Case [Redacted] (Closed) and Dr. Leon Davidson

REF : WA 26643, and [Redacted] Telecon of 8 Jan 58

1. We have contacted Dr. Davidson by telephone advising him that we cannot resolve his problem concerning the space message and its transmitter because records on the matter have been destroyed by the evaluating agency. Davidson accepted this statement with the comment that he had been told this before, that he now had a second article for publication concerning Air Force handling of space sightings in the hands of the Pentagon security review people (which he thought was wild enough to pass them), and he hinted that he might wish to take up again at a later date the matter of this particular message.

2. We appreciate that there have been many cooks in the kitchen on this dish and that, as a result, the extraordinarily noncommittal and evasive answer we were instructed to give Davidson was perhaps the only one possible if we were to avoid crossing up previous statements of our own, and other involved agencies, to this man. But the answer was hardly fair to Davidson, and one not likely to be fully accepted by him.

4. We are sure more will be heard from Davidson.
