Correction to: RiseTx: testing the feasibility of a web application for reducing sedentary behavior among prostate cancer survivors receiving androgen deprivation therapy

Linda Trinh^{1*}, Kelly P. Arbour-Nicitopoulos¹, Catherine M. Sabiston¹, Scott R. Berry², Andrew Loblaw², Shabbir M. H. Alibhai³, Jennifer M. Jones⁴ and Guy E. Faulkner⁵

Correction to: *Journal of Behavioral Nutrition and Physical Activity* (2018) 15:49

<https://doi.org/10.1186/s12966-018-0686-0>

Following publication of the original article [1], the author has requested us to make a correction in the Results section of the Abstract and in the Discussion sections as explained below:

1. In the results section of the abstract, it should read 'Overall adherence was 72% for total number of logins (i.e., > 3 visits each week)' instead of 'Overall adherence was 64% for total number of logins (i.e., > 3 visits each week)'.

2. In the discussion section of the abstract, it should read 'Our study had an overall adherence rate of 72% that while higher than previous studies, still represents difficulties with engagement' instead of 'Our study had an overall adherence rate of 64% that while higher than previous studies, still represents difficulties with engagement.'
