

911: An OMEN for the New Millennium

“VIII. There is a very profound and significant connection between the US Government sponsored and staged terrorist attacks of 9/11/01 and the PRE-PLANNED Financial & Economic 9/11 of 2008* that may be difficult for many to fully embrace. But here it goes:

The OMEN that 911 truly was, looks a little bit like **THE LORD OF THE RINGS**. Remember the **Twin Towers**? When they came down in NYC, it was a message to humankind that the reign of the *Almighty Dollar* was coming to an end. As a nation’s currency goes, so goes its destiny. Its (USA) financial strength and economic prowess were on the wane, and soon to be greatly diminished. Just as the WTC (financial capital of the world) was pulverized into dust, the US Dollar would be swept into the ash heap of history. Just as we see it collapsing all around us, exactly 7 years after the original 911 apocalyptic events.

When the **Ring of Power** was finally destroyed, like the Pentagon (ring-shaped command center of the military-industrial complex) was mortally wounded and damaged, the message was equally clear. Its (USA) military might and superior force would be reduced to rubble in the twinkling of an eye. The nation would, likewise, soon see the demise of its all-pervasive state sponsored terrorism. This, because it had lost all moral ascendancy.

Furthermore, the empire could no longer be sustained politically, financially, practically or ethically, as the seeds of its own destruction had fully sprouted. The most fatal seed grew into that extremely corrupt and predatory form of corporate, crony capitalism which was so socially unconscious, and so environmentally unaware, it was quite doomed from the very beginning.

The **GOOD NEWS** is that the nation – its people – will now be compelled to beat their “swords into plowshares” and their “spears into pruning hooks”.

Just as the Phoenix rose from its ashes, so too will America ascend to even greater heights. As long as it ascends with the guidance of the highest of ideals, loftiest of principles and noblest of intentions... and reforms, and transforms itself, in good faith, in earnest and with haste.

As a modern day prophet said in the days immediately following September 11, 2001: “America, Wake up !!! Seize this God-given opportunity. There is no more time to dally in fear and ignorance and greed. For yours is a destiny that must serve as a beacon of Light and Hope and Peace to the world. Make haste, the time is drawing nigh!” [1]
