Historically, the Association has utilized three classes of membership: accredited, candidate for accreditation, and associate. Under these classes, accredited schools and candidates for accreditation are also members of the ATS Commission on Accrediting. With the advent of changes made in 2020, the Association is shifting to only two classes of membership, which are accredited and associate. The three classes of membership are represented above because several schools were grandfathered under the old nomenclature. Criteria for membership are published on the ATS Web site in the "Accreditation" section.

The figures in this table reflect the membership totals at the end of each calendar year.

The table on the following page shows schools whose membership status changed during the report year.

The Web site www.ats.edu lists the current status of all member institutions.

Table 1.2 (Glossary) Significant Institutional Characteristics of Each Member School, 2022 - 2023

Table 1.2

Significant Institutional Characteristics of Each Member School, 2022-2023, contains the most recently collected data on selected institutional characteristics of each member school.

Independent Schools are freestanding higher education institutions. While these schools may have consortial relationships with colleges or universities, they are not controlled by or subsumed within the formal governance structure of a college or university

University-Affiliated Schools are integral parts of larger teaching or research universities with multiple professional schools/graduate programs, typically offering research doctorates in more than one area.

College-Affiliated Schools are integrally related to four-year colleges or teaching universities that have limited additional graduate or professional programs.

Primary Racial/Ethnic Composition identifies the primary racial/ethnic composition of the student bodies as reported by each institution.

Denomination indicates each institution's religious affiliation. Protestant Denominational schools are affiliated with a single or primary Protestant denomination. Inter/nondenominational includes schools with multiple or no denominational affiliation. Roman Catholic schools are diocesan, university departments of theology, and religious order (including union) seminaries in the United States and Canada. Orthodox schools represent Greek Orthodox Archdiocese of America and Orthodox Church in America.

Comparing Data Over Time

When comparing data over time, please note the following: The number of member institutions changes in every even-numbered year as additional schools become new members of the Association. The degree programs were recategorized with the adoption of redeveloped accrediting standards. All these changes make over-time comparisons with earlier editions potentially less meaningful. A number of tables report data over a three- to five-year period, and these tables have accounted for these variables. Comparisons over time within these tables are altogether appropriate.

Full-Time Equivalency Computation

Information on enrollment is reported according to Head Count (the total number of students enrolled) and Full-Time Equivalency (FTE). The latter is calculated by ATS in the following ways:

For all master's level programs FTE is computed in the following manner: Divide the total number of credits required for the degree by the number of semesters or quarters prescribed for degree duration to determine the average academic load. The total of credit hours taken by all students in a given degree program in a semester or quarter is divided by the average academic load. For example: An MDiv degree requires 90 semester hours, and the school considers the degree to be typically six semesters. The average academic load would be 90 divided by 6, or 15 hours per semester. If all MDiv students complete a total of 600 hours for the semester, and the average academic load is 15, then the FTE would be 600 divided by 15, or 40 students.

For all doctoral programs FTE is computed in the following manner: The FTE equals the Head Count (HC), with the exception of the DMin program. The FTE for DMin programs is calculated at one-third of Head Count.
