The Amhara Professionals Union and others have accused the WHO Director General, and the government and political party he belonged to, of targeting the Amhara people for depopulation using various methods (relating to nutrition and health care)—including the coercive use of injectable “contraceptives” which caused permanent infertility among many Amharic women.

More than 2.5 million Amharas have vanished from the 2007 census in Ethiopia. The Amhara Professionals Union (APU) reviewed reports that have been published by Ministry of Health of Ethiopia since TPLF took power. The study shows how Dr. Tedros of TPLF used health policies to discriminate among Ethiopians. He particularly used family planning methods to control the population growth of Amharas.

Part 2

The Bill & Melinda Gates Foundation has been a major contributor to the World Health Organization. For the 2016-2017 budget, the top two contributors were the USA and the Gates Foundation.

Dr. Michael Ryan, the Executive Director of WHO's Health Emergencies Program, joined WHO in 1996. **Dr. Ryan has also worked with the Gates Foundation.**

*During a WHO press conference on March 30, 2020, Dr. Ryan called for going door to door during the COVID-19 lock-down to "look in families to find those people who may be sick and remove them and isolate them" See <https://www.youtube.com/watch?v=2v3vlw14NbM> at WHO YouTube channel. The question starts at 46 minutes 20 seconds and his answer concludes at **50m 50s**.*

Part 3

The Bill & Melinda Gates Foundation funds and advocates for policies and technologies relating to the management of human beings in the areas of population, disease, nutrition, reproduction and education.

The Gates Foundation has funded many organizations besides WHO and the CDC Foundation. Its leadership includes Warren Buffett and William H. Gates Sr. (*All eugenicists*).

During the COVID-19 event, the media has given Bill Gates *(not a doctor or a scientist, just a developer, but who spend millions in media to fund his narrative)* a prominent podium from which to issue declarations to governments and the public.

Robert F. Kennedy Jr. has recently highlighted criticism of Gates' record and WHO.

The following concerns are based on one of Kennedy's articles and the sources provided:

The Gates Foundation funded a campaign to eradicate polio. As a result of this campaign, from 2000 to 2017, in India, there were estimated to be an additional **491,000 cases of children with non-polio acute flaccid paralysis caused by the vaccine.**

In February 2017, the Indian government cut ties with the Gates Foundation and ended its control over the National Technical Advisory Group on Immunization.

There have been outbreaks of vaccine-derived polio elsewhere:

In 2009, there were **Gates Foundation funded tests of experimental HPV vaccines on 23,000 girls in India and 1,200 suffered severe side effects.** The Indian parliament investigated.

The above article also discusses **Depo Provera (DMPA)** and its **side effects, including sterilization.** Informed consent is critical. The following document mentions that this drug has been used in Ethiopia and many countries:

A Gates-funded experimental malaria vaccine was tested in which 151 children died. Serious adverse events occurred in 1,048 out of 5,949 children.

During Gates' MenAfriVac campaign in 2010, there were reports of the meningitis vaccine being forced on African children with many cases of paralysis resulting.

In 2010, Gates made a \$10 billion donation to WHO and called for a decade of vaccines.

In the same year, he presented a TED Talk on "Innovating to Zero" about population and carbon

<https://www.youtube.com/watch?v=JaF-fq2Zn7I>. Since then Gates has made other significant presentations.

" ... we can reduce the world population by 10-15% if we do a good job with new, vaccines, healthcare and birth control. "

In 2014, Kenyan doctors accused WHO of chemically sterilizing millions of unwilling Kenyan women with a "tetanus" vaccine campaign. Labs found a sterility formula in every vaccine tested which had been developed for contraception in the 1990s. The same type of incidents were reported in the 1990s also.

A 2017 study shows that WHO's DTP vaccine kills more African children than the diseases it prevents, with vaccinated girls suffering ten times the death rate of unvaccinated children.
