

Power Platform Community Conference

Reflection. Connection. Direction.

October 22, 2020

Join the Power Challenge!

Join the Power Platform fundamentals challenge!

- 1) **increase** your Power Platform understanding with easy to read instructions
- 2) **develop** skills to add to your resume, better yourself, and further improve your career
- 3) **benchmark** your progress with your friends and colleagues as you learn together

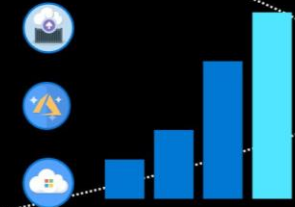

To participate in the challenge, you'll need to sign up by clicking on the certification button below! The challenge will be live until November 23.

To sign up visit <http://aka.ms/popcc/challenge>

Learn Self paced, online and FREE through Microsoft Learn

Compete Track progress through a custom leaderboard

Win Complete challenges and win certification vouchers

Enjoy the Power Platform
Community Conference?

Join us tomorrow for a post-event
panel with Jon Levesque, Heather
Newman, Manuela Pichler, April
Dunnam, and Brian Dang.

See you all LIVE at 1:00 PM ET on
the Power Platform YouTube
Channel & Learn TV.

Power Apps for Teams | Select own names for columns and tables

EMPLOYEE shyoshin Wednesday •

Vote

The following issues arise when using Power Apps (Preview) in Teams. When "Addition of the column" and "Addition of the table" are done from the edit screen of App, Display Name can be decided by oneself, but Name cannot be decided by oneself. Therefore, if you use a Multibyte character for "Display Name ... [View more](#)

Enterprise Tooling - Center of Excellence Starter Kit

aka.ms/coestarterkit

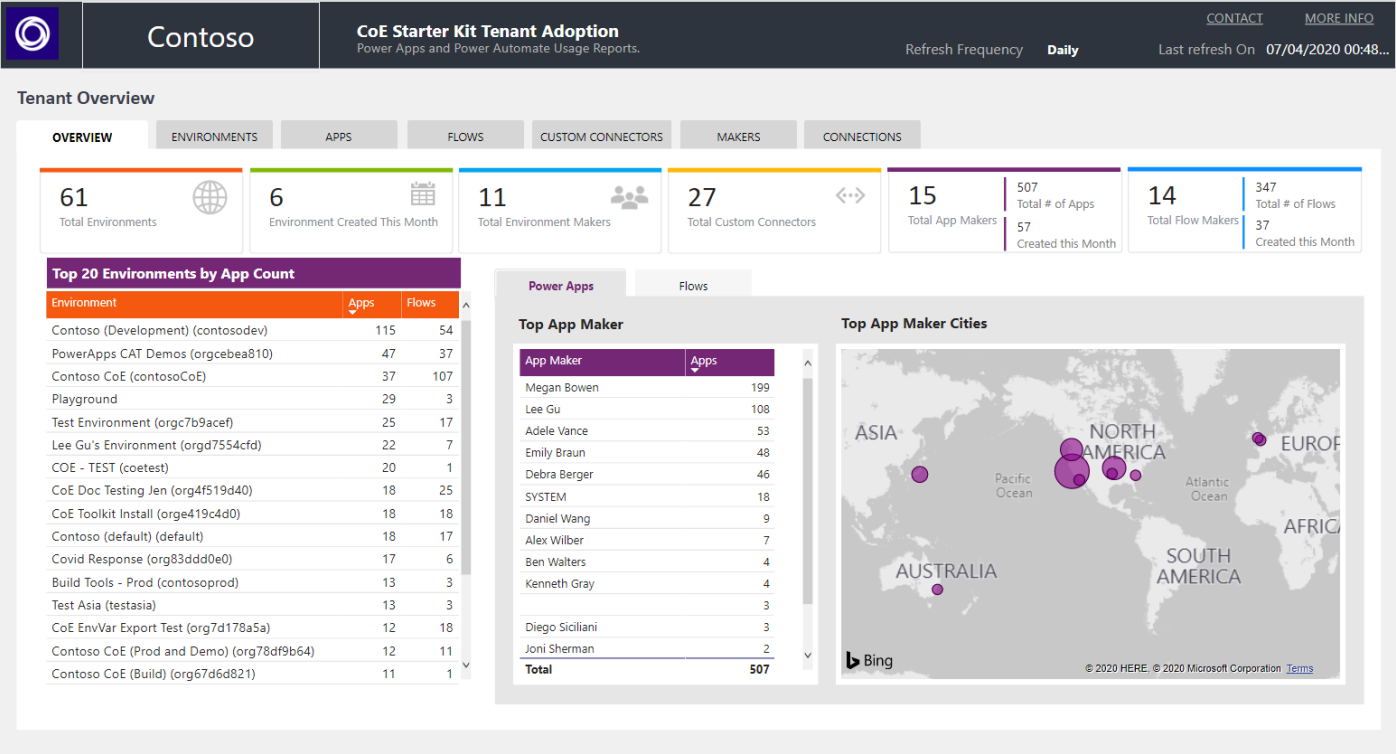

Existing offering:
Admin Center capabilities
Extensibility via Connectors

Templates:
A templated implementation of best practices

The **CoE Starter Kit** is a collection of components and tools designed to help you get started with developing a strategy for adopting and supporting the Power Platform.

Center of Excellence Starter Kit – Building Blocks

Admin

Gain Insights into your Power Platform adoption

Gain enterprise wide insights into your adoption
Drive your strategy with the value of analytics

Persona: Admin

Governance

Establish Audit, Compliance and Archive processes

Perform risk assessments, identify orphaned, complex and unused resources
Drive discipline through the right communication

Persona: Admin, Maker

Nurture

Accelerate your adoption with a thriving community

Share best practices, onboard new makers, create excitement

Persona: Admin, Maker, End User

Theming

Create, manage and share enterprise branded themes

Provide makers with enterprise themes so they can focus on real business problems

Persona: Designer, Maker

Documentation

https://aka.ms/PowerPlatformGuidance

The screenshot shows a web browser window displaying the Microsoft Power Platform guidance documentation page. The browser's address bar shows the URL <https://docs.microsoft.com/en-us/power-platform/guidance/>. The page features a navigation bar with links for Microsoft, Docs, Documentation, Learn, Q&A, and Code Samples. Below the navigation bar, the page title is "Microsoft Power Platform guidance documentation". The main content area is divided into three columns: "Adoption best practices", "Center of Excellence (CoE) Kit", and "Related resources". The "Adoption best practices" column includes links for Overview, Strategy and vision, Admin and governance, and Nurture and educate. The "Center of Excellence (CoE) Kit" column includes links for Overview, What's in the CoE Starter Kit?, and How to use the CoE Starter Kit?. The "Related resources" column includes links for Power Apps guidance, Power BI guidance, Power Automate docs, Power Virtual Agents docs, and Power Platform admin guide. A "Download PDF" link is visible at the bottom left of the page.

Power Apps and Automate Architecture series (presented by Power CAT)

13 videos • 86 views • Updated today

The Power Apps and Automate Architecture Series content, presented by Power CAT, will prepare you for upcoming complex projects involving our app and automation platform. This series will provide your architects and developers with the tools and best practices to run successful Power Apps and Automate projects of high complexity.

The series was recorded in Summer 2020, and reflects features that were available at that time.

The Power CAT team is a team of Solution Architects within Power Platform engineering focused on helping our managed customers be successful in using the technology to solve business problems.

#HumansFirst

Prioritizing the health & well-being of employees

Keep morale up.

Working remotely can be lonely. But it doesn't have to be. Don't miss out on what happened over the weekend by catching up with co-workers and scheduling regular check ins. Here are a few things you can do to avoid FOMO and feel connected to your team.

And isolation down.

Create an online "lounge"
Need a break and want to see who else might be needing one too? Make a channel that your team can hop over to, create impromptu chats just as you would on your way to grab another cup of coffee in the kitchen.

Have lunch together
Lunch time! Virtually grab lunch with a co-worker or two. It's important to take breaks while working from home. So why not turn on your video and invite a co-worker to join you.

Set a "theme" day
Boost your team's morale by scheduling a theme for the day. Celebrate the end of a busy week by having everyone dress and decorate their workspace! Thanks to **Sarah** for sharing her creative approach to working from home!

Hydration challenge
It's hard to remember to take breaks, let alone stay hydrated. So why not challenge yourself and your co-workers with a contest to see who can drink the most water each week.

Show and tell day >

Schedule a virtual happy hour >

Schedule a "photo" day >

Tune in! >

DRINK MORE WATER

Microsoft

[Guide to working from home >](#)

Engage with co-workers & customers beyond work topics

Formalize online social engagement

Team Culture

Whatever we face.
We'll do it together.
#HumansFirst

We place a high value on our team culture.
We strive for it to be:

Open & Welcoming
We welcome new everyone with warmth at our team table. There's plenty of room for everyone.

Embracing Diversity of Thought & Style
We value a wide range of communication and work styles. On our team you can work in a way that works for you and your life. We value everyone's diverse ideas and background.

Bias for Action
We like to drive impact! We have a bias for action but not at the expense of the customer experience. We make decisions, use data to evaluate them and adjust as needed. We strive to keep things in perspective to reduce stress.

EXAMPLE

Update your team mission / culture statements

Alter meeting practices to allow for mental rest & context switching
