SPECIAL ACTION:

If you have the resources, time and desire, then make plans to be in Geneva, Switzerland from May 20, 2022 to May 28, 2022 (or sooner).

JOIN THE PEACEFUL PROTESTS IN GENEVA MAY 20-28

What will we be aiming to achieve by joining the protests in Geneva from 20-28 May?

If you live in Europe and can catch a train or drive (especially a really large truck!) to Geneva, then please consider joining what may prove to be a very large protest. In an ideal world, this makes the Canadian Trucker Convoy look small.

The purpose of physical protests should be obvious - to express your displeasure with the consideration of the abominable amendments to the International Health Regulations. What the protests will accomplish depends on how many people attend and how wisely the people act.

Most people who protest make the mistake of bringing a cool sign, marching around, shouting and going home. Most protesters FAIL to realize that every protest should be seen as a fantastic opportunity to connect with like-minded people in order to better organize and plan the next moves. Most protesters fail miserably at taking advantage of the networking possibilities.

If a few thousand people show up, it will likely be viewed as a failure. If a quarter of a million people show up in Geneva while many well known speakers inform and energize the crowd, then even if the amendments are approved it will help to energize the six month effort to convince every nation in the world to REJECT THE AMENDMENTS and LEAVE THE WHO.

TEXT VERSION:

Dear _____

I'm calling to inform you that evidence has been revealed that has exposed a blatant power grab by the World Health Organization. Delegates to the 75th World Health Assembly must be stopped from voting to hand over the sovereignty of the United States and all the other nations of the world to the WHO.

On January 18, 2022 HHS Assistant Secretary for Global Affairs (Loyce Pace) submitted documents to the WHO that proposed amendments to the International Health Regulations. I would like to call your attention to the amendments to Article 12, sections 2, 3 and 5. Please be aware that these amendments are scheduled to be voted on this May 22-28, 2022. The end result of this would be the transfer of United States sovereignty over to the WHO and the beginning of One World Government.

Please realize that I am not referring to Senate Bill 2297.

That is another abomination which you must speak out against.

Please also realize that it is a criminal offense to keep secret any plots against the United States. You have now been made aware of this information and you are under a legal obligation to inform the President of this potentially treasonous act. [18 U.S. Code § 2382 - Misprision of treason]

If you have any questions, you should contact James Roguski, who is the person who revealed this information. He can be reached at 310-619-3055. All the details are available on <http://DontYouDare.INFO>

I request that you take action immediately and respond to me as soon as you have done so. Let me know what actions you have taken to address this potentially treasonous act.

Thank you.

MAKE A LOT OF PHONE CALLS!

Many thanks to Karen Bracken and Dr. Lora Chamberlain for their efforts in defining a straightforward and immediate call to action.. They are truly warriors that are dedicated to exposing these corrupt acts. They have teamed up to craft an immediate action that everyone can (and must) do.

Take the actions that they advocate, but do NOT just do what they recommend once. **Make those phone calls every day, even multiple times per day.**

In addition to the calls advocated by Karen and Dr. Lora, please also **contact every media outlet on the planet.**

The Biden Administration has proposed amendments to the International Health Regulations which will be presented and may be voted on by the World Health Assembly scheduled for May 22-28, 2022. The Intergovernmental Negotiating Body of the World Health Organization

I gave a two minute presentation to the Intergovernmental Negotiating Body of the World Health Association (WHO) on Wednesday morning, April 13, 2022. The last time that I checked, the WHO had not published the 4 public comment sessions on their YouTube channel. It seems that the 4 public comment sessions are only available on their website.

CLICK HERE: <http://INB.WHO.INT>

*Scroll down and watch the 4th public comment session of the WHO. Their website is weird. It may seem like there are only 3 videos on the page but the fourth video is actually there. You just need to swipe on the three other videos in order to move them so you can get to the fourth video. **Maybe they are trying to hide what happened. They should be really embarrassed.***

I was supposed to be the third speaker, but the first speaker didn't show up, so I got to speak second. There were 44 people scheduled to speak after me, including The Bill and Melinda Gates Foundation and Eco Health Alliance.

After my 2 minute segment ends, I literally "dropped my mike" and walked off stage. Hang around to enjoy the view of my dining room. It sure seemed like no one wanted to follow after me. I think it was absolutely hilarious. It really made my day.

If anyone has the time and capability to edit out my 2 minute presentation and the hilarious aftermath, I will be more than happy to give you a free premium subscription to this newsletter. Give me a call anytime. 310-619-3055.

#StopTheAmendments

We the People of the entire world must wake up and **#StopTheAmendments** that the United States has proposed and will be considered at the 75th World Health Assembly in Geneva this May 22-28, 2022.

We WILL succeed in stopping the amendments, but if we fail, everyone on earth must be informed of articles 59-62 of the IHR that provides every member nation of the WHO to reject the amendments individually. There will be a 6 month period ending in November for member nations to "opt-out."

The "Pandemic Treaty" is a dangerous topic, but also an opportunity. Rather than just reflexively oppose it, we must impact it wisely: ThePeoplesTreaty.com

LETTERS TO SEND

A GENERAL EMAIL THAT CAN BE SENT TO NEARLY ANYONE:

Dear _____,

Have you ever heard of the International Health Regulations (IHR)?

Did you know that on January 18, 2022, Loyce Pace, Asst. Secretary for Global Affairs HHS, has submitted proposed amendments to the IHR that would hand over sovereignty from every nation on earth to the World Health Organization.

These amendments will be presented to the member states at the next World Health Summit on May 22-28 2022. There is a possibility they will be voted on and approved during that summit.

The WHO is also actively negotiating a Pandemic Treaty for Prevention, Preparedness and Response, but our top priority at this time is helping to stop the amendments from being added to the IHR.

Get all of the information as soon as possible and realize that this is a clear and present danger to the sovereignty of every nation on earth and a threat to the bodily autonomy and personal freedom of every human being on planet Earth.

Get all of the information.

SEND THIS EMAIL TO MEDIA OUTLETS:

Dear _____;

PLEASE REPORT ON THIS TREASONOUS ATTACK ON OUR SOVEREIGNTY.

As a long time listener/reader I come to you today to advise you of an issue of great importance and concern. I believe that our Constitution, our sovereignty and individual medical freedom is very much in jeopardy. However, this time it is being threatened at an international level.

QUESTIONS:

Were you aware that high level United States government employees are actively planning to hand over our sovereignty to the World Health Organization during the 75th World Health Assembly. (as well as the sovereignty of

Were you aware that it is nearly impossible to find the official list of the delegation that is scheduled to "represent" the United States at the 75th World Health Assembly this May 22-28, 2022?

Were you aware that in 2005 the United States, as a member of the international community, agreed to the a revised version of International Health Regulations (IHR)?

Were you aware that on January 18, 2022, Loyce Pace, (Assistant Secretary for Global Affairs, US Department of Health and Human Services) submitted a document to the World Health Organization that proposed amendments to the International Health Regulations which appear to even further erode our sovereignty and our individual medical freedom?

We have educated experts on the subject of the amendments proposed by the United States to the International Health Regulations that are very interested in doing an interview to share this information with the public. These amendments have been submitted to the WHO and will be presented at the

next World Health Summit May 22-28, 2022. This is why we must act quickly to get the word out and motivate people to take action.

Here are some of the concerns with these amendment changes/additions:

- ✓ These amendments were submitted without the proper advice and consent of the Senate.
- ✓ The proposed amendments have not been published in the Federal Register.
- ✓ There has not been any opportunity for the public to comment.

- ✓ The proposed amendments would give the Director General of the WHO the power to unilaterally declare a Public Health Emergency of International Concern (PHEIC) even over the objection of the sovereign country dealing with an outbreak of disease.

- ✓ The amendments will also give the Director General of the WHO the power to unilaterally declare an Intermediate Public Health Alert (IPHA) even over the objection of the sovereign country dealing with an outbreak of disease.

- ✓ The amendments will also enable the 6 Regional Directors of the WHO the power to unilaterally declare a Public Health Emergency of Regional Concern (PHERC) even over the objection of the sovereign country dealing with an outbreak of disease.

- ✓ The proposed amendments will cede additional sovereignty, control and legal authority over to the World Health Organization.

- ✓ If passed by a simple majority of the 194 member states of the WHO, the proposed amendments will NOT require approval by 2/3 of the United States Senate as the U.S. is already a signatory to the IHR.

LESS URGENT, BUT MORE CONCERNING:

In addition to the proposed amendments to the IHR, the WHO has also set up an Intergovernmental Negotiating Body (INB) that is actively negotiating an international “Pandemic Treaty on Prevention, Preparedness and Response.”

The proposed “Pandemic Treaty” is separate from, and in addition to, the proposed amendments to the IHR mentioned above. It is being negotiated right now.

If you have any questions, the concerned citizen who first brought this issue to public attention, and the most knowledgeable person I know about this topic is James Roguski of Glendale, California. He is available at 310-619-3055 James.Roguski@gmail.com

Please contact James Roguski to set up an interview and help us bring this issue of grave importance to the American people. Silence is compliance and we cannot afford to comply with these new amendments or the future Pandemic Treaty which will supersede our US Constitution and mandate medical treatment and policies for the entire world even if our country is not affected.

Thank you,
