390—Methods of Teaching (1)

Discussion—1 hour(s). Prerequisite(s): Consent of Instructor. Graduate standing. Practical experience in the methods and problems of teaching biochemistry/genetics/cell biology. Includes analysis of texts and supporting material, discussion of teaching techniques, preparing for and conducting discussion and laboratory sections, formulating examinations under supervision of instructor. Participating in the teaching program required for Ph.D. May be repeated for credit. (S/U grading only.) Effective: 1997 Winter Quarter.

MCN—Maternal & Child Nutrition

Courses in MCN:

MCN 260—Nutrition During Pregnancy (6)

Lecture—5 hour(s); Term Paper. Prerequisite(s): Acceptance into the Master of Advanced Studies in Maternal and Child Nutrition; other students by consent of instructor. Open to Graduate standing. Overview of the anatomical, physiological and biochemical changes that occur during pregnancy and early development. Discussion and evaluation of nutritional/lifestyle factors associated with pregnancy outcomes and nutrition programs/interventions for pregnant women. Effective: 2016 Fall Quarter.

MCN 261—Lactation & Infant Nutrition (6)

Lecture—5 hour(s); Term Paper. Prerequisite(s): MCN 260; Graduate standing. Restricted to students enrolled in the MAS program; other graduate students by consent of instructor. Overview of the physiological and biochemical processes underlying human lactation and nutritional needs of both mother and infant. Development of skills in assessment, nutrition counseling, education and support of new mothers and their families. Effective: 2016 Fall Quarter.

MCN 262—Child & Adolescent Nutrition (6)

Lecture—5 hour(s); Term Paper. Prerequisite(s): MCN 261; Graduate Standing. Restricted to students enrolled in the MAS program; other graduate students by consent of instructor. Relationships among nutrition, growth, and development during childhood and adolescence. Nutritional assessment for normal and high risk groups; psychological, social, and economic factors contributing to nutritional status. Nutritional needs and interventions for special groups, including obese children/adolescents, athletes, and eating disordered. Effective: 2016 Fall Quarter.

MCN 263—Applied Research Methods in Maternal & Child Nutrition (4)

Lecture/Discussion—4 hour(s). Prerequisite(s): Graduate standing. Restricted to students enrolled in the MAS program; other graduate students by consent of instructor. Application of epidemiological principles to the study of maternal and child nutrition. Topics include quantitative & qualitative study procedures, including study design, data collection, and related analytical techniques. Effective: 2018 Winter Quarter.

MCN 264A—Current Topics in Maternal & Child Nutrition: Principles of Adult Education (2)

Seminar—2 hour(s). Prerequisite(s): Graduate standing. Restricted to students enrolled in the MAS program; other graduate students by consent of instructor. Current scientific literature related to Maternal & Child Nutrition in adult education settings. Topics include methods and theories of adult education and critical thinking skills related to research evaluation. Effective: 2017 Spring Quarter.

MCN 264B—Current Topics in Maternal & Child Nutrition: Epidemiology & Evidence-Based Practice (2)

Seminar—2 hour(s). Prerequisite(s): Graduate standing. Restricted to students enrolled in the MAS program; other graduate students by consent of instructor. Current scientific literature related to Maternal & Child Nutrition. Topics include epidemiology, evidence-based practice, breastfeeding promotion, and nutritional assessment of populations. Effective: 2017 Spring Quarter.

MCN 264C—Current Topics in Maternal & Child Nutrition: Public Policy Development & Implementation (2)

Seminar—2 hour(s). Prerequisite(s): Graduate standing. Restricted to students enrolled in the MAS program; other graduate students by consent of instructor. Current scientific literature related to Maternal & Child Nutrition. Topics include nutrition surveillance and monitoring, as well as public policy development and implementation. Effective: 2017 Fall Quarter.

MCP—Molecular, Cellular, & Integrative Physiology

Courses in MCP:**MCP 200L—Animal Cell Culture Laboratory (4)**

Discussion—2 hour(s); Laboratory—6 hour(s). Prerequisite(s): Courses in undergraduate Biochemistry, Cell Biology, or General Physiology, or consent of instructor. Techniques of cell culture, with emphases on cell physiology and the actions of drugs and toxicants on cultured somatic cells. Design, performance and interpretation of experiments with animal cells in vitro. Effective: 2003 Fall Quarter.

MCP 210A—Advanced Physiology (5)

Lecture—3 hour(s); Discussion—2 hour(s). Prerequisite(s): Physiology Ph.D. program or consent of instructor. MCP 210A (or HPH 210A) is a required core course for the Molecular, Cellular, & Integrative Physiology graduate group; course contains thermodynamics discussions and requires substantial math and physics background in order to succeed; approval for registering from Co-IRs is required to get CRN. Advanced course on fundamental principles of cell physiology, transport physiology, signal transduction, physiology of excitable cells, and muscle physiology. (Same course as HPH 210A.) Effective: 2019 Winter Quarter.

MCP 210B—Advanced Physiology (6)

Lecture—5 hour(s); Discussion—1 hour(s). Prerequisite(s): Physiology Ph.D. program, or consent of instructor. Advanced course in general principles of physiology, surveying homeostasis, cellular and selected topics, and neurophysiology. Effective: 2003 Fall Quarter.

MCP 210C—Advanced Physiology (5)

Lecture—5 hour(s). Prerequisite(s): Doctoral student in the Molecular, Cellular, & Integrative Physiology graduate group, or consent of instructor. Graduate level instruction in the general principles of physiology and the neural and humoral control of the cardiovascular, renal, respiratory, gastrointestinal, sensory, musculoskeletal, and reproductive systems. Effective: 2008 Spring Quarter.

MCP 210L—Physiology Laboratory Rotations (5)

Laboratory—15 hour(s). Restricted to Molecular, Cellular, & Integrative Physiology graduate students. One mandatory rotation and up to two voluntary rotations. Students learn techniques and perform experiments related to particular research problems. At the end of the rotations students give a short talk and hand in a research paper. May be repeated up to 2 time(s). (S/U grading only.) Effective: 2014 Spring Quarter.

MCP 215—Electrophysiology Techniques & Applications (3)

Lecture—1.5 hour(s); Discussion—1.5 hour(s). Broad scope of topics in electrophysiology techniques and applications. (Same course as PTX 215.) (S/U grading only.) Effective: 2015 Spring Quarter.

MCP 216—Neurophysiology Literature (3)

Lecture—1 hour(s); Discussion—2 hour(s). Lectures covering experimental and theoretical methods in studying cell membrane ion channels and the resulting characterization of the physiological functions and structure/function relationships of some of the most important channel types. Discussion of classical and current original papers. Effective: 2003 Fall Quarter.

MCP 219—Muscle Growth & Development (3)

Lecture—2 hour(s); Seminar—1 hour(s). Prerequisite(s): BIS 103; (BIS 104 or MCB 150); or Consent of Instructor. Integration of growth and development of skeletal muscle; morphology, biochemistry, neural control mechanisms, circulatory and nutritional factors. Prenatal and neonatal differentiation of fiber types. Experimental and hereditary myopathies. Effective: 2003 Fall Quarter.

MCP 220—General & Comparative Physiology of Reproduction (3)

Lecture—3 hour(s). Prerequisite(s): BIS 101; BIS 103; NPB 110; NPB 110L. Basic phenomena of sexual and asexual reproduction and comparisons of processes in a wide variety of animals; gamete formation, structure, and metabolism; fertilization; neuroendocrine mechanisms in maturation and reproductive cycles; behavioral aspects. Effective: 2003 Fall Quarter.

MCP 222—Mammalian Gametogenesis & Fertilization (3)

Lecture—3 hour(s). Prerequisite(s): NPB 121; Or the equivalent. Emphasizes our current understanding of events in mammalian gametogenesis and the fertilization process. Published results, conclusions drawn from these results, and their contribution to our understanding are discussed. Effective: 2003 Fall Quarter.

MCP 230—Advanced Endocrinology (2)

Lecture—2 hour(s). Prerequisite(s): NPB 130; Or the equivalent, and graduate standing. Focus on timely topic of endocrine research. Critical review of current literature and discussion of future research strategies in the area. May be repeated for credit when topic differs. Effective: 2003 Fall Quarter.

MCP 231—Neuroendocrinology (3)

Lecture—3 hour(s). Prerequisite(s): NPB 130; or the equivalent course in endocrinology; NPB 110 or the equivalent course in systemic physiology. Neural-endocrine interactions; neural regulation of the endocrine system, especially in relation to reproduction; the role of hormones and growth factors in sexual differentiation of the brain. Effective: 2003 Fall Quarter.

MCP 234—Current Topics in Neurotoxicology (3)

Lecture—3 hour(s). Prerequisite(s): Core courses in one of the following graduate programs: Pharmacology & Toxicology (PTX), Agricultural & Environmental Chemistry (AGC), Biochemistry & Molecular Biology (BMB), Cell & Developmental Biology (CDB), Immunology (IMM), Molecular Cellular & Integrative Physiology (MCP) or Neuroscience (NSC). Restricted to upper level undergraduate students must obtain permission from the course coordinator. General principles of neurotoxicology, the cell and molecular mechanisms and health impacts of specific neurotoxicants and the contribution of neurotoxic compounds to complex neurodevelopmental disorders and neurodegenerative diseases. (Same course as ETX 234, VMB 234.) Effective: 2010 Fall Quarter.

MCP 242—Biological Rhythms (3)

Lecture—2 hour(s); Lecture/Discussion—1 hour(s). Prerequisite(s): NPB 110 or the equivalent. General aspects and basic mechanisms of biological rhythms; the importance of rhythm desynchronization in areas of pharmacology and space medicine; telemetry; mathematical methods; chronometry; daily, reproductive, and annual periods; shift-work, jet lag and sleep disorders. Effective: 2003 Fall Quarter.

MCP 255—Physiology of the Stress Response (2)

Lecture/Discussion—2 hour(s). Prerequisite(s): Graduate Student Status. Definition of Stress; Physiological mechanisms of adaptation to stress; Hormonal control of the systemic stress response; Mechanisms of the cellular stress response; Discussion of current trends in stress physiology and current methods for studying the stress response; (Same course as ABG 255.) Effective: 2006 Summer Session 2.

MCP 261A—Topics in Vision: Eyes & Retinal Mechanisms (2)

Lecture/Discussion—2 hour(s). Prerequisite(s): NPB 100 or NPB 112; Or the equivalent; graduate standing. Structure and function of the visual system, with emphasis on the eye and retina, including optics, anatomy, transduction, retinal synapses, adaptation, and parallel processing. (Same course as NSC 261A, NPB 261A.) (S/U grading only.) Effective: 2004 Winter Quarter.

MCP 261B—Topics in Vision: Systems, Psychophysics, Computational Models (2)

Lecture/Discussion—2 hour(s). Prerequisite(s): Consent of Instructor. MCP 261A recommended. Functions of the central visual pathways and their underlying mechanisms. Recent research on aspects of anatomy, biochemistry, electrophysiology, psychophysics, development, and genetics of the visual system. (Same course as NSC 261B, NPB 261B.) (S/U grading only.) Effective: 2004 Winter Quarter.

MCP 261C—Topics in Vision: Clinical Vision Science (2)

Lecture/Discussion—2 hour(s). Prerequisite(s): MCP 261A; MCP 261B; or Consent of Instructor. Causes and mechanistic bases of major blinding diseases. Recent research on aspects of anatomy, biochemistry, electrophysiology, psychophysics, development, and genetics of the visual system related to disease. (Same course as NSC 261C, NPB 261C.) (S/U grading only.) Effective: 2005 Spring Quarter.

MCP 275—Neurohumoral Regulatory Mechanisms of Thermogenesis (3)

Lecture—2 hour(s); Discussion—1 hour(s). Prerequisite(s): BIS 104; BIS 102; and Consent of Instructor. Or equivalent courses. Designed for graduate and advanced undergraduate students, examines thermogenic systems in homeotherms (primarily mammals) with respect to regulation (hormonal and central nervous control) and effector mechanisms (basis of heat generation at the target cell). Effective: 2003 Fall Quarter.

MCP 290—Seminar (1)

Seminar—1 hour(s). Discussion and critical evaluation of advanced topics and current trends in research. (P/NP grading only.) Effective: 2003 Fall Quarter.

MCP 290C—Research Conference in Physiology (1)

Discussion—1 hour(s). Prerequisite(s): Consent of Instructor. Graduate standing. Presentation and discussion of faculty and graduate student research in physiology. May be repeated for credit. (P/NP grading only.) Effective: 2003 Fall Quarter.

MCP 291B—Seminar in Cellular Mechanisms of Adaptation (1)

Discussion—0.5 hour(s); Seminar—0.5 hour(s). Prerequisite(s): BIS 103; NPB 100B; Consent of Instructor. Review and evaluation of current literature and research in cellular adaptations to the environment. May be repeated for credit when topic differs. (P/NP grading only.) Effective: 2003 Fall Quarter.

MCP 291D—Research Approaches in Physiology (2)

Seminar—2 hour(s). Current research in physiology. Overall design of experiments and particular research areas. (P/NP grading only.) Effective: 2003 Fall Quarter.

MCP 293—Current Progress in Physiology (1)

Seminar—1 hour(s). Prerequisite(s): Consent of Instructor. Graduate standing. Seminars presented by guest lecturers describing their current research activities. May be repeated for credit. (P/NP grading only.) Effective: 2003 Fall Quarter.

MCP 298—Group Study (1-5)

Variable. Effective: 2003 Fall Quarter.

MCP 299—Research (1-12)

Variable. (S/U grading only.) Effective: 1997 Winter Quarter.

MCP 300A—Pedagogical Aspects of Physiology in Higher Education (3)

Lecture; Discussion; Laboratory. Prerequisite(s): Meet qualifications for teaching assistant in physiology. Participation as a teaching assistant for one quarter in a designated physiology course. Instruction in methods of leading discussion groups, leading laboratory sections, writing and grading quizzes, operation and use of laboratory equipment, and reading and grading laboratory reports. Meets teaching requirements for Ph.D. program in Physiology. (P/NP grading only.) Effective: 2003 Fall Quarter.

MCP 300B—Pedagogical Aspects of Physiology in Higher Education (3)

Lecture; Discussion; Laboratory. Prerequisite(s): Meet qualifications for teaching assistant in physiology. Participation as a teaching assistant for one quarter in a designated physiology course. Instruction in methods of leading discussion groups, leading laboratory sections, writing and grading quizzes, operation and use of laboratory equipment, and reading and grading laboratory reports. Meets teaching requirements for Ph.D. program in Physiology. (P/NP grading only.) Effective: 2003 Fall Quarter.

MCP 390—The Teaching of Physiology (1)

Discussion—1 hour(s). Prerequisite(s): Consent of Instructor. Teaching Assistant assignment to a physiology lecture course. Practical experience in methods and problems of teaching physiology lecture courses. May include analyses of texts and supporting material, discussion of teaching techniques, preparing for and conducting discussion sessions, and formulation of topics and questions for examinations under supervision of instructor. May be repeated for credit. (P/NP grading only.) Effective: 2003 Fall Quarter.

MDS—Medical Sciences

Courses in MDS:

MDS 099—Special Study in Medicine for Undergraduates (1-5)

Independent Study—3-15 hour(s). Prerequisite(s): Consent of Instructor. Participate in research projects relating to medicine with faculty in the School of Medicine. (P/NP grading only.) Effective: 1997 Fall Quarter.

MDS 192—Medical Education Internship for Advanced Undergraduates (1-12)

Internship—3-36 hour(s). Prerequisite(s): Consent of Instructor. Competency with computers. Enrollment dependent on availability of intern positions. Participate in projects related to curriculum development in support of curriculum for M.D. degree. Gain work experience and appreciation for innovative approaches to learning in basic and clinical sciences of medical education. May be repeated up to 12 unit(s). (P/NP grading only.) Effective: 1997 Winter Quarter.

MDS 400—Summer Pre-Matriculation Program (2)

PE Activity—7 hour(s); Independent Study—15 hour(s); Lecture—14 hour(s). Prerequisite(s): Consent of Instructor. Two-week program provides students from diverse backgrounds an early introduction to learning skills that will facilitate success in medical school. (P/F grading only.) Effective: 2016 Summer Quarter.

MDS 401—Applications of Computers to Medical Practice (2)

Auto Tutorial—2 hour(s). Prerequisite(s): Enrollment in medical school. Proficiency in computer applications relative to practice of medicine, with emphasis on email, literature searching, file transfer, and hospital information services. Given online, at home or in lab; time and place determined by student. (H/P/F grading only.) Effective: 1997 Winter Quarter.

MDS 402—Clinical & Cultural Spanish (1-6)

Lecture—1 hour(s); Practice—1 hour(s); Independent Study—4 hour(s). Prerequisite(s): Consent of Instructor. Fluent Spanish-speaking medical students, nursing students and physician assistants students learn a comprehensive set of medical vocabulary and cultural aspects related to the treatment of Spanish speaking patients. (P/F grading only.) Effective: 2019 Fall Quarter.

MDS 403—Science & Practice of Mindfulness & Compassion (1)

Lecture/Discussion—10 hour(s); Independent Study—20 hour(s). Examines current scientific evidence for the effects of different mindfulness and compassion meditation practices in both healthy and clinical samples. (P/F grading only.) Effective: 2015 Summer Quarter.

MDS 406—Endocrinology, Nutrition, Reproduction & Genetics (9.5)

Lecture—3.8 hour(s); Discussion/Laboratory—2.8 hour(s). Prerequisite(s): BCM 410A; HPH 400; and Consent of Instructor. Restricted to Medical students only. Basic and pathophysiologic processes involved in human reproductive and endocrine control systems, nutritional regulation, and foundational genetics across the lifespan. Integrate information across these systems and use clinical reasoning process to identify and understand relevant perturbations and diseases. May be repeated up to 3 time(s). (P/F grading only.) Effective: 2016 Winter Quarter.

MDS 411—Doctoring 1 (7)

Discussion—1 hour(s); Clinical Activity—1 hour(s); Lecture—1 hour(s). Prerequisite(s): Consent of Instructor. Small group training in patient communication, interviewing techniques, physical exam and clinical identification. Outpatient clinical experiences and didactic presentations also included. (P/F grading only.) Effective: 2018 Summer Quarter.

MDS 411B—Doctoring 1 (5)

Discussion—1.5 hour(s); Clinical Activity—1.5 hour(s); Lecture/Discussion—1.8 hour(s). Medical students only. Small, case-based learning groups with training in patient communication and interviewing techniques, clinical identification and problem solving, applications of social, psychological, cultural, bioethical, and basic science concepts to patient case scenarios, outpatient clinical experiences and didactic presentations. (P/F grading only.) Effective: 2018 Winter Quarter.

MDS 411KA—ACE-PC Program Doctoring 1 (13)

Clinical Activity—5 hour(s); Lecture/Discussion—6 hour(s). Prerequisite(s): Consent of Instructor. Small case-based learning groups with training in patient communication and interviewing techniques clinical identification and problem solving applications of social psychological cultural bioethical and basic science concepts to patient case scenarios outpatient clinical experiences and didactic presentations. (P/F grading only.) Effective: 2014 Summer Quarter.

MDS 411KB—ACE-PC Program Doctoring 1 (5)

Clinical Activity—4 hour(s); Lecture/Discussion—1 hour(s). Prerequisite(s): Consent of Instructor. Application of multidisciplinary basic, social and clinical science to clinical cases in small groups. History, physical examination with preceptors. Didactics in epidemiology, ethics, sexuality and clinical reasoning. Evaluation of professional competencies, attitudes and skills needed in the practice of medicine. (P/F grading only.) Effective: 2015 Winter Quarter.

MDS 415A—Population Health & Evidence-Based Medicine (2)

Lecture—12 hour(s); Discussion—4 hour(s). Prerequisite(s): Consent of Instructor. Introduces the fundamental concepts and tools of population health, evidence-based medicine, and system science. (P/F grading only.) Effective: 2018 Summer Quarter.

MDS 415B—Critical Appraisal of Topics in Population Health (0.5)

Discussion—6 hour(s). Apply foundational skills to explore critical issues in 21st-century public health, including tobacco control, firearm violence, and obesity. In a series of small-group discussions “interpreting the medical literature,” key concepts from epidemiology and biostatistics are reinforced while students are armed with specific strategies for addressing high-risk behaviors in the context of population health. (P/F grading only.) Effective: 2018 Summer Quarter.

MDS 415C—Population Health & System Science (1.5)

Lecture—4 hour(s); Discussion—6 hour(s); Fieldwork—3 hour(s). Prerequisite(s): Consent of Instructor. Addresses the social, economic, cultural, policy-related, and environmental factors that affect the health of populations and individuals, and the role of health care systems (locally, regionally, nationally, and globally) in moderating the effects of these factors. Content builds on MDS 415A & MDS 415B, the TeamPEACE (Teamwork for Professionalism, Ethics, and Cultural Enrichment) curriculum in Doctoring 1, and students’ lived experience in UC Davis free clinics. (P/F grading only.) Effective: 2018 Summer Quarter.

MDS 416A—Clinical Skills (7)

Lecture/Discussion—1 hour(s); Clinical Activity—1 hour(s); Discussion—1 hour(s). First in a series of courses that span across the pre-clerkship curriculum designed to integrate the clinical teaching within the pre-clerkship curriculum at the UC Davis School of Medicine. In year 1, students acquire the foundational knowledge, skills, and attitudes to succeed in medical training, including: history taking, physical exam, and interpersonal communication skills. (P/F grading only.) Effective: 2019 Summer Quarter.

MDS 416B—Clinical Skills B (7)

Discussion—1 hour(s); Lecture—1 hour(s); Clinical Activity—1 hour(s). Second in a series of courses designed to integrate the clinical teaching within the pre-clerkship curriculum at the UC Davis School of Medicine. In year 2, students build upon the foundation in clinical skills and professional behavior set out in year 1. The year 2 clinical skills course involves applying clinical skills to the caring for patients who present with active medical issues requiring further diagnostic investigation and therapeutic management. (P/F grading only.) Effective: 2019 Summer Quarter.

MDS 417A—Clinical Experiences A (1)

Clinical Activity—0.5 hour(s). Clinical Experiences longitudinal thread is designed to provide continued clinical exposure throughout the pre-clerkship curriculum at the UC Davis School of Medicine. In Year 1, students apply the basic physical exam and history taking skills to real-life patients in outpatient clinical settings. (P/F grading only.) Effective: 2019 Summer Quarter.

MDS 417B—Clinical Experiences B (1.5)

Clinical Activity—0.5 hour(s). Clinical Experiences longitudinal thread is designed to provide continued clinical exposure throughout the pre-clerkship curriculum at the UC Davis School of Medicine. In year 2, students use their growing knowledge and skill set to complete supervised encounters with real patients in the inpatient setting. In addition to practicing their physical exam and history taking skills, students apply their presentation and counseling skills in real-life encounters. (P/F grading only.) Effective: 2019 Summer Quarter.

MDS 418A—Health & Humanity A (2)

Lecture/Discussion—1 hour(s). Health and Humanity longitudinal thread is designed to integrate wellness, professionalism, and the behavioral sciences within the pre-clerkship curriculum at the UC Davis School of Medicine. Throughout Year 1, students acquire the foundational knowledge surrounding the social determinants of health, implicit bias, and cultural humility. (P/F grading only.) Effective: 2019 Summer Quarter.

MDS 420—Multisystem Clinical Presentations (0.5)

Extensive Problem Solving—15 hour(s); Independent Study—6 hour(s). Prerequisite(s): Consent of Instructor. Completion of Pathophysiology Block. Capstone course integrates coursework, knowledge, skills and experiential learning to enable the student to demonstrate a broad mastery of learning across the curriculum. (P/F grading only.) Effective: 2014 Winter Quarter.

MDS 421A—Doctoring 2 (6)

Discussion—1 hour(s); Lecture/Discussion—1 hour(s); Internship—0.5 hour(s). Prerequisite(s): Approval by the School of Medicine Committee on Student Progress; medical students only. Application of multidisciplinary basic, social and clinical science to clinical cases in small groups. History, physical examination with preceptors. Didactics in epidemiology, ethics, sexuality and clinical reasoning. Evaluation of professional competencies, attitudes and skills needed in the practice of medicine. (P/F grading only.) Effective: 2007 Summer Quarter.

MDS 421B—Doctoring 2 (6)

Discussion—1 hour(s); Lecture/Discussion—1 hour(s); Internship—0.5 hour(s). Prerequisite(s): Approval by the School of Medicine on Student Progress; medical students only. Application of multidisciplinary basic, social & clinical science concepts to cases in small groups. History, physical examination with preceptors. Didactics in epidemiology, ethics, sexuality, and clinical reasoning. Evaluation of professional competencies, attitudes and skills needed in the practice of medicine. (P/F grading only.) Effective: 2007 Summer Quarter.

MDS 421C—Doctoring 2 (6)

Discussion—1 hour(s); Lecture/Discussion—1 hour(s); Internship—0.5 hour(s). Prerequisite(s): Approval by the School of Medicine Committee on Student Progress; medical students only. Application of multidisciplinary basic, social and clinical science concepts to clinical cases in small group discussions facilitated by medical school faculty. Evaluation of professional competencies, attitudes and skills needed in the practice of clinical medicine. (P/F grading only.) Effective: 2007 Summer Quarter.

MDS 421KA—ACE-PC Program Doctoring 2 (6)

Discussion—1 hour(s); Lecture/Discussion—1 hour(s); Internship—0.5 hour(s). Prerequisite(s): MDS 411KA; MDS 411KB; Admission into ACE-PC. MDS 421KA-C are a year-long series of courses. Objectives and assessments have been accelerated to accommodate the students enrolled in the ACEPC Program. Participate in all aspects of Doctoring 2, other than what was done in MDS 411KA & MDS 411KB. (P/F grading only.) Effective: 2015 Summer Quarter.

MDS 421KB—ACE-PC Program Doctoring 2 (6)

Discussion—1 hour(s); Lecture/Discussion—1 hour(s); Internship—0.5 hour(s). Prerequisite(s): Approval by the School of Medicine on Student Progress; medical students only. MDS 421KA-C are a year-long series of courses. Objectives and assessments have been accelerated to accommodate the students enrolled in the ACEPC Program. Participate in all aspects of Doctoring 2, other than what was done in MDS 411KA & MDS 411KB. (P/F grading only.) Effective: 2015 Summer Quarter.

MDS 421KC—ACE-PC Program Doctoring 2 (6)

Discussion—1 hour(s); Lecture/Discussion—1 hour(s); Internship—0.5 hour(s). Prerequisite(s): Approval by the School of Medicine Committee on Student Progress; medical students only. MDS 421KA-C are a year-long series of courses. Objectives and assessments have been accelerated to accommodate the students enrolled in the ACEPC Program. Participate in all aspects of Doctoring 2, other than what was done in MDS 411KA & MDS 411KB. (P/F grading only.) Effective: 2015 Summer Quarter.

MDS 428—Foundations of Bioethics (1)

Discussion—3 hour(s); Lecture/Discussion—3 hour(s); Independent Study—16.5 hour(s); Web Virtual Lecture—1 hour(s). Prerequisite(s): Consent of Instructor. Exposure to core content in bioethics and the law and introduce a framework for ethical decision-making, while emphasizing relationships between bioethics and clinical care. (P/F grading only.) Effective: 2014 Summer Quarter.

MDS 429—Transition to Clerkships (1) *Review all entries*

Discussion/Laboratory—12 hour(s); Workshop—13 hour(s); Discussion—7 hour(s); Independent Study—2 hour(s). Incoming third-year medical students will participate in a variety of educational experiences designed to prepare them to begin their clerkship curriculum. Content will be disseminated in large and small group settings. (P/F grading only.) Effective: 2015 Spring Quarter.

MDS 429—Transition to Clerkships (1-6) *Review all entries*

Discussion/Laboratory—12 hour(s); Workshop—13 hour(s); Discussion—7 hour(s); Independent Study—2 hour(s). Incoming third-year medical students participate in a variety of educational experiences designed to prepare them to begin their clerkship curriculum. Content disseminated in large and small group settings. (P/F grading only.) Effective: 2020 Summer Quarter.

MDS 430—Introduction to Doctoring 3 (1)

Discussion/Laboratory—2 hour(s). Prerequisite(s): Approval by SOM Committee on Student Progress. Restricted to Medical students only. Application of multidisciplinary basic, social and clinical science concepts to clinical cases in small group discussions facilitated by medical school faculty. Evaluation of professional competencies, attitudes and skills needed in the practice of clinical medicine. (H/P/F grading only.) Effective: 2011 Spring Quarter.

MDS 430A—Doctoring 3 (1)

Discussion—3 hour(s). Prerequisite(s): Approval by SOM Committee on Student Progress. Restricted to Medical students only. Application of multidisciplinary basic, social and clinical science concepts to clinical cases in small group discussions facilitated by medical school faculty. Evaluation of professional competencies, attitudes and skills needed in the practice of clinical medicine. (H/P/F grading only.) Effective: 2015 Spring Quarter.

MDS 430B—Doctoring 3 (1)

Discussion—2 hour(s). Prerequisite(s): Approval by SOM Committee on Student Progress. Restricted to Medical students only. Application of multidisciplinary basic, social & clinical science concepts to clinical cases in small group discussions facilitated by medical school faculty. Evaluation of professional competencies, attitudes and skills needed in the practice of clinical medicine. (H/P/F grading only.) Effective: 2015 Spring Quarter.

MDS 430C—Doctoring 3 (1)

Discussion—2 hour(s). Prerequisite(s): Approval by SOM Committee on Student Progress. Restricted to Medical students only. Application of multidisciplinary basic, social & clinical science concepts to clinical cases in small group discussions facilitated by medical school faculty. Evaluation of professional competencies, attitudes and skills needed in the practice of clinical medicine. (H/P/F grading only.) Effective: 2015 Spring Quarter.

MDS 430D—Doctoring 3 (1)

Discussion—2 hour(s). Prerequisite(s): Approval by SOM Committee on Student Progress. Restricted to Medical students only. Application of multidisciplinary basic, social & clinical science concepts to clinical cases in small group discussions facilitated by medical school faculty. Evaluation of professional competencies, attitudes and skills needed in the practice of clinical medicine. (H/P/F grading only.) Effective: 2015 Summer Quarter.

MDS 435KA—ACE-PC Longitudinal Integrated Clerkship A (18)

Clinical Activity—45 hour(s); Independent Study—6 hour(s); Discussion—4 hour(s). Prerequisite(s): Consent of Instructor. Longitudinal Clerkship will combine the Internal Medicine, OBGYN, Pediatrics, Psychiatry and Surgery Clerkships for the ACE-PC Program. (H/P/F grading only.) Effective: 2016 Spring Quarter.

MDS 435KB—ACE-PC Longitudinal Integrated Clerkship B (21)

Clinical Activity—45 hour(s); Independent Study—6 hour(s); Discussion—4 hour(s). Prerequisite(s): Consent of Instructor. Longitudinal Clerkship will combine the Internal Medicine, OBGYN, Pediatrics, Psychiatry and Surgery Clerkships for the ACE-PC Program. (H/P/F grading only.) Effective: 2016 Spring Quarter.

MDS 435KC—ACE-PC Longitudinal Integrated Clerkship C (18)

Clinical Activity—45 hour(s); Independent Study—6 hour(s); Discussion—4 hour(s). Prerequisite(s): Consent of Instructor. Longitudinal Clerkship will combine the Internal Medicine, OBGYN, Pediatrics, Psychiatry and Surgery Clerkships for the ACE-PC Program. (H/P/F grading only.) Effective: 2016 Spring Quarter.

MDS 440—Doctoring 4 Teaching Fellowship (3)

Discussion—0.5 hour(s); Seminar—0.3 hour(s). Prerequisite(s): MDS 430A; MDS 430B; MDS 430C; MDS 430D; and Consent of Instructor. Restricted to Medical student only. Instruction on teaching methodology and pedagogy. Mentored teaching of junior medical students in seminar, lecture, and bedside. (H/P/F grading only.) Effective: 2015 Spring Quarter.

MDS 441—Combined Ophthalmology & Otolaryngology Clerkship (6)

Clinical Activity—4 hour(s). Prerequisite(s): Approval by Committee on Student Promotion and Evaluation. Fundamental knowledge of ophthalmology and otolaryngology for the treatment of eye, ear, nose and throat problems at a level of training of general physicians, including when to refer patients to a specialist. (H/P/F grading only.) Effective: 1997 Summer Quarter.

MDS 445—Race & Health in the United States (3-6)

Discussion—4 hour(s). Interprofessional course facilitates the professional and personal developmental of medical students and other health professions students who think they would like to be leaders in securing equity in population health and work environments. (P/F grading only.) Effective: 2017 Fall Quarter.

MDS 449—Transition to Residency (3-6)

Clinical Activity. Prerequisite(s): Consent of Instructor. Transition to Residency program addresses the graduating medical students need to improve clinical skills necessary for the first six months of residency and unmet graduation competencies in our competency-based curriculum. (P/F grading only.) Effective: 2017 Fall Quarter.

MDS 450—Introduction to UC Davis Medical Center (1)

Seminar. Prerequisite(s): Second-year medical student. Designed to assist medical student in transition from classroom to hospital setting. (H/P/F grading only.) Effective: 1997 Winter Quarter.

MDS 455—Student Run Clinics (1-12)

Clinical Activity—3-9 hour(s). Open to medical students in good standing. Learn counseling, diagnosis and treatment of patients with chronic and acute disease under supervision of physician. Meet all requirements and prerequisites of the particular clinic within which they work. May be repeated for credit. (P/F grading only.) Effective: 2020 Spring Quarter.

MDS 459—Entry to ARC-MD (2)

Lecture/Discussion—4 hour(s); Laboratory—25 hour(s). Designed to orient ARC-MD and PSTP students to research opportunities at UC Davis, provide a structure for group engagement, expose them to hearing and asking critical research questions, and provide a foundation for the five-year research experience linked to the SOM curriculum. (P/F grading only.) Effective: 2019 Summer Quarter.

MDS 460CR—Introduction to Clinical Research (2)

Lecture—2 hour(s); Independent Study—3 hour(s). Restricted to completion of M.D., D.D.S, D.M.D., O.D., N.D., Pharm.D., D.V.M., Ph.D., or D.N.S. in nursing; application and acceptance into the Clinical Research Graduate Group, K30 program Introduction to the CRGG program and overview of major clinical research topics. Overview of basic clinical skills needed to accomplish CRGG mentored research project. (P/F grading only.) Effective: 2006 Summer Special Session.

MDS 461CR—Strategies for Grant Writing (2)

Lecture—2 hour(s). Restricted to completion of M.D., D.D.S, D.M.D., O.D., N.D., Pharm.D., D.V.M., Ph.D., or D.N.S. in nursing; application and acceptance into the Clinical Research Graduate Group, K30 program. Practical skills and strategies to create successful grant proposals in the NIH style and format. Generating ideas, identifying and accessing research resources, grant components, specific aims, background and significance, preliminary studies, budgets, and bios. Matriculation through UC system, and resubmissions. (S/U grading only.) Effective: 2007 Spring Quarter.

MDS 462CR—Introduction to Clinical Epidemiology & Study Design (3)

Lecture—25 hour(s); Discussion—10 hour(s). Restricted to completion of M.D., D.D.S, D.M.D., O.D., N.D., Pharm.D., D.V.M., Ph.D., or D.N.S. in nursing; application and acceptance into the Clinical Research Graduate Group, K30 program. Anatomy and physiology of conducting clinical epidemiologic research. Familiarity with three basic study designs (cross-sectional, case-control, and cohort). Discussion of principles of measurements in clinical epidemiological studies, basic methods for analyzing data, and ethical issues involved in conducting research. (S/U grading only.) Effective: 2004 Summer Special Session.

MDS 463CR—Methods in Clinical Research (5)

Lecture—3 hour(s); Discussion—2 hour(s). Restricted to completion of M.D., D.D.S, D.M.D., O.D., N.D., Pharm.D., D.V.M., Ph.D., or D.N.S. in nursing; application and acceptance into the Clinical Research Graduate Group, K30 program. Overview of major approaches to clinical research, including health services research techniques, informatics, the GCRC, and preclinical methodologies to enhance clinical projects. Overview of UC Davis clinical research support infrastructure. Methodologies applicable to clinical research and its multi-disciplinary perspective. (S/U grading only.) Effective: 2007 Spring Quarter.

MDS 464CR—Responsible Conduct of Research (3)

Lecture—3 hour(s). Restricted to completion of M.D., D.D.S, D.M.D., O.D., N.D., Pharm.D., D.V.M., Ph.D., or D.N.S. in nursing; application and acceptance into the Clinical Research Graduate Group, K30 program. The nine NIH-mandated modules: Data Acquisition and Reporting, Mentor Training, Publication Practices and Authorship, Peer Review/Grant Process, Collaborative Science, Human Subjects, Research with Animals, Conflict of Interest, Research Misconduct, and Entrepreneurship/Industry Collaborations/Intellectual Property/Technology Transfer. (S/U grading only.) Effective: 2004 Summer Special Session.

MDS 465CR—Introduction to Medical Statistics (4)

Lecture—3 hour(s); Laboratory—2 hour(s). Restricted to completion of M.D., D.D.S, D.M.D., O.D., N.D., Pharm.D., D.V.M., Ph.D., or D.N.S. in nursing; application and acceptance into the Clinical Research Graduate Group, K30 program. Biomedical applications of statistical methods in clinical, laboratory and population medicine. Graphical/tabular data presentation, probability, binomial, Poisson, normal, t-, F-, and Chi-square distributions, elementary nonparametric methods, simple linear regression/correlation, life tables. Microcomputer applications of statistical procedures in population medicine. (S/U grading only.) Effective: 2005 Summer Special Session.

MDS 468C—International Clinical Preceptorship (1-12)

Clinical Activity—30 hour(s). Prerequisite(s): Consent of Instructor. Medical students. Multidisciplinary preceptorship in a foreign country. Clinical credit will be awarded using this course, once approval has been received from the appropriate governing committee. May be repeated for credit. (H/P/F grading only.) Effective: 2015 Spring Quarter.

MDS 468D—International Elective (1-12)

Independent Study—20 hour(s); Clinical Activity—10 hour(s). Prerequisite(s): Consent of Instructor. Medical students. Multidisciplinary preceptorship in a foreign country. Used to award non-clinical credit for international experiences which have been approved by the appropriate governing committee. May be repeated for credit. (H/P/F grading only.) Effective: 2015 Summer Quarter.

MDS 469—Rx One Health SSM (6)

Clinical Activity—30 hour(s); Independent Study—8 hour(s); Lecture—10 hour(s). Field course in epidemiology and public health leadership. (P/F grading only.) Effective: 2019 Fall Quarter.

MDS 470—Introduction to Dentistry (3-18)

Clinical Activity—34 hour(s); Lecture—6 hour(s); Variable—3-18 hour(s). Prerequisite(s): Consent of Instructor. Fourth-year medical student in good standing. Introduction to Dentistry and basic Oral and Maxillofacial Surgery. Offered by the Oral and Maxillofacial Surgery department at UC San Francisco. (P/F grading only.) Effective: 2009 Fall Quarter.

MDS 480—Insights in Clinical Research (1)

Lecture—1 hour(s). Prerequisite(s): Medical student in good standing. Seminars on research presented by Medical School faculty; overview of pertinent issues, including medical ethics, human subjects protocols, case control methods, etc. May be repeated for credit. (P/F grading only.) Effective: 2005 Spring Quarter.

MDS 481—Insights into Clinical Specialties (1)

Lecture/Discussion—1 hour(s). Prerequisite(s): Medical student in good standing. Exposure to various medical specialties, their residency programs and ways in which medical students can prepare for and improve their candidacy for such programs. May be repeated for credit. (H/P/F grading only.) Effective: 1998 Winter Quarter.

MDS 482—Lecture Series in Reproductive Health (1)

Lecture—1 hour(s). Psychosocial and public health aspects of providing quality reproductive health care and application in student-run free clinics and in 3rd year clerkships. May be repeated up to 2 time(s). Only medical students may enroll for credit; undergraduates may audit the course. (P/F grading only.) Effective: 2002 Winter Quarter.

MDS 483—Insights in Political, Legal & Business Aspects of Medicine (1)

Lecture—1 hour(s). Prerequisite(s): Medical students in good standing. Restricted to Medical student only. Practical aspects of a medical career. May be repeated up to 2 time(s). (P/F grading only.) Effective: 2002 Spring Quarter.

MDS 484—First Aid for Health Policy (1)

Lecture. Introduces the fundamental concepts and tools of health policy which are becoming necessary for students and physicians to become invested and active participants in healthcare. Focuses on the basic principles of health policy—the structure of government, how a bill becomes a law, the role of legislative visits, the role of healthcare foundations in California, the role of non-profits in California, our current healthcare system after the Affordable Care Act. (P/F grading only.) Effective: 2020 Winter Quarter.

MDS 485—Health Policy Lecture Series (1)

Lecture—1 hour(s). Lecture series provides an overview of local, state, national and international health policy. The current challenges health care reform implementation is facing provides how medical students can successfully advocate for changes in health policy. May be repeated for credit. (P/F grading only.) Effective: 2011 Fall Quarter.

MDS 486—Topics in Health Care Improvement (0.5)

Lecture/Discussion—15 hour(s). Lecture series will cover major topics in health care improvement, presented by guest speakers who are leaders in the field. May be repeated for credit. (P/F grading only.) Effective: 2015 Spring Quarter.

MDS 487—History & Ethics of Medicine (1)

Lecture—1.3 hour(s). Introduction to ethical problems and events in health care in both modern and historical contexts. Eight one-hour and fifteen-minute interactive sessions designed to introduce students to historical topics in medicine and medical ethics. (P/F grading only.) Effective: 2004 Winter Quarter.

MDS 489—Directed Studies (1-9)

Prerequisite(s): Consent of Instructor. Individual directed studies in extended preparation for modified curriculum, USMLE exams, and/or as required by Committee on Student Progress. Independent studies to accommodate modified curriculums, prepare for taking USMLE exams and for remediation course work directed by the Committee on Student Progress. May be repeated for credit. (P/F grading only.) Effective: 2009 Winter Quarter.

MDS 489C—Clinical Reintroduction Experience (1-9)

Clinical Activity—20 hour(s). Prerequisite(s): Consent of Instructor. Learn and practice basic clinical skills in a supervised clinical setting. Skills include patient interviewing, history, physical examination, diagnostic and clinical reasoning, case presentation, and medical records documentation. Direct observation and individual feedback on clinical skills development is provided. (P/F grading only.) Effective: 2012 Summer Quarter.

MDS 489R—USMLE Directed Remedial Studies (1-9)

Independent Study—20 hour(s). Prerequisite(s): Recommendation by Committee on Student Progress. Independent studies to accommodate remediation for taking USMLE exams directed by the Committee on Student Progress. May be repeated for credit. (P/F grading only.) Effective: 2011 Spring Quarter.

MDS 490A—Community Health Scholars Seminar A (1.5)

Lecture—1 hour(s). Prerequisite(s): Consent of Instructor. Longitudinal year-long course starting on July 1 and concluding at the end of Block 2. Focuses on immersing students in their respective communities to understand the strengths and challenges they face in relation to health. May be repeated for credit. (P/F grading only.) Effective: 2017 Summer Quarter.

MDS 490B—Community Health Scholars Seminar B (0.5)

Lecture—1 hour(s). Prerequisite(s): Consent of Instructor. Longitudinal year-long course starting on July 1 and concluding at the end of Block 2. Focuses on immersing students in their respective communities to understand the strengths and challenges they face in relation to health. May be repeated for credit. (P/F grading only.) Effective: 2017 Summer Quarter.

MDS 490C—Community Health Scholars Seminar C (0.5)

Lecture—1 hour(s). Prerequisite(s): Consent of Instructor. Longitudinal year-long course starting on July 1 and concluding at the end of Block 2. Focuses on immersing students in their respective communities to understand the strengths and challenges they face in relation to health. May be repeated for credit. (P/F grading only.) Effective: 2017 Summer Quarter.

MDS 490D—Community Health Scholars Seminar D (0.5)

Lecture—1 hour(s). Prerequisite(s): Consent of Instructor. Longitudinal year-long course starting on July 1 and concluding at the end of Block 2. Focuses on immersing students in their respective communities to understand the strengths and challenges they face in relation to health. May be repeated for credit. (P/F grading only.) Effective: 2017 Summer Quarter.

MDS 492—Interpretive Electrophysiology & Applied Cardiology—SSM (6)

Lecture/Discussion—12 hour(s); Clinical Activity—20 hour(s). Four-week special study module teaches and provides a basis for systemic interpretation of the EKG as well as cardiology management with the underserved populations in the Central Valley. Addresses underlying normal cardiac structure/function and cardiac abnormalities as reflected in the EKG and tie in the underlying basic science principles of cardiac electrophysiology. (P/F grading only.) Effective: 2020 Winter Quarter.

MDS 493—Independent Special Study Module (3-12)

Variable—20 hour(s). Prerequisite(s): Consent of Instructor. FYOC approval required. Student developed alternative to the SSM/SPO Requirement. Approval by FYOC is required. (H/P/F grading only.) Effective: 2015 Winter Quarter.

MDS 493A—International & Comparative Health Care: SSM (6)

Discussion—20 hour(s); Lecture—10 hour(s). Prerequisite(s): Consent of Instructor. Restricted to UC Davis School of Medicine students only. Through a series of lectures, seminars and clinical experiences, all occurring in other nations, students will research how health care systems address critical health issues. SSM Component. (H/P/F grading only.) Effective: 2012 Spring Quarter.

MDS 493B—International & Comparative Health Care: Clinical (3-9)

Clinical Activity—30 hour(s). Prerequisite(s): Consent of Instructor. Restricted to UC Davis School of Medicine students only. Through a series of lectures, seminars and clinical experiences, all occurring in other nations, students will research how health care systems address critical health issues. Clinical Component. (H/P/F grading only.) Effective: 2014 Spring Quarter.

MDS 493D—Teaching the Basic Sciences SSM (6)

Lecture—6 hour(s); Lecture/Lab—8 hour(s); Laboratory—30 hour(s); Tutorial—10 hour(s). Prerequisite(s): MDS 440 (can be concurrent); and Consent of Instructor. MDS 440 required concurrently. Restricted to UC Davis School of Medicine students only. Special Studies Module, a yearlong in progress court to teach lecture and discussion education technique and theory. (H/P/F grading only.) Effective: 2015 Spring Quarter.

MDS 493Q—Improving Quality in Health Care (6)

Lecture—8 hour(s); Discussion/Laboratory—10 hour(s); Project (Term Project)—10 hour(s). Prerequisite(s): Consent of Instructor. Working in interdisciplinary teams, will explore the theory and practical methods being employed to make improvement in health care systems while providing an opportunity for interprofessional educational experience. (H/P/F grading only.) Effective: 2015 Fall Quarter.

MDS 493QA—Improving Quality in Health Care (3)

Lecture—8 hour(s); Discussion/Laboratory—10 hour(s); Project (Term Project)—10 hour(s). Prerequisite(s): Consent of Instructor. Working in interdisciplinary teams, will explore the theory and practical methods being employed to make improvement in health care systems while providing an opportunity for interprofessional educational experience. (H/P/F grading only.) Effective: 2012 Fall Quarter.

MDS 493QB—Improving Quality in Health Care (3)

Lecture—8 hour(s); Discussion/Laboratory—10 hour(s); Project (Term Project)—10 hour(s). Prerequisite(s): Consent of Instructor. Working in interdisciplinary teams, will explore the theory and practical methods being employed to make improvement in health care systems while providing an opportunity for interprofessional educational experience. (H/P/F grading only.) Effective: 2012 Fall Quarter.

MDS 493QC—Enhancing Patient Safety in Health Care (6)

Seminar—6 hour(s); Clinical Activity—8 hour(s); Discussion—6 hour(s). Prerequisite(s): Consent of Instructor. Fourth-year Medical student. Inter-professional module is designed to explore the theory and practical methods being employed to improve patient safety in health care while providing an opportunity for interprofessional educational experience. (H/P/F grading only.) Effective: 2013 Spring Quarter.

MDS 494—Non-Clinical Medical Student Externship (3-9)

Independent Study—20 hour(s); Clinical Activity—10 hour(s). Prerequisite(s): Consent of Instructor. Restricted to students with approval of credit by the Fourth Year Oversight Committee. Generic course for awarding externship credit for medical student rotations that are not primarily focused on patient care. May be repeated for credit. (H/P/F grading only.) Effective: 2014 Fall Quarter.

MDS 495—Medicine Literature Review (1-9)

Discussion—3-27 hour(s). Prerequisite(s): Medical student in good academic standing and permission of the Associate Dean of Curricular Affairs. Independent study: topics for selection include, but are not restricted to, medical ethics, economics and jurisprudence, culture and medicine, ethnicity and medicine, gender and medicine, history of medicine, health manpower, and medical education. A prepared paper on the selected topic will be required. (P/F grading only.) Effective: 1997 Fall Quarter.

MDS 497—Scholarly Project (6)

Seminar—0.3 hour(s); Independent Study—0.5 hour(s). Prerequisite(s): Consent of Instructor. Project proposal must be accepted by the Scholarly Project Executive Committee (SPEC). Restricted to 4th year medical school students only. Develop a research project on a focused topic area, implements the research, writes a publishable paper, and presents an oral summary of the project. (H/P/F grading only.) Effective: 2015 Spring Quarter.

MDS 499—Medical Student Research Fellowship (1-9)

Independent Study—10-36 hour(s). Prerequisite(s): Medical students in good standing and competency with computers. Independent research project as part of the Medical Student Research Fellowship. (H/P/F grading only.) Effective: 2018 Summer Quarter.

MGB—Management; Working Professional Bay Area

Courses in MGB:

Students must complete the Management core course requirement before enrolling in any of the following elective courses, or petition with consent of the instructor. The core courses include: 200A, 201A, 201B, 202A, 203A, 204, 205, 252, 268, 440, 440A, 440B, 440C. For a list of elective courses, see <https://webapps.gsm.ucdavis.edu/Raps/courses/curriculumOverviewByProgram?program=SMBA>.

MGB 200A—Financial Accounting (3)

Lecture—3 hour(s). Prerequisite(s): Graduate student in the Graduate School of Management. Introduction to the concepts and objectives underlying the preparation of financial statements. Topics include understanding the accounting cycle, measurement and valuation problems associated with financial statement components, consideration of the usefulness of financial statements in the analysis of a corporation's operations. Effective: 2009 Fall Quarter.

MGB 200B—Managerial Accounting (3)

Lecture—3 hour(s). Prerequisite(s): MGT 200A or MGB 200A or MGP 200A. Information managers should know to be effective, including: product costing, motivating people, and differential analysis for decision making. Includes team projects and written and oral presentations. Effective: 2017 Fall Quarter.

MGB 201A—The Individual & Group Dynamics (3)

Lecture—3 hour(s). Prerequisite(s): Graduate student in the Graduate School of Management. Examines basic psychological and social psychological processes shaping human behavior and applies knowledge of these processes to the following organizational problems: motivation, job design, commitment, socialization, culture, individual and group decision making, and team building. Effective: 2009 Fall Quarter.

MGB 201B—Organizational Strategy & Structure (3)

Lecture/Discussion—3 hour(s). Prerequisite(s): Completion of first year courses in Graduate School of Management or the equivalent. Open to MBA students only. Strategic management of organizations, including analysis of industries, firm resources and capabilities and corporate strategy. Strategy formulation, implementation and strategic decision-making. Firm and industry life cycles and change. Analysis of organizational design and structure including differentiation and integration. Effective: 2011 Fall Quarter.

MGB 202B—Business, Government, & the International Economy (3)

Lecture—3 hour(s). Prerequisite(s): MGV 202AV or MGT 202A or MGP 202A. Examines the influence of government and international factors on business. Topics include distribution of income, business cycles, inflation and interest rates, the federal debt, monetary policy and international trade and finance. Effective: 2017 Fall Quarter.

MGB 203A—Data Analysis for Managers (3)

Lecture—3 hour(s). Prerequisite(s): Graduate student in the Graduate School of Management MBA program or consent of instructor. Introduction to statistics and data analysis for managerial decision making. Descriptive statistics, principles of data collection, sampling, quality control, statistical inference. Application of data analytic methods to problems in marketing, finance, accounting, production, operations, and public policy. Effective: 2009 Fall Quarter.

MGB 203B—Forecasting & Managerial Research Methods (3)

Lecture—3 hour(s). Prerequisite(s): MGT 203A or MGP 203A or MGB 203A. Practical statistical methods for managerial decision making covers regression analysis, time series analysis and forecasting, design and analysis of experiments in managerial research and contingency table analysis. Application of these methods to marketing, finance, accounting, production, operations, and public policy. Effective: 2017 Fall Quarter.

MGB 204—Marketing Management (3)

Lecture—3 hour(s). Prerequisite(s): Graduate student in the Graduate School of Management. Analysis of market opportunities, elements of market research, development of marketing strategies, market planning and implementations, and control systems. Consumer and industrial markets, market segmentation, pricing strategies, distribution channels, promotion, and sales. Effective: 2009 Fall Quarter.

MGB 205—Financial Theory & Policy (3)

Lecture—3 hour(s). Prerequisite(s): Graduate student in the Graduate School of Management. Corporate financial policy and investment management. Covers capital budgeting, optimal financial structure, cost-of-capital determination, risk measurement. Develops basic valuation principles for investments with long-lived and risky cash-flows, and extends these to derivative securities, asset portfolios, investment management and hedging. Effective: 2010 Spring Quarter.

MGB 206—Decision Making & Management Science (3)

Lecture—3 hour(s). Prerequisite(s): Graduate student in the Graduate School of Management MBA program or consent of instructor. Develops decision-making and problem-solving skills in conjunction with a quantitative model-building approach. Emphasizes how structured modeling techniques, probability forecasts, simulations, and computer optimization models are used in the overall process of making decisions in an uncertain environment. Effective: 2009 Fall Quarter.

MGB 207—Management Information Systems (3)

Lecture—3 hour(s). Prerequisite(s): Graduate Student or consent of instructor. Introduction to computer programming and data handling skills. Use of computer in organizations, emphasis on managerial aspects of computing. Standard and nonstandard uses of data files, centralization versus decentralization of computing, office automation, computer security. Effective: 2009 Fall Quarter.

MGB 215—Business Law (3)

Lecture—3 hour(s). Prerequisite(s): Completion of administration core requirements or petition with consent of instructor. Introduction to law and legal process in the United States. Sources of law. Structure and operation of courts, federal-state relationships, fundamentals of administrative law, fundamentals of business law. Effective: 2009 Fall Quarter.

MGB 216—Managing Professionals, Budgets, Controls & Ethics (3)

Lecture—3 hour(s). Prerequisite(s): Graduate standing. Performance measures, budgetary controls and ethical pressures which occur at middle management levels in service-type operations. Addresses such organizations as engineering, medical groups, law offices, management consultants. Effective: 2009 Fall Quarter.

MGB 220—Management of Social Networks (3)

Lecture/Discussion—3 hour(s). Prerequisite(s): MGB 201A. Open to MBA students only. Principles and applications of social network theory: coordinating divergent interests to create value for individuals and organizations. Emphasis on conceptual models, web-based diagnostic tools, and practical applications. Effective: 2009 Fall Quarter.

MGB 223—Power & Influence in Management (3)

Seminar—3 hour(s). Prerequisite(s): MGT 201A or MGB 201A or MGP 201A; Consent of Instructor. Investigation of the bases of power in organizations and the tactics used to translate power into influence. Topics include the control of resources (including information), social psychological processes (including commitment), the construction of meaning, and ethics. Effective: 2017 Fall Quarter.

MGB 224—Managing People in High-Performance Organizations (3)

Lecture—3 hour(s). Prerequisite(s): MGT 201A or MGB 201A or MGP 201A. Restricted to students in the MBA program. Strategic approach to the management of people within organization. Analyze employment systems' fit with firms' environments and strategies. Explore consequences of choices firms make in managing people—decisions as to selection, performance evaluation, compensation, and other management policies and practices. Not open to students who have taken MGT 224 or MGP 224. Effective: 2017 Fall Quarter.

MGB 234—Pricing (3)

Lecture/Discussion—3 hour(s). Prerequisite(s): (MGT 202A or MGV 202AV or MGP 202A); (MGP 203B or MGB 203B or MGT 203B); (MGT 204 or MGB 204 or MGP 204). Restricted to students in the MBA program. Combines lectures, cases and homework to teach students tools and skills necessary to analyze pricing situations, make pricing decisions, and implement them, in a systematic manner. Effective: 2017 Fall Quarter.

MGB 239—Digital Marketing (3)

Lecture/Discussion—3 hour(s). Prerequisite(s): MGB 204 or MGT 204 or MGP 204. Equips students for a career in digital marketing and social media. Topics include online advertising, search engine optimization, interactive mktg, online privacy issues, e-commerce, social influence, social network theory, measurement of social influence, integrating social and traditional media. Effective: 2017 Fall Quarter.

MGB 240—Management Policy & Strategy (3)

Lecture—3 hour(s). Prerequisite(s): First-year core courses of M.B.A. program. Examines the scope of missions, objectives strategies, policies, structures, measurements and incentives which bear on the management of an organization. Real client organizations, in the private and public sectors, are assigned to student teams as the subjects of study. Effective: 2009 Fall Quarter.

MGB 241—New Product Development (3)

Lecture/Discussion—3 hour(s). Prerequisite(s): MGT 204 or MGB 204 or MGP 204. Open to graduate students in the Graduate School of Management. State-of-the-art concepts and methods to enhance the effectiveness of new product development activities. Focuses on the understanding of managerial issues and acquiring the ability to solve problems. Effective: 2017 Fall Quarter.

MGB 242—Marketing Communications (3)

Lecture—3 hour(s). Issues in designing a marketing communications strategy. Topics include mass and direct communications, institutional aspects of advertising, consumer behavior, evaluating ad effectiveness, determining ad budget, creative strategy, and use and abuse of promotions. Effective: 2009 Fall Quarter.

MGB 243—Customer Relationship Management (3)

Lecture/Discussion—3 hour(s). Prerequisite(s): MGT 204 or MGB 204 or MGP 204. Restricted to MBA students only. Customer Relationship Management (CRM) is a management approach under which marketing activities are organized and measured around customers (rather than around brands.) This approach is appealing because customers, not brands, are those who make buying decisions. Effective: 2017 Fall Quarter.

MGB 244—New & Small Business Ventures (3)

Lecture—3 hour(s). Prerequisite(s): MGT 204 or MGP 204 or MGB 204. Student teams develop complete business plans for their own start-up ventures. Process includes: elevator pitch, business strategy, comprehensive bottoms-up financial projections, capital requirements, product differentiation, competitive, alliance, and go-to-market strategy development, investor presentation, and comprehensive written business plan. Effective: 2017 Fall Quarter.

MGB 245—Business Writing (3)

Lecture/Discussion—3 hour(s). Prerequisite(s): Completion of first-year core courses at the Graduate School of Management or the equivalent. Restricted to MBA students only. Techniques for sharpening writing skills are introduced, along with grammatical structure, word choice, and punctuation. Learn to develop styles that are pitch-perfect for given situations and to think strategically about each communication challenge in a management setting. Effective: 2011 Fall Quarter.

MGB 246—Negotiation & Team Building (3)

Lecture/Discussion—3 hour(s). Prerequisite(s): MGB 205; MGB 202. Basic theory of negotiation; applies theory to process of building teams to achieve business purposes. Covers integrative and distributive strategies of claiming value, how to recognize bargaining tricks, uncovering hidden agendas, brainstorming to extend Pareto frontier. Effective: 2011 Fall Quarter.

MGB 247—Customer Service as a Marketing Tool (3)

Lecture—3 hour(s). Understanding the distinct features of services, how to create value through service, methods of building strong relationships with customers, methods of measuring and building customer satisfaction, and measuring the financial impact of service improvement. Effective: 2009 Fall Quarter.

MGB 248—Marketing Strategies (3)

Lecture—3 hour(s). Prerequisite(s): (MGT 202A or MGV 202AV or MGP 202A); (MGP 204 or MGT 204 or MGB 204). Examines process by which organizations develop strategic marketing plans. Includes definition of activities and products, marketing audits, appraising market opportunities, design of new activities and products, and organizing marketing planning function. Applications to problems in private and public sector marketing. Effective: 2017 Fall Quarter.

MGB 249—Marketing Research (3)

Lecture—3 hour(s). Prerequisite(s): (MGT 202A or MGV 202AV or MGP 202A); (MGP 203A or MGB 203A or MGT 203A); (MGT 204 or MGB 204 or MGP 204). Addresses the managerial issues and problems of systematically gathering and analyzing information for making private and public marketing decisions. Covers the cost and value of information, research design, information collection, measuring instruments, data analysis, and marketing research applications. Effective: 2017 Fall Quarter.

MGB 250—Technology Competition & Strategy (3)

Lecture—3 hour(s). Prerequisite(s): (MGT 202A or MGV 202AV or MGP 202A); (MGP 203A or MGB 203A or MGT 203A). Restricted to students in the MBA program. Why is software typically so defective? Why do many firms in the IT industry give away their best products free? Helps analyze questions like these by modeling competition and strategy in the network, technology and information industries. Effective: 2017 Fall Quarter.

MGB 251—Management of Innovation (3)

Lecture—3 hour(s). Prerequisite(s): MGT 201A or MGB 201A or MGP 201A. Managing innovative enterprise in changing and uncertain environments. Covers technology forecasting and assessment, program selection and control, financial management, regulation, and ethics. Effective: 2017 Fall Quarter.

MGB 252—Managing for Operational Excellence (3)

Lecture—3 hour(s). Prerequisite(s): MGB 203A or MGP 203A or MGT 203A. Open to students in the Graduate School of Management. Explores the management of operations as applied to manufacturing as well as services provided both inside and outside the organization. Develop an understanding of how uncertainty affects planning and delivery by looking at fundamental models of operations. Effective: 2018 Spring Quarter.

MGB 253—Corporate Social Responsibility (3)

Lecture—3 hour(s). Develop a thought process and approach to corporate social responsibility that students will be able to build on during their post-school leadership roles, whether as corporate executives, entrepreneurs, or NGO leaders. Effective: 2016 Spring Quarter.

MGB 255—Entrepreneurship & Venture Investment Clinic (3)

Lecture—3 hour(s). Limited to 30 students. Provides the necessary analytical and design tools to create business ideas and refine business models based on emerging technologies. Students learn to work closely in small teams to synthesize technical, strategic, and marketing needs into designs for new ventures. Effective: 2016 Spring Quarter.

MGB 258—Mergers & Acquisitions (3)

Lecture—3 hour(s). Prerequisite(s): MGB 205. Focuses on the market for corporate acquisitions and restructuring activity. Topics include: sources of value creation; takeovers; anti-takeover provisions; bidding strategies; use of leverage in buyouts; regulatory risk and hurdles; and, valuation approaches for highly leveraged transactions. Effective: 2015 Spring Quarter.

MGB 259—Banking & the Financial System (3)

Lecture—3 hour(s). Prerequisite(s): MGP 205 or MGT 205; Consent of Instructor. Analyzes the role of financial markets and institutions in allocating capital. Focuses on: bank lending; debt securities; financial market innovations; regulation; functions of commercial banks and other financial intermediaries. Utilizes case studies. Effective: 2016 Spring Quarter.

MGB 260—Corporate Finance (3)

Lecture—3 hour(s). Prerequisite(s): (MGT 200A or MGB 200A or MGP 200A); (MGP 202A or MGV 202AV or MGT 202A); (MGT 205 or MGB 205 or MGP 205). Focuses on planning, acquiring, and managing a company's financial resources. Includes discussion of financial aspects of mergers and other forms of reorganization; analysis of investment, financial, and dividend policy; and theories of optimal capital structure. Effective: 2017 Fall Quarter.

MGB 261—Investment Analysis (3)

Lecture—3 hour(s). Prerequisite(s): (MGT 203A or MGB 203A or MGP 203A); (MGP 205 or MGT 205 or MGB 205). Examines asset pricing theories and relevant evidence, including the investment performance of stocks and bonds. Topics include the efficiency of markets, domestic and international portfolio diversification, factors influencing the value of stocks and other investments, and portfolio management and performance. Effective: 2017 Fall Quarter.

MGB 262—Money & Security Markets (3)

Lecture—3 hour(s). Examines how money and securities markets are organized; how public agencies, businesses, others obtain and invest funds in those markets. Relationship between interest rates, monetary policy, government's role in improving capital markets, approaches to assessing changes in regulation of specific markets. Effective: 2009 Fall Quarter.

MGB 263—Derivative Securities (3)

Lecture/Discussion—3 hour(s). Prerequisite(s): (MGT 203A or MGB 203A or MGP 203A); (MGP 205 or MGT 205 or MGB 205). Open to students enrolled in the MBA program. Behavior of options, futures, and other derivative securities markets and how public agencies, business and others use those markets. Trading strategies involving options, swaps, and financial futures contracts. Pricing of derivative securities, primarily by arbitrage methods. Effective: 2017 Fall Quarter.

MGB 264—Business Taxation (3)

Lecture—3 hour(s). Analysis of the impact of business taxation on investment, production, and finance decisions. Discussion of the relationship between business organization and tax liability. Not intended for tax specialists. Effective: 2009 Fall Quarter.

MGB 265—Venture Capital & the Finance of Innovation (3)

Lecture/Discussion—3 hour(s). Prerequisite(s): MGT 205 or MGB 205 or MGP 205. Restricted to students in the MBA program. Examines venture capital finance and the related practice of R&D finance. Goal is to apply finance tools and framework to the world of venture capital and financing of projects in high-growth industries. Effective: 2017 Fall Quarter.

MGB 266—International Finance (3)

Lecture—3 hour(s). Prerequisite(s): MGT 205 or MGB 205 or MGP 205; Or the equivalent. Studies fixed and floating exchange-rate systems. Topics include determinants of a nation's balance of international payments; macroeconomic interdependence of nations under various exchange-rate regimes and its implications for domestic stabilization policies; and the international coordination of monetary and stabilization policies. Effective: 2017 Fall Quarter.

MGB 267—Teams & Technology (3)

Lecture/Discussion—3 hour(s). Prerequisite(s): Consent of Instructor. Restricted to working professional MBA students. Theory and practice of managing teams with primary goals of: providing conceptual guidelines for analyzing and diagnosing group dynamics and determining strategic options as a manager; imparting interpersonal skills for implementing effective strategies; understanding how technological change affects team processes. Effective: 2010 Fall Quarter.

MGB 268—Articulation & Critical Thinking (3)

Lecture/Discussion—3 hour(s). With commitment to this course, students will become competent public speakers, write well at a level expected in business, think efficiently and critically about business challenges and have a useful personal code of ethics to shape their actions and decisions. No student may repeat course for credit. Effective: 2014 Winter Quarter.

MGB 269—Business Intelligence Technologies-Data Mining (3)

Lecture/Discussion—3 hour(s). Prerequisite(s): Consent of Instructor. Restricted to students in the MBA program. Descriptive and Predictive Data mining methods covering association rules, clustering, classification, text mining, etc. Big data Technologies. Business applications. Hands-on data mining skills. Business intelligence for managerial decision making. Effective: 2016 Spring Quarter.

MGB 270—Corporate Financial Reporting (3)

Lecture—3 hour(s). Prerequisite(s): MGT 200A or MGP 200A or MGB 200A. Analyzes and evaluates contemporary issues in financial reporting and develops implications of those issues for business decision makers, investment managers, and accounting policymakers. Effective: 2017 Fall Quarter.

MGB 271—Strategic Cost Management (3)

Lecture/Discussion—3 hour(s). Prerequisite(s): MGT 202A or MGP 202A or MGV 202AV. Restricted to students in the MBA program. Theoretical frameworks and associated techniques for using organizational design and cost management to achieve a sustainable, profitable cost structure. Topics include: target costing, process design for low cost, total cost of ownership, cost of customers, implementing structural change, and incentives. Effective: 2017 Fall Quarter.

MGB 272—Evaluation of Financial Information (3)

Lecture—3 hour(s). Prerequisite(s): MGT 200A or MGP 200A or MGB 200A. Studies how investors, creditors, others use accounting and other information in making rational investment, lending decisions. Emphasis is placed on the analysis of financial information in a variety of contexts. Where applicable, recent research in finance and economics is discussed. Effective: 2017 Fall Quarter.

MGB 273—Accounting & Reporting for Government Nonprofit Entities (3)

Lecture—3 hour(s). Concepts, methods, and uses of accounting and financial reporting by governmental and nonprofit entities. Introduction to budgeting and performance evaluation, and accounting for entities such as hospitals, universities, and welfare agencies. Effective: 2009 Fall Quarter.

MGB 274—Corporate Governance (3)

Lecture—3 hour(s). Prerequisite(s): Full-time MBA students or consent of instructor. Discusses how corporations can better operate in the interests of shareholders and public. Directly relevant to managers, consultants in compensation and incentives, staff working on mergers and acquisitions, corporate regulators, shareholder rights activists, and board members. Effective: 2009 Fall Quarter.

MGB 276—Real Estate, Finance & Development (3)

Lecture—3 hour(s). Prerequisite(s): (MGT 205 or MGP 205 or MGB 205); (MGT 201A or MGB 201A or MGP 201A). Focus on single family, attached, detached, multi-family, and light commercial development. Students will study factors which make up successful real estate developments. Considers financial aspects involved in land acquisition, land development, construction, and project lending. Effective: 2017 Fall Quarter.

MGB 281—Systems Analysis & Design (3)

Lecture—3 hour(s). Design and specification of computer-based information systems. Applications systems development life cycle, use requirements and feasibility assessment, logical and physical design, program development and testing, conversion and implementation. Effective: 2015 Spring Quarter.

MGB 282—Supply Chain Management (3)

Lecture/Discussion—3 hour(s). Prerequisite(s): MGT 203A or MGB 203A or MGP 203A. Restricted to students in the MBA program. Matching supply with demand is a primary challenge for a firm: excess supply is too costly, inadequate supply irritates customers. Matching supply to demand is easiest when a firm has a flexible supply process, but flexibility is generally expensive. Effective: 2017 Fall Quarter.

MGB 284—Applied Linear Models for Management (3)

Lecture—3 hour(s). Covers regression, analysis of variance, and multivariate analysis. Topics will focus on applications to management and policy problems. Effective: 2015 Spring Quarter.

MGB 285—Time Series Analysis & Forecasting (3)

Lecture—3 hour(s). Prerequisite(s): MGB 203B or MGT 203B or MGP 203B. Considers application of time series methods to evaluation and forecasting problems. Covers univariate and multivariate ARIMA models and transfer function models. Applications will be in such areas as economics, finance, budgeting, program evaluation, and industrial process control. Effective: 2016 Spring Quarter.

MGB 286—Telecommunications & Computer Networks (3)

Lecture—3 hour(s). Prerequisite(s): MGB 280. Communication system components; common carrier services; design and control of communications networks; network management and distributed environment; local area networks; data security in computer networks. Effective: 2015 Spring Quarter.

MGB 287—Business Database & Database Marketing (3)

Lecture—3 hour(s). Practical introduction to fundamental principles of database management systems and database marketing. Database design. SQL queries. Concepts of database marketing, data warehouse, data visualization and big data analytics. Effective: 2016 Spring Quarter.

MGB 290—Topics in General Management (3)

Seminar—3 hour(s). Prerequisite(s): Completion of all first-year graduate courses at the Graduate School of Management or the equivalent. Advanced topics in general management. Varied topics to cover more extensively issues discussed in MGB 201A and MGB 201B, or current business interest topics in fields of business writing, business communications, development, or workplace processes. May be repeated for credit. Effective: 2009 Spring Quarter.

MGB 291—Topics in Organizational Behavior (3)

Seminar—3 hour(s). Prerequisite(s): Completion of all first-year graduate courses at the Graduate School of Management or the equivalent. Advanced topics in social psychology and sociology of organizations. Varied topics to cover more extensively issues discussed in MGB 201A and MGB 201B, or current business interest topics in fields of organization design, strategy, development, or workplace processes. May be repeated for credit. Effective: 2009 Fall Quarter.

MGB 292—Topics in Finance (3)

Seminar—3 hour(s). Prerequisite(s): Completion of all first-year graduate courses at the Graduate School of Management or the equivalent. Contemporary and emerging issues in finance. Application of modern techniques of finance to business problems. Use of appropriate electronic database and research techniques. May be repeated for credit. Effective: 2009 Fall Quarter.

MGB 293—Topics in Marketing (3)

Seminar—3 hour(s). Prerequisite(s): Completion of all first-year graduate courses at the Graduate School of Management or the equivalent. Advanced topics in marketing, which may include marketing research, new product development, brand management, pricing, distribution management, service marketing, hitech marketing, advertising, sales promotions, marketing through the Web. May be repeated for credit. Effective: 2009 Fall Quarter.

MGB 294—Topics in Accounting (3)

Seminar—3 hour(s). Prerequisite(s): Completion of all first-year graduate courses at the Graduate School of Management or the equivalent. Contemporary and emerging issues in financial management accounting. Application of modern techniques of evaluation and analysis of financial information. Use of appropriate electronic database and research techniques. May be repeated for credit. Effective: 2009 Fall Quarter.

MGB 295—Topics in Information Technology (3)

Seminar—3 hour(s). Prerequisite(s): Completion of all first-year graduate courses at the Graduate School of Management or the equivalent. Applications of information technology to management and management of information technology. Adaptation to the dynamic nature of the field. May be repeated for credit. Effective: 2009 Fall Quarter.

MGB 296—Topics in Technology Management (3)

Seminar—3 hour(s). Prerequisite(s): Completion of all first-year graduate courses at the Graduate School of Management or the equivalent. Cyclical nature of innovation and technological change, features of innovative firms and industries, national innovation systems, and impact of information technologies on innovation processes. May be repeated for credit. Effective: 2009 Fall Quarter.

MGB 297—Topics in International Management (3)

Seminar—3 hour(s). Prerequisite(s): Completion of all first-year graduate courses at the Graduate School of Management or the equivalent. Broader environment in which U.S. firms and their foreign competitors operate. Integration of material from other topics courses (marketing, strategy, finance, accounting, information technology, technology management) into the international setting. May be repeated for credit. Effective: 2010 Fall Quarter.

MGB 298—Directed Group Study (1-5)

Variable. Prerequisite(s): Consent of Instructor. (S/U grading only.) Effective: 2009 Fall Quarter.

MGB 299—Individual Study (1-12)

Variable. Prerequisite(s): Consent of Instructor. (S/U grading only.) Effective: 2009 Fall Quarter.

MGB 401—Crisis Management (1)

Discussion/Laboratory—1 hour(s). Establishes and explores the defining characteristics of crises. Will learn to anchor crisis management firmly within overall strategic management and also acquire a set of useful tools and techniques for planning for and handling actual crises. Effective: 2017 Winter Quarter.

MGB 402—Crisis Communications & Reputation Management (1)

Discussion/Laboratory—1 hour(s). Intended to provide you with an understanding of the framework and tools necessary to successfully address communications and reputation management tasks in a variety of crisis situations. Effective: 2016 Summer Quarter.

MGB 403—Business Statistics Practicum (1)

Project (Term Project)—1 hour(s). Prerequisite(s): (MGT 203A or MGP 203A or MGB 203A); (MGT 203B (can be concurrent) or MGP 203B (can be concurrent) or MGB 203B (can be concurrent)); MGT 203B, MGP 203B, or MGB 203B completed or required concurrently. Restricted to students in the MBA program. Applies techniques and concepts in business statistics to real case studies. Effective: 2011 Fall Quarter.

MGB 404—Organizational Change Management (1)

Lecture/Discussion—1 hour(s). Challenges in getting significant changes made in organizations. Learn Organization Change Management (OCM) techniques and discuss case situations where OCM techniques play a role. Effective: 2016 Fall Quarter.

MGB 405—Business Literature (1)

Lecture/Discussion—1 hour(s). Will examine Business history—historical trends that might influence contemporary business. Some argue that the recent collapse of our financial system might have been averted if business leaders had a better sense of history. Effective: 2017 Winter Quarter.

MGB 406—Ethical Issues in Management (1)

Lecture/Discussion—1 hour(s). Explores the philosophical foundation of ethical theory and its recent applications to business situations. Professional codes of ethics, such as those promulgated by educational, managerial, engineering, scientific, medical and legal professional societies, are presented. Effective: 2017 Winter Quarter.

MGB 407—Storytelling for Leadership (1)

Lecture/Discussion—1 hour(s). Internalize the fundamental principles behind stories that educate, influence, motivate, inspire, persuade and connect. Effective: 2016 Fall Quarter.

MGB 408—The Business of the Media (1)

Lecture/Discussion—1 hour(s). Focuses on the media industries and how emerging digital technologies are disrupting the way media consumption, distribution and business models work. Will highlight the economics of several media, both news and entertainment. Effective: 2016 Summer Quarter.

MGB 409—Managing Multi-Asset Class Investment Portfolios (1)

Lecture/Discussion—1 hour(s). Prerequisite(s): MGV 202AV; MGB 203A; MGB 205. Examines top down management of multi-asset class portfolios. Topics include bonds, hedge funds, private equity, real estate, commodities, endowments, return generation, performance analysis, credit cycles, financial crises, manager selection, investment policy, and investment careers. Student teams present endowment portfolio recommendations. Effective: 2015 Spring Quarter.

MGB 410—Corporate Governance (1)

Lecture/Discussion—1 hour(s). Covers recent and not-so-recent business and accounting scandals, discuss how corporations can better operate in the interests of shareholders and the public, and learn from people who rely on corporate governance in making investment decisions. Effective: 2017 Winter Quarter.

MGB 411—Turnaround Management (1)

Lecture/Discussion—1 hour(s). Evaluate the financial performance of a company, identify opportunities for improvement, propose real solutions to enhance performance, and most important inspire action in staff. Effective: 2017 Winter Quarter.

MGB 412—International Marketing (1)

Lecture/Discussion—1 hour(s). Basic concepts of international marketing. Understanding and managing heterogeneous, dynamic, and interdependent environments across countries. How to develop and implement an international marketing strategy: where and how to compete, how to adapt your marketing mix. Effective: 2016 Fall Quarter.

MGB 413—Sustainable Business Ventures: Business & Energy (1)

Lecture/Discussion—1 hour(s). Introduction to sustainability goals, indicators, values, measurement techniques, and practice how it applies to large and small enterprise. Effective: 2013 Spring Quarter.

MGB 414—Multi-Channel Marketing (1)

Lecture/Discussion—1 hour(s). Multi-channel marketing strategies empower managers to create value for different customer segments. Covers the necessary concepts to evaluate and select go-to market strategies in order to capitalize on the ubiquity of modern customers. Effective: 2017 Winter Quarter.

MGB 415—Climate Risks & Opportunities (1)

Lecture/Discussion—1 hour(s). Provide a working knowledge of the risks and opportunities arising from climate change and climate policy for businesses. Effective: 2016 Summer Quarter.

MGB 416—Topics in Private Equity (1)

Lecture—1 hour(s). Prerequisite(s): MGB 205 or MGP 205 or MGT 205. Restricted to students in the MBA program. Focuses on the finance principles related to the risk and return of the private equity (PE) industry, valuation of PE target companies, the structuring of leveraged buyouts (LBOs), and the management of portfolio companies. Effective: 2017 Fall Quarter.

MGB 417—Incentives & Controls (1)

Lecture/Discussion—1 hour(s). Understand how organizations use financial and nonfinancial performance management and incentive systems to motivate people and manage resources. Effective: 2017 Winter Quarter.

MGB 418—Scientific Discovery & Business Innovation at Scale in the Food & Agriculture Sector (1)

Lecture—3 hour(s). Restricted to students in the MBA program. Scientific discovery and business innovation within the food and agriculture sector profoundly influences the sustainability of society and enterprise competitiveness. Students will learn how business innovation models co-exist antagonistically or synergistically with scientific discovery and its influence on enterprise competitiveness. Effective: 2017 Winter Quarter.

MGB 419—Business Strategy Consulting Skills (1)

Lecture—5 hour(s). Restricted to students enrolled in the MBA program. Students will learn practical business consulting skills which will help apply strategy theories in the workplace. Students will learn and practice tools to frame and analyze problems, conduct research, communicate findings and navigate client relationships. Effective: 2017 Winter Quarter.

MGB 420—Advanced Optimization in a Python-based Modeling Language (1)

Web Virtual Lecture—1 hour(s). Prerequisite(s): (MGB 252 or MGT 252 or MGP 252); (MGB 206 or MGT 206 or MGP 206). Restricted to students enrolled in the MBA program. Covers advanced optimization modeling techniques and practical application of modern, scalable modeling language. Techniques will be developed using examples from production planning in a supply chain, but students may explore other areas of application of optimization for their final project. Effective: 2017 Winter Quarter.

MGB 421—Monte Carlo Simulation for Managerial Analysis (1)

Lecture—1 hour(s). Create Excel-based simulation models across business domains, from finance to hypothesis testing and inventory management. By course-end, students are experts at recognizing this decision-making fallacy and fixing it. Effective: 2017 Spring Quarter.

MGB 422—Behavioral Finance & Valuation (1)

Lecture—1 hour(s). Prerequisite(s): (MGT 260 or MGP 260 or MGB 260); (MGT 261 or MGP 261 or MGB 261). Restricted to students enrolled in the MBA program. Investor psychology and market frictions can cause asset prices to deviate from fundamental values, creating profit opportunities for sophisticated investors. Covers techniques of financial analysis with the goal of learning how to value assets and identify mispricing. Effective: 2017 Winter Quarter.

MGB 423—Leader as Coach: An Introduction to Coaching Skills for Leaders (1)

Lecture—1 hour(s). Restricted to students enrolled in the MBA program. Introduces the fundamental coaching skills and coaching models that leaders can apply in everyday interactions with their team and colleagues in order to build trust, overcome challenges and help others discover their own full potential. Effective: 2017 Winter Quarter.

MGB 424—Practicum for Managing People in Modern Organizations (1)

Project (Term Project)—1 hour(s). Prerequisite(s): MGB 224. Restricted to students in the MBA program. Provides solid grounding in the management of work and the employment relationship. Examines firms' interrelated policies and practices for managing people. Effective: 2011 Winter Quarter.

MGB 425—Digital Marketing Techniques (1)

Lecture—1 hour(s). Provides students with an introduction to digital marketing. Introduces MBA students to the fundamental aspects and tools of online marketing communication, i.e., how organizations use digital channels to effectively communicate their value propositions to the target customers. Effective: 2017 Winter Quarter.

MGB 426—The Business of Healthcare (1)

Lecture—1 hour(s). Restricted to students enrolled in the MBA program (Business Administration—Working Professional, Business Administration—Bay Area, Business Administration—Full-Time). Intended to provide an overall understanding of the unique business aspects of the healthcare industry. Effective: 2017 Winter Quarter.

MGB 427—Implementing International Strategy (1)

Lecture—1 hour(s). Restricted to students enrolled in the MBA program (Business Administration—Working Professional, Business Administration—Bay Area, Business Administration—Full-Time). Looks at the pitfalls of implementing international strategies, and suggest several accessible, yet powerful frameworks to help international managers implement strategies successfully and completely. Effective: 2017 Winter Quarter.

MGB 428—Renewable Energy Ventures: Planning, Funding & Regulatory Risk Assessment for Entrepreneurs & Investors (1)

Lecture—1 hour(s). Restricted to students enrolled in the MBA program. Advanced innovation lab will introduce students to issues addressed by entrepreneurs and investors in renewable ventures. Lectures, simulations, case studies and practical experience of the presenters will be delivered. Effective: 2016 Summer Quarter.

MGB 429—Detection & Prevention of Asset Misappropriation Fraud in the Workplace (1)

Lecture—1 hour(s). Restricted to students enrolled in the MBA program. Discusses the fundamentals of fraud detection and prevention in the workplace. Learn the major schemes involving workplace fraud, how management can detect fraud and what policies and procedures can be implemented to prevent fraud. Effective: 2016 Fall Quarter.

MGB 430—Learning From Catastrophes: Lessons for Managers (1)

Lecture—1 hour(s). Restricted to students enrolled in the MBA program. Catastrophes unfold in surprisingly similar ways. Analyze catastrophes to understand these common patterns and investigate how they can be prevented and mitigated. Apply these lessons to management to gain unconventional insights. Effective: 2016 Summer Quarter.

MGB 431—Project Management (1)

Lecture—10 hour(s). Open to students enrolled in the MBA program. Students learn project management; including project scope, project planning, milestones and project closing. Important themes include leadership, team dynamics, storytelling/creating a narrative, communication, and conflict management. Effective: 2016 Fall Quarter.

MGB 432—Project Management with Applications in Healthcare (1)

Lecture—1 hour(s). Focuses on the heart of healthcare administration and how project management can be applied as a key lever to increase efficiency, decrease costs and improve the patient experience. Effective: 2017 Spring Quarter.

MGB 433—Corporate Social Responsibility (1)

Lecture—1 hour(s). Learn practical information that will help students understand the basics of designing, managing and evaluating an effective CSR program. Expose students to a basic set of CSR issues in the context of cross-purpose business challenges and then focus on the analysis and critical decisions that managers must make to move their business and their social agenda forward. Effective: 2018 Spring Quarter.

MGB 434—Practicum for Pricing (1)

Project (Term Project)—1 hour(s). Prerequisite(s): MGB 234. Restricted to students in the MBA program. Enhance understanding of the principles and concepts learned in Pricing by (1) teaching the necessary statistical and mathematical skills, and (2) requiring a report for a real Pricing case. Effective: 2011 Winter Quarter.

MGB 435—Data Wrangling (1)

Lecture—1 hour(s). Develop practical skills to pre-process data. Tidied raw data can then be used for downstream data analysis, modeling, and visualization. Effective: 2018 Fall Quarter.

MGB 436—Introduction to Derivative Securities (1)

Lecture—1 hour(s). Introduction to derivative securities and other forms of financial innovations. Effective: 2019 Fall Quarter.

MGB 437—Healthcare Analytics (1)

Lecture—1 hour(s). Open to students enrolled in the MBA program only. Introduction to advanced analytics framework, key Artificial Intelligence & Machine Learning concepts, and modeling techniques towards solving high-value and high-impact healthcare business problems. Effective: 2019 Fall Quarter.

MGB 440—Integrated Management Project (5)

Project (Term Project)—3 hour(s). Prerequisite(s): First-year core courses of MBA program. Applies classroom learning to solve complex business challenges for real world clients. Student teams learn practical consulting skills while their clients benefit from the student's experience, insights, and work product. Effective: 2016 Fall Quarter.

MGB 440A—Integrated Management Project (3)

Lecture/Discussion—3 hour(s). Prerequisite(s): First-year core courses of MBA program. Restricted to full-time MBA students. Applies classroom learning to solve complex business challenges for real world clients. Student teams learn practical consulting skills while their clients benefit from the student's experience, insights, and work product. Effective: 2015 Spring Quarter.

MGB 440B—Integrated Management Project (3)

Project (Term Project)—3 hour(s). Prerequisite(s): First-year core courses of MBA program. Restricted to full-time MBA students. Applies classroom learning to solve complex business challenges for real world clients. Student teams learn practical consulting skills while their clients benefit from the student's experience, insights, and work product. Effective: 2015 Spring Quarter.

MGB 440C—Integrated Management Project Lead (1)

Project (Term Project)—1 hour(s). Integrated Management Project Team leader. Effective: 2016 Fall Quarter.

MGB 442—Practicum for Marketing Communication (1)

Project (Term Project)—1 hour(s). Prerequisite(s): MGB 242. Restricted to students in the MBA program. Provides experience applying concepts learned in Marketing Communications to a realistic advertising or communication problem faced by firms. Effective: 2011 Spring Quarter.

MGB 443—Practicum for Customer Relationship Management (1)

Project (Term Project)—1 hour(s). Prerequisite(s): MGB 243. Restricted to students in the MBA program. Hands-on training in applying Customer Relationship Management concepts and metrics to secondary data. Enhances ability to interpret results and decide the right type of marketing actions by requiring an executive report at the end of the quarter. Effective: 2010 Fall Quarter.

MGB 448—Practicum for Marketing Strategies (1)

Project (Term Project)—1 hour(s). Prerequisite(s): MGB 248. Restricted to students in the MBA program. Provides opportunities to apply the concepts covered in the Marketing Strategies class through a group project involving the analysis of strategic marketing decisions based on business-related issues, simulation and modeling. Effective: 2010 Fall Quarter.

MGB 449—Marketing Research Practicum (1)

Project (Term Project)—1 hour(s). Prerequisite(s): MGB 249. Restricted to students in the MBA program, or in some cases with permission of instructor. Provides opportunities to apply the concepts and methods covered in the Marketing Research class. Hands-on and project-based, work could be either individual or in groups depending on enrollments and/or interests of students. Effective: 2011 Spring Quarter.

MGB 450—Practicum for Technology Strategy & Competition (1)

Project (Term Project)—1 hour(s). Prerequisite(s): MGB 250. Restricted to students in the MBA program. In-depth practicum project course. Apply theories, concepts, and models, learned in MGB 250 to a real-world business problem, through data collection, data analysis, simulation, modeling and post-model interpretation. Effective: 2011 Winter Quarter.

MGB 460—Practicum for Corporate Finance & Real Estate (1)

Project (Term Project)—1 hour(s). Prerequisite(s): MGB 260. Restricted to students in the MBA program. Work in groups to select and value a financial entity. It could be a firm, a sports player, a building, a project, or a patent. Grade based on an in-class presentation and a write-up. Effective: 2011 Spring Quarter.

MGB 461—Practicum for Investment Analysis (1)

Project (Term Project)—1 hour(s). Prerequisite(s): MGB 261. Restricted to students in the MBA program. Provides practical experience applying concepts learned in Investment Analysis to a realistic portfolio management setting via a hypothetical exercise. Produce a realistic executive summary and presentation of an investment proposal for a hypothetical client. Effective: 2010 Fall Quarter.

MGB 464—Practicum & Taxes & Business Strategy (1)

Project (Term Project)—1 hour(s). Prerequisite(s): MGB 264. Restricted to students in the MBA program. Practical application project drawing from the tax planning theory contained in MGB 264. Project consists of a business formation and operation, change in organization (incorporation), and movement into multi-national and multi-jurisdictional tax. Effective: 2010 Fall Quarter.

MGB 465—Practicum for Venture Capital (1)

Project (Term Project)—1 hour(s). Prerequisite(s): MGB 265. Restricted to students in the MBA program. Provides an opportunity to apply concepts learned in Venture Capital in a realistic setting. Complete project analyzing a potential investment in a hypothetical venture and prepare an deal term sheet/investment agreement. Effective: 2011 Winter Quarter.

MGB 467—Practicum for Teams & Technology (1)

Project (Term Project)—1 hour(s). Prerequisite(s): MGB 267. Restricted to students in the MBA program. Groups investigate the performance, creativity, conflict, information sharing, and leadership behaviors of a real world team. Provide consulting advice to the team, which not only gives analytic skills, but also builds presentation skills. Effective: 2011 Spring Quarter.

MGB 469—Practicum for Business Intelligence Technologies (1)

Project (Term Project)—1 hour(s). Prerequisite(s): MGB 269. Restricted to students in the MBA program. Projects applying concepts learned in Business Intelligence Technologies to real business problems. Effective: 2011 Winter Quarter.

MGB 482—Practicum for Supply Chain Management (1)

Project (Term Project)—1 hour(s). Prerequisite(s): MGT 282 (can be concurrent) or MGP 282 (can be concurrent) or MGB 282 (can be concurrent); Course is a pre-requisite or co-requisite. Restricted to students in the MBA program. Provides experience applying concepts learned in Supply Chain Management to a realistic management setting via a project. Effective: 2011 Spring Quarter.

MGB 490—Topics in Business (1)

Lecture/Discussion—1 hour(s). Prerequisite(s): Consent of Instructor. Sponsorship of a GSM Academic Senate faculty member; approval of graduate advisor. Open to students in the MBA Program (SMBA, SMBB, SMBE). Provides opportunity for students to gain experience in applying business methodologies previously acquired in other GSM courses. May be repeated for credit. Effective: 2020 Spring Quarter.

MGB 490A—Topics in Management (2)

Lecture—2 hour(s). Advanced topics in general management. Varied topics to cover more extensively issues discussed in the MBA core such as business writing, management, organizational behavior, business communications, development, and workplace processes. (S/U grading only.) Effective: 2020 Winter Quarter.

MGB 498—Directed Group Study Management Practicum (1-12)

Project (Term Project). Prerequisite(s): Consent of Instructor. Sponsorship of a GSM Academic Senate faculty member, and approval of graduate advisor. Provides the opportunity for students to gain experience in applying business methodologies previously acquired in other GSM courses. May be repeated up to 6 unit(s). (S/U grading only.) Effective: 2011 Summer Quarter.

MGB 499—Directed Individual Study Management Practicum (1-12)

Project (Term Project). Prerequisite(s): Consent of Instructor. Sponsorship of a Graduate School of Management Academic Senate faculty member and approval of graduate advisor. Provides the opportunity for students to gain experience in applying business methodologies previously acquired in other Graduate School of Management courses. May be repeated for credit. (S/U grading only.) Effective: 2011 Summer Quarter.

MGP—Management; Working Professional

Courses in MGP:

MGP 200A—Financial Accounting (3)

Lecture—3 hour(s). Prerequisite(s): Graduate student in the Graduate School of Management. Introduction to the concepts and objectives underlying the preparation of financial statements. Topics include understanding the accounting cycle, measurement and valuation problems associated with financial statement components, consideration of the usefulness of financial statements in the analysis of a corporation's operations. Effective: 1994 Fall Quarter.

MGP 200B—Managerial Accounting (3)

Lecture—3 hour(s). Prerequisite(s): MGT 200A or MGB 200A or MGP 200A. Information managers should know to be effective, including: product costing, motivating people, and differential analysis for decision making. Includes team projects and written and oral presentations. Effective: 2017 Fall Quarter.

MGP 201A—The Individual & Group Dynamics (3)

Lecture—3 hour(s). Prerequisite(s): Graduate student in the Graduate School of Management. Examines basic psychological and social psychological processes shaping human behavior and applies knowledge of these processes to the following organizational problems: motivation, job design, commitment, socialization, culture, individual and group decision making, and team building. Effective: 1994 Fall Quarter.

MGP 201B—Organizational Strategy & Structure (3)

Lecture/Discussion—3 hour(s). Prerequisite(s): Completion of first year courses in Graduate School of Management or equivalent. Open to MBA students only. Strategic management of organizations, including analysis of industries, firm resources and capabilities and corporate strategy. Strategy formulation, implementation and strategic decision-making. Firm and industry life cycles and change. Analysis of organizational design and structure including differentiation and integration. Effective: 2011 Fall Quarter.

MGP 202A—Markets & the Firm (3)

Lecture—3 hour(s). Prerequisite(s): Graduate student in the Graduate School of Management. Examines the interaction of consumers, firms and government, and the effect this interaction has on the use of resources and firm profitability. Fundamental economic concepts such as marginal analysis, opportunity cost, pricing, and externalities are introduced and applied. Effective: 1994 Fall Quarter.

MGP 202B—Business, Government, & the International Economy (3)

Lecture—3 hour(s). Prerequisite(s): MGP 202A or MGT 202A or MGV 202AV. Examines the influence of government and international factors on business. Topics include distribution of income, business cycles, inflation and interest rates, the federal debt, monetary policy and international trade and finance. Effective: 2017 Fall Quarter.

MGP 203A—Data Analysis for Managers (3)

Lecture—3 hour(s). Prerequisite(s): Graduate student in the Graduate School of Management MBA program or consent of instructor. Introduction to statistics and data analysis for managerial decision making. Descriptive statistics, principles of data collection, sampling, quality control, statistical inference. Application of data analytic methods to problems in marketing, finance, accounting, production, operations, and public policy. Effective: 1994 Fall Quarter.

MGP 203B—Forecasting & Managerial Research Methods (3)

Lecture—3 hour(s). Prerequisite(s): MGP 203A or MGT 203A or MGB 203A. Practical statistical methods for managerial decision making covers regression analysis, time series analysis and forecasting, design and analysis of experiments in managerial research and contingency table analysis. Application of these methods to marketing, finance, accounting, production, operations, and public policy. Effective: 2017 Fall Quarter.

MGP 204—Marketing Management (3)

Lecture—3 hour(s). Prerequisite(s): Graduate student in the Graduate School of Management. Analysis of market opportunities, elements of market research, development of marketing strategies, market planning and implementations, and control systems. Consumer and industrial markets, market segmentation, pricing strategies, distribution channels, promotion, and sales. Effective: 1997 Fall Quarter.

MGP 205—Financial Theory & Policy (3)

Lecture—3 hour(s). Prerequisite(s): Graduate student in the Graduate School of Management. Corporate financial policy and investment management. Covers capital budgeting, optimal financial structure, cost-of-capital determination, risk measurement. Develops basic valuation principles for investments with long-lived and risky cash-flows, and extends these to derivative securities, asset portfolios, investment management and hedging. Effective: 1994 Fall Quarter.

MGP 206—Decision Making & Management Science (3)

Lecture—3 hour(s). Prerequisite(s): Graduate student in the Graduate School of Management MBA program or consent of instructor. Develops decision-making and problem-solving skills in conjunction with a quantitative model-building approach. Emphasizes how structured modeling techniques, probability forecasts, simulations, and computer optimization models are used in the overall process of making decisions in an uncertain environment. Effective: 1994 Fall Quarter.

MGP 207—Management Information Systems (3)

Lecture—3 hour(s). Prerequisite(s): Graduate student or consent of instructor. Introduction to computer programming and data handling skills. Use of computer in organizations, emphasis on managerial aspects of computing. Standard and nonstandard uses of data files, centralization versus decentralization of computing, office automation, computer security. Effective: 1994 Fall Quarter.

MGP 215—Business Law (3)

Lecture—3 hour(s). Prerequisite(s): Completion of administration core requirements or petition with consent of instructor. Introduction to law and legal process in the United States. Sources of law. Structure and operation of courts, federal-state relationships, fundamentals of administrative law, fundamentals of business law. Effective: 1997 Winter Quarter.

MGP 216—Managing Professionals, Budgets, Controls & Ethics (3)

Lecture—3 hour(s). Prerequisite(s): Graduate standing. Performance measures, budgetary controls and ethical pressures which occur at middle management levels in service-type operations. Addresses such organizations as engineering, medical groups, law offices, management consultants. Effective: 1997 Winter Quarter.

MGP 220—Management of Social Networks (3)

Lecture/Discussion—3 hour(s). Prerequisite(s): MGP 201A. Open to MBA students only. Principles and applications of social network theory: coordinating divergent interests to create value for individuals and organizations. Emphasis on conceptual models, web-based diagnostic tools, and practical applications. Effective: 2004 Winter Quarter.

MGP 223—Power & Influence in Management (3)

Seminar—3 hour(s). Prerequisite(s): MGT 201A or MGB 201A or MGP 201A; Consent of Instructor. Investigation of the bases of power in organizations and the tactics used to translate power into influence. Topics include the control of resources (including information), social psychological processes (including commitment), the construction of meaning, and ethics. Effective: 2017 Fall Quarter.

MGP 224—Managing People in High-Performance Organizations (3)

Lecture—3 hour(s). Prerequisite(s): MGT 201A or MGB 201A or MGP 201A. Restricted to students in the MBA program. Strategic approach to the management of people within organization. Analyze employment systems' fit with firms' environments and strategies. Explore consequences of choices firms make in managing people—decisions as to selection, performance evaluation, compensation, and other management policies and practices. Not open to students who have taken MGB 224 or MGT 224. Effective: 2017 Fall Quarter.

MGP 234—Pricing (3)

Lecture/Discussion—3 hour(s). Prerequisite(s): (MGT 202A or MGV 202AV or MGP 202A); (MGP 203B or MGB 203B or MGT 203B); (MGT 204 or MGB 204 or MGP 204). Restricted to students in the MBA Program. Combines lectures, cases and homework to teach students tools and skills necessary to analyze pricing situations, make pricing decisions, and implement them, in a systematic manner. Effective: 2017 Fall Quarter.

MGP 239—Digital Marketing (3)

Lecture/Discussion—3 hour(s). Prerequisite(s): MGP 204 or MGT 204 or MGB 204. Equips students for a career in digital marketing and social media. Topics include online advertising, search engine optimization, interactive mktg, online privacy issues, e-commerce, social influence, social network theory, measurement of social influence, integrating social and traditional media. Effective: 2017 Fall Quarter.

MGP 240—Management Policy & Strategy (3)

Lecture—3 hour(s). Prerequisite(s): First-year core courses of M.B.A. program. Examines the scope of missions, objectives strategies, policies, structures, measurements and incentives which bear on the management of an organization. Real client organizations, in the private and public sectors, are assigned to student teams as the subjects of study. Effective: 1994 Fall Quarter.

MGP 241—New Product Development (3)

Lecture/Discussion—3 hour(s). Prerequisite(s): MGT 204 or MGB 204 or MGP 204. Open to students in the MBA Program for Working Professionals. State-of-the-art concepts and methods to enhance the effectiveness of new product development activities. Focuses on the understanding of managerial issues and acquiring the ability to solve problems. Effective: 2017 Fall Quarter.

MGP 242—Marketing Communications (3)

Lecture—3 hour(s). Issues in designing a marketing communications strategy. Topics include mass and direct communications, institutional aspects of advertising, consumer behavior, evaluating ad effectiveness, determining ad budget, creative strategy, and use and abuse of promotions. Effective: 2000 Fall Quarter.

MGP 243—Customer Relationship Management (3)

Lecture/Discussion—3 hour(s). Prerequisite(s): MGT 204 or MGP 204 or MGB 204. Restricted to MBA students only. Customer Relationship Management (CRM) is a management approach under which marketing activities are organized and measured around customers (rather than around brands.) This approach is appealing because customers, not brands, are those who make buying decisions. Effective: 2017 Fall Quarter.

MGP 244—New & Small Business Ventures (3)

Lecture—3 hour(s). Prerequisite(s): MGT 204 or MGB 204 or MGP 204. Student teams develop complete business plans for their own start-up ventures. Process includes: elevator pitch, business strategy, comprehensive bottoms-up financial projections, capital requirements, product differentiation, competitive, alliance, and go-to-market strategy development, investor presentation, and comprehensive written business plan. Effective: 2017 Fall Quarter.

MGP 245—Business Writing (3)

Lecture/Discussion—3 hour(s). Prerequisite(s): Completion of first-year core courses at the Graduate School of Management or the equivalent. Restricted to MBA students only. Techniques for sharpening writing skills are introduced, along with grammatical structure, word choice, and punctuation. Learn to develop styles that are pitch-perfect for given situations and to think strategically about each communication challenge in a management setting. Effective: 2011 Fall Quarter.

MGP 246—Negotiation & Team Building (3)

Lecture/Discussion—3 hour(s). Prerequisite(s): MGP 205; MGP 202. Basic theory of negotiation; applies theory to process of building teams to achieve business purposes. Covers integrative and distributive strategies of claiming value, how to recognize bargaining tricks, uncovering hidden agendas, brainstorming to extend Pareto frontier. Effective: 2011 Fall Quarter.

MGP 247—Customer Service as a Marketing Tool (3)

Lecture—3 hour(s). Understanding the distinct features of services, how to create value through service, methods of building strong relationships with customers, methods of measuring and building customer satisfaction, and measuring the financial impact of service improvement. Effective: 1998 Spring Quarter.

MGP 248—Marketing Strategies (3)

Lecture—3 hour(s). Prerequisite(s): (MGT 202A or MGV 202AV or MGP 202A); (MGP 204 or MGB 204 or MGT 204). Examines process by which organizations develop strategic marketing plans. Includes definition of activities and products, marketing audits, appraising market opportunities, design of new activities and products, and organizing marketing planning function. Applications to problems in private and public sector marketing. Effective: 2017 Fall Quarter.

MGP 249—Marketing Research (3)

Lecture—3 hour(s). Prerequisite(s): (MGT 202A or MGV 202AV or MGP 202A); (MGP 203A or MGB 203A or MGT 203A); (MGT 204 or MGB 204 or MGP 204). Addresses the managerial issues and problems of systematically gathering and analyzing information for making private and public marketing decisions. Covers the cost and value of information, research design, information collection, measuring instruments, data analysis, and marketing research applications. Effective: 2017 Fall Quarter.

MGP 250—Technology, Competition & Strategy (3)

Lecture—3 hour(s). Prerequisite(s): (MGT 202A or MGV 202AV or MGP 202A); (MGP 203A or MGB 203A or MGT 203A). Restricted to students in the MBA program. Why is software typically so defective? Why do many firms in the IT industry give away their best products free? Helps analyze questions like these by modeling competition and strategy in the network, technology and information industries. Effective: 2017 Fall Quarter.

MGP 251—Management of Innovation (3)

Lecture—3 hour(s). Prerequisite(s): MGT 201A or MGB 201A or MGP 201A. Managing innovative enterprise in changing and uncertain environments. Covers technology forecasting and assessment, program selection and control, financial management, regulation, and ethics. Effective: 2017 Fall Quarter.

MGP 252—Managing for Operational Excellence (3)

Lecture—3 hour(s). Prerequisite(s): MGP 203A or MGB 203A or MGT 203A. Open to students in the Graduate School of Management. Explores the management of operations as applied to manufacturing as well as services provided both inside and outside the organization. Develop an understanding of how uncertainty affects planning and delivery by looking at fundamental models of operations. Effective: 2018 Spring Quarter.

MGP 253—Corporate Social Responsibility (3)

Lecture—3 hour(s). Develop a thought process and approach to corporate social responsibility that students will be able to build on during their post-school leadership roles, whether as corporate executives, entrepreneurs, or NGO leaders. Effective: 2016 Spring Quarter.

MGP 255—Entrepreneurship & Venture Investment Clinic (3)

Lecture—3 hour(s). Limited to 30 students. Provides the necessary analytical and design tools to create business ideas and refine business models based on emerging technologies. Students learn to work closely in small teams to synthesize technical, strategic, and marketing needs into designs for new ventures. Effective: 2016 Spring Quarter.

MGP 258—Mergers & Acquisitions (3)

Lecture—3 hour(s). Prerequisite(s): MGP 205 or MGT 205 or MGB 205. Focuses on the market for corporate acquisitions and restructuring activity. Topics include: sources of value creation; takeovers; anti-takeover provisions; bidding strategies; use of leverage in buyouts; regulatory risk and hurdles; and, valuation approaches for highly leveraged transactions. Effective: 2015 Spring Quarter.

MGP 259—Banking & the Financial System (3)

Lecture—3 hour(s). Prerequisite(s): MGB 205 or MGT 205; Consent of Instructor. Analyzes the role of financial markets and institutions in allocating capital. Focuses on: bank lending; debt securities; financial market innovations; regulation; functions of commercial banks and other financial intermediaries. Utilizes case studies. Effective: 2016 Spring Quarter.

MGP 260—Corporate Finance (3)

Lecture—3 hour(s). Prerequisite(s): (MGT 200A or MGB 200A or MGP 200A); (MGP 202A or MGV 202AV or MGT 202A); (MGT 205 or MGB 205 or MGP 205). Focuses on planning, acquiring, and managing a company's financial resources. Includes discussion of financial aspects of mergers and other forms of reorganization; analysis of investment, financial, and dividend policy; and theories of optimal capital structure. Effective: 2017 Fall Quarter.

MGP 261—Investment Analysis (3)

Lecture—3 hour(s). Prerequisite(s): (MGT 203A or MGP 203A or MGB 203A); (MGB 205 or MGT 205 or MGP 205). Examines asset pricing theories and relevant evidence, including the investment performance of stocks and bonds. Topics include the efficiency of markets, domestic and international portfolio diversification, factors influencing the value of stocks and other investments, and portfolio management and performance. (P/NP grading only.) Effective: 2017 Fall Quarter.

MGP 262—Money & Security Markets (3)

Lecture—3 hour(s). Examines how money and securities markets are organized; how public agencies, businesses, others obtain and invest funds in those markets. Relationship between interest rates, monetary policy, government's role in improving capital markets, approaches to assessing changes in regulation of specific markets. Effective: 1994 Fall Quarter.

MGP 263—Derivative Securities (3)

Lecture/Discussion—3 hour(s). Prerequisite(s): (MGT 205 or MGP 205 or MGB 205); (MGT 203A or MGP 203A or MGB 203A). Open to students enrolled in the MBA program. Behavior of options, futures, and other derivative securities markets and how public agencies, business and others use those markets. Trading strategies involving options, swaps, and financial futures contracts. Pricing of derivative securities, primarily by arbitrage methods. Effective: 2017 Fall Quarter.

MGP 264—Business Taxation (3)

Lecture—3 hour(s). Analysis of the impact of business taxation on investment, production, and finance decisions. Discussion of the relationship between business organization and tax liability. Not intended for tax specialists. Effective: 1994 Fall Quarter.

MGP 265—Venture Capital & the Finance of Innovation (3)

Lecture/Discussion—3 hour(s). Prerequisite(s): MGB 205 or MGP 205 or MGT 205. Restricted to students in the MBA program. Examines venture capital finance and the related practice of R&D finance. Goal is to apply finance tools and framework to the world of venture capital and financing of projects in high-growth industries. Effective: 2017 Fall Quarter.

MGP 266—International Finance (3)

Lecture—3 hour(s). Prerequisite(s): MGT 205 or MGB 205 or MGP 205; Or the equivalent. Studies fixed and floating exchange-rate systems. Topics include determinants of a nation's balance of international payments; macroeconomic interdependence of nations under various exchange-rate regimes and its implications for domestic stabilization policies; and the international coordination of monetary and stabilization policies. Effective: 2017 Fall Quarter.

MGP 267—Teams & Technology (3)

Lecture/Discussion—3 hour(s). Prerequisite(s): Consent of Instructor. Restricted to working professional MBA students. Theory and practice of managing teams with primary goals of: providing conceptual guidelines for analyzing and diagnosing group dynamics and determining strategic options as a manager; imparting interpersonal skills for implementing effective strategies; understanding how technological change affects team processes. Effective: 2009 Spring Quarter.

MGP 268—Articulation & Critical Thinking (3)

Lecture/Discussion—3 hour(s). With commitment to this course, students will become competent public speakers, write well at a level expected in business, think efficiently and critically about business challenges and have a useful personal code of ethics to shape their actions and decisions. No student may repeat course for credit. Effective: 2013 Fall Quarter.

MGP 269—Business Intelligence Technologies-Data Mining (3)

Lecture/Discussion—3 hour(s). Prerequisite(s): Consent of Instructor. Restricted to students in the MBA program. Descriptive and Predictive Data mining methods covering association rules, clustering, classification, text mining, etc. Big data Technologies. Business applications. Hands-on data mining skills. Business intelligence for managerial decision making. Effective: 2016 Spring Quarter.

MGP 270—Corporate Financial Reporting (3)

Lecture—3 hour(s). Prerequisite(s): MGT 200A or MGP 200A or MGB 200A. Analyzes and evaluates contemporary issues in financial reporting and develops implications of those issues for business decision makers, investment managers, and accounting policymakers. Effective: 2017 Fall Quarter.

MGP 271—Strategic Cost Management (3)

Lecture/Discussion—3 hour(s). Prerequisite(s): MGT 202A or MGP 202A or MGV 202AV. Restricted to students in the MBA program. Theoretical frameworks and associated techniques for using organizational design and cost management to achieve a sustainable, profitable cost structure. Topics include: target costing, process design for low cost, total cost of ownership, cost of customers, implementing structural change, and incentives. Effective: 2017 Fall Quarter.

MGP 272—Evaluation of Financial Information (3)

Lecture—3 hour(s). Prerequisite(s): MGT 200A or MGB 200A or MGP 200A. Studies how investors, creditors, others use accounting and other information in making rational investment, lending decisions. Emphasis is placed on the analysis of financial information in a variety of contexts. Where applicable, recent research in finance and economics is discussed. Effective: 2017 Fall Quarter.

MGP 273—Accounting & Reporting for Government Nonprofit Entities (3)

Lecture—3 hour(s). Concepts, methods, and uses of accounting and financial reporting by governmental and nonprofit entities. Introduction to budgeting and performance evaluation, and accounting for entities such as hospitals, universities, and welfare agencies. Effective: 1994 Fall Quarter.

MGP 274—Corporate Governance (3)

Lecture—3 hour(s). Prerequisite(s): Full-time MBA students or consent of instructor. Discusses how corporations can better operate in the interests of shareholders and public. Directly relevant to managers, consultants in compensation and incentives, staff working on mergers and acquisitions, corporate regulators, shareholders rights activists, and board members. Effective: 2009 Winter Quarter.

MGP 276—Real Estate, Finance & Development (3)

Lecture—3 hour(s). Prerequisite(s): (MGT 205 or MGB 205 or MGP 205); (MGP 201A or MGB 201A or MGT 201A). Focus on single family, attached, detached, multi-family, and light commercial development. Students will study factors which make up successful real estate developments. Considers financial aspects involved in land acquisition, land development, construction, and project lending. Effective: 2017 Fall Quarter.

MGP 281—Systems Analysis & Design (3)

Lecture—3 hour(s). Design and specification of computer-based information systems. Applications systems development life cycle, use requirements and feasibility assessment, logical and physical design, program development and testing, conversion and implementation. Effective: 1994 Fall Quarter.

MGP 282—Supply Chain Management (3)

Lecture/Discussion—3 hour(s). Prerequisite(s): MGT 203A or MGB 203A or MGP 203A. Restricted to students in the MBA program. Matching supply with demand is a primary challenge for a firm: excess supply is too costly, inadequate supply irritates customers. Matching supply to demand is easiest when a firm has a flexible supply process, but flexibility is generally expensive. Effective: 2017 Fall Quarter.

MGP 284—Applied Linear Models for Management (3)

Lecture—3 hour(s). Covers regression, analysis of variance, and multivariate analysis. Topics will focus on applications to management and policy problems. Effective: 2015 Spring Quarter.

MGP 285—Time Series Analysis & Forecasting (3)

Lecture—3 hour(s). Prerequisite(s): MGP 203B or MGT 203B or MGB 203B. Considers application of time series methods to evaluation and forecasting problems. Covers univariate and multivariate ARIMA models and transfer function models. Applications will be in such areas as economics, finance, budgeting, program evaluation, and industrial process control. Effective: 2016 Spring Quarter.

MGP 286—Telecommunications & Computer Networks (3)

Lecture—3 hour(s). Prerequisite(s): MGP 280. Communication system components; common carrier services; design and control of communications networks; network management and distributed environment; local area networks; data security in computer networks. Effective: 1995 Spring Quarter.

MGP 287—Business Database & Database Marketing (3)

Lecture—3 hour(s). Practical introduction to fundamental principles of database management systems and database marketing. Database design. SQL queries. Concepts of database marketing, data warehouse, data visualization and big data analytics. Effective: 2016 Spring Quarter.

MGP 290—Topics in General Management (3)

Seminar—3 hour(s). Prerequisite(s): Completion of all first-year graduate courses at the Graduate School of Management or the equivalent. Advanced topics in general management. Varied topics to cover more extensively issues discussed in MGT 201A and MGT 201B, or current business interest topics in fields of business writing, business communications, development, or workplace processes. May be repeated for credit. Effective: 2009 Fall Quarter.

MGP 291—Topics in Organizational Behavior (3)

Seminar—3 hour(s). Prerequisite(s): Completion of all first-year graduate courses at the Graduate School of Management or the equivalent. Advanced topics in social psychology and sociology of organizations. Varied topics to cover more extensively issues discussed in MGP 201A and MGP 201B, or current business interest topics in fields of organization design, strategy, development, or workplace processes. May be repeated for credit. Effective: 1999 Fall Quarter.

MGP 292—Topics in Finance (3)

Seminar—3 hour(s). Prerequisite(s): Completion of all first-year graduate courses at the Graduate School of Management or the equivalent. Contemporary and emerging issues in finance. Application of modern techniques of finance to business problems. Use of appropriate electronic database and research techniques. May be repeated for credit. Effective: 1999 Fall Quarter.

MGP 293—Topics in Marketing (3)

Seminar—3 hour(s). Prerequisite(s): Completion of all first-year graduate courses at the Graduate School of Management or the equivalent. Advanced topics in marketing, which may include marketing research, new product development, brand management, pricing, distribution management, service marketing, hitech marketing, advertising, sales promotions, marketing through the Web. May be repeated for credit. Effective: 1999 Fall Quarter.

MGP 294—Topics in Accounting (3)

Seminar—3 hour(s). Prerequisite(s): Completion of all first-year graduate courses at the Graduate School of Management or the equivalent. Contemporary and emerging issues in financial management accounting. Application of modern techniques of evaluation and analysis of financial information. Use of appropriate electronic database and research techniques. May be repeated for credit. Effective: 1999 Fall Quarter.

MGP 295—Topics in Information Technology (3)

Seminar—3 hour(s). Prerequisite(s): Completion of all first-year graduate courses at the Graduate School of Management or the equivalent. Applications of information technology to management and management of information technology. Adaptation to the dynamic nature of the field. May be repeated for credit. Effective: 1999 Fall Quarter.

MGP 296—Topics in Technology Management (3)

Seminar—3 hour(s). Prerequisite(s): Completion of all first-year graduate courses at the Graduate School of Management or the equivalent. Cyclical nature of innovation and technological change, features of innovative firms and industries, national innovation systems, and impact of information technologies on innovation processes. May be repeated for credit. Effective: 1999 Fall Quarter.

MGP 297—Topics in International Management (3)

Seminar—3 hour(s). Prerequisite(s): Completion of all first-year graduate courses at the Graduate School of Management or the equivalent. Broader environment in which U.S. firms and their foreign competitors operate. Integration of material from other topics courses (marketing, strategy, finance, accounting, information technology, technology management) into the international setting. May be repeated for credit. Effective: 1999 Fall Quarter.

MGP 298—Directed Group Study (1-5)

Variable. Prerequisite(s): Consent of Instructor. (S/U grading only.) Effective: 1994 Fall Quarter.

MGP 299—Individual Study (1-12)

Variable. Prerequisite(s): Consent of Instructor. (S/U grading only.) Effective: 2000 Spring Quarter.

MGP 401—Crisis Management (1)

Discussion/Laboratory—1 hour(s). Establishes and explores the defining characteristics of crises. Will learn to anchor crisis management firmly within overall strategic management and also acquire a set of useful tools and techniques for planning for and handling actual crises. Effective: 2017 Winter Quarter.

MGP 402—Crisis Communications & Reputation Management (1)

Discussion/Laboratory—1 hour(s). Intended to provide you with an understanding of the framework and tools necessary to successfully address communications and reputation management tasks in a variety of crisis situations. Effective: 2016 Summer Quarter.

MGP 403—Business Statistics Practicum (1)

Project (Term Project)—1 hour(s). Prerequisite(s): (MGT 203A or MGP 203A or MGB 203A); (MGT 203B (can be concurrent) or MGP 203B (can be concurrent) or MGB 203B (can be concurrent)); MGT 203B, MGP 203B, or MGB 203B completed or required concurrently. Restricted to students in the MBA program. Applies techniques and concepts in business statistics to real case studies. Effective: 2011 Fall Quarter.

MGP 404—Organizational Change Management (1)

Lecture/Discussion—1 hour(s). Challenges in getting significant changes made in organizations. Learn Organization Change Management (OCM) techniques and discuss case situations where OCM techniques play a role. Effective: 2016 Fall Quarter.

MGP 405—Business Literature (1)

Lecture/Discussion—1 hour(s). Will examine Business history—historical trends that might influence contemporary business. Some argue that the recent collapse of our financial system might have been averted if business leaders had a better sense of history. Effective: 2017 Winter Quarter.

MGP 406—Ethical Issues in Management (1)

Lecture/Discussion—1 hour(s). Explores the philosophical foundation of ethical theory and its recent applications to business situations. Professional codes of ethics, such as those promulgated by educational, managerial, engineering, scientific, medical and legal professional societies, are presented. Effective: 2017 Winter Quarter.

MGP 407—Storytelling for Leadership (1)

Lecture/Discussion—1 hour(s). Internalize the fundamental principles behind stories that educate, influence, motivate, inspire, persuade and connect. Effective: 2016 Fall Quarter.

MGP 408—The Business of the Media (1)

Lecture/Discussion—1 hour(s). Focuses on the media industries and how emerging digital technologies are disrupting the way media consumption, distribution and business models work. Will highlight the economics of several media, both news and entertainment. Effective: 2016 Summer Quarter.

MGP 409—Managing Multi-Asset Class Investment Portfolios (1)

Lecture/Discussion—1 hour(s). Prerequisite(s): MGP 202A; MGP 203A; MGP 205. Examines top down management of multi-asset class portfolios. Topics include bonds, hedge funds, private equity, real estate, commodities, endowments, return generation, performance analysis, credit cycles, financial crises, manager selection, investment policy, and investment careers. Student teams present endowment portfolio recommendations. Effective: 2015 Spring Quarter.

MGP 410—Corporate Governance (1)

Lecture/Discussion—1 hour(s). Covers recent and not-so-recent business and accounting scandals, discuss how corporations can better operate in the interests of shareholders, and the public and learn from people who rely on corporate governance in making investment decisions. Effective: 2017 Winter Quarter.

MGP 411—Turnaround Management (1)

Lecture/Discussion—1 hour(s). Evaluate the financial performance of a company, identify opportunities for improvement, propose real solutions to enhance performance, and most important inspire action in staff. Effective: 2017 Winter Quarter.

MGP 412—International Marketing (1)

Lecture/Discussion—1 hour(s). Basic concepts of international marketing. Understanding and managing heterogeneous, dynamic, and interdependent environments across countries. How to develop and implement an international marketing strategy: where and how to compete, how to adapt to your marketing mix. Effective: 2016 Fall Quarter.

MGP 413—Sustainable Business Ventures: Business & Energy (1)

Lecture/Discussion—1 hour(s). Introduction to sustainability goals, indicators, values, measurement techniques, and practice how it applies to large and small enterprise. Effective: 2013 Spring Quarter.

MGP 414—Multi-Channel Marketing (1)

Lecture/Discussion—1 hour(s). Multi-channel marketing strategies empower managers to create value for different customer segments. Covers the necessary concepts to evaluate and select go-to market strategies in order to capitalize on the ubiquity of modern customers. Effective: 2017 Winter Quarter.

MGP 415—Climate Risks & Opportunities (1)

Lecture/Discussion—1 hour(s). Provide a working knowledge of the risks and opportunities arising from climate change and climate policy for businesses. Effective: 2016 Summer Quarter.

MGP 416—Topics in Private Equity (1)

Lecture—1 hour(s). Prerequisite(s): MGP 205 or MGT 205 or MGB 205. Restricted to students in the MBA program. Focuses on the finance principles related to the risk and return of the private equity (PE) industry, valuation of PE target companies, the structuring of leveraged buyouts (LBOs), and the management of portfolio companies. Effective: 2017 Fall Quarter.

MGP 417—Incentives & Controls (1)

Lecture/Discussion—1 hour(s). Understand how organizations use financial and nonfinancial performance management and incentive systems to motivate people and manage resources. Effective: 2017 Winter Quarter.

MGP 418—Scientific Discovery & Business Innovation at Scale in the Food & Agriculture Sector (1)

Lecture—3 hour(s). Restricted to students in the MBA program. Scientific discovery and business innovation within the food and agriculture sector profoundly influences the sustainability of society and enterprise competitiveness. Students will learn how business innovation models co-exist antagonistically or synergistically with scientific discovery and its influence on enterprise competitiveness. Effective: 2017 Winter Quarter.

MGP 419—Business Strategy Consulting Skills (1)

Lecture—5 hour(s). Restricted to students enrolled in the MBA program. Students will learn practical business consulting skills which will help apply strategy theories in the workplace. Students will learn and practice tools to frame and analyze problems, conduct research, communicate findings and navigate client relationships. Effective: 2017 Winter Quarter.

MGP 420—Advanced Optimization in a Python-based Modeling Language (1)

Web Virtual Lecture—1 hour(s). Prerequisite(s): (MGP 252 or MGB 252 or MGT 252); (MGP 206 or MGB 206 or MGT 206). Restricted to students enrolled in the MBA program. Covers advanced optimization modeling techniques and practical application of modern, scalable modeling language. Techniques will be developed using examples from production planning in a supply chain, but students may explore other areas of application of optimization for their final project. Effective: 2017 Winter Quarter.

MGP 421—Monte Carlo Simulation for Managerial Analysis (1)

Lecture—1 hour(s). Create Excel-based simulation models across business domains, from finance to hypothesis testing and inventory management. By course-end, students are experts at recognizing this decision-making fallacy and fixing it. Effective: 2017 Spring Quarter.

MGP 422—Behavioral Finance & Valuation (1)

Lecture—1 hour(s). Prerequisite(s): (MGT 260 or MGP 260 or MGB 260); (MGT 261 or MGP 261 or MGB 261). Restricted to students enrolled in the MBA program. Investor psychology and market frictions can cause asset prices to deviate from fundamental values, creating profit opportunities for sophisticated investors. Covers techniques of financial analysis with the goal of learning how to value assets and identify mispricing. Effective: 2017 Winter Quarter.

MGP 423—Leader as Coach: An Introduction to Coaching Skills for Leaders (1)

Lecture—1 hour(s). Restricted to students enrolled in the MBA program. Introduces the fundamental coaching skills and coaching models that leaders can apply in everyday interactions with their team and colleagues in order to build trust, overcome challenges and help others discover their own full potential. Effective: 2017 Winter Quarter.

MGP 424—Practicum for Managing People in Modern Organizations (1)

Project (Term Project)—1 hour(s). Prerequisite(s): MGP 224. Restricted to students in the MBA program. Provides solid grounding in the management of work and the employment relationship. Examines firms' interrelated policies and practices for managing people. Effective: 2011 Winter Quarter.

MGP 425—Digital Marketing Techniques (1)

Lecture—1 hour(s). Provides students with an introduction to digital marketing. Introduces MBA students to the fundamental aspects and tools of online marketing communication, i.e., how organizations use digital channels to effectively communicate their value propositions to the target customers. Effective: 2017 Spring Quarter.

MGP 426—The Business of Healthcare (1)

Lecture—1 hour(s). Restricted to students enrolled in the MBA program (Business Administration—Working Professional, Business Administration—Bay Area, Business Administration—Full-Time). Intended to provide an overall understanding of the unique business aspects of the healthcare industry. Effective: 2017 Winter Quarter.

MGP 427—Implementing International Strategy (1)

Lecture—1 hour(s). Restricted to students enrolled in the MBA program (Business Administration—Working Professional, Business Administration—Bay Area, Business Administration—Full-Time). Looks at the pitfalls of implementing international strategies, and suggest several accessible, yet powerful frameworks to help international managers implement strategies successfully and completely. Effective: 2017 Winter Quarter.

MGP 428—Renewable Energy Ventures: Planning, Funding & Regulatory Risk Assessment for Entrepreneurs & Investors (1)

Lecture—1 hour(s). Restricted to students enrolled in the MBA program. Advanced innovation lab will introduce students to issues addressed by entrepreneurs and investors in renewable ventures. Lectures, simulations, case studies and practical experience of the presenters will be delivered. Effective: 2016 Summer Quarter.

MGP 429—Detection & Prevention of Asset Misappropriation Fraud in the Workplace (1)

Lecture—1 hour(s). Restricted to students enrolled in the MBA program. Discusses the fundamentals of fraud detection and prevention in the workplace. Learn the major schemes involving workplace fraud, how management can detect fraud and what policies and procedures can be implemented to prevent fraud. Effective: 2016 Fall Quarter.

MGP 430—Learning From Catastrophes: Lessons for Managers (1)

Lecture—1 hour(s). Restricted to students enrolled in the MBA program. Catastrophes unfold in surprisingly similar ways. Analyze catastrophes to understand these common patterns and investigate how they can be prevented and mitigated. Apply these lessons to management to gain unconventional insights. Effective: 2016 Summer Quarter.

MGP 431—Project Management (1)

Lecture—10 hour(s). Open to students enrolled in the MBA program. Students learn project management; including project scope, project planning, milestones and project closing. Important themes include leadership, team dynamics, storytelling/creating a narrative, communication, and conflict management. Effective: 2016 Fall Quarter.

MGP 432—Project Management with Applications in Healthcare (1)

Lecture—1 hour(s). Focuses on the heart of healthcare administration and how project management can be applied as a key lever to increase efficiency, decrease costs and improve the patient experience. Effective: 2017 Spring Quarter.

MGP 433—Corporate Social Responsibility (1)

Lecture—1 hour(s). Learn practical information that will help students understand the basics of designing, managing and evaluating an effective CSR program. Expose students to a basic set of CSR issues in the context of cross-purpose business challenges and then focus on the analysis and critical decisions that managers must make to move their business and their social agenda forward. Effective: 2018 Spring Quarter.

MGP 434—Practicum for Pricing (1)

Project (Term Project)—1 hour(s). Prerequisite(s): MGP 234. Restricted to students in the MBA program. Enhance understanding of the principles and concepts learned in Pricing by (1) teaching the necessary statistical and mathematical skills, and (2) requiring a report for a real Pricing case. Effective: 2011 Winter Quarter.

MGP 435—Data Wrangling (1)

Lecture—1 hour(s). Develop practical skills to pre-process data. Tidied raw data can then be used for downstream data analysis, modeling, and visualization. Effective: 2018 Fall Quarter.

MGP 436—Introduction to Derivative Securities (1)

Lecture—1 hour(s). Introduction to derivative securities and other forms of financial innovations. Effective: 2019 Fall Quarter.

MGP 437—Healthcare Analytics (1)

Lecture—1 hour(s). Open to students enrolled in the MBA program only. Introduction to advanced analytics framework, key Artificial Intelligence & Machine Learning concepts, and modeling techniques towards solving high-value and high-impact healthcare business problems. Effective: 2019 Fall Quarter.

MGP 440—Integrated Management Project (5)

Project (Term Project)—3 hour(s). Prerequisite(s): First-year core courses of MBA program. Applies classroom learning to solve complex business challenges for real world clients. Student teams learn practical consulting skills while their clients benefit from the student's experience, insights, and work product. Effective: 2016 Fall Quarter.

MGP 440A—Integrated Management Project (3)

Lecture/Discussion—3 hour(s). Prerequisite(s): First-year core courses of MBA program. Restricted to full-time MBA students. Applies classroom learning to solve complex business challenges for real world clients. Student teams learn practical consulting skills while their clients benefit from the student's experience, insights, and work product. Effective: 2015 Spring Quarter.

MGP 440B—Integrated Management Project (3)

Project (Term Project)—3 hour(s). Prerequisite(s): First-year core courses of MBA program. Restricted to full-time MBA students. Applies classroom learning to solve complex business challenges for real world clients. Student teams learn practical consulting skills while their clients benefit from the student's experience, insights, and work product. Effective: 2015 Spring Quarter.

MGP 440C—Integrated Management Project Lead (1)

Project (Term Project)—1 hour(s). Integrated Management Project Team leader. Effective: 2016 Fall Quarter.

MGP 442—Practicum for Marketing Communication (1)

Project (Term Project)—1 hour(s). Prerequisite(s): MGP 242. Restricted to students in the MBA program. Provides experience applying concepts learned in Marketing Communications to a realistic advertising or communication problem faced by firms. Effective: 2011 Spring Quarter.

MGP 443—Practicum for Customer Relationship Management (1)

Project (Term Project)—1 hour(s). Prerequisite(s): MGP 243. Restricted to students in the MBA program. Hands-on training in applying Customer Relationship Management concepts and metrics to secondary data. Enhances ability to interpret results and decide the right type of marketing actions by requiring an executive report at the end of the quarter. Effective: 2010 Fall Quarter.

MGP 448—Practicum for Marketing Strategies (1)

Project (Term Project)—1 hour(s). Prerequisite(s): MGP 248. Restricted to students in the MBA program. Provides opportunities to apply the concepts covered in the Marketing Strategies class through a group project involving the analysis of strategic marketing decisions based on business-related issues, simulation and modeling. Effective: 2010 Fall Quarter.

MGP 449—Marketing Research Practicum (1)

Project (Term Project)—1 hour(s). Prerequisite(s): MGP 249. Restricted to students in the MBA program, or in some cases with permission of instructor. Provides opportunities to apply the concepts and methods covered in the Marketing Research class. Hands-on and project-based, work could be either individual or in groups depending on enrollments and/or interests of students. Effective: 2011 Spring Quarter.

MGP 450—Practicum for Technology Strategy & Competition (1)

Project (Term Project)—1 hour(s). Prerequisite(s): MGP 250. Restricted to students in the MBA program. In-depth practicum project course. Apply theories, concepts, and models, learned in MGP 250 to a real-world business problem, through data collection, data analysis, simulation, modeling and post-model interpretation. Effective: 2011 Winter Quarter.

MGP 460—Practicum for Corporate Finance & Real Estate (1)

Project (Term Project)—1 hour(s). Prerequisite(s): MGP 260. Restricted to students in the MBA Program. Work in groups to select and value a financial entity. It could be a firm, a sports player, a building, a project, or a patent. Grade based on an in-class presentation and a write-up. Effective: 2011 Spring Quarter.

MGP 461—Practicum for Investment Analysis (1)

Project (Term Project)—1 hour(s). Prerequisite(s): MGP 261. Restricted to students in the MBA program. Provides practical experience applying concepts learned in Investment Analysis to a realistic portfolio management setting via a hypothetical exercise. Produce a realistic executive summary and presentation of an investment proposal for a hypothetical client. Effective: 2010 Fall Quarter.

MGP 464—Practicum for Taxes & Business Strategy (1)

Project (Term Project)—1 hour(s). Prerequisite(s): MGP 264. Restricted to students in the MBA program. Practical application project drawing from the tax planning theory contained in MGP 264. Project consists of a business formation and operation, change in organization (incorporation), and movement into multi-national and multi-jurisdictional tax. Effective: 2010 Fall Quarter.

MGP 465—Practicum for Venture Capital (1)

Project (Term Project)—1 hour(s). Prerequisite(s): MGP 265. Restricted to students in the MBA program. Provides an opportunity to apply concepts learned in Venture Capital in a realistic setting. Complete project analyzing a potential investment in a hypothetical venture and prepare an deal term sheet/investment agreement. Effective: 2011 Winter Quarter.

MGP 467—Practicum for Teams & Technology (1)

Project (Term Project)—1 hour(s). Prerequisite(s): MGP 267. Restricted to students in the MBA program. Groups investigate the performance, creativity, conflict, information sharing, and leadership behaviors of a real world team. Provide consulting advice to the team, which not only gives analytic skills, but also builds presentation skills. Effective: 2011 Spring Quarter.

MGP 469—Practicum for Business Intelligence Technologies (1)

Project (Term Project)—1 hour(s). Prerequisite(s): MGP 269. Restricted to students in the MBA program. Projects applying concepts learned in Business Intelligence Technologies to real business problems. Effective: 2011 Winter Quarter.

MGP 482—Practicum for Supply Chain Management (1)

Project (Term Project)—1 hour(s). Prerequisite(s): MGT 282 (can be concurrent) or MGP 282 (can be concurrent) or MGB 282 (can be concurrent); Course is a pre-requisite or co-requisite. Restricted to students in the MBA program. Provides experience applying concepts learned in Supply Chain Management to a realistic management setting via a project. Effective: 2011 Spring Quarter.

MGP 490—Topics in Business (1)

Lecture/Discussion—1 hour(s). Prerequisite(s): Consent of Instructor. Sponsorship of a GSM Academic Senate faculty member; approval of graduate advisor. Open to students in the MBA Program (SMBA, SMBB, SMBE). Provides opportunity for students to gain experience in applying business methodologies previously acquired in other GSM courses. May be repeated for credit. Effective: 2020 Spring Quarter.

MGP 490A—Topics in Management (2)

Lecture—2 hour(s). Advanced topics in general management. Varied topics to cover more extensively issues discussed in the MBA core such as business writing, management, organizational behavior, business communications, development, and workplace processes. (S/U grading only.) Effective: 2020 Winter Quarter.

MGP 498—Directed Group Study Management Practicum (1-12)

Project (Term Project). Prerequisite(s): Consent of Instructor. Sponsorship of a GSM Academic Senate faculty member; approval of graduate advisor. Provides the opportunity for students to gain experience in applying business methodologies previously acquired in other GSM courses. May be repeated up to 6 unit(s). (S/U grading only.) Effective: 2011 Summer Quarter.

MGP 499—Directed Individual Study Management Practicum (1-12)

Project (Term Project). Prerequisite(s): Consent of Instructor. Sponsorship of a Graduate School of Management Academic Senate faculty member; approval of graduate advisor. Provides the opportunity for students to gain experience in applying business methodologies previously acquired in other Graduate School of Management courses. May be repeated for credit. (S/U grading only.) Effective: 2011 Summer Quarter.

Students must complete the Management core course requirement before enrolling in any of the following elective courses, or petition with consent of the instructor. The core courses include: 200A, 201A, 201B, 202A, 203A, 204, 205, 252, 268, 440, 440A, 440B, 440C. For a list of elective courses, see <https://webapps.gsm.ucdavis.edu/Raps/courses/curriculumOverviewByProgram?program=SMBA>.

MGT—Management

Courses in MGT:

Students must complete the Management core course requirement before enrolling in any of the following elective courses, or petition with consent of the instructor. The core courses include: 200A, 201A, 201B, 202A, 203A, 204, 205, 252, 268, 440, 440A, 440B, 440C. For a list of elective courses, see <https://webapps.gsm.ucdavis.edu/Raps/courses/curriculumOverviewByProgram?program=SMBA>.

MGT 011A—Elementary Accounting (4)

Lecture—3 hour(s); Discussion—1 hour(s). Basic concepts of accounting; interpreting and using financial statements; understanding accounting principles. GE credit: SS. Effective: 2017 Summer Session 1.

MGT 011B—Elementary Accounting (4)

Lecture—3 hour(s); Discussion—1 hour(s). Prerequisite(s): MGT 011A. Theory of product costing; Analyzing the role and impact of accounting information on decision making; planning and performance evaluation. GE credit: SS. Effective: 2017 Spring Quarter.

MGT 012Y—Navigating Life's Financial Decisions (3)

Lecture—2 hour(s); Web Virtual Lecture—1 hour(s). Survey of major life financial decisions (e.g., career choice, consumption v. saving, investments, mortgages, insurance) and how decision-making biases (e.g., overconfidence, present bias, limited attention) can lead to suboptimal choice. Draws on research from economics, psychology, and sociology. GE credit: QL, SS. Effective: 2016 Winter Quarter.

MGT 098—Directed Group Study (1-5)

Seminar—3-15 hour(s). Open to all undergraduates, but is primarily intended for lower division students. May be repeated for credit. (P/NP grading only.) Effective: 2016 Fall Quarter.

MGT 100—Introduction to Financial Accounting (3)

Lecture—3 hour(s). Prerequisite(s): MGT 011A. Open to all upper division undergraduate and graduate students, except those in the Graduate School of Management. Introduction to the concepts, methods, and uses of accounting and financial reporting. Effective: 2016 Summer Session 1.

MGT 101—Sources & Uses of Accounting Information (4)

Lecture—3 hour(s); Discussion—1 hour(s). Prerequisite(s): MGT 011A C- or better; MGT 011B C- or better; must have C- or better in all prerequisite courses. Develops an understanding of the supply and demand of accounting information. Topics include the generation and processing of accounting information, the examination of accounting information by auditors, and the use of accounting information by capital markets and tax authorities. Effective: 2019 Fall Quarter.

MGT 103—Intermediate Financial Accounting I (4)

Lecture—3 hour(s); Discussion—1 hour(s). Prerequisite(s): MGT 011A; MGT 011B. Begin to develop expertise in the accounting for assets and introduce analysis of financial statements. Effective: 2017 Fall Quarter.

MGT 105—Intermediate Financial Accounting II (4)

Lecture—3 hour(s); Discussion—1 hour(s). Prerequisite(s): MGT 103. Continue to develop expertise in the preparation of financial statements by studying the accounting for liabilities and stockholders' equity. Examines the accounting for contracts that can have significant effects on firms' financial statements. Effective: 2017 Fall Quarter.

MGT 107—Intermediate Financial Accounting III (4)

Lecture—3 hour(s); Discussion—1 hour(s). Prerequisite(s): MGT 105. Finishes the Intermediate Financial Accounting series by examining in depth the accounting for contracts related to pensions and leases. Preparation of the statement of cash flows and footnote disclosures. Effective: 2017 Spring Quarter.

MGT 120—Managing & Using Information Technology (4)

Lecture—3 hour(s); Discussion—1 hour(s). Develop an analytical framework to manage and monitor business systems concerned with operational, human, and organizational interactions. Introduction to computer hardware, systems software, and information systems. Management of information technology and the impact of information systems on modern management. GE credit: SS. Effective: 2016 Summer Session 1.

MGT 140—Marketing for the Technology-Based Enterprise (4)

Lecture—3 hour(s); Discussion—1 hour(s). Quantitative analysis of needs in a product (technology-based) economy, with emphasis on how scientists, engineers, and business people interact to develop and market products and services. GE credit: SS. Effective: 2017 Winter Quarter.

MGT 150—Technology Management (4)

Lecture—3 hour(s); Discussion—1 hour(s). Management of firms in high technology industries such as software development and biotechnology research. Motivating and managing workers, organizing for innovation, and making decisions. GE credit: SS. Effective: 2016 Fall Quarter.

MGT 160—Financing New Business Ventures (4) *Review all entries*

Lecture—3 hour(s); Discussion—1 hour(s). Prerequisite(s): MGT 011A; (MAT 016B or MAT 017B or MAT 021B); STA 013. Concepts/methods used to structure and finance new business ventures. Topics include evaluating the net social (financial) benefit of new investment projects; raising venture capital; the role of the venture capitalist; and the choice of organizational structure in new ventures. GE credit: SS. Effective: 2016 Fall Quarter.

MGT 160—Financing New Business Ventures (4) *Review all entries*

Lecture—3 hour(s); Discussion—1 hour(s). Prerequisite(s): MGT 011A; (STA 013 or STA 013Y). Concepts/methods used to structure and finance new business ventures. Topics include evaluating the net social (financial) benefit of new investment projects; raising venture capital; the role of the venture capitalist; and the choice of organizational structure in new ventures. GE credit: SS. Effective: 2020 Fall Quarter.

MGT 170—Management Accounting & Control (4)

Lecture—3 hour(s); Discussion—1 hour(s). Prerequisite(s): MGT 011A; MGT 011B; or Consent of Instructor. Covers the design of cost accounting systems, the preparation of financial budgets and forecasts, cost analysis, and the use of cost and other financial data to motivate and evaluate the performance of business units and managers. GE credit: SS. Effective: 2019 Winter Quarter.

MGT 180—Supply Chain Planning & Management (4)

Lecture—3 hour(s); Discussion—1 hour(s). Develops key concepts and relationships between supply chain design and business models and strategies. Much of the focus is on quantitative techniques for analysis & management of the production and delivery of goods & services by an organization. GE credit: SS. Effective: 2017 Winter Quarter.

MGT 190—Special Topics in Accounting (4)

Seminar—4 hour(s). Prerequisite(s): MGT 011A; MGT 011B; MGT 101. Seminar in the theory and practice of advanced or emerging areas related to the practice of professional accountancy. Specific topics will vary according to the interests of the instructor or students. Effective: 2017 Spring Quarter.

MGT 198—Directed Group Study (1-5)

Variable—1-5 hour(s). Open to all undergraduates, but primarily intended for upper division students. May be repeated up to 6 unit(s) when topic differs. (P/NP grading only.) Effective: 2020 Winter Quarter.

MGT 199—Special Study for Advanced Undergraduates (1-5)

Variable—3-15 hour(s). Prerequisite(s): Consent of Instructor. Special Study for Advanced Undergraduates May be repeated for credit. (P/NP grading only.) Effective: 2020 Winter Quarter.

MGT 200A—Financial Accounting (3)

Lecture—3 hour(s). Prerequisite(s): Graduate student in the Graduate School of Management. Introduction to the concepts and objectives underlying the preparation of financial statements. Topics include understanding the accounting cycle, measurement and valuation problems associated with financial statement components, consideration of the usefulness of financial statements in the analysis of a corporation's operations. Effective: 1997 Fall Quarter.

MGT 200B—Managerial Accounting (3)

Lecture—3 hour(s). Prerequisite(s): MGT 200A or MGB 200A or MGP 200A. Information managers should know to be effective, including: product costing, motivating people, and differential analysis for decision making. Includes team projects and written and oral presentations. Effective: 2017 Fall Quarter.

MGT 201A—The Individual & Group Dynamics (3)

Lecture—3 hour(s). Prerequisite(s): Graduate student in the Graduate School of Management. Examines basic psychological and social psychological processes shaping human behavior and applies knowledge of these processes to the following organizational problems: motivation, job design, commitment, socialization, culture, individual and group decision making, and team building. Effective: 1997 Fall Quarter.

MGT 201B—Organizational Strategy & Structure (3)

Lecture/Discussion—3 hour(s). Prerequisite(s): Completion of first year courses in Graduate School of Management or the equivalent. Open to MBA students only. Strategic management of organizations, including analysis of industries, firm resources and capabilities and corporate strategy. Strategy formulation, implementation and strategic decision-making. Firm and industry life cycles and change. Analysis of organizational design and structure including differentiation and integration. Effective: 2010 Fall Quarter.

MGT 202A—Markets & the Firm (3)

Lecture—3 hour(s). Prerequisite(s): Graduate student in the Graduate School of Management. Examines the interaction of consumers, firms and government, and the effect this interaction has on the use of resources and firm profitability. Fundamental economic concepts such as marginal analysis, opportunity cost, pricing, and externalities are introduced and applied. Effective: 1997 Fall Quarter.

MGT 202B—Business, Government, & the International Economy (3)

Lecture—3 hour(s). Prerequisite(s): MGT 202A or MGV 202AV or MGP 202A. Examines the influence of government and international factors on business. Topics include distribution of income, business cycles, inflation and interest rates, the federal debt, monetary policy and international trade and finance. Effective: 2017 Fall Quarter.

MGT 203A—Data Analysis for Managers (3)

Lecture—3 hour(s). Prerequisite(s): Graduate student in the Graduate School of Management MBA program or consent of instructor. Introduction to statistics and data analysis for managerial decision making. Descriptive statistics, principles of data collection, sampling, quality control, statistical inference. Application of data analytic methods to problems in marketing, finance, accounting, production, operations, and public policy. Effective: 1997 Winter Quarter.

MGT 203B—Forecasting & Managerial Research Methods (3)

Lecture—3 hour(s). Prerequisite(s): MGT 203A or MGB 203A or MGP 203A. Practical statistical methods for managerial decision making covers regression analysis, time series analysis and forecasting, design and analysis of experiments in managerial research and contingency table analysis. Application of these methods to marketing, finance, accounting, production, operations, and public policy. Effective: 2017 Fall Quarter.

MGT 204—Marketing Management (3)

Lecture—3 hour(s). Prerequisite(s): Graduate student in the Graduate School of Management. Analysis of market opportunities, elements of market research, development of marketing strategies, market planning and implementations, and control systems. Consumer and industrial markets, market segmentation, pricing strategies, distribution channels, promotion, and sales. Effective: 1997 Fall Quarter.

MGT 205—Financial Theory & Policy (3)

Lecture—3 hour(s). Prerequisite(s): Graduate student in the Graduate School of Management. Corporate financial policy and investment management. Covers capital budgeting, optimal financial structure, cost-of-capital determination, risk measurement. Develops basic valuation principles for investments with long-lived and risky cash-flows, and extends these to derivative securities, asset portfolios, investment management and hedging. Effective: 2009 Fall Quarter.

MGT 206—Decision Making & Management Science (3)

Lecture—3 hour(s). Prerequisite(s): Graduate student in the Graduate School of Management MBA program or consent of instructor. Develops decision-making and problem-solving skills in conjunction with a quantitative model-building approach. Emphasizes how structured modeling techniques, probability forecasts, simulations, and computer optimization models are used in the overall process of making decisions in an uncertain environment. Effective: 1997 Winter Quarter.

MGT 207—Management Information Systems (3)

Lecture—3 hour(s). Prerequisite(s): Graduate student or consent of instructor. Introduction to computer programming and data handling skills. Use of computer in organizations, emphasis on managerial aspects of computing. Standard and nonstandard uses of data files, centralization versus decentralization of computing, office automation, computer security. Effective: 1997 Winter Quarter.

MGT 215—Business Law (3)

Lecture—3 hour(s). Prerequisite(s): Completion of administration core requirements or petition with consent of instructor. Introduction to law and legal process in the United States. Sources of law. Structure and operation of courts, federal-state relationships, fundamentals of administrative law, fundamentals of business law. Effective: 1997 Winter Quarter.

MGT 216—Managing Professionals, Budgets, Controls & Ethics (3)

Lecture—3 hour(s). Prerequisite(s): Graduate standing. Performance measures, budgetary controls and ethical pressures which occur at middle management levels in service-type operations. Addresses such organizations as engineering, medical groups, law offices, management consultants. Effective: 1997 Winter Quarter.

MGT 220—Management of Social Networks (3)

Lecture/Discussion—3 hour(s). Prerequisite(s): MGT 201A. Open to MBA students only. Principles and applications of social network theory: coordinating divergent interests to create value for individuals and organizations. Emphasis on conceptual models, web-based diagnostic tools, and practical applications. Effective: 2004 Winter Quarter.

MGT 223—Power & Influence in Management (3)

Seminar—3 hour(s). Prerequisite(s): MGT 201A or MGB 201A or MGP 201A; Consent of Instructor. Investigation of the bases of power in organizations and the tactics used to translate power into influence. Topics include the control of resources (including information), social psychological processes (including commitment), the construction of meaning, and ethics. Effective: 2017 Fall Quarter.

MGT 224—Managing People in High-Performance Organizations (3)

Lecture—3 hour(s). Prerequisite(s): MGT 201A or MGB 201A or MGP 201A. Restricted to students in the MBA program. Strategic approach to the management of people within organization. Analyze employment systems' fit with firms' environments and strategies. Explore consequences of choices firms make in managing people—decisions as to selection, performance evaluation, compensation, and other management policies and practices. Not open to students who have taken MGB 224 or MGP 224. Effective: 2017 Fall Quarter.

MGT 234—Pricing (3)

Lecture/Discussion—3 hour(s). Prerequisite(s): (MGT 202A or MGV 202AV or MGP 202A); (MGT 203B or MGB 203B or MGP 203B); (MGB 204 or MGP 204 or MGT 204). Restricted to students in the MBA program. Combines lectures, cases and homework to teach students tools and skills necessary to analyze pricing situations, make pricing decisions, and implement them, in a systematic manner. Effective: 2017 Fall Quarter.

MGT 239—Digital Marketing (3)

Lecture/Discussion—3 hour(s). Prerequisite(s): MGT 204 or MGB 204 or MGP 204. Equips students for a career in digital marketing and social media. Topics include online advertising, search engine optimization, interactive mktg, online privacy issues, e-commerce, social influence, social network theory, measurement of social influence and integrating social and traditional media. Effective: 2017 Fall Quarter.

MGT 240—Management Policy & Strategy (3)

Lecture—3 hour(s). Prerequisite(s): First-year core courses of M.B.A. program. Examines the scope of missions, objectives strategies, policies, structures, measurements and incentives which bear on the management of an organization. Real client organizations, in the private and public sectors, are assigned to student teams as the subjects of study. Effective: 1997 Winter Quarter.

MGT 240A—Intergrated Management Project (3)

Lecture/Discussion—3 hour(s). Prerequisite(s): First-year core courses of MBA program. Restricted to full-time MBA students. Applies classroom learning to solve complex business challenges for real world clients. Student teams learn practical consulting skills while their clients benefit from the student's experience, insights, and work product. Effective: 2013 Spring Quarter.

MGT 241—New Product Development (3)

Lecture/Discussion—3 hour(s). Prerequisite(s): MGT 204 or MGB 204 or MGP 204. Open to graduate students in the Graduate School of Management. State-of-the-art concepts and methods to enhance the effectiveness of new product development activities. Focuses on the understanding of managerial issues and acquiring the ability to solve problems. Effective: 2017 Fall Quarter.

MGT 242—Marketing Communications (3)

Lecture—3 hour(s). Issues in designing a marketing communications strategy. Topics include mass and direct communications, institutional aspects of advertising, consumer behavior, evaluating ad effectiveness, determining ad budget, creative strategy, and use and abuse of promotions. Effective: 2000 Fall Quarter.

MGT 243—Customer Relationship Management (3)

Lecture/Discussion—3 hour(s). Prerequisite(s): MGT 204 or MGB 204 or MGP 204. Restricted to MBA students only. Customer Relationship Management (CRM) is a management approach under which marketing activities are organized and measured around customers (rather than around brands.) This approach is appealing because customers, not brands, are those who make buying decisions. Effective: 2017 Fall Quarter.

MGT 244—New & Small Business Ventures (3)

Lecture—3 hour(s). Prerequisite(s): MGT 204 or MGB 204 or MGP 204. Student teams develop complete business plans for their own start-up ventures. Process includes: elevator pitch, business strategy, comprehensive bottoms-up financial projections, capital requirements, product differentiation, competitive, alliance, and go-to-market strategy development, investor presentation, and comprehensive written business plan. Effective: 2017 Fall Quarter.

MGT 245—Business Writing (3)

Lecture/Discussion—3 hour(s). Prerequisite(s): Completion of first-year core courses at the Graduate School of Management or the equivalent. Restricted to MBA students only. Techniques for sharpening writing skills are introduced, along with grammatical structure, word choice, and punctuation. Learn to develop styles that are pitch-perfect for given situations and to think strategically about each communication challenge in a management setting. Effective: 2011 Fall Quarter.

MGT 246—Negotiation & Team Building (3)

Lecture/Discussion—3 hour(s). Prerequisite(s): MGT 205; MGT 202. Basic theory of negotiation; applies theory to process of building teams to achieve business purposes. Covers integrative and distributive strategies of claiming value, how to recognize bargaining tricks, uncovering hidden agendas, brainstorming to extend Pareto frontier. Effective: 2011 Fall Quarter.

MGT 247—Customer Service as a Marketing Tool (3)

Lecture—3 hour(s). Understanding the distinct features of services, how to create value through service, methods of building strong relationships with customers, methods of measuring and building customer satisfaction, and measuring the financial impact of service improvement. Effective: 1998 Spring Quarter.

MGT 248—Marketing Strategies (3)

Lecture—3 hour(s). Prerequisite(s): (MGT 202A or MGV 202AV or MGP 202A); (MGP 204 or MGB 204 or MGT 204). Examines process by which organizations develop strategic marketing plans. Includes definition of activities and products, marketing audits, appraising market opportunities, design of new activities and products, and organizing marketing planning function. Applications to problems in private and public sector marketing. Effective: 2017 Fall Quarter.

MGT 249—Marketing Research (3)

Lecture—3 hour(s). Prerequisite(s): (MGT 202A or MGV 202AV or MGP 202A); (MGP 203A or MGB 203A or MGT 203A); (MGT 204 or MGB 204 or MGP 204). Addresses the managerial issues and problems of systematically gathering and analyzing information for making private and public marketing decisions. Covers the cost and value of information, research design, information collection, measuring instruments, data analysis, and marketing research applications. Effective: 2017 Fall Quarter.

MGT 250—Technology, Competition & Strategy (3)

Lecture—3 hour(s). Prerequisite(s): (MGT 202A or MGV 202AV or MGP 202A); (MGP 203A or MGT 203A or MGB 203A). Restricted to students in the MBA program. Why is software typically so defective? Why do many firms in the IT industry give away their best products free? Helps analyze questions like these by modeling competition and strategy in the network, technology and information industries. Effective: 2017 Fall Quarter.

MGT 251—Management of Innovation (3)

Lecture—3 hour(s). Prerequisite(s): MGT 201A or MGB 201A or MGP 201A. Managing innovative enterprise in changing and uncertain environments. Covers technology forecasting and assessment, program selection and control, financial management, regulation, and ethics. Effective: 2017 Fall Quarter.

MGT 252—Managing for Operational Excellence (3)

Lecture—3 hour(s). Prerequisite(s): MGT 203A or MGB 203A or MGP 203A. Open to students in the Graduate School of Management. Explores the management of operations as applied to manufacturing as well as services provided both inside and outside the organization. Develop an understanding of how uncertainty affects planning and delivery by looking at fundamental models of operations. Effective: 2018 Spring Quarter.

MGT 253—Corporate Social Responsibility (3)

Lecture—3 hour(s). Develop a thought process and approach to corporate social responsibility that students will be able to build on during their post-school leadership roles, whether as corporate executives, entrepreneurs, or NGO leaders. Effective: 2016 Spring Quarter.

MGT 255—Entrepreneurship & Venture Investment Clinic (3)

Lecture—3 hour(s). Limited to 30 students. Provides the necessary analytical and design tools to create business ideas and refine business models based on emerging technologies. Students learn to work closely in small teams to synthesize technical, strategic, and marketing needs into designs for new ventures. Effective: 2016 Spring Quarter.

MGT 258—Mergers & Acquisitions (3)

Lecture—3 hour(s). Prerequisite(s): MGT 205. Focuses on the market for corporate acquisitions and restructuring activity. Topics include: sources of value creation; takeovers; anti-takeover provisions; bidding strategies; use of leverage in buyouts; regulatory risk and hurdles; and, valuation approaches for highly leveraged transactions. Effective: 2015 Spring Quarter.

MGT 259—Banking & the Financial System (3)

Lecture—3 hour(s). Prerequisite(s): MGB 205 or MGP 205; Consent of Instructor. Analyzes the role of financial markets and institutions in allocating capital. Focuses on: bank lending; debt securities; financial market innovations; regulation; functions of commercial banks and other financial intermediaries. Utilizes case studies. Effective: 2016 Spring Quarter.

MGT 260—Corporate Finance (3)

Lecture—3 hour(s). Prerequisite(s): (MGT 200A or MGB 200A or MGP 200A); (MGP 202A or MGV 202AV or MGT 202A); (MGT 205 or MGP 205 or MGB 205). Focuses on planning, acquiring, and managing a company's financial resources. Includes discussion of financial aspects of mergers and other forms of reorganization; analysis of investment, financial, and dividend policy; and theories of optimal capital structure. Effective: 2017 Fall Quarter.

MGT 261—Investment Analysis (3)

Lecture—3 hour(s). Prerequisite(s): (MGT 203A or MGB 203A or MGP 203A); (MGP 205 or MGT 205 or MGB 205). Examines asset pricing theories and relevant evidence, including the investment performance of stocks and bonds. Topics include the efficiency of markets, domestic and international portfolio diversification, factors influencing the value of stocks and other investments, and portfolio management and performance. Effective: 2017 Fall Quarter.

MGT 262—Money & Security Markets (3)

Lecture—3 hour(s). Examines how money and securities markets are organized; how public agencies, businesses, others obtain and invest funds in those markets. Relationship between interest rates, monetary policy, government's role in improving capital markets, approaches to assessing changes in regulation of specific markets. Effective: 1997 Fall Quarter.

MGT 263—Derivative Securities (3)

Lecture/Discussion—3 hour(s). Prerequisite(s): (MGT 203A or MGB 203A or MGP 203A); (MGP 205 or MGT 205 or MGB 205). Open to students enrolled in the MBA program. Behavior of options, futures, and other derivative securities markets and how public agencies, business and others use those markets. Trading strategies involving options, swaps, and financial futures contracts. Pricing of derivative securities, primarily by arbitrage methods. Effective: 2017 Fall Quarter.

MGT 264—Business Taxation (3)

Lecture—3 hour(s). Analysis of the impact of business taxation on investment, production, and finance decisions. Discussion of the relationship between business organization and tax liability. Not intended for tax specialists. Effective: 1997 Winter Quarter.

MGT 265—Venture Capital & the Finance of Innovation (3)

Lecture/Discussion—3 hour(s). Prerequisite(s): MGT 205 or MGP 205 or MGB 205. Restricted to students in the MBA program. Examines venture capital finance and the related practice of R&D finance. Goal is to apply finance tools and framework to the world of venture capital and financing of projects in high-growth industries. Effective: 2017 Fall Quarter.

MGT 266—International Finance (3)

Lecture—3 hour(s). Prerequisite(s): MGB 205 or MGT 205 or MGP 205; Or the equivalent. Studies fixed and floating exchange-rate systems. Topics include determinants of a nation's balance of international payments; macroeconomic interdependence of nations under various exchange-rate regimes and its implications for domestic stabilization policies; and the international coordination of monetary and stabilization policies. Effective: 2017 Fall Quarter.

MGT 267—Teams & Technology (3)

Lecture/Discussion—3 hour(s). Prerequisite(s): Consent of Instructor. Restricted to working professional MBA students. Theory and practice of managing teams with primary goals of: providing conceptual guidelines for analyzing and diagnosing group dynamics and determining strategic options as a manager; imparting interpersonal skills for implementing effective strategies; understanding how technological change affects team processes. Effective: 2009 Spring Quarter.

MGT 268—Articulation & Critical Thinking (3)

Lecture/Discussion—3 hour(s). Commitment to this course, become competent public speakers, write well at a level expected in business, think efficiently and critically about business challenges and have a useful personal code of ethics to shape their actions and decisions. No student may repeat course for credit. Effective: 2013 Fall Quarter.

MGT 269—Business Intelligence Technologies-Data Mining (3)

Lecture/Discussion—3 hour(s). Prerequisite(s): Consent of Instructor. Restricted to students in the MBA program. Descriptive and Predictive Data mining methods covering association rules, clustering, classification, text mining, etc. Big data Technologies. Business applications. Hands-on data mining skills. Business intelligence for managerial decision making. Effective: 2016 Spring Quarter.

MGT 270—Corporate Financial Reporting (3)

Lecture—3 hour(s). Prerequisite(s): MGT 200A or MGP 200A or MGB 200A. Analyzes and evaluates contemporary issues in financial reporting and develops implications of those issues for business decision makers, investment managers, and accounting policymakers. Effective: 2017 Fall Quarter.

MGT 271—Strategic Cost Management (3)

Lecture/Discussion—3 hour(s). Prerequisite(s): MGT 202A or MGP 202A or MGV 202AV. Restricted to students in the MBA program. Theoretical frameworks and associated techniques for using organizational design and cost management to achieve a sustainable, profitable cost structure. Topics include: target costing, process design for low cost, total cost of ownership, cost of customers, implementing structural change, and incentives. Effective: 2017 Fall Quarter.

MGT 272—Evaluation of Financial Information (3)

Lecture—3 hour(s). Prerequisite(s): MGT 200A or MGP 200A or MGB 200A. Studies how investors, creditors, others use accounting and other information in making rational investment, lending decisions. Emphasis is placed on the analysis of financial information in a variety of contexts. Where applicable, recent research in finance and economics is discussed. Effective: 2017 Fall Quarter.

MGT 273—Accounting & Reporting for Government Nonprofit Entities (3)

Lecture—3 hour(s). Concepts, methods, and uses of accounting and financial reporting by governmental and nonprofit entities. Introduction to budgeting and performance evaluation, and accounting for entities such as hospitals, universities, and welfare agencies. Effective: 1997 Winter Quarter.

MGT 274—Corporate Governance (3)

Lecture—3 hour(s). Prerequisite(s): Full-time MBA students or consent of instructor. Discusses how corporations can better operate in the interests of shareholders and public. Directly relevant to managers, consultants in compensation and incentives, staff working on mergers and acquisitions, corporate regulators, shareholder rights activists, and board members. Effective: 2009 Fall Quarter.

MGT 276—Real Estate, Finance & Development (3)

Lecture—3 hour(s). Prerequisite(s): (MGP 205 or MGT 205 or MGB 205); (MGP 201A or MGB 201A or MGT 201A). Focus on single family, attached, detached, multi-family, and light commercial development. Students will study factors which make up successful real estate developments. Considers financial aspects involved in land acquisition, land development, construction, and project lending. Effective: 2017 Fall Quarter.

MGT 281—Systems Analysis & Design (3)

Lecture—3 hour(s). Design and specification of computer-based information systems. Applications systems development life cycle, use requirements and feasibility assessment, logical and physical design, program development and testing, conversion and implementation. Effective: 1997 Winter Quarter.

MGT 282—Supply Chain Management (3)

Lecture/Discussion—3 hour(s). Prerequisite(s): MGT 203A or MGP 203A or MGB 203A. Restricted to students in the MBA program. Matching supply with demand is a primary challenge for a firm: excess supply is too costly, inadequate supply irritates customers. Matching supply to demand is easiest when a firm has a flexible supply process, but flexibility is generally expensive. Effective: 2017 Fall Quarter.

MGT 284—Applied Linear Models for Management (3)

Lecture—3 hour(s). Covers regression, analysis of variance, and multivariate analysis. Topics will focus on applications to management and policy problems. Effective: 1997 Winter Quarter.

MGT 285—Time Series Analysis & Forecasting (3)

Lecture—3 hour(s). Prerequisite(s): MGT 203B or MGP 203B or MGP 203B. Considers application of time series methods to evaluation and forecasting problems. Covers univariate and multivariate ARIMA models and transfer function models. Applications will be in such areas as economics, finance, budgeting, program evaluation, and industrial process control. Effective: 2016 Spring Quarter.

MGT 286—Telecommunications & Computer Networks (3)

Lecture—3 hour(s). Prerequisite(s): MGT 280. Communication system components; common carrier services; design and control of communications networks; network management and distributed environment; local area networks; data security in computer networks. Effective: 1997 Winter Quarter.

MGT 287—Business Database & Database Marketing (3)

Lecture—3 hour(s). Practical introduction to fundamental principles of database management systems and database marketing. Database design. SQL queries. Concepts of database marketing, data warehouse, data visualization and big data analytics. Effective: 2016 Spring Quarter.

MGT 288—Special Topics in Management of Information Systems (3)

Lecture—3 hour(s). Managerial aspects of information systems. Topics stressing applications in organizations chosen from: economics of computers and information systems, decision support systems, management of computer-based information systems, office automation. Effective: 1997 Winter Quarter.

MGT 290—Topics in General Management (3)

Seminar—3 hour(s). Prerequisite(s): Completion of all first-year graduate courses at the Graduate School of Management or the equivalent. Advanced topics in general management. Varied topics to cover more extensively issues discussed in MGT 201A and MGT 201B, or current business interest topics in fields of business writing, business communications, development, or workplace processes. May be repeated for credit. Effective: 2009 Fall Quarter.

MGT 291—Topics in Organizational Behavior (3)

Seminar—3 hour(s). Prerequisite(s): Completion of all first-year graduate courses at the Graduate School of Management or the equivalent. Advanced topics in social psychology and sociology of organizations. Varied topics to cover more extensively issues discussed in MGT 201A and MGT 201B, or current business interest topics in fields of organization design, strategy, development, or workplace processes. May be repeated for credit. Effective: 2009 Fall Quarter.

MGT 292—Topics in Finance (3)

Seminar—3 hour(s). Prerequisite(s): Completion of all first-year graduate courses at the Graduate School of Management or the equivalent. Contemporary and emerging issues in finance. Application of modern techniques of finance to business problems. Use of appropriate electronic database and research techniques. May be repeated for credit. Effective: 1999 Fall Quarter.

MGT 293—Topics in Marketing (3)

Seminar—3 hour(s). Prerequisite(s): Completion of all first-year graduate courses at the Graduate School of Management or the equivalent. Advanced topics in marketing, which may include marketing research, new product development, brand management, pricing, distribution management, service marketing, hitech marketing, advertising, sales promotions, marketing through the Web. May be repeated for credit. Effective: 2009 Fall Quarter.

MGT 294—Topics in Accounting (3)

Seminar—3 hour(s). Prerequisite(s): Completion of all first-year graduate courses at the Graduate School of Management or the equivalent. Contemporary and emerging issues in financial management accounting. Application of modern techniques of evaluation and analysis of financial information. Use of appropriate electronic database and research techniques. May be repeated for credit. Effective: 1999 Fall Quarter.

MGT 295—Topics in Information Technology (3)

Seminar—3 hour(s). Prerequisite(s): Completion of all first-year graduate courses at the Graduate School of Management or the equivalent. Applications of information technology to management and management of information technology. Adaptation to the dynamic nature of the field. May be repeated for credit. Effective: 1999 Fall Quarter.

MGT 296—Topics in Technology Management (3)

Seminar—3 hour(s). Prerequisite(s): Completion of all first-year graduate courses at the Graduate School of Management or the equivalent. Cyclical nature of innovation and technological change, features of innovative firms and industries, national innovation systems, and impact of information technologies on innovation processes. May be repeated for credit. Effective: 1999 Fall Quarter.

MGT 297—Topics in International Management (3)

Seminar—3 hour(s). Prerequisite(s): Completion of all first-year graduate courses at the Graduate School of Management or the equivalent. Broader environment in which U.S. firms and their foreign competitors operate. Integration of material from other topics courses (marketing, strategy, finance, accounting, information technology, technology management) into the international setting. May be repeated for credit. Effective: 1999 Fall Quarter.

MGT 298—Directed Group Study (1-5)

Variable. Prerequisite(s): Consent of Instructor. (S/U grading only.) Effective: 1997 Winter Quarter.

MGT 299—Individual Study (1-12)

Variable. Prerequisite(s): Consent of Instructor. (S/U grading only.) Effective: 1997 Winter Quarter.

MGT 401—Crisis Management (1)

Discussion/Laboratory—1 hour(s). Establishes and explores the defining characteristics of crises. Will learn to anchor crisis management firmly within overall strategic management and also acquire a set of useful tools and techniques for planning for and handling actual crises. Effective: 2017 Winter Quarter.

MGT 402—Crisis Communications & Reputation Management (1)

Discussion/Laboratory—1 hour(s). Intended to provide you with an understanding of the framework and tools necessary to successfully address communications and reputation management tasks in a variety of crisis situations. Effective: 2016 Summer Quarter.

MGT 403—Business Statistics Practicum (1)

Project (Term Project)—1 hour(s). Prerequisite(s): (MGT 203A or MGP 203A or MGB 203A); (MGT 203B (can be concurrent) or MGP 203B (can be concurrent) or MGB 203B (can be concurrent)); MGT 203B, MGP 203B, or MGB 203B completed or required concurrently. Restricted to students in the MBA program. Applies techniques and concepts in business statistics to real case studies. Effective: 2011 Fall Quarter.

MGT 404—Organizational Change Management (1)

Lecture/Discussion—1 hour(s). Challenges in getting significant changes made in organizations. Learn Organization Change Management (OCM) techniques and discuss case situations where OCM techniques play a role. Effective: 2016 Fall Quarter.

MGT 405—Business Literature (1)

Lecture/Discussion—1 hour(s). Will examine Business history—historical trends that might influence contemporary business. Some argue that the recent collapse of our financial system might have been averted if business leaders had a better sense of history. Effective: 2017 Winter Quarter.

MGT 406—Ethical Issues in Management (1)

Lecture/Discussion—1 hour(s). Explores the philosophical foundation of ethical theory and its recent applications to business situations. Professional codes of ethics, such as those promulgated by educational, managerial, engineering, scientific, medical and legal professional societies, are presented. Effective: 2017 Winter Quarter.

MGT 407—Storytelling for Leadership (1)

Lecture/Discussion—1 hour(s). Internalize the fundamental principles behind stories that educate, influence, motivate, inspire, persuade and connect. Effective: 2016 Fall Quarter.

MGT 408—The Business of the Media (1)

Lecture/Discussion—1 hour(s). Focuses on the media industries and how emerging digital technologies are disrupting the way media consumption, distribution and business models work. Will highlight the economics of several media, both news and entertainment. Effective: 2016 Summer Quarter.

MGT 409—Managing Multi-Asset Class Investment Portfolios (1)

Lecture/Discussion—1 hour(s). Prerequisite(s): MGT 202A; MGT 203A; MGT 205. Examines top down management of multi-asset class portfolios. Topics include bonds, hedge funds, private equity, real estate, commodities, endowments, return generation, performance analysis, credit cycles, financial crises, manager selection, investment policy, and investment careers. Student teams present endowment portfolio recommendations. Effective: 2015 Spring Quarter.

MGT 410—Corporate Governance (1)

Lecture/Discussion—1 hour(s). Covers recent and not-so-recent business and accounting scandals, discuss how corporations can better operate in the interests of shareholders and the public, and learn from people who rely on corporate governance in making investment decisions. Effective: 2017 Winter Quarter.

MGT 411—Turnaround Management (1)

Lecture/Discussion—1 hour(s). Evaluate the financial performance of a company, identify opportunities for improvement, propose real solutions to enhance performance, and most important inspire action in staff. Effective: 2017 Winter Quarter.

MGT 412—International Marketing (1)

Lecture/Discussion—1 hour(s). Basic concepts of international marketing. Understanding and managing heterogeneous, dynamic, and interdependent environments across countries. How to develop and implement an international marketing strategy: where and how to compete, how to adapt your marketing mix. Effective: 2016 Fall Quarter.

MGT 413—Sustainable Business Ventures: Business & Energy (1)

Lecture/Discussion—1 hour(s). Introduction to sustainability goals, indicators, values, measurement techniques, and practice how it applies to large and small enterprise. Effective: 2013 Winter Quarter.

MGT 414—Multi-Channel Marketing (1)

Lecture/Discussion—1 hour(s). Multi-channel marketing strategies empower managers to create value for different customer segments. Covers the necessary concepts to evaluate and select go-to market strategies in order to capitalize on the ubiquity of modern customers. Effective: 2017 Winter Quarter.

MGT 415—Climate Risks & Opportunities (1)

Lecture/Discussion—1 hour(s). Provide a working knowledge of the risks and opportunities arising from climate change and climate policy for businesses. Effective: 2016 Summer Quarter.

MGT 416—Topics in Private Equity (1)

Lecture—1 hour(s). Prerequisite(s): MGT 205; MGB 205; MGP 205. Restricted to students in the MBA program. Focuses on the finance principles related to the risk and return of the private equity (PE) industry, valuation of PE target companies, the structuring of leveraged buyouts (LBOs), and the management of portfolio companies. Effective: 2017 Winter Quarter.

MGT 417—Incentives & Controls (1)

Lecture/Discussion—1 hour(s). Understand how organizations use financial and nonfinancial performance management and incentive systems to motivate people and manage resources. Effective: 2017 Winter Quarter.

MGT 418—Scientific Discovery & Business Innovation at Scale in the Food & Agriculture Sector (1)

Lecture—3 hour(s). Restricted to students in the MBA program. Scientific discovery and business innovation within the food and agriculture sector profoundly influences the sustainability of society and enterprise competitiveness. Students will learn how business innovation models co-exist antagonistically or synergistically with scientific discovery and its influence on enterprise competitiveness. Effective: 2017 Winter Quarter.

MGT 419—Business Strategy Consulting Skills (1)

Lecture—5 hour(s). Restricted to students enrolled in the MBA program. Students will learn practical business consulting skills which will help apply strategy theories in the workplace. Students will learn and practice tools to frame and analyze problems, conduct research, communicate findings and navigate client relationships. Effective: 2017 Winter Quarter.

MGT 420—Advanced Optimization in a Python-based Modeling Language (1)

Web Virtual Lecture—1 hour(s). Prerequisite(s): (MGT 252 or MGB 252 or MGP 252); (MGT 206 or MGB 206 or MGP 206). Restricted to students enrolled in the MBA program. Covers advanced optimization modeling techniques and practical application of modern, scalable modeling language. Techniques will be developed using examples from production planning in a supply chain, but students may explore other areas of application of optimization for their final project. Effective: 2017 Winter Quarter.

MGT 421—Monte Carlo Simulation for Managerial Analysis (1)

Lecture—1 hour(s). Create Excel-based simulation models across business domains, from finance to hypothesis testing and inventory management. By course-end, students are experts at recognizing this decision-making fallacy and fixing it. Effective: 2017 Spring Quarter.

MGT 422—Behavioral Finance & Valuation (1)

Lecture—1 hour(s). Prerequisite(s): (MGT 260 or MGP 260 or MGB 260); (MGT 261 or MGP 261 or MGB 261). Restricted to students enrolled in the MBA program. Investor psychology and market frictions can cause asset prices to deviate from fundamental values, creating profit opportunities for sophisticated investors. Covers techniques of financial analysis with the goal of learning how to value assets and identify mispricing. Effective: 2017 Winter Quarter.

MGT 423—Leader as Coach: An Introduction to Coaching Skills for Leaders (1)

Lecture—1 hour(s). Restricted to students enrolled in the MBA program. Introduces the fundamental coaching skills and coaching models that leaders can apply in everyday interactions with their team and colleagues in order to build trust, overcome challenges and help others discover their own full potential. Effective: 2017 Winter Quarter.

MGT 424—Practicum for Managing People in Modern Organizations (1)

Project (Term Project)—1 hour(s). Prerequisite(s): MGT 224. Restricted to students in the MBA program. Provides solid grounding in the management of work and the employment relationship. Examines firms' interrelated policies and practices for managing people. Effective: 2011 Winter Quarter.

MGT 425—Digital Marketing Techniques (1)

Lecture—1 hour(s). Provides students with an introduction to digital marketing. Introduces MBA students to the fundamental aspects and tools of online marketing communication, i.e., how organizations use digital channels to effectively communicate their value propositions to the target customers. Effective: 2017 Winter Quarter.

MGT 426—The Business of Healthcare (1)

Lecture—1 hour(s). Restricted to students enrolled in the MBA program (Business Administration—Working Professional, Business Administration—Bay Area, Business Administration—Full-Time). Intended to provide an overall understanding of the unique business aspects of the healthcare industry. Effective: 2017 Winter Quarter.

MGT 427—Implementing International Strategy (1)

Lecture—1 hour(s). Restricted to students enrolled in the MBA program (Business Administration—Working Professional, Business Administration—Bay Area, Business Administration—Full-Time). Looks at the pitfalls of implementing international strategies, and suggest several accessible, yet powerful frameworks to help international managers implement strategies successfully and completely. Effective: 2017 Winter Quarter.

MGT 428—Renewable Energy Ventures: Planning, Funding & Regulatory Risk Assessment for Entrepreneurs & Investors (1)

Lecture—1 hour(s). Restricted to students enrolled in the MBA program. Advanced innovation lab will introduce students to issues addressed by entrepreneurs and investors in renewable ventures. Lectures, simulations, case studies and practical experience of the presenters will be delivered. Effective: 2016 Summer Quarter.

MGT 429—Detection & Prevention of Asset Misappropriation Fraud in the Workplace (1)

Lecture—1 hour(s). Restricted to students enrolled in the MBA program. Discusses the fundamentals of fraud detection and prevention in the workplace. Learn the major schemes involving workplace fraud, how management can detect fraud and what policies and procedures can be implemented to prevent fraud. Effective: 2016 Fall Quarter.

MGT 430—Learning From Catastrophes: Lessons for Managers (1)

Lecture—1 hour(s). Restricted to students enrolled in the MBA program. Catastrophes unfold in surprisingly similar ways. Analyze catastrophes to understand these common patterns and investigate how they can be prevented and mitigated. Apply these lessons to management to gain unconventional insights. Effective: 2016 Summer Quarter.

MGT 431—Project Management (1)

Lecture—10 hour(s). Open to students enrolled in the MBA program. Students learn project management; including project scope, project planning, milestones and project closing. Important themes include leadership, team dynamics, storytelling/creating a narrative, communication, and conflict management. Effective: 2016 Fall Quarter.

MGT 432—Project Management with Applications in Healthcare (1)

Lecture—1 hour(s). Focuses on the heart of healthcare administration and how project management can be applied as a key lever to increase efficiency, decrease costs and improve the patient experience. Effective: 2017 Spring Quarter.

MGT 433—Corporate Social Responsibility (1)

Lecture—1 hour(s). Learn practical information that will help students understand the basics of designing, managing and evaluating an effective CSR program. Expose students to a basic set of CSR issues in the context of cross-purpose business challenges and then focus on the analysis and critical decisions that managers must make to move their business and their social agenda forward. Effective: 2018 Spring Quarter.

MGT 434—Practicum for Pricing (1)

Project (Term Project)—1 hour(s). Prerequisite(s): MGT 234. Restricted to students in the MBA program. Enhance understanding of the principles and concepts learned in Pricing by (1) teaching the necessary statistical and mathematical skills, and (2) requiring a report for a real Pricing case. Effective: 2011 Winter Quarter.

MGT 435—Data Wrangling (1)

Lecture—1 hour(s). Develop practical skills to pre-process data. Tidied raw data can then be used for downstream data analysis, modeling, and visualization. Effective: 2018 Fall Quarter.

MGT 436—Introduction to Derivative Securities (1)

Lecture—1 hour(s). Introduction to derivative securities and other forms of financial innovations. Effective: 2019 Fall Quarter.

MGT 437—Healthcare Analytics (1)

Lecture—1 hour(s). Open to students enrolled in the MBA program only. Introduction to advanced analytics framework, key Artificial Intelligence & Machine Learning concepts, and modeling techniques towards solving high-value and high-impact healthcare business problems. Effective: 2019 Fall Quarter.

MGT 440—Integrated Management Project (5)

Project (Term Project)—3 hour(s). Prerequisite(s): First-year core courses of MBA program. Applies classroom learning to solve complex business challenges for real world clients. Student teams learn practical consulting skills while their clients benefit from the student's experience, insights, and work product. Effective: 2016 Fall Quarter.

MGT 440A—Integrated Management Project (3)

Lecture/Discussion—3 hour(s). Prerequisite(s): First-year core courses of MBA program. Restricted to full-time (day) MBA students. Applies classroom learning to solve complex business challenges for real world clients. Student teams learn practical consulting skills while their clients benefit from the student's experience, insights, and work product. Effective: 2012 Fall Quarter.

MGT 440B—Integrated Management Project (3)

Project (Term Project)—3 hour(s). Prerequisite(s): First-year core courses of MBA program. Restricted to full-time (day) MBA students. Applies classroom learning to solve complex business challenges for real world clients. Student teams learn practical consulting skills while their clients benefit from the student's experience, insights, and work product. Effective: 2013 Winter Quarter.

MGT 440C—Integrated Management Project Team Lead (1)

Project (Term Project)—1 hour(s). Integrated Management Project Team leader. Effective: 2016 Fall Quarter.

MGT 442—Practicum for Marketing Communication (1)

Project (Term Project)—1 hour(s). Prerequisite(s): MGT 242. Restricted to students in the MBA program. Provides experience applying concepts learned in Marketing Communications to a realistic advertising or communication problem faced by firms. Effective: 2011 Spring Quarter.

MGT 443—Practicum for Customer Relationship Management (1)

Project (Term Project)—1 hour(s). Prerequisite(s): MGT 243. Restricted to students in the MBA program. Hands-on training in applying Customer Relationship Management concepts and metrics to secondary data. Enhances ability to interpret results and decide the right type of marketing actions by requiring an executive report at the end of the quarter. Effective: 2010 Fall Quarter.

MGT 448—Practicum for Marketing Strategies (1)

Project (Term Project)—1 hour(s). Prerequisite(s): MGT 248. Restricted to students in the MBA program. Provides opportunities to apply the concepts covered in the Marketing Strategies class through a group project involving the analysis of strategic marketing decisions based on business-related issues, simulation and modeling. Effective: 2010 Fall Quarter.

MGT 449—Marketing Research Practicum (1)

Project (Term Project)—1 hour(s). Prerequisite(s): MGT 249. Restricted to students in the MBA program, or in some cases with permission of instructor. Provides opportunities to apply the concepts and methods covered in the Marketing Research class. Hands-on and project-based, work could be either individual or in groups depending on enrollments and/or interests of students. Effective: 2011 Spring Quarter.

MGT 450—Practicum for Technology Strategy & Competition (1)

Project (Term Project)—1 hour(s). Prerequisite(s): MGT 250. Restricted to students in the MBA program. In-depth practicum project course. Apply theories, concepts, and models, learned in MGT 250 to a real-world business problem, through data collection, data analysis, simulation, modeling and post-model interpretation. Effective: 2011 Winter Quarter.

MGT 460—Practicum for Corporate Finance & Real Estate (1)

Project (Term Project)—1 hour(s). Prerequisite(s): MGT 260. Restricted to students in the MBA Program. Work in groups to select and value a financial entity. It could be a firm, a sports player, a building, a project, or a patent. Grade based on an in-class presentation and a write-up. Effective: 2011 Spring Quarter.

MGT 461—Practicum for Investment Analysis (1)

Project (Term Project)—1 hour(s). Prerequisite(s): MGT 261. Restricted to students in the MBA program. Provides practical experience applying concepts learned in Investment Analysis to a realistic portfolio management setting via a hypothetical exercise. Produce a realistic executive summary and presentation of an investment proposal for a hypothetical client. Effective: 2010 Fall Quarter.

MGT 464—Practicum for Taxes & Business Strategy (1)

Project (Term Project)—1 hour(s). Prerequisite(s): MGT 264. Restricted to students in the MBA program. Practical application project drawing from the tax planning theory contained in MGT 264. Project consists of a business formation and operation, change in organization (incorporation), and movement into multi-national and multi-jurisdictional tax. Effective: 2010 Fall Quarter.

MGT 465—Practicum for Venture Capital (1)

Project (Term Project)—1 hour(s). Prerequisite(s): MGT 265. Restricted to students in the MBA program. Provides an opportunity to apply concepts learned in Venture Capital in a realistic setting. Complete project analyzing a potential investment in a hypothetical venture and prepare an deal term sheet/investment agreement. Effective: 2011 Winter Quarter.

MGT 467—Practicum for Teams & Technology (1)

Project (Term Project)—1 hour(s). Prerequisite(s): MGT 267. Restricted to students in the MBA program. Groups investigate the performance, creativity, conflict, information sharing, and leadership behaviors of a real world team. Provide consulting advice to the team, which not only gives analytic skills, but also builds presentation skills. Effective: 2011 Spring Quarter.

MGT 469—Practicum for Business Intelligence Technologies (1)

Project (Term Project)—1 hour(s). Prerequisite(s): MGT 269. Restricted to students in the MBA program. Projects applying concepts learned in Business Intelligence Technologies to real business problems. Effective: 2011 Winter Quarter.

MGT 482—Practicum for Supply Chain Management (1)

Project (Term Project)—1 hour(s). Prerequisite(s): MGT 282 (can be concurrent) or MGP 282 (can be concurrent) or MGB 282 (can be concurrent); Course is a pre-requisite or co-requisite. Restricted to students in the MBA program. Provides experience applying concepts learned in Supply Chain Management to a realistic management setting via a project. Effective: 2011 Spring Quarter.

MGT 490—Topics in Business (1)

Lecture/Discussion—1 hour(s). Prerequisite(s): Consent of Instructor. Sponsorship of a GSM Academic Senate faculty member; approval of graduate advisor. Open to students in the MBA Program (SMBA, SMBB, SMBE). Provides opportunity for students to gain experience in applying business methodologies previously acquired in other GSM courses. May be repeated for credit. Effective: 2020 Spring Quarter.

MGT 490A—Topics in Management (2)

Lecture—2 hour(s). Advanced topics in general management. Varied topics to cover more extensively issues discussed in the MBA core such business writing, management, organizational behavior, business communications, development, and workplace processes. (S/U grading only.) Effective: 2020 Winter Quarter.

MGT 498—Directed Group Study Management Practicum (1-12)

Project (Term Project). Prerequisite(s): Consent of Instructor. Sponsorship of a GSM Academic Senate faculty member, and approval of graduate advisor. Provides the opportunity for students to gain experience in applying business methodologies previously acquired in other GSM courses. May be repeated up to 6 unit(s). (S/U grading only.) Effective: 2012 Winter Quarter.

MGT 499—Directed Individual Study Management Practicum (1-12)

Project (Term Project). Prerequisite(s): Consent of Instructor. Sponsorship of a Graduate School of Management Academic Senate faculty member and approval of graduate advisor. Provides the opportunity for students to gain experience in applying business methodologies previously acquired in other Graduate School of Management courses. May be repeated for credit. (S/U grading only.) Effective: 2011 Summer Quarter.

MGV—Management; Online

Courses in MGV:

MGV 200AV—Financial Accounting (4)

Web Virtual Lecture—4 hour(s). Open to students enrolled in the online MBA program only; do not enroll if Financial Accounting 200A or 400AV has been taken. Introduction to the concepts and objectives underlying the preparation of financial statements. Topics include understanding the accounting cycle, measurement and valuation problems associated with financial statement components, consideration of the usefulness of financial statements in the analysis of a corporation's operations. Not open for credit for students who have taken MGT 200A, MGP200A, or MGB 200A. Effective: 2020 Spring Quarter.

MGV 200BV—Managerial Accounting (4)

Web Virtual Lecture—4 hour(s). Open to students enrolled in the online MBA program only. Information managers should know to be effective, including: product costing, motivating people, and differential analysis for decision making. Includes team projects and written and oral presentations. Not open for credit for students who have taken MGT 200B, MGP 200B, or MGB 200B. Effective: 2020 Spring Quarter.

MGV 201AV—The Individual & Group Dynamics (4)

Web Virtual Lecture—4 hour(s). Open to students enrolled in the Online MBA program only. Examines basic psychological and social psychological processes shaping human behavior and applies knowledge of these processes to the following organizational problems: motivation, job design, commitment, socialization, culture, individual and group decision making, and team building. Not open for credit to students who have taken MGT 201A, MGP 201A or MGB 201A. Effective: 2019 Fall Quarter.

MGV 201BV—Organizational Strategy & Structure (4)

Web Virtual Lecture—4 hour(s). Open to students enrolled in the online MBA program only. Strategic management of organizations, including analysis of industries, firm resources and capabilities and corporate strategy. Strategy formulation, implementation and strategic decision-making. Firm and industry life cycles and change. Analysis of organizational design and structure including differentiation and integration. Not open for credit to students who have taken MGT 201B, MGP 201B, or MGB 201B. Effective: 2020 Spring Quarter.

MGV 202AV—Markets & the Firm (4)

Web Virtual Lecture—4 hour(s). Open to students enrolled in the Online MBA program only. Examines the interaction of consumers, firms and government, and the effect this interaction has on the use of resources and firm profitability. Fundamental economic concepts such as marginal analysis, opportunity cost, pricing, and externalities are introduced and applied. Not open for credit to students who have taken MGT 202A, MGP 202A or MGB 202A. Effective: 2019 Fall Quarter.

MGV 203AV—Data Analysis for Managers (4)

Web Virtual Lecture—4 hour(s). Open to students enrolled in the online MBA program only; do not enroll if Data Analysis for Managers 203A or 403AV has been taken. Introduction to statistics and data analysis for managerial decision making. Descriptive statistics, principles of data collection, sampling, quality control, statistical inference. Application of data analytic methods to problems in marketing, finance, accounting, production, operations, and public policy. Not open for credit to students who have taken MGT 203A, MGP 203A, or MGB 203A. Effective: 2020 Spring Quarter.

MGV 203BV—Forecasting & Managerial Research Methods (4)

Web Virtual Lecture—4 hour(s). Prerequisite(s): MGV 203AV. Open to students enrolled in the online MBA program only. Influence of government and international factors on business. Distribution of income, business cycles, inflation and interest rates, the federal debt, monetary policy and international trade and finance. Not open for students who have taken MGT 203B, MGP 203B, or MGB 203B. Effective: 2020 Spring Quarter.

MGV 204V—Marketing Management (4)

Web Virtual Lecture—4 hour(s). Open to students enrolled in the online MBA Program only. Analysis of market opportunities, elements of market research, development of marketing strategies, market planning and implementations, and control systems. Consumer and industrial markets, market segmentation, pricing strategies, distribution channels, promotion, and sales. Not open for credit to students who have taken MGT 204, MGP 204, or MGB 204. Effective: 2020 Spring Quarter.

MGV 205V—Financial Theory & Policy (4)

Web Virtual Lecture—4 hour(s). Open to students enrolled in the online MBA program only. Corporate financial policy and investment management. Covers capital budgeting, optimal financial structure, cost-of-capital determination, risk measurement. Develops basic valuation principles for investments with long-lived and risky cash-flows, and extends these to derivative securities, asset portfolios, investment management and hedging. Not open for credit for students who have taken MGT 205, MGP 205, or MGB 205. Effective: 2020 Spring Quarter.

MGV 206V—Decision Making & Management Science (4)

Web Virtual Lecture—4 hour(s). Open to students enrolled in the online MBA Program only. Develop decision-making & problem-solving skills in conjunction with a quantitative model-building approach. Emphasis on how structured modeling techniques, probability forecasts, simulations, and computer optimization models are used in the overall process of making decisions in an uncertain environment. Not open for credit to students who have taken MGB 206, MGP 206, or MGT 206. Effective: 2020 Spring Quarter.

MGV 207V—Management Information Systems (4)

Web Virtual Lecture—4 hour(s). Open to students enrolled in the online MBA Program only. Introduction to computer programming and data handling skills. Use of computer in organizations, emphasis on managerial aspects of computing. Standard and nonstandard uses of data files, centralization versus decentralization of computing, office automation, computer security. Not open for credit for students who have taken MGT 207, MGP 207, or MGB 207. Effective: 2020 Spring Quarter.

MGV 223V—Power & Influence (4)

Web Virtual Lecture—4 hour(s). Prerequisite(s): MGV 201AV. Open to students enrolled in the online MBA Program only. Investigation of the bases of power in organizations and the tactics used to translate power into influence. Topics include the control of resources (including information), social psychological processes (including commitment), the construction of meaning, and ethics. Not open for credit to students who have taken MGT 223, MGP 223, or MGB 223. Effective: 2020 Spring Quarter.

MGV 224V—Managing People in High-Performance Organizations (4)

Web Virtual Lecture—4 hour(s). Prerequisite(s): MGV 201AV. Open to students enrolled in the online MBA Program only. Explore choices firms make in managing workers—decisions as to wages, benefits, working conditions, and other management policies and practices. Analyze employment systems' fit with firms' environments and strategies, and the consequences of choices managers make regarding policies and practices. Not open for credit to students who have taken MGT 224, MGP 224, or MGB 224. Effective: 2020 Spring Quarter.

MGV 226V—The Causes of Organizational Wrongdoing (4)

Web Virtual Lecture—4 hour(s). Prerequisite(s): MGV 201AV. Open to students enrolled in the online MBA Program only. Explores the reasons why otherwise ethical, socially responsible, and law-abiding people become involved in wrongful courses of action in organizations. Effective: 2020 Spring Quarter.

MGV 234V—Pricing (4)

Web Virtual Lecture—4 hour(s). Prerequisite(s): MGV 202AV; MGV 203BV; MGV 204V. Open to students enrolled in the online MBA Program only. Combines lectures, cases and homework to teach students tools and skills necessary to analyze pricing situations, make pricing decisions, and implement them, in a systematic manner. Not open for credit to students who have taken MGT 234, MGP 234, or MGB 234. Effective: 2020 Spring Quarter.

MGV 239V—Digital Marketing (4)

Web Virtual Lecture—4 hour(s). Open to students enrolled in the online MBA Program only. Equips students for a career in digital marketing and social media. Topics include online advertising, search engine optimization, interactive marketing, online privacy issues, e-commerce, social influence, social network theory, measurement of social influence and integrating social and traditional media. Not open for credit to students who have taken MGT 239, MGP 239 or MGB 239. Effective: 2020 Spring Quarter.

MGV 241V—New Product Development (4)

Web Virtual Lecture—4 hour(s). Open to students enrolled in the online MBA Program only. State-of-the-art concepts and methods to enhance the effectiveness of new product development activities. Focuses on the understanding of managerial issues and acquiring the ability to solve problems. Not open for credit to students who have taken MGT 241, MGP 241, or MGB 241. Effective: 2020 Spring Quarter.

MGV 243V—Customer Relationship Management (4)

Web Virtual Lecture—4 hour(s). Prerequisite(s): MGV 204V. Open to students enrolled in the online MBA Program only. Customer Relationship Management (CRM) is a management approach under which marketing activities are organized and measured around customers (rather than around brands.) This approach is appealing because customers, not brands, are those who make buying decisions. Not open for credit for students who have taken MGT 243, MGP 243, or MGB 243. Effective: 2020 Spring Quarter.

MGV 244V—New & Small Business Ventures (4)

Web Virtual Lecture—4 hour(s). Prerequisite(s): MGV 201AV. Open to students enrolled in the Online MBA Program only. Teams develop complete business plans for their own start-up ventures. Process includes: elevator pitch, business strategy, comprehensive bottoms-up financial projections, capital requirements, product differentiation, competitive, alliance, and go-to-market strategy development, investor presentation, and comprehensive written business plan. Not open for credit for students who have taken MGT 244, MGP 244, or MGB 244. Effective: 2020 Spring Quarter.

MGV 246V—Negotiations in Organizations (4)

Web Virtual Lecture—4 hour(s). Open to students enrolled in the online MBA Program only. Basic theory of negotiation; applies theory to process of building teams to achieve business purposes. Covers integrative and distributive strategies of claiming value, how to recognize bargaining tricks, uncovering hidden agendas, brainstorming to extend Pareto frontier. Not open for credit to students who have taken MGT 246, MGP 246, or MGB 246. Effective: 2020 Spring Quarter.

MGV 248V—Marketing Strategy (4)

Web Virtual Lecture—4 hour(s). Prerequisite(s): MGV 204V. Open to students enrolled in the online MBA Program only. Examines process by which organizations develop strategic marketing plans. Includes definition of activities and products, marketing audits, appraising market opportunities, design of new activities and products, and organizing marketing planning function. Applications to problems in private and public sector marketing. Not open for credit to students who have taken MGT 248, MGP 248, or MGB 248. Effective: 2020 Spring Quarter.

MGV 249V—Marketing Research (4)

Web Virtual Lecture—4 hour(s). Prerequisite(s): MGV 202AV; MGV 203AV; MGV 204V. Open to students enrolled in the online MBA Program only. Addresses the managerial issues and problems of systematically gathering and analyzing information for making private and public marketing decisions. Covers the cost and value of information, research design, information collection, measuring instruments, data analysis, and marketing research applications. Not open for credit for students who have taken MGT 249, MGP 249, or MGB 249. Effective: 2020 Spring Quarter.

MGV 250V—Technology Competition & Strategy (4)

Web Virtual Lecture—4 hour(s). Prerequisite(s): MGV 202AV; MGV 203AV. Open to students enrolled in the online MBA program. Covers business strategies for firms that make technology products. Looks at distinctive economic forces affecting supply, demand, and markets, asks: How do these forces impact market outcomes? And how should firms shape their competitive strategy? Not open for credit for students who have taken MGT 250, MGP 250 or MGB 250. Effective: 2020 Winter Quarter.

MGV 251V—Management of Innovation (4)

Web Virtual Lecture—4 hour(s). Prerequisite(s): MGV 201AV. Open to students enrolled in the Online MBA program only. Managing innovative enterprise in changing and uncertain environments. Covers technology forecasting and assessment, program selection and control, financial management, regulation, and ethics. Not open for credit to students who have taken MGT 251, MGP 251 or MGB 251. Effective: 2020 Winter Quarter.

MGV 252V—Managing for Operational Excellence (4)

Web Virtual Lecture—4 hour(s). Prerequisite(s): MGV 203AV or MGV 403AV. Open to students enrolled in the online MBA Program only. Explore the management of operations as applied to manufacturing, as well as services provided both inside & outside the organization. Develop an understanding of how uncertainty affects planning & delivery by looking at fundamental models of operations. Not open for credit to students who have taken MGT 252, MGP 252, or MGB 252. Effective: 2020 Spring Quarter.

MGV 255V—Entrepreneurship Clinic (4)

Web Virtual Lecture—4 hour(s). Open to students enrolled in the online MBA Program only. Provides the necessary analytical and design tools to create business ideas and refine business models based on emerging technologies. Students learn to work closely in small teams to synthesize technical, strategic, and marketing needs into designs for new ventures. May be repeated for credit. Not open for credit to students who have taken MGT 255, MGP 255, or MGB 255. Effective: 2020 Spring Quarter.

MGV 258V—Mergers & Acquisitions (4)

Web Virtual Lecture—4 hour(s). Prerequisite(s): MGV 205V. Open to students enrolled in the online MBA Program only. Focuses on the market for corporate acquisitions and restructuring activity. Topics include: sources of value creation; takeovers; anti-takeover provisions; bidding strategies; use of leverage in buyouts; regulatory risk and hurdles; and, valuation approaches for highly leveraged transactions. Not open for credit for students who have taken MGT 258, MGP 258, or MGB 258. Effective: 2020 Spring Quarter.

MGV 259V—Banking & the Financial System (4)

Web Virtual Lecture—4 hour(s). Prerequisite(s): MGV 205V. Open to students enrolled in the online MBA Program only. Analyzes the role of financial markets and institutions in allocating capital. Focuses on: bank lending; debt securities; financial market innovations; regulation; functions of commercial banks and other financial intermediaries. Utilizes case studies. Not open for credit for students who have taken MGT 259, MGP 259, or MGB 259. Effective: 2020 Spring Quarter.

MGV 261V—Investment Analysis (4)

Web Virtual Lecture—4 hour(s). Prerequisite(s): MGV 203AV; MGV 205V. Open to students enrolled in the online MBA Program only. Examines asset pricing theories and relevant evidence, including the investment performance of stocks and bonds. Topics include the efficiency of markets, domestic and international portfolio diversification, factors influencing the value of stocks and other investments, and portfolio management and performance. Not open for credit for students who have taken MGT 261, MGP 261, or MGB 261. Effective: 2020 Spring Quarter.

MGV 263V—Derivative Securities (4)

Web Virtual Lecture—4 hour(s). Prerequisite(s): MGV 203AV; MGV 205V. Open to students enrolled in the online MBA Program only. Behavior of options, futures, and other derivative securities markets and how public agencies, business and others use those markets. Trading strategies involving options, swaps, and financial futures contracts. Pricing of derivative securities, primarily by arbitrage methods. Not open for credit for students who have taken MGT 263, MGP 263, or MGB 263. Effective: 2020 Spring Quarter.

MGV 265V—Venture Capital & the Finance of Innovation (4)

Web Virtual Lecture—4 hour(s). Prerequisite(s): MGV 205V (can be concurrent). Open to students enrolled in the online MBA Program only. Examines venture capital finance and the related practice of R&D finance. Goal is to apply finance tools and framework to the world of venture capital and financing of projects in high-growth industries. Not open for students who have previously taken MGT 265, MGB 265, or MGP 265. Effective: 2020 Spring Quarter.

MGV 267V—Teams & Technology (4)

Web Virtual Lecture—4 hour(s). Open to students enrolled in the online MBA Program only. Theory and practice of managing teams with primary goals of: providing conceptual guidelines for analyzing and diagnosing group dynamics and determining strategic options as a manager, imparting interpersonal skills for implementing effective strategies, understanding how technological change affects team processes. Not open for credit to students who have taken MGT 267, MGP 267, or MGB 267. Effective: 2020 Spring Quarter.

MGV 268V—Articulation & Critical Thinking (4)

Web Virtual Lecture—4 hour(s). Open to students enrolled in the online MBA Program only. Public speaking, business writing, efficient and critical thinking about business challenges, and defining a personal code of ethics to shape actions and decisions. Not open for credit to students who have taken MGT 268, MGP 268, or MGB 268. Effective: 2020 Spring Quarter.

MGV 270V—Corporate Financial Reporting (4)

Web Virtual Lecture—4 hour(s). Prerequisite(s): MGV 200AV. Open to students enrolled in the online MBA Program only. Analyzes and evaluates contemporary issues in financial reporting and develops implications of those issues for business decision makers, investment managers, and accounting policymakers. Not open for credit for students who have taken MGT 270, MGP 270, or MGB 270. Effective: 2020 Spring Quarter.

MGV 272V—Evaluation of Financial Information (4)

Web Virtual Lecture—4 hour(s). Prerequisite(s): MGV 200AV. Open to students enrolled in the online MBA Program only. Studies how investors, creditors, others use accounting and other information in making rational investment, lending decisions. Emphasis is placed on the analysis of financial information in a variety of contexts. Where applicable, recent research in finance and economics is discussed. Not open for credit for students who have taken MGT 272, MGP 272, or MGB 272. Effective: 2020 Spring Quarter.

MGV 282V—Supply Chain Management (4)

Web Electronic Discussion—4 hour(s). Prerequisite(s): MGV 204V. Open to students enrolled in the online MBA Program only. Matching supply with demand is a primary challenge for a firm: excess supply is too costly, inadequate supply irritates customers. Matching supply to demand is easiest when a firm has a flexible supply process, but flexibility is generally expensive. Not open for credit for students who have taken MGT 282, MGP 282, or MGB 282. Effective: 2020 Spring Quarter.

MGV 285V—Time Series Analysis & Forecasting (4)

Web Electronic Discussion—4 hour(s). Open to students enrolled in the online MBA Program only. Consider application of time series methods to evaluation & forecasting problems. Covers univariate & multivariate ARIMA models and transfer function models. Applications in such areas as economics, finance, budgeting, program evaluation, and industrial process control. Not open for credit to students who have taken MGT 285, MGP 285, or MGB 285. Effective: 2020 Spring Quarter.

MGV 287V—Business Database & Database Marketing (4)

Web Virtual Lecture—4 hour(s). Prerequisite(s): Graduate standing in the Graduate School of Management or consent of instructor required. Open to students enrolled in the online MBA Program only. Practical introduction to fundamental principles of database management systems and database marketing. Database design. SQL queries. Concepts of database marketing, data warehouse, data visualization and big data analytics. Not open for credit for students who have taken MGT 287, MGP 287, or MGB 287. Effective: 2020 Spring Quarter.

MGV 290V—Topics in General Management (4)

Web Virtual Lecture—4 hour(s). Open to students enrolled in the online MBA Program only. Advanced topics in general management. Varied topics to cover more extensively issues discussed in MGV 201AV and MGV 201BV, or current business interest topics in fields of business writing, business communications, development, or workplace processes. May be repeated for credit when topic differs. Effective: 2020 Spring Quarter.

MGV 400AV—Financial Accounting (4)

Web Virtual Lecture—4 hour(s). Prerequisite(s): MGV 438V. Open to students enrolled in the online MBA program only. Introduction to the concepts and objectives underlying the preparation of financial statements. Topics include understanding the accounting cycle, measurement and valuation problems associated with financial statement components, consideration of the usefulness of financial statements in the analysis of a corporation's operations. Effective: 2020 Winter Quarter.

MGV 403AV—Data Analysis for Managers (4)

Web Virtual Lecture—4 hour(s). Prerequisite(s): MGV 438V. Open to students enrolled in the Online MBA program only. Introduction to statistics and data analysis for managerial decision making. Descriptive statistics, principles of data collection, sampling, quality control, statistical inference. Application of data analytic methods to problems in marketing, finance, accounting, production, operations, and public policy. Effective: 2020 Winter Quarter.

MGV 438V—Quantitative Tools for Business (4)

Web Electronic Discussion—4 hour(s). Open to students enrolled in the Online MBA program. Quantitative analysis and business storytelling through practical quantitative frameworks, descriptive procedures and real life case studies. Effective: 2020 Winter Quarter.

MGV 440V—Integrated Management Project (4)

Web Virtual Lecture—4 hour(s). Prerequisite(s): First-year core courses of online MBA program. Open to students enrolled in the online MBA Program only. Examines the scope of missions, objectives strategies, policies, structures, measurements and incentives which bear on the management of an organization. Simulated organizations in the private and public sectors, are assigned to student teams as the subjects of study. Not open for credit to students who have taken MGT 240, MGP 240, MGB 240 or MGT 440, MGP 440, MGB 440. Effective: 2020 Fall Quarter.

MGV 490AV—Topics in Management (2)

Web Virtual Lecture—2 hour(s). Open to students enrolled in the Online MBA program only. Advanced topics in general management. Varied topics to cover more extensively issues discussed in the MBA core such business writing, management, organizational behavior, business communications, development, and workplace processes. May be repeated for credit when topic differs; can be taken for credit more than once. (S/U grading only.) Effective: 2020 Winter Quarter.

MGV 490BV—Topics in Management—Extended (4)

Web Virtual Lecture—4 hour(s). Open to students enrolled in the online MBA program only. Extended topics in general management. Varied topics to cover more extensively; management, organizational behavior, finance, marketing, accounting and business analytics. May be repeated for credit when topic differs. Effective: 2020 Winter Quarter.

MHI—Health Informatics

Courses in MHI:

MHI 202—Computer-Based Patient Records (4)

Lecture—3 hour(s); Discussion—1 hour(s). Prerequisite(s): Current enrollment within the Health Informatics Graduate Program or consent of instructor. Introduction and overview of computer-based clinical record systems. Topics include data modeling, health system standards and terminologies; security, privacy and confidentiality; workflow modeling; data visualization; legal; decision support; public health; and evidence-based practice. Effective: 2009 Winter Quarter.

MHI 207—Decision Support Systems (4)

Lecture/Discussion—4 hour(s). Prerequisite(s): Consent of Instructor. Explores decision support systems for medical application. Topics include medical decision making, uncertainty, review of existing decision support systems, knowledge engineering, data mining, and knowledge based systems. Effective: 2010 Winter Quarter.

MHI 208—Medical Informatics in Web-Based Enterprise Computing (4)

Lecture—2 hour(s); Discussion—2 hour(s). Introduction to the decision making processes and technologies that are involved in developing web-based distributed enterprise applications in medicine. Focus on the Informatician's role as a team member. Effective: 2010 Spring Quarter.

MHI 209—Data Acquisition & Analysis (4)

Lecture—2 hour(s); Discussion—1 hour(s); Laboratory—3 hour(s). Examines the nature, acquisition, and analysis of medical data. Data ranges from signals of electrical potentials, sounds, text, images (still and motion), and data from nucleic acid and protein expression and sequencing instruments. Effective: 2010 Spring Quarter.

MHI 210—Introduction to Health Informatics (4)

Lecture—3 hour(s); Discussion—1 hour(s). Overview provides broad exposure to the field of Health Informatics. Topics covered include, but are not limited to, networking, information systems, coding, HL7, Security, and HIPPA. Effective: 2009 Winter Quarter.

MHI 212—Computer Security in Health Informatics (4)

Lecture—3 hour(s); Project (Term Project). Prerequisite(s): MHI 210; MHI 202; MHI 209. Critical thinking about basic concepts in computer security and privacy. How the computer security and privacy impact health informatics, ranging from electronic health records to telemedicine to remote, virtual surgery. Effective: 2012 Fall Quarter.

MHI 289A—Special Topics in Medical Informatics: Data Acquisition (1-5)

Lecture—1-5 hour(s); Laboratory—1-5 hour(s). Prerequisite(s): Consent of Instructor. Special topics in Data Acquisition. May be repeated for credit when topic differs. Effective: 2010 Fall Quarter.

MHI 289B—Special Topics in Health Informatics: Seminars in Clinical Translational Informatics (1)

Seminar—1 hour(s). Seminars in current clinical translational informatics research topics. Guest presenters and faculty led discussions. Effective: 2015 Spring Quarter.

MHI 289E—Clinical Knowledge for the Health Informaticist (3)

Lecture—2 hour(s); Laboratory—2 hour(s). Prerequisite(s): Consent of Instructor. Basic clinical knowledge for health informatics students. Human systems, disease states and conditions, treatments and prognosis. Effective: 2018 Winter Quarter.

MHI 289F—Database & Knowledge Management (4)

Lecture/Discussion—3 hour(s); Term Paper. Prerequisite(s): Consent of Instructor. Objectives include understanding the informatics techniques for data capture, information management, and knowledge generation that a student will use throughout their career. May be repeated for credit. Effective: 2010 Winter Quarter.

MHI 289G—Special Topics in Health Informatics: Biostatistics (4)

Lecture—3 hour(s); Laboratory—3 hour(s). Prerequisite(s): Consent of Instructor. Special topics in Biostatistics. Evaluation Methods and Statistics in Biomedical Informatics. Research design and analysis with special emphasis on Biomedical Informatics. Effective: 2016 Spring Quarter.

MHI 289H—Modeling Biological Systems (4)

Lecture—3 hour(s); Laboratory—1 hour(s). Prerequisite(s): Consent of Instructor. Limited to 20 students. Create awareness of how modern computer graphics have led to VR-Sim-Rob applications, and how they are modifying the teaching of medicine and in some cases the diagnosis and treatment of patients. Effective: 2011 Winter Quarter.

MHI 289I—Programming in Health Informatics (3)

Lecture—2 hour(s); Laboratory—2 hour(s). Prerequisite(s): Consent of Instructor. Basics of computer programming essential to the study of informatics. Impacts on systems within healthcare, public health, nursing, research, and others. Effective: 2018 Winter Quarter.

MHI 290—Seminar in Medical Informatics (1)

Seminar—1 hour(s). Restricted to 20 students. Discussion of current graduate research and topics in Medical Informatics. Oral presentations of individual study. (S/U grading only.) Effective: 2009 Fall Quarter.

MHI 298—Group Study in Health Informatics (1-5)

Variable—1-5 hour(s). Prerequisite(s): Consent of Instructor. Graduate student in good academic standing. Directed reading and discussion on select topics. May be repeated for credit when topic differs. (S/U grading only.) Effective: 2020 Winter Quarter.

MHI 299—Research in Health Informatics (1-12)

Variable. Independent research in Health Informatics. (S/U grading only.) Effective: 2010 Spring Quarter.

MIB—Microbiology

Courses in MIB:

MIB 200A—Microbial Biology (3)

Lecture—3 hour(s). Prerequisite(s): MIC 102; Or equivalent; prior coursework in Microbiology. Designed to provide an overview of various aspects of microbiology and microbial processes. Topics will include microbial genetics and genomics, microbial metabolism, signaling, and adaptations. Effective: 2011 Fall Quarter.

MIB 201L—Advanced Microbiology Laboratory Rotations (5)

Laboratory—15 hour(s). Two five-week assignments in microbiology research laboratories. Individual research problems with emphasis on methodological/procedural experience and experimental design. May be repeated up to 2 time(s). Effective: 2011 Fall Quarter.

MIB 210—Microbial Interactions (2)

Lecture—2 hour(s). Prerequisite(s): MIB 200A; or Consent of Instructor. Analysis at the molecular level of the interactions of microbes with the environment, microbes with other microbes, and microbes in symbiotic and/or pathogenic associations with eukaryotic hosts. Topics discussed will vary. May be repeated up to 2 time(s). Effective: 2011 Fall Quarter.

MIB 290C—Advanced Research Conference (1)

Discussion—1 hour(s); Conference—1 hour(s). Prerequisite(s): Graduate standing and/or consent of instructor. Presentation and critical discussion of staff research activities. Designed for advanced graduate students. May be repeated for credit. (S/U grading only.) Effective: 1997 Winter Quarter.

MIB 298—Group Study (1-5)

Variable—1-5 hour(s). Prerequisite(s): Consent of Instructor. Directed reading and discussion on select topics. May be repeated for credit when topic differs. (S/U grading only.) Effective: 2019 Fall Quarter.

MIB 299—Research (1-12)

Variable. Research under the guidance of dissertation committee. (S/U grading only.) Effective: 1997 Winter Quarter.

MIC—Microbiology

Courses in MIC:

MIC 010—Natural History of Infectious Diseases (3)

Lecture—3 hour(s). Topics in the natural history of infectious diseases principally affecting humans. Introduction to infectious microbial agents, ecology, epidemiology, and induction of disease. Focus on diseases of a contemporary nature. Not open for credit to students who have completed MIC 101, MIC 102, or MIC 104. GE credit: SE. Effective: 2014 Fall Quarter.

MIC 091—Introduction to Research (1)

Seminar—1 hour(s). Prerequisite(s): BIS 002A; Or equivalent. Restricted to lower division standing. Discussion of faculty research focusing on the biochemistry, genetics, and cell biology of microorganisms, along with ways undergraduates can participate in research projects of faculty members. May be repeated up to 3 time(s). (P/NP grading only.) GE credit: SE. Effective: 2016 Fall Quarter.

MIC 098—Directed Group Study (1-5)

Variable. Prerequisite(s): Consent of Instructor. Primarily for lower division students. (P/NP grading only.) Effective: 1997 Winter Quarter.

MIC 099—Special Study for Undergraduates (1-5)

Variable. Prerequisite(s): Consent of Instructor. May be repeated for credit. (P/NP grading only.) Effective: 2003 Spring Quarter.

MIC 101—Introductory Microbiology (5)

Lecture—3 hour(s); Discussion—1 hour(s); Laboratory—3 hour(s). Prerequisite(s): (BIS 001A or BIS 002A); CHE 002B (can be concurrent). Survey of microorganisms emphasizing their interactions with humans and diseases. Topics include microscopy, survey of various microbes, the immune system, food microbiology, microbial pathogens, and mechanisms of disease transmission. Designed for students requiring microbiology for professional schools. Not open for credit to students who have completed MIC 102, MIC 102L, MIC 104, or MIC 104L. GE credit: SE, SL. Effective: 2014 Winter Quarter.

MIC 102—Introductory Microbiology (3)

Lecture—3 hour(s). Prerequisite(s): (BIS 001A or BIS 002A); CHE 002B (can be concurrent). Essentials of microbial biology, emphasizing phylogeny, physiology, genetics, ecology, and pathogenesis. Interactions with other microbes, humans, and the biosphere. Uses of microbes in agriculture and biotechnology. May be taught abroad. Not open for credit to students who have completed MIC 101 or MIC 104. GE credit: QL, SE, SL. Effective: 2016 Winter Quarter.

MIC 103L—Introductory Microbiology Laboratory (2)

Lecture—1 hour(s); Laboratory—3 hour(s). Prerequisite(s): MIC 102 C- or better; CHE 002B. Introduction to principles and laboratory methods employed in working with microorganisms. Designed for students requiring microbiology for professional school admission. May be taught abroad. Not open to students who completed MIC 101 before spring 2016, or who have completed MIC 102L or MIC 104L. Effective: 2016 Fall Quarter.

MIC 104L—General Microbiology Laboratory (3)

Lecture—1 hour(s); Laboratory—6 hour(s). Prerequisite(s): MIC 102 C or better; (CHE 008B or CHE 118B or CHE 129A); and Consent of Instructor. Students must complete a petition for consideration of enrollment; petition available on department of Microbiology and Molecular Genetics website. Principles and laboratory methods employed in working with microorganisms. Designed for students continuing in microbiology, genetics, or biochemistry. Only 2 units of credit for students who completed MIC 101 before spring 2016, or who have completed MIC 103L; not open to students who have completed MIC 102L. GE credit: SE, WE. Effective: 2016 Fall Quarter.

MIC 105—Microbial Diversity (3)

Lecture—3 hour(s). Prerequisite(s): MIC 102 or MIC 104; BIS 101; BIS 103 or BIS 105 strongly recommended. Survey of the major groups of microorganisms emphasizing diversity of energy metabolism, morphology, evolution, and natural history. GE credit: SE. Effective: 2017 Winter Quarter.

MIC 105L—Microbial Diversity Laboratory (3)

Lecture—1 hour(s); Laboratory—6 hour(s). Prerequisite(s): (MIC 102 or MIC 104); (MIC 102L or MIC 104L); MIC 105 (can be concurrent). Classical enrichments for the isolation of metabolically diverse microbes; modern molecular methods for the identification of isolates; cultivation independent analysis of microbial communities from local environmental samples. GE credit: SE, WE. Effective: 2017 Winter Quarter.

MIC 111—Human Microbiology (3)

Lecture—3 hour(s). Prerequisite(s): MIC 102; BIS 101. Biology of microorganisms that form commensal, mutualistic, and pathogenic relationships with human beings, emphasizing their phylogeny, physiology, genetics, and ecology. Effects on human nutrition, development and physiology. Mechanisms of pathogenesis, immune response evasion, antibiotic action, and antibiotic resistance. GE credit: SE. Effective: 2016 Spring Quarter.

MIC 115—Recombinant DNA Cloning & Analysis (3)

Lecture—3 hour(s). Prerequisite(s): BIS 101; Or the equivalent. Cloning and analysis of recombinant DNA, with emphasis on *Escherichia coli* host-vector systems. DNA-modifying enzymes; vectors and their use; manipulation and expression of insert DNA; polymerase chain reaction; and sequence annotation. Graduate students see MIC 215. GE credit: SE. Effective: 2006 Fall Quarter.

MIC 117—Analysis of Molecular Genetic Circuits (4)

Lecture—4 hour(s). Prerequisite(s): BIS 002A; MAT 017A; MAT 017B; MAT 017C; or Consent of Instructor. Project-based course focused on problem-solving strategies in biology and medicine. Testing hypotheses by translating real-world problems into an appropriate mathematical model and translating the results into real-world understanding. Not open for credit to students who have taken BIM 117. GE credit: QL, SE, SL. Effective: 2018 Fall Quarter.

MIC 120—Microbial Ecology (3)

Lecture—3 hour(s). Prerequisite(s): MIC 105; (BIS 102 or BIS 105). Interactions between non-pathogenic microorganisms and their environment, emphasizing physiological and metabolic characteristics of various groups and their adaptation to and modification of specific habitats. GE credit: SE. Effective: 2008 Fall Quarter.

MIC 140—Bacterial Physiology (3)

Lecture—3 hour(s). Prerequisite(s): (BIS 101, BIS 102, BIS 103 (can be concurrent)) or (BIS 101, BIS 105); MIC 102 recommended. Fundamentals of bacterial growth and bacterial responses to environmental stresses. Topics will include carbon and nitrogen regulation, growth rate control, post-exponential growth, and motility and chemotaxis. Not open for credit to students who have completed MIC 130A. GE credit: SE. Effective: 2008 Fall Quarter.

MIC 150—Genomes of Pathogenic Bacteria (3)

Lecture—3 hour(s). Prerequisite(s): MIC 102; BIS 101. Molecular genetics and comparative genomics of representative pathogenic bacteria. Roles of mobile genetic elements, lateral gene transfer, and genome rearrangements in pathogen evolution. Mutation, recombination, and complementation as tools for genetic analysis. Content includes close examination of primary research articles. GE credit: SE. Effective: 2016 Spring Quarter.

MIC 155L—Bacterial Physiology Lab (4)

Lecture/Discussion—1 hour(s); Laboratory—8 hour(s). Prerequisite(s): (MIC 140 or MIC 150); MIC 120L; and Consent of Instructor. Physiology and genetics of bacteria. Isolation and characterization of mutant strains. Mapping of mutations by conjugation and transduction studies of control of enzyme synthesis by induction, repression, and catabolite repression. Effective: 2004 Spring Quarter.

MIC 162—General Virology (4)

Lecture—4 hour(s). Prerequisite(s): BIS 101; BIS 102 or BIS 105 recommended. Integrated presentation of the nature of animal, bacterial, and plant viruses, including their structure, replication and genetics. Only 3 units to students who have completed PMI 128. GE credit: SE. Effective: 2017 Winter Quarter.

MIC 170—Yeast Molecular Genetics (3)

Lecture—3 hour(s). Prerequisite(s): BIS 101; MIC 102 or MIC 105 strongly recommended. Survey of the genetics, cell biology and technologies in yeasts and related lower eukaryotes. Topics include diversity of yeasts; cell structure; metabolism; cell cycle; genetic approaches and genomics; gene expression; yeasts as models to study higher eukaryotes; and contemporary techniques. GE credit: SE. Effective: 2016 Fall Quarter.

MIC 172—Host-Parasite Interactions (3)

Lecture—3 hour(s). Prerequisite(s): MIC 102 or MIC 101 or MIC 104; BIS 101; Biological Sciences 102 or 105 strongly recommended. Exploration of host-parasite interactions at multiple levels, with an emphasis on global health and medically important human parasites. GE credit: SE, SL. Effective: 2017 Fall Quarter.

MIC 175—Cancer Biology (3)

Lecture—3 hour(s). Prerequisite(s): BIS 101; (BIS 102 or BIS 105). Exploration of the causes and treatments of cancer at multiple levels: molecular/cell biology, clinical manifestations, epidemiology and prevention. GE credit: SE, SL. Effective: 2016 Spring Quarter.

MIC 190C—Undergraduates Research Conference (1)

Discussion—1 hour(s). Prerequisite(s): MIC 199 (can be concurrent); and Consent of Instructor. Upper division standing, MIC 199 required concurrently. Presentation and critical discussion of staff research activities: designed for advanced undergraduate students. May be repeated for credit. (P/NP grading only.) Effective: 1997 Fall Quarter.

MIC 191—Introduction to Research for Advanced Undergraduates (1)

Seminar—1 hour(s). Prerequisite(s): BIS 002A; Or equivalent. Restricted to upper division standing. Discussion of faculty research focusing on the biochemistry, genetics, and cell biology of microorganisms, along with ways undergraduates can participate in research projects of faculty members. May be repeated up to 3 time(s). (P/NP grading only.) GE credit: SE. Effective: 2016 Fall Quarter.

MIC 192—Internship (1-12)

Internship—3-36 hour(s). Technical and/or professional experience on or off campus. Supervised by a member of the Microbiology Section faculty. (P/NP grading only.) Effective: 1997 Winter Quarter.

MIC 194H—Microbiology Honors Research (2)

Independent Study—6 hour(s). Prerequisite(s): Senior standing; eligibility for college honors; completion of 6 units of MIC 199; consent of section. Continuation of an individual microbiological research project culminating in writing of a senior thesis under a faculty director. (P/NP grading only.) Effective: 1997 Winter Quarter.

MIC 197T—Tutoring in Microbiology (1-12)

Variable—3-36 hour(s). Prerequisite(s): Consent of Instructor. Upper division standing. Assisting the instructor in one of the section's regular courses by tutoring individual or small groups of students in a laboratory, in voluntary discussion groups, or other voluntary course activities. May be repeated for credit. (P/NP grading only.) Effective: 2004 Spring Quarter.

MIC 198—Directed Group Study (1-5)

Variable. Prerequisite(s): Consent of Instructor. Directed group study. May be taught abroad. (P/NP grading only.) Effective: 1997 Winter Quarter.

MIC 199—Special Study for Advanced Undergraduates (1-5)

Variable. Prerequisite(s): Consent of Instructor. (P/NP grading only.) Effective: 1997 Winter Quarter.

MIC 200B—Advanced Bacteriology (3)

Lecture—3 hour(s). Prerequisite(s): MIB 200A. Intended for first-year graduate students in Microbiology and closely-related fields. Advanced topics in phylogeny, physiology and diversity of bacteria. Effective: 2001 Winter Quarter.

MIC 215—Recombinant DNA (3)

Lecture—3 hour(s). Prerequisite(s): BIS 101; BIS 102; BIS 103; Or the equivalent. Application of recombinant DNA technology to modern problems in biology, biochemistry, and genetics, emphasizing molecular cloning strategies, choice of vectors, preparation of insert DNA, and selection procedures. Effective: 1998 Fall Quarter.

MIC 217—Analysis of Molecular Genetic Circuits (4)

Lecture—4 hour(s). Prerequisite(s): Consent of Instructor. Project-based course focused on problem-solving strategies in biology. Emphasis on testing hypotheses by translating real-world problems into an appropriate mathematical model and translating the results into real-world understanding. Only 2 units of credit for students who have previously taken BIM 117 or MIC 117. Effective: 2018 Fall Quarter.

MIC 262—Advanced General & Molecular Virology (3)

Lecture—3 hour(s). Prerequisite(s): Graduate standing. Advanced integrated presentation of animal, bacterial, and plant viruses, including their structure, modes of regulation, expression and replication, and effects on host cells and organisms. Effective: 1997 Winter Quarter.

MIC 263—Principles of Protein-Nucleic Acid Interactions (3)

Lecture—3 hour(s). Prerequisite(s): Advanced graduate standing and completion of one year of basic graduate course work in biochemistry, biophysics, chemistry, genetics, microbiology, or molecular biology. Physical basis of protein-nucleic acid interaction. Topics include nucleic acid recognition by proteins, thermodynamics of protein-nucleic acid stability, and kinetics of binding process for both non-specific and sequence-specific nucleic acid binding proteins. Emphasis on systems that represent paradigms in protein-nucleic acid interactions. Effective: 1997 Winter Quarter.

MIC 274—Seminar in Genetic Recombination (1)

Seminar—1 hour(s). Prerequisite(s): Consent of Instructor. Graduate standing. Biochemical and genetic aspects of genetic recombination in prokaryotes and eukaryotes. Mechanisms of recombination and biochemical and genetic characteristics of recombination proteins. Proteins include DNA strand exchange, DNA helicases, and Holliday junction resolving proteins. May be repeated for credit. (S/U grading only.) Effective: 1998 Winter Quarter.

MIC 275—Seminar in DNA Repair & Recombination (1)

Seminar—1 hour(s). Prerequisite(s): Consent of Instructor. Graduate standing in Microbiology or closely-related field. Review and discussion of current research and literature in DNA repair and recombination with presentations by individual students and invited speakers. May be repeated for credit. (S/U grading only.) Effective: 2006 Fall Quarter.

MIC 276—Advanced Concepts in DNA Metabolism (3)

Lecture—3 hour(s). Prerequisite(s): MCB 221C or GGG 201C or equivalent course recommended. DNA damage checkpoints, homologous recombination, and meiotic recombination. An advanced treatment of the clinical and current literature to discuss emerging principles and current models in these research areas. Effective: 2008 Fall Quarter.

MIC 290C—Advanced Research Conference (1)

Discussion—1 hour(s); Conference—1 hour(s). Prerequisite(s): Graduate standing and/or consent of instructor. Presentation and critical discussion of staff research activities. Designed for advanced graduate students. May be repeated for credit. (S/U grading only.) Effective: 1997 Winter Quarter.

MIC 291—Selected Topics in Microbiology (1)

Seminar—1 hour(s). Prerequisite(s): Consent of Instructor. Graduate standing. Current progress in microbiology and cellular and molecular biology. May be repeated for credit. (S/U grading only.) Effective: 1997 Winter Quarter.

MIC 292—Seminar in Bacterial Physiology & Genetics (1)

Seminar—1 hour(s). Prerequisite(s): Consent of Instructor. Graduate standing in Microbiology or closely-related field. Review and discussion of current research and literature in bacterial physiology and genetics, with presentations by individual students. (S/U grading only.) Effective: 2000 Spring Quarter.

MIC 298—Group Study (1-5)

Variable. Prerequisite(s): Consent of Instructor. (S/U grading only.) Effective: 1997 Winter Quarter.

MIC 299—Research (1-12)

Variable. (S/U grading only.) Effective: 1997 Winter Quarter.

MIC 396—Teaching Assistant Training Practicum (1-4)

Variable. Prerequisite(s): Graduate standing. May be repeated for credit. (P/NP grading only.) Effective: 1997 Winter Quarter.

MMI—Medical Microbiology

Courses in MMI:

MMI 098—Directed Group Study (1-5)

Variable—1-5 hour(s). Prerequisite(s): Consent of Instructor. Group Study in Medical Microbiology and Immunology; primarily for lower division students. Directed reading and discussion on selected topics. May be repeated for credit when topic differs. (P/NP grading only.) Effective: 2019 Winter Quarter.

MMI 099—Special Study for Undergraduates (1-5)

Variable—1-5 hour(s). Prerequisite(s): Consent of Instructor. Restricted to lower division standing. Special study for lower division students. May be repeated for credit. (P/NP grading only.) Effective: 2019 Winter Quarter.

MMI 130—Medical Mycology (2)

Lecture—2 hour(s). Prerequisite(s): Consent of Instructor. A course in pathogenic microbiology. Various aspects of pathogenic fungi, particularly affecting humans, will be discussed including epidemiology, pathogenesis and pathology, diagnosis and therapy. Course offered in alternate years. (Same course as MMI 430.) Effective: 1997 Winter Quarter.

MMI 188—Human Immunology (3)

Lecture—3 hour(s). Prerequisite(s): Undergraduate level introductory Biology course. Human immune system and mechanisms of immunity. Basic components and function of immune system. Molecular basis of immune response; basic cellular and molecular mechanisms. Interactions between cells of immune system producing immune responses; regulating molecules. Effective: 2004 Spring Quarter.

MMI 192—Internship in Medical Microbiology (1-12)

Internship—3-36 hour(s). Prerequisite(s): Upper division standing; approval of project prior to period of internship. Supervised work experience in medical microbiology and related fields. (P/NP grading only.) Effective: 1997 Winter Quarter.

MMI 194H—Senior Honors Project in Medical Microbiology & Immunology (5)

Independent Study—15 hour(s). Prerequisite(s): MMI 199; and Consent of Instructor. Project in research related to immunology of medically important viruses. Development of a hypothesis-driven project, performance of experimental protocols and preparation of graphical representation of original data. Requires oral and written presentation of research results. May be repeated up to 3 time(s) with consent of instructor. (P/NP grading only.) Effective: 2004 Spring Quarter.

MMI 198—Group Study in Medical Microbiology (1-5)

Variable. Prerequisite(s): Consent of Instructor. Upper division standing. Directed reading and discussion and/or laboratory investigation on selected topics. (P/NP grading only.) Effective: 1997 Winter Quarter.

MMI 199—Research in Medical Microbiology (1-5)

Variable. Prerequisite(s): Consent of Instructor. Upper division standing. Individual research. (P/NP grading only.) Effective: 1997 Winter Quarter.

MMI 200D—Mechanisms for Microbial Interactions with Hosts (3)

Lecture/Discussion—3 hour(s). Prerequisite(s): MIB 200A; or Consent of Instructor. Study of mechanisms involved in microbial interactions within a host environment. The following principles are basic to understanding these interactions: host recognition, invasion, competition and growth, and host defense. Effective: 1997 Winter Quarter.

MMI 210A—Critical Analysis of Contemporary Research on Animal Models of Human Infectious Disease (1)

Lecture/Discussion—1 hour(s). Prerequisite(s): Consent of Instructor. Students funded by the Animal Models of Infectious Diseases Training Grant. Limited enrollment. Topics will include diverse vertebrate and invertebrate models of human infectious diseases. May be repeated for credit. (S/U grading only.) Effective: 2013 Fall Quarter.

MMI 210B—Comparative Analysis of Animal Models of Human Infectious Diseases (1)

Lecture/Discussion—1 hour(s). Prerequisite(s): Students funded by the Animal Models of Infectious Diseases Training Grant; others by consent of instructor. Limited enrollment. Compares the major vertebrate and invertebrate animal models that are used most commonly to study human infectious disease, including mouse, non-human primate, *Caenorhabditis elegans*, and *Drosophila*. May be repeated for credit. (S/U grading only.) Effective: 2014 Winter Quarter.

MMI 215—Medical Parasitology (3)

Lecture—1.5 hour(s); Discussion—1.5 hour(s). Prerequisite(s): Graduate student with consent of instructor. Epidemiology, pathogenesis, diagnostic methods and current literature discussion of protozoa, helminths and arthropods of medical importance. Effective: 2011 Spring Quarter.

MMI 280—The Endogenous Microbiota in Health & Disease (3)

Lecture—3 hour(s). Prerequisite(s): Graduate standing. Recent insights into the microbial communities inhabiting mucosal surfaces, and will discuss how the composition of these communities contributes to normal development, metabolism, education of the immune system, and disease susceptibility. Offered in spring quarter; even years. Effective: 2016 Spring Quarter.

MMI 291—Seminar in Microbiology & Immunology (1)

Seminar—1 hour(s). Restricted to students with upper division or graduate standing. Research seminars on current topics in microbiology and immunology. May be repeated for credit when topic differs. (S/U grading only.) Effective: 2007 Spring Quarter.

MMI 298—Group Study in Medical Microbiology & Immunology (1-5)

Variable. Prerequisite(s): Consent of Instructor. Open to graduate students. Directed reading and discussion and/or laboratory investigation on selected topics. Sections 1, 2, 4, 5 are S/U grading only. (S/U grading only.) Effective: 1997 Winter Quarter.

MMI 299—Research (1-12)

Variable. Prerequisite(s): Consent of Instructor. Open to graduate students. Laboratory investigation contributing to the dissertation for a graduate degree. (S/U grading only.) Effective: 1997 Winter Quarter.

MMI 410—Physician Scientist Molecular Medicine Journal Club (1)

Lecture/Discussion—1 hour(s). Weekly seminars by students on research articles in current literature. Topics/articles to be selected by instructors to include a broad range of frontiers in biomedical literature. May be repeated for credit. (H/P/F grading only.) Effective: 2004 Fall Quarter.

MMI 430—Medical Mycology (2)

Lecture—2 hour(s). Prerequisite(s): Consent of Instructor. A course in pathogenic microbiology. Various aspects of pathogenic fungi, particularly affecting humans, will be discussed including epidemiology, pathogenesis and pathology, diagnosis and therapy. (Same course as MMI 130.) (H/P/F grading only.) Effective: 1997 Winter Quarter.

MMI 480A—Medical Immunology (2.5)

Lecture—2 hour(s); Discussion/Laboratory—0.5 hour(s). Restricted to Medical students only. Helping to understand the immune system, the nomenclature and functional significance of the tissues, cells, proteins and genes of the immune system, as well as the normal regulatory mechanisms and pathologic outcomes related to the immune response. (P/F grading only.) Effective: 2016 Spring Quarter.

MMI 480B—Medical Microbiology (5.5)

Lecture—2.8 hour(s); Discussion/Laboratory—1 hour(s). Restricted to Medical students only. Discussion of the diseases caused by infectious agents includes their pathogenesis, clinical manifestations, diagnosis, treatment epidemiology and prevention. Covers the general properties of and diagnostic techniques for bacteria, fungi and viruses. (P/F grading only.) Effective: 2016 Spring Quarter.

MMI 480D—Medical Microbiology D (1)

Lecture/Lab—1 hour(s). Continuation of longitudinal medical microbiology course series. (P/F grading only.) Effective: 2020 Summer Quarter.

MMI 497T—Tutoring in Medical Microbiology (1-5)

Tutorial—3-15 hour(s). Prerequisite(s): Consent of Instructor. Appropriate preparation in subject matter. Assist instructor by tutoring medical students in one of the departmental courses that is a component of the required curriculum of the School of Medicine. (H/P/F grading only.) Effective: 1997 Winter Quarter.

MMI 498—Group Study in Medical Microbiology & Immunology (1-5)

Variable. Prerequisite(s): Medical students with consent of instructor. Directed reading and discussion and/or laboratory investigation on selected topics. (H/P/F grading only.) Effective: 1997 Winter Quarter.

MMI 499—Research (1-12)

Variable. Prerequisite(s): Medical students with consent of instructor. May be repeated for credit. (H/P/F grading only.) Effective: 2008 Winter Quarter.

MMG—Molecular & Medical Microbiology

Courses in MMG:

Coming Soon!

MPM—Masters Preventive Veterinary Medicine

Courses in MPM:

MPM 200—Introduction to Information Management for Epidemiologists (1)

Laboratory—1 hour(s). Restricted to students in the Master of Preventive Veterinary Medicine program. Introduction to practical application of epidemiological methods to solve problems involving population health data. Emphasis on using worksheet/database software tools for organizing, analyzing, reporting, and interpreting data. Ten, three-hour sessions. Effective: 2016 Summer Session 2.

MPM 201—Emerging Issues at the Interface of Animal, Human, & Ecosystem Health (2.5)

Lecture—1 hour(s); Discussion—1.5 hour(s). Limited to 35 students. Introduce one health topics emphasizing relationships between environmental, animal and human health. Topics include ecosystem change and impacts on animals and humans, cross-species disease transmission and approaches for addressing critical data gaps to inform ecosystem health and disease prevention. Effective: 2016 Fall Quarter.

MPM 202—Medical Statistics I (4)

Lecture—15 hour(s); Laboratory—10 hour(s). Prerequisite(s): MPVM or MPH standing or consent of instructor. Restricted to 80 students. Basic statistics in clinical, laboratory and population medicine: descriptive statistics; probability; binomial, Poisson, normal, t-, F-, and Chi-square distributions; sampling distributions; parameter estimation; hypothesis testing; elementary nonparametric methods, simple linear regression and correlation; life table construction and analysis. Effective: 2015 Summer Session 2.

MPM 203—Medical Statistics II (4)

Lecture—3 hour(s); Laboratory—2 hour(s). Prerequisite(s): MPM 202; or Consent of Instructor. Or equivalent. Continuation of MPM 202. Analysis of variance in biomedical sciences; nonparametric methods; multiple regression; unconditional logistic regression; biomedical applications of statistical methods. Microcomputer applications in population medicine to reinforce principles that are taught in lecture. Required for students in the Preventive Veterinary Program Graduate Group (PVM) and the Masters of Public Health Program (MPH). Effective: 2015 Fall Quarter.

MPM 204—Medical Statistics III (4)

Lecture—3 hour(s); Laboratory—2 hour(s). Continuation of MPM 203. Selecting the best regression equation, conditional logistic regression, Poisson regression, survival analysis, analysis of time dependent variation and trends. Microcomputer applications in population medicine to reinforce principles that are taught in lecture. Effective: 2016 Fall Quarter.

MPM 205—Principles of Epidemiology (4)

Lecture—4 hour(s). Prerequisite(s): MPM 202; or Consent of Instructor. An introductory statistics course. Basic epidemiologic concepts and approaches to epidemiologic research, with examples from veterinary and human medicine, including outbreak investigation, infectious disease epidemiology, properties of tests, and an introduction to epidemiologic study design and surveillance. (Same course as EPI 205.) Effective: 2017 Winter Quarter.

MPM 206—Epidemiologic Study Design (4)

Lecture—30 hour(s); Discussion—9 hour(s); Laboratory—2 hour(s). Prerequisite(s): MPM 205; or Consent of Instructor. Builds on concepts presented in MPM 205. Concepts of epidemiologic study design—clinical trials, observational cohort studies, case control studies—introduced in MPM 205A are covered in more depth, using a problem-based format. Discussion of published epidemiologic studies. (Same course as EPI 206.) Effective: 2015 Winter Quarter.

MPM 207—Applied Epidemiologic Problem Solving (1)

Discussion/Laboratory—2 hour(s). Integration of epidemiologic and statistical methodology in a problem-solving approach to contemporary animal population health issues. Data validation and manipulation. Effective: 2014 Fall Quarter.

MPM 208—Research Planning & Reporting I (2)

Lecture/Discussion—2 hour(s). MPVM standing or consent of instructor Identify and implement research questions through hypothesis construction, articulation of aims, acquiring permits, working as a team, and all other techniques needed to develop a successful research program. Not open for credit to students who have previously taken MPM 408B. Effective: 2017 Winter Quarter.

MPM 209—Research Planning & Reporting II (1)

Lecture/Discussion. Prerequisite(s): MPM 208. Concepts and skills in effective scientific writing for publication in a peer-reviewed journal in animal health or biomedicine. Includes developing an argument, organizing and writing a manuscript, improving readability, and responding to peer review. Effective: 2016 Fall Quarter.

MPM 210—Advanced Health Leadership (1.5)

Lecture; Discussion. Limited to 35 students. Develop skills for effective scientific leadership, including: project management and collaboration, conflict resolution, communication with the public, dynamic distribution of health information, and evidence-based policy influence. Effective: 2017 Winter Quarter.

MPM 212—Concepts & Methods in Infectious Disease Surveillance & Control (3)

Lecture—2 hour(s); Discussion/Laboratory—1 hour(s). Prerequisite(s): Consent of Instructor. Basic and advanced level of conceptual and methodological foundations in infectious disease epidemiology necessary for veterinarians to develop and evaluate programs for detection, prevention, and control of infectious diseases in animal populations. Effective: 2016 Fall Quarter.

MPS—Mathematical & Physical Sciences

Courses in MPS:

MPS 001—General Science: Science in the News (4)

Lecture—3 hour(s); Discussion/Laboratory—1 hour(s). Prerequisite(s): Lower division standing. Basic principles in science including numeracy, scale, energy, and time; the scientific method; good and bad science. Emphasis on science topics recently in the news. Effective: 2002 Spring Quarter.

MPS 011A—Mathematical & Physical Sciences Seminar (2)

Lecture—2 hour(s). Prerequisite(s): Mentorship for undergraduate research participants in the physical and mathematical sciences. Research and writing in the mathematical and physical sciences. Presentations by various science faculty members. Effective: 1997 Fall Quarter.

MPS 011B—Mathematical & Physical Sciences Seminar (2)

Lecture—2 hour(s). Prerequisite(s): Mentorship for undergraduate research participants in the physical and mathematical sciences. Research and writing in the mathematical and physical sciences. Presentations by various science faculty members. Effective: 1997 Fall Quarter.

MSA—Middle East/South Asia Studies

Courses in MSA:

MSA 092—Internship (1-12)

Internship—3-36 hour(s). Prerequisite(s): Consent of Instructor. Supervised internship on and off campus in the area of Middle East & South Asia Studies. May be repeated up to 12 unit(s). (P/NP grading only.) Effective: 2020 Spring Quarter.

MSA 098—Directed Group Study (1-5)

Variable—3-15 hour(s). May be repeated for credit. (P/NP grading only.) Effective: 2006 Fall Quarter.

MSA 099—Special Study for Undergraduates (1-5)

Variable—3-15 hour(s). Prerequisite(s): Consent of Instructor. May be repeated for credit. (P/NP grading only.) Effective: 2006 Fall Quarter.

MSA 100—Middle East & South Asia: Comparative Perspectives (4)

Lecture—3 hour(s); Extensive Writing. Ethnographic and historical points of intersection and divergence in various aspects of the Middle East and South Asia in precolonial, colonial, and postcolonial societies. Anthropological, historical, and theoretical debates surrounding the region. GE credit: AH, SS, WC, WE. Effective: 2004 Summer Session 1.

MSA 111A—Great Cities of Arab Middle East & South Asia (4)

Lecture—3 hour(s); Extensive Writing. Prerequisite(s): Consent of Instructor. Some knowledge of Islamic/Middle Eastern history is very useful. In-depth examination of the great cities of North Africa, the Middle East and South Asia as cultural and historical artifacts. Topics include: the concept of the Islamic city, processes of modernity, and representations that reinforce imagination, memory and personal identity. GE credit: AH, SS, WC, WE. Effective: 2013 Fall Quarter.

MSA 112—History of South Asian Islam (4)

Lecture—3 hour(s); Discussion—1 hour(s). Comparative study of Muslim communities of South Asia. Commonalities in cultural identity and historical experience. Rise and spread of Islam, comparative history of Islamic Empires, colonial rule, and post-colonial nationalism. Effective: 2007 Fall Quarter.

MSA 121A—Shahnameh: The Persian Book of Kings (4)

Lecture/Discussion—3 hour(s); Term Paper. In-depth analysis of the Persian Book of Kings (Shahnameh) by Abu al-Qasim Ferdowsi (d. 1020 CE) in its historical context with a comparative perspective on the role of this work in Persian and world literature. (Same course as COM 175.) GE credit: AH, WC, WE. Effective: 2015 Winter Quarter.

MSA 121C—A Story for a Life: The Arabian Nights (4)

Lecture/Discussion—3 hour(s); Term Paper. In-depth exploration of The Arabian Nights, the best-known work of pre-modern Arabic literature and a major work of world literature. Analysis of the work in its historical context and in comparison to other frame tales in world literature. (Same course as COM 172, ARB 140.) GE credit: AH, WC, WE. Effective: 2016 Winter Quarter.

MSA 122A—Themes in the Arabic Novel (4)

Lecture/Discussion—3 hour(s); Independent Study; Extensive Writing. Limited to 30 students. Select modern Arabic fiction (novels and short stories) in translation. Thematically connected readings supplemented by non-fictional writings when appropriate. May be repeated up to 2 time(s) when texts/theme of required course readings sufficiently change. GE credit: AH, OL, WC, WE. Effective: 2013 Fall Quarter.

MSA 131A—Modern Iranian Cinema (4)

Lecture/Discussion—3 hour(s); Film Viewing—3 hour(s). Prerequisite(s): Upper division standing, or consent of instructor. Iranian cinema of the 20th century in the context of profound cultural and social changes in Iran especially since the Iranian Revolution. Productions by representative directors such as Kiarostami, Makhmalbaf, Bahram Beizaie are included. Knowledge of Persian not required. (Same course as CTS 146A.) GE credit: AH, OL, VL, WC, WE. Effective: 2013 Fall Quarter.

MSA 131B—Modern South Asia Cinema (4)

Lecture/Discussion—3 hour(s); Film Viewing—3 hour(s). Prerequisite(s): upper division standing or consent of instructor. South Asian cinema of last 100 years in the context of cultural, social, and political changes. South Asian history, Independence, Partition, urban life, class, migration, postcolonial identity, diaspora, gender, sexuality, religion, sport, performance, etc (Same course as CTS 146B, ANT 147.) GE credit: AH, SS, VL, WC, WE. Effective: 2017 Winter Quarter.

MSA 131C—Religion & Media in Arab World (4)

Lecture—4 hour(s). Exploration of the role and experience of media technologies in the Arab world. Study of digital and electronic media as well as alternative media practices. Investigation of new trends in political activism and identity formation. (Same course as RST 166.) GE credit: OL, SS, VL, WC, WE. Effective: 2014 Fall Quarter.

MSA 150—Women & Islamic Discourses (4)

Lecture/Discussion—4 hour(s). Prerequisite(s): WMS 050; Or comparable course. Introduction to the debates/discourses about women and Islam. Transformations in debates/discourses in colonial and postcolonial periods in the Middle East & South Asia. Comparative study of debates/discourses on family, work, law, sexuality, religion, comportment, human rights, feminist and religious movements. (Same course as WMS 185.) GE credit: AH, SS, WC. Effective: 2008 Fall Quarter.

MSA 151A—Iranian Society & Culture (4)

Lecture—2 hour(s); Term Paper; Discussion—1 hour(s). In-depth investigation of modern Iranian society and culture. Exploration of structures of Iranian society: family, gender, religion, minorities, economy, politics, and state. Iran's role in the globalizing world, and the role of Iranian diasporas. GE credit: AH, OL, VL, WC, WE. Effective: 2013 Spring Quarter.

MSA 180—Topics in Middle East & South Asian Studies (4)

Lecture—3 hour(s); Extensive Writing. Comparative perspective on the Middle East and South Asia. Topics may include: modernity, religious traditions, colonialism, subalternity and social movements, gender and sexuality, history and memory, science and development, ritual and performance, public culture, diasporas. May be repeated up to 1 time(s) when topic differs. GE credit: AH, SS, WC, WE. Effective: 2004 Fall Quarter.

MSA 181A—Topics in Regional ME/SA Studies (4)

Lecture—3 hour(s); Term Paper. Iran & Persian topics for students specializing in region-specific Middle East & South Asia Studies. May be repeated up to 3 time(s). GE credit: AH, SS, WC, WE. Effective: 2015 Winter Quarter.

MSA 181B—Topics in Regional ME/SA Studies (4)

Lecture—3 hour(s); Term Paper. Indian/South Asia topics for students specializing in region-specific Middle East & South Asia Studies. May be repeated up to 3 time(s). GE credit: AH, SS, WC, WE. Effective: 2013 Fall Quarter.

MSA 181C—Topics in Regional ME/SA Studies: Arab Studies (4)

Lecture—3 hour(s); Term Paper. Arab Studies topics. May be repeated up to 3 time(s) when topics and themes differs. GE credit: AH, SS. Effective: 2013 Fall Quarter.

MSA 182A—Undergraduate Proseminar in Middle East/South Asia (4)

Seminar—3 hour(s); Term Paper. Prerequisite(s): MSA 100 recommended. Limited to 15 students. Seminar in Iran & Persian topics specializing in region-specific Middle East & South Asia studies. May be repeated up to 3 time(s). Effective: 2015 Winter Quarter.

MSA 182B—Undergraduate Proseminar in Middle East/South Asia (4)

Seminar—3 hour(s); Term Paper. Prerequisite(s): MSA 100 recommended. Limited to 15 students. Seminar in India/South Asia topics specializing in region-specific Middle East & South Asia studies. May be repeated up to 3 time(s) when topics and themes differs. Effective: 2012 Fall Quarter.

MSA 182C—Undergraduate Proseminar in Middle East/South Asia: Arab Studies Seminar (4)

Seminar—3 hour(s); Term Paper. Prerequisite(s): MSA 100 recommended. Limited to 15 students. Seminar in Arab Studies topics. May be repeated up to 3 time(s). GE credit: WE. Effective: 2013 Fall Quarter.

MSA 192—Internship (1-12)

Internship—3-36 hour(s). Prerequisite(s): Consent of Instructor. Supervised internship on and off campus in the area of Middle East & South Asia Studies. May be repeated up to 12 unit(s). (P/NP grading only.) Effective: 2018 Spring Quarter.

MSA 194H—Special Study for Honors Students (1-5)

Variable—3-15 hour(s). Prerequisite(s): Consent of Instructor. Open only to majors of senior standing who qualify for honors program. Independent study of a problem in Middle East/South Asian studies involving the writing of an honors thesis. May be repeated up to 12 unit(s). Effective: 2009 Winter Quarter.

MSA 198—Directed Group Study (1-5)

Variable—3-15 hour(s). Prerequisite(s): Consent of Instructor. May be repeated for credit. (P/NP grading only.) Effective: 2018 Spring Quarter.

MSA 199—Special Study for Advanced Undergraduates (1-5)

Variable—3-15 hour(s). Prerequisite(s): Consent of Instructor. May be repeated for credit. (P/NP grading only.) Effective: 2018 Spring Quarter.

MSC—Military Science

Courses in MSC:

MSC 011—U.S. Army Leadership & Personal Development (1)

Lecture—1 hour(s). Prerequisite(s): Lower division standing. United States Army, its organization, customs, courtesies, and rank structure. Surveys personal development skills needed for effective leadership such as critical thinking, time management, and health and fitness. Familiarization with the Army ROTC program. Effective: 2011 Fall Quarter.

MSC 012—Introduction to Tactical Military Leadership (1)

Lecture—1 hour(s). Prerequisite(s): Lower division standing. Military leadership fundamentals to include setting direction, problem-solving, presenting briefs, and using effective writing skills. Basic military tactics, orienteering and land navigation. Dimensions of leadership values, attributes, skills, and actions. Effective: 2008 Fall Quarter.

MSC 013—Introduction to Basic Military Operations (1)

Lecture—1 hour(s). Prerequisite(s): Lower division standing. Basic military tactical theories and their application at the individual and squad level. Military tactical operations and basic military first aid. Effective: 2008 Fall Quarter.

MSC 014A—Introduction to Military Leadership Skills (0.5)

Laboratory—2 hour(s). Prerequisite(s): Consent of Instructor. Lower division standing. Personal and organizational leadership skills introduced in leadership laboratory. Extensive supervised leadership experiences conducted in a military environment. Basic military skills necessary to function in a leadership role. (P/NP grading only.) Effective: 2008 Fall Quarter.

MSC 014B—Introduction to Military Leadership Skills (0.5)

Laboratory—2 hour(s). Prerequisite(s): Consent of Instructor. Lower division standing. Continuation of development of leadership and military skills introduced in MSC 014A. Emphasis on the role of the individual, the basic organizational element of the Army, the squad. Supervisory controls reduced as students gain capabilities. (P/NP grading only.) Effective: 2008 Fall Quarter.

MSC 014C—Introduction to Military Leadership Skills (0.5)

Laboratory—2 hour(s). Prerequisite(s): Consent of Instructor. Lower division standing. Development of skills required for promotion to junior non-commissioned officer level. Chain of command from company through individual levels. Interrelationship of squad and platoon organizations. (P/NP grading only.) Effective: 2008 Fall Quarter.

MSC 021—Military History, Study of Battles (2)

Lecture—2 hour(s). Prerequisite(s): MSC 022B; or Consent of Instructor. Application of the nine Principles of War to key battles in American and World history. Tactics on a strategic and operational level. Evaluation of leadership and decision-making processes of key leaders. Effective: 2008 Fall Quarter.

MSC 022A—Innovative Team Leadership (2)

Lecture—2 hour(s). Prerequisite(s): Lower division standing or consent of instructor. Leadership values, attributes and theories. Use of basic military skills such as land navigation and squad operations to enhance understanding of the Army. Types of military briefings. Practice in interpersonal skills. Presentation of a briefing. Effective: 2008 Fall Quarter.

MSC 022B—Foundations of Tactical Leadership (2)

Lecture—2 hour(s). Prerequisite(s): MSC 022A; or Consent of Instructor. Leadership of tactical teams in complex operating environment. Self-assessment of leadership style. Basic military skills: terrain analysis, patrolling and operations orders. Dynamics of adaptive leadership in the context of military operations. Effective: 2008 Fall Quarter.

MSC 024A—Individual Military Leadership Skills (0.5)

Laboratory—2 hour(s). Prerequisite(s): MSC 014A; MSC 014B; MSC 014C; MSC 022A (can be concurrent); or Consent of Instructor. MSC 022A required concurrently. Develop and practice personal military leadership skills in extensive supervised leadership labs. Cadets perform basic military skills, improve on troop leading procedures and lead subordinates in tactical situations. Begin with drill and ceremony, land navigation and individual movement techniques. (P/NP grading only.) Effective: 2008 Fall Quarter.

MSC 024B—Individual Military Leadership Skills (0.5)

Laboratory—2 hour(s). Prerequisite(s): MSC 014A; MSC 014B; MSC 014C; MSC 022B (can be concurrent); or Consent of Instructor. MSC 022B required concurrently. Development and practice of personal military leadership skills in extensive supervised leadership labs. Performance of basic military skills, improvement on troop-leading procedures, leadership of subordinates in tactical situations. (P/NP grading only.) Effective: 2008 Fall Quarter.

MSC 024C—Individual Military Leadership Skills (0.5)

Laboratory—2 hour(s). Prerequisite(s): MSC 014A; MSC 014B; MSC 014C; MSC 021 (can be concurrent); or Consent of Instructor. MSC 021 required concurrently. Develop and practice personal military leadership skills in extensive supervised leadership labs. Begin with drill and ceremony, land navigation and individual movement techniques. Cadets perform basic military skills, improve on troop leading procedures and lead subordinates in tactical situations. (P/NP grading only.) Effective: 2008 Fall Quarter.

MSC 131—Military Leadership & Management (2)

Lecture—2 hour(s). Prerequisite(s): Consent of Instructor. Upper division standing. Leadership and management in organizational context. Team dynamics, leadership styles, professional ethics, development of a leadership framework. Management skills for planning, decision making, and organizing developed through definition of problems, development of courses of action, implementation of solutions. Effective: 2008 Fall Quarter.

MSC 132A—Advanced Military Operations (2)

Lecture—2 hour(s). Prerequisite(s): MSC 131; or Consent of Instructor. Upper division standing. Military small unit tactical theory as the basis for leadership development. Principles of war, contemporary operating environment, Geneva Law of Land Warfare, military offensive and defensive operations. Emphasis on development of critical thinking, problem solving, and communication skills. Effective: 2008 Fall Quarter.

MSC 132B—Applied Leadership (2)

Lecture—2 hour(s). Prerequisite(s): MSC 132A; or Consent of Instructor. Upper division standing. Military small unit tactical theory and application as basis for leadership development. Application of leadership styles and skills to complete problem-solving exercises and the development of an adaptable framework applicable to a variety of shifting environments and situations. Effective: 2008 Fall Quarter.

MSC 134A—Adaptive Tactical Leadership (0.5)

Laboratory—2 hour(s). Prerequisite(s): MSC 131; or Consent of Instructor. Upper division standing. Small unit tactical operations serve as the basis for enhancement of leadership performance through tactical application. Assessment of leadership attributes, skills, and actions through participation in a variety of leadership roles in problem-solving exercises. (P/NP grading only.) Effective: 2008 Fall Quarter.

MSC 134B—Adaptive Tactical Leadership (0.5)

Laboratory—2 hour(s). Prerequisite(s): MSC 132A; or Consent of Instructor. Upper division standing. Small unit tactical operations as the basis for enhancement of leadership performance through tactical application. Assessment of leadership attributes, skills, and actions through participation in a variety of leadership roles in problem-solving exercises. (P/NP grading only.) Effective: 2008 Fall Quarter.

MSC 134C—Adaptive Tactical Leadership (0.5)

Laboratory—2 hour(s). Prerequisite(s): MSC 132B; or Consent of Instructor. Upper division standing. Small unit tactical operations are taught, serve as basis for students exploration, development. Serve in variety of leadership roles in which leadership attributes, skills, actions are closely assessed and developed while they are faced with series of problem solving exercises. (P/NP grading only.) Effective: 2008 Fall Quarter.

MSC 141—Ethical Leadership (2)

Lecture—2 hour(s). Prerequisite(s): Consent of Instructor. Upper division standing. Direct influence of leaders on individual motivation and group processes. The complexities of balancing moral, legal, and ethical obligations while applying fundamental business principles in determining the best possible outcome from competing solutions. Effective: 2008 Fall Quarter.

MSC 142—Military Law (2)

Lecture—2 hour(s). Prerequisite(s): MSC 141; or Consent of Instructor. Upper division standing. The United States Constitution and the Military Justice System. Basic law of war, with an emphasis on issues that might arise on the battlefield or during a national emergency. Effective: 2008 Fall Quarter.

MSC 143—U.S. Army Management Systems (2)

Lecture—2 hour(s). Prerequisite(s): MSC 142; or Consent of Instructor. Upper division standing. Leadership and management, focusing on four management systems: planning, organizing, leading and controlling. Practical methodologies for assessing management decisions while balancing competing ethical, economic, infrastructure and future growth trade-offs. Effective: 2008 Fall Quarter.

MSC 144A—Military Training Leadership Skills (0.5)

Laboratory—2 hour(s). Prerequisite(s): MSC 141; or Consent of Instructor. Upper division standing. Enhancement of student leadership performance through practical application. Small unit military tactical operations as the basis for the student exploration and development. (P/NP grading only.) Effective: 2008 Fall Quarter.

MSC 144B—Military Training Leadership Skills (0.5)

Laboratory—2 hour(s). Prerequisite(s): MSC 142; or Consent of Instructor. Upper division standing. Enhancement of student leadership performance through practical application. Small unit military tactical operations serve as the basis for student exploration and development. (P/NP grading only.) Effective: 2008 Fall Quarter.

MSC 144C—Military Training Leadership Skills (0.5)

Laboratory—2 hour(s). Prerequisite(s): MSC 143; or Consent of Instructor. Upper division standing. Enhancement of student leadership performance through practical application. Small unit military tactical operations as the basis for student exploration and development. (P/NP grading only.) Effective: 2008 Fall Quarter.

MSC 191—Special Studies in Military Science (2)

Independent Study—6 hour(s). Prerequisite(s): MSC 131; MSC 132A; MSC 132B; MSC 141; MSC 142; MSC 143; Consent of department chair. Intensive examination of one or more special problems in military science. Possible areas of study include leadership dimensions, principles of war, air-land battle imperatives, military strategy, the operational art and professional ethics. May be repeated up to 2 time(s) when topic differs. (P/NP grading only.) Effective: 1997 Winter Quarter.

MST—Medieval Studies

Courses in MST:

MST 020A—Early Medieval Culture (4)

Lecture—3 hour(s); Discussion—1 hour(s). Readings (in translation) in medieval culture, such as Codes of Justinian, Confessions of Saint Augustine, Beowulf, the Nibelungenlied, The Song of Roland, the Summa Theologica of Thomas Aquinas, the Chronicles of Froissart, Chaucer's Canterbury Tales, and Dante's Divine Comedy. GE credit: AH, WC, WE. Effective: 2018 Fall Quarter.

MST 020B—The Culture of the High Middle Ages (4)

Lecture—3 hour(s); Discussion—1 hour(s). Great transformations that created the modern world: Constitutional Government, the Hundred Years War, the Black Death, and the Peasants Revolts, the Renaissance, Reformation and Counter-Reformation, and the Baroque. GE credit: AH, WC, WE. Effective: 2018 Spring Quarter.

MST 098—Directed Group Study (1-5)

Variable. (P/NP grading only.) Effective: 1997 Winter Quarter.

MST 098F—Student Facilitated Course (1-4)

Variable—1-4 hour(s). Prerequisite(s): Consent of Instructor. Student facilitated course intended primarily for lower division students. (P/NP grading only.) Effective: 2017 Winter Quarter.

MST 099—Special Study for Undergraduates (1-5)

Variable. (P/NP grading only.) Effective: 1997 Winter Quarter.

MST 130A—Special Themes in Medieval Cultures (4)

Lecture—3 hour(s); Discussion—1 hour(s). Each offering concentrates on an interdisciplinary aspect of medieval culture in the Middle East and Europe: the idea of the hero, mysticism, urban development. Extensive readings focused on medieval source material. May be repeated for credit. GE credit: AH, WC, WE. Effective: 1997 Spring Quarter.

MST 130B—Special Themes in Renaissance Culture (4)

Lecture—3 hour(s); Discussion—1 hour(s). Each theme illuminates an interdisciplinary aspect of Renaissance culture in the eastern and western hemispheres: exploration, medical pathology, daily life, baroque culture. Immersion in source material from 1500-1650. May be repeated for credit. GE credit: AH, WC, WE. Effective: 1997 Fall Quarter.

MST 131—Cross-Cultural Relations in the Medieval and/or Early Modern World (4)

Lecture/Discussion—3 hour(s); Extensive Writing. Prerequisite(s): MST 020A or MST 020B; or Consent of Instructor. Medieval and/or Renaissance aspects of cross culturalism. Relations between Christians, Jews, and Muslims: Europeans, Africans, and Asians; Old World and New World. GE credit: WC, WE. Effective: 2011 Fall Quarter.

MST 189—Seminar in Medieval & Early Modern Culture (4)

Seminar—3 hour(s); Term Paper. Prerequisite(s): MST 020A or MST 020B; or Consent of Instructor. Focus on a particular problem or issue in the Medieval or Early Modern periods. Seminar topics might include (but not limited to) monasticism, origins of the university, chivalry, exploration, the role of women in the Medieval and Early Modern world. GE credit: WE. Effective: 2011 Fall Quarter.

MST 190—Senior Thesis (4)

Seminar—4 hour(s). Prerequisite(s): Senior standing and major in Medieval Studies. Preparation of a research paper dealing with a selected aspect of medieval culture, under supervision of three members of the Committee in Charge. Effective: 1997 Winter Quarter.

MST 197T—Tutoring in Medieval Studies (1-4)

Seminar—2 hour(s). Prerequisite(s): MST 020A; MST 020B; Upper division standing; consent of instructor and chairperson of curriculum committee. Tutoring in MST 020A & MST 020B, including leadership in small discussion groups affiliated with the course. May be repeated up to 6 unit(s). (P/NP grading only.) Effective: 1997 Winter Quarter.

MST 198—Directed Group Study (1-5)

Variable. (P/NP grading only.) Effective: 1997 Winter Quarter.

MST 198F—Student Facilitated Course (1-4)

Variable—1-4 hour(s). Prerequisite(s): Consent of Instructor. Student facilitated course intended primarily for upper division students. (P/NP grading only.) Effective: 2017 Winter Quarter.

MST 199—Special Study for Advanced Undergraduates (1-5)

Variable. (P/NP grading only.) Effective: 1997 Winter Quarter.

MST 199FA—Student Facilitated Course Development (1-4)

Variable—1-4 hour(s). Prerequisite(s): Consent of Instructor. Under the supervision of a faculty member, an undergraduate student plans and develops the course they will offer under 098F/198F. (P/NP grading only.) Effective: 2017 Winter Quarter.

MST 199FB—Student Facilitated Teaching (1-4)

Variable—1-4 hour(s). Prerequisite(s): Consent of Instructor. Student facilitated. Under the supervision of a faculty member, an undergraduate student teaches a course under 098F/198F. (P/NP grading only.) Effective: 2017 Winter Quarter.

MUS—Music

Courses in MUS:

MUS 002A—Keyboard Competence, Part 1 (2)

Performance Instruction—2 hour(s). Prerequisite(s): MUS 006A (can be concurrent); MUS 016A (can be concurrent); Consent of Instructor. MUS 006A and MUS 016A required concurrently. Training to meet the minimum piano requirements for the major in music. Scales and simple harmonic progressions in twelve keys, both major and minor. (P/NP grading only.) GE credit: AH. Effective: 2016 Spring Quarter.

MUS 002B—Keyboard Competence, Part 2 (2)

Performance Instruction—2 hour(s). Prerequisite(s): MUS 002A; (MUS 006B (can be concurrent), MUS 016B (can be concurrent)); Consent of Instructor. MUS 006B and MUS 016B required concurrently. Completion of MUS 002A or demonstration of required keyboard proficiency level on diagnostic exam. Training to meet the minimum piano requirements for the major in music. Harmonic progressions, modulations and score reading at the piano. (P/NP grading only.) GE credit: AH. Effective: 2016 Spring Quarter.

MUS 002C—Keyboard Competence, Part 3 (2)

Performance Instruction—2 hour(s). Prerequisite(s): MUS 002B; (MUS 006C (can be concurrent), MUS 016C (can be concurrent)); Consent of Instructor. MUS 006C and MUS 016C required concurrently; completion of MUS 002B or demonstration of required keyboard proficiency level on diagnostic exam. Training to meet the minimum piano requirements for the major in music. Harmonic progressions, figured bass realization, sight reading and keyboard repertory. (P/NP grading only.) GE credit: AH. Effective: 2016 Spring Quarter.

MUS 003A—Introduction to Music Theory, Part 1 (4)

Lecture—1 hour(s); Recitation—3 hour(s). Fundamentals of music theory, ear-training, harmony, counterpoint, and analysis directed toward the development of listening and writing techniques. Intended for the general student. GE credit: AH. Effective: 2008 Fall Quarter.

MUS 003B—Introduction to Music Theory, Part 2 (4)

Lecture—1 hour(s); Recitation—3 hour(s). Prerequisite(s): MUS 003A; or Consent of Instructor. Continuation of MUS 003A. Development of melodic and harmonic writing skills. Basic analysis training. Intended for the general student. GE credit: AH. Effective: 2016 Spring Quarter.

MUS 006A—Elementary Theory, Part 1 (3)

Lecture—3 hour(s). Prerequisite(s): MUS 002A (can be concurrent); MUS 016A (can be concurrent); required concurrently. Development of music writing and listening skills through the study of music fundamentals, species counterpoint, harmony, analysis of repertory. Intended primarily for music majors. GE credit: AH. Effective: 2016 Fall Quarter.

MUS 006B—Elementary Theory, Part 2 (3)

Lecture—3 hour(s). Prerequisite(s): MUS 002B (can be concurrent); MUS 016B (can be concurrent); required concurrently; completion of MUS 006A or demonstration of required proficiency level on diagnostic exam. Continuation of MUS 006A. GE credit: AH. Effective: 2016 Fall Quarter.

MUS 006C—Elementary Theory, Part 3 (3)

Lecture—3 hour(s). Prerequisite(s): MUS 002C (can be concurrent); MUS 016C (can be concurrent); MUS 002C & MUS 016C required concurrently; completion of MUS 006B or demonstration of required proficiency level on diagnostic exam. Continuation of MUS 006A & MUS 006B. GE credit: AH. Effective: 2016 Fall Quarter.

MUS 007A—Intermediate Theory, Part 1 (3)

Lecture—3 hour(s). Prerequisite(s): MUS 006C; MUS 017A (can be concurrent). Homophonic music of the Classical era with a focus on analysis of music by Haydn, Mozart, and Beethoven. Composition of pieces in the homophonic forms such as minuet and trio, theme and variations, rondo and sonata. Intended for music majors. GE credit: AH. Effective: 2016 Fall Quarter.

MUS 007B—Intermediate Theory, Part 2 (3)

Lecture—3 hour(s). Prerequisite(s): MUS 007A; MUS 017B (can be concurrent). Harmony and voice of the 19th century leading through the music of the Romantic era. Focus on analysis of music by Chopin, Schumann, Brahms, Wagner, and Wolf. Composition of character pieces and songs. Intended for Music majors. GE credit: AH. Effective: 2016 Fall Quarter.

MUS 007C—Intermediate Theory, Part 3 (3)

Lecture—3 hour(s). Prerequisite(s): MUS 007B; MUS 017C (can be concurrent). Music of the first thirty years of the 20th century and various analytical tools pertaining to it. Works of Debussy, Stravinsky, Schoenberg, Berg, and others. Composition of small pieces for solo instruments, voice and piano. Intended for music majors. GE credit: AH. Effective: 2016 Fall Quarter.

MUS 010—Introduction to Musical Literature (4)

Lecture—3 hour(s); Discussion—1 hour(s). Introduction to composers and major styles of Western music. Lectures, listening sections, and selected readings. For non-majors. GE credit: AH, VL, WC. Effective: 2018 Spring Quarter.

MUS 011—Musics of the World (4)

Lecture—3 hour(s); Listening—1 hour(s). Survey of selected art, folk, and popular music cultures from different parts of the world. Emphasis on understanding relationship of musical style, aesthetic principles, and performance practice to wider cultural contexts. GE credit: AH, VL, WC. Effective: 2008 Fall Quarter.

MUS 016A—Elementary Musicianship, Part 1 (2)

Lecture/Lab—2 hour(s). Prerequisite(s): MUS 002A (can be concurrent); MUS 006A (can be concurrent); MUS 002A and MUS 006A required concurrently. Melodic, rhythmic, and harmonic materials of Western music. Includes sight singing, explanations, drills, melodic/rhythmic/harmonic dictations, and listening analysis. GE credit: AH. Effective: 2016 Spring Quarter.

MUS 016B—Elementary Musicianship, Part 2 (2)

Lecture/Lab—2 hour(s). Prerequisite(s): MUS 016A; (MUS 002B (can be concurrent), MUS 006B (can be concurrent)); MUS 002B and MUS 006B required concurrently. Completion of MUS 016A or demonstration of required proficiency level on diagnostic exam. Melodic, rhythmic, and harmonic materials of Western music. Includes sight singing, explanations, drills, melodic/rhythmic/harmonic dictations, and listening analysis. GE credit: AH. Effective: 2016 Spring Quarter.

MUS 016C—Elementary Musicianship, Part 3 (2)

Lecture/Lab—2 hour(s). Prerequisite(s): MUS 016B; (MUS 002C (can be concurrent), MUS 006C (can be concurrent)); MUS 002C and MUS 006C required concurrently. Completion of MUS 016B or demonstration of required proficiency level on diagnostic exam. Melodic, rhythmic, and harmonic materials of Western music. Includes sight singing, explanations, drills, melodic/rhythmic/harmonic dictations, and listening analysis. GE credit: AH. Effective: 2016 Spring Quarter.

MUS 017A—Intermediate Musicianship, Part 1 (2)

Lecture/Lab—2 hour(s). Prerequisite(s): MUS 016C; MUS 007A (can be concurrent); Or demonstrate required proficiency level on diagnostic exam. Melodic, rhythmic, and harmonic materials of Western music. Includes sight singing, explanations, drills, melodic/rhythmic/harmonic dictations, and listening analysis. GE credit: AH. Effective: 2016 Fall Quarter.

MUS 017B—Intermediate Musicianship, Part 2 (2)

Lecture/Lab—2 hour(s). Prerequisite(s): MUS 017A; (MUS 007B (can be concurrent); MUS 007B required concurrently. Completion of MUS 017A or demonstration of required proficiency level on diagnostic exam. Melodic, rhythmic, and harmonic materials of Western music. Includes sight singing, explanations, drills, melodic/rhythmic/harmonic dictations, and listening analysis. GE credit: AH. Effective: 2017 Winter Quarter.

MUS 017C—Intermediate Musicianship, Part 3 (2)

Lecture/Lab—2 hour(s). Prerequisite(s): MUS 017B; Completion of MUS 017B or demonstration of required proficiency level on diagnostic exam; MUS 007C required concurrently. The melodic, rhythmic, and harmonic materials of Western music. Includes sight singing, explanations, drills, melodic/rhythmic/harmonic dictations, and listening analysis. GE credit: AH. Effective: 2006 Fall Quarter.

MUS 024A—Introduction to the History of Music I (3)

Lecture—3 hour(s). Prerequisite(s): MUS 006A (can be concurrent); or Consent of Instructor. History of music from the late Baroque to Beethoven. Intended primarily for majors in music. GE credit: AH, VL, WE. Effective: 2016 Spring Quarter.

MUS 024B—Introduction to the History of Music II (3)

Lecture—3 hour(s). Prerequisite(s): MUS 024A; or Consent of Instructor. History of music from the Romantic Period to the 19th century. Intended primarily for majors in Music. GE credit: AH, VL, WE. Effective: 2016 Spring Quarter.

MUS 024C—Introduction to the History of Music III (3)

Lecture—3 hour(s). Prerequisite(s): MUS 024B; or Consent of Instructor. History of music of the 20th century. Intended primarily for majors in music. GE credit: AH, VL, WE. Effective: 2016 Spring Quarter.

MUS 028—Introduction to African American Music (4)

Lecture/Discussion—3 hour(s); Discussion—1 hour(s); Listening; Project (Term Project). Survey of African American music, such as spirituals, blues, ragtime, jazz, theater, gospel, R&B, rap, and art music. Emphasis on historical and sociocultural contexts, as well as African roots. GE credit: ACGH, AH, DD, VL, WE. Effective: 2011 Fall Quarter.

MUS 098—Directed Group Study (1-5)

Variable. Prerequisite(s): Consent of Instructor. Directed group study. (P/NP grading only.) GE credit: AH. Effective: 2016 Spring Quarter.

MUS 099—Special Study for Undergraduates (1-5)

Variable. Prerequisite(s): Consent of Instructor. Special study for undergraduates. (P/NP grading only.) GE credit: AH. Effective: 2016 Spring Quarter.

MUS 101A—Advanced Theory, Part 1 (4)

Lecture—3 hour(s); Lecture/Lab—1 hour(s). Prerequisite(s): MUS 007C. Music of the 20th century from 1930 through 1950 and the various analytical tools pertaining to it. Works of Copland, Sessions, Schoenberg, Bartók, and Stravinsky. Composition of small pieces for piano and voice. GE credit: AH. Effective: 2017 Winter Quarter.

MUS 101B—Advanced Theory, Part 2 (4)

Lecture—3 hour(s); Lecture/Lab—1 hour(s). Prerequisite(s): MUS 101A. Music from 1950 to the present and the analytical tools pertaining to it. Works of Babbitt, Carter, Dallapiccola, Ligeti, Messiaen, Reich and others. Composition of small pieces for ensemble. GE credit: AH. Effective: 2016 Spring Quarter.

MUS 102—Tonal Counterpoint (4)

Lecture—3 hour(s); Practice—1 hour(s). Prerequisite(s): MUS 006C; or Consent of Instructor. Imitative tonal counterpoint with an analytical focus on the Two-Part Inventions and fugues from the The Well-Tempered Klavier by J. S. Bach. Composition of exercises and short pieces using contrapuntal techniques. Intended for music majors. GE credit: AH. Effective: 2017 Winter Quarter.

MUS 103—Workshop in Composition (3)

Workshop—3 hour(s). Prerequisite(s): MUS 006C; or Consent of Instructor. Workshop in musical composition for undergraduates who are interested in pursuing serious compositional studies and intending to follow the composition track of the major. Explores the techniques and materials of musical composition. May be repeated for credit. GE credit: AH. Effective: 2016 Spring Quarter.

MUS 105—History & Analysis of Jazz (4)

Lecture—3 hour(s); Discussion—1 hour(s). Prerequisite(s): MUS 003A or MUS 006A or MUS 010 or MUS 011 or MUS 028; or Consent of Instructor. Jazz and the evolution of jazz styles in historical and cultural context. For non-majors. GE credit: ACGH, AH, DD, WE. Effective: 2019 Fall Quarter.

MUS 106—History of Rock Music (4)

Lecture—3 hour(s); Discussion—1 hour(s). Rock and the evolution of rock styles in historical and cultural context. For non-majors. GE credit: ACGH, AH, VL, WE. Effective: 2019 Fall Quarter.

MUS 107A—Introduction to Electronic Music (4)

Lecture—3 hour(s); Discussion/Laboratory—1 hour(s). Prerequisite(s): Consent of Instructor. Limited enrollment. Pass One restricted to Music and Cinema and Digital Media undergraduate students. Basics of electronic music history, techniques, and composition. Fixed media creation using field recordings. Focus on history, theory and techniques of musique concrète, elektronische musik, and related repertoire. GE credit: AH. Effective: 2019 Winter Quarter.

MUS 107B—Handmade Electronic Music (4)

Lecture—3 hour(s); Discussion/Laboratory—1 hour(s). Prerequisite(s): MUS 107A; Consent of Instructor. Hacking, bending, and creating electronic circuits to make sound. Learning to read circuit diagrams, to build prototypes, and to solder components together. Repertoire study. GE credit: AH. Effective: 2019 Winter Quarter.

MUS 108A—Orchestration (2)

Lecture—2 hour(s). Prerequisite(s): MUS 006C; or Consent of Instructor. Techniques of orchestration from study of basic instrumental techniques to analysis of orchestral scores and scoring for various instrumental combinations. GE credit: AH, VL. Effective: 2016 Spring Quarter.

MUS 108B—Orchestration (2)

Lecture—2 hour(s). Prerequisite(s): MUS 108A; or Consent of Instructor. Techniques of orchestration from study of basic instrumental techniques to analysis of orchestral scores and scoring for various instrumental combinations. GE credit: AH, VL. Effective: 2016 Spring Quarter.

MUS 110A—Music of a Major Composer: Beethoven (4)

Lecture—3 hour(s); Discussion—1 hour(s). Prerequisite(s): MUS 003A or MUS 006A or MUS 010; or Consent of Instructor. Work of Beethoven will be studied in the context of his time and his contemporaries. Lectures, discussion/guided listening sections, and selected readings. For non-majors. GE credit: AH, VL, WC, WE. Effective: 2019 Fall Quarter.

MUS 110B—Music of a Major Composer: Stravinsky (4)

Lecture—3 hour(s); Discussion—1 hour(s). Prerequisite(s): MUS 003A or MUS 006A or MUS 010; or Consent of Instructor. Work of Stravinsky will be studied in the context of his time and his contemporaries. Lectures, discussion/guided listening sections, and selected readings. For non-majors. GE credit: AH, VL, WC, WE. Effective: 2019 Fall Quarter.

MUS 110C—Music of a Major Composer: Bach (4)

Lecture—3 hour(s); Discussion—1 hour(s). Prerequisite(s): MUS 003A or MUS 006A or MUS 010; or Consent of Instructor. Work of Bach will be studied in the context of his time and his contemporaries. Lectures, discussion/guided listening sections, and selected readings. For non-majors. GE credit: AH, VL, WC, WE. Effective: 2019 Fall Quarter.

MUS 110D—Music of a Major Composer: Mozart (4)

Lecture—3 hour(s); Discussion—1 hour(s). Prerequisite(s): MUS 003A or MUS 006A or MUS 010; or Consent of Instructor. Work of Mozart will be studied in the context of his time and his contemporaries. Lectures, discussion/guided listening sections, and selected readings. For non-majors. GE credit: AH, VL, WC, WE. Effective: 2019 Fall Quarter.

MUS 110E—Music of a Major Composer: Haydn (4)

Lecture—3 hour(s); Discussion—1 hour(s). Prerequisite(s): MUS 003A or MUS 006A or MUS 010; or Consent of Instructor. Work of Haydn in the context of his time and his contemporaries. Lectures, discussion/guided listening sections, and selected readings. For non-majors. GE credit: AH, VL, WC, WE. Effective: 2019 Fall Quarter.

MUS 110F—American Masters (4)

Lecture—3 hour(s); Discussion—1 hour(s). Prerequisite(s): MUS 003A or MUS 006A or MUS 010 or MUS 011 or MUS 028; or Consent of Instructor. Overview of American concert music by master composers from Charles Ives to the present. Lectures, discussion/guided listening sections, and selected readings. For non-majors. GE credit: ACGH, AH, DD, VL, WE. Effective: 2019 Fall Quarter.

MUS 110G—Music of a Major Composer: Handel (4)

Lecture—3 hour(s); Discussion—1 hour(s). Prerequisite(s): MUS 003A or MUS 006A or MUS 010; or Consent of Instructor. Work of Handel in the context of his time and his contemporaries. Lectures, discussion/guided listening sections, and selected readings. For non-majors. GE credit: AH, VL, WC, WE. Effective: 2019 Fall Quarter.

MUS 112A—Jazz Fundamentals (2)

Lecture/Lab—2 hour(s). Prerequisite(s): MUS 003A C- or better; or Consent of Instructor. Concurrent enrollment with MUS 140 or MUS 146 required. Fundamentals of Jazz music theory, ear training, harmony and composition techniques. Designed to complement participation in Jazz Combo or Jazz Band. First of a three-course sequence. GE credit: AH. Effective: 2017 Winter Quarter.

MUS 112B—Jazz Theory (2)

Lecture/Lab—2 hour(s). Prerequisite(s): MUS 112A C- or better; Consent of Instructor. Concurrent enrollment in MUS 140 or MUS 146 required. Intermediate level Jazz music theory, ear training, harmony, and composition techniques including improvisation. Designed to complement participation in Jazz Combo or Jazz Band. Second of a three-course sequence. GE credit: AH. Effective: 2017 Winter Quarter.

MUS 112C—Jazz Composition (2)

Lecture/Lab—2 hour(s). Prerequisite(s): MUS 112B C- or better; Consent of Instructor. Concurrent enrollment in MUS 140 required. Jazz compositions and arranging in different styles using techniques of Jazz theory, harmony and improvisation. Third of a three-course sequence. GE credit: AH. Effective: 2017 Winter Quarter.

MUS 113—Introduction to Conducting (2)

Lecture—1 hour(s); Performance Instruction—1 hour(s). Prerequisite(s): MUS 006C; or Consent of Instructor. Principles and techniques of conducting as they apply to both choral and instrumental ensembles. GE credit: AH. Effective: 2016 Spring Quarter.

MUS 114—Intermediate Conducting (2)

Lecture—1 hour(s); Performance Instruction—1 hour(s). Prerequisite(s): MUS 113; or Consent of Instructor. Intermediate conducting with a continued focus on principles and techniques as they apply to both choral and instrumental ensembles. GE credit: AH. Effective: 2016 Spring Quarter.

MUS 115—History of Film Music (4)

Lecture—3 hour(s); Film Viewing—3 hour(s). Film music from silent films to movies of the past decade. How music supports and shapes film narrative and structure. Use of jazz, rock and classical music in film. GE credit: AH, VL, WE. Effective: 2019 Fall Quarter.

MUS 116—Introduction to the Music of The Beatles (4)

Lecture—3 hour(s); Listening—1 hour(s). Survey of music of The Beatles, focusing on the songs of Lennon and McCartney. Emphasis on understanding their evolution as musicians, composers and cultural figures. Discussion of their musical influences in wider cultural contexts. GE credit: AH, VL, WC. Effective: 2019 Spring Quarter.

MUS 117—The Broadway Musical (4)

Lecture—3 hour(s); Discussion—1 hour(s). Exploration of a variety of Broadway and film musicals from different time periods, and how musicals reflect and help create social reality, and the different aspects of the creative process as manifested through music, dance, scenery, and acting. GE credit: AH, DD, VL. Effective: 2018 Winter Quarter.

MUS 121—Topics in Music Scholarship (4)

Seminar—4 hour(s). Prerequisite(s): MUS 006C; MUS 024C; or Consent of Instructor. Sources and problems of a historical period or musical style selected by the instructor and announced in advance. May be repeated for credit. GE credit: AH, OL. Effective: 2016 Spring Quarter.

MUS 122—Topics in Analysis & Theory (4)

Seminar—4 hour(s). Prerequisite(s): MUS 006C; MUS 024C; or Consent of Instructor. Analysis of works of a composer or musical style selected by the instructor and announced in advance. Consideration of theoretical issues. May be repeated for credit. GE credit: AH, OL. Effective: 2016 Spring Quarter.

MUS 123—Music as Culture (3)

Lecture/Discussion—3 hour(s). Prerequisite(s): MUS 024C; or Consent of Instructor. Introduction to the study of music in cross-cultural perspective. Basic theories and frameworks of ethnomusicology; in-depth case studies of three musical traditions from around the world. Intended for music majors. GE credit: AH, WC, WE. Effective: 2017 Winter Quarter.

MUS 124A—History of Western Music: Middle Ages to 1600 (3)

Lecture—3 hour(s). Prerequisite(s): MUS 024C; or Consent of Instructor. Historical survey of composers and musical styles from the Middle Ages to the beginning of the 17th century. GE credit: AH, VL, WE. Effective: 2016 Spring Quarter.

MUS 124B—History of Western Music: 1600-1750 (3)

Lecture—3 hour(s). Prerequisite(s): MUS 124A; or Consent of Instructor. Historical survey of composers and musical styles from the late 1500s to the mid-18th century. GE credit: AH, VL, WE. Effective: 2016 Spring Quarter.

MUS 126—American Music (4)

Lecture—3 hour(s); Listening—1 hour(s). Prerequisite(s): MUS 003A or MUS 006A or MUS 010 or MUS 011 or MUS 028; or Consent of Instructor. Introductory survey of American musics, including Native American music, Hispanic polyphony, New England psalmody, and selected 20th-century composers and styles. GE credit: ACGH, AH, DD, WE. Effective: 2019 Fall Quarter.

MUS 127—Music from Latin America (4)

Lecture—3 hour(s); Discussion—1 hour(s). Prerequisite(s): Consent of Instructor. Examination of music from Latin America. Characteristic music (i.e., tango, bossa nova, salsa, musica motena, musica andina) as well as its implications in other musical genres. Taught in English or Spanish depending on instructor. May be repeated up to 1 time(s) when topic differs. Not open to students who have taken SPA 171S or MUS 127S. (Same course as SPA 171.) GE credit: AH, VL, WC, WE. Effective: 2018 Winter Quarter.

MUS 127S—Music from Latin America (4)

Lecture—3 hour(s); Discussion—1 hour(s). Prerequisite(s): Consent of Instructor. Examination of music from Latin America. Characteristic music (i.e. tango, bossa nova, salsa, musica motena, musica andina) as well as its implications in other musical genres. Taught abroad in Spanish or English depending on instructor. May be repeated up to 1 time(s) when content differs. Not open to students who have taken SPA 171 or MUS 127. (Same course as SPA 171S.) GE credit: AH, VL, WC, WE. Effective: 2018 Winter Quarter.

MUS 129A—Musics of the Americas (4)

Lecture—3 hour(s); Discussion—1 hour(s). Prerequisite(s): MUS 003A or MUS 006A or MUS 010 or MUS 011 or MUS 028; or Consent of Instructor. Survey of music cultures from North, Central, and South America, including the Caribbean, with emphasis on the role of music in society and on the elements of music (instruments, theory, genres and form, etc.). Introduction to ethnomusicological theory, methods, approaches. GE credit: AH, DD, VL, WC, WE. Effective: 2019 Fall Quarter.

MUS 129B—Musics of Africa, Middle East, Indian Subcontinent (4)

Lecture—3 hour(s); Discussion—1 hour(s). Prerequisite(s): MUS 003A or MUS 006A or MUS 010 or MUS 011 or MUS 028; or Consent of Instructor. Survey of music cultures with special emphasis on the role of music in society and on the elements of music (instruments, theory, genres and form, etc.). Introduction to ethnomusicological theory, methods, approaches. GE credit: AH, VL, WC, WE. Effective: 2019 Fall Quarter.

MUS 129C—Musics of East & Southeast Asia (4)

Lecture—3 hour(s); Discussion—1 hour(s). Prerequisite(s): MUS 003A or MUS 006A or MUS 010 or MUS 011 or MUS 028; or Consent of Instructor. Survey of music cultures from Japan, China, Korea, Vietnam, and Indonesia, with special emphasis on the role of music in society and on the elements of music (instruments, theory, genres and form, etc.). Introduction to ethnomusicological theory, methods, approaches. GE credit: AH, VL, WC, WE. Effective: 2019 Fall Quarter.

MUS 129D—Folk Musics of Europe (4)

Lecture—3 hour(s); Discussion—1 hour(s). Prerequisite(s): MUS 003A or MUS 006A or MUS 010 or MUS 011 or MUS 028; or Consent of Instructor. Survey of folk musics from all of Europe, with emphasis on the role of music in society and on the elements of music (instruments, genres, form, etc.). Introduction to ethnomusicological theory, methods, approaches. GE credit: AH, VL, WC, WE. Effective: 2019 Fall Quarter.

MUS 130A—Applied Study of Music: Advanced; Voice (1)

Performance Instruction—1 hour(s). Prerequisite(s): Consent of Instructor. Admission by audition. Class instruction, arranged by section; Voice. Offered as demand indicates. May be repeated for credit. Effective: 2016 Spring Quarter.

MUS 130B—Applied Study of Music: Advanced; Piano (1)

Performance Instruction—1 hour(s). Prerequisite(s): Consent of Instructor. Admission by audition. Class instruction, arranged by section; Piano. Offered as demand indicates. May be repeated for credit. Effective: 2016 Spring Quarter.

MUS 130C—Applied Study of Music: Advanced; Harpsichord (1)

Performance Instruction—1 hour(s). Prerequisite(s): Consent of Instructor. Admission by audition. Class instruction, arranged by section; Harpsichord. Offered as demand indicates. May be repeated for credit. Effective: 2016 Spring Quarter.

MUS 130D—Applied Study of Music: Advanced; Organ (1)

Performance Instruction—1 hour(s). Prerequisite(s): Consent of Instructor. Admission by audition. Class instruction, arranged by section; Organ. Offered as demand indicates. May be repeated for credit. Effective: 2016 Spring Quarter.

MUS 130E—Applied Study of Music: Advanced; Violin (1)

Performance Instruction—1 hour(s). Prerequisite(s): Consent of Instructor. Admission by audition. Class instruction, arranged by section; Violin. Offered as demand indicates. May be repeated for credit. Effective: 2016 Spring Quarter.

MUS 130F—Applied Study of Music: Advanced; Viola (1)

Performance Instruction—1 hour(s). Prerequisite(s): Consent of Instructor. Admission by audition. Class instruction, arranged by section; Viola. Offered as demand indicates. May be repeated for credit. Effective: 2016 Spring Quarter.

MUS 130G—Applied Study of Music: Advanced; Cello (1)

Performance Instruction—1 hour(s). Prerequisite(s): Consent of Instructor. Admission by audition. Class instruction, arranged by section; Cello. Offered as demand indicates. May be repeated for credit. Effective: 2016 Spring Quarter.

MUS 130H—Applied Study of Music: Advanced; Double Bass (1)

Performance Instruction—1 hour(s). Prerequisite(s): Consent of Instructor. Admission by audition. Class instruction, arranged by section; Double Bass. Offered as demand indicates. May be repeated for credit. Effective: 2016 Spring Quarter.

MUS 130I—Applied Study of Music: Advanced; Flute (1)

Performance Instruction—1 hour(s). Prerequisite(s): Consent of Instructor. Admission by audition. Class instruction, arranged by section; Flute. Offered as demand indicates. May be repeated for credit. Effective: 2016 Spring Quarter.

MUS 130J—Applied Study of Music: Advanced; Oboe (1)

Performance Instruction—1 hour(s). Prerequisite(s): Consent of Instructor. Admission by audition. Class instruction, arranged by section; Oboe. Offered as demand indicates. May be repeated for credit. Effective: 2016 Spring Quarter.

MUS 130K—Applied Study of Music: Advanced; Clarinet (1)

Performance Instruction—1 hour(s). Prerequisite(s): Consent of Instructor. Admission by audition. Class instruction, arranged by section; Clarinet. Offered as demand indicates. May be repeated for credit. Effective: 2016 Spring Quarter.

MUS 130L—Applied Study of Music: Advanced; Bassoon (1)

Performance Instruction—1 hour(s). Prerequisite(s): Consent of Instructor. Admission by audition. Class instruction, arranged by section; Bassoon. Offered as demand indicates. May be repeated for credit. Effective: 2016 Spring Quarter.

MUS 130M—Applied Study of Music: Advanced; French Horn (1)

Performance Instruction—1 hour(s). Prerequisite(s): Consent of Instructor. Admission by audition. Class instruction, arranged by section; French Horn. Offered as demand indicates. May be repeated for credit. Effective: 2016 Spring Quarter.

MUS 130N—Applied Study of Music: Advanced; Trumpet (1)

Performance Instruction—1 hour(s). Prerequisite(s): Consent of Instructor. Admission by audition. Class instruction, arranged by section; Trumpet. Offered as demand indicates. May be repeated for credit. Effective: 2016 Spring Quarter.

MUS 130O—Applied Study of Music: Advanced; Trombone (1)

Performance Instruction—1 hour(s). Prerequisite(s): Consent of Instructor. Admission by audition. Class instruction, arranged by section; Trombone. Offered as demand indicates. May be repeated for credit. Effective: 2016 Spring Quarter.

MUS 130P—Applied Study of Music: Advanced; Tuba (1)

Performance Instruction—1 hour(s). Prerequisite(s): Consent of Instructor. Admission by audition. Class instruction, arranged by section; Tuba. Offered as demand indicates. May be repeated for credit. Effective: 2016 Spring Quarter.

MUS 130Q—Applied Study of Music: Advanced; Percussion (1)

Performance Instruction—1 hour(s). Prerequisite(s): Consent of Instructor. Admission by audition. Class instruction, arranged by section; Percussion. Offered as demand indicates. May be repeated for credit. Effective: 2016 Spring Quarter.

MUS 130R—Applied Study of Music: Advanced; Classical Guitar (1)

Performance Instruction—1 hour(s). Prerequisite(s): Consent of Instructor. Admission by audition. Class instruction, arranged by section. Offered as demand indicates. May be repeated for credit. Effective: 2016 Fall Quarter.

MUS 131A—Applied Study of Music: Advanced (Individual) (2)

Performance Instruction—0.5 hour(s); Independent Study—5 hour(s). Prerequisite(s): Consent of Instructor. Admission by audition. Individual instruction in voice. May be repeated for credit. Effective: 2016 Fall Quarter.

MUS 131B—Applied Study of Music: Advanced (Individual); Piano (2)

Performance Instruction—0.5 hour(s); Independent Study—5 hour(s). Prerequisite(s): Consent of Instructor. Admission by audition. Individual instruction in Piano. May be repeated for credit. Effective: 2016 Spring Quarter.

MUS 131C—Applied Study of Music: Advanced (Individual); Harpsichord (2)

Performance Instruction—0.5 hour(s); Independent Study—5 hour(s). Prerequisite(s): Consent of Instructor. Admission by audition. Individual instruction in Harpsichord. May be repeated for credit. Effective: 2016 Winter Quarter.

MUS 131D—Applied Study of Music: Advanced (Individual); Organ (2)

Performance Instruction—0.5 hour(s); Independent Study—5 hour(s). Prerequisite(s): Consent of Instructor. Admission by audition. Individual instruction in Organ. May be repeated for credit. Effective: 2016 Spring Quarter.

MUS 131E—Applied Study of Music: Advanced (Individual); Violin (2)

Performance Instruction—0.5 hour(s); Independent Study—5 hour(s). Prerequisite(s): Consent of Instructor. Admission by audition. Individual instruction in Violin. May be repeated for credit. Effective: 2016 Spring Quarter.

MUS 131F—Applied Study of Music: Advanced (Individual); Viola (2)

Performance Instruction—0.5 hour(s); Independent Study—5 hour(s). Prerequisite(s): Consent of Instructor. Open to Music majors only; admission by audition. Individual instruction in Viola. May be repeated for credit. Effective: 1997 Fall Quarter.

MUS 131G—Applied Study of Music: Advanced (Individual); Cello (2)

Performance Instruction—0.5 hour(s); Independent Study—5 hour(s). Prerequisite(s): Consent of Instructor. Admission by audition. Individual instruction in Cello. May be repeated for credit. Effective: 2016 Spring Quarter.

MUS 131H—Applied Study of Music: Advanced (Individual); Double Bass (2)

Performance Instruction—0.5 hour(s); Independent Study—5 hour(s). Prerequisite(s): Consent of Instructor. Admission by audition. Individual instruction in Double Bass. May be repeated for credit. Effective: 2016 Spring Quarter.

MUS 131I—Applied Study of Music: Advanced (Individual); Flute (2)

Performance Instruction—0.5 hour(s); Independent Study—5 hour(s). Prerequisite(s): Consent of Instructor. Admission by audition. Individual instruction in Flute. May be repeated for credit. Effective: 2016 Spring Quarter.

MUS 131J—Applied Study of Music: Advanced (Individual); Oboe (2)

Performance Instruction—0.5 hour(s); Independent Study—5 hour(s). Prerequisite(s): Consent of Instructor. Admission by audition. Individual instruction in Oboe. May be repeated for credit. Effective: 2016 Spring Quarter.

MUS 131K—Applied Study of Music: Advanced (Individual); Clarinet (2)

Performance Instruction—0.5 hour(s); Independent Study—5 hour(s). Prerequisite(s): Consent of Instructor. Admission by audition. Individual instruction in Clarinet. May be repeated for credit. Effective: 2016 Spring Quarter.

MUS 131L—Applied Study of Music: Advanced (Individual); Bassoon (2)

Performance Instruction—0.5 hour(s); Independent Study—5 hour(s). Prerequisite(s): Consent of Instructor. Admission by audition. Individual instruction in Bassoon. May be repeated for credit. Effective: 2016 Spring Quarter.

MUS 131M—Applied Study of Music: Advanced (Individual); French Horn (2)

Performance Instruction—0.5 hour(s); Independent Study—5 hour(s). Prerequisite(s): Consent of Instructor. Admission by audition. Individual instruction in French Horn. May be repeated for credit. Effective: 2016 Spring Quarter.

MUS 131N—Applied Study of Music: Advanced (Individual); Trumpet (2)

Performance Instruction—0.5 hour(s); Independent Study—5 hour(s). Prerequisite(s): Consent of Instructor. Admission by audition. Individual instruction in Trumpet. May be repeated for credit. Effective: 2016 Spring Quarter.

MUS 131O—Applied Study of Music: Advanced (Individual); Trombone (2)

Performance Instruction—0.5 hour(s); Independent Study—5 hour(s). Prerequisite(s): Consent of Instructor. Admission by audition. Individual instruction in Trombone. May be repeated for credit. Effective: 2016 Spring Quarter.

MUS 131P—Applied Study of Music: Advanced (Individual); Tuba (2)

Performance Instruction—0.5 hour(s); Independent Study—5 hour(s). Prerequisite(s): Consent of Instructor. Admission by audition. Individual instruction in Tuba. May be repeated for credit. Effective: 2016 Spring Quarter.

MUS 131Q—Applied Study of Music: Advanced (Individual); Percussion (2)

Performance Instruction—0.5 hour(s); Independent Study—5 hour(s). Prerequisite(s): Consent of Instructor. Admission by audition. Individual instruction in Percussion. May be repeated for credit. Effective: 2016 Spring Quarter.

MUS 131R—Applied Study of Music: Advanced (Individual); Classical Guitar (2)

Performance Instruction—0.5 hour(s); Independent Study—5 hour(s). Prerequisite(s): Consent of Instructor. Admission by audition. Individual instruction in Classical Guitar. May be repeated for credit. Effective: 2016 Spring Quarter.

MUS 131U—Applied Study of Music: Advanced (Individual); Saxophone (2)

Performance Instruction—0.5 hour(s); Independent Study—5 hour(s). Prerequisite(s): Consent of Instructor. Open to Music majors only; admission by audition. Individual instruction in Saxophone. May be repeated for credit. Effective: 2016 Fall Quarter.

MUS 131W—Applied Study of Music: Advanced (Individual); Harp (2)

Performance Instruction—0.5 hour(s); Independent Study—5 hour(s). Prerequisite(s): Consent of Instructor. Admitted by audition. Priority to Music majors. Individual instruction in Harp. May be repeated for credit. GE credit: AH. Effective: 2020 Spring Quarter.

MUS 132—Singing for Actors (1)

Performance Instruction—1 hour(s). Prerequisite(s): Consent of Instructor. Elements of basic singing techniques, through selected exercises, vocalises, and songs. May be repeated for credit. (P/NP grading only.) GE credit: AH. Effective: 2016 Spring Quarter.

MUS 140—University Jazz Band (2) *Review all entries*

Rehearsal—4 hour(s); Practice. Prerequisite(s): Consent of Instructor. Admission by audition. Open to students in any major. Rehearsal, study, and performance of jazz band music and a full variety of jazz band styles, including swing, be-bop, and contemporary jazz styles. May be repeated for credit. (P/NP grading only.) GE credit: AH. Effective: 2020 Fall Quarter.

MUS 140—University Jazz Band (2) *Review all entries*

Rehearsal—2 hour(s); Practice. Prerequisite(s): Consent of Instructor. Admission by audition. Open to students in any major. rehearsal, study, and performance of jazz band music and full variety of jazz band style, including swing, be-bop, and contemporary jazz styles. May be repeated for credit. (P/NP grading only.) GE credit: AH. Effective: 2017 Spring Quarter.

MUS 141—University Symphony (2)

Rehearsal—4 hour(s). Prerequisite(s): Consent of Instructor. Admission by audition. Open to any student in the University whose proficiency meets the requirements of concert performance. Sight-reading, rehearsal and performance of music from the orchestral literature. May be repeated for credit. (P/NP grading only.) GE credit: AH. Effective: 2016 Spring Quarter.

MUS 142—University Chamber Singers (2)

Rehearsal—3 hour(s). Prerequisite(s): Consent of Instructor. Admission by audition. Rehearsal and performance of works for small choral group. May be repeated for credit. (P/NP grading only.) GE credit: AH. Effective: 2019 Winter Quarter.

MUS 143—University Concert Band (2)

Rehearsal—4 hour(s). Prerequisite(s): Consent of Instructor. Admission by audition. Open to any student in the University whose proficiency meets the requirements of concert performance. Rehearsal and performance of music for band. May be repeated for credit. (P/NP grading only.) GE credit: AH. Effective: 2016 Spring Quarter.

MUS 144—University Chorus (2)

Rehearsal—4 hour(s). Prerequisite(s): Consent of Instructor. Admission by audition. Open to any student in the University. Rehearsal and performance of choral music. May be repeated for credit. (P/NP grading only.) GE credit: AH. Effective: 2016 Spring Quarter.

MUS 145—Early Music Ensemble (2)

Rehearsal—4 hour(s). Prerequisite(s): Consent of Instructor. Admission by audition. Rehearsal and performance of Medieval, Renaissance, and Baroque music for vocal ensemble and historical instruments. May be repeated for credit. (P/NP grading only.) GE credit: AH. Effective: 2016 Fall Quarter.

MUS 146—Chamber Music Ensemble (1)

Rehearsal—2 hour(s); Practice—1 hour(s). Prerequisite(s): Consent of Instructor. Admission by audition. Open to any student in the University whose proficiency meets the requirements of concert performance. Study, rehearsal, and performance of ensemble music for strings, winds, voice, piano, harpsichord, and organ. May be repeated for credit. (P/NP grading only.) GE credit: AH. Effective: 2016 Fall Quarter.

MUS 147—University Wind Ensemble (2)

Rehearsal—4 hour(s). Prerequisite(s): Consent of Instructor. Rehearsal, study, and performance of a full variety of wind ensemble music; and to have students share their work in public performances. May be repeated for credit. (P/NP grading only.) GE credit: AH. Effective: 2016 Fall Quarter.

MUS 148—Hindustani Vocal Ensemble (2)

Rehearsal—2 hour(s). Prerequisite(s): Consent of Instructor. Basics of Hindustani music through theory and practice. Fundamentals of raga (mode) and tala (rhythms) with special emphasis on improvisation, a central feature of khyal (singing style). Five ragas each quarter. May be repeated up to 6 time(s). (P/NP grading only.) GE credit: AH. Effective: 2016 Fall Quarter.

MUS 149—Indonesian Gamelan Ensemble (2)

Rehearsal—2 hour(s). Prerequisite(s): Consent of Instructor. Indonesian music practice. Basic instrumental technique and repertory. Focus on two styles of Sundanese gamelan (tuned percussion orchestras): salendro and degung. May be repeated for credit. (P/NP grading only.) GE credit: AH. Effective: 2016 Spring Quarter.

MUS 150—Brazilian Samba School (2)

Performance Instruction—2 hour(s). Prerequisite(s): Consent of Instructor. Practice of Brazilian music. Basic instrumental technique and repertory. Focus on the percussion traditions of Rio de Janeiro and Bahia. May be repeated up to 6 time(s). (P/NP grading only.) GE credit: AH. Effective: 2020 Winter Quarter.

MUS 151—Korean Percussion Ensemble (2)

Rehearsal—2 hour(s); Listening—2 hour(s); Practice—2 hour(s). Prerequisite(s): Consent of Instructor. Limited to 20 students. Practice of Korean percussion styles. Basic instrumental technique and repertory. Focus on the percussion traditions of samulnori and basic concepts of p'ungmul. May be repeated up to 6 time(s). (P/NP grading only.) GE credit: AH. Effective: 2016 Spring Quarter.

MUS 152—Afro-Cuban Ensemble (2)

Performance Instruction—2 hour(s). Prerequisite(s): Consent of Instructor. Performance of African derived folkloric music of Cuba. Basic instrumental technique and repertory. Focus on percussion and song traditions from Havana, Matanzas and Santiago, Cuba. May be repeated up to 6 time(s). (P/NP grading only.) GE credit: AH. Effective: 2018 Fall Quarter.

MUS 153—Brazilian Capoeira Ensemble (2) *Review all entries*

Rehearsal—4 hour(s); Listening; Practice. Prerequisite(s): Consent of Instructor. Basic instrumental techniques, songs, and dance movements of Capoeira Angola. Protocols of a Capoeira Angola performance and the meanings of Capoeira in Brazil with its connections to Afro-Brazilian culture. May be repeated up to 6 time(s). (P/NP grading only.) GE credit: AH. Effective: 2019 Spring Quarter.

MUS 153—Brazilian Capoeira Ensemble (2) *Review all entries*

Rehearsal—4 hour(s); Listening; Practice. Prerequisite(s): Consent of Instructor. Basic instrumental techniques, songs, and dance movements of Capoeira Angola. Protocols of a Capoeira Angola performance and the meanings of Capoeira in Brazil with its connections to Afro-Brazilian culture. May be repeated up to 6 time(s). (P/NP grading only.) GE credit: AH. Effective: 2020 Fall Quarter.

MUS 155—Percussion Ensemble (2)

Rehearsal—2 hour(s); Listening; Practice. Prerequisite(s): Consent of Instructor. Admission by audition. Study and rehearsal of percussion chamber music from the 20th and 21st centuries. Study of standard and extended techniques for a broad range of percussion instruments. Public performance of significant works for percussion ensemble. May be repeated for credit. (P/NP grading only.) GE credit: AH. Effective: 2019 Fall Quarter.

MUS 192—Internship in Music (1-4)

Internship—3-12 hour(s). Prerequisite(s): Consent of instructor or academic advisor. Student must submit a written proposal to an appropriate Music Department instructor. Internship outside the university related to music. May be repeated up to 8 unit(s). (P/NP grading only.) GE credit: AH. Effective: 2016 Fall Quarter.

MUS 194HA—Special Study for Honors Students (2-4)

Independent Study—6-12 hour(s). Prerequisite(s): MUS 007C; MUS 123; Consent of Instructor. Open only to students who qualify for the honors program and admission to music Senior Honors Program. Preparation and presentation of a culminating project, under the supervision of an instructor, in one of the creative or scholarly areas of music. GE credit: AH. Effective: 2016 Spring Quarter.

MUS 194HB—Special Study for Honors Students (2-4)

Independent Study—6-12 hour(s). Prerequisite(s): MUS 194HA; and Consent of Instructor. Open only to students who qualify for honors program and admission to Music Senior Honors Program. Preparation and presentation of a culminating project, under the supervision of an instructor, in one of the creative or scholarly areas of music. GE credit: AH. Effective: 2016 Spring Quarter.

MUS 195—Senior Project (2)

Project (Term Project)—6 hour(s). Prerequisite(s): MUS 007C; MUS 123; Consent of Instructor. Preparation of a senior project in music composition (public presentation of a new work), in music performance (a public recital), or in music history and theory (public presentation of research results). GE credit: AH. Effective: 2016 Fall Quarter.

MUS 198—Directed Group Study (1-5)

Variable. Prerequisite(s): Consent of Instructor. Directed group study. (P/NP grading only.) GE credit: AH. Effective: 2016 Spring Quarter.

MUS 199—Special Study for Advanced Undergraduates (1-5)

Variable. Prerequisite(s): Consent of Instructor. Special study for advanced undergraduates. (P/NP grading only.) GE credit: AH. Effective: 2016 Spring Quarter.

MUS 202—Notation (4)

Seminar—3 hour(s); Term Paper. Open to graduate students in Music; advanced undergraduates with consent of instructor. Study of musical notation; investigation of techniques for editing Medieval and Renaissance music. Effective: 2016 Spring Quarter.

MUS 203—Music Composition (4)

Seminar—3 hour(s); Term Paper. Open to graduate students in Music; advanced undergraduates with consent of instructor. Technical projects that explore compositional problems, the skill and techniques with which to solve them, and free composition. May be repeated for credit. Effective: 2016 Spring Quarter.

MUS 204—Advanced Conducting (3)

Tutorial—2 hour(s); Practice. Prerequisite(s): Consent of Instructor. Open to graduate students in conducting. Technical aspects of conducting and the broader issues in music history and analysis that conductors must face before leading a rehearsal or performance. May be repeated for credit. Effective: 2016 Fall Quarter.

MUS 207—Advanced Electronic & Computer Music (4)

Seminar—2 hour(s). Prerequisite(s): MUS 107A; MUS 107B; MUS 107C; Consent of Instructor. Advanced composition of computer and electronic music. Effective: 2016 Spring Quarter.

MUS 210A—Proseminar in Music: Theory & Analysis (4)

Seminar—3 hour(s); Term Paper. Open to graduate students in Music; advanced undergraduates with consent of instructor. Voice-leading analysis of tonal music derived from Schenker and pitchclass set theory. Recent work on compositional design, generalizations of the concept of interval, psychologically oriented music theory, and theories of durational structure and timbre. Effective: 2016 Spring Quarter.

MUS 210B—Proseminar in Music: Musicology & Criticism (4)

Seminar—3 hour(s); Term Paper. Open to graduate students in Music; advanced undergraduates with consent of instructor. Issues and concepts of music history, including performance practice questions for specific repertoires and periods; principles, aims, and methods of archival study; historical theory; evolution of musical styles; philosophical debates about goals and aims of the discipline in general. Effective: 2016 Spring Quarter.

MUS 210C—Proseminar in Music: Ethnomusicology (4)

Seminar—3 hour(s); Term Paper. Open to graduate students in Music; advanced undergraduates with consent of instructor. Introduction to ethnomusicology through its intellectual history, theoretical approaches, analytical techniques, and methodologies. Effective: 2016 Spring Quarter.

MUS 212—Ethics of Musical Ethnography (4)

Seminar—3 hour(s); Fieldwork. Open to graduate students in Music; advanced undergraduates with consent of instructor. Role, methodology, perception, and assumptions of the ethnomusicologist in ethnographic scholarship. Examination of complex ethical and political questions in relation to practical fieldwork techniques. Effective: 2016 Fall Quarter.

MUS 213—Transcription & Notation (4)

Seminar—3 hour(s); Project (Term Project). Open to graduate students in Music; advanced undergraduates with consent of instructor. Practical instruction in the transcription and analysis of primarily non-Western musics. Analytical and theoretical issues, the politics of representation, and the cultural values and ideologies implicit in notation. Effective: 2016 Fall Quarter.

MUS 214—Recent Issues in Ethnomusicology (4)

Seminar—3 hour(s); Term Paper. Open to graduate students in Music; advanced undergraduates with consent of instructor. Issues, schools of thought, and basic literature in ethnomusicology from the 1980s to present. Emphasis on theory and methodology. Effective: 2016 Spring Quarter.

MUS 221—Topics in Music History (4)

Seminar—3 hour(s). Open to graduate students in Music; advanced undergraduates with consent of instructor. Studies in selected areas of music history and theory. May be repeated for credit. Effective: 2016 Spring Quarter.

MUS 222—Techniques of Analysis (4)

Seminar—3 hour(s). Open to graduate students in Music; advanced undergraduates with consent of instructor. Analysis and analytical techniques as applied to music of all historical style periods. May be repeated for credit. Effective: 2016 Spring Quarter.

MUS 223—Topics in Ethnomusicology (4)

Seminar—4 hour(s). Open to graduate students in music; advanced undergraduates & Anthropology students with consent of instructor. In-depth ethnomusicological studies of selected cultures and their musics; study of historical, theoretical, contextual, and cultural features. May be repeated for credit. Effective: 2016 Fall Quarter.

MUS 299—Individual Study (1-12)

Variable. (S/U grading only.) Effective: 1997 Winter Quarter.

MUS 396—Teaching Assistant Training Practicum (1-4)

Variable—3-12 hour(s). Prerequisite(s): Consent of Instructor. Teaching Assistant Training Practicum. May be repeated for credit. (S/U grading only.) Effective: 1998 Winter Quarter.

NAS—Native American Studies

Courses in NAS:

NAS 001—Introduction to Native American Studies (4)

Lecture—3 hour(s); Discussion—1 hour(s). Introduction to Native American Studies with emphasis upon basic concepts relating to Native American historical and political development. GE credit: ACGH, DD, SS, WC, WE. Effective: 2011 Fall Quarter.

NAS 005—Introduction to Native American Literature (4)

Lecture/Discussion—4 hour(s). Prerequisite(s): Completion of Subject A requirement. Intensive focus on analysis of Native American literary texts, with frequent writing assignments to develop critical thinking and composition skills. GE credit: AH, DD, OL, WE. Effective: 2011 Fall Quarter.

NAS 005A—Writer's Workshop (2)

Discussion—2 hour(s). Concurrent enrollment in a lower division writing course required, preferably NAS 005; if necessary, based upon demand and academic advisor approval, students may concurrently enroll in an equivalent course (ENL 003 or UWP 001), instead. Disciplinary writing support course focuses on the development of writing and revision strategies, exploring ways to understand a writing task, to develop appropriate content for a writing task, to revise content to reflect competence as a communicator. Effective: 2019 Winter Quarter.

NAS 007—Indigenous & Minority Languages (4)

Lecture—3 hour(s); Discussion—1 hour(s). Survey of the status of indigenous, immigrant, and other minority languages in the Americas and around the world. Topics include linguistic diversity, language endangerment & revitalization, heritage language maintenance in immigrant communities, and language change due to transcultural interactions. GE credit: AH, DD, SS, WC, WE. Effective: 2015 Fall Quarter.

NAS 010—Native American Experience (4)

Lecture—3 hour(s); Discussion—1 hour(s). Introduction to the diverse cultures of Native American peoples from North, Central, and South America. Emphasis on Native American voices in the expression of cultural views and in the experience of conflicting values. GE credit: AH, DD, SS, WC, WE. Effective: 2011 Fall Quarter.

NAS 012—Native American/Indigenous Film (4)

Lecture—3 hour(s); Film Viewing; Discussion—1 hour(s). Survey and analysis of the visual colonization of Native American peoples and the contemporary responses by Native American/Indigenous filmmakers claiming visual sovereignty. Examines a range of filmic genres including documentary, features, shorts, festivals, TV and Internet screening. GE credit: ACGH, AH, DD, SS, VL, WC, WE. Effective: 2011 Fall Quarter.

NAS 032—Native American Music & Dance (4)

Lecture/Discussion—3 hour(s); Term Paper. Introduction to the music and dance of Indigenous peoples across the Americas. Indigenous music and dance from comparative, interdisciplinary, and global perspectives in order to learn about historic and contemporary issues (e.g., social, cultural, economic, technical, and aesthetic) facing Indigenous communities, and the ways in which the issues are expressed through music and dance practices. GE credit: AH, DD, SS, VL. Effective: 2019 Winter Quarter.

NAS 033—Introduction to Native American Art (4)

Lecture—4 hour(s). Introduction to Native American Art from throughout North America, inclusive of traditional forms, techniques and designs in a range of media including ceramics, basketry, fiberwork, carving, painting, sculpture and photography within a context of social and political history. GE credit: ACGH, AH, DD, OL, SS, VL, WE. Effective: 2012 Fall Quarter.

NAS 034—Native American Art Studio (4)

Lecture—2 hour(s); Studio—6 hour(s). Limited enrollment. Studio projects to be influenced by contemporary and traditional Native American arts. Examples of designs and media presented in lectures will be of indigenous origin. Introduction and familiarized with various materials and techniques. GE credit: ACGH, AH, DD, OL, VL, WC. Effective: 2011 Fall Quarter.

NAS 098—Directed Group Study (1-5)

Variable. Prerequisite(s): Consent of Instructor. May be repeated for credit. (P/NP grading only.) Effective: 2007 Winter Quarter.

NAS 099—Special Study for Undergraduates (1-5)

Variable. Prerequisite(s): Consent of Instructor. (P/NP grading only.) Effective: 1997 Winter Quarter.

NAS 101—Contemporary Native American Art (4)

Lecture—3 hour(s); Extensive Writing. Examination of contemporary artworks by selected Native American and Indigenous Master artists, in a wide range of media, including ceramics, metal arts, photography, video, painting, installation and performance within a context of political and social histories. GE credit: ACGH, AH, DD, OL, SS, VL, WE. Effective: 2012 Fall Quarter.

NAS 107—Learning Native American Languages (4)

Lecture/Discussion—4 hour(s). Self-directed study of a Native American language using revitalization strategies. Origins of language endangerment and the importance of language for cultural reclamation. May be repeated for credit when in a different language or undertaking more advanced work on a language previously studied. GE credit: AH, DD, OL, WC. Effective: 2019 Winter Quarter.

NAS 108—Indigenous Languages of California (4)

Lecture/Discussion—3 hour(s); Term Paper. Survey of the indigenous languages of the California region: linguistic prehistory, languages at first European contact, subsequent language loss, current efforts at language and cultural revitalization, indigenous languages of recent immigrants to California. GE credit: ACGH, AH, DD, SS, WE. Effective: 2016 Spring Quarter.

NAS 109—Native American Language Spotlight (4)

Lecture—3 hour(s); Discussion—1 hour(s). In-depth examination of the history, structure, and sociolinguistics of a particular Native American language or language family. Different language studied each time the course is offered. Oral proficiency component included in some years. May be repeated for credit when language/ language family differs. GE credit: AH, SS, WC, WE. Effective: 2018 Winter Quarter.

NAS 110A—Quechua Language & Society: Beginning Level 1 (4)

Lecture/Discussion—4 hour(s). Not open to students who took NAS 107 in the fall quarter of 2007. Quechua language and society emphasizing the practical use of the language. Provides some basic Quechua communication skills and with an initial knowledge about contemporary Andean society and the status of Quechua language today. GE credit: SS. Effective: 2012 Spring Quarter.

NAS 110B—Quechua Language & Society: Beginning Level 2 (4)

Lecture/Discussion—4 hour(s). Prerequisite(s): NAS 110A. Second Level of the teaching of Quechua language and society. Emphasis on development of conversational and reading skills. Continuation of the study of aspects of contemporary Andean society and the status of Quechua language today. GE credit: SS. Effective: 2012 Fall Quarter.

NAS 110C—Quechua Language & Society: Intermediate Level 1 (4)

Lecture/Discussion—4 hour(s). Prerequisite(s): NAS 110A; NAS 110B. Third level of the teaching of Quechua language and society. Emphasis on development of conversational and reading skills. Introduction to more complex grammatical structures. Continuing the study of contemporary Andean society and the status of Quechua language today. GE credit: SS. Effective: 2012 Fall Quarter.

NAS 110D—Quechua Language & Society: Intermediate Level 2 (4)

Lecture/Discussion—4 hour(s). Prerequisite(s): NAS 110A; NAS 110B; NAS 110C. Fourth level of the teaching of Quechua language and society. Emphasis on complex structural patterns while emphasizing conversational skills and improving reading competence. Study of different sociopolitical processes that have affected Andean identity and the status of Quechua language. GE credit: SS. Effective: 2012 Fall Quarter.

NAS 115—Native Americans in the Contemporary World (4)

Lecture/Discussion—4 hour(s). Prerequisite(s): Upper division standing or consent of instructor. Important issues facing Native Americans in the contemporary world. Focus primarily on the diverse ways of life, histories and realities of indigenous people throughout the Americas as they develop their own cultural and political institutions. GE credit: ACGH, AH, DD, OL, SS, WE. Effective: 2016 Fall Quarter.

NAS 116—Native American Traditional Governments (4)

Lecture—4 hour(s). Prerequisite(s): NAS 001; ANT 002. Study of selected Native American Tribal Governments, confederations, leagues, and alliance systems. Effective: 1997 Winter Quarter.

NAS 117—Native American Governmental Decision Making (4)

Lecture—4 hour(s). Prerequisite(s): NAS 116; POL 002; ANT 123 recommended. Native American governmental and community decision making with emphasis on federal and state programs, tribal sovereignty, current political trends and funding for tribal services. Effective: 1997 Winter Quarter.

NAS 118—Native American Politics (4)

Lecture—3 hour(s); Discussion—1 hour(s). Prerequisite(s): Upper division standing or consent of instructor. Examination of the various interest groups and movements found among Native people and how they relate to the determination of Indian affairs. Study of political action available to Native groups, and local communities, along with relevant theory relating to underdevelopment. GE credit: ACGH, DD, SS, WC, WE. Effective: 2016 Spring Quarter.

NAS 119—Introduction to Federal Indian Law (4)

Lecture—3 hour(s); Term Paper. Introduction to the foundational cases and statutes of federal Indian law, from European Contact through the 20th century. GE credit: ACGH, SS, WE. Effective: 2011 Fall Quarter.

NAS 120—Ethnopolitics of South American Indians (4)

Lecture/Discussion—4 hour(s). Prerequisite(s): NAS 001; (NAS 010 or NAS 055). Social, political, cultural movements of indigenous South Americans in response to establishment, expansion of European colonialism, post-colonial nation-states. Ethnopolitical processes developed through interactions between Indians, Euroamericans. Socioethnographic analysis of main indigenous areas and the development of national societies. May be taught abroad. Effective: 1997 Winter Quarter.

NAS 121—Corporate Colonialism (4)

Lecture/Discussion—4 hour(s). Prerequisite(s): NAS 001, NAS 010 or NAS 012 encouraged, but not required. Price of progress and modernity for native and non-native people. History of the corporation and neoliberalism, military and intelligence agencies, debt, Taylorism, education institutions, media, and law. Discussion of alternatives advocated by contemporary and indigenous social movements. GE credit: ACGH, DD, SS, WC, WE. Effective: 2015 Fall Quarter.

NAS 122—Native American Community Development (4)

Lecture—4 hour(s). Prerequisite(s): NAS 001 or NAS 010. Application of community development theory and techniques to the development problems of Native American communities. GE credit: ACGH, DD, OL, SS, WE. Effective: 2012 Fall Quarter.

NAS 123—Native Foods & Farming of the Americas (4)

Lecture/Discussion—4 hour(s). Crop domestication, agrodiversity, and cuisines of the Americas. Cultural and social history of native American foods like maize, potatoes, quinoa, chocolate, peppers, beans, avocados, etc. Discussion of socio-economic, environmental, legal challenges facing indigenous and peasant farmers today. GE credit: DD, OL, SE, SS, WC. Effective: 2016 Spring Quarter.

NAS 125—Performance & Culture Among Native Americans (4)

Lecture—3 hour(s); Film Viewing—3 hour(s). Prerequisite(s): Consent of Instructor. Interdisciplinary study of public expressive forms among Native Americans. Comparison and analysis of music, dances, rituals, and dramas from throughout North, Central, and South America in their social and cultural contexts. Extensive film viewing. Not open for credit to students who have completed MUS 125. GE credit: AH, SS, WC, WE. Effective: 2018 Spring Quarter.

NAS 130A—Native American Ethno-Historical Development (4)

Lecture—4 hour(s). Prerequisite(s): Upper division standing or consent of instructor. Study of Native American ethno-history in North America before 1770s. GE credit: ACGH, DD, SS, WC, WE. Effective: 2016 Spring Quarter.

NAS 130B—Native American Ethno-Historical Development (4)

Lecture/Discussion—4 hour(s). Prerequisite(s): Upper division standing or consent of instructor. Study of Native American ethno-history in North America, 1770-1890. GE credit: ACGH, DD, SS, WE. Effective: 2016 Spring Quarter.

NAS 130C—Native American Ethno-Historical Development (4)

Lecture/Discussion—4 hour(s). Prerequisite(s): Upper division standing or consent of instructor. Study of Native American ethno-history in North America after 1890. GE credit: ACGH, DD, SS, WE. Effective: 2016 Spring Quarter.

NAS 133—Ethnohistory of Native People of Mexico & Central America (4)

Lecture/Discussion—4 hour(s). Ethnohistorical development of pre-colonial, colonial, post-colonial Mexican and Central American indigenous people; the impact of economic and political factors on the process of cultural adaptation. Attention is given to the questions of nation-building, forced assimilation, indigenous resistance, organized political responses. GE credit: SS. Effective: 2017 Winter Quarter.

NAS 133A—Ethnohistory of Native Peoples of Mexico & Central America to 1500 (4)

Lecture/Discussion—3 hour(s); Term Paper. Ethnohistorical development of the indigenous peoples of Mexico and Central America up to and including the earliest period of European contact. Focus is on indigenous written historical records of the Maya, Mixtec, and Nahuatl peoples. May be repeated up to 1 time(s). GE credit: SS. Effective: 2017 Winter Quarter.

NAS 133B—Ethnohistory of Native Peoples of Mexico & Central America 1500 to 2000 (4)

Lecture/Discussion—4 hour(s). Ethnohistory of indigenous peoples of Mexico and Central America from 1500 to contemporary times. Focus on social and cultural dynamics, particularly the role of indigenous people in the process of nation-state building in Mexico and Central America. GE credit: AH, OL, SS, WE. Effective: 2017 Winter Quarter.

NAS 134—Race, Culture, & Nation (4)

Lecture/Discussion—3 hour(s); Term Paper. Prerequisite(s): Upper division standing or consent of instructor. NAS 001 or NAS 010 encouraged, but not required. Exploration of complexities of Native American racial, cultural and national identities and alliances. Study of tribal and federal citizenship, mixed descent and diasporic people(s), claims to resources, ethnic fraud and contemporary movements of cultural resurgence and political sovereignty and self-determination. GE credit: ACGH, DD, SS, WE. Effective: 2018 Fall Quarter.

NAS 135—Gender Construction in Native Societies (4)

Lecture/Discussion—3 hour(s); Project (Term Project). Prerequisite(s): Upper division standing or consent of instructor; NAS 001 or NAS 010 encouraged, but not required. Historical and traditional Native American constructions of feminine, masculine, and non-binary genders with attention to culture- and place-based gender roles and statuses. Analysis of problems with contemporary terminologies and impacts of colonization on contemporary constructions of gender identities. GE credit: AH, DD, OL, SS, WE. Effective: 2019 Winter Quarter.

NAS 146—Orientation to Research in Native American Studies (4)

Lecture/Discussion—3 hour(s); Term Paper. Prerequisite(s): Consent of Instructor. Native American Studies major or minor, or consent of instructor; NAS 001 or NAS 010 encouraged, but not required. Introduction to basic research resources pertinent to Native American subjects available in the region, including libraries, archives, museums, etc. Emphasis on learning to use documentary resources or other collections of data. Students will carry out individual projects. GE credit: AH, DD, SS, WE. Effective: 2019 Winter Quarter.

NAS 157—Native American Religion & Philosophy (4)

Lecture/Discussion—4 hour(s). Religious and philosophical traditions of Native American/indigenous peoples of the Americas. GE credit: AH, OL, WE. Effective: 2016 Fall Quarter.

NAS 161—California Indian Environmental Policy I (4)

Lecture/Discussion—4 hour(s); Term Paper. Contemporary California Indian environmental policy issues, with a focus on water, minerals, contamination, and alliance-building. Issues will be placed within historical and political context, drawing on theories of Native environmental ethics, environmental justice, and Federal Indian law. GE credit: ACGH, DD, SS, WE. Effective: 2012 Fall Quarter.

NAS 162—California Indian Environmental Policy II (4)

Lecture/Discussion—4 hour(s); Term Paper. Contemporary California Indian environmental policy issues, with a focus on planning, site protection, and collaborative structures. Issues will be placed within historical and political context, drawing on theories of Native environmental ethics, environmental justice, and Federal Indian law. GE credit: ACGH, DD, SS, WE. Effective: 2013 Spring Quarter.

NAS 180—Native American Women (4)

Lecture/Discussion—4 hour(s). Native American women's life experiences, cross-cultural comparisons of gender roles, and Native women's contemporary feminist thought. Utilizes texts from literature, social science, and autobiography/biography. GE credit: AH, DD, OL, SS, WE. Effective: 2016 Fall Quarter.

NAS 181A—Native American Literature (4)

Lecture/Discussion—4 hour(s). Prerequisite(s): NAS 005 or ENG 003 or COM 001 or COM 002 or COM 003. Works of fiction (short story, novel) by contemporary Native American authors, with an emphasis on writers from the United States. GE credit: ACGH, AH, DD, OL, WE. Effective: 2011 Fall Quarter.

NAS 181B—Native American Literature (4)

Lecture/Discussion—4 hour(s). Prerequisite(s): NAS 005 or ENG 003 or COM 001 or COM 002 or COM 003. Works by or about Native Americans including non-fiction novels, biographies and autobiographies. Explore ways Native Americans create and recreate their culture through the creative process in literature. Examine from a critical perspective autobiographies and testimonial literature. GE credit: AH, DD, OL, WE. Effective: 2011 Fall Quarter.

NAS 181C—Contemporary Native American Poetry (4)

Lecture—4 hour(s). Works of poetry by contemporary Native American/indigenous poets, with some attention to traditional cultural poetic expressions. GE credit: AH, DD, OL, WE. Effective: 2016 Fall Quarter.

NAS 184—Contemporary Indigenous Literature of Mexico (4)

Lecture/Discussion—4 hour(s). Prerequisite(s): NAS 001 or NAS 010; NAS 181A or NAS 181C recommended; reading knowledge of Spanish required. Contemporary indigenous literature of Mexico, with a focus on the genres (poetry, fiction, drama, essay); analysis of cultural, historical, and spiritual themes, imagery, styles and performances; biographies of and influences on the Native writers themselves. GE credit: AH, OL, SS, WC. Effective: 2011 Fall Quarter.

NAS 185—Native American Literature in Performance (4)

Performance Instruction—4 hour(s). Prerequisite(s): Consent of Instructor. Performance of contemporary Native American literature onstage, through adaptations of selected literature as well as the creation of original pieces. May be repeated up to 4 unit(s). GE credit: AH, DD, OL, WC. Effective: 2011 Fall Quarter.

NAS 188—Special Topics in Native American Literary Studies (4)

Lecture/Discussion—4 hour(s). Prerequisite(s): Upper division standing and one of the following recommended: NAS 005, NAS 010, NAS 181A, NAS 181C. Special topics drawn from Native American literature. May be repeated for credit when topic differs. GE credit: AH, DD, OL, WE. Effective: 2011 Fall Quarter.

NAS 190—Seminar in Native American Studies (2)

Discussion—2 hour(s). Prerequisite(s): Senior Standing. Seminar of critical issues faced by Native American people. (P/NP grading only.) Effective: 1997 Winter Quarter.

NAS 191—Topics in Native American Studies (4)

Lecture/Discussion—4 hour(s). Prerequisite(s): Upper division standing. Selected topics in Native American Studies related to indigenous knowledges and worldviews from a historical, cultural, hemispheric perspective. May be repeated for credit when instructor and/or topic differs. GE credit: AH, DD, OL, SS, WE. Effective: 2013 Spring Quarter.

NAS 192—Internship (1-12)

Internship—1 hour(s). Prerequisite(s): Consent of Instructor. Enrollment dependent on availability of intern position in Native American Studies or the CN Gorman Museum, with priority to Native American Studies minors/majors. Restricted to upper division standing. Supervised internship in the CN Gorman Museum, community, and institutional settings related to Native American concerns. May be repeated up to 12 unit(s) including course 192 and other internships taken in other departments and institutions. (P/NP grading only.) GE credit: AH. Effective: 2011 Fall Quarter.

NAS 194HA—Special Studies for Honors Students (4)

Independent Study—12 hour(s). Prerequisite(s): Senior qualifying for honors. Directed reading, research and writing culminating in the completion of a senior honors thesis or project under direction of faculty advisor. Effective: 1997 Winter Quarter.

NAS 194HB—Special Studies for Honors Students (4)

Independent Study—12 hour(s). Prerequisite(s): Senior qualifying for honors. Directed reading, research and writing culminating in the completion of a senior honors thesis or project under direction of faculty advisor. Effective: 1997 Winter Quarter.

NAS 195—Field Experience in Native American Studies (12)

Fieldwork—36 hour(s). Prerequisite(s): NAS 161; Senior standing and major in Native American Studies, completion of lower division major requirements. Field work with governmental and community groups, under supervision of faculty advisor and sponsor. Knowledge acquired in other courses to be applied in field work. (P/NP grading only.) Effective: 1997 Winter Quarter.

NAS 196—Senior Project in Native American Studies (4)

Discussion—1 hour(s); Independent Study—3 hour(s). Prerequisite(s): NAS 195 (can be concurrent); and Consent of Instructor. Senior standing and major in Native American Studies. Guided research project that enables student to apply the theory and research principles from major course work. Final product is to be a major senior project or thesis. (P/NP grading only.) Effective: 1997 Winter Quarter.

NAS 197TC—Community Tutoring in Native American Studies (1-5)

Tutorial—3-15 hour(s). Prerequisite(s): Consent of major committee; upper division standing with major in Native American Studies. Supervise tutoring in community. (P/NP grading only.) Effective: 1997 Winter Quarter.

NAS 198—Directed Group Study (1-5)

Variable. Prerequisite(s): Consent of Instructor. Upper division standing. Directed group study. May be taught abroad. (P/NP grading only.) Effective: 1997 Winter Quarter.

NAS 199—Special Study for Advanced Undergraduates (1-5)

Variable. Prerequisite(s): Consent of Instructor. (P/NP grading only.) Effective: 1997 Winter Quarter.

NAS 200—Basic Concepts in Native American Studies (4)

Seminar—3 hour(s). Prerequisite(s): Consent of Instructor. Graduate standing. Analysis of characteristics of the discipline of Native American Studies. Concentration of traditional and contemporary native scholarship and thought as well as theoretical and methodological consequences derived from application of these ideas. May be repeated up to 3 time(s) when instructor differs. Effective: 2019 Winter Quarter.

NAS 202—Advanced Topics in Native American Studies (4)

Seminar—4 hour(s). Prerequisite(s): Graduate standing. Advanced study of selected topics or themes relevant to the field of Native American studies. Topics will be announced at the time of offering. May be repeated for credit when topic differs. Effective: 1997 Winter Quarter.

NAS 207—Leadership Skills & Strategies in California Language Documentation & Revitalization (4)

Seminar—3 hour(s); Term Paper. Introduction to the indigenous languages of the Americas, with a focus on California; an examination of how contemporary Native communities document and revitalize their heritage languages. Learn to assist and administer language programs. Effective: 2010 Fall Quarter.

NAS 212—Community Development for Sovereignty & Autonomy (4)

Seminar—4 hour(s). Prerequisite(s): Consent of Instructor. Graduate standing. Examines a sample of contemporary indigenous communities from south, central and north America with the goal of understanding and evaluating the strategies adopted by Native American communities to develop and implement forms of sovereignty or autonomous self-management. Effective: 1997 Winter Quarter.

NAS 213—Native Criminality & Deviance (4)

Seminar—4 hour(s). Prerequisite(s): Graduate standing. Examination of "deviance" in Native communities with focus on Native criminality in North America. Analysis of the concept of deviance from several different world views. Readings from a range of theories to incorporate varying theoretical perspective on criminality and deviance. Effective: 1998 Fall Quarter.

NAS 217—Public Law 83-280: Colonial Termination (4)

Seminar—4 hour(s). Prerequisite(s): Graduate standing, including school of law students. Examination of the signature law of the Termination Era, Public Law 83-280. Discussions to include termination, societal conformity, political consent, jurisdiction, self-determination & decolonization, and colonial relationship between Native Peoples and the United States. Effective: 2007 Spring Quarter.

NAS 220—Colonialism, Neoliberalism, & Indigenous Self-Determination (4)

Seminar—3 hour(s); Term Paper. Prerequisite(s): Graduate standing. History, political economy and legacies of imperial/colonial systems. Continuities and discontinuities with corporate globalization and neoliberalism. Focus on resistance and self-determination of indigenous peoples, but with comparison to other groups. Effective: 2016 Winter Quarter.

NAS 224—Performance in the Americas (4)

Seminar—3 hour(s); Term Paper. Prerequisite(s): Graduate standing. Ethnomusicological and anthropological approaches to study of public performance in the Americas. New ways of looking at music, dance, rituals and other forms of public expressive forms normally called "folklore" or "popular culture." Not open for credit to students who have completed MUS 224. (Former MUS 224.). Effective: 1999 Fall Quarter.

NAS 233—Visual Sovereignty (4)

Seminar—3 hour(s); Film Viewing—2 hour(s); Term Paper. Extensively examine the field of contemporary Native American and Indigenous photography, film and performance through research of artworks, writings by artists, theorists, and material in museum collections. May be repeated up to 2 time(s) when topic differs. Effective: 2011 Fall Quarter.

NAS 237—Native American Art Collections & Museums (4)

Seminar—3 hour(s); Term Paper. Research and examination of regional Native American art held in museums and other public institutions, as well as privately-held collections. Includes onsite viewing and research of museum collections and archives. Effective: 2012 Fall Quarter.

NAS 240—Native American Public Health: Topics & Issues (4)

Seminar—3 hour(s); Term Paper. Introduction to Native American public health issues and contributing causal factors (including environmental justice and historical trauma); the dimensions of cultural competency in diagnosis and service provision; the structure of Native health care institutions; and debates in Native treatment modalities. Effective: 2011 Fall Quarter.

NAS 246—Native American/Indigenous Research Methodologies (4)

Seminar—3 hour(s); Term Paper. Introduction to advanced methodologies currently influencing research in Native American Studies and among Indigenous communities. Develop an original project and course assignments will guide them through the process of research design and implementation. Effective: 2015 Fall Quarter.

NAS 250—Indigenous Critique of Classic Maya Ethnographies (4)

Seminar—4 hour(s). Prerequisite(s): Graduate standing or consent of instructor. Construction of the Maya world through ethnographic writing during the present century. Deconstruction of ethnographies about the Mayans considering the modern theories and social/anthropological critiques of modern ethnographies. Effective: 1998 Fall Quarter.

NAS 254—Native American Literature (4)

Seminar—3 hour(s); Extensive Writing. Open to graduate students only. Introduction to the field of Native American Literature, creative works (fiction, poetry, memoir, personal essay), literary studies. May be repeated up to 1 time(s) when readings content is completely distinct from the course previously taken. Effective: 2018 Fall Quarter.

NAS 257—Indigenous Religious Traditions in the Americas (4)

Seminar—3 hour(s); Extensive Writing. Graduate student enrollment only. Religious/spiritual traditions, belief-systems, and world-views of Native American/indigenous peoples in the Americas. Land, ecological knowledge, sacred sites, the role of tricksters, language (revitalization), gender, ethics of representation, cultural revitalization, renewed ancient knowledge and practices, ceremonial (and daily) performance of the sacred, music, the arts, the worlds of the sacred, the rules of the sacred, freedom of religion. May be repeated up to 1 time(s) when readings content is completely distinct from the course previously taken. Effective: 2018 Fall Quarter.

NAS 280—Ethnohistorical Theory & Method (4)

Seminar—3 hour(s); Term Paper. Discussion of the ethnohistorical method; the utilization of diverse types of data, especially documentary sources, to reconstruct socio-cultural history. Particular attention to the applied area of ethnohistory in the solution of contemporary social problems. Effective: 1997 Winter Quarter.

NAS 298—Group Study for Graduate Students (1-5)

Variable. Prerequisite(s): Consent of Instructor. Graduate standing. (S/U grading only.) Effective: 1997 Winter Quarter.

NAS 299—Special Study for Graduate Students (1-12)

Variable. Prerequisite(s): Consent of Instructor. Graduate standing. (S/U grading only.) Effective: 1997 Winter Quarter.

NAS 396—Teaching Assistant Training Practicum (1-4)

Internship. Prerequisite(s): Graduate standing. May be repeated for credit. (P/NP grading only.) Effective: 1997 Winter Quarter.

NEM—Nematology

Courses in NEM:

NEM 010V—General Biology (4)

Web Virtual Lecture—3 hour(s); Web Electronic Discussion—1 hour(s). Concepts and issues in biology. Emphasis on composition and structure of organisms; regulation and signaling; heredity, evolution and the interaction and interdependence among life forms and their environments. Designed for students not specializing in biology. Not open for credit to students who have completed BIS 002A or BIS 002B or BIS 002C or BIS 010 or equivalent. GE credit: SE, SL. Effective: 2019 Winter Quarter.

NEM 100—General Plant Nematology (4)

Lecture—2 hour(s); Laboratory—6 hour(s). Prerequisite(s): BIS 001B or BIS 010. An introduction to the classification, morphology, biology, and control of the nematodes attacking cultivated crops. GE credit: SE. Effective: 2013 Fall Quarter.

NEM 110—Introduction to Nematology (2)

Lecture—2 hour(s). Prerequisite(s): BIS 002B; or Consent of Instructor. Relationship of nematodes to the human environment. Classification, morphology, ecology, distribution, and importance of nematodes occurring in water and soil as parasites of plants and animals. Effective: 2019 Winter Quarter.

NEM 199—Special Study for Advanced Undergraduates (1-5)

Variable. Prerequisite(s): Consent of Instructor. (P/NP grading only.) Effective: 2013 Fall Quarter.

NEM 201—Molecular & Physiological Plant Nematology (2)

Lecture—1 hour(s); Discussion—1 hour(s). Prerequisite(s): BIS 101; PLP 120; (NEM 100 or NEM 110). Molecular biology and physiology of nematodes using *Caenorhabditis elegans* as a model, but with emphasis on plant-parasitic species. Plant responses to nematodes. Discussion of current literature emphasized. Effective: 2013 Summer Quarter.

NEM 203—Ecology of Parasitic Nematodes (2)

Lecture—1 hour(s); Discussion—1 hour(s). Prerequisite(s): (NEM 100 or NEM 110 or ENT 156); (EVE 101 or PLB 117). Major concepts in population and community ecology of animal- and plant-parasitic nematodes. Current advances in techniques, theory, and basic information about nematode-host dynamics, and application to management of nematode diseases. Effective: 2013 Fall Quarter.

NEM 204—Management of Plant-Parasitic Nematodes (2)

Lecture—1 hour(s); Laboratory—3 hour(s). Prerequisite(s): NEM 100 or NEM 110. Theory, foundation, principles and practices of nematode management. Techniques and equipment used to manage nematodes and methods used to analyze their effectiveness. Effective: 2013 Fall Quarter.

NEM 205—Insect Nematology & Biological Control (2)

Lecture—1 hour(s); Discussion—1 hour(s). Prerequisite(s): NEM 100; NEM 110; (ENT 100 or ENT 110). Biology of insect-parasitic nematodes, their effect on the host, and their potential as biological control agents of insect and other invertebrate pests. Application of ecological theory in classical and augmentative biological control. Effective: 2013 Fall Quarter.

NEM 206—Nematode Systematics & Evolution (2)

Lecture—1 hour(s); Laboratory—3 hour(s). Prerequisite(s): NEM 100 or NEM 110 or ENT 156; EVE 100 recommended. Nematode diversity as revealed by morphological and molecular evidence. Laboratory experience focuses on structural features used in taxonomy. Phylogenetic relationships based on morphological and molecular data used to consider patterns of character change among taxa. Effective: 2013 Fall Quarter.

NEM 210—Molecular Phylogenetic Analysis (3)

Lecture—2 hour(s); Laboratory—3 hour(s). Theory and practice of inferring phylogenetic trees using molecular sequence data. Practical techniques for obtaining sequence data, advantages and disadvantages of common approaches for inferring trees, statistical methods for comparing alternative hypotheses. (Same course as EVE 210.) Effective: 2013 Fall Quarter.

NEM 245—Field Nematology (1)

Fieldwork. Prerequisite(s): NEM 100. Six-day demonstration and field study in applied nematology including diagnosis and prediction of nematode field problem strategies for control field plot design, and establishment in association with diverse California crops. (S/U grading only.) Effective: 2013 Fall Quarter.

NEM 290—Seminar (1)

Seminar—1 hour(s). (S/U grading only.) Effective: 2013 Fall Quarter.

NEM 290C—Advanced Research Conference (1)

Discussion—1 hour(s). Prerequisite(s): Graduate standing and consent of instructor. Planning and results of research programs, proposals, and experiments. Discussion and critical evaluation of original research being conducted by the group. Discussion led by individual research instructors for research group. (S/U grading only.) Effective: 2013 Fall Quarter.

NEM 298—Group Study (1-5)

Variable. Prerequisite(s): Consent of Instructor. (S/U grading only.) Effective: 2013 Fall Quarter.

NEM 299—Research (1-12)

Variable. Prerequisite(s): Consent of Instructor. (S/U grading only.) Effective: 2013 Fall Quarter.

NEP—Nephrology

Courses in NEP:

NEP 192—Internship in Nephrology (1-12)

Internship—3-36 hour(s). Prerequisite(s): Upper division standing; approval of project by preceptor prior to internship. Supervised work experience in nephrology. May be repeated up to 12 unit(s). (P/NP grading only.) Effective: 1997 Winter Quarter.

NEP 299—Nephrology Research (1-12)

Variable. Prerequisite(s): Consent of Instructor. Research topics in Nephrology. May be repeated for credit. (S/U grading only.) Effective: 2002 Summer Quarter.

NEP 444—Curriculum Design for Doctoring (1)

Project (Term Project)—2 hour(s); Seminar—1 hour(s). Prerequisite(s): Consent of Instructor. Second-year standing in School of Medicine. Design of Doctoring curriculum for medical students in focused topic areas to be announced annually. Students design sessions, consider resource needs, and work with IORs to initiate the curriculum. (P/F grading only.) Effective: 2007 Summer Quarter.

NEP 460—Nephrology & Fluid Balance (3-6)

Clinical Activity—4 hour(s); Lecture/Discussion—10 hour(s). Prerequisite(s): Consent of Instructor. Completion of third-year medical school; completion of Medicine Core Clerkship. Limited enrollment. Active participation in all inpatient/outpatient clinical activities, attendance at specific lectures and conferences at UC Davis Medical Center covering the field of nephrology and fluid-electrolyte disorders. (H/P/F grading only.) Effective: 2001 Summer Quarter.

NEP 499—Research in Nephrology (3-18)

Variable. Prerequisite(s): Consent of Instructor. Individual arrangement. Independent laboratory research on a specific problem related to biochemical or immunologic causes of renal disease and/or uremic disorders in humans or animals. May be repeated for credit. (H/P/F grading only.) Effective: 2017 Fall Quarter.

Courses in NEP:

NEU—Neurology

Courses in NEU:

NEU 103—Human Clinical Neuroanatomy (4)

Lecture—3 hour(s); Laboratory—3 hour(s). Prerequisite(s): CHA 101; or Consent of Instructor. Open to upper division students. Clinically relevant anatomy of the normal human nervous system, including external and internal anatomy of the brain, spinal cord, and cranial nerves. Blood supply to the brain and spinal cord. Functional neuroanatomy of motor, sensory, and cognitive systems. Application of neuroanatomical principles relevant to clinical problem solving for students entering health care professions. (Same course as CHA 103.) GE credit: SE. Effective: 2018 Spring Quarter.

NEU 199—Individual Special Study & Research (1-4)

Variable. Prerequisite(s): Consent of Instructor. Individual special study in neurophysiology and biomedical engineering is offered to qualified students. Studies on psychophysics, single-unit electrophysiology and instrumentation are offered in Davis. (P/NP grading only.) Effective: 1997 Winter Quarter.

NEU 298—Group Study (1-5)

Variable. Prerequisite(s): Consent of Instructor. For graduate students desiring to explore particular topics in depth. Lectures and conferences may be involved. (S/U grading only.) Effective: 1997 Winter Quarter.

NEU 299—Individual Special Study & Research (1-12)

Laboratory—3-36 hour(s). Prerequisite(s): Consent of Instructor. Individual special study and research in Neurophysiology and Biomedical engineering is offered at both Davis and Sacramento Medical Center. (S/U grading only.) Effective: 1997 Winter Quarter.

NEU 420—Clinical Neurosciences (2)

Lecture/Discussion—1 hour(s); Lecture—1.5 hour(s). Restricted to Medical Students only. Pathophysiology underlying neurological disorders, including disorders of development, muscle, nerve, cerebral circulation, metabolism, myelin, cortical function, movement, cerebrospinal fluid, autonomic function and special senses. Anatomical basis of clinical testing, nervous system infection, neoplasia and trauma. (P/F grading only.) Effective: 2007 Summer Quarter.

NEU 440—Where Drugs Come From: How They are Discovered, Developed, Regulated, & Marketed (3-6)

Lecture. Includes the following topics: Overview of the Drug Discovery Process; Drug Regulation in the United States; Patents and Other Forms of Exclusivity; Drug Targets and Pharmacology; Identification of Lead Candidates; Preclinical Assessment; ADME Including Basic Pharmacokinetic Principles; Principles of Drug Toxicity; Principles of Drug Safety; Clinical Trials; Generic Drugs; Pharmaceutical Industry; Drug Distribution and Marketing; Dietary Supplements; Controlled Substances. (H/P/F grading only.) Effective: 2018 Winter Quarter.

NEU 450—Clinical Neurology Clerkship (3-6)

Clinical Activity—24 hour(s); Conference—12 hour(s); Seminar—4 hour(s); Independent Study—10 hour(s). Prerequisite(s): Open to all fourth-year medical students; third-year medical students with consent of instructor. Restricted to six students per rotation. Critical elements of neurological clinical skills (history & exam) and basic and clinical neurological concepts expected for general residency preparation. Active, didactic, experiential and independent learning to encourage maturation of general professional competencies. May be repeated for credit. (H/P/F grading only.) Effective: 2011 Winter Quarter.

NEU 452—Advanced Clinical Neurology (6)

Clinical Activity. Prerequisite(s): Consent of Instructor. Completion of four-week Neurology selective. Extension of basic Neurology clerkship. Designed for students with special interest in medical disorders of nervous system. By arrangement with department, student may serve as an acting intern. Principles of neurological differential diagnosis and therapeutics emphasized. (H/P/F grading only.) Effective: 1997 Winter Quarter.

NEU 455—Child Neurology (1-12)

Clinical Activity. Prerequisite(s): IMD 430; OBG 430; PED 430; and Consent of Instructor. Exposure to children with disorders of the nervous system, both in outpatient and inpatient services. Cases presented to a member of full-time faculty who will discuss clinical findings, differential diagnosis, management and therapy. Satisfies fourth-year neuroscience requirement. (H/P/F grading only.) Effective: 2019 Spring Quarter.

NEU 460—Externship in Neurology (3-6)

Clinical Activity. Prerequisite(s): Consent of Instructor. Externship course for Neurology rotations not meeting the qualifications to be an Acting Internship. May be repeated for credit. (H/P/F grading only.) Effective: 2017 Summer Quarter.

NEU 462—Externship in Advanced Neurology (3-6)

Clinical Activity. Prerequisite(s): Consent of Instructor. Away rotation in Neurology where coursework meets the standards to be counted as an Acting Internship. (H/P/F grading only.) Effective: 2017 Summer Quarter.

NEU 493F—Issues in Geriatric Care (6)

Seminar. Four-week module teaches an approach to common problems in the elderly through history and exam, with an emphasis on integration of underlying anatomy, physiology, and pathophysiology in common geriatric presentations. May be repeated for credit. (H/P/F grading only.) Effective: 2018 Winter Quarter.

NEU 498NE—Group Study in Neurology (1-6)

Variable—3-5 hour(s). Prerequisite(s): Medical students with consent of instructor. Directed readings and discussions with a comprehensive written examination at the end of course. (P/F grading only.) Effective: 2002 Summer Session 2.

NEU 499—Research (1-12)

Laboratory—2-24 hour(s). Prerequisite(s): Consent of Instructor. Approved for graduate degree credit. Laboratory investigation on selected topics. May be repeated for credit. (H/P/F grading only.) Effective: 2017 Fall Quarter.

NPB—Neurobiology, Physiology, & Behavior

Courses in NPB:

NPB 010—Elementary Human Physiology (3)

Lecture—3 hour(s). Introduction to physiology for non-science majors. Includes basic cell physiology and survey of major organ systems and how they function in homeostasis and human health. Not open for credit to students who have completed NPB 101. GE credit: SE. Effective: 2016 Winter Quarter.

NPB 011—Exercise & Fitness: Principles & Practice (3)

Lecture—3 hour(s). Human movement from physiological, psychological, sociological, and historical perspectives. Biology and psychology of exercise across the human lifespan. Not open for credit to students who have taken EXB 010 or an upper division EXB or NPB course. GE credit: SE, SL. Effective: 2019 Fall Quarter.

NPB 012—The Human Brain & Disease (3)

Lecture—3 hour(s). Normal function and diseases of the human brain and nervous system. Diseases discussed include Parkinson's, Alzheimer's, leprosy, amnesia and schizophrenia. Intended for non-science majors. Not open for credit for students who have completed NPB 100, NPB 101, NPB 112, or PSC 121. GE credit: SE, SL. Effective: 1997 Spring Quarter.

NPB 013—Extreme Animal Athletes (3)

Lecture—3 hour(s). Overview of biomechanics, focusing on animal locomotion. Physical principles underlying traits such as speed, maneuverability, endurance, and precision. Comparisons of animals and human athletes performing similar feats, with animals often outperforming humans by a wide margin. Biomechanical concepts through hands-on exercises, problem sets, and readings from the scientific literature. GE credit: QL, SE, SL. Effective: 2018 Fall Quarter.

NPB 014—Illusions: Fooling the Brain (3)

Lecture—3 hour(s). Introduction to perceptual processing in the human nervous system; illusions. GE credit: QL, SE, SL. Effective: 2012 Winter Quarter.

NPB 015—The Biology & Physiology of Aging (4)

Lecture—3 hour(s); Discussion—1 hour(s). Broad examination of age-associated changes in body functions. Includes basic cell physiology, a survey of major organ systems and the age-induced alterations in system function. Some age-associated diseases will also be examined. Intended for non-science majors. Not open for credit to students who have completed NPB 015V. GE credit: SE. Effective: 2012 Fall Quarter.

NPB 015V—The Biology & Physiology of Aging (4)

Web Virtual Lecture—3 hour(s); Web Electronic Discussion—1 hour(s). Broad examination of the biological and physiological basis of aging in animals and plants. Concepts in demographic, evolutionary, genetic, and cell aging. Major human organ systems, age-related alterations in system function, and age-related diseases. Intended for non-science majors. Not open for credit to students who have completed NPB 015. GE credit: SE, SL. Effective: 2012 Fall Quarter.

NPB 017—The Path to Cyborgs: Introduction to Prostheses & Human Machine Interfaces (3)

Lecture—3 hour(s). Interface of biology and technology. Mind-controlled prosthetic limbs, artificial organs, and implantable devices. Emphasis on basic physiological functions and how they can be replaced by devices. Suitable for majors and non-majors. GE credit: SE, SL. Effective: 2016 Winter Quarter.

NPB 018—Biological Science for Social Justice (3)

Lecture—3 hour(s). Broad survey of the many ways one can use the biological sciences to better the lives of others and break down barriers that have restricted social mobility. GE credit: DD, SE, SL, SS. Effective: 2018 Spring Quarter.

NPB 068—Biology of Drug Addiction & Abuse (3)

Lecture—3 hour(s). Broad examination of addictive substances and their use/abuse. Topics include historical perspective, physiological effects, etiology, neurobiology of addiction and the impact of drugs on contemporary society. Intended for non-science majors. Not open for credit to students having completed NPB 168. Effective: 2008 Spring Quarter.

NPB 090A—Lower Division Seminar: Issues in Body Weight Regulation (2)

Seminar—2 hour(s). Prerequisite(s): Consent of Instructor. Lower division standing. Limited enrollment. Critical examination of issues in body weight regulation through shared readings, discussions, written assignments, debates and oral presentations. Limited enrollment. Effective: 2000 Winter Quarter.

NPB 090B—Human Color Perception (2)

Seminar—2 hour(s); Term Paper. Prerequisite(s): Lower division standing. Limited to 15 students with lower division standing. Neural determinants of color appearance, and why we see the world in the way we do. Discussions center around demonstrations of color phenomena and what they tell us about the human brain. Effective: 2008 Spring Quarter.

NPB 090C—Current Issues in Animal Behavior (2)

Seminar—2 hour(s). Prerequisite(s): Lower division standing. Limited enrollment. The mechanisms and outcomes of sexual selection (mate choice and mate competition). Theory, current models and evidence that supports or refutes the models. Effective: 2003 Winter Quarter.

NPB 090D—Lower Division Seminar: Current Issues in Reproductive Endocrinology (2)

Seminar—2 hour(s). Prerequisite(s): Lower division standing. The integrative roles of reproductive hormones in mammalian reproduction and health. Current theory and models regarding hormone function and use in reproductive health and contraception, and evidence that supports or refutes the models. Effective: 2002 Fall Quarter.

NPB 090E—Biology of Aging (2)

Seminar—2 hour(s). Prerequisite(s): Freshman standing. Current theories on the biology of aging covering genetic, biochemical, and physiological aspects. Emphasis on critical evaluation of controversial and contemporary issues. Effective: 2003 Fall Quarter.

NPB 090F—Visual Impairment & Blindness: A World Wide Problem (2)

Seminar—2 hour(s). Prerequisite(s): Lower division standing. Examination of various abnormalities of the eye and the important geographic and cultural factors that influence the epidemiology of those abnormalities. Effective: 2007 Winter Quarter.

NPB 091C—Research Conference (1)

Discussion—1 hour(s). Prerequisite(s): NPB 099 (can be concurrent); and Consent of Instructor. Lower division standing in Neurobiology, Physiology and Behavior or related biological science; NPB 099 required concurrently. Restricted to lower division students. Research findings and methods in neurobiology, physiology, and/or behavior. Presentation and discussion of research by faculty and students. May be repeated for credit. (P/NP grading only.) Effective: 2003 Fall Quarter.

NPB 092—Internship (1-12)

Internship—3-36 hour(s). Prerequisite(s): Consent of Instructor. Lower division standing. Work experience off and on campus in all subject areas offered in the Department of Neurobiology, Physiology, and Behavior. Internships supervised by a member of the faculty. May be repeated for credit. (P/NP grading only.) Effective: 2008 Fall Quarter.

NPB 098—Directed Group Study (1-5)

Variable. Prerequisite(s): Consent of Instructor. Lower division standing. (P/NP grading only.) Effective: 2000 Winter Quarter.

NPB 099—Special Study for Undergraduates (1-5)

Variable. Prerequisite(s): Consent of Instructor. Lower division standing. (P/NP grading only.) Effective: 1999 Winter Quarter.

NPB 100—Neurobiology (4)

Lecture—3 hour(s); Discussion—1 hour(s). Prerequisite(s): BIS 002A; PHY 009A, PHY 009B or PHY 007A, PHY 007B recommended. Brains and nervous systems, neurons and neural circuits. Coordination of movement. Development of nervous systems. Vision, hearing, and feature extraction by the central nervous system. The cell biology of learning and memory. Perception, cognition, and disorders of the brain. Not open for credit to students who have completed NPB 110B, NPB 112, NPB 160, NPB 161 or NPB 162, or NSC 221 or NSC 222. GE credit: QL, SE. Effective: 2018 Spring Quarter.

NPB 100L—Neurobiology Laboratory (3)

Lecture—1 hour(s); Laboratory—3 hour(s); Extensive Writing/Discussion. Prerequisite(s): NPB 100 (can be concurrent) or NPB 110B (can be concurrent). Experimental basis of neurobiology principles discussed in NPB 100. Topics include neurophysiology, sensory systems, motor systems, cellular neuroscience, cognitive neuroscience, and quantitative data analysis and modeling techniques. GE credit: SE. Effective: 2017 Winter Quarter.

NPB 100Q—Quantitative Foundations of Neurobiology (1)

Auto Tutorial—1.5 hour(s); Extensive Problem Solving—1.5 hour(s). Prerequisite(s): NPB 100 (can be concurrent). Computational methods and mathematical models used to study phenomena in neurobiology. GE credit: QL, VL. Effective: 2010 Spring Quarter.

NPB 101—Systemic Physiology (5)

Lecture—5 hour(s). Prerequisite(s): BIS 002A; (CHE 002B or CHE 002BH); PHY 001B or PHY 007C strongly recommended. Systemic physiology with emphasis on aspects of human physiology. Functions of major organ systems, with the structure of those systems described as a basis for understanding the functions. Not open for credit to students who have completed NPB 110C. GE credit: SE. Effective: 2019 Winter Quarter.

NPB 101D—Systemic Physiology Discussion (1.5)

Discussion—1.5 hour(s). Prerequisite(s): NPB 101 (can be concurrent); Consent of Instructor. Discussion and problem solving related to fundamental principles of systemic physiology as presented in NPB 101. (P/NP grading only.) Effective: 2017 Spring Quarter.

NPB 101L—Systemic Physiology Laboratory (3)

Laboratory—3 hour(s); Discussion—2 hour(s); Term Paper. Prerequisite(s): NPB 101 or NPB 110C. Selected experiments to illustrate functional characteristics of organ systems discussed in NPB 101. Effective: 2017 Winter Quarter.

NPB 102—Animal Behavior (3)

Lecture—3 hour(s). Prerequisite(s): (BIS 001A, BIS 001B, BIS 001C) or (BIS 002A, BIS 002B, BIS 002C). Basic principles of behavioral organization in vertebrate and invertebrate animals. Underlying physiological and ethological mechanisms. The evolution of behavior, with special emphasis on behavior under natural conditions. Not open for credit to students who have completed NPB 155. (Former NPB 155.). GE credit: SL. Effective: 2008 Fall Quarter.

NPB 102Q—Quantitative Topics in Animal Behavior (1)

Auto Tutorial—1.5 hour(s); Extensive Problem Solving—1.5 hour(s). Prerequisite(s): MAT 016B; NPB 102 (can be concurrent). Study of the quantitative concepts and exemplar models used in animal behavior. Effective: 2009 Spring Quarter.

NPB 103—Cellular Physiology/Neurobiology (3)

Lecture—3 hour(s). Prerequisite(s): (BIS 103 or BIS 105); BIS 104; PHY 007C recommended. Cellular physiology with emphasis on membrane transport processes and neuronal physiology. Fundamental physical-chemical and biological mechanisms of membrane transport will be considered in relation to cytoplasmic homeostasis, communication between cells, and the cellular mechanisms of sensory and motor transduction. Not open for credit to students who have completed NPB 100B. (Former NPB 100B.). Effective: 2008 Spring Quarter.

NPB 104L—Cellular Physiology/Neurobiology Laboratory (4)

Lecture—1 hour(s); Laboratory—3 hour(s); Discussion—1 hour(s); Term Paper/Discussion. Prerequisite(s): NPB 101L; (BIS 103 or BIS 105). Experiments in the physical and chemical processes of cells and tissues. Effective: 2018 Winter Quarter.

NPB 106—Experiments in Neurobiology, Physiology, & Behavior: Design & Execution (3)

Laboratory—7.5 hour(s); Discussion—0.5 hour(s). Prerequisite(s): (NPB 110A or NPB 100 or NPB 101 or NPB 102); NPB 199; and Consent of Instructor. Design and execution of experiments in neurobiology, physiology, and/or behavior. Choose and design a project in consultation with the sponsoring faculty member. May be repeated up to 1 time(s) to complete project; with consent of instructor. (P/NP grading only.) GE credit: OL, QL, VL, WE. Effective: 2018 Winter Quarter.

NPB 107—Cell Signaling in Health & Disease (3)

Lecture—3 hour(s). Prerequisite(s): BIS 102 or BIS 105. Basics of cell signaling pathways, their disruption in disease, and their current utility and future potential as therapeutic targets. Focus is on signaling pathways specific to nervous, endocrine and immune systems, and those fundamental to all cells. GE credit: SL. Effective: 2009 Winter Quarter.

NPB 108Y—Animal Behavior Laboratory (3)

Lecture—3 hour(s); Web Electronic Discussion—12 hour(s). Hybrid course, consisting of limited in-person lectures and the rest laboratory exercises. Laboratory exercises are online, and require students to view and score videos of animal behavior in order to test behavioral hypotheses. Effective: 2016 Summer Session 2.

NPB 109—Kinesiology: Analysis & Control of Human Movement (4)

Lecture—4 hour(s). Prerequisite(s): PHY 007A; PHY 007B; NPB 101 or NPB 110C recommended; CHA 101 & CHA 101L (Same as EXB 106 & EXB 106L) or equivalent recommended. Functional anatomy, motor control, and biomechanics of human movement understood in the context of body structures, basic principles of physics, and functional characteristics of muscle. GE credit: SE. Effective: 2018 Spring Quarter.

NPB 110A—Foundations 1: From Molecules to Individuals (5)

Lecture—4 hour(s); Discussion—1 hour(s). Prerequisite(s): (BIS 002A, BIS 002B); (CHE 002B or CHE 003A); PHY 007A and PHY 007B recommended; BIS 002C recommended. Pass One restricted to majors in Neurobiology, Physiology and Behavior. Major concepts in cell biology with special emphasis on connections between cell biology and behavior. Includes: cellular metabolism, cellular sensing and signaling, membrane structure-function, molecular switches, electrical and chemical signaling, endocrine signaling, cell cycle and differentiation, cytoskeleton, and integrative examples. May be taught abroad. Credit limited to 3 units for students who have taken BIS 104. GE credit: SE. Effective: 2018 Winter Quarter.

NPB 110B—Foundations 2: Neurobiology (5)

Lecture—4 hour(s); Discussion—1 hour(s). Prerequisite(s): NPB 110A C- or better; PHY 007A and PHY 007B recommended. Open to declared NPB majors only. Core concepts of neurobiology including single-neuron biophysics, synapses and transmitters, neuronal development, motor systems, central pattern generation, neuronal circuits, intracellular signal transduction, sensory processing, multisensory integration, autonomic nervous system, neuromodulation, learning and memory, and higher cognition and disease. Credit limited to 2 units for students who have taken NPB 100. GE credit: SE. Effective: 2017 Winter Quarter.

NPB 110C—Foundations 3: Physiology (5)

Lecture—4 hour(s); Discussion—1 hour(s). Prerequisite(s): NPB 110A C- or better; PHY 007A; PHY 007B and PHY 007C recommended. Open to declared NPB majors only. Focuses on the structure, function, and interactions of human and other animal organ systems in homeostasis and reproduction, and the response to perturbations of homeostasis; neural and endocrine signaling; skeletal muscle and movement; cardiovascular and respiratory systems; renal, digestive, immune, and reproductive physiology. Only 2 units for students who have taken NPB 101. GE credit: SE. Effective: 2019 Winter Quarter.

NPB 111L—Advanced Systemic Physiology Laboratory (4)

Lecture—1 hour(s); Discussion—2 hour(s); Laboratory—6 hour(s); Term Paper. Prerequisite(s): NPB 101L. Selected comprehensive experiments in the autonomic nervous system and the cardiovascular, respiratory, and neuromuscular systems. Emphasis on conceptual and methodological approaches in demonstrating the physiology of organ systems. Effective: 2018 Winter Quarter.

NPB 113—Cardiovascular, Respiratory, & Renal Physiology (4)

Lecture—4 hour(s). Prerequisite(s): (NPB 110C or NPB 101); CHE 008B, PHY 007B and PHY 007C recommended. Intense and advanced presentation of concepts in cardiovascular, respiratory, and renal physiology including discussion of acid-base balance. Effective: 2018 Winter Quarter.

NPB 114—Gastrointestinal Physiology (3)

Lecture—3 hour(s). Prerequisite(s): (NPB 110C or NPB 101); BIS 105 or BIS 103 recommended, BIS 105 preferred. Gastrointestinal anatomy and physiology. Digestion, secretion, absorption, motility, comparative physiology and pathology. Strong emphasis on neural and hormonal regulation and on cellular mechanisms of secretion and absorption. Effective: 2018 Winter Quarter.

NPB 116—Stress Physiology in Health & Disease (3)

Lecture—3 hour(s). Prerequisite(s): BIS 002A C- or better; or Consent of Instructor. Adaptive and maladaptive physiological responses to acute and chronic stress in mammals, with emphasis on humans. Role of endocrine and autonomic nervous system in stress response. Prenatal and postnatal effects of stress on cognitive and affective development. Wellness interventions. Effective: 2019 Winter Quarter.

NPB 117—Avian Physiology (3)

Lecture—3 hour(s). Prerequisite(s): (BIS 002A, BIS 002B); CHE 002B; NPB 101 or NPB 110C strongly recommended. Physiology of the various systems of birds with emphasis on digestion, respiration, excretion, and endocrine systems. Effective: 2018 Spring Quarter.

NPB 121—Physiology of Reproduction (4)

Lecture/Discussion—4 hour(s). Prerequisite(s): NPB 101 or NPB 110C or ANS 100. Physiological mechanisms related to reproduction, breeding efficiency and fertility, with special reference to domestic animals. GE credit: QL, SL. Effective: 2018 Spring Quarter.

NPB 121L—Physiology of Reproduction Laboratory (1)

Laboratory—3 hour(s). Prerequisite(s): NPB 121 (can be concurrent). Experiments on the reproductive systems of domestic animals including male and female gametes. (P/NP grading only.) Effective: 2017 Spring Quarter.

NPB 122—Developmental Endocrinology (3)

Lecture—3 hour(s). Prerequisite(s): NPB 101. Restricted to upper division standing. Hormonal control of development, maturation and senescence from the cellular to organismal level, with emphasis on the human. Prenatal and neonatal life, childhood and adolescence, adulthood and pregnancy, as well as the endocrinology of aging. Effective: 2003 Spring Quarter.

NPB 123—Comparative Vertebrate Organology (4)

Lecture—3 hour(s); Laboratory—3 hour(s). Prerequisite(s): (BIS 001A, BIS 001B) or (BIS 002A, BIS 002B). Functional anatomy of major organ systems in vertebrates. Each system examined from cellular to gross level in fish, birds, and mammals. Emphasis on how differentiated cell types are integrated into tissues and organs to perform diverse physiological functions. (Same course as APC 100.) Effective: 2008 Winter Quarter.

NPB 124—Comparative Neuroanatomy (3)

Lecture—3 hour(s). Prerequisite(s): NPB 101 or NPB 100 or NPB 110B or PSC 121. Overview of the neuroanatomy in mammalian vertebrates, focusing on the cerebral cortex and experimental techniques. Examine changes or modifications to neural structures as a result of morphological or behavioral specializations. (Same course as PSC 124.) Effective: 2018 Fall Quarter.

NPB 124L—Comparative Neuroanatomy Laboratory (2)

Laboratory—6 hour(s). Prerequisite(s): NPB 124 (can be concurrent). Pass One restricted to PSC and NPB majors; must be concurrently enrolled in NPB 124. Comparative neuroanatomy laboratory illustrating modern neuroanatomical techniques in determining neural connections within the mammalian brain. Includes experimentation and presentation of results. (Same course as PSC 124L.) Effective: 2018 Fall Quarter.

NPB 126—Comparative Physiology: Sensory Systems (3)

Lecture—3 hour(s). Prerequisite(s): NPB 100 or NPB 101. Basic physiological mechanisms involved in sensory systems. Comparative approach to considerations of mechanosensitive systems (audition, lateral lines, touch, echolocation, equilibrium), chemosensitive systems (olfaction, taste, pheromones), photosensitive systems (vision, infrared detection, UV detection), electroreception, and pain. Emphasis on receptors. Effective: 1997 Winter Quarter.

NPB 128—Comparative Physiology: Endocrinology (3)

Lecture—3 hour(s). Prerequisite(s): NPB 101. Comparison of physiological functions in the animal kingdom: animal hormones and their functions. Effective: 1997 Winter Quarter.

NPB 130—Physiology of the Endocrine Glands (4)

Lecture—4 hour(s). Prerequisite(s): (ANS 100 or NPB 101 or NPB 110C). Advanced presentation of concepts in endocrinology with emphasis on the role of hormones in reproduction, metabolism, and disease. GE credit: VL. Effective: 2020 Winter Quarter.

NPB 132—Nature vs. Nurture: Physiological Interactions Among Genes, Nutrients & Health (3)

Lecture—3 hour(s). Prerequisite(s): BIS 001A or BIS 002A; or Consent of Instructor. Biochemical, physiological, genetic, and nutritional causes of important medical problems such as obesity, anorexia, heart disease and diabetes. Only 1 unit of credit allowed to students who have completed NPB 131. Effective: 2008 Fall Quarter.

NPB 133—Genes & the Brain (4)

Lecture—4 hour(s). Prerequisite(s): NPB 110B or NPB 100; or Consent of Instructor. BIS 101 recommended. Genetic contributions to brain evolution, development and disorders. Topics include evolution of genomic programs of neurodevelopment and the role of genetics in autism, intellectual disability, and schizophrenia. GE credit: SE. Effective: 2018 Fall Quarter.

NPB 134—General Immunology for Physiologists (3)

Lecture—2 hour(s); Lecture/Discussion—1 hour(s). Prerequisite(s): NPB 101 C- or better or NPB 110C C- or better; or Consent of Instructor. Immunology for undergrads interested in physiology aimed at understanding the physiological role of immune responses. Illustrated with examples of human diseases including diabetes, allergies and asthma, and emerging diseases such as Ebola and Zika. GE credit: SE. Effective: 2017 Fall Quarter.

NPB 139—Frontiers in Physiology (3)

Lecture—2 hour(s); Discussion—1 hour(s). Prerequisite(s): NPB 100; NPB 101; NPB 102 (can be concurrent). Lectures by leading authorities and discussion of the latest research in newly emerging areas in physiology. Offered every fourth year. GE credit: QL, SE. Effective: 2010 Fall Quarter.

NPB 140—Principles of Environmental Physiology (3)

Lecture—3 hour(s). Prerequisite(s): NPB 101 or NPB 110C; BIS 102 recommended. Physiological aspects of interactions of organisms and environmental, cellular, system, and organismal levels. Emphasis on regulatory responses/mechanisms to thermal, pressure, gravity and light environmental variables. Not open for credit to students who have completed NPB 148. (Former NPB 148.). GE credit: WE. Effective: 2018 Fall Quarter.

NPB 141—Physiological Adaptation of Marine Organisms (3)

Lecture—2 hour(s); Laboratory—3 hour(s). Prerequisite(s): Consent of Instructor. Upper division standing; residence at Bodega Marine Laboratory required. Students must submit application available at <http://www.bml.ucdavis.edu>. Physiological adaptation to the environment among organisms in marine and estuarine habitats. GE credit: QL, VL, WE. Effective: 2006 Summer Session 1.

NPB 141P—Physiological Adaptation of Marine Organisms/Advanced Laboratory Topics (5)

Laboratory—12 hour(s); Discussion—1 hour(s). Prerequisite(s): NPB 141 (can be concurrent); Residence at Bodega Marine Laboratory required; NPB 141 required concurrently. Students must submit application available at <http://www.bml.ucdavis.edu>. Training in scientific research from hypothesis to publication, including methods of library research. Research related to a topic covered in NPB 141. GE credit: VL, WE. Effective: 2006 Spring Quarter.

NPB 142—Environmental Endocrinology: Mechanisms for Life Cycles (3)

Lecture—3 hour(s). Prerequisite(s): BIS 002A; BIS 002B; BIS 002C. Effects of environmental factors on endocrine responses that affect vertebrate life history and fitness. Introduction to finite state machine theory and allostasis in life histories and coping strategies. Focus on life history stages including non-breeding, hibernation, reproduction, migration and moult. GE credit: SE, WE. Effective: 2015 Winter Quarter.

NPB 150—Advanced Animal Behavior (4)

Lecture—3 hour(s); Laboratory—3 hour(s). Prerequisite(s): NPB 102 or PSC 101; or Consent of Instructor. Advanced integrative survey of biological principles of behavioral organization, emphasizing historical roots, current research directions, conceptual issues and controversies. Laboratory exercises on the description and analysis of the behavior of captive and free-living animals. (Same course as PSC 122.) Effective: 2018 Winter Quarter.

NPB 152—Hormones & Behavior (3)

Lecture—3 hour(s). Prerequisite(s): (NPB 101 or NPB 110C); (NPB 102 or PSC 101). Endocrine physiology with an emphasis on the principles of behavior. Fundamental relationships between hormones and various behaviors engaged in by the organism during its lifetime. Role of hormones in behavioral homeostasis, social behavior, reproductive behavior, parental behavior, adaptation to stress. (Same course as PSC 123.) Effective: 2018 Winter Quarter.

NPB 157—Advanced Physiology of Animal/Human Disease (3)

Lecture—1 hour(s); Lecture/Discussion—2 hour(s). Prerequisite(s): NPB 101 B+ or better or NPB 110C B+ or better; Consent of Instructor. Limited to 35 students initially. Centers on fundamental mechanisms and pathophysiological basis for animal and human diseases. Case-based and uses animal and human diseases to help exemplify the physiological consequences of organ dysfunction. (Same course as HPH 157.) Effective: 2017 Spring Quarter.

NPB 159—Frontiers in Behavior (3)

Lecture—2 hour(s); Discussion—1 hour(s). Prerequisite(s): (NPB 100, NPB 101, NPB 102) or (NPB 110A, NPB 110B, NPB 110C). Lectures by leading authorities and discussion of the latest research in newly emerging areas in behavioral biology. Offered every fourth year. GE credit: QL, SE. Effective: 2019 Spring Quarter.

NPB 161—Developmental Neurobiology (3)

Lecture—3 hour(s). Prerequisite(s): NPB 100 or NPB 101 or NPB 110B. Issues, theoretical concepts, and methodologies in developmental neurobiology. Topics include prenatal and postnatal differentiation of neurons, and plasticity in the mature and aging brain. Integration of neurochemical, structural, physiological and behavioral perspectives. GE credit: SE. Effective: 2018 Winter Quarter.

NPB 162—Neural Mechanisms of Behavior (3)

Lecture—3 hour(s). Prerequisite(s): NPB 100 or NPB 101 or NPB 110B. Relationship between brain and behavior. Identification and analysis of the relevant neural circuits involved. Examples of systems to be considered are birdsong, locomotion, echolocation. Effective: 2018 Winter Quarter.

NPB 163—Systems Neuroscience (4)

Lecture—3 hour(s); Lecture/Discussion—1 hour(s). Prerequisite(s): NPB 100 or NPB 110B; Or equivalent basic neuroscience training with consent of instructor. Concepts and techniques in systems neuroscience: e.g., measuring and manipulating neural activity, structure of neocortex, sensory processing, motor control, storage of information, neural codes, neural mechanisms underlying cognitive functions. GE credit: SE. Effective: 2017 Spring Quarter.

NPB 164—Mammalian Vision (4)

Lecture—3 hour(s); Discussion—1 hour(s). Prerequisite(s): NPB 100 or NPB 110B or PSC 101. Structure and function of the mammalian visual system, from the formation of images on the retina through visually guided behavior and perception. Emphasis on biological mechanisms underlying vision. Effective: 2017 Spring Quarter.

NPB 165—Neurobiology of Speech Perception (3)

Lecture—3 hour(s). Prerequisite(s): NPB 110B or NPB 100 or NPB 101; or Consent of Instructor. Interdisciplinary approach to speech perception with emphasis on functional neuroanatomy and behavior. Topics include auditory processing in time and space, intelligibility in noisy environments, visual speech, evolution of vocal communication, models of speech perception, development, and hearing impairment. GE credit: SL. Effective: 2018 Winter Quarter.

NPB 166—Math Tools for Neuroscience (4)

Lecture—4 hour(s). Prerequisite(s): (NPB 100 or NPB 110B); (MAT 016A, MAT 016B, MAT 016C) or (MAT 017A, MAT 017B, MAT 017C) or (MAT 021A, MAT 021B, MAT 021C); or Consent of Instructor. Introduction to mathematics techniques used in neuroscience. Applications to neuroscience of differential equations, linear algebra, Fourier transforms, correlation and convolution, and probability theory. GE credit: QL. Effective: 2018 Winter Quarter.

NPB 167—Computational Neuroscience (5)

Lecture—4 hour(s); Lecture/Lab—3 hour(s). Prerequisite(s): (NPB 100 or NPB 110B); (MAT 016A, MAT 016B, MAT 016C) or (MAT 017A, MAT 017B, MAT 017C) or (MAT 021A, MAT 021B, MAT 021C); or Consent of Instructor. PHY 007A, PHY 007B or equivalent recommended. Mathematical models and data analysis techniques used to describe computations performed by nervous systems. Lecture topics include single neuron biophysics, neural coding, network dynamics, memory, plasticity, and learning. Lab topics include programming mathematical models and data analysis techniques in MATLAB. GE credit: QL, SE. Effective: 2018 Winter Quarter.

NPB 168—Neurobiology of Addictive Drugs (4)

Lecture/Discussion—4 hour(s). Prerequisite(s): NPB 100 or NPB 110B or NPB 110C or NPB 101; Or equivalents. Neurobiological basis for the effects and mechanisms of action of drugs with addictive potential, including opiates (morphine, heroin, methadone), amphetamines, cocaine, nicotine, marijuana (cannabinoids), alcohol, caffeine, and mind-altering drugs such as LSD and antidepressants. GE credit: SL, VL. Effective: 2018 Winter Quarter.

NPB 169—Frontiers in Neurobiology (3)

Lecture—2 hour(s); Discussion—1 hour(s). Prerequisite(s): NPB 100; NPB 101; NPB 102 (can be concurrent). Lectures by leading authorities and discussion of the latest research in newly emerging areas in neurobiology. Offered every fourth year. GE credit: QL. Effective: 2010 Fall Quarter.

NPB 171—Physiology of Neuroimmune Interactions (4)

Lecture—3 hour(s); Lecture/Discussion—1 hour(s). Prerequisite(s): BIS 002A; (NPB 012 (can be concurrent) or NPB 100 (can be concurrent) or NPB 110B (can be concurrent)); or Consent of Instructor. Completion of PMI 126 or MMI 188 recommended prior to this course. Explores the complex interactions of the nervous and immune systems, and examine how the systems function together to serve homeostasis, behavior, and disease (such as Alzheimer's, autism, and multiple sclerosis). GE credit: SL. Effective: 2017 Fall Quarter.

NPB 172—Map Formation in the Brain (3)

Lecture—3 hour(s). Prerequisite(s): NPB 100 C- or better or NPB 110B C- or better; or equivalent basic neuroscience training with consent of instructor. Topographic map connection is a fundamental principle for establishing neural network in the brain. Provides comprehensive understanding of the current concepts of map formation in various sensory and motor nervous systems. GE credit: SE. Effective: 2017 Spring Quarter.

NPB 173—Neurobiology of Brain Disorders (3)

Lecture—3 hour(s). Prerequisite(s): NPB 110B or NPB 100; or Consent of Instructor. Examination of brain disorders from a basic science perspective to gain insights into the mechanisms of their action. Genetic, molecular, cellular, circuit, and environmental basis of a variety of brain disorders. How insights about underlying mechanisms may lead to the development of improved therapies. Effective: 2018 Spring Quarter.

NPB 190C—Research Conference (1)

Discussion—1 hour(s). Prerequisite(s): NPB 199 (can be concurrent); and Consent of Instructor. Upper division standing in Neurobiology, Physiology, and Behavior or related biological science; NPB 199 required concurrently. Research findings and methods in neurobiology, physiology, and/or behavior. Presentation and discussion of research by faculty and students. May be repeated for credit. (P/NP grading only.) Effective: 1999 Spring Quarter.

NPB 192—Internship (1-12)

Internship—3-36 hour(s). Prerequisite(s): Consent of Instructor. Completion of 84 units. Work experience off and on campus in all subject areas offered in neurobiology, physiology, & behavior. May be repeated for credit. (P/NP grading only.) Effective: 2008 Fall Quarter.

NPB 194HA—Neurobiology, Physiology, & Behavior: Honors (1)

Laboratory—12 hour(s). Prerequisite(s): Senior standing; minimum 3.500 GPA in courses counted toward major; approval by the master advisor. Honors project in Neurobiology, Physiology, and Behavior. Laboratory research on a specific question. Project is developed with the sponsoring faculty member and approved by the student's Honors Thesis Committee. Honors thesis to be submitted upon completion of the project. (P/NP grading only.) Effective: 1997 Winter Quarter.

NPB 194HB—Neurobiology, Physiology & Behavior: Honors (4)

Laboratory—12 hour(s). Prerequisite(s): Senior standing; minimum 3.500 GPA in courses counted toward major; approval by the master advisor. Honors project in Neurobiology, Physiology, and Behavior. Laboratory research on a specific question. Project is developed with the sponsoring faculty member and approved by the student's Honors Thesis Committee. Honors thesis to be submitted upon completion of the project. (P/NP grading only.) Effective: 2003 Spring Quarter.

NPB 194HC—Neurobiology, Physiology, & Behavior: Honors (2)

Laboratory—12 hour(s). Prerequisite(s): Senior standing; minimum 3.500 GPA in courses counted toward major; approval by the master advisor. Honors project in Neurobiology, Physiology, and Behavior. Laboratory research on a specific question. Project is developed with the sponsoring faculty member and approved by the student's Honors Thesis Committee. Honors thesis to be submitted upon completion of the project. (P/NP grading only.) Effective: 1997 Winter Quarter.

NPB 197T—Tutoring in Neurobiology, Physiology, & Behavior (1-5)

Discussion—2-6 hour(s). Prerequisite(s): Consent of Instructor. Upper division standing. Assisting the instructor by tutoring students in one of the Department's regular courses. May be repeated for credit. (P/NP grading only.) Effective: 2008 Fall Quarter.

NPB 198—Directed Group Study (1-5)

Variable. Directed group study. May be taught abroad. (P/NP grading only.) Effective: 1997 Winter Quarter.

NPB 199—Special Study for Advanced Undergraduates (1-5)

Variable. Prerequisite(s): Consent of Instructor. (P/NP grading only.) Effective: 1997 Winter Quarter.

NPB 211—Advanced Topics in Neuroimaging (3)

Seminar—2 hour(s); Laboratory—1 hour(s). Prerequisite(s): PSC 210; or Consent of Instructor. Restricted to 16 students. Critical presentation and discussion of the most influential advanced issues in neuroimaging, emphasizing fMRI design/analysis and the integration of fMRI with EEG/MEG. May be repeated for credit when topic differs. (Same course as NSC 211, PSC 211.) (S/U grading only.) Effective: 2017 Spring Quarter.

NPB 212—Light & Fluorescence Microscopy (3)

Lecture—2 hour(s); Laboratory—1 hour(s). Prerequisite(s): Consent of Instructor. Restricted to 16 students. Theory and practical application of light and fluorescence microscopy in the biological sciences. Laboratory component focuses on an optics bench, where we build simple compound and confocal microscopes on an optical rail. Effective: 2017 Spring Quarter.

NPB 217—Advanced Avian Physiology (1)

Project (Term Project)—1 hour(s). Prerequisite(s): NPB 117; and Consent of Instructor. Graduate standing; NPB 117 required concurrently. Study in depth of a topic in avian physiology through development of a lecture with associated instructional materials such as lesson plan, readings, presentation, and evaluation aids. Effective: 2009 Summer Session 1.

NPB 221—Cellular Neuroscience (4)

Lecture—3 hour(s); Discussion—1.5 hour(s). Advanced course on cellular and subcellular organization of the nervous system. Membrane channels, sensory transduction, synaptic transmission and cellular aspects of development and learning. Effective: 2015 Winter Quarter.

NPB 222—Systems Neuroscience (5)

Lecture—4 hour(s); Discussion—1 hour(s). Prerequisite(s): Graduate standing or consent of instructor. Integrative and information-processing aspects of nervous system organization. Topics include sensory systems, motor function, sensorimotor integration, the limbic system, and the neurobiology of learning and memory. (Same course as NSC 222.) Effective: 2002 Winter Quarter.

NPB 245—Computational Models of Cellular Signaling (3)

Lecture—3 hour(s). Prerequisite(s): Consent of Instructor. Computational and mathematical techniques in modeling of regulatory and signaling phenomena in neurobiology and cell physiology, focusing on linear and nonlinear ordinary differential equation models. Applications include ion channel kinetics, electrical activity, signal transduction, calcium oscillations, and simple neural circuits. Effective: 1997 Winter Quarter.

NPB 247—Topics in Functional Neurogenomics (2)

Lecture—1 hour(s); Discussion—1 hour(s). Prerequisite(s): Graduate standing or consent of instructor. The theory, methods and principles of functional neurogenomics with emphasis on the relationship to molecular mechanisms involved in development and disease of the nervous system. (Same course as NSC 247.) Effective: 2003 Spring Quarter.

NPB 261A—Topics in Vision: Eyes & Retinal Mechanisms (2)

Lecture/Discussion—2 hour(s). Prerequisite(s): NPB 100 or NPB 112; Or the equivalent; graduate standing. Structure and function of the visual system, with emphasis on the eye and retina, including optics, anatomy, transduction, retinal synapses, adaptation, and parallel processing. (Same course as NSC 261A, MCP 261A.) (S/U grading only.) Effective: 2004 Winter Quarter.

NPB 261B—Topics in Vision: Systems, Psychophysics, Computational Models (2)

Lecture/Discussion—2 hour(s). Prerequisite(s): Consent of Instructor. NPB 261A recommended. Functions of the central visual pathways and their underlying mechanisms. Recent research on aspects of anatomy, biochemistry, electrophysiology, psychophysics, development, and genetics of the visual system. (Same course as NSC 261B, MCP 261B.) (S/U grading only.) Effective: 2004 Winter Quarter.

NPB 261C—Topics in Vision: Clinical Vision Science (2)

Lecture/Discussion—2 hour(s). Prerequisite(s): NPB 261A; NPB 261B; or Consent of Instructor. Causes and mechanistic bases of major blinding diseases. Recent research on aspects of anatomy, biochemistry, electrophysiology, psychophysics, development, and genetics of the visual system related to disease. (Same course as NSC 261C, MCP 261C.) (S/U grading only.) Effective: 2005 Spring Quarter.

NPB 263—Modeling in Systems Neuroscience (4)

Lecture—3 hour(s); Lecture/Lab—1 hour(s). Prerequisite(s): Consent of Instructor. Modeling as a tool in systems neuroscience. Mathematical techniques will be introduced and used to explore advanced topics in echolocation, sound localization, electroreception, communications, and motor systems. Other topics include transforms, modeling assumptions, scales and linearity. Effective: 1997 Winter Quarter.

NPB 267—Computational Neuroscience (5)

Lecture—4 hour(s); Lecture/Lab—3 hour(s). Prerequisite(s): One course in general Neuroscience at the level of NPB 100 or NPB 110B; one year college-level Calculus at the level of MAT 016A, MAT 016B, MAT 016C or higher; one year Physics at the level of PHY 007A, PHY 007B, PHY 007C recommended; or Consent of Instructor. Mathematical models and data analysis techniques used to describe computations performed by nervous systems. Lecture topics include single-neuron biophysics, neural coding, network dynamics, memory, plasticity, and learning. Lab topics include programming mathematical models and data analysis techniques in MATLAB. (Same course as NSC 267.) Effective: 2018 Winter Quarter.

NPB 270—How to Write a Fundable Grant Proposal in the Biomedical Sciences (2)

Lecture/Discussion—2 hour(s). Prerequisite(s): Consent of Instructor. Restricted to members of the Neuroscience and BMCDB graduate groups; graduate students in other biomedical programs may enroll with instructor permission. Teaches the do's and don'ts of writing grants in the biomedical sciences and the mechanisms of the review process. May be repeated for credit. (Same course as NSC 270.) Effective: 2016 Spring Quarter.

NPB 271A—Core Concepts & Methods in Learning, Memory, & Plasticity (2)

Lecture/Discussion—2 hour(s). Prerequisite(s): Graduate Standing or Consent of Instructor. Core concepts and methods used in studies of learning, memory and plasticity. Behavioral paradigms and measurement approaches in human and animal studies of learning and plasticity, as well as a consideration of the functional, anatomical and neuronal mechanisms underlying brain plasticity. (Same course as PSC 271A, NSC 271A.) (S/U grading only.) Effective: 2019 Fall Quarter.

NPB 271B—Core Concepts & Methods in Learning, Memory, & Plasticity (2)

Lecture/Discussion—2 hour(s). Prerequisite(s): NPB 271A or NSC 271A or PSC 271A. Core concepts and detailed survey methods used in studies of learning, memory and plasticity, from the cellular and molecular level to the level of neural circuits. Areas of learning, memory, and plasticity research where recent progress has been made in linking across these levels of analysis. (Same course as PSC 271B, NSC 271B.) (S/U grading only.) Effective: 2020 Winter Quarter.

NPB 271C—Translational Approaches to Learning, Memory, & Plasticity Disorders (2)

Lecture/Discussion—2 hour(s). Prerequisite(s): NPB 271B or NSC 271B or PSC 271B. Neurological disorders, the effect of these disorders on learning, memory and plasticity, approved therapeutic options and current research designed to improve understanding and treatment of these diseases: (i) the clinical presentation, diagnostic criteria, and existing therapies, (ii) mechanistic studies in humans and animal models, and (iii) molecular pathways involved in the disease and approaches for drug discovery. (Same course as PSC 271C, NSC 271C.) (S/U grading only.) Effective: 2020 Spring Quarter.

NPB 285—Literature in Visual Neuroscience (2)

Seminar—2 hour(s). May be repeated for credit. (Same course as NSC 285.) (S/U grading only.) Effective: 2008 Fall Quarter.

NPB 287A—Topics in Theoretical Neuroscience (2)

Lecture/Discussion—2 hour(s). Prerequisite(s): Consent of Instructor. In-depth exploration of topics in theoretical neuroscience. Topic varies each year. Fall quarter (287A): foundational material from books and review articles. Spring quarter (287B): continuation of year's topic through readings of seminal articles from the primary literature. May be repeated for credit. (Same course as NSC 287A.) (S/U grading only.) Effective: 2017 Spring Quarter.

NPB 287B—Topics in Theoretical Neuroscience (2)

Seminar—2 hour(s). Prerequisite(s): Consent of Instructor. In-depth exploration of topics in theoretical neuroscience. Topic varies each year. Fall quarter (287A): foundational material from books and review articles. Spring quarter (287B): continuation of year's topic through readings of seminal articles from the primary literature. May be repeated for credit. (Same course as NSC 287B.) (S/U grading only.) Effective: 2009 Spring Quarter.

NPB 291—Auditory Neuroscience (1)

Seminar—0.5 hour(s); Discussion—0.5 hour(s). Prerequisite(s): NPB 100 or NPB 112 or NSC 222; Or the equivalent. Exploration of various important aspects of auditory physiology, behavior and psychophysics through review of original literature. New topic each quarter. May be repeated for credit with consent of instructor. (S/U grading only.) Effective: 1998 Spring Quarter.

NRS—Nursing

Courses in NRS:

NRS 201—Health Status & Care Systems (4)

Lecture/Discussion—3 hour(s); Discussion/Laboratory; Project (Term Project). Prerequisite(s): Current enrollment in the Nursing Science and Health-Care Leadership graduate program or consent of instructor. Comparative health status data, major current health issues globally, nationally, regionally. Theoretical perspectives on social, political, economic determinants of health. Health-care systems examined, linked to data, and evaluated in regards to outcomes. Aging, rural, ethnic minority populations highlighted. Effective: 2010 Fall Quarter.

NRS 202—Implementation Science (4)

Lecture/Discussion—4 hour(s). Prerequisite(s): Current enrollment in the Nursing Science and Health-Care Leadership graduate program or consent of instructor. Change processes in health care from political, historic, economic and sociologic frameworks. Historic and current examples of transformative change in the health-care system. Skills for system transformation through health policy, practice, research and education are emphasized. Effective: 2010 Winter Quarter.

NRS 203—Leadership in Health Care (4)

Lecture/Discussion—3 hour(s); Fieldwork. Prerequisite(s): Current enrollment in the Nursing Science and Health-Care Leadership graduate program or consent of instructor. Critical examination of leadership from a variety of theoretical and philosophical perspectives and focuses on specific challenges in health care and leadership at various levels, e.g., patient, organizational, and policy levels. Effective: 2010 Fall Quarter.

NRS 204—Research Skills for Nursing Science & Health-Care Leadership (4)

Lecture/Discussion—3 hour(s); Discussion/Laboratory—1 hour(s). Prerequisite(s): Current enrollment in the Nursing Science and Health-Care Leadership graduate program or consent of instructor. Foundation for analyzing research, health, and systems data to answer clinical, systems, or policy questions. Use and examine multiple sources of data and information as a basis for planned change and transformation in health care. Effective: 2014 Winter Quarter.

NRS 205—Research Design in Nursing & Health Care (4)

Lecture/Discussion—4 hour(s). Prerequisite(s): Current enrollment in the Nursing Science and Health-Care Leadership graduate program or consent of instructor. Major types of quantitative and qualitative research design and their application to nursing and health-care research. Implications of choosing alternative research designs and critical analysis of philosophical underpinnings. Evaluation of control and validity, sampling, instruments to measure health concepts. Effective: 2010 Fall Quarter.

NRS 205A—Overview of Research in Nursing Science & Health Care (2)

Lecture—2 hour(s). Prerequisite(s): Consent of Instructor. Open to graduate students in the Nursing Science and Health-Care Leadership Graduate Degree programs or by consent of instructor. Provides an overview of quantitative and qualitative paradigms in scientific inquiry and the major designs related to each paradigm. First of a three-course series on research design and methods in nursing science and healthcare research. Effective: 2015 Fall Quarter.

NRS 205B—Quantitative Research in Nursing Science & Health Care (4)

Lecture—4 hour(s). Prerequisite(s): Consent of Instructor. Open to graduate students in the Nursing Science and Health-Care Leadership Graduate Degree programs or by consent of instructor. Introduces principles of quantitative data collection and analysis as applied to major study designs in nursing and health-care research. Provides a basic foundation for producing, interpreting, and applying quantitative research findings to answer clinical, system, and policy questions. Effective: 2015 Fall Quarter.

NRS 205C—Qualitative Research in Nursing Science & Health Care (4)

Lecture—4 hour(s). Prerequisite(s): Consent of Instructor. Restricted to current Ph.D. students in NSHL program or consent of instructor. Introduces principles of qualitative data collection and analysis as applied to major study designs in nursing and health-care research. Provides a basic foundation for producing, interpreting, and applying qualitative research findings to answer clinical, system, and policy questions. Effective: 2015 Fall Quarter.

NRS 206—Community Connections (2-5)

Variable—6 hour(s). Prerequisite(s): Current enrollment in the Nursing Science and Health-Care Leadership graduate program or consent of instructor. Open to NSHL MS students only. Community-based learning and experiences including community participation, assessment, data collection and analysis using multiple approaches, community health improvement projects, collaborative leadership practice, all with the guidance of community members and nursing faculty. May be repeated for credit. (S/U grading only.) Effective: 2010 Fall Quarter.

NRS 210Y—Applied Health Informatics (4)

Lecture/Discussion—1 hour(s); Web Virtual Lecture—3 hour(s). Prerequisite(s): Consent of Instructor. Open to current student in NSHL graduate programs or consent of instructor. Within the conceptual framework of the Foundation of Knowledge model, integrates nursing science, information science, computer science and cognitive science to acquire, process, generate and disseminate knowledge. Effective: 2014 Winter Quarter.

NRS 211Y—Rural Health (2-3)

Lecture/Discussion—2 hour(s); Fieldwork—1 hour(s). Prerequisite(s): Consent of Instructor. Open to graduate students in the Nursing Science and Health-Care Leadership Graduate Degree programs or by consent of instructor. Interprofessional graduate course provides an introduction to rural health theory, research, policy, and practice, with an emphasis on rural health assets and disparities. Effective: 2015 Spring Quarter.

NRS 212—Technology & Innovations in Health Care (2)

Lecture/Discussion—2 hour(s). Prerequisite(s): Consent of Instructor. Open to graduate students in the Nursing Science and Health-Care Leadership Graduate Group or by consent of the instructor. Multidisciplinary approach to stimulate new thinking in the practice, process, and delivery of health care. Focus on improving overall health outcomes. Effective: 2017 Winter Quarter.

NRS 213—Race & Health in the United States (3)

Seminar—7.5 hour(s). Prerequisite(s): Consent of Instructor. Open to all Nursing Science and Health-Care Leadership graduate students or consent of instructor only. Race as a social construct and unequal health care distribution in the United States. Practical health care leadership to end racial inequalities in health. Effective: 2018 Fall Quarter.

NRS 220—Social, Cultural, & Behavioral Determinants of Health (2)

Lecture/Discussion—2 hour(s). Prerequisite(s): Consent of Instructor. Open to graduate students in the Nursing Science and Health-Care Leadership Graduate Group or by consent of the instructor. Effects of globalization, political systems, local and global economies, culture, race, class, gender, and sexuality on population health. Effective: 2016 Summer Quarter.

NRS 221—Biophysical Concepts in Nursing (3)

Lecture/Discussion—3 hour(s). Prerequisite(s): Consent of Instructor. Open to graduate students in the Nursing Science and Health-Care Leadership Graduate Group or by consent of the instructor. Pathophysiological processes that contribute to different disease states across the lifespan; case studies; selective clinical decisions using current, reliable sources of pathophysiology information. Effective: 2016 Summer Quarter.

NRS 222A—Research Quality Improvement & Evidence Based Practice (2)

Lecture/Discussion—2 hour(s). Prerequisite(s): Consent of Instructor. Open to graduate students in the Nursing Science and Health-Care Leadership Graduate Group or by consent of the instructor. Introduction to providing safe, competent and compassionate care in a highly technical and digital environment. Emphasis on safety, quality and research to clinical practice. Accessing and analyzing reliable sources of evidence for integration in care-plan. Effective: 2016 Summer Quarter.

NRS 222B—Research Quality Improvement & Evidence Based Practice (2)

Lecture/Discussion—2 hour(s). Prerequisite(s): Consent of Instructor. Open to graduate students in the Nursing Science and Health-Care Leadership Graduate Group or by consent of the instructor. Introduction to providing safe, competent and compassionate care in a highly technical and digital environment. Emphasis on safety, quality and research to clinical practice. Accessing and analyzing reliable sources of evidence for integration in care-plan. Effective: 2016 Fall Quarter.

NRS 223—Quality & Safety Education in Health Care (2)

Lecture/Discussion—2 hour(s). Prerequisite(s): NRS 221; NRS 272; NRS 273; NRS 420; NRS 421; NRS 422; NRS 423; NRS 425; Consent of Instructor. Open to graduate students in the Nursing Science and Health-Care Leadership Graduate Group or by consent of the instructor. Implementing best practices alongside technological tools and focusing on continuous quality improvement. Emphasis on providing safe, competent care in a highly technical and digital environment. Building capacity to apply concepts related to safety, quality and research to clinical practice. Effective: 2017 Spring Quarter.

NRS 224—Developing Future Nurse Leaders (2)

Lecture/Discussion—2 hour(s). Prerequisite(s): NRS 221; NRS 223; NRS 272; NRS 273; NRS 420; NRS 421; NRS 422; NRS 423; NRS 425; NRS 426; Consent of Instructor. Open to graduate students in the Nursing Science and Health-Care Leadership Graduate Group or by consent of the instructor. Develop skills around effective decision making, fiscal and environmental stewardship, initiating and maintaining effective working relationships, using mutually respectful communication and collaboration, care coordination, delegation and supervision. Emphasis on conflict resolution, leadership and interprofessional teamwork. Effective: 2017 Summer Quarter.

NRS 225—Professional Nursing Role Formation (3)

Lecture/Discussion—3 hour(s). Prerequisite(s): NRS 202; NRS 203; NRS 212; NRS 220; NRS 221; NRS 222A; NRS 222B; NRS 223; NRS 224; NRS 272; NRS 273; NRS 420; NRS 421; NRS 422; NRS 423; NRS 424; NRS 425; NRS 426; NRS 427; NRS 429A; NRS 429B; NRS 429C; NRS 429D; NRS 429E; Consent of Instructor. Open to graduate students in the Nursing Science and Health-Care Leadership Graduate Group or by consent of the instructor. Transition from nursing student to professional nurse. Focus on ethical comportment, professional values of social justice, autonomy, advocacy, altruism, human dignity, and integrity. Students must pass a mastery exit examination and complete a capstone project. Effective: 2017 Fall Quarter.

NRS 242A—Implementation Science for Clinicians (2)

Lecture/Discussion—2 hour(s). Prerequisite(s): Consent of Instructor. Open to graduate students in the Nursing Science and Health-Care Leadership Graduate Degree programs or by consent of instructor. Focuses on identification of relevant research or improvement questions specific to patient care and evaluating the pertinent research literature related to the implementation of evidence based care. First of a three-course series. Effective: 2014 Summer Quarter.

NRS 242B—Implementation Science for Clinicians (2)

Lecture/Discussion—2 hour(s). Prerequisite(s): Consent of Instructor. Open to graduate students in the Nursing Science and Health-Care Leadership Graduate Degree programs or by consent of instructor. Continuation of NRS 242A. Implementation Science for Clinicians, with a focus on implementing and evaluating a change. Effective: 2014 Summer Quarter.

NRS 242C—Implementation Science for Clinicians (2)

Lecture/Discussion—2 hour(s). Prerequisite(s): Consent of Instructor. Open to graduate students in the Nursing Science and Health-Care Leadership Graduate Degree programs or by consent of instructor. Advanced skills in application of implementation science into systems based practice and incorporating quality improvement and patient safety knowledge with particular focus on prevention of medical errors. Effective: 2014 Spring Quarter.

NRS 243A—Leadership in Professional Practice (2)

Lecture/Discussion—2 hour(s). Prerequisite(s): Consent of Instructor. Open to graduate students in the Nursing Science and Health-Care Leadership Graduate Degree programs or by consent of instructor. Critical examination of leadership using theoretical and philosophical perspectives with an applied approach applicable to clinical practice. Three-course series conducted across the first, third and eighth quarters. Effective: 2013 Summer Quarter.

NRS 243B—Leadership in Professional Practice (1)

Lecture/Discussion—1 hour(s). Prerequisite(s): Consent of Instructor. Open to graduate students in the Nursing Science and Health-Care Leadership Graduate Degree programs or by consent of instructor. Introduces professional role topics including history of the profession, the role in interprofessional teams and the health care system, transitioning to the role from other health professions, scope of practice, certification and licensure and professional organizations. Effective: 2014 Winter Quarter.

NRS 243C—Leadership in Professional Practice (1)

Lecture/Discussion—1 hour(s). Prerequisite(s): Consent of Instructor. Open to graduate students in the Nursing Science and Health-Care Leadership Graduate Degree programs or by consent of instructor. Expands upon the leadership role as it relates to their clinical practice and professional role. Professional role topics including: transitioning from student to practicing professional, scope of practice, the physician relationship, and more advanced concepts in ethics. Effective: 2014 Spring Quarter.

NRS 250—Foundations of Primary Health Care (7)

Lecture/Discussion—6 hour(s); Laboratory—3 hour(s). Prerequisite(s): Consent of Instructor. Open to graduate students in the Nursing Science and Health-Care Leadership Graduate Degree programs or by consent of instructor. Designed to promote the understanding and clinical application of human anatomy, physiology, histology, immunology and pathology. Effective: 2013 Summer Quarter.

NRS 251A—Primary Health Care (8)

Lecture/Discussion—8 hour(s). Prerequisite(s): Consent of Instructor. Open to graduate students in the Nursing Science and Health-Care Leadership Graduate Degree programs or by consent of instructor. Introduction to primary health care concepts essential to the care of common medical problems seen in primary care settings. Module content will focus on various organ systems and specialty areas. Effective: 2013 Fall Quarter.

NRS 251B—Foundations of Primary Health Care (8)

Lecture/Discussion—8 hour(s). Prerequisite(s): Consent of Instructor. Open to graduate students in the Nursing Science and Health-Care Leadership Graduate Degree programs or by consent of instructor. Introduction to primary health care concepts essential to the care of common medical problems seen in primary care settings. Effective: 2014 Winter Quarter.

NRS 251C—Primary Health Care (8)

Lecture/Discussion—8 hour(s). Prerequisite(s): Consent of Instructor. Open to graduate students in the Nursing Science and Health-Care Leadership Graduate Degree programs or by consent of instructor. Introduction to primary health care concepts essential to the care of common medical problems seen in primary care settings. Effective: 2014 Spring Quarter.

NRS 251D—Primary Health Care (6)

Lecture/Discussion—6 hour(s). Prerequisite(s): Consent of Instructor. Open to graduate students in the Nursing Science and Health-Care Leadership Graduate Degree programs or by consent of instructor. Introduction to primary health care concepts essential to the care of common medical problems seen in primary care settings. Effective: 2014 Summer Quarter.

NRS 260—Foundations of Behavioral Health (1)

Lecture/Discussion—1 hour(s). Prerequisite(s): Consent of Instructor. Open to graduate students in the Nursing Science and Health-Care Leadership Graduate Degree programs or by consent of instructor. Focuses on the spectrum of normal psychological development over the lifespan for children, adults and elders. Theories of stress and coping mechanism are presented as a framework for the assessment of individuals. Effective: 2013 Summer Quarter.

NRS 270—Foundations of Pharmacology (2)

Lecture/Discussion—1 hour(s); Laboratory—3 hour(s). Prerequisite(s): Consent of Instructor. Open to graduate students in the Nursing Science and Health-Care Leadership Graduate Degree programs or by consent of instructor. Introduction to the major concepts in pharmacology and relevant human physiology related to pharmacotherapeutics and toxicology. Effective: 2013 Summer Quarter.

NRS 271A—Pharmacology (2)

Lecture/Discussion—1 hour(s); Laboratory—3 hour(s). Prerequisite(s): Consent of Instructor. Open to graduate students in the Nursing Science and Health-Care Leadership Graduate Degree programs or by consent of instructor. Systems based pharmacology focused on classes of drugs used to treat disorders in specialty systems. Effective: 2013 Fall Quarter.

NRS 271B—Pharmacology (2)

Lecture/Discussion—1 hour(s); Laboratory—3 hour(s). Prerequisite(s): Consent of Instructor. Open to graduate students in the Nursing Science and Health-Care Leadership Graduate Degree programs or by consent of instructor. Systems based pharmacology focused on classes of drugs used to treat disorders in specialty systems. Effective: 2013 Fall Quarter.

NRS 271C—Pharmacology (2)

Lecture/Discussion—1 hour(s); Laboratory—3 hour(s). Prerequisite(s): Consent of Instructor. Open to graduate students in the Nursing Science and Health-Care Leadership Graduate Degree programs or by consent of instructor. Systems based pharmacology focused on classes of drugs used to treat disorders in specialty systems. Effective: 2014 Spring Quarter.

NRS 272—Foundations of Pharmacology (2)

Lecture/Discussion—2 hour(s). Prerequisite(s): Consent of Instructor. Open to graduate students in the Nursing Science and Health-Care Leadership Graduate Group or by consent of the instructor. Theoretical background to providing safe and effective care related to drugs and natural products. Effective: 2016 Summer Quarter.

NRS 273—Pharmacology Concepts in Nursing (2)

Lecture/Discussion—2 hour(s). Prerequisite(s): NRS 221; NRS 272; NRS 420; NRS 421; Consent of Instructor. Open to graduate students in the Nursing Science and Health-Care Leadership Graduate Group or by consent of the instructor. Application of principles for safe and effective use of medications and natural products; use of current, reliable information to make clinical decisions. Effective: 2016 Fall Quarter.

NRS 290—Master's Seminar (2)

Discussion—2 hour(s). Prerequisite(s): Current enrollment in the Nursing Science and Health-Care Leadership graduate program or consent of instructor. Open to NSHL MS students only or by consent of course instructor. Subject varies from quarter to quarter. Current knowledge and issues relevant to one of two fields of emphasis: population health or health systems. May be repeated up to 10 time(s). Effective: 2010 Fall Quarter.

NRS 291—Doctoral Seminar (2)

Discussion—2 hour(s). Prerequisite(s): Current enrollment in the Nursing Science and Health-Care Leadership graduate program or consent of instructor. Focus on the theory, research and knowledge relevant to one of two fields of emphasis: population health or health systems. Emphasis placed on reading, critique and synthesis of classic and cutting-edge research in nursing and health care. May be repeated up to 10 time(s). Effective: 2010 Fall Quarter.

NRS 291D—Doctoral Seminar (2)

Discussion—2 hour(s). Prerequisite(s): Current enrollment in the Nursing Science and Health-Care Leadership graduate program or consent of instructor. Focus on the theory, research and knowledge relevant to one of two fields of emphasis: population health or health systems. Emphasis placed on reading, critique and synthesis of classic and cutting-edge research in nursing and health care. May be repeated up to 10 time(s). (S/U grading only.) Effective: 2014 Winter Quarter.

NRS 298—Special Topics in Nursing Science & Health-Care Leadership (1-4)

Lecture/Discussion—1-2 hour(s); Variable—1-3 hour(s). Prerequisite(s): Current enrollment in the Nursing Science and Health-Care Leadership graduate program or consent of instructor. In-depth study of topics in Nursing Science and Health-Care Leadership, selected from: policy and politics in health care, health-care disparities, current issues in health care, approaches to the conduct of science, or other related areas, with year to year variation. May be repeated for credit. Effective: 2014 Spring Quarter.

NRS 298V—Online Special Topics in Nursing Science & Health-Care Leadership (1-4)

Web Virtual Lecture—1-4 hour(s); Web Electronic Discussion—1-4 hour(s). Prerequisite(s): Current enrollment in the Nursing Science and Health-Care Leadership graduate program or consent of instructor. In-depth study of topics in Nursing Science and Health-Care Leadership, selected from: policy and politics in health care, health-care disparities, current issues in health care, approaches to the conduct of science, or other related areas, with year to year variation. May be repeated for credit. Effective: 2014 Winter Quarter.

NRS 299—Research & Writing (1-12)

Extensive Writing/Discussion—3-36 hour(s). Prerequisite(s): Consent of Instructor. Students in the Nursing Science and Health-Care Leadership graduate programs conduct research and writing under the supervision of a faculty member. May be repeated for credit. (S/U grading only.) Effective: 2011 Winter Quarter.

NRS 299D—Dissertation Research & Writing (1-12)

Extensive Writing/Discussion—3-36 hour(s). Prerequisite(s): Consent of Instructor. Students in the Nursing Science and Health-Care Leadership graduate programs conduct dissertation research and writing under the supervision of a faculty member. May be repeated for credit. (S/U grading only.) Effective: 2011 Winter Quarter.

NRS 301—Learner Centered Teaching (3-4)

Lecture/Discussion—3 hour(s); Practice—1 hour(s). Prerequisite(s): Consent of Instructor. Open to current students in the Nursing Science and Health-care Leadership graduate programs; outside students with prior educational or work experience in education may register for this class with the consent of instructor. Students will explore best practices in learner-centered teaching, performance-based curriculum models, instructional design, and assessing/evaluating student learning. Students will have experience in planning learner-centered activities that are engaging and effective in achieving desired student performance. Effective: 2016 Spring Quarter.

NRS 302—Teaching Methods—Use of Emerging Technologies to Improve Student Learning (4)

Lecture/Discussion—3 hour(s); Practice—1 hour(s). Prerequisite(s): Consent of Instructor. Open to current students in the Nursing Science and Health-care Leadership graduate programs; outside students with prior educational or work experience in education may register for this class with the consent of instructor. Students will examine, design and develop instructional strategies that use innovative and emerging technologies to promote motivation, performance and learning in health professions education. Research findings associated with use of various emerging technologies will be examined. Effective: 2016 Fall Quarter.

NRS 303—Professional Role Formation (2-4)

Lecture/Discussion—2 hour(s); Laboratory—2 hour(s). Prerequisite(s): Consent of Instructor. Open to current students in the Nursing Science and Health-care Leadership graduate programs; outside students with prior educational or work experience in education may register for this class with the consent of instructor. Exploration of the educator role. Topics include Role Expectations, Legal and Regulatory Issues, Professional Ethics, Educational Scholarship, Individual Differences, Learning Environments, and Lifelong Learning. Placements for the optional practicum are arranged in a wide variety of settings. Effective: 2017 Winter Quarter.

NRS 306—Nature of Caregiving (4)

Lecture/Discussion—4 hour(s). Prerequisite(s): Consent of Instructor. Explores theoretical and conceptual frameworks to enable clinicians to understand the nature of family caregiving. Students examine and apply frameworks in order to conduct comprehensive person and family based assessments and interventions incorporating various dimensions of family caregiving. Effective: 2019 Fall Quarter.

NRS 307—Family Centered Communication & Shared Decision Making (4)

Lecture/Discussion—4 hour(s). Prerequisite(s): Consent of Instructor. Incorporates shared decision-making principles and group communication to address family centered care planning and challenging clinical discussions. Targets competencies needed by health professionals to partner effectively to enhance the caregiving experience and reduce negative sequelae over the caregiving trajectory. Effective: 2020 Winter Quarter.

NRS 308—Patient & Family Centered Care Plan Development (4)

Lecture/Discussion—4 hour(s). Prerequisite(s): Consent of Instructor. Synthesizes assessment data and analyzes impact of technology, individual, family, sociocultural, health care system, and illness-related variables in specific family care-giving situations. Co-create comprehensive evidence based plan to facilitate the health and well-being of the family unit through shared decision-making. Effective: 2020 Spring Quarter.

NRS 400—Basic Clinical Skills (1-4)

Lecture/Lab—1-4 hour(s). Prerequisite(s): Consent of Instructor. Open to graduate students in the Nursing Science and Health-Care Leadership Graduate Degree programs or by consent of instructor. Instruction and practice of the fundamental clinical skills necessary for patient care comprise this course with a primary focus on principles of effective communication in establishing the therapeutic provider-patient relationship. Effective: 2013 Summer Quarter.

NRS 401—Basic Clinical Skills (1-4)

Lecture/Lab—1-4 hour(s). Prerequisite(s): Consent of Instructor. Open to graduate students in the Nursing Science and Health-Care Leadership Graduate Degree programs or by consent of instructor. Continuation of focus on history taking and physical examination skills with advanced/specialized content. Effective: 2013 Fall Quarter.

NRS 410A—Advanced Clinical Skills (1-4)

Lecture/Lab—1-4 hour(s). Prerequisite(s): Consent of Instructor. Open to graduate students in the Nursing Science and Health-Care Leadership Graduate Degree programs or by consent of instructor. Continuation of focus on history taking and physical examination skills with advanced/specialized content. Effective: 2014 Winter Quarter.

NRS 410B—Advanced Clinical Skills (1-4)

Lecture/Lab—1-4 hour(s). Prerequisite(s): Consent of Instructor. Open to graduate students in the Nursing Science and Health-Care Leadership Graduate Degree programs or by consent of instructor. Continuation of focus on history taking and physical examination skills with advanced/specialized content related specified systems. Effective: 2014 Spring Quarter.

NRS 410C—Advanced Clinical Skills (1-4)

Lecture/Lab—1-4 hour(s). Prerequisite(s): Consent of Instructor. Open to graduate students in the Nursing Science and Health-Care Leadership Graduate Degree programs or by consent of instructor. Continuation of focus on history taking and physical examination skills with advanced/specialized content related specified systems. Effective: 2014 Summer Quarter.

NRS 410D—Advanced Clinical Skills (1-4)

Lecture/Lab—1-4 hour(s). Prerequisite(s): Consent of Instructor. Open to graduate students in the Nursing Science and Health-Care Leadership Graduate Degree programs or by consent of instructor. Continuation of focus on history taking and physical examination skills with advanced/specialized content related to specified systems. Effective: 2013 Fall Quarter.

NRS 410E—Advanced Clinical Skills (1-4)

Lecture/Lab—1-4 hour(s). Prerequisite(s): Consent of Instructor. Open to graduate students in the Nursing Science and Health-Care Leadership Graduate Degree programs or by consent of instructor. Continuation of focus on history taking and physical examination skills with advanced/specialized content related to specified systems. Effective: 2013 Fall Quarter.

NRS 410F—Advanced Clinical Skills (1-4)

Lecture/Lab—1-4 hour(s). Prerequisite(s): Consent of Instructor. Open to graduate students in the Nursing Science and Health-Care Leadership Graduate Degree programs or by consent of instructor. Continuation of focus on history taking and physical examination skills with advanced/specialized content related to specified specialty systems. Effective: 2014 Spring Quarter.

NRS 410G—Advanced Clinical Skills (1-4)

Lecture/Lab—1-4 hour(s). Prerequisite(s): Consent of Instructor. Open to graduate students in the Nursing Science and Health-Care Leadership Graduate Degree programs or by consent of instructor. Continuation of focus on history taking and physical examination skills with advanced/specialized content related to specified specialty systems. Effective: 2015 Fall Quarter.

NRS 420—Foundations of Clinical Nursing Practice (3)

Clinical Activity—9 hour(s). Prerequisite(s): Consent of Instructor. Open to graduate students in the Nursing Science and Health-Care Leadership Graduate Group or by consent of the instructor. Foundational course introduces students to core concepts of clinical nursing, including clinical reasoning, professional ethics, therapeutic communication and activities of daily living. Develop skills for the provision of safe, high quality, culturally-sensitive, person-centered care across the lifespan. Effective: 2016 Summer Quarter.

NRS 421—Health Assessment Across the Lifespan (3)

Lecture/Discussion—1 hour(s); Clinical Activity—6 hour(s). Prerequisite(s): Consent of Instructor. Open to graduate students in the Nursing Science and Health-Care Leadership Graduate Group or by consent of the instructor. Prepares students to conduct a health history assessment using developmentally and culturally appropriate approaches for individuals across the lifespan. Acquire the knowledge, understanding, and skills needed to perform, interpret and communicate a health history. Effective: 2016 Summer Quarter.

NRS 422—Care of Adults with Chronic Conditions (6)

Lecture/Discussion—3 hour(s); Clinical Activity—9 hour(s). Prerequisite(s): NRS 221; NRS 272; NRS 420; NRS 421; Consent of Instructor. Open to graduate students in the Nursing Science and Health-Care Leadership Graduate Group or by consent of the instructor. Learn concepts central to the effective management of a variety of common chronic illness and disabling conditions across the lifespan in a variety of different settings. Practice conducting in-depth health assessments of individuals with chronic conditions. Effective: 2016 Fall Quarter.

NRS 423—Psychosocial Wellness & Illness (5)

Lecture/Discussion—3 hour(s); Clinical Activity—6 hour(s). Prerequisite(s): NRS 221; NRS 272; NRS 420; NRS 421; Consent of Instructor. Open to graduate students in the Nursing Science and Health-Care Leadership Graduate Group or by consent of the instructor. Explore the biological, psychological, cultural, societal, and environmental factors that affect psychological wellness and illness. Practice providing care to individuals and families experiencing disruptions in mental health secondary to physical or psychiatric illness, trauma or loss. Effective: 2016 Fall Quarter.

NRS 424—Nursing Care of Older Adults (3)

Lecture/Discussion—2 hour(s); Clinical Activity—3 hour(s). Prerequisite(s): NRS 221; NRS 223; NRS 272; NRS 273; NRS 420; NRS 421; NRS 422; NRS 423; NRS 425; NRS 426; Consent of Instructor. Open to graduate students in the Nursing Science and Health-Care Leadership Graduate Group or by consent of the instructor. Build skills for situations involving older adults, such as in the management of complex clinical and administering and interpreting standardized assessment tools. Develop plans of care for older adults experiencing a variety of geriatric syndromes. Effective: 2017 Summer Quarter.

NRS 425—Family Focused Nursing (9)

Lecture/Discussion—5 hour(s); Clinical Activity—12 hour(s). Prerequisite(s): NRS 221; NRS 272; NRS 273; NRS 420; NRS 421; NRS 422; NRS 423; Consent of Instructor. Open to graduate students in the Nursing Science and Health-Care Leadership Graduate Group or by consent of the instructor. Focuses on family as the unit of nursing and interprofessional care. Includes influences of family on health and illness, reproductive and gender/sexuality issues, pregnancy, birth and child-rearing, and the health and illness in children and youth. Effective: 2017 Winter Quarter.

NRS 426—Nursing Care of Adults with Complex Illness or Injury (8)

Lecture/Discussion—4 hour(s); Clinical Activity—12 hour(s). Prerequisite(s): NRS 221; NRS 272; NRS 273; NRS 420; NRS 421; NRS 422; NRS 423; NRS 425; Consent of Instructor. Open to graduate students in the Nursing Science and Health-Care Leadership Graduate Group or by consent of the instructor. Prepares students to provide comprehensive, patient-centered nursing care for patients with acute or complex illness and injury. Theory portion focuses on concepts associated with complex physiological alterations. Effective: 2017 Spring Quarter.

NRS 427—Fostering Healthy Communities (7)

Lecture/Discussion—4 hour(s); Clinical Activity—9 hour(s). Prerequisite(s): Consent of Instructor. Open to graduate students in the Nursing Science and Health-Care Leadership Graduate Group or by consent of the instructor. Focuses on populations & communities, and emphasizes working with diverse communities in providing health promotion, chronic disease management, transitional support and crisis intervention. Develop skills to critically analyze and shape health policy and develop accessible community resources. Effective: 2017 Summer Quarter.

NRS 428—Capstone Clinical Nursing Practicum (8)

Clinical Activity—24 hour(s). Prerequisite(s): NRS 202; NRS 203; NRS 212; NRS 220; NRS 221; NRS 222A; NRS 222B; NRS 223; NRS 224; NRS 272; NRS 273; NRS 420; NRS 421; NRS 422; NRS 423; NRS 424; NRS 425; NRS 426; NRS 427; NRS 429A; NRS 429B; NRS 429C; NRS 429D; NRS 429E; Consent of Instructor. Open to graduate students in the Nursing Science and Health-Care Leadership Graduate Group or by consent of the instructor. Practicum experience is designed to facilitate transition to professional practice. Opportunity to choose a clinical practice area of interest and to work with a preceptor with expertise in that area. Effective: 2017 Fall Quarter.

NRS 429A—Collaborative Practice A (1)

Clinical Activity—3 hour(s). Prerequisite(s): Consent of Instructor. Open to graduate students in the Nursing Science and Health-Care Leadership Graduate Group or by consent of the instructor. Interprofessional course uses experiential learning activities including simulation, role play, and case studies. Concepts include but are not limited to; communication, person-centered care, ethical decision making, end-of-life decisions, culturally appropriate care, quality and safety, social justice, and professionalism. Effective: 2016 Summer Quarter.

NRS 429B—Collaborative Practice B (1)

Clinical Activity—3 hour(s). Prerequisite(s): Consent of Instructor. Open to graduate students in the Nursing Science and Health-Care Leadership Graduate Group or by consent of the instructor. Interprofessional course uses experiential learning activities including simulation, role play, and case studies. Concepts include but are not limited to; communication, person-centered care, ethical decision making, end-of-life decisions, culturally appropriate care, quality and safety, social justice, and professionalism. Effective: 2016 Fall Quarter.

NRS 429C—Collaborative Practice C (1)

Clinical Activity—3 hour(s). Prerequisite(s): Consent of Instructor. Open to graduate students in the Nursing Science and Health-Care Leadership Graduate Group or by consent of the instructor. Interprofessional course uses experiential learning activities including simulation, role play, and case studies. Concepts include but are not limited to; communication, person-centered care, ethical decision making, end-of-life decisions, culturally appropriate care, quality and safety, social justice, and professionalism. Effective: 2017 Winter Quarter.

NRS 429D—Collaborative Practice D (1)

Clinical Activity—3 hour(s). Prerequisite(s): Consent of Instructor. Open to graduate students in the Nursing Science and Health-Care Leadership Graduate Group or by consent of the instructor. Interprofessional course uses experiential learning activities including simulation, role play, and case studies. Concepts include but are not limited to; communication, person-centered care, ethical decision making, end-of-life decisions, culturally appropriate care, quality and safety, social justice, and professionalism. Effective: 2017 Spring Quarter.

NRS 429E—Collaborative Practice E (1)

Clinical Activity—3 hour(s). Prerequisite(s): Consent of Instructor. Open to graduate students in the Nursing Science and Health-Care Leadership Graduate Group or by consent of the instructor. Interprofessional course uses experiential learning activities including simulation, role play, and case studies. Concepts include but are not limited to; communication, person-centered care, ethical decision making, end-of-life decisions, culturally appropriate care, quality and safety, social justice, and professionalism. Effective: 2017 Summer Quarter.

NRS 429F—Collaborative Practice F (1)

Clinical Activity—3 hour(s). Prerequisite(s): Consent of Instructor. Open to graduate students in the Nursing Science and Health-Care Leadership Graduate Group or by consent of the instructor. Interprofessional course uses experiential learning activities including simulation, role play, and case studies. Concepts include but are not limited to; communication, person-centered care, ethical decision making, end-of-life decisions, culturally appropriate care, quality and safety, social justice, and professionalism. Effective: 2017 Fall Quarter.

NRS 440—Preparation for Clinical Practice (1-3)

Clinical Activity—3-9 hour(s). Prerequisite(s): Consent of Instructor. Open to graduate students in the Nursing Science and Health-Care Leadership Graduate Degree programs or by consent of instructor. Students are placed in clinical settings and/or clinical simulation laboratories to observe and practice the integration of clinical skills with direct supervision by faculty. Effective: 2016 Winter Quarter.

NRS 450A—Supervised Clinical Practice-Primary Health Care (1-16)

Clinical Activity—48 hour(s). Prerequisite(s): Consent of Instructor. Open to graduate students in the Nursing Science and Health-Care Leadership Graduate Degree programs or by consent of instructor. Each of the required primary care rotations is a four-week supervised clinical practice experience in primary care, under the supervision of an appropriate community-based primary care provider per accreditation requirements. May be repeated up to 5 time(s). Effective: 2016 Winter Quarter.

NRS 450B—Supervised Clinical Practice-Primary Health Care (1-16)

Clinical Activity—48 hour(s). Prerequisite(s): Consent of Instructor. Open to graduate students in the Nursing Science and Health-Care Leadership Graduate Degree programs or by consent of instructor. Each of the required primary care rotations is a four-week supervised clinical practice experience in primary care, under the supervision of an appropriate community-based primary care provider per accreditation requirements. May be repeated up to 5 time(s). Effective: 2016 Winter Quarter.

NRS 450C—Supervised Clinical Practice-Primary Health Care (1-16)

Clinical Activity—48 hour(s). Prerequisite(s): Consent of Instructor. Open to graduate students in the Nursing Science and Health-Care Leadership Graduate Degree programs or by consent of instructor. Each of the required primary care rotations is a four-week supervised clinical practice experience in primary care, under the supervision of an appropriate community-based primary care provider per accreditation requirements. May be repeated up to 5 time(s). Effective: 2016 Winter Quarter.

NRS 450D—Supervised Clinical Practice-Primary Health Care (1-16)

Clinical Activity—48 hour(s). Prerequisite(s): Consent of Instructor. Open to graduate students in the Nursing Science and Health-Care Leadership Graduate Degree programs or by consent of instructor. Each of the required primary care rotations is a four-week supervised clinical practice experience in primary care, under the supervision of an appropriate community-based primary care provider per accreditation requirements. May be repeated up to 5 time(s). Effective: 2016 Winter Quarter.

NRS 450E—Supervised Clinical Practice-Primary Health Care (1-16)

Clinical Activity—48 hour(s). Prerequisite(s): Consent of Instructor. Open to graduate students in the Nursing Science and Health-Care Leadership Graduate Degree programs or by consent of instructor. Each of the required primary care rotations is a four-week supervised clinical practice experience in primary care, under the supervision of an appropriate community-based primary care provider per accreditation requirements. May be repeated up to 5 time(s). Effective: 2016 Winter Quarter.

NRS 451—Supervised Clinical Practice-Pediatrics (1-16)

Clinical Activity—48 hour(s). Prerequisite(s): Consent of Instructor. Open to graduate students in the Nursing Science and Health-Care Leadership Graduate Degree programs or by consent of instructor. Four-week clinical rotation under the supervision of an appropriate community-based Pediatric Medicine provider per accreditation requirements. May be repeated up to 5 time(s). Effective: 2016 Winter Quarter.

NRS 452—Supervised Clinical Practice-Women's Health (1-16)

Clinical Activity—48 hour(s). Prerequisite(s): Consent of Instructor. Open to graduate students in the Nursing Science and Health-Care Leadership Graduate Degree programs or by consent of instructor. Four-week clinical rotation under the supervision of an appropriate community-based women's health and prenatal care provider per accreditation requirements. May be repeated up to 5 time(s). Effective: 2016 Winter Quarter.

NRS 453—Supervised Clinical Practice-Mental Health (1-16)

Clinical Activity—48 hour(s). Prerequisite(s): Consent of Instructor. Open to graduate students in the Nursing Science and Health-Care Leadership Graduate Degree programs or by consent of instructor. Four-week clinical rotation under the supervision of an appropriate community-based psychiatrist, psychiatric/mental health provider per accreditation requirements. May be repeated up to 5 time(s). Effective: 2016 Winter Quarter.

NRS 454—Supervised Clinical Practice-Emergency Medicine (1-16)

Clinical Activity—48 hour(s). Prerequisite(s): Consent of Instructor. Open to graduate students in the Nursing Science and Health-Care Leadership Graduate Degree programs or by consent of instructor. Four-week clinical rotation under the supervision of an appropriate Emergency Medicine provider per accreditation requirements. May be repeated up to 5 time(s). Effective: 2016 Winter Quarter.

NRS 455—Supervised Clinical Practice-Inpatient Surgery (1-16)

Clinical Activity—48 hour(s). Prerequisite(s): Consent of Instructor. Open to graduate students in the Nursing Science and Health-Care Leadership Graduate Degree programs or by consent of instructor. Four-week clinical experience under the supervision of an appropriate surgical provider per accreditation requirements. May be repeated up to 5 time(s). Effective: 2016 Winter Quarter.

NRS 456—Supervised Clinical Practice-Inpatient Medicine (1-16)

Clinical Activity—48 hour(s). Prerequisite(s): Consent of Instructor. Open to graduate students in the Nursing Science and Health-Care Leadership Graduate Degree programs or by consent of instructor. Four-week clinical rotation under the supervision of an appropriate inpatient provider per accreditation requirements. May be repeated up to 5 time(s). Effective: 2016 Winter Quarter.

NRS 459—Supervised Clinical Practice-Other Specialties (1-16)

Clinical Activity—48 hour(s). Prerequisite(s): Consent of Instructor. Open to graduate students in the Nursing Science and Health-Care Leadership Graduate Degree programs or by consent of instructor. Two four-week selective rotations are available to accommodate student interest and/or accommodate a student's clinical deficits identified by the program. May be repeated up to 5 time(s). Effective: 2016 Winter Quarter.

NRS 470—Health Care Ethics (3-9)

Lecture/Discussion—2 hour(s); Discussion/Laboratory—1 hour(s). Prerequisite(s): Consent of Instructor. Guided independent study of issues in biomedical ethics, with discussion of readings that are based on student interests and needs. Participation in ethics rounds. (Same course as GMD 470.) (S/U grading only.) Effective: 2012 Spring Quarter.

NRS 471—Supervised Clinical Practice-Geriatrics (1-16)

Clinical Activity—48 hour(s). Prerequisite(s): Consent of Instructor. Open to graduate students in the Nursing Science and Health-Care Leadership Graduate Degree programs or by consent of instructor. Four-week clinical rotation under the supervision of an appropriate community-based Geriatric Medicine provider per accreditation requirements. May be repeated up to 5 time(s). Effective: 2016 Winter Quarter.

NRS 475—Supervised Clinical Practice-Acute Care (1-16)

Clinical Activity—48 hour(s). Prerequisite(s): Consent of Instructor. Open to graduate students in the Nursing Science and Health-Care Leadership Graduate Degree programs or by consent of instructor. Two- to four-week rotation focus on providing acute care in inpatient settings. Students will work directly with specific inpatient units. May be repeated up to 5 time(s). Effective: 2016 Winter Quarter.

NRS 480—Supervised Clinical Practice-Rural Health (1-16)

Clinical Activity—48 hour(s). Prerequisite(s): Consent of Instructor. Open to graduate students in the Nursing Science and Health-Care Leadership Graduate Degree programs or by consent of instructor. Rural health rotations focus on providing care in medically underserved rural sites. Students will experience care across the continuum in ambulatory, inpatient, and community based settings. May be repeated up to 5 time(s). Effective: 2016 Winter Quarter.

NRS 490—Supervised Clinical Practice: Quality & Safety (1-16)

Clinical Activity—48 hour(s). Prerequisite(s): Consent of Instructor. Open to graduate students in the Nursing Science and Health-Care Leadership Graduate Degree programs or by consent of instructor. Clinical rotation that allow students to work directly with patient safety and quality improvement committees in various organizations. May be repeated up to 5 time(s). Effective: 2016 Winter Quarter.

NRS 493A—Improving Quality in Health Care (4)

Lecture/Discussion—4 hour(s). Prerequisite(s): Consent of Instructor. Open to Nursing Science and Health-Care Leadership Students. Working in interdisciplinary teams, will explore the theory and practical methods being employed to make improvement in health care systems while providing an opportunity for interprofessional educational experience. Effective: 2017 Fall Quarter.

NRS 493B—Improving Quality in Health Care (4)

Lecture/Discussion—4 hour(s). Prerequisite(s): NRS 493A; Consent of Instructor. Open to Nursing Science and Health-Care Leadership Students. Working in interdisciplinary teams, will explore advanced theory and practical methods being employed to make improvement in health care systems while providing an opportunity for interprofessional educational experience. Effective: 2018 Winter Quarter.

NRS 493C—Enhancing Patient Safety in Health Care (3)

Seminar—1 hour(s); Clinical Activity—1 hour(s); Discussion—1 hour(s). Prerequisite(s): Consent of Instructor. Nursing Science and Health-Care Leadership graduate students. Inter-professional module is designed to explore the theory and practical methods being employed to improve patient safety in health care while providing an opportunity for inter-professional educational experience. Effective: 2017 Spring Quarter.

NSC—Neuroscience

Courses in NSC:

NSC 200LA—Laboratory Methods in Neurobiology (6)

Laboratory—18 hour(s). Prerequisite(s): Graduate standing in the Neuroscience Graduate Group. Individual research in the laboratory of a faculty member. Research problems emphasize the use of contemporary methods and good experimental design. May be repeated up to 3 time(s). (S/U grading only.) Effective: 1997 Winter Quarter.

NSC 200LB—Laboratory Methods in Neurobiology (3)

Laboratory—9 hour(s). Prerequisite(s): Graduate standing in the Neuroscience Graduate Group. Individual research in the laboratory of a faculty member. Research problems emphasize the use of contemporary methods and good experimental design. May be repeated for credit. (S/U grading only.) Effective: 1997 Winter Quarter.

NSC 201—Neuroanatomy (3)

Lecture—2 hour(s); Discussion/Laboratory—1 hour(s). Prerequisite(s): Consent of Instructor. Mix of lectures, demonstrations, and dissections, emphasizing functional significance of neuroanatomy from a biological perspective, with comparisons between human and non-human brains. Emphasis placed on functional anatomy of the nervous system, integrated with cellular, molecular, cognitive, and developmental concepts. Effective: 2005 Fall Quarter.

NSC 211—Advanced Topics in Neuroimaging (3)

Seminar—2 hour(s); Laboratory—1 hour(s). Prerequisite(s): PSC 210; or Consent of Instructor. Restricted to 16 students. Critical presentation and discussion of the most influential advanced issues in neuroimaging, emphasizing fMRI design/analysis and the integration of fMRI with EEG/MEG. May be repeated for credit when topic differs. (Same course as NPB 211, PSC 211.) (S/U grading only.) Effective: 2017 Spring Quarter.

NSC 219—Design to Data: Statistics for Modern Neuroscience (3)

Lecture—3 hour(s). Prerequisite(s): graduate student standing in neuroscience or related discipline or consent of instructor. Statistical methods and applications for neuroscience. Quantitative foundations covering key concepts, methods, and applications, from descriptive analysis through data science. Statistical considerations in experimental design, analysis and statistical testing in hypothesis and data-driven contexts, and responsible conduct of research in the acquisition, storage, analysis, and presentation of scientific data Effective: 2020 Winter Quarter.

NSC 220—How to Give a Scientific Seminar (3)

Lecture/Discussion—3 hour(s). Prerequisite(s): Consent of Instructor. Presentation of effective seminars. Student presentations of selected neuroscience topics in seminar format. Must be taken in two consecutive quarters. May be repeated up to 1 time(s). Effective: 2002 Spring Quarter.

NSC 221—Cellular Neurophysiology (4)

Lecture—4.5 hour(s). Prerequisite(s): Graduate standing or consent of instructor. Physiological aspects of cellular and subcellular organization of the nervous system. Neuronal cell biology, the structure and function of ion channels, electrical excitability, signaling cascades, sensory transduction and, mechanisms of synaptic transmission, and the cellular basis of learning and memory. Effective: 2009 Fall Quarter.

NSC 222—Systems Neuroscience (5)

Lecture—4 hour(s); Discussion—1 hour(s). Prerequisite(s): Graduate standing or consent of instructor. Integrative and information-processing aspects of nervous system organization. Topics include sensory systems, motor function, sensorimotor integration, the limbic system, and the neurobiology of learning and memory. (Same course as NPB 222.) Effective: 2006 Winter Quarter.

NSC 223—Cognitive Neuroscience (4)

Lecture—3 hour(s); Discussion—1 hour(s). Prerequisite(s): Graduate student standing in Psychology or Neuroscience or consent of instructor. Graduate core course for neuroscience. Neurobiological bases of higher mental function including attention, memory, language. One of three in three-quarter sequence. (Same course as PSC 261.) Effective: 1997 Winter Quarter.

NSC 224A—Molecular & Developmental Neurobiology (2)

Lecture/Discussion—2 hour(s). Prerequisite(s): Consent of Instructor. Key issues in developmental and molecular neurobiology. Discussion emphasis on critical evaluation of the experiments and methods described in research papers. Readings of seminal, primary research papers, reviews, and book chapters. Reading materials will be distributed one week in advance. Effective: 2006 Winter Quarter.

NSC 224B—Molecular & Developmental Neurobiology (2)

Lecture/Discussion—2 hour(s). Prerequisite(s): NSC 224A; or Consent of Instructor. Continuation of NSC 224A. Key issues in developmental and molecular neurobiology, focusing on developmental topics. Discussion emphasis on critical evaluation of experiments and methods described in associated literature. Effective: 2006 Spring Quarter.

NSC 225—Translational Research in the Neurobiology of Disease (2)

Lecture—1 hour(s); Discussion—1 hour(s). Prerequisite(s): NSC 221 (can be concurrent); NSC 222 (can be concurrent); NSC 223 (can be concurrent); or Consent of Instructor. Past or concurrent enrollment in NSC 221 & NSC 222 & NSC 223. Provides an overview of major neuropsychiatric and neurological disorders from both the clinical and fundamental science perspectives. Effective: 2008 Spring Quarter.

NSC 226—Molecular & Developmental Neurobiology (4)

Lecture/Discussion—4 hour(s). Prerequisite(s): Consent of Instructor. Key issues in developmental and molecular neurobiology. Topics include neural induction and patterning, neurogenesis, axon guidance, synapse development and remodeling. Discussion emphasis on critical evaluation of the experiments and methods described in primary seminal research papers and current literature. Effective: 2020 Spring Quarter.

NSC 243—Topics in Cellular & Behavioral Neurobiology (2)

Discussion—1 hour(s); Seminar—1 hour(s). Prerequisite(s): Consent of Instructor. An advanced examination of several current problems in neurobiology. Topics vary in different years. May be repeated for credit. (S/U grading only.) Effective: 1997 Winter Quarter.

NSC 247—Topics in Functional Neurogenomics (2)

Lecture—1 hour(s); Discussion—1 hour(s). Prerequisite(s): Graduate standing or consent of instructor. The theory, methods and principles of functional neurogenomics with emphasis on the relationship to molecular mechanisms involved in development and disease of the nervous system. (Same course as NPB 247.) Effective: 2003 Spring Quarter.

NSC 250—Biology of Neuroglia (2)

Lecture/Discussion—1.5 hour(s). Prerequisite(s): Consent of Instructor. The properties and functions of non-neuronal or neuroglial cells in the mammalian central nervous system with relevance to neuronal development, physiology and injury response. (S/U grading only.) Effective: 1997 Winter Quarter.

NSC 261A—Topics in Vision: Eyes & Retinal Mechanisms (2)

Lecture/Discussion—2 hour(s). Prerequisite(s): NPB 100 or NPB 112; Or the equivalent; graduate standing. Structure and function of the visual system, with emphasis on the eye and retina, including optics, anatomy, transduction, retinal synapses, adaptation, and parallel processing. (Same course as NPB 261A, MCP 261A.) (S/U grading only.) Effective: 2004 Winter Quarter.

NSC 261B—Topics in Vision: Systems, Psychophysics, Computational Models (2)

Lecture/Discussion—2 hour(s). Prerequisite(s): Consent of Instructor. NSC 261A recommended. Functions of the central visual pathways and their underlying mechanisms. Recent research on aspects of anatomy, biochemistry, electrophysiology, psychophysics, development, and genetics of the visual system. (Same course as NPB 261B, MCP 261B.) (S/U grading only.) Effective: 2004 Winter Quarter.

NSC 261C—Topics in Vision: Clinical Vision Science (2)

Lecture/Discussion—2 hour(s). Prerequisite(s): NSC 261A; NSC 261B; or Consent of Instructor. Causes and mechanistic bases of major blinding diseases. Recent research on aspects of anatomy, biochemistry, electrophysiology, psychophysics, development, and genetics of the visual system related to disease. (Same course as NPB 261C, MCP 261C.) (S/U grading only.) Effective: 2005 Spring Quarter.

NSC 267—Computational Neuroscience (5)

Lecture—4 hour(s); Lecture/Lab—3 hour(s). Prerequisite(s): Consent of Instructor. One course in general Neuroscience at the level of NSC 100; or NPB 110B; one year college-level Calculus at level of MAT 016A, MAT 016B, MAT 016C or higher; one year Physics at the level of PHY 007A, PHY 007B, PHY 007C, recommended; or Consent of Instructor. Mathematical models and data analysis techniques used to describe computations performed by nervous systems. Lecture topics include single neuron biophysics, neural coding, network dynamics, memory, plasticity, and learning. Lab topics include programming mathematical models and data analysis techniques in MATLAB. (Same course as NPB 267.) Effective: 2018 Winter Quarter.

NSC 270—How to Write a Fundable Grant Proposal in the Biomedical Sciences (2)

Lecture/Discussion—2 hour(s). Prerequisite(s): Consent of Instructor. Restricted to members of the Neuroscience and BMCDB graduate groups; graduate students in other biomedical programs may enroll with instructor permission. Teaches the do's and don'ts of writing grants in the biomedical sciences and the mechanisms of the review process. May be repeated for credit. (Same course as NPB 270.) Effective: 2016 Spring Quarter.

NSC 271A—Core Concepts & Methods in Learning, Memory, & Plasticity (2)

Lecture/Discussion—2 hour(s). Prerequisite(s): Graduate Standing or Consent of Instructor. Core concepts and methods used in studies of learning, memory and plasticity. Behavioral paradigms and measurement approaches in human and animal studies of learning and plasticity, as well as a consideration of the functional, anatomical and neuronal mechanisms underlying brain plasticity. (Same course as PSC 271A, NPB 271A.) (S/U grading only.) Effective: 2019 Fall Quarter.

NSC 271B—Core Concepts & Methods in Learning, Memory, & Plasticity (2)

Lecture/Discussion—2 hour(s). Prerequisite(s): NSC 271A or NPB 271A or PSC 271A. Core concepts and detailed survey methods used in studies of learning, memory and plasticity, from the cellular and molecular level to the level of neural circuits. Areas of learning, memory, and plasticity research where recent progress has been made in linking across these levels of analysis. (Same course as PSC 271B, NPB 271B.) (S/U grading only.) Effective: 2020 Winter Quarter.

NSC 271C—Translational Approaches to Learning, Memory, & Plasticity Disorders (2)

Lecture/Discussion—2 hour(s). Prerequisite(s): NSC 271B or NPB 271B or PSC 271B. Neurological disorders, the effect of these disorders on learning, memory and plasticity, approved therapeutic options and current research designed to improve understanding and treatment of these diseases: (i) the clinical presentation, diagnostic criteria, and existing therapies, (ii) mechanistic studies in humans and animal models, and (iii) molecular pathways involved in the disease and approaches for drug discovery. (Same course as PSC 271C, NPB 271C.) (S/U grading only.) Effective: 2020 Spring Quarter.

NSC 283—Neurobiological Literature (1)

Seminar—1 hour(s). Prerequisite(s): Consent of Instructor. Critical presentation and analysis of recent journal articles in neurobiology. May be repeated for credit. (S/U grading only.) Effective: 1997 Winter Quarter.

NSC 284—Development of Sensory Systems (1)

Seminar—1 hour(s). Prerequisite(s): Consent of Instructor. Presentation and discussion of recent literature on the development of sensory systems. May be repeated for credit. (S/U grading only.) Effective: 1998 Winter Quarter.

NSC 285—Literature in Visual Neuroscience (2)

Seminar—2 hour(s). Critical presentation and discussion of current literature in visual neuroscience. May be repeated for credit when topic differs. (Same course as NPB 285.) (S/U grading only.) Effective: 2004 Spring Quarter.

NSC 287A—Topics in Theoretical Neuroscience (2)

Lecture/Discussion—2 hour(s). Prerequisite(s): Consent of Instructor. In-depth exploration of topics in theoretical neuroscience. Topic varies each year. Fall quarter (287A): foundational material from books and review articles. Spring quarter (287B): continuation of year's topic through readings of seminal articles from the primary literature. May be repeated for credit. (Same course as NPB 287A.) (S/U grading only.) Effective: 2017 Spring Quarter.

NSC 287B—Topics in Theoretical Neuroscience (2)

Seminar—2 hour(s). Prerequisite(s): Consent of Instructor. In-depth exploration of topics in theoretical neuroscience. Topic varies each year. Fall quarter (287A): foundational material from books and review articles. Spring quarter (287B): continuation of year's topic through readings of seminal articles from the primary literature. May be repeated for credit. (Same course as NPB 287B.) (S/U grading only.) Effective: 2009 Spring Quarter.

NSC 289—Topics in Molecular & Developmental Neurobiology (2)

Seminar—2 hour(s). Analysis and discussion of seminal and current research papers in molecular and developmental neurobiology. Different topics will be covered each quarter. In the past topics have included, "Synaptic vesicle dynamics," "Neuronal polarity," and "Glutamate receptors." May be repeated up to 10 time(s) when topic differs. (S/U grading only.) Effective: 2011 Spring Quarter.

NSC 290C—Research Conference in Neurobiology (1)

Discussion—1 hour(s). Prerequisite(s): NSC 299 (can be concurrent); Graduate standing in Neuroscience or consent of instructor; NSC 299 required concurrently. Presentation and discussion of faculty and graduate student research in neurobiology. May be repeated for credit. (S/U grading only.) Effective: 1997 Winter Quarter.

NSC 292—Cortical Plasticity & Perception (2)

Lecture/Discussion—2 hour(s). Prerequisite(s): NPB 100 or NPB 112; Or equivalent or consent of instructor. Examination of research articles on cortical plasticity and changes in perception. Examples drawn from studies of the somatosensory, visual, auditory, and motor cortex. (S/U grading only.) Effective: 2000 Winter Quarter.

NSC 295—Literature in Neuroengineering (2)

Seminar—2 hour(s). Open to graduate students only. Critical presentation and discussion of current literature in neuroengineering. May be repeated for credit. (Same course as BIM 295.) (S/U grading only.) Effective: 2018 Fall Quarter.

NSC 298—Group Study (1-5)

Variable. Prerequisite(s): Consent of Instructor. (S/U grading only.) Effective: 1997 Winter Quarter.

NSC 299—Research (1-12)

Variable. Prerequisite(s): Consent of Instructor. (S/U grading only.) Effective: 1997 Winter Quarter.

NSU—Neurosurgery

Courses in NSC:

NSU 199—Special Study in Neurosurgery for Advanced Undergraduates (1-5)

Variable. Prerequisite(s): Advanced undergraduate standing with consent of instructor. Students may participate in ongoing neurosurgical projects or may pursue and design independent projects. (P/NP grading only.) Effective: 1997 Winter Quarter.

NSU 299—Neurosurgery Research (3-12)

Prerequisite(s): Graduate student with consent of instructor. Student may participate in ongoing neurosurgical projects or may pursue and design independent projects. (S/U grading only.) Effective: 1997 Winter Quarter.

NSU 451—Neurosurgical Critical Care Clerkship (3)

Clinical Activity. Prerequisite(s): Third- or fourth-year medical student having completed a neurosurgical clerkship or consent of instructor. Students participate in the care of neurosurgical patients in the NSICU and in the admission and surgical management of patients admitted through the Emergency Room. (H/P/F grading only.) Effective: 1997 Winter Quarter.

NSU 455—Clinical Pediatric Neurosurgery (6)

Clinical Activity. Prerequisite(s): NSU 460; and Consent of Instructor. Third- or fourth-year medical students. Admission and follow-up of pediatric patients. Neurological history, examination, and diagnostic procedures are emphasized. Students will participate in surgical procedures and are required to attend all pediatric neurosurgery conferences. (H/P/F grading only.) Effective: 1997 Winter Quarter.

NSU 460—Clinical Neurosurgery (6-18)

Clinical Activity. Prerequisite(s): Consent of Instructor. Third- and fourth-year medical students. Approved for graduate degree credit. Admission and follow-up of patients. Neurological history, examination and further diagnostic procedures emphasized. Students participate in meaningful aspects of surgical procedures and attend listed conferences, rounds, and seminars. (H/P/F grading only.) Effective: 1997 Winter Quarter.

NSU 464—Externship (3-9)

Clinical Activity. Prerequisite(s): Fourth-year medical student having completed a neurosurgical clerkship or consent of instructor. Clerkship in neurosurgery to be arranged at another institution with accredited residency program in neurosurgery under proper supervision. (H/P/F grading only.) Effective: 2016 Summer Quarter.

NSU 470—Advanced Clinical Neurosurgery (6-18)

Clinical Activity. Prerequisite(s): Consent of Instructor. Fourth-year medical student in good academic standing. Student will function as acting intern on neurosurgery service. Admission and management of patients. Neurological history, examination, diagnostic procedures, and surgical management are emphasized. Students participate in meaningful aspects of surgical procedures and attend required conferences and rounds. (H/P/F grading only.) Effective: 1997 Winter Quarter.

NSU 474—Away Acting Internship in Neurosurgery (6-18)

Clinical Activity. Away acting internship in Neurosurgery. (H/P/F grading only.) Effective: 2019 Summer Quarter.

NSU 480—Insights in Neurosurgery (1-3)

Clinical Activity—3-9 hour(s). Prerequisite(s): Consent of Instructor. First- and second-year medical students in good academic standing. Observation of neurosurgical care in emergency room, operating room and hospital floors, including manner of treatment of a variety of chronic and acute neurological diseases. (H/P/F grading only.) Effective: 1997 Winter Quarter.

NSU 499—Neurosurgery Research (1-18)

Variable. Prerequisite(s): Medical student with consent of instructor. Student may participate in ongoing neurosurgical projects or may pursue and design independent projects. May be repeated for credit. (H/P/F grading only.) Effective: 2017 Fall Quarter.

NUB—Nutritional Biology

Courses in NUB:

NUB 210A—Advanced Nutrition I: Nutrition & Metabolism, Macronutrients (5)

Lecture—4 hour(s); Discussion—1 hour(s). Prerequisite(s): Admission to the Nutritional Biology Graduate Group or consent of instructor. Limited to 30 students. Advanced general nutritional concepts. Integrating nutrition with biological systems, population nutrition issues, and research approaches. Advanced concepts on lipid and protein metabolism. Effective: 2014 Winter Quarter.

NUB 210B—Advanced Nutrition II: Nutrition & Cell Biology, Micronutrients (5)

Lecture—4 hour(s); Discussion—1 hour(s). Prerequisite(s): Admission to the Nutritional Biology Graduate Group or consent of instructor. Limited to 30 students. Effects of nutrients at the cellular level. Principles of cell signaling and signaling modulation by nutrients. Advanced concepts of mineral and vitamin metabolism. Mineral and vitamin deficiencies and associated pathologies. Effective: 2014 Fall Quarter.

NUB 210C—Advanced Nutrition III: Nutrition in Health & Disease (5)

Lecture—4 hour(s); Discussion—1 hour(s). Integration of biochemical, physiological, and genetic aspects of nutrition in the context of clinical and epidemiological observations related to health and disease, including obesity and diabetes, cancer, vascular and neurodegenerative diseases, osteoporosis, and birth defects. Review and consideration of governmental. Effective: 2014 Winter Quarter.

NUB 290C—Research Group Conference (1)

Discussion—1 hour(s). Prerequisite(s): Graduate standing. Weekly conference on research problems, progress and techniques in animal sciences. May be repeated for credit. (S/U grading only.) Effective: 2013 Fall Quarter.

NUB 298—Directed Group Study (1-5)

Variable. Prerequisite(s): Graduate standing in Nutritional Biology Graduate Group or consent of instructor. May be repeated up to 3 time(s) when topics differs and consent of instructor. Effective: 2013 Fall Quarter.

NUB 299—Research (1-12)

Variable. Prerequisite(s): Consent of Instructor. May be repeated for credit. (S/U grading only.) Effective: 2013 Fall Quarter.

NUT—Nutrition

Courses in NUT:**NUT 010—Discoveries & Concepts in Nutrition (3)**

Lecture—3 hour(s); Project (Term Project). Nutrition as a science; historical development of nutrition concepts; properties of nutrients and foods. No credit will be granted to students who have completed NUT 010Y or NUT 010V or an upper division Nutrition (NUT) course. GE credit: SE, SL. Effective: 2018 Winter Quarter.

NUT 010V—Discoveries & Concepts in Nutrition (3)

Web Virtual Lecture—3 hour(s); Project (Term Project). Nutrition as a science; historical development of nutrition concepts; properties of nutrients and foods. No credit will be granted to students who have completed NUT 010 or NUT 010Y or an upper division Nutrition (NUT) course. GE credit: SE, SL. Effective: 2018 Winter Quarter.

NUT 010Y—Discoveries & Concepts in Nutrition (3)

Web Virtual Lecture—3 hour(s); Project (Term Project). Nutrition as a science; historical development of nutrition concepts; properties of nutrients and foods. No credit granted to students who have completed NUT 010 or NUT 010V or an upper division Nutrition (NUT) course. GE credit: SE, SL. Effective: 2018 Winter Quarter.

NUT 011—Current Topics & Controversies in Nutrition (2)

Discussion—1.5 hour(s); Term Paper. Exploration of current applications and controversies in nutrition. Read scientific journal articles and write summaries, as well as give brief oral presentations. Topics change to reflect current interests and issues. GE credit: OL, SE, WE. Effective: 2010 Winter Quarter.

NUT 099—Individual Study for Undergraduates (1-5)

Variable. Prerequisite(s): Consent of Instructor. (P/NP grading only.) GE credit: SE. Effective: 1997 Winter Quarter.

NUT 104—Environmental & Nutritional Factors in Cellular Regulation & Nutritional Toxicants (4)

Lecture—3 hour(s); Discussion—1 hour(s). Prerequisite(s): BIS 101; (BIS 103 or ABI 103). Cellular regulation from nutritional/toxicological perspective. Emphasis: role of biofactors on modulation of signal transduction pathways, role of specific organelles in organization/regulation of metabolic transformations, major cofactor functions, principles of pharmacology/toxicology important to understanding nutrient/toxicant metabolism. (Same course as ETX 104.) GE credit: OL, SE, SL. Effective: 2008 Fall Quarter.

NUT 105—Nutrition through the Life Cycle (3)

Lecture—3 hour(s). Prerequisite(s): (BIS 103 or ABI 103); NUT 111AY; or Consent of Instructor. Unique nutrient needs of people in different stages of the life cycle, including pregnant and lactating women, infants, children, adolescents, adults and the elderly. Physiological changes and conditions that influence nutrient needs, factors that influence food choices and appropriate dietary recommendations, and recent research are discussed. GE credit: SE. Effective: 2020 Winter Quarter.

NUT 106—Food Chemistry for Clinical Nutrition (5)

Lecture—3 hour(s); Discussion—1 hour(s); Laboratory—3 hour(s). Prerequisite(s): CHE 008B C- or better or CHE 118B C- or better or CHE 128B C- or better; Concurrent with FST 100A recommended. Only open to Clinical Nutrition majors. Chemical and physical principles that influence functional properties, nutrient content, safety, and sensory aspects of food. Emphasis on the application of these concepts in clinical nutrition. Not open to students who have completed FST 101A and/or FST 101B. (Same course as FST 106.) GE credit: SE, SL, WE. Effective: 2019 Spring Quarter.

NUT 111AY—Introduction to Nutrition & Metabolism (3)

Web Virtual Lecture—2 hour(s); Lecture/Discussion—1 hour(s). Prerequisite(s): CHE 008B; NPB 101; Or the equivalent of NPB 101. Restricted to upper division or graduate level students only. Introduction to metabolism of protein, fat and carbohydrate: the biological role of vitamins and minerals; nutrient requirements during the life cycle; assessment of dietary intake and nutritional status. Not open for credit to students who have completed NUT 101 or NUT 111AV. GE credit: SE. Effective: 2016 Fall Quarter.

NUT 111B—Recommendations & Standards for Human Nutrition (2)

Lecture—2 hour(s). Prerequisite(s): (CHE 008B or CHE 118B or CHE 128B); NUT 111AY; NPB 101 recommended. Critical analysis of the development of nutritional recommendations for humans. Topics include: history of modern recommendations, development of the Recommended Dietary Allowance (RDA) and other food guides; the Dietary Reference Intakes (DRI); administrative structure of regulatory agencies pertinent to nutrition recommendations; introduction to scientific methods used to determine the recommendations; food labeling laws; nutrition recommendations in other countries and cultures. Not open for credit to students who have completed NUT 111. Effective: 2019 Fall Quarter.

NUT 112—Nutritional Assessment (4)

Lecture—3 hour(s); Laboratory—3 hour(s). Prerequisite(s): ((ABI 102, ABI 103) or (BIS 102, BIS 103)); NUT 111AY; (STA 013 or STA 013Y or PLS 120). Restricted to upper division or graduate level Nutrition students only. Methods of human nutritional assessment, including dietary, anthropometric, biochemical methods. Principles of precision, accuracy, and interpretation of results for individuals and populations. GE credit: QL, SE. Effective: 2018 Spring Quarter.

NUT 113—Principles of Epidemiology in Nutrition (4)

Lecture/Discussion—4 hour(s). Prerequisite(s): STA 013 or STA 013Y or PLS 120 or STA 100. Introduction to epidemiology as it relates to the field of nutrition, including study design, principles of epidemiologic inference, criteria for causality, and interpreting measures of disease risk. GE credit: QL, SE. Effective: 2018 Fall Quarter.

NUT 114—Developmental Nutrition (4)

Lecture—4 hour(s). Prerequisite(s): ABI 102; ABI 103; (NUT 111AV or NUT 111AY); NUT 111B. Role of nutritional factors in embryonic and postnatal development. GE credit: SE. Effective: 2017 Winter Quarter.

NUT 115—Animal Nutrition (4)

Lecture—3 hour(s); Laboratory—3 hour(s). Prerequisite(s): CHE 008B or CHE 118B; or Consent of Instructor. Comparative differences among animals in digestion and metabolism of nutrients. Nutrient composition of feeds, digestive systems, digestion, absorption, feeding strategies. GE credit: OL, QL, SE, SL, VL, WE. Effective: 2017 Winter Quarter.

NUT 116A—Clinical Nutrition (3)

Lecture—3 hour(s). Prerequisite(s): (NUT 111AV or NUT 111AY); NUT 111B; NUT 112; NPB 101; Or the equivalent to NPB 101. Biochemical and physiological bases for therapeutic diets. Problems in planning diets for normal and pathological conditions. GE credit: SE. Effective: 2016 Fall Quarter.

NUT 116AL—Clinical Nutrition Practicum (3)

Lecture—1 hour(s); Laboratory—3 hour(s); Discussion—1 hour(s). Prerequisite(s): NUT 116A (can be concurrent). Fundamental principles of planning and evaluating therapeutic diets and patient education for pathological conditions covered in 116A. GE credit: SE. Effective: 1997 Fall Quarter.

NUT 116B—Clinical Nutrition (3)

Lecture—3 hour(s). Prerequisite(s): (NUT 111AV or NUT 111AY); NUT 111B; NUT 112; NPB 101; Or the equivalent to NPB 101. Biochemical and physiological bases for therapeutic diets. Problems in planning diets for normal and pathological conditions. GE credit: SE. Effective: 2017 Winter Quarter.

NUT 116BL—Clinical Nutrition Practicum (3)

Lecture—1 hour(s); Laboratory—3 hour(s); Discussion—1 hour(s). Prerequisite(s): NUT 116AL; NUT 116B (can be concurrent). Fundamental principles of planning and evaluating therapeutic diets and patient education for pathological conditions covered in NUT 116B. Continuation of NUT 116AL. GE credit: SE. Effective: 2017 Winter Quarter.

NUT 117—Experimental Nutrition (6)

Lecture—3 hour(s); Laboratory—6 hour(s); Extensive Writing. Prerequisite(s): (NUT 111AV or NUT 111AY); NUT 111B; NUT 112; BIS 102; BIS 103; MCB 120L or other laboratory course in biochemistry is recommended. Methods of assessing nutritional status. Application of chemical, microbiological, chromatographic and enzymatic techniques to current problems in nutrition. GE credit: SE, WE. Effective: 2016 Fall Quarter.

NUT 118—Community Nutrition (4)

Lecture—4 hour(s). Prerequisite(s): NUT 116A; (NUT 111AV or NUT 111AY); NUT 111B. Nutrition problems in contemporary communities and of selected target groups in the United States and in developing countries. Nutrition programs and policy, principles of nutrition education. GE credit: SE, SL. Effective: 2017 Winter Quarter.

NUT 119A—International, Community-Based Nutritional Assessment (1)

Lecture/Discussion—1 hour(s). Prerequisite(s): NUT 112 (can be concurrent); and Consent of Instructor. Issues and problems related to community-based nutritional assessment in a low-income country, major nutritional problems in low-income countries; ethical issues in human investigation; survey design, data collection techniques, and data analysis; preparation for international travel; cross-cultural communication, health, and safety while living abroad. Effective: 2002 Spring Quarter.

NUT 119B—International, Community-Based Nutritional Assessment (6)

Lecture—2 hour(s); Fieldwork—12 hour(s). Prerequisite(s): NUT 119A; and Consent of Instructor. Restricted to upper division students in Clinical Nutrition, Community Nutrition, Dietetics, and Nutrition Science. A six-week summer course in Peru. Implementation of a community-based nutritional assessment survey, including development of the survey instrument, selection. Taught abroad. Effective: 2002 Summer Special Session.

NUT 120AN—Nutritional Anthropology (4)

Lecture—3 hour(s); Discussion—1 hour(s). Prerequisite(s): NUT 010 and ANT 002 recommended. Nutritional anthropology from historical and contemporary perspectives; the anthropological approach to food and diet; field work methods; case histories that explore food patterns and their nutritional implications. GE credit: SE, SS. Effective: 2017 Spring Quarter.

NUT 120BN—Nutritional Geography (4)

Lecture—3 hour(s); Discussion—1 hour(s). Nutritional geography from historical and contemporary perspectives; the geographical approach to food and diet; cultural and environmental factors that influence dietary practices; food-related landscapes and patterns. GE credit: SE, SS. Effective: 2016 Fall Quarter.

NUT 122—Ruminant Nutrition & Digestive Physiology (4)

Lecture—3 hour(s); Laboratory—3 hour(s). Prerequisite(s): (ABI 103 or BIS 103); BIS 002A; BIS 002B; BIS 002C; (ANS 100 or NPB 101); or Consent of Instructor. MAT 016B recommended. Study of nutrient utilization as influenced by the unique aspects of digestion and fermentation in ruminants, both domestic and wild. Laboratories include comparative anatomy, feed evaluation, digestion kinetics using fistulated cows, computer modeling, and microbial exercises. GE credit: QL, SE. Effective: 2017 Spring Quarter.

NUT 123—Comparative Animal Nutrition (3)

Lecture—3 hour(s). Prerequisite(s): ABI 103 or BIS 103. Restricted to upper division and graduate level students. Comparative nutrition of animals; including laboratory, companion, zoo, and wild, animals. Digestion and metabolic adaptations required for animal species to consume diverse diets. Relation of nutrition to metabolic adaptations and physiological states, including growth, reproduction, and diseases. GE credit: SE. Effective: 2017 Spring Quarter.

NUT 123L—Comparative Animal Nutrition Laboratory (1)

Laboratory—3 hour(s). Prerequisite(s): ABI 103 or BIS 103. Laboratory exercises leading to written reports on establishment of nutritional requirements and formulation of complete diets for laboratory, companion, zoo and wild animals. Effective: 2017 Spring Quarter.

NUT 124—Nutrition & Feeding of Finfishes (3)

Lecture—3 hour(s). Prerequisite(s): BIS 103 or ABI 103. Principles of nutrition and feeding of fishes under commercial situations; implication of fish nutrition to the environment and conservation of endangered species. GE credit: QL, SE, SL. Effective: 2016 Fall Quarter.

NUT 127—Environmental Stress & Development in Marine Organisms (10)

Lecture—4 hour(s); Laboratory—12 hour(s); Discussion—2 hour(s). Prerequisite(s): ETX 101 or BIS 102 or BIS 104; or equivalent course. ETX 114A or NUT 114 recommended. Taught at Bodega Marine Laboratory. Effects of environmental and nutritional stress, including pollutants, on development and function in embryos and larvae of marine organisms. Emphasis on advanced experimental methods. (Same course as ETX 127.) GE credit: OL, QL, SE, SL, VL, WE. Effective: 2002 Summer Session 1.

NUT 129—Journalistic Practicum in Nutrition (3)

Lecture—2 hour(s); Discussion—1 hour(s). Prerequisite(s): (NUT 111AV or NUT 111AY); NUT 111B; or Consent of Instructor. A course in written or oral expression. Critical analysis and discussion of current, controversial issues in nutrition; use of journalistic techniques to interpret scientific findings for the lay public. Students required to write several articles for campus media. May be repeated up to 1 time(s). GE credit: OL, SE, SL, WE. Effective: 2017 Spring Quarter.

NUT 130—Experiments in Nutrition: Design & Execution (2)

Laboratory—6 hour(s). Prerequisite(s): Consent of Instructor. NUT 111AV, NUT 111AY, NUT 111B or NUT 114 recommended. Experiments in current nutritional problems. Experimental design: students choose project and, independently or in groups of two-three, design a protocol, complete the project, and report findings. May be repeated up to 6 time(s) with consent of instructor (limit of three times per instructor). GE credit: SE. Effective: 2016 Fall Quarter.

NUT 141—Comparative Animal Nutrition & Metabolism (4)

Lecture—3 hour(s); Discussion—1 hour(s). Prerequisite(s): ABI 103; (NUT 115 or NUT 116A or NUT 116B); or Consent of Instructor. Foundational principles of nutrition, nutrient composition of feed ingredients, digestive systems of domestic and exotic animals, nutrient digestibility and absorption, nutrient metabolism. GE credit: SE, SL, WE. Effective: 2018 Fall Quarter.

NUT 142—Companion Animal Nutrition (4)

Lecture—4 hour(s). Prerequisite(s): ABI 102; NUT 115; recommend ANS 042. Applied companion animal nutrition, focused primarily on dogs and cats. Nutritional considerations specifically related to health and longevity of companion animals. Evaluation of commercial and prescription-type diets with an emphasis on functional ingredients. Impact of physiological status and disease on nutrient requirements of the animal and nutrient utilization in the body. Effective: 2019 Fall Quarter.

NUT 190—Proseminar in Nutrition (1)

Seminar—1 hour(s). Prerequisite(s): (NUT 111AV or NUT 111AY); NUT 111B. Restricted to senior standing. Discussion of human nutrition problems. Each term will involve a different emphasis among experimental, clinical, and dietetic problems of community, national and international scope. May be repeated up to 2 time(s) with consent of instructor. GE credit: OL, SE, VL. Effective: 2016 Fall Quarter.

NUT 190C—Nutrition Research Conference (1)

Discussion—1 hour(s). Prerequisite(s): Consent of Instructor. Upper division standing in Nutrition or related biological science. Introduction to research findings and methods in nutrition. Presentation and discussion of research by faculty and students. May be repeated for credit. (P/NP grading only.) GE credit: SE. Effective: 1997 Winter Quarter.

NUT 192—Internship (1-12)

Internship—3-36 hour(s). Prerequisite(s): Consent of Instructor. One upper division course in nutrition. Work experience on or off campus in practical application of nutrition, supervised by a faculty member. (P/NP grading only.) Effective: 1997 Winter Quarter.

NUT 197T—Tutoring in Nutrition (1-2)

Discussion/Laboratory—3-6 hour(s). Prerequisite(s): Consent of Instructor. Nutrition Science, Clinical Nutrition or related major. Tutoring of students in nutrition courses, assistance with discussion groups or laboratory sections, weekly conference with instructor in charge of course: written evaluations. May be repeated for credit when tutoring a different course. (P/NP grading only.) Effective: 2016 Fall Quarter.

NUT 198—Directed Group Study (1-5)

Variable. Prerequisite(s): Consent of Instructor. (P/NP grading only.) Effective: 1997 Winter Quarter.

NUT 199—Special Study for Advanced Undergraduates (1-5)

Variable. Prerequisite(s): Consent of Instructor. (P/NP grading only.) GE credit: SE. Effective: 1997 Winter Quarter.

NUT 219A—International Nutrition (3)

Lecture—3 hour(s). Prerequisite(s): NUT 111AV; NUT 111AY; Graduate Standing; undergraduates only admitted with consent of instructor. Epidemiology, etiology, and consequences of undernutrition, with particular focus on the nutritional problems of children and women in low income populations. Effective: 2018 Spring Quarter.

NUT 219B—International Nutrition (3)

Lecture—3 hour(s). Prerequisite(s): NUT 219A. Intervention programs to prevent or ameliorate nutritional problems in low-income populations. Planning, implementing, and evaluating nutrition intervention programs. Effective: 2004 Fall Quarter.

NUT 230—Experiments in Nutrition: Design & Execution (2)

Laboratory—6 hour(s). Prerequisite(s): Consent of Instructor. NUT 201, NUT 202, NUT 203, NUT 204, or the equivalent recommended. Student-selected projects to enhance laboratory skills. Independently, or in groups of two-three students, design a protocol, carry out the project, analyze the results and report the findings. May be repeated up to 6 time(s) with consent of instructor (limit of three times per instructor). Effective: 1999 Fall Quarter.

NUT 250—Metabolic Homeostasis (3)

Lecture—2 hour(s); Discussion—1.5 hour(s). Prerequisite(s): Passing the Nutrition Graduate Group Preliminary Examination or consent of instructor. Preference given to students in advanced standing in the Nutrition Graduate Group. Regulatory mechanisms of carbohydrate, lipid, and protein homeostasis; mechanisms of metabolic enzyme regulation and of the metabolic hormones; homeostatic mechanisms and interactions; fuel-fuel interactions; nutrition-energy balance. Effective: 2001 Spring Quarter.

NUT 251—Nutrition & Immunity (2)

Lecture/Discussion—2 hour(s). Prerequisite(s): PMI 126; ABI 102; MMI 107; Or the equivalent to MMI 107. Cellular and molecular mechanisms underlying interactions of nutrition and immune function, including modulation of immunocompetence by diet and effects of immune responses on nutritional needs. Lectures and discussion explore implications for resistance to infection, autoimmunity and cancer. Effective: 2000 Winter Quarter.

NUT 252—Nutrition & Development (3)

Lecture—3 hour(s). Prerequisite(s): NUB 210A, NUB 210B, and NUB 210C recommended. Relationship of nutrition to prenatal and early postnatal development. Effective: 2018 Spring Quarter.

NUT 253—Control of Energy Balance & Body Weight (3)

Lecture—2 hour(s); Discussion—1 hour(s). Prerequisite(s): Consent of Instructor. Comprehensive study of the biochemical, nutritional and physiological mechanisms controlling food intake, body composition and energy expenditure. Subject matter will be approached through lectures and discussions where students and staff will critically evaluate the literature. Effective: 2016 Spring Quarter.

NUT 254—Applications of Systems Analysis in Nutrition (3)

Lecture—2 hour(s); Discussion—1 hour(s). Prerequisite(s): NUT 202; Or the equivalent. Quantitative aspects of digestion and metabolism; principles of systems analysis. Evolution of models of energy metabolism as applied in current feeding systems. Critical evaluations of mechanistic models used analytically in support of nutritional research. Effective: 1997 Winter Quarter.

NUT 258—Field Research Methods in International Nutrition (3)

Lecture/Discussion—3 hour(s). Prerequisite(s): Graduate standing or consent of instructor. Issues and problems related to implementation of nutrition field research in less-developed countries, including ethics; relationships with local governments, communities, and scientists; data collection techniques and quality assurance; field logistics; research budgets; and other administrative and personal issues. Effective: 1997 Winter Quarter.

NUT 259—Nutrition & Aging (2)

Lecture—2 hour(s). Prerequisite(s): NUT 201; NUT 202; NUT 203; NUT 204; Three of the four courses. Interaction between nutrition and aging. Topics include physiological/biochemical basis of aging, age-related changes affecting nutritional requirements, nutrition and mortality rate, assessment of nutritional status in the elderly, and relationship between developmental nutrition and the rate of aging. Effective: 1997 Fall Quarter.

NUT 270—Scientific Ethics in Biomedical Studies: Emphasis on Nutrition (3)

Lecture—1 hour(s); Discussion—1 hour(s); Term Paper. Restricted to graduate standing or consent of instructor. Scientific ethics in biomedical studies, especially nutrition. Discussion and case study presentations on scientific integrity, fraud, misconduct, conflict of interest, human and animal research protections. Not open for credit to students who have completed NUT 492B. Effective: 2003 Spring Quarter.

NUT 290—Beginning Nutrition Seminar (2)

Lecture/Discussion—1 hour(s); Seminar—1 hour(s). Prerequisite(s): First-year graduate standing. Discussion and critical evaluation of topics in nutrition with emphasis on literature review and evaluation in this field. Students give oral presentations on relevant topics. Effective: 1997 Fall Quarter.

NUT 290C—Research Conference (1)

Discussion—1 hour(s). Prerequisite(s): Consent of Instructor. Graduate standing. Major professors lead research discussions with their graduate students. Research papers are reviewed and project proposals presented and evaluated. Format will combine seminar and discussion style. (S/U grading only.) Effective: 1997 Winter Quarter.

NUT 291—Advanced Nutrition Seminar (1)

Seminar—1 hour(s). Prerequisite(s): Second-year graduate standing. Advanced topics in nutrition research. Multiple sections may be taken concurrently for credit. May be repeated for credit. (S/U grading only.) Effective: 1997 Winter Quarter.

NUT 293A—Current Topics in Obesity, Food Intake & Energy Balance (3)

Lecture—1 hour(s); Seminar—1 hour(s); Discussion—1 hour(s). Prerequisite(s): NUT 129; Or graduate standing; undergraduates with upper division standing with at least one writing course may enroll with consent of instructor. Current research and its evaluation. Principles of experimental design and scientific background for given article. Articles summarized for posting on Internet for use by healthcare professionals. May be repeated for credit with consent of instructor. Effective: 1997 Fall Quarter.

NUT 293B—Current Topics in Obesity, Food Intake, & Energy Balance with Special Topics (3)

Lecture—1 hour(s); Seminar—1 hour(s); Discussion—1 hour(s). Prerequisite(s): NUT 129; Graduate standing. Undergraduates with upper division standing with at least one writing course may enroll with consent of instructor. A continuation of NUT 293A, with additional special topics. May be repeated up to 3 time(s) with consent of instructor. Effective: 1997 Fall Quarter.

NUT 294A—Current Topics in Developmental Nutrition (2)

Seminar—2 hour(s). Prerequisite(s): NUT 114 or NUT 252; or Consent of Instructor. Restricted to graduate standing or consent of instructor. Effects of nutrition on embryology, morphogenesis, and developmental mechanisms. May be repeated for credit when topic differs. Effective: 2004 Winter Quarter.

NUT 297T—Supervised Teaching in Nutrition (1-3)

Variable. Prerequisite(s): Graduate standing in nutrition or consent of instructor. Practical experience in teaching nutrition at the university level; curriculum design and evaluation; preparation and presentation of material. Assistance in laboratories, discussion sections, and evaluation of student work. (S/U grading only.) Effective: 1997 Winter Quarter.

NUT 298—Group Study (1-5)

Variable. Prerequisite(s): Consent of Instructor. Effective: 1997 Winter Quarter.

NUT 299—Research (1-12)

Variable. Prerequisite(s): Consent of Instructor. (S/U grading only.) Effective: 1997 Winter Quarter.

NUT 492A—Professionalism: An Academic Perspective (2)

Lecture/Discussion—2 hour(s). Prerequisite(s): Graduate standing. For graduate students in their initial quarter of residence. Professionalism topics are presented and examples drawn from both the biological and social sciences. Effective: 1997 Fall Quarter.

NUT 492C—Grant Writing (3)

Lecture—1.5 hour(s); Discussion—1.5 hour(s). Prerequisite(s): Graduate standing in Nutrition or consent of instructor. Preparation of grants for governmental agencies (particularly NIH and USDA) and private foundations. Students will write a research grant or fellowship application. May be repeated up to 1 time(s) with consent of instructor. Effective: 1997 Fall Quarter.

OBG—Obstetrics & Gynecology

Courses in OBG:

OBG 192—Shifa Clinic Student Volunteer (1)

Conference—2 hour(s); Clinical Activity—8 hour(s); Discussion—2 hour(s). Open to undergraduates only. Supervised work experience in Obstetrics & Gynecology. May be repeated up to 3 time(s). (P/NP grading only.) Effective: 2003 Fall Quarter.

OBG 194—Shifa Clinic Student Volunteer (1)

Conference—1 hour(s); Clinical Activity—6 hour(s). Prerequisite(s): Consent of Instructor. The applications will be available for students. Selection of students will be made by selection committee of medical students coordinators and the IOR. Attend clinic every third Sunday performing duties of receptionist, intake, translation, monitor. Students attend a meeting immediately after end of clinic. There is a mandatory Monday meeting with Clinic co-directors. Students are expected to participate on various committees. May be repeated up to 3 time(s). (P/NP grading only.) Effective: 2008 Fall Quarter.

OBG 198—Directed Group Study (1-5)

Variable. Prerequisite(s): Consent of Instructor. (P/NP grading only.) Effective: 1997 Winter Quarter.

OBG 199—Special Study for Advanced Undergraduates (1-5)

Variable. Prerequisite(s): Consent of Instructor. (P/NP grading only.) Effective: 1997 Winter Quarter.

OBG 220—Genetics of Reproduction (3)

Lecture/Discussion—3 hour(s). Introduction to genetics of mammalian reproduction for domestic species, species used in research, and the human. Mendelian and non-Mendelian modes of inheritance. Research paper. Effective: 2000 Winter Quarter.

OBG 290—Current Topics in Research (1)

Seminar—1 hour(s). Prerequisite(s): Consent of Instructor. Graduate standing. Selected topics in reproductive biology. (S/U grading only.) Effective: 1997 Winter Quarter.

OBG 298—Group Study (1-5)

Variable. Prerequisite(s): Consent of Instructor. Graduate standing. Effective: 1997 Winter Quarter.

OBG 299—Research (1-12)

Variable. Prerequisite(s): Consent of Instructor. Graduate standing. (S/U grading only.) Effective: 1997 Winter Quarter.

OBG 430—Obstetrics & Gynecology Clerkship (3-12)

Clinical Activity—45 hour(s). Prerequisite(s): Approval by School of Medicine Committee on Student Progress. Obstetrics, gynecologic and gynecological oncology experience in the delivery room, operating room, clinics and wards at UCDMC and affiliated sites. Rounds, conferences, interactive student presentations and seminars ongoing. (H/P/F grading only.) Effective: 2020 Spring Quarter.

OBG 430F—SJVP OBGYN Clerkship at UCSF (6-12)

Clinical Activity—45 hour(s). Prerequisite(s): Approval by School of Medicine Committee on Student Progress. Obstetrics, gynecologic and gynecological oncology experience in the delivery room, operating room, clinics and wards at UCSF Fresno. Rounds, conferences, interactive student presentations and seminars ongoing. (H/P/F grading only.) Effective: 2017 Spring Quarter.

OBG 430R—Rural PRIME OBGYN Longitudinal Clerkship (2)

Clinical Activity—45 hour(s). Prerequisite(s): Consent of Instructor. Obstetrics and Gynecology Longitudinal Integrated Clerkship for the Rural PRIME Program. (H/P/F grading only.) Effective: 2017 Spring Quarter.

OBG 430RA—Rural PRIME OBGYN Longitudinal Clerkship (3)

Clinical Activity—45 hour(s). Prerequisite(s): Consent of Instructor. Obstetrics and Gynecology Longitudinal Integrated Clerkship for the Rural PRIME Program. (H/P/F grading only.) Effective: 2017 Spring Quarter.

OBG 430RB—Rural PRIME OBGYN Longitudinal Clerkship (3)

Clinical Activity—45 hour(s). Prerequisite(s): Consent of Instructor. Obstetrics and Gynecology Longitudinal Integrated Clerkship for the Rural PRIME Program. (H/P/F grading only.) Effective: 2017 Spring Quarter.

OBG 430RC—Rural PRIME OBGYN Longitudinal Clerkship (3)

Clinical Activity—45 hour(s). Prerequisite(s): Consent of Instructor. Obstetrics and Gynecology Longitudinal Integrated Clerkship for the Rural PRIME Program. (H/P/F grading only.) Effective: 2017 Spring Quarter.

OBG 430RD—Rural PRIME OBGYN Longitudinal Clerkship (1)

Clinical Activity—45 hour(s). Prerequisite(s): Consent of Instructor. Obstetrics and Gynecology Longitudinal Integrated Clerkship for the Rural PRIME Program. (H/P/F grading only.) Effective: 2017 Spring Quarter.

OBG 439D—Directed Clinical Studies in OBGYN (1-12)

Clinical Activity—40 hour(s). Prerequisite(s): Consent of Instructor. Individual directed studies in extended preparation for modified curriculum or to complete a clinical rotation following a leave of absence. May be repeated for credit. (P/F grading only.) Effective: 2011 Spring Quarter.

OBG 439R—Directed Studies in OBGYN (1-12)

Clinical Activity—30 hour(s); Independent Study—10 hour(s). Prerequisite(s): Consent of Instructor. Individual directed studies in extended preparation for remediation of all or part of clinical rotation. Clinical studies to accommodate and satisfy remedial work as directed by the Committee on Student Progress and approved by the course IOR. May be repeated for credit. (P/F grading only.) Effective: 2011 Summer Quarter.

OBG 460—Away Clinical Elective in OBGYN (3-18)

Clinical Activity—30 hour(s); Variable—10 hour(s). Prerequisite(s): OBG 430; and Consent of Instructor. Or the equivalent; third- or fourth-year medical student. Active participation in inpatient and/or outpatient care. Attendance at specified conferences; student-faculty member informal conferences. May be repeated for credit. (H/P/F grading only.) Effective: 2010 Spring Quarter.

OBG 465—Away Acting Internship in OBGYN (3-18)

Clinical Activity—40 hour(s); Variable—10 hour(s). Prerequisite(s): OBG 430; and Consent of Instructor. Other third-year core clerkships. Work at the level of a sub intern in Inpatient and/or Outpatient settings. Students are expected to provide direct patient management. (H/P/F grading only.) Effective: 2010 Summer Quarter.

OBG 470—Gynecologic Oncology Acting Internship (3-18)

Clinical Activity—40 hour(s); Variable—10 hour(s). Prerequisite(s): OBG 430; and Consent of Instructor. The third-year core clerkships. Four week elective primarily involves direct inpatient management of women on the UCDMC Gyn/Onc service. Students will be acting at the level of a sub-intern and will work under the supervision of house staff, fellows, and attendings. May be repeated up to 99 unit(s). (H/P/F grading only.) Effective: 2010 Spring Quarter.

OBG 471—Ambulatory Gynecology & Obstetrics Elective (3-18)

Clinical Activity—35 hour(s). Prerequisite(s): OBG 430; and Consent of Instructor. Third- or fourth-year Medical Student. Conduct examinations, present patients and discuss treatment regimens at the following ambulatory clinics: General Obstetrics & Gynecology, New and Return Obstetrics (including Post-Partum), High-Risk Obstetrics, Pre-Operative Clinic, and other sub-specialty clinics as assigned. May be repeated for credit. (H/P/F grading only.) Effective: 2010 Summer Quarter.

OBG 472—Family Planning & Reproductive Health (1-9)

Clinical Activity—30 hour(s); Seminar—5 hour(s). Prerequisite(s): OBG 430; and Consent of Instructor. Elective focuses on the Gynecologic Subspecialty of Family Planning. Counseling and provision of contraceptive methods, experience with pelvic ultrasounds, management of spontaneous, inevitable and induced abortion and post-abortion care by both surgical and medical techniques are included. May be repeated for credit. (H/P/F grading only.) Effective: 2019 Spring Quarter.

OBG 475—Labor & Delivery Acting Internship (3-18)

Clinical Activity—40 hour(s); Variable—10 hour(s). Prerequisite(s): OBG 430; and Consent of Instructor. The third-year core clerkships. Four week elective primarily involves direct inpatient management of women on the UCDMC L&D unit. Students will be acting at the level of a sub-intern and will work under the supervision of house staff, fellows, and attendings. May be repeated for credit. (H/P/F grading only.) Effective: 2010 Spring Quarter.

OBG 480—The Birthing Process (1)

Lecture/Discussion—1 hour(s). Open only to UC Davis medical students. Training to assist in the birthing process as a Doula. Topics not covered in the summer course. (S/U grading only.) Effective: 2000 Fall Quarter.

OBG 493—Gender Specific Medicine SSM (6)

Lecture—5 hour(s); Lecture/Lab—10 hour(s); Laboratory—16 hour(s); Clinical Activity—4 hour(s). Prerequisite(s): Consent of Instructor. Restricted to UC Davis School of Medicine students only. Special Studies Module, a four-week course on the topic: Basic Science Principles Relating to Gender Specific Medicine. (Same course as CAR 493.) (H/P/F grading only.) Effective: 2007 Spring Quarter.

OBG 494—Shifa Clinic (1-12)

Clinical Activity—8 hour(s). Prerequisite(s): Medical student in good standing. Restricted to Medical student only. Interaction with patients from multiple ethnic and cultural backgrounds under the direct supervision of a physician/preceptor. Women's health issues and primary care issues in a diversely mixed population. May be repeated for credit. (P/F grading only.) Effective: 2019 Winter Quarter.

OBG 494A—Shifa Clinic (1)

Clinical Activity—8 hour(s). Prerequisite(s): Consent of Instructor. Medical student in good standing. Interaction with patients from multiple ethnic and cultural backgrounds under the direct supervision of a physician/preceptor. Women's health issues and primary care issues in a diversely mixed population. (H/P/F grading only.) Effective: 2012 Summer Quarter.

OBG 494B—Shifa Clinic (1)

Clinical Activity—8 hour(s). Prerequisite(s): Consent of Instructor. Medical student in good standing. Interaction with patients from multiple ethnic and cultural backgrounds under the direct supervision of a physician/preceptor. Women's health issues and primary care issues in a diversely mixed population. (H/P/F grading only.) Effective: 2012 Summer Quarter.

OBG 494C—Shifa Clinic (1)

Clinical Activity—8 hour(s). Prerequisite(s): Consent of Instructor. Medical student in good standing. Interaction with patients from multiple ethnic and cultural backgrounds under the direct supervision of a physician/preceptor. Women's health issues and primary care issues in a diversely mixed population. (H/P/F grading only.) Effective: 2012 Summer Quarter.

OBG 498—Group Study (1-5)

Variable—3-15 hour(s). Prerequisite(s): Consent of Instructor. Explore particular topics in-depth in Obstetrics and Gynecology. Extensive contact with and oversight by instructor. May be repeated for credit. (H/P/F grading only.) Effective: 2004 Fall Quarter.

OBG 499—Research in Obstetrics & Gynecology (2-12)

Clinical Activity; Variable. Prerequisite(s): Consent of Instructor. Fourth-year medical student. Research in Obstetrics and Gynecology arranged with instructor. May be repeated up to 8 time(s). (H/P/F grading only.) Effective: 2006 Fall Quarter.

OPT—Ophthalmology

Courses in OPT:

OPT 192—Research Internship (1-12)

Internship—3-36 hour(s). Prerequisite(s): Upper division standing; approval of project prior to period of internship by preceptor. Supervised work experience in ophthalmology research. Research staff in Ophthalmology have programs in cell biology, electron microscopy, biochemistry, immunology and visual psychophysics. (P/NP grading only.) Effective: 1997 Winter Quarter.

OPT 199—Special Study for Advanced Undergraduates (1-4)

Variable. Prerequisite(s): Consent of Instructor. (P/NP grading only.) Effective: 1997 Winter Quarter.

OPT 299—Basic Research in Visual Science (1-12)

Variable. Prerequisite(s): Consent of Instructor. (S/U grading only.) Effective: 1997 Winter Quarter.

OPT 442—Introduction to Ophthalmology (3)

Clinical Activity—40 hour(s). Prerequisite(s): Third- or fourth-year Medical Student with consent of instructor; consent of advisor; completion of third-year clerkships in Medicine and Surgery; consult Course Coordinator. Ocular disease diagnosis and management relevant to the clinical practice of future primary care physicians and others. (H/P/F grading only.) Effective: 2010 Summer Quarter.

OPT 465—Advanced Subspecialty Ophthalmology (3-6)

Clinical Activity—40 hour(s); Variable—40 hour(s). Prerequisite(s): IMD 430; and Consent of Instructor. Medical students in third or fourth year. Participation in disciplines of neuro-ophthalmology/pediatric ophthalmology, diseases of the cornea and external eye, glaucoma and retina. (H/P/F grading only.) Effective: 2010 Summer Quarter.

OPT 498—Group Study (1-3)

Variable. Prerequisite(s): Medical students with consent of instructor. Directed reading and discussion. (H/P/F grading only.) Effective: 1997 Winter Quarter.

OPT 499—Research in Ophthalmology (1-12)

Variable—3-36 hour(s). Prerequisite(s): Medical students with consent of instructor. Individual research on selected topics in optics and visual physiology, cornea and external disease. May be repeated for credit. (H/P/F grading only.) Effective: 2017 Fall Quarter.

OSU—Orthopaedic Surgery

Courses in OSU:

OSU 099—Special Studies for Undergraduates (1-4)

Variable. Prerequisite(s): Consent of Instructor. Lower division standing. (P/NP grading only.) Effective: 1997 Winter Quarter.

OSU 199—Special Study for Advanced Undergraduates (1-5)

Variable. Prerequisite(s): Consent of Instructor. Upper division standing. (P/NP grading only.) Effective: 1997 Winter Quarter.

OSU 421—The Musculoskeletal System (2.5)

Lecture/Discussion—4 hour(s); Discussion—2 hour(s). Prerequisite(s): Consent of committee on student progress. Restricted to Medical students only. Basic and clinical science of orthopaedic surgery and rheumatology. (P/NP grading only.) Effective: 2012 Summer Quarter.

OSU 428—Ambulatory & Emergency Room Orthopaedics (3-6)

Clinical Activity. Prerequisite(s): Consent of Instructor. Fourth-year medical student in good academic standing. Limited enrollment. Introduction to general orthopaedic problems and trauma and their management in an outpatient environment, including the emergency room. Conduct orthopaedic examinations, present patients to staff rotating through trauma, hand, pediatrics, adult and foot clinics. (H/P/F grading only.) Effective: 1997 Winter Quarter.

OSU 462—Community Preceptorship (3-6)

Clinical Activity. Prerequisite(s): Consent of Instructor. Fourth-year medical student in good academic standing; consent of instructor. Acquaints student with private practice of orthopaedics in the community setting. Opportunity to observe and assist private practitioners in office, emergency room, operating room and inpatient environment. Student must provide own transportation. (H/P/F grading only.) Effective: 1997 Winter Quarter.

OSU 464—Acting Internship (6)

Clinical Activity. Prerequisite(s): Consent of Instructor. Fourth-year medical student in good academic standing. Rotation designed to increase basic knowledge of musculoskeletal abnormalities at clinical level. Attention focused on selective case material. For those students who demonstrate proficiency, responsibility will be similar to that of intern. May be repeated for credit. (H/P/F grading only.) Effective: 1997 Winter Quarter.

OSU 465—Externship in Advanced Orthopaedics (3-6)

Clinical Activity—40 hour(s). Prerequisite(s): Consent of Instructor. Fourth-year medical student in good academic standing. Advanced Orthopaedic rotation done at an approved institution. Topics may include Trauma, Sports, Spine, Pediatrics, Joint and/or Foot/Ankle. Students are expected to perform at the level of an Intern. May be repeated for credit. (H/P/F grading only.) Effective: 2013 Summer Quarter.

OSU 466—Away Clerkship in Orthopaedics (3-9)

Clinical Activity—40 hour(s). Orthopaedic advanced clerkship at an approved institution. (H/P/F grading only.) Effective: 2019 Spring Quarter.

OSU 480—Insights in Orthopaedic Surgery (1-3)

Clinical Activity—3-9 hour(s). Prerequisite(s): Consent of Instructor. First- and second-year medical students in good academic standing. Exposure to aims, methods and procedures in orthopaedic surgery via attendance at grand rounds, patient care conferences, and group discussions. (H/P/F grading only.) Effective: 1997 Winter Quarter.

OSU 481—History of Medicine for Medical Students (1.5)

Lecture/Discussion—2.5 hour(s). Prerequisite(s): Third- or fourth-year students in the School of Medicine or second-year students with consent of instructor. Overview of the history of medicine throughout the world to introduce medical students to landmark accomplishments and key figures in the development of health care and to provide an expanded philosophical perspective on the everchanging field of modern medicine. (H/P/F grading only.) Effective: 1997 Winter Quarter.

OSU 499—Orthopaedics Research (1-12)

Clinical Activity. Prerequisite(s): Consent of Instructor. Third- or fourth-year medical student in good academic standing. Laboratory or clinical investigation on selected topics. May be repeated for credit. (H/P/F grading only.) Effective: 1997 Winter Quarter.

OTO—Otolaryngology

Courses in OTO:

OTO 192—Internship in Otolaryngology (1-12)

Internship—3-36 hour(s). Prerequisite(s): Upper division standing; approval of project prior to period of internship by preceptor. Supervised work experience in otolaryngology and related fields. Final project report. (P/NP grading only.) Effective: 1997 Winter Quarter.

OTO 199—Special Study in Otolaryngology for Advanced Undergraduates (1-5)

Variable. Prerequisite(s): Advanced undergraduate with consent of instructor. (P/NP grading only.) Effective: 1997 Winter Quarter.

OTO 290C—Research Conference in Otolaryngology (1)

Lecture/Discussion—1 hour(s). Prerequisite(s): Graduate students; medical students; advanced undergraduates with consent of instructor. Presentation and discussion of faculty and student research in otolaryngology. (S/U grading only.) Effective: 1997 Winter Quarter.

OTO 291—Principles of Speech, Hearing & Equilibrium (3)

Lecture/Discussion—3 hour(s). Prerequisite(s): Graduate students; medical students; advanced undergraduates with consent of instructor. Presentations by faculty and guest lecturers on anatomy, physiology, and behaviors involved in speech production, hearing, and equilibrium. Each student expected to make one class presentation. Effective: 1997 Winter Quarter.

OTO 299—Individual Study in Otolaryngology for Advanced Graduate Students (1-12)

Variable. Prerequisite(s): Advanced graduate student with consent of instructor. (S/U grading only.) Effective: 1997 Winter Quarter.

OTO 403—Basic Principles of Reconstructive Surgery (1)

Lecture. Prerequisite(s): Third- or fourth-year medical student with consent of instructor. Formal presentations covering basic principles of reconstructive surgery, including wound healing, treatment of lacerations, skin and bone grafts, flaps, Z-plasties and revision of scars. Laboratory session utilizing animal tissues. Effective: 1997 Winter Quarter.

OTO 440—Otolaryngology Required Clerkship (3-9)

Clinical Activity—30 hour(s). Prerequisite(s): Consent by Committee on Student Evaluation and Promotion. Provide fundamental knowledge of otorhinolaryngologic diagnosis and principles, develop facility with basic ENT instruments, provide an understanding of treatment for ear, nose and throat problems and provide knowledge of what patients should be referred for otorhinolaryngologic care. May be repeated for credit. (H/P/F grading only.) Effective: 2011 Summer Quarter.

OTO 450—Fourth Year Otolaryngology Elective (6)

Clinical Activity—35 hour(s); Lecture—2 hour(s); Film Viewing—0.3 hour(s); Discussion—1 hour(s). Prerequisite(s): Consent of Instructor. Third- or fourth-year Medical Students. Participation in Otolaryngology Clinic and operating room. Evaluation and management of common Otolaryngologic diseases. (H/P/F grading only.) Effective: 2001 Fall Quarter.

OTO 460—Clinical Otolaryngology Elective (3-18)

Clinical Activity. Prerequisite(s): Third- and fourth-year medical students with consent of instructor; open to graduate students. Approved for graduate degree credit. Total involvement in clinical activities of the department. (H/P/F grading only.) Effective: 1997 Winter Quarter.

OTO 465—Away Acting Internship in Otolaryngology (3-6)

Clinical Activity. Externship rotation for Acting Internships in Otolaryngology. May be repeated for credit. (H/P/F grading only.) Effective: 2018 Spring Quarter.

OTO 490—Journal Seminar (1)

Lecture/Discussion—10 hour(s). Prerequisite(s): Fourth-year medical students with consent of instructor; open to graduate students. Approved for graduate degree credit. Monthly review of current otolaryngologic and related literature and recent advances. (H/P/F grading only.) Effective: 1997 Winter Quarter.

OTO 498—Individual or Group Study (1-5)

Lecture/Discussion—1-2 hour(s); Laboratory—1-4 hour(s). Prerequisite(s): Consent of Instructor. Introduction to basic research in Otolaryngology. Lectures, discussion and laboratory study of sensory and motor systems. (H/P/F grading only.) Effective: 1997 Winter Quarter.

OTO 499—Research (1-12)

Variable. Prerequisite(s): Medical students with consent of instructor; Open to graduate students. Approved for graduate degree credit. Participation in ongoing projects. May be repeated for credit. (H/P/F grading only.) Effective: 2017 Fall Quarter.

PAS—Physician Assistant Studies

Courses in PAS:

PAS 299—Research & Writing (1-4)

Extensive Writing/Discussion—3-12 hour(s). Prerequisite(s): Consent of Instructor. Open to Graduate Students in the Nursing Science and Health-Care Leadership Graduate Degree programs, or by consent of instructor. Nursing Science and Health-Care Leadership graduate program students conduct research and writing under the supervision of a faculty member. May be repeated for credit in different quarters, depending on the length of their program of study to complete their Master's Degree. (S/U grading only.) Effective: 2013 Fall Quarter.

PAS 400—Basic Clinical Skills (1-4)

Lecture/Lab—1-4 hour(s). Prerequisite(s): Consent of Instructor. Open to Graduate Students in the Nursing Science and Health-Care Leadership Graduate Degree programs, or by consent of instructor. Instruction and practice of the fundamental clinical skills necessary for patient care comprise this course with a primary focus on principles of effective communication in establishing the therapeutic provider-patient relationship. Effective: 2013 Summer Quarter.

PAS 401—Basic Clinical Skills (1-4)

Lecture/Discussion—1-4 hour(s). Prerequisite(s): Consent of Instructor. Open to Graduate Students in the Nursing Science and Health-Care Leadership Graduate Degree programs, or by consent of instructor. Continuation of focus on history taking and physical examination skills with advanced/specialized content. Effective: 2013 Fall Quarter.

PAS 410A—Advanced Clinical Skills (1-4)

Lecture/Lab—1-4 hour(s). Open to Graduate Students in the Nursing Science and Health-Care Leadership Graduate Degree programs, or by consent of instructor. Continuation of focus on history taking and physical examination skills with advanced/specialized content. Effective: 2014 Winter Quarter.

PAS 410B—Advanced Clinical Skills (1-4)

Lecture/Lab—1-4 hour(s). Prerequisite(s): Consent of Instructor. Open to Graduate Students in the Nursing Science and Health-Care Leadership Graduate Degree programs, or by consent of instructor. Continuation of focus on history taking and physical examination skills with advanced/specialized content related specialty systems. Effective: 2014 Spring Quarter.

PAS 410C—Advanced Clinical Skills (1-4)

Lecture/Lab—1-4 hour(s). Open to Graduate Students in the Nursing Science and Health-Care Leadership Graduate Degree programs, or by consent of instructor. Continuation of focus on history taking and physical examination skills with advanced/specialized content related to specified systems. Effective: 2014 Summer Quarter.

PAS 410D—Advanced Clinical Skills (1-4)

Lecture/Lab—1-4 hour(s). Prerequisite(s): Consent of Instructor. Open to Graduate Students in the Nursing Science and Health-Care Leadership Graduate Degree programs, or by consent of instructor. Continuation of focus on history taking and physical examination skills with advanced/specialized content related to specified systems. Effective: 2013 Fall Quarter.

PAS 410E—Advanced Clinical Skills (1-4)

Lecture/Lab—1-4 hour(s). Prerequisite(s): Consent of Instructor. Open to Graduate Students in the Nursing Science and Health-Care Leadership Graduate Degree programs, or by consent of instructor. Continuation of focus on history taking and physical examination skills with advanced/specialized content related to specified systems. Effective: 2013 Fall Quarter.

PAS 410F—Advanced Clinical Skills (1-4)

Lecture/Lab—1-4 hour(s). Prerequisite(s): Consent of Instructor. Open to Graduate Students in the Nursing Science and Health-Care Leadership Graduate Degree programs, or by consent of instructor. Continuation of focus on history taking and physical examination skills with advanced/specialized content related to specified systems. Effective: 2014 Spring Quarter.

PAS 410G—Advanced Clinical Skills (1-4)

Lecture/Lab—1-4 hour(s). Prerequisite(s): Consent of Instructor. Open to Graduate Students in the Nursing Science and Health-Care Leadership Graduate Degree programs. Continuation of focus on history taking and physical examination skills with advanced/specialized content related to specified systems. Effective: 2015 Fall Quarter.

PAS 440—Preparation for Clinical Practice (1-3)

Clinical Activity—36 hour(s). Prerequisite(s): Consent of Instructor. Open to Graduate Students in the Nursing Science and Health-Care Leadership Graduate Degree programs, or by consent of instructor. Students are placed in clinical settings and/or clinical simulation laboratories to observe and practice the integration of clinical skills with direct supervision by faculty. Effective: 2014 Spring Quarter.

PBG—Population Biology

Courses in PBG:

PBG 200A—Principles of Population Biology (5)

Lecture—3 hour(s); Discussion—2 hour(s). Prerequisite(s): PBG 231 (can be concurrent); and Consent of Instructor. PBG 231 required concurrently. Principles of single-species ecology and evolution. Topics include ecology of individuals, population growth models, structured populations, life history strategies, stochastic populations, basic population genetics theory, deleterious alleles in natural populations, and molecular population genetics. Effective: 1997 Winter Quarter.

PBG 200B—Principles of Population Biology (6)

Lecture—5 hour(s); Discussion—1 hour(s). Prerequisite(s): PBG 200A; PBG 231. Principles of multi-species communities. Topics include competition, mutualism, metapopulations, food webs and trophic cascades, interactions between simple ecological communities, island biogeography, succession, and large-scale patterns. Effective: 1998 Winter Quarter.

PBG 200C—Principles of Population Biology (6)

Lecture—5 hour(s); Discussion—1 hour(s). Prerequisite(s): PBG 200B. Principles of microevolution and macroevolution. Topics include evolutionary quantitative genetics, analysis of hybrid zones, speciation, the fossil record, biogeography, and phylogeny reconstruction. Effective: 1998 Spring Quarter.

PBG 203—Advanced Evolution (3)

Lecture—1 hour(s); Discussion—2 hour(s). Prerequisite(s): Graduate standing. Adaptation and speciation, and biochemical and morphological evolution in plants and animals with emphasis on the appropriateness of different methods of analysis. Effective: 1997 Winter Quarter.

PBG 206—Ecology of Insect Parasitoids (4)

Lecture—3 hour(s); Seminar—1 hour(s). Prerequisite(s): Introductory animal ecology or behavior. Insect parasitoids will be investigated as model systems to address current topics in behavioral, population, and evolutionary ecology. Theory will be synthesized and critical empirical tests of ecological hypotheses emphasized. Effective: 1997 Winter Quarter.

PBG 207—Plant Population Biology (3)

Lecture—2 hour(s); Discussion/Laboratory—1 hour(s). Prerequisite(s): Advanced undergraduate ecology course (e.g., ESP 100, EVE 101, ENT 104, PLB 117), and advanced undergraduate course in genetics and/or evolution (e.g., BIS 101 or EVE 100). Introduction to theoretical and empirical research in plant population biology. Emphasis placed on linking ecological and genetic approaches to plant population biology. (Same course as ECL 207.) Effective: 2000 Winter Quarter.

PBG 212—Topics in Invertebrate Evolution (2)

Seminar—2 hour(s). Prerequisite(s): Graduate standing or consent of instructor; courses in evolutionary biology, systematics, and ecology highly recommended. Advanced seminar that critically examines problems relevant to evolutionary patterns among the invertebrates. May be repeated for credit when topic differs. (S/U grading only.) Effective: 1997 Winter Quarter.

PBG 221—Animal Behavior, Ecology & Evolution (3)

Lecture—3 hour(s). Prerequisite(s): NPB 102; EVE 100; EVE 101; and Consent of Instructor. Or the equivalent, graduate standing. Interface between animal behavior, ecology and evolution. New developments in behavioral ecology development and testing of hypotheses in this discipline. (Same course as ANB 221.) Effective: 2002 Winter Quarter.

PBG 224—Field Reconnaissance for Population Biologists (2)

Fieldwork—6 hour(s). Prerequisite(s): Graduate student in Population Biology, or consent of instructor. Biweekly field trips to acquaint students with plant and animal communities, biodiversity, and ecological and evolutionary research opportunities in northern and central California. May be repeated for credit. (S/U grading only.) Effective: 1997 Fall Quarter.

PBG 225—Terrestrial Field Ecology (4)

Seminar—1 hour(s); Fieldwork—12 hour(s). Prerequisite(s): Introductory ecology and introductory statistics, or consent of instructor. Field course conducted over spring break and four weekends at Bodega Bay, emphasizing student projects. Ecological hypothesis testing, data gathering, analysis, and written and oral presentation of results are stressed. (Same course as ECL 225, ENT 225.) Effective: 1997 Spring Quarter.

PBG 231—Mathematical Methods in Population Biology (3)

Lecture—3 hour(s). Prerequisite(s): MAT 016C or MAT 021C; Or the equivalent. Mathematical methods used in population biology. Linear and nonlinear difference equation and differential equation models are studied, using stability analysis and qualitative methods. Partial differential equation models are introduced. Applications to population biology models are stressed. (Same course as ECL 231.) Effective: 1997 Winter Quarter.

PBG 233—Computational Methods in Population Biology (3)

Lecture/Lab—2 hour(s); Discussion/Laboratory—1 hour(s). Prerequisite(s): A course in theoretical ecology (e.g., ECL 231 or an equivalent to ESP 121 from your undergraduate institution) or consent of instructor; no programming experience required. Numerical methods for simulating population dynamics using the computational software package R. Emphasis placed on model formulation and development, theoretical concepts and philosophical principles to guide simulation efforts, model parameterization, and implementing simulations with R. (Same course as ECL 233.) (S/U grading only.) Effective: 2013 Fall Quarter.

PBG 250A—Interdisciplinary Approaches to Biological Invasions (4)

Lecture/Discussion—4 hour(s). Prerequisite(s): Graduate standing. An integrative consideration of biological invasions, including an overview of concepts from ecology, ecological theory, evolution, genetics, philosophy, and other areas. Emphasis on potential contributions of each area for interdisciplinary problem-solving. Effective: 2004 Fall Quarter.

PBG 250B—Interdisciplinary Approaches to Biological Invasions (4)

Lecture/Discussion—4 hour(s). Prerequisite(s): Graduate standing. An integrative consideration of biological invasions, including an overview of concepts from history, sociology, communications, law, policy, management, and other areas. Emphasis on potential contributions of each area for interdisciplinary problem-solving. Effective: 2004 Fall Quarter.

PBG 251—Collaborative Project in Biological Invasions (3)

Project (Term Project); Discussion—1 hour(s). Prerequisite(s): PBG 250A; PBG 250B; and Consent of Instructor. Or equivalent courses. A year-long interdisciplinary collaborative project focusing on biological invasions, resulting in a paper or other suitable product presented at a symposium at the conclusion of the project. May be repeated up to 5 time(s). (S/U grading only.) Effective: 2004 Fall Quarter.

PBG 270—Research Conference in Evolutionary Biology (1)

Seminar—1 hour(s). Prerequisite(s): Consent of Instructor. Critical presentation and evaluation of current literature and ongoing research in evolutionary biology. May be repeated for credit. (S/U grading only.) Effective: 1997 Winter Quarter.

PBG 271—Research Conference in Ecology (1)

Seminar—1 hour(s). Prerequisite(s): Consent of Instructor. Critical presentation and evaluation of current literature and ongoing research in ecology. Requirements include active participation in weekly discussions and the presentation of a paper or chapter once per quarter. May be repeated for credit. (Same course as ECL 271.) (S/U grading only.) Effective: 2014 Winter Quarter.

PBG 287—Advanced Animal Behavior (2)

Seminar—2 hour(s). Prerequisite(s): NPB 102; EVE 100; or the equivalents; graduate standing; Consent of Instructor. Reading, reports and discussion on current topics in animal behavior, with a focus on topics that lie at the interface between animal behavior, ecology and evolution. May be repeated up to 2 time(s). (Same course as ANB 287.) Effective: 2002 Spring Quarter.

PBG 290—Seminar (1)

Seminar—1 hour(s). Prerequisite(s): Consent of Instructor. Graduate standing. Seminars presented by visiting lecturers, UC Davis graduate students and faculty. May be repeated for credit. (S/U grading only.) Effective: 1997 Winter Quarter.

PBG 290C—Research Conference in Population Biology (1)

Discussion—1 hour(s). Prerequisite(s): PBG 299 (can be concurrent); and Consent of Instructor. Graduate standing; PBG 299 required concurrently. Presentation and discussion of faculty and graduate student research in population biology. May be repeated for credit. (S/U grading only.) Effective: 1997 Winter Quarter.

PBG 292—Topics in Ecology & Evolution (1)

Seminar—1 hour(s). Prerequisite(s): Graduate standing. Seminar presented by visiting lecturers, UC Davis faculty and graduate students. May be repeated for credit. (Same course as ECL 296.) (S/U grading only.) Effective: 1997 Winter Quarter.

PBG 296—Seminar in Geographical Ecology (2)

Seminar—2 hour(s). Prerequisite(s): EVE 100 or EVE 101; or Consent of Instructor. Recent developments in theoretical and experimental biogeography, historical biogeography and related themes in systematics, the biology of colonizing species, and related topics. May be repeated for credit. (Same course as GEO 214.) (S/U grading only.) Effective: 2012 Fall Quarter.

PBG 298—Group Study (1-5)

Variable. Prerequisite(s): Consent of Instructor. Graduate standing. (S/U grading only.) Effective: 1997 Winter Quarter.

PBG 299—Research (1-12)

Variable. Prerequisite(s): Consent of Instructor. Graduate standing. (S/U grading only.) Effective: 1997 Winter Quarter.

PBI—Plant Biology

Courses in PBI:

PBI 200A—PBGG Core Course Series—Fall quarter (5)

Lecture—3 hour(s); Discussion—2 hour(s). Prerequisite(s): Graduate standing; a broad background of undergraduate level coursework in Plant Biology is recommended. The first of three PBGG graduate core courses. Coverage includes (1) plant genes, (2) biotechnology, (3) genomes and gene flow, (4) principles of plant systematics, and (5) the evolution of flowering plants. Effective: 2005 Fall Quarter.

PBI 200B—PBGG Core Course Series—Winter quarter (5)

Lecture—3 hour(s); Discussion—2 hour(s). Prerequisite(s): PBI 200A. The second of three PBGG graduate core courses. Coverage includes (1) embryo development, (2) cytoskeleton and vesicle trafficking, (3) cell walls, (4) cell growth, (5) secondary metabolism, (6) plastids and (7) senescence. Effective: 2006 Winter Quarter.

PBI 200C—PBGG Core Course Series—Spring quarter (5)

Lecture—3 hour(s); Discussion—2 hour(s). Prerequisite(s): PBI 200A; PBI 200B. The third of three PBGG graduate core courses. Coverage includes (1) plant water relations, (2) cellular & long distance transport processes, (3) mineral nutrition, (4) environmental impacts on growth & development, (5) stress perception & responses, (6) canopy processes, and (7) plant interactions with other organisms. Effective: 2006 Spring Quarter.

PBI 203N—Biology of the Plant Cell (4)

Lecture—3 hour(s); Discussion/Laboratory—2 hour(s). Prerequisite(s): PLB 111 or BIS 104; Or the equivalent. Open to senior undergraduate students in Plant Biology major. Recent progresses in plant cell biology. Intracellular motility in plant cells. Common techniques associated with the progress of plant cell biology. Effective: 2006 Fall Quarter.

PBI 210—Plant Ecophysiology (3)

Lecture—3 hour(s). Prerequisite(s): PLB 111; PLB 112; PLB 117. Study of the mechanisms of physiological adaptation of plants to their environment. Effective: 1997 Winter Quarter.

PBI 212—Physiology of Herbicidal Action (3)

Lecture—3 hour(s). Prerequisite(s): PLB 112. Study of the fundamental processes involved in the physiological action of herbicides. Detailed consideration of the fate of herbicides in plants. Effective: 1997 Spring Quarter.

PBI 214—Higher Plant Cell Walls (3)

Lecture—2 hour(s); Discussion—1 hour(s). Prerequisite(s): PLB 112; A course in Biochemistry. Lectures focus on the structure, analysis, synthesis, and development-related metabolism of cell walls. Discussions center on analysis of scientific papers related to lecture topics. Effective: 1997 Winter Quarter.

PBI 220—Plant Developmental Biology (4)

Lecture—3 hour(s); Discussion—1 hour(s); Term Paper. Prerequisite(s): Plant Anatomy, Physiology, and Biochemistry. A survey of the concepts of plant development and organization. Examines plant cells, tissues, and organs with special emphasis on experimental evidence for mechanisms regulating developmental processes. Effective: 1997 Winter Quarter.

PBI 223—Special Topics in Scientific Method (2)

Discussion—2 hour(s). Examine the historical and philosophical background of the scientific method. Analyze the rational, perceptual, causal, creative and social aspects of scientific knowledge. Clarify the roles of reason, experimentation and creativity in scientific research. (S/U grading only.) Effective: 1997 Winter Quarter.

PBI 227—Plant Molecular Biology (4)

Lecture/Discussion—4 hour(s). Prerequisite(s): MCB 121 or MCB 161. Molecular aspects of higher plant biology with emphasis on gene expression. Plant nuclear and organelle genome organization, gene structure, mechanisms of gene regulation, gene transfer, and special topics related to development and response to biological and environmental stimuli. Effective: 1997 Winter Quarter.

PBI 229—Molecular Biology of Plant Reproduction (3)

Lecture—3 hour(s). Molecular genetic basis of plant reproduction. Emphasis on understanding developmentally regulated gene expression as it relates to the major changes that occur during plant reproduction and on the genetic control of flowering. Effective: 1997 Winter Quarter.

PBI 290A—Faculty Seminar (1)

Discussion—1 hour(s). Restricted to Plant Biology (PBG) graduate students. Discussion of research area of seminar speakers in Plant Biology Graduate Group Seminar Series. May be repeated up to 6 time(s). (S/U grading only.) Effective: 2006 Winter Quarter.

PBI 290B—Seminar (1)

Seminar—1 hour(s). Seminars presented by visiting scientists on research topics of current interest. (S/U grading only.) Effective: 1997 Winter Quarter.

PBI 290C—Research Conference in Botany (1)

Discussion—1 hour(s). Prerequisite(s): Graduate standing and/or consent of instructor. Presentation and discussion by faculty and graduate students of research projects in botany. May be repeated for credit. (S/U grading only.) Effective: 1997 Winter Quarter.

PBI 291—Graduate Student Seminar in Plant Biology (1)

Seminar—1 hour(s). Prerequisite(s): Graduate student standing. Student-given seminars on topics in plant biology, with critiques by instructor and peers. How to give a seminar, including preparation of visual and other teaching aids. Topic determined by instructor in charge. May be repeated for credit. (S/U grading only.) Effective: 1997 Summer Session 1.

PBI 292—Seminars in Plants Biology (1)

Seminar—1 hour(s). Prerequisite(s): Consent of Instructor. Review of current literature in botanical disciplines. Disciplines and special subjects to be announced quarterly. Present and analyze assigned topics. May be repeated for credit. (S/U grading only.) Effective: 1997 Winter Quarter.

PBI 293—Seminar in Postharvest Biology (1)

Discussion—1 hour(s). Prerequisite(s): Consent of Instructor. Open to advanced undergraduates. Intensive study of selected topics in the postharvest biology of fruits, vegetables, and ornamentals. May be repeated for credit. (S/U grading only.) Effective: 1997 Winter Quarter.

PBI 297T—Tutoring in Plant Biology (1-5)

Tutorial—3-15 hour(s). Offers graduate students, particularly those not serving as teaching assistants, the opportunity to gain teaching experience. (S/U grading only.) Effective: 1997 Winter Quarter.

PBI 298—Group Study (1-5)

Variable. May be repeated up to 4 time(s). (S/U grading only.) Effective: 2001 Fall Quarter.

PBI 299—Research (1-12)

Variable. Prerequisite(s): Consent of Instructor. Graduate standing. (S/U grading only.) Effective: 1997 Winter Quarter.

PBI 390—The Teaching of Plant Biology (2)

Discussion—2 hour(s). Prerequisite(s): Graduate standing; concurrent appointment as a teaching assistant in Plant Biology. Consideration of the problems of teaching botany, especially of preparing for and conducting discussions, guiding student laboratory work, and the formulation of questions and topics for examinations. (S/U grading only.) Effective: 1997 Winter Quarter.

PED—Pediatrics

Courses in PED:

PED 199—Special Study in Pediatric Research (1-5)

Variable. Prerequisite(s): Undergraduate student with consent of instructor based upon adequate preparation as determined by instructor. (P/NP grading only.) Effective: 1997 Winter Quarter.

PED 299—Pediatric Research (1-12)

Variable. Prerequisite(s): Consent of Instructor. Graduate students who are candidates for a degree in some area of biology or behavioral sciences. (S/U grading only.) Effective: 1997 Winter Quarter.

PED 401—Preceptorship in Pediatrics (2)

Variable. Prerequisite(s): Second-year medical student or first-year medical student with consent of instructor. Opportunity to observe and participate in primary medical care in a practicing pediatrician's office. Participation in history-taking and physical examination will be at discretion of preceptor and dependent on student's experience. Evaluation by student. (H/P/F grading only.) Effective: 1997 Winter Quarter.

PED 402—Clinical Experience in Private Practice (1-18)

Clinical Activity. Prerequisite(s): PED 430; Third- or fourth-year medical student; consent of preceptor and Chairperson. Opportunity to participate in practice of preceptor, performing such tasks as history taking, physical examination, and patient management. (H/P/F grading only.) Effective: 1997 Winter Quarter.

PED 405—Pediatrics Lecture Series (0.5)

Lecture—15 hour(s). Prerequisite(s): Consent of Instructor. Lecture series covers major topics in pediatrics with case presentations and panels from pediatric subspecialists. Topics include, but are not limited to: cardiology, pulmonology, nephrology, gastroenterology, critical care, and primary care pediatrics. May be repeated for credit. (P/F grading only.) Effective: 2014 Fall Quarter.

PED 415—Fetal & Neonatal Physiology (1)

Lecture/Discussion—4 hour(s); Independent Study—4 hour(s). Prerequisite(s): Consent of Instructor. Elective is designed to combine for study a variety of aspects of the physiology, anatomy and biochemistry of the fetus and newborn with relevant clinical examples of disorders in each of the 10 topics that will be discussed. (P/F grading only.) Effective: 2014 Spring Quarter.

PED 430—Pediatric Clerkship (3-12)

Clinical Activity—45 hour(s). Prerequisite(s): Approval by School of Medicine Committee on Student Progress. Restricted to Medical students only. Eight-week clinical clerkship providing students with the opportunity to learn fundamentals of caring for the pediatric patient by participating in nursery, ambulatory and inpatient services at UCDMC and affiliated clinical sites. Rounds, conferences, student presentations ongoing. (P/F grading only.) Effective: 2020 Spring Quarter.

PED 430F—SJVP Pediatric Clerkship at UCSF (12)

Clinical Activity—45 hour(s). Prerequisite(s): Approval by School of Medicine Committee on Student Progress. Restricted to Medical students only. Eight-week clinical clerkship providing students with the opportunity to learn fundamentals of caring for the pediatric patient by participating in nursery, ambulatory and inpatient services at UCSF Fresno. Rounds, conferences, student presentations ongoing. (H/P/F grading only.) Effective: 2013 Fall Quarter.

PED 430FA—SJVP Longitudinal Pediatrics Clerkship (1.5-6)

Clinical Activity—40-60 hour(s). Prerequisite(s): Consent of Instructor. Longitudinal Pediatrics Clerkship runs concurrently with Internal Medicine, Family Medicine and Psychiatry for 32 weeks. Time is spent in direct patient care situations under the guidance of faculty. (H/P/F grading only.) Effective: 2017 Spring Quarter.

PED 430FB—SJVP Longitudinal Pediatrics Clerkship (1.5-6)

Clinical Activity—40-60 hour(s). Prerequisite(s): Consent of Instructor. Longitudinal Pediatrics Clerkship runs concurrently with Internal Medicine, Family Medicine and Psychiatry for 32 weeks. Time is spent in direct patient care situations under the guidance of faculty. (H/P/F grading only.) Effective: 2017 Spring Quarter.

PED 430FC—SJVP Longitudinal Pediatrics Clerkship (1.5-6)

Clinical Activity—40-60 hour(s). Prerequisite(s): Consent of Instructor. Longitudinal Pediatrics Clerkship runs concurrently with Internal Medicine, Family Medicine and Psychiatry for 32 weeks. Time is spent in direct patient care situations under the guidance of faculty. (H/P/F grading only.) Effective: 2017 Spring Quarter.

PED 430FD—SJVP Longitudinal Pediatrics Clerkship (1.5-6)

Clinical Activity—40-60 hour(s). Prerequisite(s): Consent of Instructor. Longitudinal Pediatrics Clerkship runs concurrently with Internal Medicine, Family Medicine and Psychiatry for 32 weeks. Time is spent in direct patient care situations under the guidance of faculty. (H/P/F grading only.) Effective: 2017 Spring Quarter.

PED 430R—Rural PRIME Pediatrics Longitudinal Clerkship (2)

Clinical Activity—45 hour(s). Prerequisite(s): Consent of Instructor. Pediatrics Longitudinal Integrated Clerkship for the Rural PRIME Program. (H/P/F grading only.) Effective: 2017 Spring Quarter.

PED 430RA—Rural PRIME Pediatrics Longitudinal Clerkship (3)

Clinical Activity—45 hour(s). Prerequisite(s): Consent of Instructor. Pediatrics Longitudinal Integrated Clerkship for the Rural PRIME Program. (H/P/F grading only.) Effective: 2017 Spring Quarter.

PED 430RB—Rural PRIME Pediatrics Longitudinal Clerkship (3)

Clinical Activity—45 hour(s). Prerequisite(s): Consent of Instructor. Pediatrics Longitudinal Integrated Clerkship for the Rural PRIME Program. (H/P/F grading only.) Effective: 2017 Spring Quarter.

PED 430RC—Rural PRIME Pediatrics Longitudinal Clerkship (3)

Clinical Activity—45 hour(s). Prerequisite(s): Consent of Instructor. Pediatrics Longitudinal Integrated Clerkship for the Rural PRIME Program. (H/P/F grading only.) Effective: 2017 Spring Quarter.

PED 430RD—Rural PRIME Pediatrics Longitudinal Clerkship (1)

Clinical Activity—45 hour(s). Prerequisite(s): Consent of Instructor. Pediatrics Longitudinal Integrated Clerkship for the Rural PRIME Program. (H/P/F grading only.) Effective: 2017 Spring Quarter.

PED 430TA—TeachMS Longitudinal Pediatrics Clerkship (A) (4)

Clinical Activity—45 hour(s). Prerequisite(s): Consent of Instructor. Longitudinal Clerkship runs concurrently with Primary Care and Psychiatry for 24 weeks. Time is spent in direct patient care situations under the guidance of faculty. On-going patient write-ups, rounds, conferences are required. (H/P/F grading only.) Effective: 2016 Fall Quarter.

PED 430TB—TeachMS Longitudinal Pediatrics Clerkship (B) (6)

Clinical Activity—45 hour(s). Prerequisite(s): Consent of Instructor. Longitudinal clerkship runs concurrently with Primary Care and Psychiatry for 24 weeks. Time is spent in direct patient care situations under the guidance of faculty. On-going patient write-ups, rounds, conferences are required. (H/P/F grading only.) Effective: 2016 Fall Quarter.

PED 430TC—TeachMS Longitudinal Pediatrics Clerkship (C) (2)

Clinical Activity—45 hour(s). Prerequisite(s): Consent of Instructor. Longitudinal clerkship runs concurrently with Primary Care and Psychiatry for 24 weeks. Time is spent in direct patient care situations under the guidance of faculty. On-going patient write-ups, rounds, conferences are required. (H/P/F grading only.) Effective: 2016 Fall Quarter.

PED 439D—Directed Clinical Studies in Pediatrics (1-12)

Clinical Activity—40 hour(s). Prerequisite(s): Consent of Instructor. Individual directed studies in extended preparation for modified curriculum or to complete a clinical rotation following a leave of absence. May be repeated for credit. (P/F grading only.) Effective: 2011 Spring Quarter.

PED 439R—Directed Studies in Pediatrics (1-12)

Clinical Activity—30 hour(s); Independent Study—10 hour(s). Prerequisite(s): Consent of Instructor. Individual directed studies in extended preparation for remediation of all or part of clinical rotation. Clinical studies to accommodate and satisfy remedial work as directed by the Committee on Student Progress and approved by the course IOR. May be repeated for credit. (P/F grading only.) Effective: 2011 Summer Quarter.

PED 460A—Acting Internship: General Inpatient Pediatric Clerkship (3-18)

Clinical Activity. Prerequisite(s): PED 430 B or better; and Consent of Instructor. Letter of recommendation from Pediatrics faculty member. Limited enrollment. The Ward Acting Intern functions in a manner similar to that of a pediatric intern. The Acting Intern takes admissions in the regular sequence and is expected to take night call. (H/P/F grading only.) Effective: 2016 Fall Quarter.

PED 460B—Acting Internship: Outpatient Pediatrics (3-18)

Clinical Activity. Prerequisite(s): PED 430 B or better; and Consent of Instructor. Letter of recommendation from Pediatrics faculty member. Limited enrollment. Supervised experience in pediatric care on outpatient service at UCDCM. Student functions as Acting Intern with appropriate supervision by residents and attending faculty. (H/P/F grading only.) Effective: 1997 Winter Quarter.

PED 461—Pediatric Inpatient AI in Hematology/Oncology (6)

Clinical Activity—37.5 hour(s); Lecture—7.5 hour(s). Prerequisite(s): PED 430; and Consent of Instructor. Satisfactory completed. Limited Enrollment. Inpatient and outpatient experience in diagnosis and management of oncologic and hematologic disorders in children. Laboratory experience and participation in clinical investigation may be arranged. (H/P/F grading only.) Effective: 2009 Spring Quarter.

PED 462—Elective in Pediatric Endocrinology (3-18)

Clinical Activity. Prerequisite(s): Consent of Instructor. Completion of second-year study or the equivalent. Limited enrollment. Inpatient and outpatient experience in diagnosis and management of endocrine disorders in children. Laboratory experience and participation in clinical investigation may be arranged. (H/P/F grading only.) Effective: 1997 Winter Quarter.

PED 463—Medical & Mental Health Evaluation of Children at Risk for Maltreatment (3-9)

Clinical Activity—30 hour(s); Discussion—4 hour(s). Elective for fourth-year medical students covers basic areas of knowledge needed for child abuse prevention and consultation. Rotation includes legal cases, abuse exams, child and parent interactive therapy and visits to community organizations. May be repeated for credit. (H/P/F grading only.) Effective: 2012 Spring Quarter.

PED 464—Acting Internship in Neonatology (3-12)

Clinical Activity—60 hour(s). Prerequisite(s): PED 430 B or better; and Consent of Instructor. Letter of recommendation from Pediatrics faculty member. Limited enrollment. Diagnostic and therapeutic aspect of the medical and surgical high-risk neonate. Student expected to take night call. May be repeated for credit. (H/P/F grading only.) Effective: 2014 Fall Quarter.

PED 465—Pediatrics Specialty Elective (3-18)

Clinical Activity. Prerequisite(s): PED 430; and Consent of Instructor. Limited enrollment. Supervised experience in a variety of pediatric subspecialties at a local or away site. (H/P/F grading only.) Effective: 2020 Spring Quarter.

PED 466—Elective in Pediatric Cardiology (3-18)

Clinical Activity. Prerequisite(s): PED 430; Satisfactory completed. Inpatient and outpatient experience in diagnosis and management of cardiologic disorders in children. Laboratory experience and participation in clinical investigation may be arranged. (H/P/F grading only.) Effective: 1997 Winter Quarter.

PED 467—Elective in Pulmonary Medicine (3-18)

Clinical Activity. Prerequisite(s): Pediatric clerkship. Inpatient and outpatient management of pediatric patients with pulmonary diseases. These will include but will not be limited to cystic fibrosis, asthma, and other forms of chronic pulmonary diseases as well as congenital abnormalities. (H/P/F grading only.) Effective: 1997 Winter Quarter.

PED 468—Elective in Pediatrics Nephrology (3-18)

Clinical Activity. Prerequisite(s): PED 430; and Consent of Instructor. Satisfactory completed. Limited enrollment. Inpatient and outpatient experience in diagnosis and management of renal disorders in children. Laboratory experience and participation in clinical investigation may be arranged. (H/P/F grading only.) Effective: 1997 Winter Quarter.

PED 469—Elective in Pediatric Infectious Disease (3-18)

Clinical Activity. Prerequisite(s): PED 430; and Consent of Instructor. Satisfactory completed. Limited enrollment. Inpatient and outpatient experience in diagnosis and treatment of infectious disease of infants and children. Laboratory and clinical investigation may be arranged. (H/P/F grading only.) Effective: 1997 Winter Quarter.

PED 470—Elective in Pediatric Neurology (3-18)

Clinical Activity. Prerequisite(s): PED 430; IMD 430; OBG 430; and Consent of Instructor. All courses satisfactory completed. Limited enrollment. Inpatient and outpatient experience in diagnosis and management of neurological disorders in children. Students will also participate in other pediatric subspecialty clinics which serve children with neurological disorders. Does not satisfy the fourth-year neurology requirement. (H/P/F grading only.) Effective: 1997 Winter Quarter.

PED 471—Elective in Pediatric Gastroenterology (3-18)

Clinical Activity. Prerequisite(s): PED 430; and Consent of Instructor. Satisfactory completed. Limited enrollment. Inpatient and outpatient experience in diagnosis and management of gastroenterology disorders in children. Laboratory experience and participation in clinical investigation may be arranged. (H/P/F grading only.) Effective: 1997 Winter Quarter.

PED 472—Clinical Rotation in Adolescent Medicine (3-9)

Clinical Activity—39 hour(s); Lecture—1 hour(s). Prerequisite(s): Consent of Instructor. Fourth-year Medical Student. Under supervision, students will see patients in the UC Davis clinic and at a number of community-based sites. Emphasis on the socially-mediated problems that face adolescents, including substance abuse, STD's, pregnancy, depression and suicide. One hour of lecture each week. (H/P/F grading only.) Effective: 2011 Summer Quarter.

PED 473—Away Acting Internship in Pediatrics (6-18)

Clinical Activity—40 hour(s); Lecture—6 hour(s); Variable. Prerequisite(s): Consent of Instructor. Satisfactory completion of Pediatrics Clerkship. Work at the level of a sub intern in Inpatient and/or Outpatient settings. Expectation is to provide direct patient management. (H/P/F grading only.) Effective: 2010 Spring Quarter.

PED 476—Acting Internship in Pediatric Intensive Care (3-18)

Clinical Activity. Prerequisite(s): PED 430 A is required; or Consent of Instructor. Letter of recommendation from Pediatrics faculty member. Limited enrollment. Evaluation and support of critically ill infants and children. In general, student expected to take night call every third night during rotation. May be repeated for credit. (H/P/F grading only.) Effective: 2016 Fall Quarter.

PED 493—Ethical, Legal & Social Issues in Clinical Genetics (6)

Seminar—12 hour(s); Clinical Activity—18 hour(s); Auto Tutorial—8 hour(s); Independent Study—2 hour(s). Prerequisite(s): Consent of Instructor. Restricted to UC Davis School of Medicine students only. Develop advanced knowledge, communication skills and attitudes necessary to provide compassionate, knowledgeable, and expert care to patients who may be at increased genetic risk for disease. Seminars cover ethical and legal principles, epidemiology, and genetics. (H/P/F grading only.) Effective: 2010 Summer Quarter.

PED 493B—Living with Intellectual & Developmental Disability in the Community (1-6)

Clinical Activity—4 hour(s); Lecture—10 hour(s); Fieldwork—4 hour(s); Seminar—4 hour(s). Prerequisite(s): Consent of Instructor. In-depth experience with Intellectual & Developmental Disability across the lifespan. (H/P/F grading only.) Effective: 2012 Summer Quarter.

PED 493C—Fetal & Neonatal Physiology SSM (6)

Lecture/Discussion—24 hour(s); Clinical Activity—8 hour(s). Prerequisite(s): Consent of Instructor. Elective is available for students interested in exploring the fascinating world of the fetus and neonate. Designed to combine the basic sciences with relevant clinical examples of disorders. (H/P/F grading only.) Effective: 2014 Fall Quarter.

PED 498—Directed Group Study (1-5)

Variable—3-15 hour(s). Explore in-depth various topics in Pediatrics. Extensive contact with and oversight by instructor. May be repeated for credit. (H/P/F grading only.) Effective: 2004 Fall Quarter.

PED 499—Research Topics in Pediatrics (1-18)

Variable. Prerequisite(s): Student in Medical School with consent of instructor. Individual research project in pediatric subspecialty areas (cardiology, endocrinology, hematology, metabolism, newborn physiology and others) may be arranged with faculty member. Independent research by student will be emphasized and long-term projects are possible. May be repeated for credit. (H/P/F grading only.) Effective: 2017 Fall Quarter.

PER—Persian

Courses in PER:

PER 001—Elementary Persian (5)

Lecture/Discussion—5 hour(s). Introduction to listening, speaking, reading and writing skills in Persian and to Persian culture. GE credit: AH, WC. Effective: 2018 Fall Quarter.

PER 002—Elementary Persian (5)

Lecture/Discussion—5 hour(s). Prerequisite(s): PER 001; or Consent of Instructor. Continuation of PER 001. Introduction to listening, speaking, reading and writing skills in Persian and to Persian culture. GE credit: AH, WC. Effective: 2020 Winter Quarter.

PER 003—Elementary Persian (5)

Lecture/Discussion—5 hour(s). Prerequisite(s): PER 002; or Consent of Instructor. Continuation of PER 002. Introduction to listening, speaking, reading and writing skills in Persian and to Persian culture. GE credit: AH, WC. Effective: 2018 Fall Quarter.

PER 021—Intermediate Persian (5)

Lecture/Discussion—5 hour(s). Prerequisite(s): PER 003; or the equivalent. Integrated presentation of listening, speaking, reading and writing skills as well as cultural topics in intermediate Persian. GE credit: AH, WC. Effective: 2018 Fall Quarter.

PER 022—Intermediate Persian (5)

Lecture/Discussion—5 hour(s). Prerequisite(s): PER 021; or the equivalent. Integrated presentation of listening, speaking, reading and writing as well as cultural topics in Intermediate Persian. GE credit: AH, WC. Effective: 2018 Fall Quarter.

PER 023—Intermediate Persian (5)

Lecture/Discussion—5 hour(s). Prerequisite(s): PER 022; or equivalent knowledge of Persian. Integrated presentation of listening, speaking, reading and writing skills as well as cultural topics in Intermediate Persian. GE credit: AH, WC. Effective: 2018 Fall Quarter.

PER 098—Directed Group Study (1-5)

Variable—1-5 hour(s). Prerequisite(s): Consent of Instructor. Directed group study. May be repeated for credit. (P/NP grading only.) Effective: 2018 Fall Quarter.

PER 099—Special Study for Undergraduates (1-5)

Variable—1-5 hour(s). Prerequisite(s): Consent of Instructor. Special study. May be repeated for credit. (P/NP grading only.) Effective: 2018 Fall Quarter.

PER 101—Advanced Persian: Topics in Modern Persian Culture 1900-Present (4)

Lecture/Discussion—3 hour(s); Term Paper. Prerequisite(s): PER 023; or Consent of Instructor. Integrated work on reading, listening, discussion and writing about modern Persian cultural production using fiction and poetry as well as cinema and theory. May be repeated up to 1 time(s) when content differs. GE credit: AH, WC, WE. Effective: 2018 Fall Quarter.

PER 103—Advanced Persian: Topics in Medieval Persian Culture 900-1500 (4)

Lecture/Discussion—3 hour(s); Term Paper. Prerequisite(s): PER 023; or Consent of Instructor. Integrated work on reading, listening, discussion, writing about medieval Persian culture with a focus on lyric and narrative poetry and representative selections of literary prose, rhetoric, biography, history, religious and philosophical discourse. May be repeated up to 1 time(s) when content differs. GE credit: AH, OL, WC, WE. Effective: 2018 Fall Quarter.

PER 396—Teaching Assistant Training Practicum (1-4)

Variable—1-4 hour(s). Prerequisite(s): Consent of Instructor. Restricted to graduate students. Teaching practicum. May be repeated up to 18 time(s). (S/U grading only.) Effective: 2018 Fall Quarter.

PFS—Performance Studies

Courses in PFS:

PFS 200—Methods & Materials in Theatre Research (4)

Seminar—3 hour(s); Term Paper. Essential research tools in theatre and related fields; bibliographies, primary sources; methods of evaluating and presenting evidence; delineating research areas in the field. Effective: 2012 Fall Quarter.

PFS 259—Topics in Contemporary Theatre & Performance (4)

Seminar—3 hour(s); Term Paper. Special topics designed to study in depth aspects of contemporary performance including performance analysis, cultural and historical context, modes of production, theoretical and political entailments, and issues of spectatorship; e.g., "Brecht and After," "British Theater," "Race and Gender in Performance." May be repeated up to 5 time(s). Effective: 2012 Fall Quarter.

PFS 265A—Performance Studies: Modes of Production (4)

Seminar—3 hour(s); Term Paper. Introduction to the literature of performance production in a variety of media: theatre, dance, film, video, computer-based, looking at cultural, aesthetic, rhetorical and political theory. May be repeated up to 3 time(s) when topic differs. Effective: 2012 Fall Quarter.

PFS 265B—Performance Studies: Signification & the Body (4)

Seminar—3 hour(s); Term Paper. Introduction to analysis of the body in performance, drawing on theoretical models from several fields. May be repeated up to 3 time(s) when topic differs. Effective: 2012 Fall Quarter.

PFS 265C—Performance Studies: Performance & Society (4)

Seminar—3 hour(s); Term Paper. Introduction to the role of performance (broadly defined), in everyday life, sociopolitical negotiation, identity, social movements, the media, and the state. May be repeated up to 3 time(s) when topic differs. Effective: 2012 Fall Quarter.

PFS 265D— Performance Studies: Theory, History, Criticism (4)

Seminar—3 hour(s); Term Paper. Introduction to the theory, history and criticism, informing performance studies. May be repeated up to 3 time(s) when topic differs. Effective: 2012 Fall Quarter.

PFS 270A—Individually Guided Research in Performance Studies (4)

Discussion—1 hour(s); Independent Study; Extensive Writing. Prerequisite(s): PFS 200; (PFS 265A or PFS 265B or PFS 265C or PFS 265D); and Consent of Instructor. Restricted to students in the Graduate Group Ph.D. in Performance Studies. Individually guided research, under the supervision of a faculty member, on a Performance Studies topic related to the student's proposed dissertation project to produce a dissertation prospectus. Effective: 2012 Fall Quarter.

PFS 270B—Individually Guided Research in Performance Studies (4)

Discussion—1 hour(s); Independent Study; Extensive Writing. Prerequisite(s): PFS 200; (PFS 265A or PFS 265B or PFS 265C or PFS 265D); and Consent of Instructor. Restricted to students in the Graduate Group Ph.D. in Performance Studies. Individually guided research, under the supervision of a faculty member, on a Performance Studies topic related to the student's proposed dissertation project, to produce a dissertation prospectus. Effective: 2012 Fall Quarter.

PFS 270C—Individually Guided Research in Performance Studies (4)

Discussion/Laboratory—2 hour(s); Fieldwork—2 hour(s); Term Paper. Prerequisite(s): PFS 200; (PFS 265A or PFS 265B or PFS 265C or PFS 265D); and Consent of Instructor. Restricted to students in the Graduate Group Ph.D. in Performance Studies. Individually guided research, under the supervision of a faculty member, on a Performance Studies topic related to the student's proposed dissertation project to produce a dissertation prospectus. Effective: 2012 Fall Quarter.

PFS 290—Colloquia in Performance Studies (4)

Lecture/Discussion—2 hour(s); Discussion/Laboratory—1 hour(s); Term Paper. Prerequisite(s): Registration in Performance Studies Graduate Group and prior to Qualifying Examination. Designed to provide cohort identity and faculty exchange. Opportunity to present papers, hear guest lecturers, and see faculty presentations, gather for organizational and administrative new, exchange of information and make announcements. Must be taken every year that a Performance Studies graduate is registered, prior to taking the Qualifying Examination. May be repeated up to 4 time(s). Limited to 4 units per year. (S/U grading only.) Effective: 2011 Fall Quarter.

PFS 298—Group Study (1-5)

Independent Study—1-5 hour(s). Prerequisite(s): Consent of Instructor. Effective: 2012 Fall Quarter.

PFS 299—Individual Study (1-12)

Variable. Prerequisite(s): Consent of Instructor. (S/U grading only.) Effective: 2012 Fall Quarter.

PFS 299D—Dissertation Research (1-12)

Variable. Prerequisite(s): Consent of Instructor. Advancement to Candidacy. May be repeated for credit. (S/U grading only.) Effective: 2012 Fall Quarter.

PFS 459—Approaches to Theatre & Dance (4)

Seminar—3 hour(s); Term Paper; Project (Term Project). Prerequisite(s): Consent of Instructor. Advanced graduate students. Work on approaches to theatre, dance, film/video, design and performance, with a focus on methodology and professional development. May be repeated up to 5 time(s). Effective: 2012 Fall Quarter.

PHA—Medical Pharmacology & Toxicology

Courses in PHA:**PHA 092—Internship in Pharmacology (1-12)**

Internship—3-36 hour(s). Prerequisite(s): Lower division student with good academic standing; approval of project prior to period of internship. Supervised work experience in pharmacology and related fields. (P/NP grading only.) Effective: 1997 Winter Quarter.

PHA 099—Special Study for Undergraduates (1-5)

Variable. Prerequisite(s): Consent of Instructor. Lower division standing. (P/NP grading only.) Effective: 1997 Winter Quarter.

PHA 192—Internship in Pharmacology (1-12)

Internship—3-36 hour(s). Prerequisite(s): Consent of Instructor. Upper division standing; approval of project prior to period of internship. Supervised work experience in pharmacology and related fields. (P/NP grading only.) Effective: 1997 Winter Quarter.

PHA 198—Directed Group Study (1-5)

Variable. Prerequisite(s): Consent of Instructor. (P/NP grading only.) Effective: 1997 Winter Quarter.

PHA 199—Special Study for Advanced Undergraduates (1-5)

Variable—1-5 hour(s). Prerequisite(s): Consent of Instructor. (P/NP grading only.) Effective: 1997 Winter Quarter.

PHA 205—Problem Solving in Pharmacology (1)

Lecture/Discussion—1 hour(s). Restricted to Graduate Students in Pharmacology and Toxicology, Chemistry and Clinical Research Graduate Groups; other students may be accepted with consent of instructor. Introduction to a current biomedical problem that would benefit from a developing drug and will develop an experimental strategy for addressing the issue. Develop model systems for testing various classic and recent pharmacological approaches. May be repeated up to 12 time(s) as subject changes every quarter; each course is unique and may be taken as often as desirable; certain students (Trainees of the Training Program in Pharmacological Sciences) must take course for at least three years. Effective: 2014 Fall Quarter.

PHA 207—Drug Discovery & Development (3)

Lecture/Discussion—2 hour(s); Extensive Writing—1 hour(s). Prerequisite(s): An equivalent course in general pharmacology, or knowledge of basic pharmacology. Intended for graduate students in Pharmacology and Toxicology, Chemistry and Clinical Research Graduate Groups; other students, including undergraduates, may be accepted with consent of instructors. Survey of the process by which a drug is discovered, developed and made available to the public. Topics include drug identification and optimization, safety testing, clinical evaluation, regulatory issues, intellectual property, formulation, and the global pharmaceutical industry. May be repeated for credit. Effective: 2010 Winter Quarter.

PHA 208—Advanced Cardiac Physiology & Pharmacology (3)

Lecture—2 hour(s); Lecture/Discussion—1 hour(s). Prerequisite(s): An equivalent course in general pharmacology or physiology (example, BIM 204), or knowledge of basic pharmacology/physiology. Open to graduate students from the Pharmacology and Toxicology, Molecular, Cellular and Integrated Physiology, Biomedical Engineering and Clinical Research Graduate Groups; other students (including undergraduates) may be accepted upon consultation with the instructors. Detailed characterization of the mechanisms involved in cardiac excitation–contraction coupling, alterations that occur in heart disease and pharmacological interventions. Topics include cardiac contractile apparatus, action potential, Ca cycling, excitation–transcription coupling, cardiac inotropy, heart failure and arrhythmias. Effective: 2013 Spring Quarter.

PHA 225—Gene & Cellular Therapies (3)

Lecture/Discussion—3 hour(s). Gene therapy from basic concepts to clinical applications. Topics include the human genome and genetic variation, genetic diseases, methods to manipulate gene expression, viral and non-viral delivery vectors, history and progress of gene therapy, case studies, and ethical issues. (Same course as GGG 225.) Effective: 2017 Winter Quarter.

PHA 250—Functional Genomics: From Bench to Bedside (3)

Lecture/Discussion—3 hour(s). Prerequisite(s): GGG 201C; MCB 214; Or equivalent. Functional genomics (how genetic variation and epigenomics affect gene expression), with an emphasis on clinical relevance and applications. Topics include genetic variation and human disease, cancer therapeutics, and biomarker discovery. (Same course as GGG 250.) Effective: 2015 Spring Quarter.

PHA 291—Pharmacology Research Seminar Series (1)

Seminar—1 hour(s); Discussion—1 hour(s). Prerequisite(s): Consent of Instructor. Upper division or graduate standing. Research seminars on current topics in Pharmacology. May be repeated for credit when topic differs. (S/U grading only.) Effective: 2007 Fall Quarter.

PHA 298—Group Study (1-5)

Variable. Prerequisite(s): Consent of Instructor. Effective: 1997 Winter Quarter.

PHA 299—Research (1-12)

Variable. Prerequisite(s): Consent of Instructor. (S/U grading only.) Effective: 1997 Winter Quarter.

PHA 400A—Pharmacology (2)

Lecture—1 hour(s); Discussion/Laboratory—0.3 hour(s). Prerequisite(s): Approval by School of Medicine Committee on Student Progress. Restricted to Medical student only. Principles in pharmacology, including pharmacokinetics, drug metabolism and the actions, uses and toxicities of the major classes of drugs. (P/F grading only.) Effective: 2012 Winter Quarter.

PHA 400B—Pharmacology (1.5)

Lecture—1 hour(s); Discussion—0.3 hour(s). Prerequisite(s): Approval by School of Medicine Committee on Student Progress; medical students only. Principles in pharmacology, including autonomic pharmacology, general anesthetics, neuropharmacology and sedative/hypnotics. (P/F grading only.) Effective: 2008 Fall Quarter.

PHA 400C—Pharmacology (3.5)

Lecture—2 hour(s); Discussion—0.5 hour(s). Prerequisite(s): PHA 400A; PHA 400B; Approval by School of Medicine Committee on Student Progress; medical students only. Treatment of respiratory and cardiovascular disease, central nervous system drugs, GI, Toxicology and chemotherapy. Specific topics include: asthma, chronic obstructive pulmonary disease, hypertension, congestive heart failure, and the treatment of arrhythmias. Pain Management, depression, psychosis, acid reflux, IBS and toxicology. (P/F grading only.) Effective: 2015 Fall Quarter.

PHA 445—Introduction to Integrative Medicine (1)

Lecture/Discussion—1 hour(s). Prerequisite(s): Medical student in good standing. Basic principles of alternative medical systems (e.g., traditional Chinese, Ayurvedic, Tibetan), alternative practices (e.g., chiropractic, osteopathy, naturopathy, homeopathy, herbalism, guided imagery/meditation, massage therapy), and mind/body connection are presented as introduction to integrating alternative treatments into traditional medicinal practice. (H/P/F grading only.) Effective: 2000 Winter Quarter.

PHA 490—Seminar in Pharmacology for Medical Students (1)

Seminar—1 hour(s). Prerequisite(s): Consent of Instructor. Seminar in pharmacology for medical students. (H/P/F grading only.) Effective: 1997 Winter Quarter.

PHA 497T—Tutoring in Pharmacology (1-5)

Tutorial—3-15 hour(s). Prerequisite(s): Advanced standing or consent of instructor. Assist instructor by tutoring medical students in preparation for one of the departmental courses that is a component of the required curriculum of the School of Medicine. (H/P/F grading only.) Effective: 1997 Winter Quarter.

PHA 498—Special Study for Medical Students (1-5)

Lecture; Discussion. Prerequisite(s): Consent of Instructor. Special study in pharmacology for medical students. (H/P/F grading only.) Effective: 1997 Winter Quarter.

PHA 499—Directed Research for Medical Students (1-12)

Laboratory—3-36 hour(s). Prerequisite(s): Consent of Instructor. Directed research in pharmacology for medical students. May be repeated for credit. (H/P/F grading only.) Effective: 2017 Fall Quarter.

PHE—Physical Education

Courses in PHE:

PHE 001—Physical Activities (0.5)

Laboratory—2 hour(s). Physical Education Activities classes offered in the following areas: aquatics, personal fitness, martial arts, individual sports, and team sports. These academic classes are instructional rather than recreational and are intended to improve activity specific skills and knowledge. May be repeated up to 6 unit(s) along with PHE 006, for a combination total of 6 units. Credit limited to 6 units in combination with PHE 006. (P/ NP grading only.) Effective: 2016 Winter Quarter.

PHE 001A—Physical Activity-Archery (0.5)

Laboratory—2 hour(s). Physical Education Activity classes in Archery. The academic classes are instructional rather than recreational and are intended to improve activity specific skills and knowledge. May be repeated up to 6 unit(s) along with PHE 006, for a combination total of 6 units. Credit limited to 6 units in combination with PHE 006. (P/NP grading only.) Effective: 2018 Fall Quarter.

PHE 001AQ—Physical Activity-Aquatic Family (0.5)

Laboratory—2 hour(s). Physical Education Activity classes in Aquatics. The academic classes are instructional rather than recreational and are intended to improve activity specific skills and knowledge. May be repeated up to 6 unit(s) along with PHE 006, for a combination total of 6 units. Credit limited to 6 units in combination with PHE 006. (P/NP grading only.) Effective: 2018 Fall Quarter.

PHE 001F—Physical Activity-Fitness Family (0.5)

Laboratory—2 hour(s). Physical Education Activity classes in Personal Fitness. The academic classes are instructional rather than recreational and are intended to improve activity specific skills and knowledge. May be repeated up to 6 unit(s) along with PHE 006, for a combination total of 6 units. Credit limited to 6 units in combination with PHE 006. (P/NP grading only.) Effective: 2018 Fall Quarter.

PHE 001G—Physical Activity-Golf (0.5)

Laboratory—2 hour(s). Physical Education Activity classes in Golf. These academic classes are instructional rather than recreational and are intended to improve activity specific skills and knowledge. May be repeated up to 6 unit(s) along with PHE 006, for a combination total of 6 units. Credit limited to 6 units in combination with PHE 006. (P/NP grading only.) Effective: 2018 Fall Quarter.

PHE 001I—Physical Activity-Individual Sport Family (0.5)

Laboratory—2 hour(s). Physical Education Activity classes in Individual Sports. The academic classes are instructional rather than recreational and are intended to improve activity specific skills and knowledge. May be repeated up to 6 unit(s) along with PHE 006, for a combination total of 6 units. Credit limited to 6 units in combination with PHE 006. (P/NP grading only.) Effective: 2018 Fall Quarter.

PHE 001M—Physical Activity-Martial Arts Family (0.5)

Laboratory—2 hour(s). Physical Education Activity classes in Martial Arts. The academic classes are instructional rather than recreational and are intended to improve activity specific skills and knowledge. May be repeated up to 6 unit(s) along with PHE 006, for a combination total of 6 units. Credit limited to 6 units in combination with PHE 006. (P/NP grading only.) Effective: 2018 Fall Quarter.

PHE 001R—Physical Activity-Racquet Family (0.5)

Laboratory—2 hour(s). Physical Education Activity classes in Racquet sports. The academic classes are instructional rather than recreational and are intended to improve activity specific skills and knowledge. May be repeated up to 6 unit(s) along with PHE 006, for a combination total of 6 units. Credit limited to 6 units in combination with PHE 006. (P/NP grading only.) Effective: 2018 Fall Quarter.

PHE 001RC—Physical Activity-Rock Climbing (0.5)

Laboratory—2 hour(s). Physical Education Activity classes in Rock Climbing. The academic classes are instructional rather than recreational and are intended to improve activity specific skills and knowledge. May be repeated up to 6 unit(s) along with PHE 006, for a combination total of 6 units. Credit limited to 6 units in combination with PHE 006. (P/NP grading only.) Effective: 2018 Fall Quarter.

PHE 001S—Physical Activity-Self Defense for Women (0.5)

Laboratory—2 hour(s). Physical Education Activity classes in Self Defense for Women. The academic classes are instructional rather than recreational and are intended to improve activity specific skills and knowledge. May be repeated up to 6 unit(s) along with PHE 006, for a combination total of 6 units. Credit limited to 6 units in combination with PHE 006. (P/NP grading only.) Effective: 2018 Fall Quarter.

PHE 001T—Physical Activity-Team Sports Family (0.5)

Laboratory—2 hour(s). Physical Education Activity classes in Team Sports. The academic classes are instructional rather than recreational and are intended to improve activity specific skills and knowledge. May be repeated up to 6 unit(s) along with PHE 006, for a combination total of 6 units. Credit limited to 6 units in combination with PHE 006. (P/NP grading only.) Effective: 2018 Fall Quarter.

PHE 006—Preparation & Participation in ICA Competition (1)

Practice—3 hour(s). Prerequisite(s): Consent of instructor (head coach). Restricted to student-athlete ICA members. Sport specific advanced comprehensive training, instruction, and practice for the highly skilled collegiate varsity athlete. Development and improvement of performance skills utilizing motor-learning, nutritional science, and motivational theory. Classes offered in all UC Davis intercollegiate athletic sports. May be repeated up to 6 unit(s) along with PHE 001. (P/NP grading only.) Effective: 2018 Fall Quarter.

PHE 007—Professional Physical Education Activities: Men & Women/Coaching Leadership (1)

Lecture—1 hour(s). Fundamental skills for: (a) coaching competitive athletics; (b) classroom teaching and coaching, and (c) classroom teaching and officiating. May be repeated up to 3 time(s) when instructor differs. (P/NP grading only.) Effective: 2019 Spring Quarter.

PHE 008—Student-Athlete Life Skills (1)

Lecture—1 hour(s). Prerequisite(s): Consent of Instructor. Open to intercollegiate student-athletes only. For intercollegiate student-athletes. Balancing academic and athletic demands. Academic, psychological, and sociocultural issues which influence success as a college student-athlete. (P/NP grading only.) Effective: 2012 Fall Quarter.

PHE 015—Administration of Intramural Sports (2)

Lecture—2 hour(s). Planning and administering intramural sports programs at the high school and college level. Effective: 1997 Winter Quarter.

PHE 025—Theory of Lifesaving & Water Safety (2)

Lecture—1 hour(s); Laboratory—2 hour(s). Prerequisite(s): Sound physical condition, and no physical handicap that would render student unable to perform the required skills and ability to pass preliminary swimming test. Provides the student with the knowledge, organizational procedures, and skill development necessary to provide for water safety and save his/her own life or the life of another in an aquatic emergency. Effective: 1997 Winter Quarter.

PHE 027—Training Course for Water Safety Instructors (2)

Lecture—1 hour(s); Laboratory—2 hour(s). Prerequisite(s): PHE 001; Advanced swimming (PHE 001) or consent of instructor; and current Advanced Life-Saving Certificate. Theoretical knowledge and practical experience necessary for the organization and teaching of swimming and lifesaving classes. (American Red Cross Water Safety Instructors Certificate awarded upon successful completion of necessary requirements.) Effective: 1997 Winter Quarter.

PHE 040—Drugs & Society (2)

Lecture—2 hour(s); Fieldwork—2 hour(s); Film Viewing—5 hour(s). Pharmacology, methods of use, and effects of use of psychoactive and performance-enhancing drugs. Historical overview of drug use. Identification of behavior of at-risk and user populations. (P/NP grading only.) Effective: 1997 Winter Quarter.

PHE 044—Principles of Healthful Living (2)

Lecture—2 hour(s). Application of scientific and empirical knowledge to personal, family, and community health problems. (P/NP grading only.) Effective: 1997 Winter Quarter.

PHE 092—Physical Education Internship (1-5)

Internship—3-15 hour(s). Prerequisite(s): Consent of Instructor. Enrollment dependent on availability of intern positions, with priority given to Exercise Biology majors. Work experience in the application of physical activity programs to teaching, recreational, clinical or research situations under department faculty supervision. May be repeated up to 1 time(s) but no internship units will be counted toward Exercise Biology major. (P/NP grading only.) Effective: 1997 Winter Quarter.

PHE 097T—Tutoring in Physical Education (1-5)

Tutorial—1-5 hour(s). Prerequisite(s): Lower division standing and consent of Program Director. Tutoring of students in lower division physical activity courses. Weekly meetings with instructor in charge of courses. Written reports on methods and materials required. May be repeated up to 1 time(s). (P/NP grading only.) Effective: 1997 Winter Quarter.

PHE 097TC—Tutoring in the Community (1-5)

Tutorial—2-15 hour(s); Discussion—1 hour(s). Prerequisite(s): Lower division standing and consent of Program Director. Tutoring in the community in physical activity related projects under the guidance of the Physical Education faculty. Regular meetings with instructor in charge and written report required. May be repeated up to 1 time(s). (P/NP grading only.) Effective: 1997 Winter Quarter.

PHE 098—Directed Group Study (1-5)

Variable. Prerequisite(s): Consent of instructor and Program Director. (P/NP grading only.) Effective: 1997 Winter Quarter.

PHE 099—Special Study for Undergraduates (1-5)

Variable. Prerequisite(s): Consent of Instructor. (P/NP grading only.) Effective: 2002 Fall Quarter.

PHE 100—Field Experience in Teaching Physical Education (2)

Discussion—1 hour(s); Fieldwork—4 hour(s). Prerequisite(s): PHE 001 or PHE 007; Upper division standing. Tutoring or teachers aide in physical education activities, including athletic coaching, in public schools under the guidance of a regular teacher with supervision by a departmental faculty person. May be repeated up to 1 time(s). (P/NP grading only.) Effective: 1997 Winter Quarter.

PHE 120—Sport in American Society (3)

Lecture—3 hour(s). Sociological approaches to the study of sport and contemporary American culture, including sport's interaction with politics, economics, religion, gender, race, media and ethics. Socialization factors involving youth, scholastic, collegiate, and Olympic sport. (Same course as EXB 120.) GE credit: SS. Effective: 2009 Summer Session 1.

PHE 131—Physical Activity & the Disabled (4)

Lecture—3 hour(s); Laboratory—3 hour(s). Study of the diverse and complex nature of individuals with disabilities and how they adapt to their disabilities in daily living. Integration of individuals with disabilities into the community, schools, and physical activity and recreational programs. Not open for credit to students who have taken EXB 131. Effective: 2002 Fall Quarter.

PHE 133—Prevention & Care of Sports Injuries (3)

Lecture—2 hour(s); Laboratory—3 hour(s). Prerequisite(s): CHA 101 (can be concurrent). Prevention, care, and rehabilitation of injuries incurred by athletes. Laboratory on anatomy, emergency care, physical therapy methods, and taping techniques. Not open for credit to students who have previously taken EXB 133. Effective: 2003 Spring Quarter.

PHE 135—Advanced Procedures in Evaluation & Management of Athletic Injuries (3)

Lecture—3 hour(s). Prerequisite(s): PHE 133 or EXB 133; (CHA 101); and Consent of Instructor. Advanced study of the evaluation and management of athletic injuries, including mechanism of injury, biomechanics and pathophysiology. Current topics in athletic training. Not open for credit to students who have completed EXB 135. Effective: 2003 Fall Quarter.

PHE 141—Coaching Principles & Methods (3)

Lecture/Discussion—3 hour(s). Prerequisite(s): PHE 143; Upper division standing. Technical, tactical, and strategic aspects of coaching. Methods for organizing and delivering effective information in coaching. Biomechanical basis of motor skills and motor learning principles applied to coaching. Classroom development of coaching skills and outside observations of coaching required. Effective: 2012 Spring Quarter.

PHE 142—Physical Education in the Public Schools (3)

Lecture—3 hour(s). Analysis and study of the principles and methods basic to teaching physical education at the elementary and secondary levels. Effective: 1997 Winter Quarter.

PHE 143—Coaching Effectiveness (3)

Lecture—3 hour(s). Prerequisite(s): Upper division standing; 3 units of PHE 001 and PHE 006 combined. Synthesis and application of basic components of sport psychology, sport pedagogy, and sport physiology and basic management and administration of athletics in public high schools. (P/NP grading only.) Effective: 1997 Winter Quarter.

PHE 144—Principles of Health Education (2)

Lecture—2 hour(s). Prerequisite(s): PHE 044; Upper division standing or consent of instructor. Principles of teaching health education in the public schools. (P/NP grading only.) Effective: 1997 Winter Quarter.

PHE 150—Recreation in the Community (3)

Lecture—2 hour(s); Discussion—1 hour(s). The nature and scope of community recreation programs in California emphasizing low income, highly populated areas, and poor rural communities. Effective: 1997 Winter Quarter.

PHE 192—Physical Education Internship (1-12)

Internship—3-36 hour(s). Prerequisite(s): Upper division standing and consent of instructor; enrollment dependent on availability of intern positions, with priority given to Exercise Science majors. Work experience in the application of physical activity programs to teaching, recreational, clinical or research situations under department faculty supervision. May be repeated up to 12 unit(s) including PHE 092; but no internship units counted toward Exercise Science major. (P/NP grading only.) Effective: 1997 Winter Quarter.

PHE 197T—Tutoring in Physical Education (1-5)

Tutorial—1-5 hour(s). Prerequisite(s): Consent of chairperson. Tutoring of students in lower division physical activity courses. Written reports on methods and materials required. May be repeated up to 1 time(s). (P/NP grading only.) Effective: 1997 Winter Quarter.

PHE 197TC—Tutoring in the Community (1-5)

Tutorial—2-15 hour(s); Discussion—1 hour(s). Prerequisite(s): Upper division standing and consent of Department Chairperson. Tutoring in the community in physical education related projects under the guidance of the Physical Education faculty. Regular meetings with instructor in charge and written report required. May be repeated up to 1 time(s). (P/NP grading only.) Effective: 1997 Winter Quarter.

PHE 198—Directed Group Study (1-5)

Variable. Prerequisite(s): Consent of instructor and Department Chairperson. (P/NP grading only.) Effective: 1997 Winter Quarter.

PHE 199—Special Study for Advanced Undergraduates (1-5)

Variable. Prerequisite(s): Consent of Instructor. (P/NP grading only.) Effective: 2002 Fall Quarter.

PHE 300—The Elementary Physical Education Program (2)

Lecture—1 hour(s); Laboratory—2 hour(s). Prerequisite(s): Consent of Instructor. Restricted to senior standing or credential student. Introduction to principles, theories, material, and practices of elementary school physical education program. Effective: 2014 Spring Quarter.

PHE 380—Methods of Teaching Physical Education (3)

Lecture—1 hour(s); Laboratory—6 hour(s). Prerequisite(s): PHE 142; or Consent of Instructor. 6 units of PHE 007. The methods of teaching group and individual activities for grades K-12; program planning, class management, organization, and evaluation. (P/NP grading only.) Effective: 1997 Winter Quarter.

PHI—Philosophy

Courses in PHI:**PHI 001—Introduction to Philosophy (4)**

Lecture—3 hour(s); Discussion—1 hour(s). Problems of philosophy through major writings from various periods. Problems are drawn from political, aesthetic, religious, metaphysical, and epistemological concerns of philosophy. GE credit: AH, WE. Effective: 1997 Winter Quarter.

PHI 005—Critical Reasoning (4)

Lecture—3 hour(s); Discussion—1 hour(s). Criteria of good reasoning in everyday life and in science. Topics to be covered may include basic principles of deduction and induction; fallacies in reasoning; techniques and aids to reasoning; principles of scientific investigation; aids to clarity. Not open for credit to students who have completed PHI 006. GE credit: WE. Effective: 1997 Winter Quarter.

PHI 007—Philosophical Perspectives on Sexuality (3)

Lecture—3 hour(s). Philosophical issues related to sexuality, including, but not limited to, ethical and social issues regarding sexual practice, orientation, classification and identity. GE credit: AH. Effective: 2013 Winter Quarter.

PHI 007Y—Philosophical Perspectives on Sexuality (3)

Web Virtual Lecture—1.5 hour(s); Discussion—1 hour(s). Philosophical issues related to sexuality, including, but not limited to, ethical and social issues regarding sexual practice, orientation, classification and identity. Not open for credit to students who have completed PHI 007. GE credit: AH, DD. Effective: 2015 Winter Quarter.

PHI 010—Introduction to Cognitive Science (4)

Lecture/Discussion—4 hour(s). Pass One open to Cognitive Science majors only. Introduction to the interdisciplinary cognitive scientific approach to the study of mind, drawing concepts and methods from psychology, philosophy, linguistics, artificial intelligence, and other disciplines. (Same course as CGS 001.) GE credit: SE, SL. Effective: 2017 Fall Quarter.

PHI 011—Asian Philosophy (4)

Lecture—3 hour(s); Discussion—1 hour(s). Survey of the main philosophical systems of south and east Asia: Hinduism, Buddhism, Confucianism, and Taoism. Topics include the nature of reality, including God, the universe and the human self, human knowledge, and the proper conduct of human life. GE credit: AH, WC, WE. Effective: 2014 Fall Quarter.

PHI 012—Introduction to Symbolic Logic (4)

Lecture—3 hour(s); Discussion—1 hour(s). Syntax and semantics of the symbolic language sentence logic. Symbols of sentence logic. Translation between sentence logic and English. Truth table interpretation of sentence logic. Proof techniques. Application of truth tables and proof techniques to arguments in English. Not open for credit to students who have taken PHI 112, PHI 113, PHI 134, or PHI 135 and passed with a grade of C or better. GE credit: AH. Effective: 2011 Summer Session 1.

PHI 013—Minds, Brains, & Computers (3)

Lecture—3 hour(s). Computational theories of the nature of the mind. Mind as a computer process. Possibility of machine intelligence, consciousness, and mentality. Not open for credit for students who have completed PHI 013G. GE credit: SE, SL, SS. Effective: 2014 Fall Quarter.

PHI 013G—Minds, Brains, & Computers with Discussion (4)

Lecture—3 hour(s); Discussion—1 hour(s). Computational theories of the nature of the mind. Mind as a computer process. Possibility of machine intelligence, consciousness, and mentality. Not open for credit for students who have completed PHI 013. GE credit: AH, SE, SL, WE. Effective: 2014 Fall Quarter.

PHI 014—Ethical & Social Problems in Contemporary Society (4)

Lecture—3 hour(s); Discussion—1 hour(s). Philosophical issues and positions involved in contemporary moral and social problems. Possible topics include civil disobedience and revolution, racial and sex discrimination, environment, population control, technology and human values, sexual morality, freedom in society. GE credit: AH, WE. Effective: 1997 Spring Quarter.

PHI 015—Introduction to Bioethics (4)

Lecture—3 hour(s); Discussion—1 hour(s). Critical analysis of normative issues raised by contemporary medicine and biology. Possible topics include euthanasia, reproductive technologies, genetic engineering, informed consent and patient autonomy, experimentation on human subjects and non-human animals. GE credit: AH, WE. Effective: 2016 Spring Quarter.

PHI 016—Philosophical Foundations of American Democracy (4)

Lecture—3 hour(s); Discussion—1 hour(s). The philosophical underpinnings of democratic government and the tension between the goals of providing security and of preserving democracy and civil liberties. Illustration of the tension through focus on issues related to war and terrorism. GE credit: ACGH, AH, WE. Effective: 2009 Fall Quarter.

PHI 017—Language, Thought, & World (4)

Lecture—3 hour(s); Discussion—1 hour(s). Puzzles in the philosophy of language, such as what language is, how language conveys thoughts, whether we each speak our own private language, and what we can learn about the world by studying language. GE credit: SS, WE. Effective: 2007 Fall Quarter.

PHI 021—Philosophical Classics of the Ancient Era (4)

Lecture—3 hour(s); Discussion—1 hour(s). Survey of ancient Western philosophy with special attention to the Pre-Socratics, Plato, Aristotle, and the Sceptics. GE credit: AH, WE. Effective: 2017 Spring Quarter.

PHI 022—Philosophical Classics of the Modern Era (4)

Lecture—3 hour(s); Discussion—1 hour(s). Survey of modern Western philosophy, including Descartes, Locke, Hume, and Kant. GE credit: AH, WE. Effective: 2017 Spring Quarter.

PHI 024—Introduction to Ethics (4)

Lecture—3 hour(s); Discussion—1 hour(s). Reading of historical and contemporary philosophical works in ethics. Topics include the nature of morality, the justification of moral claims, and major ethical theories, such as consequentialist, deontological, and virtue theories. GE credit: AH, WE. Effective: 2014 Fall Quarter.

PHI 030—Introduction to Philosophy of Science (4)

Lecture—3 hour(s); Discussion—1 hour(s). Not open for credit to students who have taken PHI 104. Basic problems in the philosophy of science, common to the physical, biological, and social sciences. Analysis of explanation, confirmation theory, observational and theoretical terms, the nature of theories, operationalism and behaviorism, realism, reduction. GE credit: AH, SE, SL, WE. Effective: 2000 Fall Quarter.

PHI 031—Appraising Scientific Reasoning (4)

Lecture—3 hour(s); Discussion—1 hour(s). Introduction to scientific hypotheses and the kinds of reasoning used to justify such hypotheses. Emphasis on adequate justification, criteria, and strategies for distinguishing scientific from pseudoscientific theories. Concrete historical and contemporary cases. GE credit: AH, SE, SL, WE. Effective: 1997 Winter Quarter.

PHI 032—Understanding Scientific Change (4)

Lecture—3 hour(s); Discussion—1 hour(s). Concepts of scientific change in historical and philosophical perspective. Survey of models of growth of knowledge, 17th century to present. Relationship between logic of theories and theory choice. Kuhns revolution model. Examples from various sciences. GE credit: AH, SE, WE. Effective: 1997 Winter Quarter.

PHI 038—Introduction to Philosophy of Biology (4)

Lecture—3 hour(s); Discussion—1 hour(s). Non-technical introduction to philosophical, social, and scientific ideas, methods and technologies in contemporary biological fields such as evolution, genetics, molecular biology, ecology, behavior. Philosophical consideration of determinism, reductionism, explanation, theory, modeling, observation, experimentation. Evaluation of scientific explanations of human nature. GE credit: AH, SE, SL, WE. Effective: 2001 Spring Quarter.

PHI 098—Directed Group Study (1-5)

Variable. Prerequisite(s): Consent of Instructor. (P/NP grading only.) Effective: 1997 Winter Quarter.

PHI 099—Special Study for Undergraduates (1-5)

Variable. Prerequisite(s): Consent of Instructor. (P/NP grading only.) Effective: 1997 Winter Quarter.

PHI 101—Metaphysics (4)

Lecture—3 hour(s); Discussion—1 hour(s). Prerequisite(s): One course in Philosophy recommended. Theories of being. Such topics as reality, substance, universals, space, time, causality, becoming, body, experience, persons, freedom, and determinism. Views of the nature and method of metaphysics. Anti-metaphysical arguments. GE credit: AH, WE. Effective: 1997 Winter Quarter.

PHI 102—Theory of Knowledge (4)

Lecture—3 hour(s); Extensive Writing; Discussion. Prerequisite(s): One course in Philosophy recommended. Analysis of the concept of knowledge. The relation between knowledge, belief and truth. Development of foundationalist, coherentist and externalist theories of justified belief. Examination of skepticism. GE credit: AH, WE. Effective: 2016 Fall Quarter.

PHI 103—Philosophy on Mind (4)

Lecture/Discussion—3 hour(s); Term Paper. The relation between mind and body, our knowledge of other minds, and the explanation of mental acts. Discussion of such concepts as action, intention, and causation. GE credit: AH, WE. Effective: 1997 Winter Quarter.

PHI 104—The Evolution of Mind (4)

Lecture/Discussion—3 hour(s); Term Paper. Prerequisite(s): One previous course in Philosophy recommended. Interpretation of human thought and behavior through the lens of evolutionary theory. Topics include the nature/nurture debate concerning cognitive and other mental capacities and traits, and the interaction between evolution, learning and development. GE credit: SS, WE. Effective: 2016 Fall Quarter.

PHI 105—Philosophy of Religion (4)

Lecture—3 hour(s); Discussion—1 hour(s). Prerequisite(s): One course in Philosophy recommended. Logical, metaphysical, epistemological, and existential aspects of selected religious concepts and problems. GE credit: AH, WE. Effective: 1997 Winter Quarter.

PHI 107—Philosophy of the Physical Sciences (4)

Lecture—3 hour(s); Discussion—1 hour(s). Prerequisite(s): One Philosophy course or a science background recommended. Nature of testability and confirmation of scientific hypotheses; nature of scientific laws, theories, explanations, and models. Problems of causality, determinism, induction, and probability; the structure of scientific revolutions. GE credit: AH, SE, WE. Effective: 1997 Winter Quarter.

PHI 108—Philosophy of the Biological Sciences (4)

Lecture—3 hour(s); Discussion—1 hour(s). Prerequisite(s): One course in Biology or one course in Philosophy recommended. Scientific method in biology. Nature of biological theories, explanations, and models. Problems of evolutionary theory, ecology, genetics, and sociobiology. Science and human values. GE credit: AH, SE, SL, WE. Effective: 2016 Fall Quarter.

PHI 109—Philosophy of the Social Sciences (4)

Lecture—3 hour(s); Discussion—1 hour(s). Prerequisite(s): One course in Philosophy or a social science recommended. The nature of the social sciences, their subject matter and methods. Similarities to and differences from natural and life sciences. Predicting and explaining human behavior. Behaviorism. Reduction, holism, and individualism. Related moral issues. The social sciences and philosophy. GE credit: AH, SS, WE. Effective: 1997 Winter Quarter.

PHI 111—Philosophy of Space & Time (4)

Lecture/Discussion—3 hour(s); Term Paper. Prerequisite(s): One upper division Philosophy course recommended. Philosophical problems of space and time. Philosophical implications of space-time theories, such as those of Newton and Einstein. Topics may include the nature of geometry, conventionalism, absolutist versus relationist views of space and time, philosophical impact of relativity theory. GE credit: AH, WE. Effective: 2016 Fall Quarter.

PHI 112—Intermediate Symbolic Logic (4)

Lecture—3 hour(s); Discussion—1 hour(s). Prerequisite(s): PHI 012 C- or better; or Consent of Instructor. Predicate logic syntax and semantics. Transcription between predicate logic and English. Models, truth-trees, and derivations. Identity, functions, and definite descriptions. Introduction to concepts of metatheory. GE credit: AH. Effective: 2018 Winter Quarter.

PHI 113—Metalogic (4)

Lecture/Discussion—4 hour(s). Prerequisite(s): PHI 112; MAT 108; Or the equivalent. The metalogic of classical propositional and first-order predicate logic. Consistency, soundness and completeness of both propositional and predicate logic. The Löwenheim-Skolem theorem for predicate logic. Undecidability of predicate logic. GE credit: AH. Effective: 2006 Fall Quarter.

PHI 114—History of Ethics (4)

Lecture/Discussion—4 hour(s). Prerequisite(s): One previous Philosophy course recommended. Study of some classic texts from the history of philosophical writing on central problems of ethics, taking the form either of a survey or concentrated examination of selected historical figures. Readings from such philosophers as Aristotle, Butler, Hume, Kant, Mill. GE credit: AH, WE. Effective: 2016 Fall Quarter.

PHI 115—Problems in Normative Ethics (4)

Lecture/Discussion—3 hour(s); Term Paper. Prerequisite(s): One previous course in Philosophy recommended. Moral philosophy studied through examination of moral problems and the moral principles and common sense intuitions that bear on them. Problems discussed may include: animal rights, fetal rights, euthanasia, justice and health care, war, nuclear deterrence, world hunger, environmental protection. GE credit: AH, WE. Effective: 2016 Fall Quarter.

PHI 116—Ethical Theories (4)

Lecture/Discussion—3 hour(s); Term Paper. Prerequisite(s): One course in ethics recommended. Study of fundamental concepts and problems in ethical theory through an examination of classical and contemporary philosophical theories of ethics. Among the theories that may be discussed are utilitarianism, virtue theory, theories of natural rights, Kantian ethical theory, and contractarianism. GE credit: AH, WE. Effective: 2016 Fall Quarter.

PHI 117—Foundations of Ethics (4)

Lecture/Discussion—3 hour(s); Term Paper. Prerequisite(s): PHI 114, 115, 116, 101, or 137 recommended. Advanced investigation of questions about the nature and foundations of morality. Among the topics that may be discussed are moral realism and anti-realism, cognitivism and non-cognitivism, types of relativism, moral skepticism, normative language and normative belief. GE credit: AH, WE. Effective: 2017 Winter Quarter.

PHI 118—Political Philosophy (4)

Lecture—3 hour(s); Discussion—1 hour(s). Prerequisite(s): One course in Philosophy recommended. Intensive examination of some central concepts of political thought such as the state, sovereignty, rights, obligation, freedom, law, authority, and responsibility. GE credit: AH, SS, WE. Effective: 2017 Winter Quarter.

PHI 119—Philosophy of Law (4)

Lecture—3 hour(s); Discussion—1 hour(s). Prerequisite(s): Consent of Instructor. One course in Philosophy recommended. Philosophical theories of the nature of law, legal obligation, the relation of law and morals. Problems for law involving liberty and justice: freedom of expression, privacy, rights, discrimination and fairness, responsibility, and punishment. GE credit: AH, SS, WE. Effective: 2017 Winter Quarter.

PHI 120—Environmental Ethics (4)

Lecture/Discussion—3 hour(s); Extensive Writing. Prerequisite(s): One course in Philosophy recommended. Conceptual and ethical issues concerning the environment. Extension of ethical theory to animals, all life, and ecosystem wholes. Topics may include contemporary environmental issues such as global warming, sustainability and biodiversity. Not open for credit for students who have completed PHI 115 prior to fall 2011. GE credit: AH, WE. Effective: 2017 Winter Quarter.

PHI 121—Bioethics (4)

Lecture/Discussion—3 hour(s); Extensive Writing. Prerequisite(s): PHI 015 recommended. In-depth coverage of topics in bioethics including resource allocation, measures of health and disease/disability, public health, and ethical issues related to research on human subjects and emerging technologies. GE credit: AH, WE. Effective: 2016 Spring Quarter.

PHI 123—Aesthetics (4)

Lecture/Discussion—3 hour(s); Term Paper. Prerequisite(s): One course in Philosophy recommended. Nature of art, of artistic creation, of the work of art, and of aesthetic experience; nature and validity of criticism; relations of art to its environment. GE credit: AH, WE. Effective: 1997 Winter Quarter.

PHI 125—Theory of Action (4)

Lecture—3 hour(s); Extensive Writing/Discussion—1 hour(s). Prerequisite(s): One course in Philosophy recommended. Survey of prominent contemporary approaches to leading problems in action theory. Problems include issues about the nature of intentional action and the conceptual character of explanations of actions in terms of the agent's reasons. GE credit: AH, WE. Effective: 2017 Winter Quarter.

PHI 128—Rationality (4)

Lecture/Discussion—3 hour(s); Extensive Writing. Prerequisite(s): One course in Philosophy recommended. Philosophical issues concerning rationality in its various forms. Focus is on theoretical and practical reasoning and conditions for rational belief, choice, and action. Possible additional topics include rationality and human limitations; paradoxes of rationality; varieties of irrationality; rationality and objectivity. GE credit: AH. Effective: 2017 Winter Quarter.

PHI 129—Knowledge & the A Priori (4)

Lecture/Discussion—3 hour(s); Extensive Writing. Prerequisite(s): One course in Philosophy recommended. Self-evidence, intuition, the (in)fallibility and (in)defeasibility of a priori methods. Analytic, formalist and Kantian accounts of how knowledge can be acquired through reasoning and intuition alone, without recourse to empirical methods. GE credit: AH, WE. Effective: 2017 Winter Quarter.

PHI 131—Philosophy of Logic & Mathematics (4)

Lecture/Discussion—3 hour(s); Term Paper. Prerequisite(s): PHI 012; Or one course for credit in mathematics. Nature of formal systems and mathematical theories. Selected topics include logical and semantical paradoxes; foundations of mathematics; set theory, type theory, and intuitionistic theory; philosophy of geometry; philosophical implications of Gödel's incompleteness results. GE credit: AH, WE. Effective: 1997 Winter Quarter.

PHI 133—Logic, Probability, & Artificial Intelligence (4)

Lecture/Discussion—4 hour(s). Prerequisite(s): PHI 012; PHI 112. Introduction to theoretical artificial intelligence with a focus on nonmonotonic logic, Bayesian networks, and learning theory. Effective: 2016 Fall Quarter.

PHI 134—Modal Logic (4)

Lecture/Discussion—4 hour(s). Prerequisite(s): PHI 112 or MAT 108; Or the equivalent. Survey of the main systems of modal logic, including Lewis systems S4 and S5. Possible worlds semantics and formal proofs. Applications to epistemology, ethics, or temporality. GE credit: AH. Effective: 1998 Spring Quarter.

PHI 135—Alternative Logics (4)

Lecture/Discussion—4 hour(s). Prerequisite(s): PHI 012 or MAT 108; Or the equivalent. Alternatives to standard truth-functional logic, including many-valued logics, intuitionist logics, relevance logics, and non-monotonic logics. GE credit: AH. Effective: 1997 Winter Quarter.

PHI 136—Formal Epistemology (4)

Lecture/Discussion—4 hour(s). Prerequisite(s): PHI 012. Formal (mathematical) approaches to belief revision, knowledge and deduction, meta-knowledge, (multi-agent) epistemic logic, Bayesian confirmation, Bayes nets, epistemic and probabilistic paradoxes. GE credit: AH. Effective: 2014 Fall Quarter.

PHI 137A—Philosophy of Language: Theory of Reference (4)

Lecture/Discussion—3 hour(s); Extensive Writing. Prerequisite(s): One course in Philosophy or Linguistics recommended. Survey of issues and views concerning reference, or how words refer to things. Topics include names and descriptions, the distinction between sense and reference, the puzzle of non-referring terms, causal theories of reference, and possibility and necessity. Only 2 units of credit for students who have taken PHI 137. GE credit: AH, WE. Effective: 2017 Winter Quarter.

PHI 137B—Philosophy of Language: Truth & Meaning (4)

Lecture/Discussion—3 hour(s); Extensive Writing. Prerequisite(s): One course in Philosophy or Linguistics recommended. Comparative treatment of theories about the relationship between truth and meaning. Topics include: the identification of meaning with truth conditions, the nature of propositions, theories of linguistic understanding, the roles of mind and world in determining meaning. Only 2 units of credit for students who have taken PHI 137. GE credit: AH, WE. Effective: 2017 Winter Quarter.

PHI 137C—Philosophy of Language: Semantics & Pragmatics (4)

Lecture/Discussion—3 hour(s); Extensive Writing. Prerequisite(s): One course in Philosophy or Linguistics recommended. Philosophical issues and positions concerning the meaning and use of language. Topics include the distinction between meaning and implication, the roles of context and convention in language use, speaker meaning versus linguistic meaning and speech act theory. Only 2 units of credit for students who have taken PHI 137. GE credit: AH, WE. Effective: 2017 Winter Quarter.

PHI 141—Socrates & the Socratic Dialogue (4)

Lecture/Discussion—3 hour(s); Term Paper. Prerequisite(s): PHI 021 recommended. Philosophy of Socrates as found in the Socratic dialogues of Plato. Topics include the Socratic practice of refutation, its method, epistemological foundation, and moral purpose; Socratic eudaimonism and Socratic virtue theory; the paradoxes of Socratic intellectualism. GE credit: AH, WE. Effective: 2017 Winter Quarter.

PHI 143—Hellenistic Philosophy (4)

Lecture/Discussion—3 hour(s); Term Paper. Prerequisite(s): PHI 021 recommended. Positions and arguments of the major philosophical schools of the Hellenistic period: Stoicism, Epicureanism, and Scepticism. Focus is on ethical, epistemological and metaphysical questions and their interconnectedness. GE credit: AH, WE. Effective: 2017 Winter Quarter.

PHI 145—Christian, Islamic, & Jewish Philosophers of the Middle Ages (4)

Lecture/Discussion—4 hour(s). Prerequisite(s): PHI 021 recommended. Major Christian, Islamic, and Jewish philosophers of the Middle Ages. GE credit: AH, WC. Effective: 2018 Winter Quarter.

PHI 151—19th-Century European Philosophy (4)

Lecture/Discussion—4 hour(s). Prerequisite(s): PHI 022 recommended. Survey of the main movements in 19th-century philosophy on the European continent. Idealism in Schopenhauer and Hegel, dialectical materialism in Marx, irrationalism in Kierkegaard, Nietzsche and Dostoevsky. GE credit: AH, WE. Effective: 2017 Winter Quarter.

PHI 156—Contemporary Analytic Philosophy (4)

Lecture/Discussion—3 hour(s); Term Paper. Prerequisite(s): One course in Philosophy recommended. Consideration of central issues such as meaning/reference, analytic/synthetic, reductionism, formal and ordinary language, essential properties, ontological commitment, possible world semantics; influential works by philosophers such as Russell, Moore, Wittgenstein, Austin, Carnap, Quine, Putnam, Kripke, van Fraassen. GE credit: AH, WE. Effective: 2017 Winter Quarter.

PHI 157—20th-Century European Philosophy (4)

Lecture/Discussion—4 hour(s). Prerequisite(s): One course in Philosophy recommended. Survey of the main movements in 20th-century philosophy on the European continent, including phenomenology, existentialism, post-structuralism and post-modernism. Philosophers covered are Husserl, Heidegger, Sartre, Foucault, Derrida. GE credit: AH, WE. Effective: 2017 Winter Quarter.

PHI 160—Pre-Socratics (4)

Lecture/Discussion—3 hour(s); Term Paper. Prerequisite(s): PHI 021 recommended. Study of the metaphysical views of such pre-Socratic figures as the Milesians, the Pythagoreans, Heracleitus, Parmenides, Empedocles, Anaxagoras, and the atomists. GE credit: AH, WE. Effective: 2017 Winter Quarter.

PHI 161—Plato (4)

Lecture/Discussion—3 hour(s); Term Paper. Prerequisite(s): PHI 021 recommended. Examines Platos most important contributions in metaphysics, epistemology, psychology, cosmology, ethics and political philosophy. Dialogues will be selected from Platos middle and later writings. GE credit: AH, WE. Effective: 2017 Winter Quarter.

PHI 162—Aristotle (4)

Lecture/Discussion—3 hour(s); Term Paper. Prerequisite(s): PHI 021 recommended. Overview of Aristotles most central and influential writings. Topics selected from fields such as metaphysics, physics, ethics, logic, and psychology. GE credit: AH, WE. Effective: 2017 Winter Quarter.

PHI 168—Descartes (4)

Lecture/Discussion—4 hour(s). Prerequisite(s): PHI 022 recommended. Philosophical writings of René Descartes. Topics include the refutation of skepticism, the nature and existence of mind and body, the existence of God, and the foundations of science. GE credit: AH, WE. Effective: 2017 Winter Quarter.

PHI 170—Spinoza & Leibniz (4)

Lecture/Discussion—4 hour(s). Prerequisite(s): PHI 022 recommended. Philosophical writings of Spinoza and Leibniz in the 17th century. Topics drawn from both philosophers include: the nature and existence of God, the nature of mind, the relation between mind and body, human freedom, metaphysical monism vs. pluralism. GE credit: AH, WE. Effective: 2016 Fall Quarter.

PHI 172—Locke & Berkeley (4)

Lecture/Discussion—4 hour(s). Prerequisite(s): PHI 022 recommended. Principal metaphysical works of John Locke and George Berkeley. Topics include abstract ideas, existence of matter, primary and secondary qualities, essence, substance, the existence of God, and the nature of scientific knowledge. May be repeated for credit. GE credit: AH, WE. Effective: 2017 Winter Quarter.

PHI 174—Hume (4)

Lecture/Discussion—4 hour(s). Prerequisite(s): PHI 022 recommended. David Hume's Treatise of Human Nature and related writings. Topics include empiricism, space, causality, belief, skepticism, the passions, and morality. GE credit: AH, WE. Effective: 2019 Winter Quarter.

PHI 175—Kant (4)

Lecture/Discussion—4 hour(s). Prerequisite(s): PHI 022 recommended. Immanuel Kant's Critique of Pure Reason and related writings. Topics include the nature of human cognition, space and time, a priori concepts, substance, causality, human freedom, and the existence of God. GE credit: AH, WE. Effective: 2016 Fall Quarter.

PHI 178—Frege (4)

Lecture/Discussion—3 hour(s); Extensive Writing. Prerequisite(s): Consent of Instructor. One upper division course in Philosophy recommended. Development of Gottlob Frege's views about language and logic. Formulation of his grand mathematical idea known as logicism and how it led to the philosophy of language. GE credit: AH, WE. Effective: 2016 Fall Quarter.

PHI 189A—Special Topics in Philosophy: History of Philosophy (4)

Lecture/Discussion—3 hour(s); Extensive Writing. Prerequisite(s): One course in the area of the special topic recommended. Special topics in History of Philosophy. May be repeated up to 8 unit(s). GE credit: AH, WE. Effective: 2017 Winter Quarter.

PHI 189B—Special Topics in Philosophy: Metaphysics (4)

Lecture/Discussion—3 hour(s); Extensive Writing. Prerequisite(s): One course in the area of the special topic recommended. Special topics in Metaphysics. May be repeated up to 8 unit(s). GE credit: AH, WE. Effective: 2017 Winter Quarter.

PHI 189C—Special Topics in Philosophy: Theory of Knowledge (4)

Lecture/Discussion—3 hour(s); Extensive Writing. Prerequisite(s): One course in the area of the special topic recommended. Special topics in Theory of Knowledge. May be repeated up to 8 unit(s). GE credit: WE. Effective: 2017 Winter Quarter.

PHI 189D—Special Topics in Philosophy: Ethics (4)

Lecture/Discussion—3 hour(s); Extensive Writing. Prerequisite(s): One course in the area of the special topic recommended. Special topics in Ethics. May be repeated up to 8 unit(s). GE credit: AH, WE. Effective: 2017 Winter Quarter.

PHI 189E—Special Topics in Philosophy: Political Philosophy (4)

Lecture/Discussion—3 hour(s); Extensive Writing. Prerequisite(s): One course in the area of the special topic recommended. Special topics in Political Philosophy. May be repeated up to 8 unit(s). GE credit: AH, WE. Effective: 2017 Winter Quarter.

PHI 189F—Special Topics in Philosophy: Philosophy of Law (4)

Lecture/Discussion—3 hour(s); Extensive Writing. Prerequisite(s): One course in the area of the special topic recommended. Special topics in Philosophy of Law. May be repeated up to 8 unit(s). GE credit: AH, WE. Effective: 2017 Winter Quarter.

PHI 189G—Special Topics in Philosophy: Aesthetics (4)

Lecture/Discussion—3 hour(s); Extensive Writing. Prerequisite(s): One course in the area of the special topic recommended. Special topics in Aesthetics. May be repeated up to 8 unit(s). GE credit: AH, WE. Effective: 2017 Winter Quarter.

PHI 189H—Special Topics in Philosophy: Philosophy of Mind (4)

Lecture/Discussion—3 hour(s); Extensive Writing. Prerequisite(s): One course in the area of the special topic recommended. Special topics in Philosophy of Mind. May be repeated up to 8 unit(s). GE credit: AH, WE. Effective: 2017 Winter Quarter.

PHI 189I—Special Topics in Philosophy: Philosophy of Science (4)

Lecture/Discussion—3 hour(s); Extensive Writing. Prerequisite(s): One course in the area of the special topic recommended. Special Topics in Philosophy of Science. May be repeated up to 8 unit(s). GE credit: AH, SE, WE. Effective: 2017 Winter Quarter.

PHI 189J—Special Topics in Philosophy: Philosophy of Language (4)

Lecture/Discussion—3 hour(s); Extensive Writing. Prerequisite(s): One course in the area of the special topic recommended. Special topics in Philosophy of Language. May be repeated up to 8 unit(s). GE credit: AH. Effective: 2017 Winter Quarter.

PHI 189K—Special Topics in Philosophy: Logic (4)

Lecture/Discussion—4 hour(s). Prerequisite(s): One course in the area of the special topic recommended. Special topics in Logic. May be repeated up to 8 unit(s). GE credit: AH. Effective: 2017 Winter Quarter.

PHI 194HA—Honors Research Project (4)

Tutorial—3 hour(s); Term Paper. Prerequisite(s): Consent of Instructor. Open to students who are members of the honors program in Philosophy. Completion of honors research project under direction of an instructor. Consult departmental major advisor for list of instructors available in a given quarter. Effective: 1997 Winter Quarter.

PHI 194HB—Research Project (4)

Tutorial—3 hour(s); Term Paper. Prerequisite(s): Consent of Instructor. Open to students who are members of the honors program in Philosophy. Completion of honors research project under direction of an instructor. Consult departmental major advisor for list of instructors available in a given quarter. Effective: 1997 Winter Quarter.

PHI 198—Directed Group Study (1-5)

Variable. Prerequisite(s): Consent of Instructor. (P/NP grading only.) Effective: 1997 Winter Quarter.

PHI 199—Special Study for Advanced Undergraduates (1-5)

Variable. Prerequisite(s): Consent of Instructor. (P/NP grading only.) Effective: 1997 Winter Quarter.

PHI 200A—Proseminar I (4)

Seminar—3 hour(s); Term Paper. Prerequisite(s): Consent of Instructor. Open only to students in their first quarter of the Philosophy Ph.D. program. Intensive study of core works in a selected area of philosophy. Intensive experience in philosophical writing, discussion, and presentation of written work. Effective: 2007 Fall Quarter.

PHI 200B—Proseminar II (4)

Seminar—3 hour(s); Term Paper. Prerequisite(s): Consent of Instructor. Open only to students in their first quarter of the Philosophy Ph.D. program. Intensive study of core works in a selected area of philosophy. Intensive experience in philosophical writing, discussion, and presentation of written work. Effective: 2007 Winter Quarter.

PHI 201—Metaphysics (4)

Seminar—3 hour(s); Term Paper—1 hour(s). Prerequisite(s): Graduate standing or consent of instructor. Topics vary from quarter to quarter and may include the following: What are things? Do names refer to things? If so, how? Do things have essential properties? What is the nature of necessity? May be repeated for credit when topic differs and with consent of instructor. Effective: 2000 Fall Quarter.

PHI 202—Theory of Knowledge (4)

Seminar—3 hour(s); Term Paper—1 hour(s). Prerequisite(s): Graduate standing in Philosophy or consent of instructor. Topics vary from quarter to quarter. Sample topics include belief, skepticism, justification, externalism, naturalized epistemology. May be repeated for credit when topic differs and with consent of instructor. Effective: 2000 Fall Quarter.

PHI 203—Philosophy of Mind (4)

Seminar—3 hour(s); Term Paper. Prerequisite(s): Graduate standing or consent of instructor. Topics in the philosophy of mind, such as the mind-body problem, mental representation, consciousness, intentionality. May be repeated for credit with consent of instructor. Effective: 2000 Winter Quarter.

PHI 203P—Philosophy of Mind Practicum (4)

Practice—12 hour(s). Prerequisite(s): Consent of Instructor. Specific research conducted and prepared for publication by advanced students in a team setting. Topics include knowledge representation and learning in neural networks, the nature and formal properties of mental representation. May be repeated for credit when topic differs and consent of instructor. (S/U grading only.) Effective: 2001 Spring Quarter.

PHI 207—Philosophy of Physics (4)

Seminar—3 hour(s); Term Paper. Prerequisite(s): Graduate standing in Philosophy or consent of instructor. Intensive treatment of one (or more) topic(s) in the philosophy of physics, such as foundations of spacetime theories, the interpretation of quantum mechanics, or foundations of statistical mechanics. May be repeated for credit when topic differs and consent of instructor. Effective: 2001 Winter Quarter.

PHI 208—Philosophy of Biology (4)

Seminar—3 hour(s); Term Paper. Prerequisite(s): Graduate standing or consent of instructor. Intensive treatment of one (or more) topic(s) in the philosophy of biology, such as foundations of evolutionary theories, reductionism in biology, sociobiology and cultural evolution. May be repeated for credit when topic differs and consent of instructor. Effective: 2001 Spring Quarter.

PHI 210—Philosophy of Science (4)

Seminar—3 hour(s); Term Paper. Prerequisite(s): Graduate standing or consent of instructor. Treatment of one or more general topics of current interest in philosophy of science. Topics may include scientific explanation, theories of confirmation, scientific realism, reduction in physics and biology. May be repeated for credit when topic differs and consent of instructor. Effective: 2001 Winter Quarter.

PHI 212—Philosophy of Logic & Mathematics (4)

Seminar—3 hour(s); Term Paper. Prerequisite(s): PHI 112 or PHI 113 or MAT 108; or MAT 125 (Discontinued) or the equivalent. Philosophical issues in logic and math. Topics may include nature of logical and mathematical truth or knowledge, correctness of logical systems, foundations of mathematics, metaphysical and epistemological presuppositions, applications to philosophical problems and formalization of philosophical theories. May be repeated for credit when topic differs and consent of instructor. Effective: 2001 Winter Quarter.

PHI 213—Advanced Logic for Graduate Students (4)

Lecture/Discussion—3 hour(s); Extensive Problem Solving. Prerequisite(s): Graduate standing in Philosophy. Enrollment in the Philosophy Ph.D. program. Intensive study of advanced logic, including set theory, metatheory of predicate logic, and modal logic. May be repeated up to 2 time(s) when topic differs. Effective: 2011 Fall Quarter.

PHI 214—Ethics (4)

Seminar—3 hour(s); Term Paper. Prerequisite(s): Graduate standing in Philosophy or consent of instructor. Topics may include morality and motivation, objectivity in ethics, the relationship between the factual and the moral. Topics vary from quarter to quarter. May be repeated for credit when topic differs and consent of instructor. Effective: 2001 Winter Quarter.

PHI 217—Political Philosophy (4)

Seminar—3 hour(s); Term Paper. Prerequisite(s): Graduate standing or consent of instructor. Advanced studies in political philosophy. Topics vary but may include distributive justice, enforcement of morality by the state, equality, obligation to obey the law, social contract theory. May be repeated for credit when topic differs and consent of instructor. Effective: 2000 Fall Quarter.

PHI 220—Environmental Ethics (4)

Seminar—3 hour(s); Term Paper. Prerequisite(s): Graduate standing or consent of instructor. Intensive treatment of one or more topic(s) in environmental ethics, such as biodiversity, sustainability, composition of the moral community, invasive species, endangered species, applications of ethical theories to contemporary environmental issues. Effective: 2012 Winter Quarter.

PHI 237—Philosophy of Language (4)

Seminar—3 hour(s); Term Paper—1 hour(s). Prerequisite(s): Graduate standing or consent of instructor. Study of philosophical issues raised by language, such as the nature of semantic content, proper semantics for verbs of propositional attitude, feasibility and limitations of formal semantics and pragmatics for natural languages. May be repeated for credit when topic differs and consent of instructor. Effective: 2000 Fall Quarter.

PHI 238—Philosophy of Language Workshop (4)

Seminar—3 hour(s); Extensive Writing. Open to graduate students only. Discussion of recently published, unpublished and in-progress research in philosophy of language, including work on the relation of language and mind, of language and logic, and linguistic theory. May be repeated for credit when topic differs. Effective: 2007 Fall Quarter.

PHI 261—Plato (4)

Seminar—3 hour(s); Term Paper. Prerequisite(s): Graduate standing or consent of instructor. Advanced seminar designed for analysis of arguments, doctrines, and texts from Plato's works. Methods of argumentation and interpretation are especially stressed. Topics vary according to instructor. May be repeated for credit with consent of instructor. Effective: 2000 Winter Quarter.

PHI 262—Aristotle (4)

Seminar—3 hour(s); Term Paper—1 hour(s). Prerequisite(s): Graduate standing or consent of instructor. Advanced seminar designed for analysis of arguments, doctrines, and texts from Aristotle's works. Methods of argumentation and interpretation are especially stressed. Topics vary according to instructor. May be repeated for credit with consent of instructor. Effective: 2001 Spring Quarter.

PHI 275—Kant (4)

Seminar—3 hour(s); Term Paper. Prerequisite(s): Graduate standing in Philosophy or consent of instructor. Intensive study of a topic in the philosophy of Kant, in such areas as metaphysics, theory of knowledge, ethics. May be repeated for credit with consent of instructor. Effective: 2000 Winter Quarter.

PHI 290—History of Philosophy (4)

Seminar—3 hour(s); Term Paper. Prerequisite(s): Graduate standing or consent of instructor. Topics in the history of philosophy. Topics vary according to instructor from quarter to quarter. May be repeated for credit when topic differs and with consent of instructor. Effective: 2001 Winter Quarter.

PHI 298—Group Study (1-5)

Variable. Prerequisite(s): Consent of Instructor. Effective: 1997 Winter Quarter.

PHI 299—Research (1-12)

Variable. Prerequisite(s): Consent of Instructor. (S/U grading only.) Effective: 1997 Winter Quarter.

PHI 396—Teaching Assistant Training Practicum (1-4)

Variable. Prerequisite(s): Graduate standing. May be repeated for credit. (P/NP grading only.) Effective: 1997 Winter Quarter.

PHR—Population Health & Reproduction

Courses in PHR:

PHR 092—Internship in Veterinary Science (1-4)

Discussion/Laboratory—1-4 hour(s); Clinical Activity—3-36 hour(s). Prerequisite(s): Approval of project prior to period of internship by faculty sponsor. Supervised work experience in reproduction. (P/NP grading only.) Effective: 1997 Winter Quarter.

PHR 106—Human-Animal Interactions: Benefits & Issues (2)

Lecture—18 hour(s); Fieldwork—1 hour(s). Prerequisite(s): Upper division standing or consent of instructor. Contributions of animals to human society, including historic, anthropologic, developmental, human health and therapeutic perspectives, as well as effects of humans on animals. One field trip required. Effective: 2009 Winter Quarter.

PHR 192—Internship in Veterinary Science (1-12)

Discussion/Laboratory—1-12 hour(s); Clinical Activity—3-36 hour(s). Prerequisite(s): Upper division standing; approval of project prior to period of internship. Supervised work experience in Reproduction. May be repeated for credit. (P/NP grading only.) Effective: 1997 Winter Quarter.

PHR 198—Directed Group Study (1-5)

Variable—3-15 hour(s). May be repeated for credit. (P/NP grading only.) Effective: 2010 Spring Quarter.

PHR 199—Special Study for Advanced Undergraduates (1-5)

Variable. (P/NP grading only.) Effective: 1997 Winter Quarter.

PHR 202—Sampling in Health-Related Research (3)

Lecture—3 hour(s). Prerequisite(s): MPM 403; and Consent of Instructor. Or the equivalent. A very thorough coverage of simple random sampling, stratified sampling, cluster sampling, systematic sampling and other sampling methods applied extensively in epidemiology and other health-related disciplines. Emphasis on application of the sampling methods. Effective: 1997 Winter Quarter.

PHR 203—Multivariate Biostatistics (3)

Lecture—3 hour(s). Prerequisite(s): MPM 403; MPM 404; and Consent of Instructor. Or the equivalent. Multivariate procedures covered are principal component analysis, factor analysis, Two-group and k-group multivariate ANOVA, multivariate regression, Two-group and k-group discriminant analysis and repeated measures analysis, cluster analysis, and canonical analysis. Emphasis is on application of procedures. Effective: 1997 Winter Quarter.

PHR 210—Epidemiological Approaches to Waterborne Zoonotic Pathogens (1)

Lecture—1 hour(s). Waterborne zoonotic diseases remain a significant cause of human illness. Review key waterborne pathogens; their biology, fate and transport in aquatic systems; on-farm management practices for reducing microbial contamination of California's fresh and marine aquatic resources from livestock production systems. (S/U grading only.) Effective: 2012 Winter Quarter.

PHR 212—Epidemiology of the Zoonoses (4)

Lecture—35 hour(s); Discussion—5 hour(s). Prerequisite(s): Graduate standing or third-year standing in the School of Veterinary Medicine or consent of instructor. Epidemiological, biological and ecological features of some major infections shared by humans and other animals. Wildlife and domestic animals zoonoses of major health and economic significance are presented to illustrate how knowledge of zoonoses epidemiology is essential for implementing control measures. Effective: 2005 Winter Quarter.

PHR 241—Advanced Topics in Canine Genetics & Genomics (2)

Discussion—2 hour(s). Prerequisite(s): GGG 201A; GGG 201C; Or equivalents, with consent of instructor. Limited enrollment. In-depth study of topics in canine genomics and genetics. Topics will vary annually, but can include positional cloning, whole genome association, complex traits and linkage disequilibrium. Students will lead discussions on assigned readings. May be repeated for credit when topic differs. Effective: 2007 Fall Quarter.

PHR 243—Advanced Topics in Conservation Genetics (2)

Discussion—18 hour(s); Lecture—2 hour(s). Prerequisite(s): Undergraduate genetics and ecology or consent of instructor. Restricted to 16 students. In-depth study of topics related to the application of genetic tools to wildlife conservation. Topics will vary annually, but may include use of non-invasive methods of genetic assessment and monitoring of wildlife populations. Students will lead discussions on assigned readings. May be repeated up to 1 time(s) when topic differs. (S/U grading only.) Effective: 2010 Spring Quarter.

PHR 266—Applied Analytic Epidemiology (3)

Lecture—2 hour(s); Laboratory—2 hour(s). Prerequisite(s): MPM 404; or Consent of Instructor. Principles and applications in analysis of epidemiologic data. Methods of analyzing stratified and matched data, logistic regression for cohort and case-control studies, Poisson regression, survival-time methods. (Same course as SPH 266.) Effective: 2009 Spring Quarter.

PHR 277—Mathematical Models in Epidemiology (3)

Lecture/Discussion—2 hour(s); Laboratory—2 hour(s). Prerequisite(s): MPM 403; (EPI 205A or MPM 405); Consent of instructor; although not required, students are encouraged to refresh their knowledge of high school calculus and differential equations. Limited to 30 students. Theory of epidemics and mathematical modeling concepts for infectious diseases to include discrete and continuous time models, their use to explore disease dynamics and investigate prevention and control strategies for human and veterinary infectious diseases. (Same course as EPI 277.) Effective: 2013 Fall Quarter.

PHR 290—Seminar (1)

Seminar—1 hour(s). Presentation and discussion of advanced and current topics in population health and reproduction. (S/U grading only.) Effective: 2016 Winter Quarter.

PHR 298—Group Study (1-5)

Variable. Effective: 1997 Winter Quarter.

PHR 299—Research (1-12)

Variable. (S/U grading only.) Effective: 1997 Winter Quarter.

PHY—Physics

Courses in PHY:

PHY 001 is a two-quarter sequence requiring some mathematics (trigonometry). Either PHY 001A alone or both quarters may be taken. The sequence is not intended to satisfy entrance requirements of a year of physics for professional schools, but will satisfy requirements of 3 or 6 units of physics.

PHY 007 is a one-year (three-quarter) introductory physics course with laboratory intended for students majoring in the biological sciences. It has a calculus prerequisite. If you don't want a full year of introductory physics, you should take one or two quarters of PHY 001, instead. Read the following information carefully if you are using PHY 007 to complete an introductory course you have already begun.

If you have completed one introductory quarter or semester of a traditionally taught physics course and want to continue with PHY 007, you will probably have full or partial credit for PHY 007B. You should first take (and will receive full credit for) PHY 007A. Then, if you have received partial credit for PHY 007B, you can take the remainder of the course using PHY 049 (please see the department for details), or take PHY 007B and receive reduced credit. Finally, take PHY 007C for full credit.

If you have completed one introductory quarter or semester of a traditionally taught physics course and want to continue with PHY 007, you should first take (and will receive full credit for) PHY 007A. Then, either skip PHY 007B, but self-study the last three weeks of material, or take PHY 007B and receive reduced credit. Finally, take PHY 007C for full credit.

If you have taken two quarters of a year-long introductory physics course and have not had extensive work in optics, electricity and magnetism, and modern physics, you should take PHY 007C. In no case should you take PHY 007B without first taking PHY 007A. All other situations should be discussed directly with a PHY 007 instructor.

Students not intending to take the entire sequence should instead take PHY 001.

PHY 009 is a four-quarter sequence using calculus throughout and including laboratory work as an integral component. The course is primarily for students in the physical sciences and engineering.

PHY 009H is a five-quarter honors physics sequence, which may be taken instead of PHY 009. It is intended primarily for first-year students with a strong interest in physics and with advanced placement in mathematics to MAT 021B. Students who plan to major in physics, and also motivated non-majors, should take PHY 009H instead of PHY 009 if they are ready to begin MAT 021B in fall quarter. In course requirements and prerequisites, PHY 009HA-009HE can be substituted for PHY 009A-009D. Students may not switch between the PHY 009H and PHY 009 series beyond PHY 009HA or PHY 009A.

PHY 010 is primarily a concept-oriented one-quarter lecture/discussion course requiring relatively little mathematical background.

PHY 001A—Principles of Physics (3)

Lecture—3 hour(s). Prerequisite(s): Trigonometry or consent of instructor. Mechanics. Introduction to general principles and analytical methods used in physics with emphasis on applications in applied agricultural and biological sciences and in physical education. Not open to students who have received credit for PHY 007B or PHY 009A. GE credit: SE. Effective: 1997 Winter Quarter.

PHY 001B—Principles of Physics (3)

Lecture—3 hour(s). Prerequisite(s): PHY 001A or PHY 009A. Not open for credit to students who have received credit for PHY 007A, PHY 007B, PHY 007C, PHY 009B, PHY 009C, or PHY 009D. Continuation of PHY 001A. Heat, optics, electricity, modern physics. Not open for credit to students who have received credit for PHY 007A, PHY 007B, PHY 007C, PHY 009B, PHY 009C, or PHY 009D. GE credit: SE. Effective: 1997 Winter Quarter.

PHY 007A—General Physics (4)

Lecture—1.5 hour(s); Discussion/Laboratory—5 hour(s). Prerequisite(s): MAT 016B (can be concurrent) or MAT 017B (can be concurrent) or MAT 021B (can be concurrent); Completion or concurrent enrollment in MAT 016B or MAT 017B or MAT 021B. Introduction to general principles and analytical methods used in physics for students majoring in a biological science. Only 2 units of credit allowed to students who have completed PHY 001B or PHY 009B. GE credit: SE. Effective: 2010 Winter Quarter.

PHY 007B—General Physics (4)

Lecture—1.5 hour(s); Discussion/Laboratory—5 hour(s). Prerequisite(s): PHY 007A. Continuation of PHY 007A. Only 2 units of credit allowed to students who have completed PHY 001A or PHY 009A. GE credit: SE. Effective: 1997 Winter Quarter.

PHY 007C—General Physics (4)

Lecture—1.5 hour(s); Discussion/Laboratory—5 hour(s). Prerequisite(s): PHY 007B. Continuation of PHY 007B. Only 2 units of credit allowed to students who have completed PHY 009C or PHY 005C. GE credit: SE. Effective: 1997 Winter Quarter.

PHY 009A—Classical Physics (5)

Lecture—3 hour(s); Laboratory—2.5 hour(s); Discussion—1 hour(s). Prerequisite(s): MAT 021B or MAT 021M; or Consent of Instructor. Introduction to general principles and analytical methods used in physics for physical science and engineering majors. Classical mechanics. Only 2 units of credit for students who have completed PHY 001A or PHY 007B; not open for credit to students who have completed PHY 009HA. GE credit: SE. Effective: 2018 Summer Session 1.

PHY 009B—Classical Physics (5)

Lecture—3 hour(s); Laboratory—2.5 hour(s); Discussion—1 hour(s). Prerequisite(s): PHY 009A; MAT 021C; MAT 021D (can be concurrent). Continuation of PHY 009A. Fluid mechanics, thermodynamics, wave phenomena, optics. Only 2 units of credit for students who have completed PHY 007A; not open for credit to students who have completed PHY 009HB, PHY 009HC, or ENG 105. GE credit: SE. Effective: 2004 Fall Quarter.

PHY 009C—Classical Physics (5) *Review all entries*

Lecture—3 hour(s); Laboratory—2.5 hour(s); Discussion—1 hour(s). Prerequisite(s): PHY 009B; MAT 021D; MAT 022A (can be concurrent). Electricity and magnetism including circuits and Maxwell's equations. Only 3 units of credit for students who have completed PHY 007C; not open for credit to students who have completed PHY 009HD. GE credit: SE. Effective: 2005 Winter Quarter.

PHY 009C—Classical Physics (5) *Review all entries*

Lecture—3 hour(s); Laboratory—2.5 hour(s); Discussion—1 hour(s). Prerequisite(s): PHY 009B; MAT 021D; (MAT 022A or MAT 027A (can be concurrent)). Electricity and magnetism including circuits and Maxwell's equations. Only 3 units of credit for students who have completed PHY 007C; not open for credit to students who have completed PHY 009HD. GE credit: SE. Effective: 2020 Summer Session 1.

PHY 009D—Modern Physics (4) *Review all entries*

Lecture—3 hour(s); Discussion—1.5 hour(s). Prerequisite(s): PHY 009C; (MAT 022A or MAT 027A); MAT 022B or MAT 27B recommended (may be taken concurrently). Introduction to physics concepts developed since 1900. Special relativity, quantum mechanics, atoms, molecules, condensed matter, nuclear and particle physics. GE credit: SE. Effective: 2020 Summer Session 1.

PHY 009D—Modern Physics (4) *Review all entries*

Lecture—3 hour(s); Discussion—1.5 hour(s). Prerequisite(s): PHY 009C; MAT 022A; MAT 022B recommended (may be taken concurrently). Not open for credit to students who have completed PHY 009HB, 009HC, or 009HE. Introduction to physics concepts developed since 1900. Special relativity, quantum mechanics, atoms, molecules, condensed matter, nuclear and particle physics. Not open for credit to students who have completed PHY 009HB, PHY 009HC, or PHY 009HE. GE credit: SE. Effective: 1999 Spring Quarter.

PHY 009HA—Honors Physics (5)

Lecture—3 hour(s); Discussion/Laboratory—4 hour(s). Prerequisite(s): MAT 021B (can be concurrent); or Consent of Instructor. Classical mechanics. Same material as PHY 009A in greater depth. For students in physical sciences, mathematics, and engineering. Only 2 units of credit for students who have completed PHY 007B; not open for credit to students who have completed PHY 009A. GE credit: SE. Effective: 2003 Fall Quarter.

PHY 009HB—Honors Physics (5)

Lecture—3 hour(s); Discussion/Laboratory—4 hour(s). Prerequisite(s): (PHY 009HA or PHY 009A); MAT 021C (can be concurrent). Special relativity, thermal physics. Continuation of PHY 009HA. Only 2 units of credit for students who have completed PHY 007A; not open for credit to students who have completed PHY 009B or PHY 009D. GE credit: SE. Effective: 2004 Winter Quarter.

PHY 009HC—Honors Physics (5)

Lecture—3 hour(s); Discussion/Laboratory—4 hour(s). Prerequisite(s): PHY 009HB; MAT 021D (can be concurrent). Waves, sound, optics, quantum physics. Continuation of Physics 9HB. Only 2 units of credit for students who have completed PHY 007C; not open for credit to students who have completed PHY 009B or PHY 009D. GE credit: SE. Effective: 2004 Spring Quarter.

PHY 009HD—Honors Physics (5)

Lecture—3 hour(s); Discussion/Laboratory—4 hour(s). Prerequisite(s): PHY 009HC; MAT 021D. Electricity and magnetism. Continuation of Physics 9HC. Not open for credit to students who have completed PHY 009C. GE credit: SE. Effective: 2003 Fall Quarter.

PHY 009HE—Honors Physics (5) *Review all entries*

Lecture—3 hour(s); Discussion/Laboratory—4 hour(s). Prerequisite(s): PHY 009HD; MAT 022B (can be concurrent). Application of quantum mechanics. Not open for credit to students who have completed PHY 009D. GE credit: SE. Effective: 2004 Winter Quarter.

PHY 009HE—Honors Physics (5) *Review all entries*

Lecture—3 hour(s); Discussion/Laboratory—4 hour(s). Prerequisite(s): PHY 009HD; (MAT 022B or MAT 027B (can be concurrent)). Application of quantum mechanics. Not open for credit to students who have completed PHY 009D. GE credit: SE. Effective: 2020 Summer Session 1.

PHY 010—Topics in Physics for Nonscientists (4)

Lecture—3 hour(s); Discussion—1 hour(s). Prerequisite(s): High school algebra. Emphasis varies: survey of basic principles or a deeper exploration of some particular branch. Past topics included black holes, space time, and relativity; physics of music; history and philosophy; energy and the environment; and natural phenomena. No units of credit allowed if taken after any other PHY course. GE credit: SE. Effective: 1997 Winter Quarter.

PHY 010C—Physics of California (3)

Lecture—3 hour(s). Atmospheric phenomena common in CA, local weather patterns and microclimates. Applications to CA energy, water, and resource management policies. Physics underlying regional sports in CA. Not open for credit to students who have completed any quarter of PHY 009 or PHY 009H, or any upper division PHY course. GE credit: SE, SL, VL. Effective: 2014 Fall Quarter.

PHY 010CY—Physics of California (3)

Web Virtual Lecture—1 hour(s); Web Electronic Discussion—0.5 hour(s); Discussion—1.5 hour(s). Conceptual understanding of the physics underlying regional sports in CA. Focus on skiing, surfing, and scuba diving. Atmospheric phenomena common in CA, local weather patterns and microclimates, applications to CA energy, and water are also discussed. Not open for credit to students who have completed PHY 010C, any quarter of PHY 009A, PHY 009B, PHY 009C, PHY 009D, PHY 009HA, PHY 009HB, PHY 009HC, PHY 009HD, or PHY 009HE, or any upper division PHY course. GE credit: SE, SL, VL. Effective: 2017 Winter Quarter.

PHY 012—Visualization in Science (3)

Lecture—3 hour(s). Production, interpretation, and use of images in physics, astronomy, biology, and chemistry as scientific evidence and for communication of research results. GE credit: SE, SL, VL. Effective: 2017 Winter Quarter.

PHY 030—Fractals, Chaos & Complexity (3)

Lecture/Discussion—3 hour(s). Prerequisite(s): MAT 016A or MAT 017A or MAT 021A. Modern ideas about the unifying ideas of fractal geometry, chaos and complexity. Basic theory and applications with examples from physics, earth sciences, mathematics, population dynamics, ecology, history, economics, biology, computer science, art and architecture. (Same course as GEL 030.) GE credit: QL, SE. Effective: 2020 Winter Quarter.

PHY 040—Introduction to Physics Computation (4)

Lecture—2 hour(s); Laboratory—4 hour(s). Introduction to programming using C++ with examples from computational physics. Introduction to modern tools used for scientific analysis, including Scientific computing with Python. GE credit: SE. Effective: 2018 Summer Session 2.

PHY 049—Supplementary Work in Lower Division Physics (1-3)

Variable. With consent of instructor, students with partial credit in lower division physics courses may complete the credit under this heading. May be repeated for credit. GE credit: SE. Effective: 1999 Fall Quarter.

PHY 080—Experimental Techniques (4)

Lecture—2 hour(s); Laboratory—5 hour(s). Prerequisite(s): PHY 009D or PHY 009HD. Open to Physics and Applied Physics majors only. Experimental techniques. Design of circuits. Data analysis, sources of noise, statistical and systematic uncertainties. Light sources, detection, and measurement in basic optical systems. Effective: 2017 Fall Quarter.

PHY 090X—Lower Division Seminar (2)

Seminar—2 hour(s). Prerequisite(s): Consent of Instructor. Lower division standing. Limited enrollment. Examination of a special topic in Physics through shared readings, discussions, written assignments, or special activities such as laboratory work. May be repeated for credit. GE credit: SE. Effective: 1998 Fall Quarter.

PHY 098—Directed Group Study (1-5)

Variable. Prerequisite(s): Consent of Instructor. Primary for lower division students. (P/NP grading only.) GE credit: SE. Effective: 1997 Winter Quarter.

PHY 099—Special Study for Undergraduates (1-5)

Variable. Prerequisite(s): Consent of Instructor. (P/NP grading only.) GE credit: SE. Effective: 1997 Winter Quarter.

PHY 102—Computational Laboratory in Physics (1) *Review all entries*

Laboratory—4 hour(s). Prerequisite(s): (MAT 021D, (MAT 022A or MAT 027A), (MAT 022B or MAT 027B)), (PHY 009D or PHY 009HD), PHY 040, PHY 104A (can be concurrent). Introduction to computational physics and to the computational resources in the physics department. Preparation for brief programming assignments required in other upper division physics classes. Not open to students who have completed PHY 104B or PHY 105AL. GE credit: SE. Effective: 2020 Summer Session 1.

PHY 102—Computational Laboratory in Physics (1) *Review all entries*

Laboratory—4 hour(s). Prerequisite(s): MAT 021D; ECS 030; (PHY 009D or PHY 009HD); PHY 104A (can be concurrent); MAT 22AB; PHY 104A required concurrently. Introduction to computational physics and to the computational resources in the physics department. Preparation for brief programming assignments required in other upper division physics classes. Not open to students who have completed PHY 104B or PHY 105AL. GE credit: SE. Effective: 2008 Summer Session 1.

PHY 102—Computational Laboratory in Physics (1) *Review all entries*

Laboratory—4 hour(s). Prerequisite(s): MAT 021D; MAT 022A; MAT 022B; (PHY 009D or PHY 009HD); PHY 040; PHY 104A (can be concurrent). Introduction to computational physics and to the computational resources in the physics department. Preparation for brief programming assignments required in other upper division physics classes. Not open to students who have completed PHY 104B or PHY 105AL. GE credit: SE. Effective: 2020 Fall Quarter.

PHY 104A—Introductory Methods of Mathematical Physics (4) *Review all entries*

Lecture—3 hour(s); Extensive Problem Solving. Prerequisite(s): ((PHY 009B C- or better, PHY 009C C- or better, PHY 009D C- or better) or (PHY 009HB C- or better, PHY 009HC C- or better, PHY 009HD C- or better, PHY 009HE C- or better)); (MAT 021D C- or better, (MAT 022A C- or better or MAT 027A C- or better), (MAT 022B C- or better or MAT 027B C- or better)); or Consent of Instructor. Introduction to the mathematics used in upper division physics courses, including applications of vector spaces, Fourier analysis, partial differential equations. Effective: 2020 Summer Session 1.

PHY 104A—Introductory Methods of Mathematical Physics (4) *Review all entries*

Lecture—3 hour(s); Extensive Problem Solving. Prerequisite(s): (PHY 009B C- or better, PHY 009C C- or better, PHY 009D C- or better); (MAT 021D C- or better, MAT 022A C- or better, MAT 022B C- or better); or Consent of Instructor. Introduction to the mathematics used in upper division physics courses, including applications of vector spaces, Fourier analysis, partial differential equations. Effective: 2000 Fall Quarter.

PHY 104B—Computational Methods of Mathematical Physics (4)

Lecture—3 hour(s); Extensive Problem Solving. Prerequisite(s): PHY 104A C- or better; PHY 105AL; or Consent of Instructor. Introduction to the use of computational techniques to solve the mathematical problems that arise in advanced physics courses, complementing the analytical approaches emphasized in PHY 104A. GE credit: SE. Effective: 2000 Fall Quarter.

PHY 104C—Intermediate Methods of Mathematical Physics (4)

Lecture—3 hour(s); Extensive Problem Solving. Prerequisite(s): PHY 104A C- or better; or Consent of Instructor. Applications of complex analysis, conditional probability, integral transformations and other advanced topics. Effective: 2000 Fall Quarter.

PHY 105A—Analytical Mechanics (4) *Review all entries*

Lecture—3 hour(s). Prerequisite(s): (PHY 009B C or better, PHY 009C C or better, PHY 009D C or better); (MAT 021D C or better, MAT 022A C or better, MAT 022B C or better); Or consent of department for any of the courses. Principles and applications of Newtonian mechanics; introduction to Lagrange's and Hamilton's equations GE credit: SE. Effective: 1999 Fall Quarter.

PHY 105A—Analytical Mechanics (4) *Review all entries*

Lecture—3 hour(s). Prerequisite(s): (PHY 009B C or better, PHY 009C C or better, PHY 009D C or better) or (PHY 009HB C or better, PHY 009HC C or better, PHY 009HD C or better, PHY 009HE C or better); (MAT 021D C or better, (MAT 022A C or better or MAT 027A C or better), (MAT 022B C or better or MAT 027B C or better)); or Consent of Instructor. Principles and applications of Newtonian mechanics; introduction to Lagrange's and Hamilton's equations GE credit: SE. Effective: 2020 Summer Session 1.

PHY 105B—Analytical Mechanics (4)

Lecture—3 hour(s). Prerequisite(s): PHY 104A C or better; PHY 105A C or better; Or consent of department for any of the courses. Principles and applications of Newtonian mechanics; introduction to Lagrange's and Hamilton's equations GE credit: SE. Effective: 1999 Fall Quarter.

PHY 105C—Continuum Mechanics (4)

Lecture—3 hour(s). Prerequisite(s): PHY 104A C- or better; PHY 105A C- or better; or Consent of Instructor. The continuum hypothesis and limitations, tensors, isotropic constitutive equations, and wave propagation. Applications such as elastic solids, heat flow, aerodynamics, and ocean waves. GE credit: SE. Effective: 2006 Spring Quarter.

PHY 108—Optics (3) *Review all entries*

Lecture—3 hour(s). Prerequisite(s): ((PHY 009A, PHY 009B, PHY 009C, PHY 009D) or (PHY 007A, PHY 007B, PHY 007C) or (PHY 009HA, PHY 009HB, PHY 009HC, PHY 009HD, PHY 009HE)); (MAT 021A, MAT 021B, MAT 021C, MAT 021D); or Consent of Instructor. The phenomena of diffraction, interference, and polarization of light, with applications to current problems in astrophysics, material science, and atmospheric science. Study of modern optical instrumentation. Open to non-majors. GE credit: SE. Effective: 2020 Summer Session 1.

PHY 108—Optics (3) *Review all entries*

Lecture—3 hour(s). Prerequisite(s): ((PHY 009A, PHY 009B, PHY 009C, PHY 009D) or (PHY 007A, PHY 007B, PHY 007C)); (MAT 021A, MAT 021B, MAT 021C, MAT 021D); or Consent of Instructor. The phenomena of diffraction, interference, and polarization of light, with applications to current problems in astrophysics, material science, and atmospheric science. Study of modern optical instrumentation. Open to non-majors. GE credit: SE. Effective: 1997 Winter Quarter.

PHY 108L—Optics Laboratory (1)

Laboratory—3 hour(s). Prerequisite(s): PHY 108 (can be concurrent); PHY 108 required concurrently. The laboratory will consist of one major project pursued throughout the quarter, based on modern applications of optical techniques. GE credit: SE. Effective: 1997 Winter Quarter.

PHY 110A—Electricity & Magnetism (4) *Review all entries*

Lecture—3 hour(s). Prerequisite(s): (PHY 009B C- or better, PHY 009C C- or better, PHY 009D C- or better) or (PHY 009HB C- or better, PHY 009HC C- or better, PHY 009HD C- or better, PHY 009HE C- or better); MAT 021D C- or better; (MAT 022A C- or better or MAT 027A C- or better); (MAT 022B C- or better or MAT 027B C- or better); PHY 104A; PHY 105A; or consent of department. Theory of electrostatics, electromagnetism, Maxwell's equations, electromagnetic waves. GE credit: SE. Effective: 2020 Summer Session 1.

PHY 110A—Electricity & Magnetism (4) *Review all entries*

Lecture—3 hour(s). Prerequisite(s): (PHY 009B C- or better, PHY 009C C- or better, PHY 009D C- or better) or (PHY 009HB C- or better, PHY 009HC C- or better, PHY 009HD C- or better, PHY 009HE C- or better); MAT 021D C- or better; MAT 022A C- or better; MAT 022B C- or better; PHY 104A; PHY 105A; or consent of department. Theory of electrostatics, electromagnetism, Maxwell's equations, electromagnetic waves. GE credit: SE. Effective: 2019 Spring Quarter.

PHY 110B—Electricity & Magnetism (4)

Lecture—3 hour(s). Prerequisite(s): PHY 110A C- or better; PHY 104A C- or better; Or consent of department. Theory of electrostatics, electromagnetism, Maxwell's equations, electromagnetic waves. GE credit: SE. Effective: 2010 Winter Quarter.

PHY 110C—Electricity & Magnetism (4)

Lecture—3 hour(s). Prerequisite(s): PHY 110B C- or better; Or consent of department. Theory of electrostatics, electromagnetism, Maxwell's equations, electromagnetic waves. GE credit: SE. Effective: 2010 Winter Quarter.

PHY 112—Thermodynamics & Statistical Mechanics (4)

Lecture—3 hour(s). Prerequisite(s): PHY 115A; Or the equivalent. Introduction to classical and quantum statistical mechanics and their connections with thermodynamics. Theory is developed for the ideal gas model and simple magnetic models and then extended to studies of solids, quantum fluids, and chemical equilibria. GE credit: SE. Effective: 2000 Winter Quarter.

PHY 115A—Foundation of Quantum Mechanics (4)

Lecture—3 hour(s); Extensive Problem Solving. Prerequisite(s): PHY 104A C- or better; PHY 105A C- or better; Or consent of department. Introduction to the methods of quantum mechanics with applications to atomic, molecular, solid state, nuclear and elementary particle physics. Extensive problem solving. GE credit: SE. Effective: 2007 Winter Quarter.

PHY 115B—Applications of Quantum Mechanics (4)

Lecture—3 hour(s). Prerequisite(s): PHY 115A C- or better; Or consent of department. Angular momentum and spin; hydrogen atom and atomic spectra; perturbation theory; scattering theory. GE credit: SE. Effective: 1999 Fall Quarter.

PHY 116A—Electronic Instrumentation (4) *Review all entries*

Lecture—3 hour(s); Laboratory—3 hour(s). Prerequisite(s): (PHY 009C or PHY 009HD); (MAT 022B or MAT 027B); or Consent of Instructor. Experimental and theoretical study of important analog electronic circuits. Linear circuits, transmission lines, input impedance, feedback, amplifiers, oscillators, noise. GE credit: SE, VL. Effective: 2020 Summer Session 1.

PHY 116A—Electronic Instrumentation (4) *Review all entries*

Lecture—3 hour(s); Laboratory—3 hour(s). Prerequisite(s): PHY 009C; MAT 022B; or Consent of Instructor. Experimental and theoretical study of important analog electronic circuits. Linear circuits, transmission lines, input impedance, feedback, amplifiers, oscillators, noise. GE credit: SE, VL. Effective: 2008 Fall Quarter.

PHY 116B—Electronic Instrumentation (4)

Lecture—3 hour(s); Laboratory—3 hour(s). Prerequisite(s): PHY 009C or PHY 009HD; or Consent of Instructor. Continuation of PHY 116A. Introduction to the use of digital electronics and microcomputers in experimental physics. Nonlinear electronics, integrated circuits, analog-to-digital and digital-to-analog converters, transducers, actuators. GE credit: SE. Effective: 2008 Spring Quarter.

PHY 116C—Introduction to Computer-Based Experiments in Physics (4)

Lecture—3 hour(s); Laboratory—3 hour(s). Prerequisite(s): (PHY 009D or PHY 009HD); PHY 116B; MAT 022B; or Consent of Instructor. Introduction to techniques for making physical measurements using computer-based instrumentation. GE credit: SE, WE. Effective: 2004 Spring Quarter.

PHY 122A—Advanced Laboratory in Condensed Matter Physics (4)

Laboratory—8 hour(s). Prerequisite(s): PHY 104A; PHY 105A; PHY 110B; PHY 115A; PHY 112 (can be concurrent); PHY 080; Or consent of the department. Registration by Permission to Add (PTA) number only; priority given to graduating PHY and APP majors. Experimental techniques and measurements in solid-state physics. Three-six experiments performed depending on difficulty. Individual work is stressed. Thorough write-ups of the experiments are required. GE credit: SE, WE. Effective: 2019 Winter Quarter.

PHY 122B—Advanced Laboratory in Particle Physics (4)

Laboratory—8 hour(s). Prerequisite(s): PHY 104A; PHY 105A; PHY 110B; PHY 115A; PHY 112 (can be concurrent); PHY 080; Or consent of the department. Registration by Permission to Add (PTA) number only; priority given to graduating PHY and APP majors. Experimental techniques and measurements in nuclear and particle physics. Students perform three to six experiments depending on difficulty. Individual work is stressed. Thorough write-ups of the experiments are required. GE credit: SE, WE. Effective: 2019 Winter Quarter.

PHY 123—Signals & Noise in Physics (4)

Lecture—3 hour(s); Project (Term Project)—1 hour(s). Prerequisite(s): PHY 009A; PHY 009B; PHY 009C; PHY 009D; PHY 104A; or Consent of Instructor. Not open to students who have taken this course previously as course 198. Techniques of measurement and analysis designed to avoid systematic error and maximize signal/noise ratio. Illustrative examples of optimal filters ranging from condensed matter to cosmology. GE credit: SE. Effective: 2007 Winter Quarter.

PHY 129A—Introduction to Nuclear Physics (4)

Lecture—3 hour(s). Prerequisite(s): PHY 115A C- or better; or Consent of Instructor. Survey of basic nuclear properties and concepts requiring introductory knowledge of quantum mechanics: nuclear models and forces, radioactive decay and detecting nuclear radiation and nuclear reaction products, alpha, beta and gamma decay. GE credit: SE. Effective: 2000 Winter Quarter.

PHY 129B—Nuclear Physics, Extensions & Applications (4)

Lecture—3 hour(s); Term Paper. Prerequisite(s): PHY 129A. Continuation of PHY 129A. Nuclear reactions, neutrons, fission, fusion accelerators, introduction to meson and particle physics, nuclear astrophysics, and applications of nuclear physics and techniques to mass spectrometry, nuclear medicine, trace element analysis. GE credit: SE. Effective: 1997 Winter Quarter.

PHY 130A—Elementary Particle Physics (4)

Lecture—3 hour(s). Prerequisite(s): PHY 115A C- or better; or Consent of Instructor. Properties and classification of elementary particles and their interactions. Experimental techniques. Conservation laws and symmetries. Strong, electromagnetic, and weak interactions. Introduction to Feynman calculus. GE credit: SE. Effective: 2000 Winter Quarter.

PHY 130B—Elementary Particle Physics (4)

Lecture—3 hour(s). Prerequisite(s): PHY 115A C- or better; or Consent of Instructor. Properties and classification of elementary particles and their interactions. Experimental techniques. Conservation laws and symmetries. Strong, electromagnetic, and weak interactions. Introduction to Feynman calculus. GE credit: SE. Effective: 2000 Winter Quarter.

PHY 140A—Introduction to Solid State Physics (4)

Lecture—3 hour(s). Prerequisite(s): PHY 115A C- or better; or Consent of Instructor. Or equivalent course passed with C- or better. Survey of fundamental ideas in the physics of solids, with selected device applications. Crystal structure, x-ray and neutron diffraction, phonons, simple metals, energy bands and Fermi surfaces, semiconductors, optical properties, magnetism, superconductivity. GE credit: SE. Effective: 2000 Winter Quarter.

PHY 140B—Introduction to Solid State Physics (4)

Lecture—3 hour(s). Prerequisite(s): PHY 115A C- or better; or Consent of Instructor. Or equivalent course passed with C- or better. Survey of fundamental ideas in the physics of solids, with selected device applications. Crystal structure, x-ray and neutron diffraction, phonons, simple metals, energy bands and Fermi surfaces, semiconductors, optical properties, magnetism, superconductivity. GE credit: SE. Effective: 2000 Winter Quarter.

PHY 150—Special Topics in Physics (4)

Lecture—3 hour(s); Extensive Problem Solving. Prerequisite(s): (PHY 009A, PHY 009B, PHY 009C, PHY 009D) or (PHY 009HA, PHY 009HB, PHY 009HC, PHY 009HD, PHY 009HE); or Consent of Instructor. Topics vary, covering areas of contemporary research in physics. May be repeated for credit. GE credit: SE. Effective: 2007 Fall Quarter.

PHY 151—Stellar Structure & Evolution (4) *Review all entries*

Lecture—3 hour(s); Project (Term Project). Prerequisite(s): PHY 009A; PHY 009B; PHY 009C; PHY 009D; or Consent of Instructor. Chemical composition, structure, energy sources and evolutionary history of stars, with equal emphasis on both the observational data and theoretical models, including black holes, neutron stars and white dwarfs and the formation of substellar masses. GE credit: SE. Effective: 2007 Fall Quarter.

PHY 151—Stellar Structure & Evolution (4) *Review all entries*

Lecture—3 hour(s); Project (Term Project). Prerequisite(s): (PHY 009A, PHY 009B, PHY 009C, PHY 009D) or (PHY 009HA, PHY 009HB, PHY 009HC, PHY 009HD, PHY 009HE); or Consent of Instructor. Chemical composition, structure, energy sources and evolutionary history of stars, with equal emphasis on both the observational data and theoretical models, including black holes, neutron stars and white dwarfs and the formation of substellar masses. GE credit: SE. Effective: 2020 Summer Session 1.

PHY 152—Galactic Structure & the Interstellar Medium (4) *Review all entries*

Lecture—3 hour(s); Project (Term Project). Prerequisite(s): ((PHY 009A, PHY 009B, PHY 009C, PHY 009D) or (PHY 009HA, PHY 009HB, PHY 009HC, PHY 009HD, PHY 009HE)); PHY 105A (can be concurrent); or Consent of Instructor. Structure, contents, and formation of our Milky Way galaxy, viz. its shape and size, the nature of the interstellar medium, stellar populations, rotation curves, mass determination and evidence of dark matter. GE credit: SE. Effective: 2020 Summer Session 1.

PHY 152—Galactic Structure & the Interstellar Medium (4) *Review all entries*

Lecture—3 hour(s); Project (Term Project). Prerequisite(s): PHY 009A; PHY 009B; PHY 009C; PHY 009D; PHY 105A (can be concurrent); or Consent of Instructor. PHY 105A required concurrently. Structure, contents, and formation of our Milky Way galaxy, viz. its shape and size, the nature of the interstellar medium, stellar populations, rotation curves, mass determination and evidence of dark matter. GE credit: SE. Effective: 2007 Spring Quarter.

PHY 153—Extragalactic Astrophysics (4) *Review all entries*

Lecture—3 hour(s); Project (Term Project). Prerequisite(s): PHY 009A; PHY 009B; PHY 009C; PHY 009D; PHY 104A; PHY 105A; or Consent of Instructor. Structure and evolution of galaxies and clusters of galaxies, including distance and mass determination, galaxy types and environments, active galactic nuclei and quasars, gravitational lensing and dark matter, global cosmological properties. Not open to students who have taken PHY 127. GE credit: SE. Effective: 2007 Winter Quarter.

PHY 153—Extragalactic Astrophysics (4) *Review all entries*

Lecture—3 hour(s); Project (Term Project). Prerequisite(s): ((PHY 009A, PHY 009B, PHY 009C, PHY 009D) or (PHY 009HA, PHY 009HB, PHY 009HC, PHY 009HD, PHY 009HE)); PHY 104A; PHY 105A; or Consent of Instructor. Structure and evolution of galaxies and clusters of galaxies, including distance and mass determination, galaxy types and environments, active galactic nuclei and quasars, gravitational lensing and dark matter, global cosmological properties. Not open to students who have taken PHY 127. GE credit: SE. Effective: 2020 Summer Session 1.

PHY 154—Astrophysical Applications of Physics (4)

Lecture—3 hour(s); Project (Term Project). Prerequisite(s): PHY 105A; PHY 105B; PHY 110B (can be concurrent); PHY 115A (can be concurrent); PHY 112; PHY 112 or consent of instructor; PHY 110B and PHY 115A required concurrently. Not open to students who have taken this course previously as PHY 198. Applications of classical and quantum mechanics, thermodynamics, statistical mechanics, and electricity and magnetism to astrophysical settings such as the Big Bang, degenerate white dwarf and neutron stars, and solar neutrinos. GE credit: SE. Effective: 2007 Spring Quarter.

PHY 155—General Relativity (4)

Lecture—3 hour(s); Project (Term Project). Prerequisite(s): PHY 104A; PHY 105A; PHY 105B; PHY 110A; PHY 105B and PHY 110A or consent of instructor. Definition of the mathematical frame work for the description of the gravitational field, introduction of the dynamical equations of Einstein governing its evolution and review of the key solutions, including black holes and expanding universes. GE credit: SE. Effective: 2007 Fall Quarter.

PHY 156—Introduction to Cosmology (4) *Review all entries*

Lecture—3 hour(s); Project (Term Project). Prerequisite(s): PHY 009A; PHY 009B; PHY 009C; PHY 009D; PHY 105A (can be concurrent); or Consent of Instructor. PHY 105A required concurrently. Contemporary knowledge regarding the origin of the universe, including the Big Bang and nucleosynthesis, microwave background radiation, formation of cosmic structure, cosmic inflation, cosmic acceleration and dark energy. Not open to students who have completed PHY 126. GE credit: SE. Effective: 2007 Fall Quarter.

PHY 156—Introduction to Cosmology (4) *Review all entries*

Lecture—3 hour(s); Project (Term Project). Prerequisite(s): ((PHY 009A, PHY 009B, PHY 009C, PHY 009D) or (PHY 009HA, PHY 009HB, PHY 009HC, PHY 009HD, PHY 009HE)); PHY 105A (can be concurrent); or Consent of Instructor. Contemporary knowledge regarding the origin of the universe, including the Big Bang and nucleosynthesis, microwave background radiation, formation of cosmic structure, cosmic inflation, cosmic acceleration and dark energy. Not open to students who have completed PHY 126. GE credit: SE. Effective: 2020 Summer Session 1.

PHY 157—Astronomy Instrumentation & Data Analysis Laboratory (4)

Laboratory—8 hour(s). Prerequisite(s): PHY 080; PHY 104A; PHY 105A; PHY 110A; PHY 110B (can be concurrent); PHY 115A (can be concurrent); and consent of department. Registration by Permission to Add (PTA) number only; priority given to graduating PHY astrophysics emphasis seniors. Experimental techniques, data acquisition and analysis involving laboratory astrophysics plus stellar, nebular and galaxy digital imaging, photometry and/or spectroscopy. Students perform three experiments. Individual work stressed. Minimum 10-15 page journal style articles of two experiments are required. GE credit: SE, WE. Effective: 2020 Winter Quarter.

PHY 158—Formation of Galaxies & Cosmic Structures (4)

Lecture—3 hour(s); Extensive Problem Solving. Prerequisite(s): (PHY 009A or PHY 009HA C- or better); (PHY 009B or PHY 009HB C- or better); (PHY 009C or PHY 009HC C- or better); (PHY 009D or PHY 009HD C- or better); PHY 104A C- or better; PHY 105A C- or better; or Consent of Instructor. Formation of the cosmic web, including dark-matter halos and galaxies within them. Components of the Universe (dark matter, gas, stars) and their dynamical evolution. Gravitational collapse and virialization. Gas dynamics, heating, and cooling. Galactic star formation and stellar dynamics. Emphasis on theoretical concepts, computational methods, and simulations. Effective: 2020 Winter Quarter.

PHY 160—Environmental Physics & Society (3)

Lecture—3 hour(s). Prerequisite(s): (PHY 009D or PHY 007C); (PHY 010 or PHY 001B); MAT 016B; Or the equivalent. Impact of humankind on the environment are discussed from the point of view of the physical sciences. Calculations based on physical principles will be made, and the resulting policy implications are considered. (Same course as ENG 160.) GE credit: SE, SL. Effective: 1997 Winter Quarter.

PHY 185—Alumni Seminar Series (1)

Seminar—1 hour(s). Weekly guest speakers (usually a physics alumnus or alumna) tell students about their careers. Speakers use their experience to give students valuable perspectives on life after a degree in physics. May be repeated up to 2 time(s). (P/NP grading only.) GE credit: SE. Effective: 2013 Fall Quarter.

PHY 190—Careers in Physics (1)

Seminar—2 hour(s). Restricted to Physics and Applied Physics majors only. Overview of important research areas in physics, discussions of research opportunities and internships, strategies for graduate school and industrial careers, the fellowship and assistantship selection process, preparation of resumes, personal statements, and letters of recommendation. (P/NP grading only.) GE credit: SE. Effective: 2007 Fall Quarter.

PHY 192—Internship in Physics (1-12)

Internship—3-36 hour(s). Prerequisite(s): consent of instructor/Physics Internship Director. Enrollment dependent on availability of intern positions; open to Physics majors only. Supervised work experience requiring the application of physics principles and techniques in a professional setting, including but not limited to industry and national laboratories. May be repeated up to 12 unit(s). (P/NP grading only.) Effective: 2019 Fall Quarter.

PHY 194HA—Special Study for Honors Students (4)

Independent Study—12 hour(s). Prerequisite(s): Consent of Instructor. Open only to Physics and Applied Physics majors who satisfy the College of Letters and Science requirements for entrance into the Honors Program. Independent research project at a level significantly beyond that defined by the normal physics curriculum. GE credit: SE. Effective: 1997 Winter Quarter.

PHY 194HB—Special Study for Honors Students (4)

Independent Study—12 hour(s). Prerequisite(s): Consent of Instructor. Open only to Physics and Applied Physics majors who satisfy the College of Letters and Science requirements for entrance into the Honors Program. Independent research project at a level significantly beyond that defined by the normal physics curriculum. GE credit: SE. Effective: 1997 Winter Quarter.

PHY 195—Senior Thesis (5)

Independent Study—15 hour(s). Prerequisite(s): Consent of Instructor. Open only to Physics and Applied Physics majors with senior standing. Preparation of a senior thesis on a topic selected by the student with approval of the department. May be repeated up to 15 unit(s). GE credit: SE. Effective: 1997 Winter Quarter.

PHY 197T—Tutoring in Physics & Astronomy (1-5)

Tutorial. Tutoring of students in lower division courses. Leading of small voluntary discussion groups affiliated with one of the department's regular courses. Weekly meeting with instructor. (P/NP grading only.) GE credit: SE. Effective: 2004 Spring Quarter.

PHY 198—Directed Group Study (1-5)

Variable. Prerequisite(s): Consent of Instructor. (P/NP grading only.) GE credit: SE. Effective: 1997 Winter Quarter.

PHY 199—Special Study for Advanced Undergraduates (1-5)

Variable. (P/NP grading only.) GE credit: SE. Effective: 1997 Winter Quarter.

PHY 200A—Theory of Mechanics & Electromagnetics (4)

Lecture—3 hour(s); Independent Study—1 hour(s). Prerequisite(s): PHY 204A (can be concurrent); PHY 104B; PHY 105B; PHY 110C; Or equivalent to PHY 110C; PHY 204A required concurrently. Theoretical approaches in classical mechanics including the use of generalized coordinates and virtual work; variational calculus; Lagrange equations; symmetries, conservation laws, and Noether theorem; Lagrangian density; Hamilton formalism; canonical transformations; Poisson brackets; and Hamilton-Jacobi equations. Effective: 1997 Winter Quarter.

PHY 200B—Theory of Mechanics & Electromagnetics (4)

Lecture—3 hour(s); Independent Study—1 hour(s). Prerequisite(s): PHY 200A; PHY 204B (can be concurrent); PHY 204B concurrently. Theoretical approaches in electromagnetics including static electromagnetic fields; Maxwell's equations; plane waves in various media; magnetohydrodynamics; diffraction theory; radiating systems; and special relativity. Effective: 1997 Winter Quarter.

PHY 200C—Theory of Mechanics & Electromagnetics (4)

Lecture—3 hour(s); Independent Study—1 hour(s). Prerequisite(s): PHY 200A; PHY 204B (can be concurrent); PHY 204B concurrently. Theoretical approaches in electromagnetics including static electromagnetic fields; Maxwell's equations; plane waves in various media; magnetohydrodynamics; diffraction theory; radiating systems; and special relativity. Effective: 1997 Winter Quarter.

PHY 204A—Methods of Mathematical Physics (4)

Lecture—3 hour(s); Extensive Problem Solving. Prerequisite(s): PHY 104A; Or the equivalent. Linear vector spaces, operators and their spectral analysis, complete sets of functions, complex variables, functional analysis, Green's functions, calculus of variations, introduction to numerical analysis. Effective: 2016 Spring Quarter.

PHY 204B—Methods of Mathematical Physics (4)

Lecture—3 hour(s); Independent Study—1 hour(s). Prerequisite(s): PHY 104A; PHY 104B; Or the equivalent. Linear vector spaces, operators and their spectral analysis, complete sets of functions, complex variables, functional analysis, Green's functions, calculus of variations, introduction to numerical analysis. Effective: 1997 Winter Quarter.

PHY 210—Computational Physics (3)

Lecture—3 hour(s). Prerequisite(s): Knowledge of Fortran or C. Analytic techniques to solve differential equations and eigenvalue problems. Physics content of course will be self-contained, and adjusted according to background of students. Effective: 1999 Spring Quarter.

PHY 215A—Quantum Mechanics (4)

Lecture—3 hour(s); Independent Study—1 hour(s). Prerequisite(s): PHY 115B; Or the equivalent. Formal development and interpretation of non-relativistic quantum mechanics; its application to atomic, nuclear, molecular, and solid-state problems; brief introduction to relativistic quantum mechanics and the Dirac equation. Effective: 1997 Winter Quarter.

PHY 215B—Quantum Mechanics (4)

Lecture—3 hour(s); Independent Study—1 hour(s). Prerequisite(s): PHY 115B; Or the equivalent. Formal development and interpretation of non-relativistic quantum mechanics; its application to atomic, nuclear, molecular, and solid-state problems; brief introduction to relativistic quantum mechanics and the Dirac equation. Effective: 1997 Winter Quarter.

PHY 215C—Quantum Mechanics (4)

Lecture—3 hour(s); Independent Study—1 hour(s). Prerequisite(s): PHY 115B; Or the equivalent. Formal development and interpretation of non-relativistic quantum mechanics; its application to atomic, nuclear, molecular, and solid-state problems; brief introduction to relativistic quantum mechanics and the Dirac equation. Effective: 1997 Winter Quarter.

PHY 219A—Statistical Mechanics (4)

Lecture—3 hour(s); Extensive Problem Solving—1 hour(s). Prerequisite(s): PHY 215B; Or equivalent. Foundations of thermodynamics and classical and quantum statistical mechanics with simple applications to properties of solids, real gases, nuclear matter, etc. and a brief introduction to phase transitions. Effective: 2002 Winter Quarter.

PHY 219B—Statistical Mechanics (4)

Lecture—3 hour(s); Extensive Problem Solving—1 hour(s). Prerequisite(s): PHY 219A. Further applications of thermodynamics and classical and quantum statistical mechanics. The modern theory of fluctuations about the equilibrium state, phase transitions and critical phenomena. Effective: 2002 Winter Quarter.

PHY 223A—Group Theoretical Methods of Physics-Condensed Matter (3)

Lecture—3 hour(s). Prerequisite(s): PHY 215A; PHY 215B; PHY 215C (can be concurrent); or Consent of Instructor. PHY 215C required concurrently. Theory of groups and their representations with applications in condensed matter. Effective: 1997 Winter Quarter.

PHY 223B—Group Theoretical Methods of Physics-Elementary Particles (3)

Lecture—3 hour(s). Prerequisite(s): PHY 215A; PHY 215B; PHY 215C (can be concurrent); or Consent of Instructor. PHY 215C required concurrently. Theory of groups and their representations with applications in elementary particle physics. Effective: 1997 Winter Quarter.

PHY 224A—Nuclear Physics (3)

Lecture—3 hour(s). Prerequisite(s): PHY 215B. Comprehensive study of the nucleon-nucleon interaction including the deuteron, nucleon-nucleon scattering, polarization, determination of real parameters of S-matrix, and related topics. Effective: 1997 Winter Quarter.

PHY 224B—Nuclear Physics (3)

Lecture—3 hour(s). Prerequisite(s): PHY 224A. Study of nuclear models, including shell model, collective model, unified model. Energy level spectra, static momenta, and electromagnetic transition rates. Effective: 1997 Winter Quarter.

PHY 224C—Nuclear Physics (3)

Lecture—3 hour(s). Prerequisite(s): PHY 224B. Study of nuclear scattering and reactions including the optical model and direct interactions. Beta decay and an introduction to weak interactions. Effective: 1997 Winter Quarter.

PHY 229A—Advanced Nuclear Theory (3)

Lecture—3 hour(s). Prerequisite(s): PHY 224C. Advanced topics in nuclear theory; theory of quantum-mechanical scattering processes. Exact formal theory and models for two-body scattering. Effective: 1997 Winter Quarter.

PHY 229B—Advanced Nuclear Theory (3)

Lecture—3 hour(s). Prerequisite(s): PHY 229A. Advanced topics in nuclear theory; theory of quantum-mechanical scattering processes. Exact formal theory and models for three-body scattering. Effective: 1997 Winter Quarter.

PHY 230A—Quantum Theory of Fields (3)

Lecture—3 hour(s). Prerequisite(s): PHY 215C. Relativistic quantum mechanics of particles; techniques and applications of second quantization; Feynman diagrams; renormalization. Effective: 1997 Winter Quarter.

PHY 230B—Quantum Theory of Fields (3)

Lecture—3 hour(s). Prerequisite(s): PHY 230A. Continuation of 230A, with selected advanced topics, such as S-matrix theory, dispersion relations, axiomatic formulations. Effective: 1997 Winter Quarter.

PHY 230C—Quantum Theory of Fields (3)

Lecture—3 hour(s). Prerequisite(s): PHY 230A; PHY 230B; or Consent of Instructor. Renormalization theory and applications, including dimensional regularization, Ward identities, renormalization group equations, coupling constant unification, and precision electroweak calculations. May be repeated for credit with consent of instructor. Effective: 2007 Winter Quarter.

PHY 232—Topics in String Theory (3)

Lecture—3 hour(s). Prerequisite(s): Graduate standing in Physics or consent of instructor. PHY 230A, PHY 230B, PHY 230C & PHY 260 or equivalent are strongly recommended. Current research trends in string theory, with topics ranging from perturbative worldsheet methods, nonperturbative aspects and dualities, AdS/CFT correspondence, string field theory, etc. May be repeated for credit when topic differs. Effective: 2019 Spring Quarter.

PHY 233—Advanced Topics in Geometry & Physics (3)

Lecture—3 hour(s). Prerequisite(s): PHY 230A, PHY 230B, PHY 230C, & PHY 260 or equivalent strongly recommended. Graduate standing in Physics or consent of instructor required. Modern geometric methods in theoretical physics, with topics ranging from pseudo-Riemannian differential geometry and topology with application to general relativity, black holes, and string theory. May be repeated for credit when topic differs. Effective: 2019 Winter Quarter.

PHY 240A—Condensed Matter Physics A (3)

Lecture—3 hour(s). Prerequisite(s): PHY 215C; PHY 219A; PHY 140A & PHY 140B or equivalent recommended. Topics in condensed matter physics: Crystal structure; one-electron theory; transport and optical properties of semiconductors; phonons, electron-phonon scattering. Effective: 2007 Fall Quarter.

PHY 240B—Condensed Matter Physics B (3)

Lecture—3 hour(s). Prerequisite(s): PHY 240A. Topics in condensed matter physics: transport and optical properties of metals and quantum structures; experimental measurement the Fermi surface and of phonon spectra. Effective: 2008 Spring Quarter.

PHY 240C—Condensed Matter Physics (3)

Lecture—3 hour(s). Prerequisite(s): PHY 240A; PHY 240B. Review of second quantization. Interacting electron gas, electron-phonon interaction and effects, including instabilities of electronic systems. Topics in the theory of superconductivity and magnetism. Effective: 2005 Spring Quarter.

PHY 241—Advanced Topics in Magnetism (3)

Lecture—3 hour(s). Prerequisite(s): PHY 240A; PHY 240B; PHY 240C; PHY 240D; or Consent of Instructor. Topics chosen from areas of current research interest. Effective: 1997 Winter Quarter.

PHY 242—Advanced Topics in Superconductivity (3)

Lecture—3 hour(s). Prerequisite(s): PHY 240A; PHY 240B; PHY 240C; PHY 240D; or Consent of Instructor. Topics chosen from areas of current research interest. Effective: 1997 Winter Quarter.

PHY 243A—Surface Physics of Materials (3)

Lecture—3 hour(s). Prerequisite(s): PHY 140A; PHY 140B; PHY 115A; PHY 115B; Or the equivalent to any; PHY 215A, PHY 240A, or the equivalents recommended. Experimental and theoretical fundamentals of surface and interface physics and chemistry, including electronic and magnetic structure, thermodynamics, adsorption kinetics, epitaxial growth, and a discussion of various spectroscopic and structural probes based on photons, electrons, ions, and scanning probes. Effective: 1999 Winter Quarter.

PHY 243B—Surface Physics of Materials (3)

Lecture—3 hour(s). Prerequisite(s): PHY 140A; PHY 140B; PHY 115A; PHY 115B; Or the equivalent to any; PHY 215A, PHY 240A, or the equivalents recommended. Experimental and theoretical fundamentals of surface and interface physics and chemistry, including electronic and magnetic structure, thermodynamics, adsorption kinetics, epitaxial growth, and a discussion of various spectroscopic and structural probes based on photons, electrons, ions, and scanning probes. Effective: 1999 Winter Quarter.

PHY 243C—Surface Physics of Materials (3)

Lecture—3 hour(s). Prerequisite(s): PHY 140A; PHY 140B; PHY 115A; PHY 115B; Or the equivalent to any; PHY 215A, PHY 240A, or equivalents recommended. Experimental and theoretical fundamentals of surface and interface physics and chemistry, including electronic and magnetic structure, thermodynamics, adsorption kinetics, epitaxial growth, and a discussion of various spectroscopic and structural probes based on photons, electrons, ions, and scanning probes. Effective: 2000 Spring Quarter.

PHY 245A—High-Energy Physics (3)

Lecture—3 hour(s). Prerequisite(s): PHY 230A. Phenomenology and systematics of strong, electromagnetic, and weak interactions of hadrons and leptons; determination of quantum numbers; quarks and quarkonia; deep inelastic scattering; the quark parton model; experiments at hadron colliders and electron-positron colliders. Effective: 1997 Winter Quarter.

PHY 245B—High-Energy Physics (3)

Lecture—3 hour(s). Prerequisite(s): PHY 245A. Electroweak interactions; phenomenology of the Standard Model of $SU(2)_L \times U(1)$; weak interaction experiments; properties of and experiments with W and Z vector bosons; Glashow-Weinberg-Salam model and the Higgs boson; introduction to supersymmetry and other speculations. Effective: 1997 Winter Quarter.

PHY 245C—Collider Physics (3)

Lecture—3 hour(s). Prerequisite(s): PHY 245A; PHY 252B (can be concurrent); or Consent of Instructor. PHY 252B taken previously or concurrently. Collider physics. Topics include quark and gluon distribution functions and the computation of cross sections; Large Hadron Collider and International Linear Collider phenomenology; collider and detector characteristics; extracting models from data; software tools for analyzing experimental data. May be repeated for credit with consent of instructor. Effective: 2008 Spring Quarter.

PHY 246—Supersymmetry: Theory & Phenomenology (3)

Lecture—3 hour(s). Prerequisite(s): PHY 230A, PHY 245A, PHY 245B recommended, or consent of instructor. Construction of supersymmetric models of particle physics; superfields; supersymmetry breaking the minimal supersymmetric standard model; supergravity. Collider phenomenology of supersymmetry. Dark matter phenomenology. Effective: 1998 Spring Quarter.

PHY 246A—Supersymmetry: Theory & Phenomenology (3)

Lecture—3 hour(s). Prerequisite(s): PHY 230A; PHY 230B; PHY 245A, PHY 245B recommended or consent of instructor. Construction of supersymmetric models of particle physics; superfields; supersymmetry breaking the minimal supersymmetric standard model; supergravity. Collider phenomenology of supersymmetry. Dark matter phenomenology. Not offered every year. Effective: 2008 Spring Quarter.

PHY 246B—Advanced Supersymmetry (3)

Lecture—3 hour(s). Prerequisite(s): PHY 246A. Advanced topics in supersymmetry. Topics include holomorphy, the Affleck-Dine-Seiberg superpotential, Seiberg duality for SUSY QCD, dynamical SUSY breaking, Seiberg-Witten theory, superconformal field theories, supergravity, anomaly and gaugino mediation, and the AdS/CFT correspondence. Effective: 2007 Fall Quarter.

PHY 250—Special Topics in Physics (3)

Lecture—3 hour(s). Prerequisite(s): Consent of Instructor. Topic varies. May be repeated for credit. Effective: 1997 Fall Quarter.

PHY 252A—Techniques of Experimental Physics (3)

Lecture—3 hour(s). Introduction to techniques and methods of designing and executing experiments. Problems and examples from condensed matter research will be utilized. Effective: 1997 Winter Quarter.

PHY 252B—Techniques of Experimental Physics (3)

Lecture—3 hour(s). Introduction to techniques and methods of designing and executing experiments. Problems and examples from nuclear and particle research will be utilized. Effective: 1997 Winter Quarter.

PHY 252C—Statistics & Data Analysis for Particle Physics (3)

Lecture—3 hour(s). Introduction to statistical data analysis methods in particle physics. Theoretical lectures combined with practical computer laboratory work. Effective: 2007 Spring Quarter.

PHY 253—Signals & Noise in Physics (3)

Lecture—3 hour(s). Techniques for extracting signals from noise, systematic error. Effective: 2007 Winter Quarter.

PHY 255—Econophysics (4)

Lecture/Discussion—3 hour(s); Project (Term Project). Prerequisite(s): Knowledge of Python, R, Excel, Matlab, or consent of instructor. Application of ideas from statistical mechanics to the financial markets. Market dynamics from a physics and systems perspective, including the statistical distributions of returns, the dynamics of prices, and models for the markets. Effective: 2019 Winter Quarter.

PHY 256A—Physics of Information (4)

Lecture—3 hour(s); Extensive Problem Solving. Prerequisite(s): Consent of Instructor. Advanced undergraduate or introductory graduate differential equations, applied linear algebra, and probability theory; e.g., MAT 119A/MAT 119B or MAT 207A, MAT 167 or MAT 226A, and MAT 135A/MAT 135B or MAT 235A, respectively; or in PHY 104A/PHY 104B/PHY 104C or PHY 204A/PHY 204B. Limited to 30 students. Nonlinear dynamics, deterministic chaos, bifurcations, pattern formation, symbolic dynamics, measurement theory, stochastic processes, elementary information theory, information in complex systems, computational laboratory. Effective: 2017 Spring Quarter.

PHY 256B—Physics of Computation (4)

Lecture—3 hour(s); Extensive Problem Solving. Prerequisite(s): PHY 256A; Consent of Instructor. Advanced undergraduate or introductory graduate differential equations, applied linear algebra, and probability theory; e.g., MAT 119A/MAT 119B or MAT 207A, MAT 167 or MAT 226A, and MAT 135A/MAT 135B or MAT 235A, respectively; or in PHY 104A/PHY 104B/PHY 104C or PHY 204A/PHY 204B. Limited to 30 students. Structural complexity, computational mechanics, information measures, causal inference, applications to complex materials, quantum dynamics, and nonequilibrium thermodynamics, computational laboratory. Effective: 2017 Spring Quarter.

PHY 260—Introduction to General Relativity (3)

Lecture—3 hour(s). Prerequisite(s): PHY 200A; PHY 200B. An introduction to general relativity. Differential geometry and curved spacetime; the Einstein field equations; gravitational fields of stars and black holes; weak fields and gravitational radiation; experimental tests; Big Bang cosmology. Effective: 1999 Spring Quarter.

PHY 262—Early Universe Cosmology (3)

Lecture—3 hour(s). Prerequisite(s): Second year standing in Physics Graduate Program or consent of instructor. Introduction to early universe cosmology: the Big Bang, inflation, primordial nucleosynthesis, dark matter, dark energy, and other topics of current interest Effective: 2005 Spring Quarter.

PHY 263—Cosmic Structure Formation (3)

Lecture—3 hour(s). Prerequisite(s): PHY 260. Growth of structure from small density inhomogeneities in the early universe to the diverse structures observable today. Use of observable properties (cosmic microwave background, gravitational lensing, peculiar velocities, number density, etc.) to constrain models of structure formation and fundamental physics. Effective: 2005 Spring Quarter.

PHY 265—High Energy Astrophysics & Radiative Processes (3)

Lecture—3 hour(s). Prerequisite(s): Graduate standing in Physics or consent of instructor. Survey covering galactic and extragalactic X-ray and gamma-ray astronomy, radiative processes, and techniques of high-energy astrophysics. Effective: 2004 Fall Quarter.

PHY 266—Data Analysis for Astrophysics (3)

Lecture—3 hour(s). Prerequisite(s): Graduate standing in Physics or consent of instructor. Survey covering measurement and signal analysis techniques for astrophysics and cosmology throughout the electromagnetic spectrum. Effective: 2005 Winter Quarter.

PHY 267—Observational Extragalactic Astronomy & Cosmology (3)

Lecture—3 hour(s). Prerequisite(s): Graduate standing in Physics or consent of instructor. Survey covering current areas of research on extragalactic objects, their physical properties, origin, evolution, and distribution in space. Effective: 2005 Spring Quarter.

PHY 268—Research Methods in Astrophysics (3)

Lecture—3 hour(s). Prerequisite(s): PHY 204A, PHY 204B and PHY 215A recommended. Graduate standing in Physics or consent of instructor. Introduction to research methods in astrophysics and cosmology. Problems and examples from observational and theoretical work will be included. Effective: 2019 Spring Quarter.

PHY 270—Current Topics in Physics Research (3)

Lecture/Discussion—3 hour(s). Prerequisite(s): Graduate standing in Physics or consent of instructor. Reading and discussion to help physics graduate students develop and maintain familiarity with the current and past literature in their immediate field of research and related areas. May be repeated for credit. (S/U grading only.) Effective: 2013 Fall Quarter.

PHY 285—Careers in Physics (1)

Seminar—1.5 hour(s). Prerequisite(s): Graduate standing in Physics. Designed to give Physics graduate students an in-depth appreciation of career opportunities with a graduate degree in physics. Professional physicists, mainly from outside academia, will give seminars describing both research and career insights. May be repeated for credit. (S/U grading only.) Effective: 2005 Winter Quarter.

PHY 290—Seminar in Physics (1)

Seminar. Prerequisite(s): Graduate standing in Physics or consent of instructor. Presentation and discussion of topics of current research interest in physics. Topics will vary weekly and will cover a broad spectrum of the active fields of physics research at a level accessible to all physics graduate students. May be repeated for credit. (S/U grading only.) Effective: 1997 Winter Quarter.

PHY 291—Seminar in Nuclear Physics (1)

Seminar—1 hour(s). Prerequisite(s): Graduate standing in Physics or consent of instructor. Presentation and discussion of topics of current research interest in nuclear physics. May be repeated for credit. (S/U grading only.) Effective: 1997 Winter Quarter.

PHY 292A—Seminar in Elementary Particle Physics (1)

Seminar—1 hour(s). Prerequisite(s): Graduate standing in Physics or consent of instructor. Presentation and discussion of topics of current research interest in elementary particle physics. May be repeated for credit. (S/U grading only.) Effective: 2008 Fall Quarter.

PHY 292B—High Energy Frontier Initiative & Cosmology Theory Seminar (1)

Seminar—1 hour(s). Prerequisite(s): Physics graduate students. May be repeated up to 5 time(s). (S/U grading only.) Effective: 2007 Fall Quarter.

PHY 293—Seminar in Condensed Matter Physics (1)

Seminar—1 hour(s). Prerequisite(s): Graduate standing in Physics or consent of instructor. Presentation and discussion of topics of current research interest in condensed matter physics. May be repeated for credit. (S/U grading only.) Effective: 1997 Winter Quarter.

PHY 294—Seminar in Cosmology (1)

Seminar—1 hour(s). Prerequisite(s): Graduate standing in Physics or consent of instructor. Presentation and discussion of topics of current research interest in Cosmology. May be repeated for credit. (S/U grading only.) Effective: 1999 Winter Quarter.

PHY 295—Introduction to Departmental Research (1)

Seminar—1 hour(s). Seminar to introduce first- and second-year physics graduate students to the fields of specialty and research of the Physics staff. (S/U grading only.) Effective: 1997 Winter Quarter.

PHY 296—Field, Strings, & Gravity Seminar (1)

Lecture—1.5 hour(s). Prerequisite(s): Consent of Instructor. Presentation and discussion of topics of current research interest in the areas of quantum field theory, string theory and gravity. May be repeated for credit. (S/U grading only.) Effective: 2018 Fall Quarter.

PHY 297—Research on the Teaching & Learning of Physics (3)

Seminar—3 hour(s). Prerequisite(s): Graduate standing in Physics or consent of instructor. Discussion and analysis of recent research in how students construct understanding of physics and other science concepts and the implications of this research for instruction. Effective: 1997 Winter Quarter.

PHY 298—Group Study (1-5)

Variable. Prerequisite(s): Consent of Instructor. (S/U grading only.) Effective: 1997 Winter Quarter.

PHY 299—Research (1-12)

Variable. (S/U grading only.) Effective: 1997 Winter Quarter.

PHY 371—Teaching in an Active-Engagement Physics Discussion/Lab Setting (1)

Lecture/Discussion—1 hour(s). Prerequisite(s): PHY 009D; Or equivalent. Open to graduate students only. Analysis of recent research on science/physics teaching and learning and its implications for teaching labs, discussions, and discussion/labs with an emphasis on differences between conventional and active-engagement instructional settings. The appropriate role of the instructor in specific instructional settings. May be repeated up to 2 time(s). Effective: 2008 Summer Session 1.

PHY 390—Methods of Teaching Physics (1)

Lecture/Discussion—1 hour(s). Prerequisite(s): Consent of Instructor. Graduate standing in Physics. Practical experience in methods and problems related to teaching physics laboratories at the university level, including discussion of teaching techniques, analysis of quizzes and laboratory reports and related topics. Required of all Physics Teaching Assistants. May be repeated for credit. (S/U grading only.) Effective: 1997 Winter Quarter.

PHY 396—Teaching Assistant Training Practicum (1-4)

Variable. Prerequisite(s): Graduate standing. May be repeated for credit. (P/NP grading only.) Effective: 1997 Winter Quarter.

PLB—Plant Biology

Courses in PLB:

PLB 010—Plant Biology (3)

Lecture—3 hour(s). The social and natural science of plants. Cultural history and socioeconomic importance of plants. Biology of plants reproduction, including flowers, seeds and fruits. Historical, cultural, religious and medicinal uses of plants. Plants in the visual arts, music and literature. GE credit: SE, SL. Effective: 2016 Winter Quarter.

PLB 090X—Plant Science Seminar (1-4)

Variable. Prerequisite(s): Consent of Instructor. Examination of a special topic in a small group setting. Not open for credit to students who have completed PLS 090X. Effective: 1997 Winter Quarter.

PLB 092—Internship (1-12)

Internship—3-36 hour(s). Prerequisite(s): Consent of Instructor. Technical and/or professional experience on or off campus. Supervised by a member of the Plant Biology faculty. (P/NP grading only.) Effective: 1997 Winter Quarter.

PLB 098—Directed Group Study (1-5)

Variable. Prerequisite(s): Consent of Instructor. Primarily for lower division students. (P/NP grading only.) Effective: 1997 Winter Quarter.

PLB 099—Special Study for Undergraduates (1-5)

Variable. Prerequisite(s): Consent of Instructor. (P/NP grading only.) Effective: 1997 Winter Quarter.

PLB 102—California Floristics (5)

Lecture—2 hour(s); Laboratory—5 hour(s); Fieldwork. Prerequisite(s): PLS 002 or BIS 002C; Or equivalent course in Plant Science. Survey of the California flora, emphasizing recognition of important plant families and genera and use of taxonomic keys to identify species. Phylogenetic relationships among families. Principles of systematics and taxonomy. Two Saturday field trips. (Same course as PLS 102.) GE credit: SE, VL. Effective: 2017 Fall Quarter.

PLB 105—Developmental Plant Anatomy (5)

Lecture—3 hour(s); Laboratory—6 hour(s). Prerequisite(s): BIS 002C; Or other similar preparation in plant biology. Restricted to 50 students; split equally into two lab groups. Structural anatomy of vascular plants. Training in basic tissue sectioning, staining, and use of the compound microscope. GE credit: SE. Effective: 2011 Fall Quarter.

PLB 108—Systematics & Evolution of Angiosperms (5)

Lecture—3 hour(s); Laboratory—6 hour(s). Prerequisite(s): (BIS 001A, BIS 001B, BIS 001C) or (BIS 002A, BIS 002B, BIS 002C). Diversity and classification of angiosperms (flowering plants) on a world scale, and current understanding of the origin of angiosperms and evolutionary relationships and trends within them based on morphological and molecular evidence. (Same course as EVE 108.) Effective: 2008 Spring Quarter.

PLB 111—Plant Physiology (3)

Lecture—3 hour(s). Prerequisite(s): (BIS 002A, BIS 002B, BIS 002C); (CHE 008B (can be concurrent) or CHE 118B (can be concurrent)); PHY 007C (can be concurrent); PLB 105 recommended. Plant cell as a functional unit. The processes of absorption, movement, and utilization of water and minerals. Water loss, translocation, photosynthesis, respiration. Effective: 2016 Fall Quarter.

PLB 111D—Problems in Plant Physiology (1)

Discussion—1 hour(s). Prerequisite(s): PLB 111 (can be concurrent); PLB 111 required concurrently. Discussion of problems and applications relating to principles presented in PHY 111. Problems assigned weekly showing novel applications of principles described in PHY 111; reprepare answers to be delivered orally during the class period. (P/NP grading only.) Effective: 1997 Winter Quarter.

PLB 112—Plant Growth & Development (3)

Lecture—3 hour(s). Prerequisite(s): (BIS 002A, BIS 002B, BIS 002C); (CHE 008B or CHE 118B); BIS 101. Introduction to the mechanisms and control systems that govern plant growth and development and the responses of plants to the environment. Strong emphasis on vegetative development of flowering plants. GE credit: QL, SE, SL. Effective: 2016 Fall Quarter.

PLB 112D—Problems in Plant Growth & Development (1)

Discussion—1 hour(s). Prerequisite(s): PLB 112 (can be concurrent); PLB 112 required concurrently. Discussion of problems and applications relating to principles presented in PLB 112. Students will be assigned problems each week showing novel applications of the principles described in PLB 112 and will prepare answers to be delivered orally during class period. (P/NP grading only.) Effective: 1997 Winter Quarter.

PLB 113—Molecular & Cellular Biology of Plants (3)

Lecture—3 hour(s). Prerequisite(s): (BIS 002A, BIS 002B, BIS 002C); BIS 101. Molecular and cellular aspects of the growth and development of plants and their response to biological and environmental stresses. Primary focus on processes unique to plants. Experimental approaches will be emphasized. GE credit: QL, SL, VL. Effective: 2016 Fall Quarter.

PLB 113D—Problems in Molecular & Cellular Biology of Plants (1)

Discussion—1 hour(s). Prerequisite(s): PLB 113 (can be concurrent); PLB 113 required concurrently. Discussion of topics and applications related to principles presented in PLB 113. Assigned topics each week show novel applications of the principles described in PLB 113; discussion of topics during class period. (P/NP grading only.) Effective: 1997 Winter Quarter.

PLB 116—Plant Morphology & Evolution (5)

Lecture—3 hour(s); Laboratory—4 hour(s). Prerequisite(s): Introductory Plant Biology (e.g., BIS 002C, PLS 002). Introduction to the form, development and evolution of vascular plants. Emphasis given to the form and development of reproductive structures in ferns and seed-producing plants as a basis for determining evolutionary relationships. Not open for credit to students who have completed PLS 116. (Same course as PLS 116.) GE credit: SE, VL. Effective: 2015 Winter Quarter.

PLB 117—Plant Ecology (4)

Lecture—3 hour(s); Fieldwork—3 hour(s). Prerequisite(s): (BIS 001A, BIS 001B, BIS 001C) or (BIS 002A, BIS 002B, BIS 002C); PLB 111 recommended. The study of the interactions between plants, plant populations or vegetation types and their physical and biological environment. Special emphasis on California. Four full-day field trips and brief write-up of class project required. (Same course as EVE 117.) Effective: 2008 Fall Quarter.

PLB 119—Population Biology of Invasive Plants & Weeds (3)

Lecture—2 hour(s); Laboratory—3 hour(s). Prerequisite(s): (BIS 001A, BIS 001B, BIS 001C) or (BIS 002A, BIS 002B, BIS 002C); Introductory statistics recommended. Origin and evolution of invasive plant species and weeds, reproduction and dispersal, seed ecology, modeling of population dynamics, interactions between invasive species, native species, and crops, biological control. Laboratories emphasize design of competition experiments and identification of weedy species. (Same course as EVE 119.) GE credit: SE. Effective: 2011 Spring Quarter.

PLB 123—Plant-Virus-Vector Interaction (3)

Lecture—3 hour(s). Prerequisite(s): BIS 002A; BIS 101; PLB 105, PLP 120, and ENT 100 recommended. Analysis of interactions necessary for viruses to infect plants. Interactions among insect vectors and host plants involved in the plant-virus life cycle. Evolutionary aspects of the molecular components in viral infection and modern approaches to the interdiction of viral movement. (Same course as ENT 123, PLP 123.) GE credit: SE, SL, WE. Effective: 2014 Winter Quarter.

PLB 126—Plant Biochemistry (3)

Lecture—3 hour(s). Prerequisite(s): BIS 103 or BIS 105. The biochemistry of important plant processes and metabolic pathways. Discussion of methods used to understand plant processes, including use of transgenic plants. (Same course as MCB 126.) GE credit: SE, SL. Effective: 2008 Spring Quarter.

PLB 143—Evolution of Crop Plants (4)

Lecture—3 hour(s); Discussion—1 hour(s). Prerequisite(s): PLS 002 or BIS 001C or BIS 002C. Origins of crops and agriculture, including main methodological approaches, centers of crop biodiversity, dispersal of crops, genetic and physiological differences between crops and their wild progenitors, agriculture practiced by other organisms, and role and ownership of crop biodiversity. GE credit: SE, SL, SS, WE. Effective: 2009 Spring Quarter.

PLB 148—Introductory Mycology (4)

Lecture—2 hour(s); Laboratory—6 hour(s). Prerequisite(s): BIS 002A; BIS 002B; BIS 002C. Limited enrollment. Systematics, ecology, evolution, and morphology of fungi. Importance of fungi to humans. (Same course as PLP 148.) GE credit: SE. Effective: 2020 Winter Quarter.

PLB 189—Experiments in Plant Biology: Design & Execution (3)

Discussion/Laboratory—6 hour(s). Prerequisite(s): (BIS 001A, BIS 001B, BIS 001C) or (BIS 002A, BIS 002B, BIS 002C); and Consent of Instructor. Or the equivalent courses in Plant Sciences. Provides an opportunity for undergraduate students to formulate experimental approaches to current questions in plant biology and to carry out their proposed experiments. May be repeated up to 12 unit(s). (P/NP grading only.) Effective: 2008 Fall Quarter.

PLB 190C—Research Conference in Plant Biology (1)

Discussion—1 hour(s). Prerequisite(s): Consent of Instructor. Upper division standing in Plant Biology or related discipline. Introduction to research methods in plant biology. Design of field or laboratory research projects, survey of appropriate literature, and discussion of research by faculty and students. May be repeated for credit. (P/NP grading only.) Effective: 2007 Fall Quarter.

PLB 192—Internship (1-12)

Internship—3-36 hour(s). Prerequisite(s): Consent of Instructor. Completion of 84 units. Technical and/or professional experience on or off campus. Supervised by a member of the Plant Biology Department faculty. May be repeated for credit. (P/NP grading only.) Effective: 2008 Fall Quarter.

PLB 194H—Special Study for Honors Students (1-5)

Variable. Prerequisite(s): Consent of Instructor. Open only to majors of senior standing on honors list. Independent study of selected topics under the direction of a member or members of the staff. Completion will involve the writing of a senior thesis. (P/NP grading only.) Effective: 1997 Winter Quarter.

PLB 197T—Tutoring in Plant Biology (1-5)

Discussion—2-6 hour(s). Prerequisite(s): Consent of Instructor. Upper division standing. Assisting the instructor by tutoring students in one of the Department's regular courses. May be repeated for credit. (P/NP grading only.) Effective: 2008 Fall Quarter.

PLB 198—Directed Group Study (1-5)

Variable. Prerequisite(s): Consent of Instructor. (P/NP grading only.) Effective: 1997 Winter Quarter.

PLB 199—Special Study for Advanced Undergraduates (1-5)

Variable. Prerequisite(s): Consent of Instructor. (P/NP grading only.) Effective: 1997 Winter Quarter.

PLB 396—Teaching Assistant Training Practicum (1-4)

Variable—3-20 hour(s). Prerequisite(s): Consent of Instructor. Graduate standing. Practical experience in acting as teaching assistant in Plant Biology courses. Learning activity: hands on experience in preparing for and conducting discussions, guiding student laboratory work, and the formulation of questions and topics for examinations. May be repeated for credit. (S/U grading only.) Effective: 2013 Fall Quarter.

PLP—Plant Pathology

Courses in PLP:

PLP 040—Edible Mushroom Cultivation (2)

Lecture—1 hour(s); Discussion/Laboratory—3 hour(s). Prerequisite(s): BIS 010 or MIC 020 recommended. Principles and practices of growing edible mushrooms, including culture maintenance, basic mushroom substrate preparation, composting, spawn generation techniques, inoculation methods, harvesting, and pests and pest management. Effective: 1998 Winter Quarter.

PLP 120—Introduction to Plant Pathology (4)

Lecture—2 hour(s); Laboratory—6 hour(s). Prerequisite(s): BIS 002C; or Consent of Instructor. MIC 102 recommended. The nature, cause, and control of plant diseases. Effective: 2019 Winter Quarter.

PLP 123—Plant-Virus-Vector Interaction (3)

Lecture—3 hour(s). Prerequisite(s): BIS 002A; BIS 101; PLB 105, PLP 120, and ENT 100 recommended. Analysis of interactions necessary for viruses to infect plants. Interactions among insect vectors and host plants involved in the plant-virus life cycle. Evolutionary aspects of the molecular components in viral infection and modern approaches to the interdiction of viral movement. (Same course as ENT 123, PLB 123.) GE credit: SE, SL, WE. Effective: 2014 Winter Quarter.

PLP 130—Fungal Biotechnology & Biochemistry (3)

Lecture—3 hour(s). Prerequisite(s): PLB 119; BIS 103. How fundamental physiological and biochemical activities of fungi impact the destructive and beneficial roles of these organisms in nature. Utilization and manipulation of fungi for biotechnological and industrial applications. Effective: 1997 Winter Quarter.

PLP 135—Field Identification of Mushrooms (1)

Fieldwork. Prerequisite(s): Introductory course in Biological Sciences; course in mycology recommended. Collection and identification of mushrooms and other fleshy fungi based on macro and microscopic features. (P/ NP grading only.) Effective: 1999 Winter Quarter.

PLP 140—Agricultural Biotechnology & Public Policy (4)

Lecture—3 hour(s); Discussion—1 hour(s). Prerequisite(s): High school level biology, including genetics; BIS 010 is recommended. Examination of the development and deployment of agricultural biotechnologies, particularly transgenic crop plants, microorganisms and animals, with consideration of conventional agriculture, public perceptions of technologies, food safety, environmental impact, public policies and regulations. GE credit: SL. Effective: 2005 Spring Quarter.

PLP 148—Introductory Mycology (4)

Lecture—2 hour(s); Laboratory—6 hour(s). Prerequisite(s): BIS 002A; BIS 002B; BIS 002C. Limited enrollment. Systematics, ecology, evolution, and morphology of fungi. Importance of fungi to humans. (Same course as PLB 148.) GE credit: SE. Effective: 2020 Winter Quarter.

PLP 150—Fungal Ecology (3)

Lecture—3 hour(s). Prerequisite(s): BIS 002C; Or equivalent. Ecological roles of fungi as saprobes, mutualists and parasites in native and managed ecosystems. Physiological and reproductive strategies associated with adaptations to diverse habitats. Effective: 2019 Winter Quarter.

PLP 185—Advanced Mushroom Taxonomy (2)

Discussion/Laboratory—3 hour(s); Fieldwork—1 hour(s). Prerequisite(s): (PLP 135 or PLP 148); BIS 101; Or the equivalent to BIS 101. Limited to 12 students. Microscopic and molecular methods used in the identification of mushroom species; molecular characterization including PCR-amplification of ribosomal nuclear DNA, digestion of the product with restriction enzymes, and DNA sequencing; a one-day field trip is required. Effective: 2002 Fall Quarter.

PLP 192—Internship (1-12)

Internship—3-36 hour(s). Prerequisite(s): PLP 120; and Consent of Instructor. Work experience off and on campus, supervised by a member of the faculty. (P/NP grading only.) Effective: 1997 Winter Quarter.

PLP 198—Directed Group Study (1-5)

Variable. (P/NP grading only.) Effective: 1997 Winter Quarter.

PLP 199—Special Study for Advanced Undergraduates (1-5)

Variable. (P/NP grading only.) Effective: 1997 Winter Quarter.

PLP 201A—Impacts, Mechanisms & Control of Plant Disease (4)

Lecture—3 hour(s); Discussion—1 hour(s). Prerequisite(s): PLP 120; Graduate student status in the Plant Pathology Graduate Program or consent of instructor. Case-studies approach to analysis of plant diseases caused by bacteria, fungi, oomycetes, and viruses, including impacts, etiology, pathogen taxonomy and epidemiology, biochemical and genetic aspects of pathogen-host interactions, virulence and resistance, and approaches to disease control. Effective: 2009 Winter Quarter.

PLP 201B—Impacts, Mechanisms & Control of Plant Disease (3)

Lecture—2 hour(s); Discussion—1 hour(s). Prerequisite(s): PLP 120; PLP 201A; Graduate student status in the Plant Pathology Graduate Program or consent of instructor. Case-studies approach to analysis of plant diseases, including emerging diseases, caused by bacteria, fungi, nematodes, and oomycetes: impacts, etiology, pathogen taxonomy, epidemiology, biochemical and genetic aspects of pathogen-host interactions, virulence, resistance, disease control and statistical analysis. Effective: 2009 Spring Quarter.

PLP 205A—Diseases of Vegetable & Field Crops (3)

Lecture/Discussion—3 hour(s); Fieldwork—3 hour(s). Prerequisite(s): PLP 120. Clinical study of diseases of vegetable and field crops with emphasis on etiology, epidemiology, diagnosis, and control. Field trips required. Effective: 2006 Spring Quarter.

PLP 205B—Diseases of Vegetable & Field Crops; Summer Field Trip (1)

Fieldwork—3 hour(s). Prerequisite(s): PLP 120; PLP 205A. Continuation of PLP 205A. Four-day field trip investigating diseases of vegetable and field crops. (S/U grading only.) Effective: 2004 Summer Session 1.

PLP 206A—Diseases of Fruit, Nut, & Vine Crop (3)

Lecture—2 hour(s); Laboratory—6 hour(s). Prerequisite(s): PLP 120; PLB 119; and Consent of Instructor. Clinical study of fruit, nut, and vine crops diseases with emphasis on etiology, epidemiology, diagnosis, and control. PLP 205 may be taken concurrently. Effective: 1997 Winter Quarter.

PLP 206B—Diseases of Fruit, Nut, & Vine Crop (1)

Lecture—2 hour(s); Laboratory—6 hour(s). Prerequisite(s): PLP 120; PLB 119; and Consent of Instructor. Clinical study of fruit, nut, and vine crops diseases with emphasis on etiology, epidemiology, diagnosis, and control. PLP 205 may be taken concurrently. Effective: 1997 Winter Quarter.

PLP 210—Biochemistry & Molecular Biology of Plant-Microbe Interaction (4)

Lecture/Discussion—4 hour(s). Prerequisite(s): BIS 101; BIS 102; BIS 103; BIS 104; Or the equivalent. Discussion of plant-microbe interactions, focused on the underlying cellular, biochemical, and molecular events that determine the diseased state. Effective: 1997 Winter Quarter.

PLP 217—Molecular Genetics of Fungi (3)

Lecture—3 hour(s). Prerequisite(s): BIS 101; BIS 103; MCB 161; PLB 119; PLP 130; PLP 215X; Graduate standing in a Biological Science; MIC 215 recommended. Advanced treatment of molecular biology and genetics of filamentous fungi and yeasts, including gene structure, organization and regulation; plant pathogenesis; secretion; control of reproduction; reproduction; molecular evolution; transformation; and gene manipulation. (Same course as BCM 217.) Effective: 1997 Winter Quarter.

PLP 224—Advanced Mycology (3)

Lecture—3 hour(s). Prerequisite(s): (PLP 148 or PLB 148); PLP 120; or Consent of Instructor. Physiology, cell biology and biochemistry of fungi. Topics include mycotoxins, epidemiology and nature of emerging and re-emerging fungal diseases, fungicides, and fungicide resistance. Effective: 2018 Fall Quarter.

PLP 228—Plant Bacteriology (3)

Lecture—2 hour(s); Discussion—1 hour(s). Prerequisite(s): PLP 120; or equivalent or consent of instructor. Study of plant pathogenic microorganisms including taxonomy, biology, molecular mechanisms of disease, and plant disease management. Topics include quorum sensing, rhizosphere biology, genomics, virulence factors, and host plant resistance genes. Effective: 2019 Winter Quarter.

PLP 230—Plant Virology (3)

Lecture—3 hour(s). Prerequisite(s): Upper division or graduate course in Molecular Biology or graduate student in Plant Pathology. Viruses as causal agents of plant disease and as tools for manipulating plants; structures of virus particles; mechanisms of transmission, replication, and spread in the plant; cytology and molecular biology in susceptible and resistant reactions to virus infection; virus disease control. Only 2 units of credit to students who complete MIC 262; not open for credit to students who have completed PLP 226. Effective: 2003 Spring Quarter.

PLP 290—Seminar (1)

Seminar—1 hour(s). Review and evaluation of current research in plant pathology. (S/U grading only.) Effective: 1997 Winter Quarter.

PLP 290C—Advanced Research Conference (1)

Seminar—1 hour(s). Prerequisite(s): PLP 120; or Consent of Instructor. Presentation, evaluation, and critical discussions of research activities in the area of advanced plant pathology; primarily designed for graduate students. (S/U grading only.) Effective: 1997 Winter Quarter.

PLP 291—Seminar in Molecular Plant Pathology (1)

Seminar—1 hour(s). Prerequisite(s): PLP 120; or Consent of Instructor. Review and evaluation of current literature and research in biochemistry and molecular biology of plant microbe interactions. May be repeated for credit. (S/U grading only.) Effective: 1997 Winter Quarter.

PLP 295—Seminar in Mycology (1)

Seminar—1 hour(s). Review and evaluation of current literature and research in mycology. May be repeated for credit. (S/U grading only.) Effective: 1997 Winter Quarter.

PLP 298—Special Group Study (1-5)

Variable. Effective: 1997 Winter Quarter.

PLP 299—Research (1-12)

Variable. (S/U grading only.) Effective: 1997 Winter Quarter.

PLS—Plant Sciences

Courses in PLS:**PLS 001—Agriculture, Nature & Society (3)**

Lecture—2 hour(s); Discussion/Laboratory—1 hour(s). Multiple perspectives and connections between natural sciences, social sciences, and agriculture. Emphasizes agriculture's central position between nature and society and its key role in our search for a productive, lasting and hospitable environment. Several full-period field trips provide hands-on learning. Not open for credit to students who have completed AMR 001. (Former AMR 001.). GE credit: SE. Effective: 2007 Fall Quarter.

PLS 002—Botany & Physiology of Cultivated Plants (4)

Lecture—3 hour(s); Discussion/Laboratory—3 hour(s). Prerequisite(s): High school course in biology and chemistry recommended. Holistic introduction to the underlying botanical and physiological principles of cultivated plants and their response to the environment. Includes concepts behind plant selection, cultivation, and utilization. Laboratories include discussion and interactive demonstrations. Not open for credit to students who have complete AMR 002. (Former AMR 002.). GE credit: SE, SL. Effective: 2007 Winter Quarter.

PLS 005—Plants for Garden, Orchard & Landscape (2)

Lecture—1 hour(s); Laboratory—3 hour(s). Prerequisite(s): For non-majors. Hands-on experience with plants cultivated for food, environmental enhancement and personal satisfaction. Topics include establishing a vegetable garden, pruning and propagation activities, growing flowers and ornamental plants, and the role of plants in human health and well-being. Not open for credit to students who have completed PLB 001 or PLS 002. (Former PLB 001.). (P/NP grading only.) GE credit: SE. Effective: 2008 Fall Quarter.

PLS 006—Flower Power; Art & Science of Flowers & Their Uses (2)

Lecture/Discussion—2 hour(s). Prerequisite(s): High school biology. Introduction to the art and science of using and growing flowers to harness the power that is represented by their aesthetic beauty. Handling, production, arranging, breeding and marketing of flowers. Emphasis on potted plants and cut-flowers. (P/NP grading only.) Effective: 2010 Spring Quarter.

PLS 007—Just Coffee: The Biology, Ecology & Socioeconomic Impacts of the World's Favorite Drink (4)

Lecture—3 hour(s); Discussion—1 hour(s). Coffee used as a case study to examine biological, ecological and social factors influencing sustainability of farming systems and how food production systems impact human well-being. GE credit: SE, SS, WE. Effective: 2017 Fall Quarter.

PLS 007V—Just Coffee: The Biology, Ecology & Socioeconomic Impacts of the World's Favorite Drink (4)

Web Virtual Lecture—3 hour(s); Web Electronic Discussion—1 hour(s). Coffee used as a case study to examine biological, ecological and social factors influencing sustainability of farming systems and how food production systems impact human well-being. GE credit: SE, SS, WE. Effective: 2019 Winter Quarter.

PLS 012—Plants & Society (4)

Lecture—3 hour(s); Extensive Writing—3 hour(s). Prerequisite(s): High school biology. Dependence of human societies on plant and plant products. Plants as resources for food, fiber, health, enjoyment and environmental services. Sustainable uses of plants for food production, raw materials, bioenergy, and environmental conservation. Global population growth and future food supplies. Not open for credit to students who have complete PLB 012. (Former PLB 012.). (Same course as SAS 012.) GE credit: SE, SS, WE. Effective: 2007 Fall Quarter.

PLS 014—Introduction to Current Topics in Plant Biology (4)

Discussion—3 hour(s). Introduction to scientific methods and current understanding of genetics, metabolism, and cellular structure in plants, with special emphasis on topics related to societal issues, such as herbal medicines and genetically modified organisms. Designed for students not specializing in biology. Not open for credit to students who have completed PLB 011. GE credit: SE, SL. Effective: 2007 Fall Quarter.

PLS 015—Introduction to Sustainable Agriculture (4)

Lecture—3 hour(s); Laboratory—3 hour(s). Multidisciplinary introduction to agricultural sustainability with a natural sciences emphasis. Sustainability concepts and perspectives. Agricultural evolution, history, resources and functions. Diverse agricultural systems and practices and their relative sustainability. Laboratories provide direct experience with selected agricultural practices and systems. GE credit: SE. Effective: 2009 Spring Quarter.

PLS 021—Application of Computers in Technology (3)

Lecture—2 hour(s); Discussion/Laboratory—2 hour(s). Prerequisite(s): High school algebra. Not open for students who have completed PLS 021V or AMR 021. (Former AMR 021.) Concepts of computing and applications using personal computers, spreadsheets, database management, word processing and communications. GE credit: SE, VL. Effective: 2009 Winter Quarter.

PLS 021V—Application of Computers in Technology (3)

Web Virtual Lecture—2 hour(s); Web Electronic Discussion—2 hour(s). Prerequisite(s): High school algebra. Not open for students who have taken PLS 021. Concepts of computing and applications using personal computers, spreadsheets, database management, word processing and communications. GE credit: SE, VL. Effective: 2019 Fall Quarter.

PLS 049—Organic Crop Production Practices (3)

Lecture—1 hour(s); Discussion—1 hour(s); Laboratory—3 hour(s). Principles and practices of organic production of annual crops. Including organic crops, soil, and pest management, cover cropping, composting, seeding, transplanting, irrigation, harvesting and marketing. Not open for credit to students who have completed AMR 049. (Former AMR 049.). (P/NP grading only.) GE credit: SE. Effective: 2007 Fall Quarter.

PLS 092—Internship (1-12)

Internship—3-36 hour(s). Work experience on or off campus in subject areas pertaining to plant and environmental sciences. Internship supervised by a faculty member. May be repeated for credit. (P/NP grading only.) Effective: 2007 Winter Quarter.

PLS 098—Directed Group Study (1-5)

Variable—3-15 hour(s). Prerequisite(s): Consent of Instructor. Primarily for lower division students. May be repeated for credit. (P/NP grading only.) Effective: 2007 Winter Quarter.

PLS 099—Special Study for Undergraduates (1-5)

Variable—3-15 hour(s). Prerequisite(s): Consent of Instructor. Primarily for lower division students. (P/NP grading only.) Effective: 2007 Winter Quarter.

PLS 100A—Metabolic Processes of Cultivated Plants (3)

Lecture—3 hour(s). Prerequisite(s): PLS 002 or BIS 002C; or Consent of Instructor. Principles of energy capture and photosynthesis, water use, and nutrient cycling. Conversion of these resources into products (carbohydrates, proteins, lipids, and other chemicals) by plants. Emphasis on the relationships between environmental resources, plant metabolism and plant growth. GE credit: SE. Effective: 2017 Spring Quarter.

PLS 100AL—Metabolic Processes of Cultivated Plants Laboratory (2)

Discussion/Laboratory—3 hour(s). Prerequisite(s): PLS 100A (can be concurrent); Or the equivalent. Techniques and instruments used to study plant metabolic processes, including water relations, respiration, photosynthesis, enzyme kinetics, microscopy, immunochemistry, and nitrogen fixation. Quantitative methods, problem solving, and practical applications are emphasized. GE credit: SE. Effective: 2007 Fall Quarter.

PLS 100B—Growth & Yield of Cultivated Plants (3)

Lecture—3 hour(s). Prerequisite(s): PLS 100A; Or the equivalent of PLS 100A. Principles of the cellular mechanisms and hormonal regulation underlying plant growth, development, and reproduction. Emphasis on how these processes contribute to the harvestable yield of cultivated plants and can be managed to increase crop productivity and quality. GE credit: SE. Effective: 2017 Spring Quarter.

PLS 100BL—Growth & Yield of Cultivated Plants Laboratory (2)

Discussion/Laboratory—3 hour(s). Prerequisite(s): PLS 100B (can be concurrent); Or equivalent. Laboratory exercises in plant growth and development and their regulation, including photomorphogenesis, plant growth regulators, plant anatomy, seed germination, fruit ripening and senescence. Includes field trips to illustrate relationships to cropping and marketing systems. GE credit: SE. Effective: 2007 Fall Quarter.

PLS 100C—Environmental Interactions of Cultivated Plants (3)

Lecture—3 hour(s). Prerequisite(s): PLS 100A; Or the equivalent of PLS 100A. Principles of plant interactions with their physical and biological environments and their acquisition of the resources needed for growth and reproduction. Emphasis on how management practices and environmental conditions affect crop productivity. GE credit: SE. Effective: 2017 Spring Quarter.

PLS 100CL—Environmental Interactions of Cultivated Plants Laboratory (2)

Discussion/Laboratory—3 hour(s). Prerequisite(s): PLS 100C (can be concurrent). Techniques and instruments used to study plant interactions with their physical and biological environments, including light responses, transpiration, microclimatology, nutrient availability and utilization, biomass accumulation. Quantitative methods and modeling are emphasized. GE credit: SE. Effective: 2007 Fall Quarter.

PLS 101—Agriculture & the Environment (3)

Lecture—3 hour(s). Prerequisite(s): PLS 002; or Consent of Instructor. Focus on the interaction between agriculture and the environment to address the principles required to analyze conflict and develop solutions to complex problems facing society. Not open for credit to students who have completed AMR 101. (Former AMR 101.). GE credit: SE, SL. Effective: 2007 Fall Quarter.

PLS 102—California Floristics (5)

Lecture—2 hour(s); Laboratory—5 hour(s); Fieldwork. Prerequisite(s): PLS 002 or BIS 002C; Or equivalent course in Plant Science. Survey of the California flora, emphasizing recognition of important plant families and genera and use of taxonomic keys to identify species. Phylogenetic relationships among families. Principles of systematics and taxonomy. Two Saturday field trips. (Same course as PLB 102.) GE credit: SE, VL. Effective: 2017 Fall Quarter.

PLS 105—Concepts in Pest Management (3)

Lecture—2 hour(s); Discussion/Laboratory—3 hour(s). Prerequisite(s): CHE 008B; (PLS 002 or BIS 002B or BIS 002C). Introduction to the ecological principles of integrated pest management, biology of different classes of pests and the types of losses they cause, population assessment, evaluation of advantages and disadvantages of different techniques used for pest management, IPM programs. Not open for credit to students who have completed AMR 105. (Former AMR 105.). GE credit: SE. Effective: 2017 Winter Quarter.

PLS 110—Crop Management Systems for Vegetable Production (4)

Lecture—2 hour(s); Discussion—1 hour(s); Laboratory—3 hour(s). Prerequisite(s): PLS 002 or (BIS 002A, BIS 002B, BIS 002C). Horticultural principles applied to production and management systems for vegetable crops. Laboratory and discussion illustrate efficient field management and resource use practices. Not open for credit to students who have completed PLS 110C. (Former PLS 110C.). GE credit: SE. Effective: 2017 Winter Quarter.

PLS 111—Principles of Agronomic Crop Production Systems (4)

Lecture—3 hour(s); Laboratory—3 hour(s). Prerequisite(s): PLS 002 or (BIS 002A, BIS 002B, BIS 002C). Principles, practices and technologies of agronomic cropping systems, including crop systematics, physiology, agroecology, equipment, and management. Cropping systems analysis and integration of economic and ecological decision-making considerations involved in crop production. One weekend field trip required. Not open for credit to students who have completed PLS 110A. (Former PLS 110A.). GE credit: SE. Effective: 2017 Fall Quarter.

PLS 112—Forage Crop Production (3)

Lecture—3 hour(s). Prerequisite(s): PLS 002 or BIS 001C or BIS 002C; or Consent of Instructor. Forages as a world resource in food production. Ecological principles governing the adaptation, establishment, growth and management of perennial and annual forages, including pastures, rangelands and hay; aspects of forage quality which affect feeding value to livestock. Not open for credit to students who have completed AMR 112. (Former AMR 112.). GE credit: SE. Effective: 2008 Spring Quarter.

PLS 113—Biological Applications in Fruit Tree Management (2)

Lecture—1 hour(s); Laboratory—3 hour(s). Prerequisite(s): PLS 002 or BIS 001C or BIS 002C; Or equivalent. Physiology, growth, development and environmental requirements of fruit trees and the cultural practices used to maintain them. Emphasis on the application of biological principles in the culture of commercially important temperate zone fruit tree species. Not open for credit to students that have completed PLB 173. (Former PLB 173.). GE credit: SE. Effective: 2007 Fall Quarter.

PLS 114—Biological Applications in Fruit Production (2)

Lecture—1 hour(s); Laboratory—3 hour(s). Prerequisite(s): PLS 002 or BIS 001C or BIS 002C; PLS 113 recommended. Reproductive biology of tree crop species. Biological principles of fruit production, tree nutrition and orchard management for optimizing cropping. Laboratories emphasize hands-on work with orchard tree systems that are done specifically to produce the crop. Not open for credit to students who have completed PLB 174. (Former PLB 174.). GE credit: SE. Effective: 2007 Fall Quarter.

PLS 116—Plant Morphology & Evolution (5)

Lecture—3 hour(s); Laboratory—4 hour(s). Prerequisite(s): Introductory Plant Biology (e.g., BIS 002C, PLS 002). Introduction to the form, development, and evolution of vascular plants. Emphasis given to the form and development of reproductive structures in ferns and seed-producing plants as a basis for determining evolutionary relationships. Not open for credit to students who have completed PLB 116. (Same course as PLB 116.) GE credit: SE, VL. Effective: 2015 Winter Quarter.

PLS 120—Applied Statistics in Agricultural Sciences (4)

Lecture—3 hour(s); Discussion/Laboratory—3 hour(s). Prerequisite(s): Upper division standing. Application of statistical methods to design and analysis of research trials for plant, animal, behavioral, nutritional, and consumer sciences. Basic concepts and statistical methods are presented in lectures, laboratories emphasize data processing techniques, problem solving, and interpretation in specialized fields. Not open for credit for students who have completed AMR 120. (Former AMR 120.). GE credit: QL. Effective: 2008 Spring Quarter.

PLS 123—Introduction to Plant & Crop Systems Modeling (3)

Lecture—3 hour(s). Prerequisite(s): college algebra/precalculus & college physics recommended. Restricted to upper division and graduate students. Modeling approaches commonly used in plant and crop applications. Fundamentals of how plant/crop models are developed and considerations regarding their limitations. Example model applications include degree-day and radiation-use-efficiency models of growth and yield, phenological models, and crop coefficients. GE credit: QL. Effective: 2019 Spring Quarter.

PLS 130—Rangelands: Ecology, Conservation & Restoration (3)

Lecture—3 hour(s). Prerequisite(s): PLS 002 or BIS 002B or BIS 002C; or Consent of Instructor. Upper division standing. Introduction to the ecological principles and processes important for an understanding of the dynamics of range ecosystems. Emphasis on ecological and evolutionary concepts underlying management strategies for conserving biological diversity and environmental quality in rangelands. Not open for credit to students who have completed AMR 130. (Former AMR 130.). GE credit: SE. Effective: 2017 Winter Quarter.

PLS 131—Identification & Ecology of Grasses (2)

Lecture—7.5 hour(s); Laboratory—20 hour(s); Discussion—5 hour(s). Prerequisite(s): PLS 130 or PLS 102 or PLS 147 recommended. Taxonomy and identification of western grasses. Development of skills in using plant identification keys. Ecology and evolution of grasses in grazing ecosystems. Given the week following spring quarter. Not open for credit to students who have completed AMR 131. (Former AMR 131.). GE credit: SE, VL. Effective: 2017 Spring Quarter.

PLS 135—Ecology & Community Structure of Grassland & Savannah Herbivores (3)

Lecture—3 hour(s). Prerequisite(s): (BIS 001A or BIS 001B); (PLS 002 or BIS 001C); General ecology course (ESP 100) recommended. Feeding ecology of grassland herbivores and its importance in evolution of herbivore communities and social systems. Optimal foraging, interspecific interactions, and primary productivity are considered as factors structuring natural and managed grassland and savannah systems. Not open for credit to students who have completed AMR 135. (Former AMR 135.). Effective: 2007 Winter Quarter.

PLS 141—Ethnobotany (4)

Lecture—3 hour(s); Discussion/Laboratory—2 hour(s). Prerequisite(s): PLS 002 or BIS 001C or BIS 002C. Relationships and interactions between plants and people, including human perceptions, management, and uses of plants, influences of plants on human cultures, and effects of human activity on plant ecology and evolution. Concepts, questions, methods, and ethical considerations in ethnobotanical research. Not open for credit to students who have completed PLB 141. (Former PLB 141.). GE credit: OL, SE, SS, WE. Effective: 2008 Winter Quarter.

PLS 144—Trees & Forests (4)

Lecture—3 hour(s); Discussion—1 hour(s). Prerequisite(s): PLS 002 or BIS 001C or BIS 002C. Biological structure and function of trees as organisms; understanding of forests as communities and as ecosystems; use of forests by humans; tree phenology, photosynthesis, respiration, soil processes, life histories, dormancy, forest biodiversity, and agroforestry. Not open for credit to students who have completed PLB 144 or ENH 144 or ERS 144. (Former PLB 144, ENH 144, ERS 144.). (Same course as ESM 144.) GE credit: SE, VL. Effective: 2011 Fall Quarter.

PLS 147—California Plant Communities (3)

Lecture/Discussion—3 hour(s). Prerequisite(s): PLS 002 or BIS 002C. Ecology, distribution, and species of California's plant communities. Environmental forces that determine these communities, the threats they face, and their conservation and restoration opportunities. Not open for credit to students who have completed PLB 147. (Former PLB 147.). GE credit: SE, VL. Effective: 2012 Spring Quarter.

PLS 147L—California Plant Communities Field Study (1)

Discussion/Laboratory—3 hour(s). Prerequisite(s): (PLS 002 or BIS 002C); PLS 147 (can be concurrent); Concurrent or previous enrollment in PLS 147. Visits to many of northern California's plant communities, from the north coast to the Central Valley to the Sierras. Discussion of community ecology and hands-on identification of species. Two Saturday and two three-day field trips required. Not open for credit to students who have completed PLB 147. (Former PLB 147.). GE credit: SE, VL. Effective: 2012 Spring Quarter.

PLS 150—Sustainability & Agroecosystem Management (4)

Lecture—3 hour(s); Laboratory—3 hour(s). Prerequisite(s): SSC 010; CHE 002A; (PLS 002 or BIS 001C or BIS 002C). Interdisciplinary analysis of agricultural production and food systems with primary emphasis on biophysical processes. General concepts governing the functioning of temperate and tropical agroecosystems in relation to resource availability, ecological sustainability, and socio-economic viability. Comparative ecological analyses of agroecosystems. Not open for credit to students who have completed AMR 150. (Former AMR 150.). GE credit: OL, SE, SL. Effective: 2008 Spring Quarter.

PLS 152—Plant Genetics (4)

Lecture—3 hour(s); Discussion/Laboratory—1 hour(s). Prerequisite(s): BIS 001A or BIS 002A; or Consent of Instructor. Basic principles of transmission genetics, cytogenetics, population and quantitative genetics, and molecular genetics. Practical aspects of genetic crosses and analysis of segregating populations. Not open to students who have completed PLB 152. (Former PLB 152.). GE credit: SE. Effective: 2007 Fall Quarter.

PLS 153—Plant, Cell, Tissue & Organ Culture (4)

Lecture—2 hour(s); Discussion—1 hour(s); Laboratory—3 hour(s). Prerequisite(s): PLS 002 or BIS 001C or BIS 002C. Basic and applied aspects of plant tissue culture including media preparation, micropropagation, organogenesis, embryogenesis, anther culture, protoplast culture and transformation. Not open for credit to students who have completed PLB 153. (Former PLB 153.). GE credit: SE. Effective: 2007 Fall Quarter.

PLS 154—Introduction to Plant Breeding (4)

Lecture—3 hour(s); Laboratory—3 hour(s). Prerequisite(s): PLS 152 or BIS 101; or Consent of Instructor. Principles, methods and applications of plant breeding and genetics to the improvement of crop plants. Illustration of how plant breeding is a dynamic, multidisciplinary, constantly-evolving science. Laboratory emphasizes hands-on experience in the basics of breeding through experiments. Not open for credit to students who have completed PLB 154. (Former PLB 154.). GE credit: SE. Effective: 2007 Fall Quarter.

PLS 157—Physiology of Environmental Stresses in Plants (4)

Lecture—2 hour(s); Discussion—2 hour(s). Prerequisite(s): PLS 100C or PLB 111 or PLB 112 or ENH 102 or VEN 110. Stress concepts and principles; molecular, physiological, developmental and morphological characteristics enabling plants to avoid or tolerate environmental stresses; stress acclimation and adaptation processes; responses of wild and cultivated species to drought, flooding, nutrient deficiencies, salinity, toxic ions, extreme temperatures, etc. Not open for credit to students who have completed PLB 157. (Former PLB 157.). GE credit: SE. Effective: 2007 Fall Quarter.

PLS 158—Mineral Nutrition of Plants (4)

Lecture—3 hour(s); Laboratory—3 hour(s). Prerequisite(s): PLS 100A or PLB 111 or ENH 102 or VEN 110. Evolution and scope of plant nutrition; essential elements; mechanisms of absorption and membrane transporters; translocation and allocation processes; mineral metabolism; deficiencies and toxicities; genetic variation in plant nutrition; applications to management and understanding ecological effects of nutrient availability or deficiency. Not open for credit to students who have completed PLB 158. (Former PLB 158.). GE credit: SE. Effective: 2007 Fall Quarter.

PLS 160—Agroforestry: Global & Local Perspectives (3)

Lecture/Discussion—3 hour(s). Prerequisite(s): (PLS 002 or BIS 001C or BIS 002C); (PLS 142 or PLS 150 or BIS 002B); or general ecology course in lieu of PLS 142 or PLS 150 or BIS 002B. Traditional and evolving use of trees in agricultural ecosystems; their multiple roles in environmental stabilization and production of food, fuel, and fiber; and socioeconomic barriers to the adoption and implementation of agroforestry practices. Not open for credit to students who have previously taken AMR 160. (Former AMR 160.). (Same course as IAD 160.) GE credit: SE. Effective: 2011 Spring Quarter.

PLS 162—Urban Ecology (3)

Lecture/Discussion—3 hour(s). Prerequisite(s): Course in general or plant ecology such as PLB 117, ESP 100, EVE 101, EVE 120 or PLS 163. Application of fundamental concepts and approaches in landscape and ecosystem ecology to urban ecosystems. Ecological and social drivers and responses. Landscape heterogeneity, nutrient dynamics, invasive species, altered hydrology and climate, and pollution. Discussion of primary literature. GE credit: SE, SL. Effective: 2017 Winter Quarter.

PLS 163—Ecosystem & Landscape Ecology (4)

Lecture/Discussion—3 hour(s); Project (Term Project)—1 hour(s). Prerequisite(s): (ESP 100 C- or better) or (SSC 112 C- or better) or (EVE 117 C- or better) or (PLB 117 C- or better) or (PLS 144 C- or better) or (ESM 144 C- or better) or (PLS 162 C- or better) or (ENH 160 C- or better) or (EVE 101 C- or better); or similar class with consent of instructor. Integration of concepts to understand and manage ecosystems in a complex and changing world. Emphasis on interactions among biotic, abiotic & human factors and changes over space/time. Local to global controls over water, carbon and nutrients across ecosystems/landscapes. Not open for credit to students who have completed ECL 201. Effective: 2020 Winter Quarter.

PLS 164—Practicum in Ecological Restoration (1)

Fieldwork—3 hour(s). Prerequisite(s): ENH 160 recommended. Hands-on field exposure to various aspects of ecological restoration throughout the seasonal restoration cycle with real-world practitioners. Emphasis on grassland/rangeland, riparian, and oak woodland communities. May be repeated up to 3 time(s). (P/NP grading only.) Effective: 2014 Spring Quarter.

PLS 170A—Fruit & Nut Cropping Systems (2)

Lecture—1 hour(s); Laboratory—3 hour(s). Prerequisite(s): PLS 002 or BIS 002C; or Consent of Instructor. Overview of production and handling systems of major pomological crops, analysis of current cultural and harvesting problems and concerns associated with commercial fruit growing. Not open for credit to students who have completed AMR 170A. (Former AMR 170A.). GE credit: SE. Effective: 2017 Spring Quarter.

PLS 170B—Fruit & Nut Cropping Systems (2)

Lecture—1 hour(s); Laboratory—3 hour(s). Prerequisite(s): PLS 002 or BIS 002C; or Consent of Instructor. Overview of production and handling systems of major pomological crops, including analysis of current cultural and harvesting problems and concerns associated with commercial fruit growing. Not open for credit to students who have completed AMR 170B. (Former AMR 170B.). GE credit: SE. Effective: 2017 Spring Quarter.

PLS 171—Principles & Practices of Plant Propagation (4)

Lecture—2 hour(s); Discussion—1 hour(s); Laboratory—3 hour(s). Prerequisite(s): PLS 002 or BIS 001C or BIS 002C. Principles and practices of propagating plants covering anatomical, physiological, and practical aspects. Not open for credit to students who have completed PLB 171. (Former PLB 171.). GE credit: SE. Effective: 2007 Fall Quarter.

PLS 172—Postharvest Physiology & Technology (4)

Lecture—3 hour(s); Discussion/Laboratory—2 hour(s). Prerequisite(s): General plant science background (e.g., PLS 002, PLS 012); PLS 196 recommended. Overview of physiological processes related to maturation and senescence of plant products and their responses to postharvest stresses. Targeted approaches and technologies to maintain product quality and limit postharvest disorders. Not open for credit to students who have completed PLB 172. (Former PLB 172.). GE credit: SE. Effective: 2008 Fall Quarter.

PLS 173—Molecular & Cellular Aspects of Postharvest Biology (3)

Lecture/Discussion—3 hour(s). Prerequisite(s): PLS 002 or BIS 001C or BIS 002C; Or equivalent. Basic concepts and current knowledge of issues relevant to postharvest biology. Mechanisms of fruit ripening, senescence, programmed cell death. Metabolism and functions of phytohormones, carbohydrates, lipids, pigments, flavor compounds, and phytonutrients at molecular and cellular levels. GE credit: SE. Effective: 2017 Spring Quarter.

PLS 174—Microbiology & Safety of Fresh Fruits & Vegetables (3)

Lecture—3 hour(s). Prerequisite(s): PLS 002 or BIS 001C or BIS 002C; Or equivalent. Overview of microorganisms on fresh produce, pre- and postharvest factors influencing risk of microbial contamination, attachment of microorganisms to produce, multiplication during postharvest handling and storage, and methods of detection. Mock outbreak trial and presentation of science-based forensic discovery. GE credit: SE. Effective: 2008 Fall Quarter.

PLS 176—Introduction to Weed Science (4)

Lecture—2 hour(s); Discussion/Laboratory—4 hour(s). Prerequisite(s): PLS 002 or BIS 001C or BIS 002C. Weed biology and ecology, methods of weed management, biological control, herbicides and herbicide resistance. Weed control in managed and natural ecosystems; invasive species. Laws and regulations. Application of herbicides. Sight and software-assisted identification of common weeds. Not open for credit to students who have completed PLB 176. (Former PLB 176.). GE credit: SE, VL. Effective: 2011 Fall Quarter.

PLS 178—Biology & Management of Aquatic Plants (3)

Lecture—3 hour(s). Prerequisite(s): (PLS 002 or BIS 001C or BIS 002C); (CHE 008B or CHE 118B); PLS 100C, PLB 111, ENH 102, or HYD 122 recommended. Brief survey of common and invasive fresh water plants and macroalgae, their reproductive modes, physiology, growth (photosynthesis, nutrient utilization), development (hormonal interactions), ecology, modes and impacts of invasion, and management. Two Saturday field trips required. Not open for credit to students who have completed former PLB 178. (Former PLB 178.). GE credit: SE. Effective: 2007 Fall Quarter.

PLS 188—Undergraduate Research Proposal (3)

Lecture/Discussion—3 hour(s). Prerequisite(s): Upper division standing. Preparation and review of a scientific proposal. Problem definition, identification of objectives, literature survey, hypothesis generation, design of experiments, data analysis planning, proposal outline and preparation. (Same course as BIT 188.) GE credit: OL, SE, WE. Effective: 2008 Summer Quarter.

PLS 189L—Laboratory Research in Plant Sciences (2-5)

Laboratory—3-12 hour(s); Discussion—1 hour(s). Prerequisite(s): PLS 188; and Consent of Instructor. Formulating experimental approaches to current questions in plant science; performance of proposed experiments. May be repeated up to 12 unit(s). (P/NP grading only.) Effective: 2008 Spring Quarter.

PLS 190—Seminar on Alternatives in Agriculture (2)

Seminar—1 hour(s); Discussion—1 hour(s). Prerequisite(s): Upper division standing or consent of instructor. Seminar on topics related to alternative theories, practices and systems of agriculture and the relationship of agriculture to the environment and society. Scientific, technological, social, political and economic perspectives. May be repeated up to 2 time(s) for a total of three times. (P/NP grading only.) GE credit: SE. Effective: 2017 Winter Quarter.

PLS 190C—Research Group Conference (1)

Discussion—1 hour(s). Prerequisite(s): Consent of Instructor. Advanced standing. Weekly conference on research problems, progress and techniques in the plant sciences. May be repeated for credit. (P/NP grading only.) Effective: 2007 Fall Quarter.

PLS 192—Internship (1-12)

Internship—3-36 hour(s). Prerequisite(s): Consent of Instructor. Completion of 84 units. Work experience on or off campus in subject areas pertaining to plant and environmental sciences. Internship supervised by a faculty member. May be repeated for credit. (P/NP grading only.) Effective: 2007 Winter Quarter.

PLS 193—Garden & Farm-Based Experiential Education Methods (2)

Lecture—1 hour(s); Laboratory—3 hour(s). Prerequisite(s): Upper division standing or consent of instructor. Methods of teaching children and youth about fruit and vegetable production and consumption. Lesson and activity planning for garden and farm field trips. Basic biology, ecology, plant science, and crop management practices. Mentorship in experiential learning. Preparation of garden site. (P/NP grading only.) GE credit: OL, SE. Effective: 2015 Winter Quarter.

PLS 194H—Senior Honors Thesis (1-2)

Independent Study—3-6 hour(s). Prerequisite(s): Senior standing; overall GPA of 3.250 or higher and consent of master advisor. Independent study of selected topics under the direction of a member or members of the staff. Completion will involve the writing of a senior thesis. (P/NP grading only.) GE credit: SE, WE. Effective: 2016 Fall Quarter.

PLS 196—Postharvest Technology of Horticultural Crops (3)

Lecture/Discussion—45 hour(s); Fieldwork—45 hour(s). Prerequisite(s): Upper division or graduate student standing. Intensive study of postharvest considerations and current procedures and challenges in postharvest handling for fruits, nuts, vegetables, and ornamentals in California. Scheduled first two weeks immediately following last day of spring quarter. Not open for credit to students who have completed PLB 196. (Former PLB 196.) (P/NP grading only.) GE credit: SE. Effective: 2007 Fall Quarter.

PLS 197T—Tutoring in Plant Sciences (1-5)

Tutorial—1-5 hour(s). Prerequisite(s): Consent of Instructor. Upper division standing, completion of course being tutored or the equivalent. Leading small voluntary discussion or lab groups affiliated with one of the department's regular courses. May be repeated up to 8 unit(s). (P/NP grading only.) Effective: 2007 Winter Quarter.

PLS 198—Directed Group Study (1-5)

Variable—3-15 hour(s). May be repeated for credit. (P/NP grading only.) Effective: 2007 Winter Quarter.

PLS 199—Special Study for Advanced Undergraduates (1-5)

Variable—3-15 hour(s). May be repeated for credit. (P/NP grading only.) Effective: 2007 Winter Quarter.

PLS 205—Experimental Design & Analysis (5)

Lecture—3 hour(s); Discussion/Laboratory—2 hour(s). Prerequisite(s): PLS 120; Or equivalent. Introduction to the research process and statistical methods to plan, conduct and interpret experiments. Not open for credit to students who have completed AGR 205. (Former AGR 205.). Effective: 2010 Winter Quarter.

PLS 206—Applied Multivariate Modeling in Agricultural & Environmental Sciences (4)

Lecture—3 hour(s); Discussion—1 hour(s). Prerequisite(s): PLS 120; (STA 106 or STA 108 or PLS 205). Multivariate linear and nonlinear models. Model selection and parameter estimation. Analysis of manipulative and observational agroecological experiments. Discriminant, principal component, and path analyses. Logistic and biased regression. Bootstrapping. Exercises based on actual research by UC Davis students. Not open for credit to students who have complete AGR 206. (Former AGR 206.). Effective: 2017 Winter Quarter.

PLS 212—Postharvest Biology & Biotechnology of Fruits & Nuts (3)

Lecture—3 hour(s). Prerequisite(s): PLS 172. Review of postharvest biology of fruits and nuts and biotechnological approaches to address postharvest challenges. Morphology, biology and postharvest handling of fruits and nuts are presented along with current research, including biotechnology, and discussion of future research needs and approaches. Not open for credit to students who have completed POM 212. Effective: 2008 Spring Quarter.

PLS 213—Postharvest Physiology of Vegetables (3)

Lecture—2 hour(s); Discussion—1 hour(s). Prerequisite(s): PLS 172 or PLS 100B or PLB 112. Comparative physiology of harvest vegetables; emphasis on maturation, senescence, compositional changes, physiological disorders and effects of environmental factors. Concepts and research procedures. Not open for credit to students who have completed VCR 212. (Former VCR 212.). Effective: 2010 Spring Quarter.

PLS 217—Field Techniques in Plant Physiology (3)

Discussion/Laboratory—2.5 hour(s); Extensive Problem Solving—1 hour(s). Prerequisite(s): Prior coursework in plant physiology such as PLS 100A, PLS 100CL, PLS 157, PLS 210, PLB 111 or similar. Hands-on practice applying a wide range of field-oriented plant physiology equipment and techniques. Use of water relations techniques, gas exchange devices, and image analysis, with extensive focus on dataloggers and sensing. Training in field-based plant physiology techniques intended to help students design research projects and appreciate the value and limitations of new equipment. Effective: 2020 Spring Quarter.

PLS 220—Genomics & Biotechnology of Plant Improvement (3)

Lecture—3 hour(s). Prerequisite(s): BIS 101; Or the equivalent. Integration of modern biotechnology and classical plant breeding including the impact of structural, comparative and functional genomics on gene discovery, characterization and exploitation. Covers molecular markers, plant transformation, hybrid production, disease resistance, and novel output traits. Not open for credit to students who have completed VCR 220. (Former VCR 220.). (Same course as GGG 220.) Effective: 2007 Winter Quarter.

PLS 221—Genomics & Breeding of Vegetable Crops (3)

Lecture—3 hour(s). Prerequisite(s): BIS 101; Or equivalent. Preview of genome structure, mapping, gene tagging and development of other genetic resources applied to improvement of major vegetables. For graduate students contemplating a career in modern vegetable breeding and biotechnology. Not open for credit to students who have completed VCR 221. (Former VCR 221.). Effective: 2007 Winter Quarter.

PLS 222—Advanced Plant Breeding (4)

Lecture—3 hour(s); Laboratory—3 hour(s). Prerequisite(s): PLS 154; PLS 205; GGG 201D or ANG 107 recommended. Philosophy, methods, and problems in developing improved plant species. Topics include: inbreeding, heterosis, progeny testing, breeding methodology, index selection, germplasm conservation, and breeding for stress resistance. Laboratories include tours of breeding facilities and calculation and interpretation of quantitative data. Effective: 2014 Winter Quarter.

PLS 230—Forest Biology (4)

Lecture—3 hour(s); Seminar—1 hour(s). Prerequisite(s): Graduate standing or advanced undergraduate with consent of instructor. Cross-disciplinary review of forest biology, including physiology, genetics, pathology, ecology, and silviculture. Effective: 2014 Spring Quarter.

PLS 290—Seminar (1-2)

Seminar—1-2 hour(s). Topics of current interest related to Plant Sciences. (S/U grading only.) Effective: 2007 Winter Quarter.

PLS 290C—Research Conference (1)

Discussion—1 hour(s). Prerequisite(s): Consent of Instructor. May be repeated for credit. (S/U grading only.) Effective: 2007 Winter Quarter.

PLS 297T—Tutoring in Plant Sciences (1-5)

Tutorial—1-5 hour(s). Prerequisite(s): Consent of Instructor. Graduate standing; completion of course to be tutored or the equivalent. Designed for graduate students who desire teaching experience but are not teaching assistants. May be repeated up to 5 unit(s) and same course may not be tutored more than once. (S/U grading only.) Effective: 2007 Winter Quarter.

PLS 298—Group Study (1-5)

Variable. Effective: 2007 Winter Quarter.

PLS 299—Research (1-12)

Variable—3-36 hour(s). May be repeated for credit. (S/U grading only.) Effective: 2007 Winter Quarter.

PLS 396—Teaching Assistant Training Practicum (1-4)

Variable—3-12 hour(s). Prerequisite(s): Consent of Instructor. Graduate standing. May be repeated for credit. (S/U grading only.) Effective: 2007 Winter Quarter.

PMD—Pathology

Courses in PMD:

PMD 192—Internship in Human Pathology (1-12)

Internship—3-36 hour(s). Prerequisite(s): Upper division standing; approval of project prior to period of internship by preceptor. Supervised work experience in pathology and related fields. (P/NP grading only.) Effective: 1997 Winter Quarter.

PMD 199—Special Study in Pathology for Advanced Undergraduates (1-5)

Variable. Prerequisite(s): Consent of Instructor. Advanced undergraduates. (P/NP grading only.) Effective: 1997 Winter Quarter.

PMD 290C—Research Group Conferences (1)

Seminar—1 hour(s). Prerequisite(s): Graduate level standing. Focused around the mechanisms of function of the central nervous system under normal and pathogenic conditions. Seminars lead by various speakers from UC Davis and other Institutions, both domestic and international. May be repeated for credit. (S/U grading only.) Effective: 2017 Fall Quarter.

PMD 296—Neurodevelopment Group Study (1-6)

Variable—1-6 hour(s). Explore mechanisms that impact perinatal development of the cerebral cortex, and other cortical structures, under normal and pathological conditions. (S/U grading only.) Effective: 2017 Summer Quarter.

PMD 298—Advanced Group Study (1-5)

Variable—1-5 hour(s). Prerequisite(s): Consent of Instructor. Group Study provides the opportunity for a faculty member to work with students in a focused manner. (S/U grading only.) Effective: 2017 Summer Quarter.

PMD 299—Research (1-12)

Variable. Prerequisite(s): Consent of Instructor. (S/U grading only.) Effective: 1997 Winter Quarter.

PMD 405—Brain Cutting Conference (1-4)

Seminar—1-4 hour(s). Prerequisite(s): Third- and fourth-year medical students or consent of instructor. Current specimens are sectioned, discussed, and clinical correlations proposed. (H/P/F grading only.) Effective: 1997 Winter Quarter.

PMD 407—Advanced Neuropathology (3-18)

Lecture/Discussion—40 hour(s). Prerequisite(s): Consent of Instructor. Third- or fourth-year medical student. Restricted to Medical students only. Presents an integrated introduction to mechanisms of the central and peripheral nervous system injury. Gain an understanding of pathological mechanisms underlying disease, the anatomic and molecular manifestations of pathologic processes of the CNS and PNS. (H/P/F grading only.) Effective: 2015 Fall Quarter.

PMD 410A—General & Endocrine Pathology (2.5)

Lecture—4 hour(s); Discussion/Laboratory—4.5 hour(s). Restricted to medical students only. Pathologic mechanisms of human disease. Concepts of general pathologic processes, i.e., cell death, inflammation and neoplasia. Endocrine pathology in the context of clinical human disease. Emphasis on integration of clinical practice with gross and histologic images emphasizing team-based learning. (P/F grading only.) Effective: 2015 Winter Quarter.

PMD 410B—Systemic Pathology (1)

Lecture—1 hour(s); Discussion/Laboratory—0.5 hour(s). Prerequisite(s): Approval by SOM Committee on Student progress. Restricted to Medical students only. Anatomic and clinical pathology of organ system human disease with an emphasis on integration with clinical medicine. Topics include hematopathology and neuropathology. (P/F grading only.) Effective: 2010 Spring Quarter.

PMD 410C—Systemic Pathology (2)

Lecture—1 hour(s); Discussion—2 hour(s). Prerequisite(s): Approval by SOM Committee on Student progress. Restricted to Medical students only. Anatomic and clinical pathology of organ system human disease with an emphasis on integration with clinical medicine. Topics include pulmonary pathology, cardiovascular pathology, hematopathology, oncologic pathology, and nephropathology. (P/F grading only.) Effective: 2010 Spring Quarter.

PMD 410D—Systemic Pathology (2.5)

Lecture—1 hour(s); Discussion—2 hour(s). Prerequisite(s): Approval by SOM Committee on Student progress. Restricted to Medical students only. Anatomic and clinical pathology of organ system human disease with emphasis on integration with clinical medicine. Content parallels concurrent clinical courses with integration of lectures and discussions. Topics include gastrointestinal and gynecologic pathology, hepatopathology, oncologic pathology and musculoskeletal pathology. (P/F grading only.) Effective: 2010 Spring Quarter.

PMD 435—Clinical Patient Care in Pathology (3-9)

Clinical Activity—24 hour(s); Independent Study—7 hour(s); Lecture/Discussion—4 hour(s). Prerequisite(s): and Consent of Instructor. Completed one of the following 3rd year clerkships: Family Medicine, Internal Medicine, Surgery, OBGYN or Pediatrics. Four-week course is designed to give the third-year medical student an exposure to the diverse roles that pathologists have in clinical patient care. May be repeated for credit. (H/P/F grading only.) Effective: 2015 Summer Quarter.

PMD 440—Surgery-Pathology-Radiology (SPR) Research Laboratory (2)

Lecture/Discussion—1 hour(s); Discussion/Laboratory—2 hour(s). Prerequisite(s): Consent of Instructor. Provide future clinicians and scientists with basic clinical and bioengineering laboratory skills to prepare for careers in translational research (P/F grading only.) Effective: 2014 Summer Quarter.

PMD 460—Diagnostic Medicine: Pathology in Practice (3)

Lecture. Asynchronous learning course bridges the gap between foundational pathophysiology learned in pre-clerkship curriculum and the utilization of pathology and laboratory medicine studies in clinical practice. (P/F grading only.) Effective: 2020 Spring Quarter.

PMD 464—Anatomic Pathology (3-6)

Clinical Activity—40 hour(s); Variable. Prerequisite(s): Consent of Instructor. Fourth-year medical students. Restricted to Medical Students only. Anatomic pathology with an emphasis on autopsy and surgical pathology with application to clinical practice. Specimen grossing, frozen sections, microscopic sign-out and conferences. Exposure to cytopathology, hematopathology, and clinical pathology is available. (H/P/F grading only.) Effective: 2010 Winter Quarter.

PMD 465—Applied Clinical Laboratory Medicine (3-6)

Variable—40 hour(s). Prerequisite(s): Consent of Instructor. Emphasis upon laboratory techniques, procedures, and interpretation of laboratory results. Students will be expected to participate fully and in all laboratory operations including bench techniques, laboratory management, and quality control. May be repeated for credit. (H/P/F grading only.) Effective: 2012 Winter Quarter.

PMD 470—Sub-Specialty in Didactic Pathology (3-16)

Lecture/Lab—25 hour(s). Prerequisite(s): Consent of Instructor. Externship provides in-depth exposure to one of a variety of sub-specialties in Pathology. May be repeated for credit. (H/P/F grading only.) Effective: 2011 Spring Quarter.

PMD 474—Anatomic Pathology Acting Internship (3-9)

Clinical Activity—40-80 hour(s). Prerequisite(s): Fourth-year medical student or consent of instructor. Restricted to medical students only. Anatomic Pathology AI will permit students to gain skills needed for first year Pathology Residency. Students will perform autopsies and take full responsibility for a variety of surgical pathology cases. A mix of outpatient and inpatient cases is expected. May be repeated for credit. (H/P/F grading only.) Effective: 2011 Summer Quarter.

PMD 475—Anatomic Pathology Acting Internship (3-9)

Clinical Activity—40-80 hour(s). Prerequisite(s): PMD 410A; PMD 410B; PMD 410C; PMD 410D; and Consent of Instructor. Or equivalent. Successful completion of third-year clinical rotations. Restricted to Medical Students only. Year four level course designed to provide a concentrated experience in Surgical Pathology and Cytopathology. Rotate on the surgical and cytopathology sub-specialty teams and assume responsibility for patient cases. May be repeated for credit. (H/P/F grading only.) Effective: 2015 Summer Quarter.

PMD 493—Interdisciplinary Study of Gastrointestinal Cancer (6)

Lecture—5 hour(s); Clinical Activity—12 hour(s); Laboratory—3 hour(s); Discussion/Laboratory—20 hour(s). Prerequisite(s): Consent of Instructor. In-depth study of gastrointestinal, hepatic and pancreatic cancer. Emphasis on an integration of basic science and clinical medicine. Participating departments include pathology, surgical oncology, medical oncology, gastroenterology, radiology and radiotherapy. (Same course as SUR 493D.) (H/P/F grading only.) Effective: 2012 Summer Quarter.

PMD 497T—Tutoring in Pathology (1-5)

Tutorial—3-15 hour(s). Prerequisite(s): Advanced standing or consent of instructor. Assist instructor by tutoring medical students in preparation for one of the departmental courses that is a component of the required curriculum of the School of Medicine. (H/P/F grading only.) Effective: 1997 Winter Quarter.

PMD 498—Advanced Group Study (1-5)

Variable. Prerequisite(s): Consent of Instructor. Medical student. Group study in variety of advanced topics in general, special, experimental, or comparative pathology. (H/P/F grading only.) Effective: 1997 Winter Quarter.

PMD 499—Research (1-18)

Variable. Prerequisite(s): Medical student with consent of instructor. Limited enrollment. Research in experimental, molecular, comparative, and applied pathology. May be repeated for credit. (H/P/F grading only.) Effective: 2017 Fall Quarter.

PMI—Pathology, Microbiology & Immunology

Courses in PMI:

PMI 099—Special Study for Undergraduates (1-5)

Variable—3-15 hour(s). Prerequisite(s): Consent of Instructor. May be repeated for credit. (P/NP grading only.) Effective: 2003 Fall Quarter.

PMI 126—Fundamentals of Immunology (3)

Lecture—3 hour(s). Prerequisite(s): BIS 102; or Consent of Instructor. Or equivalent. Overview of immunology including components of the immune system, initiation and regulation of the immune response, infection and immunity, hypersensitivity and immune dysfunction. Clinical immunologic techniques, immunodeficiency, and vaccinology. Effective: 2004 Fall Quarter.

PMI 126L—Immunology Laboratory (2)

Laboratory—6 hour(s). Prerequisite(s): PMI 126 (can be concurrent); Or equivalent. Laboratory procedures in clinical immunology. Cells of the innate and adaptive systems. Quantitative and qualitative characterization of the immune response. Effective: 2014 Winter Quarter.

PMI 127—Medical Bacteria & Fungi (3)

Lecture—3 hour(s). Prerequisite(s): Any Microbiology course with lab; Immunology strongly recommended. Pass One open to Microbiology majors. Introduction to the bacterial and mycotic pathogens of man and animals, with emphasis on pathogenic mechanisms and ecologic aspects of infectious disease. Effective: 2020 Spring Quarter.

PMI 128—Biology of Animal Viruses (3)

Lecture—3 hour(s). Prerequisite(s): BIS 102. Fundamental physical and chemical properties of animal viruses; methods of propagation, purification and assay. Mechanisms of viral replication and pathogenesis of viral infections in man and animals. Immunity to virus diseases and oncogenic properties of animal viruses. Only 2 units of credit given if completed MIC 162. Effective: 2004 Fall Quarter.

PMI 129Y—One Health: Human, Animal & Environment Interfaces (3)

Lecture/Discussion—3 hour(s); Web Electronic Discussion. Limited to upper division undergraduate students in good standing and who fulfill the course prerequisites; limited to 100 students/term. Introduction to fundamentals, challenges, and opportunities in One Health using local and global health case studies. Animal, human, and environmental health problems, along with tools and transdisciplinary approaches, will be introduced to foster innovative thinking that addresses complex issues. GE credit: OL, SE, SL, SS. Effective: 2013 Spring Quarter.

PMI 198—Directed Group Study (1-5)

Independent Study—3-5 hour(s). Prerequisite(s): Consent of Instructor. May be repeated for credit. (P/NP grading only.) Effective: 2004 Fall Quarter.

PMI 199—Special Study for Advanced Undergraduates (1-5)

Variable—3-15 hour(s). May be repeated for credit. (P/NP grading only.) Effective: 2003 Fall Quarter.

PMI 200—Research Foundations (1) *Review all entries*

Seminar—1 hour(s). Prerequisite(s): Consent of Instructor. Introduction to key components of graduate school success including mentor/mentee relationship issues, avoiding plagiarism, hypothesis development and experimental design, demystifying the grant writing process, understanding the NIH administrative structure, preparing for a non-academic career, and strategies to maintain a work-life balance. (S/U grading only.) Effective: 2020 Fall Quarter.

PMI 200—Research Foundations (1) *Review all entries*

Seminar—1 hour(s). Introduction to key components of graduate school success including mentor/mentee relationship issues, avoiding plagiarism, hypothesis development and experimental design, demystifying the grant writing process, understanding the NIH administrative structure, preparing for a non-academic career, and strategies to maintain a work-life balance. (S/U grading only.) Effective: 2018 Fall Quarter.

PMI 201—Integrative Pathobiology Core I (5)

Lecture—3 hour(s); Discussion—2 hour(s). Overview of molecular biology techniques, tissue structure and function, cell membrane pathology and cellular mechanisms of disease including cellular responses and adaptations to stress, cell cycle, cell death, cell biomechanics, vascular disturbances, and mechanisms of neoplasia and tumorigenesis. Effective: 2014 Winter Quarter.

PMI 202—Integrative Pathobiology Core II (4)

Lecture—2 hour(s); Discussion—2 hour(s). The second required core course in the graduate group with topics in inflammation, host-pathogen interaction, regenerative medicine, integrative pathology and population and ecosystem health. Effective: 2014 Spring Quarter.

PMI 203—Experimental Design and Data Analysis in Pathobiology (2) *Review all entries*

Lecture—1 hour(s); Lecture/Lab—2 hour(s). Follows two required core courses in, PMI 201 and 202, for Ph.D. and M.S. students. Goal is to bridge gap between statistics and real-world pathobiology to increase students' skills and independence in experiment design and data analysis. Effective: 2013 Fall Quarter.

PMI 203—Experimental Design & Data Analysis in Pathobiology (2) *Review all entries*

Lecture—1 hour(s); Lecture/Lab—2 hour(s). Prerequisite(s): Consent of Instructor. Follows two required core courses, PMI 201 & PMI 202, for Ph.D. and M.S. students. Goal is to bridge gap between statistics and real-world pathobiology to increase students' skills and independence in experiment design and data analysis. Effective: 2020 Fall Quarter.

PMI 206—Mentored Scientific Writing (1)

Discussion—1.5 hour(s). Prerequisite(s): Consent of Instructor. Enrollment limited to 12 students. Drafting a scientific manuscript for publication based on research results. Students engage in collaborative peer review and learn effective writing, including how to convey a persuasive message and write clearly and succinctly. May be repeated up to 1 time(s). (S/U grading only.) Effective: 2017 Winter Quarter.

PMI 214—Vector-borne Infectious Diseases: Changing Patterns (2)

Lecture/Discussion—2 hour(s). Prerequisite(s): Open to graduate students, MPVM and MPH students, DVM and medical students with second- or third-year standing. Open to upper division undergraduate students with consent of instructor(s). Vector-borne infectious diseases especially as they relate to changing patterns associated with climatic changes, trade and population movement. (Same course as ENT 214.) Effective: 2010 Fall Quarter.

PMI 221—Topics in Virus Research (1)

Discussion—1 hour(s). Prerequisite(s): Graduate student standing (Ph.D. or M.S.). Restricted to 10 students. Discussion-based seminar covering graduate student virology research. Informal presentations and discussion of technical problems in research design and experimentation are encouraged. Current stage of the research project is not important. May be repeated up to 4 time(s). (S/U grading only.) Effective: 2010 Fall Quarter.

PMI 270—Advanced Immunology (3)

Lecture—2 hour(s); Discussion—1 hour(s). Prerequisite(s): Introductory course in Immunology. Restricted to graduate student status in the Comparative Pathology Graduate Group; all other students require consent of instructor. Current concepts of immunology with an emphasis on interactions between the host, the environment and the pathogen. These interactions will include those that are protective and successful for the host as well as those that are deleterious. Effective: 2008 Summer Session 1.

PMI 290—Seminar (1)

Seminar—1 hour(s). Prerequisite(s): Graduate level standing. Topics in pathology, microbiology or immunology. May be repeated for credit. (S/U grading only.) Effective: 2005 Winter Quarter.

PMI 293A—Seminar in Infectious Diseases (1)

Seminar—1 hour(s). Prerequisite(s): Current enrollment in health science professional school or graduate standing in biological sciences. Discussion of current topics and cases of infectious diseases. May be repeated up to 1 time(s) when topic differs. (S/U grading only.) Effective: 2004 Fall Quarter.

PMI 298—Group Study (1-5)

Variable—3-15 hour(s). Prerequisite(s): Consent of Instructor. Group study. May be repeated for credit. (S/U grading only.) Effective: 2005 Winter Quarter.

PMI 299—Research (1-12)

Variable—3-36 hour(s). Prerequisite(s): Consent of Instructor. Graduate standing. May be repeated for credit. (S/U grading only.) Effective: 2004 Winter Quarter.

PMR—Physical Medicine & Rehabilitation

Courses in PMR:

PMR 100—Research Approaches to Disability & Rehabilitation (2)

Lecture/Discussion—2 hour(s). Discussion and evaluation of research approaches to medical rehabilitation, community integration, and quality of life of disabled persons, with a focus on the progressive disabilities associated with neuromuscular diseases. Intent is to encourage interest in professions that serve the disabled community and increase awareness of rehabilitation goals. Effective: 2002 Winter Quarter.

PMR 198—Directed Group Study (1-5)

Variable. Prerequisite(s): Consent of Instructor. Advanced standing. (P/NP grading only.) Effective: 1997 Winter Quarter.

PMR 199—Special Study for Advanced Undergraduates (1-5)

Variable. Prerequisite(s): Consent of Instructor. Advanced standing. (P/NP grading only.) Effective: 1997 Winter Quarter.

PMR 299—Research (1-12)

Variable. Prerequisite(s): Consent of Instructor. (S/U grading only.) Effective: 1997 Winter Quarter.

PMR 405—Healthy Living: Leading by Example (1.5)

Lecture—4 hour(s); Discussion—2 hour(s); Laboratory—4 hour(s); Clinical Activity—1 hour(s). Prerequisite(s): Consent of Instructor. Improve the physical and mental health of participating students while supplementing their medical education with specific concepts. May be repeated for credit. (P/F grading only.) Effective: 2014 Fall Quarter.

PMR 405A—Healthy Living: Leading by Example (1)

Lecture—4 hour(s); Discussion—2 hour(s); Laboratory—4 hour(s); Clinical Activity—1 hour(s). Prerequisite(s): Consent of Instructor. Improve the physical and mental health of participating students while supplementing their medical education with specific concepts. May be repeated for credit. (P/F grading only.) Effective: 2014 Fall Quarter.

PMR 405B—Healthy Living: Leading by Example (0.5)

Lecture—4 hour(s); Discussion—2 hour(s); Laboratory—4 hour(s); Clinical Activity—1 hour(s). Prerequisite(s): Consent of Instructor. Improve the physical and mental health of participating students while supplementing their medical education with specific concepts. May be repeated for credit. (P/F grading only.) Effective: 2014 Fall Quarter.

PMR 421—Introduction to Sports Medicine (1)

Lecture—1 hour(s); Clinical Activity—4 hour(s); Fieldwork. Introduction to basic concepts of Sports Medicine in Physical Medicine & Rehabilitation. Students attend afternoon clinic with Sports Medicine attending; attend lectures focusing on Sports Medicine topics. Students also eligible to cover sporting events with attending physicians where available. (P/F grading only.) Effective: 2007 Summer Quarter.

PMR 440—Rehabilitation Medicine Clerkship (3)

Clinical Activity—36 hour(s); Lecture/Discussion—4 hour(s). Prerequisite(s): IMD 430; SUR 430; and Consent of Instructor. Rehabilitation and comprehensive care of physically disabled and physical medicine management of neurologic, neuromuscular and musculoskeletal disorders. Emphasis on evaluation and conservative treatment of spinal disorders, sports injuries and neuromuscular disease. Emphasis on inpatient rehabilitation, pediatrics, spine or sports possible. (H/P/F grading only.) Effective: 2008 Spring Quarter.

PMR 461—Rehabilitation Medicine (6)

Clinical Activity—36 hour(s); Lecture/Discussion—4 hour(s). Prerequisite(s): IMD 430; SUR 430; and Consent of Instructor. Four-week rotation designed as broad overview of Physical Medicine & Rehabilitation practice for students interested in residency training in the specialty. Emphasis on evaluation and conservative treatment of spinal disorders, sports injuries, neuromuscular disease, neurological and non-operative orthopedic problems requiring rehabilitative management. May be repeated for credit. (H/P/F grading only.) Effective: 2018 Fall Quarter.

PMR 462—Rehabilitation Medicine Clinical Elective (5-18)

Clinical Activity. Prerequisite(s): IMD 430; SUR 430; and Consent of Instructor. Completion of third-year in Medical School. Emphasis on evaluation of patients with neurological or orthopaedic problems requiring rehabilitative techniques for their management. Introduction to management of such patients. Physical Medicine & Rehabilitation at off-campus facility must be approved by Chairperson. (H/P/F grading only.) Effective: 1997 Winter Quarter.

PMR 463—Pediatric Rehabilitation Medicine: Caring for Developmental Disabilities (3)

Clinical Activity. Clerkship. Participate in the outpatient clinical care of children with a wide variety of medical conditions at Shriner's Hospitals for Children. Rotate through a variety of different outpatient clinics including cerebral palsy, neuromuscular disease, limb difference, spinal cord injury, spina bifida, brachial plexus, and sports medicine. (H/P/F grading only.) Effective: 2019 Summer Quarter.

PMR 470—Away Acting Internship in Physical Medicine & Rehabilitation (3-6)

Clinical Activity. Prerequisite(s): Consent of Instructor. AI Externship option for PM&R rotations at other institutions. May be repeated for credit. (H/P/F grading only.) Effective: 2018 Spring Quarter.

PMR 493—Applied Musculoskeletal Anatomy: Sports & Spine SSM (6)

Lecture—5 hour(s); Lecture/Lab—10 hour(s); Laboratory—16 hour(s); Clinical Activity—4 hour(s). Prerequisite(s): Consent of Instructor. Restricted to UC Davis School of Medicine students only. This four-week module will review the anatomy and biomechanics of the musculoskeletal system as well as its associated pathology. The students will be instructed on appropriate musculoskeletal exam techniques and logical approach to the patient in the clinical setting. (H/P/F grading only.) Effective: 2008 Winter Quarter.

PMR 498—Advanced Group Study (1-5)

Variable. Prerequisite(s): Consent of Instructor. Study and experience for medical students in any of a number of areas in physical medicine and rehabilitation. (H/P/F grading only.) Effective: 1997 Winter Quarter.

PMR 499—Research for Medical Students (1-12)

Variable. Prerequisite(s): Consent of Instructor. Research on any of a variety of topics in physical medicine and rehabilitation. May be repeated for credit. (H/P/F grading only.) Effective: 2017 Fall Quarter.

POL—Political Science

Courses in POL:

POL 001—American National Government (4)

Lecture—3 hour(s); Discussion—1 hour(s). Survey of American national government, including the constitutional system, political culture, parties, elections, the presidency, Congress, and the courts. GE credit: ACGH, SS, WE. Effective: 1997 Winter Quarter.

POL 002—Introduction to Comparative Politics (4)

Lecture—3 hour(s); Discussion—1 hour(s). Introduction to basic concepts in political analysis and application of them in comparative studies of selected countries. Coverage is given to cultural and other informal dimensions of politics as well as to more formal political and governmental structures. GE credit: SS, WC, WE. Effective: 1997 Winter Quarter.

POL 003—International Relations (4)

Lecture—3 hour(s); Discussion—1 hour(s). International conflict and cooperation, including the Cold War, nuclear weapons, and new techniques for understanding international politics. GE credit: SS, WC, WE. Effective: 2011 Fall Quarter.

POL 004—Basic Concepts in Political Theory (4)

Lecture—3 hour(s); Discussion—1 hour(s). Analysis of such concepts as the individual, community, liberty, equality, justice, and natural law as developed in the works of the major political philosophers. GE credit: AH, SS, WC, WE. Effective: 1997 Winter Quarter.

POL 005—Contemporary Problems of the American Political System (4)

Lecture—3 hour(s); Discussion—1 hour(s). In-depth treatment of selected problems and issues of American politics, governmental institutions, and policies. GE credit: ACGH, SS, WE. Effective: 1997 Winter Quarter.

POL 007—Contemporary Issues in Law & Politics (4)

Seminar—4 hour(s). Limited enrollment; open to students having no more than 40.1 units. Seminar focusing on the political dimensions of American law and institutions. Examines the role of courts in resolving contemporary issues of law and politics including abortion, capital punishment, and civil rights. GE credit: ACGH, SS, WE. Effective: 1997 Winter Quarter.

POL 011A—America Decides: Who Will Win This Year's Election? (4)

Lecture—3 hour(s); Term Paper/Discussion—1 hour(s). Survey of factors influencing presidential and congressional elections. Analysis of candidate nominations, campaign strategy, campaign finance, media coverage, and voter decision-making. GE credit: ACGH, SS, WE. Effective: 2016 Fall Quarter.

POL 011B—Citizen Lawmaking: Direct Democracy, Public Policy & Political Representation in America (4)

Lecture—3 hour(s); Term Paper/Discussion—1 hour(s). Analysis of direct participation by citizens in the lawmaking process. GE credit: ACGH, SS, WE. Effective: 2016 Fall Quarter.

POL 011C—Politics & Film (4)

Lecture—3 hour(s); Term Paper/Discussion—1 hour(s). Survey of portrayals of politics and policy issues in moving pictures. Analysis of political processes, policy development, social mores, and historical periods as highlighted in Hollywood movies, television, and/or documentary films. GE credit: ACGH, SS, VL, WE. Effective: 2016 Fall Quarter.

POL 011D—Political Persuasion (4)

Lecture—3 hour(s); Term Paper/Discussion—1 hour(s). Examination of political influence and persuasion. GE credit: SS, WE. Effective: 2016 Fall Quarter.

POL 012A—Politics & Sports (4)

Lecture—3 hour(s); Term Paper/Discussion—1 hour(s). Core issues in American and world politics through the lens of sports and the athletes who play them. Introduction of American civil rights movement, the Cold War, Middle East Tensions, and democratization. GE credit: SS, WE. Effective: 2016 Fall Quarter.

POL 012B—Climate Change & Politics (4)

Lecture—3 hour(s); Term Paper/Discussion—1 hour(s). Analysis of political institutions' response and adaptation to climate change. GE credit: SS, WE. Effective: 2016 Fall Quarter.

POL 012Y—Data Visualization in the Social Sciences (4)

Lecture—2 hour(s); Laboratory—1.5 hour(s); Web Virtual Lecture—1.5 hour(s). Introduction to quantitative data across the social sciences (Communications, Political Science, Psychology, Sociology, and other disciplines). Transforming data, describing data, producing graphs, visual reasoning, and interpretations. (Same course as CMN 012Y, SOC 012Y, PSC 012Y.) GE credit: QL, VL. Effective: 2016 Spring Quarter.

POL 051—Scientific Study of Politics (4)

Lecture—3 hour(s); Discussion—1 hour(s). Introduction to the basic principles of the scientific study of politics. Research design and empirical analysis of data with applications to different methodological approaches and different substantive areas in political science. GE credit: AH, QL, SE, SS, VL, WE. Effective: 2006 Fall Quarter.

POL 090X—Lower Division Seminar (4)

Seminar—4 hour(s). Prerequisite(s): Consent of Instructor. Lower division standing. Limited enrollment. Examines fundamental issues and concepts that shape the study and practice of politics. Students will read, discuss and write about some of the most significant texts in political science in order to develop a foundation for the study of politics. Effective: 1997 Winter Quarter.

POL 099—Special Study for Undergraduates (1-5)

Variable. Prerequisite(s): Consent of Instructor. (P/NP grading only.) Effective: 1997 Winter Quarter.

POL 100—Local Government & Politics (4)

Lecture—3 hour(s); Term Paper/Discussion—1 hour(s). Prerequisite(s): POL 001 recommended. Politics and government of local communities in the United States, including cities, counties and special districts. Emphasizes sources and varieties of community conflict, legislative and executive patterns, expertise, decision making and the politics of structure. Observation of local governing boards. GE credit: ACGH, SS, WE. Effective: 2016 Spring Quarter.

POL 102—Urban Public Policy (4)

Lecture—3 hour(s); Term Paper/Discussion—1 hour(s). Prerequisite(s): Consent of Instructor. POL 001 recommended. Political and economic relationships among central cities, suburbs, and regional, state, and federal governments. Focuses upon policy areas such as poverty, transportation, welfare, and housing, and upon who governs and who benefits from the policies in these areas. GE credit: ACGH, DD, QL, SS, WE. Effective: 2016 Spring Quarter.

POL 104—California State Government & Politics (4)

Lecture—3 hour(s); Term Paper/Discussion—1 hour(s). Prerequisite(s): Consent of Instructor. POL 001 recommended. California political system. Political culture, constitution, elections and parties, direct democracy, legislature, governor, executive branch, courts, finances, state-local relations and policy issues. GE credit: ACGH, SS, WE. Effective: 2016 Spring Quarter.

POL 105—The Legislative Process (4)

Lecture—3 hour(s); Term Paper/Discussion—1 hour(s). Prerequisite(s): POL 001 recommended. Legislative process with emphasis on the United States Congress; legislative organization and procedures, legislative leadership and policy making, legislators and constituents, relations between Congress and other agencies. GE credit: ACGH, SS, WE. Effective: 2016 Spring Quarter.

POL 106—The Presidency (4)

Lecture—3 hour(s); Term Paper/Discussion—1 hour(s). Prerequisite(s): POL 001 recommended. American presidencies origins and development; presidential power and influence as manifest in relationships with Congress, courts, parties, and the public in the formulation and administration of foreign and domestic policy; nominations, campaigns, and elections. GE credit: ACGH, SS, WE. Effective: 2016 Spring Quarter.

POL 107—Environmental Politics & Administration (4)

Lecture—3 hour(s); Term Paper/Discussion—1 hour(s). Prerequisite(s): POL 001 recommended. Environment as a political issue in the United States. Development of administrative mechanisms for handling environmental problems. Changing role of Congress, the presidency, the bureaucracy and the courts in environmental policy formulation and implementation. GE credit: ACGH, QL, SS, WE. Effective: 2016 Spring Quarter.

POL 108—Policy Making in the Public Sector (4)

Lecture—3 hour(s); Term Paper/Discussion—1 hour(s). Prerequisite(s): Consent of Instructor. POL 001 recommended. Theoretical rationale for governmental activity, program evaluation, PPBS, positive theories of policy making, the quantitative study of policy determinants, implementation, and proposals for improved decision making. GE credit: ACGH, QL, SS, WE. Effective: 2016 Spring Quarter.

POL 109—Public Policy & the Governmental Process (4)

Lecture—3 hour(s); Term Paper/Discussion—1 hour(s). Prerequisite(s): POL 001 recommended. Processes of formulating public policy, including individual and collective decision making, political exchange, competition, bargaining, coalition formation and the allocation of public goods, resources and opportunities. GE credit: ACGH, QL, SS, WE. Effective: 2016 Spring Quarter.

POL 110—The Strategy of Politics (4)

Lecture—3 hour(s); Term Paper/Discussion—1 hour(s). Prerequisite(s): POL 001 recommended. Introduction to game theory. Explanation of the behavior of individuals in strategic interaction. Rational and behavioral approaches. Applications to political science and other fields. GE credit: QL, SS, WE. Effective: 2016 Spring Quarter.

POL 112—Contemporary Democratic Theory (4)

Lecture—3 hour(s); Term Paper/Discussion—1 hour(s). Prerequisite(s): POL 004 recommended. Major contemporary attempts to reformulate traditional democratic theory, attempts to replace traditional theory by conceptual models derived from modern social science findings. GE credit: AH, SS, WE. Effective: 2016 Spring Quarter.

POL 113—American Political Thought (4)

Lecture—3 hour(s); Term Paper/Discussion—1 hour(s). Prerequisite(s): POL 004 recommended. Origins and nature of American political thought. Principles of American thought as they emerge from the founding period to the present. GE credit: ACGH, AH, SS, WE. Effective: 2016 Spring Quarter.

POL 114—Quantitative Analysis of Political Data (4)

Lecture—3 hour(s); Term Paper/Discussion—1 hour(s). Prerequisite(s): POL 051 recommended. Logic and methods of analyzing quantitative political data. Topics covered include central tendency, probability, correlation, and non-parametric statistics. Particular emphasis will be placed on understanding the use of statistics in political science research. GE credit: AH, QL, SE, SS, VL, WE. Effective: 2016 Spring Quarter.

POL 115—Medieval Political Thought (4)

Lecture—3 hour(s); Term Paper. Prerequisite(s): POL 004 recommended. Examination of the ideas central to medieval political thinking. Emphasis will be upon the thoughts of the major political thinkers of the period, rather than upon political history. GE credit: AH, SS, WE. Effective: 2016 Spring Quarter.

POL 116—Foundations of Political Thought (4)

Lecture/Discussion—3 hour(s); Term Paper/Discussion—1 hour(s). Prerequisite(s): POL 004 recommended. Analysis and evaluation of the seminal works of a major political philosopher or of a major problem in political philosophy. May be repeated up to 1 time(s) when topic differs. GE credit: AH, SS, WC, WE. Effective: 2016 Spring Quarter.

POL 117—Topics in the History of Political Thought (4)

Lecture—3 hour(s); Term Paper/Discussion—1 hour(s). Prerequisite(s): POL 004 recommended. Political thought of a specific historical period. Topics may include: Ancient Athens, the Italian Renaissance, the Enlightenment, or 19th-century Germany. May be repeated up to 1 time(s) when topic differs. GE credit: SS, WE. Effective: 2016 Spring Quarter.

POL 118A—History of Political Theory: Ancient (4)

Lecture—3 hour(s); Term Paper/Discussion—1 hour(s). Prerequisite(s): POL 004 recommended. Critical analyses of classical and medieval political philosophers such as Plato, Aristotle, Cicero and St. Thomas. GE credit: AH, SS, WC, WE. Effective: 2016 Spring Quarter.

POL 118B—History of Political Theory: Early Modern (4)

Lecture—3 hour(s); Term Paper/Discussion—1 hour(s). Prerequisite(s): POL 004 recommended. Critical analysis of the works of early modern political philosophers such as Machiavelli, Montaigne, Hobbes, Locke and Hume. GE credit: AH, SS, WC, WE. Effective: 2016 Spring Quarter.

POL 118C—History of Political Theory: Late Modern (4)

Lecture—3 hour(s); Term Paper/Discussion—1 hour(s). Prerequisite(s): POL 004 recommended. Critical analyses of the works of late modern political philosophers such as Rousseau, Kant, Hegel, Tocqueville, Mill, Marx and Nietzsche. GE credit: AH, SS, WC, WE. Effective: 2016 Spring Quarter.

POL 119—Contemporary Political Thought (4)

Lecture—3 hour(s); Term Paper/Discussion—1 hour(s). Prerequisite(s): POL 004 recommended. Contemporary political thought from the end of the 19th century to the present. Emphasis upon an individual philosopher, concept, or philosophical movement; e.g., Nietzsche, Continental political thought, Rawls and critics, theories of distributive justice, feminist theory. GE credit: AH, SS, WC, WE. Effective: 2016 Spring Quarter.

POL 120—Theories of International Politics (4)

Lecture—3 hour(s); Term Paper/Discussion—1 hour(s). Prerequisite(s): Consent of Instructor. POL 003 recommended. Major contemporary approaches to the study of international politics, including balance of power, game theory, Marxist-Leninist theory, systems theory, and decision-making analysis. GE credit: SS, WE. Effective: 2016 Spring Quarter.

POL 121—Scientific Study of War (4)

Lecture—3 hour(s); Term Paper/Discussion—1 hour(s). Prerequisite(s): POL 003 recommended. Analysis of political processes involved in the initiation, conduct and termination of modern interstate warfare. GE credit: QL, SS, WE. Effective: 2016 Spring Quarter.

POL 122—International Law (4)

Lecture—3 hour(s); Term Paper/Discussion—1 hour(s). Prerequisite(s): POL 003 recommended. Selected topics in international law; territory, sovereign immunity, responsibility, the peaceful settlement or nonsettlement of international disputes. GE credit: SS, WE. Effective: 2016 Spring Quarter.

POL 123—The Politics of Interdependence (4)

Lecture—3 hour(s); Term Paper/Discussion—1 hour(s). Prerequisite(s): Consent of Instructor. POL 003 recommended. In the past several decades, growing economic interdependence has generated new problems in international relations. Deals with difficulties in managing complex interdependence and its implication on national policies and politics. GE credit: SS, WE. Effective: 2016 Spring Quarter.

POL 124—The Politics of Global Inequality (4)

Lecture—3 hour(s); Term Paper/Discussion—1 hour(s). Prerequisite(s): POL 003 recommended. Analysis of current economic and political international relations resulting from a long standing division of the global system into rich and poor regions. GE credit: SS, WC, WE. Effective: 2016 Spring Quarter.

POL 126—Ethnic Self-Determination & International Conflict (4)

Lecture—3 hour(s); Term Paper/Discussion—1 hour(s). Prerequisite(s): POL 003 recommended. Compares the claims of the state and ethnic peoples in countries undergoing internal conflicts; e.g., South Africa, Northern Ireland. Analyzes the role of the international community in facilitating the peaceful resolution of conflicts. GE credit: SS, WC, WE. Effective: 2016 Spring Quarter.

POL 129—Special Studies in International Politics (4)

Lecture—3 hour(s); Term Paper. Prerequisite(s): POL 003 recommended. Intensive examination of one or more special problems in international politics. May be taught abroad. May be repeated up to 1 time(s) when topic differs. GE credit: SS, WE. Effective: 2016 Spring Quarter.

POL 130—Recent U.S. Foreign Policy (4)

Lecture—3 hour(s); Term Paper/Discussion—1 hour(s). Prerequisite(s): Consent of Instructor. POL 003 recommended. Broad survey of the development of U.S. foreign policy in 20th century with emphasis on transformation of policy during and after World War II, and the introduction to analytic tools and concepts useful for understanding of current foreign policy issues. GE credit: ACGH, SS, WE. Effective: 2016 Spring Quarter.

POL 131—Analysis of U.S. Foreign Policy (4)

Lecture—3 hour(s); Term Paper. Prerequisite(s): Consent of Instructor. POL 003 recommended. Detailed presentation and examination of the formulation of execution of U.S. foreign policy. Survey of numerous factors influencing policy outcomes and how such determinants vary according to policy issue areas. GE credit: SS, WE. Effective: 2016 Spring Quarter.

POL 132—National Security Policy (4)

Lecture—3 hour(s); Term Paper/Discussion—1 hour(s). Prerequisite(s): POL 003 recommended. Development of national security policies since 1945. Analysis of deterrence and assumptions upon which it is based. Effects of nuclear weapons upon conduct of war, alliance systems, and the international system. Prospects of security and stability through arms control. GE credit: SS, WE. Effective: 2016 Spring Quarter.

POL 134—Africa & U.S. Foreign Policy (4)

Lecture—3 hour(s); Discussion—1 hour(s). Prerequisite(s): Consent of Instructor. POL 003 recommended. Overview of American foreign policy toward Africa. Relationship to global adversaries. Legacies of colonialism. Challenge of national self-determination and white racism. Policies on non-alignment, producer cartels, multinational corporations, continental integration and trade and aid relations. Effective: 2016 Spring Quarter.

POL 135—International Politics of the Middle East (4)

Lecture—3 hour(s); Term Paper/Discussion—1 hour(s). Prerequisite(s): Consent of Instructor. POL 003 recommended. International politics of the Middle East as a microcosm of world politics. The Middle East as a regional system. Domestic and International Politics in the Middle East. Changing Political Structures in the Middle East. Superpower involvement in the Middle East. GE credit: SS, WE. Effective: 2016 Spring Quarter.

POL 136—The Arab-Israeli Conflict (4)

Lecture—3 hour(s); Term Paper/Discussion—1 hour(s). Prerequisite(s): POL 003 recommended. Causes, course, and implications of Arab-Israeli conflict. Competing Israeli and Arab narratives, politics of force, diplomacy. Domestic politics and A-I conflict, the superpowers and the A-I conflict, A-I conflict and world politics, potential solutions. GE credit: SS, WE. Effective: 2016 Spring Quarter.

POL 137—International Relations in Western Europe (4)

Lecture—3 hour(s); Term Paper/Discussion—1 hour(s). Prerequisite(s): POL 003 recommended. Analysis of European unity, problems of the Atlantic alliance, Atlantic political economy, East-West relations, communism in Western Europe and the relationship between domestic politics and foreign policy. May be taught abroad. GE credit: SS, WC, WE. Effective: 2016 Spring Quarter.

POL 139—Special Studies in Foreign Policy (4)

Lecture—3 hour(s); Term Paper. Prerequisite(s): Consent of Instructor. POL 003 recommended. Extensive examination of one or more special problems in foreign policy. May be repeated up to 1 time(s) when topic differs. Effective: 2016 Spring Quarter.

POL 140A—Comparative Political Institutions: Electoral Systems (4)

Lecture—3 hour(s); Term Paper/Discussion—1 hour(s). Prerequisite(s): POL 002 recommended. Workings of electoral institutions, focusing on systems used to elect presidents and assemblies, pass laws, and generally make decisions. Examples from systems throughout the world, including cases from both the advanced industrial and developing worlds. GE credit: QL, SS, WE. Effective: 2016 Spring Quarter.

POL 140B—Comparative Political Institutions: Parties (4)

Lecture—3 hour(s); Term Paper/Discussion—1 hour(s). Prerequisite(s): Consent of Instructor. POL 002 recommended. Factors shaping political parties and their role in democratic representation. GE credit: SS, WE. Effective: 2016 Spring Quarter.

POL 140C—Comparative Political Institutions: Legislatures (4)

Lecture—3 hour(s); Term Paper/Discussion—1 hour(s). Prerequisite(s): Consent of Instructor. POL 002 recommended. Examination of legislatures from a comparative perspective. GE credit: SS, WE. Effective: 2016 Spring Quarter.

POL 140D—When Institutions Fail (4)

Lecture—3 hour(s); Term Paper/Discussion—1 hour(s). Prerequisite(s): POL 002 recommended. Examination of factors contributing to the success and failure of political institutions. GE credit: QL, SS, WE. Effective: 2016 Spring Quarter.

POL 140E—Policy-Making Processes (4)

Lecture—3 hour(s); Term Paper/Discussion—1 hour(s). Prerequisite(s): POL 002 recommended. Comparative analysis of policy-making in the U.S. and other countries. GE credit: QL, SS, WE. Effective: 2016 Spring Quarter.

POL 142A—Comparative Development: Political Development in Modernizing Societies (4)

Lecture—3 hour(s); Term Paper/Discussion—1 hour(s). Prerequisite(s): Consent of Instructor. POL 002 recommended. Nature and sequence of political development; its economic and social concomitants; role of elites, military, bureaucracy, and party systems; social stratification and group politics; social mobilization and political participation; instability, violence, and the politics of integration. GE credit: SS, WC, WE. Effective: 2016 Spring Quarter.

POL 142B—Comparative Development: Politics & Inequality (4)

Lecture—3 hour(s); Term Paper/Discussion—1 hour(s). Prerequisite(s): Consent of Instructor. POL 002 recommended. Linkages between politics and the distribution of social and economic goods. Impact of civil rights legislation, the politics of welfare states, and the effects of political participation on the distribution of goods. GE credit: SS, WC, WE. Effective: 2016 Spring Quarter.

POL 142C—Comparative Political Development: Democracy & Democratization (4)

Lecture—3 hour(s); Term Paper/Discussion—1 hour(s). Prerequisite(s): POL 002 recommended. Examination of conditions promoting democratization and democratic stability. GE credit: SS, WE. Effective: 2016 Spring Quarter.

POL 143A—Latin American Politics (4)

Lecture—3 hour(s); Term Paper/Discussion—1 hour(s). Prerequisite(s): POL 002 recommended. Issues related to democratic consolidation in Latin America, with a regional focus on South America. Topics include transitions to democracy, the role of the military, political economy, and political behavior. GE credit: SS, WC, WE. Effective: 2016 Spring Quarter.

POL 143B—Mexican Politics (4)

Lecture—3 hour(s); Term Paper/Discussion—1 hour(s). Prerequisite(s): POL 002 recommended. Introduction to the politics of contemporary Mexico. Focus on rise, fall, and aftermath of Mexico's one-party dominant system. GE credit: SS, WC, WE. Effective: 2016 Spring Quarter.

POL 144A—Politics of Post-Communist Countries: East European Politics (4)

Lecture—3 hour(s); Term Paper/Discussion—1 hour(s). Prerequisite(s): POL 002 recommended. Post-war democratization, state-building and economic reform in East European states. GE credit: SS, WC, WE. Effective: 2016 Spring Quarter.

POL 144B—Politics of Post-Communist Countries: Russia (4)

Lecture—3 hour(s); Term Paper/Discussion—1 hour(s). Prerequisite(s): POL 002 recommended. Democratization, state-building and economic reform; creation of new institutions; impacts of Soviet rule. GE credit: SS, WC, WE. Effective: 2016 Spring Quarter.

POL 145B—Politics in Israel (4)

Term Paper; Lecture—3 hour(s). Pass One restricted to Political Science, Political Science-Public Service, and International Relations majors. Introduction to the domestic politics of Israel in comparative perspective, including issues of internal cultural diversity, religion and politics, fragmentation of the political party system, and coalition governance. GE credit: SS, WC. Effective: 2019 Spring Quarter.

POL 146A—Politics of Africa: Issues in Contemporary African Politics (4)

Lecture—3 hour(s); Term Paper/Discussion—1 hour(s). Prerequisite(s): POL 002 recommended. African politics since the end of the Cold War. Topics include: Strategic Security Approach, Democratization, Human Rights, HIV/AIDS, African Peacekeeping, Terrorism, Religious and Ethnic Conflict, Debt and Stalled Development. GE credit: SS, WC, WE. Effective: 2016 Spring Quarter.

POL 146B—Politics of Africa: Development in Africa (4)

Lecture—3 hour(s); Term Paper/Discussion—1 hour(s). Prerequisite(s): POL 002 recommended. Political and economic development within Sub-Saharan Africa. States and institutions, democracy, party systems, military coups/rule, bureaucracy/corruption, race/ethnicity, national/regional integrations, trade unions, economic development strategies, class formation, and women's roles and ideology. GE credit: SS, WC, WE. Effective: 2016 Spring Quarter.

POL 147A—West European Politics (4)

Lecture—3 hour(s); Term Paper/Discussion—1 hour(s). Prerequisite(s): Consent of Instructor. POL 002 recommended. Evolution, politics, and contemporary problems of selected political systems of Western Europe. May be taught abroad. GE credit: SS, WC, WE. Effective: 2016 Spring Quarter.

POL 147B—West European Politics: British Politics (4)

Lecture—3 hour(s); Term Paper/Discussion—1 hour(s). Prerequisite(s): Consent of Instructor. POL 002 recommended. Evolution, politics, and contemporary problems of Britain's political system. GE credit: SS, WC, WE. Effective: 2016 Spring Quarter.

POL 147C—West European Politics: French Politics (4)

Lecture—3 hour(s); Term Paper/Discussion—1 hour(s). Prerequisite(s): Consent of Instructor. POL 002 recommended. Evolution, politics and contemporary problems of France's political system. GE credit: SS, WC, WE. Effective: 2016 Spring Quarter.

POL 147D—West European Politics: German Politics (4)

Lecture—3 hour(s); Term Paper/Discussion—1 hour(s). Prerequisite(s): POL 002 recommended. Evolution, politics and contemporary problems of Germany's political system. GE credit: SS, WC, WE. Effective: 2016 Spring Quarter.

POL 148A—Government & Politics of East Asia: China (4)

Lecture—3 hour(s); Term Paper/Discussion—1 hour(s). Prerequisite(s): POL 002 recommended. Evolution of political institutions and political culture in China with emphasis on the post-1949 period. Primary attention to nationalism, modernization and political efficacy. GE credit: SS, WC, WE. Effective: 2016 Spring Quarter.

POL 148B—Government & Politics in East Asia: Japan (4)

Lecture—3 hour(s); Term Paper/Discussion—1 hour(s). Prerequisite(s): POL 002 recommended. Japanese politics, with an emphasis on the postwar period. Particular emphasis on political parties, elections, political economy, and social problems. GE credit: SS, WC, WE. Effective: 2016 Spring Quarter.

POL 148C—Government & Politics in East Asia: Southeast Asia (4)

Lecture—3 hour(s); Term Paper/Discussion—1 hour(s). Prerequisite(s): POL 002 recommended. Evolution of political institutions and economy of selected nations in Southeast Asia. Emphasis on imperialist legacy, nation building in multi-ethnic communities, and contrasts in economic performance. GE credit: SS, WC, WE. Effective: 2016 Spring Quarter.

POL 150—Judicial Politics & Constitutional Interpretation (4)

Lecture—3 hour(s); Term Paper/Discussion—1 hour(s). Prerequisite(s): POL 001 recommended. Politics of judicial policy making, issues surrounding constitutional interpretation and decision making, prerequisite for courses on the politics of constitutional law. GE credit: ACGH, DD, SS, WE. Effective: 2016 Spring Quarter.

POL 151—Constitutional Politics of the First Amendment & the Right to Privacy. (4)

Lecture—3 hour(s); Term Paper/Discussion—1 hour(s). Prerequisite(s): POL 001 recommended. Constitutional politics surrounding such issues as the right to free expression, associational rights, the right to free exercise of religious beliefs and the right to privacy. GE credit: ACGH, DD, SS, WE. Effective: 2016 Spring Quarter.

POL 152—The Constitutional Politics of the Equality (4)

Lecture—3 hour(s); Term Paper/Discussion—1 hour(s). Prerequisite(s): POL 001 recommended. Constitutional politics of equality in the American political system; issues surrounding constitutional doctrine and judicial policymaking; special attention on racial and sexual equality. GE credit: ACGH, DD, SS, WE. Effective: 2016 Fall Quarter.

POL 153—The Constitutional Politics of the Justice System (4)

Lecture—3 hour(s); Term Paper/Discussion—1 hour(s). Prerequisite(s): POL 001 recommended. Constitutional politics of the American criminal justice system. Issues surrounding constitutional doctrine and judicial policymaking on issues such as search and seizure. Arrest, trial, incarceration and other issues of due process. GE credit: ACGH, DD, SS, WE. Effective: 2016 Spring Quarter.

POL 154—Legal Philosophy (4)

Lecture—3 hour(s); Term Paper/Discussion—1 hour(s). Prerequisite(s): POL 001 recommended. Analysis of the nature and functions of law; law as an instrument of social control and the relationship between law and morality. GE credit: SS, WE. Effective: 2016 Spring Quarter.

POL 155—Judicial Process & Behavior (4)

Lecture—3 hour(s); Term Paper/Discussion—1 hour(s). Prerequisite(s): POL 001 recommended. Analysis of the behavior of judges and courts in the political process. Techniques of judicial decision making. Relationships among courts and other decision-making bodies. GE credit: ACGH, SS, WE. Effective: 2016 Spring Quarter.

POL 160—American Political Parties (4)

Lecture—3 hour(s); Term Paper/Discussion—1 hour(s). Prerequisite(s): POL 001 recommended. Analysis of the structured operations of the party system in the United States; party functions and organizations, nomination processes, campaigns and elections, party trends and reforms. GE credit: ACGH, DD, QL, SS, WE. Effective: 2016 Fall Quarter.

POL 161—Ballots, Bucks, & Maps: The Rules of the Electoral Game in American Politics (4)

Lecture—3 hour(s); Term Paper/Discussion. Analysis of laws and court cases on the organization and administration of elections in the United States. Topics include campaign finance, redistricting, voting rights, race & representation, and comparisons with other democracies. GE credit: ACGH, DD, SS. Effective: 2019 Fall Quarter.

POL 162—Elections & Voting Behavior (4)

Lecture—3 hour(s); Term Paper/Discussion—1 hour(s). Prerequisite(s): POL 001 recommended. Analysis of American elections and partisan behavior; political socialization, political participation, partisanship and individual and group determinants of voting. GE credit: ACGH, DD, SS, WE. Effective: 2016 Spring Quarter.

POL 163—Group Politics (4)

Lecture—3 hour(s); Term Paper/Discussion—1 hour(s). Prerequisite(s): POL 001 recommended. Groups, institutions and individuals, especially in American politics. Historical and analytical treatment of group theories as applied to interest groups (especially labor, business, agriculture, science, military); to racial, ethnic and sectional groups; to parties, public and legislative groups, bureaucracies. GE credit: ACGH, DD, SS, WE. Effective: 2016 Spring Quarter.

POL 164—Public Opinion (4)

Lecture—3 hour(s); Term Paper/Discussion—1 hour(s). Prerequisite(s): Consent of Instructor. POL 001 recommended. Nature of public opinion in America as it is supposed to be and as it is. Distribution of opinions among different publics and the significance of that distribution for system stability and institutions. Opinion polling and its problems. GE credit: ACGH, DD, SS, WE. Effective: 2016 Spring Quarter.

POL 165—Mass Media & Politics (4)

Lecture—3 hour(s); Term Paper/Discussion—1 hour(s). Prerequisite(s): POL 001 recommended. Organization of and decision making within the media; media audiences and the effect of the media on attitudes and behavior; the relationship of the government to the media (censorship, secrecy, freedom of the press, government regulation); the media in election campaigns. GE credit: SS, WE. Effective: 2016 Spring Quarter.

POL 166—Women in Politics (4)

Lecture—3 hour(s); Discussion—1 hour(s); Seminar—1 hour(s). Prerequisite(s): POL 001 recommended. Role of women in American politics. Historical experiences; contemporary organizations and strategies; areas of legislative concern; the impact of differences in social class, race, and ethnicity upon the involvement of women in politics. GE credit: ACGH, DD, SS, WE. Effective: 2016 Fall Quarter.

POL 168—Chicano Politics (4)

Lecture—3 hour(s); Term Paper/Discussion—1 hour(s). Prerequisite(s): POL 001 recommended. Political aspects of Chicano life in America; examines the Chicano's political role as it has been historically defined by different groups in society and the Chicano's responses to his/her political environment. GE credit: ACGH, DD, SS, WE. Effective: 2016 Spring Quarter.

POL 170—Political Psychology (4)

Lecture—3 hour(s); Term Paper/Discussion—1 hour(s). Prerequisite(s): POL 001 recommended. Overview to the growing literature on political psychology. Introduction to how psychological concepts (personality, attitudes, stereotypes, heuristics, affect, identity, group dynamics) help us understand how citizens think about politics. GE credit: SS, WE. Effective: 2016 Spring Quarter.

POL 171—The Politics of Energy (4)

Lecture—3 hour(s); Term Paper/Discussion—1 hour(s). Prerequisite(s): POL 001 recommended. Nature and performance of political processes for making energy choices at the international, national and state levels. Interaction of energy policy with other political goals and the ability of governmental institutions to overcome constraints on policy innovation. GE credit: SS, WE. Effective: 2016 Spring Quarter.

POL 172—American Political Development (4)

Lecture—3 hour(s); Term Paper/Discussion—1 hour(s). Prerequisite(s): POL 001 recommended. Systematic analysis of contemporary issues in American political development: historical determinants of political change; the timing and character of institutional development; conditions for successful political action. Democratization, cultural change, party formation, state-building, constitutionalism, race relations. GE credit: ACGH, DD, SS, WE. Effective: 2016 Spring Quarter.

POL 174—Government & the Economy (4)

Lecture—3 hour(s); Term Paper/Discussion—1 hour(s). Prerequisite(s): POL 001 recommended. Political basis of economic policy (taxation, spending and regulation); impact of prices, employment and growth on political demands; elite responses to economic conditions; policy alternatives and the public interest. GE credit: SS, WE. Effective: 2016 Spring Quarter.

POL 175—Science, Technology, & Policy (4)

Lecture—3 hour(s); Term Paper/Discussion—1 hour(s). Prerequisite(s): Consent of Instructor. POL 001 recommended. Analysis of policymaking for science and the use of scientific expertise for making decisions about technology. Topics include funding of basic research, relationship of science to technological development, science and military policy, technological risks, technology assessment and scientists and politics. GE credit: QL, SS, WE. Effective: 2016 Spring Quarter.

POL 176—Racial Politics (4)

Lecture—3 hour(s); Term Paper/Discussion—1 hour(s). Prerequisite(s): POL 001 recommended. Race, racial attitudes and racial policies in the United States with a specific emphasis on African Americans. GE credit: ACGH, DD, SS, WE. Effective: 2016 Spring Quarter.

POL 179—Special Studies in Comparative Politics (4)

Lecture—3 hour(s); Term Paper/Discussion—1 hour(s). Prerequisite(s): Consent of Instructor. POL 002 recommended. Intensive examination of one or more special problems appropriate to comparative politics. Coverage is given to formal and informal political institutions, economically developing and developed countries, and non-democratic, democratic, and democratizing countries. May be repeated up to 1 time(s). GE credit: SS, WE. Effective: 2016 Spring Quarter.

POL 180—Bureaucracy in Modern Society (4)

Lecture—3 hour(s); Term Paper/Discussion—1 hour(s). Prerequisite(s): Consent of Instructor. POL 001 or POL 002 recommended. Role of bureaucracy in a complex society, with emphasis upon changing relationships between government and the economy; consequences of rapid technological and social change for bureaucratic structures and processes; the problems of reconciling expertise and democracy and increasing the responsiveness of public bureaucracy. GE credit: ACGH, SS, WE. Effective: 2016 Spring Quarter.

POL 183—Administrative Behavior (4)

Lecture—3 hour(s); Term Paper/Discussion—1 hour(s). Prerequisite(s): POL 001 recommended. Implications for American public administration of evolving concepts about behavior in organizations. GE credit: ACGH, SS, WE. Effective: 2016 Spring Quarter.

POL 187—Administrative Theory (4)

Lecture—3 hour(s); Term Paper/Discussion—1 hour(s). Prerequisite(s): POL 004 recommended. Historical and critical analysis of the principal theories of organization and management of public agencies in light of such concepts as decision making, bureaucracy, authority and power, communication and control; examination of role of government bureaucracies in the total society. GE credit: SS, WE. Effective: 2016 Spring Quarter.

POL 190—International Relations (4)

Lecture—3 hour(s); Term Paper/Discussion—1 hour(s). Prerequisite(s): Consent of Instructor. POL 003 recommended. Analysis and evaluation of substantive issues in contemporary international relations. Readings drawn from current academic and non-academic periodicals. May be taught abroad. GE credit: SS, WE. Effective: 2016 Fall Quarter.

POL 192A—Internship in Public Affairs (5)

Variable. Prerequisite(s): Enrollment dependent on availability of intern positions with highest priority assigned to students with Political Science Public Service major; upper division standing. Supervised internship and study in political, governmental, or related organizations. (P/NP grading only.) GE credit: ACGH, SS, WE. Effective: 1997 Winter Quarter.

POL 192B—Internship in Public Affairs (5)

Variable. Prerequisite(s): POL 192A; Enrollment dependent on availability of intern positions with highest priority assigned to students with Political Science-Public Service major; upper division standing. Supervised internship and study in political, governmental, or related organizations. (P/NP grading only.) GE credit: ACGH, SS, WE. Effective: 1997 Winter Quarter.

POL 193—Research in Practical Politics (2)

Project (Term Project)—6 hour(s). Prerequisite(s): POL 192A; POL 192B; Open only to Political Science-Public Service majors, for whom it is required. Supervised preparation of an extensive paper relating internship experience to concepts, literature, and theory of political science. GE credit: SS, WE. Effective: 1997 Winter Quarter.

POL 193W—Washington Center Research Seminar (4)

Lecture/Discussion—1 hour(s); Independent Study—3 hour(s); Tutorial—0.5 hour(s). Prerequisite(s): POL 192W (can be concurrent); POL 192W required concurrently. Core academic component of Washington Program. Topics coordinated with internships. Research draws on resources uniquely available in Washington, DC. Supervised preparation of extensive paper. (Same course as WAS 193.) GE credit: OL, SS, WE. Effective: 2002 Spring Quarter.

POL 194HA—Special Study for Honors Students (4)

Seminar—2 hour(s); Independent Study—2 hour(s). Prerequisite(s): Major in Political Science with upper division standing and a GPA of 3.500 in the major. Directed reading, research and writing culminating in preparation of a senior honors thesis under the direction of faculty advisor. GE credit: OL, SS, VL, WE. Effective: 2002 Fall Quarter.

POL 194HB—Special Study for Honors Students (4)

Seminar—2 hour(s); Independent Study—2 hour(s). Prerequisite(s): Major in Political Science with upper division standing and a GPA of 3.500 in the major. Directed reading, research and writing culminating in preparation of a senior honors thesis under the direction of faculty advisor. GE credit: OL, SS, VL, WE. Effective: 2002 Fall Quarter.

POL 195—Special Studies in American Politics (4)

Seminar—4 hour(s). Prerequisite(s): Consent of Instructor. Upper division standing. Intensive examination of one or more special problems appropriate to American politics. May be repeated up to 1 time(s) when topic differs. GE credit: ACGH, SS, WE. Effective: 1997 Winter Quarter.

POL 196A—Seminar in American Politics (4)

Seminar—3 hour(s); Term Paper—1 hour(s). Prerequisite(s): Upper division Political Science majors or consent of instructor. Intensive reading, discussion, research, writing in American politics. Topics may include Congress, the Presidency, the Supreme Court, federalism, voting behavior, interest groups, ethnic groups or other topics with a more specialized content than normal course offerings. May be repeated up to 1 time(s) when topic differs. GE credit: ACGH, SS, WE. Effective: 2002 Fall Quarter.

POL 196B—Seminar in Comparative Politics (4)

Seminar—3 hour(s); Term Paper—1 hour(s). Prerequisite(s): Upper division Political Science majors or consent of instructor. Intensive reading, discussion, research, writing in comparative politics. Topics may include one country or geographical area, political institutions or behavior across countries, political development, or other topics that are more specialized than normal course offerings. May be repeated up to 1 time(s) when topic differs. GE credit: SS, WE. Effective: 2002 Fall Quarter.

POL 196C—Seminar in International Relations (4)

Seminar—3 hour(s); Term Paper—1 hour(s). Prerequisite(s): Upper division Political Science majors or consent of instructor. Intensive reading, discussion, research, writing in international relations including study of international political institutions (UN, EU, or NATO) or interstate relations (war, trade, immigration) and other topics with more specialized content than normal course offerings. May be repeated up to 1 time(s) when topic differs. GE credit: SS, WE. Effective: 2002 Fall Quarter.

POL 196D—Seminar in Political Theory (4)

Seminar—3 hour(s); Term Paper—1 hour(s). Prerequisite(s): Upper division Political Science majors or consent of instructor. Intensive reading, discussion, research, writing in political theory. Topics may include study of a single political thinker, a group of related thinkers, development of political concepts, or other topics with more specialized content than normal course offerings. May be repeated up to 1 time(s) when topic differs. GE credit: SS, WE. Effective: 2002 Fall Quarter.

POL 196E—Seminar in Research Methods (4)

Seminar—3 hour(s); Term Paper—1 hour(s). Prerequisite(s): Upper division Political Science majors or consent of instructor. Intensive reading, discussion, research, and writing in selected topics in Research Methods such as research design, statistics, game theory, etc. May be repeated up to 1 time(s) when topic differs. GE credit: QL, SS, VL, WE. Effective: 2002 Fall Quarter.

POL 198—Directed Group Study (1-5)

Variable. Prerequisite(s): Consent of Instructor. (P/NP grading only.) Effective: 1997 Fall Quarter.

POL 199—Special Study for Advanced Undergraduates (1-5)

Variable. (P/NP grading only.) Effective: 1997 Winter Quarter.

POL 201—Urban Government & Politics (4)

Seminar—4 hour(s). Survey and analysis of the literature in the field of local government and politics in the United States. Approaches to the study of political reform, local autonomy, community power, representation, expertise, service delivery, policy making and political change. Effective: 1997 Winter Quarter.

POL 202—American State Government & Politics (4)

Seminar—4 hour(s). Survey and analysis of the literature in the field of state government, politics, and policy. Approaches to the study of the American states as political systems, including their governing institutions and processes and their role in the Federal system. Effective: 1997 Winter Quarter.

POL 203A—American Government: The Presidency (4)

Seminar—3 hour(s); Term Paper. Restricted to graduate students only. Thorough overview of the current research on political executives, with particular emphasis on the American presidency. Two principal goals: the development of important and innovative student research programs; and adequate preparation for qualifying examinations. Effective: 2011 Spring Quarter.

POL 203B—American Government: Congress (4)

Seminar—3 hour(s); Term Paper. Restricted to graduate students only. Thorough overview of the current research on Congress, with particular emphasis on political representation. Two principal goals: the development of important and innovative student research programs; and adequate preparation for qualifying examinations. Effective: 2011 Spring Quarter.

POL 203C—American Government: Courts (4)

Seminar—4 hour(s). Survey and analysis of the literature in the field of American government with a focus on courts. Emphasis on the development and testing of theories of behavior and processes. Effective: 1997 Winter Quarter.

POL 207—Environmental Public Policy (4)

Seminar—4 hour(s). Analysis of the interface between the world of academic reflection about ecological and environmental problems and the world of political action. Evaluation of alternative approaches to policy analysis and recommendation. Individual research, including field research, will parallel discussion of the literature. Effective: 1997 Winter Quarter.

POL 208—Policy Analysis (4)

Seminar—4 hour(s). Social science techniques applied to public policy formation and evaluation. Effective: 1997 Winter Quarter.

POL 209—The American Political System (4)

Seminar—3 hour(s); Term Paper. Restricted to graduate students only. Analysis of selected theoretical and empirical issues posed by contemporary research in American government and politics. Effective: 2011 Spring Quarter.

POL 210—Research Design in Political Science (4)

Seminar—3 hour(s); Discussion/Laboratory—1 hour(s). Prerequisite(s): Graduate standing. Introduction to philosophy of science and research design for political science. Topics include: logic of empirical research, overview of research design approaches for political science research. Effective: 2006 Winter Quarter.

POL 211—Research Methods in Political Science (4)

Seminar—3 hour(s); Discussion/Laboratory—1 hour(s). Prerequisite(s): Graduate standing. Pass One open to graduate majors; Pass Two open to graduate students. Introductory seminar on the foundations of probability theory and mathematical statistics that are critical to empirical investigations in political science. Effective: 2015 Winter Quarter.

POL 212—Quantitative Analysis in Political Science I (4)

Seminar—3 hour(s); Discussion/Laboratory—1 hour(s). Prerequisite(s): POL 211. Pass One open to graduate majors; Pass Two open to graduate students. Seminar provides an introduction to the linear regression model. Will obtain a working knowledge of basic regression techniques and problems. Effective: 2015 Winter Quarter.

POL 213—Quantitative Analysis in Political Science II (4)

Seminar—3 hour(s); Term Paper. Prerequisite(s): POL 211; POL 212. Pass One open to graduate majors; pass 2 open to graduate students. More advanced topics in the use of statistical methods, with emphasis on political applications. Topics include: properties of least squares estimates, problems in multiple regression, and advanced topics (probit analysis, simultaneous models, time-series analysis, etc.). Effective: 2011 Fall Quarter.

POL 214A—Research in Political Science (4)

Discussion—2 hour(s); Lecture—1 hour(s); Term Paper. Prerequisite(s): POL 213. Advanced level graduate students in the Department of Political Science only. Research seminar sequence required of all PhD students. Design, execution, and defense of an original piece of research in political science, culminating in a paper of publishable quality. Effective: 2004 Spring Quarter.

POL 214B—Research in Political Science (4)

Discussion—2 hour(s); Lecture—1 hour(s); Term Paper. Prerequisite(s): POL 212; POL 214A. Advanced level graduate students in the Department of Political Science only. Research seminar sequence required of all PhD students. Design, execution, and defense of an original piece of research in political science, culminating in a paper of publishable quality. Effective: 2006 Winter Quarter.

POL 215—Introduction to Modeling Political Behavior (4)

Seminar—3 hour(s); Term Paper. Prerequisite(s): POL 211; POL 212. Pass One open to graduate majors; pass 2 open to graduate students. Introduction to formal and game theoretic analyses of politics. Students will learn basic game theory and modeling skills. We examine the benefits of modeling, and look at examples of formal analysis in a variety of political science sub-fields. Effective: 2011 Fall Quarter.

POL 216—Qualitative Research Methods (4)

Seminar—3 hour(s); Term Paper—1 hour(s). Methodology for utilizing theoretically-oriented case studies and controlled comparison of a small number of cases to develop and test theories. Examination of how the case study method compliments experimental, statistical and deductive modes of research. Effective: 2000 Winter Quarter.

POL 217—Social Choice Theory & Spatial Modeling (4)

Seminar—4 hour(s). Introduction to social choice theory and formal spatial modeling including Arrows Theorem, the paradox of voting, cycling and agenda control. Focus on mastering modeling techniques as well as interpretation of classic works. Effective: 1998 Winter Quarter.

POL 218—Topics in Political Theory (4)

Seminar—3 hour(s); Term Paper. Topics vary and may be the work of a single theorist, time period, or political concept, such as justice. May be repeated up to 3 time(s) when topic differs. Effective: 2011 Fall Quarter.

POL 219A—Political Theory Sequence (4)

Seminar—3 hour(s); Term Paper. Survey of the great works in ancient and medieval political theory including such writers as Plato, Aristotle, Cicero, St. Augustine, Aquinas, Alfarabi and Marsilius. Discussions of various interpretations of these authors. May be repeated for credit when topic differs. Effective: 2018 Fall Quarter.

POL 219B—Political Theory Sequence (4)

Seminar—3 hour(s); Term Paper. Survey of the great works in early modern to contemporary political theory including such writers as Machiavelli, Hobbes, Locke, Rousseau, Marx, Mill, Nietzsche, and Rawls. Discussion of various interpretations of these authors. May be repeated for credit when topic differs. Effective: 2018 Fall Quarter.

POL 219C—Contemporary Political Theory (4)

Seminar—3 hour(s); Term Paper—1 hour(s). Survey of important works in contemporary political theory including such writers as Nietzsche, Heidegger, Arendt, Rawls, Nozick, Sandel. May be repeated for credit when topic differs. Effective: 2004 Fall Quarter.

POL 220—Seminar in Political Theory (4)

Seminar—3 hour(s); Term Paper. Prerequisite(s): Graduate standing. Open to graduate students only. Introduction to political theory and current debates over its study. Readings from and textual interpretations of political theory including the Federalist Papers and major works by thinkers such as Plato, Aristotle, Machiavelli, Hobbes, Locke, Rousseau, and Rawls. Other readings addressing issues of textual interpretation. Effective: 2003 Fall Quarter.

POL 223—International Relations (4)

Seminar—3 hour(s); Term Paper. Effective: 1997 Winter Quarter.

POL 225—The International System (4)

Seminar—3 hour(s); Term Paper. Analysis of the international system by means of theory formulation and integration; critique of research designs; use of various techniques of data generation and analysis. Effective: 1997 Winter Quarter.

POL 226—Seminar in International Political Economy (4)

Seminar—3 hour(s); Term Paper. Restricted to graduate students. Research in international political economy. Structure of the global economy, as well as specific dimensions of international economic relations, including trade, capital flows, global production structures, and migration. Effective: 2011 Spring Quarter.

POL 230—American Foreign Policy (4)

Seminar—3 hour(s); Term Paper. Effective: 1997 Winter Quarter.

POL 231—U.S. Political Culture & Foreign Relations (4)

Seminar—3 hour(s); Term Paper. Relates U.S. political culture to formulation of foreign policy. Analyzes American ideological preferences in historical perspective, contemporary public opinion, decision making and implementation. Concludes by examining linkages between foreign policy behavior and democratic process. Effective: 1997 Winter Quarter.

POL 241—Communist Political Systems (4)

Seminar—4 hour(s). Prerequisite(s): or Consent of Instructor. Or the equivalent. Systematic analysis of selected topics dealing with the political process of communist political systems. Effective: 1997 Winter Quarter.

POL 242—Seminar in Comparative Politics (4)

Seminar—3 hour(s); Term Paper. Prerequisite(s): Graduate standing or consent of instructor. Systematic survey of theories and methods used in the study of comparative politics. Effective: 1997 Winter Quarter.

POL 243—Comparative Institutional Change (4)

Seminar—3 hour(s); Term Paper. Restricted to graduate students. Comparison of institutional changes in countries of the former Soviet Union and Eastern Europe during the period of transition to democracy. Special attention to institutions of mass representation; electoral and party systems and national legislatures. Effective: 2011 Spring Quarter.

POL 246—Policymaking in Third-World Societies (4)

Seminar—3 hour(s). Prerequisite(s): Graduate standing or consent of instructor. Included in an analysis of policymaking process in Third-World countries are such topics as political resources, institutional resources, decision making, resource allocations, planning, and budgeting, implementation, and distribution of world resources. Effective: 1997 Winter Quarter.

POL 250—Policy Development & Impact in U.S. Courts (4)

Seminar—3 hour(s); Term Paper. Prerequisite(s): Graduate standing. Thorough overview of the literature regarding courts as policymaking institutions of government, with emphasis on the formation and implementation of judicial policy. Differences and similarities across the judicial, congressional, and executive branch policy processes. Effective: 1997 Winter Quarter.

POL 260—Political Parties (4)

Seminar—3 hour(s); Term Paper. Survey of selected topics in American and comparative parties. Effective: 1997 Winter Quarter.

POL 261—Political Behavior (4)

Seminar—3 hour(s); Term Paper. Survey of selected topics in political behavior and public opinion. May be repeated up to 3 time(s) when topic differs. Effective: 2011 Fall Quarter.

POL 274—Political Economy (4)

Seminar—3 hour(s); Term Paper. Restricted to graduate students. Politics of economic policy as reflected in taxation, spending and regulation; impact of prices, employment, and growth on political demands; government responses to economic conditions; electoral politics and the political business cycle. Effective: 2011 Spring Quarter.

POL 279—Political Networks: Methods & Applications (4)

Seminar—3 hour(s); Term Paper. Prerequisite(s): Graduate standing. Structure of political networks, socio-matrices and affiliation networks; general networks characteristics: density, centralization, polarization, interdependence, dyadic and triadic characteristics: structural and role equivalence; subsets of networks: cliques, blocks and bloc modeling; characteristics of individuals in networks: centrality and prestige. Effective: 2007 Fall Quarter.

POL 280—Bayesian Methods: for Social & Behavioral Sciences (4)

Seminar—3 hour(s); Term Paper. Prerequisite(s): POL 212; Or equivalent to course. Pass One open to graduate majors only; Pass Two open to graduate students. Methodology seminar introducing Bayesian quantitative methods to issues and problems in political science and other social and behavioral sciences. Effective: 2011 Fall Quarter.

POL 281—Statistical Computing Issues in Political Science (4)

Seminar—3 hour(s); Discussion/Laboratory—1 hour(s). Prerequisite(s): POL 213; Or equivalent to course. Restricted to graduate standing. Methodology seminar introducing computing issues in empirical models for political science and other social and behavioral sciences. Effective: 2005 Fall Quarter.

POL 282—Advanced Modeling of Political Behavior (4)

Seminar—3 hour(s); Term Paper—1 hour(s). Prerequisite(s): POL 215; Or equivalent to course. Restricted to graduate standing or with instructors permission. Applications of formal theory to political science. Review of relevant contributions in other social sciences. Consideration of advanced techniques in game theory. Rational and behavioral approaches. Effective: 2005 Fall Quarter.

POL 283—Organizational Behavior (4)

Seminar—4 hour(s). Organizational behavior as it relates to public sector decision making. Effective: 1997 Winter Quarter.

POL 284—Advanced Network Analysis (4)

Seminar—3 hour(s); Term Paper. Prerequisite(s): POL 211; POL 212; POL 279. Exponential Random Graph Models (ERGMs) of networks, game theoretic models of network formation and network dynamics, diffusion processes, shocks and network collapse, percolation, cross-network spillover processes, social and political applications of advanced network models. Effective: 2013 Fall Quarter.

POL 290A—Research in American Government & Public Policy (4)

Seminar—3 hour(s); Term Paper. Prerequisite(s): Consent of Instructor. Restricted to graduate students. Special research seminar on problems and issues in the study of American government and public policy. May be repeated up to 6 time(s) when topic differs. Effective: 2011 Spring Quarter.

POL 290B—Research in Political Theory (4)

Lecture—3 hour(s); Term Paper. Restricted to graduate students only. Special research seminar on problems and issues in the study of political theory. May be repeated up to 6 time(s) when topic differs. Effective: 2010 Spring Quarter.

POL 290C—Research in International Relations (4)

Lecture—3 hour(s); Term Paper. Restricted to graduate students only. Special research seminar on select problems and issues in the study of international relations. May be repeated up to 6 time(s) when topic differs. Effective: 2010 Spring Quarter.

POL 290D—Research in Judicial Politics (4)

Seminar—4 hour(s). Prerequisite(s): Graduate standing in Political Science or consent of instructor. Contemporary research on judicial politics, judicial institutions, jurisprudence, and judicial behavior. Effective: 1997 Winter Quarter.

POL 290E—Research in Political Parties, Politics, & Political Behavior (4)

Seminar—4 hour(s). Special research seminar on selected problems and issues in the study of political parties, politics, and political behavior. Effective: 1997 Winter Quarter.

POL 290F—Research in Comparative Government & Policy (4)

Lecture—3 hour(s); Term Paper. Restricted to graduate students only. Special research seminar on select problems and issues in the study of comparative government and policy. May be repeated up to 6 time(s) when topic differs. Effective: 2010 Spring Quarter.

POL 290G—Research in Methodology (4)

Lecture—3 hour(s); Term Paper. Prerequisite(s): POL 212. Special research seminar on selected problems and issues in methods in political science. May be repeated up to 3 time(s) when topic differs. Effective: 2005 Fall Quarter.

POL 297—Internships in Political Science (2)

Seminar—2 hour(s). Prerequisite(s): Open only to persons who have internships or other positions in governmental agencies, political parties, etc. Application and evaluation of theoretical concepts through work experience or systematic observation in public and political agencies. May be repeated for credit. (S/U grading only.) Effective: 1997 Winter Quarter.

POL 298—Group Study (1-5)

Variable. (S/U grading only.) Effective: 1997 Winter Quarter.

POL 299—Research (1-12)

Variable. (S/U grading only.) Effective: 1997 Winter Quarter.

POL 299D—Research (1-12)

Variable. (S/U grading only.) Effective: 1997 Winter Quarter.

POL 390—The Teaching of Political Science (1)

Seminar—1 hour(s). Prerequisite(s): Graduate student standing in Political Science. Methods and problems of teaching political science at the undergraduate level. (S/U grading only.) Effective: 1997 Winter Quarter.

POL 396—Teaching Assistant Training Practicum (1-4)

Variable. Prerequisite(s): Graduate standing. May be repeated for credit. (P/NP grading only.) Effective: 1997 Winter Quarter.

POR—Portuguese

Courses in POR:

POR 001—Elementary Portuguese (5)

Lecture/Discussion—5 hour(s). Introduction to Portuguese grammar and development of all language skills in a cultural context with special emphasis on communication. Students who have successfully completed POR 002 or POR 003 in the 10th or higher grade of high school may receive unit credit for this course on a P/NP grading basis only; although a passing grade will be charged to the student's P/NP option, no petition is required; all other students will receive a letter grade unless a P/NP petition is filed. GE credit: AH, WC. Effective: 2018 Fall Quarter.

POR 001A—Accelerated Intensive Elementary Portuguese (15)

Lecture/Discussion—15 hour(s). Intended for students who wish to complete three quarters of Portuguese 1, 2, and 3. Not open to students who have completed POR 001, POR 002 or POR 003. GE credit: WC. Effective: 2014 Spring Quarter.

POR 002—Elementary Portuguese (5)

Lecture/Discussion—5 hour(s). Prerequisite(s): POR 001. Continuation of POR 001 in the areas of grammar and development of all basic language skills in cultural context with special emphasis on communication. GE credit: AH, WC. Effective: 2018 Fall Quarter.

POR 003—Elementary Portuguese (5)

Lecture/Discussion—5 hour(s). Prerequisite(s): POR 002. Continuation of POR 002 in the areas of grammar and development of all basic language skills in cultural context with special emphasis on communication. GE credit: AH, WC. Effective: 2018 Fall Quarter.

POR 008—Elementary Portuguese Conversation (2)

Discussion—3 hour(s). Prerequisite(s): POR 003. Not open to native speakers or upper division students. Designed to develop oral communication skills. Emphasis on increasing vocabulary, improving listening comprehension, pronunciation, accuracy and grammar control. Practice of everyday situations. GE credit: WC. Effective: 2014 Fall Quarter.

POR 021—Intermediate Portuguese (5)

Lecture/Discussion—5 hour(s). Prerequisite(s): POR 003. Review and develop the grammar, vocabulary, and composition acquired in first year Portuguese through exercises and reading of modern texts. GE credit: AH, WC. Effective: 2018 Fall Quarter.

POR 022—Intermediate Portuguese (5)

Lecture/Discussion—5 hour(s). Prerequisite(s): POR 021. Continuation of POR 021. Focus on more difficult grammar concepts and further composition practice. Development of all language skills through exercises and reading of modern texts. GE credit: AH, WC. Effective: 2018 Fall Quarter.

POR 023—Portuguese Composition I (4)

Lecture—3 hour(s); Extensive Writing. Prerequisite(s): POR 022. Development of writing skills by way of reading, discussion, and analysis of authentic materials, literary texts, and videos. Selective review of grammar. Class activities include composition, journals, letters, individual and group projects. GE credit: AH, WC, WE. Effective: 2018 Fall Quarter.

POR 028—Intermediate Portuguese Conversation (2)

Discussion—3 hour(s). Prerequisite(s): POR 008. Continuation of POR 008. Designed to develop oral communication skills at a more advanced level. Practice in more complex situations. Effective: 2014 Winter Quarter.

POR 031—Intermediate Portuguese for Spanish Speakers (4)

Lecture/Discussion—3 hour(s); Laboratory—1 hour(s). Development of linguistic and learning skills required for Spanish-speaking students in upper division courses in Portuguese. Effective: 2016 Fall Quarter.

POR 031G—Portuguese for Spanish-Speaking Graduate Students (4)

Lecture/Discussion—3 hour(s); Laboratory—1 hour(s). Restricted to graduate students only. Intensive review of grammar and composition. Development of all language skills, but with emphasis on reading of modern texts, presentation/discussion, and writing on academic topics. Development on the following writing skills: analytical, argumentative, and creative. Effective: 2014 Winter Quarter.

POR 098—Directed Group Study (1-5)

Variable—2 hour(s). Prerequisite(s): Consent of instructor and Department Chairperson. Directed group study primarily for lower division students. (P/NP grading only.) Effective: 2014 Spring Quarter.

POR 100—Principles of Luso-Brazilian Literature & Criticism (4)

Lecture—3 hour(s); Term Paper. Prerequisite(s): POR 022 or POR 023; or Consent of Instructor. Principles of literary criticism applied to the study of fiction, poetry, and essays of major literary writers of the Luso-Brazilian world. GE credit: AH, WC, WE. Effective: 2016 Fall Quarter.

POR 111—Structure of Portuguese: Sounds & Words (3)

Lecture/Discussion—3 hour(s). Prerequisite(s): Consent of Instructor. Linguistic description of sound patterns of Portuguese and how those sounds can be used to form larger units, such as morphemes and words. Theoretical and practical comparisons with English and with other Romance languages. GE credit: SS. Effective: 2016 Fall Quarter.

POR 130—Survey of Luso-Brazilian Literature: 1500-1800 (4)

Lecture/Discussion—3 hour(s); Term Paper. Prerequisite(s): POR 100; (POR 022 or POR 023). Overview of Luso-Brazilian literature, covering three major literary periods: Renaissance, Baroque, and Enlightenment. Attention to the concept of imitation and nativism. GE credit: AH, WC. Effective: 2015 Winter Quarter.

POR 132—Portuguese Literature: Medieval & Renaissance (4)

Lecture/Discussion—3 hour(s); Term Paper. Prerequisite(s): POR 100; or Consent of Instructor. Overview of the origins of the Portuguese literature, spanning from the 13th century to the 16th century. Studies of lyrical and epic poetry, drama, and travel narratives. GE credit: AH, WC. Effective: 2016 Fall Quarter.

POR 134—Luis de Camões (4)

Lecture/Discussion—3 hour(s); Term Paper. Prerequisite(s): POR 100; (POR 022 or POR 031). Overview of the greatest Renaissance Portuguese poet, Luis de Camões. Study his famous epic poem, *Os Lusíadas*, and a series of sonnets written by him. GE credit: AH, WC. Effective: 2014 Spring Quarter.

POR 141—Introduction to Luso-Brazilian Culture (4)

Lecture/Discussion—3 hour(s); Extensive Writing. Prerequisite(s): POR 023 or POR 022. Introduction to history, geography, and culture of Portugal and Brazil. Art, history of ideas, and everyday cultural manifestations. Introduction to critical reading and textual analysis. Taught in Portuguese. GE credit: AH, WC. Effective: 2016 Fall Quarter.

POR 159—Special Topics in Luso-Brazilian Literature & Culture (4)

Lecture—3 hour(s); Term Paper. Prerequisite(s): POR 100; or Consent of Instructor. Special topics in the study of Luso-Brazilian literature and culture. May be repeated up to 1 time(s). GE credit: AH, WC, WE. Effective: 2016 Fall Quarter.

POR 161—Luso-Brazilian Literature & Culture (4)

Lecture/Discussion—3 hour(s); Term Paper. Prerequisite(s): POR 100; or Consent of Instructor. Colonial Brazilian literature survey. Readings include 16th-18th centuries manuscripts and books of cultural importance in a society dominated by censorship and with no printing presses. Study of the role literary Academies played in the so called "culture of manuscripts." GE credit: AH, WC, WE. Effective: 2016 Fall Quarter.

POR 162—Introduction to Brazilian Literature (4)

Lecture/Discussion—3 hour(s); Term Paper. Prerequisite(s): POR 003; (POR 031 or POR 031G). Narrative and poetic texts of the 19th and 20th centuries in Brazil. In-depth and comparative study of Romantic and (Neo)Naturalist movements as a forum for discussion about literary tradition and modernity in Latin America. GE credit: AH, WE. Effective: 2016 Spring Quarter.

POR 163—20th C Masters in Brazilian Literature (4)

Lecture/Discussion—3 hour(s); Term Paper. Prerequisite(s): POR 100; or Consent of Instructor. Overview of modern Brazilian literature from early 20th C to the poetry by João Cabral de Melo Neto and the Concretists (1960s), including European avant-garde movements and literary and cultural manifestos leading to a revolutionary body of literature. GE credit: AH, WC, WE. Effective: 2016 Fall Quarter.

POR 198—Directed Group Study (1-5)

Variable. Prerequisite(s): Consent of instructor and Department Chairperson. (P/NP grading only.) GE credit: AH, WC, WE. Effective: 2008 Fall Quarter.

POR 199—Special Study for Advanced Undergraduates (1-5)

Variable—2 hour(s). Independent study with professor for advanced undergraduate students, or honor thesis students. (P/NP grading only.) GE credit: AH. Effective: 2014 Winter Quarter.

PSC—Psychology

Courses in PSC:

PSC 001—General Psychology (4)

Lecture—4 hour(s). Principles and basic concepts of psychology. The empirical study of individual behavior including perception, cognition, development, personality, social interactions and the biological underpinnings of behavior. Not open for credit to students who have taken PSC 001Y. GE credit: SS. Effective: 2017 Winter Quarter.

PSC 001Y—General Psychology (4)

Lecture—1 hour(s); Discussion—1 hour(s); Web Virtual Lecture—2 hour(s). Introduction to empirical approaches. Focus on perception, cognition, personality and social psychology, and biological aspects of behavior. Not open for credit to students who have taken PSC 001. GE credit: SS. Effective: 2016 Fall Quarter.

PSC 012Y—Data Visualization in the Social Sciences (4)

Lecture—2 hour(s); Laboratory—1.5 hour(s); Web Virtual Lecture—1.5 hour(s). Introduction to quantitative data across the social sciences (Communications, Political Science, Psychology, Sociology, and other disciplines). Transforming data, describing data, producing graphs, visual reasoning, and interpretations. (Same course as CMN 012Y, SOC 012Y, POL 012Y.) GE credit: QL, VL. Effective: 2016 Spring Quarter.

PSC 020—Freshman Psychology Seminar (4)

Seminar—4 hour(s). Prerequisite(s): Freshman standing. Instructor will acquaint students with his or her program of research, the development of scientific questions from the literature, and the application of research methods to examine these questions. Critical thinking will be encouraged via expository writing and brief presentations. Effective: 1997 Winter Quarter.

PSC 041—Research Methods in Psychology (4)

Lecture—3 hour(s); Extensive Writing. Prerequisite(s): (PSC 001 or PSC 001Y); PSC 012Y, STA 013, or STA 100 strongly recommended. Introduction to experimental design, interviews, questionnaires, field and observational methods, reliability, and statistical inference. GE credit: QL. Effective: 2017 Fall Quarter.

PSC 051—Relationship Science: Lust, Love, & Evolution (4)

Lecture—4 hour(s). Prerequisite(s): PSC 001 or PSC 001Y; or introductory social science course or introductory life science course. Evolutionary perspectives on attraction and close relationships. Integrating social psychological and evolutionary theories with empirical evidence pertaining to human mating. GE credit: SE, SS. Effective: 2018 Spring Quarter.

PSC 061—Mindreading: Understanding Other Minds (4)

Lecture—3 hour(s); Extensive Writing. Prerequisite(s): PSC 001; (SOC 001 or PHI 010). Psychological perspectives on the process of understanding other people's minds. Integration of social-cognitive theories with empirical evidence to explore the human ability to make sense of others' thoughts, feelings, and behaviors. GE credit: SS. Effective: 2018 Fall Quarter.

PSC 090X—Lower Division Seminar (1-2)

Seminar—1-2 hour(s). Prerequisite(s): Consent of Instructor. Lower division standing. Limited enrollment. Examination of a special topic in Psychology through shared readings, discussions, written assignments, or special activities such as fieldwork or laboratory work. Effective: 1997 Winter Quarter.

PSC 098—Directed Group Study (1-5)

Variable. Primarily for lower division students. (P/NP grading only.) Effective: 1997 Winter Quarter.

PSC 099—Special Study for Lower Division Students (1-5)

Variable. (P/NP grading only.) Effective: 1997 Winter Quarter.

PSC 100—Introduction to Cognitive Psychology (4)

Lecture—4 hour(s). Prerequisite(s): (PSC 001 or PSC 001Y); PSC 041. Introduction to human information processing, mental representation and transformation, imagery, attention, memory, language processing, concept formation, problem solving, and computer simulation. Not open for credit to students who have completed former PSC 136. Effective: 2018 Winter Quarter.

PSC 100Y—Introduction to Cognitive Psychology (4)

Web Virtual Lecture—4 hour(s); Discussion—1 hour(s); Lecture—1 hour(s). Prerequisite(s): (PSC 001 or PSC 001Y); PSC 041. Introduction to human information processing, mental representation and transformation, imagery, attention, memory, language processing, concept formation, problem solving, and computer simulation. Not open for credit to students who have completed former PSC 136 or current PSC 100. Effective: 2018 Spring Quarter.

PSC 101—Introduction to Biological Psychology (4)

Lecture—4 hour(s). Prerequisite(s): (PSC 001 or PSC 001Y); PSC 041. Pass One open to majors. Survey and integration of the relationships between behavior and biological processes, including physiology, genes, development, ecology, and evolution. Only 2 units of credit for those students who have completed NPB 100. Effective: 2018 Winter Quarter.

PSC 103A—Statistical Analysis of Psychological Data (5)

Lecture—4 hour(s); Laboratory—2 hour(s); Term Paper. Prerequisite(s): (PSC 001 or PSC 001Y); PSC 041; (STA 013 or STA 013Y or STA 102). Pass One open to Psychology Majors. Design and statistical analysis of psychological investigations and the interpretation of quantitative data in psychology. Not open for credit to students who have completed PSC 103. GE credit: QL. Effective: 2018 Winter Quarter.

PSC 103B—Statistical Analysis of Psychological Data (5)

Lecture—4 hour(s); Laboratory—2 hour(s). Prerequisite(s): PSC 103A; (STA 013 or STA 013Y or STA 102). Pass One open to Psychology majors. Probability theory, sampling distributions, statistical inference, and hypothesis testing using standard parametric and correlational approaches. Simple regression analysis, multiple regression analysis, non-parametric statistics, introduction to multivariate statistics, with applications in psychology. Not open for credit to students who have completed PSC 105. GE credit: QL. Effective: 2018 Winter Quarter.

PSC 104—Applied Psychometrics: An Introduction to Measurement Theory (4)

Lecture—4 hour(s). Prerequisite(s): PSC 041; PSC 103A; (STA 013 or STA 013Y); Upper division standing in Psychology. Examination of the basic principles and applications of classical and modern test theory. Topics include test construction, reliability theory, validity theory, factor analysis and latent trait theory. GE credit: QL. Effective: 2018 Spring Quarter.

PSC 107—Questionnaire & Survey Research Methods (4)

Lecture/Discussion—2 hour(s); Discussion/Laboratory—2 hour(s). Prerequisite(s): PSC 001 or PSC 001Y; and Consent of Instructor. PSC 041 or an equivalent course on social or behavioral research methods or consent of instructor. Limited enrollment. Introduction to survey and questionnaire research methods with emphasis on how to ask questions. Social and psychological factors that influence survey response. Practical aspects of fielding survey and questionnaire research. GE credit: QL. Effective: 2018 Spring Quarter.

PSC 113—Developmental Psychobiology (4)

Lecture—3 hour(s); Laboratory—2 hour(s). Prerequisite(s): PSC 101. The biology of behavioral development; survey and integration of the organismic and environmental processes that regulate the development of behavior. Effective: 1997 Fall Quarter.

PSC 120—Agent-Based Modeling (4)

Lecture/Lab—4 hour(s). Prerequisite(s): PSC 100 and/or PSC 101 recommended. Limited to 24 students. Introduction to agent-based computer simulation and analysis with emphasis on learning how to model animals, including humans, to achieve insight into social and group behavior. GE credit: QL. Effective: 2018 Spring Quarter.

PSC 121—Physiological Psychology (4)

Lecture—3 hour(s); Laboratory—3 hour(s). Prerequisite(s): (PSC 001 or PSC 001Y); PSC 041; PSC 101. Pass One open to Psychology majors. Relationship of brain structure and function to behavior, motivation, emotion, language, and learning in humans and other animals. An introduction to the methodology of physiological psychology and neuroscience. Not open for credit to students who have completed former PSC 108. Effective: 2018 Winter Quarter.

PSC 122—Advanced Animal Behavior (4)

Lecture—3 hour(s); Laboratory—3 hour(s). Prerequisite(s): PSC 101 or NPB 102. Pass One open to Psychology majors. Advanced integrative survey of biological principles of behavioral organization, emphasizing historical roots, current research directions, conceptual issues and controversies. Laboratory exercises on the description and analysis of the behavior of captive and free-living animals. Not open for credit to students who have completed former PSC 150. (Same course as NPB 150.) Effective: 2000 Fall Quarter.

PSC 123—Hormones & Behavior (3)

Lecture—3 hour(s). Prerequisite(s): NPB 101; (PSC 101 or NPB 102). Pass One open to Psychology majors. Endocrine physiology with an emphasis on the principles of behavior. Fundamental relationships between hormones and various behaviors engaged in by the organism during its lifetime. Role of hormones in behavioral homeostasis, social behavior, reproductive behavior, parental behavior, adaptation to stress. Not open for credit to students who have completed former PSC 152. (Same course as NPB 152.) Effective: 2000 Fall Quarter.

PSC 124—Comparative Neuroanatomy (3)

Lecture—3 hour(s). Prerequisite(s): NPB 100 or NPB 101 or NPB 110B or PSC 121. Overview of the neuroanatomy in mammalian vertebrates, focusing on the cerebral cortex and experimental techniques. Examine changes or modifications to neural structures as a result of morphological or behavioral specializations. (Same course as NPB 124.) Effective: 2018 Fall Quarter.

PSC 124L—Comparative Neuroanatomy Laboratory (2)

Laboratory—6 hour(s). Prerequisite(s): PSC 124 (can be concurrent). Pass One restricted to PSC and NPB majors; must be concurrently enrolled in PSC 124. Comparative neuroanatomy laboratory illustrating modern neuroanatomical techniques in determining neural connections within the mammalian brain. Includes experimentation and presentation of results. (Same course as NPB 124L.) Effective: 2018 Fall Quarter.

PSC 125—Behavioral Epigenetics (4)

Lecture—4 hour(s). Prerequisite(s): PSC 101. Review of basic principles in genetics and epigenetics with emphasis on behavior. Introduction to the use of modern molecular methods in understanding the complex relationships between genes, environment, and behavior. Effective: 2016 Fall Quarter.

PSC 126—Health Psychology (4)

Lecture—4 hour(s). Prerequisite(s): (PSC 001 or PSC 001Y); PSC 041; PSC 101 recommended. Pass One open to Psychology majors. Psychological factors influencing health and illness. Topics include stress and coping, personality and health, symptom perception and reporting, heart disease, cancer, compliance, and health maintenance and promotion. Not open for credit to students who have completed former PSC 160. Effective: 2018 Winter Quarter.

PSC 130—Human Learning & Memory (4)

Lecture—3 hour(s); Discussion—1 hour(s). Prerequisite(s): (PSC 001 or PSC 001Y); PSC 041; (PSC 012Y or STA 013 or STA 100); or Consent of Instructor. Consideration of major theories of human learning and memory with critical examination of relevant experimental data. Effective: 2018 Winter Quarter.

PSC 131—Perception (4)

Lecture—3 hour(s); Discussion/Laboratory—1 hour(s). Prerequisite(s): (PSC 001 or PSC 001Y); PSC 041; (PSC 100 or PSC 135). Cognitive organizations related to measurable physical energy changes mediated through sensory channels. Perception of objects, space, motion, events. Effective: 2018 Winter Quarter.

PSC 132—Language & Cognition (4)

Lecture—3 hour(s); Term Paper. Prerequisite(s): (PSC 001 or PSC 001Y); PSC 041; (PSC 100 or PSC 135); or Consent of Instructor. Introduction to the cognitive processes involved in language comprehension and production. Topics include the biological foundations of language, speech perception, word recognition, syntax, reading ability, and pragmatics. GE credit: WE. Effective: 2018 Winter Quarter.

PSC 133—Neuroeconomics/Reinforcement Learning & Decision Making (4)

Lecture—3 hour(s); Term Paper. Prerequisite(s): (PSC 100 or PSC 100Y or PSC 135 or ARE 100A or ECN 100A or NPB 162 or NPB 163); (STA 013 or STA 013Y or STA 100 or PSC 103A); or Consent of Instructor. Theoretical and empirical approaches to neuroeconomics (neuroscience of decision making) from psychology, neuroscience, economics, and computer science. Neuroscience of judgment and decision making, behavioral economics, and reinforcement learning. (Same course as ECN 107, CGS 107.) GE credit: SL, SS. Effective: 2018 Spring Quarter.

PSC 135—Cognitive Neuroscience: The Biological Foundations of the Mind (4)

Lecture—4 hour(s). Prerequisite(s): (PSC 001 or PSC 001Y); PSC 041; or Consent of Instructor. PSC 101 or PSC 121 recommended. Neuroscientific foundations of higher mental processes including attention, memory, language, higher-level perceptual and motor processes, and consciousness. Emphasis on the neural mechanisms which form the substrates of human cognition and the relationship of mind to brain. May be taught abroad. Effective: 2019 Spring Quarter.

PSC 136—Psychology of Music (4)

Lecture/Discussion—3 hour(s); Term Paper. Prerequisite(s): (PSC 001 or PSC 001Y); PSC 041; (PSC 100 or PSC 135 or MUS 006C); or Consent of Instructor. Introduction to the mental and neural representations of musical structures and processes involved in perceiving, remembering, and performing music. Music and emotion. GE credit: WE. Effective: 2018 Spring Quarter.

PSC 137—Neurobiology of Learning & Memory (4)

Lecture—4 hour(s). Prerequisite(s): (PSC 001 or PSC 001Y); PSC 041; PSC 101. Overview of the neural basis of learning and memory focusing on modern behavioral neuroscience research with animals. Topics include consolidation, neural plasticity, cellular competition for memory storage, and the role of neurogenesis in learning. Effective: 2018 Spring Quarter.

PSC 138—Consciousness & Cognition (4)

Lecture—4 hour(s). Prerequisite(s): (PSC 001 or PSC 001Y); PSC 041; (PSC 100 or PSC 135). Current theoretical and empirical evidence in the study of cognition and consciousness. Theories of consciousness, psychological and neural basis of conscious and unconscious processes such as attention, intentionality, and dreams. (Same course as CGS 138.) Effective: 2018 Spring Quarter.

PSC 139—Advanced Cognitive Neuroscience (4)

Lecture—3 hour(s); Term Paper. Prerequisite(s): (PSC 001 or PSC 001Y); PSC 041; PSC 135; or Consent of Instructor. Advanced integrative survey of cognitive neuroscience, including perception, attention, memory, and navigation. Emphasis on reviewing literature in psychology, neuroscience, and statistics; understanding methods in cognition; and presentation skills. GE credit: SL. Effective: 2018 Spring Quarter.

PSC 140—Developmental Psychology (4)

Lecture—4 hour(s). Prerequisite(s): (PSC 001 or PSC 001Y); PSC 041. Pass One open to Psychology majors. An ontogenetic account of human behavior through adolescence with emphasis on motor skills, mental abilities, motivation, and social interaction. Only 2 units of credit allowed to students who have completed HDE 100A or HDE 100B; not open for credit to students who have completed PSC 112. (Former PSC 112.). Effective: 2018 Winter Quarter.

PSC 140Y—Developmental Psychology (4)

Discussion—1 hour(s); Lecture—1.5 hour(s); Web Virtual Lecture. Prerequisite(s): (PSC 001 or PSC 001Y); PSC 041. Pass One open to Psychology Majors. Ontogenetic account of human behavior through adolescence with emphasis on motor skills, mental abilities, motivation, and social interaction. Only 2 units of credit allowed to students who have completed HDE 100A or HDE 100B; not open for credit to students who have completed PSC 112. (Former PSC 112.). Effective: 2019 Winter Quarter.

PSC 141—Cognitive Development (4)

Lecture—3 hour(s); Term Paper—1 hour(s). Prerequisite(s): PSC 140 or HDE 100A or HDE 100B. Pass One open to Psychology & Human Development majors. Theories, methods, evidence, and debates in the field of cognitive development, such as nature/nurture, constraints on learning, and the role of plasticity. Topics include attention, memory, concepts about the physical and social world, and language. (Same course as HDE 101.) GE credit: WE. Effective: 2002 Fall Quarter.

PSC 142—Social & Personality Development (4)

Lecture—3 hour(s); Term Paper—1 hour(s). Prerequisite(s): PSC 140 or HDE 100A or HDE 100B. Pass One open to Psychology and Human Development majors. Social and personality development of children, infancy through adolescence. Topics include the development of personality, achievement motivation, self-understanding, sex-role identity, and antisocial behavior. Emphasis on the interface between biological and social factors. (Same course as HDE 102.) GE credit: SS, WE. Effective: 2002 Fall Quarter.

PSC 143—Infant Development (4)

Lecture—3 hour(s); Discussion—1 hour(s). Prerequisite(s): (PSC 001 or PSC 001Y); PSC 041; (PSC 140 or HDE 100A). Psychological development in infancy. Topics include physical and motor development, sensory and nervous system development, and memory and cognitive development. Emphasis will be on evaluating theories, empirical research, and experimental methods for understanding infant development. Effective: 2019 Winter Quarter.

PSC 145—Developmental Cognitive Neuroscience (4) *Review all entries*

Lecture—3 hour(s); Discussion—1 hour(s). Prerequisite(s): PSC 135 or ((PSC 140 or HDE 100A or HDE 100B); (PSC 101 or PSC 121 or NPB 161 or HDE 163)); PSC 141 recommended. Neuroscientific theories and methods (EEG, ERP, fNIRS, fMRI) that inform an understanding of behavioral and cognitive development over infancy and childhood. Neurodevelopmental correlates of perception, action, language, and social cognition; value of the neuroscientific perspective; limitations and challenges of neuroscientific research in the developmental context. GE credit: SL. Effective: 2018 Fall Quarter.

PSC 145—Developmental Cognitive Neuroscience (4) *Review all entries*

Lecture—2.5 hour(s); Discussion—1.5 hour(s). Prerequisite(s): PSC 135 or ((PSC 140 or HDE 100A or HDE 100B); (PSC 101 or PSC 121 or NPB 161 or HDE 163)); PSC 141 recommended. Pass One open to Psychology and Cognitive Science Majors. Neuroscientific theories and methods (EEG, ERP, fNIRS, fMRI) that inform an understanding of behavioral and cognitive development over infancy and childhood. Neurodevelopmental correlates of perception, action, language, and social cognition; value of the neuroscientific perspective; limitations and challenges of neuroscientific research in the developmental context. GE credit: SL. Effective: 2020 Fall Quarter.

PSC 146—The Development of Memory (4)

Lecture—3 hour(s); Term Paper—1 hour(s). Prerequisite(s): (PSC 001 or PSC 001Y); PSC 041; and any Psychology upper division course from Core Group A or D. Pass One open to Psychology majors. Theory and research on memory development with focus on infancy and childhood. Not open for credit to students who have completed former PSC 133. GE credit: WE. Effective: 2018 Spring Quarter.

PSC 148—Developmental Disorders (4)

Lecture/Discussion—3 hour(s); Term Paper. Prerequisite(s): (PSC 001 or PSC 001Y); PSC 041; (PSC 140 or PSC 141 or HDE 100A or HDE 100B). Current scientific knowledge of the influences of biological, cognitive, and environmental factors on the emergence of disorders with onset in childhood. Examples include autism spectrum, ADD/ADHD, dyslexia and dyscalculia. Emphasis placed on understanding these disorders, their causes and their treatments. Effective: 2018 Spring Quarter.

PSC 151—Social Psychology (4)

Lecture—4 hour(s). Prerequisite(s): PSC 001 or PSC 001Y, PSC 041 recommended. Pass One open to Psychology majors. Behavior of the individual in the group. Examination of basic psychological processes in social situations, surveying various problems of social interaction: group tensions, norm-development, attitudes, values, public opinion, status. Not open for credit to students who have completed former PSC 145. GE credit: DD. Effective: 2018 Summer Session 1.

PSC 152—Social Cognition (4)

Lecture—4 hour(s). Prerequisite(s): (PSC 001 or PSC 001Y); PSC 041. Examines how social factors influence how we attend to, encode, and process information and how these mental processes affect subsequent judgments and behavior. Effective: 2018 Spring Quarter.

PSC 153—Psychology & Law (4)

Lecture—4 hour(s). Prerequisite(s): (PSC 001 or PSC 001Y); PSC 041. Pass One open to Psychology majors. Current theoretical and empirical issues in the study of psychology and law. Topics include eyewitness testimony, child abuse, jury decision making, juvenile delinquency and criminology, prediction of violence, insanity defense, and memory for traumatic events. Not open for credit to students who have completed former PSC 115. Effective: 2018 Spring Quarter.

PSC 154—Psychology of Emotion (4)

Lecture—4 hour(s). Prerequisite(s): (PSC 001 or PSC 001Y); PSC 041. Pass One open to Psychology majors. Introduction to current theories and research on emotion and bodily feelings with special reference to self-knowledge. Effective: 2018 Summer Session 1.

PSC 157—Stereotyping, Prejudice, & Stigma (4)

Lecture—3 hour(s); Term Paper. Prerequisite(s): (PSC 001 or PSC 001Y); PSC 041. Social psychological underpinnings of stereotyping, prejudice, and stigma from sociocultural, motivational, and cognitive perspectives. Topics include: origins, maintenance, change, effects on person perception and memory, and the automaticity/controllability of stereotyping and prejudice. GE credit: DD. Effective: 2019 Winter Quarter.

PSC 158—Sexual Orientation & Prejudice (4)

Lecture/Discussion—4 hour(s). Prerequisite(s): (PSC 001 or PSC 001Y); PSC 041. Pass One open to Psychology majors. Current scientific knowledge about sexual orientation and prejudice based on sexual orientation. Emphasis is placed on learning the skills necessary for a critical understanding of science and public policy issues relevant to sexuality. GE credit: ACGH, DD, SS, WE. Effective: 2018 Spring Quarter.

PSC 159—Gender & Human Reproduction (4)

Lecture—4 hour(s). Prerequisite(s): (PSC 001 or PSC 001Y); PSC 041. Pass One open to Psychology majors. Psychology of reproduction. Reproductive events over the course of an individual's life, including sexual development, mate choice, relationships, and reproduction. Biological and social psychological explanations at the levels of mechanism and evolutionary function. Not open for credit to students who have completed former PSC 149. (Former PSC 149.). Effective: 2018 Spring Quarter.

PSC 161—Psychology of the Self (4)

Lecture—4 hour(s). Prerequisite(s): (PSC 001 or PSC 001Y); PSC 041. Psychological theory and research on the self. Topics include: self-knowledge, self-esteem, self-regulation, self-presentation, cognitive and emotional aspects of the self, and the role of the self in shaping social interaction. Effective: 2018 Spring Quarter.

PSC 162—Introduction to Personality Psychology (4)

Lecture—3 hour(s); Term Paper. Prerequisite(s): (PSC 001 or PSC 001Y); PSC 041. Pass One open to Psychology majors. Scientific study of personality. Methods of personality research. Overview of current research and theory in the field of personality psychology. May be taught abroad. Not open for credit to students who have completed former PSC 147. GE credit: SS. Effective: 2018 Winter Quarter.

PSC 165—Introduction to Clinical Psychology (4)

Lecture—4 hour(s). Prerequisite(s): (PSC 001 or PSC 001Y); PSC 041; (PSC 140 or PSC 151). Major theoretical formulations in the history of clinical psychology, from classical psychoanalysis to contemporary existentialism and behavior modification. Survey based on lectures, films, and tapes, of what clinical psychologists do, including methods of appraisal, professional roles, and approaches to treatment. Effective: 2020 Winter Quarter.

PSC 168—Abnormal Psychology (4)

Lecture—4 hour(s). Prerequisite(s): (PSC 001 or PSC 001Y); PSC 041. Descriptive and functional account of behavioral disorders, with primary consideration given to neurotic and psychotic behavior. GE credit: SS. Effective: 2018 Winter Quarter.

PSC 170—Psychology of Religion (4)

Lecture—4 hour(s). Prerequisite(s): (PSC 001 or PSC 001Y); PSC 041. Major theories, issues, data, and research methodologies of the psychology of religion. Religious experience and expression; religious development in childhood, adolescence, and adulthood; conversion; religious influences on physical and mental health; cross-cultural perspectives. GE credit: WE. Effective: 2018 Winter Quarter.

PSC 175—Genius, Creativity, & Leadership (4)

Lecture—3 hour(s); Term Paper. Prerequisite(s): (PSC 001 or PSC 001Y); PSC 041; or Consent of Instructor. Or equivalents. Phenomenon of genius is examined from a diversity of theoretical, methodological, and disciplinary perspectives, with an emphasis on outstanding creativity and leadership in art, music, literature, philosophy, science, war, and politics. GE credit: SS, WE. Effective: 2018 Spring Quarter.

PSC 180A—Research in Cognitive & Perceptual Psychology (4)

Lecture—2 hour(s); Laboratory—4 hour(s). Prerequisite(s): PSC 041; four upper division Psychology courses and consent of instructor. Empirical research on selected topics in general experimental psychology (general research design and analysis, perception, cognition, cognitive development, etc.). Specific content will vary from quarter to quarter. May be repeated up to 1 time(s) when content differs. Effective: 1998 Fall Quarter.

PSC 180B—Research in Psychobiology (4)

Lecture—2 hour(s); Laboratory—4 hour(s). Prerequisite(s): PSC 101; three additional upper division Psychology courses and consent of instructor. Empirical research on selected topics in psychobiology (animal learning, animal behavior, physiological and sensory psychology, developmental psychobiology, computer modeling of neural systems). Content varies. May be repeated up to 1 time(s) when content differs. Effective: 1997 Fall Quarter.

PSC 180C—Research in Personality & Social Psychology (4)

Lecture—2 hour(s); Laboratory—4 hour(s). Prerequisite(s): PSC 041; four upper division Psychology courses and consent of instructor. Empirical research on selected topics in personality and social psychology (personality, social psychology, organizational psychology, etc.). Content will vary from quarter to quarter. May be repeated up to 1 time(s) when content differs. Effective: 1997 Winter Quarter.

PSC 180D—Research in Developmental Psychology (4)

Lecture—2 hour(s); Laboratory—4 hour(s). Prerequisite(s): PSC 041; Consent of Instructor. Four upper division Psychology courses. Empirical research on selected topics in developmental psychology (research design and analysis, development, cognitive development, social and personality development etc.). May be repeated up to 1 time(s) when content differs. Effective: 2017 Winter Quarter.

PSC 182—Methods in Laboratory Research (4)

Lecture—2 hour(s); Laboratory—4 hour(s). Prerequisite(s): Consent of Instructor. Training in specific lab-based research methods coupled with hands-on experience in a research lab. Students assessed on their ability report and interpret research findings. Content varies from quarter to quarter. May be repeated up to 2 time(s) when content differs. Effective: 2018 Fall Quarter.

PSC 185—History of Psychology (4)

Lecture—3 hour(s); Term Paper. Prerequisite(s): (PSC 001 or PSC 001Y); PSC 041; Upper division standing or consent of instructor. Pass One open to Psychology majors. Development of psychological thought and research in context of history of philosophy and science. Not open for credit to students who have completed PSC 120. (Former PSC 120.). GE credit: SS, WE. Effective: 2018 Winter Quarter.

PSC 190—Seminar in Psychology (4)

Seminar—4 hour(s). Prerequisite(s): Junior or senior standing; major in Psychology or consent of instructor. Intensive treatment of a special topic or problem of psychological interest. May be repeated for credit when content differs. Effective: 1997 Winter Quarter.

PSC 190X—Upper Division Seminar (1-2)

Seminar—1-2 hour(s). Prerequisite(s): Consent of Instructor. Upper division standing. Limited enrollment. In-depth examination at an upper division level of a special topic in Psychology. Emphasis on student participation in learning. May not be repeated for credit. Effective: 1997 Winter Quarter.

PSC 192—Fieldwork in Psychology (1-6)

Fieldwork—1-6 hour(s). Prerequisite(s): Consent of Instructor. Upper division standing in Psychology. Limited enrollment. Supervised internship off and on campus, in community and institutional settings. Maximum of 6 units may be used towards satisfaction of upper division major requirement. May be repeated up to 1 time(s) per internship site. (P/NP grading only.) Effective: 2017 Winter Quarter.

PSC 194HA—Special Study for Honors Students (3)

Independent Study—9 hour(s). Prerequisite(s): Consent of Instructor. Senior standing in Psychology and qualifications for admission into college honors program; at least one course from PSC 180A, PSC 180B, PSC 180C or PSC 199 strongly recommended. Directed research. Supervised reading, research and writing leading to submission of a Senior Honors thesis under the direction of faculty sponsor. GE credit: WE. Effective: 1997 Winter Quarter.

PSC 194HB—Special Study for Honors Students (3)

Independent Study—9 hour(s). Prerequisite(s): Consent of Instructor. Senior standing in Psychology and qualifications for admission into college honors program; at least one course from PSC 180A, PSC 180B, PSC 180C or PSC 199 strongly recommended. Directed research. Supervised reading, research and writing leading to submission of a Senior Honors thesis under the direction of faculty sponsor. GE credit: WE. Effective: 1997 Winter Quarter.

PSC 197T—Tutoring in Psychology (1-3)

Tutorial—1-3 hour(s). Prerequisite(s): Consent of Instructor. Upper division standing. Intended for advanced undergraduate students who will lead discussion sections in Psychology courses. May be repeated up to 8 unit(s). (P/NP grading only.) Effective: 1997 Winter Quarter.

PSC 198—Directed Group Study (1-5)

Variable. Prerequisite(s): Consent of Instructor. Directed group study. May be taught abroad. (P/NP grading only.) Effective: 1997 Winter Quarter.

PSC 199—Special Study for Advanced Undergraduates (1-5)

Variable. (P/NP grading only.) Effective: 1997 Winter Quarter.

PSC 200—Proseminar in Psychology (3)

Seminar—2 hour(s); Independent Study—1 hour(s). Prerequisite(s): Graduate standing in Psychology or consent of instructor. Introduces matriculating graduate students to research activities of departmental faculty. (S/U grading only.) Effective: 1997 Winter Quarter.

PSC 201—Research Preceptorship (4)

Laboratory—4 hour(s); Discussion—5 hour(s). Prerequisite(s): Consent of Instructor. May be repeated for credit. (S/U grading only.) Effective: 1997 Winter Quarter.

PSC 202—Research Seminar (1)

Seminar—1 hour(s). Prerequisite(s): Graduate standing in Psychology. Presentation of graduate research to program faculty and graduate students. May be repeated for credit. (S/U grading only.) Effective: 1997 Winter Quarter.

PSC 204A—Statistical Analysis of Psychological Experiments (5)

Lecture—4 hour(s); Laboratory—2 hour(s). Prerequisite(s): STA 102; Or equivalent; graduate standing in Psychology or consent of instructor. Probability theory, sampling distributions, statistical inference, and hypothesis testing using standard parametric and correlational approaches. Analysis of variance, factorial and repeated measures, and tests of trends. Not open for credit to students who have completed PSC 206. Effective: 2014 Spring Quarter.

PSC 204B—Causal Modeling of Correlational Data (5)

Lecture—4 hour(s); Laboratory—2 hour(s). Prerequisite(s): PSC 204A; Or the equivalent course and graduate standing in Psychology or consent of instructor. Examination of how to make causal inferences from correlational data in the behavioral sciences. Emphasis is on testing rival causal models using correlations among observed variables. Beginning with multiple regression analysis, discussion advances to path analysis and related techniques. Not open for credit to students who have completed PSC 207A. Effective: 2015 Spring Quarter.

PSC 204D—Advanced Statistical Inference from Psychological Experiments (5)

Lecture—4 hour(s); Laboratory—2 hour(s). Prerequisite(s): PSC 204A; Or the equivalent; graduate standing in Psychology or consent of instructor. Advanced topics in statistical inference, which may include probability theory, sampling distributions, statistical inference and hypothesis testing, nonparametric statistics, Bayesian approaches, and advanced issues in analysis of variance. Not open for credit to students who have completed PSC 205. Effective: 2014 Spring Quarter.

PSC 205A—Applied Multivariate Analysis of Psychological Data (4)

Lecture—4 hour(s). Prerequisite(s): PSC 204A; PSC 204B; PSC 204D; or Consent of Instructor. Review of the major methods of multivariate data analysis for psychological data. Students will program statistical routines using a linear algebra-based computing language. Topics will include multivariate analysis of variance, discriminant analysis, canonical analysis factor analysis, and component analysis. Not open for credit to students who have completed PSC 207B. (Former PSC 207B.) Effective: 2017 Spring Quarter.

PSC 205B—Factor Analysis (4)

Lecture—3 hour(s); Term Paper. Prerequisite(s): PSC 204A; PSC 204B; or Consent of Instructor. Or equivalent courses; graduate standing. Theory and methods of factor analysis, including exploratory factor analysis, confirmatory factor analysis, and principal component analysis. Effective: 2015 Winter Quarter.

PSC 205C—Structural Equation Modeling (4)

Lecture—3 hour(s); Term Paper. Prerequisite(s): PSC 204A; PSC 204B; or Consent of Instructor. Or equivalent courses; graduate standing. Theory and methods of structural equation modeling, including path analysis, confirmatory factor analysis, multiple-group modeling and latent growth curve modeling. Effective: 2008 Fall Quarter.

PSC 205D—Multilevel Models (4)

Lecture—4 hour(s). Prerequisite(s): PSC 204A; Graduate standing or consent of instructor. Introduction to statistical techniques for the analysis of normal, hierarchically structured data, such as cross-sectional clustered data or repeated-measures data. Topics include hierarchical linear models, latent growth curve models, and how these methods handle unbalanced and/or missing data. Effective: 2004 Fall Quarter.

PSC 205E—Applied Psychometrics & Measurement Theory (4)

Lecture—4 hour(s). Prerequisite(s): PSC 204A; Graduate standing in Psychology or consent of instructor. Examination of the basic principles and applications of classical and modern test theory. Topics include test construction, reliability theory, validity theory, factor analysis, and latent trait theory. Not open for credit to students who have completed PSC 204 or PSC 204C. Effective: 2013 Fall Quarter.

PSC 205F—Item Response Theory (4)

Lecture—3 hour(s); Term Paper. Prerequisite(s): PSC 204A; Or the equivalent; graduate standing in Psychology or consent of instructor. Item response theory allows for the creation of precise measurement instruments in psychological testing. Review Classical Test Theory, and then cover basic IRT models through advanced applications. Effective: 2014 Winter Quarter.

PSC 205G—Applied Longitudinal Data Analysis (4)

Lecture—3 hour(s); Term Paper. Prerequisite(s): PSC 204A; Graduate standing in Psychology or consent of instructor. Modeling and understanding of intraindividual change and interindividual differences in change. Reviews conventional methods and introduces contemporary techniques for modeling intraindividual change. Effective: 2014 Fall Quarter.

PSC 206A—Theoretical Foundations: Research Methods in Psychology (4)

Lecture/Discussion—3 hour(s); Term Paper. Restricted to graduate student status. Examines the philosophy and research practices underlying experimental psychology. Topics to be covered include philosophy of science/epistemology, research design, inference and bias in research, theory development, validity, the social context of research, and critical thinking about research. Effective: 2010 Spring Quarter.

PSC 206B—Research Methods in Psychology: Applications in Social-Personality Research (4)

Lecture/Discussion—3 hour(s); Term Paper. Restricted to graduate student status. Overview of the research designs, assessment methods, and statistical procedure used by social-personality psychologists. Focus on the practical issues that arise when using each method in specific research contexts. Effective: 2009 Fall Quarter.

PSC 207—Survey & Questionnaire Research Methods (4)

Lecture/Discussion—4 hour(s). Prerequisite(s): Completion of a course on social or behavioral research methods, graduate standing. Survey and questionnaire research methods with emphasis on how to ask questions. Cognitive, motivational, and social processes that influence how respondents answer questions; sampling techniques; Internet resources; practical aspects of fielding survey and questionnaire research. Effective: 2003 Fall Quarter.

PSC 208—Physiological Psychology (4)

Seminar—4 hour(s). Prerequisite(s): Graduate standing in Psychology or consent of instructor. A conceptual analysis of the contributions of neuroanatomy, neurophysiology and neurochemistry to an understanding of animal and human behavior. Effective: 1997 Winter Quarter.

PSC 208A—Fundamentals of Human Electrophysiology (4)

Lecture/Discussion—1.5 hour(s); Laboratory—3 hour(s); Extensive Problem Solving—1.5 hour(s); Project (Term Project)—3 hour(s). Prerequisite(s): Consent of Instructor. Restricted to 15 students. In-depth introduction and hands-on experience with the event-related potential (ERP) method in the study of attention, executive control, memory, language and social cognitive neuroscience. Effective: 2010 Winter Quarter.

PSC 209A—Introduction to Programming: Matlab (4)

Lecture/Lab—3 hour(s). Prerequisite(s): Graduate standing or consent of instructor. The Matlab programming environment as a means of organizing, analyzing, and visualizing scientific data. Basic programming concepts such as variables, loops, conditional branching, and efficient programming techniques will be emphasized. Effective: 2006 Fall Quarter.

PSC 210—Fundamentals of Cognitive Neuroimaging (3)

Lecture/Discussion—3 hour(s). Prerequisite(s): Basic knowledge of inferential statistics and experimental Psychology. Introduction to empirical foundations and methodology of neuroimaging, emphasizing pragmatics of functional magnetic resonance imaging (fMRI) to study cognition. Topics include MR physics, the relationship between neural activity and the BOLD response, experimental design, and analysis of fMRI data. Effective: 2007 Fall Quarter.

PSC 211—Advanced Topics in Neuroimaging (3)

Seminar—2 hour(s); Laboratory—1 hour(s). Prerequisite(s): PSC 210; or Consent of Instructor. Restricted to 16 students. Critical presentation and discussion of the most influential advanced issues in neuroimaging, emphasizing fMRI design/analysis and the integration of fMRI with EEG/MEG. May be repeated for credit when topics differ. (Same course as NSC 211, NPB 211.) (S/U grading only.) Effective: 2017 Spring Quarter.

PSC 212A—Developmental Psychology: Cognitive & Perceptual Development (4)

Seminar—4 hour(s). Prerequisite(s): Graduate standing or consent of instructor; completion of an undergraduate or graduate course on developmental psychology or human development. Theories and empirical findings concerning human cognitive and perceptual development. Development of perception, memory, concepts (e.g., theory of mind, concepts about number), problem solving, and language from infancy to adolescence. Effective: 2003 Fall Quarter.

PSC 212B—Developmental Psychology: Social, Emotional, & Personality Development (4)

Seminar—4 hour(s). Prerequisite(s): Graduate standing or consent of instructor; completion of an undergraduate or graduate course on developmental psychology or human development. Theories and empirical findings concerning human social, emotional, and personality development. Development of emotions, moral reasoning and behavior, personality, self-concept, and social cognition from infancy to adolescence (may include adulthood). Effective: 2003 Fall Quarter.

PSC 217—Behavioral Genetics (4)

Lecture—3 hour(s); Discussion/Laboratory—1 hour(s); Term Paper. Prerequisite(s): Graduate standing. Restricted to 20 students. Review basic principles in genetics and select topics in molecular genetics with emphasis on behavior. Use of modern molecular methods to outline complex relationships between genes, environment, and behavior. Not open for credit to students who have completed PSC 251. Effective: 2008 Spring Quarter.

PSC 218A—Fundamentals of Animal Behavior (5)

Lecture/Discussion—4 hour(s); Discussion—1 hour(s). Prerequisite(s): Consent of Instructor. Upper division undergraduate introduction to the biology of behavior, such as PSC 101, PSC 122, PSC 123, NPB 102, NPB 150, NPB 152, WFC 141, ENT 104, or ANS 105. Survey of the phenomena and theory of animal behavior from the perspectives of multiple biological disciplines, including evolution, ecology, psychology, genetics, neurobiology, endocrinology, and animal science. (Same course as ANB 218A.) Effective: 2007 Fall Quarter.

PSC 218B—Fundamentals of Animal Behavior (5)

Lecture/Discussion—4 hour(s); Discussion—1 hour(s). Prerequisite(s): PSC 209A; or Consent of Instructor. Survey of the phenomena and theory of animal behavior from the perspectives of multiple biological disciplines, including evolution, ecology, psychology, genetics, neurobiology, endocrinology, and animal science. (Same course as ANB 218B.) Effective: 2007 Fall Quarter.

PSC 220—History of Psychology (4)

Lecture—2 hour(s); Seminar—2 hour(s). Prerequisite(s): Graduate standing in Psychology or consent of instructor. A lecture-seminar on the history of psychology and on the applicability of early psychological theory and research to contemporary investigations. Effective: 1997 Winter Quarter.

PSC 221—Academic Writing in Psychology (4)

Lecture/Discussion—3 hour(s); Term Paper. Prerequisite(s): Consent of Instructor. Strategies for developing and honing academic writing skills and writing productivity, with a particular focus on how to write a clear and compelling empirical journal article in psychology. May be repeated up to 1 time(s) with consent of instructor when focus is on a substantially different writing project. Effective: 2019 Winter Quarter.

PSC 230—Cognitive Psychology (4)

Seminar—4 hour(s). Prerequisite(s): Graduate standing in Psychology or consent of instructor. Analysis of the mental processes by which knowledge is acquired, manipulated, stored, retrieved and used. Effective: 1997 Winter Quarter.

PSC 231—Sensation & Perception (4)

Seminar—4 hour(s). Prerequisite(s): Graduate standing in Psychology or consent of instructor. Analysis of the role of sensory processes and perception in experience and their effects on behavior. Effective: 1997 Winter Quarter.

PSC 241—Attitudes & Social Influence (4)

Lecture/Discussion—3 hour(s); Term Paper. Prerequisite(s): Consent of Instructor. Survey of theory and research in the field of attitudes and social influence. Topics include attitude definition and measurement, major theories of attitude formation and change, the relationship between attitudes and behavior, and recent directions and controversies. Effective: 2011 Fall Quarter.

PSC 242—Attraction & Close Relationships (4)

Seminar—3 hour(s); Term Paper. Prerequisite(s): Graduate standing in Psychology, Sociology, Human Development, a related social science, or consent of instructor. Social psychological theory and research on attraction and close relationships, with a particular emphasis on romantic relationships. Covers attachment theory, interdependence theory, and evolutionary psychological perspectives. Effective: 2018 Winter Quarter.

PSC 243—Social Cognition (4)

Lecture/Discussion—3 hour(s); Term Paper. Processes underlying the perception, memory, and judgment of social stimuli, the effects of social and affective factors on cognition, and the interpersonal consequences of those processes. Topics include automaticity/control, motivated cognition, person perception, stereotyping, attitudes, and persuasion. Effective: 2007 Fall Quarter.

PSC 244—Stereotyping, Prejudice, & Stigma (4)

Lecture/Discussion—3 hour(s); Term Paper. Examines the social psychological underpinnings of stereotyping, prejudice, and stigma, including sociocultural, motivational, and cognitive factors. Effective: 2007 Fall Quarter.

PSC 245—Social Psychology (4)

Seminar—4 hour(s). Prerequisite(s): Graduate standing in Psychology or consent of instructor. Theory and research in social psychology. Effective: 1997 Winter Quarter.

PSC 247—Personality (4)

Seminar—4 hour(s). Prerequisite(s): Graduate standing in Psychology or consent of instructor. Theory and research in human personality. Effective: 1997 Winter Quarter.

PSC 251—Topics in Genetic Correlates of Behavior (4)

Seminar—4 hour(s). Prerequisite(s): Graduate standing in Psychology or consent of instructor. Theory and experiment in the genetic contributions to animal and human behavior. May be repeated for credit when topic differs. Effective: 1997 Winter Quarter.

PSC 252—Topics in Psychobiology (4)

Seminar—4 hour(s). Prerequisite(s): Graduate standing in Psychology or consent of instructor. Critical study in a selected area of psychobiology. May be repeated for credit when topic differs. Effective: 1997 Winter Quarter.

PSC 261—Cognitive Neuroscience (4)

Lecture—3 hour(s); Discussion—1 hour(s). Prerequisite(s): Graduate student standing in Psychology or Neuroscience or consent of instructor. Graduate core course for neuroscience. Neurobiological bases of higher mental function including attention, memory, language. One of three in three-quarter sequence. (Same course as NSC 223.) Effective: 1997 Winter Quarter.

PSC 263—Topics in Cognitive Psychology (4)

Seminar—4 hour(s). Prerequisite(s): Graduate standing in Psychology or consent of instructor. Selected topics in language processing, memory, perception, problem solving, and thinking, with an emphasis on the common underlying cognitive processes. May be repeated for credit when content differs. Effective: 1997 Winter Quarter.

PSC 264—Topics in Psycholinguistics (4)

Seminar—4 hour(s). Prerequisite(s): Graduate standing in Psychology or consent of instructor. Discussion of fundamental issues in the psychology of language. May be repeated for credit when content differs. Effective: 1997 Winter Quarter.

PSC 270—Topics in Personality & Social Psychology (4)

Seminar—4 hour(s). Prerequisite(s): Graduate student standing or consent of instructor. Critical study of a selected area of personality or social psychology. May be repeated for credit when content differs. Effective: 2005 Fall Quarter.

PSC 271A—Core Concepts & Methods in Learning, Memory, & Plasticity (2)

Lecture/Discussion—2 hour(s). Prerequisite(s): Graduate Standing or Consent of Instructor. Core concepts and methods used in studies of learning, memory and plasticity. Behavioral paradigms and measurement approaches in human and animal studies of learning and plasticity, as well as a consideration of the functional, anatomical and neuronal mechanisms underlying brain plasticity. (Same course as NSC 271A, NPB 271A.) (S/U grading only.) Effective: 2019 Fall Quarter.

PSC 271B—Core Concepts & Methods in Learning, Memory, & Plasticity (2)

Lecture/Discussion—2 hour(s). Prerequisite(s): PSC 271A or NPB 271A or NSC 271A. Core concepts and detailed survey methods used in studies of learning, memory and plasticity, from the cellular and molecular level to the level of neural circuits. Areas of learning, memory, and plasticity research where recent progress has been made in linking across these levels of analysis. (Same course as NSC 271B, NPB 271B.) (S/U grading only.) Effective: 2020 Winter Quarter.

PSC 271C—Translational Approaches to Learning, Memory, & Plasticity Disorders (2)

Lecture/Discussion—2 hour(s). Prerequisite(s): PSC 271B or NPB 271B or NSC 271B. Neurological disorders, the effect of these disorders on learning, memory and plasticity, approved therapeutic options and current research designed to improve understanding and treatment of these diseases: (i) the clinical presentation, diagnostic criteria, and existing therapies, (ii) mechanistic studies in humans and animal models, and (iii) molecular pathways involved in the disease and approaches for drug discovery. (Same course as NSC 271C, NPB 271C.) (S/U grading only.) Effective: 2020 Spring Quarter.

PSC 272—Topics in Developmental Psychology (4)

Seminar—4 hour(s). Prerequisite(s): Graduate standing in Psychology or consent of instructor. Selected topics in developmental psychology, including developmental neuroscience, memory development, infancy, cognitive development, social development, child maltreatment, children and law, perceptual development, emotional development, children at risk, and adolescence, with emphasis on developmental processes and developmental theory. May be repeated for credit. Effective: 2005 Fall Quarter.

PSC 289A—Current Research in Psychology (2)

Seminar—2 hour(s). Prerequisite(s): Graduate standing in Psychology or consent of instructor. Contemporary theory and empirical research in specialized topics in psychology. Topics include developmental attachment, social neuroscience, mental health, emotion, sexual orientation and identity. May be repeated for credit when topic differs. Effective: 2007 Winter Quarter.

PSC 289B—Current Research in Psychology (2)

Discussion—2 hour(s). Prerequisite(s): PSC 289A; Graduate standing in Psychology or consent of instructor. Intensive examination of contemporary theory and empirical research on a specialized topic in psychology. Sample topics include developmental attachment, social neuroscience, culture and mental health, electrophysiology and cognitive neuroscience, emotion, implicit cognitive processes, sexual orientation and identity, and attention. May be repeated for credit when topic differs. Effective: 2007 Winter Quarter.

PSC 290—Seminar (4)

Seminar—4 hour(s). Prerequisite(s): Graduate standing in Psychology or consent of instructor. Seminar devoted to a highly specific research topic in any area of basic psychology. Special topic selected for a quarter will vary depending on interests of instructor and students. Effective: 1997 Winter Quarter.

PSC 298—Group Study (1-5)

Variable. (S/U grading only.) Effective: 1997 Winter Quarter.

PSC 299—Research (2-9)

Variable. (S/U grading only.) Effective: 1997 Winter Quarter.

PSC 299D—Dissertation Research (1-12)

Variable. Prerequisite(s): Consent of Instructor. (S/U grading only.) Effective: 1997 Winter Quarter.

PSC 390—The Teaching of Psychology (4)

Seminar—4 hour(s). Prerequisite(s): Consent of Instructor. Advanced graduate standing in Psychology or a closely related discipline. Methods and techniques of teaching undergraduate psychology. Integration of learning outcomes with effective evaluation. Practical experience in the application of pedagogical principles. (S/U grading only.) Effective: 2017 Winter Quarter.

PSC 390A—The Teaching of Psychology (6)

Lecture—6 hour(s); Discussion—6 hour(s); Practice—6 hour(s). Prerequisite(s): Consent of Instructor. Advanced graduate standing in Psychology or a closely related discipline. Methods and problems of teaching psychology at the undergraduate and graduate levels; curriculum design and evaluation. Practical experience in the preparation and presentation of material. (S/U grading only.) Effective: 1997 Winter Quarter.

PSC 390B—The Teaching of Psychology (4)

Discussion—6 hour(s); Lecture—4 hour(s); Practice—2 hour(s). Prerequisite(s): Consent of Instructor. Advanced graduate standing in Psychology or a closely related discipline. Methods and problems of teaching psychology at the undergraduate and graduate levels; curriculum design and evaluation. Practical experience in the preparation and presentation of material. (S/U grading only.) Effective: 1997 Winter Quarter.

PSC 391—Teaching of Psychology Practicum (4)

Seminar—1 hour(s); Fieldwork. Prerequisite(s): PSC 390; or Consent of Instructor. Supervised teaching in undergraduate classrooms. Techniques for delivering content through lectures, discussions, or labs; course administration; communications; assessment of student learning; solving ethical problems; instructional technology. (S/U grading only.) Effective: 2017 Fall Quarter.

PSC 396—Teaching Assistant Training Practicum (1-4)

Variable. Prerequisite(s): Graduate standing. May be repeated for credit. (P/NP grading only.) Effective: 1997 Winter Quarter.

PSU—Plastic Surgery

Courses in PSU:

PSU 460—Clinical Plastic Surgery Elective (1-18)

Clinical Activity. Prerequisite(s): SUR 430; and Consent of Instructor. Third- or fourth-year medical students. Total involvement in patient care involving surgical preparation, treatment, operative care, and follow-up. Developing and understanding reconstruction and aesthetic plastic surgery. Microvascular surgery included. Student rotation. (H/P/F grading only.) Effective: 1997 Winter Quarter.

PSY—Psychiatry

Courses in PSY:

PSY 092—Willow Clinic (1-2)

Clinical Activity—2-6 hour(s); Seminar—1-2 hour(s); Variable. Open to lower division undergraduate students. Student run clinic for undergraduate students interested in learning about and meeting the unique health care needs for the homeless population. May be repeated for credit. (P/NP grading only.) Effective: 2009 Fall Quarter.

PSY 192—Willow Clinic (1-2)

Clinical Activity—2-6 hour(s); Seminar—1-2 hour(s); Lecture—1-2 hour(s). Prerequisite(s): Consent of Instructor. UC Davis enrollment; upper division standing. Student run clinic for upper division students interested in learning about and meeting the unique health care needs for the homeless population. May be repeated for credit. (P/NP grading only.) Effective: 2009 Winter Quarter.

PSY 198—Directed Group Study (1-5)

Variable. Prerequisite(s): Consent of Instructor. Advanced standing. (P/NP grading only.) Effective: 1997 Winter Quarter.

PSY 199—Special Study for Advanced Undergraduates (1-5)

Variable. Prerequisite(s): Consent of Instructor. Advanced standing. (P/NP grading only.) Effective: 1997 Winter Quarter.

PSY 298—Directed Group Study for Graduate Students (1-5)

Variable. Prerequisite(s): Consent of Instructor. Graduate standing. Effective: 1997 Winter Quarter.

PSY 299—Special Study for Graduate Students (1-12)

Variable. Prerequisite(s): Consent of Instructor. Graduate standing. (S/U grading only.) Effective: 1997 Winter Quarter.

PSY 403—Fundamentals of Clinical Psychiatry (3)

Clinical Activity—1 hour(s); Lecture—3 hour(s). Prerequisite(s): Approval of SOM Committee on Student Progress. Restricted to medical student only. Psychiatric interviewing, Mental Status Exam and diagnosis. Major child and adult disorders, including substance abuse and dependence. Weekly student interviews of psychiatric patients in small group format. (P/F grading only.) Effective: 2008 Winter Quarter.

PSY 410—Klingenstein Summer Elective (2.5)

Clinical Activity—20 hour(s). Prerequisite(s): Consent of Instructor. During this "mini-clerkship," fellows will attend clinics, in-patient settings, and clinicians' offices. They will meet weekly to present cases and review current literature, and will complete a summary narrative at the end of their experience. (P/F grading only.) Effective: 2015 Spring Quarter.

PSY 410L—Klingenstein Longitudinal Elective (2)

Clinical Activity—5 hour(s); Discussion/Laboratory—10 hour(s); Discussion—2 hour(s). Prerequisite(s): Consent of Instructor. Year-long mentoring program provides clinical exposure to child and adolescent psychiatric healthcare during a medical student's pre-clinical years. (P/F grading only.) Effective: 2015 Fall Quarter.

PSY 412—Psychiatry Grand Rounds (1)

Lecture—1 hour(s). Prerequisite(s): Medical students or staff or other qualified mental health professionals with consent of instructor. Weekly conference at UCDMC for presentation of selected clinical cases, presentation of lecture and research reports. (H/P/F grading only.) Effective: 1997 Winter Quarter.

PSY 413—Outpatient Psychiatry Clerkship (6)

Clinical Activity—36 hour(s); Conference—2 hour(s); Lecture—2 hour(s). Prerequisite(s): PSY 430; And/or consent of coordinator. Experience in clinical management/treatment of adult outpatients with psychiatric and substance abuse disorders; crisis management/intervention, evaluation/development of diagnosis and treatment plan; emphasis on outpatient psychopharmacology/brief psychotherapy; observation of group therapy. Individual supervision by faculty/residents. (H/P/F grading only.) Effective: 2009 Winter Quarter.

PSY 414—Psychosomatic Medicine Clerkship (3-12)

Clinical Activity—32 hour(s); Discussion—8 hour(s). Prerequisite(s): Psychiatry Clerkship or consent of instructor; medical students only. A large university hospital service in which the student functions as a member of the team in evaluation, management and psychiatric liaison with other medical specialties. Intensive supervision from senior staff and psychiatric residents. May be repeated up to 2 time(s). (H/P/F grading only.) Effective: 2007 Winter Quarter.

PSY 415—Telemedicine Clinical Elective (3-9)

Clinical Activity—20 hour(s). Prerequisite(s): Fourth-year medical student with consent of instructor. Fourth-year medical student elective in Telemedicine focusing on psychiatric issues. Align with University, School and Center for Health and Technology mission of rural outreach and public health, particularly in primary care. May be repeated for credit. (H/P/F grading only.) Effective: 2011 Winter Quarter.

PSY 416—Child Psychiatry Clerkship (6)

Clinical Activity—36 hour(s); Lecture/Discussion—2 hour(s); Conference—2 hour(s). Prerequisite(s): PSY 430; And/or consent of coordinator. Didactic and clinical inpatient, outpatient, and consultation-liaison experiences with children, adolescents and families. Clinical observations, diagnostic assessment, and treatment will be undertaken with close supervision. Literature review and case conferences presented on a regular basis. (H/P/F grading only.) Effective: 2009 Winter Quarter.

PSY 417—Jail Psychiatric Clerkship (6)

Clinical Activity—28 hour(s); Conference—8 hour(s); Lecture—4 hour(s). Prerequisite(s): PSY 430; and/or consent of course coordinator. Students gain experience, under close faculty supervision, assessing acute and chronic mentally ill inmates in both inpatient and clinic settings. (H/P/F grading only.) Effective: 2009 Winter Quarter.

PSY 418—Off-Campus Clinical Experience (3-9)

Clinical Activity—20-40 hour(s). Prerequisite(s): Consent of Instructor. Fourth-year medical students. Clinical or research elective in off-campus medical school or mental health setting. To be arranged with advance approval of instructor and individual in charge of off-campus setting. May be repeated for credit. (H/P/F grading only.) Effective: 2012 Winter Quarter.

PSY 419—Combined Family Medicine-Psychiatry Clerkship (3-6)

Clinical Activity—32 hour(s); Discussion—8 hour(s). Students rotate through the county Primary Care Clinic under the supervision of dual-boarded Psychiatry and Family Practice Faculty to provide medical care of indigent and uninsured patients as well as primary care for psychiatry patients. May be repeated for credit. (H/P/F grading only.) Effective: 2018 Winter Quarter.

PSY 420—Acting Internship in Psychiatry (3-6)

Clinical Activity—40 hour(s). Prerequisite(s): PSY 430; and/or consent of course coordinator. Acting intern position with close faculty supervision with emphasis on biological psychiatry, psychopharmacology and psychodynamic aspects appropriate to diagnostic and long-term patient management. (H/P/F grading only.) Effective: 2016 Summer Quarter.

PSY 421—Combined Internal Medicine-Psychiatry Clerkship (3-6)

Clinical Activity—32 hour(s); Discussion—8 hour(s). Prerequisite(s): Psychiatry Clerkship or consent of instructor; medical students only. Students rotate through the county Primary Care Clinic under the supervision of dual-boarded Psychiatry and Internal Medicine Faculty to provide medical care of indigent and uninsured patients as well as primary care for psychiatry patients. May be repeated for credit. (H/P/F grading only.) Effective: 2018 Winter Quarter.

PSY 422—Readings in Psychiatry (1-3)

Discussion. Independent reading of a selected topic in psychiatry. Supervision and discussion with a psychiatry faculty member. (H/P/F grading only.) Effective: 1997 Winter Quarter.

PSY 423—Willow Clinic (1-12)

Variable—4-10 hour(s). Open to medical students in all four years of medical school. Student-run clinic for medical students interested in learning about and meeting the unique healthcare needs of the homeless population. May be repeated for credit. (P/F grading only.) Effective: 2020 Spring Quarter.

PSY 424—Functional Genomics (2)

Lecture—1 hour(s); Discussion—1 hour(s). Prerequisite(s): Graduate standing or consent of instructor. The theory, methods and principles of functional neurogenomics with emphasis on the relationship to molecular mechanisms involved in development and disease of the nervous system. (H/P/F grading only.) Effective: 2010 Winter Quarter.

PSY 430—Psychiatry Clinical Clerkship (3-12)

Clinical Activity—45 hour(s). Prerequisite(s): Approval by School of Medicine Committee on Student Progress. Assigned to clinical settings, students build upon the skills gained in preclinical years; emphasis on diagnostic, therapeutic and interpersonal skills. Areas of focus—patient management, interviewing skills, mental status exam, differential diagnosis, basic psychopharmacology, crisis assessment, intervention and case. (H/P/F grading only.) Effective: 2020 Spring Quarter.

PSY 430FA—SJVP Longitudinal Psychiatry Clerkship (1.5-6)

Clinical Activity—45 hour(s). Prerequisite(s): Consent of Instructor. Approval by School of Medicine Committee on Student Progress. Longitudinal Clerkship runs concurrently with Family Medicine, Pediatrics and Internal Medicine for 32 weeks. Time is spent in direct patient care situations under the guidance of faculty. (H/P/F grading only.) Effective: 2017 Spring Quarter.

PSY 430FB—SJVP Longitudinal Psychiatry Clerkship (1.5-6)

Clinical Activity—45 hour(s). Prerequisite(s): Consent of Instructor. Approval by School of Medicine Committee on Student Progress. Longitudinal Clerkship runs concurrently with Family Medicine, Pediatrics and Internal Medicine for 32 weeks. Time is spent in direct patient care situations under the guidance of faculty. (H/P/F grading only.) Effective: 2017 Spring Quarter.

PSY 430FC—SJVP Longitudinal Psychiatry Clerkship (1.5-6)

Clinical Activity—45 hour(s). Prerequisite(s): Consent of Instructor. Approval by School of Medicine Committee on Student Progress. Longitudinal Clerkship runs concurrently with Family Medicine, Pediatrics and Internal Medicine for 32 weeks. Time is spent in direct patient care situations under the guidance of faculty. (H/P/F grading only.) Effective: 2017 Spring Quarter.

PSY 430FD—SJVP Longitudinal Psychiatry Clerkship (1.5-6)

Clinical Activity—45 hour(s). Prerequisite(s): Consent of Instructor. Approval by School of Medicine Committee on Student Progress. Longitudinal Clerkship runs concurrently with Family Medicine, Pediatrics and Internal Medicine for 32 weeks. Time is spent in direct patient care situations under the guidance of faculty. (H/P/F grading only.) Effective: 2017 Spring Quarter.

PSY 430R—Rural PRIME Psychiatry Longitudinal Clerkship (2)

Clinical Activity—45 hour(s). Psychiatry Longitudinal Integrated Clerkship for the Rural PRIME Program. (H/P/F grading only.) Effective: 2017 Spring Quarter.

PSY 430RA—Rural PRIME Psychiatry Longitudinal Clerkship (3)

Clinical Activity—45 hour(s). Prerequisite(s): Consent of Instructor. Psychiatry Longitudinal Integrated Clerkship for the Rural PRIME Program. (H/P/F grading only.) Effective: 2017 Spring Quarter.

PSY 430RB—Rural PRIME Psychiatry Longitudinal Clerkship (3)

Clinical Activity—45 hour(s). Prerequisite(s): Consent of Instructor. Psychiatry Longitudinal Integrated Clerkship for the Rural PRIME Program. (H/P/F grading only.) Effective: 2017 Spring Quarter.

PSY 430RC—Rural PRIME Psychiatry Longitudinal Clerkship (3)

Clinical Activity—45 hour(s). Prerequisite(s): Consent of Instructor. Psychiatry Longitudinal Integrated Clerkship for the Rural PRIME Program. (H/P/F grading only.) Effective: 2017 Spring Quarter.

PSY 430RD—Rural PRIME Psychiatry Longitudinal Clerkship (1)

Clinical Activity—45 hour(s). Prerequisite(s): Consent of Instructor. Psychiatry Longitudinal Integrated Clerkship for the Rural PRIME Program. (H/P/F grading only.) Effective: 2017 Spring Quarter.

PSY 430TA—TeachMS Longitudinal Psychiatry Clerkship (A) (4)

Clinical Activity—45 hour(s). Prerequisite(s): Consent of Instructor. Approval by School of Medicine Committee on Student Promotions. Longitudinal Clerkship runs concurrently with Primary Care and Medicine for 24 weeks. Time is spent in direct patient care situations under the guidance of faculty. On-going patient write-ups, rounds, conferences are required. May be repeated for credit. (H/P/F grading only.) Effective: 2013 Fall Quarter.

PSY 430TB—TeachMS Longitudinal Psychiatry Clerkship (B) (6)

Clinical Activity—45 hour(s). Prerequisite(s): Consent of Instructor. Approval by School of Medicine Committee on Student Promotions. Longitudinal Clerkship runs concurrently with Primary Care and Medicine for 24 weeks. Time is spent in direct patient care situations under the guidance of faculty. On-going patient write-ups, rounds, conferences are required. May be repeated for credit. (H/P/F grading only.) Effective: 2013 Fall Quarter.

PSY 430TC—TeachMS Longitudinal Psychiatry Clerkship (C) (2)

Clinical Activity—45 hour(s). Prerequisite(s): Consent of Instructor. Approval by School of Medicine Committee on Student Promotions. Longitudinal Clerkship runs concurrently with Primary Care and Medicine for 24 weeks. Time is spent in direct patient care situations under the guidance of faculty. On-going patient write-ups, rounds, conferences are required. May be repeated for credit. (H/P/F grading only.) Effective: 2013 Fall Quarter.

PSY 439D—Directed Clinical Studies in Psychiatry (1-12)

Clinical Activity—40 hour(s). Prerequisite(s): Consent of Instructor. Individual directed studies in extended preparation for modified curriculum or to complete a clinical rotation following a leave of absence. May be repeated for credit. (P/F grading only.) Effective: 2011 Spring Quarter.

PSY 439R—Directed Studies in Psychiatry (1-12)

Clinical Activity—30 hour(s); Independent Study—10 hour(s). Prerequisite(s): Consent of Instructor. Individual directed studies in extended preparation for remediation of all or part of clinical rotation. Clinical studies to accommodate and satisfy remedial work as directed by the Committee on Student Progress and approved by the course IOR. May be repeated for credit. (P/F grading only.) Effective: 2011 Summer Quarter.

PSY 480—Insights in Psychiatry (1-3)

Clinical Activity—3-9 hour(s). Prerequisite(s): Consent of Instructor. First- or second-year medical student in good academic standing. On individual basis, student provided with an opportunity for gaining insight into various clinical activities in the practice of psychiatry. (H/P/F grading only.) Effective: 1997 Winter Quarter.

PSY 488—Acting Internship in Inpatient Psychiatry, Away Rotation (6)

Clinical Activity—40 hour(s). Prerequisite(s): Psychiatry Clerkship and/or consent of course coordinator. Inpatient acting internship at approved non-UCDHS affiliated training program that provides experience and preparation for ambulatory medical care. Students perform as an intern, with a smaller number of patients, greater supervision, and responsibility for the ongoing care of assigned patients. (H/P/F grading only.) Effective: 2009 Summer Quarter.

PSY 489—Acting Internship in Ambulatory Psychiatry, Away Rotation (6)

Clinical Activity—40 hour(s). Prerequisite(s): Psychiatry Clerkship and/or consent of course coordinator. Outpatient acting internship at an approved non-UCDHS affiliated training program that provides experience and preparation for ambulatory medical care. Students perform as an intern, with smaller number of patients, greater supervision, and responsibility for the ongoing care of assigned patients. (H/P/F grading only.) Effective: 2009 Summer Quarter.

PSY 493—Culture, Medicine & Society (6)

Seminar—12 hour(s); Clinical Activity—16 hour(s); Independent Study—8 hour(s); Discussion—4 hour(s). Prerequisite(s): Consent of Instructor. Restricted to UC Davis School of Medicine students only. Learn about the epidemiological significance of health disparities and barriers to access to health care. Covers: (1) Epidemiology/Health Disparities; (2) Society & Medicine; (3) Cinemeducation; (4) Reflection/Integration. (H/P/F grading only.) Effective: 2007 Spring Quarter.

PSY 498—Directed Group Study (1-5)

Variable. Prerequisite(s): Consent of Instructor. Approved for graduate degree credit. Medical students desiring to explore particular topics in depth. (H/P/F grading only.) Effective: 1997 Winter Quarter.

PSY 499—Research (1-12)

Variable. Prerequisite(s): Consent of Instructor. Approved for graduate degree credit. Individual research on selected topics or research projects. May be repeated for credit. (H/P/F grading only.) Effective: 2017 Fall Quarter.

PTX—Pharmacology & Toxicology

Courses in PTX:

Additional courses that satisfy the breadth and depth requirements of the program are taught under departments of faculty in the group.

PTX 201—Principles of Pharmacology & Toxicology I (5)

Lecture—5 hour(s). Prerequisite(s): BIS 102; NPB 101. First of three courses presenting fundamental principles of pharmacology and toxicology. Introductory overview of basic concepts in pharmacology/toxicology, followed by in-depth blocks on fate processes of chemicals in the body, fate processes in tissue selective responses, selective toxicity employed therapeutically. Effective: 1997 Fall Quarter.

PTX 202—Principles of Pharmacology & Toxicology II (4)

Lecture—4 hour(s). Prerequisite(s): PTX 201. Second of three courses presenting fundamental principles of pharmacology and toxicology. Principles of pharmacodynamics and mechanisms of drug/toxicant actions. Effective: 1999 Winter Quarter.

PTX 203—Principles of Pharmacology & Toxicology III (4)

Lecture—4 hour(s). Prerequisite(s): PTX 201; PTX 202. Integrated physiological systems, cardiovascular and nervous systems and how drugs and toxicants act to perturb function. Effective: 1999 Spring Quarter.

PTX 215—Electrophysiology Techniques & Applications (3)

Lecture—1.5 hour(s); Discussion—1.5 hour(s). Broad scope of topics in electrophysiology techniques and applications. (Same course as MCP 215.) (S/U grading only.) Effective: 2015 Spring Quarter.

PTX 230—Advanced Topics in Pharmacology & Toxicology (1-3)

Lecture—1 hour(s); Discussion—1 hour(s); Seminar—1 hour(s). Prerequisite(s): PTX 201; and Consent of Instructor. In-depth coverage of selected topics for graduate students in Pharmacology-Toxicology and related disciplines. Topics determined by instructor in charge for each quarter. Effective: 1997 Winter Quarter.

PTX 277—Molecular Mechanisms in Cancer & other Diseases (3)

Lecture/Discussion—2 hour(s); Project (Term Project). Prerequisite(s): MCB 121 or MCB 122; Undergraduate or graduate introductory course in cell biology (such as BIS 104), and general biochemistry (MCB 121 or MCB 122) required; PTX 202 recommended. Restricted to graduate standing or consent of instructor. Exploration of cutting edge investigations on the underlying mechanisms of cancer biology, cancer therapy and other diseases. Current medical research in cancer and other diseases, as it spans the bench to bedside. Effective: 2015 Winter Quarter.

PTX 290—Seminar (1)

Variable. Current topics in pharmacology and toxicology. (S/U grading only.) Effective: 1997 Winter Quarter.

PTX 290C—Advanced Research Conference (1)

Lecture/Discussion. Provide credit for participation in and attendance at research conferences. May be repeated up to 3 time(s). (S/U grading only.) Effective: 2011 Fall Quarter.

PTX 299—Research (1-12)

Research with a faculty member in the Pharmacology & Toxicology Graduate Group. May be repeated for credit. (S/U grading only.) Effective: 2003 Winter Quarter.

PUL—Pulmonary Medicine

Courses in PUL:**PUL 192—Internship in Pulmonary Medicine (1-12)**

Internship—3-36 hour(s). Prerequisite(s): Consent of Instructor. Upper division standing; approval of project by preceptor prior to internship. Supervised work experience in pulmonary medicine. May be repeated up to 12 unit(s). (P/NP grading only.) Effective: 1997 Winter Quarter.

PUL 299—Pulmonary Disease Research (1-12)

Laboratory. Prerequisite(s): Consent of Instructor. By arrangement only. Pulmonary disease research activity with focus in inhalation toxicity, oxidants or lung biochemistry, and cell and molecular biology. (S/U grading only.) Effective: 1997 Winter Quarter.

PUL 460—Comprehensive Pulmonary Medicine Clerkship (3-6)

Clinical Activity—40 hour(s). Prerequisite(s): Completion of second year of medical school and/or consent of instructor; completion of Internal Medicine Clerkship. Rotation intended to provide a comprehensive student education in Pulmonary Medicine. Students will participate in hands on clinical education, as well as completing an assigned curricula. Intended for students pursuing Internal Medicine & Primary Care careers. May be repeated for credit. (H/P/F grading only.) Effective: 2013 Summer Quarter.

PUL 461—Critical Care Clinical Clerkship (3-6)

Clinical Activity—40 hour(s). Prerequisite(s): Completion of second year of medical school and/or consent of instructor; completion of Internal Medicine and Surgical Clerkships. Rotation intended to provide student education in the Critical Care Management of sub-specialty patients. May be repeated for credit. (H/P/F grading only.) Effective: 2013 Summer Quarter.

PUL 462—Pulmonary Consult Clerkship (3-6)

Clinical Activity—35 hour(s). Prerequisite(s): Completion of second year of medical school and/or consent of instructor; completion of Internal Medicine Clerkship. Similar to PUL 460. Rotation designed for students interested in learning pulmonary medicine, but who desire more variety in their clerkships, and do not desire the comprehensive experience offered by a four-week pulmonary rotation. May be repeated for credit. (H/P/F grading only.) Effective: 2013 Summer Quarter.

PUL 464—Away Advanced Clerkship in Pulmonary Medicine (3-12)

Clinical Activity. Away advanced clerkship in Pulmonary Medicine. (H/P/F grading only.) Effective: 2019 Summer Quarter.

PUL 470—Practicum in Care of the Terminally Ill (3-6)

Clinical Activity—35 hour(s); Seminar—5 hour(s); Variable—3-6 hour(s). Prerequisite(s): Consent of Instructor. Restricted to fourth-year Medical students in good standing. Work with hospice interdisciplinary team. Direct experience in the care of patients with illnesses where no cure is possible. Emphasis on symptom relief, end of life issues, physician assisted suicide. (H/P/F grading only.) Effective: 2010 Spring Quarter.

PUL 475—Encounters in Ethics in the ICU (3-6)

Clinical Activity—12 hour(s); Lecture/Discussion—6 hour(s); Independent Study—6 hour(s). Prerequisite(s): Fourth-year Medical Student. Care for critically ill adults with complex medical disease carries with it unique ethical roles and duties for the physician. May be repeated for credit. (H/P/F grading only.) Effective: 2011 Summer Quarter.

PUL 480—Pulmonary-Critical Care Medicine Insights (1-3)

Clinical Activity—3-9 hour(s). Prerequisite(s): Consent of Instructor. Student in good academic standing. Attend respiratory outpatient clinics and in-patient pulmonary consultation rounds and medical intensive care rounds. Introduction to diagnosis and treatment of common pulmonary problems. (H/P/F grading only.) Effective: 1997 Winter Quarter.

PUL 499—Research (1-12)

Variable. Prerequisite(s): Consent of Instructor. Research opportunity in Pulmonary Medicine. May be repeated for credit. (H/P/F grading only.) Effective: 2017 Fall Quarter.

RAL—Rheumatology & Allergy

Courses in RAL:

RAL 099—Directed Research Immunology (1-5)

Laboratory. Prerequisite(s): Consent of Instructor. Independent research will be encouraged in basic immunology, including the role of the cellular immune system in oncogenesis. (P/NP grading only.) Effective: 1997 Winter Quarter.

RAL 192—Internship in Rheumatology-Allergy (1-12)

Internship—3-36 hour(s). Prerequisite(s): Upper division standing; approval of project by preceptor prior to internship. Supervised work experience in rheumatology-allergy. May be repeated up to 12 unit(s). (P/NP grading only.) Effective: 1997 Winter Quarter.

RAL 199—Directed Research in Immunology (1-5)

Laboratory. Prerequisite(s): Consent of Instructor. Independent research will be encouraged in basic immunology, including the role of the cellular immune system in oncogenesis. (P/NP grading only.) Effective: 1997 Winter Quarter.

RAL 209—Current Topics in Immunology: From Presentations to Grants (3)

Lecture—1 hour(s); Term Paper/Discussion—1 hour(s); Project (Term Project)—1 hour(s). Prerequisite(s): IMM 201. Current developments in various aspects of immunology and their interrelationships. Focus on areas of immunology not currently covered in the basic and advanced immunology courses. Oral presentation, written review and grant preparation. Effective: 2008 Winter Quarter.

RAL 298—Topics in Rheumatology & Clinical Immunology (1-5)

Laboratory. Prerequisite(s): Consent of Instructor. Library and/or laboratory work as required. (S/U grading only.) Effective: 1997 Winter Quarter.

RAL 299—Research in Autoimmune Disease (1-12)

Laboratory. Prerequisite(s): Consent of Instructor. Independent research will be encouraged in both animal models of human disease (including congenitally athymic [nude], asplenic, and New Zealand mice) and the cellular immune system of patients with systemic lupus erythematosus, Sjögrens syndrome, polymyositis and drug hypersensitivity. (S/U grading only.) Effective: 1997 Winter Quarter.

RAL 460—Rheumatology Clinical Clerkship (1-18)

Clinical Activity—2-40 hour(s). Prerequisite(s): MDS 431 and Consent of Instructor. Participation with members of the subspecialty service in the diagnosis and therapeutic management of patients with rheumatologic diseases. May be repeated for credit. (H/P/F grading only.) Effective: 2009 Spring Quarter.

RAL 461—Allergy Clinical Clerkship (3-18)

Clinical Activity. Prerequisite(s): Consent of Instructor. Completion of second year of medical school. Student will work with practicing allergist in daily work with patients and participate in weekly allergy clinic and teaching conferences. Study of the literature. Will see patients with problems in clinical immunology, immunodeficiency, asthma, allergic rhinitis. (H/P/F grading only.) Effective: 1997 Winter Quarter.

RAL 480—Insights in Rheumatology (1-3)

Clinical Activity—3-9 hour(s). Prerequisite(s): Consent of Instructor. Student in good academic standing. Participation in rheumatology consultation rounds, rheumatic disease clinics and conferences with supervised readings in rheumatology. (S/U grading only.) Effective: 1997 Winter Quarter.

RAL 499—Research (1-12)

Variable—2-40 hour(s). Prerequisite(s): Medical student with consent of instructor. Part-time participation in active clinical and basic research projects which can involve both patient care and relevant laboratory procedures. Students can gain experience in clinical medicine and clinical investigation. May be repeated for credit. (H/P/F grading only.) Effective: 2009 Spring Quarter.

RDI—Radiology-Diagnostic

Courses in RDI:

RDI 413—Radiological Diagnosis II (Physics of Diagnostic Radiology) (5)

Lecture—49 hour(s); Laboratory—6 hour(s). Prerequisite(s): Consent of Instructor. Physics of diagnostic imaging; x-ray production and interaction; image formation; modulation transfer function; fluoroscopy; cine fluoroscopy; stereoscopy; xeroradiography; computerized and geometrical tomography; magnetic resonance and ultrasound. Principles of radiation protection in imaging will be covered. (H/P/F grading only.) Effective: 1997 Winter Quarter.

RDI 414—Medical Radiation Biology (3)

Lecture—27 hour(s). Prerequisite(s): Consent of Instructor. Medical radiation biology; molecular cellular and organ system response to acute and chronic irradiation; radiation carcinogenesis and genetic effects; radiation risk assessment; diagnostic ultrasound and magnetic resonance imaging health effects. Medical/legal considerations of radiation exposure. (H/P/F grading only.) Effective: 1997 Winter Quarter.

RDI 430—Introduction to Clinical Radiology (3-6)

Variable. Prerequisite(s): Consent of Instructor. Introduces students to common radiology tests, including limitations and risks by using ACR Appropriateness Criteria and incorporate patient specific clinical data into ordering and interpreting appropriate imaging tests. (H/P/F grading only.) Effective: 2017 Fall Quarter.

RDI 461—Advanced Clinical Clerkship in Diagnostic Radiology (3-6)

Clinical Activity—35 hour(s); Conference—4 hour(s); Discussion/Laboratory—1 hour(s). Prerequisite(s): Consent of Instructor. Satisfactory completion of second-year medical school curriculum and of third-year clerkships in Internal Medicine and General Surgery. Restricted to eight students per rotation; open to visiting medical students from accredited programs. Work with clinical Radiologists in image interpretation fluoroscopy angiography image-guided intervention cardiac stress testing radionuclide therapy. Daily conferences in Radiology Diagnosis and Therapy Health Physics Radiation Safety. Prepare two clinical cases for in-class presentation. Assigned readings. May be repeated for credit. (H/P/F grading only.) Effective: 2014 Spring Quarter.

RDI 462—Diagnostic Imaging of Acquired & Congenital Heart Disease (2)

Lecture/Discussion—5 hour(s). Prerequisite(s): RDI 461 (can be concurrent); Fourth-year medical student in good academic standing. Main emphasis on radiology of acquired and congenital heart disease, but also on magnetic resonance, nuclear medicine, and echocardiography of heart diseases. (H/P/F grading only.) Effective: 1997 Winter Quarter.

RDI 473—Advanced Clinical Clerkship in Neuroradiology (3-6)

Clinical Activity—35 hour(s); Conference—4 hour(s); Independent Study—1 hour(s); Variable—9-18 hour(s). Prerequisite(s): Fourth-year medical student with interest in Diagnostic Radiology, Neuroradiology, Neurology, Neurosurgery, Psychiatry, Psychology, or related field; satisfactory completion of RDI 461, or the equivalent, is strongly encouraged. Restricted to one student per two-week or four-week rotation. Work with Neuroradiologists in image interpretation of CT, MRI, and fluoroscopy. Opportunity to participate in assessment of Neurointerventional patients, and to observe Neurointerventional procedures. Daily conferences in Neuroimaging, General Radiology, Health Physics, and Radiology Safety. Assigned readings. May be repeated for credit. Credit limited to 3 units for two weeks; 6 units for four weeks. (H/P/F grading only.) Effective: 2014 Spring Quarter.

RDI 474—Advanced Clinical Clerkship in Pediatric Radiology (3-6)

Clinical Activity—30 hour(s); Conference—5 hour(s); Film Viewing—3 hour(s); Independent Study—2 hour(s). Prerequisite(s): Fourth-year medical students with interest in Radiology and/or Pediatrics; interested third-year medical students who have successfully completed Pediatrics clinical clerkships may enroll, given availability and consent of the instructor of record; prior completion of PDI 461, or the equivalent, encouraged. Restricted to two students per two-week or four-week rotation. Participation in the radiological care of Pediatric patients; evaluate the patient receiving the radiographic study, including pertinent historical/physical findings. Student expected to write up case files on interesting cases encountered during their rotation. May be repeated for credit. Credit limited to 3 units for two weeks; 6 units for four weeks. (H/P/F grading only.) Effective: 2014 Spring Quarter.

RDI 475—Advanced Clinical Clerkship in Musculoskeletal Radiology (MSK) (3-6)

Clinical Activity—35 hour(s); Conference—4 hour(s); Discussion/Laboratory—1 hour(s); Variable—9-18 hour(s). Prerequisite(s): Fourth-year medical student with interest in Musculoskeletal Radiology, Orthopedic Surgery, Sports Medicine, PMNR, or related field; satisfactory completion of RDI 461, or the equivalent, is strongly encouraged. Restricted to one student per two-week or four-week rotation. Work with Musculoskeletal Radiologists in interpretation of CT, MRI, radiography, and fluoroscopy. Opportunity to assess patients for, and to observe image-guided procedures. Daily conferences in Musculoskeletal Imaging, General Radiology, Health Physics, and Radiology Safety. Assigned readings. May be repeated for credit. Credit limited to 3 units for two weeks; 6 units for four weeks. (H/P/F grading only.) Effective: 2014 Spring Quarter.

RDI 476—Advanced Clinical Clerkship Vascular/Interventional Radiology (IR) (3-6)

Clinical Activity—35 hour(s); Conference—4 hour(s); Discussion/Laboratory—1 hour(s); Variable—9-18 hour(s). Prerequisite(s): Fourth-year medical student with interest in Diagnostic Radiology, Vascular/Interventional Radiology, Cardiovascular Imaging, Cardiology, Cardiovascular Surgery, Surgical Oncology, General Surgery, or related field; satisfactory completion of RDI 461, or the equivalent, is strongly encouraged. Restricted to one student per two-week or four-week rotation. Medical student will work with Vascular/Interventional Radiologists in the evaluation of patients for interventional procedures. There will be opportunities to Daily conferences in Neuroimaging, General Radiology, Health Physics, and Radiology Safety. Assigned readings. May be repeated for credit. Credit limited to 3 units for two weeks; 6 units for four weeks. (H/P/F grading only.) Effective: 2014 Spring Quarter.

RDI 477—Advanced Clinical Clerkship in Ultrasound Radiology (3-6)

Clinical Activity—30 hour(s); Conference—5 hour(s); Film Viewing—3 hour(s); Variable—9-18 hour(s). Prerequisite(s): Fourth-year medical student with interest in Radiology, OB/GYN, or in other medical or surgical subspecialties employing ultrasound in their clinical practice; prior completion of RDI 461, or the equivalent, is encouraged. Restricted to two students per two-week or four-week rotation. Participation as an active team member on a busy clinical ultrasound service. May be repeated for credit. (H/P/F grading only.) Effective: 2016 Summer Quarter.

RDI 478—Advanced Clinical Clerkship Abdominal Imaging (3-6)

Clinical Activity—35 hour(s); Conference—4 hour(s); Discussion/Laboratory—1 hour(s); Variable—9-18 hour(s). Restricted to one student per two-week or four-week rotation. Work with clinical Radiologists on abdominal and pelvic CT, MR, ultrasound, digital radiography, gastrointestinal and genitourinary procedures, image-guided intervention. Offered as a two-week rotation for third-year medical students and a two/four-week rotation for fourth-year medical students. May be repeated for credit. Credit limited to 3 units for two weeks; 6 units for four weeks. (H/P/F grading only.) Effective: 2014 Spring Quarter.

RDI 479—Specialty Externship in Radiology (3-16)

Clinical Activity—25 hour(s); Discussion—10 hour(s). Externship provides in-depth exposure to one of a variety of sub-specialties in Radiology. May be repeated for credit. (H/P/F grading only.) Effective: 2011 Winter Quarter.

RDI 480—Away Acting Internship in Radiology (3-6)

Clinical Activity—40 hour(s). Prerequisite(s): Consent of Instructor. Away Acting Internship rotation for Radiology and Nuclear Medicine. May be repeated for credit. (H/P/F grading only.) Effective: 2018 Spring Quarter.

RDI 498—Group Study in Diagnostic Radiology (1-12)

Variable. Prerequisite(s): Consent of Instructor. (H/P/F grading only.) Effective: 1997 Winter Quarter.

RDI 499—Research in Diagnostic Radiology (1-12)

Variable. Prerequisite(s): Consent of Instructor. Approved for graduate degree credit. May be repeated for credit. (H/P/F grading only.) Effective: 2017 Fall Quarter.

REL—Study of Religion

Courses in REL:

REL 200A—Historical Roots of the Study of Religion (4)

Seminar—3 hour(s); Term Paper. Prerequisite(s): Graduate standing or consent of instructor. Consideration of the historical and philosophical formation of religion as a concept. Treats the emergence of religion as a category of analysis and understanding from the Reformation through the Enlightenment. Effective: 2013 Fall Quarter.

REL 200B—Foundational Theories of Religion (4)

Seminar—3 hour(s); Term Paper. Prerequisite(s): Graduate standing or consent of instructor. Survey of classical 19th and 20th century approaches to the study of religion. Effective: 2013 Fall Quarter.

REL 200C—Contemporary Approaches to the Study of Religion (4)

Seminar—3 hour(s); Term Paper. Prerequisite(s): Graduate standing or consent of instructor. Consideration of major themes, issues and methods in the contemporary study of religion. Perspectives from diverse cultural settings employed to consider modern historical, philosophical, and social contexts that inform understandings of religion. Effective: 2013 Fall Quarter.

REL 200D—Field Profile Seminar I & II (1-2)

Project (Term Project). Individually guided research to survey the field of study, under the supervision of a faculty member. Four units total over two or more quarters are required by the end of the second year. May be repeated for credit. Effective: 2013 Fall Quarter.

REL 210A—Special Topics in American Religious Cultures (4)

Seminar—3 hour(s); Term Paper. Prerequisite(s): Graduate standing or consent of instructor. Comparative, interpretive study of the treatment of specific topics in American religious cultures. May be repeated for credit when topic differs. Effective: 2013 Fall Quarter.

REL 210B—Special Topics in Asian Religious Cultures (4)

Seminar—3 hour(s); Term Paper. Prerequisite(s): Graduate standing or consent of instructor. Comparative, interpretive study of the treatment of specific topics in Asian religious cultures. May be repeated for credit when topic differs. Effective: 2013 Fall Quarter.

REL 210C—Special Topics in Mediterranean Religious Cultures (4)

Seminar—3 hour(s); Term Paper. Prerequisite(s): Graduate standing or consent of instructor. Comparative, interpretive study of the treatment of specific topics in Mediterranean religious cultures. May be repeated for credit when topic differs. Effective: 2013 Fall Quarter.

REL 230A—Thematic Topics: Body & Praxis (4)

Seminar—3 hour(s); Term Paper. Prerequisite(s): Graduate standing or consent of instructor. Comparative, interpretive study of the treatment of religion through specific topics and themes relating to the body and praxis. May be repeated for credit when topic differs. Effective: 2013 Fall Quarter.

REL 230B—Thematic Topics: Language, Rhetoric, & Performance (4)

Seminar—3 hour(s); Term Paper. Prerequisite(s): Graduate standing or consent of instructor. Comparative, interpretive study of the treatment of religion through specific topics and themes relating to language, rhetoric, and performance. May be repeated for credit when topic differs. Effective: 2013 Fall Quarter.

REL 230C—Thematic Topics: Modernity, Science, & Secularism (4)

Seminar—3 hour(s); Term Paper. Prerequisite(s): Graduate standing or consent of instructor. Comparative, interpretive study of the treatment of religion through specific topics and themes relating to modernity, science, and secularism. May be repeated for credit when topic differs. Effective: 2013 Fall Quarter.

REL 230D—Thematic Topics: Theory & Method (4)

Seminar—3 hour(s); Term Paper. Prerequisite(s): Graduate standing or consent of instructor. Comparative, interpretive study of the treatment of religion through specific topics and themes relating to theory and method. May be repeated for credit when topic differs. Effective: 2013 Fall Quarter.

REL 230E—Thematic Topics: Values, Ethics, & Human Rights (4)

Seminar—3 hour(s); Term Paper. Prerequisite(s): Graduate standing or consent of instructor. Comparative, interpretive study of the treatment of religion through specific topics and themes relating to values, ethics, and human rights. May be repeated for credit when topic differs. Effective: 2013 Fall Quarter.

REL 230F—Thematic Topics: Visual Culture, Media, & Technology (4)

Seminar—3 hour(s); Term Paper. Prerequisite(s): Graduate standing or consent of instructor. Comparative, interpretive study of the treatment of religion through specific topics and themes relating to visual culture, media, and technology. May be repeated for credit when topic differs. Effective: 2013 Fall Quarter.

REL 231B—Theories of Language (4)

Seminar—3 hour(s); Term Paper. Prerequisite(s): Graduate standing. Restricted to graduate students. Focuses on historical theories of language that precede and accompany post-structuralist theory. Intended to introduce graduate students to the context of modern theory formation. May cover structuralism, integrationalism, and grammaticalization. Effective: 2015 Spring Quarter.

REL 231E—History, Theory & Criticism of Human Rights (4)

Seminar—3 hour(s); Term Paper. Prerequisite(s): Graduate standing or consent of instructor. Restricted to graduate students. Introduces the advanced study of Human Rights and the theoretical and practical elaboration of the international Human Rights system. Seminar engages with criticism of Human Rights and develops research and teaching within disciplinary and interdisciplinary frameworks. (Same course as HMR 200A.) Effective: 2013 Fall Quarter.

REL 298—Group Study (1-5)

Variable. Prerequisite(s): Graduate standing or consent of instructor. Group Study May be repeated for credit. (S/U grading only.) Effective: 2013 Fall Quarter.

REL 299—Research (1-12)

Variable. Prerequisite(s): Graduate standing or consent of instructor. Research May be repeated for credit. (S/U grading only.) Effective: 2012 Fall Quarter.

REL 299D—Dissertation Writing (1-12)

Variable. Prerequisite(s): Consent of Instructor. Advanced to candidacy for the Ph.D. program. Dissertation Writing. May be repeated for credit. (S/U grading only.) Effective: 2013 Fall Quarter.

RNU—Radiology-Nuclear Medicine

Courses in RNU:

RNU 198—Directed Group Study (1-5)

Variable. Prerequisite(s): Consent of Instructor. Upper division standing. (P/NP grading only.) Effective: 1997 Winter Quarter.

RNU 199—Special Study for Advanced Undergraduates (1-5)

Variable. Prerequisite(s): Consent of Instructor. Upper division standing. (P/NP grading only.) Effective: 1997 Winter Quarter.

RNU 299—Research: Special Study for Graduate Students (1-12)

Variable. Prerequisite(s): Consent of Instructor. Graduate standing. (S/U grading only.) Effective: 1997 Winter Quarter.

RNU 401—Biomedical Radiochemistry (3)

Lecture—2 hour(s); Laboratory—3 hour(s). Prerequisite(s): Consent of Instructor. Open to graduate and medical students. Approved for graduate degree credit. Designed to combine basic nuclear physics, chemistry, and biology into a comprehensive and vigorous lecture-laboratory experience in biomedical nuclear chemistry. Subjects include choice and purification of appropriate gamma & beta radioisotopes, compounding biological pharmacodynamics and radioimmunoassay. (H/P/F grading only.) Effective: 1997 Winter Quarter.

RNU 411—Radiological Physics I (Physics of Nuclear Medicine) (5)

Lecture—43 hour(s); Laboratory—12 hour(s). Prerequisite(s): Consent of Instructor. Physics of diagnostic and therapeutic nuclear medicine, nuclear physics, radioactive decay; interaction of ionizing radiation; dosimeters; attenuation; internal and external dosimetry; health physics; radiation detection and imaging, scintillation cameras, computerized planar and tomographic imaging. Offered at UC Davis Medical Center. (H/P/F grading only.) Effective: 1997 Winter Quarter.

RNU 463—Clinical Clerkship in Nuclear Medicine (3-8)

Clinical Activity. Prerequisite(s): Consent of Instructor. Satisfactory completion of second-year medical school; RDI 461 recommended. Limited enrollment. Clerkship correlates radioisotopic methods with clinical, pathophysiological, and other diagnostic aspects of the patients care. Each patient reviewed with student by faculty member. Reading assignments, informal projects, and research techniques available. (H/P/F grading only.) Effective: 1999 Spring Quarter.

RNU 498—Group Study in Nuclear Medicine (1-12)

Variable. Prerequisite(s): Consent of Instructor. Approved for graduate degree credit. (H/P/F grading only.) Effective: 1997 Winter Quarter.

RNU 499—Research in Nuclear Medicine (1-12)

Variable. Prerequisite(s): Consent of Instructor. Research in Nuclear Medicine. May be repeated for credit. (H/P/F grading only.) Effective: 2017 Fall Quarter.

RON—Radiation Oncology

Courses in RON:

RON 199—Special Study for Advanced Undergraduates: Research in Radiation Biology (1-5)

Variable—3-15 hour(s). Radiation Oncology is a unique discipline combining elements of clinical practice linked to complex physics based dosimetry and treatment planning. Included within this clinical environment is a strong basis in biology that underpins the clinical effectiveness of radiation treatment. May be repeated for credit. (P/NP grading only.) Effective: 2010 Fall Quarter.

RON 211—Introduction to Radiation Oncology Physics (3-6)

Variable. Prerequisite(s): Consent of Instructor. Restricted to physics and engineering graduate students and senior undergraduate physics majors. Limited to 3 students. Introduction to radiation oncology physics. Overview of treatment methodologies. Medical physics equipment. Treatment machine dosimetry, including calibration. Machine quality assurance. Patient dosimetry. Treatment planning. Simulation and treatment. Treatment quality assurance, including calculation checks and chart checks. Brachytherapy. (S/U grading only.) Effective: 2008 Fall Quarter.

RON 299—Independent Study & Research (1-12)

Laboratory—3-40 hour(s). Prerequisite(s): Enrollment with a graduate group for Ph.D. candidacy and consent of group advisor and sponsor. Research under supervision of Radiation Oncology faculty. Work must be appropriate to fulfill the requirements for the Ph.D. degree. (S/U grading only.) Effective: 2012 Fall Quarter.

RON 420—Radiobiology Lecture Course (1)

Lecture—1 hour(s). Prerequisite(s): BIS 001A; MAT 012; PHY 001A. Radiobiology lectures are designed to engage the physician residents, physics residents and medical students in learning Radiobiology principles and concepts during the year the Radiation Physics course is taught. May be repeated up to 2 time(s). (H/P/F grading only.) Effective: 2011 Winter Quarter.

RON 463—Radiation Oncology Clerkship (3-9)

Clinical Activity—30 hour(s). Prerequisite(s): MDS 430; MDS 431; third-year clinical clerkship; consent of instructor required. Introduction to radiation oncology. Students will participate in workup and treatment planning for radiation oncology patients and will be introduced to the concepts involved in clinical radiation oncology, radiation biology, and radiation physics. May be repeated for credit. (H/P/F grading only.) Effective: 2012 Summer Quarter.

RON 464—Radiation Oncology Away Clerkship (3-9)

Clinical Activity—30 hour(s). Away Advanced Clerkship in Radiation Oncology. (H/P/F grading only.) Effective: 2019 Summer Quarter.

RON 465—Externship in Radiation Oncology (3-16)

Clinical Activity—30 hour(s). Prerequisite(s): Consent of Instructor. Externship provides in-depth exposure to the field of Radiation Oncology for students who rotation through an affiliated institution. May be repeated for credit. (H/P/F grading only.) Effective: 2015 Spring Quarter.

RON 499—Independent Study & Research in Therapeutic Radiology (1-18)

Variable—3-40 hour(s). Prerequisite(s): Consent of Instructor. Advanced-level research seminar in clinical and/or translational radiation oncology. Work with the course instructor to generate a testable hypothesis. May be repeated for credit. (H/P/F grading only.) Effective: 2014 Fall Quarter.

RST—Religious Studies

Courses in RST:

RST 001—Survey of Religion (4)

Lecture—3 hour(s); Discussion—1 hour(s). Basic concepts introduced through readings of the primary religious literature. Discussion of central ideas (creation, history, law, prophecy, suffering, mysticism, asceticism, karma, reincarnation, moksha, etc.); readings from the Bible, Bhagavad Gita, the Koran, selections from Plato and early Buddhist writings. GE credit: ACGH, AH, DD, OL, VL, WE. Effective: 1997 Winter Quarter.

RST 001A—Pilgrimage (4)

Lecture—3 hour(s); Discussion—1 hour(s). Introduction to comparative religion, focusing on the theme of pilgrimage in different religious traditions. Not open to students who have taken RST 003A. GE credit: AH, WC, WE. Effective: 2013 Spring Quarter.

RST 001B—Death & Afterlife (4)

Lecture—3 hour(s); Discussion—1 hour(s). Introduction to comparative religion, focusing on the theme of death and the afterlife in different religious traditions. Not open to students who have taken RST 003B. GE credit: AH, OL, VL, WC, WE. Effective: 2013 Spring Quarter.

RST 001C—Sacrifice (4)

Lecture—3 hour(s); Discussion—1 hour(s). Introduction to comparative religion, focusing on the theme of sacrifice in different religious traditions. Not open to students who have taken RST 003C. GE credit: AH, OL, VL, WC, WE. Effective: 2013 Spring Quarter.

RST 001D—Conversion (4)

Lecture—3 hour(s); Discussion—1 hour(s). Introduction to comparative religion, focusing on the theme of conversion in different religious traditions. Not open to students who have taken RST 003D. GE credit: AH, WC, WE. Effective: 2013 Spring Quarter.

RST 001E—Fundamentalism (4)

Lecture—3 hour(s); Discussion—1 hour(s). Introduction to comparative religion, focusing on the idea of fundamentalism in different religious traditions. No credit given to students that have taken RST 003E. GE credit: AH, DD, OL, SS, WE. Effective: 2017 Fall Quarter.

RST 001F—Religion Today (4)

Lecture—3 hour(s); Discussion—1 hour(s). Introduction to comparative religion, focusing on different religious traditions in the contemporary world. GE credit: AH, DD, WC, WE. Effective: 2013 Spring Quarter.

RST 001G—Myth, Ritual, & Symbolism (4)

Lecture—3 hour(s); Discussion—1 hour(s). Myths, rituals and religious symbols found in a variety of religious traditions including examples from ancient and contemporary religious life. Variety of religious phenomena; validity of different approaches to the study of religion. Not open to students who have taken and received unit credit for RST 002. GE credit: AH, OL, VL, WC, WE. Effective: 2009 Fall Quarter.

RST 001H—Sex, Marriage, & Divorce in Medieval & Modern Society (4)

Lecture—3 hour(s); Discussion—1 hour(s). Methods used in the study of religion, focusing on a particular theme in a number of religious traditions. GE credit: AH, OL, WC, WE. Effective: 2015 Winter Quarter.

RST 001J—Music, Voice, & the Word (4)

Lecture—3 hour(s); Discussion—1 hour(s). Exploration of relation between religion and musical traditions in various cultures. Investigation of ways music, vocal performance and sound production reflect and shape modern religious sensibilities. Special attention to gender, ethnicity, race, class, nationalism, secularism and mass media. GE credit: AH, WC. Effective: 2015 Spring Quarter.

RST 005—Comparative Religion (2)

Lecture—2 hour(s). Comparative Religion based on rotating topics such as Dreams and Revelations, Evil, Prophecy, Salvation, and Crime and Punishment. May be repeated for credit when topic differs. GE credit: AH, WE. Effective: 2018 Winter Quarter.

RST 006—Introduction to Health Sciences & the Humanities (4)

Lecture/Discussion—3 hour(s); Extensive Writing. Humanities in the health sciences focusing on illness, the practice of medicine, and the role of culture in biomedical research. GE credit: ACGH, AH, DD, SS, WE. Effective: 2018 Spring Quarter.

RST 010—Contemporary Ethical Issues (2)

Lecture—2 hour(s). Presents challenging, contemporary ethical issues from a multi-cultural perspective. Rotating topics will include Ethical Eating, Capital Punishment, Euthanasia, Poverty, and Animal Rights. May be repeated for credit. GE credit: AH, WE. Effective: 2012 Fall Quarter.

RST 010A—Contemporary Ethical Issues (2)

Discussion—1 hour(s); Extensive Writing. Prerequisite(s): RST 010 (can be concurrent); RST 010 required concurrently; GE topical breadth and diversity credit only with concurrent enrollment in RST 010. Concurrent enrollment in RST 010 required. Discussion of the readings assigned for RST 010 and completion of a major research paper. May be repeated for credit. GE credit: AH, WE. Effective: 2019 Fall Quarter.

RST 011—Ethical Eating (4)

Lecture—3 hour(s); Term Paper/Discussion—1 hour(s). Introduction to the complex and varied ethical, religious, and cultural meanings that food has had across the centuries and globe. GE credit: AH, OL, VL, WC, WE. Effective: 2014 Winter Quarter.

RST 012—Emergence of Judaism, Christianity & Islam (4)

Lecture—3 hour(s); Discussion—1 hour(s). History of religion in the ancient Near East and Mediterranean, from the Persian period through the rise of Islam. Emphasis on historical and social contexts of the formation of new traditions, in particular Judaism, Christianity, and Islam. GE credit: AH, OL, WC, WE. Effective: 2012 Winter Quarter.

RST 015Y—Reading War/Fighting War (4)

Lecture—2 hour(s); Web Electronic Discussion—1 hour(s); Extensive Writing. Introduction to both classic religious texts about war and a set of actual scenarios drawn from the experience and training of soldiers in recent military conflicts. GE credit: ACGH, AH, DD, OL, VL, WC, WE. Effective: 2013 Spring Quarter.

RST 021—The Bible & Its Interpreters (4)

Lecture—3 hour(s); Term Paper/Discussion. Introduction to the Hebrew Bible (Old Testament): key narratives and themes (creation, flood, prophecy, justice, sexuality, etc.); origins in Ancient Israel; diverse ways it has been interpreted in Jewish and Christian communities. GE credit: AH, WC, WE. Effective: 2018 Fall Quarter.

RST 023—Introduction to Judaism (4)

Lecture/Discussion—3 hour(s); Term Paper. Introduction to the study of religion using examples from the rituals, art and holy texts of Judaism. No prior knowledge of either Judaism or the study of religion is necessary. GE credit: ACGH, AH, DD, WC, WE. Effective: 1997 Winter Quarter.

RST 030—Religions of South Asia (4)

Lecture—3 hour(s); Discussion—1 hour(s). Introduction to South Asian religions, including Hinduism, Buddhism, Islam, Jainism and Sikhism. Traces historical developments from Vedic texts and their ascetic reformulation by sages such as Yajnavalkya, Siddhartha Gautama, and Mahavira into our global present. GE credit: AH, VL, WC, WE. Effective: 2014 Winter Quarter.

RST 031—Introduction to Jainism (4)

Lecture—3 hour(s); Discussion—1 hour(s). Introduction to topics central to Jain tradition through critical, historical and ethical perspectives. GE credit: AH, WC, WE. Effective: 2020 Winter Quarter.

RST 032—History of Yoga (4)

Lecture—3 hour(s); Discussion—1 hour(s). History of yoga from antiquity to its most recent formulation in American popular and consumer culture. GE credit: AH, DD, WC, WE. Effective: 2020 Winter Quarter.

RST 033—Magic & Demons in South Asia (4)

Lecture/Discussion—3 hour(s); Extensive Writing. Exploration of magic, demons, and other powers in South Asian religions from the ancient to the modern periods. GE credit: AH, WC, WE. Effective: 2019 Fall Quarter.

RST 040—New Testament (4)

Lecture—3 hour(s); Discussion—1 hour(s). New Testament literature from critical, historical, and theological perspectives. GE credit: AH, WC, WE. Effective: 1997 Winter Quarter.

RST 042—Religion & Science Fiction (4)

Lecture—3 hour(s); Term Paper. Representations of actual and fictional religious movements in science fiction and fantasy writing and film. Examination of: the characteristics of religion and religiosity in fictional religious movements; the relationship between religion, science, and technology in modern speculative fiction. GE credit: AH, VL, WE. Effective: 2014 Winter Quarter.

RST 045—Christianity (4)

Lecture/Discussion—3 hour(s); Term Paper/Discussion. Major concepts and practices in the Christian tradition. Survey of the history of Christianity and Christian expansion from antiquity to modern times. Pays particular attention to Christianity in China, India, Africa, the Middle East, and Latin America. GE credit: AH, VL, WC, WE. Effective: 2012 Fall Quarter.

RST 060—Introduction to Islam (4)

Lecture/Discussion—3 hour(s); Term Paper/Discussion—1 hour(s). Introduction to topics central to the Islamic tradition. Muhammad, the Qur'an, Islamic law, theology, philosophy, cosmology, worship, and mysticism. Race and gender in Islam, Islamic revival, and varying experiences of Islam in different historical and cultural settings. GE credit: AH, SS, WC, WE. Effective: 2014 Winter Quarter.

RST 065C—The Qur'an & Its Interpretation (4)

Lecture/Discussion—3 hour(s); Extensive Writing. The Qur'an, its history, its various functions in the lives of Muslims, and its different interpretations. Quranic themes such as God and humankind, nature and revelation, eschatology and Satan. Islam and other religions; women, gender, and sexuality. GE credit: AH, WC, WE. Effective: 2005 Spring Quarter.

RST 066—The Song of God: The Bhagavad Gita (4)

Lecture—3 hour(s); Discussion—1 hour(s). The Bhagavad Gita, its history and reception, and its significance in the lives of Hindus. Themes explored include Hindu theories of god, self, war, peace, duty, and action. GE credit: AH, OL, WC, WE. Effective: 2019 Fall Quarter.

RST 067—Modern Hinduism (4)

Lecture/Discussion—3 hour(s); Term Paper. Historical survey of modern Hinduism from the early-19th century to the present. Topics include Rammohun Roy, Sir William Jones, and Mahatma Gandhi, nationalism, post-colonialism and diasporic religion. GE credit: AH, SS, VL, WC, WE. Effective: 2011 Winter Quarter.

RST 068—Hinduism (4)

Lecture—3 hour(s); Extensive Writing. Hindu tradition from ancient to modern times. Multiplicity of religious forms within Hinduism with mention of Jainism, Buddhism, and Sikhism and their relation to the mainstream of Hindu religion. GE credit: AH, VL, WC, WE. Effective: 2002 Fall Quarter.

RST 069—Introduction to Hindu Mythology (4)

Lecture—3 hour(s); Term Paper/Discussion—1 hour(s). Survey of the major narrative traditions within Hinduism, including epic literature and local stories in oral, textual, visual and performative forms. GE credit: AH, VL, WC, WE. Effective: 2014 Winter Quarter.

RST 070—Religion & Language (4)

Lecture/Discussion—3 hour(s); Term Paper. Basic toolkit for studying religious discourse in a variety of traditions. Concentration on the sacred and profane, the wondrous and ordinary, and the mystical and reasonable. GE credit: AH, WC, WE. Effective: 2014 Winter Quarter.

RST 075—Introduction to Chinese Philosophy (4)

Lecture/Discussion—4 hour(s). Introduction to Chinese philosophy from classical pre-modern times; emphasis on basic concepts and their impact on social conduct; the Age of Philosophers, the Han synthesis, the medieval Buddhist contribution. Effective: 2004 Summer Session 2.

RST 080—Religion, Gender, Sexuality (4)

Lecture/Discussion—3 hour(s); Term Paper. Constructions of gender and sexuality within one or more religious traditions, pre-modern and modern. Emphasis on the interaction between religious, medical, and ethical definitions of the human body and sexual behavior. GE credit: AH, WE. Effective: 2009 Winter Quarter.

RST 098—Directed Group Study (1-5)

Variable. Prerequisite(s): Consent of Instructor. Primarily for lower division students. (P/NP grading only.) Effective: 1997 Winter Quarter.

RST 099—Special Study for Lower Division Undergraduates (1-5)

Variable. Prerequisite(s): Consent of Instructor. (P/NP grading only.) Effective: 1997 Winter Quarter.

RST 100—Study of Religion: Issues & Methods (4)

Lecture—3 hour(s); Term Paper. Principal issues and methods of Religious Studies and associated fields. GE credit: AH, SS, WC, WE. Effective: 1997 Winter Quarter.

RST 102—Christian Origins (4)

Lecture/Discussion—3 hour(s); Term Paper. Prerequisite(s): Consent of Instructor. Development of Christianity from the end of the 1st century through the major controversies of the 5th century. Emphasis on the relationship between the new religious movement and the Roman Empire, and issues of early Christian identity and diversity. GE credit: AH, WC, WE. Effective: 2016 Spring Quarter.

RST 103—Medieval & Byzantine Christianity (4)

Lecture—3 hour(s); Term Paper. Prerequisite(s): Consent of Instructor. Christianity in Europe and the Near East from the year 600 to 1450. Focus on the development of Catholic and Orthodox traditions in ritual, art, and thought, with attention to interactions between regional groups, and Christian interaction with Islam. GE credit: AH, WC, WE. Effective: 2016 Spring Quarter.

RST 104—Christianity 1450-1700 (4)

Lecture/Discussion—3 hour(s); Term Paper. History of Reformation conflicts over the authority of scripture, the nature of man and the universe, and the basis of morality with the goal of understanding how these conflicts laid the foundation for the modern world. Effective: 2010 Spring Quarter.

RST 105—Christianity & Modernity, 1700-1920 (4)

Lecture—3 hour(s); Term Paper. Reaction of Christian critics and apologists to the profound cultural and scientific transformations resulting from the Scientific Revolution, the Enlightenment, and the advent of the modern critical study of religion. GE credit: AH, OL, VL, WC, WE. Effective: 2012 Spring Quarter.

RST 106—Christianity in the Contemporary World (4)

Lecture—3 hour(s); Term Paper. Christianity in the 20th and 21st centuries. Relationship of Christianity to globalization, industrialization, mass media, and the contemporary secular state. Focus on Christianity in America and developing nations, and on the relationship of established Christian institutions to new Christian movements. GE credit: ACGH, AH, WC, WE. Effective: 2012 Spring Quarter.

RST 110—Life, Meaning & Identity (4)

Lecture/Discussion—3 hour(s); Term Paper. Prerequisite(s): Upper division standing. Study of religious lives, the quest for meaning and for personal identity; how religions frame the problems of life; how cultural and personal crises affect youthful identity; the nature and structure of dreams, myths, and ideals. GE credit: AH, WE. Effective: 2016 Spring Quarter.

RST 111—Persuasion & Conviction in Religious Tradition (4)

Lecture/Discussion—4 hour(s); Term Paper. Selected topics in religious argument. Familiarizes students with the discourse structures of religious persuasion and enables them to perform analysis of such texts. Covers argument styles and structures used in ethics, theology, and preaching. GE credit: ACGH, AH, OL, WC, WE. Effective: 2015 Spring Quarter.

RST 115—Mysticism (4)

Lecture—3 hour(s); Term Paper. Prerequisite(s): One lower division Religious Studies course. Historical and descriptive analysis of selected key figures in mystical traditions and readings of representative mystical texts. Analytic term paper. GE credit: AH, OL, VL, WC, WE. Effective: 2016 Spring Quarter.

RST 120—Religion, Magic & Science (4)

Lecture—3 hour(s); Extensive Writing. Religion, magic, and science from the middle ages to the present. Contrast between modern scientific methodology and religious and magical thinking. (Same course as STS 120.) GE credit: AH, OL, VL, WC, WE. Effective: 2005 Fall Quarter.

RST 122—Studies in Biblical Texts (4)

Lecture—3 hour(s); Term Paper. Prerequisite(s): RST 021. Study of a book from the Prophets or writings from critical, historical, and religious perspectives. May be repeated up to 1 time(s) when topic differs. GE credit: AH, WE. Effective: 1997 Winter Quarter.

RST 123—Sex & Gender in the Bible (4)

Lecture—3 hour(s); Term Paper. Gender and sexuality in the Bible and its interpretation in Judaism and Christianity. Femininity and masculinity; gender roles; homosexuality; sexual violence. Historical origins in the ancient world; influence on contemporary views. GE credit: AH, WC, WE. Effective: 2017 Fall Quarter.

RST 124—Topics in Judaism (4)

Lecture—3 hour(s); Term Paper. Prerequisite(s): RST 023; RST 021. Examination of selected aspects of Jewish life, religion, or literature. Potential topics include: Jewish Perspectives on Jesus; The Golem: History and Legend; Sexuality and Gender in Late Antique Judaism and Early Christianity. May be repeated for credit when topic differs. Effective: 2016 Spring Quarter.

RST 125—Dead Sea Scrolls, Apocrypha, & Pseudepigrapha (4)

Lecture/Discussion—3 hour(s); Term Paper. Prerequisite(s): RST 021; or Consent of Instructor. Survey of the Dead Sea Scrolls, apocryphal and pseudepigraphical writings of Judaism and Christianity and their historical, social, and religious importance. GE credit: AH, WC, WE. Effective: 2016 Spring Quarter.

RST 126—The Formation of the Rabbinic Tradition (4)

Lecture/Discussion—3 hour(s); Term Paper. Prerequisite(s): RST 021; RST 023; (RST 040 or RST 125). Survey of the classical rabbinic Jewish texts such as the Talmud and of the social and historical contexts of their production in Palestine and Babylonia. GE credit: WC. Effective: 2011 Fall Quarter.

RST 130—Topics in Religious Studies (4)

Lecture/Discussion—3 hour(s); Term Paper. Prerequisite(s): RST 001 or RST 002 or RST 003A or RST 003B or RST 003C; or Consent of Instructor. Thematic study of a phenomenon in more than one religious tradition or of the relationship between religion and another cultural phenomenon. Topics may include archeology and the Bible, women and religion, religion and violence. May be repeated for credit when topic differs. GE credit: WC, WE. Effective: 2002 Fall Quarter.

RST 132—Topics in Mediterranean Ancient Religion (4)

Lecture/Discussion—3 hour(s); Term Paper. Prerequisite(s): Consent of Instructor. Thematic study of specific sociological, literary or theological theme across the religious traditions of the ancient Mediterranean/Near East: Greek and Roman religions, Judaism, Christianity, Zoroastrianism, Manichaeism, etc. Topics may include creation, sacrifice, priesthoods, prophecies, holy books, the afterlife. May be repeated up to 2 time(s) when topic differs. GE credit: AH, WC, WE. Effective: 2019 Fall Quarter.

RST 135—The Bible & Film (4)

Lecture—2 hour(s); Term Paper; Film Viewing—3 hour(s). Prerequisite(s): HUM 010 recommended. Examination of the uses of the Judeo-Christian Scriptures in film. Topics include dramatic depictions of biblical stories, the tension between science and religion, allegorical treatments of biblical themes, and the problems of religious conviction. Effective: 2003 Winter Quarter.

RST 136—Topics in Jainism (4)

Lecture—3 hour(s); Term Paper. Thematic study of specific periods, literary movements, sects and important figures within Jainism from a ranges of disciplinary perspectives. May be repeated up to 12 unit(s) when topic differs. GE credit: AH, WC, WE. Effective: 2019 Fall Quarter.

RST 137—Topics in Buddhism (4)

Lecture—3 hour(s); Term Paper. Thematic exploration of historic developments, periods, regions and sects in Buddhism from an interdisciplinary perspective. May be repeated up to 12 unit(s) when topic differs. GE credit: AH, WC, WE. Effective: 2019 Spring Quarter.

RST 139—Topics in Hinduism (4)

Lecture—3 hour(s); Term Paper. Thematic study of specific periods, movements, leaders, regions, ethics or philosophies within Hinduism from an interdisciplinary perspective. May be repeated up to 12 unit(s) when topic differs. GE credit: AH, WC, WE. Effective: 2019 Spring Quarter.

RST 140—Christian Theology (4)

Lecture/Discussion—3 hour(s); Term Paper. Prerequisite(s): Consent of Instructor. Historical and systematic introduction to Christian doctrine, with attention to divergent traditions and the problem of orthodoxy and heresy. GE credit: AH, WC, WE. Effective: 2016 Spring Quarter.

RST 141A—New Testament Literature: Synoptic Gospels (4)

Lecture—3 hour(s); Discussion—1 hour(s). Prerequisite(s): Consent of Instructor. Life and thought of the early Church as reflected by the Synoptic Tradition; Matthew, Mark, Luke and Acts. Offered every third year to alternate with RST 141B, RST 141C. GE credit: AH, WC, WE. Effective: 2016 Spring Quarter.

RST 141B—New Testament Literature: John (4)

Lecture—3 hour(s); Discussion—1 hour(s). Prerequisite(s): Consent of Instructor. Life and thought of the early Church as reflected by the Johannine Tradition; the Gospel and letters of John. Offered every third year to alternate with RST 141A, RST 141C. GE credit: AH, WC, WE. Effective: 2016 Spring Quarter.

RST 141C—New Testament Literature: Paul (4)

Lecture—3 hour(s); Discussion—1 hour(s). Prerequisite(s): Consent of Instructor. Life and thought of the early Church as reflected by the Pauline tradition. The letters of Paul. Offered every third year to alternate with RST 141A, RST 141B. GE credit: AH, WC, WE. Effective: 2016 Spring Quarter.

RST 143—New Testament Apocrypha (4)

Lecture—3 hour(s); Term Paper. Prerequisite(s): Consent of Instructor. Extra-canonical Christian writings and their reception, from antiquity to the present. Emphasis on the importance of New Testament figures both as literary characters and as authors within different Christian traditions. GE credit: AH, OL, WC, WE. Effective: 2016 Spring Quarter.

RST 144—History of the Bible (4)

Lecture—3 hour(s); Term Paper. Prerequisite(s): RST 021 or RST 040. History of the formation of the Christian biblical canon, with emphasis on differences between Christian traditions; survey of translations and adaptations of biblical narrative in Christianity, Judaism, and Islam, as well as in contemporary culture. GE credit: AH, WC, WE. Effective: 2014 Winter Quarter.

RST 145—Contemporary American Religion (4)

Lecture—3 hour(s); Discussion—1 hour(s). Prerequisite(s): RST 040 and HIS 017B recommended. Examination of several major movements and phenomena in 20th-century American religion. GE credit: ACGH, AH, DD, WE. Effective: 1997 Winter Quarter.

RST 150—Religious Ethics (4)

Lecture/Discussion—3 hour(s); Term Paper/Discussion. Prerequisite(s): RST 010 recommended. Study of the religious bases of ethics through examination of ethical problems that arise in different religious cultures around the world and in nations where multiple religious cultures face similar issues. GE credit: AH, WC, WE. Effective: 2014 Winter Quarter.

RST 152—Justice, Equity, & Privacy in Medical Humanities (4)

Discussion—3 hour(s); Extensive Writing. Global issues of justice, equity, and fairness in healthcare and biomedical research. Emphasis on issues of race, gender, paternalism, and genetic privacy. Texts include scholarly articles, fiction, and film. GE credit: ACGH, AH, DD, SE, WE. Effective: 2018 Fall Quarter.

RST 154—The Hindu Temple (4)

Lecture—3 hour(s); Term Paper. Comparative history of architecture and symbolism of the Hindu Temple in India, Southeast Asia and the United States. Attention to the temple as expression of religious knowledge, political authority, and cultural heritage through the lens of colonialism and postcolonialism. (Same course as AHI 154.) GE credit: AH, SS, VL, WC, WE. Effective: 2015 Fall Quarter.

RST 155A—Bhakti: Indian Devotional Traditions to 1200 CE (4)

Lecture/Discussion—3 hour(s); Term Paper. Exploration of Indian devotional traditions through literary, visual, and performance culture. Emphasis on period up to 1200 CE in southern India. GE credit: AH, WC, WE. Effective: 2020 Fall Quarter.

RST 156—Religion & the Performing Arts in India (4)

Lecture—3 hour(s); Term Paper. Prerequisite(s): RST 030; RST 068; or Consent of Instructor. Survey of religion and performing arts in India. Emphasis on the influence of colonialism, nationalism, and regionalism on the history of Indian performing arts. GE credit: AH, WC, WE. Effective: 2012 Winter Quarter.

RST 157—Hindu Women & Goddesses (4)

Lecture—3 hour(s); Term Paper. Hindu goddesses and the religious lives of Hindu women in India and the diaspora. GE credit: AH, VL, WC, WE. Effective: 2010 Fall Quarter.

RST 158—The Ramayana (4)

Lecture—3 hour(s); Term Paper. Exploration of the Indian epic, Ramayana, through the lens of literature, performance, and visual art. Emphasis on the text's diversity and its contemporary global relevance. Topics include Ramayanas in Southeast Asia, and in various South Asian diaspora communities. (Same course as COM 156.) GE credit: AH, WC, WE. Effective: 2015 Spring Quarter.

RST 159—The Mahabharata (4)

Lecture/Discussion—3 hour(s); Term Paper. Survey of the Indian epic, the Mahabharata, through textual, oral, and visual culture. GE credit: AH, WC, WE. Effective: 2019 Fall Quarter.

RST 160—Introduction to Islamic Thought (4)

Lecture—3 hour(s); Extensive Writing. Prerequisite(s): RST 060 recommended. The development of Islamic thought from the first centuries of Islam to the 18th century. Theology, philosophy, ethics, Sufism, historiography, political theory, fundamentalism, al-Farabi, al-Ghazzali, Ibn Rushd, Tusi, Ibn al-Arabi, Rumi, Molla Sadra, Ibn Khaldun, Ibn Abd al-Wahhab. GE credit: AH, WC, WE. Effective: 2004 Fall Quarter.

RST 161—Modern Islam (4)

Lecture/Discussion—3 hour(s); Term Paper. Response of Islam to modernity: secularism, reformism, fundamentalism. Islam and imperialism, women, media and immigration. Islamic modernism, political Islam, Islam in Europe and America. GE credit: AH, WC, WE. Effective: 2016 Spring Quarter.

RST 161B—Modern Islam: Authority & Tradition In Process (4)

Lecture/Discussion—3 hour(s); Term Paper. Survey of Islamic thought, social organization, politics from 18th century through present. Focus on changing notations of moral authority and tradition. Concentration on Middle East and South Asia with sustained treatment of North American engagements with the Islamic world. GE credit: AH, OL, SS, WC, WE. Effective: 2014 Spring Quarter.

RST 162—Introduction to Islamic Law (4)

Lecture—3 hour(s); Extensive Writing. Prerequisite(s): RST 060 recommended. The development of Islamic law in the formative centuries of Islam, ca. 600-1000, as well as its adaptation to changing economic, social, and political conditions in subsequent periods. Legal schools, legal theory, the Shari'a, reformist movements, human rights. GE credit: AH, WC, WE. Effective: 2004 Fall Quarter.

RST 163—Social Life of Islam (4)

Lecture—3 hour(s); Term Paper. Prerequisite(s): RST 060 or HIS 006 recommended. Introduction to culture and social life in Muslim societies. Focus on the plurality of traditions in Muslim faith, reason, and everyday practice. Special attention to Muslim rituals, ethical values, verbal genres, family life, sexuality and veiling, and youth culture. GE credit: AH, OL, SS, WC, WE. Effective: 2015 Spring Quarter.

RST 165—Islam in Asia (4)

Lecture/Discussion—3 hour(s); Extensive Writing. Islam as a lived religion in the Indian sub-continent, Central Asia, China, and Southeast Asia. Emphasis is on primary sources studied comparatively and historically. Effective: 2004 Winter Quarter.

RST 166—Religion & Media in the Arab World (4)

Lecture—4 hour(s). Exploration of the role and experience of media technologies in the Arab world. Study of digital and electronic media as well as alternative media practices. Investigation of new trends in political activism and identity formation. (Same course as MSA 131C.) GE credit: OL, SS, VL, WC, WE. Effective: 2014 Fall Quarter.

RST 167—Iraq (4)

Seminar—3 hour(s); Term Paper—1 hour(s). Origins, causes and ethical challenges of conditions in Iraq; larger historical, cultural and ethical dimensions of mass violence, war, liberation, neocolonialism, terrorism and resistance. Effective: 2007 Spring Quarter.

RST 170—Buddhism (4)

Lecture—3 hour(s); Term Paper. Buddhism in its pan-Asian manifestations, from its beginning in India to its development in Sri Lanka and Southeast Asia, Central Asia, China and Japan; teachings and practices, socio-political and cultural impact. GE credit: AH, VL, WC. Effective: 2005 Spring Quarter.

RST 171—Buddhist Art (4)

Lecture—3 hour(s); Discussion—1 hour(s). A historical survey of Buddhist art in relation to the development of Buddhist doctrine and philosophy. (Same course as AHI 157.) GE credit: AH, VL, WC, WE. Effective: 2019 Fall Quarter.

RST 172—Ch'an (Zen) Buddhism (4)

Lecture/Discussion—3 hour(s); Term Paper. Doctrines and methods of the Ch'an Buddhism, both ancient and modern. Review of ritual techniques, including meditation. Effective: 2005 Spring Quarter.

RST 175A—Chinese Intellectual Traditions: Daoist Traditions (4)

Lecture/Discussion—4 hour(s). Prerequisite(s): A course in Chinese history recommended. English-language survey of key Daoist texts and scholarship. Topics include Daoist concepts of the cosmos, the natural world, scripture, the body, and immortality; Daoist divinities; Daoism and the state. (Same course as CHN 100A.) GE credit: AH, WC. Effective: 2016 Fall Quarter.

RST 180—Popular Religious Art in India (4)

Lecture—3 hour(s); Discussion—1 hour(s). Survey of Indian popular religious art in prints, trade labels, comics and photographs. (Same course as AHI 158.) GE credit: AH, VL, WC, WE. Effective: 2020 Spring Quarter.

RST 181—Hindu Gods & Hindu Symbols (4)

Lecture—3 hour(s); Discussion—1 hour(s). Prerequisite(s): RST 068: Hinduism or RST 069: Hindu Mythology recommended, but not required. A historical survey of the development of the language of symbolism and iconography in Hinduism. (Same course as AHI 153.) GE credit: AH, VL, WC, WE. Effective: 2020 Spring Quarter.

RST 189—Senior Colloquium (4)

Seminar—3 hour(s); Term Paper. Prerequisite(s): Consent of Instructor. Primarily for seniors in Religious Studies. Discussion in depth of a problem in religion which requires the methods of several disciplines and is important in the encounter between religions. Effective: 1997 Winter Quarter.

RST 190—Seminar (4)

Seminar—3 hour(s); Term Paper. Prerequisite(s): Consent of Instructor. Required of all Religious Studies majors. Allows majors to integrate their disciplined study of the field. Emphasis on current scholarly debate about the methods for analyzing and comparing diverse religious traditions. Effective: 1997 Winter Quarter.

RST 194HA—Special Study for Honors Students (1-5)

Independent Study. Open only to majors of senior standing who qualify for honors program. Guided research, under the direction of a faculty member approved by the Program Director, leading to a senior honors thesis on a religious studies topic. (P/NP grading only.) Effective: 1997 Winter Quarter.

RST 194HB—Special Study for Honors Students (1-5)

Independent Study. Open only to majors of senior standing who qualify for honors program. Guided research, under the direction of a faculty member approved by the Program Director, leading to a senior honors thesis on a religious studies topic. (P/NP grading only.) Effective: 1997 Winter Quarter.

RST 198—Directed Group Study (1-5)

Variable. Prerequisite(s): Consent of Instructor. Upper division standing. (P/NP grading only.) Effective: 1997 Winter Quarter.

RST 199—Special Study for Advanced Undergraduates (1-5)

Variable. Prerequisite(s): Consent of Instructor. (P/NP grading only.) Effective: 1997 Winter Quarter.

RST 201—Methods & Issues in Religious Studies (4)

Seminar—3 hour(s); Term Paper. Prerequisite(s): Graduate standing. Focuses on controversies in the study of comparative religion. How is religion best defined? Are there methods unique to the study of religion? What does the study of religion contribute to the study of society in general? May be repeated up to 2 time(s) when content differs. Effective: 2006 Spring Quarter.

RST 205—Religion & Media (4)

Lecture/Discussion—3 hour(s); Term Paper. Many communities are finding global media technologies useful for religious practice. Examines how religious revitalization is historically situated. Phenomenological approach will enable students to situate media and religion within the social and material world of practitioners. Effective: 2009 Winter Quarter.

RST 210—Religion & Postcoloniality, or Savages, Civilization, & Spirituality (4)

Seminar—3 hour(s); Term Paper. Prerequisite(s): Graduate standing. Examines relations between religion and colonialisms. Using specific historical situations it explores some of our thorniest theoretical problems. Acquire a solid understanding of postcolonial theory and the historical tools to critically engage religion in the present. Effective: 2007 Fall Quarter.

RST 212—Religion & Violence (4)

Seminar—3 hour(s); Term Paper. Comparative and critical study of the ideological, cultural, and theological relationship between forms of violence and religion and religious practice. Effective: 2007 Fall Quarter.

RST 215—Topics in the History of Christianity (4)

Seminar—3 hour(s); Term Paper. Prerequisite(s): Graduate standing. Selected topics in the history of Christianity. Intended for graduate students seeking to do advanced work in the study of Christianity. May cover issues in Christian thought from antiquity, the middle ages, the early modern or modern period. May be repeated for credit when topic differs. Effective: 2010 Fall Quarter.

RST 299—Directed Research (1-12)

Variable. May be repeated for credit. (S/U grading only.) Effective: 2007 Fall Quarter.

RST 396—Teaching Assistant Training Practicum (1-4)

Variable. Prerequisite(s): Consent of Instructor. Graduate standing. May be repeated for credit. (S/U grading only.) Effective: 2009 Winter Quarter.

RUS—Russian

Courses in RUS:

Course Placement. Students who have learned Russian at home must consult the department for placement instructions. Students with two years of Russian in high school normally continue in RUS 002; those with three years, RUS 003; those with four years, RUS 004.

RUS 001—Elementary Russian (5)

Discussion—5 hour(s); Laboratory—1 hour(s). Introduction to Russian grammar and development of all language skills in a cultural context with special emphasis on communication. GE credit: AH, WC. Effective: 1997 Winter Quarter.

RUS 001A—Accelerated Intensive Elementary Russian (15)

Lecture/Discussion—15 hour(s). Special 12-week accelerated, summer session intensive combining the work of RUS 001, RUS 002, and RUS 003. Introduction to Russian grammar and development of all language skills in a cultural context with emphasis on communication. Not open to students who have completed RUS 001, RUS 002, or RUS 003. Effective: 2008 Summer Special Session.

RUS 002—Elementary Russian (5)

Discussion—5 hour(s); Laboratory—1 hour(s). Prerequisite(s): RUS 001. Continuation of grammar and language skills developed in RUS 001. GE credit: AH, WC. Effective: 1997 Winter Quarter.

RUS 003—Elementary Russian (5)

Discussion—5 hour(s); Laboratory—1 hour(s). Prerequisite(s): RUS 002. Continuation of grammar and language skills developed in RUS 002. GE credit: AH, OL, WC. Effective: 2015 Spring Quarter.

RUS 004—Intermediate Russian (4)

Discussion/Laboratory—4 hour(s). Prerequisite(s): RUS 003. Grammar review and conversational practice in Russian. GE credit: AH, OL, WC. Effective: 2016 Fall Quarter.

RUS 005—Intermediate Russian (4)

Discussion—4 hour(s); Laboratory—1 hour(s). Prerequisite(s): RUS 004. Grammar review. Introduction to literature in its sociopolitical context. Conversational practice. GE credit: AH, OL, WC. Effective: 2015 Spring Quarter.

RUS 006—Intermediate Russian (4)

Discussion—4 hour(s); Laboratory—1 hour(s). Prerequisite(s): RUS 005. Grammar review. Intermediate conversation and continued reading of literature. Social and cultural practices in contemporary Russia; introduction to Russian history. GE credit: AH, OL, WC. Effective: 2015 Spring Quarter.

RUS 098—Directed Group Study (1-5)

Discussion—1-5 hour(s). Prerequisite(s): Consent of Instructor. (P/NP grading only.) Effective: 1997 Winter Quarter.

RUS 099—Special Study for Undergraduates (1-5)

Variable. Prerequisite(s): Consent of Instructor. (P/NP grading only.) Effective: 1997 Winter Quarter.

RUS 101A—Advanced Russian (4)

Lecture/Discussion—3 hour(s); Extensive Writing. Prerequisite(s): RUS 006; or Consent of Instructor. Topics in Russian. Grammar for the advanced student. Reading and discussion of journalistic texts and classic and contemporary literature. Conversation exercises utilizing literary and colloquial variants of current Russian speech. GE credit: AH, WC. Effective: 2011 Fall Quarter.

RUS 101B—Advanced Russian (4)

Lecture/Discussion—3 hour(s); Extensive Writing. Prerequisite(s): RUS 101A; or Consent of Instructor. Continuation of RUS 101A. Topics in Russian grammar for the advanced student. Reading and discussion of journalistic texts and classic and contemporary literature. Conversational exercises utilizing literary and colloquial variants of current Russian speech. GE credit: AH, WC. Effective: 2011 Winter Quarter.

RUS 101C—Advanced Russian (4)

Lecture/Discussion—3 hour(s); Extensive Writing. Prerequisite(s): RUS 101B. Continuation of RUS 101B. Topics in Russian grammar for the advanced student. Reading and discussion of journalistic texts and classic and contemporary literature. Conversational exercises utilizing literary and colloquial variants of current Russian speech. GE credit: AH, WC. Effective: 2011 Spring Quarter.

RUS 102—Russian Composition (4)

Lecture/Discussion—3 hour(s); Tutorial—1 hour(s). Prerequisite(s): RUS 006; or Consent of Instructor. Practice in writing Russian. One composition on a different topic each week. Topics include: history, geography, politics, and literature of Russia; comparison of Russian and American lifestyles; current events. Conducted in Russian. GE credit: AH, WC, WE. Effective: 2002 Winter Quarter.

RUS 103—Literary Translation (4)

Discussion—3 hour(s). Prerequisite(s): RUS 101C. Translation of Russian literary texts into stylistically equivalent idiomatic English. Effective: 1997 Winter Quarter.

RUS 105—Advanced Russian Conversation (4)

Discussion—3 hour(s); Practice—1 hour(s). Prerequisite(s): RUS 006. Intensive conversational practice and discussion based on current events and contemporary texts. GE credit: AH, OL, WC. Effective: 2015 Winter Quarter.

RUS 120—Topics in Russian Literature & Culture (4)

Lecture/Discussion—3 hour(s); Extensive Writing. Prerequisite(s): Upper division standing or consent of instructor. Knowledge of Russian not required. Investigation of significant themes and issues of Russian literature and culture within their European context. May be repeated up to 1 time(s). GE credit: AH, OL, WC, WE. Effective: 2017 Spring Quarter.

RUS 122—19th-Century Russian Literature (4)

Lecture/Discussion—3 hour(s); Term Paper. Prerequisite(s): RUS 101C when offered in Russian; no prerequisite when offered in English. Not open to students who have taken RUS 121 and RUS 127. Study of Russian literature (prose fiction, drama, poetry) from the period between 1800 and the end of the 19th century. May include authors like Pushkin, Lermontov, Gogol, Turgenev, Dostoevsky, Tolstoy, Chekhov. Offered alternately in English or Russian. GE credit: AH, OL, VL, WC, WE. Effective: 2015 Spring Quarter.

RUS 124—20th-Century Russian Literature (4)

Lecture/Discussion—3 hour(s); Term Paper. Prerequisite(s): RUS 101C when offered in Russian; no prerequisite when offered in English. Study of Russian literature (prose, drama, poetry) from the period between 1900 and the end of the 20th century. Authors like Y. Olesha, M. Bulgakov, D. Kharms, and L. Petrushevskiaia. Taught in Russian. Not open for credit to students who have taken RUS 123 or RUS 128. GE credit: AH, OL, VL, WC, WE. Effective: 2015 Fall Quarter.

RUS 126—The Russian Theater (4)

Lecture—3 hour(s); Term Paper. Prerequisite(s): RUS 101C; or Consent of Instructor. The main works of Russian dramatists from Fonvizin to the present, including Gogol, Turgenev, Tolstoy, Ostrovsky, Chekhov, Blok, Mayakovsky, Kharms. Conducted in Russian. GE credit: AH, WC, WE. Effective: 2008 Fall Quarter.

RUS 129—Russian Film (4)

Lecture/Discussion—3 hour(s); Film Viewing—3 hour(s). Prerequisite(s): Completion of Subject A requirements. History of Russian film; film & social revolution, the cult of Stalin, dissident visions; film & the collapse of the Soviet empire; gender and the nation in Russian film. Taught in English; Russian films with English subtitles. (Same course as FMS 129.) GE credit: AH, VL, WC, WE. Effective: 2009 Fall Quarter.

RUS 130—Contemporary Russian Culture (4)

Lecture—3 hour(s); Term Paper. Prerequisite(s): Consent of Instructor. Trends in Russian culture and the relationship between artists and the government. Topics: recent changes in the cultural scene, postmodernist trends in literature, visual art, film, and theater. GE credit: AH, OL, VL, WC, WE. Effective: 2016 Spring Quarter.

RUS 133—Post-Soviet Literature (4)

Lecture/Discussion—3 hour(s); Term Paper. Major authors and trends in Russian literature in post-1991 period. Discussion of impact of economic, social, and cultural turmoil of post-Soviet period on literary marketplace. Analysis of development of literary postmodernism in Russia. GE credit: AH, OL, WC, WE. Effective: 2016 Spring Quarter.

RUS 139—Pushkin (4)

Lecture/Discussion—3 hour(s); Term Paper. Prerequisite(s): RUS 101C; or Consent of Instructor. Three major periods of Pushkin's poetical works: his early Lyceum verse; his poetry of the early 1820s; and the mature period. Further study of Pushkin's prose fiction, drama, and journalism. GE credit: AH, OL, WC, WE. Effective: 2015 Fall Quarter.

RUS 140—Dostoevsky (in English) (4)

Lecture—3 hour(s). Reading and analysis of Dostoevsky's principal works such as *Crime and Punishment*, *The Idiot*, *The Brothers Karamazov*, and *The Diary*. Study of social and political views as reflected in Dostoevsky's works. GE credit: AH, WC, WE. Effective: 1997 Winter Quarter.

RUS 141—Tolstoy (in English) (4)

Lecture—3 hour(s); Term Paper. Study of Leo Tolstoy's literary evolution and moral quest. Readings include his *Confession*, a major novel such as *War and Peace* or *Anna Karenina*, and representative shorter fiction. GE credit: AH, OL, WE. Effective: 2015 Fall Quarter.

RUS 142—Women in Russian Culture (4)

Lecture/Discussion—3 hour(s); Term Paper. Study of the representation of women in contemporary Russian fiction and film. Exploration of issues such as family dynamics/motherhood, sexuality, work, and women's relationship to the state. Offered in English. GE credit: AH, OL, VL, WC, WE. Effective: 2017 Winter Quarter.

RUS 143—Chekhov (in English) (4)

Lecture/Discussion—3 hour(s); Extensive Writing. Examination of Chekhov's short stories and major plays, such as *The Seagull*, *Uncle Vanya*, *The Three Sisters*, *The Cherry Orchard*, and *Ivanov*, in the broader cultural context of European and Russian fin de siècle. GE credit: AH, OL, WC, WE. Effective: 2016 Fall Quarter.

RUS 150—Russian Culture (4)

Discussion—3 hour(s); Term Paper. Study of Russian culture in 19th and 20th centuries. Brief introduction of the beginnings up to 19th century. Russian art, music, philosophy, church, traditions, and daily life. Knowledge of Russian not required. GE credit: AH, OL, VL, WC, WE. Effective: 2016 Spring Quarter.

RUS 192—Research Essay (2)

Variable. Prerequisite(s): A Russian literature course; may be taken concurrently. Research essay, based on primary and secondary sources, dealing in depth with a topic arising from or related to the prerequisite literature course. May be repeated for credit. GE credit: AH, WC, WE. Effective: 1997 Winter Quarter.

RUS 194H—Special Study for Honors Students (4)

Independent Study—4 hour(s). Prerequisite(s): Open only to majors of senior standing who qualify for honors program. Guided research, under the direction of a faculty member, leading to a senior honors thesis on a topic in Russian studies. Effective: 1997 Winter Quarter.

RUS 195H—Honors Thesis (4)

Independent Study—4 hour(s). Prerequisite(s): RUS 194H. Writing an honors thesis, under the direction of a faculty member, on a topic in Russian studies. Effective: 1997 Winter Quarter.

RUS 197T—Tutoring in Russian (1-4)

Seminar—1-2 hour(s); Laboratory—1-2 hour(s). Prerequisite(s): Consent of Instructor. Upper division standing. Tutoring in undergraduate courses, including leadership in small voluntary discussion groups affiliated with departmental courses. May be repeated up to 6 unit(s). (P/NP grading only.) Effective: 2014 Winter Quarter.

RUS 198—Directed Group Study (1-5)

Variable. Prerequisite(s): Consent of Instructor. (P/NP grading only.) Effective: 1997 Winter Quarter.

RUS 199—Special Study for Advanced Undergraduates (1-5)

Variable. Prerequisite(s): Consent of Instructor. (P/NP grading only.) Effective: 1997 Winter Quarter.

RUS 299—Individual Study (1-12)

Variable. Prerequisite(s): Consent of Instructor. Graduate standing. Restricted to graduate students. May be repeated for credit. (S/U grading only.) Effective: 2014 Spring Quarter.

RUS 396—Teaching Assistant Training Practicum (1-4)

Variable—3-20 hour(s). Prerequisite(s): Graduate standing. May be repeated for credit. (S/U grading only.) Effective: 2014 Winter Quarter.

SAF—Sustainable Agriculture & Food Systems

Courses in SAF:

SAF 090—SA & FS Seminar (1-2)

Seminar—1-3 hour(s). Introductory or survey topics within Sustainable Agriculture & Food Systems. May be repeated for credit when topic differs. (P/NP grading only.) Effective: 2018 Summer Quarter.

SAF 090X—SA & FS Portfolio (1-4)

Workshop—3-12 hour(s). Prerequisite(s): Consent of Instructor. Restricted to Sustainable Agriculture & Food Systems majors with lower-division standing or consent of instructor. SA&FS Portfolios are designed to complement interdisciplinary, academic coursework by supporting student development of each of the SA&FS Student Learning Outcomes: Systems Thinking, Experimentation & Inquiry, Understanding Values, Interpersonal Communication, Strategic Management, Civic Engagement and Personal Development. May be repeated for credit. (P/NP grading only.) Effective: 2018 Summer Quarter.

SAF 092—Internship (1-12)

Internship—3-36 hour(s); Variable—1 hour(s). Prerequisite(s): Consent of Instructor. Restricted to Sustainable Agriculture & Food Systems majors or with consent of instructor; non-majors by consent of instructor. Lower-division internship for students enrolled in the Sustainable Agriculture & Food Systems program of study. May be repeated up to 12 unit(s). (P/NP grading only.) Effective: 2018 Summer Quarter.

SAF 098—Directed Group Study (1-5)

Variable—3-15 hour(s). Prerequisite(s): Consent of Instructor. Restricted to Sustainable Agriculture & Food Systems major or with consent of instructor. Group study on focused topics in Sustainable Agriculture & Food Systems. Varies according to instructor. Course plan is adapted to student need and interest in conjunction with the expertise of the instructor. May be repeated for credit. (P/NP grading only.) Effective: 2018 Summer Quarter.

SAF 099—Special Study for Undergraduates (1-5)

Independent Study—3-15 hour(s). Prerequisite(s): Consent of Instructor. Under faculty supervision, students pursue a special or individualized course of study related to Sustainable Agriculture & Food Systems. May be repeated for credit. (P/NP grading only.) Effective: 2018 Summer Quarter.

SAF 165—Irrigation Practices for an Urban Environment (3)

Lecture/Discussion—2 hour(s); Project (Term Project). Prerequisite(s): PHY 001A. Basic design, installation, and operation principles of irrigation systems for turf and landscape: golf courses, parks, highways, public buildings, etc. Emphasis on hardware association with sprinkler and drip/trickle systems. (Same course as ABT 165.) GE credit: QL, SE, VL. Effective: 2020 Fall Quarter.

SAF 192—Internship (1-12)

Internship—3-36 hour(s); Variable—1 hour(s). Prerequisite(s): Consent of Instructor. Upper division standing. Restricted to Sustainable Agriculture & Food Systems majors or non-majors by consent of instructor. Upper-division internship for students enrolled in the Sustainable Agriculture & Food Systems program of study. May be repeated up to 12 unit(s). (P/NP grading only.) Effective: 2018 Summer Quarter.

SAF 197T—Tutoring in Sustainable Agriculture & Food Systems (1-5)

Tutorial—3-15 hour(s). Prerequisite(s): Consent of Instructor. Upper division standing. Undergraduates assist the instructor by tutoring students in regularly scheduled courses that fulfill SA&FS major requirements. May be repeated for credit. (P/NP grading only.) Effective: 2018 Summer Quarter.

SAF 197TC—SA&FS Tutoring in the Community (1-5)

Tutorial—3-15 hour(s). Prerequisite(s): Consent of Instructor. Upper division standing. Undergraduates assist the instructor by tutoring in the community in settings related to Sustainable Agriculture & Food Systems. May be repeated for credit. (P/NP grading only.) Effective: 2018 Summer Quarter.

SAF 198—Directed Group Study (1-5)

Variable—3-15 hour(s). Prerequisite(s): Consent of Instructor. Upper division standing. Restricted to Sustainable Agriculture & Food Systems major or with consent of instructor. Group study on focused topics in Sustainable Agriculture & Food Systems. Varies according to instructor. Course plan is adapted to student need and interest in conjunction with the expertise of the instructor. May be repeated for credit. (P/NP grading only.) Effective: 2018 Summer Quarter.

SAF 199—Special Study for Advanced Undergraduates (1-5)

Independent Study—3-15 hour(s). Prerequisite(s): Consent of Instructor. Upper division standing. Under faculty supervision, advanced students pursue a special or individualized course of study related to Sustainable Agriculture & Food Systems. May be repeated for credit. (P/NP grading only.) Effective: 2018 Summer Quarter.

SAS—Science & Society

Courses in SAS:

SAS 001—Critical Inquiry into Contemporary Issues (4)

Lecture/Discussion—3 hour(s); Discussion—1 hour(s). Open to first year and new transfer students only. Contemporary issues, including global population trends, economic and environmental changes, cultural diversity and biodiversity, nutrition and food safety, fiber and textiles, changing consumer cultures. Inquiry processes emphasize ethics, multiple disciplines, and multiple perspectives. GE credit: SE, SS, WE. Effective: 2003 Fall Quarter.

SAS 002—Feeding the World: Influences on the Global Food Supply (3)

Lecture/Discussion—3 hour(s). Scientific principles and dynamic interactions involved in food production, food processing, nutrition, and agribusiness. Physical, biological and social science issues influencing the availability and safety of the food supply worldwide. Not open for credit to students who have taken SAS 002V. GE credit: SE, SL, SS. Effective: 2018 Fall Quarter.

SAS 002V—Feeding the World: Influences on the Global Food Supply (3)

Web Virtual Lecture—2 hour(s); Web Electronic Discussion—1 hour(s). Scientific principles and dynamic interactions involved in food production, food processing, nutrition, and agribusiness. Physical, biological and social science issues influencing the availability and safety of the food supply worldwide. Not open for credit to students who have taken SAS 002. GE credit: SE, SL, SS. Effective: 2018 Fall Quarter.

SAS 003—Science, Technology & Society (4)

Lecture—4 hour(s). Impact of developments in science and technology on the individual in society and how economics, politics, culture and values affect technological development. Not open for credit to students who have completed former ABS 018. GE credit: SE, SS. Effective: 1997 Winter Quarter.

SAS 004—Water in Popular Culture (3)

Film Viewing—2 hour(s); Discussion—1 hour(s); Lecture—1 hour(s). Importance of water in many aspects of society as revealed through a survey of its depictions in film. GE credit: SE, SL, SS. Effective: 2008 Fall Quarter.

SAS 005—Pathways to Discovery: Science & Society (3)

Lecture/Discussion—3 hour(s). Highlights a current issue and/or controversy found in contemporary society and looks at how this problem impacts and is affected by the physical, social and biological sciences. Topics vary. May be repeated up to 2 time(s). GE credit: SE, SS. Effective: 1997 Winter Quarter.

SAS 006A—Introduction to Career Discovery Groups (1)

Discussion—1 hour(s). Prerequisite(s): Consent of Instructor. Open to students entering College of Agricultural & Environmental Sciences in their first year of college only. Overview of campus resources for career exploration and professional development. Intended for first-year students in the College of Agricultural & Environmental Sciences. (P/NP grading only.) Effective: 2020 Fall Quarter.

SAS 006B—Career Discovery Seminar (3)

Lecture—1.5 hour(s); Discussion—1.5 hour(s). Prerequisite(s): SAS 006A. Overview of skills needed to find and secure career opportunities, including job searches, professional communication, participation in informational and job interviews as both interviewer and interviewee, preparation of resumes and cover letters. Exploration of diverse career options. Effective: 2021 Winter Quarter.

SAS 006C—Career Discovery in the Field (1)

Fieldwork—2 hour(s). Prerequisite(s): SAS 006B. Exploration of prospective careers through visits to businesses, institutions, and agencies and discussions with professionals who work there. (P/NP grading only.) Effective: 2021 Spring Quarter.

SAS 007—Terrorism & War (4)

Lecture—3 hour(s); Discussion—1 hour(s); Term Paper. Exploration of terrorism and war from science and social sciences perspectives. Terrorist cells and groups; biological, chemical, nuclear, and environmental terrorism; intelligence gathering and espionage; military strategy; genocide; epochal wars; clash of civilizations; nation building; and future global scenarios. GE credit: SE, SS, WE. Effective: 2004 Winter Quarter.

SAS 007V—Terrorism & War (4)

Web Virtual Lecture—3 hour(s); Auto Tutorial—5 hour(s); Web Electronic Discussion—1 hour(s); Extensive Writing. Terrorism and war from science and social sciences perspectives: terrorism (terrorist cells, WMD's, religious extremism), warfare (military strategy, genocide), and statecraft (diplomacy, clash of civilizations, epochal wars). Students may not take both SAS 007V and SAS 007 for credit. GE credit: SS, WC, WE. Effective: 2017 Spring Quarter.

SAS 008—Water Quality at Risk (3)

Lecture—2 hour(s); Discussion—1 hour(s). Not open to students who have successfully completed ERS 008. (Formerly ERS 008.) Natural and human threats to water quality. Balance of science and policy in all aspects of attaining, maintaining, and managing water quality, water contamination. Decoding popular media coverage of water quality and water contamination. (Same course as ESM 008.) GE credit: SE, SL, SS, WE. Effective: 2011 Fall Quarter.

SAS 009—Crisis in the Environment (3)

Lecture—3 hour(s). Explores contemporary environmental issues by examining the causes, effects and solutions to a wide range of environmental problems facing the global ecosystem. Integrated discussion of political, societal and economic impact linkages with environmental problems. May be taught abroad. GE credit: SE, SS, WE. Effective: 2006 Fall Quarter.

SAS 010—Water, Power, Society (3)

Lecture—2 hour(s); Discussion—1 hour(s). Water resources issues. How water has been used to gain and wield socio-political power. Water resources development in California related to current and future sustainability of water quantity and quality. Roles of science and policy in solving water problems. (Same course as HYD 010.) GE credit: SE, SL, SS. Effective: 2005 Spring Quarter.

SAS 011—California Geography (3)

Lecture—2 hour(s); Discussion—1 hour(s); Term Paper. Introduction to cultural/societal patterns of California and their relationship to natural resources, biomes, geomorphology, and physiography. Focus on diversity of California's environments and their impacts on and alterations by human activities. Environmental issues in the State. GE credit: SE, SS, WE. Effective: 2006 Fall Quarter.

SAS 012—Plants & Society (4)

Lecture—3 hour(s); Extensive Writing—3 hour(s). Prerequisite(s): High school biology. Dependence of human societies on plant and plant products. Plants as resources for food, fiber, health, enjoyment and environmental services. Sustainable uses of plants for food production, raw materials, bioenergy, and environmental conservation. Global population growth and future food supplies. Not open for credit to students who have completed PLB 012. (Former PLB 012.). (Same course as PLS 012.) GE credit: SE, SS, WE. Effective: 2007 Fall Quarter.

SAS 013—Disease & Society (3)

Lecture—3 hour(s). Limited enrollment. Introduction to the concept of disease, the societal and personal impacts of past, present and future diseases, and the science behind disease discoveries, causes, evolution, diagnosis, treatment, and prevention. GE credit: SE, SL, SS. Effective: 2012 Fall Quarter.

SAS 014—Forests & Society (3)

Lecture—2 hour(s); Discussion—1 hour(s). Limited to 120 students. Sociology, natural history and current issues of the world's forests. Application of scientific principles in outdoor laboratories and on-campus field trips. GE credit: ACGH, OL, SE, SL, SS, WE. Effective: 2016 Fall Quarter.

SAS 016—Soil, Water, & Civilizations (3)

Lecture—3 hour(s). Exploring past civilizations and examining how management of soil, water, and natural resources allowed them to flourish, decline, or perhaps fail. Important issues include agricultural practices, deforestation, water quality, and land management. GE credit: SE, SL, SS. Effective: 2019 Fall Quarter.

SAS 018—GIS & Society (3)

Lecture—2 hour(s); Laboratory—3 hour(s); Term Paper/Discussion—0.3 hour(s). Geographic Information Systems (GIS) as a spatial technology and a tool for change in society. Evaluate physical, biological and social impact of GIS in the context of case studies such as land, water and community planning. GE credit: QL, SE, SL, SS, VL. Effective: 2007 Spring Quarter.

SAS 020—Genetics & Society (4)

Lecture—3 hour(s); Discussion—1 hour(s). Basic concepts of genetics, modern methods of biotechnology, the process of scientific discovery and the public perception of the process; present and future impact of genetics on society. Not open for credit to students who have completed SAS 140. GE credit: OL, SE, SL, SS, WE. Effective: 2005 Winter Quarter.

SAS 025—Global Climate Change: Convergence of Biological, Geophysical, & Social Sciences (4)

Lecture—2 hour(s); Discussion—1 hour(s); Tutorial—1 hour(s). Causes of global climate change and the biological, geophysical, and social consequences of such change. Methods used by different scientists for predicting future events. Complexity of global affairs. Decision making under uncertainty. Students cannot take both SAS 025 & SAS 025V for credit. GE credit: OL, QL, SE, SL, SS, VL, WE. Effective: 2019 Winter Quarter.

SAS 025V—Global Climate Change: Convergence of Biological, Geophysical, & Social Sciences (4)

Web Virtual Lecture—2 hour(s); Web Electronic Discussion—1 hour(s); Auto Tutorial—1 hour(s). Causes of global climate change and the biological, geophysical, and social consequences of such change. Methods used by different scientists for predicting future events. Complexity of global affairs. Decision making under uncertainty. Students cannot take both SAS 025 & SAS 025V for credit. GE credit: OL, QL, SE, SL, SS, VL, WE. Effective: 2019 Winter Quarter.

SAS 030—Mushrooms, Molds, & Society (3)

Lecture/Discussion—3 hour(s). Fungi as organisms with which humans interact daily, societal issues arising from these interactions. Fungi in medicine, religion, agriculture, and industry, as well as cultural perceptions of fungi. GE credit: SE, SS. Effective: 1998 Spring Quarter.

SAS 035—Germs: The Good, the Bad, & the Ugly (3)

Lecture—2 hour(s); Discussion—1 hour(s). Limited to 60 students. Impact of microorganisms on Earth, Humans and Society. Historical, scientific, and contemporary issues dealing with microbes on natural and built environments. GE credit: SE, SS, WE. Effective: 2017 Spring Quarter.

SAS 040—Photography: Bridging Art & Science (3)

Lecture—2 hour(s); Studio—3 hour(s). Photography is used to explore the common ground between art and science. Photographic processes, creativity and aesthetics, chaos and order, principles of space, time and light. Photographic interpretation and documentation of the natural world. Camera required. GE credit: AH, SE, SL, VL, WE. Effective: 2008 Spring Quarter.

SAS 041—Understanding Performance: Appreciation of Modern Theatre, Dance, Film & Performance Art for the Humanities & Sciences (4)

Lecture/Discussion—3 hour(s); Discussion/Laboratory—1 hour(s). Relevance of theatre and performance to modern culture, science and society. Approaches to theatre/dance/media/performance art, integrated into Mondavi Centre for the Arts and Theatre and Dance Department programs. (Same course as DRA 005.) GE credit: AH, DD, OL, VL, WC, WE. Effective: 2015 Winter Quarter.

SAS 042—Earth, Water, Science, Song (3)

Lecture—2 hour(s); Studio—3 hour(s). Fusion of water and soil science with performing arts. Creative communication of scientific concepts and facts through exercises in song writing and poetry. Design, discuss and conduct public performances related to the functioning of the natural world. GE credit: AH, OL, SE. Effective: 2009 Summer Session 2.

SAS 043—Energy, Materials, & Design Over Time (4)

Lecture—3 hour(s); Discussion—1 hour(s). Global history of design across time, viewed through the lens of the effects of the creation and discovery of new energy sources, processes, and materials on design. (Same course as DES 040A.) GE credit: AH, WC. Effective: 2018 Spring Quarter.

SAS 070A—Genetic Engineering in Medicine, Agriculture, & Law (5)

Lecture—5 hour(s). Not open to students who have completed BIS 002A, BIS 002B, BIS 002C. Historical and scientific study of the impact of genetic engineering in medicine, agriculture, and law, including examination of social, ethical, and legal issues raised. Offered in a distance-learning format. GE credit: SE, SL, SS. Effective: 2018 Winter Quarter.

SAS 090A—Issues in Environmental & Resource Sciences (2)

Seminar—2 hour(s). Prerequisite(s): Limited to lower division students. Discussion of historical and current issues in environmental and resource sciences. Lectures, reading and field trips will provide background for selected topics. Effective: 1997 Winter Quarter.

SAS 090B—Observing & Writing in Biology (2)

Seminar—1 hour(s); Laboratory—1 hour(s); Term Paper. Observe the interactions between microscopic organisms, conduct simple laboratory experiments, describe and analyze observations and discuss scientific observations and writing. Effective: 1997 Winter Quarter.

SAS 090E—Biotechnology—a New Era, a New Struggle (2)

Seminar—2 hour(s). Animal biotechnology and its applications. Discussion topics include potential societal impacts of various technologies, factors shaping public opinion, and ethical and moral questions arising from new biotechnology applications. Effective: 2001 Fall Quarter.

SAS 090F—Food Distribution in a Hungry World (2)

Seminar—2 hour(s). Limited to 15 students. The biological, technological, environmental, and socioeconomic factors related to food distribution systems at local, regional, national, and international levels. The potential for increasing world food supply by reducing losses between harvest and consumption. Effective: 2001 Fall Quarter.

SAS 090G—Science, Society & the Environment (2)

Seminar—2 hour(s). Contemporary environmental issues, scientific approaches to addressing these issues, and accompanying societal and ethical considerations. Effective: 2001 Fall Quarter.

SAS 090X—Lower Division Seminar (1-4)

Seminar—1-4 hour(s). Prerequisite(s): Consent of Instructor. Lower division standing. Limited enrollment. Examination of a special topic in Science & Society through shared readings, discussions, written assignments, or special activities such as fieldwork, laboratory work, etc. May be repeated for credit. Effective: 1997 Winter Quarter.

SAS 092—Internship in Science & Society (1-12)

Internship—3-36 hour(s). Prerequisite(s): Consent of Instructor. Lower division standing. Supervised internship on and off campus, in the community, or in institutional settings. (P/NP grading only.) Effective: 1997 Winter Quarter.

SAS 097T—Tutoring in Science & Society (2-3)

Discussion/Laboratory—6-9 hour(s). Prerequisite(s): Consent of Instructor. Lower division standing; completion of course being tutored. Tutoring in undergraduate Science & Society courses. Assisting with leading discussion groups under supervision of instructor(s) and teaching assistants. Acting as liaison between the students and course instructor(s) to foster effective communication and interaction. May be repeated for credit. (P/NP grading only.) Effective: 1998 Fall Quarter.

SAS 098—Directed Group Study (1-5)

Variable. Prerequisite(s): Consent of Instructor. (P/NP grading only.) Effective: 1997 Winter Quarter.

SAS 099—Special Study for Undergraduates (1-5)

Discussion—3-15 hour(s). Prerequisite(s): Consent of Instructor. Lower division standing. (P/NP grading only.) Effective: 1997 Winter Quarter.

SAS 106—Career Discovery Groups for Transfer Students (1)

Discussion—1.5 hour(s). Prerequisite(s): Consent of Instructor. Open to transfer students entering the College of Agricultural and Environmental Sciences only. Campus resources for career exploration and professional development. Skills needed to find and secure career opportunities, including job searches, professional communication, interviews, and preparation of resumes and cover letters. Intended for transfer students. (P/NP grading only.) Effective: 2020 Fall Quarter.

SAS 109—Environmental Change, Disease & Public Health (4)

Lecture/Discussion—3 hour(s); Project (Term Project). Analysis of environmental changes from pre-history to the present and their influence on disease distribution, virulence and public health. Focus on critical study of many human-driven environmental changes and the accelerated transformation/spread of pathogens under globalization. Not open for credit to students who have taken HIS 109B. (Same course as HIS 109.) GE credit: SE, SL, SS, WC. Effective: 2016 Fall Quarter.

SAS 110—Applications of Evolution in Medicine, Human Behavior, & Agriculture (4)

Lecture—2 hour(s); Discussion—1 hour(s); Term Paper. Prerequisite(s): BIS 002A; BIS 002B; BIS 002C. Limited to 60 students. Applications of evolutionary biology in medicine, human behavior, and agriculture. Examination of the imprint of evolution on the human life cycle from conception to death. GE credit: SE, SL, WE. Effective: 2013 Fall Quarter.

SAS 120—Science & Contemporary Societal Issues (3)

Lecture/Discussion—3 hour(s). Prerequisite(s): Upper division standing. Study of a contemporary societal issue/problem emphasizing critical thinking with information drawn from several disciplines. Multiple instructors illustrate the necessity of an interdisciplinary and cooperative approach in solving important issues. Topics will vary. May be repeated up to 1 time(s). GE credit: SE, SS. Effective: 1997 Winter Quarter.

SAS 121—Global Poverty: Critical Thinking & Taking Action (4)

Lecture—3 hour(s); Discussion—1 hour(s). Social science and engineering analysis of causes and effects of world poverty and of policies to reduce it via economic growth, foreign aid, and community-level interventions; e.g., in potable water, sanitation, lighting, small scale energy, irrigation, health and microfinance. GE credit: SS, WC. Effective: 2013 Fall Quarter.

SAS 130—Contemporary Leadership (4)

Lecture—3 hour(s); Seminar—1 hour(s). Prerequisite(s): Consent of Instructor. Limited to 40 students. Leadership, including issues, skills, and practices as they relate to individuals, organizations, diverse social settings and communities. Written and verbal communications, personality styles for collaborative work, and ethics. GE credit: OL. Effective: 2006 Fall Quarter.

SAS 145—Digital Communication in Agricultural, Environmental, & Human Sciences (3)

Lecture/Discussion—1.5 hour(s); Studio—1.5 hour(s); Project (Term Project). Prerequisite(s): Consent of Instructor. Use digital media to communicate a succinct, compelling story. In lecture, discussion and activities, create storyboards and scripts, use video, audio, and editing technology, and produce a short media-rich video to effectively convey a message. GE credit: VL. Effective: 2018 Fall Quarter.

SAS 190X—Science & Society Seminar (1-4)

Seminar—1 hour(s). Prerequisite(s): Consent of Instructor. Upper division standing. Limited to 20 students. In-depth examination at an upper division level of a special topic in Science and Society. Emphasis upon student participation in learning. May be repeated for credit. (P/NP grading only.) Effective: 2005 Fall Quarter.

SAS 192—Internship in Science & Society (1-12)

Internship—3-36 hour(s). Prerequisite(s): Consent of Instructor. Upper division standing. Supervised internship on or off campus, in the community, or in institutional settings. (P/NP grading only.) Effective: 1997 Winter Quarter.

SAS 197T—Tutoring in Science & Society (1-5)

Tutorial—3-15 hour(s). Prerequisite(s): Consent of Instructor. Upper division standing; completion of course being tutored or the equivalent. Tutoring of students in Science & Society courses. Assistance with discussion groups and laboratory sections under supervision of instructor. May be repeated for credit if tutoring another Science & Society course. (P/NP grading only.) Effective: 1997 Winter Quarter.

SAS 198—Directed Group Study (1-5)

Variable. Prerequisite(s): Consent of Instructor. Directed group study. May be taught abroad. (P/NP grading only.)
Effective: 1997 Winter Quarter.

SAS 199—Special Study in Science & Society (1-5)

Variable. Prerequisite(s): Consent of Instructor. Upper division standing. (P/NP grading only.) Effective: 1997 Winter Quarter.

SAS 298—Group Study (1-5)

Variable. Prerequisite(s): Consent of Instructor. May be repeated for credit when topic differs. (S/U grading only.)
Effective: 1998 Fall Quarter.

SAS 299—Graduate Research (1-12)

Variable. Prerequisite(s): Consent of Instructor. Graduate student. May be repeated for credit. (S/U grading only.)
Effective: 1998 Fall Quarter.

SAS 390—Teaching Methods in Science & Society (1)

Discussion—1 hour(s). Prerequisite(s): Consent of Instructor. Graduate level. Practical experience in methods and problems related to teaching Science & Society courses. Discussion of critical pedagogies specific to teaching of science-societal issues, preparing for and conducting discussion sessions, analyses of texts and supporting material, formulation of assignments, exams. May be repeated for credit. (S/U grading only.) Effective: 1998 Fall Quarter.

SOC—Sociology

Courses in SOC:

SOC 001—Introduction to Sociology (5)

Lecture—4 hour(s); Discussion—1 hour(s). Principles and basic concepts of sociology. The study of groups, culture, collective behavior, classes and caste, community and ecology, role, status, and personality. GE credit: ACGH, DD, SS. Effective: 1997 Winter Quarter.

SOC 002—Self & Society (4)

Lecture—3 hour(s); Discussion—1 hour(s). Exploration of how self and identity are formed and transformed by socialization and social interaction in relation to roles, groups, institutions, power, and social change. Consideration of how people make decisions, fall in love, and come to blows. GE credit: ACGH, DD, SS. Effective: 2015 Winter Quarter.

SOC 003—Social Problems (4)

Lecture—3 hour(s); Discussion—1 hour(s). General sociological consideration of contemporary social problems in relation to sociocultural change and programs for improvement. GE credit: ACGH, DD, SS. Effective: 1997 Winter Quarter.

SOC 004—Immigration & Opportunity (4)

Lecture—3 hour(s); Discussion—1 hour(s); Term Paper. Social and demographic analysis of immigration: motives and experiences of immigrants; immigration and social mobility; immigration, assimilation, and social change; multicultural societies. Detailed study of immigration into the U.S., with comparative studies of Europe, Australia, and other host countries. GE credit: ACGH, DD, SS, WC. Effective: 1997 Winter Quarter.

SOC 005—Global Social Change: An Introduction to Macrosociology (4)

Lecture—3 hour(s); Discussion—1 hour(s). Introduction to change and diversity in world history, including the United States. Examines population and family, technological change and economic development, power and status, culture and identity. GE credit: ACGH, SS, WC. Effective: 1997 Winter Quarter.

SOC 006—Health & Illness (4)

Lecture—3 hour(s); Discussion—1 hour(s). Introduction to the sociology of health and illness, including social determinants of health, social inequalities in health/health disparities, social construction of health, the organization of health care, and the politics of health care reform. GE credit: DD, SS. Effective: 2016 Fall Quarter.

SOC 011—Sociology of Labor & Employment (4)

Lecture—3 hour(s); Discussion—1 hour(s). Labor and employment issues in the contemporary United States with some use of historical and comparative materials. Topics include strategies pursued by employers and employees, labor market discrimination and the role of social policies in shaping labor markets. GE credit: SS. Effective: 2006 Summer Session 1.

SOC 012Y—Data Visualization in the Social Sciences (4)

Lecture—2 hour(s); Laboratory—1.5 hour(s); Web Virtual Lecture—1.5 hour(s). Introduction to quantitative data across the social sciences (Communications, Political Science, Psychology, Sociology, and other disciplines). Transforming data, describing data, producing graphs, visual reasoning, and interpretations. (Same course as CMN 012Y, PSC 12Y, POL 012Y.) GE credit: QL, VL. Effective: 2016 Spring Quarter.

SOC 025—Sociology of Popular Culture (4)

Lecture—3 hour(s); Discussion—1 hour(s). Social mechanisms that shape modern popular culture. High, folk, and mass culture: historical emergence of popular culture. Mass media, commercialization, ideology and cultural styles. Theories and methods for analyzing cultural expressions in pop music, street art, film, television, and advertising. GE credit: SS, VL. Effective: 1997 Winter Quarter.

SOC 030A—Intercultural Relations in Multicultural Societies (3)

Lecture—1.5 hour(s); Discussion—1.5 hour(s). Macro-structural analysis of contemporary multicultural societies; immigration and assimilation in comparative perspective; social construction of racial and ethnic group identities; ethnicity and gender; group conflict and cooperation; controversies surrounding multiculturalism. First course in a two-course Multicultural Immersion Program. GE credit: ACGH, DD, SS. Effective: 2005 Fall Quarter.

SOC 030B—Intercultural Relations in Multicultural Societies (3)

Lecture—1.5 hour(s); Discussion—1.5 hour(s). Prerequisite(s): SOC 030A; or Consent of Instructor. Social-psychological analysis of personal experiences living in a multicultural society; conforming to or rejecting group identity or stereotypes; managing and reducing conflict; cross-cultural communication; promises and problems of diversity at UC Davis. Second course in a two-course Multicultural Immersion Program. GE credit: ACGH, DD, SS. Effective: 2005 Winter Quarter.

SOC 046A—Introduction to Social Research (4)

Lecture—3 hour(s); Discussion—1 hour(s); Term Paper; Project (Term Project). Examination of the methodological problems of social research. Selection and definition of problems of investigation, data-gathering techniques, and sampling. GE credit: SS. Effective: 1997 Winter Quarter.

SOC 046B—Introduction to Social Research (5)

Lecture—4 hour(s); Discussion—1 hour(s). Data-analysis techniques, measurement, scaling, multivariate analysis, and quantitative measures of association. GE credit: QL, SS. Effective: 2012 Fall Quarter.

SOC 098—Directed Group Study (1-5)

Variable. Prerequisite(s): Consent of Instructor. Primarily intended for lower division students. (P/NP grading only.) Effective: 1997 Winter Quarter.

SOC 099—Special Study for Undergraduates (1-5)

Variable. Prerequisite(s): Consent of Instructor. (P/NP grading only.) Effective: 1997 Winter Quarter.

SOC 100—Origins of Modern Sociological Theory (4)

Lecture—3 hour(s); Term Paper/Discussion—1 hour(s). Prerequisite(s): SOC 001, SOC 002, or SOC 003 recommended. Origins of modern sociological thought. Special emphasis on three major theorists from the classical tradition of 19th-century European social thought: Karl Marx, Max Weber, and Emile Durkheim. GE credit: SS. Effective: 2016 Fall Quarter.

SOC 103—Evaluation Research Methods (4)

Lecture—3 hour(s); Discussion—1 hour(s). Prerequisite(s): SOC 001 or SOC 002 or SOC 003 recommended; SOC 046A and SOC 046B recommended. Surveys applications of research methods to the evaluation of social programs, primarily emphasizing methodological issues, e.g., research design and data collection; uses of evaluation research are also discussed and placed in theoretical context. Participation in an evaluation project. GE credit: SL, SS. Effective: 2016 Fall Quarter.

SOC 104—The Political Economy of International Migration (4)

Lecture—3 hour(s); Term Paper/Discussion—1 hour(s). Prerequisite(s): SOC 001, SOC 002, SOC 003, or SOC 004 recommended. Analysis of worldwide migration patterns, and social scientific theories of international and transnational migration. Focus in economical, political, and social impact of immigration and potential for international and regional cooperation. (Same course as IRE 104.) GE credit: SS, WC. Effective: 2016 Fall Quarter.

SOC 106—Intermediate Social Statistics (5)

Lecture—4 hour(s); Discussion—1 hour(s). Prerequisite(s): SOC 046B; or Consent of Instructor. Intermediate level course in statistical analysis of social data, emphasizing the logic and use of statistical measures, procedures, and mathematical models especially relevant to sociological analysis. GE credit: QL, SL, SS. Effective: 2016 Fall Quarter.

SOC 118—Political Sociology (4)

Lecture—3 hour(s); Term Paper/Discussion—1 hour(s); Project (Term Project). Prerequisite(s): SOC 001, SOC 002, or SOC 003 recommended. Relation of social cleavages and social cohesion to the functioning of political institutions; the social bases of local and national power structures; social sources of political movement, analysis of concepts of alienation, revolution, ideology, ruling class, and elite. GE credit: SS. Effective: 2016 Fall Quarter.

SOC 120—Deviance (4)

Lecture—3 hour(s); Term Paper/Discussion. Prerequisite(s): SOC 001, SOC 002, or SOC 003 recommended. Social structural sources, institutional practices and microprocesses associated with illegality, evil, disease, immorality, disability, racial and class differences, citizenship, and the body. Special emphasis on expert knowledge and the production and management of social difference. GE credit: SS. Effective: 2016 Fall Quarter.

SOC 122—Sociology of Adolescence (4)

Lecture—3 hour(s); Term Paper/Discussion—1 hour(s); Project (Term Project). Prerequisite(s): SOC 001, SOC 002, or SOC 003 recommended. Chronological age and social status; analysis of social processes bearing upon the socialization of children and adolescents. The emergence of youth cultures. Generational succession as a cultural problem. GE credit: SS. Effective: 2016 Fall Quarter.

SOC 124—Education & Inequality in the U.S. (4)

Lecture—3 hour(s); Term Paper/Discussion—1 hour(s). Prerequisite(s): SOC 001, SOC 002, or SOC 003 recommended. Functions of schooling in contemporary U.S. society. Racial, ethnic, social class, and gender inequalities in student outcomes. Consideration of classic and current controversies in the sociology of education and education policy. GE credit: SS. Effective: 2016 Fall Quarter.

SOC 125—Sociology of Culture (4)

Lecture/Discussion—3 hour(s); Term Paper. Prerequisite(s): SOC 001, SOC 002, or SOC 003 recommended. Sociological approaches to study of historical and contemporary culture and mass media, and their structuring in relation to social actors, institutions, stratification, power, the production of culture, audiences, and the significance of culture in processes of change. GE credit: SS. Effective: 2016 Fall Quarter.

SOC 126—Social Interaction (4)

Lecture—3 hour(s); Term Paper/Discussion—1 hour(s). Prerequisite(s): SOC 001, SOC 002, or SOC 003 recommended. Everyday interaction in natural settings; ethnographic approaches to the understanding of social meanings, situations, personal identity and human relationships. Particular attention to the work of Erving Goffman and to principles of field observation and qualitative analysis. GE credit: SS. Effective: 2016 Fall Quarter.

SOC 128—Interracial Interpersonal Dynamics (4)

Lecture—3 hour(s); Term Paper/Discussion—1 hour(s). Prerequisite(s): SOC 001, SOC 002, or SOC 003 recommended. Analysis of the influences of cultural differences and racial stratification on interpersonal interaction in instrumental settings (e.g., work, education, political action) and intimate settings (e.g., friendship, love, marriage, family). Minority/majority relationships. GE credit: SS. Effective: 2016 Fall Quarter.

SOC 129—Sociology of Black Experience in America (4)

Lecture—3 hour(s); Term Paper/Discussion—1 hour(s). Prerequisite(s): SOC 001, SOC 002, or SOC 003 recommended. Survey of historical and contemporary theoretical sociological perspectives on the Black experience in United States. Emphasis on comparisons of Black sociological perspectives and mainstream perspectives of specific sociologists. GE credit: ACGH, DD, SS. Effective: 2016 Fall Quarter.

SOC 130—Race Relations (4)

Lecture—3 hour(s); Term Paper/Discussion—1 hour(s). Prerequisite(s): SOC 001, SOC 002, or SOC 003 recommended. Functions of the social definitions of race and racial groups. Analysis of racial conflict, oppression, and other forms of ethnic stratification. Models of ethnic interaction and social change. Emphasis on racial relationships within the U.S. GE credit: ACGH, DD, SS. Effective: 2016 Fall Quarter.

SOC 131—The Family (4)

Lecture—3 hour(s); Discussion—1 hour(s). Prerequisite(s): SOC 001, SOC 002, or SOC 003 recommended. Contemporary family life in historical and cross-cultural perspective. How different family forms arose, their significance today and prospects for further family change. Attention to power relations within and beyond the family and to the social implications of family transformation. GE credit: ACGH, DD, SS. Effective: 2016 Fall Quarter.

SOC 132—The Sociology of Gender (4)

Lecture—3 hour(s); Discussion—1 hour(s). Prerequisite(s): SOC 001, SOC 002, or SOC 003 recommended. Analysis of biological, psychological, cultural and structural conditions underlying the status and roles of men and women in contemporary society, drawing on a historical and comparative perspective. GE credit: ACGH, DD, SS. Effective: 2016 Fall Quarter.

SOC 133—Sexual Stratification & Politics (4)

Lecture—3 hour(s); Discussion—1 hour(s). Prerequisite(s): Consent of Instructor. SOC 001, SOC 002, or SOC 003 recommended. Analysis of origins, dynamics, and social implications of sexual stratification. Examination of classical and contemporary theorists such as Engels, Freud, J.S. Mill, de Beauvoir, Juliet Mitchell, D. Dinnerstein. Attention to selected issues in social movements for and against sexual equality. GE credit: SS. Effective: 2016 Fall Quarter.

SOC 135—Social Relationships (4)

Lecture—3 hour(s); Discussion—1 hour(s); Term Paper. Prerequisite(s): SOC 001, SOC 002, or SOC 003 recommended. Social and cultural factors influencing friendships and intimate relationships. Topics include relationship development, relationship maintenance, and relationship loss. GE credit: SS. Effective: 2016 Fall Quarter.

SOC 137—African American Society & Culture 1790 to 1990 (4)

Lecture—3 hour(s); Term Paper/Discussion—1 hour(s). Prerequisite(s): SOC 001, SOC 002, or SOC 003 recommended. Political and social transformations of African American communities between 1790 and 1990, as seen through film, literature, and music. Topics include: Black consciousness, Afro-Slave culture, The Harlem Renaissance, and contemporary Hip Hop. GE credit: ACGH, DD, SS. Effective: 2016 Fall Quarter.

SOC 138—Economic Sociology (4)

Lecture—3 hour(s); Discussion—1 hour(s). Prerequisite(s): SOC 001, SOC 002, or SOC 003 recommended. Overview of the rapidly growing field of economic sociology. Focus on variations in the ways that markets are organized. The relationship between individual and collective rationality will also be emphasized. GE credit: ACGH, SS, WC. Effective: 2016 Fall Quarter.

SOC 139—Corporations & Society (4)

Lecture—3 hour(s); Term Paper/Discussion—1 hour(s). Prerequisite(s): SOC 001, SOC 002, or SOC 003 recommended. Study of the history and power of the modern corporation; corporate organization; politics, the state, and the corporation; labor unions and the labor process; competition, regulation and international markets; the multinational and conglomerate corporation; and mass markets and consumerism. GE credit: ACGH, SS. Effective: 2016 Fall Quarter.

SOC 140—Social Stratification (4)

Lecture—3 hour(s); Term Paper/Discussion—1 hour(s); Project (Term Project). Prerequisite(s): SOC 001, SOC 002, or SOC 003 recommended. Systems of social ranking, theories of stratification; power, prestige, culture, and styles of life of various social classes; social mobility and its consequences for social structure. GE credit: ACGH, DD, SS. Effective: 2016 Fall Quarter.

SOC 141—Industrialization & Social Change (4)

Lecture—3 hour(s); Term Paper/Discussion—1 hour(s); Project (Term Project). Prerequisite(s): SOC 001, SOC 002, or SOC 003 recommended. Selected technological and social factors. Preconditions of economic development and industrialization. Social, political, and cultural issues at various levels of economic development. Major historical differences and major current trends. Emphasis either on highly industrialized countries or on less developed countries. GE credit: SS. Effective: 2016 Fall Quarter.

SOC 143A—Urban Society (4)

Lecture—3 hour(s); Discussion—1 hour(s); Term Paper; Project (Term Project). Prerequisite(s): SOC 001, SOC 002, or SOC 003 recommended. Theories of city origins. Analysis of the historic process of urbanization and of varying city types. Comparison of American and European experience of metropolitanization, counterurbanization, and neighborhood change. Consideration of competing theories of urban growth and change and competing visions of the urban future. GE credit: SS. Effective: 2016 Fall Quarter.

SOC 143B—Sociology of City Life (4)

Lecture—3 hour(s); Discussion—1 hour(s); Term Paper; Project (Term Project). Prerequisite(s): SOC 001, SOC 002, or SOC 003 recommended. Critical dissection of the loss of community issue. Analysis of the organization of primary ties in the city, of the culture of urban public life and of the learning of city skills. GE credit: SS. Effective: 2016 Fall Quarter.

SOC 144—Agriculture & Society (4)

Lecture—3 hour(s); Term Paper/Discussion—1 hour(s). Prerequisite(s): SOC 001, SOC 002, or SOC 003 recommended. Development of agriculture as a major enterprise in modern society with the concomitant reduction in the labor force and family farms. Analysis of issues including mechanization, migrant labor, corporate farming, and public resource policy. GE credit: SS. Effective: 2016 Fall Quarter.

SOC 145A—Sociology of Third World Development (4)

Lecture—3 hour(s); Discussion—1 hour(s). Prerequisite(s): SOC 001, SOC 002, or SOC 003 recommended. Introduction to theories and contemporary issues in the sociology of development. Topics such as urbanization, rural/agrarian change, class, status groups, international division of labor, sectoral shifts, international capital, informal economy, gender, and political processes are analyzed within a comparative-historical framework. GE credit: SS, WC. Effective: 2020 Winter Quarter.

SOC 145B—Gender & Rural Development in the Third World (4)

Seminar—4 hour(s). Prerequisite(s): SOC 001, SOC 002, or SOC 003 recommended. Political-economic analysis of women and work during the process of socioeconomic change in the world with particular attention to the family/household context. GE credit: SS, WC. Effective: 2016 Fall Quarter.

SOC 146—Sociology of Religion (4)

Lecture—3 hour(s); Discussion—1 hour(s); Term Paper; Project (Term Project). Prerequisite(s): SOC 001, SOC 002, or SOC 003 recommended. Relationship between social structures and religions. The social setting of the major world religions. Religious innovators and institutionalization (churches, sects, cults). Secularization in the modern world and the rise of secular ideologies. GE credit: SS. Effective: 2016 Fall Quarter.

SOC 147—Sociological Perspectives on East Asia (4)

Lecture—3 hour(s); Discussion—1 hour(s); Term Paper; Project (Term Project). Prerequisite(s): SOC 001, SOC 002, or SOC 003 recommended. Sociological theories and concepts applied toward understanding East Asian society. Emphasis on the political structure, stratification, and economy in China and Japan. Analysis of historical and contemporary similarities and differences. GE credit: SS, WC. Effective: 2016 Fall Quarter.

SOC 148—Collective Behavior (4)

Lecture—3 hour(s); Term Paper/Discussion—1 hour(s). Prerequisite(s): SOC 001, SOC 002, or SOC 003 recommended. Study of behavior of human crowds and masses in extraordinary circumstances, including crowd panics, mass scares, collective protests, riots, revolutionary situations, ecstatic and revivalist gatherings, crazes, fads, and fashions. GE credit: SS. Effective: 2016 Fall Quarter.

SOC 150—Criminology (4)

Lecture—3 hour(s); Term Paper/Discussion—1 hour(s); Project (Term Project). Prerequisite(s): SOC 001, SOC 002, or SOC 003 recommended. Sociological analysis of criminal behavior in relation to social structure and the criminalization process. GE credit: SS. Effective: 2016 Fall Quarter.

SOC 151—The Criminal Justice System (4)

Lecture—3 hour(s); Term Paper/Discussion—1 hour(s). Prerequisite(s): SOC 001, SOC 002, or SOC 003 recommended. Sociological analysis of the different components of the criminal justice system including the emergence and interpretation of criminal laws, the contemporary roles and functions of the police, criminal courts and correctional institutions. GE credit: SS. Effective: 2016 Fall Quarter.

SOC 152—Juvenile Delinquency (4)

Lecture—3 hour(s); Term Paper/Discussion—1 hour(s); Project (Term Project). Prerequisite(s): SOC 001, SOC 002, or SOC 003 recommended. Study of juvenile delinquency in relation to the family, peer groups, community, and institutional structures. Consideration of processing of the delinquent by formal agencies of control. GE credit: SS. Effective: 2016 Fall Quarter.

SOC 153—The Sociology of Childhood (4)

Lecture—3 hour(s); Term Paper. Prerequisite(s): SOC 001, SOC 002, or SOC 003 recommended. Contemporary childhood in historical, cross-cultural, and global perspectives. Examine changes in understanding of the nature of childhood and "best interests of the child" by class, race, gender, geographic region, and historical period. GE credit: ACGH, DD, SS, WC. Effective: 2016 Fall Quarter.

SOC 155—Sociology of Law (4)

Lecture—3 hour(s); Term Paper/Discussion—1 hour(s). Prerequisite(s): SOC 001, SOC 002, or SOC 003 recommended. Law considered as social control; relation of legal institutions to society as affecting judicial decision making and administration of justice. Lawyers as an occupational group. Legal reform. GE credit: SS. Effective: 2016 Fall Quarter.

SOC 156—Social Movements (4)

Lecture—3 hour(s); Discussion—1 hour(s); Term Paper; Project (Term Project). Prerequisite(s): SOC 001, SOC 002, or SOC 003 recommended. Analysis of several aspects of social movements: mobilization, forms of organization, ideology, recruitment, leadership, strategies and tactics, development, effects. Frequent use of sound and film materials. GE credit: SS. Effective: 2016 Fall Quarter.

SOC 157—Social Conflict (4)

Lecture—3 hour(s); Discussion—1 hour(s); Term Paper; Project (Term Project). Prerequisite(s): SOC 001, SOC 002, or SOC 003 recommended. Analysis of the causes, dynamics, and regulation of social conflict within and between various kinds of social groupings with particular reference to nonviolent methods of waging and regulating conflict. GE credit: SS. Effective: 2016 Fall Quarter.

SOC 159—Work, Employment, & Careers in the 21st Century (4)

Lecture—3 hour(s); Term Paper/Discussion—1 hour(s). Prerequisite(s): SOC 001, SOC 002, or SOC 003 recommended. Historical and contemporary overview of employment, work, and occupations in American society. Study of authority and power relations, labor markets, control systems, stratification, and corporate structures, and how these factors shape work in diverse or organizational and employment setting. GE credit: SS. Effective: 2016 Fall Quarter.

SOC 160—Sociology of the Environment (4)

Lecture—3 hour(s); Term Paper. Prerequisite(s): SOC 001, SOC 002, or SOC 003 recommended. Production, consumption, and urban expansion. Basic social logics surrounding current problems of resource scarcity (environmental extractions) and excess wastes (environmental additions). Ways that society can change and re-organize itself to become more environmentally conscious and hence ecologically sustainable. GE credit: ACGH, DD, SS, WC. Effective: 2016 Fall Quarter.

SOC 161—The Civil Justice System (4)

Lecture—3 hour(s); Term Paper. Prerequisite(s): SOC 001, SOC 002, or SOC 003 recommended. Empirical studies of the different aspects of the civil justice system in the United States and Global Society including the litigation, juries, civil rights, and international laws relating to trade, the environment, and human rights. Effective: 2016 Fall Quarter.

SOC 162—Society, Culture, & Health (4) *Review all entries*

Lecture—3 hour(s); Term Paper/Discussion—1 hour(s). Prerequisite(s): SOC 001, SOC 002, SOC 003, or SOC 006 recommended. Analysis of how socio-cultural factors shape illness experience. Evaluation of how certain conditions come to be understood as health conditions; illness identities and biographies; doctor-patient interactions; biomedical cultures; how race, ethnicity, and gender shape health practices. GE credit: DD, SS. Effective: 2020 Fall Quarter.

SOC 162—Society, Culture, & Health (4) *Review all entries*

Lecture—3 hour(s); Discussion—1 hour(s). Prerequisite(s): SOC 001, SOC 002, SOC 003, or SOC 006 recommended. Analysis of how socio-cultural factors shape illness experience. Evaluation of how certain conditions come to be understood as health conditions; illness identities and biographies; doctor-patient interactions; biomedical cultures; and how race, ethnicity, and gender shape health practices. GE credit: DD, SS. Effective: 2016 Fall Quarter.

SOC 163—Population Health: Social Determinants & Disparities in Health (4)

Lecture—3 hour(s); Discussion—1 hour(s). Prerequisite(s): SOC 001, SOC 002, SOC 003, or SOC 006 recommended. Survey of the social determinants and disparities in health: measurement of population health; health transitions and global disparities; domestic disparities in health by class, race/ethnicity, nativity, gender, and sexual orientation; social determinants including social support, social stress, neighborhoods, and policy. GE credit: DD, SS. Effective: 2016 Fall Quarter.

SOC 164—Health Policy & Politics (4)

Lecture—3 hour(s); Term Paper/Discussion—1 hour(s). Prerequisite(s): SOC 001, SOC 002, SOC 003, or SOC 006 recommended. Introduction to health policy and politics, including health care access and delivery, and policies related to health inequalities, the social determinants of illness and health behaviors. GE credit: DD, SS. Effective: 2019 Spring Quarter.

SOC 170—Population (4)

Lecture—3 hour(s); Discussion—1 hour(s); Term Paper; Project (Term Project). Prerequisite(s): SOC 001, SOC 002, or SOC 003 recommended. Introduction to the study of human population, including theories and statistical measures; social causes and consequences of population trends; changes in population structure; geographical distribution, migration, sociopsychological factors affecting fertility. GE credit: QL, SS. Effective: 2016 Fall Quarter.

SOC 171—Sociology of Violence & Inequality (4)

Lecture/Discussion—4 hour(s). Prerequisite(s): SOC 001, SOC 002, or SOC 003 recommended. How systems of social inequality organize the practice of violence. Definitions of violence and issues affecting the social capacity for violence. Analysis and comparison of different forms of violence associated with race, class, gender relations and social organization. GE credit: SS. Effective: 2016 Fall Quarter.

SOC 173—Sociology Through Literature (4)

Lecture—3 hour(s); Discussion—1 hour(s); Term Paper; Project (Term Project). Prerequisite(s): SOC 001, SOC 002, or SOC 003 recommended. Introduction to analysis of literature as sociological data. Reading of numerous works on American and other societies by authors such as Steinbeck, Lewis, Dreiser, Schulberg, Orwell, etc. GE credit: SS. Effective: 2016 Fall Quarter.

SOC 174—American Jewish Identities & Communities (4)

Lecture—3 hour(s); Term Paper/Discussion—1 hour(s). Prerequisite(s): SOC 001, SOC 002, or SOC 003 recommended. Sociology of Jewish life, analyzing challenges to Jewish identity and community in the diaspora. Diversity within the Jewish community, Americanization, women, new immigrants, post-Holocaust Jewish identity, and LGBT Jews. GE credit: SS. Effective: 2016 Fall Quarter.

SOC 176—Sociology of Knowledge, Science, & Scientific Knowledge (4)

Lecture—3 hour(s); Term Paper/Discussion—1 hour(s). Prerequisite(s): SOC 001, SOC 002, or SOC 003 recommended. Social, cultural, and historical dimensions of knowledge, especially scientific knowledge. Problems, methods, and theory in sociology of scientific knowledge. Laboratory and historical case studies. Scientific and technical knowledge in institutional and organizational contexts. (Same course as STS 176.) GE credit: SS. Effective: 2016 Fall Quarter.

SOC 178—Punishment & Corrections (4)

Lecture—3 hour(s); Term Paper. Prerequisite(s): SOC 001, 002, or 003 recommended. Origins, characteristics, and consequences of various sanctions and punishment regimes including fines, banishment, incarceration, deportation, and execution. GE credit: SS. Effective: 2017 Spring Quarter.

SOC 180A—Complex Organizations (4)

Lecture—3 hour(s); Discussion—1 hour(s); Term Paper; Project (Term Project). Prerequisite(s): SOC 001, SOC 002, or SOC 003 recommended. Develops a sociological approach to organizations theory. Designed to introduce sociological concepts, address the alternative psychological and economic models, and involve students in the practice of organizational analysis. GE credit: SS. Effective: 2016 Fall Quarter.

SOC 185—Social Policy (4)

Lecture—3 hour(s); Term Paper/Discussion—1 hour(s); Project (Term Project). Prerequisite(s): SOC 001, SOC 002, or SOC 003 recommended. Examination of social policies that affect the well-being of individuals, families and groups, including such policies as old-age pensions, health insurance, and aid to the poor. Students may not take both SOC 185 and SOC 185Y for credit. GE credit: SS. Effective: 2016 Fall Quarter.

SOC 185Y—Social Policy (Hybrid Version) (4)

Web Virtual Lecture—1.5 hour(s); Lecture—1.5 hour(s); Term Paper/Discussion—1 hour(s). Prerequisite(s): SOC 001, SOC 002, or SOC 003 recommended. Examination of social policies that affect the well-being of individuals, families and groups, including such policies as old-age pensions, health insurance, and aid to the poor. Students may not take both SOC 185 and SOC 185Y for credit. GE credit: SS, WE. Effective: 2016 Fall Quarter.

SOC 188—Markets, Culture & Inequality in China (4)

Lecture—3 hour(s); Term Paper. Prerequisite(s): SOC 001, SOC 002, or SOC 003 recommended. Economic and political systems and patterns of social interaction and inequality in China. State and corporate structures and practices, market and consumer behaviors, social mobility and stratification, protest and resistance. GE credit: SS, WC. Effective: 2016 Fall Quarter.

SOC 192—Internship & Research Practicum (1-6)

Internship—3-18 hour(s). Prerequisite(s): Consent of Instructor. Must have 84 units complete; faculty approval of proposed internship. Supervised internship and study in an agency, organization, or institution; application of sociological concepts to the work experience. Maximum of 4 units may be counted toward the major. May be repeated for credit with consent of instructor. (P/NP grading only.) Effective: 2020 Winter Quarter.

SOC 193—Workshop in Field Research (2)

Lecture/Discussion—2 hour(s). Prerequisite(s): SOC 046A; (SOC 192 (can be concurrent) or SOC 199 (can be concurrent)); SOC 192 or SOC 199 required concurrently for 2-4 units; senior standing. Overview of the process of collecting, recording, analyzing, and reporting qualitative social data. Emphasis on application of principles; each participant completes an original research project. Not open for credit to students who have completed SOC 194HA. GE credit: SS, WE. Effective: 2001 Fall Quarter.

SOC 194HA—Special Study for Honors Students (4)

Seminar—3 hour(s); Term Paper. Prerequisite(s): Senior standing and admission to the Honors Program. Directed reading, research and writing culminating in the preparation of a Senior Honors Thesis under direction of faculty advisor. GE credit: SS. Effective: 1997 Fall Quarter.

SOC 194HB—Special Study for Honors Students (4)

Seminar—3 hour(s); Term Paper. Prerequisite(s): Senior standing and admissions to the Honors Program. Directed reading, research and writing culminating in the preparation of a Senior Honors Thesis under direction of faculty advisor. GE credit: SS. Effective: 1997 Spring Quarter.

SOC 195—Special Topics in Sociological Analysis (4)

Seminar—3 hour(s); Term Paper. Prerequisite(s): SOC 001, SOC 002, or SOC 003 recommended. In-depth examination of topics in sociology. Emphasis on student research and writing. May be repeated for credit when topic differs. GE credit: SS. Effective: 2016 Fall Quarter.

SOC 197T—Tutoring in Sociology (1-4)

Tutorial—3-12 hour(s). Prerequisite(s): Upper division standing; completion of appropriate course with distinction. Activities vary depending on the nature of the course assignment. May include (but not limited to) tutoring on course material, advising on projects and papers, and leading discussion groups. (P/NP grading only.) Effective: 1997 Winter Quarter.

SOC 198—Directed Group Study (1-5)

Variable. Prerequisite(s): Consent of Instructor. (P/NP grading only.) Effective: 1997 Winter Quarter.

SOC 199—Special Study for Advanced Undergraduates (1-5)

Variable. Prerequisite(s): Consent of Instructor. Must have 84 units complete and faculty approval. Special study. (P/NP grading only.) Effective: 2018 Winter Quarter.

SOC 201—Social Research (4)

Lecture/Discussion—3 hour(s); Term Paper—1 hour(s). Prerequisite(s): Graduate standing or consent of instructor. Comparative survey of sociological inquiry, taught as a practicum. Philosophy of social science; values and research; research agendas and research problem formulations; research process; explanations; interpretation; study design; concept formation, measure, sampling, data acquisition, inference; rhetoric and presentation of findings. Effective: 2007 Fall Quarter.

SOC 206—Quantitative Analysis in Sociology (4)

Lecture—4 hour(s). Prerequisite(s): SOC 106. Survey of the statistical models and methods that serve as a foundation for quantitative research in sociology, with an emphasis on multivariate regression analysis, as well as measurement theory and time series analysis. (S/U grading only.) Effective: 1997 Winter Quarter.

SOC 207A—Methods of Quantitative Research (4)

Lecture—3 hour(s); Term Paper. Prerequisite(s): SOC 106; Or the equivalent. Principles of study design, examination of measurement, survey research methods and multivariate analysis. Stresses actual practice of techniques. Carry out quantitative data analysis using packaged computer programs. May be repeated up to 8 unit(s) with instructor approval. Effective: 2015 Fall Quarter.

SOC 208—Topics in Advanced Quantitative Methods in Social Science (4)

Seminar—3 hour(s); Term Paper. Prerequisite(s): SOC 206; Or the equivalent and graduate standing; major graduate students. Analysis of the logic and application of an advanced statistical model; the particular model chosen may vary. Emphasis on the model's assumptions, its strengths and weaknesses, its application for social science inquiry, and the relationship between methods and social theory. May be repeated up to 12 unit(s). Effective: 2007 Spring Quarter.

SOC 215—Economy, Polity, & Society (4)

Seminar—3 hour(s); Term Paper. Prerequisite(s): Consent of Instructor. Open to graduate students in sociology & related disciplines. Introduces students to topics and selected issues in the related fields of economic and political sociology and political economy. Effective: 1997 Winter Quarter.

SOC 220—Deviance, Law, & Social Control (4)

Seminar—3 hour(s); Project (Term Project). Prerequisite(s): SOC 120; or Consent of Instructor. Report and discussions of literature on selected forms of deviance in relation to law and formal social control. Agency contacts and exploratory research projects. Effective: 1997 Winter Quarter.

SOC 224—Sociology of Education (4)

Seminar—3 hour(s); Term Paper. Prerequisite(s): SOC 206 or equivalent recommended. Restricted to graduate students or consent of instructor. Overview of sociological theories accounting for the form, role, and evolution of educational systems. Emphasis on empirical research on education and social stratification and application to educational policy. Effective: 2018 Winter Quarter.

SOC 225—Cultural Sociology (4)

Seminar—3 hour(s); Term Paper. Explores the varied ways in which culture is understood in the social sciences and the research questions that follow from contrasting viewpoints. The approach is historically informed and focused on changing cultural forms in relation to industrialization and post-modernism. Effective: 1997 Winter Quarter.

SOC 226—Sociological Social Psychology (4)

Seminar—3 hour(s); Term Paper—1 hour(s). Prerequisite(s): Graduate standing or consent of instructor. Advanced study of the varying approaches, methods, issues and topical concerns of sociological social psychology. Analysis of central and representative historical and contemporary works. Effective: 1997 Winter Quarter.

SOC 227—Sociology of Reproduction (4)

Lecture—3 hour(s); Discussion—1 hour(s). Recent social science scholarship in such areas as teenage pregnancy, family planning, abortion, adoption, AIDS, and new reproductive technologies; focus on the current situation in the United States. Effective: 1997 Winter Quarter.

SOC 230—Ethnic (Race) Relations (4)

Lecture—3 hour(s); Term Paper. Advanced study of the determinants of ethnic groupings and their interrelationships. Major theme will be the patterns of ethnic stratification and causes of ethnic conflict. Specific focus upon dominance and resistance to dominance. Influence of social science research. Effective: 1997 Winter Quarter.

SOC 233—Gender, Culture, & Local/Global Transformation (4)

Seminar—3 hour(s); Term Paper. Focus on critical approach to women and development; analyze local transformations with global connections within specific cultural contexts. Covers theory, methodological issues, and relationship between theory and practice. Effective: 1998 Fall Quarter.

SOC 234—Gender, Family, & Society (4)

Seminar—3 hour(s); Term Paper. Prerequisite(s): Graduate standing or consent of instructor. Major theoretical traditions and concerns in family sociology and sociology of gender. Analysis of selected classical and contemporary works representative of functionalist, Marxist, psychoanalytic, feminist and critical theoretical approaches to these subjects; e.g., Engels, Parsons, Freud, Horkheimer, Goode, Lasch, Mitchell. Emphasis on macro and historical questions. Effective: 1997 Winter Quarter.

SOC 242A—Methodologies of Sociohistorical Inquires (4)

Seminar—3 hour(s); Term Paper. Prerequisite(s): Consent of instructor not required for graduate students in the Social Sciences Division or the Humanities, Arts, and Cultural Studies Division; required for undergraduates and students from other divisions or colleges. Introduction to comparative and case methodological approaches to sociohistorical inquiry, theoretical and practical issues, and substantive research agendas ranging from study of large-scale social transformations to close microhistories, including research agendas being developed by students in the course. Effective: 2015 Fall Quarter.

SOC 243—Urban Society (4)

Seminar—3 hour(s); Term Paper. Broad overview of the issues and concerns of the field of urban sociology. Special emphasis on the human experience of urban living in contemporary, cross-cultural or historical settings. Effective: 1997 Winter Quarter.

SOC 245—Developing Societies (4)

Seminar—3 hour(s); Term Paper; Project (Term Project). Prerequisite(s): Graduate student status or familiarity with problems of developing societies. Analysis of social and economic problems of developing societies from the standpoint of theory and research on modernization and underdevelopment. Nature of third world dependency and interdependence in the global political economy. Effective: 1997 Winter Quarter.

SOC 248—Social Movements (4)

Seminar—3 hour(s); Term Paper. Analysis of current issues in and contributions to the study of collective behavior and social movements; particular focus upon the strategies and tactics of social movements. Effective: 1997 Winter Quarter.

SOC 254—Sociology of Health & Illness (4)

Seminar—3 hour(s); Term Paper. Open to graduate or professional students. Sociological perspectives and methods on the study of health and illness. Select topics for supervised research. Research paper required. Effective: 2018 Winter Quarter.

SOC 255—Sociology of Law (4)

Seminar—4 hour(s). Prerequisite(s): Consent of Instructor. Analysis of the nature of the legal process and its impact on social behavior. Will consider (1) nature and functions of law, (2) the organization and administration of law, and (3) the capacity of law to affect social behavior. Effective: 1997 Winter Quarter.

SOC 265A—Classical Sociological Theory (4)

Lecture—3 hour(s); Discussion—1 hour(s). Introduces graduate students to the work of the main classical thinkers in the tradition of social theory, such as Marx, Durkheim, Weber, Simmel, Freud, G.H. Mead, and Parsons, locating them within the historical, cultural, and philosophical milieu in which their ideas originated. Effective: 1997 Winter Quarter.

SOC 265B—Theory in Contemporary Sociology (4)

Lecture—3 hour(s); Discussion—1 hour(s). Prerequisite(s): SOC 265A. Explores the uses of theories in contemporary sociology by tracing their connections with classical sociological writings and their relations to broader theoretical concerns of contemporary social thought, with particular emphasis on relevance to the current historical, cultural and social milieu. Effective: 1997 Winter Quarter.

SOC 270—Social Demography (4)

Seminar—4 hour(s). Prerequisite(s): SOC 170; or Consent of Instructor. How social institutions affect and are affected by the level and variation of mortality, migration, and fertility. Special emphases on the determinants of fertility-related attitudes and behavior, on less-developed countries, and on contemporary empirical studies. Effective: 1997 Winter Quarter.

SOC 280—Organizations & Institutions (4)

Seminar—4 hour(s). Theory of formal organizations and bureaucracy. Methods of research in organizational and institutional studies. Historical and comparative analysis of political, religious, educational, military, and economic structure. Effective: 1997 Winter Quarter.

SOC 288—Integrative Research Practicum (4)

Seminar—6 hour(s); Extensive Writing; Term Paper. Prerequisite(s): SOC 207A; SOC 242A; SOC 292A; Consent of Instructor. Continuing training in field, quantitative, and/or comparative-historical methods. Emphasis on students' research projects and applications of principles related to research design, concept and theory construction causality and interpretation, and data and measurement. Completion of research paper is required. Effective: 2015 Fall Quarter.

SOC 290—Seminar (4)

Seminar—3 hour(s); Term Paper. (S/U grading only.) Effective: 1997 Winter Quarter.

SOC 292A—Field Research (4)

Seminar—3 hour(s); Fieldwork. Prerequisite(s): Graduate standing in Sociology or consent of instructor. Introduction to the logic, methods, and practices of field research, with particular emphasis on the ethnographic tradition of participant observation. Interviewing and other qualitative techniques will also be covered. Students will develop original research projects based on their own fieldwork. Effective: 2015 Fall Quarter.

SOC 293—Proseminar in Sociology (2)

Seminar—2 hour(s). Prerequisite(s): First-year Sociology graduate students only. Introduction to graduate training in sociology. A seminar designed to introduce students entering graduate work in the department to its ongoing research activities. (S/U grading only.) Effective: 1997 Winter Quarter.

SOC 295—Special Topics Seminar (4)

Lecture/Discussion—3 hour(s); Term Paper. Prerequisite(s): Graduate standing or consent of instructor. Research topics in Sociology. Specific topic will vary according to faculty interest and student demand. May be repeated for credit when topic differs. Effective: 1999 Fall Quarter.

SOC 298—Group Study (1-5)

Variable. Prerequisite(s): Consent of Instructor. (S/U grading only.) Effective: 1997 Winter Quarter.

SOC 299—Individual Study (1-12)

Variable. Prerequisite(s): Consent of Instructor. (S/U grading only.) Effective: 1997 Winter Quarter.

SOC 390A—The Teaching of Sociology (2)

Lecture—1 hour(s); Discussion—1 hour(s). Prerequisite(s): Graduate standing; required for first-time teaching assistants. Practical instruction in teaching methods for qualitative and quantitative courses. Pedagogical issues involved in critical sociological analysis. (S/U grading only.) Effective: 1997 Winter Quarter.

SOC 390B—The Teaching of Sociology (2)

Lecture—1 hour(s); Discussion—1 hour(s). Prerequisite(s): Graduate standing. Practical instruction in devising course syllabi, lectures and assignments for Associate-Instructors and others interested in college teaching. Discussion of pedagogical methods of teaching qualitative and quantitative courses. (S/U grading only.) Effective: 1997 Winter Quarter.

SOC 396—Teaching Assistant Training Practicum (1-4)

Variable. Prerequisite(s): Graduate standing. May be repeated for credit. (P/NP grading only.) Effective: 1997 Winter Quarter.

SOC 466—Research Paper Workshop (2)

Workshop—1.5 hour(s); Discussion—0.5 hour(s). Prerequisite(s): Master of Arts standing. A workshop to assist advanced graduate students in the preparation of an original research paper. Students present their research papers and discuss issues in theory, research design, data, empirical inference, and verbal and written presentation of a professional research paper. (S/U grading only.) Effective: 1997 Winter Quarter.

SPA—Spanish

Courses in SPA:

SPA 001—Elementary Spanish (5)

Lecture/Discussion—5 hour(s). Introduction to Spanish grammar and development of all language skills in a cultural context with special emphasis on communication. Not open for credit for students who have completed equivalent SPA 001S; students who have successfully completed SPA 002 or SPA 003 in the 10th or higher grade of high school may receive unit credit for this course on a P/NP grading basis only; although a passing grade will be charged to the student's P/NP option, no petition is required; all other students will receive a letter grade unless a P/NP petition is filed. GE credit: AH, WC. Effective: 2016 Winter Quarter.

SPA 001A—Accelerated Intensive Elementary Spanish (15)

Lecture/Discussion—15 hour(s). Introduction to Spanish grammar and development of all language skills in a cultural context with emphasis on communication. Special 12-week accelerated, intensive summer session combining the work of SPA 001, SPA 002 and SPA 003. Not open to students who have completed equivalent SPA 001, SPA 001S, SPA 002, SPA 002S, SPA 002V, SPA 002Y, SPA 003, SPA 003S, SPA 003V or SPA 003Y. GE credit: AH, WC. Effective: 2016 Summer Special Session.

SPA 001S—Elementary Spanish (5)

Lecture/Discussion—5 hour(s). Introduction to Spanish grammar and development of all language skills in a cultural context with special emphasis on communication. May be taught abroad in a Spanish speaking country under the supervision of a UC Davis faculty/lecturer. Not open for credit to students who have taken equivalent SPA 001. GE credit: AH, WC. Effective: 2016 Spring Quarter.

SPA 001Y—Elementary Spanish (5)

Lecture/Discussion—3 hour(s); Web Virtual Lecture—1 hour(s); Web Electronic Discussion—1 hour(s). Introduction to Spanish grammar and development of all language skills in a cultural context with special emphasis on communication. Not open for credit for students who have completed equivalent courses SPA 001 or SPA 001S; students who have completed SPA 002 or SPA 003 in the 10th grade of high school may receive unit credit for this course on a P/NP basis only; although a passing grade will be charged to the student's P/NP option, no petition is required; all other students will receive a letter grade unless a P/NP petition is filed. GE credit: AH, WC. Effective: 2019 Spring Quarter.

SPA 002—Elementary Spanish (5)

Lecture/Discussion—5 hour(s). Prerequisite(s): SPA 001 or SPA 001S or SPA 001Y; Or the equivalent. Continuation of SPA 001 and SPA 001S in the areas of grammar and basic language skills. Not open for credit for students who have completed equivalent SPA 002S, SPA 002V or SPA 002Y. GE credit: AH, WC. Effective: 2019 Spring Quarter.

SPA 002S—Elementary Spanish (5)

Lecture/Discussion—5 hour(s). Prerequisite(s): SPA 001 or SPA 001S or SPA 001Y. Continuation of SPA 001 and SPA 001S in the areas of grammar and basic language skills. May be taught abroad in a Spanish speaking country under the supervision of UC Davis faculty/lecturer. Not open for credit to students who have taken SPA 002, SPA 002V or SPA 002Y. GE credit: AH, WC. Effective: 2019 Spring Quarter.

SPA 002V—Elementary Spanish (5)

Web Virtual Lecture—3 hour(s); Web Electronic Discussion—2 hour(s). Prerequisite(s): SPA 001 or SPA 001S or SPA 001Y; Or the equivalent. Continuation of SPA 001, SPA 001S, or previous high school experience in the areas of grammar and basic language skills. Online format combining synchronous chatting with technologically based materials. Not open for credit to students who have taken equivalent SPA 002, SPA 002S, SPA 002Y, or higher. GE credit: AH, WC. Effective: 2019 Spring Quarter.

SPA 002Y—Elementary Spanish (5)

Lecture/Discussion—3 hour(s); Web Electronic Discussion—2 hour(s). Prerequisite(s): SPA 001 or SPA 001S. Continuation of SPA 001 or SPA 001S in the areas of grammar and basic language skills. Hybrid format combining classroom instruction with technologically based materials. Not open for credit to students who have taken equivalent SPA 002, SPA 002S, or SPA 002V. GE credit: AH, WC. Effective: 2016 Winter Quarter.

SPA 003—Elementary Spanish (5)

Lecture/Discussion—5 hour(s). Prerequisite(s): SPA 002 or SPA 002S or SPA 002V or SPA 002Y. Completion of grammar sequence and continuing practice of all language skills using cultural texts. Not open for credit for students who have completed equivalent SPA 003S, SPA 003V or SPA 003Y. GE credit: AH, WC. Effective: 2016 Spring Quarter.

SPA 003S—Elementary Spanish (5)

Lecture/Discussion—5 hour(s). Prerequisite(s): SPA 002 or SPA 002S or SPA 002V or SPA 002Y. Completion of grammar sequence and continuing practice of all language skills using cultural texts. May be taught abroad in a Spanish speaking country under the supervision of UC Davis faculty. Not open for credit for students who have completed equivalent SPA 003, SPA 003V or SPA 003Y. GE credit: AH, WC. Effective: 2016 Spring Quarter.

SPA 003V—Elementary Spanish (5)

Web Virtual Lecture—3 hour(s); Web Electronic Discussion—2 hour(s). Prerequisite(s): SPA 002 or SPA 002S or SPA 002V or SPA 002Y. Continuation of SPA 002, SPA 002S, SPA 002V or SPA 002Y. Online format combining synchronous chatting with technologically based materials. Not open to students who have taken equivalent SPA 003, SPA 003S, SPA 003Y, or higher. GE credit: AH, WC. Effective: 2016 Winter Quarter.

SPA 003Y—Elementary Spanish (5)

Lecture/Discussion—3 hour(s); Web Electronic Discussion—2 hour(s). Prerequisite(s): SPA 002 or SPA 002S or SPA 002V or SPA 002Y. Completion of grammar sequence and continuing practice of all language skills using cultural texts. Hybrid format combining classroom instruction with technologically based materials. Not open to students who have taken equivalent SPA 003, SPA 003S, or SPA 003V. GE credit: AH, WC. Effective: 2016 Winter Quarter.

SPA 008—Elementary Spanish Conversation (2)

Discussion—3 hour(s). Prerequisite(s): (SPA 003 or SPA 003V or SPA 003Y); SPA 021 (concurrently) recommended. Not open to native speakers or upper division students. Designed to develop oral communication skills. Emphasis on increasing vocabulary, improving listening comprehension, pronunciation, accuracy and grammar control. Practice of everyday situations. GE credit: OL, WC. Effective: 2018 Spring Quarter.

SPA 021—Intermediate Spanish (5)

Lecture/Discussion—5 hour(s). Prerequisite(s): SPA 003 or SPA 003S or SPA 003V or SPA 003Y. Review and development of grammar, vocabulary and composition acquired in the first year through exercises and reading of modern texts. Not open for credit for students who have completed equivalent SPA 021S, SPA 021V or SPA 021Y. GE credit: AH, WC. Effective: 2016 Spring Quarter.

SPA 021S—Intermediate Spanish (5)

Lecture/Discussion—5 hour(s). Prerequisite(s): SPA 003 or SPA 003S or SPA 003V or SPA 003Y. Review and development of the grammar, vocabulary and composition acquired in the first year through exercises and reading of modern texts. May be taught abroad. Not open for credit for students who have completed equivalent SPA 021, SPA 021V or SPA 021Y. GE credit: AH, WC. Effective: 2016 Spring Quarter.

SPA 021V—Intermediate Spanish I (5)

Web Virtual Lecture—3 hour(s); Web Electronic Discussion—2 hour(s). Prerequisite(s): SPA 003 or SPA 003Y or SPA 003V; Or the equivalent from previous high school language experience. Continuation of SPA 003, SPA 003V, SPA 003Y, SPA 003S, or previous high school experience in the areas of grammar and intermediate language skills. Online format combining synchronous chatting with technologically based materials. Not open for credit to students who have taken equivalent SPA 021, SPA 021Y or SPA 021S. GE credit: AH, OL, WC, WE. Effective: 2016 Spring Quarter.

SPA 021Y—Intermediate Spanish (5)

Lecture/Discussion—3 hour(s); Web Electronic Discussion—2 hour(s). Prerequisite(s): SPA 003 or SPA 003S or SPA 003V or SPA 003Y. Continuation of SPA 003, SPA 003S, SPA 003V and SPA 003Y in the areas of grammar and basic language skills. Hybrid format combining classroom instruction with technologically based materials where learning takes place both face-to-face and online. Not open for credit to students who have taken equivalent SPA 021, SPA 021S or SPA 021V. GE credit: AH, WC. Effective: 2016 Spring Quarter.

SPA 022—Intermediate Spanish (5)

Lecture/Discussion—5 hour(s). Prerequisite(s): SPA 021 or SPA 021S or SPA 021V or SPA 021Y. Development of all language skills through exercises and reading of modern texts. Development on more difficult grammar concepts and further practice on composition. Not open for credit for students who have completed equivalent SPA 022S, SPA 022V or SPA 022Y. GE credit: AH, WC. Effective: 2016 Spring Quarter.

SPA 022S—Intermediate Spanish (5)

Lecture/Discussion—5 hour(s). Prerequisite(s): SPA 021 or SPA 021S or SPA 021V or SPA 021Y. Development of all language skills through exercises and reading of modern texts. Development of more difficult grammar concepts and further practice on composition. May be taught abroad. Not open for credit for students who have completed equivalent SPA 022, SPA 022V or SPA 022Y. GE credit: AH, WC. Effective: 2016 Spring Quarter.

SPA 022V—Intermediate Spanish II (5)

Web Virtual Lecture—3 hour(s); Web Electronic Discussion—2 hour(s). Prerequisite(s): SPA 021 or SPA 021S or SPA 021V or SPA 021Y; Or equivalent from previous high school language experience. Continuation of SPA 021, SPA 021V, SPA 021Y, SPA 022S, or previous high school experience in the areas of grammar and intermediate language skills. Online format combining synchronous chatting with technologically based materials. Not open for credit to students who have taken SPA 022, SPA 022Y, or SPA 022S. GE credit: AH, OL, SS, WC, WE. Effective: 2016 Spring Quarter.

SPA 022Y—Intermediate Spanish (5)

Lecture/Discussion—3 hour(s); Web Electronic Discussion—2 hour(s). Prerequisite(s): SPA 021 or SPA 021S or SPA 021V or SPA 021Y. Continuation of SPA 021, SPA 021S, or SPA 021V in the areas of grammar and basic language skills. Online format combining synchronous chatting with technologically based materials. Not open to students who have taken equivalent SPA 022, SPA 022S or SPA 022V. GE credit: AH, WC. Effective: 2016 Winter Quarter.

SPA 023—Spanish Composition I (4)

Lecture—3 hour(s); Extensive Writing. Prerequisite(s): SPA 022 or SPA 022S or SPA 022V or SPA 022Y. Development of writing skills by way of reading, discussion, and analysis of authentic materials, literary texts, and videos. Selective review of grammar. Composition, journals, individual and group projects. Not open for students who have completed equivalent SPA 023S. GE credit: AH, WC, WE. Effective: 2016 Winter Quarter.

SPA 023S—Spanish Composition I (4)

Lecture—3 hour(s); Extensive Writing. Prerequisite(s): SPA 022 or SPA 022S or SPA 022V or SPA 022Y. Development of writing skills by way of reading, discussion, and analysis of authentic materials, literary texts, and videos. Selective review of grammar. Composition, journals, individual and group projects. May be taught abroad in Spanish speaking country. Not open for credit to students who have completed equivalent SPA 023. GE credit: AH, WC, WE. Effective: 2016 Winter Quarter.

SPA 024—Spanish Composition II (4)

Lecture—3 hour(s); Extensive Writing. Prerequisite(s): SPA 023 or SPA 023S. Development of advanced level writing skills, with emphasis on how to write argumentative prose, essays, and research papers. Introduction to the analysis of literary genres. Compositions, journals, individual and group projects. Not open for credit for students who have completed equivalent SPA 024S. GE credit: AH, WC, WE. Effective: 2016 Winter Quarter.

SPA 024S—Spanish Composition II (4)

Lecture—3 hour(s); Extensive Writing. Prerequisite(s): SPA 023 or SPA 023S. Development of advanced level writing skills, with emphasis on how to write argumentative prose, essays, and research papers. Introduction to the analysis of literary genres. Compositions, journals, individual and group projects. May be taught abroad. Not open for credit to students who have completed equivalent SPA 024. GE credit: AH, WC, WE. Effective: 2016 Winter Quarter.

SPA 028—Intermediate Spanish Conversation (2)

Discussion—3 hour(s). Prerequisite(s): SPA 008 or SPA 022 or SPA 022V or SPA 022Y. Continuation of SPA 008. Designed to develop oral communication skills at a more advanced level. Practice in more complex situations. (Former SPA 009) GE credit: OL, WC. Effective: 2018 Spring Quarter.

SPA 031—Intermediate Spanish for Native Speakers I (5)

Lecture/Discussion—3 hour(s); Tutorial—1 hour(s); Extensive Writing. Prerequisite(s): SPA 003 or SPA 003V or SPA 003Y; Or equivalent course or consent of instructor. First course of a three-quarter series designed to provide bilingual students whose native language is Spanish with the linguistic and learning skills required for successfully completing upper division courses in Spanish. Intensive review of grammar and composition. GE credit: AH, OL, WC, WE. Effective: 2018 Winter Quarter.

SPA 032—Intermediate Spanish for Native Speakers II (5)

Lecture/Discussion—3 hour(s); Tutorial—1 hour(s); Extensive Writing. Prerequisite(s): SPA 031; Consent of Instructor. Continuation of SPA 031, intensive review of grammar and composition. Development of all language skills through reading of modern texts, presentation/discussion of major ideas, vocabulary expansion, and writing essays on topics discussed. Designed for students whose native language is Spanish. GE credit: AH, OL, WC, WE. Effective: 2016 Winter Quarter.

SPA 033—Intermediate Spanish for Native Speakers III (5)

Lecture/Discussion—3 hour(s); Tutorial—1 hour(s); Extensive Writing. Prerequisite(s): SPA 032; Consent of Instructor. Development of writing skills, with emphasis on experimenting with various writing styles: analytical, argumentative, and creative. Analytical review of literary genres. Written essays will be assigned. Students will develop a research paper. Designed for students whose native language is Spanish. GE credit: AH, OL, WC, WE. Effective: 2016 Winter Quarter.

SPA 098—Directed Group Study (1-5)

Variable. Prerequisite(s): Consent of instructor and department chairperson. Primarily for lower division students. May be taught abroad. (P/NP grading only.) Effective: 1997 Winter Quarter.

SPA 098F—Student Facilitated Course (1-4)

Variable—1-4 hour(s). Prerequisite(s): Consent of Instructor. Student facilitated course intended primarily for lower division students. (P/NP grading only.) Effective: 2017 Winter Quarter.

SPA 099—Special Study for Undergraduates (1-5)

Variable. Prerequisite(s): Consent of Instructor. (P/NP grading only.) Effective: 1997 Winter Quarter.

SPA 100—Principles of Hispanic Literature & Criticism (4)

Lecture—3 hour(s); Extensive Writing/Discussion—1 hour(s). Prerequisite(s): SPA 024 or SPA 024S or SPA 033. Principles of literary criticism applied to the study of fiction, drama, poetry, and essay of major literary writers of the Hispanic world. Not open for credit to students who have taken SPA 100S. GE credit: AH, OL, WC, WE. Effective: 2004 Spring Quarter.

SPA 100S—Principles of Hispanic Literature & Criticism (4)

Lecture—3 hour(s); Extensive Writing/Discussion—1 hour(s). Prerequisite(s): SPA 024 or SPA 033. Principles of literary criticism applied to the study of fiction, drama, poetry and essay of major literary writers of the Hispanic world. May be taught abroad in a Spanish speaking country under the supervision of a UC Davis faculty/lecturer. Not open to students who have taken equivalent SPA 100. GE credit: AH, OL, WC, WE. Effective: 2002 Spring Quarter.

SPA 110—Advanced Spanish Composition (4)

Lecture—3 hour(s). Prerequisite(s): SPA 024 or SPA 033. Practice in expository writing with emphasis on clarity and idiomatic expression. Practical application and review of selected grammar topics. (Part of former SPA 110A & SPA 110B.) GE credit: WE. Effective: 1997 Winter Quarter.

SPA 111N—The Structure of Spanish: Sounds & Words (3)

Lecture—3 hour(s). Prerequisite(s): (SPA 024 or SPA 033); or Consent of Instructor. LIN 001 recommended. Linguistic description of the sound patterns of Spanish and how those sounds can be used to form larger units, such as morphemes and words. Theoretical and practical comparisons with English and with other Romance languages. (Former SPA 132.) GE credit: SS. Effective: 2016 Fall Quarter.

SPA 112N—The Structure of Spanish: Words & Phrases (3)

Lecture—3 hour(s). Prerequisite(s): SPA 111N; or Consent of Instructor. Study of Spanish word and phrase structure, with special emphasis on the constituent structure of noun and verb phrases. Theoretical and practical comparisons with English and with other Romance languages. (Former SPA 131.) GE credit: SS. Effective: 2016 Fall Quarter.

SPA 113—Spanish Pronunciation (4)

Lecture—3 hour(s); Term Paper. Prerequisite(s): (SPA 024 or SPA 033); LIN 001 recommended. Sound structure of modern Spanish; theoretical analysis of selected problems in pronunciation. Strongly recommended for prospective teachers of Spanish. GE credit: SS. Effective: 2016 Fall Quarter.

SPA 114N—Contrastive Analysis of English & Spanish (4)

Lecture—3 hour(s); Extensive Writing. Prerequisite(s): SPA 024 or SPA 033; or Consent of Instructor. SPA 111N and SPA 112N recommended. Contrastive analysis of English and Spanish, error analysis, introduction to structuralist and transformational linguistics. Individual and group conferences. (Former SPA 137.) GE credit: SS. Effective: 2016 Fall Quarter.

SPA 115—History of the Spanish Language (4)

Lecture—3 hour(s); Extensive Writing/Discussion—1 hour(s). Prerequisite(s): SPA 024 or SPA 033; or Consent of Instructor. LIN 001 recommended. Spanish language from its roots in spoken Latin to modernity. Emphasis on the close relationship between historical events and language change, and the role that literature plays in language standardization. Not open to students who have completed equivalent SPA 115S. GE credit: AH, SS. Effective: 2016 Fall Quarter.

SPA 115S—History of the Spanish Language (4)

Lecture—3 hour(s); Extensive Writing/Discussion—1 hour(s). Prerequisite(s): SPA 024 or SPA 033; or Consent of Instructor. LIN 001 recommended. Spanish language from its roots in spoken Latin to modernity. Emphasis on the close relationship between historical events and language change, and the role that literature plays in language standardization. Taught abroad in a Spanish speaking country under the supervision of a UC Davis faculty/lecturer. Not open to students who have completed equivalent SPA 115. GE credit: AH, SS. Effective: 2016 Fall Quarter.

SPA 116—Applied Spanish Linguistics (4)

Lecture—3 hour(s); Extensive Writing/Discussion—1 hour(s). Prerequisite(s): SPA 024 or SPA 033; or Consent of Instructor. LIN 001 recommended. Exploration of the major theoretical and practical issues concerning learning Spanish as a second language. For students interested in teaching Spanish as a career. May be taught abroad. Not open to students who have taken equivalent SPA 116S. GE credit: SS. Effective: 2016 Fall Quarter.

SPA 116S—Applied Spanish Linguistics (4)

Lecture—3 hour(s); Extensive Writing/Discussion—1 hour(s). Prerequisite(s): SPA 024 or SPA 033; or Consent of Instructor. LIN 001 recommended. Exploration of the major theoretical and practical issues concerning learning Spanish as a second language. For students interested in teaching Spanish as a career. May be taught abroad in a Spanish speaking country, in Spanish, under the supervision of UC Davis faculty. Not open to students who have taken SPA 116. GE credit: SS. Effective: 2016 Fall Quarter.

SPA 117—Teaching Spanish as a Native Tongue in the U.S.: Praxis & Theory (4)

Lecture—3 hour(s); Term Paper/Discussion—1 hour(s). Prerequisite(s): SPA 024 or SPA 033; or Consent of Instructor. LIN 001 recommended. Designed for students interested in teaching Spanish to native speakers. Focus on cultural diversity of the Spanish speaking population in the United States; applied language teaching methodologies in the context of teaching Spanish to native speakers at different levels. GE credit: OL. Effective: 2016 Fall Quarter.

SPA 118—Topics in Spanish Linguistics (4)

Lecture—3 hour(s); Term Paper. Prerequisite(s): SPA 111N; or Consent of Instructor. Study of specialized topics in Spanish linguistics, for example: language and use; text and context; language and society; bilingualism; Spanish dialectology; syntax and semantics. May be repeated up to 1 time(s) when topic differs. GE credit: SS. Effective: 2016 Fall Quarter.

SPA 123—Creative Writing in Spanish (4)

Discussion—4 hour(s). Prerequisite(s): SPA 024 or SPA 033; or Consent of Instructor. Intensive writing of poetry or fiction in Spanish or in a bilingual (Spanish/English) format. Students will write both in prescribed forms and in experimental forms of their own choosing. GE credit: WE. Effective: 1997 Winter Quarter.

SPA 130—Survey of Spanish Literature to 1700 (4)

Lecture—3 hour(s); Term Paper. Prerequisite(s): SPA 100 or SPA 100S or SPA 141 or SPA 141S or SPA 170 or SPA 170S. Survey of Spanish literature (narrative, poetry and drama) to 1700, Emphasis on the multicultural birth of the Spanish culture, the formation and growth of the Spanish language and letters through its written records and the literature of the early period. SPA 169—Special Topics in Chicanx/Latinx Studies (4)

Lecture—3 hour(s); Project (Term Project). Prerequisite(s): SPA 024 or SPA 024S or SPA 033; or Consent of Instructor. Special topics in the study of Chicanx and/or Latinx literature and culture. May be repeated up to 1 time(s) when topic differs. GE credit: AH, DD. Effective: 2019 Fall Quarter.

SPA 170—Introduction to Latin American Culture (4)

Lecture—3 hour(s); Term Paper. Prerequisite(s): SPA 024 or SPA 024S or SPA 033. Introduction to history, geography and culture of Latin America. Multiple genres of cultural production and representation, with a focus on cultural diversity and regional difference. Introduction to critical reading and textual analysis. Not open for students who have completed equivalent SPA 170S. GE credit: AH, VL, WC, WE. Effective: 2008 Summer Session 1.

SPA 170S—Introduction to Latin American Culture (4)

Lecture—3 hour(s); Project (Term Project). Prerequisite(s): SPA 024 or SPA 024S or SPA 033. Introduction to history, geography and culture of Latin America. Multiple genres of cultural production and representation, with a focus on cultural diversity and regional difference. Introduction to critical reading and textual analysis. May be taught abroad in a Spanish-speaking country. Not open for students who have completed equivalent SPA 170. GE credit: AH, VL, WC, WE. Effective: 2008 Summer Session 1.

SPA 171—Music from Latin America (4)

Lecture—3 hour(s); Discussion—1 hour(s). Prerequisite(s): Consent of Instructor. Examination of music from Latin America. Characteristic music (i.e. tango, bossa nova, salsa, musica motena, musica andina) as well as its implications in other musical genres. Taught in English or Spanish depending on instructor. May be repeated up to 1 time(s) when topic differs. Not open to students who have taken SPA 171S or MUS 127S. (Same course as MUS 127.) GE credit: AH, VL, WC, WE. Effective: 2018 Winter Quarter.

SPA 171S—Music from Latin America (4)

Lecture—3 hour(s); Discussion—1 hour(s). Prerequisite(s): Consent of Instructor. Examination of music from Latin America. Characteristic music (i.e. tango, bossa nova, salsa, musica motena, musica andina) as well as its implications in other musical genres. May be taught abroad in English or Spanish depending on instructor. May be repeated up to 1 time(s) when content differs. Not open to students who have taken SPA 171 or MUS 127. (Same course as MUS 127S.) GE credit: AH, VL, WC, WE. Effective: 2018 Winter Quarter.

SPA 172—Mexican Culture (4)

Lecture—3 hour(s); Term Paper/Discussion—1 hour(s). Prerequisite(s): SPA 024 or SPA 024S or SPA 033. Study of Mexican culture through a diversity of cultural expression, including elite, popular and mass media culture. Focus on national icons and archetypes, multiculturalism, transnationalism. May be repeated up to 1 time(s). GE credit: AH, VL, WC. Effective: 2008 Fall Quarter.

SPA 173—Cinema & Latin American Culture (4)

Lecture/Discussion—3 hour(s); Film Viewing—3 hour(s). Prerequisite(s): SPA 024 or SPA 024S or SPA 033. Understanding Latin American cultures through cinema. History and critical analysis of Latin American film. Focus on a national cinematic tradition. Comparative experiences in different parts of Latin America and/or a particular era. Conducted entirely in Spanish. May be repeated up to 1 time(s) when topic differs. GE credit: AH, VL, WC. Effective: 2005 Spring Quarter.

SPA 174—Chicano Culture (4)

Lecture—3 hour(s); Term Paper/Discussion—1 hour(s). Prerequisite(s): SPA 024 or SPA 033. Interdisciplinary survey of Chicano culture. Topics include literature, art, folklore, oral tradition, music, politics, as well as everyday cultural manifestations. Conducted in Spanish. (Former SPA 124.) GE credit: ACGH, AH, DD. Effective: 1997 Winter Quarter.

SPA 175—Topics in Latin American Cultural Studies (4)

Lecture—3 hour(s); Project (Term Project)—1 hour(s). Prerequisite(s): SPA 024 or SPA 024S or SPA 033. Specific historical tendencies and issues in Latin American culture(s) from precolombian times to present. Studies of literature, film, art, journalism and performance. Focus on issues of aesthetics, politics, identity, and globalization. May be taught abroad. May be repeated up to 1 time(s) when content differs. GE credit: AH, VL, WC, WE. Effective: 2008 Fall Quarter.

SPA 176—Literature in Spanish Written in the United States (4)

Lecture—3 hour(s); Term Paper. Prerequisite(s): SPA 024 or SPA 033. Survey of the literary and cultural contributions of the main Spanish-speaking populations present in the U.S.: Chicanos, Puerto Ricans, Cuban-Americans, Central Americans, and other Latinos. GE credit: ACGH, AH, DD. Effective: 1997 Winter Quarter.

SPA 177—California & Latin America (4)

Lecture—3 hour(s); Term Paper/Discussion—1 hour(s). Prerequisite(s): SPA 024 or SPA 024S or SPA 033. Interdisciplinary survey on the relationship between California and Latin America (1500s-present). Latin American representations of California and Californian representations of Latin America, as well as borderlands texts, with a special focus on Mexican-American perspectives. Conducted in Spanish. GE credit: ACGH, DD. Effective: 2008 Fall Quarter.

SPA 178A—Spanish for the Professions (4)

Lecture—3 hour(s); Term Paper/Discussion—1 hour(s). Prerequisite(s): SPA 024 or SPA 024S or SPA 033. For students with an advanced level of Spanish interested in the use of Spanish in the health care, legal and law enforcement and marketing and business professions. Field trips documenting the use of Spanish in the public context. GE credit: AH, DD, OL, SS, WE. Effective: 2014 Fall Quarter.

SPA 179—Science & Politics of the Human Body in the Spanish-Speaking World (4)

Lecture—3 hour(s); Term Paper/Discussion—1 hour(s). Interaction between the interpretations of scientific ideas, philosophical issues, and politics concerning the human body in the Spanish-speaking world through different historical periods. Not open to students who have taken equivalent SPA 179Y. GE credit: AH, SE, SS. Effective: 2015 Fall Quarter.

SPA 179Y—Science & Politics of the Human Body in the Spanish-Speaking World (4)

Web Virtual Lecture—2 hour(s); Discussion—2 hour(s). Interaction between the interpretations of scientific ideas, philosophical issues, and politics concerning the human body in the Spanish-speaking world through different historical periods. Not open for credit to students who have taken equivalent SPA 179. GE credit: AH, SE, SS. Effective: 2015 Fall Quarter.

SPA 180—Senior Seminar in Spanish Linguistics (4)

Seminar—3 hour(s); Term Paper. Prerequisite(s): Senior standing; a major in Spanish or consent of instructor. Limited enrollment. Group study of a special topic drawn from Spanish linguistics. Independent research project. May be repeated up to 1 time(s). GE credit: AH, OL, SS, WE. Effective: 2007 Fall Quarter.

SPA 181—Senior Seminar in Spanish Literature/Culture (4)

Seminar—3 hour(s); Term Paper—1 hour(s). Prerequisite(s): Senior standing; a major in Spanish or consent of instructor. Limited enrollment. Group study of a special topic drawn from Spanish literary or cultural studies. Independent research project. May be repeated up to 1 time(s) when content differs. GE credit: AH, OL, WE. Effective: 2006 Fall Quarter.

SPA 182—Senior Seminar in Latin American Literature/Culture (4)

Seminar—3 hour(s); Term Paper—1 hour(s). Prerequisite(s): Senior standing; a major in Spanish or consent of instructor. Limited enrollment. Group study of a special topic drawn from Latin American literary or cultural studies. Independent research project. May be repeated up to 1 time(s) when content differs. GE credit: AH, OL, WC, WE. Effective: 2006 Fall Quarter.

SPA 192I—Internship in Spanish (1-12)

Independent Study—3-36 hour(s). Prerequisite(s): SPA 023; and Consent of Instructor. Junior standing; major in Spanish, Chicano Studies, or a related field. Internships in fields where Spanish language skills can be used and perfected (teaching, counseling, translating-interpreting). May be taught abroad. May be repeated up to 8 unit(s) however, units do not count toward the Spanish major. (P/NP grading only.) Effective: 1997 Winter Quarter.

SPA 194H—Special Study for Honors Students (1-5)

Independent Study—3-15 hour(s). Prerequisite(s): Consent of Instructor. Senior standing and qualification for the Spanish honors program. Guided research, under the direction of a faculty member, leading to a senior honors thesis on a topic in Spanish literature, civilization, or language studies. May be repeated up to 8 unit(s). (P/NP grading only.) GE credit: AH, WC, WE. Effective: 2000 Winter Quarter.

SPA 197T—Tutoring in Spanish (1-4)

Tutorial—1-4 hour(s). Prerequisite(s): Upper division standing and permission of the chair. Tutoring in undergraduate courses including leadership in small voluntary discussion groups affiliated with departmental courses. May be repeated up to 6 unit(s). (P/NP grading only.) Effective: 1997 Winter Quarter.

SPA 197TC—Tutoring in the Community (2-4)

Tutorial—2-4 hour(s). Prerequisite(s): Upper division standing and permission of the chair. Tutoring in public schools under the guidance of a regular teacher and supervision by a departmental faculty member. May be repeated up to 6 unit(s). (P/NP grading only.) Effective: 1997 Winter Quarter.

SPA 198—Directed Group Study (1-5)

Variable. Prerequisite(s): Consent of instructor and department chairperson. Directed group study. May be taught abroad. (P/NP grading only.) GE credit: AH, WC, WE. Effective: 1997 Winter Quarter.

SPA 198F—Student Facilitated Course (1-4)

Variable—1-4 hour(s). Prerequisite(s): Consent of Instructor. Student facilitated course intended primarily for upper division students. (P/NP grading only.) Effective: 2017 Winter Quarter.

SPA 199—Special Study for Advanced Undergraduates (1-5)

Variable. Special study of a topic or an author to be determined in consultation with an individual faculty member. May be taught abroad. May be repeated up to 6 unit(s). (P/NP grading only.) GE credit: AH, WC, WE. Effective: 2000 Winter Quarter.

SPA 199FA—Student Facilitated Course Development (1-2)

Variable—1-4 hour(s). Prerequisite(s): Consent of Instructor. Open to upper division Spanish majors only. Under the supervision of a faculty member, an undergraduate student plans and develops the course they will offer under 098F/198F. (P/NP grading only.) Effective: 2017 Spring Quarter.

SPA 199FB—Student Facilitated Teaching (1-4)

Variable—1-4 hour(s). Prerequisite(s): SPA 199FA; Consent of Instructor. Must have completed SPA 199FA, and be teaching a SPA 098F or SPA 198F; open to upper division Spanish majors only. Student-facilitated course under the supervision of a faculty member, an undergraduate student teaches a course under 098F/198F. (P/NP grading only.) Effective: 2017 Fall Quarter.

SPA 201—Literary Theory I (4)

Seminar—3 hour(s); Term Paper. Prerequisite(s): Graduate standing or consent of instructor. Basic theories and practical approaches to modern and contemporary Hispanic literature. Emphasis on formalism, poststructuralism, socio-cultural discourses, and ideologies. Effective: 1997 Winter Quarter.

SPA 202—Literary Theory II (4)

Seminar—3 hour(s); Term Paper. Prerequisite(s): Graduate standing or consent of instructor. Major contemporary critical theories including recent, innovative approaches to Hispanic literature and culture. Readings from Semiotics and Deconstructionism to Psychological and Socio-ideological approaches. Emphasis on Postmodern and Neo-colonial discourse. Effective: 1997 Winter Quarter.

SPA 203—Research Methodologies (1)

Seminar—2 hour(s). Introduction to the range of scholarly research methodologies currently being realized in Spanish linguistics, literary and cultural studies: archival research, textual analysis, discourse analysis, statistics for linguistics, etc.; introduction to scholarly writing (MLA style) and scholarly publishing. (S/U grading only.) Effective: 2013 Fall Quarter.

SPA 205—Spanish Phonology (4)

Seminar—3 hour(s); Term Paper. Prerequisite(s): Some knowledge of phonetics is required and consent of instructor; LIN 109 and LIN 139 highly recommended. Analyzes the sound patterns of Spanish from both linear and non-linear perspectives. Students will develop a clear understanding of what phonology is and the nature of Spanish phonology, as defined by modern linguistic analysis. Effective: 1997 Winter Quarter.

SPA 206—Spanish Syntax (4)

Seminar—3 hour(s); Term Paper. Prerequisite(s): LIN 165; LIN 140. An examination of Spanish word order within the framework of general linguistic theory. The student will investigate how to write a grammar of Spanish with particular attention to the structure of noun and verb clauses. Effective: 1997 Winter Quarter.

SPA 207—History of the Spanish Language (4)

Seminar—3 hour(s); Term Paper. Prerequisite(s): LAT 001. History of the Spanish language. (Former SPA 220A.) Effective: 1997 Winter Quarter.

SPA 208—Old Spanish Texts (4)

Seminar—3 hour(s); Term Paper. Prerequisite(s): SPA 207. An in-depth linguistic examination of Old Spanish texts from the 12th to the 15th centuries, with particular attention to the significance of orthographic changes. Effective: 1997 Winter Quarter.

SPA 211—Hispanic Dialectology (4)

Seminar—3 hour(s); Term Paper. Prerequisite(s): SPA 220; or Consent of Instructor. Descriptive and historical study of the distinctive features of Peninsular and American Spanish dialects. (Former SPA 221.) Effective: 1997 Winter Quarter.

SPA 212—Applied Linguistics (4)

Seminar—3 hour(s); Term Paper. Prerequisite(s): Graduate standing and SPA 215 and SPA 216 recommended. Focuses on the relevant linguistic aspects of teaching Spanish. Designed for graduate students who have an interest in second-language learning and teaching. Effective: 1997 Winter Quarter.

SPA 215—Special Topics in Hispanic Linguistics (4)

Seminar—3 hour(s); Term Paper. Prerequisite(s): Consent of Instructor. SPA 205 and SPA 206 recommended. Specialized topics in Hispanic linguistics (e.g., pragmatics, sociolinguistics, topics in syntax, semantics, or diachronic studies). May be repeated for credit when topic differs. May be repeated for credit. Effective: 1997 Winter Quarter.

SPA 220—Catalan Language & Culture (4)

Lecture/Discussion—3 hour(s); Laboratory—1 hour(s). Prerequisite(s): Consent of Instructor. Good command of Spanish, Portuguese, French or Italian and graduate level of studies in any of these languages. Open to advanced undergraduate students, with notions of Catalan, can be admitted with consent of instructor; designed for graduate students. Foundation for the acquisition of Catalan oral, reading and elementary writing level skills for students of Spanish (Iberianists or Hispanists), with the capacity to interpret educated written language. Emphasis on weekly review of grammar and all language skills. Effective: 2014 Winter Quarter.

SPA 222—Critical Approaches to Spanish Literature I: Prose & Essay (4)

Seminar—3 hour(s); Term Paper. Prerequisite(s): Graduate standing or consent of instructor. Critical approaches to Spanish narrative and essay. May be repeated up to 2 time(s) when topic differs. Effective: 2002 Fall Quarter.

SPA 223—Critical Approaches to Spanish Literature II: Poetry & Drama (4)

Seminar—3 hour(s); Term Paper. Prerequisite(s): Graduate standing or consent of instructor. Critical approaches to Spanish poetry and drama. May be repeated up to 2 time(s) when topic differs. Effective: 2002 Fall Quarter.

SPA 224—Studies of a Major Writer, Period, or Genre in Spanish Literature (4)

Seminar—3 hour(s); Term Paper. Prerequisite(s): Graduate standing or consent of instructor. Artistic development of a major Spanish writer and his/her intellectual and literary milieu or study of a special topic, period, or genre. May be repeated for credit with consent of instructor. May be repeated for credit. Effective: 1997 Winter Quarter.

SPA 230—Topics in Latin American Cultural Studies (4)

Seminar—3 hour(s); Term Paper. Discussion of select contemporary theoretical debates in Latin American Cultural Studies. Application of critical questions to the analysis of cultural texts. May be repeated up to 2 time(s) when content differs. Effective: 2007 Fall Quarter.

SPA 231—Interamerican Studies (4)

Seminar—3 hour(s); Term Paper. Survey of methodologies of investigation for crosscultural or comparative projects in the geographical context of the Americas. Focus on particular problems of language, discipline, national definitions, and global hierarchies of knowledge that complicate such projects. Readings of interamerican cultural texts. Effective: 2007 Fall Quarter.

SPA 232—Topics in Latinx Cultural & Literary Studies (4)

Seminar—3 hour(s); Term Paper. Discussion of select contemporary theoretical debates in Latinx Cultural and Literary Studies. Application of critical questions to the analysis of literary and cultural texts. May be repeated up to 2 time(s) when content differs. Effective: 2020 Fall Quarter.

SPA 252—Medieval Spanish Literature: Prose (4)

Seminar—3 hour(s); Term Paper. Prerequisite(s): Graduate standing or consent of instructor. An exploration of the major genres of Medieval Spanish prose from its origins to 1450. Effective: 1997 Winter Quarter.

SPA 253—Medieval Spanish Literature: Epic (4)

Seminar—3 hour(s); Term Paper. Prerequisite(s): Graduate standing or consent of instructor. Medieval Spanish epic narratives. Major theoretical perspectives on the genesis, diffusion, and character of the Medieval epic. Relationship of epic to ballad literature. Effective: 1997 Winter Quarter.

SPA 254—Medieval Hispanic Lyric (4)

Seminar—3 hour(s); Term Paper. Prerequisite(s): Graduate standing or consent of instructor. Analysis of the most representative lyric poetry in the various Peninsular languages and in provençal, troubadour poetry, kharjas, villancicos, cantigas de amigo, and courtly lyric. Effective: 1997 Winter Quarter.

SPA 255—Spanish Literature of the Early Renaissance (4)

Seminar—3 hour(s); Term Paper. Spanish Literature, 1450-1550, with emphasis on *La Celestina*. (Former SPA 229.) Effective: 1997 Winter Quarter.

SPA 256—Spanish Literature of the Renaissance & Golden Age: Poetry (4)

Seminar—3 hour(s); Term Paper. Prerequisite(s): Graduate standing or consent of instructor. Extensive critical study of the main currents of Renaissance and Baroque Spanish poetry through its language structures, styles (Culteranismo-Conceptismo), rhetorical devices, myths, and themes (love, death, time). Effective: 1997 Winter Quarter.

SPA 257—Spanish Literature of the Renaissance & Golden Age: Drama (4)

Seminar—3 hour(s); Term Paper. Prerequisite(s): Graduate standing or consent of instructor. Exploration of major 16th and 17th century literary and cultural developments through the study of selected dramas. Effective: 1997 Winter Quarter.

SPA 258—Spanish Literature of the Renaissance & Golden Age: Prose (4)

Seminar—3 hour(s); Term Paper. Prerequisite(s): Graduate standing or consent of instructor. Origins and development of the Spanish novel during the Renaissance and the Spanish Golden Age. Effective: 1997 Winter Quarter.

SPA 259—Cervantes & the Novel (4)

Seminar—3 hour(s); Term Paper. Prerequisite(s): Graduate standing or consent of instructor. Narrative works of Miguel de Cervantes with special emphasis on Don Quijote. Effective: 1997 Winter Quarter.

SPA 260—Modern Spanish Literature (4)

Seminar—3 hour(s); Term Paper. Prerequisite(s): Graduate standing or consent of instructor. Topics of Spanish literature, from 1700-1920. Effective: 1997 Winter Quarter.

SPA 261—Contemporary Spanish Literature: Poetry (4)

Seminar—3 hour(s); Term Paper. Prerequisite(s): Graduate standing or consent of instructor. Critical analysis of modern Spanish poetry from a wide spectrum of poetic currents. Effective: 1997 Winter Quarter.

SPA 262—Contemporary Spanish Literature: Narrative (4)

Seminar—3 hour(s); Term Paper. Prerequisite(s): Graduate standing or consent of instructor. Study of the 20th-century novel and short story with emphasis on the avant-garde, existentialism, social realism, and postmodern trends. May be repeated up to 2 time(s) when topic differs and with consent of instructor. Effective: 2003 Spring Quarter.

SPA 263—Contemporary Spanish Literature: Drama (4)

Seminar—3 hour(s); Term Paper. Prerequisite(s): Graduate standing or consent of instructor. The Spanish theatrical production of the last 70 years. Effective: 1997 Winter Quarter.

SPA 264—Contemporary Spanish Literature: Essay (4)

Seminar—3 hour(s); Term Paper. Prerequisite(s): Graduate standing or consent of instructor. Major thinkers from Ganivet to Unamuno and Ortega y Gasset. Emphasis will be placed on the relationships between Spanish thought and European philosophical currents. Effective: 1997 Winter Quarter.

SPA 265—Women Writers of Spain (4)

Seminar—3 hour(s); Term Paper. Prerequisite(s): Graduate standing or consent of instructor. Introduction to the development of a feminine consciousness in the Spanish contemporary literary scene. Selected texts represent particularly innovative typologies of feminine discourse in the realm of the historical, psychoanalytical, and metafictional, erotic, and allegorical fiction. Effective: 1997 Winter Quarter.

SPA 272—Critical Approaches to Latin American Literature: Narrative (4)

Seminar—3 hour(s); Term Paper. Prerequisite(s): Graduate standing or consent of instructor. Development of Latin American literary periods and currents in narrative (novel, short story, and essay), from early colonial times to the present. May be repeated up to 2 time(s) when material differs. Effective: 2008 Summer Session 1.

SPA 273—Critical Approaches to Latin American Literature: Poetry & Drama (4)

Seminar—3 hour(s); Term Paper. Prerequisite(s): Graduate standing or consent of instructor. Development of Latin American literary periods and currents in poetry and drama, from early Colonial times to the present. May be repeated up to 2 time(s) when topic differs. Effective: 2008 Summer Session 1.

SPA 274—Studies of a Major Writer, Period, or Genre in Latin American Literature (4)

Seminar—3 hour(s); Term Paper. Prerequisite(s): Graduate standing or consent of instructor. Artistic development of a major Latin American writer and his/her intellectual and literary milieu or study of a special topic, period, or genre. May be repeated for credit with consent of instructor. Effective: 2008 Summer Session 1.

SPA 275—Colonial Literature (4)

Seminar—3 hour(s); Term Paper. Prerequisite(s): Consent of Instructor. Graduate standing. An examination of pre-Hispanic and Colonial narrative, poetry and theatre. Emphasis on historical, anthropological, and ethnographic approaches to Colonial discourse. Effective: 1997 Winter Quarter.

SPA 276—20th-Century Latin American Drama (4)

Seminar—4 hour(s). Prerequisite(s): Graduate standing or consent of instructor. Major Latin American dramatists from Florencio Sánchez to the present. (Former SPA 240.) Effective: 2008 Summer Session 1.

SPA 277—Latin American Novel, 1900-1950 (4)

Seminar—3 hour(s); Term Paper. Prerequisite(s): Graduate standing or consent of instructor. Study of main trends and key authors in Latin America in the first half of the 20th century. (Former SPA 241A.) Effective: 2008 Summer Session 1.

SPA 278—New Trends in Latin American Fiction (4)

Seminar—3 hour(s); Term Paper. Prerequisite(s): Graduate standing or consent of instructor. Recent developments in Latin American narrative. Emphasis on innovative language and structure. (Former SPA 241B.) Effective: 2008 Summer Session 1.

SPA 279—Mexican Narrative (4)

Seminar—3 hour(s); Term Paper. Prerequisite(s): Graduate standing or consent of instructor. Study of the evolution of Mexican narrative. Emphasis on the narrative of the Revolution and significant contemporary works. Effective: 1997 Winter Quarter.

SPA 280—Latin American Short Story (4)

Seminar—3 hour(s); Term Paper. Works by major writers with emphasis on 20th-century authors such as Quiroga, Borges, García Márquez, Cortázar, and Rulfo. (Former SPA 243.) Effective: 2008 Summer Session 1.

SPA 281—Latin American Women Writers (4)

Seminar—3 hour(s); Term Paper. Prerequisite(s): Graduate standing or consent of instructor. Study of feminist critical theories, gender construction, and self-representation within the history of socio-cultural changes in Latin America. Effective: 2008 Summer Session 1.

SPA 282—Darío & Modernism (4)

Seminar—3 hour(s); Term Paper. Prerequisite(s): Graduate standing or consent of instructor. Study of poetry and prose of Spanish-American Modernism (1880-1916). (Former SPA 245.) Offered in alternate years. Effective: 1997 Winter Quarter.

SPA 283—New Directions in Latin American Poetry (4)

Seminar—3 hour(s); Term Paper. New trends in Latin American poetry. Effective: 2008 Summer Session 1.

SPA 284—The Latin American Essay (4)

Seminar—3 hour(s); Term Paper. Major Latin American essayists from Sarmiento to contemporary essayists. Effective: 2008 Summer Session 1.

SPA 285—Multicultural Approaches to Cuban Literature & Culture (4)

Seminar—3 hour(s); Term Paper. Prerequisite(s): Graduate standing or consent of instructor. Study of main trends in Cuban literature. Emphasis on historical, geographic, social and cultural context (including music and film). Taught in English; some readings in Spanish. Effective: 1999 Spring Quarter.

SPA 291—Foreign Language Learning in the Classroom (4)

Seminar—3 hour(s); Project (Term Project). Overview of approaches to university-level foreign language instruction and the theoretical notions underlying current trends in classroom practices across commonly taught foreign languages. (Same course as GER 291, FRE 291.) Effective: 2006 Fall Quarter.

SPA 298—Group Study (1-5)

Variable. Prerequisite(s): Consent of Instructor. Graduate standing. May be repeated for credit. (S/U grading only.) Effective: 1997 Winter Quarter.

SPA 299—Research (1-12)

Variable. (S/U grading only.) Effective: 1997 Winter Quarter.

SPA 300—The Teaching of Spanish (3)

Lecture—3 hour(s). Prerequisite(s): Senior or graduate standing; a major or minor in Spanish. Effective: 1997 Fall Quarter.

SPA 390—The Teaching of Spanish in College (4)

Lecture—2 hour(s); Discussion—2 hour(s). Prerequisite(s): Graduate standing. Theoretical instruction in modern teaching methods and demonstration of their practical application. Required of graduate teaching assistants. Effective: 1997 Winter Quarter.

SPA 396—Teaching Assistant Training Practicum (1-4)

Variable. Prerequisite(s): Graduate standing. May be repeated for credit. (P/NP grading only.) Effective: 1997 Winter Quarter.

SPH—Public Health Sciences

Courses in SPH:**SPH 092—Internship in Community Health (1-12)**

Internship—3-36 hour(s). Prerequisite(s): Consent of Instructor. Lower division standing. Students apply theory and concepts learned in the classroom through field work in a community health agency. (P/NP grading only.) Effective: 2008 Summer Session 2.

SPH 099—Research in Community & International Health (1-12)

Variable—3-35 hour(s). Prerequisite(s): Consent of Instructor. Undergraduate Standing. Work with faculty member in areas of research interest, including but not limited to injury control, international health, health policy, occupational and environmental health, health promotion and wellness, women's health, and health demographics. May be repeated up to 12 unit(s) with consent of instructor. (P/NP grading only.) Effective: 2020 Spring Quarter.

SPH 101—Introduction to Public Health (3)

Lecture—3 hour(s). Prerequisite(s): Undergraduate standing. Provide basic concepts and controversies in public health, basic science of public health, social and behavioral factors in health and disease, environmental and occupational health issues, the relationship of public health to the medical care system and health care reform. GE credit: SE, SS. Effective: 2016 Winter Quarter.

SPH 102—Introduction to Human Epidemiology (4)

Lecture—2 hour(s); Discussion—2 hour(s). Practice of epidemiology as it relates to human populations. Content is fundamental to the Public Health minor and a required core course. GE credit: SE. Effective: 2017 Spring Quarter.

SPH 103—Introduction to Health Economics, Services, Policy, Administration & Management (3)

Lecture/Discussion—3 hour(s). Pass One restricted to undergraduates in senior standing. American health care system and how public health leaders, administrators, and researchers can make effective contributions to the populations served. GE credit: QL, SS. Effective: 2019 Fall Quarter.

SPH 104—Globalization & Health: Evidence & Policies (3)

Lecture—3 hour(s). Provides an overview of the evidence on the multiple effects of globalization policies on health. GE credit: SS, WC. Effective: 2017 Winter Quarter.

SPH 113—Health Disparities in the U.S. (3)

Lecture—3 hour(s). Introduction to the principles and practice of health disparities research. GE credit: DD, SS. Effective: 2018 Spring Quarter.

SPH 132—Health Issues Confronting Asian Americans & Pacific Islanders (4)

Lecture/Discussion—4 hour(s). Health issues confronting Asian Americans & Pacific Islanders. (Same course as ASA 132.) GE credit: SS. Effective: 2009 Winter Quarter.

SPH 160—General Health Education & Prevention (5)

Lecture—4 hour(s); Discussion—1 hour(s). Open to students in the internship program for the Health Education Program only; limited to 50 students. Topics include addiction, substance abuse/prevention, nutrition, stress management, physical fitness, body image, reproductive anatomy & physiology, contraceptive options, safer sex, sexual health, healthy relationships, and other general wellness/health promotion topics. Practice in peer counseling and outreach presentations. (P/NP grading only.) Effective: 2008 Summer Session 2.

SPH 161—Campus Alcohol/Other Drug Abuse Prevention Program Peer Educator Training (4)

Lecture/Discussion—3 hour(s); Practice—1 hour(s). Prerequisite(s): SPH 160 (can be concurrent); and Consent of Instructor. Preparation for internship in campus and community substance abuse prevention and educational intervention. Addiction and other physiological responses to alcohol and other drugs. Harm-reduction strategies for individuals and target populations. Practice in peer counseling skills and outreach presentations to groups. (P/NP grading only.) Effective: 2008 Summer Session 2.

SPH 162—Health Advocates Peer Educator Training (4)

Lecture/Discussion—3 hour(s); Practice—1 hour(s). Prerequisite(s): SPH 160 (can be concurrent); and Consent of Instructor. Preparation for internship in campus and community health promotion and risk reduction. Nutrition, stress management, physical fitness, body image and disordered eating, skin cancer prevention, and other general wellness/health promotion topics. (P/NP grading only.) Effective: 2008 Summer Session 2.

SPH 190—Topics in Public Health (1)

Seminar—1 hour(s). Prerequisite(s): Consent of Instructor. Pass one restricted to undergraduate seniors. Seminar on key issues and current topics in public health. May be repeated for credit. (P/NP grading only.) Effective: 2019 Spring Quarter.

SPH 190C—Research Conference in Community & International Health (1)

Discussion—1 hour(s). Prerequisite(s): Consent of Instructor. Weekly conference on research problems, progress, and techniques in Community and International Health. Critical discussion of recent journal articles. May be repeated for credit. (P/NP grading only.) Effective: 2008 Summer Session 2.

SPH 192—Internship in Community Health Practice (1-12)

Internship—3-36 hour(s). Prerequisite(s): Consent of Instructor. Upper division and graduate students. The student, through fieldwork in a community health agency, learns to apply theory and concepts learned in the classroom. (P/NP grading only.) Effective: 2008 Summer Session 2.

SPH 198—Study in Community & International Health (1-5)

Variable. Prerequisite(s): Consent of Instructor. Undergraduate standing. Study and experience for undergraduate students in any number of areas in community and international health. (P/NP grading only.) Effective: 2008 Summer Session 2.

SPH 199—Research in Community & International Health (1-5)

Variable—1-5 hour(s). Prerequisite(s): Consent of Instructor. Undergraduate standing. Student will work with faculty member in areas of research interest, including but not limited to injury control, international health, health policy, occupational and environmental health, health promotion and wellness, women's health, and health demographics. (P/NP grading only.) Effective: 2008 Summer Session 2.

SPH 201—Introduction to Public Health (3)

Lecture—3 hour(s); Discussion/Laboratory—2 hour(s). Prerequisite(s): Graduate standing or consent of instructor. Provides an overview of public health. Covers the history of public health in the U.S.; defines its major functions and constituencies; and, introduces fundamental principles of epidemiology, biostatistics, behavioral sciences, environmental health, infectious diseases, and reducing health disparities. May be repeated up to 1 time(s). Effective: 2011 Summer Session 2.

SPH 202—Public Health Issues in California's Central Valley (3)

Lecture—3 hour(s). Prerequisite(s): Consent of Instructor. Public health issues in California's Central Valley, including the influences of migration, racial and ethnic diversity, the agricultural industry, environmental exposures, and rurality. Effective: 2018 Spring Quarter.

SPH 203—Learning & Teaching in Public Health Contexts (2)

Lecture/Discussion—2 hour(s). Prerequisite(s): Consent of Instructor. Graduate standing. Aimed at current and future public health professionals interested in learning more about the educational potential for interactions with community members and other health professionals—all stakeholders in improving the health of communities. Effective: 2012 Spring Quarter.

SPH 204—Globalization & Health: Evidence & Policies (3)

Lecture—3 hour(s). Open to graduate student standing. Provides an overview of the evidence on the multiple effects of globalization policies on health. Effective: 2015 Fall Quarter.

SPH 205AY—Epidemiology for Health Professionals (4)

Lecture—2 hour(s); Web Virtual Lecture—2 hour(s). Prerequisite(s): Consent of Instructor. Basic epidemiologic concepts and approaches to epidemiologic research, with examples from human medicine, including outbreak investigation, infectious disease epidemiology, properties of tests. Effective: 2017 Fall Quarter.

SPH 207—Advanced Epidemiologic Methodology (4)

Lecture/Discussion—4 hour(s). Prerequisite(s): EPI 206. In-depth integration of advanced epidemiological concepts. Theory, methods, and applications for observational studies including random and systematic error, confounding, counterfactuals, causal inference, effect modification, internal and external validity, estimability, and interpretation of effect measures, and advanced study designs. (Same course as EPI 207.) Effective: 2016 Winter Quarter.

SPH 208—Principles & Applications of Cancer Prevention & Control (2)

Lecture/Discussion—2 hour(s). Prerequisite(s): Consent of Instructor. Principles and applications of cancer prevention and control from a public health perspective. (S/U grading only.) Effective: 2018 Spring Quarter.

SPH 209—History of Epidemiology in Public Health (2)

Lecture—0.5 hour(s); Discussion—1.5 hour(s). Introduction to the history of epidemiology in solving major public health problems. Original historical articles will be read/discussed. Topics may include: infectious disease, accidents/adverse events, nutritional deficiencies, community vaccination trials, occupational exposures, cancer, birth defects, cardiovascular disease, and smoking. (Same course as EPI 209.) Effective: 2014 Fall Quarter.

SPH 210—Public Health Informatics (2)

Lecture—2 hour(s); Laboratory—2 hour(s). Prerequisite(s): Consent of Instructor. Graduate standing. Collection, verification, and utilization of data related to populations; infrastructure, functions, and tools used to generate public health knowledge supporting public health practices and policy development/dissemination. (S/U grading only.) Effective: 2008 Summer Session 2.

SPH 212—Migration & Health (3)

Lecture/Discussion—3 hour(s). Prerequisite(s): Graduate standing. Principles of migration and health. Topics will include demographics, public health invention programs, health care delivery, occupational health, and effects of international migration on the health in communities of origin, transit and destination. Guest presentations by outside experts. Effective: 2012 Spring Quarter.

SPH 213—Health Disparities in the U.S. (3)

Lecture—3 hour(s). Prerequisite(s): Consent of Instructor. Restricted to Graduate Students. Introduction to the principles and practice of health disparities research. Effective: 2019 Spring Quarter.

SPH 222—Social & Behavioral Aspects of Public Health (3)

Lecture/Discussion—3 hour(s). Prerequisite(s): STA 102; STA 106; and Consent of Instructor. Graduate standing. Theories and strategies of health behavior change at the individual, group, community, and environmental levels. Examples include: transtheoretical model, social networks, and social marketing. Theories are applied to solve common public health problems (cancer, obesity, smoking, and HIV/AIDS). Effective: 2009 Winter Quarter.

SPH 223—Obesity Prevention in Community Settings (3)

Lecture/Discussion—3 hour(s). Prerequisite(s): Consent of Instructor. Look at causes of the obesity epidemic in the U.S.; identify and critically assess the research literature on various prevention strategies; understand, and apply evidence-based public health strategies to combat obesity; and translate the science to a general audience. Effective: 2014 Fall Quarter.

SPH 232—Health Communication (4)

Seminar—3 hour(s); Term Paper. Prerequisite(s): Graduate standing or consent of instructor. Health communication theories and research traditions. Topics include consumer health information seeking; physician-patient interaction; information, social marketing, “edutainment,” and media advocacy campaigns; social networks and coping; media influences on health; and new communication technologies in health promotion and healthcare delivery. (Same course as CMN 232.) Effective: 2011 Fall Quarter.

SPH 233—Persuasive Technologies for Health (4)

Lecture/Discussion—3 hour(s); Term Paper. Theorizing, designing and evaluating ethical technology-based health communication interventions. Uses of social media, mobile communication apps, wearable devices, computer-generated tailored messages, educational games, and computational approaches in health promotion and healthcare delivery. (Same course as CMN 233.) Effective: 2017 Fall Quarter.

SPH 235—Health Communication Campaigns (4)

Lecture/Discussion—3 hour(s); Term Paper. Prerequisite(s): Consent of Instructor. Restricted to graduate students. Principles of health communication campaign planning, implementation and evaluation. Strategies for changing health behaviors, shaping policy, and improving healthcare organizations’ relations with stakeholders. (Same course as CMN 235.) Effective: 2017 Fall Quarter.

SPH 244—Introduction to Medical Statistics (4)

Lecture—4 hour(s). Introduction to statistical methods and software in clinical, laboratory and population medicine. Graphical and tabular presentation of data, probability, binomial, Poisson, normal, t-, F-, and Chi-square distributions, elementary nonparametric methods, simple linear regression and correlation, life tables. Only 1 unit of credit for students who have completed STA 100 or MPM 402. (Same course as CLH 244.) Effective: 2017 Winter Quarter.

SPH 245—Biostatistics for Biomedical Science (4)

Lecture—4 hour(s). Prerequisite(s): CLH 244 or SPH 244; and Consent of Instructor. Or an equivalent course. Analysis of data and design of experiments for laboratory data. (Same course as CLH 245.) Effective: 2015 Spring Quarter.

SPH 246—Biostatistics for Clinical Research (4)

Lecture—4 hour(s). Prerequisite(s): SPH 245 or CLH 245. Emphasizes critical biostatistics for clinical research and targets biomedical audience. Students will develop understanding for basic planning and analysis of clinical studies and learn to develop collaborations with biostatisticians. May be repeated for credit. (Same course as CLH 246.) Effective: 2015 Winter Quarter.

SPH 247—Statistical Analysis for Laboratory Data (4)

Lecture—4 hour(s). Prerequisite(s): CLH 245 or SPH 245. Statistical methods for experimental design and analysis of laboratory data including gene expression arrays, RNA-Seq, and mass spec. (Same course as CLH 247.) Effective: 2015 Spring Quarter.

SPH 252—Social Epidemiology (2)

Lecture/Discussion—2 hour(s). Prerequisite(s): EPI 205A; and Consent of Instructor. Social determinants of health; psychosocial and physiological pathways; health and social inequality; gender and racial/ethnic disparities in health; social support, social cohesion and health; social gradient in behavioral risk factors; social ecological approaches to health intervention; interventions addressing social determinants. (Same course as EPI 252.) Effective: 2009 Spring Quarter.

SPH 255—Human Reproductive Epidemiology (3)

Lecture—3 hour(s). Prerequisite(s): MPM 405; MPM 406; PHY 220; PGG 222; or equivalents or Consent of Instructor. Human reproductive effects and risk of reproductive disorders, examined from macro- and micro-environmental exposures in community and occupational settings, epidemiologic study designs and analyses. Effective: 2009 Spring Quarter.

SPH 262—Principles of Environmental Health Science (3)

Lecture—3 hour(s). Prerequisite(s): Consent of Instructor. Principles, approaches and issues related to environmental health. Recognizing, assessing, understanding and controlling the impact of people on their environment and the impact of the environment on the public. Effective: 2008 Summer Session 2.

SPH 264—Public Health Econometrics (2)

Lecture/Discussion—2 hour(s). Prerequisite(s): Consent of Instructor. Principles of demand and supply; elasticity; benefits and costs; least squares regression; stepwise regression; economic and statistical significance; fixed and random effects; longitudinal data; non-linear relations; continuous and binary variables; instrumental variables; attrition bias; tobit regression; Two-part cost model. (S/U grading only.) Effective: 2008 Spring Quarter.

SPH 266—Applied Analytic Epidemiology (3)

Lecture—2 hour(s); Laboratory—2 hour(s). Prerequisite(s): MPM 404; or Consent of Instructor. Principles and applications in analysis of epidemiologic data. Methods of analyzing stratified and matched data, logistic regression for cohort and case-control studies, Poisson regression, survival-time methods. (Same course as PHR 266.) Effective: 2009 Spring Quarter.

SPH 273—Health Services Administration (3)

Lecture—3 hour(s). Prerequisite(s): Consent of Instructor. Limited enrollment. Structure and function of public and private medical care. Topics include categories and trends in national medical spending, predictors of patient use, causes of death, managed care, HMOs, Medicare, Medicaid, costs of technology, and medical care in other countries. Effective: 2008 Summer Session 2.

SPH 274—Economic Evaluation in Health Care (3)

Lecture/Lab—3 hour(s). Prerequisite(s): At least one semester of graduate level Statistics or consent of instructor. Cost-effectiveness/cost-benefit analysis (CE/CBA) methods among various economic evaluation methods. CE/CBA is increasingly used to evaluate alternative choices in public health and clinical practice and to enlighten and inform health policy determinations. Effective: 2012 Fall Quarter.

SPH 276—Critical Assessment in Health Policy & Economics (2)

Lecture/Discussion—2 hour(s). Aims to develop critical reading skills of the health policy and health economics literature, mainly following the microeconomic paradigm and analytical techniques. Some basic concepts of micro economic theory will be explained. Effective: 2014 Fall Quarter.

SPH 277—Net Benefit Regression (3)

Lecture/Discussion—3 hour(s). Prerequisite(s): STA 100 or SPH 244 or MPM 202; or Consent of Instructor. Graduate student standing. Open to graduate students only. Uses regression methods for cost-effectiveness analysis. Focus on methods that create and explain economic information in person-level data. Effective: 2017 Fall Quarter.

SPH 280—Introduction to SAS Programming (3)

Lecture—2 hour(s); Discussion/Laboratory—1 hour(s). Prerequisite(s): Introductory statistics course; e.g., MPM 402, STA 102. Introduction to SAS, an integrated software system for data retrieval and management, data manipulation and programming. (Same course as EPI 280.) Effective: 2016 Fall Quarter.

SPH 281—Data Management in SAS (1)

Discussion/Laboratory—1.5 hour(s). Prerequisite(s): Consent of Instructor. SAS programming for graduate students in the public health sciences or other fields who plan to use SAS software for data analysis. (S/U grading only.) Effective: 2019 Summer Session 2.

SPH 283—Program Planning & Evaluation (3)

Lecture—3 hour(s); Discussion/Laboratory—2 hour(s). Prerequisite(s): Consent of Instructor. Assessment of population needs, assets and capacities that affect communities' health. Design and selection of methods for evaluating a population-based program. Effective: 2020 Summer Session 2.

SPH 290—Topics in Public Health (1)

Seminar—1 hour(s). Prerequisite(s): Consent of Instructor. Restricted to Graduate Students. Key issues and current topics in public health. Begins in August summer session II. Must enroll in August, then Fall and Winter. Course is a series but grades and units are given at end of each quarter. May be repeated up to 10 time(s). (S/U grading only.) Effective: 2019 Spring Quarter.

SPH 291—Public Health Sciences Doctoral Seminar (1)

Seminar—1 hour(s). Prerequisite(s): Consent of Instructor. Seminar to explore research on translational science and rural health; includes presentations of student research in progress. May be repeated up to 6 time(s) when topic differs; with consent of instructor. (S/U grading only.) Effective: 2017 Fall Quarter.

SPH 292A—Public Health Translational Science Rotation (1-7)

Variable—1-7 hour(s). Prerequisite(s): Ph.D. student in Public Health Sciences or consent of instructor. Public Health Translational Science Rotation for Ph.D. students in Public Health Sciences. May be repeated up to 8 unit(s) with consent of instructor. (S/U grading only.) Effective: 2017 Fall Quarter.

SPH 292B—Public Health Translational Science Rotation (1-7)

Variable—1-3 hour(s). Prerequisite(s): Consent of Instructor. Open to Ph.D. students in Public Health Sciences. Public Health Translational Science Rotation for Ph.D. students in Public Health Sciences. May be repeated up to 8 unit(s) with consent of instructor. (S/U grading only.) Effective: 2018 Winter Quarter.

SPH 295—International Health (2)

Lecture/Discussion—2 hour(s). Prerequisite(s): Graduate standing or consent of instructor. Forum for learning health issues and health care systems in other countries. Topics include health care for refugees, the impact of political strife on health, the health care professional in international settings. (S/U grading only.) Effective: 2010 Winter Quarter.

SPH 297—Public Health Practicum (1-16)

Variable—3-32 hour(s). Prerequisite(s): Consent of Instructor. Open to Master of Public Health students. Practical fieldwork experience in public health. Placement site will vary based on the interest and experience of each student. May be repeated up to 4 time(s). (S/U grading only.) Effective: 2008 Summer Session 2.

SPH 298—Study in Community & International Health (1-5)

Variable—3-15 hour(s). Prerequisite(s): Consent of Instructor. Graduate student in good academic standing. Study and experience for graduate students in any number of areas in community and international health. (S/U grading only.) Effective: 2008 Summer Session 2.

SPH 299—Research in Community & International Health (1-12)

Variable—3-36 hour(s). Prerequisite(s): Consent of Instructor. Graduate standing. Work with faculty member in areas of research interest, including but not limited to injury control, international health, health policy, occupational and environmental health, health promotion and wellness, women's health, and health demographics. (S/U grading only.) Effective: 2008 Summer Session 2.

SPH 402—Introductory Medical Spanish (2)

Lecture—2 hour(s). Prerequisite(s): Medical student or consent of instructor. The vocabulary needed to conduct a basic history and physical examination in Spanish. (H/P/F grading only.) Effective: 2008 Summer Session 2.

SPH 461—Clerkship in Community Health Group Practice (3-9)

Clinical Activity. Prerequisite(s): Third-or fourth-year medical student. Overview of local community health in group practice situations. Students participate in treatment at several clinic sites in Yolo County. Topics include primary care, environmental health, maternal and child health, jail health, and preventive health care for the aged. (S/U grading only.) Effective: 2008 Summer Session 2.

SPH 465—Community Health Preceptorship (3-18)

Clinical Activity—5-40 hour(s). Prerequisite(s): Consent of Instructor. Fourth-year medical student in good academic standing. Participate at state or county health department or other public health organization in on-going investigations into current public health problems, e.g., birth defects, cancer control, diabetes, hypertension, injury control, infectious diseases, aging, Alzheimer's disease, and smoking and tobacco use control. (H/P/F grading only.) Effective: 2010 Spring Quarter.

SPH 466—Occupational & Environmental Medicine Elective (6-12)

Clinical Activity; Laboratory; Variable—6-12 hour(s). Prerequisite(s): Consent of Instructor. Fourth-year medical student in good academic standing. Participate in activities of Occupational and Environmental Health Unit. Major activity is involvement in an epidemiologic research project of the University. Participate in Occupational and Environmental Medicine Clinic at UC Davis Medical Center and other sites, as arranged. (H/P/F grading only.) Effective: 2010 Summer Quarter.

SPH 470—Clinical Selective in Occupational & Environmental Medicine (3-6)

Clinical Activity—9-18 hour(s). Prerequisite(s): Consent of Instructor. Fourth-year medical student in good academic standing. Outpatient clinical experience in Occupational and Environmental Medicine at UCDMC and other sites, as arranged. Gain experience in evaluating occ/env medical conditions, use of medical literature resources, the worker's compensation system, and toxicological principles. Students may take up to four weeks for 6 units. (H/P/F grading only.) Effective: 2010 Spring Quarter.

SPH 480—Insights in Occupational & Environmental Medicine (1-3)

Clinical Activity—3-9 hour(s). Prerequisite(s): Consent of Instructor. First- or second-year medical student in good academic standing. Observe and participate in research and clinical activities in occupational and environmental medicine which include conferences, occupational and environmental medicine clinical activities and field visits. Develop and present small individual research projects. (P/F grading only.) Effective: 2010 Summer Quarter.

SPH 495—International Health (2)

Lecture/Discussion—2 hour(s). Prerequisite(s): Consent of Instructor. Medical student in good academic standing. Forum for learning health issues and health care systems in other countries. Topics include health care for refugees, the impact of political strife on health, the health care professional in international settings. (H/P/F grading only.) Effective: 2009 Spring Quarter.

SPH 496—Current Issues in Public Health (1)

Lecture/Discussion—1 hour(s). Topical issues in public health. Speakers from the local public health community address issues such as disease control programs, access to care. May be repeated up to 3 time(s). (P/F grading only.) Effective: 2008 Summer Session 2.

SPH 498—Study in Public Health Sciences (1-6)

Variable—3-18 hour(s). Prerequisite(s): Consent of Instructor. Medical student in good academic standing. Study and experience for medical students in areas in community and international health. May be repeated for credit. (H/P/F grading only.) Effective: 2009 Spring Quarter.

SPH 499—Research in Public Health Sciences (1-9)

Variable. Prerequisite(s): Medical students with consent of instructor. Work with faculty member in areas of research interest, including but not limited to public health, injury control, international health, health policy, occupational and environmental health, health promotion and wellness, women's health, and health demographics. May be repeated for credit. (H/P/F grading only.) Effective: 2017 Fall Quarter.

SSC—Soil Science

Courses in SSC:

Questions pertaining to the following courses should be directed to the instructor, to the Resource Sciences Teaching Center in 1150 Plant & Environmental Sciences Building; 530-752-1603.

SSC 010—Soils in Our Environment (3)

Lecture—3 hour(s); Independent Study. Limited to 90 students. Soils in our global ecosystem; soils as natural bodies formed by interactive environmental processes; soil response to use and management; sustainable use of soil resources; role of soils in agricultural and environmental issues; role of soils in our daily lives. GE credit: QL, SE, SL. Effective: 2006 Fall Quarter.

SSC 092—Soil Science Internship (1-12)

Internship—3-36 hour(s). Prerequisite(s): Consent of Instructor. Lower division standing. Work experience off and on campus in soil science. Internship supervised by a member of the faculty. (P/NP grading only.) Effective: 1997 Winter Quarter.

SSC 100—Principles of Soil Science (5)

Lecture—3 hour(s); Laboratory—3 hour(s); Term Paper. Prerequisite(s): College-level courses in each of chemistry, physics, biology, and geology recommended. Soil as part of natural and managed ecosystems and landscapes. Solid, liquid, and gas phases and their interactions in the soil. Water, gas and heat movement in soil. Soil biology. Plant nutrient acquisition and use. Soil development, management and use. GE credit: QL, SE, SL, VL. Effective: 2018 Winter Quarter.

SSC 102—Environmental Soil Chemistry (3)

Lecture—3 hour(s). Prerequisite(s): General chemistry; SSC 100 or equivalent recommended. Soil chemistry processes related to the fate and transport of contaminants in soil. Soil minerals, natural organic matter, surface charge, soil solution chemistry, redox reactions in soil, and sorption of inorganic and organic contaminants. GE credit: QL, SE, SL. Effective: 2018 Winter Quarter.

SSC 105—Field Studies of Soils in California Ecosystems (5)

Prerequisite(s): SSC 100 and SSC 120 or equivalent recommended. Limited to a minimum of 10 students; maximum of 24. Field-based studies of soils in California ecosystems, away from campus, throughout California. Emphasis on description and classification of soils; relationships among soils, vegetation, geology, and climate; physical, chemical, and biological processes in soils on the landscape; and the role of soils in land use. May be repeated up to 1 time(s). GE credit: QL, SE, SL, VL, WE. Effective: 2005 Summer Special Session.

SSC 107—Soil Physics (5)

Lecture—3 hour(s); Laboratory—3 hour(s); Discussion—1 hour(s). Prerequisite(s): SSC 100; ERS 100; MAT 016A; Or the equivalent of MAT 016A. Physical properties of soil. Principles of water, gas, heat, and solute movement in soil with selected examples related to soil and water management. Influence of soil properties on transfer processes. GE credit: SE. Effective: 1999 Fall Quarter.

SSC 109—Sustainable Nutrient Management (4)

Lecture—3 hour(s); Laboratory—3 hour(s). Prerequisite(s): SSC 100; Or the equivalent. Availability of nutrients in organic and conventional agricultural, vineyard, orchard and plantation forest soils; management of fertilizers, cover crops, compost, sewage sludge and manures for crop production and to prevent loss to the environment is emphasized. GE credit: OL, QL, SE, SL, VL, WE. Effective: 2008 Spring Quarter.

SSC 111—Soil Microbiology (4)

Lecture—3 hour(s); Laboratory—3 hour(s). Prerequisite(s): BIS 002C recommended. Major groups of microorganisms in soil, their interrelationships, and their responses to environmental variables. Role of microorganisms in cycling of nutrients. Plant-microbe relationships. Transformations of organic and inorganic pollutants. GE credit: QL, SE, SL, WE. Effective: 2018 Winter Quarter.

SSC 112—Soil Ecology (3)

Lecture—2 hour(s); Discussion—1 hour(s). Prerequisite(s): SSC 100 or equivalent recommended. Overview of living constituents of soils, their interactions, importance to, and impact on biogeochemical cycles, decomposition, and soil properties. Practical applications of soil biological diversity are emphasized. GE credit: SE. Effective: 2018 Winter Quarter.

SSC 118—Soils in Land Use & the Environment (4)

Lecture—3 hour(s); Discussion—1 hour(s). Prerequisite(s): Consent of Instructor. SSC 100 or equivalent recommended. Soils are considered as elements in land use planning and environmental quality. Topics include: soil survey reports, remote sensing, land capability classification, soil erosion/conservation, waste disposal on soils and soil reclamation. One one-day field trip. GE credit: SE, SL. Effective: 2018 Winter Quarter.

SSC 120—Soil Genesis, Morphology, & Classification (5)

Lecture—4 hour(s); Laboratory—3 hour(s). Prerequisite(s): SSC 100; GEL 050 recommended. Recognition and description of soils; chemical, biological and physical processes of soil formation. Factors of soil formation. Interactions of soils with diverse ecosystems. Introduction to soil classification. Practice using soil taxonomy. Practical experience describing soil properties in the field. GE credit: QL, SE, SL, VL. Effective: 1997 Winter Quarter.

SSC 192—Soil Science Internship (1-12)

Internship—3-36 hour(s). Prerequisite(s): Consent of Instructor. Completion of 84 units. Work experience off and on campus in soil science. Internship supervised by a member of the faculty. (P/NP grading only.) Effective: 1997 Winter Quarter.

SSC 198—Directed Group Study (1-5)

Variable. Prerequisite(s): Consent of Instructor. (P/NP grading only.) Effective: 1997 Winter Quarter.

SSC 199—Special Study for Advanced Undergraduates (1-5)

Variable. Prerequisite(s): Consent of Instructor. (P/NP grading only.) Effective: 1997 Winter Quarter.

SSC 202—Topics in Advanced Soil Chemistry (4)

Lecture—3 hour(s); Discussion—1 hour(s). Prerequisite(s): Consent of Instructor. General chemistry; SSC 100 or equivalent recommended. Restricted to 18 students. Reviews of current research in soil chemistry. Topics include double layer theory; clay mineral and oxide surface chemistry; adsorption on soil surfaces; speciation and modeling of solution ions; solubility and mineral stability diagrams. May be repeated up to 1 time(s) when topic differs. Effective: 2018 Winter Quarter.

SSC 205—Field Studies of Soils in California Ecosystems (5)

Fieldwork—50 hour(s); Discussion—15 hour(s); Lecture—5 hour(s). Prerequisite(s): SSC 100 and SSC 120 or equivalent recommended. Limited to 24 students. Field-based soil studies in California ecosystems. Description and classification of soils; relationships among soils, vegetation, geology, and climate; physical, chemical, and biological processes; their role in land use. Similar to SSC 105; requires additional work for graduate credit. May be repeated up to 1 time(s) when geographic locale differs. Effective: 2006 Spring Quarter.

SSC 208—Soil-Plant Interrelationships (3)

Lecture—3 hour(s). Prerequisite(s): SSC 100; PLB 111; or Consent of Instructor. Plant needs, occurrence and reactions of water and mineral nutrients in soils; root systems and their growth in soils; mass flow and diffusion mechanisms in nutrient acquisition; models relating nutrient uptake to soil and plant characteristics; nutrient assimilation and crop quality. Effective: 1997 Winter Quarter.

SSC 211—Advanced Soil Microbiology (3)

Lecture—3 hour(s). Prerequisite(s): CHE 008A; CHE 008B; SSC 111; BIS 102, BIS 103 or an equivalent course recommended. Microbial metabolism of organic chemicals in soil, both natural and xenobiotic. Decomposition of organic matter. Kinetics of microbial processes in soil. Effective: 1997 Winter Quarter.

SSC 219—Ecosystem Biogeochemistry (4)

Lecture—3 hour(s); Discussion/Laboratory—2 hour(s). Prerequisite(s): Introductory courses in ecology/biology and soils recommended; undergraduates accepted with consent of instructor. Multidisciplinary analysis of energy and nutrient transfers within terrestrial ecosystems. Examination of processes and inter- and intra-system interactions between the atmosphere, biosphere, lithosphere and hydrosphere. Laboratory section uses biogeochemical simulation models to examine case studies. (Same course as ECL 219.) Effective: 1997 Winter Quarter.

SSC 220—Pedology (3)

Lecture—3 hour(s). Prerequisite(s): Consent of Instructor. SSC 120 recommended. Topics selected from studies of soil-forming processes, soil-geomorphic relations, mineral weathering, new developments in soil classification, and development of pedologic theory. Topics vary from year to year. May be repeated up to 1 time(s). Effective: 1997 Winter Quarter.

SSC 222—Global Carbon Cycle (3)

Lecture—3 hour(s). Prerequisite(s): CHE 008A; CHE 008B; MAT 016A; MAT 016B; SSC 100; Or the equivalent of SSC 100. Global carbon cycle from Phanerozoic epoch to modern times. Examination of long and short-term carbon cycles. Transfer of carbon among ocean, land and life with emphasis on humic substance formation, methods of characterization, reactions with organics and soil carbon stabilization. Effective: 2008 Summer Session 1.

SSC 290—Special Topics in Soil Science (1-4)

Seminar—1-4 hour(s); Variable. Prerequisite(s): Graduate standing. Seminars and critical review of problems, issues, and research in soil science. May be repeated for credit. (S/U grading only.) Effective: 2010 Fall Quarter.

SSC 298—Group Study (1-5)

Variable—1-5 hour(s). Prerequisite(s): Consent of Instructor. Group Study May be repeated for credit when topic differs. (S/U grading only.) Effective: 2014 Spring Quarter.

SSC 299—Research (1-12)

Variable. Prerequisite(s): Consent of Instructor. (S/U grading only.) Effective: 1997 Winter Quarter.

SSC 396—Teaching Assistant Training Practicum (1-4)

Variable. Prerequisite(s): Graduate standing. May be repeated for credit. (P/NP grading only.) Effective: 1997 Winter Quarter.

STA—Statistics

Courses in STA:**STA 010—Statistical Thinking (4)**

Lecture—3 hour(s); Discussion/Laboratory—1 hour(s). Prerequisite(s): Two years of high school algebra. Statistics and probability in daily life. Examines principles of collecting, presenting and interpreting data in order to critically assess results reported in the media; emphasis is on understanding polls, unemployment rates, health studies; understanding probability, risk and odds. GE credit: QL, SE. Effective: 2000 Spring Quarter.

STA 012—Introduction to Discrete Probability (4)

Lecture—3 hour(s); Laboratory—1 hour(s). Prerequisite(s): Two years of high school algebra. Random experiments; countable sample spaces; elementary probability axioms; counting formulas; conditional probability; independence; Bayes theorem; expectation; gambling problems; binomial, hypergeometric, Poisson, geometric, negative binomial and multinomial models; limiting distributions; Markov chains. Applications in the social, biological, and engineering sciences. GE credit: QL, SE. Effective: 1999 Fall Quarter.

STA 013—Elementary Statistics (4)

Lecture—3 hour(s); Discussion—1 hour(s). Prerequisite(s): Two years of high school algebra or Mathematics D. Descriptive statistics; basic probability concepts; binomial, normal, Student's t, and chi-square distributions. Hypothesis testing and confidence intervals for one and two means and proportions. Regression. Not open for credit for students who have completed STA 013V, or higher. GE credit: QL, SE. Effective: 2016 Fall Quarter.

STA 013Y—Elementary Statistics (4)

Lecture—1.5 hour(s); Web Virtual Lecture—5 hour(s). Prerequisite(s): Two years of high school algebra or Mathematics D. Descriptive statistics; basic probability concepts; binomial, normal, Student's t, and chi-square distributions. Hypothesis testing and confidence intervals for one and two means and proportions. Regression. Not open for credit for students who have completed STA 013, or higher. GE credit: QL, SE. Effective: 2016 Fall Quarter.

STA 032—Gateway to Statistical Data Science (4)

Lecture—3 hour(s); Laboratory—1 hour(s). Prerequisite(s): MAT 016B C- or better or MAT 021B C- or better or MAT 017B C- or better. Probability concepts; programming in R; exploratory data analysis; sampling distribution; estimation and inference; linear regression; simulations; resampling methods. Alternative to STA 013 for students with a background in calculus and programming. Only 2 units of credit allowed to students who have taken STA 013; not open for credit to students who have taken STA 100. GE credit: QL, SE. Effective: 2019 Fall Quarter.

STA 035A—Statistical Data Science I (4)

Lecture—3 hour(s); Discussion/Laboratory—1 hour(s). Prerequisite(s): MAT 016A (can be concurrent) or MAT 017A (can be concurrent) or MAT 021A (can be concurrent). Principles of descriptive statistics; basic R programming; probability models; sampling variability; hypothesis tests; confidence intervals; statistical simulation. Not open for credit to students who have taken STA 032 or STA 100. Only 2 units credit for students who have taken STA 013. GE credit: QL, SE. Effective: 2020 Spring Quarter.

STA 035B—Statistical Data Science II (4)

Lecture—3 hour(s); Discussion/Laboratory—1 hour(s). Prerequisite(s): (STA 035A C- or better or STA 032 C- or better or STA 100 C- or better); (MAT 016A (can be concurrent) or MAT 017A (can be concurrent) or MAT 021A (can be concurrent)). Advanced programming and data manipulation in R. Principles of data visualization. Concepts of correlation, regression, analysis of variance, nonparametrics. GE credit: QL, SE, VL. Effective: 2020 Spring Quarter.

STA 035C—Statistical Data Science III (4)

Lecture—3 hour(s); Discussion/Laboratory—1 hour(s). Prerequisite(s): STA 035B C- or better; (MAT 016B C- or better or MAT 017B C- or better or MAT 021B C- or better). Introduction to statistical learning; Bayesian paradigm; model selection; simultaneous inference; bootstrap and cross validation; classification and clustering methods; PCA; nonparametric smoothing techniques. GE credit: QL, SE, SL. Effective: 2020 Spring Quarter.

STA 090X—Seminar (1-2)

Seminar—1-2 hour(s). Prerequisite(s): Consent of Instructor. High school algebra. Examination of a special topic in a small group setting. Effective: 1997 Winter Quarter.

STA 098—Directed Group Study (1-5)

Variable. Prerequisite(s): Consent of Instructor. (P/NP grading only.) Effective: 1997 Winter Quarter.

STA 099—Special Study for Undergraduates (1-5)

Variable. Prerequisite(s): Consent of Instructor. (P/NP grading only.) Effective: 2000 Spring Quarter.

STA 100—Applied Statistics for Biological Sciences (4)

Lecture—3 hour(s); Laboratory—1 hour(s). Prerequisite(s): MAT 016B C- or better or MAT 017B C- or better or MAT 021B C- or better. Descriptive statistics, probability, sampling distributions, estimation, hypothesis testing, contingency tables, ANOVA, regression; implementation of statistical methods using computer package. Only 2 units credit allowed to students who have taken STA 013, STA 032 or 103; not open for credit to students who have taken STA 102. GE credit: QL, SE. Effective: 2019 Fall Quarter.

STA 101—Advanced Applied Statistics for the Biological Sciences (4)

Lecture—3 hour(s); Laboratory—1 hour(s). Prerequisite(s): STA 100 C- or better. Basic experimental designs, two-factor ANOVA without interactions, repeated measures ANOVA, ANCOVA, random effects vs. fixed effects, multiple regression, basic model building, resampling methods, multiple comparisons, multivariate methods, generalized linear models, Monte Carlo simulations. GE credit: QL, SE. Effective: 2019 Fall Quarter.

STA 103—Applied Statistics for Business & Economics (4)

Lecture—3 hour(s); Discussion—1 hour(s). Prerequisite(s): (STA 013 C- or better or STA 013Y C- or better or STA 032 C- or better or STA 100 C- or better); (MAT 016B C- or better or MAT 017B C- or better or MAT 021B C- or better). Descriptive statistics; probability; random variables; expectation; binomial, normal, Poisson, other univariate distributions; joint distributions; sampling distributions, central limit theorem; properties of estimators; linear combinations of random variables; testing and estimation; Minitab computing package. May be taught abroad. Only 2 units credit to students who have completed STA 100. GE credit: QL, SE. Effective: 2019 Fall Quarter.

STA 104—Applied Statistical Methods: Nonparametric Statistics (4)

Lecture—3 hour(s); Laboratory—1 hour(s). Prerequisite(s): STA 013 C- or better or STA 013Y C- or better or STA 032 C- or better or STA 100 C- or better. Sign and Wilcoxon tests, Walsh averages. Two-sample procedures. Inferences concerning scale. Kruskal-Wallis test. Measures of association. Chi square and Kolmogorov-Smirnov tests. GE credit: QL, SE. Effective: 2019 Fall Quarter.

STA 106—Applied Statistical Methods: Analysis of Variance (4)

Lecture—3 hour(s); Discussion/Laboratory—1 hour(s). Prerequisite(s): STA 013 C- or better or STA 013Y C- or better or STA 032 C- or better or STA 100 C- or better. Basics of experimental design. One-way and two-way fixed effects analysis of variance models. Randomized complete and incomplete block design. Multiple comparisons procedures. One-way random effects model. GE credit: SE. Effective: 2019 Fall Quarter.

STA 108—Applied Statistical Methods: Regression Analysis (4)

Lecture—3 hour(s); Discussion—1 hour(s). Prerequisite(s): STA 013 C- or better or STA 013Y C- or better or STA 032 C- or better or STA 100 C- or better. Simple linear regression, variable selection techniques, stepwise regression, analysis of covariance, influence measures, computing packages. GE credit: QL, SE, SL. Effective: 2019 Fall Quarter.

STA 130A—Mathematical Statistics: Brief Course (4)

Lecture—3 hour(s); Discussion—1 hour(s). Prerequisite(s): (MAT 016C C- or better or MAT 017C C- or better or MAT 021C C- or better); (STA 013 C- or better or STA 013Y C- or better or STA 032 C- or better or STA 100 C- or better). Basic probability, densities and distributions, mean, variance, covariance, Chebyshev's inequality, some special distributions, sampling distributions, central limit theorem and law of large numbers, point estimation, some methods of estimation, interval estimation, confidence intervals for certain quantities, computing sample sizes. Only 2 units of credit allowed to students who have taken STA 131A. GE credit: QL, SE. Effective: 2019 Fall Quarter.

STA 130B—Mathematical Statistics: Brief Course (4)

Lecture—3 hour(s); Discussion—1 hour(s). Prerequisite(s): STA 130A C- or better or STA 131A C- or better or MAT 135A C- or better. Transformed random variables, large sample properties of estimates. Basic ideas of hypotheses testing, likelihood ratio tests, goodness-of-fit tests. General linear model, least squares estimates, Gauss-Markov theorem. Analysis of variance, F-test. Regression and correlation, multiple regression. Selected topics. GE credit: QL, SE. Effective: 2019 Fall Quarter.

STA 131A—Introduction to Probability Theory (4)

Lecture—3 hour(s); Discussion—1 hour(s). Prerequisite(s): MAT 021C C- or better; (MAT 022A C- or better or MAT 027A C- or better or MAT 067 C- or better); MAT 021D strongly recommended. Fundamental concepts of probability theory, discrete and continuous random variables, standard distributions, moments and moment-generating functions, laws of large numbers and the central limit theorem. Not open for credit to students who have completed MAT 135A. GE credit: QL, SE. Effective: 2019 Fall Quarter.

STA 131B—Introduction to Mathematical Statistics (4)

Lecture—3 hour(s); Discussion—1 hour(s). Prerequisite(s): STA 131A C- or better or MAT 135A C- or better; Consent of Instructor. Sampling, methods of estimation, bias-variance decomposition, sampling distributions, Fisher information, confidence intervals, and some elements of hypothesis testing. GE credit: SE. Effective: 2019 Fall Quarter.

STA 131C—Introduction to Mathematical Statistics (4)

Lecture—3 hour(s); Discussion—1 hour(s). Prerequisite(s): STA 131B C- or better. Testing theory, tools and applications from probability theory, Linear model theory, ANOVA, goodness-of-fit. GE credit: SE. Effective: 2019 Fall Quarter.

STA 135—Multivariate Data Analysis (4)

Lecture—3 hour(s); Discussion—1 hour(s). Prerequisite(s): (STA 130B C- or better or STA 131B C- or better); (MAT 022A C- or better or MAT 027A C- or better or MAT 067 C- or better). Multivariate normal distribution; Mahalanobis distance; sampling distributions of the mean vector and covariance matrix; Hotellings T²; simultaneous inference; one-way MANOVA; discriminant analysis; principal components; canonical correlation; factor analysis. Intensive use of computer analyses and real data sets. GE credit: QL, SE. Effective: 2019 Fall Quarter.

STA 137—Applied Time Series Analysis (4)

Lecture—3 hour(s); Laboratory—1 hour(s). Prerequisite(s): STA 108 C- or better. Time series relationships; univariate time series models: trend, seasonality, correlated errors; regression with correlated errors; autoregressive models; autoregressive moving average models; spectral analysis: cyclical behavior and periodicity, measures of periodicity, periodogram; linear filtering; prediction of time series; transfer function models. GE credit: QL, SE. Effective: 2020 Winter Quarter.

STA 138—Analysis of Categorical Data (4)

Lecture—3 hour(s); Discussion—1 hour(s). Prerequisite(s): (STA 130B or STA 131B) or (STA 106, STA 108). Varieties of categorical data, cross-classifications, contingency tables, tests for independence. Multidimensional tables and log-linear models, maximum likelihood estimation; tests of goodness-of-fit. Logit models, linear logistic models. Analysis of incomplete tables. Packaged computer programs, analysis of real data. GE credit: QL, SE. Effective: 1997 Winter Quarter.

STA 141A—Fundamentals of Statistical Data Science (4)

Lecture—3 hour(s); Discussion—1 hour(s). Prerequisite(s): STA 108 C- or better or STA 106 C- or better. Pass One & Pass Two: open to Statistics Majors, Biostatistics & Statistics graduate students; registration open to all students during schedule adjustment. Introduction to computing for data analysis & visualization, and simulation, using a high-level language (e.g., R). Computational reasoning, computationally intensive statistical methods, reading tabular & non-standard data. Not open for credit to students who have taken STA 141 or STA 242. Effective: 2020 Spring Quarter.

STA 141B—Data & Web Technologies for Data Analysis (4)

Lecture—3 hour(s); Discussion—1 hour(s). Prerequisite(s): STA 141A C- or better. Pass One and Pass Two restricted to Statistics majors and graduate students in Statistics and Biostatistics. Open to all students during Open Registration. Essentials of using relational databases and SQL. Processing data in blocks. Scraping Web pages and using Web services/APIs. Basics of text mining. Interactive data visualization with Web technologies. Computational data workflow and best practices. Statistical methods. Effective: 2019 Fall Quarter.

STA 141C—Big Data & High Performance Statistical Computing (4)

Lecture—3 hour(s); Discussion—1 hour(s). Prerequisite(s): STA 141B C- or better or (STA 141A C- or better, (ECS 010 C- or better or ECS 032A C- or better)). Pass One and Pass Two restricted to Statistics majors and graduate students in Statistics and Biostatistics; open to all students during Open registration. High-performance computing in high-level data analysis languages; different computational approaches and paradigms for efficient analysis of big data; interfaces to compiled languages; R and Python programming languages; high-level parallel computing; MapReduce; parallel algorithms and reasoning. Effective: 2019 Fall Quarter.

STA 142A—Statistical Learning I (4)

Lecture—3 hour(s); Discussion—1 hour(s). Prerequisite(s): STA 141A C- or better; (STA 130A C- or better or STA 131A C- or better or MAT 135A C- or better); STA 131A or MAT 135A preferred. Pass One restricted to Statistics majors. Fundamental concepts and methods in statistical learning with emphasis on supervised learning. Principles, methodologies and applications of parametric and nonparametric regression, classification, resampling and model selection techniques. Only 2 units of credit for students who have previously taken ECS 171. Effective: 2020 Winter Quarter.

STA 142B—Statistical Learning II (4)

Lecture—3 hour(s); Discussion—1 hour(s). Prerequisite(s): STA 142A C- or better; (STA 130B C- or better or STA 131B C- or better); STA 131B preferred. Pass One restricted to Statistics majors. Fundamental concepts and methods in statistical learning with emphasis on unsupervised learning. Principles, methodologies and applications of clustering methods, dimension reduction and manifold learning techniques, graphical models and latent variables modeling. Effective: 2020 Winter Quarter.

STA 144—Sampling Theory of Surveys (4)

Lecture—3 hour(s); Discussion/Laboratory—1 hour(s). Prerequisite(s): (STA 130B or STA 131B) or (STA 106, STA 108). Simple random, stratified random, cluster, and systematic sampling plans; mean, proportion, total, ratio, and regression estimators for these plans; sample survey design, absolute and relative error, sample size selection, strata construction; sampling and nonsampling sources of error. GE credit: QL, SE. Effective: 2016 Fall Quarter.

STA 145—Bayesian Statistical Inference (4)

Lecture—3 hour(s); Laboratory—1 hour(s). Prerequisite(s): STA 130B C- or better or STA 131B C- or better. Subjective probability, Bayes Theorem, conjugate priors, non-informative priors, estimation, testing, prediction, empirical Bayes methods, properties of Bayesian procedures, comparisons with classical procedures, approximation techniques, Gibbs sampling, hierarchical Bayesian analysis, applications, computer implemented data analysis. GE credit: QL, SE. Effective: 2019 Fall Quarter.

STA 160—Practice in Statistical Data Science (4)

Lecture—3 hour(s); Discussion/Laboratory—1 hour(s). Prerequisite(s): STA 106 C- or better; STA 108 C- or better; (STA 130B C- or better or STA 131B C- or better); STA 141A C- or better. Open to undergraduate Statistics majors. Principles and practice of interdisciplinary, collaborative data analysis; complete case study review and team data analysis project. Effective: 2020 Spring Quarter.

STA 190X—Seminar (1-2)

Seminar—1-2 hour(s). Prerequisite(s): STA 013 or STA 013Y or STA 032 or STA 100 or STA 103. In-depth examination of a special topic in a small group setting. Effective: 2018 Spring Quarter.

STA 192—Internship in Statistics (1-12)

Internship—3-36 hour(s); Term Paper. Prerequisite(s): Consent of Instructor. Upper division standing. Work experience in statistics. (P/NP grading only.) Effective: 1997 Winter Quarter.

STA 194HA—Special Studies for Honors Students (4)

Independent Study—12 hour(s). Prerequisite(s): Senior qualifying for honors. Directed reading, research and writing, culminating in the completion of a senior honors thesis or project under direction of a faculty advisor. GE credit: SE. Effective: 1997 Winter Quarter.

STA 194HB—Special Studies for Honors Students (4)

Independent Study—12 hour(s). Prerequisite(s): Senior qualifying for honors. Directed reading, research and writing, culminating in the completion of a senior honors thesis or project under direction of a faculty advisor. GE credit: SE. Effective: 1997 Winter Quarter.

STA 198—Directed Group Study (1-5)

Variable. Prerequisite(s): Consent of Instructor. Directed group study. May be taught abroad. (P/NP grading only.) Effective: 1997 Winter Quarter.

STA 199—Special Study for Advanced Undergraduates (1-5)

Variable. Prerequisite(s): Consent of Instructor. (P/NP grading only.) Effective: 1997 Winter Quarter.

STA 200A—Introduction to Probability Theory (4)

Lecture—3 hour(s); Discussion—1 hour(s). Prerequisite(s): MAT 021A; MAT 021B; MAT 021C; MAT 022A; Consent of Instructor. Fundamental concepts of probability theory, discrete and continuous random variables, standard distributions, moments and moment-generating functions, laws of large numbers and the central limit theorem. Effective: 2018 Winter Quarter.

STA 200B—Introduction to Mathematical Statistics I (4)

Lecture—3 hour(s); Discussion—1 hour(s). Prerequisite(s): STA 200A; or Consent of Instructor. Sampling, methods of estimation, bias-variance decomposition, sampling distributions, Fisher information, confidence intervals, and some elements of hypothesis testing. Effective: 2018 Winter Quarter.

STA 200C—Introduction to Mathematical Statistics II (4)

Lecture—3 hour(s); Discussion—1 hour(s). Prerequisite(s): STA 200B; or Consent of Instructor. Testing theory, tools and applications from probability theory, Linear model theory, ANOVA, goodness-of-fit. Effective: 2019 Summer Session 1.

STA 201—SAS Programming for Statistical Analysis (3)

Lecture—2 hour(s); Discussion/Laboratory—1 hour(s). Prerequisite(s): Introductory, upper division statistics course; some knowledge of vectors and matrices; STA 106 or STA 108 or the equivalent suggested. Introductory SAS language, data management, statistical applications, methods. Includes basics, graphics, summary statistics, data sets, variables and functions, linear models, repetitive code, simple macros, GLIM and GAM, formatting output, correspondence analysis, bootstrap. Prepare SAS base programmer certification exam. Effective: 2013 Fall Quarter.

STA 205—Statistical Methods for Research with SAS (4)

Lecture—3 hour(s); Laboratory—1 hour(s). Prerequisite(s): An introductory upper division statistics course and some knowledge of vectors and matrices; STA 100, or STA 102, or STA 103 suggested or the equivalent. Focus on linear statistical models widely used in scientific research. Emphasis on concepts, methods and data analysis using SAS. Topics include simple and multiple linear regression, polynomial regression, diagnostics, model selection, variable transformation, factorial designs and ANCOVA. Effective: 2008 Fall Quarter.

STA 206—Statistical Methods for Research—I (4)

Lecture—3 hour(s); Discussion/Laboratory—1 hour(s). Prerequisite(s): Introductory statistics course; some knowledge of vectors and matrices. Focus on linear statistical models. Emphasis on concepts, method and data analysis; formal mathematics kept to minimum. Topics include simple and multiple linear regression, polynomial regression, diagnostics, model selection, factorial designs and analysis of covariance. Use of professional level software. Effective: 2013 Fall Quarter.

STA 207—Statistical Methods for Research—II (4)

Lecture—3 hour(s); Discussion/Laboratory—1 hour(s). Prerequisite(s): STA 206; Knowledge of vectors and matrices. Linear and nonlinear statistical models emphasis on concepts, methods/data analysis using professional level software; formal mathematics kept to minimum. Topics include linear mixed models, repeated measures, generalized linear models, model selection, analysis of missing data, and multiple testing procedures. Effective: 2013 Fall Quarter.

STA 208—Statistical Methods in Machine Learning (4)

Lecture—3 hour(s); Discussion/Laboratory—1 hour(s). Prerequisite(s): STA 206; STA 207; STA 135; Or their equivalents. Focus on linear and nonlinear statistical models. Emphasis on concepts, methods, and data analysis; formal mathematics kept to minimum. Topics include resampling methods, regularization techniques in regression and modern classification, cluster analysis and dimension reduction techniques. Use professional level software. Effective: 2013 Fall Quarter.

STA 209—Optimization for Big Data Analytics (4)

Lecture—3 hour(s); Discussion—1 hour(s). Prerequisite(s): STA 200A; STA 208. Optimization algorithms for solving problems in statistics, machine learning, data analytics. Review computational tools for implementing optimization algorithms (gradient descent, stochastic gradient descent, coordinate descent, Newton's method.) Effective: 2018 Spring Quarter.

STA 220—Data & Web Technologies for Data Analysis (4)

Lecture—3 hour(s); Discussion—1 hour(s). Essentials of using relational databases and SQL. Processing data in blocks. Scraping Web pages and using Web services/APIs. Basics of text mining. Interactive data visualization with Web technologies. Computational data workflow and best practices. Statistical Methods. Effective: 2020 Winter Quarter.

STA 221—Big Data & High Performance Statistical Computing (4)

Lecture—3 hour(s); Discussion—1 hour(s). Prerequisite(s): STA 220. High-performance computing in high-level data analysis languages; different computational approaches and paradigms for efficient analysis of big data; interfaces to compiled languages; R and Python programming languages; high-level parallel computing; MapReduce; parallel algorithms and reasoning. Effective: 2020 Spring Quarter.

STA 222—Biostatistics: Survival Analysis (4)

Lecture—3 hour(s); Discussion/Laboratory—1 hour(s). Prerequisite(s): STA 131C. Incomplete data; life tables; nonparametric methods; parametric methods; accelerated failure time models; proportional hazards models; partial likelihood; advanced topics. (Same course as BST 222.) Effective: 2002 Fall Quarter.

STA 223—Biostatistics: Generalized Linear Models (4)

Lecture—3 hour(s); Discussion/Laboratory—1 hour(s). Prerequisite(s): STA 131C. Likelihood and linear regression; generalized linear model; Binomial regression; case-control studies; dose-response and bioassay; Poisson regression; Gamma regression; quasi-likelihood models; estimating equations; multivariate GLMs. (Same course as BST 223.) Effective: 2002 Fall Quarter.

STA 224—Analysis of Longitudinal Data (4)

Lecture—3 hour(s); Discussion/Laboratory—1 hour(s). Prerequisite(s): ((STA 222, STA 223) or (BST 222, BST 223)); STA 232B; or Consent of Instructor. Standard and advanced methodology, theory, algorithms, and applications relevant for analysis of repeated measurements and longitudinal data in biostatistical and statistical settings. (Same course as BST 224.) Effective: 2005 Spring Quarter.

STA 225—Clinical Trials (4)

Lecture—3 hour(s); Discussion/Laboratory—1 hour(s). Prerequisite(s): STA 223 or BST 223; or Consent of Instructor. Basic statistical principles of clinical designs, including bias, randomization, blocking, and masking. Practical applications of widely-used designs, including dose-finding, comparative and cluster randomization designs. Advanced statistical procedures for analysis of data collected in clinical trials. (Same course as BST 225.) Effective: 2005 Spring Quarter.

STA 226—Statistical Methods for Bioinformatics (4)

Lecture—3 hour(s); Discussion/Laboratory—1 hour(s). Prerequisite(s): STA 131C; or Consent of Instructor. Data analysis experience recommended. Standard and advanced statistical methodology, theory, algorithms, and applications relevant to the analysis of -omics data. (Same course as BST 226.) Effective: 2007 Fall Quarter.

STA 231A—Mathematical Statistics I (4)

Lecture—3 hour(s); Discussion—1 hour(s). Prerequisite(s): STA 131A; STA 131B; STA 131C; MAT 025; MAT 125A; Or equivalent of MAT 025 and MAT 125A. First part of three-quarter sequence on mathematical statistics. Emphasizes foundations. Topics include basic concepts in asymptotic theory, decision theory, and an overview of methods of point estimation. Effective: 2008 Summer Session 1.

STA 231B—Mathematical Statistics II (4)

Lecture—3 hour(s); Discussion—1 hour(s). Prerequisite(s): STA 231A. Second part of a three-quarter sequence on mathematical statistics. Emphasizes: hypothesis testing (including multiple testing) as well as theory for linear models. Effective: 2008 Summer Session 1.

STA 231C—Mathematical Statistics III (4)

Lecture—3 hour(s); Discussion—1 hour(s). Prerequisite(s): STA 231A; STA 231B. Third part of three-quarter sequence on mathematical statistics. Emphasizes large sample theory and their applications. Topics include statistical functionals, smoothing methods and optimization techniques relevant for statistics. Effective: 2008 Summer Session 1.

STA 232A—Applied Statistics I (4)

Lecture—3 hour(s); Laboratory—1 hour(s). Prerequisite(s): STA 106; STA 108; STA 131A; STA 131B; STA 131C; MAT 167. Estimation and testing for the general linear model, regression, analysis of designed experiments, and missing data techniques. Effective: 2011 Fall Quarter.

STA 232B—Applied Statistics II (4)

Lecture—3 hour(s); Laboratory—1 hour(s). Prerequisite(s): STA 106; STA 108; STA 131A; STA 131B; STA 131C; STA 232A; MAT 167. Alternative approaches to regression, model selection, nonparametric methods amenable to linear model framework and their applications. Effective: 2011 Fall Quarter.

STA 232C—Applied Statistics III (4)

Lecture—3 hour(s); Laboratory—1 hour(s). Prerequisite(s): STA 106; STA 108; STA 131C; STA 232B; MAT 167. Multivariate analysis: multivariate distributions, multivariate linear models, data analytic methods including principal component, factor, discriminant, canonical correlation and cluster analysis. Effective: 2011 Fall Quarter.

STA 233—Design Experiments (3)

Lecture—3 hour(s). Prerequisite(s): STA 131C. Topics from balanced and partially balanced incomplete block designs, fractional factorials, and response surfaces. Effective: 1997 Winter Quarter.

STA 235A—Probability Theory (4)

Lecture—3 hour(s); Term Paper/Discussion—1 hour(s). Prerequisite(s): (MAT 125B, MAT 135A) or STA 131A; or Consent of Instructor. Measure-theoretic foundations, abstract integration, independence, laws of large numbers, characteristic functions, central limit theorems. Weak convergence in metric spaces, Brownian motion, invariance principle. Conditional expectation. Topics selected from: martingales, Markov chains, ergodic theory. (Same course as MAT 235A.) Effective: 2007 Spring Quarter.

STA 235B—Probability Theory (4)

Lecture—3 hour(s); Term Paper/Discussion—1 hour(s). Prerequisite(s): STA 235A or MAT 235A; or Consent of Instructor. Measure-theoretic foundations, abstract integration, independence, laws of large numbers, characteristic functions, central limit theorems. Weak convergence in metric spaces, Brownian motion, invariance principle. Conditional expectation. Topics selected from: martingales, Markov chains, ergodic theory. (Same course as MAT 235B.) Effective: 2008 Spring Quarter.

STA 235C—Probability Theory (4)

Lecture—3 hour(s); Term Paper/Discussion—1 hour(s). Prerequisite(s): STA 235B or MAT 235B; or Consent of Instructor. Measure-theoretic foundations, abstract integration, independence, laws of large numbers, characteristic functions, central limit theorems. Weak convergence in metric spaces, Brownian motion, invariance principle. Conditional expectation. Topics selected from: martingales, Markov chains, ergodic theory. (Same course as MAT 235C.) Effective: 2008 Spring Quarter.

STA 237A—Time Series Analysis (4)

Lecture—3 hour(s); Term Paper. Prerequisite(s): STA 131B; Or the equivalent of STA 131B. Advanced topics in time series analysis and applications. Models for experimental data, measures of dependence, large-sample theory, statistical estimation and inference. Univariate and multivariate spectral analysis, regression, ARIMA models, state-space models, Kalman filtering. Effective: 1999 Fall Quarter.

STA 237B—Time Series Analysis (4)

Lecture—3 hour(s); Term Paper. Prerequisite(s): STA 131B; STA 237A; Or the equivalent of STA 131B. Advanced topics in time series analysis and applications. Models for experimental data, measures of dependence, large-sample theory, statistical estimation and inference. Univariate and multivariate spectral analysis, regression, ARIMA models, state-space models, Kalman filtering. Effective: 1999 Fall Quarter.

STA 238—Theory of Multivariate Analysis (4)

Lecture—3 hour(s); Term Paper. Prerequisite(s): STA 131B; STA 135. Multivariate normal and Wishart distributions, Hotellings T-Squared, simultaneous inference, likelihood ratio and union intersection tests, Bayesian methods, discriminant analysis, principal component and factor analysis, multivariate clustering, multivariate regression and analysis of variance, application to data. Effective: 1999 Fall Quarter.

STA 240A—Nonparametric Inference (4)

Lecture—3 hour(s); Term Paper. Prerequisite(s): STA 231C; STA 235A, STA 235B, STA 235C recommended. Comprehensive treatment of nonparametric statistical inference, including the most basic materials from classical nonparametrics, robustness, nonparametric estimation of a distribution function from incomplete data, curve estimation, and theory of resampling methodology. Effective: 2000 Winter Quarter.

STA 240B—Nonparametric Inference (4)

Lecture—3 hour(s); Term Paper. Prerequisite(s): STA 231C; STA 235A, STA 235B, STA 235C recommended. Comprehensive treatment of nonparametric statistical inference, including the most basic materials from classical nonparametrics, robustness, nonparametric estimation of a distribution function from incomplete data, curve estimation, and theory of re-sampling methodology. Effective: 2000 Winter Quarter.

STA 241—Asymptotic Theory of Statistics (4)

Lecture—3 hour(s); Term Paper. Prerequisite(s): STA 231C; STA 235A, STA 235B, STA 235C desirable. Topics in asymptotic theory of statistics chosen from weak convergence, contiguity, empirical processes, Edgeworth expansion, and semiparametric inference. Effective: 2000 Spring Quarter.

STA 242—Introduction to Statistical Programming (4)

Lecture—3 hour(s); Laboratory—1 hour(s). Prerequisite(s): STA 130A; STA 130B; or equivalent of STA 130A and STA 130B. Essentials of statistical computing using a general-purpose statistical language. Topics include algorithms; design; debugging and efficiency; object-oriented concepts; model specification and fitting; statistical visualization; data and text processing; databases; computer systems and platforms; comparison of scientific programming languages. Effective: 2009 Winter Quarter.

STA 243—Computational Statistics (4)

Lecture—3 hour(s); Laboratory—1 hour(s). Prerequisite(s): (STA 130A, STA 130B); (MAT 067 or MAT 167); Or equivalent of STA 130A and 130B, or equivalent of MAT 167 or MAT 067. Numerical analysis; random number generation; computer experiments and resampling techniques (bootstrap, cross validation); numerical optimization; matrix decompositions and linear algebra computations; algorithms (markov chain monte carlo, expectation-maximization); algorithm design and efficiency; parallel and distributed computing. Effective: 2009 Winter Quarter.

STA 250—Topics in Applied & Computational Statistics (4)

Lecture—3 hour(s); Discussion/Laboratory—1 hour(s). Prerequisite(s): STA 131A; STA 232A recommended, not required. Resampling, nonparametric and semiparametric methods, incomplete data analysis, diagnostics, multivariate and time series analysis, applied Bayesian methods, sequential analysis and quality control, categorical data analysis, spatial and image analysis, computational biology, functional data analysis, models for correlated data, learning theory. May be repeated for credit with consent of graduate advisor. Effective: 2006 Spring Quarter.

STA 251—Topics in Statistical Methods & Models (4)

Lecture—3 hour(s); Discussion—1 hour(s). Prerequisite(s): STA 231B; Or the equivalent of STA 231B. Topics may include Bayesian analysis, nonparametric and semiparametric regression, sequential analysis, bootstrap, statistical methods in high dimensions, reliability, spatial processes, inference for stochastic process, stochastic methods in finance, empirical processes, change-point problems, asymptotics for parametric, nonparametric and semiparametric models, nonlinear time series, robustness. May be repeated for credit when topic differs and only with consent of graduate advisor. Effective: 2002 Fall Quarter.

STA 252—Advanced Topics in Biostatistics (4)

Lecture—3 hour(s); Discussion/Laboratory—1 hour(s). Prerequisite(s): (STA 222 or BST 222); (STA 223 or BST 223). Biostatistical methods and models selected from the following: genetics, bioinformatics and genomics; longitudinal or functional data; clinical trials and experimental design; analysis of environmental data; dose-response, nutrition and toxicology; survival analysis; observational studies and epidemiology; computer-intensive or Bayesian methods in biostatistics. May be repeated for credit when topic differs and only with consent of graduate advisor. (Same course as BST 252.) Effective: 2002 Fall Quarter.

STA 260—Statistical Practice & Data Analysis (3)

Lecture/Discussion—3 hour(s). Prerequisite(s): STA 207 or STA 232B; Working knowledge of advanced statistical software and the equivalent of STA 207 or STA 232B. Open to students enrolled in the graduate program in Statistics or Biostatistics, as the class also serves to provide professional service to clients and collaborators who work with the students. Principles and practice of interdisciplinary collaboration in statistics, statistical consulting, ethical aspects, and basics of data analysis and study design. Emphasis on practical consulting and collaboration of statisticians with clients and scientists under instructor supervision. May be repeated up to 1 time(s). Effective: 2014 Fall Quarter.

STA 280—Orientation to Statistical Research (2)

Seminar—2 hour(s). Prerequisite(s): Consent of Instructor. Guided orientation to original statistical research papers, and oral presentations in class of such papers by students under the supervision of a faculty member. May be repeated up to 1 time(s). (S/U grading only.) Effective: 1999 Spring Quarter.

STA 290—Seminar in Statistics (1-6)

Variable. Prerequisite(s): Consent of Instructor. Seminar on advanced topics in probability and statistics. (S/U grading only.) Effective: 1997 Winter Quarter.

STA 292—Graduate Group in Statistics Seminar (1-2)

Seminar—1-2 hour(s). Prerequisite(s): Consent of Instructor. Graduate standing. Advanced study in various fields of statistics with emphasis in applied topics, presented by members of the Graduate Group in Statistics and other guest speakers. (S/U grading only.) Effective: 1997 Fall Quarter.

STA 298—Directed Group Study (1-5)

Variable—3-15 hour(s). Prerequisite(s): Consent of Instructor. Graduate standing. Special topics in Statistics appropriate for study at the graduate level. May be repeated for credit. Effective: 2004 Spring Quarter.

STA 299—Individual Study (1-12)

Variable. Prerequisite(s): Consent of Instructor. (S/U grading only.) Effective: 1997 Winter Quarter.

STA 299D—Dissertation Research (1-12)

Variable—3-36 hour(s). Prerequisite(s): Consent of Instructor. Advancement to candidacy for Ph.D. Research in Statistics under the supervision of major professor. May be repeated for credit. (S/U grading only.) Effective: 2004 Spring Quarter.

STA 390—Methods of Teaching Statistics (2)

Lecture/Discussion—1 hour(s); Laboratory—1 hour(s). Prerequisite(s): Graduate standing. Practical experience in methods/problems of teaching statistics at university undergraduate level. Lecturing techniques, analysis of tests and supporting material, preparation and grading of examinations, and use of statistical software. Emphasis on practical training. May be repeated for credit. (S/U grading only.) Effective: 2004 Spring Quarter.

STA 396—Teaching Assistant Training Practicum (1-4)

Variable. Prerequisite(s): Consent of Instructor. Graduate standing. May be repeated for credit. (P/NP grading only.) Effective: 1997 Winter Quarter.

STA 401—Methods in Statistical Consulting (3)

Lecture—3 hour(s); Discussion—1 hour(s). Students must be enrolled in the graduate program in Statistics or Biostatistics. Introduction to consulting, in-class consulting as a group, statistical consulting with clients, and in-class discussion of consulting problems. Clients are drawn from a pool of University clients. May be repeated for credit with consent of graduate advisor. (S/U grading only.) Effective: 2006 Spring Quarter.

STH—Social Theory & Comparative History

Courses in STH:

STH 250—Research in Social Theory & Comparative History (4)

Seminar—3 hour(s); Term Paper. Prerequisite(s): Admission to Social Theory & Comparative History Designated Emphasis. Theoretically informed research in comparative history. Students read exemplary works and learn to frame their own research projects. Presentations include Center for History, Society, & Culture faculty and visitors discussing current research. Effective: 1997 Winter Quarter.

STH 290—Advanced Topics in Social Theory & Comparative History (4)

Seminar—3 hour(s); Term Paper. Prerequisite(s): HIS 204 or SOC 242A; and Consent of Instructor. Interdisciplinary study of particular substantive problems in social theory and comparative history. Topics vary. Effective: 1997 Winter Quarter.

STH 295—Advanced Group Research in Social Theory & Comparative History (1)

Discussion—1 hour(s). Prerequisite(s): Consent of Instructor. Participation in research workshops sponsored by the Center for Comparative Research for History, Society, & Culture. May be repeated for credit. (S/U grading only.) Effective: 1997 Winter Quarter.

STH 296—Theory & Society Journal Editorial Workshop (1-4)

Workshop—1 hour(s); Independent Study—3 hour(s). Reading and offering workshop critiques of papers submitted for publication. Reading and discussion of other relevant work in history and the social science. May be repeated up to 36 unit(s) with consent of instructor. (S/U grading only.) Effective: 2000 Fall Quarter.

STS—Science & Technology Studies

Courses in STS:

STS 001—Introduction to Science, Technology & Medicine Studies (4)

Lecture—3 hour(s); Discussion—1 hour(s). History, philosophy, sociology, politics, and cultural studies of science, technology, and medicine. Emphasis on a broad range of perspectives. GE credit: SS, WE. Effective: 1998 Fall Quarter.

STS 002—Introduction to the History of Science & Technology (4)

Lecture—3 hour(s); Discussion—1 hour(s). Introduction to topics and methods of the history of science and technology. Emphasis on understanding the role of science and technology in the modern world through a long-term historical perspective. (Same course as HIS 002.) GE credit: AH, SL, SS, WC, WE. Effective: 2017 Fall Quarter.

STS 011—Science on Trial: Law, Science, & Technology in the United States (4)

Lecture/Discussion—3 hour(s); Term Paper. Relationships among law, technology, and science. Scientific evidence and testimony, biology education, patenting, and sterilization. GE credit: ACGH, SS. Effective: 2018 Spring Quarter.

STS 016—Sex, Science, & Society (4)

Lecture—3 hour(s); Discussion—1 hour(s). Survey of the relationship between sex, science, and society in the history of the modern world. Emphasis on the development of scientific ideas about the human body against broader social, cultural, and political trends and from a global viewpoint. (Same course as HIS 016.) GE credit: AH, DD, SL, WC, WE. Effective: 2019 Fall Quarter.

STS 020—Methods in Science, Technology & Medicine Studies (4)

Lecture/Discussion—3 hour(s); Extensive Writing. Prerequisite(s): STS 001 recommended. Methodological issues concerning the historical, philosophical, sociological, ethical, and political analysis of science, technology, and medicine. Detailed case studies to illustrate different methods of analysis. GE credit: SS, WE. Effective: 1998 Fall Quarter.

STS 032—Drugs, Science & Culture (4)

Lecture—3 hour(s); Discussion—1 hour(s). Drugs, politics, science, society in a cultural perspective: emphasis on roles of science, government and the media in shifting attitudes toward alcohol, marijuana, Prozac and other pharmaceuticals; drug laws, war on drugs and global trade in sugar, opium, cocaine. (Same course as ANT 032.) GE credit: SS, VL, WE. Effective: 2008 Fall Quarter.

STS 040A—Media History 1, Gutenberg to Oppenheimer (4)

Lecture—3 hour(s); Discussion—1 hour(s); Film Viewing—2 hour(s); Extensive Writing. History of Media to 1945, with particular focus on mechanically reproduced mass media technologies including the printing press, the newspaper, photography, cinema, radio and early computing technology. Analysis of inter-related cultural and political topics. (Same course as CTS 040A.) GE credit: AH, OL, SS, VL, WE. Effective: 2014 Fall Quarter.

STS 040B—Media History 2 1945-Present (4)

Lecture—3 hour(s); Discussion—1 hour(s); Film Viewing—2 hour(s); Extensive Writing. Prerequisite(s): STS 040A. History of media from 1945 to present, with particular focus on the development of the computer, digital network and Internet technologies in the context of other media infrastructures like radio, television and satellite networks. Analysis of inter-related cultural/political topics. (Same course as CTS 040B.) GE credit: AH, OL, SS, VL, WE. Effective: 2015 Winter Quarter.

STS 050—Ancient Science (4)

Lecture—3 hour(s); Discussion—1 hour(s). Study of science in ancient Greece and Rome; consideration of its social context; concentration on the basic concepts of physics the world of medicine and biology the history of mathematics and the practices of astronomy astrology and meteorology. (Same course as CLA 050.) GE credit: AH, WC, WE. Effective: 2016 Fall Quarter.

STS 051—Ancient Medicine (4)

Lecture—3 hour(s); Discussion—1 hour(s). Medicine in ancient Greece and Rome; physiological conceptions of the body within scientific and social frameworks; exploration of sanitation technology and health in antiquity; medical treatment of the female body; medicine and the economy. (Same course as CLA 051.) GE credit: AH, WC, WE. Effective: 2016 Winter Quarter.

STS 092—Internship (1-12)

Internship—3-36 hour(s). Prerequisite(s): Consent of Instructor. Work experience off and on campus in all subject areas offered in the program in Science & Technology Studies under the supervision of a member of the faculty. May be repeated up to 12 unit(s). (P/NP grading only.) Effective: 2006 Fall Quarter.

STS 098—Directed Group Study (1-5)

Variable—3-15 hour(s). Prerequisite(s): Consent of Instructor. May be repeated for credit. (P/NP grading only.) GE credit: SS. Effective: 2006 Fall Quarter.

STS 099—Special Study for Undergraduates (1-5)

Variable—3-15 hour(s). (P/NP grading only.) Effective: 2006 Fall Quarter.

STS 101—Introduction to Data Studies (4)

Lecture/Discussion—4 hour(s). Introduction to basic data science concepts, defining problems, clarifying questions, identifying stakeholders, caring for and cleaning data, interviewing techniques, structuring presentations, use of Excel for data problems. GE credit: SS. Effective: 2017 Spring Quarter.

STS 108—Intellectual Property in Science (4)

Lecture/Discussion—4 hour(s). Prerequisite(s): STS 001; Or other Social Science or Humanities writing course. Historical and conceptual framework for contemporary debates about intellectual property and science. Topics include U.S. patent system and copyright law, interaction between patents and industrial policy, credit in academic and industrial science, role of IP in global knowledge politics. GE credit: ACGH, SS, WE. Effective: 2011 Spring Quarter.

STS 109—Visualization in Science: A Critical Introduction (4)

Lecture—3 hour(s); Extensive Writing/Discussion—1 hour(s). Prerequisite(s): STS 001 or STS 020 or ANT 002 recommended. Anthropological approaches to scientific visualization techniques, informatics, simulations. Examination of different visualization techniques toward understanding the work involved in producing them, critical assessment of their power and limits, especially when visualizations are used socially to make claims. (Same course as ANT 109.) GE credit: SS, VL, WE. Effective: 2016 Fall Quarter.

STS 110—Computing, Data, & Law in the United States (4)

Lecture/Discussion—3 hour(s); Term Paper. Introduction to the problems in American law and policy borne out of the creation and use of information technologies. Topics include intellectual property, corporate law, privacy, and emerging problems surrounding big data. GE credit: ACGH, SS, WE. Effective: 2018 Winter Quarter.

STS 112—Visualizing Society with Data (4)

Lecture/Lab—3 hour(s); Term Paper. Analysis and visualization of historical and contemporary data about populations and societies using R. Critical exploration of visual communication of information about people over time and critical assessment of role of data collection and analysis in societies. GE credit: DD, QL, SS. Effective: 2018 Winter Quarter.

STS 113—Business & Technology in the United States: From Electricity to E-Commerce (4)

Lecture/Discussion—3 hour(s); Term Paper. Historical introduction to the joint development of business and technology in the United States from the late-19th century to the present day. GE credit: ACGH, SS, WE. Effective: 2018 Spring Quarter.

STS 114—The Global Information Age (4)

Lecture/Discussion—3 hour(s); Term Paper. Introduction to the global spread of information technologies like computers and smartphones. Special focus on their social, cultural, and commercial impact. GE credit: SS, WC, WE. Effective: 2019 Spring Quarter.

STS 115—Data Sense & Exploration: Critical Storytelling with Analysis (4)

Lecture/Discussion—3 hour(s); Discussion/Laboratory—1 hour(s). Data science and the communication of data insights through critical storytelling. Attention to the historical and social contexts of data analysis, emphasizing narrative, visualization, and exploration. Introduction to the R computing environment for data analysis. GE credit: OL. Effective: 2018 Fall Quarter.

STS 120—Religion, Magic & Science (4)

Lecture—3 hour(s); Extensive Writing. Religion, magic, and science from the middle ages to the present. Contrast between modern scientific methodology and religious and magical thinking. (Same course as RST 120.) GE credit: AH, OL, VL, WC. Effective: 2005 Fall Quarter.

STS 121—Special Topics in Medical Anthropology (4)

Lecture/Discussion—4 hour(s). Prerequisite(s): ANT 002 recommended. Introduction to critical medical anthropology. Topics include anthropological analysis of bio-medicine, psychiatry, systems of knowledge and healing, the body, emotions, and clinical encounters in a cross-cultural perspective. (Same course as ANT 121.) GE credit: SS, WC, WE. Effective: 2016 Fall Quarter.

STS 122—Health & Medical Technologies (4)

Lecture/Discussion—3 hour(s); Term Paper. Critical/historical examination of medical technologies: imaging, pharmaceuticals, genetics, implants/devices. Exploration of mutually constitutive relationship between health, medical technologies, social difference (race/gender/class/sexuality). GE credit: DD, SS. Effective: 2018 Winter Quarter.

STS 129—Health & Medicine in a Global Context (4)

Lecture/Discussion—3 hour(s); Term Paper. Prerequisite(s): ANT 002 recommended. Recent works in medical anthropology and the science studies of medicine dealing with social and cultural aspects of global health issues such as AIDS, pandemics, clinical trials, cultural differences in illnesses, diabetes, organ trafficking, medical technologies, illness narratives, and others. (Same course as ANT 129.) GE credit: SS, WC, WE. Effective: 2016 Fall Quarter.

STS 130A—From Natural History to the History of Nature (4)

Lecture/Discussion—3 hour(s); Term Paper. Prerequisite(s): HIS 135A recommended. Evolution and demise of natural history as a discipline from Aristotle to Linnaeus. Considers ancient views of nature and its Renaissance rediscovery; the emergence of biology, botany, geology, and zoology; the history of taxonomy and classification. GE credit: AH, SE, WE. Effective: 1997 Winter Quarter.

STS 130B—History of Modern Biology (4)

Lecture/Discussion—3 hour(s); Term Paper. Prerequisite(s): STS 130A recommended. Development of modern biology from pre-Darwinian roots to the present. Considers emergence of modern biological specialities and consolidation of biological theory around evolutionary ideas. History of allied fields such as genetics, paleontology, embryology, ecology, systematics and molecular biology. GE credit: AH, SE, WE. Effective: 1997 Winter Quarter.

STS 131—Darwin (4)

Lecture—3 hour(s); Term Paper. Prerequisite(s): Upper division standing or consent of instructor. Students will explore the life and times of Charles Darwin and will trace the development of evolutionary thinking before and after the Origin of Species to appreciate its place in Victorian society and in the corpus of Darwins thought. GE credit: AH, SE, WE. Effective: 1997 Winter Quarter.

STS 150—Gender & Science (4)

Lecture/Discussion—3 hour(s); Term Paper. Interdisciplinary approach to the relations between gender and science. Topics include the biological and cultural construction of sexual difference, the role of women as practitioners of science, and feminist approaches to science. GE credit: ACGH, DD, SS, WE. Effective: 1997 Winter Quarter.

STS 151—Media Theory (5)

Lecture—2 hour(s); Discussion—1 hour(s); Film Viewing—3 hour(s); Extensive Writing. Critical and theoretical approaches to the emergence of new technologies since the invention of photography. Examine various approaches to media (formalist, semiotic, structuralist, Frankfurt School, cybernetics, visual and gamer theory). (Same course as CTS 150.) GE credit: AH, OL, SS, VL, WE. Effective: 2014 Fall Quarter.

STS 152—Sounding Data: Critical Approaches to Sonification (4)

Lecture/Discussion—3 hour(s); Term Paper/Discussion. Critical and creative approaches to auditory data and display in art, science, and technology. Practical introduction to sonification techniques through sound studies and sensory ethnography. Heuristic listening and collaborative sound design. GE credit: SS, WE. Effective: 2017 Spring Quarter.

STS 160—Ghosts of the Machine: How Technology Rewires our Senses (4)

Lecture—3 hour(s); Extensive Writing/Discussion—1 hour(s). Historical, aesthetic and critical approaches to how information technologies produced ghost effects or a sense of terror in response to new media like the photograph, gramophone, film, typewriter, computer, Turing Machine. Focus on technological media transforms sense perception. (Same course as TCS 160.) GE credit: ACGH, AH, SS, VL, WE. Effective: 2013 Fall Quarter.

STS 161—Time: Mechanism & Measurement (4)

Lecture/Discussion—3 hour(s); Term Paper. Prerequisite(s): STS 001. Cultural concepts of time; units and instruments of time measurement; historical differences in the social organization of time; and time measurement in 20th-century science. GE credit: SS, WE. Effective: 2005 Fall Quarter.

STS 162—Surveillance Technologies & Social Media (4)

Lecture—3 hour(s); Film Viewing—3 hour(s); Term Paper. Prerequisite(s): STS 020 or TCS 001. Study of the ubiquitous presence of CCTV, face recognition software, global tracking systems, biosensors, and data mining practices that have made surveillance part of our daily life. Exploration of the boundary between security and control, information and spying. (Same course as CTS 162.) GE credit: ACGH, AH, OL, SS, VL, WE. Effective: 2015 Winter Quarter.

STS 163—History of Communication Technologies (4)

Lecture/Discussion—3 hour(s); Term Paper. History of communication technologies from the late Middle Ages to the 20th century. Questions of technology, knowledge, power and culture. Particular attention to questions about information and truth. GE credit: SS, WE. Effective: 2005 Fall Quarter.

STS 164—Writing Science (4)

Lecture/Discussion—3 hour(s); Extensive Writing. Prerequisite(s): STS 001 or ENL 003; Or equivalent. Texts and writing practices in the production of scientific knowledge. Surveys the literary structure of scientific arguments; history of scientific genres; rhetoric and semiotics in scientific culture; graphical systems in the experimental laboratory; narratives of science, including science fiction. (Same course as ENL 164.) GE credit: AH, SL, WE. Effective: 2011 Fall Quarter.

STS 165—Built Environments (4)

Lecture—3 hour(s); Extensive Writing. Built environments, which are designed to support forms of life. Their role as carriers of cultural memory and in turning knowledge of nature into social assets. Historical constellations of knowledge, social order, and power. GE credit: SS. Effective: 2005 Spring Quarter.

STS 172—Video Games & Culture (4)

Lecture—3 hour(s); Extensive Writing/Discussion—1 hour(s). Prerequisite(s): STS 001 or TCS 001 or ENL 003; Or equivalent of any. Critical approaches to the study of video games, focusing on formal, historical, and cultural modes of analysis. History of software and hardware in North American and global contexts. Relations of games to society, politics, economics, literature, media, and the arts. (Same course as CTS 172, ENL 172.) GE credit: ACGH, AH, SS, VL. Effective: 2014 Fall Quarter.

STS 173—Science Fiction (4)

Lecture/Discussion—3 hour(s); Extensive Writing. Prerequisite(s): STS 001 or ENL 003; Or equivalent. The literary modes and methods of science fiction. Representative texts, authors, and themes of the genre; e.g., time travel, alternative universes, and utopias. Relations of science fiction to science, philosophy, and culture. (Same course as ENL 173.) GE credit: AH, WE. Effective: 2008 Winter Quarter.

STS 175—Laboratory Studies Lab (4)

Discussion/Laboratory—4 hour(s). Prerequisite(s): Upper division standing or consent of instructor. Hands-on training in Science & Technology Studies fieldwork, interviewing, archival research and data analysis. Review of laboratory studies literature, informed consent procedures, ethics, and care of the data. Individual and group projects possible. GE credit: SS, WE. Effective: 2011 Fall Quarter.

STS 176—Sociology of Knowledge, Science, & Scientific Knowledge (4)

Lecture—3 hour(s); Term Paper/Discussion—1 hour(s). Prerequisite(s): SOC 001, SOC 002, or SOC 003 recommended. Social, cultural, and historical dimensions of knowledge, especially scientific knowledge. Problems, methods, and theory in sociology of scientific knowledge. Laboratory and historical case studies. Scientific and technical knowledge in institutional and organizational contexts. (Same course as SOC 176.) GE credit: SS. Effective: 2016 Fall Quarter.

STS 180—Topics in Science & Technology Studies (4)

Term Paper; Seminar—3 hour(s). Prerequisite(s): Course in Science & Technology Studies (STS) or other coursework relevant to topic. In-depth treatment of selected topics in anthropology, history, philosophy, and sociology of science and related fields. Possible topics include science and society, science and power, scientific explanation, technology and culture, theory testing. May be repeated for credit when content varies. GE credit: SS. Effective: 2018 Fall Quarter.

STS 190—Seminar in Science, Technology & Medicine Studies (4)

Lecture/Discussion—3 hour(s); Term Paper. Prerequisite(s): Open to junior and senior Science & Technology Studies majors only. Intensive reading, discussion, research and writing by small groups in selected topics of science, technology, and medicine studies scholarship. Emphasis on individual research projects. Effective: 1998 Fall Quarter.

STS 192—Internship (1-12)

Internship—3-36 hour(s). Prerequisite(s): Consent of Instructor. Work experience off and on campus in all subject areas offered in the program in Science & Technology Studies under the supervision of a member of the faculty. May be repeated up to 3 time(s) up to 12 units. (P/NP grading only.) Effective: 2006 Fall Quarter.

STS 195—Research in Data Studies (4)

Lecture/Discussion—3 hour(s); Discussion/Laboratory—1 hour(s). Prerequisite(s): STS 101; or Consent of Instructor. Analysis of real-world data in the form of case studies engaging current issues. Emphasizes teamwork in the identification of problems and sources of relevant data; data cleaning, exploration, analysis, and visualization using R; and interpretation and presentation of results to a variety of stakeholders in oral, visual, and textual formats. GE credit: SS. Effective: 2020 Winter Quarter.

STS 198—Directed Group Study (1-5)

Variable. Prerequisite(s): Consent of Instructor. (P/NP grading only.) Effective: 1997 Winter Quarter.

STS 199—Special Study for Advanced Undergraduates (1-5)

Variable. Prerequisite(s): Consent of Instructor. (P/NP grading only.) Effective: 1997 Winter Quarter.

STS 200—Theories & Methods in Science & Technology Studies (4)

Seminar—3 hour(s); Term Paper. Theories and methods of Science & Technology Studies as a field of critical and empirical scholarship, and examination of various contexts in which STS has emerged worldwide. May be repeated up to 1 time(s) with consent of instructor. Effective: 2014 Fall Quarter.

STS 205—Contemporary Issues in Science & Technology Studies (4)

Discussion—3 hour(s); Term Paper. Recent topics, debates, and innovative methods in Science & Technology Studies. Issues may include the governance of technoscience, science and media, data studies, indigenous knowledge, science and globalization, citizen science, new and emerging technologies. May be repeated for credit when topic differs. Effective: 2019 Winter Quarter.

STS 210—Digital Technologies: History & Theory (4)

Discussion—3 hour(s); Term Paper. Introduction to the history and theory of digital technologies. Human-machine interaction, cybernetics, software studies, and global networking. Effective: 2018 Spring Quarter.

STS 250—History & Philosophy of Science (4)

Seminar—3 hour(s); Term Paper. Prerequisite(s): Graduate standing or consent of instructor. Interdisciplinary seminar in the history and philosophy of science. Focuses on issues such as historiography, methodology, and the conceptual foundations of science. May be repeated for credit with consent of instructor. Effective: 1997 Winter Quarter.

STS 298—Group Study (1-5)

Variable. Prerequisite(s): Consent of Instructor. (S/U grading only.) Effective: 1997 Winter Quarter.

STS 299—Research (1-12)

Variable. Prerequisite(s): Consent of Instructor. (S/U grading only.) Effective: 1997 Winter Quarter.

STS 396—Teaching Assistant Training Practicum (1-4)

Variable. Prerequisite(s): Graduate standing. May be repeated for credit. (P/NP grading only.) Effective: 1997 Winter Quarter.

SUR—Surgery

Courses in SUR:**SUR 099—Cardiovascular Tissue Engineering Research (1-5)**

Laboratory—3-15 hour(s). Multidisciplinary research in cardiovascular tissue engineering and regeneration for acquired and congenital cardiovascular disease. Effective: 2011 Summer Session 1.

SUR 192—Internship in General Surgery (1-12)

Internship—3-36 hour(s). Prerequisite(s): Consent of Instructor. Upper division standing; approval of project prior to period of internship by preceptor. Supervised work experience in general surgery and related fields. (P/NP grading only.) Effective: 1997 Winter Quarter.

SUR 199—Special Study in General Surgery for Advanced Undergraduates (1-5)

Variable. Prerequisite(s): Advanced undergraduate student with consent of instructor. (P/NP grading only.) Effective: 1997 Winter Quarter.

SUR 299—Research (1-12)

Variable. Prerequisite(s): Consent of Instructor. Graduate standing. (S/U grading only.) Effective: 1997 Winter Quarter.

SUR 430—Surgery Clerkship (3-12)

Clinical Activity—45 hour(s). Prerequisite(s): Approval by School of Medicine Committee on Student Progress. Eight week general surgery clerkship includes GI, Burn, Oncology, Plastics, Vascular Cardiothoracic, consult, transplant and trauma. Clerkship assignments are at UCDMC. Daily core material presentations and reading assignments. Student involvement includes work-up and care of surgical patients. (H/P/F grading only.) Effective: 2020 Spring Quarter.

SUR 430F—SJVP Surgery Clerkship at UCSF (6-12)

Clinical Activity—45 hour(s). Prerequisite(s): Approval by School of Medicine Committee on Student Progress. General surgery clerkship includes GI, Burn, Oncology, Plastics, Vascular Cardiothoracic, consult, transplant and trauma. Clerkship assignments are at UCSF Fresno. Student involvement includes work-up and care of surgical patients. (H/P/F grading only.) Effective: 2017 Winter Quarter.

SUR 430R—Rural PRIME Surgery Longitudinal Clerkship (2)

Clinical Activity—45 hour(s). Prerequisite(s): Consent of Instructor. Surgery Longitudinal Integrated Clerkship for the Rural PRIME Program. (H/P/F grading only.) Effective: 2017 Spring Quarter.

SUR 430RA—Rural PRIME Surgery Longitudinal Clerkship (3)

Clinical Activity—45 hour(s). Prerequisite(s): Consent of Instructor. Surgery Longitudinal Integrated Clerkship for the Rural PRIME Program. (H/P/F grading only.) Effective: 2017 Spring Quarter.

SUR 430RB—Rural PRIME Surgery Longitudinal Clerkship (3)

Clinical Activity—45 hour(s). Prerequisite(s): Consent of Instructor. Surgery Longitudinal Integrated Clerkship for the Rural PRIME Program. (H/P/F grading only.) Effective: 2017 Spring Quarter.

SUR 430RC—Rural PRIME Surgery Longitudinal Clerkship (3)

Clinical Activity—45 hour(s). Prerequisite(s): Consent of Instructor. Surgery Longitudinal Integrated Clerkship for the Rural PRIME Program. (H/P/F grading only.) Effective: 2017 Spring Quarter.

SUR 430RD—Rural PRIME Surgery Longitudinal Clerkship (1)

Clinical Activity—45 hour(s). Prerequisite(s): Consent of Instructor. Surgery Longitudinal Integrated Clerkship for the Rural PRIME Program. (H/P/F grading only.) Effective: 2017 Spring Quarter.

SUR 439D—Directed Clinical Studies in Surgery (1-12)

Clinical Activity—40 hour(s). Prerequisite(s): Consent of Instructor. Partial completion of a Clinical Rotation. Individual directed studies in extended preparation for modified curriculum or to complete a clinical rotation following a leave of absence. May be repeated for credit. (P/F grading only.) Effective: 2011 Spring Quarter.

SUR 439R—Directed Studies in Surgery (1-12)

Clinical Activity—30 hour(s); Independent Study—10 hour(s). Prerequisite(s): Consent of Instructor. Individual directed studies in extended preparation for remediation of all or part of clinical rotation. Clinical studies to accommodate and satisfy remedial work as directed by the Committee on Student Progress and approved by the course IOR. May be repeated for credit. (P/F grading only.) Effective: 2011 Summer Quarter.

SUR 450—Surgical Skills Boot Camp (3-6)

Workshop—10 hour(s); Independent Study—30 hour(s). Prerequisite(s): Consent of Instructor. Goal of the surgical skills boot camp didactic is to enable students to demonstrate competence in basic surgical skills and theory, using analytical thinking and hands-on simulation. May be repeated for credit. (H/P/F grading only.) Effective: 2015 Spring Quarter.

SUR 461—Surgery Burn Unit Clerkship (6-18)

Clinical Activity. Prerequisite(s): SUR 430; and Consent of Instructor. Fourth-year medical student or third-year medical student. Rotation through Surgery Specialty Clinics:Vascular, GI, GU, Thoracic, Plastic, Radiotherapy. Student works up one new and two return visit patients. Presents consult to on-site faculty. Weekly review with preceptor and course director. Reading assignments to add perspective for in-depth discussions. (H/P/F grading only.) Effective: 1997 Winter Quarter.

SUR 462—Surgery Trauma Service Clerkship (6-9)

Clinical Activity. Prerequisite(s): SUR 430; and Consent of Instructor. Fourth-year medical student, or third-year medical student. Student works as an extern on one of the two general surgery Trauma teams, participating in resuscitation and management of critically injured patients. Team hours consist of 24 hours on, and 24 hours off. (H/P/F grading only.) Effective: 1997 Winter Quarter.

SUR 463—Surgery Intensive Care Unit (6-9)

Clinical Activity. Prerequisite(s): SUR 430; and Consent of Instructor. Fourth-year medical student, or third-year medical student. Student participates in direct supervision of critically ill surgical patients in a twelve-bed surgery ICU. Each student is closely supervised. Provides in-depth experience with management of critically ill patients. (H/P/F grading only.) Effective: 1997 Winter Quarter.

SUR 466—Clinical Plastic Surgery Elective (3-9)

Clinical Activity—50 hour(s). Prerequisite(s): SUR 430; and Consent of Instructor. Third- or fourth-year medical students. Total involvement in patient care involving surgical preparation, treatment, operative care, and follow-up. Developing and understanding reconstruction and aesthetic plastic surgery. Microvascular surgery included. Student rotation. (H/P/F grading only.) Effective: 2014 Fall Quarter.

SUR 467—Surgical Oncology (3-9)

Clinical Activity. Prerequisite(s): SUR 430; and Consent of Instructor. Fourth-year medical student, or third-year medical student. Students actively participate in management of patients requiring surgery for cancer, endocrine disease and selected general surgical problems. Cases include malignant melanoma, sarcomas, gastrointestinal cancer, head and neck pathology, and metastatic malignancies. Attending rounds daily. Four teaching conferences weekly. (H/P/F grading only.) Effective: 1997 Winter Quarter.

SUR 468—Cardiothoracic Surgery Clerkship (6-9)

Clinical Activity. Prerequisite(s): SUR 430; and Consent of Instructor. Fourth-year medical student, or third-year medical student. Student works as an extern on the Cardiothoracic Surgical Service, participating in perioperative management and operations on the heart, lungs, mediastinum, and other thoracic structures. Regularly scheduled teaching conferences are conducted. (H/P/F grading only.) Effective: 1997 Winter Quarter.

SUR 471—Gastrointestinal Surgery (3-9)

Clinical Activity. Prerequisite(s): SUR 430; IMD 430; PED 430; and Consent of Instructor. Fourth-year medical student or third-year medical student. Student participates on the GI Surgery Service, working under the immediate supervision of the faculty and surgical housestaff, involving the full spectrum of gastrointestinal diseases performed by the medical student. (H/P/F grading only.) Effective: 1997 Winter Quarter.

SUR 472—Vascular Surgery (3-9)

Clinical Activity. Prerequisite(s): SUR 430; IMD 430; PED 430; and Consent of Instructor. Fourth-year medical student or third-year medical student. Student participates on the vascular surgery service and in the management and operations of arterial and venous system, exclusive of diseases that require cardiopulmonary bypass for treatment. Includes patient care responsibilities with appropriate supervision. (H/P/F grading only.) Effective: 1997 Winter Quarter.

SUR 474—Colorectal Surgery (3-6)

Clinical Activity. Prerequisite(s): Consent of Instructor. Fourth-year medical student. Students actively participate in clinic and the operating room on colon and rectal patients. This includes medical and surgical management. Assignments involve work up and care of the surgical patients. May be repeated for credit. (H/P/F grading only.) Effective: 2018 Spring Quarter.

SUR 475—Pediatric Surgery (6-9)

Clinical Activity—4-6 hour(s). Prerequisite(s): SUR 430; and Consent of Instructor. Fourth-year medical student or third-year medical student. Care of patients with neonatal congenital surgical problems. Fluid and electrolyte management in infants. General experience with acquired surgical diseases in children. (H/P/F grading only.) Effective: 1998 Fall Quarter.

SUR 476—Surgical Consult Service (6-9)

Clinical Activity. Prerequisite(s): SUR 430; and Consent of Instructor. Fourth-year medical student or third-year medical student. Students function as acting interns working in parallel with the interns on the service. They consult on all non-trauma patients in the emergency room and on the wards and also participate in the operating room. (H/P/F grading only.) Effective: 1998 Fall Quarter.

SUR 477—Clinically Oriented Anatomy (3)

Clinical Activity—40 hour(s). Prerequisite(s): Completion of three years of medical school. Restricted to fourth-year medical student only. Anatomy of selected regions of the body using cadaver dissection, prosections and interactive CD ROMs. Anatomical relationships relevant to common surgical procedures. Surgical and interventional radiology procedures. (P/NP grading only.) Effective: 2002 Winter Quarter.

SUR 478—Surgical Preceptorship: Off Campus (3-18)

Clinical Activity—60 hour(s). Prerequisite(s): Consent of Instructor. Fourth-year medical student. Student participates in the preoperative, operative and postoperative care of surgical patients under the supervision of attending staff. (H/P/F grading only.) Effective: 2014 Fall Quarter.

SUR 480—Insights in Surgery (1-3)

Clinical Activity—3-9 hour(s). Prerequisite(s): Consent of Instructor. Medical student in good academic standing. Individualized activities, including ward rounds, subspecialty clinics and conferences, grand rounds, and observation of a variety of surgical procedures. (H/P/F grading only.) Effective: 1997 Winter Quarter.

SUR 481—Interactive Clinical Case Presentation (ICCP) (3)

Clinical Activity—1 hour(s). Prerequisite(s): Fourth-year medical students; however, course is open for third- and fourth-year student observers. Course taught as one session (4 hours) per month for three quarters (July to March); students who enroll can earn up to three credits and the minimum requirements will be to attend at least six sessions; students can do all nine sessions and work toward an honor; for the written part students will have to pick two of the nine case presentations and write a detailed paper with a literature review on “The Current management” of that disease-this can in fact be a manuscript submitted for publication with a faculty member as an advisor; maximum of 10-15 students in good standing. Case presentation of common clinical scenarios (i.e. chestpain/MI; fever/pneumonia; abdo pain/cholecystitis, etc.) from various disciplines held in an auditorium with real patients exposure. Interactive session to review history, physical findings and case management. Students will be asked to perform H&P. (H/P/F grading only.) Effective: 2007 Summer Quarter.

SUR 493B—Critically Ill Surgical Patients SSM (6)

Lecture—5 hour(s); Lecture/Lab—10 hour(s); Laboratory—16 hour(s); Clinical Activity—4 hour(s). Prerequisite(s): Consent of Instructor. Restricted to UC Davis School of Medicine students only. Special Study Module, a four-week course on the topic: Application of Basic Cardiopulmonary Physiology to Problems Encountered in Critically Ill Surgical Patients. (H/P/F grading only.) Effective: 2007 Spring Quarter.

SUR 493C—Physiological Principles in SICU SSM (6)

Lecture—5 hour(s); Lecture/Lab—10 hour(s); Laboratory—16 hour(s); Clinical Activity—4 hour(s). Prerequisite(s): Consent of Instructor. Restricted to UC Davis School of Medicine students only. Special Study Module, a four-week course on the topic: Care of the Critically Ill Surgical Patient: Use of Physiological Principles to Guide Treatment of Patients with Common Surgical Problems. (Same course as HPH 493.) (H/P/F grading only.) Effective: 2007 Spring Quarter.

SUR 493D—Interdisciplinary Study of Gastrointestinal Cancer (6)

Lecture—5 hour(s); Clinical Activity—12 hour(s); Laboratory—3 hour(s); Discussion/Laboratory—20 hour(s). Prerequisite(s): Consent of Instructor. In-depth study of gastrointestinal, hepatic and pancreatic cancer. Emphasis on an integration of basic science and clinical medicine. Participating departments include pathology, surgical oncology, medical oncology, gastroenterology, radiology and radiotherapy. (Same course as PMD 493.) (H/P/F grading only.) Effective: 2012 Summer Quarter.

SUR 494H—Fourth-Year Surgical Honors Program (18)

Variable. Prerequisite(s): SUR 430; and Consent of Instructor. Completion of third year of medical school with superior performance on SUR 430. To provide intensive and comprehensive training in surgery to students interested in a postgraduate surgical career, that would enable them to succeed during the internship and residency training. (H/P/F grading only.) Effective: 1997 Winter Quarter.

SUR 495—Intense Introduction to Cardiac Surgery (3)

Clinical Activity—16 hour(s); Lecture/Discussion—4 hour(s). Prerequisite(s): Consent of Instructor. Restricted to between first- and second-year medical student; 100% mandatory attendance. Close contact with vascular surgeon for two-week period. Includes Sunday mornings. Physiology of going on and off cardiopulmonary bypass. Atherosclerotic cardiovascular disease, structural and valvular heart disease and electrical and rhythmic heart disease. May be repeated up to 1 time(s). (P/F grading only.) Effective: 2009 Spring Quarter.

SUR 498—Group Study (1-5)

Variable. Prerequisite(s): Consent of Instructor. Medical student. Directed reading and discussion and/or laboratory investigation on selected topics. (H/P/F grading only.) Effective: 1997 Winter Quarter.

SUR 499—Laboratory Research (1-12)

Laboratory—3-36 hour(s). Prerequisite(s): Consent of Instructor. Completion of second year of medical school. Laboratory research on surgically related problems. Participation in projects to include the following: burn, nutrition, oncology, transplant and others. May be repeated for credit. (H/P/F grading only.) Effective: 2017 Fall Quarter.

TCS—Technocultural Studies

Courses in TCS:

TCS 007A—Technocultural Workshop: Digital Imaging (1)

Seminar—1 hour(s). Workshops in technocultural digital skills; Digital Imaging. GE credit: VL. Effective: 2012 Fall Quarter.

TCS 007B—Technocultural Workshop: Digital Video (1)

Seminar—1 hour(s). Workshops in technocultural digital skills; Digital Video. GE credit: VL. Effective: 2012 Fall Quarter.

TCS 007C—Technocultural Workshop: Digital Sound (1)

Seminar—1 hour(s). Workshops in technocultural digital skills; Digital Sound. GE credit: VL. Effective: 2012 Fall Quarter.

TCS 007D—Technocultural Workshop: Web Design (1)

Seminar—1 hour(s). Workshops in technocultural digital skills; Web Design. GE credit: VL. Effective: 2012 Fall Quarter.

TCS 007E—Technocultural Workshop: Topics in Digital Production (1)

Seminar—1 hour(s). Workshops in technocultural digital skills; Topics in Digital Production. May be repeated for credit. GE credit: VL. Effective: 2012 Fall Quarter.

TCS 104—Documentary Production (4)

Lecture/Discussion—3 hour(s); Project (Term Project). Prerequisite(s): TCS 007B; TCS 155; Or equivalent proficiency to TCS 007B. Traditional and new forms of documentary, with focus on technocultural issues. Skills and strategies for producing work in various media. Progression through all stages of production, from conception through post-production to critique. GE credit: VL. Effective: 2012 Fall Quarter.

TCS 112—New Radio Features & Documentary (4)

Lecture/Discussion—3 hour(s); Laboratory—3 hour(s). New feature and documentary production for radio and other audiophonic media, including audio streaming websites and installation. Emphasis on new and experimental approaches to audio production for broadcast on community radio and in international arts programming. Effective: 2012 Fall Quarter.

TCS 120—History of Sound in the Arts (4)

Lecture—3 hour(s); Term Paper. Prerequisite(s): TCS 001. A survey of the use of sound, voice, noise, and modes of listening in the modernist, avante-garde, and experimental arts, from the late-19th century to the present. Focus on audiophonic and audiovisual technologies. Effective: 2012 Fall Quarter.

TCS 150—Introduction to Theories of the Technoculture (4)

Lecture/Discussion—3 hour(s); Extensive Writing. Major cultural theories of technology with emphasis on media, communications, and the arts. Changing relationships between technologies, humans, and culture. Focus on the evolution of modern technologies and their reception within popular and applied contexts. GE credit: VL. Effective: 2012 Fall Quarter.

TCS 152—New Trends in Technocultural Arts (4)

Lecture/Discussion—3 hour(s); Term Paper. Current work at the intersection of the arts, culture, science, and technology including biological and medical sciences, computer science and communications, and artificial intelligence and digital media. GE credit: VL. Effective: 2012 Fall Quarter.

TCS 153—Concepts of Innovative Soundtracks (4)

Lecture/Discussion—3 hour(s); Term Paper. Innovative and unconventional soundtracks in cinema, media arts, and fine arts. Introduction to basic analytical skills for understanding sound-image relationships. Effective: 2012 Fall Quarter.

TCS 154—Outsider Machines (4)

Lecture/Discussion—3 hour(s); Term Paper. Invention, adaptation and use of technologies outside the mainstream, commonsense, and the possible. Topics include machines as metaphor and embodied thought, eccentric customizing and and fictional technologies. GE credit: VL. Effective: 2012 Fall Quarter.

TCS 155—Introduction to Documentary Studies (4)

Lecture/Discussion—3 hour(s); Term Paper. Recent evolution of the documentary. The personal essay film; found-footage/appropriation work; non-linear, multi-media forms; spoken word; storytelling; oral history recordings; and other examples of documentary expression. GE credit: ACGH, AH, DD, VL. Effective: 2012 Fall Quarter.

TCS 159—Media Subcultures (4)

Lecture/Discussion—3 hour(s); Term Paper. Relationships between subcultural groups and media technologies. Media as the cohesive and persuasive force of subcultural activities. List-servs, websites, free radio, fan 'zines, and hip-hop culture. GE credit: ACGH, VL. Effective: 2012 Fall Quarter.

TCS 160—Ghosts of the Machine: How Technology Rewires our Senses (4)

Lecture—3 hour(s); Extensive Writing/Discussion—1 hour(s). Historical, aesthetic and critical approaches to how information technologies produced ghost effects or a sense of terror in response to new media like the photograph, gramophone, film, typewriter, computer, Turing Machine. Focus on technological media transforms sense perception. (Same course as STS 160.) GE credit: ACGH, AH, SS, VL, WE. Effective: 2013 Fall Quarter.

TCS 170A—Advanced Technocultural Workshop (1)

Seminar—1 hour(s). Prerequisite(s): TCS 007A; Or equivalent. Workshop in advanced technocultural digital skills: Digital Imaging. GE credit: VL. Effective: 2012 Fall Quarter.

TCS 170B—Advanced Technocultural Workshop (1)

Seminar—1 hour(s). Prerequisite(s): TCS 007B; Or equivalent. Workshop in advanced technocultural digital skills: Digital Video. GE credit: VL. Effective: 2012 Fall Quarter.

TCS 170C—Advanced Technocultural Workshop (1)

Seminar—1 hour(s). Prerequisite(s): TCS 007C. Workshop in advanced technocultural digital skills: Digital Sound. GE credit: VL. Effective: 2012 Fall Quarter.

TCS 170D—Advanced Technocultural Workshop (1)

Seminar—1 hour(s). Prerequisite(s): TCS 007D. Workshop in advanced technocultural digital skills: Web Design. GE credit: VL. Effective: 2012 Fall Quarter.

TCS 170E—Advanced Technocultural Workshop (1)

Seminar—1 hour(s). Prerequisite(s): Consent of Instructor. Workshop in advanced technocultural digital skills: Topics in Digital Production. GE credit: VL. Effective: 2012 Fall Quarter.

TCS 175—Small Scale Film Production (4)

Lecture—3 hour(s); Laboratory—3 hour(s). Prerequisite(s): Consent of Instructor. Lecture and intensive workshop teaching small-scale film production. Appointments as a(n) director, director of photography, actor, writer, lighting designer, sound designer and other critical positions are used to produce and submit a short film to a film festival. May be repeated up to 2 time(s). (Same course as DRA 175.) Effective: 2012 Fall Quarter.

TCS 190—Research Methods in Technocultural Studies (4)

Lecture/Discussion—3 hour(s); Project (Term Project). Introduction to basic research methods for Technocultural Studies: electronic and archived images, sounds and data, satellite downlinking, radiowave scanning, and oral histories. GE credit: VL, WE. Effective: 2012 Fall Quarter.

TCS 191—Writing Across Media (4)

Lecture/Discussion—3 hour(s); Extensive Writing. Introduction to experimental approaches to writing for different media and artistic practices. How written texts relate to the images, sounds, and performances in digital and media production. GE credit: WE. Effective: 2012 Fall Quarter.

TCS 197T—Tutoring in Technocultural Studies (1-5)

Tutorial—3-15 hour(s). Prerequisite(s): Consent of Instructor. Undergraduates assist the instructor by tutoring students in one of the department's regularly scheduled courses. May be repeated up to 8 unit(s). (P/NP grading only.) Effective: 2012 Fall Quarter.

TRK—Turkish

Courses in TRK:

TTP—Transportation Technology & Policy

Courses in TTP:

TTP 200—Transportation Survey Methods (4)

Lecture—4 hour(s). Prerequisite(s): STA 013 or STA 013Y; ECI 251 recommended. Description of types of surveys commonly used in transportation demand modeling, including travel and activity diaries, attitudinal, panel, computer, and stated-response surveys. Discussion of sampling, experimental design, and survey design issues. Analysis methods, including factor, discriminant and cluster analysis. Not open for credit to students who have taken ECI 255. (Same course as GEO 281.) Effective: 2018 Spring Quarter.

TTP 210—Fundamentals of Transportation Technology (4)

Lecture—2 hour(s); Discussion—2 hour(s). Prerequisite(s): MAT 021A; MAT 021B; MAT 022A; and Consent of Instructor. Graduate or junior/senior undergraduate as a technical elective. Limited enrollment. Designed to prepare in the basics of thermodynamics, fluid mechanics and heat transfer as they relate to transportation. Not open for credit to students who have completed TTP 289. (Former TTP 289.) Effective: 2007 Spring Quarter.

TTP 220—Transportation Planning & Policy (4)

Lecture/Discussion—4 hour(s). Limited enrollment. Transportation planning process at the regional level, including the role of federal policy in shaping regional transportation planning, tools and techniques used in regional transportation planning, issues facing regional transportation planning agencies, pros and cons of potential solutions and strategies. Students having taken this course previously as TTP 289 cannot repeat it for credit; having taken other TTP 289 offerings does not preclude taking this course for credit. (Same course as GEO 236.) Effective: 2013 Winter Quarter.

TTP 281—ITS Transportation Seminar Series (1)

Seminar—1.5 hour(s). Transportation seminars by guest speakers, on varied topics. May be repeated for credit. (S/U grading only.) Effective: 2006 Spring Quarter.

TTP 282—Transportation Orientation Seminar (1)

Seminar—1 hour(s). Ten weeks of seminars, introducing various topics in transportation research and education, focusing on topics of particular interest at UC Davis. May be repeated for credit. (S/U grading only.) Effective: 2006 Spring Quarter.

TTP 283—Professionalism, Leadership, & Ethics (1)

Seminar—2 hour(s). Speakers from industry, government, academia, and NGOs will lead discussions about succeeding and performing in the professional world. They will address leadership, ethics, and other workplace issues. May be repeated for credit. (S/U grading only.) Effective: 2006 Spring Quarter.

TTP 289A—Selected Topics in Transportation Technology & Policy (1-5)

Lecture; Laboratory. Prerequisite(s): Consent of Instructor. Directed group study of special topics with instruction carried out through lecture or laboratory, or a combination of both. May be repeated for credit. Effective: 1997 Fall Quarter.

TTP 289B—Selected Topics in Transportation Technology & Policy (1-5)

Lecture; Laboratory. Prerequisite(s): Consent of Instructor. Directed group study of special topics with instruction carried out lecture or laboratory, or a combination of both. May be repeated for credit. (S/U grading only.) Effective: 1999 Fall Quarter.

TTP 290C—Graduate Research Group Conference (1)

Discussion—1 hour(s). Prerequisite(s): Consent of Instructor. Research problems, progress, and techniques in transportation. May be repeated for credit. (S/U grading only.) Effective: 1997 Fall Quarter.

TTP 292—Internship in TTP (1-5)

Internship. Prerequisite(s): Consent of Instructor. Second year standing; approval of project prior to period of internship. Supervised work experience in transportation studies. May be repeated for credit when topic differs. (S/U grading only.) Effective: 2000 Spring Quarter.

TTP 298—Group Study (1-5)

Discussion—1-5 hour(s). Prerequisite(s): Consent of Instructor. (S/U grading only.) Effective: 1997 Fall Quarter.

TTP 299—Research (1-12)

Discussion—1-12 hour(s). Prerequisite(s): Consent of Instructor. (S/U grading only.) Effective: 1997 Fall Quarter.

TTP 396—Teaching Assistant Training Practicum (1-4)

Variable. Prerequisite(s): Graduate standing. May be repeated for credit. (P/NP grading only.) Effective: 1997 Winter Quarter.

TXC—Textiles & Clothing

Courses in TXC:

Questions pertaining to the following courses should be directed to the instructor or to the Division of Textiles & Clothing. See also courses in [Fiber & Polymer Science](#).

TXC 006—Introduction to Textiles (4)

Lecture—3 hour(s); Laboratory—3 hour(s). Introduction to the structure and properties of textiles. Consumer use and fabric characteristics are emphasized. GE credit: SE, SL, VL. Effective: 2019 Fall Quarter.

TXC 007—Style & Cultural Studies (4)

Lecture/Discussion—3 hour(s); Discussion/Laboratory—1 hour(s). Multiple and overlapping influences of gender, sexuality, ethnicity, and class on constructions of identity and community are explored through the study of style in popular culture and everyday life. Continuity and change in clothing and appearance styles are interpreted. GE credit: AH, SS, VL, WC, WE. Effective: 2019 Fall Quarter.

TXC 008—The Textiles & Apparel Industries (4)

Lecture—4 hour(s). Textile and apparel industries including fashion theory, production, distribution, and consumption of textile goods. GE credit: SS. Effective: 2019 Fall Quarter.

TXC 092—Internship in Textiles & Clothing (1-12)

Internship—3-36 hour(s). Prerequisite(s): Consent of Instructor. Work experience off campus in a textiles or clothing-related area. Supervision by a member of the Textiles & Clothing faculty. (P/NP grading only.) Effective: 2019 Fall Quarter.

TXC 098—Directed Group Study (1-5)

Variable. Prerequisite(s): Consent of Instructor. Group Study (P/NP grading only.) Effective: 2019 Fall Quarter.

TXC 099—Special Study for Lower Division Students (1-5)

Variable. Special Study (P/NP grading only.) Effective: 2019 Fall Quarter.

TXC 107—Social & Psychological Aspects of Clothing (4)

Lecture—3 hour(s); Discussion—1 hour(s). Prerequisite(s): SOC 002. Social and cognitive factors influencing management and perception of personal appearance in everyday life. Concepts and methods appropriate to the study of meaning of clothes in social and cultural contexts. GE credit: SS, VL, WE. Effective: 2019 Fall Quarter.

TXC 162—Textile Fabrics (3)

Lecture—3 hour(s). Prerequisite(s): TXC 006. Properties of fabrics as related to serviceability, comfort, and appearance. GE credit: SE, VL. Effective: 2019 Fall Quarter.

TXC 162L—Textile Fabrics Laboratory (1)

Laboratory—3 hour(s). Prerequisite(s): TXC 162 (can be concurrent). Laboratory methods and procedures employed in studying properties of textile fabrics as related to serviceability, comfort, and appearance. GE credit: QL, SE, VL, WE. Effective: 2019 Fall Quarter.

TXC 163—Textile Coloration & Finishing (3)

Lecture—3 hour(s). Prerequisite(s): TXC 006; (FPS 110 or CHE 008B). Basic principles of textile dyeing, printing, and finishing; color theory; structure, properties, and application of dyes and finishes; factors affecting application and fastness; maintenance of dyed and finished textiles. GE credit: SE, VL. Effective: 2019 Fall Quarter.

TXC 163L—Textile Coloration & Finishing Laboratory (1)

Laboratory—3 hour(s). Prerequisite(s): TXC 163 (can be concurrent). Demonstrates various aspects of dyeing, printing, and finishing of textile substrates including the effect of fiber and finish type, and physical and chemical variables on dyeing and finishing processes and on the properties of the resultant textile. GE credit: QL, SE, SL, WE. Effective: 2019 Fall Quarter.

TXC 164—Principles of Apparel Production (3)

Lecture—3 hour(s). Prerequisite(s): TXC 006 or TXC 008. Overview of characteristics, technology, processes, and research in apparel manufacturing industries including study of government statistics, material utilization and fabrication, mechanization, management, and production engineering. GE credit: OL, SS, VL. Effective: 2019 Fall Quarter.

TXC 165—Textile Processes (3)

Lecture/Discussion—3 hour(s). Prerequisite(s): TXC 006. Physical processes involved in the production of textiles from the individual fiber to the finished fabric. Includes spinning, texturing, yarn formation, weaving preparation, weaving and knitting, tufting and fabric finishing. GE credit: SE. Effective: 2019 Fall Quarter.

TXC 171—Clothing Materials Science (4)

Lecture—3 hour(s); Discussion/Laboratory—3 hour(s). Prerequisite(s): TXC 006; TXC 008; senior standing. The properties, characterization, and performance evaluation of clothing materials and structures for specific functional applications. Principles and methods related to wetting and transport properties, fabric hand and aesthetic properties, clothing comfort, and material and assembly technology. GE credit: SE, VL. Effective: 2019 Fall Quarter.

TXC 173—Principles of Fashion Marketing (3)

Lecture—3 hour(s). Prerequisite(s): TXC 008; (ECN 001A or ECN 001AV); (ARE 113 or ARE 136). Study of basic elements of fashion marketing including philosophy and objectives, organization, merchandising, pricing, promotion and personnel. GE credit: SS, VL. Effective: 2019 Fall Quarter.

TXC 174—Introduction to World Trade in Textiles & Clothing (4)

Lecture—3 hour(s); Discussion—1 hour(s). Prerequisite(s): TXC 008. Structure of the global fiber/textile/apparel complex and its distribution patterns with an overview of political, economic and technological factors that are changing these industries and their markets. GE credit: SS, WC. Effective: 2019 Fall Quarter.

TXC 180A—Introduction to Research in Textiles (2)

Laboratory—6 hour(s). Prerequisite(s): Consent of Instructor. Senior standing with textile-related major. Senior thesis on independent problems. Research begun in TXC 180A continued and completed in TXC 180B. GE credit: SS, WE. Effective: 2019 Fall Quarter.

TXC 180B—Introduction to Research in Textiles (2)

Laboratory—6 hour(s). Prerequisite(s): Consent of Instructor. Senior standing with textile-related major. Senior thesis on independent problems. Research begun in TXC 180A continued and completed in TXC 180B. GE credit: SS, WE. Effective: 2019 Fall Quarter.

TXC 192—Internship in Textiles & Clothing (1-12)

Internship—3-36 hour(s). Prerequisite(s): Consent of Instructor. Work-learn experience off campus in a textiles or clothing-related area. Supervision by a member of the Textiles & Clothing faculty. (P/NP grading only.) Effective: 2019 Fall Quarter.

TXC 197T—Tutoring in Textiles & Clothing (1-5)

Tutorial—3-15 hour(s). Prerequisite(s): Consent of Instructor. Upper division textiles-related major. Tutoring of students in Textiles & Clothing courses. Assistance with discussion groups and laboratory sections under supervision of instructor. May be repeated for credit when tutoring another textiles course. (P/NP grading only.) Effective: 2019 Fall Quarter.

TXC 199—Special Study for Advanced Undergraduates (1-5)

Variable. Special study for advanced undergraduates. (P/NP grading only.) Effective: 2019 Fall Quarter.

TXC 230—Behavioral Science Concepts in Textiles (3)

Lecture—3 hour(s). Prerequisite(s): TXC 107; Upper division or graduate course in statistics (e.g., AMR 120) and one in a behavioral science (e.g., PSC 145). Examination of theories and research concerning relationships between clothing and human behavior with emphasis on research techniques, including methods of measuring clothing variables. Effective: 2019 Fall Quarter.

TXC 290—Seminar (1)

Seminar—1 hour(s). Critical review of selected topics of current interest in textiles. (S/U grading only.) Effective: 2019 Fall Quarter.

TXC 290C—Research Conference (1)

Discussion—1 hour(s). Prerequisite(s): Consent of Instructor. Graduate standing. Individual faculty members meet with their graduate students. Critical presentations of original research are made by graduate students. Research activities are planned. Discussions are led by major professors for their research groups. (S/U grading only.) Effective: 2019 Fall Quarter.

TXC 293—Recent Advances in Textiles (3)

Lecture—3 hour(s). Prerequisite(s): Two upper division courses in Textiles & Clothing (TXC) or consent of instructor. Critical reading and evaluation on selected topics of current interest in textiles. Multidisciplinary aspects of the topics selected will be stressed. May be repeated for credit. Effective: 2019 Fall Quarter.

TXC 298—Group Study (1-5)

Variable. Group study, Effective: 2019 Fall Quarter.

TXC 299—Research (1-12)

Variable. Research. (S/U grading only.) Effective: 2019 Fall Quarter.

TXC 396—Teaching Assistant Training Practicum (1-4)

Variable. Prerequisite(s): Graduate standing. Teaching assistant, training practicum. May be repeated for credit. (P/NP grading only.) Effective: 2019 Fall Quarter.

URO—Urology

Courses in URO:**URO 199—Special Study for Advanced Undergraduates (1-5)**

Variable—1-5 hour(s). Prerequisite(s): Consent of Instructor. (P/NP grading only.) Effective: 1997 Winter Quarter.

URO 400—Office Urology (1)

Clinical Activity—4 hour(s). Prerequisite(s): Fourth-year medical students with consent of instructor. Introduction to ambulatory care of urologic patients including basic therapeutic and diagnostic procedures from case material referred to private clinic. Management of urinary tract infection will be emphasized. (H/P/F grading only.) Effective: 1997 Winter Quarter.

URO 460—Urology Clinical Clerkship (5-18)

Clinical Activity—8-40 hour(s). Prerequisite(s): Consent of Instructor. Third-year medical student; physical diagnosis or the equivalent. Limited enrollment. Clinical experience in diagnosis and treatment of urologic disease. Student will work closely with house staff, participate in conferences and surgery, and perform initial patient evaluation on new patients. May be repeated for credit. (H/P/F grading only.) Effective: 2010 Winter Quarter.

URO 461—Externship in Urology (3-18)

Clinical Activity—60 hour(s). Prerequisite(s): Consent of Instructor. Fourth-year medical students. Under supervision, student acting as intern will assume full inpatient responsibility including admission history, physical examination, management of hospitalization, and participate in surgical procedures, outpatient clinic and learning diagnostic and therapeutic procedures. May be repeated for credit. (H/P/F grading only.) Effective: 2014 Fall Quarter.

URO 499—Research in Urology (1-12)

Variable. Prerequisite(s): Medical or veterinary medical students with consent of instructor. Research in oncology, male infertility, urodynamics, neurogenic bladder. Unique opportunity to apply recent technologies (nuclear medicine resonance, flow cytometry, recombinant DNA) in investigation, diagnosis and treatment of GU cancer, infectious disease, male infertility and development of genitourinary bioprosthesis. May be repeated for credit. (H/P/F grading only.) Effective: 2017 Winter Quarter.

UWP—University Writing Program

Courses in UWP:

UWP 001—Introduction to Academic Literacies (4)

Lecture/Discussion—4 hour(s). Prerequisite(s): Completion of Entry Level Writing Requirement (ELWR). Introduction to reading and composing processes and key rhetorical concepts for academic literacies. Multiple drafts of composing projects in a variety of genres and modes with feedback from peers and the instructor. Not open for credit to students who have taken UWP 001Y or UWP 001V. GE credit: AH, WE. Effective: 2019 Winter Quarter.

UWP 001A—Writers' Workshop (2)

Discussion/Laboratory—2 hour(s). Concurrent enrollment in a lower division writing course required, preferably UWP 001; if necessary, based upon demand and academic advisor approval, students may concurrently enroll in an equivalent course instead; e.g., ENL 003 or NAS 005. Writing course focuses on the development of writing and revision strategies, exploring ways to understand a writing task; to develop appropriate content for a writing task; to revise content to reflect competence as a communicator. Effective: 2019 Winter Quarter.

UWP 001V—Introduction to Academic Literacies: Online (4)

Web Virtual Lecture—2 hour(s); Web Electronic Discussion—2 hour(s). Prerequisite(s): Completion of Entry Level Writing Requirement (ELWR). Introduction to reading and composing processes and key rhetorical concepts for academic literacies. Multiple drafts of composing projects in a variety of genres and modes with feedback from peers and the instructor. Not open to students who have taken UWP 001 or UWP 001Y. GE credit: AH, WE. Effective: 2019 Winter Quarter.

UWP 001Y—Introduction to Academic Literacies (4)

Lecture/Discussion—2 hour(s); Web Electronic Discussion—2 hour(s). Prerequisite(s): Completion of Entry Level Writing Requirement (ELWR). Introduction to reading and composing processes and key rhetorical concepts for academic literacies. Multiple drafts of composing projects in a variety of genres and modes with feedback from peers and the instructor. Not open to students who have taken UWP 001 or UWP 001V. GE credit: AH, WE. Effective: 2019 Winter Quarter.

UWP 007—Practices in College Reading & Writing (4)

Lecture/Discussion—4 hour(s). Not open to students who have already fulfilled the Entry Level Writing Requirement (ELWR); course is only open to students who have not yet fulfilled the ELWR; enrollment is determined via campus placement, via scores on mechanisms such as the English Language Placement Exam or Analytical Writing Placement Exam. Development of skills required for success in college-level writing across genres and disciplines. Integrates reading, critical thinking, and written communication, using texts from across the curriculum. May be repeated up to 3 time(s). Effective: 2019 Fall Quarter.

UWP 007M—Entry Level Writing: Practices in College Reading & Writing for Multilingual Writers (4)

Discussion/Laboratory—4 hour(s). Prerequisite(s): Enrollment via campus placement (using the English Language Placement Exam or Analytical Writing Placement Exam) or after successful completion of UWP 022. Only open to students who have not yet fulfilled the Entry Level Writing Requirement (ELWR). Development of multilingual writers' composition and English language skills across genres and disciplines. Integrates college-level reading, critical thinking, and written communication, using texts from across the curriculum. No credit for students who have completed UWP 007, UWP 023, or WLD 057. Effective: 2019 Summer Session 1.

UWP 010—Introduction to Professional Writing Studies (4)

Lecture/Discussion—3 hour(s); Extensive Writing. Prerequisite(s): UWP 001 or UWP 001V or UWP 001Y; Or the equivalent. Introduction to writing as an object of study and to theories and research in the field. Survey of how writing is created, disseminated, and used in private, public, and academic contexts. GE credit: AH, WE. Effective: 2018 Spring Quarter.

UWP 011—Popular Science & Technology Writing (4)

Lecture/Discussion—3 hour(s); Discussion—1 hour(s). Positioning of science and technology in society as reflected and constructed in popular texts. Topics include genre theory, demarcation, rhetorical figures, forms of qualitative and quantitative reasoning, and the epistemic role of popularization in science. GE credit: AH, WE. Effective: 2014 Winter Quarter.

UWP 012—Writing & Visual Rhetoric (4)

Lecture/Discussion—3 hour(s); Discussion—1 hour(s). Introduction to writing needs, conventions, and genres in design contexts. Emphasis on applying critical reading, analysis, and writing skills to designed products, such as graphics, visual communications, and clothes, and designed spaces, such as exhibitions and interior architecture. GE credit: AH, VL, WE. Effective: 2014 Fall Quarter.

UWP 013—Video Game Rhetorics (4)

Lecture—3 hour(s); Discussion—1 hour(s). Prerequisite(s): UWP 001 C- or better or UWP 001V C- or better or UWP 001Y C- or better or ENL 003 C- or better or COM 001 C- or better or COM 002 C- or better or COM 003 C- or better or COM 004 C- or better or NAS 005 C- or better. Examination of video games as rhetorical texts whose meaning is produced through complex interplay of procedures, narratives, rules, and context. Writing about video games using critical perspectives and analytic methods. GE credit: AH, VL, WE. Effective: 2018 Spring Quarter.

UWP 020—Oral English for International Students (4)

Lecture/Discussion—4 hour(s). Intensive work in oral English for international students, to increase fluency, accuracy, and use of appropriate discourse strategies in academic settings; e.g., seminar, discussion, laboratory. Training in segmental features of English sounds, intonation, stress, non-verbal cues, and register. May be repeated for credit. (P/NP grading only.) Effective: 2019 Fall Quarter.

UWP 021—Introduction to Academic Reading & Writing for Multilingual Students (4)

Lecture/Discussion—4 hour(s). Pass One placed in the course via Writing Placement 2020 offered by the UWP. Reading and writing paragraphs and short multi-paragraph texts for academic purposes. Suitable for students whose primary home language was not English. Effective: 2016 Fall Quarter.

UWP 022—Intermediate Academic Reading & Writing for Multilingual Students (4)

Lecture/Discussion—4 hour(s). Prerequisite(s): UWP 021. Pass One placed in the course via Writing Placement 2020 offered by the UWP. Reading and writing short multi-paragraph texts for academic purposes. Suitable for students whose primary home language was not English. Effective: 2016 Fall Quarter.

UWP 024—English Structures & Strategies in Academic Writing (4)

Lecture/Discussion—4 hour(s). Open to students from language backgrounds other than English. Practice in academic writing designed to prepare undergraduate students from language backgrounds other than English for successful academic work. Development of academic writing, critical thinking, and reading skills. Development of clear, accurate language for presenting an effective argument. Not open for credit to students who have taken LIN 024. Effective: 2019 Winter Quarter.

UWP 025—Academic Writing for ESL Students (4)

Lecture/Discussion—4 hour(s). Prerequisite(s): Consent of Instructor. Writing skills necessary for upper division courses, including skills crucial to writing lab and project reports, summaries, critiques, abstracts, and responses to exam questions. Includes practice with the syntax, grammar, and vocabulary characteristics of academic writing. Not open for credit to students who have taken LIN 027. Effective: 2018 Spring Quarter.

UWP 026—Reading in Scientific & Technical Subjects for ESL Students (4)

Lecture/Discussion—4 hour(s). Prerequisite(s): Consent of Instructor. Instruction and practice in reading scientific and technical texts. Techniques for comprehending and analyzing grammatical and organizational patterns. Notetaking skills, summarizing, vocabulary enrichment. Not open for credit to students who have taken LIN 028. (P/NP grading only.) Effective: 2018 Spring Quarter.

UWP 028—Persuasive Writing for Multilingual Students (4)

Lecture/Discussion—4 hour(s). Prerequisite(s): UWP 001 C- or better or UWP 001V C- or better or UWP 001Y C- or better or ENL 003 C- or better or COM 001 C- or better or COM 002 C- or better or COM 003 C- or better or COM 004 C- or better or NAS 005 C- or better. Instruction in analyzing style of persuasive texts, using appropriate vocabulary, and applying English grammatical structures in argumentation. Suitable for multilingual students desiring additional instruction in persuasive English writing. GE credit: AH, WE. Effective: 2017 Fall Quarter.

UWP 029—Research Writing for Multilingual Students (4)

Lecture/Discussion—4 hour(s). Prerequisite(s): UWP 001 C- or better or UWP 001V C- or better or UWP 001Y C- or better or ENL 003 C- or better or COM 002 C- or better or COM 002 C- or better or COM 003 C- or better or COM 004 C- or better or NAS 005 C- or better. Reading and writing effectively in various research genres across the disciplines. Suitable for multilingual students desiring additional instruction in the linguistic and rhetorical features of research writing in English for academic purposes. GE credit: AH, WE. Effective: 2017 Fall Quarter.

UWP 048—Style in the Essay (4)

Lecture/Discussion—4 hour(s). Prerequisite(s): UWP 001 C- or better or UWP 001V C- or better or UWP 001Y C- or better or ENL 003 C- or better or COM 001 C- or better or COM 002 C- or better or COM 003 C- or better or COM 004 C- or better or NAS 005 C- or better; or equivalent. Restricted to completion of UWP 001, or equivalent, with C- (P) or better. Principles of style, language, and structure in the essay. Analysis and development of voice and genre, including sentence revision for force and clarity, and development of effective paragraphs and essays. Not open for credit to students who have taken UWP 018. GE credit: AH, WE. Effective: 2018 Spring Quarter.

UWP 049—Writing Research Papers (4)

Lecture/Discussion—4 hour(s). Prerequisite(s): UWP 001 C- or better or UWP 001V C- or better or UWP 001Y C- or better or ENL 003 C- or better or COM 001 C- or better or COM 002 C- or better or COM 003 C- or better or COM 004 C- or better or NAS 005 C- or better; or equivalent. Restricted to completion of UWP 1, or equivalent, with C- (P) or better. Principles of research writing. Analysis and development of research topics and effective arguments, including critical reading, analysis, integration, and documentation of source material. Not open for credit to students who have taken UWP 019. GE credit: AH, WE. Effective: 2018 Fall Quarter.

UWP 092—Internship in Writing (1-12)

Internship—3-36 hour(s). Prerequisite(s): UWP 001 or UWP 001V or UWP 001Y or ENL 003. Internships in fields where students can practice their skills. May be repeated up to 12 unit(s). (P/NP grading only.) Effective: 2018 Winter Quarter.

UWP 098—Directed Group Study (1-5)

Variable—1-5 hour(s). Prerequisite(s): UWP 001 or UWP 001V or UWP 001Y or ENL 003; Or equivalent course; consent of instructor. May be repeated up to 2 time(s). (P/NP grading only.) GE credit: AH, WE. Effective: 2018 Winter Quarter.

UWP 099—Special Study for Undergraduates (1-5)

Variable—1-5 hour(s). Prerequisite(s): UWP 001 or UWP 001V or UWP 001Y or ENL 003; Or equivalent course; consent of instructor. May be repeated up to 2 time(s). (P/NP grading only.) GE credit: AH, WE. Effective: 2018 Winter Quarter.

UWP 100—Genre Theory & Professional Writing (4)

Lecture—3 hour(s); Extensive Writing/Discussion—1 hour(s). Prerequisite(s): (UWP 001 or UWP 001V or UWP 001Y); UWP 010; Or the equivalent of UWP 001. Introduction to discipline of professional writing. Examination of writing as a social practice, using genre theory as a conceptual framework. Analysis of how genres function rhetorically in specific contexts and how social systems both shape and are shaped by genres. GE credit: AH, WE. Effective: 2018 Spring Quarter.

UWP 101—Advanced Composition (4)

Lecture/Discussion—3 hour(s); Extensive Writing. Prerequisite(s): UWP 001 C- or better or UWP 001V C- or better or UWP 001Y C- or better or COM 001 C- or better or COM 002 C- or better or COM 003 C- or better or COM 004 C- or better or ENL 003 C- or better or NAS 005 C- or better; and upper division standing. Instruction in advanced principles of expository writing. Writing tasks within and beyond the University. Different writing modes, including narrative, analysis, explanation, argument, critique. May be taught abroad. GE credit: AH, WE. Effective: 2018 Winter Quarter.

UWP 102A—Writing in the Disciplines: Special Topics (4)

Lecture/Discussion—3 hour(s); Extensive Writing. Prerequisite(s): UWP 001 C- or better or UWP 001V C- or better or UWP 001Y C- or better or ENL 003 C- or better or COM 001 C- or better or COM 002 C- or better or COM 003 C- or better or COM 004 C- or better or NAS 005 C- or better; and upper division standing. Open to majors or to students concurrently enrolled in an upper division course in a specific academic discipline or interdisciplinary field. Advanced instruction in writing in that discipline and practice in effective styles of communication. May be repeated up to 1 time(s) when taken in conjunction with a different subject-matter course. GE credit: AH, WE. Effective: 2018 Winter Quarter.

UWP 102B—Writing in the Disciplines: Biology (4)

Lecture/Discussion—3 hour(s); Extensive Writing. Prerequisite(s): UWP 001 C- or better or UWP 001V C- or better or UWP 001Y C- or better or ENL 003 C- or better or COM 001 C- or better or COM 002 C- or better or COM 003 C- or better or COM 004 C- or better or NAS 005 C- or better; and upper division standing. Open to majors in a biological science or to students concurrently enrolled in an upper division biological science course. Advanced instruction in writing in biology. Not open for credit to students who have completed ENL 102B. GE credit: AH, WE. Effective: 2018 Winter Quarter.

UWP 102C—Writing in the Disciplines: History (4)

Lecture/Discussion—3 hour(s); Extensive Writing. Prerequisite(s): UWP 001 C- or better or UWP 001V C- or better or UWP 001Y C- or better or ENL 003 C- or better or COM 001 C- or better or COM 002 C- or better or COM 003 C- or better or COM 004 C- or better or NAS 005 C- or better; and upper division standing. Open to majors in history or to students concurrently enrolled in an upper division course accepted for the history major. Advanced instruction in writing in history. GE credit: AH, WE. Effective: 2018 Winter Quarter.

UWP 102D—Writing in the Disciplines: International Relations (4)

Lecture/Discussion—3 hour(s); Extensive Writing. Prerequisite(s): UWP 001 C- or better or UWP 001V C- or better or UWP 001Y C- or better or ENL 003 C- or better or COM 001 C- or better or COM 002 C- or better or COM 003 C- or better or COM 004 C- or better or NAS 005 C- or better; and upper division standing. Open to majors in international relations or to students concurrently enrolled in an upper division course accepted for the major. Advanced instruction in writing in international relations. GE credit: AH, WE. Effective: 2018 Winter Quarter.

UWP 102E—Writing in the Disciplines: Engineering (4)

Lecture/Discussion—3 hour(s); Extensive Writing. Prerequisite(s): UWP 001 C- or better or UWP 001V C- or better or UWP 001Y C- or better or ENL 003 C- or better or COM 001 C- or better or COM 002 C- or better or COM 003 C- or better or COM 004 C- or better or NAS 005 C- or better; and upper division standing. Open to upper division students in the College of Engineering and to students enrolled in an upper division engineering or computer science course for the major. Advanced instruction in writing in engineering. GE credit: AH, WE. Effective: 2018 Winter Quarter.

UWP 102F—Writing in the Disciplines: Food Science & Technology (4)

Lecture/Discussion—3 hour(s); Extensive Writing. Prerequisite(s): UWP 001 C- or better or UWP 001V C- or better or UWP 001Y C- or better or ENL 003 C- or better or COM 001 C- or better or COM 002 C- or better or COM 003 C- or better or COM 004 C- or better or NAS 005 C- or better; and upper division standing. Open to majors in food science and technology and to students concurrently enrolled in an upper division course in food science and technology. Advanced instruction in writing in food science & technology. GE credit: AH, WE. Effective: 2018 Winter Quarter.

UWP 102G—Writing in the Disciplines: Environmental Writing (4)

Lecture/Discussion—3 hour(s); Extensive Writing. Prerequisite(s): UWP 001 C- or better or UWP 001V C- or better or UWP 001Y C- or better or ENL 003 C- or better or COM 001 C- or better or COM 002 C- or better or COM 003 C- or better or COM 004 C- or better or NAS 005 C- or better; and upper division standing. Open to students with upper division coursework with an environmental focus. Advanced instruction in writing and practice in effective styles of communication in the fields of environmental study, policy, or advocacy. Not open for credit to students who have completed UWP 102A in the same academic field. GE credit: AH, WE. Effective: 2018 Winter Quarter.

UWP 102H—Writing in the Disciplines: Human Development & Psychology (4)

Lecture/Discussion—3 hour(s); Extensive Writing. Prerequisite(s): UWP 001 C- or better or UWP 001V C- or better or UWP 001Y C- or better or ENL 003 C- or better or COM 001 C- or better or COM 002 C- or better or COM 003 C- or better or COM 004 C- or better or NAS 005 C- or better; and upper division standing. Open to majors and minors or to students concurrently enrolled in an upper division course in Human Development or Psychology. Advanced instruction in writing and practice in effective styles of communication in Human Development & Psychology. Not open for credit to students who have completed UWP 102A in the same academic field. GE credit: AH, WE. Effective: 2018 Winter Quarter.

UWP 102I—Writing in the Disciplines: Ethnic Studies (4)

Lecture/Discussion—3 hour(s); Extensive Writing. Prerequisite(s): UWP 001 C- or better or UWP 001V C- or better or UWP 001Y C- or better or ENL 003 C- or better or COM 001 C- or better or COM 002 C- or better or COM 003 C- or better or COM 004 C- or better or NAS 005 C- or better; and upper division standing. Open to majors and minors in ethnic studies, or students with upper division coursework focusing on race and ethnicity. Advanced instruction in cross-disciplinary writing about race and ethnicity and practice in effective styles of communication. Not open for credit to students who have completed UWP 102A in the same academic field. GE credit: AH, WE. Effective: 2018 Winter Quarter.

UWP 102J—Writing in the Disciplines: Fine Arts (4)

Lecture/Discussion—3 hour(s); Extensive Writing. Prerequisite(s): UWP 001 C- or better or UWP 001V C- or better or UWP 001Y C- or better or ENL 003 C- or better or COM 001 C- or better or COM 002 C- or better or COM 003 C- or better or COM 004 C- or better or NAS 005 C- or better; and upper division standing. Open to majors and minors or to students concurrently enrolled in an upper division course in Art History, Art Studio, Design, Music, or Theater & Dance. Advanced instruction in writing about the arts and practice in effective styles of communication. Not open for credit to students who have completed UWP 102A in the same academic field. GE credit: AH, WE. Effective: 2018 Winter Quarter.

UWP 102K—Writing in the Disciplines: Sociology (4)

Lecture/Discussion—3 hour(s); Extensive Writing. Prerequisite(s): UWP 001 C- or better or UWP 001V C- or better or UWP 001Y C- or better or ENL 003 C- or better or COM 001 C- or better or COM 002 C- or better or COM 003 C- or better or COM 004 C- or better or NAS 005 C- or better; and upper division standing. Open to majors and minors in Sociology or to students concurrently enrolled in an upper division Sociology course. Advanced instruction in writing and practice in effective styles of communication in Sociology and related academic and professional fields. Not open for credit to students who have completed UWP 102A in the same academic field. GE credit: AH, WE. Effective: 2018 Winter Quarter.

UWP 102L—Writing in the Disciplines: Film Studies (4)

Lecture/Discussion—3 hour(s); Extensive Writing. Prerequisite(s): UWP 001 C- or better or UWP 001V C- or better or UWP 001Y C- or better or ENL 003 C- or better or COM 001 C- or better or COM 002 C- or better or COM 003 C- or better or COM 004 C- or better or NAS 005 C- or better; and upper division standing. Open to majors and minors or to students concurrently enrolled in an upper division course in Film Studies, Technocultural Studies, English, American Studies, or any other upper division course that includes the analysis and understanding of film as a medium. Advanced instruction in writing about film and practice in effective styles of communication. Not open for credit to students who have completed UWP 102A in the same academic field. GE credit: AH, WE. Effective: 2018 Winter Quarter.

UWP 102M—Writing in the Disciplines: Community & Regional Development (4)

Lecture/Discussion—3 hour(s); Extensive Writing. Prerequisite(s): UWP 001 C- or better or UWP 001V C- or better or UWP 001Y C- or better or ENL 003 C- or better or COM 001 C- or better or COM 002 C- or better or COM 003 C- or better or COM 004 C- or better or NAS 005 C- or better; and upper division standing. Open to upper division Community and Regional Development majors and minors or upper division students concurrently enrolled in an upper division Community and Regional Development course. Advanced instruction in writing in the Community & Regional Development discipline and practice in effective styles of communication. GE credit: ACGH, AH, WE. Effective: 2018 Winter Quarter.

UWP 102N—Writing in the Disciplines: Anthropology (4)

Lecture—3 hour(s); Term Paper. Prerequisite(s): UWP 001 C- or better or UWP 001V C- or better or UWP 001Y C- or better or ENL 003 C- or better or COM 001 C- or better or COM 002 C- or better or COM 003 C- or better or COM 004 C- or better or NAS 005 C- or better; 4 or 5 on AP English Lit and Comp exam; or 6 or better on IB HL English Exam. Restricted to upper division standing; Anthropology Major or Minor. Advanced instruction in writing and practice in effective styles of communication in Anthropology and related academic and professional fields. GE credit: AH, WE. Effective: 2018 Summer Session 1.

UWP 104A—Writing in the Professions: Business Writing (4)

Lecture/Discussion—3 hour(s); Extensive Writing. Prerequisite(s): UWP 001 C- or better or UWP 001V C- or better or UWP 001Y C- or better or ENL 003 C- or better or COM 001 C- or better or COM 002 C- or better or COM 003 C- or better or COM 004 C- or better or NAS 005 C- or better; and upper division standing. Effective communication in and for organizations, including corporations, government agencies, and non-profit. Suitable for students entering careers such as management, public relations, and grant writing. Not open for credit to students who have taken UWP 104AY. GE credit: AH, WE. Effective: 2019 Winter Quarter.

UWP 104AY—Writing in the Professions: Business Writing (4)

Lecture/Discussion—1.5 hour(s); Web Electronic Discussion—1.5 hour(s); Extensive Writing. Prerequisite(s): UWP 001 C- or better or UWP 001V C- or better or UWP 001Y C- or better or ENL 003 C- or better or COM 001 C- or better or COM 002 C- or better or COM 003 C- or better or COM 004 C- or better or NAS 005 C- or better; and upper division standing. Effective communication in and for organizations, including corporations, government agencies, and nonprofit. Suitable for students entering careers such as management, public relations, and grant writing. Not open for credit to students who have taken UWP 104A. GE credit: AH, WE. Effective: 2019 Winter Quarter.

UWP 104B—Writing in the Professions: Law (4)

Lecture/Discussion—3 hour(s); Extensive Writing. Prerequisite(s): UWP 001 C- or better or UWP 001V C- or better or UWP 001Y C- or better or ENL 003 C- or better or COM 001 C- or better or COM 002 C- or better or COM 003 C- or better or COM 004 C- or better or NAS 005 C- or better; and upper division standing. Advanced principles of critical thinking, argumentation, and style, with special emphasis on their application in the legal profession. Suitable for students planning careers in law, business, administration, or management. GE credit: AH, WE. Effective: 2018 Winter Quarter.

UWP 104C—Writing in the Professions: Journalism (4)

Lecture/Discussion—3 hour(s); Extensive Writing. Prerequisite(s): UWP 001 C- or better or UWP 001V C- or better or UWP 001Y C- or better or ENL 003 C- or better or COM 001 C- or better or COM 002 C- or better or COM 003 C- or better or COM 004 C- or better or NAS 005 C- or better; and upper division standing. Non-fiction for magazines and newspapers, with attention to style and language. Emphasis on research, interviewing, market analysis, and query letters. GE credit: AH, WE. Effective: 2018 Winter Quarter.

UWP 104D—Writing in the Professions: Elementary & Secondary Education (4)

Lecture/Discussion—3 hour(s); Extensive Writing. Prerequisite(s): UWP 001 C- or better or UWP 001V C- or better or UWP 001Y C- or better or ENL 003 C- or better or COM 001 C- or better or COM 002 C- or better or COM 003 C- or better or COM 004 C- or better or NAS 005 C- or better; and upper division standing. Advanced expository writing in the contemporary American classroom. Strongly recommended for teaching credential candidates. GE credit: AH, WE. Effective: 2018 Winter Quarter.

UWP 104E—Writing in the Professions: Science (4)

Lecture/Discussion—3 hour(s); Extensive Writing. Prerequisite(s): UWP 001 C- or better or UWP 001V C- or better or UWP 001Y C- or better or ENL 003 C- or better or COM 001 C- or better or COM 002 C- or better or COM 003 C- or better or COM 004 C- or better or NAS 005 C- or better; and upper division standing or enrollment in a graduate science curriculum. Writing abstracts, research proposals, scientific papers, other forms of scientific communication. Presenting data graphically. Primarily for students engaged in or planning careers in basic or applied research. GE credit: AH, WE. Effective: 2018 Winter Quarter.

UWP 104F—Writing in the Professions: Health (4)

Lecture/Discussion—3 hour(s); Extensive Writing. Prerequisite(s): UWP 001 C- or better or UWP 001V C- or better or UWP 001Y C- or better or ENL 003 C- or better or COM 001 C- or better or COM 002 C- or better or COM 003 C- or better or COM 004 C- or better or NAS 005 C- or better; and upper division standing. Not open to students who have taken UWP 104FY. Advanced expository writing common in the health professions, emphasizing effective communication between the writer and different audiences. Topics relate to health, disability, and disease. Suitable for students planning careers in professions such as medicine, dentistry, physical therapy, optometry. Not open for credit to students who have taken UWP 104FY. GE credit: AH, WE. Effective: 2018 Winter Quarter.

UWP 104FY—Writing in the Professions: Health (4)

Lecture/Discussion—1.5 hour(s); Web Electronic Discussion—1.5 hour(s); Extensive Writing. Prerequisite(s): UWP 001 C- or better; UWP 001V C- or better or UWP 001Y C- or better or ENL 003 C- or better or COM 001 C- or better or COM 002 C- or better or COM 003 C- or better or COM 004 C- or better or NAS 005 C- or better; and upper division standing. Not open to students who have taken UWP 104F. Advanced expository writing common in the health professions, emphasizing effective communication between the writer and different audiences. Topics relate to health, disability, and disease. Suitable for students planning careers in professions such as medicine, dentistry, physical therapy, optometry. Not open for credit to students who have taken UWP 104F. GE credit: AH, WE. Effective: 2018 Winter Quarter.

UWP 104I—Writing in the Professions: Internships (4)

Lecture/Discussion—3 hour(s); Extensive Writing. Prerequisite(s): UWP 001 C- or better or UWP 001V C- or better or UWP 001Y C- or better or ENL 003 C- or better or COM 001 C- or better or COM 002 C- or better or COM 003 C- or better or COM 004 C- or better or NAS 005 C- or better; and upper division standing. Open to students concurrently enrolled in an internship and to Contemporary Leadership minors. Advanced instruction in writing in the workplace, including public and private sectors, government agencies, profit and non-profit organizations. Collaborative work and practice in effective styles of communication. May be taught abroad. Not open for credit to students who have completed UWP 102A. GE credit: AH, WE. Effective: 2018 Winter Quarter.

UWP 104J—Writing in the Professions: Writing for Social Justice (4)

Lecture/Discussion—3 hour(s); Extensive Writing. Prerequisite(s): UWP 001 C- or better or UWP 001V C- or better or UWP 001Y C- or better or ENL 003 C- or better or COM 001 C- or better or COM 002 C- or better or COM 003 C- or better or COM 004 C- or better or NAS 005 C- or better; and upper division standing. Advanced instruction in writing for Social Justice, using an interdisciplinary approach combining feminist, critical race, ethnic, cultural, and transnational studies; practice in techniques of research and styles of communication for diverse audiences. Suitable for activists in community organizing, non-profits, politics. GE credit: AH, WE. Effective: 2018 Winter Quarter.

UWP 104T—Writing in the Professions: Technical Writing (4)

Lecture/Discussion—3 hour(s); Extensive Writing. Prerequisite(s): UWP 001 C- or better or UWP 001V C- or better or UWP 001Y C- or better or ENL 003 C- or better or COM 001 C- or better or COM 002 C- or better or COM 003 C- or better or COM 004 C- or better or NAS 005 C- or better; and upper division standing. Communicating effectively about technology and other technical subjects to varied audiences for varied purposes. Suitable for students entering professions that require communicating technical information to subject matter experts, managers, technicians, and non-specialists. Not open for credit to students who have taken UWP 104A prior to fall 2012. GE credit: AH, WE. Effective: 2018 Winter Quarter.

UWP 106—English Grammar (4)

Lecture—3 hour(s); Discussion—1 hour(s). Prerequisite(s): UWP 001 or UWP 001V or UWP 001Y or ENL 003 or LIN 001 or LIN 001Y; or Consent of Instructor. Survey of present-day English grammar as informed by contemporary linguistic theories. The major syntactic structures of English; their variation across dialects, styles, and registers; their development; and their usefulness in describing the conventions of English. (Same course as ENL 106, LIN 106.) GE credit: AH. Effective: 2018 Winter Quarter.

UWP 110—Specialized Genres in Professional Writing (4)

Lecture/Discussion—3 hour(s); Extensive Writing. Prerequisite(s): Satisfaction of the upper division writing requirement. Restricted to upper division students who have satisfied the upper division writing requirement; counts toward the writing minor. Instruction in the elements and practices of professional writing in specialized genres. May be taught abroad. May be repeated up to 2 time(s) when topic differs. GE credit: AH, WE. Effective: 2015 Winter Quarter.

UWP 111A—Specialized Topics in Journalism (4)

Lecture/Discussion—3 hour(s); Extensive Writing. Prerequisite(s): Satisfaction of the upper division writing requirement. Restricted to upper division students with a strong interest in journalism; counts toward the writing minor. Instruction in the elements and practices of advanced journalism. May be repeated up to 1 time(s) when specialized journalism topic differs. GE credit: AH, WE. Effective: 2009 Fall Quarter.

UWP 111B—Specialized Topics in Journalism: Investigative Journalism (4)

Lecture/Discussion—3 hour(s); Extensive Writing. Prerequisite(s): Satisfaction of the upper division writing requirement. Restricted to upper division students with a strong interest in journalism; counts toward the writing minor. Instruction in the elements and practices of in-depth investigative journalism. GE credit: AH, WE. Effective: 2009 Fall Quarter.

UWP 111C—Specialized Topics in Journalism: Science Journalism (4)

Lecture/Discussion—3 hour(s); Extensive Writing. Prerequisite(s): Satisfaction of the upper division writing requirement. Restricted to upper division students with a strong interest in journalism; counts toward the writing minor. Instruction in the elements and practices of science journalism. GE credit: AH, WE. Effective: 2009 Fall Quarter.

UWP 112A—Introduction to Professional Editing (4)

Lecture/Discussion—3 hour(s); Extensive Writing. Prerequisite(s): satisfaction of the upper division writing requirement. Restricted to upper division students who have satisfied the upper division writing requirement; counts toward the writing minor, Group C: Theory, History, & Design. Introduction to general editing practices and principles, with an emphasis on professional editing in organizational contexts, including academia and the workplace. Extensive practice in copy, comprehensive, and collaborative editing. GE credit: AH, VL, WE. Effective: 2010 Fall Quarter.

UWP 120—Rhetorical Approaches to Scientific & Technological Issues (4)

Lecture/Discussion—3 hour(s); Extensive Writing. Restricted to upper division standing. Application of rhetorical theories to scientific issues. Topics include: Rhetorical dimensions of scientific knowledge-making; scientific voice; rhetorical figures in science; incommensurability and demarcation; epistemology, definition, and classification; science wars; models of scientific literacy and accommodation, and implications for risk communication. GE credit: AH, SE, SL, WE. Effective: 2015 Winter Quarter.

UWP 121—History of Scientific Writing (4)

Lecture/Discussion—3 hour(s); Extensive Writing. Prerequisite(s): Upper division standing. History of scientific writing from the 17th century to the present; origins and evolution of scientific genres; role of scientific writing in producing scientific knowledge; discursive differences between disciplines; emergence of English as a global language of science. GE credit: AH, SE, SL, WE. Effective: 2013 Fall Quarter.

UWP 190—Capstone Portfolio Seminar (4)

Lecture/Discussion—3 hour(s); Extensive Writing. Prerequisite(s): UWP 100. Open to majors who have completed 135 units. Capstone course for majors. Synthesis and application of rhetorical concepts learned in the major. Development of professional digital and print portfolio for graduate school and career applications. Effective: 2016 Spring Quarter.

UWP 192—Internship in Writing (1-12)

Internship—3-36 hour(s). Prerequisite(s): UWP 001 or UWP 001V or UWP 001Y or ENL 003; or equivalent course; consent of instructor. Internships in fields where students can practice their skills. May be taught abroad. May be repeated up to 12 unit(s). (P/NP grading only.) GE credit: AH. Effective: 2018 Winter Quarter.

UWP 197T—Tutoring in Writing (1-5)

Tutorial—1-5 hour(s). Prerequisite(s): Consent of Instructor. Upper division standing. Tutoring one-on-one or leading small voluntary discussion groups affiliated with a writing course. May be repeated up to 10 unit(s). (P/NP grading only.) GE credit: AH. Effective: 2005 Fall Quarter.

UWP 197TC—Community Tutoring in Writing (1-4)

Tutorial—1-4 hour(s). Prerequisite(s): Consent of Instructor. Upper division standing. Field experience, with individuals or in K-12 classroom instruction, focusing on reading- and writing-to-learn strategies in any subject area. May be repeated up to 10 unit(s). (P/NP grading only.) GE credit: AH. Effective: 2005 Fall Quarter.

UWP 198—Directed Group Study (1-5)

Variable—1-5 hour(s). Prerequisite(s): UWP 001 or UWP 001V or UWP 001Y or ENL 003; or equivalent course; consent of instructor. Directed group study. May be taught abroad. May be repeated up to 10 unit(s). (P/NP grading only.) GE credit: AH, WE. Effective: 2018 Winter Quarter.

UWP 199—Special Study for Advanced Undergraduates (1-5)

Variable—1-5 hour(s). Prerequisite(s): Consent of Instructor. (P/NP grading only.) GE credit: AH, WE. Effective: 2005 Fall Quarter.

UWP 220—Rhetorical Approaches to Genre Study (4)

Lecture/Discussion—3 hour(s); Extensive Writing. Prerequisite(s): Graduate standing or consent of instructor. Using genre theory and methods of analysis to understand and prepare to do research on different types of writing in varying academic and professional contexts. Emphasis on problems in organizational, professional, and/or interdisciplinary communication. Effective: 2015 Fall Quarter.

UWP 225—English for International/ESL Graduate Students (4)

Lecture/Discussion—4 hour(s). Prerequisite(s): Consent of Instructor. Multi-skills ESL course designed to help international/ESL students improve their English language skills for successful academic study. Emphasis on writing, speaking, listening, reading, and academic culture. Not open for credit to students who have taken LIN 025. (S/U grading only.) Effective: 2019 Winter Quarter.

UWP 226—Writing for International Graduate Students (4)

Lecture/Discussion—4 hour(s). Prerequisite(s): Consent of Instructor. Focuses on writing needed for academic work, including summaries, critiques, research & grant proposals, memos, resumes, and research papers. Includes a review of grammar needed for writing and some focus on reading skills and American vocabulary and idioms. Not open for credit to students who have taken LIN 026. (S/U grading only.) Effective: 2019 Fall Quarter.

UWP 250—Writing Assessment (4)

Lecture/Discussion—3 hour(s); Extensive Writing. Prerequisite(s): Graduate standing or consent of instructor. Examines key testing and measurement concepts; the history of writing assessment; and relationships among writing tests and methods of teaching writing; the impacts of Information and Communication Technology (ICT), and how educational policies both drive and respond to writing assessments. Effective: 2011 Fall Quarter.

UWP 253—Writing Program Administration (4)

Lecture/Discussion—3 hour(s); Extensive Writing. Theories, models, and procedures of writing programs, primarily in higher education. Developmental, first-year, and advanced writing programs, writing centers, writing-across-the-curriculum programs, writing minors and majors, and graduate programs in rhetoric and composition. Effective: 2014 Fall Quarter.

UWP 255—Theory & Research in Response to Student Writing (4)

Discussion—3 hour(s); Extensive Writing; Extensive Writing/Discussion; Project (Term Project). Restricted to graduate standing. Intensive focus on the critical topic of response or feedback to student writers. Coverage of philosophy, theory, and empirical research on teacher written feedback, teacher-student writing conferences, peer response, and error correction. Effective: 2013 Fall Quarter.

UWP 270—Literacy & Technology (4)

Lecture/Discussion—3 hour(s); Extensive Writing. Prerequisite(s): Graduate standing or consent of instructor. Examines how the physical qualities of texts offer different affordances during production and reception; grounds these discussions in the development of literacy practices and writing technologies from ancient to contemporary; creates frameworks for research into literacy, teaching, and textual technologies. Effective: 2011 Fall Quarter.

UWP 271—Second Language Writing (4)

Seminar—3 hour(s); Extensive Writing; Project (Term Project). Prerequisite(s): Graduate standing. Restricted to graduate standing. Traces the history of second language writing theory and research on second language writers in a variety of academic and professional contexts. Emphasis on writer characteristics, texts, and contexts. Effective: 2013 Fall Quarter.

UWP 280—Journal Editing Workshop: Writing on the Edge (2)

Seminar—2 hour(s). Reading and critiquing manuscript submissions. Discussing relevant work in the field of writing studies. Applying principles of professional editing. Developmental editing, copy-editing, and typesetting of accepted manuscripts. Soliciting articles and communicating with contributors. Students encouraged to enroll both quarters. May be repeated for credit. (S/U grading only.) Effective: 2013 Fall Quarter.

UWP 298—Directed Group Study (1-5)

Variable—1-5 hour(s). Prerequisite(s): Consent of Instructor. Graduate standing. (S/U grading only.) Effective: 2005 Fall Quarter.

UWP 299—Individual Study (1-12)

Workshop—1-12 hour(s). Prerequisite(s): Consent of Instructor. Graduate standing. (S/U grading only.) Effective: 2005 Fall Quarter.

UWP 390—Theory & Practice of Teaching University-Level Composition (4)

Seminar—3 hour(s); Extensive Writing. Open to graduate students teaching UWP 001 in the fall quarter following this course. Examination of current theories and practices in teaching of writing. Practical application to undergraduate writing courses. Emphasis on designing assignments and class sequences, and responding to student writing. Examination of impact of cultural, technological and theoretical changes on composition pedagogy. Effective: 2013 Fall Quarter.

UWP 391—Oral English for ESL Students (4)

Lecture/Discussion—4 hour(s). Prerequisite(s): Open only to non-native speakers of English with priority enrollment to international student teaching assistants; completion of any required ESL courses or consent of instructor. Intensive work in oral English for non-native English-speaking students, particularly international student teaching assistants, to increase fluency, accuracy, and use of appropriate discourse strategies in academic settings; e.g., seminar, discussion, laboratory. May be repeated for credit with consent of instructor. (S/U grading only.) Effective: 2020 Winter Quarter.

UWP 392—Teaching Expository Writing (2)

Discussion—2 hour(s). Prerequisite(s): UWP 390; Graduate standing, appointment as Teaching Assistant in the Composition Program; or the equivalent of UWP 390. Discussion of problems related to teaching expository writing at the university level, with special emphasis on teaching reading and writing skills and responding to student papers. (S/U grading only.) Effective: 2005 Fall Quarter.

UWP 395—Teaching Multilingual Writers (4)

Seminar—3 hour(s). Prerequisite(s): Graduate standing or advanced undergraduate standing; recommended: UWP 390, LIN 1, ENL 106/LIN 106/UWP 106. Preparing teachers of university-level second language writers, whether in composition courses or courses in other disciplines with a substantial writing component. Suitable for graduate students and advanced undergraduates. Effective: 2017 Fall Quarter.

UWP 396—Teaching Assistant Training Practicum (1-4)

Variable—1-4 hour(s). Prerequisite(s): Consent of Instructor. Graduate standing. May be repeated for credit. (S/U grading only.) Effective: 2005 Fall Quarter.

VEN—Viticulture & Enology

Courses in VEN:

VEN 002—Introduction to Viticulture (2)

Lecture—2 hour(s). Fundamental principles of biology and culture of the grapevine including taxonomy, morphology, physiology, distribution, domestication, utilization, propagation, production systems, harvesting, and storage and processing of grapes. Successful completion should prepare students for upper division courses in viticulture. GE credit: SE. Effective: 1997 Winter Quarter.

VEN 003—Introduction to Winemaking (3)

Lecture—3 hour(s). Overview of the history of wine, viticulture, fermentation, winery operations, the physiology of wine consumption, wines produced in California and other major wine-producing regions and the sensory evaluation of wine. May be taught abroad. GE credit: SE, SS. Effective: 1997 Winter Quarter.

VEN 090X—Lower Division Seminar (2)

Seminar—1 hour(s); Term Paper; Extensive Writing. Prerequisite(s): Consent of Instructor. Lower division standing. Introduction to current issues surrounding wine and health as they relate to diet, nutrition, and toxicology. Effective: 1998 Winter Quarter.

VEN 099—Special Study for Undergraduates (1-5)

Variable. (P/NP grading only.) Effective: 1997 Winter Quarter.

VEN 101A—Viticultural Practices (3)

Lecture—1.5 hour(s); Discussion/Laboratory—3.5 hour(s). Prerequisite(s): VEN 002. Identification, cultivation, and use of the major wine, table, raisin, and rootstock cultivars. Includes practices specific to the fall such as fruit contracts, maturity sampling, harvesting, cover crops, and soil-pests. One field trip required. GE credit: SE. Effective: 2004 Fall Quarter.

VEN 101B—Viticultural Practices (3)

Lecture—1.5 hour(s); Discussion/Laboratory—3.5 hour(s). Prerequisite(s): VEN 002. Theory, principles, and practices of pruning and grapevine propagation. Plant materials and the certification process, weed control and weed identification, wood diseases, and frost protection. One field trip required. GE credit: SE. Effective: 2004 Winter Quarter.

VEN 101C—Viticultural Practices (3)

Lecture—1.5 hour(s); Discussion/Laboratory—3.5 hour(s). Prerequisite(s): VEN 002. Field oriented experience in the principles and practices of grapevine production, including vineyard establishment, vine training, trellising, canopy management practices, irrigation and water management, and methods of crop adjustment for improvement of fruit quality. One field trip required. GE credit: SE. Effective: 2004 Spring Quarter.

VEN 110—Grapevine Growth & Physiology (3)

Lecture—3 hour(s). Prerequisite(s): VEN 002. Botanical aspects including morphology and domestication will precede lectures covering flower development and energy budget concepts. Impact of physiological variables such as photosynthesis translocation, mineral nutrition, and water relations on fruit ripening and composition will be covered. GE credit: SE. Effective: 1997 Winter Quarter.

VEN 111—World Viticulture (3)

Lecture—3 hour(s). Prerequisite(s): Upper division standing. Study of the diversity of viticulture, both geographical and historical. History of grape growing and its spread throughout the world will be covered, along with discussions of current viticultural practices in different parts of the world, including California. GE credit: OL, SE, WE. Effective: 1997 Winter Quarter.

VEN 111L—Critical Evaluation of Wines of the World (1)

Discussion/Laboratory—3 hour(s). Prerequisite(s): VEN 111 (can be concurrent); VEN 111 required concurrently. Critical analysis of wines produced in different parts of the world with emphasis on the relationship between sensory properties of the wines and factors associated with their place of origin. (P/NP grading only.) GE credit: SE. Effective: 2019 Winter Quarter.

VEN 112—Soils in Viticulture (3) *Review all entries*

Lecture—3 hour(s). Prerequisite(s): (CHE 002B or CHE 002BH); BIS 002A; (PHY 001A, PHY 001B (can be concurrent)) or PHY 007A (can be concurrent); or Consent of Instructor. Open to Viticulture & Enology majors and grad group only or with consent of instructor. Landscape distribution, physical and chemical processes in viticultural soils. Site evaluation procedures, best soil management practices, vineyard fertilization, and soil health monitoring. Effective: 2021 Winter Quarter.

VEN 112—Soils in Viticulture (3) *Review all entries*

Lecture—3 hour(s). Prerequisite(s): (CHE 002B or CHE 002BH); (PHY 007B or PHY 009A); BIS 002A. Open to Viticulture and Enology majors and grad group only or with consent of instructor. Landscape distribution, physical and chemical processes in viticultural soils. Site evaluation procedures, best soil management practices, vineyard fertilization, and soil health monitoring. Effective: 2018 Fall Quarter.

VEN 114—Fermented Foods (4)

Lecture—3 hour(s); Term Paper. Prerequisite(s): BIS 103; MIC 102; or Consent of Instructor. Pass One restricted to upper division or graduate level Food Science and Viticulture & Enology majors. Physiology, biochemistry, and genetics of microorganisms important in food fermentations. How microorganisms are used in fermentations and how raw materials are converted into finished fermented foods and beverages. (Same course as FST 114.) Effective: 2020 Spring Quarter.

VEN 115—Raisin & Table Grape Production (2)

Lecture—2 hour(s). Prerequisite(s): VEN 002. Overview of the raisin and table grape industries in California and other production areas of the world. Cultural practices associated with raisin and table grape production will also be discussed. GE credit: SE. Effective: 1997 Winter Quarter.

VEN 118—Grapevine Pests, Diseases & Disorders (3)

Lecture—3 hour(s). Prerequisite(s): VEN 002. Various pests and diseases of vineyards throughout California. Pest/disease identification and control methods (to include sampling techniques) also will be discussed. Integrated management approach to pest control methods will be emphasized. GE credit: SE. Effective: 1997 Winter Quarter.

VEN 123—Analysis of Musts & Wines (2)

Lecture—2 hour(s). Prerequisite(s): CHE 002C; PLS 021; (CHE 008B or CHE 118B or CHE 128B). Fundamental principles of analytical chemistry as they relate to specific methods used in winemaking. GE credit: SE. Effective: 2018 Fall Quarter.

VEN 123L—Analysis of Musts & Wines Laboratory (2)

Laboratory—3 hour(s); Independent Study—3 hour(s). Prerequisite(s): VEN 123 (can be concurrent); CHE 002C; PLS 021; (CHE 008B or CHE 118B or CHE 128B). Restricted to upper division and graduate students in Viticulture & Enology; others by approval of instructor. Fundamental principles of analytical chemistry as they relate to specific methods used in winemaking. Laboratory exercises demonstrating various chemical, physical and biochemical methods. Data will be analyzed and results interpreted in weekly lab reports; includes student-designed independent project and written report. GE credit: QL, SE, VL, WE. Effective: 2018 Fall Quarter.

VEN 124—Wine Production (2)

Lecture—2 hour(s). Prerequisite(s): VEN 003; VEN 123 (can be concurrent); (BIS 102 or BIS 105). Principles and practices of making standard types of wines, with special reference to grape varieties used and methods of vinification. GE credit: SE, WE. Effective: 2018 Fall Quarter.

VEN 124L—Wine Production Laboratory (3)

Laboratory—3 hour(s); Independent Study—3 hour(s); Term Paper—3 hour(s). Prerequisite(s): VEN 124 (can be concurrent). Restricted to undergraduates in fermentation science, viticulture & enology, biotechnology, microbiology, food science and applied plant biology majors; to graduate students in food science, agricultural and environmental chemistry and horticulture. Current technologies used in production of California table wines; analysis and monitoring of impact of fermentation variables on microbial performance and product quality; student-designed independent research project. GE credit: OL, SE, WE. Effective: 2000 Fall Quarter.

VEN 125—Wine Types & Sensory Evaluation (2)

Lecture—2 hour(s). Prerequisite(s): PLS 120 or STA 106. Open to upper division and graduate students in Viticulture & Enology; others by approval of instructor. Principles of sensory evaluation and application to wines. Factors influencing wine flavor, data from sensory analysis of model solutions. GE credit: QL, SE. Effective: 2018 Spring Quarter.

VEN 125L—Sensory Evaluation of Wine Laboratory (2)

Laboratory—3 hour(s); Term Paper—3 hour(s). Prerequisite(s): VEN 125 (can be concurrent). Restricted to upper division major students in fermentation science or viticulture & enology; graduate students in the food science program. Sensory evaluation of wines and model systems using discrimination tests, ranking, descriptive analysis and time-intensity analysis. Data will be analyzed by appropriate statistical tests and the results interpreted in extensive weekly lab reports. GE credit: QL, SE, VL, WE. Effective: 2001 Winter Quarter.

VEN 126—Wine Stability (3)

Lecture—2 hour(s); Discussion—1 hour(s). Prerequisite(s): VEN 124. Restricted to Viticulture & Enology; Fermentation Science, Applied Plant Biology majors; graduate students in Food Science, Microbiology, Horticulture and Horticulture & Agronomy groups. Principles of equilibria and rates of physical and chemical reactions in wines; treatment of unstable components in wines by adsorption, ion exchange, refrigeration, filtration, and membrane processes; and protein, polysaccharide, tartrate, oxidative and color stabilities. GE credit: SE. Effective: 2001 Winter Quarter.

VEN 126L—Wine Stability Laboratory (2)

Laboratory—3 hour(s); Independent Study—3 hour(s). Prerequisite(s): VEN 126 (can be concurrent); VEN 123L; and Consent of Instructor. Restricted to upper division Fermentation Science, Viticulture & Enology majors, graduate students in the Food Science, Agricultural and Environmental Chemistry, Microbiology, or by consent of instructor. Practical application of principles of equilibria and rates of physical and chemical reactions to wine stability. GE credit: SE, WE. Effective: 2019 Winter Quarter.

VEN 127L—Post-Fermentation Wine Processing Lab (3)

Laboratory—3 hour(s). Prerequisite(s): VEN 123; VEN 123L; VEN 126; VEN 126L; VEN 135 (can be concurrent); or Consent of Instructor. Restricted to upper division or graduate standing. Sensory and chemical impact of processing on wines; bench-scale analytical results to make and implement processing decisions; principles and theories of equipment operation and scale-up. Effective: 2018 Spring Quarter.

VEN 128—Wine Microbiology (2)

Lecture—2 hour(s). Prerequisite(s): (VEN 123, VEN 124, MIC 102, MIC 103L); VEN 125, VEN 126 recommended. Nature, development, physiology, biochemistry and control of yeasts and bacteria involved in the making, aging and spoilage of wine. GE credit: SE. Effective: 2019 Spring Quarter.

VEN 128L—Wine Microbiology Laboratory (2)

Laboratory—6 hour(s). Prerequisite(s): VEN 123; VEN 124; VEN 128 (can be concurrent); MIC 103L. Restricted to upper division major students in fermentation science or viticulture & enology; graduate students in the food science program. Nature, development, physiology, biochemistry and control of yeasts and bacteria involved in the making, aging and spoilage of wine. GE credit: SE, VL, WE. Effective: 2019 Spring Quarter.

VEN 135—Wine Technology & Winery Systems (4)

Lecture—3 hour(s); Discussion/Laboratory—2 hour(s). Prerequisite(s): PLS 021; MAT 016A; MAT 016B; ((PHY 001A, PHY 001B) or PHY 007A). Process technologies and process systems that are used in modern commercial wineries. Lectures, demonstrations, problem solving sessions, and possible field trips. Includes grape preparation and fermentation equipment; post-fermentation processing equipment; winery utilities, cleaning systems, and waste treatment. GE credit: SE. Effective: 2018 Spring Quarter.

VEN 140—Distilled Beverage Technology (3)

Lecture—3 hour(s). Prerequisite(s): CHE 008B; FST 110A. Distillation principles and practices; production technology of brandy, whiskey, rum, vodka, gin, and other distilled beverages; characteristics of raw materials, fermentation, distillation, and aging. GE credit: QL, SE. Effective: 1997 Winter Quarter.

VEN 181—Readings in Enology (1)

Discussion—1 hour(s). Prerequisite(s): VEN 003. Critical evaluation of selected monographs in enology. Discussion leadership rotates among the students. May be repeated up to 3 time(s). (P/NP grading only.) GE credit: SE. Effective: 2002 Spring Quarter.

VEN 190X—Winemaking Seminar (1)

Seminar—1 hour(s); Discussion—1 hour(s). Prerequisite(s): VEN 003. Open to Viticulture & Enology majors and graduate students. Outside speakers on a specific winemaking topic chosen for the quarter. Discussion with the speaker hosted by the faculty member(s) in charge. May be repeated up to 3 time(s). (P/NP grading only.) GE credit: SE. Effective: 2002 Spring Quarter.

VEN 192—Internship (1-12)

Internship—3-36 hour(s). Prerequisite(s): Consent of Instructor. Completion of 84 units. Work experience related to Fermentation Science (Enology) or Plant Science (Viticulture) majors. Internships must be approved and supervised by a member of the department or major faculty, but are arranged by the student. (P/NP grading only.) GE credit: SE. Effective: 1997 Winter Quarter.

VEN 198—Directed Group Study (1-5)

Variable. Prerequisite(s): Consent of Instructor. Directed group study. May be taught abroad. (P/NP grading only.) Effective: 1997 Winter Quarter.

VEN 199—Special Study for Advanced Undergraduates (1-5)

Variable. Prerequisite(s): Consent of Instructor. (P/NP grading only.) GE credit: SE. Effective: 1997 Winter Quarter.

VEN 200—Introduction to Scientific Methods (2)

Lecture/Discussion—1 hour(s); Term Paper—1 hour(s). Prerequisite(s): Graduate standing or consent of instructor. Processes involved in conducting scientific research. Topics covered will include conducting literature review, formulating hypotheses, and analyzing and reporting results. Students will complete an annotated bibliography and complete a written and oral research proposal. Effective: 2000 Spring Quarter.

VEN 210—Grape Development & Composition (3)

Discussion—1 hour(s); Lecture—2 hour(s). Prerequisite(s): (BIS 102, BIS 103) or BIS 105. Anatomy, physiology and biochemistry of grape berry development, with emphasis on the development of grape composition relevant to winemaking. Effective: 2018 Winter Quarter.

VEN 215—Sensometrics (3)

Lecture—3 hour(s). Prerequisite(s): FST 117; ((VEN 125, VEN 125L) or (FST 107A or FST 107B)); Or equivalent to FTS 117. Experimental design and statistical analysis, including multivariate analysis, for both sensory and instrumental data in enology and food-related studies. Effective: 2004 Fall Quarter.

VEN 216—Sustainable Vineyard Development (5)

Lecture/Discussion—3 hour(s); Fieldwork—3 hour(s); Term Paper. Prerequisite(s): (VEN 101A, VEN 101B, VEN 101C); (VEN 115 or VEN 118); or Consent of Instructor. Application of plant, meteorological, soil, water, GIS, and economic sciences to sustainable vineyard development. Preparation of a comprehensive study to determine the viticultural and economic feasibility of a given site for raisin, table, or wine grape production. Effective: 2017 Fall Quarter.

VEN 217—Field & GIS Evaluation of Soils (3)

Lecture/Lab—4 hour(s); Fieldwork—3 hour(s). Prerequisite(s): PLS 120; (PLS 205 or PLS 206); (SSC 100 or SSC 105 or SSC 107); VEN 101C; Consent of Instructor. ABT 180 is recommended. Principles and practices used to evaluate agricultural soils in the field, including soil pits, soil cores, electrical conductivity meters, ground penetrating radar, geomorphology and surface terrain analysis. Use of geographic information sciences, soil databases, digital elevation models and geostatistics. Effective: 2011 Fall Quarter.

VEN 219—Natural Products of Wine (3)

Lecture—3 hour(s). Prerequisite(s): VEN 123; VEN 124; and Consent of Instructor. Or natural products background. Structure, occurrence, and changes due to wine production to the natural products found in wine. Chemicals with a sensory impact will be emphasized, including flavonoids and other phenolics, terpenes and norisoprenoids, pyrazines, oak volatiles and other wine constituents. Effective: 1997 Winter Quarter.

VEN 223—Instrumental Analysis of Must & Wine (4)

Lecture—2 hour(s); Laboratory—3 hour(s); Discussion—1 hour(s). Prerequisite(s): VEN 123 or FST 103; ((BIS 102 and BIS 103) or BIS 105), (CHE 107B or CHE 115) recommended. Open to upper division students in Viticulture & Enology, Food Science and Technology; students in Food Science, Ag & Environmental Chemistry and Viticulture & Enology graduate groups. Theory and practice of instrumental analysis of wines and musts. mphasis on the principles of analytical techniques (e.g., CE, GC, HPLC, Mass Spectrometry) and factors determining correct choice of instrumental method. Effective: 2011 Fall Quarter.

VEN 224—Advances in the Science of Winemaking (3)

Lecture—3 hour(s). Prerequisite(s): VEN 125; VEN 126; or Consent of Instructor. Graduate standing. Selected topics in the science and technology of winemaking. Topics will be drawn from current research of participating enology and viticulture faculty. Critical analysis of the technical content of published material will be emphasized. Effective: 2001 Spring Quarter.

VEN 225—Advanced Sensory Analysis of Wines (3)

Lecture/Discussion—2 hour(s); Laboratory—4 hour(s). Prerequisite(s): ((VEN 124, VEN 125) or FST 107); AMR 120; Or the equivalent. Sensory descriptive analysis experiments will be designed and conducted using standard sensory science methods. Data will be analyzed by analyses of variance, principal component analyses and generalized Procrustes analysis to evaluate the judges performance and interpret the significance of the results. Effective: 1997 Winter Quarter.

VEN 235—Winery Design (4)

Lecture—2 hour(s); Discussion—1 hour(s); Independent Study. Prerequisite(s): VEN 124; VEN 135; or Consent of Instructor. Design of wineries. Includes process calculations, equipment selection, process layout and building choice and siting. Project scheduling, capital costs, and ten-year cash flow analysis for the winery. One field trip required. Effective: 2005 Winter Quarter.

VEN 270—Critical Evaluation of Scientific Literature (2)

Discussion—2 hour(s). Prerequisite(s): Consent of Instructor. Contemporary research topics in biological sciences. Discussion of recent research articles in a special topic area chosen by instructor. Intended to develop skills in critical evaluation of scientific publications. May be repeated for credit. (S/U grading only.) Effective: 2000 Winter Quarter.

VEN 290—Seminar (1)

Seminar—1 hour(s). Prerequisite(s): Consent of Instructor. (S/U grading only.) Effective: 1997 Winter Quarter.

VEN 290C—Advanced Research Conference (1)

Discussion—1 hour(s). Prerequisite(s): Consent of Instructor. Graduate standing. Planning and results of research programs, proposals, and experiments. Discussion and critical evaluation of original research being conducted by the group. Discussion led by individual research instructors for research group. May be repeated for credit. (S/U grading only.) Effective: 1997 Winter Quarter.

VEN 291—Advanced Viticulture (2)

Lecture/Discussion—2 hour(s). Prerequisite(s): VEN 110; VEN 116; VEN 124; VEN 125; VEN 210 recommended. Critical evaluation of scientific and popular literature on selected topics of current interest that relate viticulture to fruit or wine sensory attributes or quality. May be repeated up to 1 time(s). Effective: 2000 Winter Quarter.

VEN 292—Advanced Internship (1-15)

Internship—3-45 hour(s); Variable. Prerequisite(s): VEN 123; VEN 123L; VEN 124; VEN 124L; VEN 125; VEN 125L; VEN 126; VEN 126L; VEN 128; VEN 128L; and Consent of Instructor. Restricted to Viticulture & Enology Graduate Group graduate students. Work experience related to Fermentation Science (Enology) or Plant Science (Viticulture) majors. Internships must be approved and supervised by a graduate group faculty member or students major professor, but are arranged by the student. May be repeated up to 15 unit(s). (S/U grading only.) Effective: 2010 Winter Quarter.

VEN 297T—Tutoring in Viticulture & Enology (1-5)

Variable. Prerequisite(s): Consent of Instructor. Graduate standing. Designed for graduate students who desire teaching experience, but are not teaching assistants. Student contact primarily in laboratory or discussion sections, and under direction of a faculty member. (S/U grading only.) Effective: 1997 Winter Quarter.

VEN 298—Group Study (1-5)

Variable. Prerequisite(s): Consent of Instructor. (S/U grading only.) Effective: 1997 Winter Quarter.

VEN 299—Research (1-12)

Variable. Prerequisite(s): Consent of Instructor. (S/U grading only.) Effective: 1997 Winter Quarter.

VEN 396—Teaching Assistant Training Practicum (1-4)

Variable. Prerequisite(s): Graduate standing. May be repeated for credit. (P/NP grading only.) Effective: 1997 Winter Quarter.

VET—School of Veterinary Medicine

Courses in VET:

Courses in VET are not displayed. For information, contact the School of Veterinary Medicine at 530-752-1360; <http://www.vetmed.ucdavis.edu>.

VMB—Molecular Biosciences

Courses in VMB:

VMB 092—Internship (1-12)

Internship—3-36 hour(s). Prerequisite(s): Consent of Instructor. Lower division standing. Work experience off and on campus in all subject areas offered in the Department of Molecular Biosciences. Internships supervised by a member of the faculty. May be repeated for credit. (P/NP grading only.) Effective: 2003 Fall Quarter.

VMB 101V—Principles of Pharmacology & Toxicology (3)

Web Virtual Lecture—0.3 hour(s); Web Electronic Discussion—1.5 hour(s); Project (Term Project)—1.5 hour(s); Auto Tutorial—2 hour(s). Prerequisite(s): Consent of Instructor. Upper division standing in a science major; chemistry through organic chemistry, general biology, or consent of instructor; good standing with the university; computing capability (use MS Word®, Excel®, PowerPoint®, menu driven software programs, Course LMS); own a computer or have ready access to a computer with broadband Internet access; NPB 101 and BIS 104 recommended. Online course provides training in core concepts of pharmacological and toxicological sciences and prepares to develop higher-order problem solving and critical thinking skills. Designed for advanced undergraduate students with interests in pursuing graduate degrees in pharmacology, toxicology, physiological sciences, and for students with an interest in pursuing D.V.M., M.D., Pharmacy, Dentistry and Nursing professional degrees. Students who pursue careers in environmental sciences, public health management, and epidemiology may also benefit from the subject matter presented in this course. GE credit: OL, SE, SL. Effective: 2016 Fall Quarter.

VMB 101Y—Principles of Pharmacology & Toxicology (3)

Discussion/Laboratory—1.5 hour(s); Web Virtual Lecture—1 hour(s); Web Electronic Discussion—0.5 hour(s); Auto Tutorial—5 hour(s). Prerequisite(s): Upper division standing in a science major; chemistry through organic chemistry and general biology, or consent from instructor; good standing with university; computing capability using MS Word®, Excel®, PowerPoint®, menu driven software programs, SmartSite; computer, or ready access to a computer, with broadband Internet access. Restricted to upper division undergraduate students in good standing with school and fulfill course prerequisites. Hybrid course provides training in core concepts of pharmacological and toxicological sciences. Develop higher-order problem solving and critical thinking skills. GE credit: OL, SE, SL. Effective: 2013 Fall Quarter.

VMB 192—Internship (1-12)

Internship—3-36 hour(s). Prerequisite(s): Consent of Instructor. Completion of 84 units. Work experience off and on campus in all subject areas offered by the Department of Molecular Biosciences. Internships supervised by a member of the faculty. May be repeated for credit. (P/NP grading only.) Effective: 2003 Fall Quarter.

VMB 199—Special Study for Advanced Undergraduates (1-5)

Variable. (P/NP grading only.) Effective: 1997 Winter Quarter.

VMB 234—Current Topics in Neurotoxicology (3)

Lecture—3 hour(s). Prerequisite(s): Core courses in one of the following graduate programs: Pharmacology & Toxicology (PTX), Agricultural & Environmental Chemistry (AGC), Biochemistry & Molecular Biology (BMB), Cell & Developmental Biology (CDB), Immunology (IMM), Molecular Cellular & Integrative Physiology (MCP) or Neuroscience (NSC). Restricted to upper level undergraduate students must obtain permission from the course coordinator. General principles of neurotoxicology, the cell and molecular mechanisms and health impacts of specific neurotoxicants and the contribution of neurotoxic compounds to complex neurodevelopmental disorders and neurodegenerative diseases. (Same course as ETX 234, MCP 234.) Effective: 2010 Fall Quarter.

VMB 253—Metabolism of Toxicants & Drugs (2)

Lecture—2 hour(s). Prerequisite(s): PTX 201; PTX 202; PTX 203; General biochemistry or consent of instructor. Significance/chemical pathways of toxicants and drug metabolism, enzymology and molecular aspects of P450 and flavin monooxygenases, hydrolases and phase 2 transferases and experimental approaches for metabolism studies. Effective: 1997 Winter Quarter.

VMB 254—Toxicology of the Respiratory System (3)

Lecture—3 hour(s); Discussion. Prerequisite(s): PTX 201; PTX 202; PTX 203; or Consent of Instructor. Survey of structure and function of the respiratory system, the pathophysiology of major lung diseases, the interactions of toxicants with the lung and response of this organ to injury. Effective: 2006 Winter Quarter.

VMB 255—Pharmacokinetics & Biopharmaceuticals (2)

Lecture—16 hour(s); Discussion—4 hour(s). In-depth study of pharmacokinetics, including the fundamentals of pharmacokinetics, how to design a pharmacokinetic study and how to use both compartmental and non-compartmental analysis to interpret the data. Effective: 2011 Spring Quarter.

VMB 290—Seminar (1)

Seminar—1 hour(s). Prerequisite(s): Consent of Instructor. Graduate standing. Topics in nutrition, pharmacology/toxicology, and biochemistry. May be repeated for credit. (S/U grading only.) Effective: 2003 Fall Quarter.

VMB 297T—Tutoring in Graduate Molecular Biosciences (1-5)

Practice—1-5 hour(s). Prerequisite(s): Consent of Instructor. Graduate or professional student standing. Assist in preparation and teaching of courses in Nutrition, Pharmacology and Toxicology, or other courses offered by the department under direct supervision of the instructor. Designed for graduate or professional students who desire teaching experience in graduate courses. May be repeated up to 5 unit(s). (S/U grading only.) Effective: 2003 Winter Quarter.

VMB 298—Group Study (1-5)

Variable—3-15 hour(s). May be repeated for credit. (S/U grading only.) Effective: 2005 Winter Quarter.

VMB 299—Research (1-12)

Variable. (S/U grading only.) Effective: 1997 Winter Quarter.

VMB 397T—Tutoring in Molecular Biosciences (1-5)

Discussion—1-5 hour(s). Prerequisite(s): Consent of Instructor. Graduate or professional student standing. Experience in professional curriculum for graduate or professional students, not teaching assistants, under direct supervision of instructor. May be repeated up to 5 unit(s). (S/U grading only.) Effective: 2003 Fall Quarter.

VME—Medicine & Epidemiology

Courses in VME:**VME 057V—Global Population, Health, & Environment (4)**

Web Virtual Lecture—2 hour(s); Web Electronic Discussion—2 hour(s). Students critically examine multi-scale processes involving human, animal, and ecosystem health. Online team and independent work engage local and global topics around population pressures on environments and environmental pressures on populations. Effective: 2018 Spring Quarter.

VME 125—Knights Landing One Health Center (1)

Lecture—1 hour(s). Prerequisite(s): Corresponding VME 125L (laboratory portion) required. Enrollment in corresponding VME 125L (laboratory portion) required. Internship at Knights Landing One Health Center (KLOHC) for undergraduate pre-veterinary student. Application of veterinary and One Health concepts to their work at the center. May be repeated for credit. (P/NP grading only.) Effective: 2018 Fall Quarter.

VME 125L—Knights Landing One Health Center Lab (1)

Laboratory—1.5 hour(s). Prerequisite(s): VME 125 (can be concurrent). Internship at Knights Landing One Health Center (KLOHC) for undergraduate pre-veterinary students. Interns may offer technical help, assist with patient registration and records, animal handling, and foreign language interpretation. May be repeated for credit. (P/NP grading only.) Effective: 2018 Fall Quarter.

VME 158—Infectious Disease in Ecology & Conservation (3)

Lecture—3 hour(s). Prerequisite(s): BIS 002A; BIS 002B; BIS 002C; or equivalent. EVE 100 is recommended. Introduction to the dynamics and control of infectious disease in wildlife, including zoonotic diseases and those threatening endangered species. Basic epidemiological models and application to field data. Scientists' role in developing disease control policies. Effective: 2017 Winter Quarter.

VME 198—Directed Group Study (1-5)

Variable—3-15 hour(s). Directed group study. May be taught abroad. May be repeated for credit. (P/NP grading only.) Effective: 2007 Fall Quarter.

VME 199—Special Studies for Advanced Undergraduates (1-5)

Variable. (P/NP grading only.) Effective: 1997 Winter Quarter.

VME 217—Evaluation & Use of Diagnostic Tests (2)

Lecture—14 hour(s); Laboratory—6 hour(s); Discussion—3 hour(s). Prerequisite(s): MPM 205 or EPI 205; Consent of Instructor. Limited to 30 students. Clinical and epidemiologic properties and application of diagnostic tests for disease, with emphasis on selecting tests; validating, evaluating, and interpreting new tests individually and in aggregate; determining cutoff values; and developing testing strategies. Effective: 2017 Winter Quarter.

VME 225—Viral Pathogenesis Seminar/Journal Club (1)

Discussion—1 hour(s). Prerequisite(s): Consent of Instructor. Graduate student status in the Comparative Pathology, Microbiology or Immunology graduate groups. Participatory seminar addressing the mechanisms of retroviral pathogenesis in a journal club format. Focus on the review of current scientific journal papers concerning viral pathogenesis, immunology and virology with a special focus on retroviruses. May be repeated up to 12 time(s). (S/U grading only.) Effective: 2017 Winter Quarter.

VME 258—Infectious Disease in Ecology & Conservation (1)

Discussion—2 hour(s). Prerequisite(s): VME 158 must be taken concurrently. Presentation, analysis and discussion of primary literature on the dynamics and control of infectious disease in wildlife, including zoonotic diseases and those threatening endangered species. Multidisciplinary approach combines perspectives of ecology and veterinary medicine. Effective: 2008 Winter Quarter.

VME 298—Group Study (1-5)

Variable. Prerequisite(s): Student in School of Veterinary Medicine or consent of instructor. Group study in selected areas of the clinical sciences. (S/U grading only.) Effective: 1997 Winter Quarter.

VME 299—Research (1-12)

Variable. (S/U grading only.) Effective: 1997 Winter Quarter.

VSR—Surgical & Radiological Sciences

Courses in VSR:**VSR 099—Special Study for Undergraduates (1-5)**

Variable—3-15 hour(s). Prerequisite(s): Consent of Instructor. May be repeated for credit. (P/NP grading only.) Effective: 2005 Fall Quarter.

VSR 199—Special Study for Advanced Undergraduates (1-5)

Variable—3-15 hour(s). Prerequisite(s): Consent of Instructor. May be repeated for credit. (P/NP grading only.) Effective: 2005 Fall Quarter.

VSR 298—Group Study (1-5)

Variable—3-15 hour(s). Prerequisite(s): Consent of Instructor. Group study. May be repeated for credit. (S/U grading only.) Effective: 2005 Fall Quarter.

VSR 299—Research (1-12)

Variable—3-36 hour(s). Prerequisite(s): Consent of Instructor. May be repeated for credit. (S/U grading only.) Effective: 2005 Fall Quarter.

WAS—UC Davis Washington Center

Courses in WAS:

Optional elective courses listed at <http://www.ucdc.edu/academic/courses>.

WAS 187—Gun Violence (4)

Lecture/Discussion—4 hour(s). Restricted to students attending UC Washington Center program. Gun violence, viewed from the perspectives of criminology and public health. Topics include personal and societal contributing factors and critical assessment of potential solutions. Effective: 2002 Spring Quarter.

WAS 192—Internship in the UC Davis Washington Program (8)

Internship—32 hour(s). Prerequisite(s): WAS 193 (can be concurrent); Junior or senior standing, admission in the UC Davis Washington Program. WAS 193 required concurrently. Internship in Washington, DC with associated, supervised research project. (P/NP grading only.) Effective: 2014 Fall Quarter.

WAS 193—Washington Center Research Seminar (4)

Lecture/Discussion—1 hour(s); Independent Study—3 hour(s); Tutorial—0.5 hour(s). Prerequisite(s): WAS 192 (can be concurrent). Core academic component of Washington Program. Topics coordinated with internships. Research draws on resources uniquely available in Washington, DC. Supervised preparation of extensive paper. (Same course as POL 193W.) GE credit: OL, SS, WE. Effective: 2002 Spring Quarter.

WFC—Wildlife, Fish & Conservation Biology

Courses in WFC:

WFC 010—Wildlife Ecology & Conservation (4)

Lecture—3 hour(s); Discussion—1 hour(s). Introduction to the ecology and conservation of vertebrates. Complexity and severity of world problems in conserving biological diversity. GE credit: SE, SL, WE. Effective: 1997 Winter Quarter.

WFC 050—Natural History of California's Wild Vertebrates (3)

Lecture—2 hour(s); Discussion—1 hour(s). Examination of the natural history of California's wild vertebrates (fish, amphibians, reptiles, birds, and mammals), including their biogeography, systematics, ecology and conservation status. GE credit: SE, SL, WE. Effective: 2009 Winter Quarter.

WFC 051—Introduction to Conservation Biology (3)

Lecture—3 hour(s). Introduction to conservation biology including both biological and social issues related to the loss of species and habitats. Intended for students with no background in biological sciences. GE credit: SE, SL. Effective: 2017 Spring Quarter.

WFC 092—Internship (1-6)

Internship—3-18 hour(s). Prerequisite(s): Consent of Instructor. Lower division standing. Work experience off and on campus in all subject areas offered in the department. Internships supervised by a member of the faculty. (P/ NP grading only.) Effective: 1997 Winter Quarter.

WFC 099—Special Study for Undergraduates (1-5)

Variable—1-5 hour(s). Prerequisite(s): Consent of Instructor. Special study for undergraduates. (P/NP grading only.) Effective: 2010 Winter Quarter.

WFC 100—Field Methods in Wildlife, Fish, & Conservation Biology (4)

Lecture—2 hour(s); Laboratory—3 hour(s); Fieldwork—3 hour(s). Prerequisite(s): EVE 101 (can be concurrent) or ESP 100 (can be concurrent); (BIS 002A, BIS 002B, BIS 002C); and Consent of Instructor. Or equivalent course of EVE 101 or ESP 100 (can be taken concurrently). Introduction to field methods for monitoring and studying wild vertebrates and their habitats, with an emphasis on ecology and conservation. Required weekend field trips. GE credit: SE. Effective: 2017 Spring Quarter.

WFC 101—Field Research in Wildlife Ecology (2)

Lecture/Discussion—2 hour(s). Prerequisite(s): Consent of Instructor. One upper division course in each of ecology, statistics, and either ornithology, mammalogy, or herpetology. Field research in ecology of wild vertebrates in terrestrial environments; formulation of testable hypotheses, study design, introduction to research methodology, oral and written presentation of results. Limited enrollment. GE credit: SE, VL, WE. Effective: 2017 Winter Quarter.

WFC 101L—Field Research in Wildlife Ecology: Laboratory (4)

Lecture/Discussion—2 hour(s); Fieldwork—15 hour(s). Prerequisite(s): WFC 101 (can be concurrent); and Consent of Instructor. Limited enrollment. Field research in ecology of wild vertebrates in terrestrial environments; testing ecological hypotheses through field research, application of research methodology, supervised independent research projects. Held between Labor Day and fall quarter. Effective: 2017 Winter Quarter.

WFC 102—Field Studies in Fish Biology (1)

Lecture/Discussion—1 hour(s). Prerequisite(s): Consent of Instructor. Upper division course in each of ecology, aquatic biology, fish biology, and statistics. Emphasis on theory of quantitative fish capture methods and design of individual research projects on ecology, behavior, physiology or population biology of fishes. Effective: 1997 Winter Quarter.

WFC 102L—Field Studies in Fish Biology: Laboratory (6)

Fieldwork—15 hour(s); Laboratory—12 hour(s); Discussion/Laboratory—3 hour(s). Prerequisite(s): WFC 102 (can be concurrent); and Consent of Instructor. Field investigations of fish biology are emphasized including quantitative capture methods and individual research projects on ecology, behavior, physiology or population biology of fishes at the field site in relation to their habitats. GE credit: SE, WE. Effective: 2017 Winter Quarter.

WFC 103—Applied Statistics for Wildlife Research (4)

Lecture—3 hour(s); Laboratory—1 hour(s). Prerequisite(s): (MAT 016B or MAT 017B or MAT 021B); (WFC 010 or WFC 050); or Consent of Instructor. Introduction to basic statistical concepts and methods as tools for fish and wildlife research. Application of general guiding principles of developing research questions and projects, basic probability theory, statistical estimation (correlation, regression, ANOVA, Chi-square test) and hypothesis testing. Introduction of some specialized analytical techniques, such as population dynamics modeling and time series analysis. Only 2 units credit allowed to students who have completed STA 013, STA 100, or PLS 120. Effective: 2018 Fall Quarter.

WFC 110—Biology & Conservation of Wild Mammals (3)

Lecture—3 hour(s). Prerequisite(s): (BIS 002A, BIS 002B, BIS 002C); (EVE 101 (can be concurrent) or ESP 100 (can be concurrent)); Or equivalent course to ESP 100 or EVE 101. Origins, evolution, diversification, and geographical and ecological distributions of mammals. Morphological, physiological, reproductive, and behavioral adaptations of mammals to their environment. Effective: 2017 Winter Quarter.

WFC 110L—Laboratory in Biology & Conservation of Wild Mammals (3)

Laboratory—6 hour(s). Prerequisite(s): WFC 110 (can be concurrent); and Consent of Instructor. Limited enrollment. Laboratory exercises in the morphology, systematics, species identification, anatomy, and adaptations of wild mammals to different habitats. Effective: 2017 Winter Quarter.

WFC 111—Biology & Conservation of Wild Birds (3)

Lecture—3 hour(s). Prerequisite(s): BIS 002A; BIS 002B; BIS 002C; Upper division ecology course recommended. Phylogeny, distribution, migration, reproduction, population dynamics, behavior and physiological ecology of wild birds. Emphasis on adaptations to environments, species interactions, management, and conservation. GE credit: SE. Effective: 2017 Winter Quarter.

WFC 111L—Laboratory in Biology & Conservation of Wild Birds (3)

Laboratory—6 hour(s); Fieldwork—3 hour(s). Prerequisite(s): WFC 111 (can be concurrent); and Consent of Instructor. Limited enrollment. Laboratory exercises in bird species identification, anatomy, molts, age and sex, specialized adaptations, behavior, research, with emphasis on conservation of wild birds. Several weekend field trips, after class bird walks, and independent bird study are required. Effective: 2017 Winter Quarter.

WFC 120—Biology & Conservation of Fishes (3)

Lecture—3 hour(s). Prerequisite(s): BIS 002A; BIS 002B; BIS 002C; Upper division ecology course recommended. Evolution, ecology, and conservation of marine and freshwater fishes. Effective: 2017 Winter Quarter.

WFC 120L—Laboratory in Biology & Conservation of Fishes (2)

Laboratory—3 hour(s). Prerequisite(s): WFC 120 (can be concurrent); and Consent of Instructor. Limited enrollment. Morphology, taxonomy, conservation, and identification of marine and freshwater fishes with emphasis on California species. Effective: 2017 Winter Quarter.

WFC 121—Physiology of Fishes (4)

Lecture—3 hour(s); Laboratory—3 hour(s). Prerequisite(s): Upper division courses in nutrition and physiology or consent of instructor. Comparative physiology, growth, reproduction, behavior, and energy relations of fishes. GE credit: SE, WE. Effective: 1997 Winter Quarter.

WFC 122—Population Dynamics & Estimation (4)

Lecture—3 hour(s); Laboratory—3 hour(s). Prerequisite(s): (MAT 016A, MAT 016B); (STA 013 or STA 013Y); (BIS 002A, BIS 002B, BIS 002C); Or the equivalent of STA 013; an upper division course in ecology. Description of bird, mammal and fish population dynamics, modeling philosophy, techniques for estimation of animal abundance (e.g., mark-recapture, change-in-ratio, etc.), mathematical models of populations (e.g., Leslie matrix, logistic, dynamic pool, stockrecruitment); case histories. Effective: 2018 Spring Quarter.

WFC 124—Sampling Animal Populations (4)

Lecture—3 hour(s); Laboratory—3 hour(s). Prerequisite(s): (STA 100 or PLS 120); (EVE 101 or ESP 100); or equivalent; upper division standing. Introduction to major statistical modeling approaches for estimating animal population parameters, including: sample counts, distance sampling, repeated point counts (N-mixture modeling), capture-mark-recapture for closed and open populations, static and dynamic occupancy modeling, and richness estimation. Methods are embedded in the context of obtaining reliable estimates of abundance, survival, occurrence and other ecological parameters for management and conservation. Effective: 2019 Fall Quarter.

WFC 125—Tropical Ecology & Conservation (4)

Lecture—3 hour(s); Discussion—1 hour(s). Prerequisite(s): EVE 101 or ESP 100. Ecology and natural history of the tropics. Challenges and opportunities associated with tropical conservation. Design and communicate course-based research project. Only 2 units credit allowed to students who have completed EVE 138. Effective: 2019 Fall Quarter.

WFC 130—Physiological Ecology of Wildlife (4)

Lecture—3 hour(s); Discussion—1 hour(s). Prerequisite(s): EVE 101 or ESP 100; (BIS 002A, BIS 002B, BIS 002C); Or equivalent course to ESP 100. Principles of physiological ecology, emphasizing vertebrates. Ecological, evolutionary, and behavioral perspectives on physiological mechanisms used by animals to adapt to their environment, including consideration of climate-change and other threats to biodiversity. Tropical, temperate, and polar ecosystems are highlighted. GE credit: SE. Effective: 2017 Winter Quarter.

WFC 134—Herpetology (3)

Lecture—2 hour(s); Term Paper. Prerequisite(s): BIS 002A; BIS 002B; BIS 002C; Upper division ecology course recommended. Evolution and ecology of the world's diverse reptiles and amphibians. Emphasis on adaptations to environments, species interactions, management, and conservation. Effective: 2017 Winter Quarter.

WFC 134L—Herpetology Laboratory (3)

Laboratory—6 hour(s). Prerequisite(s): WFC 134 (can be concurrent); and Consent of Instructor. Diagnostic characteristics and functional attributes of amphibians and reptiles, emphasizing ecological, bio-geographic and phylogenetic patterns. Field experience with common species of reptiles and amphibians in the Davis area. Effective: 2017 Winter Quarter.

WFC 136—Ecology of Waterfowl & Game Birds (4)

Lecture—3 hour(s); Laboratory—3 hour(s); Fieldwork—1 hour(s). Prerequisite(s): WFC 111; or Consent of Instructor. WFC 111L strongly recommended. Detailed examination of distribution, behavior, population dynamics, and management of waterfowl and upland game birds. Effective: 2017 Winter Quarter.

WFC 141—Behavioral Ecology (4)

Lecture—3 hour(s); Film Viewing—1 hour(s). Prerequisite(s): EVE 101 or ESP 100 (can be concurrent); (BIS 002A, BIS 002B, BIS 002C); Or equivalent course. Basic theories underlying the functional and evolutionary significance of behavior, and the role of ecological constraints. Supporting empirical evidence taken mainly from studies of wild vertebrates. GE credit: SE. Effective: 2017 Winter Quarter.

WFC 144—Marine Conservation Science (4)

Lecture—3 hour(s); Discussion—1 hour(s). Prerequisite(s): Course in introductory ecology. Limited to 30 students. Key differences between marine and terrestrial ecosystems, major stressors of marine ecosystems (e.g., fisheries, pollution, bioinvasions, climate change and habitat destruction) and their consequences. Laws and agencies responsible for addressing problems, and the policies used. Effective: 2015 Fall Quarter.

WFC 150—Urban Wildlife Ecology (3)

Lecture—3 hour(s). Prerequisite(s): BIS 002A; BIS 002B; BIS 002C; Or the equivalent. Introduction to the behavior, ecology, and evolution of wild animals in urban environments. Effects of urbanization on disease, fitness, and dynamics of animal populations. Conservation and conflict management efforts in urban settings. Effective: 2014 Spring Quarter.

WFC 151—Wildlife Ecology (4)

Lecture—3 hour(s); Discussion—1 hour(s). Prerequisite(s): BIS 002B; Or equivalent. Ecology of wild vertebrates, including habitat selection, spatial organization, demography, population dynamics, competition, predation, herbivory, energetics, and community dynamics, set in the context of human-caused degradation of environments in North America. Effective: 2015 Fall Quarter.

WFC 152—Ecology of Human-Wildlife Conflicts (3)

Lecture—3 hour(s). Prerequisite(s): BIS 002B; Or equivalent. Ecological approaches to managing wild vertebrates that come into conflict with agriculture, public health, or the conservation of biodiversity. Effective: 2017 Winter Quarter.

WFC 153—Wildlife Ecotoxicology (4)

Lecture—3 hour(s); Discussion—1 hour(s). Prerequisite(s): Introductory courses in organic chemistry, ecology, and physiology, or consent of instructor; ETX 101 recommended. Various forms of environmental pollution in relation to fish and wildlife, the effects and mechanisms of pollutants, effects on individuals and systems, laboratory and field ecotoxicology, examples/case histories, philosophical/management considerations. GE credit: SE, WE. Effective: 1997 Winter Quarter.

WFC 154—Conservation Biology (4)

Lecture—3 hour(s); Discussion—1 hour(s). Prerequisite(s): (EVE 101 (can be concurrent) or ESP 100 (can be concurrent)); (BIS 002A, BIS 002B, BIS 002C); Or the equivalent. Introduction to conservation biology and background to the biological issues and controversies surrounding loss of species and habitats. Effective: 2019 Winter Quarter.

WFC 155—Habitat Conservation & Restoration (3)

Lecture—3 hour(s). Prerequisite(s): EVE 101 or ESP 100; Or the equivalent of ESP 100 or EVE 101; WFC 154 and ENH 160 recommended. Analysis of the characteristics of wildlife and fish habitats, the conservation of habitats, and restoration. GE credit: SE, VL, WE. Effective: 2009 Winter Quarter.

WFC 155L—Habitat Conservation & Restoration Laboratory (2)

Fieldwork—3 hour(s); Laboratory—3 hour(s). Prerequisite(s): (EVE 101 or ESP 100); WFC 155 (can be concurrent); Or the equivalent of ESP 100 or EVE 101. Analysis of the characteristics of wildlife and fish habitats, application of restoration methods, and evaluation of conservation and restoration projects in the field. Participate during the term in a restoration project. Effective: 2009 Winter Quarter.

WFC 156—Plant Geography (4)

Lecture—3 hour(s); Laboratory—3 hour(s); Term Paper. Prerequisite(s): ESP 100 or EVE 101; PLB 102 or PLB 108 strongly recommended. Survey of the geographical distribution of vegetation types and habitats, with consideration of the environmental and historical factors that determine these patterns. Conservation and management approaches. Analytical field and lab techniques introduced. GE credit: SE, VL, WE. Effective: 1997 Fall Quarter.

WFC 157—Coastal Ecosystems (4)

Lecture—3 hour(s); Laboratory—3 hour(s); Fieldwork—3 hour(s). Prerequisite(s): EVE 101; course work in organismal biology, physical geography, and geology recommended. Overview of coastal ecosystems, physical and biological elements and processes, and coastal zone dynamics, including sandy, rocky and muddy shorelines, estuaries, dunes and coastal watersheds. Discussion of the role of historical factors and conservation, restoration, and management approaches. GE credit: SE, VL. Effective: 1997 Fall Quarter.

WFC 158—Infectious Disease in Ecology & Conservation (3)

Lecture—3 hour(s). Prerequisite(s): EVE 101 or ESP 100 or VET 409; Or the equivalent. Introduction to the dynamics and control of infectious disease in wildlife, including zoonotic diseases and those threatening endangered species. Basic epidemiological models and their applications. Role of scientists in developing disease control policies. Effective: 2004 Spring Quarter.

WFC 160—Animal Coloration (3)

Lecture—3 hour(s). Prerequisite(s): BIS 002A; BIS 002B; BIS 002C. Evolutionary and ecological significance of coloration in mammals, birds, reptiles, amphibians, fish, cephalopods, crustaceans, spiders, insects, humans as well as color in fashion, plants and the military. Topics include history, protective coloration, warning coloration, mimicry, sexual dichromatism and color change. Effective: 2019 Winter Quarter.

WFC 168—Climate Change Ecology (4)

Lecture—3 hour(s); Discussion—1 hour(s). Prerequisite(s): BIS 002B; (EVE 101 or ESP 100); or Consent of Instructor. Ecological responses to current and expected future climate change, across levels of biological organization from individuals to ecosystems. Effective: 2019 Winter Quarter.

WFC 190—Departmental Research Seminar (1)

Seminar—1 hour(s). Prerequisite(s): Upper division standing in the Biological Sciences. Reports and discussions of recent advances related to wildlife and fisheries biology. May be repeated up to 3 time(s). (P/NP grading only.) Effective: 2001 Fall Quarter.

WFC 191—Museum Science (2)

Lecture—1 hour(s); Laboratory—3 hour(s). Prerequisite(s): Consent of Instructor. Upper division standing. Principles and methods required to preserve and present biological specimens for research, teaching collections, and museums. (P/NP grading only.) Effective: 1997 Winter Quarter.

WFC 192—Internship (1-12)

Internship—3-36 hour(s). Prerequisite(s): Consent of Instructor. Completion of 84 units. Work experience off and on campus in all subject areas offered in the department. Internships supervised by a member of the faculty. (P/NP grading only.) Effective: 1997 Winter Quarter.

WFC 195—Field & Laboratory Research (3)

Laboratory—6 hour(s); Discussion—1 hour(s). Prerequisite(s): (WFC 110L or WFC 111L or WFC 120L); (WFC 121 or WFC 130); EVE 101; and Consent of Instructor. Or the equivalent of EVE 101. Critique and practice of research methods applied to field and/or laboratory environments of wild vertebrates. Work independently or in small groups to design experimental protocol, analyze data, and report their findings. May be repeated up to 2 time(s). GE credit: SE. Effective: 1997 Winter Quarter.

WFC 197T—Tutoring in Wildlife & Fisheries (1-5)

Variable. Prerequisite(s): Consent of Instructor. Major in Wildlife, Fish, and Conservation Biology. Experience in teaching under guidance of faculty member. (P/NP grading only.) Effective: 1997 Winter Quarter.

WFC 198—Directed Group Study (1-5)

Variable. (P/NP grading only.) Effective: 1997 Winter Quarter.

WFC 199—Special Study for Advanced Undergraduates (1-5)

Variable. (P/NP grading only.) Effective: 1997 Winter Quarter.

WFC 223—Conservation Biology & Animal Behavior (3)

Lecture—1.5 hour(s); Discussion—1.5 hour(s). Prerequisite(s): ECL 208 or ANB 221; and Consent of Instructor. Influences of concepts of animal behavior (functional, evolutionary, developmental, mechanistic, and methodological issues) on conservation biology theory and practice. Effective: 2003 Spring Quarter.

WFC 230—Advanced Physiological Ecology of Wildlife (4)

Lecture—3 hour(s); Discussion—1 hour(s). Advanced principles of physiological ecology. Ecological, evolutionary and behavioral perspectives on physiological mechanisms used by animals to adapt to their environment in the context of climate change and other threats to biodiversity. Primary literature will form the basis of discussion. Effective: 2015 Winter Quarter.

WFC 262—Advanced Population Dynamics (3)

Lecture—3 hour(s). Prerequisite(s): Graduate standing; advanced course in ecology (e.g., EVE 101), population dynamics (e.g., WFC 122), and one year of calculus; familiarity with matrix algebra and partial differential equations recommended. Logical basis for population models, evaluation of simple ecological models, current population models with age, size, and stage structure, theoretical basis for management and exemplary case histories. Emphasis on development and use of realistic population models in ecological research. (Same course as ECL 262.) Effective: 2016 Spring Quarter.

WFC 290—Seminar (1-3)

Seminar—1-3 hour(s). Prerequisite(s): Consent of Instructor. Seminar devoted to a highly specific research topic in any area of wildlife or fisheries biology. Special topic selected for a quarter will vary depending on interests of instructor and students. (S/U grading only.) Effective: 1997 Winter Quarter.

WFC 290C—Research Group Conference (1)

Discussion—1 hour(s). Prerequisite(s): Consent of Instructor. Weekly conference on research problems, progress and techniques in wildlife and fishery sciences. May be repeated for credit. (S/U grading only.) Effective: 1997 Winter Quarter.

WFC 291—Seminar in Aquatic Ecology (2)

Seminar—2 hour(s). Prerequisite(s): Graduate standing in Biology. Presentation and analysis of assigned topics in aquatic ecology emphasizing fish, fisheries and aquatic conservation. (S/U grading only.) Effective: 1997 Winter Quarter.

WFC 292—Physiology of Fishes Seminar (1)

Seminar—1 hour(s). Prerequisite(s): Consent of Instructor. Graduate standing and at least two courses in physiology. Seminar devoted to current topics concerning the physiological functioning of fishes. May be repeated up to 2 time(s). (S/U grading only.) Effective: 1997 Winter Quarter.

WFC 294—Seminar in Behavioral Ecology of Predators & Prey (3)

Seminar—2 hour(s). Prerequisite(s): Graduate standing. Presentation and analysis of research papers on social and foraging behavior of predatory animals, antipredator strategies of prey species, co-evolution of predators and prey, and ecology of predator prey interactions. May be repeated up to 2 time(s). (Same course as ANB 294.) Effective: 2003 Winter Quarter.

WFC 295—Seminar in Wildlife Ecotoxicology (3)

Seminar—2 hour(s); Term Paper. Prerequisite(s): Graduate standing in Biology. Presentation and analysis of assigned and searched research papers on transport, exposure, and effects of environmental contaminants on wildlife-associated ecosystem components, especially at individual/population levels. Specific subjects vary each offering. (S/U grading only.) Effective: 1997 Winter Quarter.

WFC 297T—Supervised Teaching in Wildlife & Fisheries Biology (1-3)

Tutorial—3-9 hour(s). Prerequisite(s): Consent of Instructor. Meet qualifications for teaching assistant; graduate standing. Tutoring and teaching students in undergraduate courses in Wildlife, Fish, & Conservation Biology. Weekly conferences with instructor; evaluations of teaching; preparing for and conducting demonstrations, laboratories, and discussions; preparing and grading examinations. May be repeated up to 6 unit(s) when a different course is tutored. (S/U grading only.) Effective: 1997 Winter Quarter.

WFC 298—Group Study (1-5)

Variable. Effective: 1997 Winter Quarter.

WFC 299—Research (1-12)

Variable. (S/U grading only.) Effective: 1997 Winter Quarter.

WMS—Women's Studies

Courses in WMS:

WMS 020—Cultural Representations of Gender (4)

Lecture/Discussion—4 hour(s). Interdisciplinary investigation of how specific cultures represent gender difference. Examine a variety of cultural forms and phenomena including film, television, literature, music, popular movements, and institutions. GE credit: ACGH, AH, DD, SS, VL, WC, WE. Effective: 2016 Spring Quarter.

WMS 025—Gender & Global Cinema (4)

Lecture—3 hour(s); Film Viewing—3 hour(s). Role gender plays in film history/culture in various geographical contexts and in aspects of contemporary globalization. Films from nations such as China, Colombia, Cuba, Ethiopia, India, Iran, Korea, New Zealand, and the U.S. GE credit: AH, VL, WC, WE. Effective: 2016 Fall Quarter.

WMS 050—Introduction to Critical Gender Studies (4)

Lecture—3 hour(s); Discussion—1 hour(s). Introduction to interdisciplinary, critical gender studies. Addresses the emergence of women's, gender and feminist studies internationally, its links to women's movements, and its influence within the various arts, humanities and social science disciplines. GE credit: ACGH, AH, DD, SS, VL, WE. Effective: 2016 Fall Quarter.

WMS 060—Feminist Critiques of Western Thought (4)

Lecture/Discussion—4 hour(s). Critical introduction to major traditions of social thinking in the West from a feminist perspective. GE credit: ACGH, AH, DD, SS, WE. Effective: 2016 Spring Quarter.

WMS 070—Theory & History of Sexualities (4)

Lecture/Discussion—4 hour(s). Key issues in the social construction, organization, and reproduction of sexualities such as the intersection of sexual identity with gender, race, ethnicity, and class, and the relation between movements for sexual liberation and the regulation of the body. GE credit: ACGH, AH, DD, SS, WE. Effective: 2016 Fall Quarter.

WMS 080—Special Topics in Critical Gender Studies (4)

Lecture/Discussion—4 hour(s). In-depth examination of a women and gender studies topic related to the research interest of the instructor. May be repeated up to 1 time(s) when topic differs. GE credit: SS, WE. Effective: 2018 Fall Quarter.

WMS 090X—Lower Division Seminar (2)

Seminar—2 hour(s). Examination of a special topic in Womens Studies through shared readings, discussions, and written assignments. Effective: 2016 Fall Quarter.

WMS 091—Research Seminar in the Transnational Production & Consumption of Fashion (1-2)

Seminar—1-2 hour(s). Preparation for a research conference. May be repeated for credit when topic differs. Effective: 2016 Fall Quarter.

WMS 098—Directed Group Study (1-5)

Variable. Prerequisite(s): Consent of Instructor. (P/NP grading only.) Effective: 2016 Fall Quarter.

WMS 099—Special Study for Undergraduates (1-5)

Variable. Prerequisite(s): Consent of Instructor. (P/NP grading only.) Effective: 2016 Fall Quarter.

WMS 102—Gender & Post Colonialism (4)

Lecture/Discussion—4 hour(s); Term Paper. Explores changing configurations of race, gender, sexuality, class and implications for governmentality in one or more colonial or postcolonial regimes in one or more societies. GE credit: AH, DD, SS, WC, WE. Effective: 2018 Winter Quarter.

WMS 103—Introduction to Feminist Theory (4)

Lecture/Discussion—4 hour(s). Prerequisite(s): WMS 050 recommended or consent of instructor. Introduction to the emergence of feminist theory and to key concepts in feminist theorizing. Examination of past and current debates over sexuality, race, identity politics, and the social construction of womens experience. GE credit: ACGH, AH, DD, SS, WE. Effective: 2016 Fall Quarter.

WMS 104—Feminist Research (4)

Lecture/Discussion—4 hour(s). Prerequisite(s): Required for Women's Studies major. Introduction to feminist applications and transformations of traditional disciplinary research practices; initial training in methodologies for feminist interdisciplinary work. GE credit: AH, DD, OL, SS, WE. Effective: 2018 Winter Quarter.

WMS 130—Globalization & Politics of Family Change (4)

Lecture/Discussion—4 hour(s). Political/cultural changes, conflicts, and economic disparities that have led to greater mobility and dispersal of families. Transnationalism on gender relations, sexualities, and the meaning of family. GE credit: AH, OL, SS, WC, WE. Effective: 2018 Spring Quarter.

WMS 136—Critical Food Studies (4)

Lecture/Discussion—4 hour(s). Production and consumption of food at the intersections of gender, race, ethnicity, nation, and body. Individual and familial experiences as part of larger economic and political structures in the U.S. and globally. GE credit: ACGH, AH, DD, OL, SS, WE. Effective: 2018 Spring Quarter.

WMS 137—Contemporary Debates in Western Feminist Theory (4)

Lecture/Discussion—4 hour(s). Prerequisite(s): WMS 060; or Consent of Instructor. Interpretations of poststructuralist, postmodern, and postcolonial thought from a critical feminist perspective; includes methods of applying theory to concrete social/cultural problems of gender, race, sexuality, class. GE credit: ACGH, AH, DD, SS, WE. Effective: 2018 Spring Quarter.

WMS 138—Critical Fashion Studies (4)

Lecture/Discussion—4 hour(s). Feminist cultural studies of style-fashion-dress through transnational circuits, personal subjectivities. Fashion as means of gender oppression and liberation. Histories and discourses of masculinities and femininities. Clothing works on global assembly line. Use of dress in construction/regulation of identities. GE credit: AH, DD, SS, VL, WC, WE. Effective: 2016 Fall Quarter.

WMS 139—Feminist Cultural Studies (4)

Lecture/Discussion—4 hour(s). Histories, theories, and practices of feminist traditions within Cultural Studies. (Same course as AMS 139.) GE credit: ACGH, AH, DD, SS, VL, WE. Effective: 2016 Fall Quarter.

WMS 140—Gender & Law (4)

Lecture/Discussion—4 hour(s). Exploration of women's legal rights in historical and contemporary context, discussing a variety of legal issues and applicable feminist theories. Topics include constitutional equal protection, discrimination in employment and education, sexual orientation discrimination, and the regulation of abortion. GE credit: ACGH, DD, SS. Effective: 2016 Fall Quarter.

WMS 145—Women's Movements in Transnational Perspective (4)

Lecture/Discussion—3 hour(s); Term Paper. Prerequisite(s): WMS 050 recommended. Limited to 90 students. Transnational perspectives on 20th- and 21st-century women's movements in Western, colonial and post-colonial contexts, examining movement's forms and political orientations and relationships between women's movements and other forces for change. GE credit: AH, OL, SS, WC, WE. Effective: 2016 Fall Quarter.

WMS 146—Gender, War & Peace (4)

Lecture/Discussion—4 hour(s). Prerequisite(s): Consent of Instructor. Applies a critical gender perspective to militarism as manifest in contexts of military rule, war, conflict, peacebuilding and security post-conflict. Addresses the changing configurations of gender and sexuality in military institutions and militarized economies and cultures from an interdisciplinary perspective. GE credit: ACGH, AH, DD, SS, WC, WE. Effective: 2018 Winter Quarter.

WMS 148—Science, Gender, & Social Justice (4)

Lecture/Discussion—4 hour(s); Term Paper. Limited to 60 students. Critical reading and reflection on the history of Western science, scientific institutions and the changing role of science in relation to inequalities of class, race, gender and sexuality, and global struggles for equality and justice. GE credit: AH, DD, SS, WC, WE. Effective: 2016 Spring Quarter.

WMS 158—Masculinities (4)

Lecture/Discussion—3 hour(s); Term Paper. Cultural, economic, and political forces which shape historical and contemporary masculinities. Impact of race, class, ability, nation and sexuality on experiences and cultural representations of masculinity. GE credit: ACGH, AH, DD, SS, WE. Effective: 2018 Spring Quarter.

WMS 160—Women, "Race" & Sexuality in Postcolonial Cinema (4)

Lecture/Discussion—3 hour(s); Film Viewing—3 hour(s). Limited to 90 students. Feminist analysis of race, sexuality and class in the representation of women in commercial and/or independent films. GE credit: AH, VL, WC, WE. Effective: 2016 Spring Quarter.

WMS 162—Feminist Film Theory & Criticism (4)

Lecture/Discussion—3 hour(s); Film Viewing—3 hour(s). Historical overview of and contemporary issues in feminist film theory, including representation, spectatorship, and cultural production. Film stars, women filmmakers, and the intersections of gender, race, sexuality, and class in films and their audiences. GE credit: ACGH, AH, DD, VL, WC, WE. Effective: 2016 Spring Quarter.

WMS 164—Topics in Gender & Cinematic Representation (4)

Lecture/Discussion—3 hour(s); Film Viewing—3 hour(s). Examination of a specific topic within the broad rubric of gender and cinema. Possible topics include Latinas in Hollywood; gender, nation, cinema; and gender and film genre. Topics vary. May be repeated up to 2 time(s) when topic differs. GE credit: AH, VL, WC, WE. Effective: 2016 Spring Quarter.

WMS 165—Feminist Media Production (6)

Lecture/Discussion—3 hour(s); Laboratory—3 hour(s); Fieldwork—6 hour(s). Prerequisite(s): (CTS 020 or CDM 020); or two WMS courses. Media production as a mode of cultural criticism, furthering feminist/ social justice activist goals. Fundamentals of camera, editing and distribution via a social engagement model. Study and hands-on response to key historic and contemporary feminist and social justice media discourses. (Same course as CDM 105.) GE credit: ACGH, AH, DD, SS, VL. Effective: 2018 Fall Quarter.

WMS 170—Queer Studies (4)

Lecture/Discussion—4 hour(s). Prerequisite(s): WMS 070 recommended or consent of instructor. Study of queer sexualities, identities, theories, practices. Alternative sexualities as historical, social, and cultural constructions in intersections with race, gender, class, nationality. Interdisciplinary exploration of sexual liberation and the regulation of sexuality through history, theory and expressive cultural forms. GE credit: ACGH, AH, DD, SS, WE. Effective: 2016 Fall Quarter.

WMS 174—Body Politics (4)

Lecture/Discussion—4 hour(s). The body as a site where status inequalities are formed and resisted. Self-making through bodywork, history of gendered and racial meanings of the body, and analysis of normalizing discourses and practices. GE credit: AH, DD, SS, WC, WE. Effective: 2018 Winter Quarter.

WMS 175—Gender & Experience of Race (4)

Lecture/Discussion—4 hour(s). Exploration of the co-construction of "race" and gender in comparative national historical contexts and contemporary lived experience. Study of intersections of race and gender in identities and how institutions, labor migration, social movements and consumption shape racialized gendered identities. GE credit: ACGH, AH, DD, SS, WE. Effective: 2016 Fall Quarter.

WMS 176—Autobiography, Narrative, Memoir (4)

Lecture—2 hour(s); Discussion—1 hour(s); Term Paper. Prerequisite(s): Consent of Instructor. Limited to 30 students. Life narrative writings by women. Transgressive voices exploring issues of race, class, and sexuality, women's silence and marginalization. Theories of autobiography, autoethnography and memoir included. May be repeated for credit when content differs. GE credit: AH, DD, SS, WE. Effective: 2018 Summer Session 1.

WMS 178A—Women Writers & the Transnational Imaginary: The Arab World (4)

Lecture/Discussion—4 hour(s). Prerequisite(s): Consent of Instructor. Writings by women from diverse regions and cultures, understood in their cultural, socio-economic, and historical contexts, with each course offering a focus on women's writing in specific geographic/national locations and their diasporas: The Arab World. GE credit: AH, WC, WE. Effective: 2016 Fall Quarter.

WMS 178B—Women Writers & the Transnational Imaginary: Asia (4)

Lecture/Discussion—4 hour(s). Writings by women from diverse regions and cultures, understood in their cultural, socio-economic, and historical contexts, with each course offering a focus on women's writing in specific geographic/national locations and their diasporas: Asia. GE credit: AH, WC, WE. Effective: 2016 Fall Quarter.

WMS 178C—Women Writers & the Transnational Imaginary: The Caribbean (4)

Lecture/Discussion—4 hour(s). Writings by women from diverse regions and cultures, understood in their cultural, socio-economic, and historical contexts, with each course offering a focus on women's writing in specific geographic/national locations and their diasporas: The Caribbean. GE credit: AH, WC, WE. Effective: 2016 Fall Quarter.

WMS 178D—Women Writers & the Transnational Imaginary: Africa (4)

Lecture/Discussion—4 hour(s). Writings by women from diverse regions and cultures, understood in their cultural, socio-economic, and historical contexts, with each course offering a focus on women's writing in specific geographic/national locations and their diasporas: Africa. GE credit: AH, WC, WE. Effective: 2016 Fall Quarter.

WMS 178E—Women Writers & the Transnational Imaginary: Diasporic Women Writers in Europe (4)

Lecture/Discussion—4 hour(s). Writings by women from diverse regions and cultures, understood in their cultural, socio-economic, and historical contexts, with each course offering a focus on women's writing in specific geographic/national locations and their diasporas: Diasporic Women Writers in Europe. GE credit: AH, WC, WE. Effective: 2016 Fall Quarter.

WMS 178F—Transnationalism & Writing by Women of Color (4)

Lecture/Discussion—4 hour(s). Writings by women of color in a transnational framework, understood in their cultural, socio-economic, and historical contexts. The interrelation among gender, writing, nationalism, and transnationalism with focus on women's writing in specific geographic/national locations and their diasporas: Topics on Women Writers of Color. GE credit: AH, WC, WE. Effective: 2016 Fall Quarter.

WMS 179—Literature as Aesthetics of Resistance (4)

Lecture/Discussion—4 hour(s). Literature by women and other marginal groups which embody dissent and subversion as a means of challenging the status quo and to affect social transformation. GE credit: AH, WC, WE. Effective: 2019 Winter Quarter.

WMS 180—Women of Color Writing in the United States (4)

Lecture/Discussion—4 hour(s). Literature, especially novels, written by contemporary women of color in the United States, understood in their socio-economic, cultural and historical contexts. GE credit: ACGH, AH, DD, WE. Effective: 2016 Fall Quarter.

WMS 182—Globalization, Gender & Culture (4)

Lecture/Discussion—4 hour(s). Critical gender analysis of globalization as a process of interconnected cultural, social and economic transformations inflected by gender, nation, class and race/ethnicity. Critical self-reflection and social observation skills. GE credit: AH, OL, SS, WC, WE. Effective: 2016 Spring Quarter.

WMS 184—Gender in the Arab World (4)

Lecture/Discussion—4 hour(s). Examination of the history, culture, and social/political/economic dynamics of gender relations and gendering in the Arab world. GE credit: SS, WC, WE. Effective: 2016 Fall Quarter.

WMS 185—Women & Islamic Discourses (4)

Lecture/Discussion—4 hour(s). Prerequisite(s): WMS 050; Or comparable course. Introduction to debate/discourses about women and Islam. Transformations in debate/discourses in colonial and postcolonial periods in the Middle East & South Asia. Comparative study of debate/discourses on family, work, law, sexuality, religion, comportment, human rights, feminist and religious movements. (Same course as MSA 150.) GE credit: AH, SS, WC. Effective: 2016 Fall Quarter.

WMS 187—Gender & Public Policy (4)

Lecture/Discussion—3 hour(s); Term Paper. Role of gender in the creation of social policies, especially with respect to issues brought into the policy arena by contemporary feminism. GE credit: ACGH, DD, SS, WE. Effective: 2018 Winter Quarter.

WMS 189—Special Topics in Critical Gender Studies (4)

Lecture/Discussion—4 hour(s). In-depth examination of a women's studies topic related to the research interests of the instructor. May be repeated up to 1 time(s) when topic differs. GE credit: AH, SS, WE. Effective: 2016 Fall Quarter.

WMS 190—Senior Seminar (4)

Seminar—4 hour(s). Capstone course for senior Womens Studies majors, which focuses on current issues on feminism as they impact theory, public policy, and practice. GE credit: ACGH, AH, DD, SS. Effective: 2016 Fall Quarter.

WMS 191—Capstone Seminar (4)

Seminar—4 hour(s). Revision, completion, and presentation of senior research or creative project. Creating a multimedia website for publishing research and creative projects. GE credit: ACGH, AH, DD, SS, WE. Effective: 2016 Fall Quarter.

WMS 192—Internship in Women's Studies (1-12)

Internship—3-36 hour(s); Term Paper. Prerequisite(s): Completion of a minimum of 84 units and consent of instructor; enrollment dependent on availability of intern positions with priority to Women's Studies majors. Supervised internship and study in positions/institutional settings dealing with gender-related problems or issues, as for example, a women's center, affirmative action office, advertising agency, or social welfare agency. Final written report on internship experience. (P/NP grading only.) Effective: 2016 Fall Quarter.

WMS 193—Feminist Leadership Seminar (2)

Seminar—2 hour(s). Use feminist methods to critically reflect on the ethical, methodological and strategic aspects of an organization, project, campaign, movement or other social change initiative. May be repeated for credit. (P/NP grading only.) GE credit: ACGH, AH, DD, SS, WE. Effective: 2016 Fall Quarter.

WMS 194HA—Senior Honors Project in Women's Studies (4-6)

Independent Study—12 hour(s). Prerequisite(s): Senior standing, Women's Studies major, and advisor's approval. In consultation with an advisor, students complete a substantial research paper or significant creative project on a Womens Studies topic. GE credit: AH, SS, WE. Effective: 2016 Fall Quarter.

WMS 194HB—Senior Honors Project in Women's Studies (4-6)

Independent Study—12 hour(s). Prerequisite(s): Senior standing, Women's Studies major, and advisor's approval. In consultation with an advisor, students complete a substantial research paper or significant creative project on a Women's Studies topic. GE credit: AH, SS, WE. Effective: 2016 Fall Quarter.

WMS 195—Thematic Seminar in Critical Gender & Women's Studies (4)

Seminar—4 hour(s). Group study of a topic, issue or area in feminist theory and research involving intensive reading and writing. May be repeated for credit. GE credit: ACGH, AH, DD, SS, WE. Effective: 2016 Spring Quarter.

WMS 197T—Tutoring in Women's Studies (1-4)

Tutorial—3-12 hour(s). Prerequisite(s): Upper division standing and consent of director. Leading small, voluntary discussion groups affiliated with a Womens Studies course. May be repeated up to 8 unit(s). (P/NP grading only.) Effective: 2016 Fall Quarter.

WMS 198—Directed Group Study (1-5)

Variable. Prerequisite(s): Consent of Instructor. Upper division standing. (P/NP grading only.) Effective: 2016 Fall Quarter.

WMS 199—Special Study for Advanced Undergraduates (1-5)

Variable. Prerequisite(s): Consent of Instructor. Upper division standing. (P/NP grading only.) Effective: 2016 Fall Quarter.

WMS 200A—Current Issues in Feminist Theory (4)

Seminar—4 hour(s). Current issues in feminist theory; techniques employed to build feminist theory in various fields. Effective: 2016 Fall Quarter.

WMS 200B—Problems in Feminist Research (4)

Seminar—4 hour(s). Prerequisite(s): WMS 200A B+ or better. Application of feminist theoretical perspectives to the interdisciplinary investigation of a problem or question chosen by the instructor(s). May be repeated for credit when topic differs. Effective: 2016 Fall Quarter.

WMS 201—Special Topics in Feminist Theory & Research (4)

Lecture/Discussion—4 hour(s). Limited enrollment. Explores in depth a topic in feminist theory and research related to the research interests of the instructor. May be repeated for credit when topic differs. Effective: 2016 Fall Quarter.

WMS 250—Cultural Study of Masculinities (4)

Seminar—3 hour(s); Term Paper. Prerequisite(s): Graduate standing or consent of instructor. Interdisciplinary approaches to understanding the social and cultural construction of masculinities; attention to the effects of biology, gender, race, class, sexual and national identities; criticism of oral, printed, visual, and mass mediated texts, and of social relations and structures. (Same course as AMS 250.) Effective: 2016 Fall Quarter.

WMS 299—Special Study for Graduate Students (1-12)

Variable. (P/NP grading only.) Effective: 2016 Fall Quarter.

WMS 299D—Dissertation Research & Writing (4)

Extensive Writing/Discussion—3 hour(s). Prerequisite(s): WMS 200A; WMS 200B; Fulfillment of course requirements for the DE in Feminist Theory and Research, advancement to candidacy. (S/U grading only.) Effective: 2016 Fall Quarter.

WMS 396—Teaching Assistant Training Practicum (1-4)

Variable. Prerequisite(s): Graduate standing. May be repeated for credit. (P/NP grading only.) Effective: 2016 Fall Quarter.

About Courses

Use this guide to understand course descriptions & requirements. **Courses listed in this catalog are subject to change without notice.**

Course Descriptions

Course changes during the catalog year appear with a warning reading *Review all entries* and/or *Discontinued after the units*. The change may be anything from a unit change to being discontinued. Pay attention to the effective term; this is the *first* term the change is effective or the term the course is discontinued.

Below is a sample of how a course is listed in this catalog:

PRB 190—Proseminar in Problems (1) *Review all entries*

Seminar—1 hour. Prerequisite(s): PRB 111; senior standing. Pass One restricted to seniors. Discussion of serious problems, their issues, and resolutions. Involves a different emphasis each quarter. May be repeated 2 times(s) for credit with consent of instructor. (Same course as SRB 190.) GE credit: AH, DD, WC. Effective: 2001 Winter Quarter.

- **Top line** is course subject code & course number—title; units; *warning*, if applicable.
- **Paragraph following** is course instructional format (learning activity); prerequisite(s) for the courses; enrollment restrictions; course description; grading, if other than letter grading; repeat rules, if any; (cross-listed courses, if any); GE attributes, if any. Term the course is first effective in this configuration; *not when the course is taught*.

General Education (GE Credit)

- **Topical Breadth.** AH=Arts and Humanities | SE=Science and Engineering | SS=Social Sciences
 - **Literacies.** ACGH=American Cultures | DD=Domestic Diversity | OL=Oral Skills | QL=Quantitative | SL=Scientific | VL=Visual | WC=World Cultures | WE=Writing Experience
- For complete information, see [General Education \(GE\) Requirement](#).

Courses Taught Abroad

Some courses carry the "*May be taught abroad*" designation. If so, for more details and registration requirements & information, check with your advisor and the [Global Learning Hub](#).

Prerequisites

Prerequisites for undergraduate courses are checked by [Schedule Builder](#). It is the student's responsibility to meet these requirements and the instructor's responsibility to enforce them. Students who have completed equivalent work may be admitted to the course at the instructor's discretion. For complete information, see [Student Information on Prerequisites](#).

Undergraduate Courses

001-099, Lower Division Courses. Courses open to students for lower division credit who have met the necessary prerequisites and enrollment restrictions as indicated in [Schedule Builder](#); designed primarily for freshmen and sophomores.

100-199, Upper Division Courses. Courses open to students who have met the necessary prerequisites and enrollment restrictions as indicated in [Schedule Builder](#). Preparation generally includes completion of one lower division course in the given subject or completion of two years of college work.

090X/190X. Seminar courses for in-depth examination of a special topic within the subject area.

092/192. Internship courses enable individual students to obtain practical experience to complement their educational goals or to explore potential career interests and opportunities. Students must have completed 84 units before enrolling in course 192.

097T&C /197T&C. Tutoring and Tutoring in the Community courses for students who want to tutor in a subject in which they are proficient—generally in their major field—while enrolled as an undergraduate.

098/198. Directed Group Study courses are set up on a one-time basis for a group of students in a subject for which no regular courses have been established.

099. Special Study for Undergraduates courses arranged for an individual student who shares, with an instructor, an academic interest that cannot be accommodated within the formal course structure; credit is limited to a total of 5 units per term.

194H. Special Study for Honors Students courses are for individual students with honor status, as determined by the department offering the course and who have completed 84 units; credit is limited to a total of 5 units per term.

199. Special Study for Advanced Undergraduates courses are the upper division counterparts of course 99 and involve supervised independent study and research requiring adequate background in the subject proposed for study as well as prior completion of 84 units; credit is limited to a total of 5 units per term.

Variable-Unit. Subject to approval by the department chair, an instructor may arrange to give a special study course to interested students; numbers 090X, 092, 097T, 097TC, 098, 099, 190X, 192, 194H, 197T, 197TC, 198, 199.

Autotutorial. Courses where students instruct themselves at their own pace. Courses can be identified by the letters AT at the end of their course numbers; e.g., 013AT, 141AT.

Online & Hybrid. Courses where instruction is delivered on the Internet. Courses that are delivered completely online can be identified by the letter V at the end of their course numbers, e.g., 010V, 162V. Hybrid courses are delivered as a combination of online and classroom activities and can be identified by the letter Y at the end of their course numbers, e.g., 010Y, 162Y.

Research Conference. Courses where advanced undergraduate students may participate in critical discussions of research activities. These one-unit courses are numbered 190C and are graded on a Passed/Not Passed basis.

Graduate Courses

200-299. Courses open to graduate students and to undergraduates who have completed 18 units of upper division work basic to the subject matter of the course. However, admission is subject to the approval of the instructor in charge of the course. Grading in 290C courses and most variable-unit 299 or 299D courses is Satisfactory/Unsatisfactory (S/U). Check the course description for grading information.

300-399, Professional Courses for Teachers & Nurse Practitioners. Professional courses for teachers and nurse practitioners are teacher-training courses in the School of Education and in other departments and are especially intended for teachers or prospective teachers. Courses designed to provide instruction to teaching assistants are included. Courses for certification of family nurse practitioners and physician assistants are also included. Courses are open only to students enrolled in those programs.

400-499, Other Professional Courses. Professional training courses. Graduate students should consult their faculty advisor or contact Graduate Studies before registering in 400 series courses to determine if graduate credit may be awarded for the course in question.

Multi-Quarter Courses

A series of course numbers followed by two or three letters (for example, Physics (PHY) 110A-110B-110C) is continued through three successive quarters; e.g., fall through spring. The first quarter course listed this way is a prerequisite to the second and the second is prerequisite to the third. On the other hand, where A and B portions of a course are listed separately (for example, Economics (ECN) 160A & 160B), the A course is not a prerequisite to B, unless A is specifically mentioned in the list of prerequisites.

Cross-Listed Courses

A cross-listed course (shown as *Same course as...*) is a single course offered collaboratively through two or more departments or programs. Cross-listed courses have identical content and are often taught in alternating years. If a student passes one course in the cross-listing, they will not be able to register for the partner course(s).

Expanded Course Descriptions

Because of space limitations, you may find that the descriptions in the General Catalog do not include all the information you would like about a course. Expanded Course Descriptions are available for on-campus use at the College dean's offices or the [Biology Academic Success Center](#), advisors' offices, advising centers, and departmental offices.
