The objective is to organize the Seth Rich Files as best for historical record keeping as possible.

What is likely to turn into a friendly assassination will prove a clear connection between the assassins and those in the media industry issuing numerous false reports and abetting the suppression of an ongoing investigation. All non public figure information should not be posted to Reddit nor any accusations made. Instead, we are simply attempting to catalog the facts of a most suspiciously foul murder in the heart of the Capital of the United States early July, 2016.

Let's organize the files as such, unless anyone has a better suggestion:

## 14 - Career

Seth Rich was an IT Director for the Democratic National Committee. He was tasked with "Voter Database Expansion", shortly prior to his murder. It is claimed he was associated with the IT Director with the Bernie Sanders campaign that became part of the Van Scandal in December, 2015.

According to Joel Rich, Seth Rich received an email 4 days prior to his execution, July 6th, 2017, requesting him to quit the National DNC and to join the Hillary Clinton Campaign. There is no known reply or follow up.

> While he was still a student at Creighton he worked for the US Census Bureau and the Nebraska Democratic Party, and interned for Senator Ben Nelson. After graduating in 2011, Seth was hired by a national polling company, Greenberg Quinlan Rosner, and relocated to Washington, DC. - his girlfriend Kelsey

> Two years later, he went to the Democratic National Committee, where he worked on the development of a computer program that allows people to enter their names and have maps drawn to their polling places. It required data culled from every voter precinct in the country. Seth worked to boost turnout by connecting voters with resources like polling place locations.

previously worked on Democrats' campaigns, for the U.S. Census Bureau and as a boating instructor at a summer camp,

Manifesto for a Movement. #StillSanders #BernieOrBust #PoliticalRevolution

"Won't back down" - I didn't vote for Bernie because he's a cute old man. I voted for a set of demands. For public healthcare, free college tuition, a social safety net, For an end to war and empire, An end to police murder and mass incarceration, For jobs and worker protections, For dignity for immigrants, For clean water for our communities, For someone who can use the government, To mobilize our people to respond to the existential threat of climate change.

I voted for Bernie to build a movement for political and economic justice. To tax the rich because the rich have stolen from us. To take control of our government because they control us.

There is literally zero reason to believe Hillary Clinton will meet any of these demands. If the people stop demanding it. We can stop Trump without swearing our fealty to the one who betrayed us. We're taking this to the Convention. We are not backing down.

Seth Rich probably had a Voat account.

How do we find it? Is there a Bernie sub he may have posted in?

EDIT: I posted this PNG early this morning.

I was chatting with Katica, & she was trying to track whether his panda nick was derived from 'People Against the NDAA' aka P.A.N.D.A.

I also found this on a /pol/ thread. It's Seth Rich's cousin replying to a tweet from Sean Hannity yesterday.

Hannity answers Katica's DMs, so she's going to make sure he's informed about the tweet & who it's from.

Found this in his Twitter. Some "old friends" of his talking about his new, very wealthy friends:

<https://kek.gg/i/7d65WP.png>

Also his attempt an enigmatic statement. Probably just trying to trigger conspiracy theorists.

Recommend you try and identify who owns the account. You can try messaging via the Facebook page:

He was obsessed with pandas, they both stopped posting at the same time when Rich was murdered, and his Instagram handle was pandas4progress, very similar right down to the number 4 not "for". You have to do some major mental acrobatics to make it not be him.

Panda4progress makes a comment inferring that they are a cyclist, this is consistent with the reddit account grub4me (see other comments for correct spelling).

THERE IS PROBABLY A SETH RICH ACCOUNT ON VOAT.

Once we confirm Pandas for Bernie as Seth, we have established motive. It's all here

[https://np.reddit.com/r/The\\_Donald/comments/6c1rj9/not\\_a\\_drill\\_pedes\\_with\\_clues\\_from\\_pol\\_and\\_other/dhra0gt/](https://np.reddit.com/r/The_Donald/comments/6c1rj9/not_a_drill_pedes_with_clues_from_pol_and_other/dhra0gt/)

I made this thread a couple hours ago about recent developments. It seems Rich was likely behind the December 2015 "hack" of the Clinton campaign by Sanders. Here's /u/MeGrimlock4 commenting about that very case. Almost as if he knows more than the article does.... HE DID BECAUSE HE WAS THE ONE WHO LEAKED IT. THIS IS ALREADY HUGE BESIDES THE SOCIAL MEDIA STUFF AND NEEDS HELP GETTING OUT. Seth Rich's twitter is @panda4progress, which follows @Reddit, which led us to believe he was in fact a redditor. That seems consistent with this reddit account, in that they're both in DC and have an interest in bicycles. Edit: not JUST bicycles. A company named "split" which this account is talking about here @Panda4Progress talks to them here. Also /u/MeGrimlock4 is posting about Nebraska football. Rich was from Omaha. No cornfed midwestern kid from Nebraska isn't a Huskers fan. THIS IS DEFINITELY SETH RICH'S ACCOUNT Here's where it gets interesting: /u/pandas4bernie and a tumblr by the same name ALSO stopped posting at the same time as this account. If that's Rich, then that proves motive. Rich was a BernieBro. If we can get solid connection between Seth Rich aka MeGrimlock4 aka @Panda4Progress and @Pandas4Bernie then we have SOLID evidence that Seth Rich was a Bernie Sanders fan who was one of only a few who had the ability to lower the firewall FOR A MOLE HE PERSONALLY RECOMMENDED who worked for the Sanders campaign in order for that mole (Urestka) to retrieve the files. THAT PROVES BOTH MOTIVE AND THE FACT THAT SETH RICH WAS ALREADY AN ESTABLISHED LEAKER. Also we need to know what Seth Rich's relationship was with Josh Uresky. All we have now is that Seth was ALMOST certainly the guy who recommended him. If we can show a connection, that will be solid. Check out the link to the other thread because it's a big enough deal on its own and pass it along/archive it because it's getting buried in a sea of memes in a dumbass (and possibly manufactured) reddit war right now.

Shortly Prior to Murder by Gun Shot, Seth Rich made an anti-gun violence, and 'everyone get along' post, AND makes a post regarding the 'Orchard of Mystical Truth' and group acceptance, AND takes the 'Nights Watch' Vow around MAY , 2015 (date of Key change over within DNC). The 'Mainfesto' is not 100% confirmed but the account has a similar writing style as all his other 'panda for bernie' type accounts, and there are no known alternative 'panda for bernie' creators. His comment history also follows along similar time lines as that of Seth Rich.

<http://www.thegatewaypundit.com/2017/04/flashback-seth-richs-father-asked-join-hillary-clintons-campaign-4-days-murdered-video/>

Seth Rich had been asked to join Hillary Clinton’s campaign 4 days before he was murdered.

<http://www.dailymail.co.uk/news/article-3741754/Father-murdered-DNC-staffer-reveals-son-join-Hillary-Clinton-presidential-campaign-punching-hole-ugly-rumor-Wikileaks-source.html>

Joel, 68, also revealed to Daily Mail Online that four days before his death, Seth learned he had been chosen to work on Hillary Clinton's presidential campaign – a career triumph for a young man who spent his life dedicated to politics.

He said: 'He'd worked on senate and house campaigns but he'd always wanted to work on a presidential campaign.

'He had just found out they wanted him and he was probably going to be moving up to Brooklyn through the election. He was really excited about that.'

## 20 - Night of the Murder

[–] chodebabies 1 points (+1|-0) 6 hours ago Voat

Fresh from night of murder:

Here's what's publicly known:

Rich placed at least five calls and received two incoming calls, according to the log. The first three were placed before closing time — two to his father, who'd gone to bed early and didn't hear the ring, and one to a friend; they lasted only a minute.

around 1:30am - Left Lou's because it's closing time, 1.8 miles from home, 40 min walk.

1:21 - 1:33 - Received call from a friend

> Rich seems to have been on the phone with another friend, who had called him, when the bar closed. That 12-minute call ended at 1:33.

2:05 - 3:34 - Called GF (GF was in Michigan?)

Call dropped for a bit, then he called her again

~3:34 - ~4:17 - Continued speaking with GF

~ 4:17am - Ended call with GF

4:19am - Shot (patrolling police heard gunshot?). Found by police shortly after and taken to hospital.

5:57am - Pronounced dead

## 21 - Timeline

People need to understand that the fuel behind the "meme war" and alternative media stories that helped defeat Clinton came about because of SETH RICH.

This is the man who turned the e-mails over to Assange, who published them on Wikileaks. He helped change history. We need to get to the bottom of this. To find the truth. We owe him that.

Rod Wheeler was the PI hired by Seth's family, and reported he was told by a PD insider that proof exists on Seth's laptop, but they are being told to keep quiet: <https://www.youtube.com/watch?v=JacShITWs-8> [Embed]

the dnc notices someone used a personal computer to create copies of lots of emails and documents kill seth rich because it was his terminal leaks are released by wikileaks following the death of its original source tried to make an example for future leaks but actually gave more credibility to aforementioned leaks.

I'm fucking pissed. I hope you're all pissed. The DNC is the most corrupt party out there. This party is worse than the Nazi party, at least the Nazis did everything in the open. Who knows how many people the DNC has killed. They're also blaming it on Russia and trying to worsen ties between two super powers. Is this a joke to them?

I got robbed at gunpoint a month ago by a couple of 16 year old gang bangers and I was terrified that they would retaliate because I asked for restitution in court and went to the police. I can't imagine the fear the family is feeling when their son was obviously murdered by government officials. People who say that since the family isn't on board it's not true are insane. They are scared for their lives.

Assange needs to break his confidentiality rule this one time. Fuck, the guy is dead, no one believes he will be put in harm's way.

Hillary really is a real life supervillain it's already fucking stupid

there's not a soul on earth who believes the Russian shit. it's transparent their only goal is distraction from the truth that they killed Seth Rich for exposing the DNC so they could lie and get away with it.

It's a conspiracy theory to suggest it was a botched robbery when there is 0 evidence to support that. He was clearly intentionally murdered. Could have been by a lot of different parties but it's a complete hoax to suggest it was a botched robbery.

So a man with links to the organization whose members are suspected of killing Seth Rich (SEIU) now "speaks" for the family.

Someone needs to rescue this family.

<http://www.whatreallyhappened.com/RANCHO/POLITICS/BODIES.php#axzz4hH0d3Pub>

Ed Butowsky is the 3rd party individual who hired Rod Wheeler on behalf of the family for the investigation:

<https://twitter.com/EdButowsky>

This claim is made by Robbin Young, an actress who engaged in private DM's Guccifer 2.0 : <http://g-2.space/sr/dms.html> , <https://www.robbyoung.info/test-2> .

Last night Robbin claimed that Ed Butowsky threatened her with physical harm for her speaking out about the Seth Rich murder and to stay away from the story. She claimed that this happened over a phone-call that took place between the two of them.

She also advised that Jack Burkman was working together with them in some regard, possibly just in that he's the one offering the reward money. That's the same Jack Burkman in this video, where he's a lobbyist for GOP claiming Russians killed Seth Rich: <http://www.fox5dc.com/news/238926113-story>

You'll also probably notice that's the same news station that picked up the original story last night. Butowski, Wheeler, and Burkman are all FOX news contributors before this, thus why the family cast suspicion. They also said in their agreement according to a letter that they sent to FOX news saying that no investigation findings were to come forward without their consent, and then we find today that they were informed about this story breaking from publications and not from Butowski, Burkman, or Wheeler ahead of time.

So this leads to the question of why would Butowski try to stifle Robbin from speaking about the DM's with guccifer confirming that Seth Rich was the whistleblower. And why wouldn't Butowski or Wheeler obtain consent from the parents before moving forward even though they'd agreed upon it previously.

Another interesting turn of events is that the tweets between Robbin Young and Ed last night are missing from Ed's timeline. He deleted the posts where he was refuting even speaking to Robbin in the first place. I observed them there myself last night as well as a few dozen other people would have.

> Seth Conrad Rich died after he was shot multiple times on the 2100 block of Flagler Place NW, three blocks east of Howard University Hospital, police said.

> "There had been a struggle. His hands were bruised, his knees are bruised, his face is bruised, and yet he had two shots to his back, and yet they never took anything," Mary Rich said.

> Fifth District police officers were patrolling the area about 4:20 a.m. when they heard gunshots, police said. Neighbor Mike Mueller said he also heard the shots. When police arrived on Flagler Place, they found Rich suffering from multiple gunshot wounds. The Omaha, Nebraska, native was taken to a hospital, where he died.

Police did not release any information on the type of weapon the shooter may have used. The homicide rate is down in the MPD's Fifth District, which includes Bloomingdale, Brookland and Trinidad. Seven people have been killed this year,

He was talking on the phone with his girlfriend when she heard noise on Rich's end of the line, Mary Rich said. Her son told his girlfriend not to worry about it. "There had been a struggle. His hands were bruised, his knees are bruised, his face is bruised, and yet he had two shots to his back, and yet they never took anything," she said

"They took his life for literally no reason. They didn't finish robbing him, they just took his life," Mary Rich continued.

Neighbor Mike Mueller said he also heard the shots.

"I heard two sharp gunshots, very quickly. I looked at the clock and it was 4:19," he said.

Seth : "Yes, I am Home."

Seth : "I've got to go."

2 minutes later he was shot.

Father claims he hung up the phone to get ready to beat up the bad guys.

Seth was obsessed with Water Bottles. He'd always buy a new water bottle whenever he went out with Mary Rich, and claimed this was for safety. Mary Rich claims the water bottle could be used as a weapon to defeat armed muggers.

On the last night of his life, Rich stayed at the bar until it closed around 1:30 a.m., according to a Lou's bartender, 1.8 miles to home.

Two hours and 49 minutes later he would be lying on a sidewalk, dying.

A log of Rich's phone calls, compiled by the family, accounts for a large chunk of that time — about two hours 15 minutes. But it doesn't explain why he took so long to make a walk home that should have taken about 40 minutes.

There's been much speculation that Rich went to another bar, the Wonderland Ballroom, after leaving Lou's. But a person who spoke to him that night and agreed to be interviewed on condition of anonymity said he did not go there.

Rich placed at least five calls and received two incoming calls, according to the log. The first three were placed before closing time — two to his father, who'd gone to bed early and didn't hear the ring, and one to a friend; they lasted only a minute.

Rich seems to have been on the phone with another friend, who had called him, when the bar closed. That 12-minute call ended at 1:33.

At 2:05, he called his girlfriend, who was in her home state of Michigan. They spoke for 89 minutes. Then the call dropped. A few minutes later, he called her again, and they spoke for 43 more minutes.

At about 4:19 a.m., Rich told his girlfriend he was almost home and said, "I gotta go," according to Rich's father, who has spoken with his girlfriend. (She asked not to be named or quoted because of continuing harassment of those connected to the case.)

Rich didn't sound alarmed. His girlfriend, according to a person familiar with the events of that night, went to bed thinking there was nothing amiss.

The father learned his son was found around the corner from his house, at the intersection of Flagler Place and W Street NW— about 300 steps from his front door in the rapidly gentrifying Bloomingdale neighborhood.

After walking from the bars northwest of his neighborhood the police report says Seth Rich was found shot in the back "laying in the southwest corner of the intersection of W St. and Flagler Pl. NW." That means he was likely walking east on the south side of W Street at the time of the shooting since that is the direction towards his home.

<https://i.imgur.com/F4mfNzV.jpg>

I'm surprised there was never any footage released from any of the evening. None from the bar, and none from the numerous cameras he had to walk by in between the bar and his home.

The two block radius around the home has very few cameras, but all three streets he likely entered the neighborhood from, Bryant St NW, W St NW, and the alley between W and V St NW have multiple CCTV cameras.

Why was there never any video released from him walking down one of those three streets?

Feel free to share this with anyone interested in Seth Rich and let me know if you have any suggestions. Thanks for reading.

Apparently two sets of legs were captured on cctv.

Security footage from a nearby market showed two men following Rich through a crosswalk by his home moments before he was shot, FoxNews.com has learned. The camera only captured the assailants' legs and Rich after he was shot and fell onto the street.

According to staff at Lou's City Bar, a sports pub Rich frequented five or six nights a week, it started off as any typical Saturday. Rich showed up alone that evening and sat at his usual leather stool in the corner of the bar. He was a regular at the pub, often showing up straight from the office in a shirt and tie and lugging his laptop bag.

Jennifer Palmieri's sister was a nurse at the hospital that night when Seth Rich came in. Was WL going to reveal the SR bombshell at that time? (self.conspiracy) submitted 9 hours ago by iloveher222 Jennifer Palmieri's sister was a nurse there. Hillary's communication director, her sister was the nurse. Remember Palmieri was the one who tweeted around November 1st, "if you see or hear any outrageous story about Hillary in the next few days, remember its false". Was the SR story supposed to break in those days before the election? Did Palmieri think JA was going to drop info on this? Hillary said essentially the same thing as Palmieri around that time, that there were crazy stories floating around about her and that it was false.

Police told the family, Joel Rich said, that a security camera from a small convenience store across the street captured a grainy image of their son collapsing and the feet or legs of two other people — possibly his killers.

The Riches also learned that their son's watch and wallet had not been taken, although the watchband was damaged. There was something else that wasn't taken: an expensive Jewish chai pendant that Mary Rich had initially given to Joel, inscribed with the word "ditto," an inside joke from their courtship.

He wasn't in pain, they were told. But he was confused.

## 29 - Obituaries

The following is the euglogy given by Rabbi Steven Abraham of Beth El Synagogue at the service on July 13.

> We are here today to remember a young man who loved his family, his community and his faith. A young man who believed in our country, who believed that our best days as a nation are still in our future. A man who was willing to wear a panda outfit or dress up in red, white and blue when the time called for it. And perhaps most importantly, a man who believed that everyone in our country, no matter their economics, religion or the color of their skin had the right to vote.

> Seth Conrad Rich was born Jan. 3, 1989 to loving parents Mary and Joel Rich. Seth also had the deep love only brothers can share with his older brother Aaron and was overjoyed to be present at his brother's wedding to Molly this past year.

> I am told that ever since Seth was a little kid, he had an infectious personality. As a child he was willing to talk to anyone. If you were to leave him in a crowded room of strangers it would take only a short time before he would know everyone and they would know him. Whether it be making his rounds at weddings introducing himself to the invited guests, to overhearing a number of businessmen talking and bringing his mother over as he thought she could help them with advertising, to stealing the mic to make a toast at a wedding reception. Seth loved being around people and people loved being around Seth.

- > In high school his charisma, coupled with his intellect, led him to be on the Central High Debate team which reached the national championships. Seth was also a member of the choir, the soccer club and the student Democrats.
- > While Seth was always proud to grow up in Omaha and call Nebraska home, he spent his summers at his second home in Conover, WI. I would like to share with you some thoughts from the Director of Camp Ramah, Jacob Cytryn on his camper and colleague.
- > his energy was frenetic and contagious, his curiosity for ideas and, even more so, for people's personalities, boundless. Seth was an unassuming intellectual: he was an exceptionally bright adolescent and even as a rising high school junior displayed some of the interests that would lead him to his dual passions of public service and statistics, but he always seemed more at home in the games of adolescent boys, in planning elaborate pranks
- > Seth combined the great pillars of our camp: being a great friend, a lover of intellectual pursuits, committed to unabashed fun and an underlying allegiance to the Jewish people - Creighton University where he graduated with a BA in political science in 2011. I am told that Seth's family was thrilled he was staying close to home, but a bit apprehensive for a nice Jewish boy to attend a Jesuit institution.
- > While he was still a student at Creighton he worked for the US Census Bureau and the Nebraska Democratic Party, and interned for Senator Ben Nelson. After graduating in 2011, Seth was hired by a national polling company, Greenberg Quinlan Rosner, and relocated to Washington, DC. - his girlfriend Kelsey
- > Two years later, he went to the Democratic National Committee, where he worked on the development of a computer program that allows people to enter their names and have maps drawn to their polling places. It required data culled from every voter precinct in the country. Seth worked to boost turnout by connecting voters with resources like polling place locations.
- > He is survived by his parents, Mary and Joel Rich; and his brother and sister-in-law, Aaron Rich and Molly Zwerdinger.

Seth Rich was under going dilemmas regarding the purpose of life prior to his murder. In particularly he was discussing the importance of treating each other well, the importance of not resorting to gun violence, and his making personal vows of putting the good of humanity above that of his own.

However, some Power Mods or Reddit Admin have been removing or deleting his comment history, so that his personal mental state is less known to those who are assisting in the investigation as to the mental state of Seth Rich prior to his murder.

Apparently he was discussing high-minded forms of morality and justice, prior to his 'clearly random, no evidence, no snitch murder'.

Craig Murray in Dec. on the Russia lie: "Well, any journalist worth their salt in considering the credibility of a source will first consider access. (...) Now both Julian Assange and I have stated definitively the leak does not come from Russia. Do we credibly have access? Yes, very obviously."

dancing-turtle[S] 32 points 16 hours ago Not recent, but I'm bringing this up again because Craig Murray's statements on this seem to often be forgotten. He claims first-hand knowledge that the leaks came from disgusted American insiders. I have yet to see any reason to doubt his integrity on this.

## 61 - Political Events Surrounding DNC Leaks

2015 - 12 - 08 - The VAN Data Breach (Dec, 2015)

Neither party want a lawsuit, mostly because it would destroy the Democrat Party, I hope he goes through with it however.

Many of you know how Hillary Clinton has actively worked with Google, Twitter, and some other online search engines to suppress information and search results. And I'll show you one instance.

Google Hillary Clinton Barack Obama 2008 VAN scandal or whatever

You won't find jack. But political junkies know that a Hillary Clinton staffer during the Presidential primary accessed Barack Obama's files. It was on the news and in several papers. The details were unclear, because VAN (or whomever, they change names a lot), choose not to release the details, and settle the matter with a quick warning and I'm not even sure if the staffer was fired. I believe the idea as that 'she was young, people make mistakes', and little more was said (technically she was 'fired' and immediately rehired in another position, if I recall).

Conversely when Bernie's staffer did it, VAN shut down his campaign for 2 or 3 days, immediately prior to the NH debate, and made several false and inflammatory statements, which they continuously retracted, near hourly. I kept linking to their site and quoting them, but they kept retracting their statements.

Their initial statement was "Bernie staffer illegally accessed Clinton data", when in reality it was "Bernie staffer performed a search, and at this time any search result would return both Bernie and Clinton data combined, as the site was malfunctioning."

Likewise, they should add that they knew of the malfunction, and instead of preventing access, they choose to 'monitor' activity, over a 4 hour period, to see what would happen. Anyone who's a political junkie knows that the way VAN and DNC, handled the situation was completely at odds with their commitments to neutrality, and likewise worlds different than how they handled it with Clinton just 8 years before.

But good luck finding anything on that, as that has been removed from the internet, apparently.

Short list of all the suspicious activity surrounding the event:

Dramatically different reaction 2016 vs 2008 (no reaction 08, public smear campaign 16)

That's about the sum of it. What the staffer did was wrong, unquestionably, but the 'setup' and the 'reaction' are just so at odds with anything anyone has ever seen before. Just think for a second; in America we got one who served on the Board of Walmart 20 years ago, who essentially founded VAN, the most powerful US voter database in the world, running against a guy who annually strolls the heifers and campaigned in Iowa with just tape.

And many would say by most accounts he must be feeling pretty, pretty awesome.

2016 - 05 - 15 - Sick Berns: What happened in Nevada?

<https://www.youtube.com/watch?v=LmWt4aCTRG0&feature=share>

### The Bernie Nevada Riots (May, 2016)

So the doors officially opened at 9am, However about 300 Hillary supports got there before. People start to arrive, and around 9:30am they called a floor vote. The vote was to suspend the rules, and allow the chair to lead the contested convention uncontested, and suspend "Robert's Rules of Order". They voted, it was a split decision, the chair ruled to suspend the rules. A few hundred asked for a Recount, it was denied, in violation of Section VI. E.

Next around 10am (I think) the chair declared to change the rules for this convention from conventions prior, a vote was had, she passed the vote. The chair declared that instead of using the delegates previous (as in all times prior), they will use only the delegates currently present in the room, the vote was had, and she passed the vote.

Next what happened was around 11am or whatever, it was taking people more than an hour to park, as there was not near enough parking, no direction for parking, and they ended up turned away. Around 11:30, as the lines were out the door, they called for a quick vote, which Hillary was ahead, something like 1200 Sanders 1300 Hillary. The chair called to confirm the vote, and it was denied on the floor.

People kept coming in and it was now near 4pm, with 1726 Sanders and 1695 Hillary at the peak, but 64 Sanders were not allowed to present evidence of registration, contrary to rules set by the committee. The claim is that they were not registered Democrats, and they were not allowed to present proof otherwise. It was solely at the discretion of the DNC. There was a motion to allow them to present evidence they were Democrats, that was denied. There was a declaration to note this event a symbol of corruption and a motion to remove the chair, Dan Rolle's mic was cut.

Now around 9pm, there was no agreement to vote, and the DNC had barricaded the doors preventing food delivery, and locked the bathrooms. They also brought out 20 armored servants to face the people. At this time the chair called for a vote, it was 1662 Sanders, 1695 Hillary, vote was called on the floor to confirm, there was no agreement, the chair called it confirmed, said vote tallied, meeting confirmed.

At this point the Sanders people were pretty upset, but there was no calls for violence. Standing up, flicking someone off, and thinking "what a bitch" is not violent. It's very accurate. However, there was one guy in the middle of the Sanders people, after the Hillary people had left, who picked up a chair as high as he could, as slow as he could, and then froze. The Sanders people took the chair and hugged it out.

Now in other events, George Soros and others have hired "instigators" to make flashy headlines. They technically don't do things illegal, but make for GREAT photos. Who knows here, but you want to get a close up of their face, and name, when you see this happen. Anyways. One last point, the "story is" this guy was to throw the chair at the police, which is pretty ridiculous considering they had weapons bare and were ginning for a fight. In either case, the security loudly stated "OR I PROMISE YOU, WE WILL pursue any and all measures available under the law, OK? PLEASE LEAVE". Everyone left in 10 minutes. And that was Nevada.

The Media has portrayed this as "Chairs were thrown" 4:35min! (they weren't), and Bernie was UNRULY! (they weren't), and that it was "fair and square" (it wasn't). The Democratic party will not survive this latest batch of corruption. They do not know how cameras and cell phone technology works. If you expose them as the foreign bankers they are, and if you know their only mission is destroy workers rights worldwide, then it's easy to combat the enemy. If you can only see the mask of Clinton, Biden, Warren, or Trump, then it's just one servant of banks after another. All servants to a media, owned by foreign bankers, whose only purpose is to destroy collective bargaining, which is Democracy, and to further destroy worker rights. We are fighting for America. It will not be easy.

The best voice to listen to is Nina Turner. Stay Calm, and Stay Committed.

When you investigate a criminal act, it's common for the guilty party to deny or to obstruct evidence collection of their wrong doing. My name is Aaron Rich and I am the brother of the Seth Rich who was murdered in Washington DC on July 10th, 2016. His murder remains unsolved to this day.

Seth was an amazing person who only cared about trying to help others and make the world better. He was extremely passionate about his civic duty and making sure everyone had a chance to be heard. My brother made a difference every single day, and I know that now more than ever because of the emotional support we have received from across the country and around the world.

His murder remains a mystery, and despite the hard work of the detectives at the Washington Metropolitan Police Department, we have still been unable to get the answers to the questions surrounding his death. Because of the lack of clear evidence in the case, Seth's job working for the Democratic National Committee and the caustic political environment we find ourselves in today, many people have used my brother's murder for their own agendas. Every few weeks another conspiracy theory surfaces, another promise of credible information and another lack of evidence to support the crazy claims being made.

My family has received many offers of assistance in finding Seth's killers, and we are so grateful for each and every one of them. It gives us hope to know that Seth isn't forgotten and that his case remains on people's minds.

One thing that no one tells you, and something we weren't prepared to hear when we lost Seth, is that if a case isn't solved immediately, it could take months or years before justice is served. Worse, to keep the investigation active, to seek leads and to follow up on investigations, to make sure that every possible angle is covered—its expensive. My family isn't wealthy and because we lack the funds or resources to make sure we are doing what we can to aid Washington's police department, we've had to rely on help. Experience has taught us that we need help, and we need help that is free from any ulterior motives or with any strings attached. That's why, with a heavy heart, I have started this fund.

These funds will allow my family to investigate, and help solve Seth's murder. We know somewhere, someone has the information on who murdered Seth. We intend to use these funds to hire professional help that can discover new facts and information, cooperating with the police and solving this in the fastest way possible. The funds will be used for three purposes:

- 1) Allow us to raise and maintain public awareness of Seth's unsolved murder through means such as flyers, direct mailings, etc.
- 2) Allow the family to hire investigative, forensic and analytical services we believe will be useful for discovering new facts and leads in the case.
- 3) Maintain, and then increase, the reward for information leading to an arrest and conviction at/from it's current level.

These funds will be held in a separate account maintained and administered by the family to ensure full transparency for their use.

We ask for your help in enabling us to help solve Seth's murder, and find the closure we need to move forward in our grieving of our beloved brother and son.

Thank you for your time, support, and sharing of our story.

## 76 - History of Social Board Commentary

Holy Shit! Amy Dacey was person at DNC Seth Rich had beef with!!! Missing Link Found In Seth Rich Case. Spread Widely! (self.conspiracy) submitted 6 hours ago by TruthSeeker1776 Seth Rich was discovered by DNC after the Bernie/DNC voter data compromise controversy & it was his boss Amy Dacey (ties to SEIU) that uncovered it & was the co-worker he had "issues with" Last post was buried. Know its a lot of text, but there's a lot to link together here to paint the full picture. After seeing a thread ([https://www.reddit.com/r/The\\_Donald/comments/6bong6/working\\_theory\\_according\\_to\\_rod\\_wheeler\\_pi/](https://www.reddit.com/r/The_Donald/comments/6bong6/working_theory_according_to_rod_wheeler_pi/)) that Amy Dacey might be a key person at DNC connected to Seth since she was his boss while he was working on the Voter App project, I searched back through the wiki podesta files to see if she came up and YES SHE DID. Im going to start here and connect it all back to Seth and how she might be a key player in all this. Rewind back to 2007, Amy worked for SEIU and has a LONG history of working with Podesta. Here's an email about a meeting she set up with lots of names we will recognize (hint: Ballsack Eyes!) <https://wikileaks.org/podesta-emails/emailid/40160> (note: This email has Amy Dacey setting up a meeting between Soros and Co. Herb and Marion Sandler are listed in that meeting. Herb Sandler is the person who wrote the email to Podesta asking if he'd do better playing dominoes on cheese or on pasta.) She moved to the Government Relations Dept with SEIU: <https://wikileaks.org/podesta-emails/emailid/26012> And she also was Executive Director at Fund for America working with the same crowd: <https://wikileaks.org/podesta-emails/emailid/24363> She then went on to be CEO of the DNC and was leading the investigation into the voter database compromise that happened in December 15. Tl;dr for those that dont remember: the dnc voter database was compromised and Bernie campaign ended up w voter info from Hillarys campaign. They had NGA VAN do a few audits to find what was compromised and reported the results and who was responsible in the Bernie campaign for accessing info they weren't supposed to. The director of voter data for the Bernie campaign was fired as a result. This is the report she sent out after the initial audit: <https://wikileaks.org/podesta-emails/emailid/15792> At the end of this report, she refers to continuing the audit which is when I think they might have initially discovered Seth as a leaker. The DNC has also instructed NGP VAN to conduct a review process of their internal procedures to identify how this mistake was allowed to happen and prevent further such mistakes. The DNC is currently beginning the process of securing an additional, independent audit by a data security firm of NGP VAN's procedures. As a result of this analysis, NGP VAN found that campaign staff on the Sanders campaign, including the campaign's national data director, had accessed proprietary information about which voters were being targeted by the Clinton campaign — and in doing so violated their agreements with the DNC. After discovering, he accessed things he shouldn't have and suspected him, then that could have lead to the unmasking hunch everyone has for further surveillance. If that is the case then perhaps this NGP VAN is also a point of research as they would have played a part in uncovering this? Other important note: he was working on the voter app project for dnc when he discovered the fraudulent voting sites issue, which was reportedly one of his motivations to work with Wikileaks. If you read the emails exchanges during the Bernie/DNC Voter Compromise, the Hillary campaign wanted to know the "ACTUAL DAMAGE" of the compromise

perhaps afraid the fraud would be discovered? <https://wikileaks.org/podesta-emails/emailid/35361> According to a few news articles Seth made the exchange to this ex MI6 agent that now works with Wikileaks in September.

<http://m.washingtontimes.com/news/2016/dec/14/craig-murray-says-source-of-hillary-clinton-campai/> Important because if we was exchanging info back in September and continuing through this ongoing audit/investigation which started in December then it could've been discovered during that. 2016 - 07 - 11 - Murdered in Myrtle Beach, South Carolina - 7 hours away.

Two murder victims found shot to death in Socastee Plaza on Monday morning have been identified.

Rafael Aguilar, 31, and Carmelo Marmolejo-Calixto, 33, died of gunshot wounds to vital organs, Horry County Deputy Coroner Darris Fowler said. Both lived in the Myrtle Beach area.

The double homicide in the parking lot of Socastee Plaza in front of El Ya Merito on S.C. 707 happened just a little over a month after a 65-year-old woman was found dead in the same area.

Aguilar and Marmolejo-Calixto were found dead around 7 a.m. Monday, according to Lt. Raul Denis with the Horry County Police.

3 other people besides Seth Rich died within 2 months, all bringing accusations against Clinton. John Ashe death was highly suspicious and misreported. He was a top UN Official who was charged with carrying suitcases full of cash between the UN, Wall street, and a corporation in Little Rock Arkansas. His death was initially reported as 'natural causes', followed by 'heart attack', followed by 'choking', followed by the final narrative : crushed windpipe with a barbell. Victor Thorn death was reported as a suicide, no real evidence either way. He dedicated his life to uncovering Hillary Clinton conspiracies in his mountain home.

Shawn Lucas death also was highly suspicious and misreported as well. After about a month it came back as a cocaine et al pharmaceutical binge. Immediately following his death, the DNC Defense Attorney's rushed to dismiss the lawsuit, as Shawn Lucas was a key witness in the chain of custody.

Still, it's a lot of major, unexpected deaths, within a short period of time, much like the multiple deaths of Russian ambassadors.
