Dec 14, 2012

FEMA L-366 Planning for the Needs of Children in Disasters

The goal of the course is to enable participants to improve their community's mitigation and emergency operations plan specifically regarding the needs of children. The course will provide them with the information needed to address the unique needs of children prior to, during and following disasters. It will also provide them guidance and direction on how to form coalitions and how to become advocates for the unique needs of children in all aspects of emergency management.

After completing this course, participants will be able to:

- Articulate the importance of providing for the needs of children in disasters in your community's current emergency management plan.
- Explain what is required to keep children safe in emergencies and why those needs are unique.
- Explain the assumptions, concept of operations, organization and assignment of responsibilities that address the unique needs of children prior to, during and following disasters.
- Explain the planning components necessary to address the unique needs of children prior to, during and following disasters
- Incorporate the unique needs of children in disasters into Emergency Operations Plans
- Identify stakeholders and organizations that can assist in preparing for the needs of children in disasters.
- Initiate steps to form coalitions and build teams that have a stake in keeping children safe in disasters

The target audience for this course is local and state emergency managers and planners, Child Services Agencies, NGO's, Child Care Providers, Schools, and Faith-based Organizations.
