## 2009-10 Tuition and Fee Rates

### *A National Comparison*

#### Introduction

This is the 41<sup>st</sup> annual report of tuition and fee rates at public institutions in the 50 states. Data contained in this report were compiled using Washington Higher Education Coordinating Board (HECB) surveys of state agencies or individual institutions. HECB staff greatly appreciates the continued cooperation and assistance of survey respondents. Their efforts to provide accurate and timely data have enabled these reports to serve as source documents for many states as they develop their own tuition and fee analyses.

With each annual survey, respondents have an opportunity to review and revise previously reported data. Though small in number, such revisions may affect the national averages reported in prior editions. Revisions are indicated with footnotes or endnotes included in the report.

Data represent average undergraduate tuition at over 200 state public institutions, as well as average graduate tuition at over 190 public institutions with graduate programs. Not all public institutions are included in this survey; newly founded public institutions are not added to the survey in order to keep the data comparable over time.

Full-time undergraduate tuition and required fee amounts were based on 45 quarter hours or 30 semester hours and full-time graduate tuition and required fees were based on 30 quarter hours or 20 semester hours per year.<sup>1</sup> Tuition and required fees include total academic year tuition and required fees for full-time students. Optional fees are not included unless they are paid by all full-time students.

Appendix A, page 55, contains a listing of institutions by state included in Tables 1-8.

For more information, please contact Coke Putnam at (360) 753-7870 or by e-mail at [cokep@hecb.wa.gov](mailto:cokep@hecb.wa.gov).

<sup>1</sup> Full-time graduate tuition in some states covers 24 semester hours per year, instead of 20.

### **Resident Undergraduate Tuition and Required Fees by State**

Charts 1 through 6 present data on the 2009-10 resident undergraduate tuition and required fees. The charts also report the percentage change in tuition and required fees from 2008-09 to 2009-10 by state for flagship universities, the average of comprehensive colleges and universities, and the average of community colleges. These data are included in the National Tables 1, 5, and 9. Charts 1 through 6 are listed in decreasing order of magnitude.

## **Part Two**

### **National Comparisons of Tuition and Required Fees by State 2005-06 through 2009-10**

Tables 1 through 10 provide tuition and required fee rates and changes over the last five academic years. National Tables 1 through 8 display tuition and required fee rates for full-time undergraduate and graduate students at public four-year institutions. National Tables 9 and 10 display state-reported averages for community colleges. Tables 1 through 10 are listed in alphabetical order by state.

#Revised from 2008-09 report.

## **Part Three**

# **Washington Peer Group Comparisons of Tuition and Required Fees**

**2005-06 through 2009-10**

The institutions listed in Tables 1 through 20 are in alphabetical order by state.

## Peer Institution Comparison Groups

In 1988, the HECB undertook a study to develop peer groups reflecting a national perspective. Concurrently, a special joint legislative and executive study group was appointed to review the higher education master plan funding recommendations, with peer comparison groups identified as one of its areas of study. The addition of the peer group tables in the late 1980s was done to fulfill state law related to HECB duties and is continued today for the report's consistency.

The Joint Study Group and the board worked together and adopted the following peer policies:

1. The Carnegie Foundation's classification of institutions was used as the basis for selecting comparison groups for Washington institutions of higher education in 1988.
2. The national comparison group for the **University of Washington** is all public institutions in the Carnegie classification Research Universities category I with medical schools. These institutions typically offer a wide range of baccalaureate programs and are committed to graduate education through the doctorate.
3. The national comparison group for **Washington State University** is all public land grant universities in the Carnegie classification Research Universities categories I and II with veterinary schools. Research category II differ from category I by the fewer number of doctoral degrees offered.
4. The national comparison group for **Central, Eastern, and Western Washington Universities** is all public institutions in the Carnegie classification Comprehensive Colleges and Universities category I. These institutions typically offer a wide range of baccalaureate programs and are committed to graduate education through the master's degree.
5. The national comparison group for the **Washington community college system** is all state community college systems.

The Carnegie Foundation's classification system has changed multiple times since 1988. In 2005-06, the system was changed extensively. For example, research institutions are now differentiated by the amount of research activity using a multi-measure index for very high research activity (RU/VH), high research activity (RU/H), and doctoral/research universities (DRU). The new categories are not directly comparable to the categories in previous classification schemes (Research I and II, Doctoral I and II, and Doctoral/Research – Extensive and Intensive). Nevertheless, while institutions' classifications may have changed over the years, peer groups in this report have not to ensure comparability across annual surveys.

In 1990, the HECB adopted a peer group for **The Evergreen State College** using the Carnegie Foundation classification of institutions. The board screened a composite category of public institutions in the Comprehensive I and Liberal Arts II classification. (Institutions in the Liberal Arts II classification are primarily undergraduate colleges with major emphasis on baccalaureate programs.) The selected peer institutions were also based on size, similarities of degrees awarded, and other characteristics common to The Evergreen State College.
