Successfully Manage Your Cloud Solutions

THE BEST RUN

© 2023 SAP SE or an SAP affiliate company. All rights reserved.

Summary

You can make your transition to the cloud quickly and efficiently with the SAP® Cloud ALM solution. Cloud-based application lifecycle management (ALM) enabled by SAP Cloud ALM optimizes the way cloud and hybrid environments operate across your business. SAP Cloud ALM safeguards your implementation of SAP solutions with best-practice support and methodology. It allows you to detect and cure disruptions of your end-to-end business processes with efficiency and to benefit from support services delivered by SAP.

Objectives

- Configure, integrate, extend, and run your solution landscape with efficiency and speed
- Save time related to managing your SAP solutions and reduce the operations cost
- Analyze, optimize, and safeguard your systems and business operations

Solution

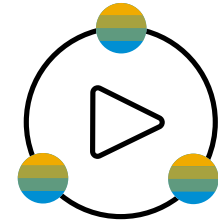

- Support for the entire lifecycle of your SAP solution, from build to run
- Full-stack monitoring of hybrid landscapes to detect and resolve disruptions as fast as possible
- Operation automation for efficient follow-up of detected issues as well as proactive task monitoring
- Automatic project tracking and testing

Benefits

- Support business continuity with the proactive detection of issues and inefficiencies
- Accelerate time to value and reduce the cost of implementation and operations

SAP Information Sheet

Quick Facts

Overview

As your cloud service provider, SAP is responsible for the availability and performance of your cloud solutions from SAP, but you configure and manage how those solutions are used across your business. With the SAP® Cloud ALM solution, you can take advantage of complete cloud-based application lifecycle management (ALM) and enhance the efficiency of your cloud solution and hybrid landscape, from implementation up to ongoing operations. (See the [figure](#) on the next page.)

The solution safeguards implementation of cloud and on-premise solutions from SAP – including GROW and RISE with SAP offerings. So, you can extract the full value of these solutions.

In addition, SAP Cloud ALM enables monitoring for the complete Intelligent Enterprise. Accurate tracking of your implementation project provides transparency regarding changes in your hybrid landscapes.

Usage rights for SAP Cloud ALM are included in SAP Cloud Service subscriptions and in on-premise SAP Enterprise Support maintenance agreements. SAP Cloud ALM is ready for immediate consumption, so you can quickly begin realizing the efficient delivery of your cloud solutions. The cost-efficient solution supports many cloud and on-premise solutions today. SAP plans to cover all components of the Intelligent Enterprise in the future.
