LEGEND: Some corruptocrat photos in this blog contain a stylized Christian Celtic Wheel Cross in the background alongside the text "Corruption Central" meaning we have put the person's conduct under the microscope and discovered that he or she is at the center of global corruption. Judge Amy Berman Jackson asserts that it is unambiguously (to her anyway) a rifle cross hair. This shows her woeful ignorance of theology, history, symbology and engineering. It could be many things, but she clearly wanted to see a rifle sight (ask her about her role in Fast and Furious gun running). Others assert equally ignorantly that it is a pagan or white supremacist symbol. This stylized Christian Chi-Rho Cross dates to 312 A.D. when Emperor Constantine adopted the symbol after his history-changing "By this sign, you shall conquer" vision on the Milvian Bridge. A similar Wheel Cross form was widely used in Ireland by the eighth century. The triple entendre indicates that the

(NOV. 22, 2017)—Last week, lead investigators from American Intelligence Media (AIM)

traveled to Columbus, Ohio to interview Michael McKibben, Chairman and Founder of Leader Technologies, Inc., about his creation of social networking.

This story is so important that we would be remiss if we did not circulate it immediately. You should know how the Internet has been hijacked by criminals to be used against *all of us* in a plan to wipe out free speech and usher in global tyranny.

Douglas and Tyla Gabriel conducted six half-hour interviews that break down this profound story. This article was originally published by [Aim4Truth](#) and is reproduced here by kind permission. Each interview builds on the last one and *gets better and better*.

The *Aim4Truth* headline today is:

person's corrupt life, when studied under a microscope, has been found wanting, but that there is hope in Christ if the person repents from his or her wicked ways. It triples as a reticle or graticule built into all sorts of eyepieces in microscopes, oscilloscopes, surveying instruments, astronomy optics, precision pointers, binoculars, etching equipment, and yes, gun sights, but also computer mouse pointers! Therefore, to claim that it could only mean a gun sight, as Judge Jackson did, is truly ignorant. As shown, it is a call to prayer and repentance based upon microscopic observation of the corruptcrat's conduct. For Judge Jackson to use her ignorance of this symbol as the excuse to gag Roger Stone's FREE SPEECH right to defend himself is heinous abuse of authority. Chief Justice John Roberts should censor her immediately. Patriots must demand it.

PART 1 OF 6: TRILLION DOLLAR RIP-OFF: SOCIAL NETWORKING IS A STOLEN TRADE SECRET

One of the largest government sponsored industrial espionage thefts of copyrights, trade secrets, and patents in modern times was the theft of scalable social networking inventions. The technology and programming code that underlie Facebook, Gmail, YouTube, Twitter, Instagram and most the other large-scale social networking companies runs on Leader Technologies' intellectual property.

It was stolen by a group of criminal lawyers, judges, spies and bankers working with complete impunity and in total disregard for the law. Under the guise of the IBM Eclipse Foundation, James P. Chandler III (who was a national security advisor and top White House attorney) led the group of criminals who, interestingly enough, are also appearing in the news currently due to their most recently discovered crimes, along with John Podesta, Robert Mueller, Rod Rosenstein, John Breyer, James Breyer, Larry Summers, Yuri Milner, Alisher Usmanov, Mark Zuckerberg, Sheryl Sandberg, Bill and Hillary Clinton, and a host of others who are not so well known.

Usually, we see them stealing oil, gold, uranium and other resources, but this time they stole the very software code that is

utilized by the largest tech companies in America, Europe, Russia, China, South America, and anywhere else they could market it—making trillions of dollars in the process.

They carved up the globe and the markets in each region, giving each criminal a piece of the market using Leader Technologies' stolen trade secrets.

Eric Schmidt took America and Europe, Chandler got South America, Summers and his side-kick, Sheryl Sandberg, joined Schmidt in taking America. Yuri Milner, Alisher Usmanov and Summers got Russia; the Breyers got China, and a host of fake tech-lords became the front-men for all of the various social networks we see cropping up everywhere—the richest companies in the world - Google, Facebook, Amazon. The criminals got filthy rich off the back of a hard-working, creative American entrepreneur—Michael McKibben.

What did Leader Technologies get? Seventeen years of lies, deceit, legal maneuvering, patent tricks, industrial espionage, betrayal, governmental manipulation, frauds on the courts, and a \$10 million dollar legal bill—as well as seven lawsuits brought against Leader Technologies itself as an attempt to bankrupt them.

PART 2 OF 6: THE EVIL TECH CARTEL WEAPONIZING SOCIAL MEDIA

Patent theft is accomplished through the Patent Trial and Appeals Board (PTAB) and the many laws that allow the U.S. Patent and Trademark Office to confiscate and control any patent deemed a national security issue. Once confiscated, the inventor is not compensated for the out-right theft of the patent. Stiff penalties, including incarceration, accompany these seemingly "illegal" patent laws that can steal any patent that the military (Department of Defense) or

cyber-intelligence (all 17 agencies) considers a patent that could be turned into a weapon.

Once stolen, the government uses a complex group of public, and secret, defense agencies, corporate contractors, and crooked bankers to fund the weaponization of trade secrets, patents, copyrights and other forms of intellectual property. Usually, the government builds in a "back-door" to the technology—so that they can control and manipulate the weaponized property. Then, they fund a "front-man" as a stooge to run a private corporation that is built on the weaponized invention.

The dummy company gets tens of millions of dollars in initial investments. Its underwriters then inflate valuations that turn into billions when the fake private corporation later hits the stock market. These fake front-men, pseudo-military corporations, stolen patents, and corrupt defense contractors then magically become the largest corporations in the world—Google (NSA), Facebook (NSA and CIA programs), Amazon (NSA and CIA) and on and on down the line of the huge tech corporations that are consuming everything around them in league with the ill-intent of the military and intelligence agencies.

Leader Technologies' inventions fueled dozens of the largest corporations in the world. It was out-right industrial espionage at the highest governmental levels that led to the

PART 3 OF 6: LEADER VS. FACEBOOK: ZUCKERBERG'S THEFT OF SOCIAL MEDIA

Many people are aware that Mark Zuckerberg has had to settle out of court again and again over his theft of the social network that he called "Facebook."

What they don't know, perhaps, is that Zuckerberg was one of the fake tech-lords who got his invention from James Chandler's and Larry Summers' efforts to apply the technology they stole from Leader and was being disseminated through the IBM Eclipse Foundation.

connections allows Gibson Dunn to promote their causes, while simultaneously smearing their opponents and silencing embarrassing news coverage."

This statement followed right after Davis cited Facebook's chief inside counsel in the *Leader v. Facebook* case, Theodore Ullyot, who appears to have helped lead the *Leader v. Facebook* judicial corruption. Interesting word choices associated with Gibson Dunn LLP: manipulation, smear. Attorneys swear a solemn oath to act morally, ethically, and in support of democratic principles. They promise to conduct themselves in a manner than instills confidence among the citizenry in the rule of law and the judicial system. These promises appear to be meaningless. Zuckerberg is obviously a fake who admits that he "doesn't write code anymore." The supposed greatest "code writer" of our time isn't interested in writing code now and appears to know little about the many hundreds of thousands of code lines used to create Facebook. PART 4 OF 6: INTERNET GLOBAL DOMINANCE: MILITARY CYBER WARFIGHTING

When Michael McKibben and his software engineers created their quantum leap in technology to almost infinite scalability with their social networking invention, they planned to implement a moral system that respected personal property and privacy and envisioned a new "age of freedom of information." While Leader Technologies assumed that the government might want to

. . . our society and economy will be dragged down (and eventually destroyed) by copying, infringement, thievery, counterfeiting, hacking, greed, misinformation, exploitation, abuse, waste, disrespect, falsity, corruption, bribery, coercion, intimidation, doublespeak, misconduct, lies, deception, attorney "dark arts," destruction, confusion, dishonesty, judicial chicanery and lawlessness.

If we do not speak up, impeach derelict judges and imprison corrupt attorneys, we cannot possibly hope to start fixing the current ills in our society. Without justice and respect for private property, democracy has no sure foundation.

CURRENT EDITORIAL FOCUS

We are an opinion blog that advocates for strong intellectual property rights. We welcome commenters and contributors. The *Leader v. Facebook* patent infringement case first came to our attention after learning that the trial judge, Leonard P. Stark, U.S. District Court of Delaware, ignored his jury's admission that they had no evidence to support their on-sale bar verdict, but the judge supported it anyway.

The judicial misconduct has deteriorated from there, replete with two of the three judges on the Federal Circuit appeal panel, Judges Alan D. Lourie and Kimberly A. Moore, holding Facebook stock that they did not disclose to the litigants, and later tried to excuse through a quick motion slipped in at the last minute by the Clerk of Court, Jan Horbaly, and his close friends at The Federal Circuit Bar Association. (The DC Bar subsequently revealed that Mr. Horbaly is not licensed to practice law in Washington D.C.)

The judges ignored [shocking new evidence](#) that Mark Zuckerberg withheld 28 hard drives of 2003-2004 evidence from Leader Technologies that could prove actual theft (and therefore claims even more serious than infringement). In addition, Facebook's appeal attorney, Thomas G. Hungar of Gibson Dunn LLP, has close personal ties to just about every judicial player in this story. The misconduct appears to reach into the U.S. Patent Office through abuse of the reexamination process by Facebook. We will stay focused on *Leader v. Facebook* until justice is served, but we also welcome news and analysis of intellectual property abuse in other cases as well.

use their invention, they had no way of knowing that the government intended to use it for the exact opposite moral purposes: to take away the user's freedom and surveil everything in their lives.

Michael was trying to advance the industry and certainly would have never believed that his own government might become his enemy as he resisted the whole-sale theft and weaponization of his inventions. How could Leader Technologies know that the most-respected patent attorney in America was also the most corrupt?

Who could have predicted that the NSA, CIA, FBI and other intelligence agencies would come to control the Internet, social networks, and every communication and broadcast in America—in contra-distinction to US laws and civil liberties. To witness the twisted uses of Leader's original idea must have been maddening.

What is a beautiful idea when implemented as originally designed, it would be a tool of higher human development.

However, thanks to a thieving government, it was turned into a dark web of pornography, gambling, haters, bank scams and total military surveillance. PART 5 OF 6: LEADER TECHNOLOGIES' WINNING SOLUTION: UN-WEAPONIZE THE INTERNET

Leader Technologies' Michael McKibben has a solution to the problem of the US military and intelligence agency's control of the cyber-warfare experiment called the Internet. The Department of Defense created the Internet which was originally called ARPANET, after the Department of Defense agency called DARPA. These groups have incubated and funded the principle components of the Internet, from the cables

GALLERY OF JUDICIAL MISCONDUCT

Judge Leonard P. Stark, U.S. District Court of Delaware, trial judge in *Leader Techs, Inc. v. Facebook, Inc.*, 770 F. Supp. 2d 686 (D.Del. 2011). Judge Stark heard his jury foreman admit that the jury made the on-sale bar decision *without any evidence other than speculation*, and yet he supported that verdict anyway. Just months before trial, Judge Stark allowed Facebook to add the on-sale bar claim after the close of all fact discovery and blocked Leader

from preparing its defenses to this new claim. Judge Stark allowed the claims despite Leader's prophetic argument that the action would confuse the jury and prejudice Leader. He also permitted the jury to ignore the *Pfaff v. Wells Electronics, Inc.* test for on-sale bar, even after instructing the jury to use it. (See that

[Jury Instruction No. 4.7 here.](#)) He also contradicted his own instruction to Leader to answer Interrogatory No. 9 in the present tense (2009), then permitted the jury to interpret it as a 2002 admission as well. Facebook's entire on-sale bar case is based upon this interrogatory. (Editorial: Hardly sufficient to meet the "heavy burden" of the clear and convincing evidence standard.)

Judge Alan D. Lourie, U.S. Court of Appeals for the Federal Circuit, panel judge in *Leader Techs v. Facebook, Inc.*, 678 F.3d 1300 (Fed. Cir. 2012). Judge Lourie stood to benefit financially from undisclosed holdings in Facebook. See [analysis of Judge Lourie's T. Rowe Price holdings re. the Facebook IPO](#). Judge Lourie also failed to apply his own law-test in *Group One v. Hallmark Cards* to the evidence.

it runs on, to the routers every communication runs through, to the micro-processors inside every computer, to the software that makes it work.

All areas of our modern Internet-life were created for military purposes - not to create a system of world-wide free information as Leader Technologies first envisioned. The tech-lords' monopolies can easily be turned off through one of two plans that the shareholders of Leader Technology have devised. Both plans end the control of the Internet by governmental military and intelligence agencies. Both plans are a win-win scenario for every American. Both plans help bring America back to a lawful society where the innovations and inventions of Americans are treated with respect and not usurped for military weaponization.

The social networking systems that have arisen from Leader's inventions were meant to expand human freedoms, not suppress them. Only through a complete revamping of the system, and the removal of all government spying and control of information, can we end the drive to centralize all information access via Google, AT&T, Verizon, Amazon, Apple, Yahoo, etc., through communication via Gmail, Instagram, etc., and through social networking via Facebook, SnapChat, and many other companies.

After debunking all of Facebook's evidence on appeal, Judge Lourie created new argument in the secrecy of chambers to support Facebook and prevent the on-sale bar verdict from being overturned—a clear breach of constitutional due process.

Judge Kimberly A. Moore, U.S. Court of Appeals for the Federal Circuit, panel judge in *Leader Techs v. Facebook, Inc.*, 678 F.3d 1300 (Fed. Cir. 2012). Judge Moore stood to benefit financially from undisclosed holdings in Facebook. [See disclosure of substantial holdings in Facebook and Facebook-related stocks.](#)

Judge Moore failed to follow the long-held precedent for testing on-sale bar evidence in *Pfaff v. Wells Electronics, Inc.*—an evident and intentional omission coming from a former patent law professor. After debunking all of Facebook's evidence on appeal, Judge Moore created new argument in the secrecy of chambers to support Facebook and prevent the on-sale bar verdict from being overturned—a clear breach of constitutional due process.

Judge Evan J. Wallach, U.S. Court of Appeals for the Federal Circuit, member of the three-judge panel in *Leader Techs v. Facebook, Inc.*, 678 F.3d 1300 (Fed. Cir. 2012). Judge Wallach is not a patent attorney. This begs the question as to why a judge with no knowledge of patent law was assigned to the case. Would anyone ask a dentist to perform brain surgery? The Federal Circuit was specially formed to appoint patent-knowledgeable judges to patent cases. There is no evidence so far in the judicial disclosures that Judge Wallach holds stock in Facebook, although when he was asked on a motion to disclose potential Facebook holdings and other conflicts of interest, he refused along with the

Schmidt has been so bold as to brag about his billion dollar efforts to get Obama and Hillary into the White House by writing new algorithms that direct users to rigged sites and ads that support his candidates. Zuckerberg has tried to hide his crimes by lying about Russian ads and hiding his Template to Win, but the head of the Global Engagement Center has told the press that he used Facebook to target and attack US citizens throughout the election.

Zuckerberg now must answer to why Yuri Milner and other Russians own large amounts of Facebook shares. Mark also needs to answer why his best friend and investor (\$200 million), the Russian Yuri Milner now lives in Silicon Valley and buys political and corporate support like it is popcorn. The tech-lord corruption is out of control and the US government is complicit.

Virgil. (Nov. 22, 2017). VIRGIL: GOOGLE TRACKS YOU, UBER HACKS YOU. Breitbart.

Here's a headline that might be of particular interest to the 107 million Americans who have an Android phone or other mobile device: "Google collects Android users' locations even when location services are disabled."

Everyone, of course, should be concerned that a single corporation has flouted all the norms of personal privacy that we've built up over the centuries.

The scoop from Quartz Media details that since the beginning of 2017, mobile devices running the Android operating system track the location of the user, even when the device is turned off, and even when there's no installed SIM card. It seems that each device has been automatically storing up the information, no matter what—and then, when it's connected to the Internet, it sends it all to Google.

How does Google do this? Android devices have been relating their location to cell phone towers, and after that, it's easy—and the more towers in a given area, the easier. When contacted by Quartz, Google didn't deny the practice, volunteering some weaselly words to the effect that it would cease the practice—maybe. (We might also note that around the world, Google claims two billion active users; no one knows what's happening to all that information.)

Fortune. (Nov. 22, 2017). STORES OPEN ON THANKSGIVING FOR “EARLY BLACK FRIDAY” - Zombies fight over electronic slave goods. Infowars.

Black Friday should be renamed Black Thanksgiving.

More and more retailers are opting for longer hours on Thanksgiving (Nov. 23), closing for a few hours overnight – when once-large crowds have begun to thin – and then re-opening on Friday morning with a new set of deals. It's easy to see why chains like Best Buy, (BBY, +1.21%) Macy's (M, +2.89%) and Target (TGT, +0.61%), prefer to give staff time to clean up the store and rest up for the second half of the Black Friday frenzy, what with more and more customers opting for e-commerce, anyway. Last year, some 10 million more Americans shopped online than in stores, continuing a years-long trend.

Some retailers, desperate for sales, extended their Thanksgiving hours.

Ekaterina Blinova. (Nov. 22, 2017). WHY THE FALL OF THE HOUSE OF CLINTON MAY TRIGGER DOMINO EFFECT WORLDWIDE. Sputnik.

Over the past two decades the Clintons have created nothing short of a global network consisting of influential foreign politicians, oligarchs and royalty, exercising what Wall Street analyst Charles Ortel called “the cult of unregulated globalism.” The fall of the House of Clinton may bring an end to this globalist structure, he told Sputnik.

“The Clintons – and the Bushes and Obamas – have embraced the cult of unregulated ‘globalism’ wherein a small band of cronies drawn from the billionaire class, multinational companies, international nonprofits, academia, and media swarm around the world trying to dominate the political agenda, as they move financial markets, and put deals together,” Charles Ortel, a Wall Street analyst and investigative journalist, told Sputnik.

According to the analyst, this approach gained momentum starting around 1988 and allowed globalist elites to build even greater fortunes out of being able to control any national government.

Brian Flood. (Nov. 24, 2017). WASHINGTON POST REPORTER CAUGHT PLOTTING LIBERAL AGENDA WITH BILLIONAIRE GEORGE SOROS. Fox News.

Allegedly unbiased Washington Post reporter Janell Ross spoke at a top-secret meeting of liberal movers and shakers last week, where Democratic donors including billionaire George Soros outlined the future of their progressive agenda.

A Post spokesperson told the Washington Free Beacon that Ross took part of the California event "without notifying her superiors that she would be attending."

The Democracy Alliance, which hosted the event, bills itself as "the largest network of donors dedicated to building the progressive movement in the United States" on the group's official website. The liberal group also claims to "play a leading role in fostering the infrastructure necessary to advance a progressive agenda" in the United States.

Email comment by GH/JM:

Tyler Durden. (Nov. 22, 2017). “COMEY HAS NO ISSUE WITH IT”: JUDICIAL WATCH DUMPS EXPLOSIVE NEW FBI EMAILS FROM MCCABE'S CONFLICT REVIEW. ZeroHedge.

Judicial Watch has just dumped a new treasure trove of FBI emails regarding Deputy Director Andrew McCabe's conflict check relative to the Clinton email investigation (for those who missed it, we reviewed all of McCabe's many scandals here: “FBI Director McCabe Subject Of Three Separate Federal Inquiries Into Alleged Misconduct: Report”). Ironically, this particular FOIA request was filed in October 2016 under the Obama administration but they apparently just “didn't have time” to get to it.

Judicial Watch today released 79 pages of Justice Department documents concerning ethics issues related to FBI Deputy Director Andrew McCabe's involvement with his wife's political campaign. The documents include an email showing Mrs. McCabe was recruited for a Virginia state senate race in February 2015 by then-Virginia Lieutenant Governor Ralph Northam's office.

The news that Clinton used a private email server broke five days later, on March 2, 2015. Five days after that, former Clinton Foundation board member and Democrat party fundraiser, Virginia Governor Terry McAuliffe, met with the McCabes. She announced her candidacy on March 12. Soon afterward, Clinton/McAuliffe-aligned political groups donated nearly \$700,000 (40% of the campaign's total funds) to McCabe's wife for her campaign.

Judicial Watch obtained the documents through a July 24, 2017, Freedom of Information Act (FOIA) lawsuit filed after the Justice Department failed to respond to an October 24, 2016, FOIA request

Among other things, the new FOIA dump reveals a panicked FBI's efforts to enlist the support of an army of lawyers and public relations personnel to deal with the original Wall Street Journal article (see: “Clinton Ally Aided Campaign of FBI Official's Wife”) that first revealed McCabe's ties to the Clintons and his simultaneous oversight of the Clinton email investigation.

But perhaps none of the newly revealed emails from Judicial Watch today are more important than the following one in which McCabe describes how FBI Director Comey was briefed on his ties to the Clintons just days before his wife announced her Senate bid (and subsequently received roughly \$700,000 in political donations for Clinton-friendly PACs) and then confirmed that he “has no issue with it.”

Rowan Scarborough. (Nov. 24, 2017). FIRM BEHIND DUBIOUS TRUMP-RUSSIA DOSSIER PAID MULTIPLE JOURNALISTS FOR WORK. The Wahington Times.

Fusion GPS, the liberal research firm that funded and distributed the anti-Trump dossier, has paid three journalists for work related to Congress' Russia probe, according to court filings.

Lawyers representing the House Intelligence Committee made the assertion in a bid to force Fusion to turn over additional bank transactions involving reporters, law firms and a media company.

"The committee seeks transactions related to three individual journalists," stated the House general counsel court filing, "each of whom have reported on and/or been quoted in articles regarding topics related to the committee's investigation."

The journalists' names are blacked out. Documents list 10 House-demanded bank transactions from Fusion, or its conduits, to journalists.

Fusion's two law firms, Cunningham Levy Muse and Zuckerman Spaeder and Cunningham, are asking a U.S. District Court judge to block access.

- Senate Judiciary Committee Chairman Chuck Grassley is giving President Trump yet another major victory on judicial nominations.

- None of this would have been possible without Harry Reid's decision to kill the filibuster.

The result is Trump will get to fill the most federal judiciary vacancies in 40 years.

President Donald Trump should give special thanks to two U.S. Senators this Thanksgiving weekend. One is still serving in the Senate, the other recently retired. One is a Republican. The other a Democrat. And what should President Trump be thanking them for? Quite simply they have handed him one of the biggest victories any president could claim in the past 45 years.

Yes, this has happened even as one of the most widely covered stories of the past year has been President Trump's difficulties in working with Congress. The growing rift between him and Republican Senators John McCain, Jeff Flake, and Bob Corker alone has made headlines for months. For a U.S. president to have this many public feuds with senators from his own party this early in his presidency is really unprecedented and makes for hot news copy.

But that story ignores a bigger and longer-lasting development in the federal judiciary. That brings us first to naming the Republican gift giver: Senator Chuck Grassley from Iowa. The longtime member of Congress has big time clout as the Chairman of the Senate Judiciary Committee. And Grassley has just used that clout to eliminate one of the final hurdles in the already furious pace of Trump administration judicial appointments to the federal bench.

President Trump famously promised that, if elected president, he would "drain the swamp" — upending the culture in Washington that favors the well-connected.

It is special counsel Robert S. Mueller III whose work seems to be sending shock waves through the capital, by exposing the lucrative work lobbyists from both parties engage in on behalf of foreign interests.

The Mueller probe has already claimed its first K Street casualty: Tony Podesta. His lobbying firm, the Podesta Group, a Washington icon of power and political influence, notified its employees recently that the enterprise is shutting its doors.

On Dec. 21, 2010, Senator John Barrasso sent President Obama a letter seriously questioning the advisability of allowing the Nuclear Regulatory Commission (NRC), with Secretary of State Hillary Clinton's sign off, to approve the sale of 20% of America's uranium reserves to Russian Uranium One via Russian Atomredmetzoloto (ARMZ). The NRC's response (also included in the footnote) failed to disclose Hillary Clinton's astounding conflicts of interest involving Bill Clinton, Frank Giustra, UrAsia, ARMZ and Uranium One. It should be noted that the NRC failed to disclose in the letter Bill Clinton's close friend Frank Giustra and major Clinton Foundation donor and partner, including the Clinton Giustra Enterprise Partnership (CGEP) and the Clinton Giustra Sustainable Growth Initiative (CGSGI), but rather, used this convoluted reference: "U.S. subsidiaries of Uranium One Inc. (the formerly Canadian, now Russian-owned firm that is the parent of the two U.S. subsidiaries)." It appears to a reasonable person that the NRC was covering up for the Clinton Foundation pay-to-play activities.

Email comment by the RATS:

On Dec. 27, 2010, despite Sen. John Barrasso's critical questions about national sovereignty surrounding deals with Russian Uranium One and ARMZ, the NRC rushed ahead and published a description of the uranium rights on U.S. properties sold to Uranium One and ARMZ, stating: "The Willow Creek Project, formally known as Irigaray and Christensen Ranch, is composed of two distinct sites (Figure 1). The Irigaray site (Figure 2) contains the Irigaray central processing plant (CPP) and wellfields and is located in southeast Johnson County, approximately 10 miles northeast of Sussex, Wyoming; 43 miles southeast of Buffalo, Wyoming; and 90 miles north-northeast of Casper, Wyoming."

Tellingly, the Nuclear Regulatory Commission did not respond to Senator Barrasso's Dec. 21, 2010 letter until Mar. 21, 2011—three months after the deal was underway.

Is this not treasonous conduct by President Obama and Secretary of State Hillary Clinton?

Facebook, Google, IBM, and Red Hat on Monday will give free-software license violators two months to mend their ways before going nuclear.

The tech giants, which release a fair amount of GNU-GPL-licensed source code, have committed to extend the GPLv3's 60-day "cure period" to license compliance errors under GPLv2 and LGPLv2.1 and v2.

Under the GPLv3, software scofflaws have 60 days to follow the rules laid out in the license before the agreement terminates. That cure period will now be available to Facebook, Google, IBM, and Red Hat code under the aforementioned GPL variants, in the hope of making compliance less of a burden.

Iain Thomson, (Nov. 17, 2017). Massive US military social media spying archive left wide open in AWS S3 buckets - Dozens of terabytes exposed, your tax dollars at work. The Register.

Three misconfigured AWS S3 buckets [Amazon] have been discovered wide open on the public internet containing "dozens of terabytes" of social media posts and similar pages -- all scraped from around the world by the US military to identify and profile persons of interest.

The archives were found by UpGuard's veteran security-breach hunter Chris Vickery during a routine scan of open Amazon-hosted data silos, and the trio weren't exactly hidden. The buckets were named centcom-backup, centcom-archive, and pacom-archive.

CENTCOM is the common abbreviation for the US Central Command, which controls the army, navy, air force, marines and special ops in the Middle East, north Africa and central Asia. PACOM is the name for US Pacific Command, covering the rest of southern Asia, China and Australasia.

forms you need to file a complaint with the participants. MOOC stands for "Massive Open Online Course."

You should complain about:

(1) the intellectual property theft of social networking source code from Leader Technologies, Columbus, Ohio that is the software engine running the UIA;

(2) the corruption at Ohio State University and OSU's collusion with Battelle Memorial Institute which helped steal the software being used by UIA; and

(3) the mistreatment of OSU Marching Band Director Jon Waters regarding fabricated Title IX charges that were used to pave the way for Steinmetz to announce UIA.

Universities pride themselves on protection of intellectual property.

Therefore, these universities cannot participate in this abuse of inventor copyrights, patents and trade secrets by The Ohio State Trustees and Administration. If these universities participate knowingly with Ohio State in its theft of intellectual property, then they are aiding and abetting the theft of intellectual property on a "massive" scale... Massive Open Online Course (MOOC) also known as The Eclipse Foundation.

Joshua Caplan. (Nov. 28, 2017). CLINTONS CAUGHT HIDING CONTRIBUTIONS FROM LOBBYISTS LINKED TO URANIUM ONE FIRM. The Gateway Pundit.

Documents obtained by John Solomon and Alison Spann of The Hill reveal APCO, the firm linked to TENEX, the Russian nuclear energy giant involved in Uranium One deal, contributed more to the Clinton Foundation between 2008 and 2016 than previously reported.

John Solomon and Alison Spann of The Hill report:

The site, created to detect conflicts of interest for Secretary of State Hillary Clinton because of her family's various charitable efforts, shows APCO gave between \$25,000 and \$50,000 over the last decade. [...]

For instance, an internal CGI document prepared in fall 2011 lists APCO's in-kind contribution at \$275,000 for that year alone. And APCO's annual report on its global charitable efforts boasted of a large jump in support for CGI in 2011. [...]

The increase in the contributions came as APCO was paid \$3 million in 2010 and 2011 to work for Rosatom, Russia's state-owned nuclear company. Rosatom paid APCO to lobby the State Department and other federal agencies on behalf of its Tenex subsidiary, which sought

The Pentagon's Inspector General has launched a preliminary investigation into charges that James H. Baker, the director of the Defense Department's Office of Net Assessment (ONA), is retaliating against a whistleblower who warned of "rigged" contracts to outside consultants, The Daily Caller News Foundation has confirmed.

TheDCNF verified through two independent sources that the acting IG, Glenn A. Fine, initiated a formal "Whistleblower Reprisal Investigation" Sept. 28 to look into allegations that Baker unleashed various reprisals against Adam Lovinger, a senior ONA official. Lovinger warned about potential sweetheart deals to politically-connected outside contractors, including one with a woman Chelsea Clinton has referred to as her "best friend."

Jamie White. (Dec. 02, 2017). REPORT: FBI WENT AFTER LEAKER IN CLINTON-LYNCH TARMAC MEETING - Bureau more concerned with leaking than corrupt meeting itself. Infowars.

Newly released emails reveal that the FBI focused on tracking down the whistleblower who exposed Bill Clinton's tarmac meeting with Loretta Lynch rather than look into the questionable meeting itself.

The FBI emails, obtained by watchdog group Judicial Watch through FOIA requests, reveal the extent of the agency's concern with the whistleblower who alerted reporters to the now-infamous tarmac meeting between former President Bill Clinton and Obama's Attorney General Loretta Lynch.

An email chain sent on July 3, 2016 shows a pair of FBI agents discussing who might be responsible for alerting reporters to the Clinton-Lynch tarmac meeting, saying "we need to find that guy and bring him [in]."
