ROBERT MUELLER – THE ORGANIZER OF 9/11 – IS MUSCLING HILLARY TO BE THE MOB BOSS OF AN EMPIRE WITHOUT BORDERS OR MORALITY

Yes, Mueller organized 9/11, and then investigated himself!

Mueller placed his patsy Joseph E. Sullivan at Cloudflare to fix the 2018 midterm elections

Sullivan is a shill for the Senior Executive Service (SES) shadow government controlled by Mueller

Sullivan tried to cover up the loss of 57 million Uber customer and driver personal data records, was fired, then rehired by Cloudflare that controls **FL, OH election encryption keys**

PAY-to-PLAY NEW WORLD ORDER

This timeline shows how insiders sell access & manipulate politicians, police, intelligence, judges and media to keep their secrets

Clintons, Obamas, Summers were paid in cash for outlandish speaking fees and Foundation donations. Sycophant judges, politicians, academics, bureaucrats and media were fed tips to mutual funds tied to insider stocks like Facebook. Risk of public exposure, blackmail, pedophilia, "snuff parties" (ritual child sexual abuse and murder) and Satanism have ensured silence among pay-to-play beneficiaries. The U.S. Patent Office is their toy box from which to steal new ideas.

(NOV. 16, 2018)—New facts suggest that special counsel Robert S. Mueller, III who is running the Trump witch hunt, is also muscling in on the Clinton encryption key tax and surveillance empire.

Their war cry appears to be: "Tax and Surveil!" Ask yourself, if controlling these encryption keys is so central to the mission of the Deep State shadow government and their theft of our Constitutional Republic birthright, shouldn't *you* be resisting them with all your strength? We posit that if you are not—if you are silent, or worse, if you scoff at those who are fighting, while mindlessly repeating the "conspiracy theory!" epithet*—then that is your first clue that *you* have been successfully brainwashed and neutralized by incessant mainstream media propaganda—which these miscreants control.

The "conspiracy theory" epithet, and its variant "far right wing conspiracy theory," is a *propaganda mind-control* creation of the John F. Dulles-led C.I.A. MKUltra program as a way to divert public attention from the *now proven* suspicions that President John F. Kennedy had been assassinated by the C.I.A. [President Kennedy had said in 1961](#) (1963 timeline entry): "**I will splinter the CIA into a thousand pieces and scatter it into the winds**" due to their corruption and insubordination. That same C.I.A. protected its power mongering and murdered our duly-elected President. They have never stepped away from their criminality since.

Now, that same rogue C.I.A. is working to remove another duly-elected President Donald J. Trump—unless we stop them. If we do not protect and defend President Trump, then we do not deserve our Constitutional Republic, and our hard fought sacrifices of time, treasure and life will all be lost. Get off your duffs, folks. Take the **red pill** and protect your American heritage! She's not perfect, but at least we can strive. Close your ears to the mind-control propaganda, President Trump supports America's ideals, unlike his fascist globalist opponents. See previous post [Dismantle the rogue C.I.A.](#) (PDF).

Traditional mobsters control big city garbage, prostitution, loans, drugs, haulage and so on. They either actually run the business or shake down enterprises for monthly "protection" payments.

According to [Larry Nichols](#) (Jul. 28, 1994 timeline entry), Bill Clinton's former political advisor in Arkansas and for President, Hillary's father Hugh Rodham and Dan Rostenkowski took over the Chicago mob after Al Capone. Later, Rosentkowski became the Democrat representative to Congress from the Illinois 5th district (1959 to 1995). In short, these men learned how to turn corruption into political power—without going to jail.

Hugh Rodham encouraged his daughter to become a patent attorney. He told her to corner the market on emerging technologies, which she has done.

WILL HUMANKIND EVER LEARN? Facebook's Orwellian doublespeak about property and privacy (theft) merely repeats the eventual dehumanization of the individual under MAO's Red Star, Stalin's SOV ET Hammer & Cycle and Hitler's NAZI Swastika. Respect for the inalienable rights of each individual is a bedrock value of democracy. The members of the Facebook Cabal abuse this principle at every opportunity. They evidently believe that they deserve special privileges and are willing to lie, cheat and steal in order to treat themselves to these privileges.

America needs to practice what it preaches. We have no business lecturing the world about free enterprise and the rule of law, when we permit the investors in Ohio-based innovator Leader Technologies to go uncompensated for the risks they took to help invent social networking...

 —a technology stolen by the "Facebook Cabal" who recruited the federal courts and Patent Office into their club of corruption.

Click image above to download a poster-quality PDF optimized for a 11in. x 17in. (ledger-size) poster. America should not be in the business of cheating its entrepreneurial investors simply because the cheaters buy off judges with the money gained from their theft. Such permissiveness is obscene.

In Feb. 1977, Hillary joined the Rose Law Firm in Little Rock, Arkansas, and eventually seized control of a client's promising invention, a quarter-sized quartz device called the QRS-11 that could be used to track planes, cars, trucks, trains, buses, and more generally anything in which it was embedded.

Hillary's legal mentor was a clever black Harvard and George Washington University law professor named James P. Chandler, III. While he coached Bill and Hillary, Chandler was scheming to corner the legal market on protection of software inventions, trade secrets and "the intellectual property of the United States." So he boasted at every opportunity.

James P. Chandler, III

When the Clintons came to power in 1993, Chandler became their top outside advisor for intellectual property, patents, trademarks, copyrights, trade secrets, economic espionage, counterfeiting and counter intelligence. He immediately wrote and Congress approved (unanimously), The Economic Espionage and Federal Trade Secrets Acts of 1996, and The False Statements Accountability Act of 1996 (officially sanctioned lying to Congress and the courts. That's right, you did not misread).

One of Chandler's strategies was to use his influence over the Clintons to take over the Internet as a way to stay perpetually

ahead of Russian, Chinese, Japanese, Israeli, Irish, Indian and French intelligence. So he also boasted.

At the same time, Chandler was outside counsel to IBM. He worked closely with IBM inside intellectual property counsel, David J. Kappos (Obama's Patent Office director - 2009-2013), to muscle IBM's competitors with "junk patents" to extort license fees. This activity was the real "patent troll" which Chandler and Kappos have flipped 180 degrees into unfounded media attacks on small inventors as the trolls.

THE WEAPONIZATION OF SOCIAL NETWORKING

IBM was all the while standing behind Chandler's plan to weaponize the Internet. See our previous post: [The Weaponization of Social Media Should Concern Us All](#) (PDF).

Within months of Clinton coming to power, Chandler arranged for the [Carnegie Endowment for Peace](#), Clinton chief of staff John Podesta, and a raft of DOJ insiders, including Robert Mueller, James Comey, Duval Patrick and Louis Freeh to hold a *Who's Who* conference to promote giving the FBI backdoor encryption access to the emerging commercial Internet, which was in its infancy then. The proposed "Clipper Chip" died in Congress over privacy concerns and inadequate safeguards.

Said another way to hopefully clear up the confusion, the Clipper Chip and the QRS-11 chip are *different devices*. The Clipper Chip was a device proposed in the early Clinton Administration (1993) to be embedded in hardware to encrypt digital signals, but was never approved by Congress or implemented—rogue intelligence did an end-around Congress with the Dual_EC_DRBG algorithm discussed in the next paragraph. By contrast, the QRS-11 was and is a navigation device installed widely in ships, vehicles and airplanes to transmit 3-D coordinates and receive instructions to control autopilots remotely.

Undeterred, Chandler and his FBI/DOJ/DoD/Senior Executive Service (SES) co-conspirators turned to the Departments of Commerce and Justice to concoct an export license requirement to embed the backdoor key as a prerequisite for sale of their hardware, software and firmware offshore. The list of vendors who embed the NSA [Dual_EC_DRBG](#) encryption algorithm to this day is even published.

AMERICAN-STYLE FASCISM WAS PERFECTED UNDER CLINTON RULE

The Clinton-Chandler-Podesta-Mueller scheme to bypass Congress on encryption backdoors as well as all other technology and Internet policy was hatched.

The Clintons began focusing on: (1) Chandler-drafted executive orders, (2) some changes to laws triggered by totally staged “terror” threats, (3) patsy Senior Executive Service (SES) appointments in the Executive agencies (their 10,000+ leave-behind senior management saboteurs a.k.a. the “shadow government” or “Deep State.” and (4) cooperation from the private sector as “public-private partners” in exchange for no-bid contracts. In short, **American-style fascism**.

HIGH TECH MOBSTERISM

In keeping with the age-old maxim of “follow the money,” the real money being made in “Big Data” is through secret taxes on the encryption keys and the sale of information.

Prior to social networking however, these Clinton mobsters experimented with various forms of control and revenue, but their systems suffered from data “silos.” Large volumes of data were system specific and not easily transportable across systems.

"Skillful manipulation of the firm's extensive media connections allows Gibson Dunn to promote their causes, while simultaneously smearing their opponents and silencing embarrassing news coverage."

This statement followed right after Davis cited Facebook's chief inside counsel in the *Leader v. Facebook* case, Theodore Ullyot, who appears to have helped lead the *Leader v. Facebook* judicial corruption. Interesting word choices associated with Gibson Dunn LLP: manipulation, smear. Attorneys swear a solemn oath to act morally, ethically, and in support of democratic principles. They promise to conduct themselves in a manner than instills confidence among the citizenry in the rule of law and the judicial system. These promises appear to be meaningless. SOCIAL NETWORKING SCALABILITY OPENED THE DOOR TO ONE ENCRYPTION KEY PER PERSON, THUS THE ABILITY TO TRACK AND TAX EVERYTHING

Hindsight being 20-20, we now see that Chandler, Clinton, Mueller, etc. decided to steal McKibben's invention (**illegal**) for infinite Internet scalability, inserted IBM copyrights (**illegal**), declared it "open source" (**illegal**), then distributed it free almost overnight to Silicon Valley (**illegal**) to build the "IBM Internet of Things (IoT)," and thus control universal back end access (**illegal**) to all the code they had given away. That's right, the entire IoT industry is one mammoth fraud, built on theft, lies, and more lies.

With McKibben's social networking invention in mind, they also reconfigured their approach to "Public Key Infrastructure" (PKI), [government documents](#) (p. 6) describe (ref. "late 90's" [when Chandler met McKibben and Leader Technologies] and "Prior to 2004" [when IBM launched EclipseCon 2004, Feb. 02-05, 2004, and they launched Facebook, Feb. 04, 2002]).

They also devised a *convoluted* licensing system that only an unscrupulous lawyer could love whereby "trusted" private companies would maintain not only the public keys used by websites, but also a copy of people's private keys, ostensibly for disaster recovery convenience. See [Fig. 8](#).

TRUST (NOT)

These selected PKI Certificate Authorities plaster their cheeky ad words on all their PR. These words include: trust, high standards, security, integrity, verified, trustworthy, assurance, certified, protect, reliable, secure, quality and veritas (Latin: truth). They have proven through focus groups that 99.5% of the public believes their excrement about "trust" and lets them get away with their criminality.

OUR MISSION

American citizens must fight abuse of the constitutional right for authors and inventors to enjoy the fruits of their inventions, as a matter of matter of basic property rights and sound public policy. Otherwise, instead of innovation, creativity, genius, ideas, vision, courage, entrepreneurship, respect, property, rejuvenation, morals, ethics, values, renewal, truth, facts, rights, privacy, solutions and judicial faithfulness,

... our society and economy will be dragged down (and eventually destroyed) by copying, infringement, thievery, counterfeiting, hacking, greed, misinformation, exploitation, abuse, waste, disrespect, falsity, corruption, bribery, coercion, intimidation, doublespeak, misconduct, lies, deception, attorney dark arts, destruction, confusion, dishonesty, judicial chicanery and lawlessness.

If we do not speak up, impeach derelict judges and imprison corrupt attorneys, we cannot possibly hope to start fixing the current ills in our society. Without justice and respect for private property, democracy has no sure foundation.

CURRENT EDITORIAL FOCUS

We are an opinion blog that advocates for strong intellectual property rights. We welcome commenters and contributors. The *Leader v. Facebook* patent infringement case first came to our attention after learning that the trial judge, Leonard P. Stark, U.S. District Court of Delaware, ignored his jury's admission that they had no evidence to support their on-sale bar verdict, but the judge supported it anyway.

The judicial misconduct has deteriorated from there, replete with two of the three judges on the Federal Circuit appeal panel, Judges Alan D. Lourie and Kimberly A. Moore, holding Facebook stock that they did not disclose to the litigants, and later tried to excuse through a quick motion slipped in at the last minute by the Clerk of Court, Jan Horbaly, and his close friends at The Federal Circuit Bar Association. (The DC Bar subsequently revealed that Mr. Horbaly is not licensed to practice law in Washington D.C.)

The judges ignored [shocking new evidence](#) that Mark Zuckerberg withheld 28 hard drives of 2003-2004 evidence from Leader Technologies that could prove actual theft (and therefore claims even more serious than infringement). In addition, Facebook's appeal attorney, Thomas G. Hungar of Gibson Dunn LLP, has close personal ties to just about every judicial player in this story. The misconduct appears to reach into the U.S.

Moral: Whenever “public-private” fascist capitalists use words like “trust, you can almost be **sure** that you cannot trust because this is classic Saul Alinsky misdirection.

SEVERAL TYPES OF ENCRYPTION KEYS THAT USE PKI

In lay terms, the basic idea behind PKI is that you need to marry up a *public* key for your recipient’s website with your *private* key. Those married keys are then used to encrypt your transmission. It’s like you need two keys, not one, to open your front door.

Then, instead of sending your message through the Internet for anyone to read, your transmission is scrambled while it is on the move. See Fig. 3 below. This type of encryption occurs automatically, presuming each side has *purchased* their essentially government-mandated Certificate Authority (Hint: Herein is the *universal tax on all Internet transactions*—run by *private* corporations controlled by Hillary et al. Want in on this action? No! Deplorables need not apply.)

This purchase is Hillary’s dirty little secret for how she taxes the Internet and makes money from each and every transaction all around the planet.

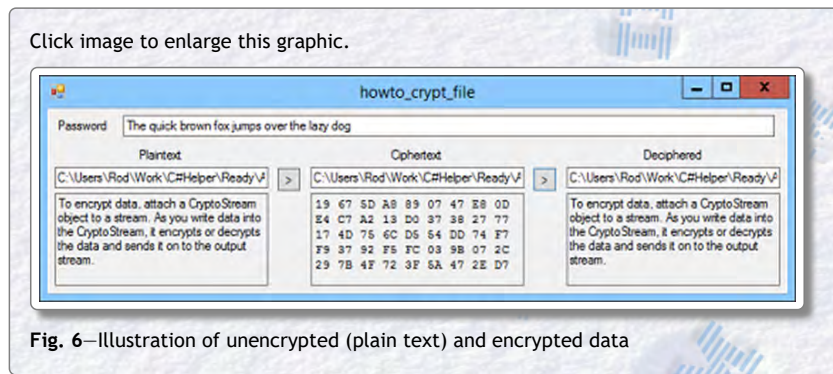

Fig. 6—Illustration of unencrypted (plain text) and encrypted data

Another use of public and private keys is encrypting files and messages. Both sender and recipient share their public key and each creates a private key. The public key is generally kept on a PKI server. The secret here is that these servers also use various ways to sniff and store your private key without your knowledge. In addition, many if not most of the applications that encrypt and decrypt using this method contain the [NSA Dual_EC_DRBG](#)

Patent Office through abuse of the reexamination process by Facebook. We will stay focused on *Leader v. Facebook* until justice is served, but we also welcome news and analysis of intellectual property abuse in other cases as well.

MUELLER IS MUSCLING HILLARY FOR ENCRYPTION KEY TURF

Over the last thirty years, the encryption key turf was controlled by Hillary and her mentor Chandler. They let the DOJ and FBI play through corruptocrats like Robert S. Mueller, III and James B. Comey, among others.

However, it now appears that Mueller and Chandler quietly recruited Joseph Edmund Sullivan, son of a C.I.A. agent, as the mole to do their dirty work.

Sullivan's mother, Winona Cecile Sullivan (born Winona Yahn), was a C.I.A. agent focused on Russian spying (1965-67). She studied Russian at the University of Leningrad, then applied to the C.I.A. to be a spy. Her good looks may have helped her professionally. The trade craft of deception was well-honed among the Sullivans. Joseph claims he had no knowledge of his mother's spying, but given his career as a spy himself, this assertion is not credible. And, as we now see, these SES spies like to pass on their insider knowledge to their offspring.

From 1992 to 2002, Sullivan worked for the DOJ and specifically for Chandler and Mueller as Assistant U.S. Attorney (AUSA) in Miami, Las Vegas and San Francisco. He only prosecuted 41 cases in total during his work as AUSA. He bragged at his [House Judiciary hearing on Jul. 28, 2010](#) that he was a founding member of the DOJ Computer Hacking and Intellectual Property Unit (see link above), despite scant few cases on that subject. Ironically, that was the very same day that Leader proved in *Leader v. Facebook* that Facebook was infringing Leader Technologies' social networking patent on 11 of 11 claims. **Sullivan failed to disclose this to Congress.** He also failed to disclose Hillary's secret contract for Facebook to build an election winning template. He also failed to disclose his relationship with Leader's patent attorney Chandler, thus being engaged in tampering with a witness.

This Mueller Cyber Crime Unit appears to have been a ruse to cover up Mueller's work to horn in on the Clinton's money-making from taking fees for digital encryption Certificate Authority keys. It appears that the real cyber criminals are Mueller, Chandler and Sullivan.

CODE OF CONDUCT FOR U.S. JUDGES

"CANON 2: A JUDGE SHOULD AVOID IMPROPRIETY AND THE APPEARANCE OF IMPROPRIETY IN ALL ACTIVITIES"

GALLERY OF JUDICIAL MISCONDUCT

Judge Leonard P. Stark, U.S. District Court of Delaware, trial judge in *Leader Techs, Inc. v. Facebook, Inc.*, 770 F. Supp. 2d 686 (D.Del. 2011). Judge Stark heard his jury foreman admit that the jury made the on-sale bar decision *without any evidence other than speculation*, and yet he supported that verdict anyway. Just months before trial, Judge Stark allowed Facebook to add the on-sale bar claim after the close of all fact discovery and blocked Leader from preparing its defenses to this new claim. Judge Stark allowed the claims despite Leader's prophetic argument that the action would confuse the jury and prejudice Leader. He also permitted the jury to ignore the *Pfaff v. Wells Electronics, Inc.* test for on-sale bar, even after instructing the jury to use it. (See that [Jury Instruction No. 4.7 here.](#)) He also contradicted his own instruction to Leader to answer Interrogatory No. 9 in the present tense (2009), then permitted the jury to interpret it as a 2002 admission as well. Facebook's entire on-sale bar case is based upon this interrogatory. (*Editorial: Hardly sufficient to meet the "heavy burden" of the clear and convincing evidence standard.*)

Judge Alan D. Lourie, U.S. Court of Appeals for the Federal Circuit, panel judge in *Leader Techs v. Facebook, Inc.*, 678 F.3d 1300 (Fed. Cir. 2012). Judge Lourie stood to

As Facebook's CSO – and also as a former federal prosecutor and a founding member of the first of the Justice Department's Computer Hacking and Intellectual Property Units, a special team created by now F.B.I. Director **Robert Mueller** and located in the heart of Silicon Valley, - this topic has special resonance for me. At Facebook I work to develop and promote high standards for product security, engage educators, parents, students and other Internet users

Here is proof that Chandler and Sullivan worked together. This case could only have been prosecuted with Chandler's approval since it is notoriously known in Washington, D.C. that the U.S. Department of Justice was required to permit Chandler to oversee the prosecutions of his newly minted Federal Trade Secrets Act of 1986 19 USC 1832 for ten (10) years.

Judge Lourie also failed to apply his own law-test in *Group One v. Hallmark Cards* to the evidence.

After debunking all of Facebook's evidence on appeal, Judge Lourie created new argument in the secrecy of chambers to support Facebook and prevent the on-sale bar verdict from being overturned—a clear breach of constitutional due process.

Judge Kimberly A. Moore, U.S. Court of Appeals for the Federal Circuit, panel judge in *Leader Techs v. Facebook, Inc.*, 678 F.3d 1300 (Fed. Cir. 2012). Judge Moore stood to benefit financially from undisclosed holdings in Facebook. [See disclosure of substantial holdings in Facebook and Facebook-related stocks.](#)

Judge Moore failed to follow the long-held precedent for testing on-sale bar evidence in *Pfaff*

v. Wells Electronics, Inc.—an evident and intentional omission coming from a former patent law professor. After debunking all of Facebook's evidence on appeal, Judge Moore created new argument in the secrecy of chambers to support Facebook and prevent the on-sale bar verdict from being overturned—a clear breach of constitutional due process.

Judge Evan J. Wallach, U.S. Court of Appeals for the Federal Circuit, member of the three-judge panel in *Leader Techs v. Facebook, Inc.*, 678 F.3d 1300 (Fed. Cir. 2012). Judge Wallach is not a patent attorney. This begs the question as to why a judge with no knowledge of patent law was assigned to the case. Would anyone ask a dentist to perform brain surgery? The Federal Circuit was specially formed to appoint patent-knowledgeable judges to patent cases. There is no evidence so far in the judicial disclosures that Judge Wallach holds stock in Facebook, although

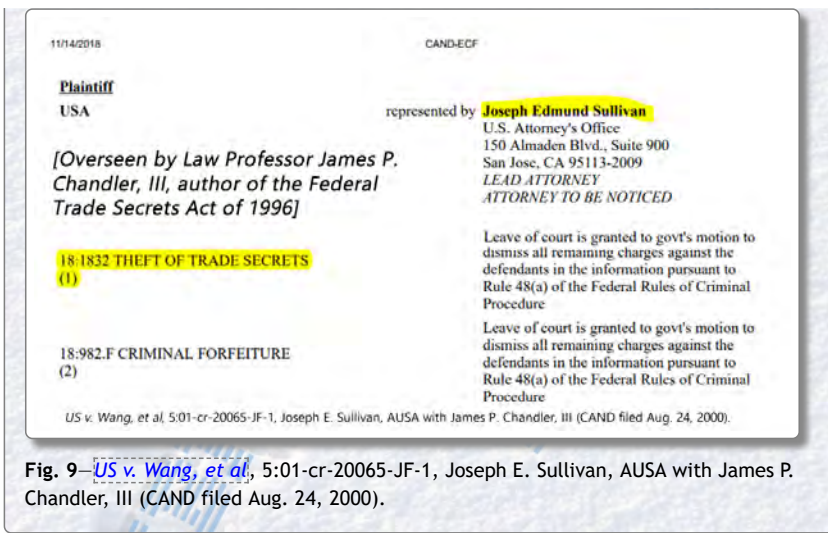

Fig. 9—[US v. Wang, et al.](#), 5:01-cr-20065-JF-1, Joseph E. Sullivan, AUSA with James P. Chandler, III (CAND filed Aug. 24, 2000).

SULLIVAN'S MOVE FROM DOJ/FBI TO SILICON VALLEY HAS BEEN TRULY MAGICAL

Sullivan was then placed as the top legal and security officer and advisor at eBay, PayPal, Skype, Facebook, RiskIQ, U.S. Cyber Alliance, Bluecava (Mark Cuban), Airbnb, GURUCUL, Obama's Presidential Commission on Enhancing National Cybersecurity (read: get Hillary elected), Uber and now Cloudflare.

After eBay, Sullivan bought two homes in Silicon Valley in 2006 worth \$5 million—a remarkable achievement for a guy who had made \$130,000 per year as an assistant U.S. attorney.

Remarkably, Sullivan was hired as chief security officer at Cloudflare despite his epic loss of 57 million user and driver records at Uber and his attempt to cover it up six months earlier. That got him fired at Uber. Of course, normally that might have been a career-ending *faux pas*, but not for Mueller's and Chandler's flunky.

CLOUDFLARE HIRED TAINTED GOODS— EVIDENTLY BECAUSE MUELLER DIRECTED IT

Evidently, Mueller placed his errand boy Sullivan at Cloudflare, but for what purpose?

A quick review of Cloudflare's owners is one clue to Mueller's thinking. It is the same list of shadow government crony corporate beneficiaries like Pelion Ventures, Venrock, NEA (New Enterprise Associates), Union Square Ventures, Greenspring

when he was asked on a motion to disclose potential Facebook holdings and other conflicts of interest, he refused along with the other judges. [See Motion to Disclose Conflicts of Interest](#). Judge Wallach continued in silence even after Clerk of Court Horbaly failed to provide him with Dr.

Lakshmi Arunachalam's motions (according to his Federal Circuit staffer Valeri White), and yet the Clerk signed an order regarding that motion on Judge Wallach's behalf. [See a full analysis of these events at Donna Kline Now!](#) Judge Wallach also failed to police his court's violation of Leader's Fifth and 14th Amendment constitutional right to due process when he participated in the fabrication of new arguments and evidence for Facebook in the secrecy of judge's chambers after he had just invalidated Facebook's sole remaining item of evidence (using disbelieved testimony as ostensible evidence of an opposite). Judge Wallach also failed to police his court when he failed to apply the Supreme Court's *Pfaff v. Wells Electronics, Inc.* test for on-sale bar evidence, which included even the Federal Circuit's own *Group One v. Hallmark Cards, Inc.* test—a test which Judge Lourie should have advised Judge Wallach to follow since Judge Lourie *helped write* that opinion. [Group One test omission analysis](#).

Clerk of Court Jan Horbaly, U.S. Court of Appeals for the Federal Circuit, clerk who signed all the opinions in *Leader Techs v. Facebook, Inc.*, 678 F.3d 1300 (Fed. Cir. 2012). Clerk Horbaly and his staff obfuscated when the court's ruling was challenged by an *amicus curiae* brief revealing clear mistakes of law and new evidence. [See analysis of the misconduct and misrepresentations within the Federal Circuit Clerk of Court in Leader v. Facebook](#). Mr. Horbaly failed to disclose his conflicts of interest and close associations with numerous Facebook attorneys and law firms, as well as his close association with one of Facebook's largest shareholders, Microsoft, who is a Director of The Federal Circuit Bar Association where Mr. Horbaly is an ex officio officer. Additionally, the DC Bar revealed in a written statement

Associates, Fidelity Investments, Google Capital, Microsoft, Qualcomm and Baidu (China).

The specter of foreign interference in U.S. elections is evident given Baidu (China)'s substantial ownership stake in Cloudflare. Also, given Google's now hostile activity in supporting totalitarian regimes in China and Venezuela, and their support of Project Dragonfly and the heinous "social credit score" in China, the risk to free and fair US elections is doubly evident.

When one adds the fact that Mueller's Russia probe is a witch hunt that is debilitating our government, has he exposed American election to Chinese influence using Cloudflare, has Mueller not now become an enemy of the state?

Bookmark: #us-state-election-certificate-authorities | <https://tinyurl.com/y88oavrf>

that Clerk Horbaly is not licensed to practice law in the District of Columbia. [Editorial: What does that make the Federal Circuit with its location within in a stone's throw of the White House? A self-governing state?]

Judge Randall R. Rader, U.S. Court of Appeals for the Federal Circuit, chief judge responsible for the (mis)conduct of his judges and Clerk of Court in *Leader Techs v. Facebook, Inc.*, 678 F.3d 1300 (Fed. Cir. 2012). Judge Rader failed to manage his court resulting in a likely situation where his judges never even received briefs that they allegedly ruled on in favor of Facebook. Judge Rader also failed to disclose his conflicting relationships with a Leader principle with whom he may have had deep professional differences during his time at the Senate Judiciary Committee—his former professor of law at George Washington University Law Center, former Leader director Professor James P. Chandler. See analysis of Judge Rader's undisclosed conflicts of interest in *Leader v. Facebook*. Judge Rader also did not stop his judges from creating new arguments and evidence for Facebook in the secrecy of chambers—after they had debunked all of Facebook's evidence on appeal, which is a clear breach of constitutional due process.

MUELLER INFILTRATED CLOUDFLARE VIA SULLIVAN TO GET ACCESS TO SWING STATE ELECTION ENCRYPTION KEYS

Given how quickly Cloudflare and Mueller muscled in on Hillary's Certificate Authority turf, we are observing an evident mob turf war for control of all Certificate Authority taxing and encryption keys.

When one considers that Hillary and her 19-year law partner Jerry C. Jones sold ENTRUST to placate Michael Chertoff on December 17, 2013, the specter of a full-on mob turf war seems likely. With the ENTRUST purchase, Chertoff bought Certificate Authority in at least Colorado, Oklahoma, Pennsylvania, South Dakota and Wyoming.

The difference between Chertoff and Mueller is that Chertoff appears to be a soy boy who is satisfied with his little piece of the pie.

QUEEN HILLARY SCREWED UP HER ENCRYPTION KEYS IN 2016)

Mueller, on the other hand, wants to be king maker, evidently.

In the process of giving Michael Chertoff some of the encryption action, Hillary and Jerry C. Jones *shifted* their Certificate Authority business by purchasing DigiCert, which controls the encryption keys in the following state election systems: Connecticut, Illinois, Kentucky, Louisiana, Maine, Maryland, Massachusetts, Michigan, Nevada, North Carolina, Ohio (Cloudflare-DigitCert), Oregon, South Carolina, Tennessee, Vermont, Virginia, Washington, West Virginia, Wisconsin

By grabbing encryption keys in Ohio and Florida, Mueller is challenging Hillary's turf.

ARE MUELLER'S WHEELS FALLING OFF? WE HOPE SO.

As an illegitimate special counsel, Mueller is attempting to unseat a duly elected President Donald J. Trump.

Mueller has overstepped his special counsel authority by conducting a political witch hunt against his effective enemies including Paul Manafort, Roger Stone, Julian Assange, among others.

Mueller and Chertoff evidently organized the events of 9/11 to remove the Constitutional blocks to their SES shadow government takeover of our Constitutional Republic.

Mueller has persecuted dozens of FBI and CIA whistle blowers.

It is strongly believed that Mueller had his former FBI agent Whitey Bulger assassinated recently just before he was preparing to testify about Mueller.

Mueller clearly wants a piece of the Certificate Authority taxing and mass surveillance encryption system that the Clintons currently control.

Maybe he wants more.

Maybe he wants to be the King Mob Boss.

The Clintons are now in his way.

CALL TO ACTION:

President Trump can immediately direct his [Federal Public Key Infrastructure Policy Authority \(FPKIPA\)](#) to *revoke* any and all Certificate Authorities that are engaged in supporting treasonous or seditious activity against the United States. This is a matter of grave national security that falls under the rubric of recent State of Emergency Executive Orders.

Specifically, any certificate authorities associated directly or through surrogates with Robert S. Mueller, III, James P. Chandler, III, James B. Comey, Michael Chertoff, Bill & Hillary Clinton, Jerry C. Jones, Joseph E. Sullivan, Orlando Bravo should be revoked immediately.

Regarding foreign election meddling, any Certificate Authority currently providing services to the **state boards of elections** that maintain encryption keys offshore should be immediately revoked.

As a part of this review, the President should evaluate the qualifications and loyalties of the members of the [Federal Public Key Infrastructure Policy Authority \(FPKIPA\)](#) which is comprised of members "appointed by each federal agency's CIO, and the group operates under the authority of the Federal CIO Council" **stay-behind corruptocrat** [Senior Executive Service \(SES\)](#) members who are *not loyal to our duly elected President Donald J. Thank you for a most informative article. The ties that bind all these crooks at the top are almost unbelievable, your article explains very well how they have operated to control the narrative, and how they intended to exert absolute control over We the people. Thank heaven Crooked Hillary wasn't able to cheat her way into the presidency despite all their effort! I hope that President Trump will take action and send all these crooks where they belong.

Speaking of encryption keys, don't overlook Microsoft being complicit in all this. When I was a DOD IT contractor in the late 90s, early 2000s, we used to joke about Microsoft's "Undocumented Features" (read software glitches) that we had to overcome in order to produce the desired "zero defects" product.

Please get this to President Trump. There was a "Sullivan" that he was thinking about to appoint to take Sessions place, after the temporary Whitaker. Cause I think it was said, that supposedly the law says that he can't name the Temporary to the Permanent spot. Even though Whitaker seems like a good fit.

Please, can you write a 2nd, briefly edited version without the more conservative-leaning words/bits so we can share/wake-up/'red-pill' more 'normies'/rest of the country to help unify people who would be more able to 'hear'/read such a great piece of information...?

Maybe add some 'neutral source' research links to verification/sourcing***

Many would love to share and could share more if certain recipients, who need it the most, could access this important information in a more neutral presentation.

I am on board with your presentation-style, myself, no problem, yet I do know so many who might be able to get there with a bit different presentation that they wouldn't immediately shut down with - just a few words...phrases edited... would help 'red-pill' more who really need this and might 'hear'...

Thank you so much for your great work and for considering this request for a bit more 'neutral' version!!

Dear Anonymous,

Feel free to recast this research in a way that Red Pills your constituents! Not sure what you mean about "neutral" research. We strive for "judicially recognizable" sources. Our core research comes from court records, Congressional records, Securities and Exchange Commission documents, State Department document, General Services Administration contract records, DoD records, CIA records, NASDAQ records, doctoral theses, published records, the subjects themselves, etc. Sometimes we use the writings of third parties when their research is especially useful and on point. We'd love to read your "bit different presentation!" Go for it!

When we started this research, we had no preconceived conclusions. These conclusions have been drawn with the facts as they emerged from the mines. Consider that labels such as "conservative" and "neutral" are themselves pejorative, and it is better to just let the facts organize themselves. We strive to share them just as they speak to us, without skewing them toward any group. We do observe that the facts expose corruptocrats within each political label. If readers are more comfortable attempting to pigeonhole these facts as coming from one camp or another, that is, of course, their prerogative, but such pigeonholing may actually color the facts unnecessarily and slow down the Red Pilling. The facts are what they are! That said, we are very open to reading your version to learn more about your perspective and style approach! "Different strokes for different folks."

P.S. When you are ready with your draft. Please notify us here or on AIM4TRUTH.org and we'll make contact with you to get your draft for posting!

Staff, Douglas Gabriel. (Nov. 19). CHEMTRAILS, EUGENICS/GENOCIDE, EXOTIC WEAPONS EYEWITNESS BARELY MAKES IT OUT ALIVE IN CALIFORNIA FIRE STORM. ForbiddenKnowledgeTV.net.

14 hours ago

Scenes of vaporized homes surrounded by unscathed trees are the hallmark of the devastating California fires we've seen, especially starting last year. Last October and last August, when there were massive wildfires in California, I reported on the pervasive pattern of dustified homes and cars, while nearby trees remained relatively unharmed and how some people were coming to the shocking conclusion that these eerie events were the result of Directed Energy Weapons (DEWs). As of last week's California fires, the number of people thinking this has grown.

Scientific papers exist on the use of electrical fields for combustion synthesis in metals and there's no doubt that focused microwaves or masers are used in DEWs. When you apply microwaves to metals, the oxygen released functions as an accelerant to feed a fire in what's called "microwave-assisted combustion synthesis". Significantly, you can't do this with trees because there's no metal in trees to create the oxidizing agent to fuel a self-sustaining fire.

Sharyl Attkisson. (Nov. 17, 2018). THE COMPUTER INTRUSIONS: DISAPPEARING ACT. Full Measure.

The following is the third in a series of excerpts from my New York Times bestseller "Stonewalled," which recounts the government intrusions of my computers. More excerpts to follow.

| DISAPPEARING ACT

In late December 2012, I take up my friend's offer to have my computer examined by an inside professional. Arrangements are made for a meeting.

In the meantime, Jeff wants to check out the exterior of my home. To examine the outside connections for the Verizon FiOS line and see if anything looks out of order.

"If you're being tapped, it's probably not originating at your house, but I'd like to take a look anyway," he says.

Glenn Greenwald. (Nov. 16 2018). As the Obama DOJ Concluded, Prosecution of Julian Assange for Publishing Documents Poses Grave Threats to Press Freedom. *The Intercept*.

THE TRUMP JUSTICE DEPARTMENT inadvertently revealed in a court filing that it has charged Julian Assange in a sealed indictment. The disclosure occurred through a remarkably amateurish cutting-and-pasting error in which prosecutors unintentionally used secret language from Assange's sealed charges in a document filed in an unrelated case. Although the document does not specify which charges have been filed against Assange, the Wall Street Journal reported that "they may involve the Espionage Act, which criminalizes the disclosure of national defense-related information."
